AROUND
THE
COUNTY

ARTHUR BARLEMAN, JR. COUNTY AGENT

Eighty-four dogs and cats, mostly dogs, of course, received the rabies shots Monday evening in the annual rabies shot clinic here. This is about the same number that have been brought in to the clinic the last few years.

The veterinarian's wife, Mrs. Percy Turner, remarked that the weather Monday evening was the coolest she could remember for the clinic. Usually the temperature is crowding the hundred degree mark with the sun burning down but this one was different. But, the whole month of July thus far has been different but very welcome.

I.W. Terry said that Melinda ported in one of her letters that the delegation of 4-H Club members on the Citizen Ambassador Tour in Moscow on July 4 celebrated the Bicentennial. The group dressed in red, white and blue and sang THE STAR SPANGLED BANNER as they walked the streets. You may be sure that the Russians—and any one else for that matter—will know when that group is around.

According to the schedule released by the tour officials, the youngsters drove across Belgium and Northern France Monday on their way to Paris. Tuesday and Wednesday were to be spent in Paris and nearby areas of interest. Thursday they were to drive to Basle, Switzerland continuing on Friday by driving through the Alpine region to Wimmis, Switzerland. They will spend Saturday and Sunday there touring a cheese factory, a unique bell factory, and comparing notes with Swiss youth and riding on of the magnificent chair lifts up the Alps.

A few scattered clusters of walnut caterpillars and a few bags of bagworms are showing up on trees here this week. It would be well to keep a watch for both of these insects as the humid, rainy weather—as welcome as it is—is the desired environment for all insects.

If the infestation is small, remove the clusters of caterpillars or bags and burn them. Another method some use is a bunch of newspapers on a long pole if the clusters or bags are out of reach; the papers can be lighted and the worms burned.

If spraying is necessary or desired, Sevin or Malathion will give control of these foliage-eaters. Use Malathion at the rate of one and one-half pints of the 50% emulsion in one hundred gallons of water or 2 teaspoons per gallon. The 50% Sevin powder should be used at the rate of three pounds to the hundred or two tablespoons per gallon. The 80% strength Sevin should be used at the rate of two pounds to the hundred or one and one-half tablespoons to the gallon.

Cloudy, rainy weather is the primary cause of the most destructive disease of pecans in Texas. Scab disease is a fungus that invades the young rapidly growing shoots and leaves and later the developing nuts. On the leaves, the primary infection lesions occur on the lower side of the leaf surfaces as olive-brown spots somewhat elongated in shape varying in size from barely visible dots to lesions 1/4 inch or more in diameter. On the nuts, the lesions appear as small black dots which may be

HOSPITAL NOTES

Patients in the Sterling County Hospital on Thursday morning of this week include:

J. D. Reeves
Mrs. Emmett Caperton
Mark Chumley

ABOUT FLOATS FOR PARADE

Bobby Dodds, parade marshal for the parade here on August 7, said this week that he wanted all clubs, churches or businesses that planned to have a float in the parade, to get in touch with him or Carolyn Davis before July 20. Plans need to be made and finalized for the parade.

STERLING COUNTY BI-CENTENNIAL CELEBRATION COULD USE MONEY

The Sterling County Bi-Centennial Celebration that will be staged here August 7 could use some donations from interested citizens now. There is almost a thousand dollars in the fund, according to Mrs. Martin Reed, treasurer. Money to buy some needed items will be welcome, it was announced at last week's planning meeting on Thursday.

So, if you will make your donation now, it will be appreciated.

either elevated or sunken. On the leaf and the nut both, these lesions may grow together forming sunken black lesions. In severe cases, the entire nut may be black.

Certain varieties are more susceptible to scab than others with the Burkett, Western Schley and other western varieties most susceptible. Choctaw, Success, and Wichita are moderately resistant while the Mahan, Desirable and Caddo are highly resistant.

Two of the most effective controls are Benlate and Du-Ter; Cyprex is still used due to the lower price but is not as effective. These fungicides should be used according to the directions on the container. Apply 1/2 to one gallon of spray mix per foot of tree height.

