

The Artesia Advocate.

FRIDAY, JULY 13, 1917.

ARTESIA, NEW MEXICO.

VOL. 14 NO. 45

The New Hotel It Has Been Christened Hotel New Mexico

Architect Here and Will Re-
main Till Work is Done.

Dirt Will Fly Soon After
August First.

Will be Open to Public About
January First.

It was stated in these columns a few weeks ago that the College buildings south of town had been purchased by a syndicate and were to be converted into a palatial hotel. A description was also given of the changes and additions to be made. At that time a name had not been chosen, but since then the hostelry has been christened Hotel New Mexico, as indicated in the published cut. The cut also shows exactly how the institution will

our climate—our air and sunshine—and they will be expected to spend the day hours out doors. Thus while the sleeping rooms will be electric lighted, steam heated and supplied with baths, hot and cold water, the grounds will be so attractively arranged with respect to walks, drives, fountain and recreation places as to encourage and invite out-door life as much as possible.

While the institution is to be primarily for people who are out of health and who will come here for relief, the management would not call it a hospital or sanitarium, for many abhor either of these names. While it will cater to health seekers, and will have nurses and physicians it will be none the less a hotel and will be operated as a hotel.

Though no activity is yet apparent on the scene, work is going on behind the scenes. Plans are being revised, details arranged, prospective purchases and prices considered, and many other things that have to be done before they begin to "break ground."

corporation behind this enterprise, has been issued, and the first meeting thereunder will be held not later than the 20th day of the present month. Besides the regular board of directors there will probably be an advisory board. The former will be mostly non-resident stockholders while the latter will be mostly residents of this state. It is expected that of the \$150,000 in stock to be issued \$100,000 will be scattered among physicians and bankers of the Middle West and \$50,000 taken in New Mexico.

The management has shown by its descriptive literature that it not only knows the value of advertising but knows how to advertise, and it means to have every one who comes to the hotel as a guest be the means of others coming.

Summer Feed Crops. (A. M. Hove.)

Feed crops are just as important as food crops in this section. Every acre possible therefore should be planted in feed

Toltec Oil Man Talks About Well

We are going to strike oil in New Mexico," said Robert L. Lunsford vice president of the Toltec Oil Company today. Our first well in Chaves county, which we drilled to a depth of 3120 feet and then abandoned proved the existence of oil-bearing sands, and it is now simply a question of finding the oil in commercial quantities. But our second well which we started about four miles distant from the first well may prove to be at the right location. If it doesn't we will continue drilling wells until we finally strike the oil pool."

The Toltec company is the Chicago concern that has more than 500,000 acres of state land under lease in Chaves, Lincoln, Guadalupe, Torrance, San Miguel and Santa Fe counties. It also has the San Cristobal ranch of Senator B. E. Pankey in the Lamy district of this county under lease for oil exploration purposes, and has drilled one well there to a depth of 1615 feet. Due to the fact that it has been found necessary to enlarge the bore of this well, the company is now pulling some of the casing, and it will be three weeks before drilling can be resumed.

Mr. Lunsford states that five showings of oil and three of gas were encountered in the first Chaves county well and that gas has been encountered in drilling the well on the Pankey ranch. The formation in Chaves county, he says, is similar to that found in the oil fields of the Gulf coast, while that on the Pankey ranch duplicates the formation of the Blackwell field in Oklahoma.

Mr. Lunsford's home is in Cleveland, Okla., and he was formerly for several years at the head of the Oklahoma state oil department. He is interested in several of the Oklahoma oil fields. He arrived here a short time ago and will remain for some time, giving personal attention to the company's operations. Mrs. Lunsford joined him here last week to spend the summer in Santa Fe.—Santa Fe New Mexican.

Man Killed by Lightning

During the storm here late Thursday evening, W. E. James stopped in at the home of his mother and sister across the lane from the Hart home

Some folks apparently are getting rich with great ease. In fact they are the ones who commenced

By Laying Aside a Fixed Portion of their Income Each Week

and depositing it in a reliable bank. Then when opportunity offered they had the necessary funds for taking advantage of it.

appear when complete. The part yet to be constructed will cover the 50 feet of space between the two buildings as they now stand, and is represented by all that part of the structure under the large glass dome.

The cut shows not only the magnificence but the magnitude of the completed structure while the dome, in which will be the sun parlor, or roof garden, is a fitting climax as it gives the entire building an imposing and striking appearance.

