

## Matters Of Health From West Plains Medical Center

### NUTRITION AND THE ELDERLY--WIDESPREAD DEFICIENCIES

*I worry that my 85-year old grandmother, who lives alone in her own apartment, doesn't eat the right foods. Might she be malnourished?*

As the group of Americans over the age of 75 increases, there is growing concern among doctors and nutritionists that many elderly people may not be eating a nutritious diet. Poor nutrition among the elderly appears to be a major cause of the physiological decline in fighting disease, that was previously blamed on the aging process.

The lack of good nutrition among the elderly crosses all social and economic groups in the population. While much of the problem is confined to the desperately ill or poor patient, financially secure elderly can also be affected as a result of drugs that they may be taking, or a loss of taste, among other reasons.

Nearly half of all people over 65 years old in this country consume insufficient amounts of calories or nutrients such as calcium, iron, B vitamins or vitamin C. Some researchers believe that by assuring proper amounts of these vitamins and minerals and calories, the decline in health that accompanies aging may be slowed.

The true dietary needs of various age groups in the population are not known. New figures on the recommended daily allowance (R.D.A.) prepared recently by the National Academy of Science proved to be highly controversial and remain unreleased. Experts warn that some R.D.A. figures are too low, such as for calcium, while others are too high.

A common problem that is difficult to control is the loss of taste and smell among the elderly, and which can lead to poor nutrition. Nerves that carry taste sensation and the taste buds decline. The smell center in the brain also degenerates, and some believe there may be a connection between the loss of smell and depression among the elderly because of the close proximity of the smell center and the centers of emotion. Often, adding flavor enhancers to foods encourages better

eating and improves spirits.

Drugs taken for various chronic ailments can also affect appetite and taste. This is a widespread problem. Doctors estimate that more than 80 percent of the people over 60 years of age take one or more drugs for chronic ailments. Aside from altering taste, drugs--alone are in combination--can decrease the body's ability to absorb nutrients.

Some form of exercise is also considered by doctors and nutritionists to be important in reducing malnutrition among the elderly. A sedentary life-style may lead to lowered food intake and therefore less of the crucial nutrients are being consumed.

Elderly people should do their best to get as much fresh food as possible, including fresh vegetables and fruits. Taking extra vitamins is recommended for some patients, but a doctor should be consulted about this, because too much can be harmful. The unsupervised use of large doses of vitamins, or megavitamin therapy, can be dangerous because of the possible ingestion of toxic amounts of certain vitamin and minerals.

## Land Buying Seminar Set At San Antonio

A special seminar on "Buying More Farmland" will be held January 28, 1986, at the Holiday Inn North, San Antonio, 9:30-4:00.

The seminar is designed to explore the "best" way of buying more land for Texas farms and ranches, says Dr. Wayne Hayenga, economist and attorney with the Texas Agricultural Extension Service, Texas A&M University System. Even if there is not a "best way", maybe we can keep people from making mistakes that were common in the past.

Discussions will center on economies of scale, projecting cash flows, financing alterna-

tives and tax planning. Farm purchase agreements include many clauses, notes Hayenga, and many of these

will be discussed at the seminar. Benefits and restrictions to both sellers and buyers will be addressed.

One major consideration is projecting income from both the existing operation and the additional land. Dr. Ken Stokes, Extension economist from Dallas will discuss this topic.

### Tatum, Harrison Join Teammate On American Watch

Tracy Tatum and Sharla Harrison have joined teammate Carmen Wynn as All-American Watch List members and Wayland Baptists University's entire starting five has earned a place on the American Women's Sports Federation's Honor Roll, according to a recent announcement.

Wynn, a third team AWSF and NAIA All-American last year, was named a blue chip Watch List candidate earlier this year, signifying her as one of the hottest prospects for post-season honors. Tatum, a 5 ft. 10 in. senior forward from Big Lake, is an honorable mention choice, while Harrison, a 6 ft. 1 in. freshman forward is listed on the blue chip list for freshmen.

Tatum is second behind Wynn in scoring for the Flying Queens, who are 14-0 and ranked No. 1 in the nation, with a 14.4 ppg average.

Harrison, one of the top high school players in Texas last year while at Sudan, is third in scoring at 13.3 and second to Wynn in rebounding at 8.4. Harrison is also ranked 16th nationally in field goal percentage at 60.1 percent.

### Use Heat Tape Safely

Heat tape can keep exposed pipes from freezing this winter, but can also be a fire hazard, says a Texas A&M University Agricultural Extension Service housing specialist.

"While heat tape itself is a safe product, it's often used improperly, and is a frequent cause of home fires," says Dr. Susan Quiring.

Heat tape contains electrical wires and insulation and produces heat when plugged into an electrical outlet.

One study showed that 40% of home fires involving heat tape were caused by the tape being incorrectly installed so that it lapped over itself, Quiring says.

The specialist advises consumers to take the following precautions when using heat tape:

- Check all heat tape wrapped pipes for proper installation and cracks in the plastic insulation or bare wires. Replace any damaged heat tape immediately.

- If you're buying new heat tapes or cables, know the diameter and the length of the pipe to be protected. Manufacturers usually suggest specific lengths for various pipe sizes to avoid either the hazards of

overlapping or excess tape. It's better to have a heat tape that's too short for the pipe rather than too long.

Not all heat tapes can be used with plastic pipes. Check to make certain the heat tape you are using is specifically recommended for the plastic pipe in question.

## Relatives Can Help Or Hinder Care For Elderly

In spite of good intentions, relatives may sometimes interfere with the care of an elderly family member.

"About 80 percent of home care required by older people is provided by an informal network of family and friends", says gerontologist Dr. Judith

Warren. "But the burden and stress of maintaining an elderly person at home leads many families to hire a part-or full-time caregiver."

