

# ARTESIA ADVOCATE

J. R. HOFFMAN, Editor and Manager

ARTESIA, NEW MEXICO, JULY 21, 1922

VOLUME 20 NO. 35

## ARTESIA WALLOPS ROSWELL AGAIN

The fast Roswell aggregation and the Artesia baseball team divided two games during the past week, which gave Artesia an advantage of two games won out of the three contests played with the upper valley town. These games place Artesia above all teams of the valley except the Carlsbad nine.

The first game was won by a score of seven to three, several weeks ago with Niel and Bullock doing the twirling for Manager Hawkins' men. The team journeyed to Roswell on Thursday for a return game. This game was won by Roswell by a score of eleven to three. Eleven errors were marked against the local players and was responsible for the defeat. Ortmann pitched an excellent game for Artesia, but lack of support was against him. He struck out four batters and allowed only six hits during the game. Artesia players connected with the horsehide for a total of seven hits. Hawkins and Flander got two hits each, while Black, Jones and Brown secured hits. The lineups for this game were: Roswell, Hedgcock, catcher; Boyle pitcher; Gibson, 1st base and 3rd base; Neil, center field; Moore, 2nd base; Eitz, 1st base; Harper, left field; Foster, short stop; Howard, 3rd base; and White, right field. Artesia: Jones, short stop; Hawkins, center field; Lanning, catcher; Ortmann, pitcher; Black, 2nd base; Barnstromer, 3rd base; Brown, left field; Feather, right field; and Flanders, 1st base.

The third game was won by Artesia on Sunday afternoon by the score of seven to five. O'Bannon was on the mound for the locals and did good work, striking out eight batters and allowing only three hits. His support was not very good, eight errors being marked up against his teammates. The Roswell twirlers were unable to check the slugging Artesia batsmen until after the second inning. Watson began on the mound and allowed one hit in the first inning. He "blew up" in the second inning and was relieved by Gibson, who proved to be no better. Six hits and seven scores were made in this inning by Artesia. Harper went on the mound for Roswell in the third and held the locals to two hits and no scores for the remaining portion of the game.

Black, of Artesia, stole the only base stolen in this game. Hawkins secured three hits in four trips to the plate, which raised his batting average to .667. Flanders, who was batting .500 a few weeks ago in second place has dropped to fourth place with an average of .333. Black has increased his batting average to .286. Feather, speedy base runner, was in hard luck, being unable to get on base in the last two games. Following are the lineups:

ROSWELL		AB	H	R	E
Moore, 2nd base	.....	4	0	1	1
Harper, 1st & p	.....	4	0	0	0
Eitz, 1st base	.....	4	0	1	1
Gibson, 3rd b & p	.....	5	2	0	0
Foster, ss	.....	5	0	0	1
Tate, cf	.....	5	0	1	0
Fort, rf	.....	5	0	0	0
Hedgcock, c	.....	4	0	1	0
Watson, p & 3b	.....	3	1	1	0
TOTAL	.....	39	3	5	2
ARTESIA		AB	H	R	E
Burkland, 3b	.....	4	2	1	0
Bigler, 2nd	.....	3	0	0	1
Feather, lf	.....	4	0	0	1
Hawkins, rf	.....	4	3	1	0
O'Bannon, p	.....	4	2	1	1
Flanders, 1st	.....	4	0	2	1
Linell, ss	.....	4	1	1	3
Black, c	.....	3	1	1	0
Gunn, 3rd	.....	0	0	0	0
Walcott, cf, 2nd	.....	1	0	1	0
Brown, cf	.....	1	0	0	0
TOTAL	.....	33	9	7	8

Summary: Two base hits, Hawkins 2, Black, O'Bannon, Gibson. Struck out by O'Bannon 8, by Harper 4, by Watson 2. Winning pitcher, O'Bannon. Losing pitcher, Watson. Base on balls, Moore, Fort 2, Harper, Black, Bigler.

### HOT WEATHER THIS MONTH

The past few weeks have been unusually hot for this season of the year, according to statements by several of the old-timers. The temperature has reached as high as 105 and 106 degrees several days during the last week or two. One cause for the hot weather is attributed to the lack of rain. The amount of precipitation has been very small and the stockmen and farmers are in great need of rain. It is hoped that the hot weather will not continue for a much longer time.

Mr. and Mrs. Nick Heintzelman left on Sunday for Tulsa, Oklahoma, where Mr. Heintzelman is employed by the Carter Oil Company. He has been in Artesia for several months, attending to business matters connected with his homestead.

### NOTICE

All delinquent water rent not paid by August 1 will be cut off.

B. STEPHENSON, Superintendent.

## DR. J. J. CLARKE ELECTED HEAD OF DENTISTS

New Mexico was accorded the honor of having the presidency of the Southwestern Dental Society for two years in succession, at the final session of the annual convention held in Hotel Paso del Norte. Dr. J. J. Clarke of Artesia, N. M., is the new head of the society. Dr. Clarke has been secretary of the organization during the last year and succeeds Dr. F. E. Morton of Hurley, N. M., as president.

Three El Pasoans were chosen for the other offices of the society. Dr. James B. Brady is first vice-president; Mr. L. A. Neil, second vice-president; and Dr. John M. Ridley, secretary and treasurer. At the business meeting Thursday afternoon, which concluded the annual four day convention, Dr. Morton spoke of the growth of the organization since its founding, five years ago. The convention this year, he said, was the best that had been held so far, both from the standpoint of attendance and in the excellence of the speakers who addressed the meetings. Dr. Morton expressed his confidence in the future growth of the society and in the work that will be accomplished by it.

## HUMAN BONES FOUND ON PECOS RIVER

Some road workers, who have been east of Artesia, brought the bones of a human arm and other bones of a human anatomy to town, which they had discovered on a sand bar in the Pecos river, near the Artesia bridge. No head bones were in evidence and the muscular part of the man was gone. An old vest and a shirt were with the bones. In one sleeve was a cuff link, which had been made from a dice.

No knowledge of the identity of the person discovered has been learned. The body appeared to have been dead for a long time.

## TRIPLE 'C' CLASS ENTERTAINED BY MISS COWAN

Miss Gladys Cowan was hostess to the members of the Triple 'C' class of the Methodist Sunday school at her home in west Artesia on last Friday afternoon. The young ladies devoted the afternoon to sewing and a general social occasion.

Delicious ice cream and cake was served by the hostess to Misses Mattie Mae Jackson, Burnell Carroll, Louellie Page, Mildred Frisch, Lorie Davis, Beverly Kirkpatrick and Adele Ohnemer.

## SUNBEAMS HAVE PICNIC ON CHURCH LAWN

The members of the Sunbeam Band of the First Baptist church, attended a picnic on the spacious lawn of the church on last Saturday afternoon. The children spent the afternoon in playing games and having a good time. A picnic supper was eaten by the youngsters before returning to their homes. Mesdames Holmes and Allen were in charge of the children. About fifteen were present.

## MRS. L. P. EVANS IS HOSTESS

A few friends of Mrs. L. P. Evans were entertained at her home in West Artesia on Friday afternoon complimentary to Mrs. William Carter of Carlsbad, who was visiting in Artesia with her parents, Mr. and Mrs. Tom Stagner.

The occasion was spent in sewing and other forms of amusement for a general social time. The guests were royally entertained by the hostess, who served ice cream and cake as refreshments. The following guests were present: Mesdames Reed Brainerd of Clovis, J. E. Robertson, Earl Bigler, Landis Feather, William Linell, George Long, Lewis Story, George Sasser, Harold Keinath, Deyton Reer and the honored guest.

Noah Garrett left on Thursday for Ft. Sumner, New Mexico, where he is employed by the Western Union Telegraph Company. He has been serving as operator at the local Santa Fe office.

Monty Cobble and Jess Norman have returned from a visit of several weeks at Magdalena, New Mexico, and other points in the state. The trip was made overland.

Mr. Charlie Mann has returned from Clouderoff, where he accompanied his daughters, who joined their mother at that place. Miss Zanaida Mann is keeping house for her father.

