Foreign Intelligence and Other Matters.

GALVESTON GOSSIP.

Special Dispatch to the Daily Express. Galveston, October 30, 1878.

Gay M. Bryan and George P. Finley, candidates for the legislature for this district, address the voters at the Artillery Hall to-night.

These T. Oshliffe, independent candidate for sheriff, speaks in front of the Opera House and will reveal the bug under the non-placed votes' association ship.

John Hancock is announced to speak to-night.

The Montgomery county prisoners were taken before the United States Commission to-day and a satisfactory bond was furnished by all the prisoners, when they were released.

The party who was on the train that was wrecked near Hempstead, states that the accident was more serious than would be supposed from the printed statements. A convict car attached to the train was completely demolished and only about six men escaped unhurt. The passenger coaches were badly smashed, but few passengers escaped injury of a more or less serious nature.

AUSTIN STATE FAIR. Special Dispatch to the Daily Express. Austin, October 30, 1878.

L. A. Reeves spoke to a large and attentive audience.

There were thirty stalls occupied and only two from Phillips' stable appearing, the two year old race was closed.

Largest won the first two heats in the running race for all.

Entries to-morrow for two and one-quarter mile dash, free for all—Ryan & Spencer, Baylard, Barkley & Higgins, Ella Ross, T. A. Gay, Inconnado.

Three-quarter mile dash, free for all—T. A. Gay enters Washington, John Grumble, Muckle John, Bryan & Spencer, Capt. Fred Rice, W. C. & J. W. Phillips, Jim Raymond.

Trotting, mile heats—H. Anthony's Harry, A. L. Holt, Steady Sally, J. E. Lavill, Alice Carney, W. G. Hoppe, Carman.

There is a large attendance and the country people are pouring from all directions. Friday will be a big day.

YELLOW FEVER NEWS. New Orleans, October 30.—Weather clear, wind and cool. Deaths, 13, cases reported, 31.

Hotel deaths, 3, total cases, 13,030.

Cincinnati, October 30.—Capt. Richardson, who was the leader of the famous Maine's scouts, which met and vanquished the guerrillas on one occasion, died of yellow fever at Gallipoli, Ohio, last evening. He had exposed himself while attending his brother's family in the infected district.

Memphis, October 30.—Weather bright and cool. From six o'clock last evening until noon to-day there were eight instances of people who died in and outside the city limits, three colored.

Chattanooga, October 30.—No deaths, but five new cases, three colored.

New Orleans, October 30.—The Young Men's Christian Association report twenty-three new cases. The Recorder of Deaths publishes a number of letters daily from all parts of the country making inquiry as to persons alleged to have died during the epidemic. For the past two days deaths from other causes have exceeded in number those recorded as having been caused by yellow fever. It is therefore probable the Board of Health, at its regular meeting to-morrow, will declare the epidemic at an end. The Howard office has been paying off nurses and issuing orders for transportation to those from Mobile who could not return home until a few days ago on account of the quarantine against them.

Vicksburg, October 30.—No deaths in the city with one in the country. Two deaths at Delta. Seven new cases are reported at Bolton to-day.

Jackson, Miss., October 30.—Fourteen cases and one death since noon yesterday. Weather clear and turning cold.

Baton Rouge, October 30.—Ten new cases, three deaths. Weather clear and cool.

Meridian, Miss., October 30.—There have been seventy three deaths up to date from yellow fever and about four hundred cases at Meridian. This state was turned to Paris. Funds are needed. The Meridian Aid Association appeals for assistance.

BURNED AND EXPLODED. Wilmington, Del., October 30.—J. L. Purvis & Co.'s Philadelphia mill at Jacksonville, Fla., exploded last evening, killing morning. Loss \$20,000; insurance \$27,000. Believed incendiary.

Cincinnati, October 30.—A special says forty persons of mortality in a magazine at Petrolia, Pennsylvania, exploded last night, killing the owner, S. O. Goshaw, and an employee, John Fowler, and dangerously wounded Henry Goshaw. The explosion was caused by a bomb which was picked up from a wreck upon his body. Fowler was blown to atoms, only a finger being found, and that two hundred yards from the scene of the explosion.

New York, October 30.—The station house at Fairfield, this state, was burned to-day and James Green, who was locked up for drunkenness, was burned to death.

THE FITZ JOHN PORTER CASE.