"The relationship relatives develop with the paid caregiver will either help or hinder the care of the elder," observes the Texas A&M University Agricultural Extension Service specialist.

Warren explains that a recent survey study published in the journal *Social Work*, reports that paid home care workers felt relatives living outside the household were likely to make their jobs easier, while family members actually living in the client's home often interfered with the plan of care.

The paid care givers believed relatives were most helpful with shopping, running errands, escorting the older person when outside the home, visiting, bringing special treats, and helping with emotional problems.

But the paid care givers also reported difficulties when rela-

tives tried to specify the type of care to be given by the worker, unfairly voice complaints about the quality of the care, or made the elder upset or depressed as a result of arguments.

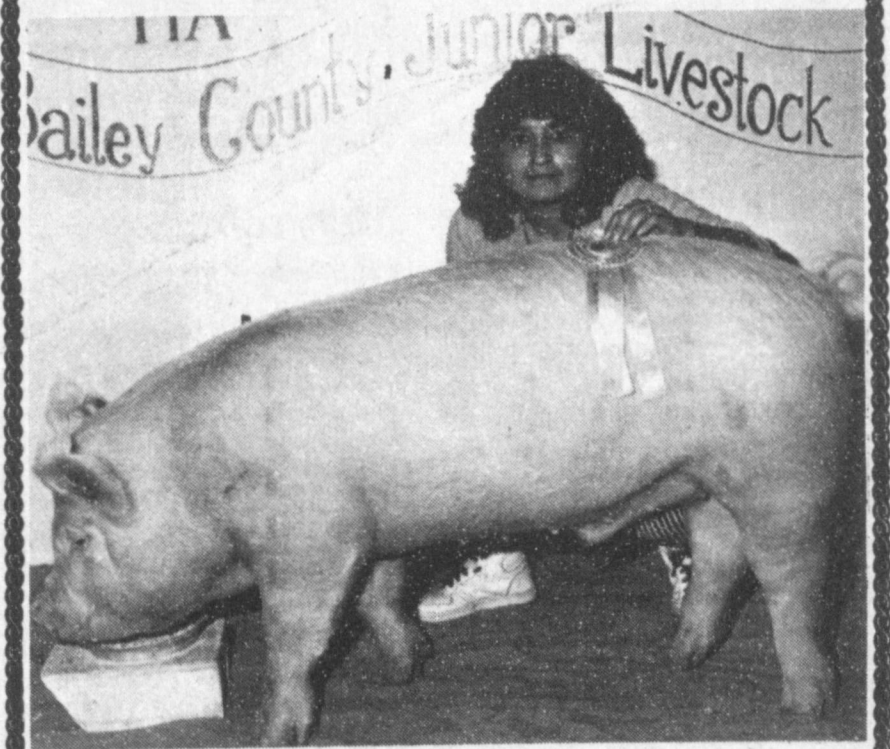

The study concludes that paid care givers often seem best for handling housekeeping functions, specialized duties such as bathing and changing linen and providing consistency in care, says Warren.

"Open communication is the key for family members in working with paid care givers," advises the gerontologist. "It's important for the relative to sit down with the care giver and develop a written plan and instructions for the care to be provided."

Clear communication will help the relative insure that appropriate care is being provided, without making it difficult for the paid care giver to do his or her job, she points out.

The Texas Agricultural Extension Service, and some other community groups, offer workshops on planning for the care of an aging family member, and training in care giving skills both for family members and people who wish to become paid care givers, says Warren.

# Cattle Problem Found Grazing Small Grains

A lot of cattle are now grazing small grains, and cattle men need to be aware of three potential problems that might develop.

Nitrate poisoning, grass tetany and bloat are three major problems that afflict cattle grazing on small grain pastures, points out Spencer Tanksley, county agent with the Texas Agricultural Extension Service, The Texas A&M University System.

Nitrate poisoning occurs mainly during cloudy, overcast conditions. Under such conditions, nitrates accumulate in plants instead of being converted to protein. Plant stems contain more nitrate than leaves, so nitrate poisoning is more of a problem on heavily grazed pastures.

Hay or grain supplements enable cattle to tolerate higher levels of nitrate than those on pasture only. Splitting nitrogen fertilizer applications may also help prevent nitrate poisoning on small grain pastures. But the safest way to protect animals is to remove them from problem pastures until plants resume normal growth, says Tanksley.

Grass tetany is more of a problem in older cows during early stages of lactation. The condition is associated with low blood magnesium. High levels of protein and potassium that are common in small grain pastures may either depress an animal's digestion of magnesium or increase its excretion of magnesium, resulting in inadequate blood magnesium levels.

Grass tetany occurs more frequently on heavy, high potassium soils, so producers should avoid applying excessive amounts of nitrogen and potassium fertilizer, advises Tanksley. Fertilizing with magnesium to increase the magnesium content in plants is not practical. The most practical step to prevent grass tetany is to supply a palatable mineral containing 6 to 14 percent magnesium.

Bloat occurs when an animal cannot rid itself of gas produced in the rumen during normal digestive processes. Normally, bloat is not as much of a problem on grass pastures as it is on legumes, such as alfalfa. However, young, fast growing

## Inspirational Program Set This Weekend

The first West Texas Inspirational Music Showcase is scheduled for 8 p.m. Saturday, in the Civic Center Theater in Lubbock. Of local interest, one group of performers will be The Anchor Brothers Band of Muleshoe and Sudan.