LIONS CLUB

Thirty-three persons were present when the Lions Club met on Wednesday noon for the regular weekly luncheon. Bill Humble and June Humble were guests. Jack Peel was welcomed back in the club.

The prize went to Charles Stevens.

It was reported that there was a softball tournament to be held here in the ball park this week end. Sixteen teams have entered and games will be played on both fields. Playing starts today at 6 and will end about 11. The tournament resumes Saturday morning and will last until over Saturday night.

It was announced that a golf tournament would be held here on Friday, August 6 in the afternoon. This is so the local golfers can be at their duties for the August 7 Celebration.

Sheriff Jim Cantrell will sell BEARD PERMITS to all who do not want to grow a beard for the celebration. He will have 'em on sale by next Monday.

Tea Honors Lisa Horwood

A gift tea honored Lisa Horwood last Saturday afternoon in the home of Mrs. T.F. Foster.

The honoree, daughter, of Mr. and Mrs. S. K. Horwood, is the bride-elect of Jerry Orsak.

The couple plan an August 14 wedding here.

More than two hundred persons took part in the gift shower.

Hostesses for the gift shower and tea were Mmes. N.H. Reed, Neal J. Reed, Bill Watts, Charlie Davis, Bill Humble, Clinton Hodges, Roland Lowe, Danny Stewart, W. J. Swann, Fowler McEntire, Danny Slaughter, Bill Davis, Melvin Foster, Marvin Foster, Early Barton, Dayton Barrett, Dan Glass, Jack Douthit, Adele Fleming, D. K. Hopkins and T.F. Foster.

Wimodausis Club

Mrs. Trula Richardson, president, called a meeting of the club July 7 in the community center. Eleven members were present. Mrs. Rachel Bengel reported that the membership committee had contacted 15 women and six had been interested and sent letters of application for membership.

The club voted unanimously to receive as new members Mrs. John Brock, Mrs. Mary Ann Jordan, Mrs. Robert F. Hicks, Mrs. LaTuina Sue McClain, Mrs. Edna Wilson and Mrs. Mary Ann Rich. Mrs. Edna Barton came back into the club after a leave of absence.

The president appointed Mrs. Olivia Asbill, Mrs. Ray Lane, Mrs. Hallie Barleman and Mrs. Bena Davis to be in charge of the concession both at the bicentennial celebration.

Mrs. Bengel was appointed chairman of the float assisted by Mrs. Harvey Glass, Miss Magie Reynolds, Mrs. Bowers and Mrs. N. H. Reed. They will also select a queen candidate for the float.

Mrs. Richardson served cold drinks.

Carl Heaton Dead

Carl Heaton, 69, died Sunday in his home here. He was found dead in bed. Justice of the Peace pronounced him dead of natural causes.

Services were held Monday in the Foster Cemetery under direction of Ross Funeral Home.

He was born January 6, 1907 in Benner Township, Centre County, Penn. and moved to San Angelo in April 1970. He had operated the Shamrock Service Station here the past four years.

Sterling Celebration Plans Moving Toward Completion

Toastmasters Club

The 'Bumble Bees' Toastmasters Club met last Tuesday morning in the community center with Albert McGinnes as Toastmaster for the day.

Icebreaker speeches were made by Chesley McDonald and Hank Watson, with Chesley being awarded the best icebreaker. Best evaluator award was won by Rev. Traugott Vogel, and the best table topics award went to David Foster. Mike Joyce was the visiting Toastmaster and was the overall evaluator.

Other members present were Bill Wats, Brooks, Johnny Hughes, Darwin Schraeder, James Thompson, Dan Glass and Aven Shipman.

A board meeting was held on Thursday to organize future activities of the Toastmasters relative to the charter banquet and other endeavors.

The club extends a hearty welcome to visitors and others who might be interested in joining.

To State FFA Convention

Dow Ferguson left Tuesday morning to attend the State FFA Convention to be held at the Adolphus Hotel in Dallas.

He went with a group of FFA boys and their teacher from Wall, Texas.

Dow is district president of the Concho District, which is made up of Wall, Water Valley, San Angelo Central, Lakeview, Ozona, Eldorado, Bronte, Robert Lee and Sterling City, Texas.