Mr. and Mrs. R. G. Knoedler and family, Mr. and Mrs. Pete Loving and family, Mrs. Laura Welsh and Miss Herma Welsh, left on Friday morning for the mountains where they will spend a week or ten days' vacation.

Mr. and Mrs. F. G. Hartell have returned to Artesia after a visit of several weeks in Washington and other Eastern points. They report an excellent trip, the entire distance being made in their automobile.

## PIE SUPPER ON COTTONWOOD

Pie supper and ice cream social at Upper Cottonwood School House, Saturday night, July 22. Everybody come.

## 'ARON SLICK FROM PUNKIN CRICK' PRESENTED IN HOPE

The cast which presented the rural comedy, "Aron Slick from Punkin Creek", at the high school auditorium recently under the auspices of the ladies of the Christian church, presented the same play in Hope, N. M., on last Friday evening before a capacity house. The American Legion post at Hope assisted in the advertising and general duties connected with an entertainment of this class.

The Legion hall was crowded, many being unable to obtain seats, on the night that this performance was presented. The audience was well pleased with the entertainment.

The cast and directors and musicians, which included Mesdames Essie Solomon, Hawkins, George Benz, C. Bert Smith and Una Hutchins, and Misses Madge Shepard, Corina Smith, Olivia Hawkins, Alma Norton, Elizabeth Solomon, Ethel Bullock, Zanaida Mann, Virginia Atteberry, Nila Wingfield, Velma Smith and Annie Bruce; and Messrs. John Richards, Fred Cole, Walter Graham, Clarence Stoldt, Luther Caraway, Noah Garrett, Claud Garrett, and Robert Feemster, left for Artesia during the afternoon, arriving at Hope in ample time to have a rehearsal. Before night, the party motored to the favorite picnic grounds of the community for a picnic supper. A large supply of cakes, sandwiches, pickles, ice tea and many other good things to eat were devoured by the hungry gang. Mr. and Mrs. Fred Gibson joined the Artesia group with a large pan of fried chicken, which was a great treat to the visitors. This act of hospitality and generosity was highly appreciated by those who were the recipients of the favor.

The cast was accompanied by many other Artesia people, among whom were Rev. and Mrs. J. H. Shepard, Rev. and Mrs. R. R. Coffey, Mrs. Walter Graham and children, C. Bert Smith, George Benz, Clint Cole, Herman Cole, John Dunn, Miss Ethel Oleson, Miss Viola Pierson, and others.

The first of the open air services to be conducted at the First Baptist church was conducted on last Sunday evening, upon the church lawn. A large congregation was present to enjoy the services in a cool place. Rev. W. C. Taggart preached the sermon. A feature of the services was a male quartette by Messrs. M. Stevenson, W. J. Williamson, B. A. Bishop and W. C. Taggart.

## HAY TRADE CONDITIONS OF THE WEEK

Receipts of hay have been much lighter in most markets this week and a somewhat firmer tone has developed. The new crop is being harvested and a very heavy yield is reported from all localities. The clovers have been much benefited by the copious rains, but this has hindered the curing of the hay and some new hay is arriving at the various terminals in a badly damaged condition, and has accumulated under a lack of demand.—Hay Trade Journal.

Mrs. Thornton Ferson has returned to Artesia after a visit of several days with friends in Clovis.

## COUNTY HEALTH DEPARTMENT CONDUCTS HEALTH PROGRAM

Baby Week was featured during the past few days by special programs and activities by the members of the county health department. The baby week was designated as the week following the tenth of July. The present month and the coming month are usually the seasons, when the infant death rate is at its highest mark. In order to reduce this high rate in this sector of the country the County health department conducted conferences throughout the county in an attempt to aid the parents to understand the ailments of the child and to give them the proper care.

The co-operation of local citizens the Parent-Teachers association, the Parent-Teachers association, physicians and the health department, were great factors in making this program a successful undertaking. Dr. Ennes, county health officer and the county nurse were in charge of the examinations, which were made during the week.

The examination of the children under school age, at Artesia, was made on Tuesday and Wednesday of this week at the central school building. A large number of children were examined and all information concerning the health of the child given to the parents. The results were very pleasing and very little trouble was encountered in the way of deformity or ill health among the children. Great good is expected from this movement of the health department.

The health officers went to Hope from Artesia and intend to go to Lakewood before the end of the week, where they will do the same work they did at Artesia.

## BARN BURNED DOING MUCH DAMAGE, CAR AND OTHER PROPERTY DESTROYED

The barn of Mr. C. M. Cole, located in the northwest part of the town, was totally destroyed by fire on Tuesday morning at three o'clock. The loss, estimated at two thousand dollars includes the building, an automobile, wagons, buggy, alfalfa hay, corn, and other farm articles and property.

The fire was discovered by Herman and Clint Cole, who were asleep at the initial outbreak of the conflagration. A collie dog was scratching and barking at the door of a sleeping house, where the boys were sleeping. Horses in the barnyard were also making much noise in an attempt to get away from the heat. When the boys awoke, they noticed every thing to be light as day and they heard a roaring noise. They discovered the barn to be in flames. The rest of the household were aroused and an attempt made to save other buildings nearby, and the residence. On account of weak water pressure, very little was accomplished for some time. The pressure was turned on but the fire hose was too short to reach the burning building. The heat was so intense that a work shed, near the two room sleeping house, near the two story dwelling became inflamed, but these conflagrations were extinguished after much effort.

Another barn nearby was scorched but did not catch fire. The fire department were able to reach the blaze after securing several hundred feet of old discarded hose, which had been used for irrigating purposes in the city park. The fire was entirely extinguished at this time. The blaze could be seen for many miles and hundreds of people were soon at the scene of the fire. No livestock were burned, although a few chickens were killed. The loss includes a Ford automobile, large hay wagons, buggy, power baler belt two hundred and a work of hay, several bushels of corn, fruit jars, sacks, feed, implements and the building, which was flooded and shingle roofed, with a garage and cattle sheds on the sides. The loss, which has been estimated at two thousand dollars, was covered by two hundred dollars insurance on the barn.

The cause of the conflagration is not known, nor can any plausible cause be explained. The building was almost destroyed before discovered. Only hard work and a still night, prevented the loss of other buildings and the house. The gasoline tank of the car exploded just as the occupants of the house rushed into the yard.

Mr. Cole, who was between the burning barn and the sleeping house during the fire fighting, was overcome by smoke after several minutes. Dr. Skeen was summoned and administered medical aid. The sick man was soon revived and no serious effects were noticeable.

## FORMER BLUEWATER MAN WEDS AT 81

Gallup, July 17.—Hiram Chapman, a former resident of Bluewater New Mexico, and one of the well known pioneer residents of this county recently became a benedict in the state of Idaho. Mr. Chapman was 81 years of age at his last birthday, and is still as young and spry as the average man of 50, notwithstanding the hardships which he has endured in pioneer life in the West in the past 81 years. For about 25 years he was a resident of Bluewater, N. M. He has six boys and girls living, and all married, who have children and grandchildren. The bride of the former McKinley county man also has five married children and many grandchildren.

## EDITOR HOFFMAN LEAVES FOR VACATION

J. R. Hoffman, editor of the Artesia Advocate and his family, left last week for a brief pleasure and business trip to Harper, Kansas, where Mr. and Mrs. Hoffman made their home for several years. The editor made the trip in his automobile. He will return soon to resume his duties as editor of the local paper and his duties as a loyal citizen to his home town.

## ARTESIA HAS FIRST BAND CONCERT OF SUMMER

The Artesia concert band rendered a very pleasing program at the initial band concert of the summer on Saturday evening, when it played on Main Street between Roselawn avenue and fourth street. A large crowd was present to enjoy the concert. Director R. A. Brewer announces that a concert will be given on each Saturday night until the close of the summer season. Great interest is being manifested in these concerts and the band boys are to be congratulated on the excellent entertainment presented to the Artesia public.