A variety of singers, musicians and groups have been slated for the show which is sponsored by The Electric Ear, Broadway Stations and KJAK Radio. Line-up for the evening performance will include The Anchor Brothers Band, Crystal River, Burning Heart, The Sonlighters, David McReynolds, Tina English, Patricia Blair and Jim Fullingim.

Sandy Watson of KJAK Radio will emcee the show.

According to producer Wally Moyers Jr., the showcase is more than a gospel performance and more than just entertainment. "The show is one where everyone can see the exceptional talent here on the South Plains. We think the lineup will please everyone, not just those who enjoy gospel music. If I had to describe the show, I'd call it more motivational, inspiring and fun," Moyers said.

Tom Prather of The Electric Ear added that the show is a community project. "It's definitely a show where the family will be welcome. We guarantee that our lyrics and our talent are geared toward the all family members. We hope the community will support this good, clean type of entertainment. If this show is successful, we would really consider having more."

Tickets are \$4 for general admission and are available at the Electric Ear, 3737-50th; Good News Bookstore, 7720 University; The Love Shop, South Plains Mall; Baptist Bookstore, 3829-50th; and Broadway Studios, 1713 Broadway.

For further information, call the Electric Ear, 797-5833 or Broadway Studios, 747-5257, both in Lubbock.

grasses high in protein and low in fiber also can cause bloat, says Tanksley.

The chemical agent poloxalene provides effective bloat control if animals eat it in adequate amounts--1.5 to 2 grams per 100 pounds of body weight. However, the supplement used should contain no nonprotein nitrogen such as urea and little natural protein since this will only aggravate the bloat problem.

One effective way to deal with bloat is to remove cattle from

## Speech Group On The Way To Big Success

The small, but dedicated, MHS speech team is on the road to success. The potential district winners have been working hard to make their team the best and to produce winners in all speech categories. Recently, four members traveled to Friona to compete in the speech tournament there. They were Norma Jean Del Toro, Glen Flowers, Deborah Lackey, and Leslie Langfitt. Even though they were few in number, they left Muleshoe with high hopes of success. Although Leslie Langfitt placed second in Lincoln Douglass Debate, the four gained much more than a "piece of tin." They gained experience and knowledge that they will carry with them through the rest of this year.

## Computer Team Ties For First In Competition

A Computer Team comprised of four Muleshoe High School students traveled to Wayland Baptist University at Plainview on Saturday, January 11, 1986 to take part in the Texas Computer Educator's Association Area 1 High School Problem Solving Contest and managed a **FIRST PLACE TIE** with Caprock High School of Amarillo. Both teams made the same number of points, but Caprock finished ahead of the Muleshoe team.

The Computer Team was made up of Wade King, Jarrod Embry, Mike Harris and Nathan Lloyd. They were accompanied by their instructor, Mr. Britt Gregory.

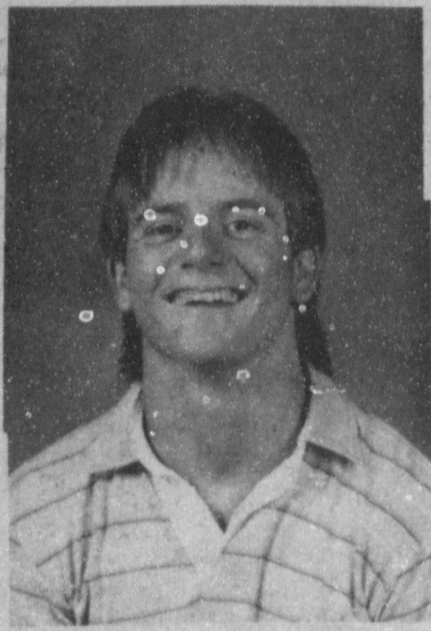

Five programming problems were presented to the students. The teams were asked to develop a solution within a 3-hour time limit, after which a Judge proceeded to input 5 pieces of data and one point was awarded for each correct output.

There were thirteen teams participating in the contest, and some of these were--Estacado High (Lubbock) - 2 teams, Booker High - 2 teams, Plains High, Roosevelt High (Lubbock), Caprock High (Amarillo) and Muleshoe High.

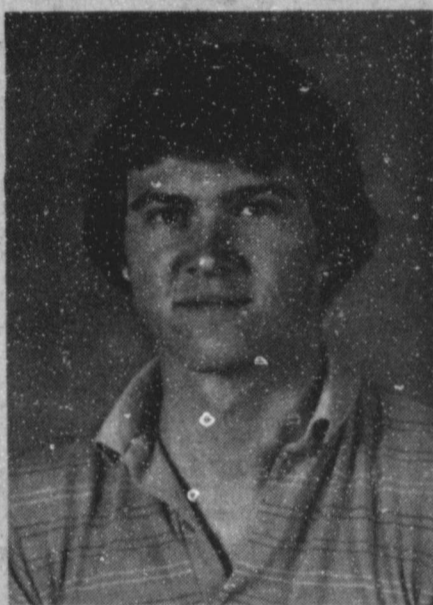

This First Place tie entitles the Muleshoe Computer Team to travel to San Antonio to compete in the third annual TCEA State Problem Solving Contest on February 8. This problem solving competition will emphasize the importance of cooperation in problem solving. The method of solution and language will not be prescribed, but it is expected that the problems will be most accessible through a general purpose programming language. The primary goal is the number of problems solved correctly.

## Sweetheart Festival Candidates Named

Everybody is aware of what the Athletic Boosters do, but few people may be aware of another group of "boosters." These "boosters" support approximately 3/4 of the student body at MHS. Who are they, and what do they do? They are the Fine Arts Boosters and they are known for helping to support the fine arts programs: Speech, Band, and ART for high school and junior high.

