LUCK DESERTS REPUBLICAN FOR DEMOCRATIC PARTY IN STATE AND NATION; LOOK AT RECORD OF FOUR YEARS

Good Horse Sense, Patriotism and the Smile of the "Fickle Goddess" Have Given the National Administration and the State Government a Place in the Hearts of the People Such as Never Before Was Held by Any Political Party.

Luck was with the Republicans for a long time; it was their greatest asset.

Luck is now with the Democratic Party—luck and good horse sense.

Let us see. It was lucky that Champ Clark, who had united the Democratic minority in Congress, was made speaker when the party came into control of the lower house four years ago. Also, it was lucky that a strong, sane student of political economy and a seasoned statesman like Oscar Underwood was made floor leader of the majority.

The Las Vegas Convention.

It was lucky for the Democrats of New Mexico that the Republican party nominated Holm O. Bursum at the first state convention, and that the anti-boss delegation from Bernalillo county was cast out in the interests of Frank A. Hubble. That led to a split in the party, headed by former Governor Hagerman, W. H. Gillenwater, A. Otero, R. H. Hanna and others, and W. C. McDonald was elected governor. All a piece of luck.

In 1912 the Democratic party was again supremely lucky—lucky in the fact that Theodore Roosevelt split his party wide open and lucky in the fact that the Baltimore convention nominated Woodrow Wilson for President.

President Wilson's Record.

With the split in the Republican party the election of any Democratic nominee would have been assured; but it is doubtful if any other man of any party could have made the record that has been made by President Wilson.

Luckily, owing to the Republican split, a Democratic Senate was elected, and the President was able to have unobstructed legislation put through both houses of Congress.

An eminently fair tariff bill was passed.

It was predicted that sugar interests would be ruined, that the sheep men would be bankrupt, that manufacturers would have to close their doors, that a widespread panic would ensue.

No Panic Occurred.

While the price of sugar was lowered to the consumer, not an acre of beet land became idle, not a sugar factory was closed. Wool gained in price nearly fifty per cent and the sheep man wears the broadest smile of years. Manufacturers have been prosperous. There has been no panic.

The President decided that the currency laws, enacted fifty years ago, must be supplanted by a law suited to conditions of the present day. A measure was passed that today has not the slightest criticism anywhere. Had it not been passed, the whole country, as a result of the world war, would be in the grip of the most disastrous panic ever known in history. The bill was the product of scientific horse sense. That it has demonstrated its incalculable service to the country is due largely to luck.

Fortunate Watchful Waiting.

Just as President Wilson assumed office, by a coup Madero was overthrown and he and the vice president of Mexico were murdered. Anarchy reigned over most of that unhappy republic. War was urged.

President Wilson adopted a policy of "watchful waiting," the subject of sneers in Europe and of jest in the United States. When the sovereignty of the United States was insulted, Marines and bluejackets were promptly

ordered to seize Vera Cruz. There was no watchful waiting then, but the promptest of action.

Huerta was overthrown, and is now a fugitive in Europe. An orderly government is being established where chaos reigned before. Vera Cruz is ordered evacuated.

The President kept this country out of war at a time when men like Senator Albert B. Fall were shouting for it.

We Are at Peace.

A few weeks ago war burst upon the world. The people of this country are having a glimpse of its horrors. They see the splendid position the United States is in as a great neutral power at peace with all mankind. They see that the sneering diplomacy of Europe has brought to those countries.

That the wisdom of the President's policy in Mexico has been demonstrated so that no one doubts any longer, is a matter largely of luck, though the policy itself was the product of the highest statesmanship and patriotism.

Nothing luckier has occurred for a long time, so far as the democracy of New Mexico is concerned, than the nomination of B. C. Hernandez for Congress. It insures the return of Hon. Harvey B. Furgusson to Congress. He will work in harmony with the President, for the welfare of the whole country.

He will have the majority in both houses of Congress and the White House and all the departments of government working in harmony with him for the benefit of New Mexico.

The failure of Gov. McDonald to "fall" for the salary "grab" has saved the taxpayers \$350,000.00 in the three years of Governor McDonald's administration. Whoever heard of Hubble-Holt-Catron-Spess et al. ever saving the taxpayers even as much as 30c.

Ask the paying taxpayers in Dona Ana, Roosevelt, Socorro and other counties what they think of Governor McDonald's pernicious activity in county affairs. This "pernicious activity" has been the means of restoring thousands of dollars of your money to the County Treasury that without would have gone towards further building up the machine of the politicians.