While nothing will be neglected that can contribute to comfort and convenience in the interior arrangements, no less consideration will be given to the exterior. The guests of the institution will come here for the benefit to be derived from

It is the plan of the projectors of this enterprise to hire an architect on a salary instead of the usual commission basis, and keep him on the job until the work is done. When the blue prints are all completed he will plan cottages, bungalows, walks, etc., and supervise their construction. It is understood that no contracts will be let, but all the work will be done by men hired by the day, under the supervision of the architect and general manager.

The architect is expected arrive with Mr. T. F. Sullivan this week. It is hoped to begin work soon after August 1st and be able to open the doors to the public by the beginning of the new year.

The charter of the New Mexico Health Association, the

crops after the winter grains are harvested. The late planted feed crops may not have time to mature. Yet they will make hay or help to fill the silo and thereby be a means of producing more beef, mutton, pork, and butter.

Whatever is planted this late in the season, be it milo, sorghum, or other forage must be of short season varieties. The county agent will be glad to advise in the matter. The farmer must decide for himself whether moisture conditions are satisfactory for planting.

In localities it is worth while to plant such root crops as stock beet, red beets, turnips, rutabagoes, and others as late as in August if the moisture conditions are good. These root crops are not effected by the ordinary low fall temperatures in this section and in mild winters will grow throughout the season.

Any way feed crops are so important in this country so well adapted to live stock that every possible acre should be made to produce feed. It is also time to decide to build or dig a silo to save the feed crops. The Santa Fe Railway has issued a practical bulletin on the silo. H. M. Bainer, Topeka or L. L. Johnson, Amarillo will be glad to send you a copy.

The demand for beef, mutton, pork, and butter will continue strong. The feed crops and the silo will be useful in producing these more cheaply and efficiently and add to the farmer's bank account.

and while leaning against the wall received an electric shock that resulted in his death. His mother and sister were also shocked by the bolt, but the sister managed to crawl to the Hart home and give the alarm. Mrs. Hart was alone and the sister was then forced to go to the home of Seth Alston before help could be secured. The accident occurred about 9 p. m. and no help arrived until about an hour afterwards. The deceased was a new comer here and leaves a wife and three small children.

The United States Government Co-operates

with the 7,600 member banks in maintaining the Federal Reserve Banking System for the protection of the business interests of the country. Through the Federal Reserve Board in Washington it supervises the twelve Federal Reserve Banks; it appoints a part of their directors; and deposits its funds largely with them.

This co-operation greatly increases the value of the system to us and our community.

Are you linked up with this new National system as one of our depositors? If not, you should delay no longer.

FIRST NATIONAL BANK

**AMERICANS SINK SUBMARINE.
FIGHT OFF TWO ATTACKS TAKING
TROOPS TO FRANCE.**

American destroyers that were conveying transports with soldiers for France fought off two submarine attacks. The first news of the fights was given out at Washington by the committee on public information with the formal announcement of the safe arrival of the transports with their convoys.

The navy department announced it had received word of the safe arrival at a French port of the last contingent of General Pershing's expeditionary force. It was also announced the transports were twice attacked by submarines on the way across.

At least one submarine was sunk. Both attacks were made in force, showing that the Germans had information of the coming of the transports and planned to get them.

"No ship was hit, not an American life was lost, and while the navy dispatches report the sinking of one submarine only, there is reason to believe that others were destroyed in the first night attack."

Appeals to Russians.

Russian provisional government appealed to the Russian people, urging all citizens to forget personal interests and to mass as a single man behind the army, which "is marching to death to save the revolution and to free the Russian people." Minister of War Kerenky, in view of the new offensive movement, has forbidden all leaves of absence of soldiers unless necessitated by ill health.

COUNTY HEALTH SURVEYS.

EXPECTATION IS TO COMMENCE SAME ABOUT JULY 15.

War conditions are assigned by Dr. P. W. Covington, director of the bureau of rural sanitation, Texas state health department, for the delay in conducting health surveys in Bexar, Dallas and other counties. The appropriation of \$70,000 by the legislature, which is to be supplemented by a like sum from the Rockefeller Foundation, through the international health board, became available June 20, and Director Covington said that he had intended to start the survey in Bexar, Dallas, Polk and McLennan counties on July 1, but that owing to war conditions, which interfered in the securing of the right kind of men to assist in the work, the same was postponed until July 15. At that time he is confident, he says, the work will start, as the entire force, with the exception of one assistant, has now been engaged.