The biggest fund-raiser the Fine Arts Boosters have is the annual Sweetheart Festival. The festival will be held in the civic center on February 1, from 7:00-10:00 p.m. The Sweetheart Coronation will begin at 10:00 p.m. There will be food, fun and entertainment for the whole

family. Each year two candidates are chosen from each Fine Arts organization from junior high and high school, and they represent these organizations in the coronation. The candidates which will be representing Speech are Susan Lunsford and Brent Black.

Susan is the daughter of Robert and Frankie Lunsford.

## Junior Class Plans Annual Cake Walk

The time has come for the Sweetheart Festival! Along with the romantic ideas and good times, there must be plenty of juniors willing to put forth their time and effort in order to insure that the annual Junior Class Cake Walk is a success. Every Junior is required to bring either a cake or \$5.00 to contribute to the Cake Walk. So unless you want to be classified as a Sophomore, bring your cake to the Civic Center between 6 and 7 P.M. on February 1st or bring your \$5.00 to Mrs. Watson, Mrs. Adrian or Mr. Guley. Class officers need to be at the Civic Center at 6:00 P.M. to set up the booth.

The Junior Class also sponsors the sale of roses every year. These roses are \$1.50 each for the traditional colors: Red for love, Pink for secret admirer, and White for friendship. The sale of roses begins on February 1st. The forms can be picked up from Mrs. Watson. Each Junior needs to participate.

Last but not least, it is time to begin thinking about the Jr-Sr. banquet. There will be a meeting on February 5th in the cafeteria immediately after school to discuss plans for this occasion. If you are interested in working on a committee, please be there. Planning this event is fun and memorable, so everyone is encouraged to participate.

## Debbie Cowley Resigns; Moving From Muleshoe

Mrs. Debbie Cowley, science teacher at MHS, resigned at mid-term. She, her husband, Bob, and daughter, Mica, will be moving to Wichita Falls, where they are in the process of opening a gymnastic school. Mrs. Cowley commented, "We are very excited about the move and hope to establish some roots there!"

Regarding her teaching experience at Muleshoe, Mrs. Cowley commented, "I have enjoyed my experience at Muleshoe and especially at Muleshoe High School. I have only good feelings toward all the faculty and administration. Mr. Ethridge has been very good to work under - very supportive and always understanding!" She added that she believes Muleshoe to be a good community in which to live and raise a family and that she will miss all the friends she has made and wishes them the best.

Mrs. Cowley feels that Muleshoe High School students are some of the best she has taught and stated that she will miss them, or at least most of them. She concluded, "Being cheerleader sponsor was an experience that I especially enjoyed. I will miss these girls."

Richard Smith, a recent graduate of Texas Tech with a composite field in science, will be replacing Mrs. Cowley. He grew up in the Sweetwater area and graduated from Sweetwater High School. Smith will be teaching biology and physical science. Administration, faculty, and students offer him a warm welcome to Muleshoe High School.

and is presently a senior at MHS. Her hobbies include water skiing, cooking and collecting Garfield characters. Susan is active in FCA, FTA, SCAC, OAP, and is a member of the annual staff. After graduating, Susan intends to attend beauty school in Lubbock next fall.

Brent is presently a junior at MHS, and is the son of Gaylon and Libby Black. He enjoys showing and caring for his livestock in his spare time. Brent participates in FFA, OAP, FTA, and is a member of the annual staff. He plans to attend Texas Tech and receive a degree in ag finance.

Representing Art is Juanita Garcia and Todd Bessire. Juanita is the daughter of Lino Garcia. She is a senior at MHS. Juanita is active in Cross country, Track, SCAC, and is a Varsity Cheerleader. Her hobbies are: running, cheerleading, and spending money. As her future plans, Juanita plans to go to college on a track scholarship.

Todd, a junior at MHS, is the son of Travis and Sue Bessire. Todd participates in FFA, Football, Track, FTA and Art. He enjoys showing livestock and Art.

This year's Band representatives are Leah Bell and Sergio Leal.

Leah is the daughter of Rosemary Bell, and is presently a junior at MHS. She is active in Band, SCAC, FCA, FTA, Student Council and is the Mule Mascot.

Sergio is a senior at MHS and is the son of Jessie and Irma Leal. He is active in football, track, theatre, SCAC, and FTA. He would like to attend South West Texas University in the fall.

## Drivers Ed Class Set For Monday

There will be a class starting on January 27 in Driver Education if enough students are interested. The class will be limited to 24 students and will meet after school from 4 p.m. until 6 p.m. for 16 days. Students completing the classroom phase of the program will then be scheduled to complete driving training before April 1. Driving will be scheduled from 7:15 a.m. until 8:15 a.m. in the mornings and from 4:00 p.m. until 6 p.m. each day. The fee for the course will be \$65.00 payable the first day of classroom instruction, January 27. Students must be at least 15 years of age on or before January 27. Preference will be given to those students old enough to apply for a drivers license by the time the class is over with or shortly thereafter. If you are interested in the course, sign up in the principal's office by January 22.

Other driver education classes will be offered for the summer in which the classroom phase will be scheduled in May and the driving during the summer.

Don't forget to sign up in the office by January 22 if you are interested in the spring course.

# Varsity Hornets Play Caprock Tournament

## CAPROCK TOURNAMENT CORONADO

In the first round of the Caprock Tournament the Hornets were out-sized and out-scored as they were downed by the Coronado Mustangs 75-38.

Coronado pulled ahead of the Hornets in the first quarter leading 15-9. Scoring for the Hornets were Brent Kirkland, Jeff Kinzie, Jeff Dodson, and David Wood all with two points each. Lee Bartley hit a free throw.