The three proposed amendments to the state constitution, concerning which the voters will be called to decide on November 3rd, are absolutely unnecessary and in fact vicious. No good or substantial reason can be urged for the adoption of either of them. Voters should carefully bear in mind the matter of these proposed amendments and on election day cast their ballots against all of them.

Political affairs are looming important as the election date approaches. Nothing should be allowed to divert the attention of the electors of New Mexico from the fact that it is essential in the interests of the best progress of the state that a Democratic legislature be elected this fall. Democratic control of national affairs has proven a great success in Washington and the best interests of this state demand similar control in state politics. Let every Democrat be on the alert.

Congressman Fergusson promptly came to the aid of the mining men of the west by introducing legislation in the House of Representatives to secure exemption from assessment work during the present year. It behooves the mining men interested to let the members of Congress know how greatly this matter affects them, because without this knowledge it will be a very difficult matter to get the legislation passed since so few of the congressmen are in any way interested in mining or understand the problems which the small mining men face under the present circumstances.

ALLIES MAKE SHORT GAIN

Push Germans Farther Northward After Sixteen Days of Fighting Along Aisne River, But Result Is Indecisive—Both Sides Heavily Re-enforced—Losses Enormous.

SLAVS BESIEGE

They Surround Cracow, Strategic Point, and Send Columns Into Silesia Against Teutons.

MORE NAVAL ACTION

Kaiser's Submarine Sinks Three British Cruisers and Kills 1,400 Men—Germans and Austrians Lose, Too.

(Summary of Events.)

The battle of the Aisne river, in north central France, which the Germans and French-British, each more than a million strong, have been fighting since September 12, is yet indecisive. So far as military experts can see, neither side has gained an appreciable advantage, though both have suffered enormous losses.

Pursued from the suburbs of Paris and from the battlefield of the Marne river, northeast of Paris, the German right wing, under Gen. Von Kluck, entrenched on the north side of the Aisne river from the town of Compiegne, on the Oise river about eighty miles northwest of Paris, to the famous old city of Rheims. Then it embattled its heavy artillery in the foothills of the Ardennes mountains north of Rheims.

Thus firmly placed, the Germans have withstood the continual infantry and artillery assaults. They have lost only about fifteen miles of ground since the battle began. The Allies, under Gen. French and Gen. Joffre, are making a siege of the struggle, and they expect this to be one of the deciding battles of the war.

Decisive Turn Soon.

The German left wing, extending eastward from Rheims to Verdun, near the Alsacian border and thence along the French-German border to the Swiss boundary line, has been more offensive in its operations than has the right wing. The fortifications around Verdun have been almost constantly assaulted with Krupp guns of the heaviest type, but they have held out.

For a time, say from the eighth to the fourteenth day of the battle of the Aisne, the fighting was simply an artillery duel. The infantry of both sides lay low during the day and assaulted only at night. This was so exhausting that the infantry activities became decidedly weak.

The thirteenth, fourteenth and fifteenth days of fighting, however, saw the strengthening of both armies with heavy re-enforcements. The

French-British received nearly 100,000 fresh men, and the Germans are reported to have received nearly as many. Now the fighting is much more vigorous, and military men expect a decisive turn in the battle within a few days.

Slavs and Serbs Winning.
The Russians, with a million men, are pounding the Austrians and Germans and advancing slowly southward in Austria and westward in Prussia and Silesia. They continue to hold the eastern Austrian cities of Lemberg and Czernowitz, together with a number of smaller cities in northern Austria, and they besiege the fortified city of Cracow, near the Austro-Russian-German boundary juncture. The Slavs also have a strong foothold in Prussia, near Konigsberg, and in Silesia, near Breslau.

The Servians have succeeded in taking the city of Sarajevo, in southern Austria, where the assassination of Archduke Ferdinand and his wife was an indirect cause of the war. They are working northeastward through Bosnia into Croatia and Slavonia, and southern Austria provinces.

More Naval Activity.
Fourteen hundred seamen, including sixty officers, were killed, about September 22, when a German submarine torpedo boat blew up the British first-class cruiser Aboukir, Hogue and Cressy, in the North Sea. The English now have 200 war vessels in these waters.

The British cruiser Pegasus was sunk by the German cruiser Konigsberg in the harbor of Zanzibar, South Africa, recently.

The Russian cruiser Bayan sank a small German cruiser and two torpedo boats which were laying mines in the Baltic sea.

Three Austrian torpedo boats were sunk by mines in the Adriatic sea, September 24.

News was given out officially, September 25, that Lissa, the Austrian island naval base and garrison in the Adriatic, was bombarded and captured by a French fleet, September 19. Troops later landed from the warships and hoisted the French and British flags over the forts.