The band includes the following members: R. A. Brewer, Gayle Hamilton, Paul James, Harvey Klopfenstein, Cavitt Jackson and Gleen McCaw, cornets; Ira Klopfenstein and Lincol, Clarinets; Clint Rice and I. C. Kellar, trombones; William Linell and Robert Feemster, drums; Thelma McCaw, William McCaw and Harvey Widney, altos; Emmette Klopfenstein, tenor; Landis Feather, baritone; Ralph Terpening and Reed McCaw, bass.

## WOODMEN OF THE WORLD HAVE BIG RALLY

HUNDREDS ATTEND FROM ARTESIA, CARLSBAD, HOPE HAGEMAN AND OTHER LODGES

Walnut camp, number 26, W. O. W., entertained a large number of visiting Woodmen on last Thursday afternoon and evening. A class of eighteen candidates were initiated into the science of Woodcraft by the local camp, assisted by the degree team and officer from Eddy camp, number 5, of Carlsbad.

A parade was arranged for Thursday evening about sundown, which was attended by a large number of local people, who were watching the parade from the sidewalks. The parade was led by a band, composed of musicians from Carlsbad and Artesia. Following the band was the degree team of Carlsbad in full uniform and with axes. The three head camp officers who were present were the next in the line of march. Following these were the camp officers in their official robes. The most interesting spectacle was next. It included the class of candidates, dressed in various costumes, representing hobos, African women, Zulu natives, small children, dancing girls, convicts and many other classes of humanity. John Brown as the Zulu native, Howard Linell as the convict and Guy Stevenson as the dancing vamp were given great ovations during the parade. Elmo Naylor was in a barrel and was a fine looking man in his wooden suit.

The members of the various lodges of the valley marched in double column. Following the marching men, was a float, with two scenes, represented. One scene was a well dressed woman, portrayed by Miss Alice Dunn, who was enjoying life in ease. She was surrounded by fair haired lads, who carried the banner, "My Father Had Woodman Insurance." The other scene showed a poor ragged washwoman, portrayed by Clint Cole, washing clothes and she was surrounded by little ragged clothier children, who carried the banner "My Father Was Not a Woodman." An amusing feature of the parade was the antics of the goat, which was being lead by one of the candidates.

After the parade, the Woodmen assembled in the Woodman hall for the initiation ceremonies. About one hundred and fifty Woodmen were present at this time, when eighteen candidates were passed into the first degree. Some very amusing things occurred, which caused a great deal of enjoyment to all concerned, including the candidates. The candidates who were initiated at this time were, Harve Widney, Guy Stevenson, Howard Privitt, John Brown, Deyton Reer, Gordon Sterling, Clarence Stoldt, Elmo Naylor, Howard Linell, Cris Savoie, Sandy Watson, Jim Jackson, R. A. Brewer, and three candidates from Carlsbad.

Addresses were made by Junior Head Consul R. N. Miller, Senior Head Consul J. H. Jackson and Head Advisory Lieutenant J. B. Leck. Besides these head camp officers, Sovereign Kirkpatrick and Brownlie of Hope also made short talks. Consul Commander Preston Dunn thanked all visitors for their cooperation in the initiatory work.

Sandwiches, cakes and ice cream of different variety was served to all present by local members. A large supply of cigars and cigarettes were placed at the disposal of all present during the evening. The camp adjourned at about one o'clock after an evening filled with instances of entertainment and pleasure and general principles of Woodcraft.

## PROPERTY AT WOODBINE CEMETERY DESTROYED

Some culprit entered Woodbine cemetery on last Sunday night and wrecked a large portion of the cemetery property and did much damage to some of the graves. No reason can be stated for the criminal action of the culprit. The people of Artesia are worked up over the activities of the scoundrel and many threats have been made concerning the punishment for the "wrong-doer" if caught.

The hydrants in the cemetery were bent down and some of them broken off at the top of the ground. Flowers and shrubs were torn from the ground by the roots, especially some of the plants on several graves, which contained a permanent wreath was destroyed. Holes had been punched in the graves with a stick among the graves damaged were the graves of William Lampton, J. R. Atteberry and Mrs. Chester Russell. Minor damage was noticeable throughout the cemetery.

The footprints in the cemetery were carefully examined and one arrest has been made in connection with the acts of destruction. A trial will be given the prisoner some time in the next few days. He pleads not guilty in the Justice of the Peace court.

## GET OUT THE HEARSE

By O. SILVER

There is an old saying "that it takes all kinds of people to make a world" and this was never better demonstrated than in the usual inland village of the United States.

Here you have the Progressive and the Non-Progressive; the Religious and the Agnostic; the Wild and the Virtuous; Stupidity and Brilliance; and then without parallel you always have the KNOCKER.

He is the fellow that is always on the opposite side of every argument. He is the one who is 'agin' every thing before wise men have an opportunity to form an opinion. In matters of public good his pet argument is that "we got along without it this long so why all this fuss to change now." Whenever a thing is proposed that will cost money he always objects to 'raisin' taxes but if you investigate he is the fellow who usually doesn't own enough to pay taxes.

He is the fellow who delights in spitting tobacco juice on the feet of small boys during 'barefoot time.' He also is 'agin' all kinds of amusement and is the one to always propose Curfew laws and wants all the dogs shot. Its him in most cases who slyly puts out poison in the community every so often to kill your kid's pet dog. Of course he always thinks he has done a public good and smiles behind his hand at your wrath and at the kid's tears.

He's the fellow who always to "put a stop to" something and usually something that is none of his business. He just hates to see any one have a good time and matches every smile with a sneer and attempts to smother every laugh with a gloomy thought.

He has no real friends but when the town is fortunate enough to have a first class funeral with him at the head with a lily in his hand, the general feeling is one of relief and the usual words spoken are "Thank God". The long meter doxology is always the favorite hymn at his funeral.

A funeral is the only thing in all his life that he has led successfully. It's the only time really when he ever took the lead in anything.

Once in a while a traveller stumbles on a deserted village and writes of the lone inhabitant that he found there in solitude. I'll bet the one left is the town knocker and that people finally got tired of fighting him and moved out, leaving him possession. That is the usual fate of towns that follow the Knockers advice. They become deserted sooner or later. Business just can't thrive in an atmosphere of gloom.

If the knocker ever goes to Heaven the first thing he will do is kick about the streets PAVED with gold. He'll present his old arguments about the boggy trails of his home town being good enough for him and if he is over ruled, will probably go to the other place in disgust.

Then he will be out of luck. He'll want them to turn off the lights of the fiery pit at eleven o'clock like they did back home.

Smile and the World smiles with you; Knock and you will be left alone.

# DESIGN THAT IS MUCH IN FAVOR

Story-and-a-Half House Is Always Easy to Dispose Of.

SIZE AND SHAPE APPEAL

This Model Combines Exterior Attractiveness and Interior Comfort, and it is Not Expensive to Build.

By WILLIAM A. RADFORD

Mr. William A. Radford will answer questions and give advice FREE OF COST on all subjects pertaining to the subject of building, for the readers of this paper. On account of his wide experience as Editor, Author and Manufacturer, he is, without doubt, the highest authority on all these subjects. Address all inquiries to William A. Radford, No. 187 Prairie Avenue, Chicago, Ill., and only enclose two-cent stamp for reply.

When the average family begins to plan to build a new home, every member has some idea that he or she would like to see incorporated in the house. In some other home, perhaps, such a feature as appealed to the individual was found and gave rise to the thought that when or if he was to build he would have this feature in his home. It is this desire that makes so many homes entirely different from others.

There is danger, however, in carrying this idea too far. Odd features either in the exterior or interior of a house may not appeal to someone else, and, if the necessity arises, may prevent the sale of the home. Comfort and convenience may be secured for the average family by following the plans that have been found most suitable to the average family. And when this is done it is not difficult to dispose of the place if it is desirable to do so.

One type of house that appeals to the greatest number of persons is the story-and-a-half building, such as is shown in the accompanying illustration.