At halftime the Mustangs led 36-20. Jeff Kinzie sunk three points in this quarter. Brent Kirkland hit two free throws and so did David Wood. Sinking one goal were Jeff Dodson and John Taylor.

The Mustangs pulled away in the third quarter with the score being 53-27 going into the fourth quarter. David Wood hit four points in the third period. Jeff Kinzie made two points and Jeff Dodson hit one.

The Hornets scored eleven points in the fourth quarter but

the Mustangs doubled that with twenty-two points. Jeff Kinzie made six more points. Lee Bartley and Brent Kirkland each made two points. David Wood made a free throw.

Finishing the night with thirteen points and one foul was Jeff Kinzie. David Wood had nine points and two fouls. Brent Kirkland committed one foul and scored six points. Jeff Dodson hit five points and had four fouls. John Taylor had no fouls but two points. Lee Bartley finished with three points and the same number of fouls.

### ODESSA HIGH

Just like the Hornettes, the Hornets always played the bigger schools. They played tough and hard but were downed by the SA Odessa High Broncos, 58-52.

Lee Bartley hit three goals for six points in the first quarter. David Wood hit two goals for four points. The Broncos were ahead 18-10 at the end of the first quarter.

Free throws accounted for ten of the Hornets sixteen points in the second quarter. John Taylor hit three free throws and a basket for five points. Lee Bartley hit two baskets for four points. Jeff Kinzie made three free shots and David Wood and Jeff Dodson each hit two free shots. Odessa was only ahead by three points, 29-26, at halftime.

The third quarter however was not so good for the Hornets as David Wood made four points, the only points scored by the Hornets.

Going into the fourth quarter the Hornets were behind 41-30. Jeff Kinzie came alive with ten points in the final period. David Wood and Brent Kirkland each had four points. John Taylor and Jeff Dodson each had two points.

David Wood let the Hornets with fourteen points and one

foul. Jeff Kinzie had thirteen points and no fouls. Lee Bartley was also in double figures with ten points and one foul. John Taylor had three fouls and seven points. Jeff Dodson and Brent Kirkland each had four points. Jeff had no fouls where Brent had five.

Brent Kirkland finished the tournament with ten points. Jeff Kinzie had a total of twenty-six points in the two games. Jeff Dodson made nine points. John Taylor also had nine points in the two games. David Wood finished with twenty-three points. Lee Bartley had thirteen points in the two games combined.

# Lazbuddie Firemen Honored At Fish Fry

Lazbuddie Volunteer Fire Department land owners, and renters who donate land for the yearly pheasant hunt were treated with a fish fry on Dec. 17th in the Lazbuddie School Cafeteria.

The fish fry was hosted by six Texas hunters who have enjoyed the hunt for seven years. They are Billy Wilson from Farmers Branch, Denton Wilson, Don Isenburg, Bubba Isenburg all from Lone Oak, Art Snell, Garland, and James Ragen from Greenville.

The catfish filets were prepared at Treider Electric, another supporter of the Fire Department, with members and their wives providing side dishes.

The hunters explained they wanted to show their appreciation to the people who made the hunt possible at a reasonable price saying deer and quail hunting in their area had become too expensive with large corporations buying leases.

Doug Rire gave a speech of appreciation in honor of Fire Chief and his wife, Glen and Barbara first for the constant support they give and the many services they perform towards the continued livelihood of the department.

The Fire Department will have a fun night for members and their wives in the home of Nicky and Debbie Nickels Saturday, January the 25th at 7:00

p.m. All are encouraged to attend.

To all interested persons the following is a list of purchases made with the income from the pheasant hunt project:

One 1981 Chev. 1 ton truck, 330 gal. tank, pump and hose.

One 1975 LM700 Ford 2 1/2 ton truck.

A 2 1/2" pump and engine complete with hose, reel, and nozzle to convert a water tank truck to a pumper truck.

One 1986 1 ton four wheel drive chev. truck with a 220 gal. foam fire fighting unit, also will be equipped with rescue equipment.

Seven fire department radios. Fifteen pagers. Twelve scanners.

Four self contained breathing apparatus known as Scott air packs, with spare tanks.

One 110 volt electric generator.

Protective clothing: Fire coats, boots, helmets, and gloves.

Reconstruction of fire station twice to accommodate additional trucks.

# Sewage sludge, mine spoil reclaim damaged land faster than fertilizer

COLLEGE STATION — Dried sewage mixed with mine spoil can be used to reclaim lignite mine sites, making the grass grow faster and helping alleviate concerns with groundwater pollution, says a soil scientist who has completed a study on the topic.

Texas A&M University scientist Dr. Kirk Brown and graduate students at Texas A&M's College of Agriculture examined the feasibility of using sewage sludge for reclamation of mine sites that have not been top soiled at the Texas Municipal Power Agency's (TMPA) lignite plant at Carlos, Texas.

More than 10,000 acres in Texas have been disturbed by strip mining, with an estimated 2,500 additional acres being stripped annually.

Brown said the sludge is far superior to fertilizer. It can accomplish in a year what it takes four years to do with fertilizer, he said.

"After one year, the nitrogen reserve is equivalent to the reserve resulting from four years of applying fertilizer," he said. "Within a year we can restore the nitrogen cycle to nearly the level found in native soils."

Brown, who holds joint appointments with Texas A&M University and the Texas Agricultural Experiment Station, said the grass yield with the sludge was spectacular.

# SPS Elects Members; Promotes Three Officers

Southwestern Public Service Company (SPS) yesterday elected two new members to its Board of Directors, made three officers senior vice presidents, and named directors of production and of generation plant design and construction.

