# ARTESIA ADVOCATE

Show your appreciation to New Mexico soldiers by voting for Amend-Four, September 20. They helped you and remember the promises made to them while 'over there."

**VOLUME 19 NO. 43** 

J. R. HOFFMAN, Editor and Manager

ARTESIA, NEW MEXICO, SEPTEMBER 16, 1921

### FLIPS

BY SILVER

of The Artesia Advocate, Artesia, doing it. New Mexico. All other rights pro-

The offer made to the United States by Henry Ford for the purchase of the Muscels Shoals nitrate plant has made Ford the target for a united attack from a combination of big business firms who accuse Ford of every crime that can be thought of. Ford proposes to take over this "white elephant" and operate it for the benefit of the people, charging for actual cost of manufac-ture with an additional eight per cent for his profit on the invest- and explained what a great thing it good times, let us analyze them. PROBLEMS ON TRANSMISSION

It Is a Serious Mistake to Permit Car

to Gain Too Much Speed Before

Changing Combinations-

Good Method Outlined.

One of the marks of a good driver

is the manner in which he handles

the gear shifting lever. Of course,

the design of the clutch has a great

deal to do with easy gear shifting,

but even with this advantage a cer-

tain amount of practice is necessary

The transmission is made up of a

idler gear mounted on the transmis-

sion case. The first speed, second

speed and reverse combinations are

with various ratios, to give the mo-

tor a greater leverage against the

driving mechanism when required.

High speed is direct drive, which

means that the propeller shaft re-

volves at the same rate of speed as

the motor crankshaft. The various

gears are brought into play by moving

the gear shifting lever to the proper

Power Is Disconnected.

When the clutch pedal is pressed

all the way down the power of the

motor is disconnected from the trans-

mission system, which releases the

pressure of the gear teeth against

each other and makes it possible to

shift the gears easily. Also, when

the gear shifting lever is in neutral

position the power is disconnected

from the rear driving mechanism, be-

cause none of the transmission gears

may be summed up in the statement

that the two gears about to be meshed

should be revolved slowly and as

nearly as possible at the same rate

of speed. If one is revolving much

faster than the other it is difficult to

How to Get Good Results.

sons, to let the car gain too great a

speed before shifting into a higher

combination. The following method

With the throttle closed and the

will be found to give good results:

tion. Engage the clutch slowly at

the same time pressing down on the

accelerator pedal gradually. Let the

car attain a speed of about four or

five miles an hour and then throw out

the clutch, removing the right foot

entirely from the accelerator pedal.

Push the lever slightly forward into

neutral position, then clear to the

left and forward into second speed.

Let the clutch in gently, as before,

and accelerate the speed of the car

to about eight or ten miles an hour,

when the clutch should be again dis-

engaged, the foot removed from the

accelerator and the gear shifting lev-

er pulled straight back into high speed

All of these motions should be made

### MINISTER DISCUSSES HIS WIFE'S TROUBLES

Rev. A. H. Sykes, former pastor of the Watkins Park Presbyterian church, Nashville, Tenn., says:

"After seeing what Tanlac has accomplished in my wife's case, I am convinced that it is a medicine of great power and extraordinary merit. I do not think I have ever seen any thing give such prompt results. Mrs. Sykes had been in delicate health for ten months, suffering from stomach trouble and nervous breakdown.

"I frequently sought medical advice but Tanlac is the only thing that gave her any relief. After taking the medicine only a short time, she was able to sit up and help with the household duties. I think it only a short time until her health will be fully restored."

Tanlac is sold by leading druggists everywhere.-Advertisement.

Sometimes the hardest things to bear are what the neighbors say.

The charm of a bathroom is its spotlessness. By the use of Red Cross Ball Blue, all cloths and towels retain their whiteness until worn out. 5c .- Advertisement.

# YOU NEVER CAN TAME A WILD-CAT

### Mr. Dodson Warns Against Use of Treacherous, Dangerous Calomel.

Calomel salivates! It's mercury. Calomel acts like dynamite on a sluggish liver. When calomel comes into contact with sour bile it crashes into it, causing cramping and nausea.

If you feel billous, headachy, constipated and all knocked out, just go to your druggist and get a bottle of Dodson's Liver Tone for a few cents which is a harmless vegetable substitute for dangerous calomel. Take a spoonful and if it doesn't start your liver and straighten you up better and quicker than nasty calomel and without making you sick, you just go back and get your money.

If you take calomel today you'll be sick and nauseated tomorrow; besides, it may salivate you, while if you take Dodson's Liver Tone you will wake up feeling great, full of ambition and ready for work or play. It's harmless, pleasant and safe to give to children; they like it .- Advertisement,

There is less in a name than in the way it is applied.

## **ASPIRIN**

Name "Bayer" on Genuine

Beware! Unless you see the name "Bayer" on package or on tablets you are not getting genuine Aspirin prescribed by physicians for twenty-one years and proved safe by millions. Take Aspirin only as told in the Bayer package for Colds, Headache, Neuralgia, Rheumatism, Earache, Toothache, Lumbago, and for Pain. Handy tin boxes of twelve Bayer Tablets of Aspirin cost few cents. Druggists also sell larger packages. Aspirin is the trade mark of Bayer Manufacture of Monoaceticacidester of Salicylicacid. -Advertisement.

A good bluff is often more effective than a bad act.

### Cuticura Soothes Baby Rashes

# ·ROAD BUILDING

ITALY WANTS BETTER ROADS

Experimental Institute Promoted for Study of Materials for Improved Highways.

The Italian Touring club has recently promoted an experimental institute of roads for the study of materials employed in the construction and maintenance of highways.

The objects of the institute will be to carry on laboratory experiments on the physical and mechanical characteristics of road materials; to help the progress of experimental technics relative to highway surfacing by reproducing and studying samples of pavements worn by traffic or deteriorated otherwise; to form a collection of material samples suitable for Italian road construction; to collect all descriptive and scatistical matter appertaining to Italian roads; to furnish public bodles with useful advice relating to construction and maintenance of roads, and to forward by every other means the development and betterment of road work in Italy.