Here is a house of the size and shape that appeals. While it looks large from the outside, it is not, as it contains only six rooms, aside from the enclosed breakfast porch at the rear of the first floor. It contains three good rooms downstairs—living and dining rooms and kitchen—and three bedrooms and a bathroom on the second floor. This number of rooms will accommodate nicely the average family.

In exterior appearance it is difficult to find a more attractive house than the one shown. The narrow gables at the end, the steep pitch of the roof with the gabled dormer window set in it at the front and the extension of the roof lines to form the porch covering the side entrance.

The side entrance leads to a passageway, which is large enough for the icebox and has a closet alongside it for the linens needed in the dining room and kitchen. Back of the kitchen also is a good-sized pantry.

The stairs lead into a short hall on the second floor, off which open the three bedrooms, one at the front, one at the side and one at the back. The bathroom is located in the center of this floor, so that it is accessible to all three bedrooms. Both front and rear bedrooms are 15 feet 6 inches by 10 feet, while the one at the end of the house is 11 by 12 feet.

The basement extends under the whole of the house and is reached by stairs just inside the entrance at the side of the house.

Taken altogether this is a very desirable home building design—one that combines exterior attractiveness and interior comfort, and it is not expensive to build.

Beauty is the alpha and omega of art—by beauty meaning that art which is intrinsically and extrinsically proportioned—and without beauty there could be no art. Ugliness is untrue to art. All distortion is ugliness—untruth—and therefore not art. . . . Art is that sublime union of the concrete with the abstract which makes always for the elevation of the soul of man; otherwise it must be meretricious work and not true art. The sense of beauty may be for a season obscured, even as vapors cloud the face of the sun, but it is inalienable and imperishable. The desire for it—for that beauty which tranquillizes, which enlarges, which uplifts—is at the core of existence. Consciously or unconsciously the soul of man is always reaching forward to more and more sublimated experience; and that age which feeds upon beauty will inevitably rise above its fellows both in the conception of ideals and in the externalization of their inspiration.—J. P. Dabney, in The Musical Basis of Verse.

Probably Suspicious. "What's your husband growling about?" "Oh, he is angry because I'm taking him out to spend a pleasant evening."—Judge.

The floor plans that accompany this house are graceful, homelike appearance. This exterior appearance is greatly enhanced by the brick foundation and piers of the porch and the wide brick fireplace chimney in the end wall. The porch is inviting in summer, while the chimney gives rise to thoughts of a comfortable, open fire in the winter-time.

The porch is inviting in summer, while the chimney gives rise to thoughts of a comfortable, open fire in the winter-time.

stairs to the second floor. To the right, through double-glazed doors, is the living room, 12 by 15 feet in size. Three windows opening onto the porch and the high windows on either side of the fireplace admit plenty of light and ventilation. The wide fireplace at the end of the room, with bookcases on either side under the window, adds to the attractiveness of the room's finish.

Back of the living room is the dining room, also a light cheery room, 12 by 13 feet 6 inches in dimensions. And

Second Floor Plan.

opening off the dining room and connected with it by double doors is a large, enclosed breakfast porch, 14 feet long and 7 feet 6 inches wide. This room also makes a secluded, cheerful sun parlor.

Adjoining the dining room at the left is the kitchen, 11 feet square, whose size and shape make it an efficient workroom for the housewife, a place where the cooking and other kitchen activities may be accomplished with a minimum of steps. The sink is placed under the window in the outside wall, with cases for utensils and

dishes on either side. The side entrance leads to a passageway, which is large enough for the icebox and has a closet alongside it for the linens needed in the dining room and kitchen. Back of the kitchen also is a good-sized pantry.

The stairs lead into a short hall on the second floor, off which open the three bedrooms, one at the front, one at the side and one at the back. SPLENDID FOR THE GARDEN

Flower Known as "Painted Tongue" Will Well Repay Time and Trouble Bestowed on it.

No more gorgeous bed for August and September and until the hard frost comes in October can be planted than one of the Painted Tongue, Salpiglossis, the flower with the veins of gold. This annual is one of the most beautiful of the summer flowers and is not often met with, although florists are using it very largely for cut flowers the last two years; its gorgeous, purple, maroon, scarlet, rose and bronze shades, all with veins showing a glint of gold, a metallic shimmer found in no other flower, making a brilliant display when cut.

The improved forms show a great increase in size over the older forms and resemble the finer petunias in general appearance, although the blooms are more trumpet shaped than those of the petunia. The Painted Tongue is a native of Chili.

One reason for the rare appearance of the Painted Tongue in the garden is that many people have tried to grow it and have had difficulty. It should not be coddled. Planted indoors to get an early start, they have a disappointing habit of dying off inexplicably after they are transplanted into their beds, leaving blank spots and ruining the appearance. Too much coddling is the trouble. They should be raised outdoors. It is best to wait until May and plant them in the open. The seed is fine and germinates quickly and should be scattered thinly where the plants are to stand and thinned to 15 inches apart. A pinch of seed scattered at 14-inch intervals would solve the problem, thinning to the healthiest plants in the colony. They can be transplanted successfully if moved with a good ball of dirt so the roots are not disturbed too much.

Their growth is surprisingly slow at the start and they seem to have decided to stand still. It may take them a month or more to reach a height of three inches, but after that they start a sprint if the weather is warm and by August will reach a height of from 2 feet to 30 inches.

They need a rich soil and it is well to allow two or three plants to stand in each little colony to select the sturdiest as even with this care some of them are likely to give up the ghost. They resent any check in growth which is one reason why they stand transplanting badly. Give them liberal cultivation and plenty of water and you will have a wonderful sheet of bloom.

The Ordinary Country Town. The ordinary country town can not expect to present a fine appearance as the result of having many costly edifices. It may have some handsome buildings, but it usually cannot invest any great amount in expensive architecture and building materials. It has to acquire a pleasing appearance in other ways largely by a scrupulous care of its business buildings, homes and streets, with the patient effort to beautify the same.

Property that is kept in perfect repair has a finish and trimness about it that counts more than costly architecture. You see many towns where a great deal has been spent on ornate and elaborate buildings, but where the streets are not kept clean, and where many people still tolerate disorderly conditions. A place like that looks far inferior to many simply built country towns which are carefully maintained.—Louisville (Texas) Enterprise.

Reminder of "Cattle Lifting." A singular natural curiosity located in the valley of the Annan in Scotland is what is known as the Devil's Beef-tub. It is in the form of a hollow or basin, surrounded by high hills which make it so secluded a spot that a large number of persons can conceal themselves in it and remain unseen by others in the immediate neighborhood. In ancient times it was frequently used as a hiding place for stolen cattle, and it is this fact which has given it its name.

Only the Beautiful is Art. Distortion and Ugliness, which May Be Summed Up as Untruths, Are Its Opposite. Beauty is the alpha and omega of art—by beauty meaning that art which is intrinsically and extrinsically proportioned—and without beauty there could be no art. Ugliness is untrue to art. All distortion is ugliness—untruth—and therefore not art. . . . Art is that sublime union of the concrete with the abstract which makes always for the elevation of the soul of man; otherwise it must be meretricious work and not true art. The sense of beauty may be for a season obscured, even as vapors cloud the face of the sun, but it is inalienable and imperishable. The desire for it—for that beauty which tranquillizes, which enlarges, which uplifts—is at the core of existence. Consciously or unconsciously the soul of man is always reaching forward to more and more sublimated experience; and that age which feeds upon beauty will inevitably rise above its fellows both in the conception of ideals and in the externalization of their inspiration.—J. P. Dabney, in The Musical Basis of Verse.

Probably Suspicious. "What's your husband growling about?" "Oh, he is angry because I'm taking him out to spend a pleasant evening."—Judge.

# DAIRY HINTS

PLAN FOR THROWING ANIMAL

Necessary at Times to Have Cow or Bull on Ground to Perform Necessary Operations.

For performing surgical operations, dehorning, ringing or castrating, it is often necessary or desirable to throw a bull and hold him on the ground.