The new members of the board, elected at yesterday's annual meeting of the electric utility's shareholders, are W.R. "Bill" Esler, SPS president and chief operating officer, and Gary W. Wolf, a partner in the New York law firm of Cahill Gordon & Reindel and a legal counsel to SPS. H. Frederick Hagemann Jr. and Berl M. Springer retired from the SPS board Dec. 31, 1985.

Elected senior vice presidents were J. Bryan Austin, formerly vice president, personnel; W.T. Seitz, formerly vice president, engineering and operations; and Coyt Webb, who additionally will continue as the utility's controller.

Esler also announced the promotions of Henry H. Hamilton from manager to

director of production, and of Albert "Pete" Smith from manager of engineering-generation plant design to director of generation plant design and construction.

Austin, in addition to personnel functions, assumes responsibility for the utility's marketing and rates and economic research activities. Seitz adds to his engineering and operations responsibilities both generation plant design and construction, and fuel acquisition and administration. Webb will oversee SPS' accounting, management systems, and finance departments.

Esler joined SPS in 1948. He became vice president of engineering and construction in 1976, executive vice president in 1983, and president and chief operating officer in 1985.

Wolf joined Cahill Gordon & Reindel in 1970.

Austin began his electric utility career in 1942. He was named director of personnel in 1977, and vice president of personnel in 1979.

Seitz joined SPS in 1951. He became chief engineer, general engineering in 1983, and was elected vice president, engineering and operations in 1984.

Webb joined Southwestern Public Service in 1964, and was named director of accounting in 1979 and controller in 1980.

Hamilton began his career with SPS in 1963, became group manager-production in 1977, and manager of production in 1985.

Smith first worked at Southwestern in 1965. He became manager of construction-generation plant design in 1981.

Southwestern Public Service Company primarily provides electric service to a population of about one million in a 52,000-square-mile area of eastern and southeastern New Mexico, the South Plains and Panhandle of Texas, the panhandle of Oklahoma, and southwestern Kansas.

# Plan Now For 1986 Fertilizer Needs; Tests

Farmers should not wait until next spring to begin planning their crop fertilization programs.

By collecting soil samples now and having them tested, crop producers can get a jump on next year's production, says Spencer Tanksley, county agent with the Texas Agricultural Extension Service, The Texas A&M University System.

Testing soils this fall offers several advantages:

- Samples can be collected after harvest when seasonal work loads decrease and production problem areas in fields

can be identified more easily for specific sampling.

--Farmers can avoid the typical spring rush in the Soil Testing Laboratory.

--Test results will be back in time to purchase needed fertilizer when costs are at a low point instead of waiting until spring when prices will likely be somewhat higher.

During these economically stressed times, it is a natural tendency to want to reduce production costs by reducing or eliminating fertilizer usage, says Tanksley. However, it is not wise to make such a major decision without the benefit of a soil test. If a soil test indicates that fertilizer is needed to attain a desired yield goal, its use is strongly recommended.

To help the crop producer monitor carryover nitrogen lev-

els in the soil, the Texas Agricultural Extension Service Soil Testing Laboratories at College Station and Lubbock are routinely analyzing soils for nitrate nitrogen. This analysis determines the amount of available nitrogen present in the soil which is then subtracted from the amount of nitrogen required to reach a desired yield goal. This reduced nitrogen recommendation results in a direct savings to the producer without sacrificing yield.

A soil test also will determine which nutrients other than nitrogen are deficient in the soil for a particular crop so the producer can fertilize to supplement the soil supply. Tanksley emphasizes that it's only profitable to supply nutrients required and in sufficient quantities for a specific crop.

There is no substitute for knowing what your soil nutrient balance is as you start planning next year's cropping program, emphasizes the county agent.

## SPECIAL EDITORIAL

### Mayor Switches

In Texas, Republicans boast that fifty prominent Democrats have changed parties in recent years. The latest convert is former mayor of Austin Carole Rylander.

Eyebrows were raised when Rylander made her announcement in December for several reasons. She has been in the forefront of women's movements. She says today there are no women's issues and that the issues are equally important to both sexes.

She explains that the Democratic Party "was my party of the past" while the Republican Party is "my party of the future." As many switched Democrats have claimed, she says she didn't leave the Democratic Party; it left her.

She left because there's no longer "any place there for the moderate-to-conservative viewpoint," she adds.

Democrats claim Rylander has her eye on a congressional seat and is an opportunist.

But Rylander's charge that the national Democratic Party now has no place for southern moderate-conservatives strikes a sensitive nerve.