The state and international health boards propose to spend from \$3,000 to \$6,000 in conducting intensive health work in the rural districts of any county agreeing to employ four local assistants at the rate of \$50 per month each for a period of not less than four months. These lay assistants are to work with a staff of trained sanitarians, who will, in the event the proposition is accepted by the county commissioners, conduct the work.

Dr. Covington, who has been selected as the director of the bureau of rural sanitation by the Texas health board, is professor of preventive medicine in the medical department of the University of Texas, is a physician of long experience in rural health work. He was also selected for the work by the international health board.

Will Be Cavalry School.

The west Texas agricultural and mechanical college to be established at Abilene will be a cavalry institution of the first class, President Bizzell of the agricultural and mechanical college of Texas said in the first authorized statement regarding his plans for the future of the school. Dr. Bizzell, by virtue of his presidency of the state institution at College Station, will be president also of the west Texas school and the Texas college board will be the governing board.

Shoots Wife and Self.

While locked in a room in Adelphi hotel, Houston, Adam J. Abbott shot his wife, she soon dying, and then seriously wounded himself. The couple were married at Beaumont a year ago and separated, according to Abbott, on account of trouble over children by his wife's former marriage, especially James Butts, a boy.

Slain Escaping.

A negro who attempted to assault a white girl of five years at Vinton, La., was captured by a posse headed by Sheriff Johnson of Orange county and Marshal Carter of Orange. He made an effort to escape while being taken to Orange and was killed by a bullet from one of the posse's pistols. His body was turned over to Vinton officials.

Lightning Kills Man and Mule.

Caswell, twenty-five years of age, and the mule he was riding were killed by lightning on the farm at Alkenbury, south of Cle

FRENCH GAIN ONE MILE.

SUCCEED IN DOING THIS THROUGH A SUDDEN SMASH.

Suddenly assuming the offensive, French troops swept forward between Bovettes Ridge and Chevreigny, recapturing first line trenches over a front of a mile, according to a French official report.

The section where the French won back ground from the Germans was that in which the German army staff tried desperately to break the French grip around Laon.

The assaults started several days before and were made by a prodigious expenditure of ammunition and great masses of troops. It was the Germans' most powerful offensive yet made against the French since the attacks at Verdun. The enemy forced relinquishment of a small section of trenches by the French.

SALOONS WILL HAVE TO CLOSE

PROMINENT DISTILLER DECLARES IT IS BOUND TO RESULT.

Charles S. Hermann, president of the firm of Chapin & Gore of Chicago, one of the largest whisky making concerns in the country and directing head of the National Distillers and Wholesale Liquor Dealers' association, declared that within sixty days not less than 2,000 saloons in Chicago would be forced out of business by the new legislation and that a like proportion throughout the land would be similarly affected.

He estimated that the whisky now in existence in the United States would be exhausted within a year at present rate of consumption, saying that he had positive knowledge that there was not over 200,000,000 gallons of whisky now in the government warehouses. Normal consumption is said to be about 135,000,000 gallons, while, with the prospect of a dry period coming, it is expected that drinkers will try to store up a supply, thus taking all that is left over.

First Draft 687,000.

The first draft of America's citizenship for war service will be 687,000 men, the war department announced. These will be singled out from the great registration roll. The number recommended by the war department is just enough to fill the regular army to war complement, fill the national guard of the country and provide the levy of 500,000 for the sixteen cantonment camps, where the men will be trained for service. About 50,000 men are needed to bring the regular army to its full war strength. More than 130,000 others are needed for the national guard. From official sources it is learned that the first men drawn by selective draft will be put into the regular army ranks and national guard.

More Germans Captured.

Several villages and more than 7,000 men have been captured by the Russians west of Stansislau, in Galicia, the Russian war office announced. Forty-eight guns, including twelve of large size, and many machine guns, were also captured.

Steamer Sunk, Crew Landed.

Sinking of the American steamer Massapequa by a German submarine was announced by the British admiralty. Her crew was landed at Ile de Seine, an island off the northwest coast of France, southwest of Brest. The vessel was loaded with grain.

Fatal Powder Explosion.

Black powder magazine at the Mare Island navy yard in San Francisco bay exploded. Six persons lost their lives, four seriously injured and twenty-seven others hurt. An investigation was at once started.

All Dead.