Aeroplanes Drop Bombs.
There appears to have been more aircraft activity during the last seven days than ever before in a conflict. A fleet of British aeroplanes dropped bombs on the Zeppelin airship sheds at Cologne, Germany. Belgians and French aircraft have dropped bombs upon German towns along the border, and the Germans have dropped explosive shells on Ostend, Belgium, and at Amiens, France. No serious damage was done at any place.

Rome reports that Austria is massing troops along the Italian border and intends to invade Italy. Further reports from the same source say Germany asked permission to move troops across Swiss territory, but was refused; and that the Swiss asked Italy to support them.

Italy Flirts With War.

Italy has practically completed the mobilization of her troops, and it appears to disinterested observers that she is seeking a pretext to enter the conflict on the side of the allies.

The Japanese are reported to have reduced two of the forts guarding the German colony and naval base at

Tsing Tao, in the Chinese leased province of Kalo Chow. The Japs have 30,000 troops in the field and a strong fleet blocking the harbor there.

The czar will propose a federation of European nations, the "United States of Europe," official reports from Petrograd say, for the purpose of limiting armaments hereafter, as soon as the present war is over.

Strike Simultaneously.
London.—Almost simultaneously the two great hammer strokes in the battle in Northern France have fallen and some decisive results must be announced before long. The allies have struck the German right wing, and the Germans on their part have hurled themselves against the French line between Verdun and Toul.

The commencement of these two attacks in earnest was disclosed by a French official statement, but little is told of how they are progressing.

Hit the German Line Hard.
The action against the German right is described as a very violent general one, in which the French left encountered an army corps composed of troops which the Germans brought from the center of Lorraine and the Vosges.

The clash occurred in the district between Tergnier and St. Quentin, so that the French have made a considerable advance to the northwest since the last mention was made of this part of their army.

Both Sides Reinforced.
London.—It was learned that additional British troops have reached the scene of the fighting in France. They are reported to have been landed at Ostend and Boulogne and to be supported by a new French army sent north from the mobilization center in the south. It is this army upon which the allies are now believed to be depending to complete the isolation of the German right and to envelop the armies of Von Kluck and Von Boehm.

German troops are being transported into France over the railway line between Munich, Gladbach and Aix-la-Chappelle, according to the Amsterdam correspondent of Reuter's Telegram Company, who says this fact is stated in a telegram from Maestricht.

British in Baltic?
London.—A dispatch to the Standard from Copenhagen states that a fishing fleet has arrived at Falkenberg, Sweden, which has been in close proximity to a fleet of thirty warships. They are sighted in the vicinity of Anholt, a Danish island in the Kattegat, a large arm of the North sea, which has Sweden on the east and Jutland on the west. The news has caused great excitement here.

Repulse Belgrade Assault.

Nish, Serbia.—The Austrian forces have again endeavored to cross the Danube at Belgrade and were repulsed as they were on every previous endeavor, the war office announced.

The Kaiser Reported Ill.
London.—From several points the news was received that the kaiser is suffering from a severe cold and is under the care of the imperial physician.

Germans Command at Cracow.
London.—"That Cracow has been occupied by German troops, that the town has been put under a German military commandant and that the Austrian civil administration has been displaced is the gist of the latest advices received here," says the Petrograd correspondent of the Morning Post. All the original administration of the town and all civil officials of the Austrian government have left and the residents are fleeing in a panic.

SIXTEEN DAYS BATTLE OF AISNE

CLOSES WITH EXHAUSTED ENEMIES FIRING AT HAND-TO-HAND RANGE.

GALICIAN FORTS TOPPLE

BOTH SIDES CLAIM SLIGHT ADVANTAGE AS THEY SURGE IN DEATH CONFLICT.

Western Newspaper Union News Service.
London, Sept. 29.—Desperate fighting continues in northern France, where the allied French and British armies are at grips with the German forces in what is characterized as the crucial action of the sixteen-day battle of the Aisne.

Beyond admitting this fact the official statements are vague. Few details of the struggle which may be the turning-point in the western campaign have been given out. One sentence in which there is "no change in the situation," epitomizes the official reports from London, Paris and Berlin.

The allies claim to have made slight advances here and there, notably on the heights of the Meuse. The German official statement, however, declares that "reports concerning a victorious advance of the enemy are untrue. Both the British and the French official statements refer to the violence of the attacks made by the Germans, who seem to have redoubled their efforts in an attempt to hurl back the allied line. The reports indicate, however, that the French and British have given no ground before the onslaught of the invaders. A very rigorous censorship has evidently been imposed at virtually all points, particularly in London, regarding the operations at the front, as very little news is being permitted to come through.