The convention will last there through Friday.

Little League All-Star Game July 19

IN BALLINGER

The Little League All-Star Game will be played in Ballinger on July 19 at 7:30 p.m.

Manager of the all-star team is Buck Jones of Bronte. Coach of the all-star team is Wayne Posey of Sterling City.

The boys from Sterling playing on the team will be Paul Wayne Posey, Victor Medina and Craig Foster. Michael Browne is the alternate from here.

The Senior League all-star game will be played in Robert Lee on July 22 at 7:30. Boys from Sterling City on the team are Allen Phillips and Shawn Colvert. Bruce Myrick is the alternate.

In Little League Bronte won first place in the league, Robert Lee second and Sterling City won third. Carlsbad was fourth.

THANKS FROM SVFD

The Sterling Volunteer Fire Department would like to thank the Middleton Spraying Service for a \$100.00 donation. Such donations are always welcome to our organization.

Sterling Volunteer Fire Dept.

Leaving July 12 from Midland for a 17 day trip to Alaska and the Canadian Rockies were Mr. and Mrs. David Glass, Mr. and Mrs. Clyde Reynolds, Miss Becky Reynolds, Mrs. Rufus Foster and Miss Rosanne Foster.

BI-CENTENNIAL GROUP

The group working on organizing and finalizing plans for the Sterling Bi-Centennial Celebration met last week on Thursday night. Chairman Chesley McDonald and 25 others met and discussed plans and problems.

It was decided that the parade would begin at 4 p.m. The barbecue supper will be at 7. The Sterling Alumni meeting will be in the school at 2. A play day will be held from 9 to 11 a.m. at the roping pens.

There might be a golf tournament on Friday afternoon of the 6th of August. People are encouraged to dress in fashion of the earlier day. Even beards and mustaches are encouraged.

There will be a Sterling Bi-Centennial Queen Contest for single girls between 14 and 20 years old. There will be a Pioneer Children Costume Contest for children up to 14. There is to be a Memory Queen Contest for women over 60. Clubs or organizations may sponsor one or more entries in such contests. The sponsor should arrange for the float or ride for their entry in the parade. Also they should provide a banner to be worn by their entry.

Congressman Bob Krueger is scheduled to make a patriotic address at the park following the parade. All clubs and organizations are asked to sponsor some entry in the contests and have a float in the parade.

An art exhibit will be held in the community center. Pre-publication sale of the books of the History of Sterling County and stories of the Sterling pioneers will be in the community center all day, it was said.

Goats will be donated by the people and cooking will be at the park under direction of Jim Hinshaw.

Sixteen concessions have already been granted, said Bill Watts.

The group voted to meet on each Thursday night till the celebration.

A color guard from Webb Air Force Base will be here and a singing group called THE NUTS AND BOLTS from Big Spring will sing patriotic songs at the park.

Present at last week's meeting were Mr. and Mrs. Chesley McDonald, Mr. and Mrs. Riley King, Mr. and Mrs. Bill Blair, Mrs. M.C. Reed, Arthur Barleman Jr., Bobby Dodds, Ross Foster, Horace Bates, Mr. and Mrs. Bill Davis, Jack Peel, C.A. Tucker, Mrs. W.R. Brooks, Mrs. Wayland Foster, Mrs. Mackey McEntire, Mrs. Johnny Copeland, Mrs. Raymond T. Foster, Mrs. Mike Bodine, Mr. and Mrs. Jim Davis, Jim Hinshaw, Mrs. W. Y. Bengel, Mrs. Harvey Glass and Jack Douthit.

Golf Tournament Winners

The winners in the Sterling Golf Association Tournament in Sterling City last Saturday were:

First—Bobby Dodds and Leslie Cole.

Second—Bill Jones and Speedy Sparks.

Third—H.V. Cudd and Gordon Gaston.

The long ball was hit by D. Jordan and the close ball by Jack Peel.

FOR SALE — 3/4 Limousin bulls, 1/2 Chianina bulls—will sell or lease. 50 to pick from. Call E. J. Bishop or Darrell Compton, 754-4324 or 754-4515 Winters, Texas.