With all the crew dead, presumably from suffocation, a German U-boat was found a short distance off Irish coast. The submarine was towed to a British port by a British patrol boat.

Girl Fatally Burned.

Pauline Brumley, thirteen years of age, daughter of Paul Brumley and wife of Snyder, was fatally burned as she was burning out an ant bed with coal oil. A pan filled with coal oil upset, the oil ignited and set fire to the child's clothes and she soon died.

The Immortal Cowards

BY HERBERT KAUFMAN.

We are the Cowards Immortal—the men who feared dishonor and who quailed at shame.

Because we respected self more than life and dreaded degradation more than death, our names are flaming torches.

We saw the whip the Persian brought for Greece and therefore did not cringe to see his million spears. And every Alpine pass has heard our trembling prayers beseech kind God for strength to perish if we might not hold our mountains clean for freedom.

Had we not paled beside our women as the Turk set forth to sweep the West, we would have failed to beat him back. No wound that weapon brings could make a torture comparable to their debasement.

And at Waterloo, because retreat demanded all our pride, we chose the path to glory and blessed the bayonets in our breaking hearts.

From Concord and from the Alamo we call to you, from Valley Forge and from Balaklava, from the wastes and the frontier blockhouse, and from every grave that marks a martyrdom, we cry you to your duty—carry on!

The price of liberty is dear, but liberty is more precious

than its dearest price.

Fear God and conscience and conscience and humiliation and injustice and defeat; serve your fears with valor, and defend the high faiths of Humanity. From August, 1917, Cosmopolitan.

Farmers are Falling in Line

The nations call for greater production of food producing crops is receiving a spontaneous co-operation among the farmers of this part of the Pecos Valley. The farmers are lining up and the way we are receiving reports from all over the Artesia part of the Valley we will see not less than two thousand acres of winter wheat sown this fall, and the most encouraging feature is that nearly every farmer is going to sow a few acres, while some few who have plenty of land and water will sow as much as forty to one hundred acres of wheat which shows that we can at all times depend on the farmer to do his duty. Our County Agent, J. W. Knorr, may well be proud of the hearty support of the loyal farmers of Eddy County, in falling in line with this idea of sowing wheat and a more diversified system of farming. The time has passed in Eddy County for the one crop farmer, he will only be remembered by

the failures of the past and the successful farmer of the present time is the one that diversifies his crops and does not depend upon the one crop plan.

We want to say that since so many are willing to sow wheat that it is time we were looking out for our seed. We can secure it now at the market value and if we wait until this wheat goes on the market it will cost more to get it back on account of the freight being added, we would like to urge all that are interested in the sowing of wheat to make an estimate of the seed you will use and let the committee know what you will want. Don't delay this matter for it is important that we secure our seed soon. Mr. Knorr can get some of the best seed in the Valley if you will only let him know what you want.

Since this wheat sowing talk has spread to all parts of the Valley one of the best and most successful men of this part of New Mexico has expressed himself as being ready to build for Artesia and this community a twenty five barrel mill which will be able to take care of the wheat in this locality, and if we can only secure the acreage we will get the mill, and when we get the mill it will be easy to get farmers to grow wheat as they are doing in the Carlisbad project, let us all pull together and see that not one farmer is left out but that all will line up and make this next year the most productive of this Valley.

W. F. Hollomon,
Chairman Local Committee.

Upper Cottonwood News

Tom Wells and Otis Morgan went to Hagerman to celebrate the 4th.

Mr. and Mrs. Hartell, Louis Maull and Miss Marie Morgan went to Roswell and Hagerman July 4th. They made the trip in the Hartell car.

Bryson Curry recently purchased a new Ford from Dr. Baily.

J. W. Curry made a flying trip to Roswell Thursday of last week.

C. C. Powell and wife and Misses Lora and Edna Powell left on the 4th. for an outing in the mountains. They made the trip in the Powell Ford and will be gone about two weeks. They will make several stops on their return trip.

"The Glorious 4th" was well celebrated at home of A. D. Hill, the same as last year. A large crowd was present with well filled baskets and the well known hospitality of the home and culinary ability and generosity of the guests were never more in evidence. While Mr. Hill was busy preparing the barbecue, others were freezing ice cream, making coffee and etc. Talks, jokes, laughter and music by Mrs. Summers and her music class were features of the days pleasure.