The war officials probably hesitate to raise the hopes of the people without some decisive result having been attained and fear that the publication of even the smallest details of the operations might be of aid to the Germans.

The Montenegrins, who have allied themselves with the Servians in the conflict with Austria, are making advances, according to advices. A dispatch from Cetinje, Montenegro, says the Montenegrins are within artillery range of Sarajevo, capital of Bosnia.

The Austrian forts at Cattaro, Dalmatia, on Sept. 19 sunk a large French warship, according to a dispatch to the Cologne Gazette. This ship was one of a fleet of eighteen which was met by a salvo from one of the Austrian forts as it approached the stronghold. The rest of the fleet retreated hastily, says the dispatch, after the French ship was sunk.

The Germans have steadily met assault with counter assault until the trenches of the opposing armies are only sprinting distances apart.

Both sides claim encouraging, though slight gains. Field Marshal Sir John French, commander of the British expeditionary force, spent his sixty-second birthday in maintaining what his latest communication to the war office describes as "a satisfactory situation."

London Official Statement.
London.—The official war information bureau issued the following statement Monday:
"Last night the enemy attacked our line with even more vigor but with no more success.
"There is no change in the situation.
"The Germans have gained no ground and the French have advanced here and there."

Czar Sends War Threat to Turkey.
London.—Turkey has received an ultimatum from Russia demanding the cessation of mobilization and the immediate disarmament of the troops already prepared for the field, according to reports here.

This decisive step on the part of Russia is said to result from the closing of the Dardanelles to all navigation, thus cutting off the Czar's egress from the Black sea.

Turkey has been preparing her troops for war, under the guidance of German army officers, ever since the outbreak of hostilities.

Austrians Flee Through Mountains.
Petrograd.—The Czar's troops continue their furious assaults against the fortresses around Przemyśl, and the Austrian forces are flying through the Carpathian mountain passes.

Reports that the Russians had completed the investment of the Galician fortified city are confirmed officially from the field, and the Muscovite forces are now gathering in an effort to crush out the last organized Austrian opposition.

It is reported from Bielostok that a Zeppelin dirigible dropped a bomb into a schoolhouse in that city and killed eleven children.

"The right wing of the Austrians has been driven back beyond the Carpathians into Hungary, where they are being pursued by the Russians," says an official war office report.

"The Austrian debacle is complete and they have lost all their artillery. The Austrian left wing has retreated to Cracow. The Russians have occupied another of the forts of Przemyśl."

CAPTURE TRADE IN QUICKSILVER

GEOLOGICAL SURVEY SAYS U. S. CAN ARRANGE TO SUPPLY ORIENT MARKET.

WAR CUTS OFF SUPPLY

SPANISH OUTPUT CONTROLLED BY LONDON—POTASH SUBSTITUTES SUGGESTED.

Washington.—American producers of quicksilver, as a result of the European war, have now an excellent opportunity to capture the trade with Central and South America and with the Orient from Japan to India, according to the geological survey.

It is stated that the Austrian production of quicksilver, controlled by the government, apparently is cut off from the world's markets and the Italian supply is regarded as uncertain. The Spanish output is controlled mainly in London and it is said that if this domination continues little metal will be free, for a time at least, for the foreign trade.

It is believed that large quantities of available European quicksilver will be utilized immediately in the manufacture of explosive caps for fixed ammunition for both small arms and artillery, the present military operations being on such a large scale. Probably only a little American metal can be imported by the countries involved in the war.

Formerly a considerable amount of American quicksilver went to Hong Kong from San Francisco, but the Rothschilds are said to have controlled this and all other markets of the Far East in recent years, as well as a large part of the South American trade.

The chief quicksilver producing state is California, with a total output of 15,591 flasks in 1913 and a total yield valued at \$95,902,925 from 1850 to date. Nevada, Texas and Arizona, the other producing states, supplied 4,622 flasks altogether in 1913.

Calling attention to the dependence of the United States on Germany for its potash supply, emphasized by the European war situation, and to the fact that this country gets all its sodium nitrate from Chile, the geological survey suggests several domestic sources of combined nitrogen. One of these, it is stated, is the gas works and byproduct coke ovens which in 1912 reported a recovery of ammoniacal liquor, ammonia and ammonium sulphate valued at \$39,519,268. Another domestic supply of nitrogen compounds lies in the fixation of atmospheric nitrogen by electricity.