LEGAL NOTICE

The Texas Department of Health Resources has established, in accordance with the Federal Public Health Act, the current annual level of uncompensated services for Sterling County Hospital and Nursing Home, Sterling City, Texas to be that the facility does not intend to deny anyone admission to the facility or any of its services because of an inability to pay. The documents upon which the determination was based are available for public inspection at the Texas State Department of Health, 1100 West 49th St., Austin, Texas from 9:00 A. M. to 4:30 P.M. on regular business days. The level of services set out meets the presumptive compliance guidelines of the Federal regulation.

TEXAS OIL COMPANY

Needs aggressive distributor in Sterling City area for our internationally-known line of premium quality building maintenance materials. This is a high volume, high profit distributorship in a steady growth market. We're a stable, 3A1 firm established in 1933. We require no franchise fees or other hidden costs. Only a small initial order. NEWS OF ECOLOGY

ALUMINUM STRETCHES ENERGY RESOURCES

Now that pollution clean-up is underway, environmental concern seems to be shifting to energy supply. Some ecologists worry about America's accelerating use of fuels — coal, oil, gas and uranium.

These basic sources of energy, burned directly or transformed into electricity, propel all vehicles, heat and cool our homes, run appliances, cook and refrigerate foods and power our industries.

The use of aluminum, an environmentally thrifty metal, stretches fuels and energy, the people at Reynolds Aluminum point out.

"Aluminum does not deteriorate and is easily recycled with little expenditure of energy," said Dr. Robert F. Testin, director of environmental planning for Reynolds. "That makes it an energy bank that can be drawn upon again and again. When long-lasting aluminum products are finally discarded, melting them down for refashioning into new products takes less than 5 per cent of the energy used to make the aluminum originally."

Because it is so light — only one-third the weight of steel, copper or brass — aluminum provides a greater quantity of material per ton. "This phenomenon stretches the energy used in making aluminum products, as a ton of aluminum yields two to three times more items than are obtained from a ton of other materials," according to Dr. Earl E. Patterson, who heads up Reynolds metallurgical research.

An example of Dr. Patterson's point is beer and soft drink containers. A ton of steel produces 15,400 steel cans, and a ton of glass makes 5,000 bottles, but a ton of aluminum results in 32,680 all-aluminum cans.

An article in the Reynolds magazine reveals many other

ways aluminum conserves energy.

Transportation of all kinds consumes 30 per cent of America's energy supply. The light metal cuts fuel consumption in all kinds of vehicles — aluminum highway trucks, automobiles with their aluminum parts, aluminum railroad cars, aluminum boats and ships with aluminum superstructures. The 1973 autos average about 78 pounds of aluminum per car.

In heating and air conditioning, which take 27 per cent of the energy supply, aluminum insulation and ducts, because of their high heat reflectivity, cut fuel consumption.

Durable aluminum siding, windows and other construction items greatly reduce use of resources and energy in maintenance, repair and replacement. The article points out that aluminum will not rot or warp, and is immune to red rust, mildew and termites.

In cooking, the rapid heat conductivity of aluminum pots and pans — six times faster than steel, for example — conserves electricity and gas. In the refrigerator, foods in aluminum foil chill or freeze quicker than when wrapped in paper or plastic film, saving electricity.

The public depends on aluminum electrical cable for low-cost delivery of electricity to the home. Replacing expensive copper, aluminum cable has lowered everybody's electrical bills.

NEWS OF ECOLOGY

SCOUTS GIVE TRASH THE SACK

Three billion dollars! That's the estimated annual bill Americans are paying for public collection and disposal of garbage and solid waste — the third most expensive community service in the land, which is exceeded only by spending for highways and schools.

Concerned citizens, of course, can make significant contributions to cleaning up this national mess. As in Watertown, N. Y., where the initiative of the Environmental Systems Division of St. Regis Paper Company and a local Boy Scout Council is currently leading the way.

Recently, the more than 500 Boy Scouts of Jefferson and Lewis County launched an intensive environmental clean-up campaign to make their community a better place in which to live.