The institute publishes monthly reports of its proceedings. The institute is financed by annual contributions from the Touring Club of Italy, by an annual subsidy from the ministry of public works and by annuities, gifts and charges for material tests.

The institute is under the direction of Sig. Italo Vambone, formerly chief engineer of the province of Milan. More detailed information regarding the formation of this institute s given in a recent bulletin of the Permanent International Association of Road Congresses.

### TRACTOR TO IMPROVE ROADS

Contraption Invented by Colorado Man Is Intended for Smoothing and Compacting.

The Scientific American in illustrating and describing a tractor for improving highways, the invention of J. Mosca of Rouse, Colo., says:

"The tractor is for use in soft reads as for instance in snow or mud, where in the tractor is driven by an endless belt traveling about a fixed element and engaging the ground on the

Tractor for Use on Soft Roads.

under side of said element, and having means for preventing slipping of the belt, and wherein front wheels are provided for smoothing and compacting the roadway for the propelling means, and wherein cleaning means is provided for the belt and front wheels?"

### HARD ROAD IN NEW ZEALAND

Sum of \$146,000 to Be Spent in Construction of Strip of Concrete Six Miles Long.

Approximately \$146,000 is to be spent by the city of Wellington, New Zealand, in building a concrete road, 25 feet wide, to the suburb of Petone, which is six miles distant.

The new paving will occupy the center of a thoroughfare 100 feet wide which is now macadamized. Only vehicles, such as carts, motorcars and small motortrucks will be allowed on the concrete way. A special vehicle tax in addition to the present one, will be levied by Wellington, the proceeds of which will be devoted solely to the upkeep of this road. This tax applies to all motor-driven cars, and among them are also included motorcycles.

### IMPROVEMENTS ARE TO COME

Establishment of Motortruck Trains Bound to Cause Reconstruction of Surfaces.

With the establishment of motortruck trains operating on a fixed schedule throughout the country improvements are bound to come. Not only will surfaces of the highways be rebuilt, but in many instances routes will be shortened to save time and money.

These improvements should be regarded as vital to the success of every community and as a necessary factor in the prosperous era before us. They represent benefits in which not a few Individuals but the community at large will share.

Teach mighway Engineering. Schools and colleges throughout the United States are to be enlisted in a national way to teach the coming generation all about highway engineering, automobile transport, traffic regulæ tions and safety.

Dixle Highway Leads. Of the 9,630 miles of roads to be constructed throughout the United States through the aid of federal appropriation, the Dixie highway leads the list with 895 miles.

# HOME HAS TWO

Strength and Comfort the Aim in Designing This House.

HALF TIMBER AND STUCCO

Large Broad Front Porch Is Screened In, and Sun Parlor and Wash Room Are Features Which Will Prove Attractive.

By WILLIAM A. RADFORD. Mr. William A. Radford will answer uestions and give advice FREE OF COST on all subjects pertaining to the subject of building, for the readers of this paper. On account of his wide experience as Editor, Author and Manufacturer, he is, without doubt, the highest authority en all these subjects. Address all inquiries to William A. Radford, No. 1827 Prairie avenue, Chicago, Ill., and only inclose two-cent stamp for reply.

To most of the people the selection of a house design and the details of the contrast is one of the most important events in their whole lives. For the average man does not intend to build more than one home during that time and he wants, if possible, to have a home for his children when he passes into the Great Beyond. In the planning of this new home there are many factors to be considered, but the two important considerations are durability and comfort. A home possessing these two qualities is bound to prove successful. Too many home window and opening into the sun parbuilders have overlooked the basic lor at the rear through two doors. foundations of a real home in their This sun parlor can be used as zeal to get something freakish and sleeping porch. It is glazed in. A different. They wanted a show place, swinging door on the left opens into and as a result lost sight of the true the kitchen from the dining room. character of the home. A few years This kitchen is what architects are later they have regretted their action now putting in modern homes. It is for the so-called show place was merely a small room, quite compact but coma shell, and soon became the worse for plete, and because of its size a saver wear and tear. It is only logical of steps for the housewife. It is the and sensible that the man of moderate sensible successor of the old-style means should try to get the best large kitchen, which was two or three there is for his money. It can be at- times too big for its purpose, and only tractive, too, and strong. Today in a cause for much extra work.

this roof dormer in front of the bedrooms is a small balcony with very artistically designed balcony rail.

Stepping inside, the visitor Ands himself in the main room of the house, a wonderfully spacious living room 18 by 23 feet 6 inches easily as bloom two ordinary rooms. At one side is the open brick fireplace that "burns." Windows on three sides, this room extends across the entire dwelling, provide excellent light and ventilation and add to the cheerfulness and comfort of this room.

At the right to the rear is an open doorway leading into the dining room, a room of good size, lighted by a triple

But in building a home like the one of the kitchen and bathroom. shown here, the average man of means cannot make any mistake, for it em- quarters, consisting of four bedrooms bodies the two important features, strength and comfort. It is evident ample closet space and windows on that charm has not been sacrificed in any way to gain this result. In fact home, the number and size of winthe exterior is very attractive and en- dows is quite important. Especially hanced by some architectural touches is this true of bedrooms or any place that make it very appealing and striking. It has borrowed some of the

popular features of the English home, for instance, the half-timber effect the skate practically to its present above the first floor, the rough tex- condition. ture finish stucco, the broad substantial flue indicating a cheerful fireplace in a large living room, and the wide sweeping gable roof.

One of the most appealing features is the broad front porch extending across the front of the house, screened in from insects and pests, a wonderful retreat in the "dog days" and an ex- thence to England and the United cellent sleeping porch. A long roof States. Since that time the craze has dormer breaks up the great sweep of appeared at intervals only to die out the room and provides windows for the again. During 1884 and 1885 the sport bedrooms upstairs. Running along was at its height in the United States.

in pack of the kitchen is a small fronted with glaring examples of fad- washroom, in city homes used as a dism in home building-row after row laundry, in farm homes as a cleaning up place for the help returning from the fields. It keeps this dirt out

On the second floor are the sleeping of average size, each room having two sides. In the construction of a where people sleep. They require plenty of fresh air through the night, and this can only be gotten by windows carefully placed.