TO PRESS STRIKE SETTLEMENT.

President Does Not Consider Operators' Answer as Closing Discussion.

Washington.—President Wilson will continue to press for acceptance of the tentative basis for settlement of the Colorado coal strike, proposed by federal mediators, despite the partially unfavorable reply of the operators.

President Wilson told callers he does not consider the question closed and that he will work for further negotiations. The President said he did not consider the reply of the operators as closing further discussion, and that he expected a favorable settlement. He is considering separately the attitude of the Colorado Fuel and Iron Company, and other companies concerned in the strike.

MAY END NEW REVOLUTION.

Carranza and Villa Both Pledged Not to Run for Presidency.

Washington.—Formal announcement from General Villa that he will not be a candidate for President or vice president of Mexico was received at the State Department Monday through Consular Agent Carrothers at Chihuahua City.

This dispatch, the first to reach Washington from the interior of Mexico since Villa's revolt against General Carranza's authority as first chief of the Constitutionalists, greatly strengthened the hope of officials here for a peaceful adjustment of the difficulties between the two leaders.

Some significance was attached to Villa's assurance because it followed so closely the declaration of General Carranza that he would not become a candidate if Villa would give a similar promise and all the military leaders were eliminated as presidential possibilities.

Snow Falls in Quebec.

Quebec.—The first snow of the season fell Sept. 28.

Organization Candidates Win in N.Y.

New York.—So-called "organization" candidates apparently swept the boards in the statewide primary for every nomination except United States Senator on the Republican ticket. It seems certain that Governor Martin H. Glynn is the Democratic gubernatorial nominee and District Attorney Charles S. Whitman the Republican. Former Governor William Sulzer and Former State Senator Fred M. Davenport are running close together for the Progressive gubernatorial nomination.

SCOTCH HIGHLANDERS CHARGING THE GERMANS

The Scotch Highlanders, here seen charging a retreating body of Germans in France, are among the hardest and most stubborn of Great Britain's fighters.

GERMANS STRIP CENTER TO STRENGTHEN RIGHT

Paris.—Lieutenant Colonel Rousset, writing in the Petit Parisien, says: "The enemy perceiving the danger to his right wing, as indicated by a recent communication, has perceptibly reinforced it to the detriment of the center and left. This explains the violence of the battle which is being waged between the Somme and the

heights on the left bank of the Oise. But in doing this the enemy necessarily stripped his front and we have profited immediately by advancing toward Berry and Moronvilliers. "The situation of the Germans would become perilous if the line they hold breaks in the center and the position of their forces on the right would be endangered. It is because of this disquieting prospect that they are redoubling their efforts against the heights of the Meuse. We learn that they possess the promontory of Hatton Chatel, not probably without

difficulty and that they are marching on St. Mihiel." Lieutenant Colonel Rousset refers to the difficulties of the territory confronting the Germans, whose left wing is menaced by the mobile garrison of Toul, and declares that even should the Germans succeed in their efforts they would not become masters of the French fortified front. They would have to descend the heights of the Meuse and cross the river under fire and the forts of the center which are still intact would constitute a serious danger to the operations.

Office of the First Assistant
Secretary

Washington, Sept. 24, 1914.

Hon. H. B. Fergusson,
House of Representatives
U. S.

My dear Mr. Fergusson:

You ask to be advised, in
order that the people of New
Mexico may be given the facts,
relative to resolutions adopted
by the Republican State Con-
vention held at Santa Fe on
August 24th and 25th which,
among other things, condemn
the federal land policy of the
present Administration as ap-
plied to that state.

The language of that portion
of the resolutions referred to
by you is as follows:

"We condemn the federal
land policy of the present
Democratic national ad-
ministration, as applied to
the state of New Mexico,
and particularly to Rio Ar-
riba, San Juan, Sandoval
and McKinley counties; in
withdrawing from the public
domain, for forest re-
serves, or as coal or oil
lands, or for Indian res-
ervations, multiplied thou-
sands of acres, which con-
tain no timber, nor coal,
nor oil."

I have caused an examina-
tion of the official records of
the Department to be made,
and find that of the approxi-
mate area of 2,100,698 acres
now reserved for forestry pur-
poses in the four counties nam-
ed, but 27,795 acres reserved
subsequent to March 4, 1913.
As against the 27,795 acres re-
served since March 4, 1913,
232,233 acres have been exclu-
ded from the national forests.

As to withdrawals of oil
lands in said counties, none
whatever have been made. The

area of outstanding withdraw-
als of coal lands is approxi-
mately 4,485,800 acres, all of
which was withdrawn within
the period July 9, 1910-May
18, 1911.