The accompanying sketch shows a very effective method to use in casting a cow or bull. It requires 35 or 40 feet of rope. With hornless animals the first loop will need to be around the neck instead of the horns, as illustrated. The next step is a half hitch just back of the forelegs and another in front of the hind quarters. Pulling on the main rope to the rear and toward the side on which it is desired to have the animal lie will get results. Pregnant cows should not be so thrown. Once the animal is

Effective Method in Casting Bull.

down turn its head back, nose up, with poll to the ground. A hand hold on the side of upper lip will usually enable one man to hold the animal down, another man keeping taut the casting rope.—Dairy Farmer.

ECONOMICAL FEED FOR HERD

Most Important Item That Enters Into Cost of Milk Production—Analysis of Figures.

(Prepared by the United States Department of Agriculture.)

How to feed his herd economically and profitably is an important thing for a dairyman to know. In all sections of the country where investigations have been carried on, the United States Department of Agriculture has found that feed is the most expensive item that enters into the cost of milk production; and intelligent feeding, in either summer or winter, offers the biggest opportunity to reduce costs.

The analysis of many figures by the department shows that in Vermont the winter costs of keeping a herd were made up of 63.1 per cent feed and bedding, 17.5 per cent labor and 19.4 per cent other costs. In summer, feed and bedding represented 41.6 per cent of the total expense, labor 26.7 per cent and other costs 31.7 per cent.

In the South the costs are distributed somewhat differently. Figures obtained in Louisiana show that in winter 56 per cent of the expense is for feed and bedding, 22.4 per cent for labor and 21.6 per cent other costs. The summer costs in that region do not differ from the winter costs so much as they do in the North. The figures for summer in Louisiana show that 50.5 per cent of the total cost of milk is for feed and bedding, 26.2 per cent for labor and 23.3 per cent for other costs.

Although it is advisable for a farmer to economize wherever he can wisely do so, these figures show that the dairyman who studies feeds and feeding has an excellent opportunity to increase the profits of his dairy herd.

SOY BEANS FOR DAIRY COWS

According to Tests at Iowa Station Plant Furnishes Most Palatable Protein Feed.

Soy beans as a feed for dairy cattle have shown their value in replacing oil meal in the ration, according to a recent experiment conducted by the Iowa agricultural experiment station. Cracked soy beans, it was found, made a palatable protein feed worth one-third more than the same amount of oilmeal.

Two years' experiments were conducted with the soy beans in replacing protein supplements, and the results show that dairy farmers can produce this supplement to advantage.

BALANCED RATION IS URGED

Corn Fodder is Not Satisfactory for Dairy Cow Because It is Lacking in Protein.

A cow may consume large quantities of feed, and still lack the essential elements for milk production. This is why the use of a balanced ration is both economical and satisfactory. Corn fodder, fed alone, for example, is not a satisfactory feed, because the ration lacks protein, and hasn't sufficient succulence to promote a satisfactory flow of milk.

Keep Utensils Clean. Milking machine, pails and covers should be thoroughly washed and sterilized with steam after every milking.

Milking Preparations. In preparing the cows for milking, the same care should be used as in milking by hand. It is necessary that the teats be very clean if a clear milk is to be obtained.

Increase Dairy Profits. Systematic feeding of good cows will increase dairy profits.

# ROAD BUILDING

INSTRUMENT TO TEST SOILS

By Means of Modern Apparatus It is Possible to Obtain Most Valuable Information.

(Prepared by the United States Department of Agriculture.)

An instrument for testing soils on which roads are to be built has been devised by the bureau of public roads of the United States Department of Agriculture. It consists of a metal disk resting on the soil and supporting a cylinder into which shot can be poured. The apparatus is held in position vertically by means of a tripod, at the top of which is mounted a small dial that tells to one-tenth of an inch how far the disk sinks into the soil as shot is poured into the cylinder. By means of the instrument it is possible to get information as to how the soil will act in wet weather.

The kind of soil beneath a road surface has a great deal to do with how it will stand up under modern traffic, and engineers look upon this as an important consideration in determining the kind of road to be built. This is confirmed by a number of instances where two sections of the same road have been built in exactly the same manner and subjected to the same traffic but on different types of soil. One section has lasted well while the other has broken up in a manner that can only be explained by a lack of supporting power of the soil beneath the road.

The bureau has for some time been investigating this question along vari-

Norwalk-Ashtand (Ohio) Road Before and After Given Needed Improvement.

ous lines both in the field and in the laboratory, studying the characteristics of different soils and experimenting with means to keep down the moisture content of the soil and thus increase its bearing power. The latest development has been the new device.

FILMS SHOW ROAD BUILDING

Scenes Depicting Actual Construction of Various Types of Highways Are Displayed.

Close-ups of the activities of the bureau of public roads are contained in two films released, "Building Bituminous Roads," and "Mixed Asphalt Pavements." The new films show how Uncle Sam, who has become the world's greatest road builder through the federal-aid road act, makes use of bituminous materials in the construction of the Nation's highways.

"Building Bituminous Roads" deals directly with the surface treated and penetration macadam type of bituminous roads.

"Mixed Asphalt Pavements" embraces the construction of asphaltic concrete and sheet asphalt roads, and carries the audience from the paving plant, where the materials are mixed, to the completed highway, open for traffic. Scenes depicting the actual construction of the various types of roads were made under the direction of skilled engineers of the bureau of public roads, United States Department of Agriculture, and are designed to instruct the layman as well as the engineer in modern road-building practices. Several animated close-ups graphically depict the details of construction.

ROAD BUILDING IN KENTUCKY

Was First State to Conceive Idea of Highway Construction in the United States.

"In 1821 the people of Kentucky inaugurated the first state road building policy ever conceived in these United States," according to Edward S. Jordan of the highways committee of the National Automobile Chamber of Commerce, speaking recently at the University of Kentucky.

Long Alaskan Highway. An automobile highway, available for tourists, has been completed in Alaska, covering a distance of 270 miles, from Valdez to Fairbanks. The scenic attractions along this highway are said to be marvelous, because of canyons, dense forests, and the wildness of the surrounding regions.

Good Roads Organization. The American Road Builders' Association is the oldest and largest organization for good roads in the United States.

We are not always glad when we smile, For the heart in a tempest of pain May live in the guise of a laugh in the eyes And the rainbow may live in the rain. —J. W. Riley.

BRAN DISHES AND OTHERS

A few spoonfuls of bran may be mixed with any dry breakfast food, with no noticeable difference in the taste. Bran is a good broom for the alimentary canal and in various dishes may be made most appetizing.

Bran Layer Cake.—Take one quarter cupful of butter, add one unbeaten egg and fill up the cup with sweet milk, stirring enough to mix. Sift together a tablespoonful of cornstarch, one cupful each of flour and sugar, and a teaspoonful each of baking powder and salt. Add one-half cupful of bran and mix with the liquid, stir until smooth and bake in two layers, using a cooked cream or jelly for filling. It may also be baked in a loaf, adding spice to taste.

Bran Jelly.—Sift bran into boiling water, stirring till it is like gruel. Cook slowly two hours, strain through a fine sieve and repeat. Mix a tablespoonful of graham flour with a little cold water, add to the boiling liquid and cook until it is smooth. Add a little salt, pour into wet molds and set away to harden. It will make a delicate jelly which may be served with fruit or milk. Fine for a delicate stomach.

A bonny clabber desert is one which it is wise to teach the children to enjoy. Set a pan of rich new milk away to just become thick. Place on ice until well chilled and serve with grated maple sugar or with a sprinkling of brown sugar with nutmeg or cinnamon. A child's luncheon with a piece of whole wheat bread and butter will make a good meal, even for an adult. Thick sour cream, when it is obtainable, makes the most delicious salad dressings. Whip it with a Dover beater; when stiff, add lemon or pineapple juice and such other seasonings as are appropriate to the salad which is to be served. The usual boiled salad dressing is made especially rich and tasty by the addition of a half-cupful of rich, sour cream, beaten stiff and added to three tablespoonfuls of boiled dressing.