Miss Pauline Wells entertained the E. W. C. club on Thursday afternoon of last week. The hours were spent on the shady lawn and the girls had their fancy work. Delicious lemonade and angel food cake were served to the following club members and guests, Misses, Oiven, Morgan Weaver, Audrey Curry, Beles Morgan, Mesdames Wilde and Curry.

The Oakland Six

Mr. M. R. Jones, who recently located in Artesia is enjoying a lively trade in the sale of the popular automobile, the Oakland Sensible Six. Owing to delay in receiving new cars by freight he was compelled to go to El Paso and drive some cars over here from that city last week.

Mr. C. W. Lewis has just purchased an Oakland Six Roadster, and Mrs. Jo Jacobson an Oakland Touring car. These are very attractive and the new owners are very much pleased with them.

Other recent purchasers of the Oakland cars are Mrs. J. W. Turknott and Mr. Fred Spencer.

Mr. Jones regrets to announce that his company has been forced to make an advance of seventy dollars on their cars, and he only has one more machine on hand at old price. The advance by the Oakland Company is only in keeping with all other manufacturers, who have been forced to make advances owing to the high prices of all raw materials.

Glenn Laing spent the 4th in Clovis visiting his parents, Mr. and Mrs. G. W. Laing.

Mrs. G. R. Brainard visited relatives in Clovis last week.

Mrs. J. B. Cecil and sons will leave Saturday for a visit with Mrs. Cecils' mother in Ohio.

Miss Bertha Addington is visiting at the home of her guardian A. A. Kaiser at Dayton.

J. H. Clarke, the popular pharmacist of the City drug store is spending his vacation at his former home in Dallas.

Miss Anita Clyde is spending the week at Carlsbad, the guest of Miss Gladys Knorr.

Mr. and Mrs. Kenneth Rowan entertained a party of relatives and friends at luncheon last Sunday.

Mrs. Stella Withers, of Jal, Eddy County, is visiting her sister, Mrs. M. R. Jones this week.

The ladies of the Presbyterian Church are rejoicing over the fact that they have paid the last debt on their church kitchen.

The young peoples class and C. E. Society of the Christian Church went to the Bruce farm yesterday for a picnic supper and outing.

Harold Keinath motored down from Cloudercroft Monday, bringing Mrs. Stone, Mrs. Keinath, Grace and Miss Mina Collins returned to Cloudercroft with him the following day, and will spend the remainder of the summer season.

Miss Frances Linell has rented the residence formerly occupied by Mrs. Lida Atkinson, and unpacked her furniture. Miss Linell will rent two of her beautifully furnished rooms.

The Library Board met in regular session at the library room Monday afternoon. The treasurer's report showed a more prosperous condition for this institution than has existed for many years.

Charlie Meece and family are enjoying a visit from Mr. Meece's brother, James Meece and family of El Paso who arrived Monday in their car. They report a delightful trip.

Mrs. B. P. Williams and little sons, James and Springer, left Monday for Roswell to join Mrs. Allison and children and from that point the party will go to the Ruidosa in the White Mountains for a months outing.

Bill Linell, who went to El Paso last week and enlisted in the navy expects to be called to the training camp, at Frisco, in a very short time. Bill is one of Artesia's brightest boys and sure to make good wherever he goes.

Mr. and Mrs. N. M. Schuster and baby Ruth, left Monday night for Bay City, Tex, where they will visit Mr. Schusters brother. Later they will go to St. Louis and other Eastern markets to purchase Fall goods and on their return trip stop over in Hawaitha Kansas to visit Mrs. Schusters relatives.

The firm of Sperry & Lukins have a well rig working on the Altus tract just west of the Brown well, drilling for oil. The hole is about 700 feet deep. Owing to the fact that the tools were lost in this hole some delay occurred in the progress of the work. It is believed by the drillers that they will be able to clear the hole and proceed with the drilling this week.

Don't throw away good tires because they need a little repairing. W. L. Wyman can fix it.

J. B. Atkeson and Mr. Riley of Hope, motored to Carrizozo this week on a business trip. They will return today.

FOR RENT—To right party a nicely furnished bed room. Close in. Inquire of Frances Linell.

Mrs. W. F. Daugherty and daughter of Dayton were shopping in Artesia Tuesday.

Rev. West the Methodist preacher, of Dayton, spent a few hours in Artesia Monday.

Mr. and Mrs. S. G. White motored to the Ruidoso Monday, returning the next day.