No lands whatever have been
reserved in these counties for
Indian purposes during the
present Administration, the
existing reservation having
been created at different times
from 1868 to 1911.

It will be observed from the
foregoing that, except as to the
withdrawal of 27,795 acres for
forestry purposes in Rio Ar-
riba and Sandoval counties, to
offset which 232,233 acres there
in have been excluded, no re-
servations have been made by
the present Administration in
the four counties named for
any of the purposes mentioned
in the resolutions.

Cordially yours,
A. A. Jones,

First Assistant Secretary.

Adolph P. Hill.

There is no better qualified
man in New Mexico for the
office of corporation commis-
sioner than Adolph P. Hill, the
Democratic nominee. The
Stockman has known him
personally for years, known
him to be worthy of the
support of the people of the
state for the position his party
has nominated him for. He was
born at Elizabethtown, Colfax
County and should receive splen-
did support by Colfax voters.

Hernandez's Own Showing

A DAMAGING DEFENSE.

The New Mexican has made no at-
tack on Mr. Hernandez. When he was
accused by others this paper declared
that it would reserve judgment until
he had had a chance to defend him-
self. But after carefully reading Mr.
Ely's so-called vindication of his can-
didate's record as Treasurer of Rio
Arriba County, published in yester-
day's Albuquerque Journal, we are
forced to the inevitable conclusion
that Mr. Hernandez is utterly unfit to
hold any public office, here or else-
where.

Probably no more extraordinary docu-
ment has been issued as cam-
paign material in the history of Amer-
ican politics.

We have not space to quote the
statement in full. But one passage is
typical of the whole. It is from Mr.
Hernandez's letter to Mr. Ely, and
purports to be an explanation of his
act in marking as "Paid" unpaid taxes
due from his relations, and from a
company in which he was inter-
ested:

"The items marked 'PAID' on the
general tax roll were taxes assessed
against good, reliable people in our
community—and personal friends of
mine. I didn't want them to appear
as delinquent on the roll and to have
to pay a penalty."

No words could give a better pic-
ture of the mental caliber of Mr. Her-
nandez or of his conception of the ob-
ligations of a public officer. Mr. Ely
must be aware of what would happen
to the cashier of a bank or the audit-
or of a railroad who held views simi-
lar to the above of his duty to his
employer. It is doubtful whether Mr.
Ely would engage such a man to man-
age his own private affairs. Does he
consider the people of New Mexico
less exacting employers than the aver-
age merchant or banker? Or is it pos-
sible that he regards public business
as of less importance than private?

Mr. Ely's comments on the whole
transaction are nothing less than
amazing. His theory seems to be that
Mr. Hernandez meant to deduct the
amount from his own commissions,
but that by a mysterious lapse of
memory, lasting three years, he for-
got to carry out his laudable ambi-
tions. He protests that the man
could surely not have "intended to be
a thief." This from a campaign man-
ager, in behalf of his candidate for
Congress!

Unless further evidence be pro-
duced the New Mexican will gladly ac-
cept Mr. Ely's version of the facts. No
one who knows Mr. Hernandez would
willingly believe that he "intended"
to be a thief. Nor can anyone who
reads his letter to Mr. Ely and Mr.
Ely's attempt at apology believe that
he is a fit man to represent the peo-
ple of New Mexico in any capacity
whatever. If every word in Mr. Ely's
statement be true, it forms far and
away the most damaging arraignment
of Mr. Hernandez's candidacy that has
yet been published in this campaign.
Personally we have nothing against
Mr. Hernandez. We like him. We
think that the last word on his qual-
ifications was uttered by his running
mate, the Honorable Hugh H. Wil-
liams, who pronounced him "a mighty
nice little fellow." But a nice little
fellow with such exceptionally vague
ideas of his duty to the public is an
impossible candidate for the Congress
of the United States.—From Santa Fe
New Mexican of Sept. 25th.

Clean Up, Keep Clean

Or Be Prosecuted

The sanitary department of
the city has started a scheme
whereby for the small sum of
25 cents per month you can
have your trash and garbage
hauled away. This is so very
cheap that it leaves no excuse
for having unsanitary condi-
tions about your premises. In
this effort to have a cleaner
town, the sanitary ordinance
will be tried out fully and en-
forced.

Use A-1 Surface Irrigation Pipe

AND SAVE YOUR WATER

Think of the Immense Loss by Seepage and Evaporation

Water cost money and wasted water is wasted money.
The loss by seepage alone in dirt ditches amounts to from 1
to 60 per cent of the total water pumped per mile. In some
soils over half of the water is lost before it reaches the place
where it is needed. By using this pipe all the water deliv-
ered is used, there is practically no waste. Worth consid-
ering, isn't it?