Rhubarb Pudding.—Place sufficient sliced bread buttered to serve the family in a baking dish, cover each slice with chopped rhubarb, sprinkle with sugar and nutmeg and repeat until the dish is full. Add boiling water and bake until the rhubarb is well cooked and the bread saturated with the juice. Serve on a plate direct from the dish either hot or cold, with any desired

To be what we are, and to become what we are capable of becoming, is the only end of life. The pleasantest things in the world are pleasant thoughts, and the great art in life is to have as many of them as possible.—Bovee.

SAVORY DISHES

Now that the mushroom is growing in the fields a few dishes to remind us of its worth, are in season:

Scrambled Eggs and Mushrooms.—Break into small pieces one pint of fresh well-cleaned mushrooms. Sprinkle with salt and let them stand 30 minutes. Put into a saucepan two tablespoonfuls of butter; add the mushrooms and their juice; cover and cook eight minutes after they begin to simmer. Season with pepper and more salt if needed. Add the yolks of five eggs, beaten slightly, to the stewed mushrooms. Stir until the eggs are set. Serve on toast.

Corn Fritters.—Put the contents of a can of corn through the meat chopper, add two well-beaten eggs, two or three tablespoonfuls of milk and two tablespoonfuls of flour. Add one-half teaspoonful of sugar, salt and pepper to taste. Fry by spoonfuls in hot fat or butter, browning well. Fresh corn may be used, omitting the milk.

Curried Eggs.—Take six hard cooked eggs. Peel three large onions and cut them in thin slices, put them with two tablespoonfuls of butter in a saucepan and cook until soft. Add one teaspoonful of curry powder, one clove of garlic, one-fourth of a teaspoonful of ginger, one-half teaspoonful of salt, one tablespoonful of flour, one-half pint of stock or water; cook. Take three cupfuls of cooked rice, arrange around the edge of the platter, cut eggs in slices and place over the rice; over this pour the sauce and serve very hot. Garnish with green pepper or sprigs of parsley.

Mutton With Dumplings.—Take three pounds of the breast of mutton, simmer until tender, then set aside to cool; skim off all the fat, return the mutton to the liquid, add one or two onions finely chopped, salt, pepper and a little curry powder if liked. Just before serving time drop dumplings into the hot stew, if dropped from a teaspoon these will cook in eight minutes. A few peas added to the stew will change the flavor and improve the dish.

**JOSEPH BUSH SINGS A SWAN SONG, SHOTS SOME PARTING SHOTS**

Editor Evening News: I have been called everything in the English language from a sheep herder to a hack driver but when a man who has been in our city only two months and has not a thing in the town except his hat and a job calls me a crepe hanger that gets my goat.

My sole purpose in writing my previous article was to awaken Roswell to the fact that we need amusements for all classes of people if we intend to have a real live town. So far I am getting results.

I got a little kick out of 'Smashy.' True, it was like taking a 'coke' when you wanted Budweiser, but anyway, there was a little kick.

Then the Chamber of Commerce got real busy and worked overtime and sent out a questionnaire to members asking them if they wanted a real celebration here this coming November. In this questionnaire, the news was broken to them gently that to have a real celebration it would require lots of hard work and about \$4,000.

Then some of the ball players flew up and said 'We will play ball on Sunday if we can get a game with an outside team.' You can't hardly blame the ball boys at that.

The Laymen's league promised them their support if they would refrain from Sunday baseball and so far the boys haven't played a Sunday game. Last Thursday at the ball park in the game between Artesia and Roswell there were 106 paid admissions and of that number fourteen belonged to the Laymen's league. Some financial support--to be exact, \$7 worth.

Is a man a crepe hanger if he wants a municipal swimming hole for the kids who can't afford the Country Club? Is he a crepe hanger if he objects to a Fourth of July celebration where the chief and only attraction for the visitors is a professional crook masquerading as a hypnotist and trying his artifice powers on a bunch of kids?

The real people of the town don't think so and only the ones that are dead from their ears down are going to condemn a man for that kind of a stand.

With this article Joe Bush is going back to the bushes from whence he came and if anything he has said in any of the articles has helped in any way to make Roswell a better place to live and has jarred the moss backs that are the head of the different organizations of the city to a point where they will get busy and draw something besides their salaries, then he has served his purpose and will take the blame.  
 --Joseph Bush.

 IN THE DISTRICT COURT, EDDY COUNTY, NEW MEXICO.  
 No. 3553.

J. T. Collins, Plaintiff, vs. Otis Roney, A. W. Auffenhide and D. W. Dawkin, Defendants

You and each of you, Otis Roney, A. W. Auffenhide and D. W. Dawkin, defendants, are hereby notified that said plaintiff has filed a suit against you as aforesaid.

The object of said suit is for the establishment of plaintiff's estate in and to Lots Six (6) and Eight (8) in Block Thirty-Six (36) in Artesia Improvement Company's Addition to the Town of Artesia, Eddy County, New Mexico, against the adverse claims of defendants, and that the defendants be barred and forever stopped from having or claiming any right or title to the said premises, adverse to the plaintiff and that plaintiff's title thereto be forever quieted and set at rest and for such other and further relief as may seem just and equitable.

You are further notified that unless you enter your appearance in said cause in said Court on or before September 4th, 1922, judgment will be rendered against you and each of you as prayed for in the complaint herein filed by default.

S. E. Ferree of Artesia, New Mexico, is the attorney for the plaintiff.

Witness my hand and the seal of said District Court this the 10th day of July, 1922.

**No Punctures No Blowouts**  
**Service TUBES**  
 Easy Riding  
 NOT a tire filler. They have 40% air in honey-comb air cells. Made all in one piece, same shape as a regular tube. Never need to be pumped up. Never go flat.  
 With these tubes you can get 18,000 to 20,000 miles out of ordinary tires. You can put your blown-out tires back into service without repairs and get thousands of miles more service from them without fear of tire trouble. When tires are completely worn out, just transfer same tubes to other tires.  
 These tubes are guaranteed to last the life of your car. Thousands of car owners are now using them and have no tire trouble.  
**IMPORTANT**  
 These tubes are being sold on a positive money-back guarantee to do as we say. They are easy riding.  
 Don't be prejudiced. Give us a chance to prove that we can stop forever all your tire trouble and cut your tire bill one-third by making tires run 18,000 to 20,000 miles.  
 Phone, write or see us today.

The buddy who penetrated the German lines in the forests of Argonne, carrying the message which saved the 'lost battalion,' recently died of tuberculosis in New York City, alone and penniless. With the exception of his Distinguished Service Cross, Croix de Guerre, and Medalie, he had pawned or sold everything he owned. Do you remember him? Nobody else did.

**SEND IT IN**

If you have a bit of news, Send it in;  
 Or a joke that will amuse, Send it in;  
 A story that is true, An incident that is new,  
 We want to hear from you— Send it in.  
 Never mind about the style, If the news is worth the while,  
 It may help or cause a smile, SEND IT IN!!

**BOOST**

Boost your city, boost your friend;  
 Boost the Lodge that you attend,  
 Boost the street on which you are dwelling,  
 Boost the goods that you are selling,  
 Boost the people round about you,  
 They can get along without you,  
 But success will quicker find them  
 If they know that you're behind them.  
 Boost for every forward movement,  
 Boost for every new improvement,  
 Boost the man for whom you labor,  
 Boost the stranger and the neighbor,  
 Cease to be a progress blocker,  
 Cease to be a chronic knocker,  
 If you'd make your lodge much better,  
 Boost it to the final letter.

**HYPOCRACY A SERMON BY JESUS CHRIST**

Woe unto ye, hypocrites for ye compass sea and land to make one proselyte and when he is made ye make him two fold more the child of Hell than yourselves. Woe unto ye hypocrites for ye devour widows' houses and for a pretence make long prayers, therefore ye shall receive the greater damnation: ye shut up the kingdom of Heaven against men for ye neither go in yourselves nor suffer ye them who are entering to go in, ye make clean the outside of the cup and the platter and within it is full of excess; ye are like unto whited sepulchres which indeed appear beautiful, but are full of dead men's bones. Even so ye outwardly appear righteous men, but ye are full of hypocrisy, ye pay tithes of mint and anise and have omitted the weightier matter of judgment and mercy. Ye blind guides which strain at a gnat and swallow a camel.