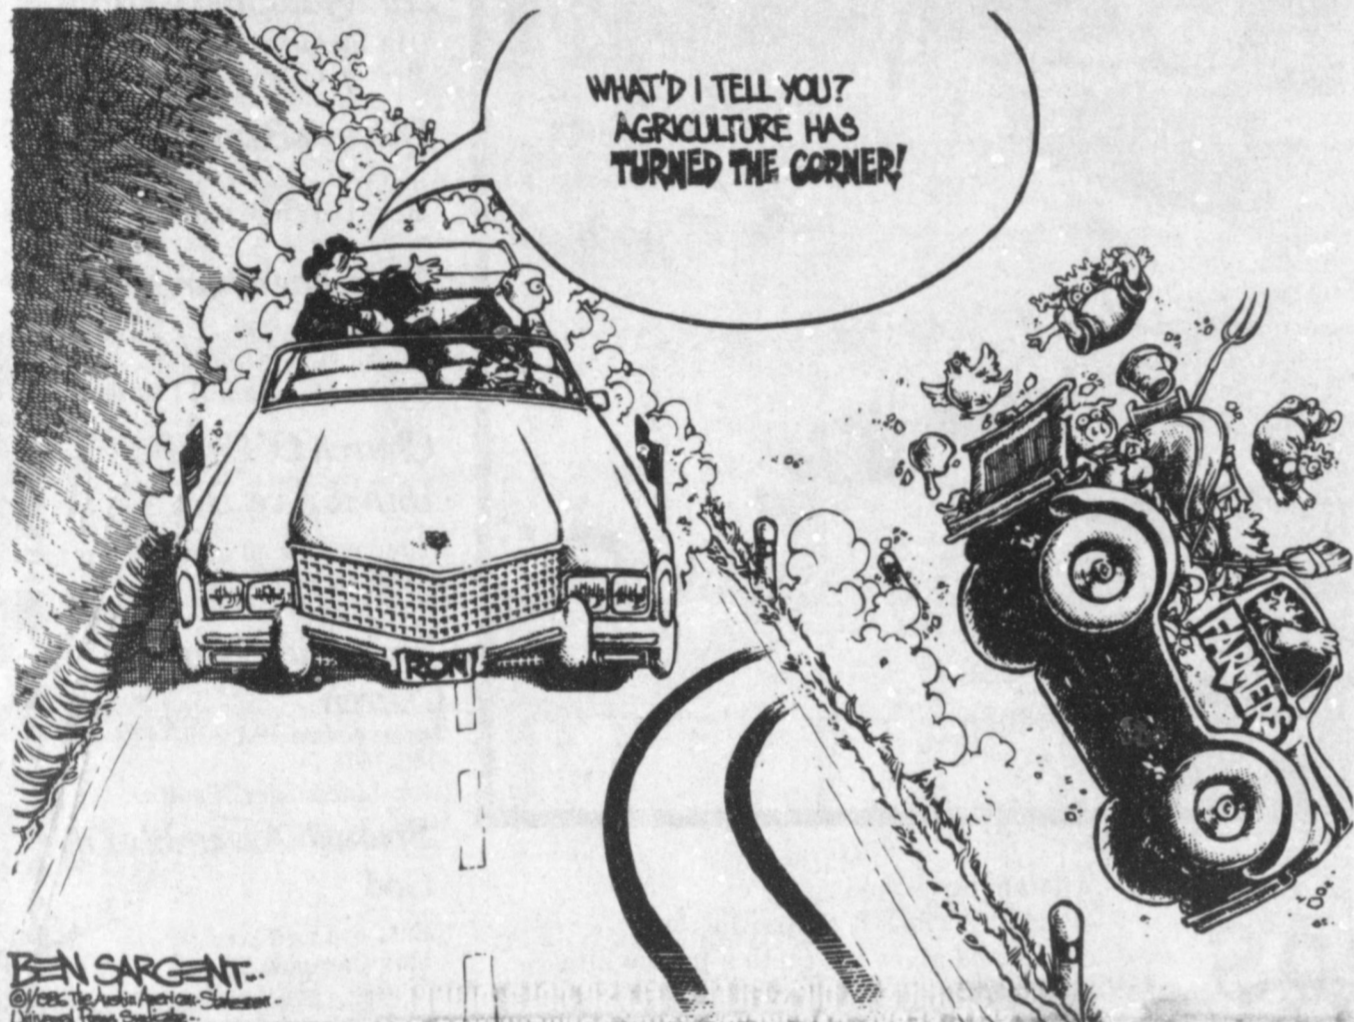

It may be the question which decides the fate of the Democratic Party in the 1988 presidential election, and in the South in some state elections.

# Delinquent Property Taxes

## Expensive, Risky

On Feb. 1, most of the unpaid property taxes in Texas become delinquent property taxes.

"It pays to pay property taxes on time," said Ron Patterson, executive director of the State Property Tax Board. "Delinquent taxpayers must pay additional penalty and interest charges, and they run the risk of lawsuits, clouded land titles, and even seizure and sale of their property if they make no effort to pay."

Patterson emphasized that even property owners who do not receive bills must still pay their property taxes on time or else face additional delinquency charges. "Texas law states that failure to receive a tax bill does not relieve the taxpayer of his responsibility for paying property taxes on time," he explained.

Most taxing units mail tax bills in October or November with a delinquency date of Feb. 1. "If Feb. 1 is drawing near and a taxpayer has not yet received a tax bill," Patterson advised, "he should contact the local appraisal district or taxing units to find out how much tax he owes and to make sure the correct name and address information is on record."

In most cases, property taxes that remain unpaid on Feb. 1 are considered delinquent. The delinquency date is postponed for tax bills that are mailed after Jan. 10. Special payment plans offered by some taxing units also result in later delinquency dates.

In all cases, the delinquency date will appear on the tax bill. All taxpayers must be given at least 21 days to pay after their bills are mailed before their taxes become delinquent.

By paying before Feb. 1, the taxpayer avoids penalty and interest charges. Regular penalty charges can go as high as 12 percent, and interest is charged at the rate of one percent per month. "For example," said Patterson, "someone who pays taxes a year late will have to pay the original amount plus an additional 24 percent in penalty and interest."

Taxing units that hire outside attorneys to collect their delinquent taxes can charge an additional 15 percent penalty for attorney's fees.

Tax collectors notify delinquent taxpayers at least once. Many collectors send additional notices and warning letters. "By responding to these warnings and paying their bills, taxpayers can avoid the expense of a delinquent tax suit and the risk of losing their property to pay the overdue taxes," said Patterson.

State law protects homeowners age 65 and over from tax suits and seizure of their homes. By filing a "tax deferral affidavit" with the appraisal district, an elderly homeowner can postpone paying taxes on his home for as long as he owns the home and lives in it. If the over-65 homeowner has been sued for delinquent taxes, he can suspend the suit by filing a tax deferral affidavit with the court.