WHY does our A-1 Surface Irrigation Pipe stand the hard
usage to which it is subjected better than any other pipe,
riveted or otherwise?
BECAUSE it is made with a lock seam set down under
3500 pounds pressure, which requires no soldering to make
it water-tight. (Soldering will break loose by jarring and
hard knocks.)
A-1 Pipe was awarded first prize at Fresno and Santa
Clara County Fairs in 1912.

Tickets on sale at Mann's Make your reservations at Mann's Drug store Friday Oct 2, 3 and 5th. This number drew the largest house of the season two years ago.

This well known organization is presented for the season 1913—1914 with its splendid set of organ chimes. Organ chimes are an expensive, fragile proposition, hence little used in lyceum work, but there is no other instrument, novelty or standard, which will compare

with them. In fact they compare favorably with a whole orchestra or a pipe organ, so beautiful is the tone, so resonant and full is the volume and so many are the notes which may be sounded at one time. Each note struck gives four full tones, so that when played in a Male Quartette by eight hands, making thirty two tones each time a note is struck, the beauty of the music may be imagined.

So much have these beautiful chimes impressed certain Catholic dignitaries of Europe that a papal decree has declared them standard and entirely suitable to be placed in any Catholic church. The result is they are played in monasteries and churches all over Europe. The set carried by the Meistersingers is a forty-nine note set, the largest made.

The singing of the boys with the chimes will be an important feature of the program.

As for the Quartette we need say little. They blend beautifully, all have trained voices and they have a remarkable range from Low C to High D. Midland Lyceum Bureau.

Deafness Cannot Be Cured
by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

LUCK DESERTS REPUBLICAN FOR DEMOCRATIC PARTY IN STATE AND NATION; LOOK AT RECORD OF FOUR YEARS

Good Horse Sense, Patriotism and the Smile of the "Fickle Goddess" Have Given the National Administration and the State Government a Place in the Hearts of the People Such as Never Before Was Held by Any Political Party.

Luck was with the Republicans for a long time; it was their greatest asset.

Luck is now with the Democratic party—luck and good horse sense.

Let us see. It was lucky that Champ Clark, who had united the Democratic minority in Congress, was made speaker when the party came into control of the lower house four years ago. Also, it was lucky that a strong, sane student of political economy and a seasoned statesman like Oscar Underwood was made floor leader of the majority.

The Las Vegas Convention.

It was lucky for the Democrats of New Mexico that the Republican party nominated Holm O. Bursum at the first state convention, and that the anti-boss delegation from Bernalillo county was cast out in the interests of Frank A. Hubbell. That led to a split in the party, headed by former Governor Hagerman, W. H. Gillenwater, A. Otero, R. H. Hanna and others, and W. C. McDonald was elected governor. All a piece of luck.

In 1912 the Democratic party was again supremely lucky—lucky in the fact that Theodore Roosevelt split his party wide open and lucky in the fact that the Baltimore convention nominated Woodrow Wilson for President.

President Wilson's Record.

With the split in the Republican party the election of any Democratic nominee would have been assured; but it is doubtful if any other man of any party could have made the record that has been made by President Wilson.

Luckily, owing to the Republican split, a Democratic Senate was elected, and the President was able to have unobstructed legislation put through both houses of Congress.

An eminently fair tariff bill was passed.

It was predicted that sugar interests would be ruined, that the sheep men would be bankrupt, that manufacturers would have to close their doors, that a widespread panic would ensue.

No Panic Occurred.

While the price of sugar was lowered to the consumer, not an acre of beet land became idle, not a sugar factory was closed. Wool gained in price nearly fifty per cent and the sheep man wears the broadest smile of years. Manufacturers have been prosperous. There has been no panic.

The President decided that the currency laws, enacted fifty years ago, must be supplanted by a law suited to conditions of the present day. A measure was passed that today has not the slightest criticism anywhere. Had it not been passed, the whole country, as a result of the world war, would be in the grip of the most disastrous panic ever known in history. The bill was the product of scientific horse sense. That it has demonstrated its incalculable service to the country is due largely to luck.

Fortunate Watchful Waiting.

Just as President Wilson assumed office, by a coup Madero was overthrown and he and the vice president of Mexico were murdered. Anarchy reigned over most of that unhappy republic. War was urged.