H. G. Wells in his Outlines of History Makes Jesus Christ one of the six great men who have influenced history and helped the world

forward materially. One of the other six is Buddha. Wells dwells upon the ethical teachings of Jesus which he says were of paramount importance. These teachings are ignored and slurred by those who have taken the so-called divine side of Our Lord's character as their guide and pattern. The ethical teachings of Jesus where ever followed have proved successful and had they been in practice throughout hundreds of years there would have been no war. The great mystery is why the so-called followers of Christ have not practised them but have ignored and brought shame upon the very doctrines held by their leader. The religious belief in Jesus may make for a smug personal salvation but the ethical teachings of this simple carpenter of Nazareth will be the only solution to the troubles now before the bar of justice.

**HOW ABOUT IT CHAVES?**

The burning question before the world at this moment seems to be whether Chaves county will really support J. D. Atwood for governor. A recent editorial in the Santa Fe Few Mexican which reminds us that language was invented to conceal thought assures us that "Atwood would make a strong candidate should he accept the nomination." We know of course what Eddy county will do if J. D. should decide to become a candidate but we must know about this Chaves county. We would suggest that the county have bills struck and put up in all the gas stations between here and Gallup stating their position. This suspense is awful.

Two recent and worthy improvements to the town of Artesia are the opening of the Hotel Hardwick by Mr. Todd and the organizing of a local ice plant.

The hotel has been completely renovated and re-decorated and is the equal of many hotels in El Paso and superior to many in the large towns of the state. Nothing has been spared to make the hotel comfortable and attractive and Mr. Todd has already established a reputation as a considerate and genial host up and down the valley. It is not only a pleasure to stay there but it is a source of pride to the Artesian to feel that out-of-town people will feel satisfied and want to come back. A good hotel is one of the best and most potent advertisements a town can have.

The ice plant should be another source of pride as it is a local enterprise with an excellent quality of ice at reasonable price and with good service. It is a good answer to the "Cansters".

Tom Wells, who has been the guest of his father and mother on Cottonwood, returned to his home in Amarillo, Texas, Tuesday.

Henry Terpening left on Friday for Detroit, Michigan, where he has accepted a position in the Ford manufacturing plant. Henry has a longing for the "Tin Lizzies."

**HOME BREW RUTH L. SKEEN**

Bob Ferriman has returned from a delightful sojourn at Horner's ranch.

Woodrow, the small son of Colonel and Mrs. Williams, is very ill in the hospital at Carlsbad.

Mr. De Witt Neil of Roswell was the week end guest of the Polk family.

Organized christianity is ten per cent righteousness and ninety per cent self-righteousness.

We wish to be loved for our vices alone, they are natural, what virtues we have are acquired.

Mrs. E. B. Bullock and daughter, Miss Jessie Glenn, are now enjoying the mountain breezes in a cottage on the Ruidoso. Mr. Bullock expects to join them shortly.

Mrs. Irene Whitcomb of Amarillo is the guest of her parents, Mr. and Mrs. S. S. Ward at their ranch the Flying H.

Miss Jennie Williams was the charming hostess to a week-end party of Carlsbad young ladies this week. They were Misses Gertrude Runyan, Miss Charlotte and Beatrice Mills.

Mrs. J. J. Clarke and son Lawrence left on Saturday night for New Orleans where Mrs. Clarke goes to visit a sick brother and other relatives.

Count that day lost when the low descending sun finds no joke of Mark Corbin's adding to the fun. His is the local humorist's ticklish job. He is the village Irving Cobb.

Charlie Martin and Bryan Runyon left Saturday for Palomas Springs for a pleasure and fishing trip. They hope to be gone a couple of weeks.

It is alright to make the world safe for democracy but considering the activities of the Klu Klux Klan we had better take steps to make democracy safe for the world.

Few of us can be rich, fewer still can be beautiful and fewer yet may be clever but we can all be respectable and that is perhaps the reason why being respectable is so popular—we must have a little not-ice in some way.

Swimming parties are very popular just now and everybody is indulging. Spring Lake is the favorite resort for the crowd and several matrons have gotten in good with their work-ridden husbands by preparing a delicious cold supper a Picnic to be eaten after coming out of the water.

Among the new arrivals in Artesia may be counted the several offspring of Oscar Samsel's full blooded bulldog, Moonshine. Cute little doggies they are and Moonshine has many callers. A certain flapper who expects to own one of the puppies has already named it Oscar-Anna.

The Mrs. Stephen and Frank Lanning, better known in the old home town as "Sallie and Mervie" are expected soon from Los Angeles to visit the respective families of the Eatons, Lannings and Runyans. This is the first visit the girls have made Artesia since their marriage and old friends look forward with pleasure to their arrival.

Isn't it nice and like old times to see Mrs. Beecher Rowan in Artesia again? She came in on Saturday accompanied by Maxene and the very popular baby of the Kan-neth Rowans who seems to recall her many old friends among them, C. Bert Smith, who is one of her adoring victims. Mrs. Rowan will remain some time, the guest of her son, Rufus and her many old friends.

Dr. J. J. Clarke returned Friday from a meeting of the Southwestern Dental Association at El Paso. The Doctor returned with a prize in his pocket in the shape of the presidency of the Association on honor which he merited by hard work and the ability to arrange excellent programmes and assemble notable people. Dr. Clark has a flair for making worth while men appear on the programmes he arranges and as secretary he put the association in a superior position.

There are texts in the Bible that we never hear sermons upon. One of them is this, from Micah 6-8. "He hath showed thee, O man, what is good and what the Lord doth require of thee. To do justice and to love mercy and to walk humbly with thy God." Seems simple enough but to do justice is well nigh impossible and to love mercy is the special gift of a few rare and gifted saints such as St. Francis of Assisi, and Bishop Brook of Boston.

You have heard the story of the old woman from Goose Creek who refused to look at Rodin's statue, "The Thinker" because it had no clothes on. She raised provincialism to the nth power and caused an increase of merriment on this spinning globe. This was good as Montaigne says "By laughter alone is man distinguished from the beasts." She is a cousin to the dear soul in Roswell of whom a cultivated lady

MISS ZANAIDA MANN IS HOSTESS

The P. I. G. S. Club was entertained by Miss Zanaida Mann at her home on south Roselawn avenue on Tuesday afternoon of last week. An excellent afternoon was enjoyed by the young ladies, who were present. Miss Virginia Atteberry had a very interesting experience with the lemonade, but the particulars must be obtained from her. Several members of the club were unable to be present. Delicious refreshments were served by the hostess to Misses Virginia Atteberry, Lorie Davis, Beatrice Davis, Mildred Frisch, Elizabeth Soloman and Vesta Frisch.

NEW MEXICO WEEKLY INDUSTRIAL REVIEW

Lordsburg—Last Chance Mining Co. installing mill, shaft to be sunk to 500 ft. level.  
Stems—Mining activities throughout district being revived.  
Silver City—Boxton Hill manganese mine to largely expand operations.  
Steins—Tonopah company to start big development program at Wymann mine.  
Lordsburg—Completion of Last Chance mill to double capacity of plant.  
Two new wells spudded in near Farmington.  
Roosevelt county has 6,000 acres of cotton.  
52,000 acres of grazing and timber land destroyed by forest fires in Taylor Mountain district.  
The 85 branch of the C. & A. Mining Co. shipping 7,000 tons ore per month to Douglas smelter.  
Additional mill equipment being installed at the Last Chance mine.  
Operations to be resumed on zinc property in Fierro district.  
Contract let for Santa Rita-San Lorenzo road to cost \$115,134.  
During its first year of operation the cotton seed oil mill at Carlsbad milled 1950 tons of seed.  
Three new residences under construction at Alamogordo.  
Santa Fe—Contract let for 45,000 yards of street paving to cost \$162,811.  
Farmington—San Juan Development Co. capitalized for \$5,000,000 has filed articles of incorporation.  
Albuquerque—Construction started on modern garage and auto sales room.  
Eureka Oil Co. drilling below 2600 feet in test near Raton.  
New addition to Alvarado hotel at Albuquerque to be finished by August 1st.  
Peach crop in Roswell district best in several years.