A. G. McElhane, the real estate man, of Roswell spent Wednesday in Artesia.

S. M. Hamilton, the aged father of Gail Hamilton, left Thursday night for Illinois to visit a daughter.

Ed. Wingfield and family are moving this week from the Tyler residence on Roselawn to the residence just vacated by Rev. Mitchelmore.

Mrs. S. La Mauce, lecturer of the W. C. T. U., will speak at the Baptist church, Thursday, July 19th, at 8 p. m. The public is invited, especially the Red Cross and Council of Defense societies as the most important features of their work will be handled by Mrs. La Mauce. All who are interested in "Dry New Mexico" should be present.

Miss Stella Johnson, of Marionville mo., arrived here Saturday for a months visit with her sister, Mrs. Austin Brown. Miss Johnson lived at Dayton several years ago, and has many friends in the valley will be very glad to see her again. She is a very attractive and accomplished young lady.

Miss Artie McMahon, of Artesia a sister of Mrs. Lewis Means, went out on the mail car yesterday to celebrate the 5th at Queen. Miss McMahon has taught in Artesia schools for a number of terms and will no doubt spend her vacation in that cool delightful country.

Little Miss Virginia Files, who has been the guest of E. E. Perry at Artesia for two weeks returned yesterday. She is the dear little grand-daughter of Mr. and Mrs. T. H. Johnson, and no doubt they have missed her many times.

Dr. and Mrs. Puckett motored down from Hope Monday.

H. F. Sizemore, of Carlsbad passed through Artesia Thursday en route to Hope.

Mr. and Mrs. Thos. F. Blackmore are moving to Clovis this week. We are sorry to lose this excellent family from Artesia.

The Woodie Brooks Missionary Circle will hold a cooked food sale on Saturday, July 21. The place will be announced next week.

"Uncle Joe" Anderson returned Monday at noon from Corpus Cristi, Washington D. C., and other points where he has been on a four months' business and pleasure trip.

A. gaily informal little summer dance was enjoyed Tuesday evening by the "Smart Set" at the Jonquille club. Music was furnished by Messdames Flamm and Noble and refreshing punch was served.

W. F. Hollomon has received a request from Mr. Crile of State College Mesilla Park to come to the college and auction a sale of live stock and machinery at that place. Mr. Hollomon will leave in a few days.

Turner Smith, a former Artesia boy, came down from Clovis Sunday, and visited between trains with his mother, Mrs. D. L. Smith. Turner is employed at the Santa Fe shops and is well pleased with his work.

Louis Doerr, who was operated on for appendicitis several days ago at Carlsbad, is reported improving with a good chance for recovery. This will be good news to Mr. Doerr's many friends in Artesia who have been anxiously awaiting the outcome of the operation.

George Welton has accepted a position as lineman with the Mountain States Telephone Co. to take the place of Gail Hamilton who will leave soon to take the place as a member of the signal corps in the army.

Prof. C. E. Grover arrived in Alamogordo from Pueblo, Colo., a day or so ago. Prof. Grover will have charge of the Alamogordo schools the coming year and expects the arrival of his family in a short time. He found a former pupil residing in Alamogordo in the person of Ernest Duncan, of the News office.

Spring Lake is a very popular spot with the young people these hot days.

Let us look after your tire repair work. W. L. Wyman.

The Artesia girls Red Cross Society changed their name to the Mary E. Russell Red Cross Society. They will serve lemonade on the First National Bank lawn Saturday July 14th. Three girls and two honorary members joined the society. The new members are: Mary McCaw, Clarisse Harris, Nolie Stephens, Grady Henry, Richard Attebery.

Spot cash paid for old brass, copper, iron, rubber boots, shoes and auto tires. L. P. Evans.

LOST—Somewhere between Carlsbad and a few miles north of Artesia, a ticking bag containing clothing, shoes, coats, sweater etc. The finder can send it by express C. O. D. for charges and \$5 reward, to Joy E. Adams, Grand Lake, Colo.

E. H. Hannah made a gallon test for the Maxwell car last Saturday. He used his own machine which he has been driving on the rural route for several months. His passengers were S. Ferree, Thomas Ragsdale, and Jack Hastie. The party drove up on Cottonwood, making 29.1 miles on one gallon of gasoline.

LOST—Ladies Pocket Book on road east of Artesia. A long gray pocketbook, containing a ten dollar bill and some silver coins. Reward for return to Advocate office or to Mrs. Belle Pendleton.