President Wilson adopted a policy of "watchful waiting," the subject of sneers in Europe and of jest in the United States. When the sovereignty of the United States was insulted, Marines and bluejackets were promptly

ordered to seize Vera Cruz. There was no watchful waiting then, but the promptest of action.

Huerta was overthrown, and is now a fugitive in Europe. An orderly government is being established where chaos reigned before. Vera Cruz is ordered evacuated.

The President kept this country out of war at a time when men like Senator Albert B. Fall were shouting for it.

We Are at Peace.

A few weeks ago war burst upon the world. The people of this country are having a glimpse of its horrors. They see the splendid position the United States is in as a great neutral power at peace with all mankind. They see what the sneering diplomacy of Europe has brought to those countries.

That the wisdom of the President's policy in Mexico has been demonstrated so that no one doubts any longer, is a matter largely of luck, though the policy itself was the product of the highest statesmanship and patriotism.

Nothing luckier has occurred for a long time, so far as the democracy of New Mexico is concerned, than the nomination of B. C. Hernandez for Congress. It insures the return of Hon. Harvey B. Fergusson to Congress. He will work in harmony with the President, for the welfare of the whole country.

He will have the majority in both houses of Congress and the White House and all the departments of government working in harmony with him for the benefit of New Mexico.

The failure of Gov. McDonald to "fall" for the salary "grab" has saved the taxpayers \$350,000.00 in the three years of Governor McDonald's administration. Whoever heard of Hubbell-Holt-Catron-Spiess et al. ever saving the taxpayers even as much as 30c.

Ask the paying taxpayers in Dona Ana, Roosevelt, Socorro and other counties what they think of Governor McDonald's pernicious activity in county affairs. This "pernicious activity" has been the means of restoring thousands of dollars of your money to the County Treasury that without would have gone towards further building up the machine of the politicians.

The three proposed amendments to the state constitution, concerning which the voters will be called to decide on November 3rd, are absolutely unnecessary and in fact vicious. No good or substantial reason can be urged for the adoption of either of them. Voters should carefully bear in mind the matter of these proposed amendments and on election day cast their ballots against all of them.

Political affairs are looming important as the election date approaches. Nothing should be allowed to divert the attention of the electors of New Mexico from the fact that it is essential in the interests of the best progress of the state that a Democratic legislature be elected this fall. Democratic control of national affairs has proven a great success in Washington and the best interests of this state demand similar control in state politics. Let every Democrat be on the alert.

Congressman Fergusson promptly came to the aid of the mining men of the west by introducing legislation in the House of Representatives to secure exemption from assessment work during the present year. It behooves the mining men interested to let the members of Congress know how greatly this matter affects them, because without this knowledge it will be a very difficult matter to get the legislation passed since so few of the congressmen are in any way interested in mining or understand the problems which the small mining men face under the present circumstances.

MEISTERSINGERS MALE QUARTETTE

The Meistersingers Male Quartette, First number of Lyceum Course, at Corrington College on Monday evening October 5th. Admission 75 cents for the single number. Season tickets, five numbers, \$2.00. Tickets on sale at Mann's Make your reservations at Mann's Drug store Friday Oct 2, 3 and 5th. This number drew the largest house of the season two years ago.

This well known organization is presented for the season 1913-1914 with its splendid set of organ chimes. Organ chimes are an expensive, fragile proposition, hence little used in lyceum work, but there is no other instrument, novelty or standard, which will compare

with them. In fact they compare favorably with a whole orchestra or a pipe organ, so beautiful is the tone, so resonant and full is the volume and so many are the notes which may be sounded at one time. Each note struck gives four full tones, so that when played in a Male Quartette by eight hands, making thirty two tones each time a note is struck, the beauty of the music may be imagined.

So much have these beautiful chimes impressed certain Catholic dignitaries of Europe that a papal decree has declared them standard and entirely suitable to be placed in any Catholic church. The result is they are played in monasteries and churches all over Europe. The set carried by the Meistersingers is a forty-nine note set, the largest made.

The singing of the boys with the chimes will be an important feature of the program.

As for the Quartette we need say little. They blend beautifully, all have trained voices and they have a remarkable range from Low C to High D. Midland Lyceum Bureau.

Deafness Cannot Be Cured

By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free.

During July and August it isn't very pleasant to face the task of stove heated irons. As a matter of fact they are annoying. As soon as you begin to use an Electric Iron the real hardship of ironing day disappears.

become hot without heating the air. They save you the usual steps from ironing board to stove. You iron straight ahead with the same iron until your work is done. The iron is ready for use a few minutes after you turn the switch and will not cool off until its task is finished.