Soliciting the aid of the 30,000 homeowners in their area, the Scouts began their drive with the sale of St. Regis disposable refuse sacks. In addition to their 30-gallon capacity and convenience, these sacks were selected because — unlike plastic sacks — they will break down in sanitary land fill without adding to our ecological problems.

Watertown homeowners who purchase these sacks sepa-

rate paper, cans, rags, metal, returnable bottles and miscellaneous glass. Then, free of charge, the Scouts pick up the differentiated sacks and dispose of them in ways compatible to our ecology. Glass bottles, for example, are sold for recycling; bio-degradable trash is sent to land fill sites. Provi-

sions have even been made to tow away abandoned automobiles.

The best part about the program is that everyone profits. The community gets a cleaner environment; the Scouts get the credit for a job well done — and the modest proceeds from selling the sacks and whatever trash they can. . . for the support of other worthwhile Scouting programs.

Now — what are you doing in your community?

Thanks for you past patronage.

Spotlight on HEALTH

PROFILE OF A COLD VICTIM

What are your chances of catching cold? According to a booklet on the subject, they're especially good if you're female, live in a large city in the western or north-eastern part of the U.S., and are the mother of a child under 6 years of age. Young children are the greatest cold-spreaders. Your chances are further enhanced if you're going through a period of stress and strain. "Contentment preserves one even from catching a cold," the great philosopher, Nietzsche once said.

The booklet, which discusses the common cold, is distributed by Winthrop Laboratories, the makers of Neo-Synephrine nose drops and nasal spray that are widely used in the U.S. and abroad.

Keeping up one's resistance helps to avoid the common cold, according to the publication, which advises getting sufficient fresh air and exercise, well-balanced meals, and as much sleep as possible in a well-ventilated bedroom. In cold weather areas, an extra hour a night is recommended.

Early stages of the common cold are the most contagious. Every sneeze fills the air with thousands of virus-laden droplets. To help

prevent spreading a cold to the rest of the family, to friends and to co-workers, everyone should have his own glass, cup, silverware and towels. Hands should be washed thoroughly and often, preferably with a liquid antibacterial skin cleanser. pHisoHex is the one that is used in most U.S. hospitals to help prevent spread of infections. Particularly during the cold season, it is wise to keep a handwashing preparation in the kitchen, as well as in the bathroom.

Your chances of catching a cold will be reduced if pre-

cautions are taken. However, the Winthrop booklet also states that it is not completely possible to avoid a cold. Just breathing the air that someone with a cold has merely talked into offers the possibility of infecting a healthy person.

ALPHABET SOUP—It's not enough everyone else has been cramming alphabet tiles down our throats, now the insurance industry comes along with IRA, HR-10, etc. What's it all about?

Okay. Let's forget the alphabet. 82% of the adult population in the United States is now at work. Most work because of necessity and most, when they quit work, need and want retirement income—a result of their past efforts. Unfortunately, a high percentage of this work force either change jobs before becoming eligible for retirement or work where there is not retirement plan. On September 1, 1974 the President signed into law a portable retirement plan, making it possible to have a retirement income even if you change jobs frequently or work where there is no retirement plan. Portable retirement plans that work for the earning individual is what the alphabet—IRA (Individual Retirement Account) and HR-10 (Keogh) are all about. Learning your ABC's—planning for the future.

Behind the 8-Ball

By the editor.

The official name for the big blowout here on August 7 has been selected. It is STERLING BI-CENTENNIAL CELEBRATION. That's it, folks. Now you know.

It is sorta a reunion, jubilee, old settlers gathering, former Sterling residents gathering, roping club, alumni meeting all rolled into one thing.

8-BALL

Did you know that the capitol building of Georgia in Atlanta had a large dome all covered—with gold. Real gold. It shines out goldy, too. But, the guide said that gold could be rolled out so thin that it only took 44 ounces of the precious metal to cover that big dome. It is a real protective metal covering for the capitol building.

8-BALL

Mrs. Finis Westbrook, her daughter, Mrs. Jim Windle of Colorado and her two children are on a trip through the south.

8-BALL

Had a note from Jack Asbill this week. He is moving to a new school—Bronte. He had been coach at Menard.

8-BALL

This is a rainy country. In fact all of West Texas. It started raining last weekend and has not really completely stopped.

