RAILROAD RACKET.

A gentleman writes to the Express from Luling, advocating the building of a narrow gauge road from this city to Columbia, in the Texas and the proposed extension of the International & Great Northern railway.

According to a map before us, Rockport, which is situated on the Texas coast, is a direct line, but one hundred and thirty miles from San Antonio, and if that city can be made to answer the purpose of a port for the transaction of our business, it certainly is the most favorable point to go to.

AND BRUTAL TOO!

When I read the Galveston News has concluded that his excellency, Gov. Roberts, is not infallible. In regard to the withholding of the certificate to the G. C. & S. R. Fe road because certain work was not done, the News has been so liberal in its criticism.

In connection with the refusal of the authorities to issue certificates to the Gulf, Colorado, and Santa Fe, it is interesting to refer to the precedent set in the case of a certain road in South county. In this county the governor has had, his private confidence, and the road has been a success with the Governor, Hubbard.

Several of the principal English railway companies have offered an aggregate loss of income during the first half of the present year of \$5,500,000, as compared with the first half of 1878. Only five companies showed any increase of revenue during this period.

Several days ago, on the Norman coast, a letter was dropped. Up to this time his body has not been recovered. Every morning the young and disconsolate widow of the drowned man comes and sits herself by the beach, questioning the surging ocean with eyes red with weeping.

THE LEAVEN WORKING.

The Mexican papers have commenced talking about the necessity of railway communication with the United States. The two Republics have a lengthy editorial on the subject, and we are glad to note that strong grounds against the attempt to acquire the territory of Mexico.

OUR CIVIL SERVICE.

THE NEGRO PROBLEM.

A marked man-projection to show against the negro immigrants by the farmers, who are the small white farmers of the Texas and the German settlers in the Texas has exhibited the same antipathy to negro neighbors. It may be set down as a fact that any community of white men who themselves work in the fields object to being brought into competition with a race considered to be inferior.

THE NEGRO PROBLEM.

South Wales has been thrown into a state of dire commotion by the recent arrival of the "immigration army," and four other members of the "immigration army," for obstructing the public thoroughfare at Pontypridd. Four or five hundred men, chiefly women, assembled to see the prisoners depart by train for Pontypridd, their ultimate destination, for further detention.