A roof dormer at the rear of the house provides windows for the rear

A unique feature of this house is the garage at the rear adjoining the house. Instead of being built on the terrace, as is the house, it is built on a level with the walk and reached by a concrete driveway with high concrete walls, semi-tunnel style. It is built of frame and will hold two cars.

### ONCE GREAT INDOOR SPORT

Roller Skating Was at the Height of Its Popularity in This Country in the 80's.

The roller skate was patented in France as early as 1819. Since that time scarcely a year has passed without the recording of some improvement. Plimpton's improvement consisted in so gearing two pairs of wheels that they would "cramp" when the footplate was canted to either side, and thus cause the skate to move on a curved line. Several years elapsed before the value of this invention was recognized generally. In the meantime the inventor was busy making improvements and taking out other patents and in 1874 had brought

The device of "cramping" the wheels secured the initial success of roller skating. The earlier inventions were crude affairs compared with the mod ern appliances. About 1864 the mania for roller skating appeared in England. Two years later the "rinking" fever broke out in Australia, and spread

### BETTER **ROADS**

### DEVICE TO MAINTAIN ROADS

King Split-Log Drag Was the Inven-tion of a Missouri Man-Its Construction Explained.

The King split-log drag is a good drag made of a split log, and originated by Mr. D. Ward King of Maitland, Mo. Mr. King explains the construction as follows: "Take the two halves of a split log, ten or twelve inches thick and seven to nine feet long. Set the halves flat sides to the front, fasten 30 inches apart with strong stakes, the ends of which are wedged in two-inch auger holes bored through the slabs. Put a solid plat-

the King Split-Log Drag.

form on the stakes for the driver to stand on. The hitch is made of strong wire or chain, the long end fastened to stake over the top of the front slab, the short end put through a hole in center of the slab and near the end to prevent the back slab tilting forward. Face four or five feet of the ditch end of the front slab with fron. An old wagon tire, worn share of road grader, or any piece of flat steel, will answer for this purpose."

### HARD ROADS SAVE GASOLINE

They Also Result in Much Less Wear and Tear on Tires, Springs and General Comfort.

In tests recently made at Cleveland, D., a five-ton truck carrying a full load averaged 11.78 miles per gallon of gasoline over a concrete road and but 5.78 miles per gallon over an earth road in average condition.

different kinds of highway. On the earth road the mileage per gallon of gasoline was as above noted, 5.78. On fair gravel, 7,19 miles per gallon; on good gravel, 9.39 miles; on fair macadam, 9.48 miles; on fair brick, 9.88 miles; on good brick, 11.44 miles, and on the original "beautiful mile" club. on concrete, 11.78 miles per gallon of gasoline.

According to the above figures, for a man who drives his auto 8,000 miles during the year and assuming that 4,-000 miles of the total will be over medium to poor roads, the balance over fair to good roads, the cost of gasoline would be \$40 to \$50 in excess of what it would be if all of the road was made of concrete.

Besides the extra expense for fuel, there would be a big saving on tires, springs, general wear and tear and

### HAULING ON COUNTRY ROADS

Yearly Average From 1915 to 1919 Amounted to 86,500,000 Tons-Illinois in Lead.

Eleven principal crops afforded 86,-500,000 tons for hauling on country roads in the yearly average of 1915 to 1919, or 27 tons per 100 acres harvested. Among the results of computations made by the bureau of crop estimates, United States Department of Agriculture. Illinois is far in the lead of states in providing crop haulage, and its fraction of the United States total is one-tenth, or 8,855,000 tons. Iowa has 6,590,000 tons, and Kansas somewhat more than one-half of the Illinois tonnage hauled, with 4.862,000 tons. Following in order are Nebraska, Indiana, Ohio and Texas, with 4,050,000 tons in the last-named state. The difference between high and low costs of hauling due to poor or good condition of roads reaches a large figure in the hauling of this great tonnage, or a large fraction thereof.

### Last Toll Road.

The last toll road in New Jersey passed into history when the state highway commission purchased a four and one-half-mile stretch near Camden for \$70,000. The road was constructed in 1850.

# Motor Trucks Overweight.

During the last year highway inspectors in Pennsylvania weighed 4,076 motor trucks in various sections of the state and found 1,156 to be over-

### WHAT TO KNOW ABOUT TOWN

Matters on Which Prospective Citizen Will Do Well to Satisfy Himself . Before Locating.

In the opinion of one who has given much thought to the question of civic betterment along various lines, the following points should be settled to his satisfaction before decision to make a home in any town is definitely arrived at:

Living-Can we live reasonably and well in that town? Are the best of modern conveniences available for its residents-electricity, gas, telephone, etc.? Are the housing and shopping conditions favorable? Rents, taxes, and prices fair? Hotels good? Home and truck gardens and dairy products plentiful?

Accessibility-Can we go and come easily? Does the town have adequate railroad connections and train service? Street car lines? Interurban lines? Well-marked automobile routes and hard-surface roads?

Business-Can I make good use of capital in that town? Are there banking facilities? Manufacturing interests? Up to date stores? Good shipping facilities? Favorable labor conditions? A prosperous farming territory? Active co-operation among business interests?

Employment-Can I get a job in that town at fair pay and with good prospects for the future? Can I count on co-operation from organizations making it their business to help in-

Progressiveness-Shall I find that I am in a town having a progressive pull-together spirit in everything-a town with a future?-L. N. Flint, Department of Journalism, University

### EXPECT RESULTS FROM CLUBS

Organizations Formed in Alabama to Beautiful Sections Are Hailed With Much Enthusiasm.

The "beautiful mile" idea, we understand, originated in the mind of collar and the novel sleeves, set in and narrow fold insist upon the prac-Billie Maltby, the manager of the club, who is actively engaged in work. fringe. This fringe is of chenille and be made of any of the usual sultings. ing out the details of the club. In our opinion he has conceived an idea which is going to result in great good In the building of better roads, better homes, and the making of a better citizenship. The idea is taking root in other sections, and we would not be surprised to see "beautiful mile" clubs organized all over Alabama within the next 12 months. The idea will be carried into the towns and cities The truck was tested over seven and "beautiful street" clubs will be organized. Everybody will want to live on a "beautiful mile" road or a "beautiful street." And, in the language of the Birmingham News, Billie Maltby has started something which is going to keep the eyes of the public They are going to see what it does and how it does it. Here's hoping that they come up to the full expectations of those who are looking on .-Southern Democrat, Oneonta, Ala.