Maybe it will keep on and do a good job of filling up all the lakes in West Texas. A good heavy rain now would do that.

8-BALL

Directors of the Upper Colorado River Authority were to hold their ladies night meeting at Phil Lorfing's home in Lowake Tuesday night. But the rainy weather and mud made it so we had to meet in the Original Lowake Inn. Phil, the owner, is a director.

8-BALL

FOR SALE—hospital bed, manually operated. See Carter Neel, in the Dessie Asbill house, 378-5871.

Make Song Album

SOSEBEE SISTERS RECORD ALBUM

Mrs. Merton Ferguson returned Monday after a week's visit with her sister, Mr. and Mrs. Alton Goodrich, Ft. Worth, Texas.

They were joined later in the week by the six other sisters, for the annual Sosebee Sisters reunion.

The highlight of the reunion—and a lifelong dream—was the recording of an album by all eight sisters of many of their favorite songs.

This album was recorded at Associated Talent Production Studio in Fort Worth, and will be available in the near future.

CHURCH RAFFLE

The St. Pascal Catholic Church is having a raffle, with drawing to be on August 7 at the Sterling celebration.

First prize is \$50, second \$10 and third \$5. Tickets cost \$1.

Mrs. Moises Rodriguez is also raffling a blanket (crocheted) at that time for the same church. Tickets are \$1.

Tickets on the money raffle will be sold at the Barber Shop by Mrs. Andrew Coronado on July 18 and 19 and 25 and 26. St. Pascal Catholic Church.

CARD OF THANKS

We, the children of Rev. and Mrs. C. A. Tucker, would like to take this opportunity to thank the members of the Presbyterian Church and all the people of Sterling City for the many kind expressions of love and thoughtfulness for our parents during their 5th wedding anniversary, and throughout the years.

May God's richest blessings be with each of you.

Sincerely,

Charles and Wes Tucker
Temple and Doris Tucker
Charles and Dorothy Winfield

CARD OF THANKS

We want to thank all our friends and neighbors for the food, flowers, visits and cards. For the kindness shown us in the passing of our loved one.

The family of V.E. Tomlinson

FOR SALE—My home. Mrs. V.E. Tomlinson. 378-4111.

Volunteer Program

FIRST LADY'S VOLUNTEER PROGRAM

Mrs. Dolph Briscoe has appointed Mrs. Jim Davis of Sterling City county chairperson for the First Lady's Volunteer Program, office of the Governor. Mrs. Davis will be responsible for coordinating volunteer activities in Sterling County working with Mrs. John Cargile, regional coordinator, and Mrs. Sharall Grisen, special assistant of San Angelo who coordinate volunteer activities in the 13-county area covered by the Concho Valley Council of Governments.

The First Lady's Volunteer Program was created by an Executive Order signed by Governor Briscoe in October, 1974. The order calls for the office to act as a liaison between the Governors Office and other state agencies in seeking ways to develop and expand volunteerism and to make opportunities known to all communities.

Volunteers of every category will be needed—doctors, nurses, aides, clerks, and for transportation, telephoning and many other duties. County committees will be headed by the First Lady Volunteer Program Chairperson.

WANTED—

Full or part time Watkins dealers need in Sterling City and surrounding area. Provide needed household products that are backed by an 108 year tradition of excellence. You can earn above average income while working close to home during hours that suit your convenience.

For complete information ph. (911)-658-1409 or write to Watkins Products, 119 Paint Rock Road, San Angelo, Texas, 76901.

LEGAL NOTICE

Notice Affording Opportunity for Public Hearing Corridor and Design (Combined Hearing)

The State Department of Highways and Public Transportation is planning the construction of R. M. Highway 3093 from R. M. 2401, 7.5 miles west of R. M. 33, in Glascock County, southeast to R. M. 1357, 3.0 miles west of R. M. 33 in Reagan County.

The proposed construction will follow the present county road with the exception that 5 degree curves will replace the 90 degree turns. The roadway width will be 2-10 foot lanes with 1 foot unaved shoulders. All cross drainage will be by dip section.

The present 60 foot county road right-of-way will be increased to a width of 100 feet.