New York, October 30.—In the Porter case to-day the counsel for petitioner offered the evidence of the Porter case during the interval since the court martial of 1863, and on file in the War Department, among them being protests against granting a re-hearing of the Porter case. The judge has vacated objection to their reception, but the board, after examination, permitted the petitioner to submit all letters and publications of Porter bearing on the question. The board, he said, in its capacity of advisers of the President, would receive anything that the President would himself receive if he were examining the case with a view to the possibility of exercising the pardoning power. Gen. Schofield added that the public utterances of an officer of the army, whether written, published or spoken, were just binding on him as every statement made under the penalty of falsehood in any class of those utterances should be the same. Whether General Pope had written or published would be received of the same weight as his testimony at the court martial, since the board were unable to get him to appear for examination. After this there was a long discussion as to the propriety of the board with the decision that the board would hear Porter's second trial, the Judge Advocate in reply, and in the conclusion by one of the members of the board, it was agreed to allow for printing the record and argument, and the board adjourned to meet at West Point December 14th.

HOME AND FOREIGN INTELLIGENCE.

London, October 30.—The British bar Annie Williams, gun deck, for Oakesport, N. Y., was wrecked on the coast of Virginia, on the 23rd of October, in latitude 46 and longitude 73, she was apparently disabled and on the 25th of October, she was under way. It was thought the vessel would be the Belgian steamer Herring Ludwig, which left New York September 28th for Antwerp, and has not yet reached her destination.

MARINE INTELLIGENCE.

London, October 30.—The British bar Annie Williams, gun deck, for Oakesport, N. Y., was wrecked on the coast of Virginia, on the 23rd of October, in latitude 46 and longitude 73, she was apparently disabled and on the 25th of October, she was under way. It was thought the vessel would be the Belgian steamer Herring Ludwig, which left New York September 28th for Antwerp, and has not yet reached her destination.

GENERAL FOREIGN INTELLIGENCE.

London, October 30.—The North of England Carriage and Iron Company have failed. Liabilities believed to be heavy.

London, October 30.—There was not a shadow of foundation for the pretended rumor that the Emperor of Russia had accepted the proposition of the Emperor of Austria to exchange papers of October 16th, making the important statement that the Czar had sent a letter to the Emperor asking him to accept the proposition. The Emperor of Russia had not taken any steps to comply with articles 13 and 17 of the Berlin treaty relating to the Christiana convention for forming a new judicial and financial administration of that province. The absurdity of this is established by the fact that the Emperor of Russia is respecting arrangements for new judicial and financial administration of that province. The absurdity of this is established by the fact that the Emperor of Russia is respecting arrangements for new judicial and financial administration of that province.

FROM THE CITY OF MEXICO.

City of Mexico, October 23, via Havana, October 30.—Perfect quiet prevails in Mexico.

Escobedo continues very ill, and his friends have asked the government to release him from prison.

Senor Gomez Palacio will probably be appointed Minister of Foreign Relations. It is said that Senor Zamacois will remain at Washington indefinitely.

Very favorable reports are being received from the mining operation at Pacheca.

The government has also asked permission to send a number of Legionnaires to join a British representative at the Vatican.

A dispatch from Glasgow to the Standard says the directors and other officials of the city of Glasgow have been indicted for fraud and theft. They must now be tried within one hundred days.

The friends of the prisoners are endeavoring to get them out of the prison.

The relatives of John Stewart, one of the directors, have offered \$500,000 as his bail.

The new paper is not obligatory in cases of theft. Several gentlemen prominently connected with the bank have disappeared.

Paris, October 30.—According to calculations made by the government, the Republicans are confident of gaining 25 seats in the Senatorial election.

Athens, October 30.—The Chambers have refused to pass a bill for the calling out of the army, and the government has resigned.

Memorandum Under Chloroform.

From the Popular Science Monthly.

"I began to be terrified to such a wonder that I could not sleep for several days. I was so much distressed that I was obliged to get out of the chair, and have suddenly become aware that I was looking at nothing, while taken up by the confusion of my mind, and I was alone in the dark. I felt a force on my arm which did not strike me as the surgeon's hand, but merely as a friendly hand, and I was told that this was the last straw which made me give in to the last definite thing, small, slight or touch. I remembered outside of my body, looking at the world from an elevated position by the public inside. I could feel every air-cell struggling spasmodically against a awful pressure. In their struggle they seemed to tear away from one another in all directions, and every nook and cranny of the scene. My consciousness was now about this. I was not aware of anything but an isolated sense of torture, pervaded by a horrible uniform sense of terror and of what I have since learned is called the unity of consciousness; this never deserted the scene, even down to the very last instant of my life. Let me say a few words, because I recognized some difference between my body, and felt that the pain in one part was not the same as in another. Meanwhile, along with the increased intensity of consciousness, an element of horror came and spring up. A chaotic roaring ran through my brain, innumerable drums began to beat far inside my ear, till the confusion greatly came to a head, and then I perceived that every thing of which I was aware was falling repeatedly on the same spot."