### Billboards in the Clean-Up.

The clean-up campaign fostered as a preparation for the American Legion convention is progressing well. Individuals have taken hold in good shape. People are cleaning up their yards and painting their houses. That is about as far as individuals can go.

Now it is up to the city to take a hand in the beautification program by banishing the billboards from the restdence districts. Nobody has a right to damage his neighbor's property by setting up a big sign across the street from a residence, or next to a residence. Nobody has a right to damage the community by introducing glaring signs on a boulevard or into a residence district.-Kansas City Star.

Industrial Plants in Small Towns. The small town as a potential industrial asset has already been utilized to some extent by manufacturers. chiefly those seeking relief from labor troubles in the cities. In some industries, where there is an enormous production of standardized parts, the only difficulty to be met is transportation, and it is reasonable to believe that good roads and motor trucks will solve that problem. If so, the small town may again become the backbone of the United States.

What Muskrats Did for Maryland. Maryland has many muskrat farms. Owners of the marsh land of Dorchester county harvest from 100,000 to 125,000 muskrat skins a year. There is a market for the meat as well as for the fur. A single Baltimore firm handles 25,000 to 30,000 muskrat carcasses a year and is unable to supply the demand at that. Hotels in Maryland offer them on their bill of fares as "marsh rabbit." Marshes formerly considered valueless are now worth \$30 to \$40 an acre for muskrat cul-

# ANNOUNCEMENT

Mr. Edsel B. Ford, President of the Ford Motor Company, makes the following announcement:

"We are making another reduction in the prices of Ford cars and the Ford truck effective today. The new prices average \$70.00 under former prices, and are the lowest at which Ford cars and trucks have ever been sold. List prices, F. O. B. Detroit are now as follows:

	New Prices	Old Prices	AMOUNT OF REDUCTION
Chassis	\$295	\$345	\$ 50
Runabout	325	370	45
Touring Car_	355	415	60
Truck	445	495	50
Coupe	595	695	100
Sedan	660	760	100

"This is the third price cut during the past twelve months. On September 22, 1920, the price of the Ford touring car was reduced from \$575 to \$440; June 7th to \$415, and now to \$355, making total reductions in this type of \$220, or 38 per cent. The same proportionate reductions have been made in all other types. One year ago the price of the Ford sedan was \$975; today it lists at \$660 with the same equipment.

We are taking advantage of every known economy in the manufocture of our products in order that we may give them to the public at the lowest possible price, and by doing that, we feel that we are doing the one big thing that will help this country into more prosperous times, People are interested in prices, and are buying when prices are right.

'The production of Ford cars and trucks for August again broke all previons high records with the total reaching 117,696. This is the fourth consecutive month in which our output has gone over the hundred thousand mark, the total for the four months being 463,074, which has gone a long way in making possible the prasent reductions. June this year, with an output of 117,247 was the previous record month.

'One noteworthy feature of our sales is the increased demand for Ford trucks and cars for salesmen. This class of commercial business has been gradually increasing the past sixty days and we interpret it as a very good sign of improvement in general business.

'No reduction has been made in the price of the Fordson tractor, and none is con-

Go over these new prices! See how little it costs to become the owner of a Ford car or truck. Can you really afford to do without one any longer?

Let us tell you more about it, and advise you regarding the delivery of the particular type of car in which you interested.

### YOUNG GIRL FINDS RELIEF

### Wants to Tell Other Girls All About It

Evansville, Ind.—"I am eighteen years old and have been bothered for several months with

rregular periods. Every month my back would ache and always had a cold nd felt drowsy and sleepy. I work in a millinery shop and I went to work every day, but felt stupid and would have such cramps. I had seen Lydia E. Pinkham's Vegetable Com-

Lydia E. Finkham's
Ve get able Compound advertised and had heard several
women talk of it, so mother got me
some. This Vegetable Compound is
wonderful and it helped me very much,
so that during my periods I am not now
sick or drowsy. I have told many girls
about your medicine and would be glad
to help anyone who is troubled with
similar ailments. You may use my testimonial as you like."—Stella Linxwiler, 6 Second St., Evansville, Indiana.
Some girls lead lives of luxury, while
others toil for their livelihood, but all
are subject to the same physical laws
and suffer in proportion to their violation. When such symptoms develop as
irregularities, headaches, backaches,
bearing-down sensations and "the
blues," girls should profit by Miss Linxwiler's experience and give Lydia E.
Pinkham's Vegetable Compound a trial.

The Latest. "I want some desk stockings."

"Desk stockings?" "Roll tops."

### Important to all Women Readers of this Paper

Thousands upon thousands of women have kidney or bladder trouble and never

suspect it.

Women's complaints often prove to be nothing else but kidney trouble, or the result of kidney or bladder disease.

If the kidneys are not in a healthy condition, they may cause the other organs to become diseased.

You may suffer pain in the back, head-ache and loss of ambition. Poor health makes you nervous, irritable and may be despondent; it makes any

But hundreds of women claim that Dr. Kilmer's Swamp-Root, by restoring health to the kidneys, proved to be just the remedy needed to overcome such

Many send for a sample bottle to see what Swamp-Root, the great kidney, liver and bladder medicine, will do for them. By enclosing ten cents to Dr. Kilmer & Co., Binghamton, N. Y., you may receive sam-ple size bottle by Parcel Post. You can purchase medium and large size bottles at all drug stores .- Advertisement.

### Surprise the Weapon

Dub-"How?" Rub-"Paid him that \$10 I owed him."

### A NEW FIRM.

A hennery owner in a New Hamp shire town, a short while ago, on his way to the railroad station with the day's consignment of eggs to several commission merchants of Boston, was hailed by a genial neighbor:

"Who ye sendin' them aigs to, Carl?" the neighbor wanted to know.

"Oh, various and sundry," the egg raiser replied.

"Got a new customer, hey? Pleased ter hear it."