Complete line of repairs for all mowers and rakes. L. P. Evans.

Canning Demonstration

Mrs. E. B. Warner Assistant State Demonstrator and Miss Lathrop County worker have been in Artesia for the past two days. On Wednesday morning, a very interesting and profitable canning demonstration was given at the school house. In the afternoon of the same day about forty women met to discuss food problems. Thursday morning, a demonstration of native Mexican beans and meat substitutes was given before more than forty women.

The women of Artesia are responding loyally. Other meetings may be held in the near future.

An Enjoyable Day

One of the most enjoyable events of the season was a little gathering of friends at the home of R. O. Cowan north of town, on July the 4th. Nothing was left undone for the comfort and pleasure of those fortunate enough to be present. The table spread in the shade of those nice large trees was burdened with good things too numerous to mention, and reminded one strongly of the good times in old Mo. This with ice cream and lemonade in the afternoon was certainly enjoyed by all.

Those present were Grandma and Grandpa Van Vest and grand-children, Virgie and Homer. Mr. and Mrs. Daniels, Bro. Cochran and wife, Messrs Harold Shapland and Albert Cochran, Misses Verda Van Vest, Ollie Simmons and Idelia Cowan, the host, hostess and children.

All left late in the afternoon grateful to Mrs. Cowan for the pleasant day, an example of Southern hospitality. How often we fail to appreciate the good thing at hand as we should while celebrating the "Fourth." It was a day of rest and recreation never to be forgotten by those present.

One Who Was There.

Life Was a Misery

Mrs. F. M. Jones, of Palmer, Okla., writes:
 "From the time I entered into womanhood . . . I looked with dread from one month to the next. I suffered with my back and bearing-down pain, until life to me was a misery. I would think I could not endure the pain any longer, and I gradually got worse. . . Nothing seemed to help me until, one day, . . . I decided to

TAKE CARDUI

The Woman's Tonic

"I took four bottles," Mrs. Jones goes on to say, "and was not only greatly relieved, but can truthfully say that I have not a pain. . . ."

"It has now been two years since I took Cardui, and I am still in good health. . . I would advise any woman or girl to use Cardui who is a sufferer from any female trouble."

If you suffer pain caused from womanly trouble, or if you feel the need of a good strengthening tonic to build up your run-down system, take the advice of Mrs. Jones. Try Cardui. It helped her. We believe it will help you.

NOTICE.

State Engineer's Office.

Number of Application 0211. Santa Fe, N. M., June 18, 1917.

Notice is hereby given that on the 11th day of June, 1917, George Riggs of Lower Penasco, County of Chaves, State of New Mexico, made application to the State Engineer of New Mexico for a permit to Change the Place of Penasco river, for the reasons as set forth in the statement and exhibits accompanying the application; right to the use of the water being represented as having been acquired by beneficial use.

The appropriation is to be changed from the N. E. $\frac{1}{4}$ N. E. $\frac{1}{4}$ N. W. $\frac{1}{4}$ and N. W. $\frac{1}{4}$ N. W. $\frac{1}{4}$ N. E. $\frac{1}{4}$ Section 30, Township 16 S., Range 17 East, 2.75 acres to 1.20 acres in the S. W. $\frac{1}{4}$ N. W. $\frac{1}{4}$ N. E. $\frac{1}{4}$ and 1.55 acres in the N. W. $\frac{1}{4}$ S. W. $\frac{1}{4}$ N. E. $\frac{1}{4}$, all in township 16 S., Range 17 East, Section 30.

Any person, firm, association or corporation deeming that the granting of the above application would be truly detrimental to their rights in the water of said system shall file a complete statement of their objections substantiated by affidavits with the State Engineer and serve a copy on applicant on or before the 17th day of September, A. D. 1917, the date set for the Engineer to take this application up for final consideration unless protested. In case of protested applications all parties will be given a reasonable length of time in which to submit their evidence in detail or arrange a date convenient for a hearing to take testimony. Appearance is not necessary unless officially advised by letter from the State Engineer.

James A. French,
State Engineer.

Notice of Contest.

Department of the Interior, United States Land Office. Contest No. 9695.

Roswell, N. M. June 18, 1917. To Lewis A. Highsmith, of Dayton, N. M., contestee.