Maps and other drawings showing the proposed location and geometric design, environmental studies, and any other information about the proposed project are on file and available for inspection and copying at the Resident Engineer's Office at 2802 Armstrong Street, San Angelo, Texas.

Also, the drawing showing the proposed geometric design have been placed on file with Reagan and Glascock Counties.

There will be no relocation of dwellings or business establishments; however, information about the State's Relocation Assistance Program, the benefits and services, as well as information about the tentative schedules for acquisition of right-of-way and construction can be obtained at the Resident Engineer's Office.

Any interested citizen may request that a public hearing be held covering the social, economic and environmental effects of the proposed location and design for this highway project by delivering a written request to the Resident Engineer's Office on or before August 16, 1976.

In the event such a request is received, a public hearing will be scheduled and adequate notice will be publicized about the date and location of the hearing.

A golden opportunity in law enforcement awaits qualified young men. Get in touch with your Texas Department of Public Safety office or patrolman.

"A mighty fine place to stay"

NEWS OF EDUCATION

College Students: Bored of Education?

To many concerned parents, today's college students seem much less impressed with the importance of their education than were students of years ago. Sometimes, the students even seem bored.

But educators and psychologists point out—seriously, yet sometimes with a smile—that many college students today are learning far more at school than their parents ever did.

Today education is different. Not only do new teaching methods make learning easier and lots more effective, but also college is seen as a place for social—as well as academic—instruction.

Which is as it should be, when you consider that college is a mini-model of the tough outside world students will soon enough have to cope with and function in. And adjusting properly to that world is just as impor-

tant and just as difficult as any course a school has to offer.

That's why so many students are getting involved with the running of their schools. The actuality of practical campus politics is a good deal more enlightening and instructive than classroom theories.

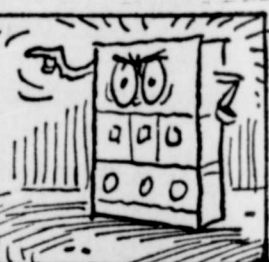

That's also why students seem to take their competitive sports more seriously than ever before. Trying to do one's best is very much a part of the outside world and these kids are very much aware of it. They play hard and work hard at keeping themselves fit with effective medications like Tinctin cream, solution and powder, which fight most fungus to kill and help prevent athlete's foot, that old college locker room nemesis.

Unfortunately, these kids—the good kids who make up the majority of this nation's student body—rarely make news on radio or TV. But their abilities and straight thinking have not gone unnoticed.

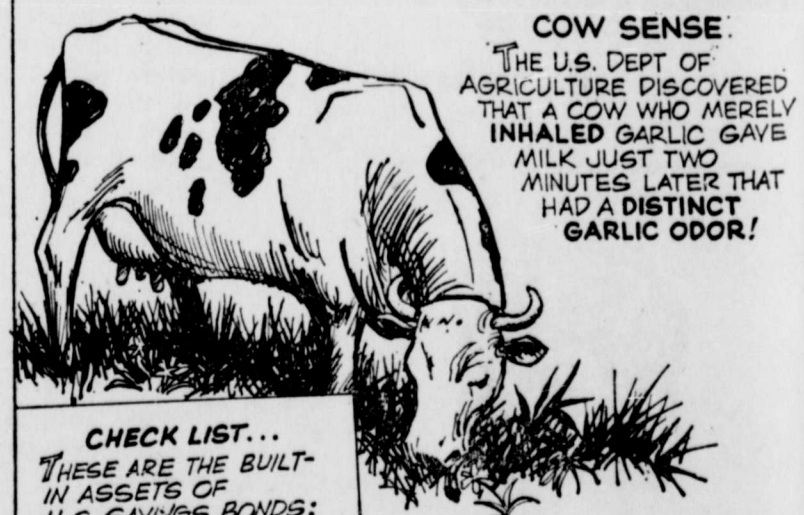

Each year, more and more of these grade-A students are being recruited by business and industry before graduation.

Which would indicate that they were far from bored with their college education.

Sooner or later they're going to develop a computer so human that it will blame its mistakes on other computers.

THAT'S A FACT