### In Line for a Fee.

The Motorist-Say, friend, my engine's stalled. Think you can help me find out what's the matter with it? Constable Talltimber-I can, but I won't just now. I can't pinch you for speedin', but in ten minutes I'll fix up your engine and then pinch you for parkin' here too long.

Mrs. B.—Men are such brutes!
Mrs. C.—Aren't they? What was
It your husband refused to buy for you today?

Didn't Start It.

### His wife reproved him sharply When he his razor cursed. "Why don't you scool the blade?" "It lost its temper first." **VICTIMS**

Kidney, liver, bladder and uric acid troubles are most dangerous because of their insidious attacks. Heed the first warning they give that they need attention by taking

# Making History.

INFANT MORTALITY in past ages has been something frightful, something almost beyond belief, and even today it occupies the time and the mind of leading physicians in all countries. The death rate among infants is being gradually reduced through new methods of hygiene, new preventatives and new remedies for infants. This reduction in the death rate has NOT been accomplished by adapting the precautions taken and remedies used by adults. Rather has it been to keep clear of the old methods, and choose after long research the precautions and remedies specifically applicable to infants.

This being so, is it necessary for us to caution mothers against trying to give her baby relief with a remedy that she would use for herself? Will she remember that Fletcher's Castoria is strictly a remedy for infants and children?

Of Course You Love Your Baby.

You love it because of its very helplessness, because it can't tell

BRYAN MUDGETT POST. AMERICAN LEGION, Carlsbad, New Mexico

> MATTLE TUST. AMERICAN LEGION, Artesia, New Mexico.

september Ist, 1921 Dear Comrade:

are you lammar with the provi OL AMENDMENT NUMBER FOUR, to be voted upon at the Spe Election on September 20th?

izes the legislature to exempt the property of soldiers, sallors, and in valuation from taxation. This amenament must carry before the legislature can give the relief.

A DUTY TO PERSONAL. You owe it to yourself and to your comdades throughout the State, o do all in your power to put this amenament over, rou can do tals by going to the polls yourself allo VOTING for AMENDMENT NUM BER FOUR, and by explaining AMENDMENT NUMBER FOUR and the reasons why it should be supported by every voter in your precinct between now and Septem-

FOR GOD AND COUNTRY

This will be the first opportunity the people of our state have had to caeir sentiments toward ex service men and women. It will de termine whether they are grateful and appreciative and just to the men wno risked their lives to pro tect the property and happiness of these same citizens, or whether, now that the danger has passed they will prove ungfateful and in different. It is up to you to see to it that the issue is put squarely to each voter. The ex-service man has the right to know whether the peopie of the State are concerned about his happiness and welfare, and ready to assist him in rehabilitating his conditions and fortunes sacrificed in the defense of State and Country. Are the people of the State concerned? Was the honor of the State of New Mexico successfully upheld by the soldiers, sailors and marines, who represented the State in the Great War? Are the people of the State proud or ashamed of the record that was nade? These are the things we want to know and which will be determined on September 20th. Shall the people (Men and Wo-

men) Redeem Their Pledges Made during the War?

A number of states have already by vote of the people provided reform or another, to help them overcome the great handicaps these men were under in taking up their places in civil life again. In no state has a relief measure for the ex-service men and women been turned down when the people had an opportunity to vote for it. New Mexico, must not be the exception. That to every good citizen, and a disgrace to the dead and crippled vet-

AN EXPLANATION!

J. M. Jackson, Prop.

SENATOR BURSUM OF NEW MEXICO.

When Senator Fall resigned to ac cept a position in President Harding's cabinet, the governor of New Mexico appointed Holt O. Bursum to be his successor in the senate. That was a temporary appointment. On September 20 a special election will be held to fill the unexpired term. Senator Bursum is a candidate to succeed himself.

What the voters of New Mexico business of The Searchlight. But it is our duty to aid them as much as possible with information as to what Bursum has been and done in the senate. a review of his public record.

With the Old Guard. The matter of affiliation and alignment is highly important. On the republican side there are two clearly defined and completely antagonistic groups in the senate. Lodge, Smoot, Penrose, Watson, Kellogg and Wadsworth are typical of the reactionary Old Guard group. sues of program and procedure are publican senators as Borah, Kenyon, Norris, Ladd and La Follette.

At the beginning of this session there was a battle between these two rreconcilable groups to secure the ed nay. support of newly elected or appoint- nay. ed Senators. The meaning of align-The Christian Bible School will ment was clear cut. ### FAREWELL PARTY FOR AILEEN ROWAN.

A large number of Aileen Rowan's friends and schoolmates gave a lovely lawn party for her at the home of Avliffe and Phyliss Polk just before her departure for California. Dancing was the order of entertainment and the refreshments were served on the beautiful lawn in the moonlight. Aileen's friends, known as "The Troublesome Ten" presented her with a handkerchief shower and expressed deep regret at losing one of their number.

Aileen was a loved and popular girl among her friends and her departure is keenly felt by them.

### SLICE TAKEN FROM TURKEY

Under British Mandate and Arabian Rule the Section, Better Known as Mesopotamia, Is Expected to Regain Former Glory.

Washington .- The impending addi-Aon of a new member to the family of nations-the kingdom of Irak, to funcnion under a British mandate-is mentioned in recent dispatches from Lonton. How this "new" country is in reality one of the oldest and most historic patches of the earth's surface is told in the following bulletin from the Washington headquarters of the National Geographic society:

"Irak has existed as a geographical aame for ages," says the builetin, "but in receat centuries it has had little nore official sanction than 'Manhattan' for the American metropolis or 'Frisco' for a thriving Pacific port. Yet it rovers more or less indefinitely a rezion known, and often famous, in every age of man from the dawn of tradition to the present-the fertile plain of the Tigris and Euphrates valleys, where the Garden of Eden is supposed by many students to have been situated. Strip Irak of its alias; call \* Babylon - Nineveh-Mesopotamia, and it is known to every school child.

A Slice of Turkey.

"The country which it is proposed to erect into the practically independent kingdom of Irak was placed under the mandate of Great Britain on the breaking up of the Turkish empire following the World war, and was generally spoken of as 'the mandate for Mesopotamia.