You are hereby notified that William J. Gushwa who gives Dayton, N. M. as his postoffice address, did on May 16, 1917, file in this office his duly corroborated application to contest and secure the cancellation of your homestead entry, Serial No. 027394 made June 23, 1913, for NE $\frac{1}{4}$ Section 2, township 19 S. Range 25 E., N. M. P. Meridian, and as grounds for his contest he alleges that you abandoned this homestead over two years ago and sold the house and moved away from the land. That your absence from the land was not due to your employment in military service rendered in connection with operations in Mexico, or along the borders thereof, or in mobilization camps elsewhere, in the military or naval organizations of the United States or the National Guard of any of the several States.

You are, therefore, further notified that the said allegations will be taken as confessed, and your said entry will be canceled without further right to be heard, either before this office or on appeal, if you fail to file in this office within twenty days after the FOURTH publication of this notice, as shown below, your answer, under oath, specifically responding to these allegations of contest, together with due proof that you have served a copy of your answer on the said contestant either in person or by registered mail.

You should state in your answer the name of the post office to which you desire future notices to be sent to you.

TIED TO TRACK AND RUN OVER

RUSSIAN MOB METES OUT FEARFUL FATE TO A GERMAN.

ATTEMPTED TO BURN A MILL

At the Point of Bayonets Engineer is Compelled to Take the Life of Teuton by Driving a Locomotive Over His Body.

Russia's wrath against intriguers in her borders is rising daily. At Karsk a German miller named Tolman, who had attempted to burn a mill, was arrested by a big crowd. He was seized and tied to a railroad track near by. The crowd ordered engineer to run over the prisoner. The former demurred. Then the crowd tried to start the engine but could not. They went back to the engineer and at the point of bayonets forced him to kill Tolman by running him down. Body of German was literally reduced to mincemeat.

The temper of the populace in Petrograd likewise has been aroused by attempts of friends of Robert Grimm, Swiss Socialist, who was deported because of his attempts to urge German separate peace intrigue.

They openly have been urging the recruiting of a regiment "to overthrow the capitalists before proceeding in the war. This same group of intriguers, says William G. Shepherd, United Press staff correspondent at Petrograd, tried their utmost to produce rioting in Petrograd a few days ago, when an anarchist committed suicide in the garden of General Durnovo's residence during the Cossack attack on that house.

NINETY-EIGHT INDICTED.

PLOT TO INCITE REVOLUTION IN INDIA BARED AT FRISCO.

Indictments charging conspiracy to promote revolution against British rule in India were returned at San Francisco against ninety-eight men located in various sections of America and abroad and ranging from millionaires and diplomats to Hindu laborers, with the Pacific coast metropolises as the base of operations in this country. The true bills were presented to Federal Judge Morrow by United States grand jury after man weeks' investigation.

Former German consuls in Chicago Honolulu, Manila and San Francisco, together with members of their staffs and former attaches of German embassy at Washington, are among those indicted.

Twenty Airplanes in Raid.

The largest number of German airplanes ever raiding London dropped bombs over the city Saturday. Twenty machines were seen. Apparently desirous of profiting by their poor aim in previous raids, due to great height at which bombs were released, German air pirates flew very low, and plainly seen from the street.

As soon as the sound of anti-aircraft guns engaging the raiders was heard many of the populace hurried into their cellars. Peppering of the guns firing at the Germans gave ample warning of the raid.

Four German machines were completely wrecked. The bombs killed thirty-seven persons and wounded 141

Orleans Sunk.

The American steamship Orleans of the Oriental Navigation company has been torpedoed and sunk by a German submarine. Four of the crew were drowned, but all members of armed naval guard were saved. Name of the place and time of attack were withheld by the state department. As the first ship flying the American flag to brave a transatlantic voyage after Germany announced her policy of relentless submarine warfare, the Orleans was given a great demonstration upon her arrival at Bordeaux.

Government Controls Exports.

President Wilson issued a proclamation on Sunday night establishing government control over exports of certain necessities to allied neutral and enemy countries, through the licensing of such shipments, effective Sunday next. It is virtually an embargo and gives the United States an opportunity to determine its own requirements.

All to Be Sent Home.

All German diplomatic agents are to be cleaned out of the United States as the government proceeds with its work of stopping the leak of military information to Germany. Removal of the Teutons has been under consideration for several weeks, but the recent spy scare brought the situation to a head.

Unit Drafts Aug. 15.

The war department will draft national guard units Aug. 15. State will be given credit for all men in service against men to be called national army.
