In 1912 the new board of commissioners he court house building levy to four mills, which and \$10,000 to the fund. With about \$15,000 on hand, the contract for the building was let in the fall of 1913. The maximum levy of five mills was made in 1913, and on the basis of an 80 per cent collection of taxes this has produced \$16,000.

As considerable expese was incurred in making alterations and improvements in the old building and jail, the board has used about \$9,000 from the court house and jail repair fund. In this manner \$40,000 has been raised during the last three years, and paid on the building. The balance of \$15,000 is to be paid out of the 1914 levies, and it is probable that the levy can be reduced from five mills to four mills and bring in sufficient money to complete the payments.

y this method the county will have the building fully paid a valuable and permanet improvement, this being in character of construction and convenience for use the equal of any public building in the state of New Mexico. EDDY COUNTY CONVENTION

The Eddy County democratic convention was held at Carlsbad last Tuesday. Sixty delegates were in attendance. G. U. McCrary was elected chairman and John B. Harvey secretary.

Ten delegates were selected for the state convention.

Resolutions were passed endorsing national, state, and county administrations. The resolutions also endorsed H. B. Fergusson and instructed the delegates for him.

Good, permanent highways, and the public school system were endorsed.

Several ringing speeches were made for H. B. Fergusson and the sentiment is strong

Artesia Candidate Nominated by Large Majority.

Dr. Skeen and Robert Dow have received the democratic nomination, representative of Eddy county in the next state legislature.

In a very short time after returns began to come in last Saturday evening it was conceded that Dr. Skeen had been nominated by a safe majorit. y His many friends in Artesia had manifested a lively interthe heaviest vote at this precinct of any in the county.

It was not ascertained who the other successful candidate from, the result being very close between Love, Matkin and Dow.

UNDER BAN OF STATE LAW.

(By REV. JESSE HILL, Portland, Me. Every drop of liquor that is distilled or brewed is held by the great careful central government to be contraband and confiscated property, for a time. Not one barrel of it can be taken from attorneys fees, and the costs accrued its place of manufacture till the national stamp "U. S." (that always means us) is placed upon it. We may not be able to stop the complicity of the federal government with the traffic, but there is one thing we can do. We can answer the question for ourselves: Is the moral character of the state or city a thing worth contending for? Shall we treat it as a commodity which we can sell in our streets and alleys for three or five hundred dollars a year? If you hunt for it, you can sometimes find liquor in the prohibition territory, but that is quite a different proposition from lot 12. giving the business an opportunity to hunt for you. Put the thing under the ban of the law and you have stigmatized it. . . . Let the saloon wear its own badge of shame. License is a compromise. It is wrong in principle and wicked in practice. For the state to go into partnership with the manufacturers of criminals is for the state to commit suicide.

"The destroyer," Captain Hobson points out, has had a strong hold upon our colleges, particularly upon the large universities, and its grip must be broken lot 7. at any cost." That this grip is being broken is evidenced by the fact that lot 8. 2,500 students in 100 colleges and universities have already studied the lot 9. liquor problem in classes during the first half of the present school year, and the total number of such students will probably reach 5,000 during the year. Of these colleges, between 30 lot 11. and 40 have given the course curriculum standing, with credit toward a degree, and many of the others are considering the same step for next year. lot 14.

Deafness Cannot Be Cured by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

The Following Serial Story Began last week Have you Read It?

Across the Mexican Border

The Land of **Broken Promises**

By DANE COOLIDGE Author of "The Fighting Fool," "Hidden Water," "The Texican," Etc.

V/E feel that we are indeed fortunate in corcial, good social time was being able to announce this truly remarkable story for serial publication in this paper.

It is a stirring story of the Mexican revolution in which this portrayer of western character has painted vivid pictures of the scenes of carnage in war-infested Mexico; the plight of American refugees in border towns; the wantonness of both the Mexican federal and revolutionary troops, and in fact gives a graphic and truthful description of present conditions and all through the medium of a powerful story. Mixed with the hairraising adventures of two Americans is a passionate love story.

It Is the Type of Story Every Reader Will Appreciate

BURIED TREASURE

Aladdin's samp was the fabled key to untold treasure buried underground.

Its owner, by a single rub, could summon genii, and have access to the hidden wealth of kings.

You, too, have buried trueasure at your command, and Electricity, more powerful than mythical genii, to do your bidding.

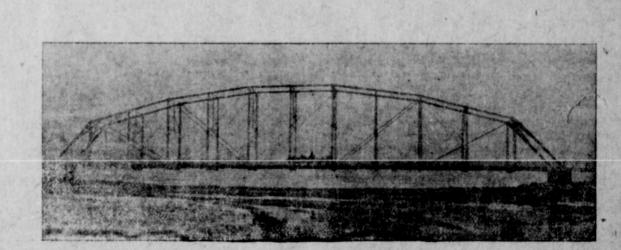

Instead of rubbing a lamp, you take off your telephone receiver and immediately a wealth of treasure is at your service.

A tiny spark flashes over the wires overhead and underground and carries the sound of your voice wherever you wish.

Over three and a half million dollars lie buried under the streets of this mountain region in cables, wires and conduits, ready for your use every minute of the day and night.

The above is a picture of the greatest single span steel bridge in New Mexico. It spans the Pecos river, east of Artesia. Unless something is done to save this bridge it will be useless in a short time. Artesia is losing trade every day owing to the condition of this bridge. The business men of the town must take an interest in this. Go and look it over.