"It is difficult to exaggerate the agricultural paradise that might be built up in the lower valley of the two rivers, supplemented by the mineral wealth taken from the regions farther north, if the country were under a strong government, were peopled by alert, educated inhabitants, and if the necessary capital and modern machinery were available. Even with the factors as they are, the British, who will continue to hold the mandate, and the Arabians who will be in mmediate charge of the government are counting on the rise of a state which may be compared without disadvantage with some of the great governments that have occupied the land

"To gain an idea of what wonderful electrical discharges and other unusual development can be brought about in factors, which will be discussed by the Mesopotamia one need only look into leather chemistry section of the Amerthe past. Splendid, Gay, Wicked Bagdad.

"Under the Abbassid Caliphs, with a combination of Arabic and Persian culture, Bagdad was founded on the Tigris in the very center of the river plain-the splendid, gay, wicked Bagdad of the Arabian Nights. Mesopotamia's prosperity, though much less, was still relatively great, and Bagdad was for awhile the metropolis of the world, its inhabitants at one time numbering 2,000,000 souls.

"When the Turks got possession of the Caliphate and carried its seat to the west, Bagdad withered; and under Turkish rule the Tigris and Euphrates valley entered into its darkest period. Only a small percentage of the rich valley has for generations produced any crops.

"After the Young Turks came into power in 1908 reclamation work was undertaken in the Tigris and Euphrates plain and some headway was made. Since the British occupied Bagdad in 1917 this work has been carried much farther.

"It is planned under the new Arab state and the mandate to continue the Mrs. Williams' two-and-a-half-year-old work of rejuvenating the country's ancient irrigation system. But there is a Herculean task to be accomplished before 'the Garden of Eden' blooms again." was estimated before the World war that the ambitious project of the cost \$130,000,000. The total area that them for some time. might be irrigated is placed at about 12,500,000 acres.

etherwise) who has the knowledge of trees required by the test for the merit badge in forestry will ever be afraid to be alone in the woods at night, or at any other time. Once of the leather chemistry section are you know what the leaves do, and to be held. In it is unique and costly what makes them green and how the equipment provided from a special sap runs and why (or as much of that fund given by a well-known Milwaukee "why" as is known), and how the tanner. The results of these researches wood tissue is formed, and how the roots work, and what the tree does in winter-when you know such things about trees, you should never again be lonesome in the woods. For though what is reputed to be the smallest all these are merely scientific facts. they will make the trees real living things to you, and then you will begin to understand what is meant when one speaks of the trees "whispering" and of the leaves "clapping their hands."-George Gladden in Boys' Life.

"You made a remarkably good job of these bills, and I believe in recognizing genius." "Thanks, your bonor."

### Expediting the Ocean Mails at New York

Under the eyes of Postmaster General Hays, Postmaster E. M. Morgan of New York, and other high officials, a ew method of transferring ocean mails at New York was put into operation. The plan expedites foreign and constwise mails from 24 to 36 hours. In the past such mails have been held up until the passengers had been landed, frequently meaning delay of a day or more. Under the new system the New York Central railroad will operate special mail boats to which the mails will be delivered as soon as the vessels arrive at quarantine. The mail boats vill rush the matter to the New York post office and to outgoing trains.

### "Hell's Kitchen" on the Salton Sea

This quaint house is aptly named and decorated, for it stands upon the top of an old volcano and is 200 feet below sen level. It is the dwelling of Capt. Charles E. Davis, who heads the mollet fishing industry of Salton sea. The Salton sea is the bed of an ancient "marine lake" in Riverside and San Diego counties, California, and is 260 feet below sea level. The breaking through of canal banks of the Colorado river turned it into a fresh-water lake, 600 miles in area, in 1905-06. "Heli's Kitchen" is located on top of an Island (once the top of a volcanic mountain) 60 feet high,

CHAPTER VII.

When John Moreland and Ben Lit-Beford had finished their breakfast afternoon-

there in the dining room of the Blaisdell, they drank the water from their negerbowls, threatened with sudden death the waiter who snickered, and found the way to the lobby.

To Littleford the minutes dragged soddenly. Finally he fold Moreland, in a sentence filled with double negatives, that he could bear the suspense no longer, and proposed that they set out at once for Doctor Braemer's hospital. The hotel manager overheard some of the one-sided conversation; he 'phoned the surgeon and learned that the young woman was resting easily, which information he passed

on to the mountain men. Ben Littleford was quiet for five minutes, more or less. Then he again proposed to John Moreland that they go to the hospital to see Babe. Moreland refused flatly, and accompanied his refusal with an unmistakable look of contempt.

"You're as restless as a dawg in a flea town," he told his old enemy, and with that he walked away.

A few minutes later Ben Littleford stole out unnoticed by his neighbor from the Big Pine, and went at a brisk gail at the street. Moreland found it out shortly afterward; he followed the Littleford chief hotfoot, and overtook him. Trust your hill dweller to note landmarks when he goes into unknown territory - Littleford was headed straight for the hospital.

They walked for two blocks in silence. Moreland had assumed the attitude of one who has had the guardianship of an irresponsible person thrust upon him. But soon he softened somewhat.

"I shore cain't onderstand, Ben," he drawled, "how Bill Dale ever could

"I wonder," Littleford said absentmindedly, as though he had not heard, "whar Bill Dale is at? It's mighty durned lonesome without him, ain't it? B. Stokthout their even knowing That was good ham we had for break-

"It wasn't ham. It was beef." "It was ham."

"It was beef."

"It was ha-

"Don't ye reckon," flared John Moreland, "that I know a dang cow's meat when I see it? It was beef!"

They had halted in the middle of a on the lower veranda step in stream of pedestrians. A policeman "Move on!" he growled.

> Bill Dale was at that moment enter ing the lobby of the Blaisdell with Robert McLaurin at his side. Dale had just told McLaurin that he meant to go to Cincinnati to borrow money from his wealthy friend Harris. Then McLaurin told Dale something that. saved him the journey to Cincinnati.