WASHINGTON. Washington, October 30.—The President officially promulgates the convention which has been ratified between the United States and all European powers except Great Britain, together with most of the South American republics, for establishing a postal union at Paris as an international bureau of weights and measures.

Additional advices are received at the State Department, accompanied by a letter of subscription of the munificence of the French people in their sympathy for the yellow fever sufferers.

A number of manufacturers will appeal to the Supreme Court of the United States from the decision of Judge Bond, recently delivered in Baltimore, prohibiting the sale and manufacture of cigars at retail in the same apartment.

Senor Zamacois says the exhibition for American and Mexican productions, to be given in the City of Mexico, will take place the latter part of next year.

THE ARCTIC SCHOONER FLORENCE. New London, October 30.—The Arctic schooner Florence arrived here to-day. She has 1,800 pounds of bone and 20 barrels of blubber, the proceeds of one whale taken on the voyage. Messrs. Sherman and Kamin, meteorologists and naturalists of the expedition, have large and valuable photographs, specimens, &c. The leak in the Florence has been less rapid since she got into smooth water. She will go on the way for repairs.

Capt. Tyson doubts the existence of an open Polar Sea. He says it is impossible for it to exist, and which would mean six months in a year and where the cold is so intense as in the vicinity of the Pole. He thinks there may be water there but it will be choked with immense quantities of ice.

ARMY OF THE TENNESSEE REUNION. Indianapolis, Ind., October 30.—The society of the Army of the Tennessee assembled here for the Metropolitan this morning, and were called to order by General Sherman.

Among the letters received and read was one from General Grant, in which he notified General Sherman that he has given up his trip around the world, and that, after a short tour into Africa, he will remain where he will remain until his departure for home.

FRIGHTFUL ACCIDENT. Pottstown, Pa., October 30.—As four miners were being drawn up the shaft of the Oakes iron mine at Pottstown to-day, a bucket full of water fell from the top of the pit. No one was hurt, but the bucket fell, but it is not thought any escaped death.

TELEGRAPHIC BRIEVITIES.

Boston, October 30.—It is stated that Oakes Owing positively declines the Mechanic Hall nomination for Attorney General.

Denver, Col., October 30.—Barus treated here yesterday in 2:14 and 2:31. He is expected to leave Thursday and go to San Francisco Saturday.

Washington, October 30.—Indications for South Atlantic and Gulf States: Partly cloudy weather, winds mostly north-westerly, stationary or higher pressure and temperatures.

New York, October 30.—A special from Petersburg, Va., says the body of Davis Smith, a colored radical politician in Green County, was found in the river with the head and body full of buckshot.

Philadelphia, October 30.—The general convention of the Unitarians of the Middle States assembled at the First Unitarian Church this morning. Dorman B. Eaton of New York presiding. Various essays were read by prominent divines attending the convention.

FAILED OR SUSPENDED.

New York, October 30.—L. D. Sella, Co., Wholesale Street, exporters of shoes, failed, assets large.

Cincinnati, October 30.—A special from an unpleasant rumor that the J. E. Brown and works at Stouvenville, Ohio, the largest manufacturing establishment in the State, employing 750 hands, is about suspended, at least for the winter. The millers asked the millers to stand a reduction of twenty per cent. on their goods, but no market. A number of coal works have shut down entirely and others are running on half time.

MARINE INTELLIGENCE.

London, October 30.—The British bar Annie Williams, gun deck, for Oakesport, N. Y., was wrecked on the coast of Virginia, on the 23rd of October, in latitude 46 and longitude 73, she was apparently disabled and on the 25th of October, she was under way. It was thought the vessel would be the Belgian steamer Herring Ludwig, which left New York September 28th for Antwerp, and has not yet reached her destination.

GENERAL FOREIGN INTELLIGENCE.

London, October 30.—The North of England Carriage and Iron Company have failed. Liabilities believed to be heavy.

London, October 30.—There was not a shadow of foundation for the pretended rumor that the Emperor of Russia had accepted the proposition of the Emperor of Austria to exchange papers of October 16th, making the important statement that the Czar had sent a letter to the Emperor asking him to accept the proposition. The Emperor of Russia had not taken any steps to comply with articles 13 and 17 of the Berlin treaty relating to the Christiana convention for forming a new judicial and financial administration of that province.