"The tax deferral only postpones tax payments--it does not cancel them," Patterson explained. "The taxes, penalties and interest will continue to add up. Once the property changes hands, these taxes become due immediately."

Appraisal district offices can answer questions on the over-65

tax deferral and provide affidavit forms.

Some tax collectors allow delinquent taxes to be paid in installments. By signing an installment agreement, the delinquent taxpayer is admitting that he owes all the taxes covered by the agreement. However, he cannot be sued for delinquent taxes as long as he makes the installment payments on time and keeps other property taxes paid up.

The tax collector's last resort is to sue the delinquent taxpayer. If a delinquent tax suit is successful, the court costs are added to the tax bill. The court will give the taxpayer one final chance to pay before ordering the property seized and auctioned to pay the taxes.

Delinquent taxes cannot be avoided by selling or transferring the property. Taxing units

hold a tax lien on each item of taxable property. This tax lien gives them the power to foreclose on the lien and seize the property, even if its ownership has changed. "As a result," Patterson explained, "someone who buys real estate can't get a clear title until all the delinquent taxes on the property are paid."

In addition, the law makes each person who owns taxable property on Jan. 1 personally liable for the taxes. The Jan. 1 owner can be sued personally for unpaid taxes even if he has sold or transferred the property.

"Property owners can avoid these extra charges and legal problems by paying their property taxes on time," said Patterson. "If their taxes are overdue, they should contact the tax collector without further delay and make arrangements to pay."

## Concert Set At Plainview

Two popular country-western singer/musicians get back together on Saturday, Jan. 25, in the Plainview High School Auditorium when Travis Thornton of Plainview and former Plainviewian Keith Longbotham, who have been performing since they were kids, join forces for an evening of entertainment. The performance begins at 7:30 p.m.

The Thornton-Longbotham Reunion will feature vocals by Travis and Amy Thornton and Longbotham and instrumentals by Longbotham and some of his fellow Opryland, USA musicians from Nashville, Tenn. Longbotham has been seen on several Nashville Network programs, including The Porter Waggoner Show. He also plays in a bluegrass band.

The Thorntons and Longbotham will be singing some of their favorite numbers such as "Broken Lady," "Tumbling Tumbleweed" and others from an album they made a couple of years ago. Instrumental numbers will in-

clude such favorites as "Foggy Mountain Breakdown" and "Orange Blossom Special," plus some new arrangements, many of them written by Longbotham.

Tickets for the two-hour program are \$5 for adults and \$3 for kids age 3 through seventh grade if purchased in advance at any Plainview bank or school or Gabriel's Department Store. At the door, they will be \$1 higher. Children 2 and under will be admitted free.

The concert is sponsored by the Coronado Junior High PTA as its major fundraising project of the year.

## WINTER'S MAJESTY

All delight in the beauty of snow... how it clears the air, cleans and gives the earth a pure white blanket. David in his worship of God said...

"Purge me with hyssop, and I shall be clean: wash me, and I shall be WHITER THAN SNOW."

Attend church, worship God and know the joy of a free spirit, whiter than snow.

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

### Comment On Sports

**FOOTBALL** By Pete Fritchie

**WASHINGTON, D.C. --** The Chicago Bears' coach and quarterback give that team the most bizarre image in the NFL.

On television shows quarterback Jim McMahon comes off as something of a bad-mannered freak. Mike Ditka, the coach, projects perhaps purposefully the image of a tough guy disdainful of the media and its reps.

That's a new twist in an age when television has everyone grinning a sweet smile—even Don Shula—for the camera. New twist though it is, it's not an image that reflects much credit on either individual or on the Bears as an organization.

Rather, the image is similar to today's professional wrestling standard.

There's no doubt the Bears are the team of the year 1985 and that they earned that distinction. No one questions Walter Payton's credentials or those of many of the other stars on the team.

But quarterback and coach come off, often, as less than what is usually expected by more intelligent fans.

### ABOUT YOUR HOME

By April Rhodes

Are you in the middle of trying to get your 1985 tax papers straight? Start your 1986 record keeping with a daily or weekly log as well as keeping each expenditure in order.

You can keep a small child happy on rainy days by simply draping an old blanket or bedspread over a table or chairs and leave the rest to the child's imagination.

Planning to be out of doors for any length of time during the colder months? It is a good idea to dress accordingly. Wearing layers of light clothing is warmer than one garment and quite fashionable.

goodies for the residents & staff. We really appreciate them doing this for us.

Our thanks to the Hospital and Nursing Home Aux. for their donation to our Activity fund, also to the Truth Seekers of the First Baptist Church who help support our ceramic class. We thank you so much.

Minnie Redwine has moved to a Nursing Home in Lubbock. We really do miss her. She is a delightful person.

We really enjoyed the Sing-A-Long Wed. afternoon led by Glenda Jennings. Thurs. morning Clara Lou Jones and Josephine Mitchell lead our music Devotional with their singing and playing the piano. Thursday afternoon Retta Shipp, Lena Hawkins, Rita Saure, Homer Millsap, played dominoes and 42 with the residents. Friday morning Lena Ruthardt brought a film from the Library to show the residents. Fri. afternoon Mr. & Mrs. J.C. Shanks came to lead singing and play the piano for the residents.

Edith Goucher was visited by Mrs. Baker, Annie Floyd, her husband Doc Goucher.

Congratulations Mr. and Mrs. M.E. Hickman who just recently celebrated their 53rd Wedding Anniversary. They were visited by their daughter and grandson, Wed. afternoon.

Sat. morning J.C. Shanks came to shave the men and give hair cuts. Sunday morning Earl Peterson came for Bible Study. Sunday afternoon the Muleshoe Singers came to sing gospel songs to the residents.