"You haven't heard about Harris, Bill? I'm sorry, because he would have accommodated you. He went broke a few days ago in the cotton smash. He was here yesterday, and

Dale did not try to conceal his sur-"I told her that you were at the gate, prise and disappointment. Harris, for and asked if she would like to see you. all his youth, had been a business mar-

"I'll have to try somebody here, I guess. But I won't take it from father-mother wouldn't permit it, anyway, if she knew-and there are several other reasons. Queer how a fellow's mother would turn him down like this! Usually, y'know, it's a fellow's mother that sticks by him the

"I wonder where I could find old Newton Wheatley, of the Luthers Wheatley Iron company? I know him, all right. He always liked me. Bobby,"

"You'll find him at home," Mcl aurin answered. "He's out of business, and here all the time now. He might take a shot at coal. Why not 'phone him

"I'll do that," Dale decided. "Look up my two friends for me, Bobby, will

you?" He was soon speaking to Newton Wheatley. He was brief in stating his wishes. To the question as to why he did not go to his father for fundswell, he had his reasons, and it was rather a private matter. Wheatley, of

course, remembered the near-wedding. The old iron man was silent for what seemed to Dale a very long time. Then his voice came over the wire with an almost ominous calm:

"Who besides you has seen this vein, Carlyle? Anybody that knows coal?" "Yes, my father," Dale answered quickly. "He went over it years ago. Ask him about the coal in David More-

land's mountain. 'Phone him, and then phone me. I'm waiting at the Blais-Wheatley agreed a little reluctantly. Dale waited patiently for fifteen minutes. Then the clerk called him

to the 'phone. He took up the receiver with boyish eagerness. Wheatley began cordially: "Your fa-

ther tells me it is a good proposition, Carlyle, so I'll let you have all the money you'll need. And if you want a good mining man, I know where you can lay your hands on one; also I can furnish you, at half the original cost, all the necessary machinery and accessories. You didn't know the old Luther-Wheatley company dickered in coal as well as iron; eh? Well, it did. Let me see you at three o'clock this

Dale was jubilant. Here was a rare stroke of good fortune. He went to McLaurin-who had not yet found John Moreland and Ben Littlefordand told him about it. McLaurin was almost as happy as Dale over it. A bellboy appeared like a jack-in-the-box in the center of the floor. "Mistoh Cahlyle Dale! Mistoh Cahlyle Dale!" Dale wheeled. "Well?"

"Wanted immeditly at Doctoh Braemeh's hospittle, suh!'

Dale shook hands with McLaurin and hurried toward the street. A few minutes later Doctor Braemer met him in the reception room.

"What's wrong, doctor?" The surgeon beckoned. "Come with

He turned and led the way through a long corridor and to a sunny white room where Babe Littleford lay with a bandage about her temples. Ben Littleford was on his knees at his daughter's bedside; he was slowly wringing his big, rough hands and begging piteously to be forgiven.

Babe stared at him a trifle coldly.

"I Was a Tryin' to Skeer Him Out o' Fightin' Any More," She Interrupted.

stood in the doorway. Then she interrupted her father:

"You hush, pap, and go away. I'd told ye a hunderd times about fightin' a-bein' murder, and 'specially to us wimmenfolks, and you never would pay any 'tention to me. You hash, pap, and go away. Ef I die, I'll jest haf to die. And ef I die, I shore do want to die in peace. Go way, pap."

"But ye must live, Babe, honey!" to die, what'd I do?"

"I don't know what ye'd do, pap," Babe said weakly. "You ought to thought o' that afore, pap. It may be too late now. I want ye to go on off and le' me alone. Ef I die, I want to die in peace. The Lord knows I never got to live in peace!"

There was a worried look in her wonderful brown eyes, and the doctor saw it. He strode forward decisively and beined Littleford to his feet. The hillman wiped away a tear with his faded blue bandana, and hung his head. He had been made a broken man in one day.

"Go out to your friend Moreland," smiled the doctor, "and wait there for a little while."

Babe's father walked unsteadily out of the room. Dale went to Doctor

ing to make it?" anxiously. "Certainly she's going to make it," Braemer assured him. "Go on; she wants to see you.'

Dale drew a chair up close to the white bed and sat down. Babe's eyes lighted at once, and she put a hand uncertainly out toward him. Dale took the hand in his. He saw that it was a little pale under its delicate sunburn. "Glad to see you, Babe," he told ber-

softly. "Why do you think you're going to die, Babe?" She smiled at him. "Why, I don't

think I'm a-goin' to die," she said. "I know I'm a-goin' to live, Bill Dale. I feel like I could walk fifty miles right now! "But I heard you tell your father-

"I was a-tryin' to skeer him out o'

fightin' any more," she interrupted. "And I believe I bout done it, don't Dale was relieved, "I do. Is there anything you want, Babe? If there is, I'll get it for you if it's in the uni-

verse. "The universe?" she repeated inquiringly. "What's the universe, Bill Dale?

Somethin' to eat?" "The world, the sun, the moon, and

the stars." .She smiled at him again. "No," she said, "the' ain't nothin' I want, and ain't nothin' ye can do fo' me, I "But I thought, as they sent for

Babe Littleford's fingers held tightly to his. "It was me that sent fo' you." She turned her face the other way. "I was so lonesome, Bill Dale!"

Robert McLaurin's wife, Patricia, visited Babe twice daily, and a friendship that was none the less warm for Babe-whom she was already calling Goff. He's a villain, sir, if ever there by her proper name, the same being was one! And he's quite the smooth-Elizabeth-and educate her. There est article I've ever seen. He can was room in the bungalow, Patricia make you believe black is white, if said; and she really needed company. because Bobby was away so much.

Babe accepted little Mrs. McLaurin's offer as soon as Bill Dale convinced her that she wouldn't be merely an object of charity. The hill pride's first and he's been working devilment fast, law is that one must pay for what He was up here last summer, trying he gets-and it's probably the first to buy the Moreland coal for a song; law God laid down for old Adam in he knows all the people, you see. As Eden. Ben Littleford seemed bewil- soon as he landed here on this presthe arrangement, but he voiced no ob- tentions. Then, at night, he freed loan of a hundred dollars, and or- on, and went home with him. dered him to give it to his daughter, which he did. Elizabeth Littleford, of did some eavesdropping-poor By has course, would need new clothing.

"I ain't even got any dresses at home," she whispered to Patricia, "but father knew about the coal vein long

Bill Dale was sure now that he loved Babe, and he was almost sure that she cared for him. But he was lieve that they were due a big share quite properly in no haste to come to an understanding. He had known all It wasn't very hard to do, I guess. The along that Babe would have to be Balls, this set, at least, were originally educated! and a woman's tastes, he reasoned, might change with educa- tains, I understand, to keep from betion. And he wanted her to have the ing forced to fight during the Civil opportunity of knowing other men of war." his class. If she couldn't love him with a lasting love, he didn't want her to love him at all.

Oddly or not, he never thought of Jimmy Fayne.

### CHAPTER VIII.

Major Bradley and Henderson Goff. man Hayes and the two mountaineers at the big end" stepped from a short passenger train at the Halfway switch, they were apand a man whom Dale had never seen | me know?" said the major. everlasting good humor; his gray Dale, "if you will." mustaches and imperial were exceedingly well cared for; his teeth were his own, and as white as a schoolgirl's, and they bore out his general air of neatness. He was, plainly, a Southerner of the old type.

"Who's that?" whispered Dale to John Moreland.

But Moreland didn't hear. He ran forward with his right hand outstretched, and so did Ben Littleford. Men could not have greeted a brother ing. with more gladness, Dale thought.

"Hi, thar, Major Bradley!" the hill-Ben Littleford moaned. "Ef you was man cried, "And how d'ye come on turned and went back to Dale.

"I am very well, gentlemen, thank you," said the major, smiling,

He shook their hands heartily. "The day," he went on, still smiling, "and son Goff, and he wants coal." we were delighted to learn that the |. They went on. Soon they met a young woman was out of danger. I man who, in clothing and manner, trust you are all in good health, gen-

They assured him that they were, Moreland turned to introduce Bill Dele His eyes were black, and as keen as and the mining man. From the moment that Major Bradley gripped Dale's hand they were friends.

"Mighty glad to know you, sir!" exclaimed the old lawyer. "I've been hearing a great deal about you, sir, over in the walley of the Doe. They seem to think there's nobody just like Braemer and whispered, "Isn't she go- Bill Dale! It was Bill Dale this, Moreland wouldn't see the hand, and Bill Dale that; it was 'Here's where Bill Dale whipped Black Adam,' or, 'Here's where Bill Dale was standing when such-and-such happened,' or, thumb. "Bill he's the high light o' 'Here's where Bill Dale crossed the the whole business; and when he

### OBITUARY.

Mrs. J. H. Brantley nee Miss Turey Philpott, was born in Tennesse ept. 13, 1888, and departed this life Sept. 7th, 1921, at the age of 32 years, 11 months and 24 days. She was married to J. H. Brantley of Shelbyville, Tennessee, December 20, 1917. To this union was born two boys, Thomas and Henry aged 1 and 3 years, both of whom are still Being of a consumptive family, she contracted T B. some three or four years ago. the benefits of the climatic change, they came to Artesia in January For the last 14 months she has been bed-fast, but during all this time she has manifested patience, cheerfulness and hopefulness the last few weeks when she realized the end was near and became fully reconciled to leave her tittle ones and loved ones behind. her spirit has returned to God who gave it and her body awaits the change of the resurrection, let th bereaved husband and mother comfort themselves with the thought that their loss is her gain. May God's grace and help be with and sustain you both and the motherless children, is the prayer of the writer who conducted funeral services a the home at 3 P. M. Friday, Sept. A. J. COX.

DON'T YOU THINK IT WILL BE A LITTLE SAFER TO HAVE A SENATOR WHO DOESN'T NEED TO REFORM?

VOTE FOR HANNA

\* He doesn't need to bury or burn his record.

He doesn't need to apologize for any shady party history. He doesn't need to "break" with

the corporations. While the Bursum organs are fighting it out GET BUSY AND ELECT HANNA on September 20th.

ONE BRAND-ONE QUALITY-One Size Package

All our skill, facilities, and lifelong knowledge of the finest tobaccos are concentrated on this one cigarette—

Into this ONE BRAND, we put the utmost quality. Nothing is too good for Camels. They are as good as it's possible to make a cigarette."

Camel QUALITY is always maintained at the same high, exclusive standard. You can always depend on the same mellow-mild refreshing smoothness—the tante and rich flavor of choicest tobaccos - and entire fr edom from cigaretty aftertaste.

And remember this! Camels come in one size packar only—20 cigarettes—just the right size to make the gree saving in production and packing. This saving straight into Camel Quality. That's one reason can get Camel Quality at so moderate a price.

Here's another. We put no frills on the Camel package. No wrappers!" Nothing just for sho

Such things do not improve the any more than premiums or coupons. their added cost must go onto the or come out of the quality.

One thing, and only one, is responsi for Camels great and growing populari -that is CAMEL QUALITY.

R. J. REYNOLDS TOBACCO CO., Winston-Salem, N. C.

The WOMEN voters support Hanna because they care more for good B. D. Wilson Tuesday morning.

Bursum passed his vote on the Soldier Bonus Bill—and then voted for it after it was lost. Vote for 67,583.40 Hanna and fair play for the vet- tember 20th. erans.

The Senators have turned Bursum's drainage amendment want a senator who does things.

Just OUT-New Mexico's thrilling A Personal Reminisence" by HOLM Out WITH FALL."

# The Way to Happiness

Happiness is not a place. It is not a thing. It is a relation between things. We discover it most easily at the end of the path of daily unselfishness when we pass under the shining arch, "Help Another Every Day."

Do a Good Turn Daily

Help the blind or feeble man to cross the street. Carry the packages home for that little old woman. Give a pleasant smile to the clerk who waits upon you. You will feel better and they will. Greet the world with a smile and it will smile back. Christianity is founded on love to others. Attend the church of your choice Sunday and discover by daily effort what the true measure of Christianity involves.

Sunday School 9:45

Morning Subject: "Getting the Most out of Life." Evening sermon by Rev. J. C. Jones, P. E. The public is cordially invited to