Artesia—New gas well of Midwest Refg. Co. flowing 36,212,000 cubic feet per day.  
The big railroad strike is on but all trains are still running and will no doubt continue to maintain their schedules.  
Mesara, Harold Keinath and Walter Ferriman were visitors in Roswell during the week.

The quality of our ice cream is the highest because we use only rich, pure cream and flavoring in making it. Our sodas and Sundaes are SUPERB.

Try our Soda fountain drinks and foods just once.

That is all we ask. You will come often every time you are thirsty and you will tell your friends about us. When you need anything in the drug store line—

Come to US for it.  
**C. E. MANN DRUG CO.**  
Between the Banks.

This Bird Feasted on Valuable Stones

Tacoma, Wash.—An ostrich that choked to death on a pine tree cone here was, after a post-mortem examination, found to be a veritable jewel box. A pint of highly polished agates was taken from the proventriculus, a sort of stomach to which is attached the gizzard as the hopper to a mill, and a quantity of pure white pebbles of an unknown stone. The agates had been used in the grinding process of the bird's digestion so many times they were rounded into perfect spheres and about the size of "shooter" marbles. There is no way to know just how long an ostrich keeps such stone-ware after picking it up, but this bird was left here last fall by an amusement company. Wherever the fastidious creature feasted it had eaten valuable stones instead of ordinary gravel.

WINS POLITICS STUDY PRIZE

Miss Inez Phang, winner of politics study prize of the New York university, says she is going back to her Chinese home and make use of the ideas and ideals she learned here.

WAY TO KILL DANDELIONS

Experts of University of Wisconsin Announce They Have Found a Method.

Madison, Wis.—The University of Wisconsin lists as among its greatest achievements the discovery of an effective "death to dandelions" treatment. Twenty-four hours after announcement of the discovery by the university horticultural experts, thousands of letters were received inquiring for the details. The basis of the university's new discovery is iron sulphate, commonly known as green vitriol. Full investigation has shown its efficacy. It is said. The spray is made by dissolving iron sulphate, which is obtainable at any drug store, in water at the ratio of two pounds to a gallon of water. One gallon of this solution will spray 800 square feet of lawn. Three sprays are necessary every year, one in May, one in June and the third in the fall.

SLAIN FOR REFUSAL TO ELOPE

Married Woman Prefers Death to Dishonor—Admirer Takes His Own Life.

Lead, S. D.—John Moses, a farm hand employed on the mountain ranch of Ralph Fiero, 20 miles west of here, shot and killed Mrs. Fiero and then killed himself. The shootings were witnessed by C. N. Parks, father of Mrs. Fiero, and two little children. Fiero is in the East, where he was called by the illness of his mother. Moses is alleged to have asked Mrs. Fiero to elope with him. She refused. He threatened her with a shotgun. She replied she preferred death to dishonor. Moses then fired two shots and she died instantly.

Kills Negro Who Attacked Daughter.

Waco, Tex.—A twenty-three-year-old colored man was killed here by the father of Miss Margaret Hayes, victim of a recent attack, when she identified the man as her assailant. Seven shots were fired into the colored man's body and his head was beaten with a club.

Find Still on River Packet Boat.

Parkersburg, W. Va.—A river packet, containing a complete moonshine outfit, is in possession of state police. The boat was captured in the Ohio river when troopers went out to investigate the source of mash in the water.

# Magee's Independent

A Weekly Newspaper Devoted to Better Government

Magee's Independent was founded by Carl C. Magee, former editor of the Albuquerque Morning Journal. It is now in its fourth week of publication.

This newspaper is edited with the same dash and courage which characterized Mr. Magee's work on the Journal. Supported by a corps of the ablest newspaper people in the state, Mr. Magee has made a state-wide sensation with this new publication.

Here is how the Penasco Valley Press described the first issue of the paper:

A JOURNALISTIC BEAUTY

There blew in upon the west wind Volume 1, No. 1, of Magee's Independent, an artistic bit of seven column, eight page journalism, and it sure is a warm baby. It comes to the sanctum with a full set of teeth and is talking out loud. We predict that this precious youngster is going to grow, for it looks just like its pa. The noise it is going to make will keep some folks hunting "paregoric" of nights.

Week by week the Independent is telling the people the unvarnished truth about conditions in the state. No other newspaper undertakes the task. Yet the people must know if they are to act intelligently and civic decency is to prevail.

Mr. Magee insists that there are enough people in the state who are devoted to better government to support such a publication.

There is something in each issue for every member of the family. It is read more thoroughly than any paper in the state.

The subscription response is phenomenal. We now have more paid net circulation than the Albuquerque Herald. We are approaching the circulation of the Journal. But we need twice our present circulation in order to account the venture a publicity and financial success.

If you subscribe to help the cause of good government, you will read the paper through sheer delight. It is far the most readable and enlightening publication coming to your home.

Under the withering white light of publicity and the moral appeal for a better citizenship, boss domination is weakening in New Mexico.

Send for a sample copy today or remit two dollars for a year's subscription to

**MAGEE'S INDEPENDENT**

Albuquerque, New Mexico

ARTESIA MEN MARK ROAD TO EL PASO

Messrs. B. Stevenson, Bob Caraway, and Ben Pate recently made a trip to El Paso, Texas, where they went in the interest of a new highway between here and El Paso. The road was marked at regular intervals and the best route selected.

A highway between El Paso and this section of the valley would be of much benefit to local firms and farmers. The market facilities would be greater and a greater traffic established between the towns.

Mr. George Winans made a business trip to Roswell during the week.

Miss Wanda PeArson, a charming young lady of Washington, D. C., is spending the summer in Artesia and will be numbered among the younger set and their social activities.

Mrs. Bruce McLean, daughter of Mrs. B. Rowan, who recently underwent an operation at the Plainview, Texas, sanatorium, is reported to be improving satisfactorily.

## Dr. Loucks' Says:

HE has every flavor of Electric Lighting Bulbs from 10 to 500 watt, and that they are all good bulbs, he knows because Edison superintended the manufacture.

A complete line of electric lighting material. Also his auto electrical material is as complete as any in the Valley. It would surprise you to come to his place of business and see the variety of auto accessories and supplies to numerous to mention.

# LOOK!!

One Block North of Ozark Trail Monument  
For the Garage that Relieves the financial worry of running a car.

PHONES: Business 38 Residence 213  
H. S. WIDNEY

Mr. and Mrs. Carl Cunningham left last week for Hot Springs, New Mexico. After spending a short time at this place, they intend to go to California for the remaining part of the summer.

### ABSOLUTELY PURE DISTILLED WATER, FIVE CENTS PER GALLON

The Artesia Utility Company has just installed a new condenser and is prepared to furnish the public absolutely pure distilled water at five cents per gallon, delivered at the plant.

We are working at prices for Auto and Machine work as low and lower than before the war.  
ARTESIA MACHINE SHOP.

A. Woodruff was up from Artesia this week looking after his applesauce patch. Bro. Woodruff feels sure of enough apples for home use, and that means a pretty good crop when it is considered that he has to keep Dave Bryant in apples and hard cider.—Hagerman Messenger.

### Maize and Kaff-Seed SEE E. B. BULLOCK FOR

W. G. Sowell departed Sunday for El Paso where he will be located for some time. He has been making improvements of his homestead on the Artesia-Hope road for the past six months. He made the trip to El Paso by auto, covering the 176 miles in 9 hours.

Miss Ruth Burroughs has returned to Artesia after spending several months visiting in Gallup, N. M., and other points.

Mr. Lee Newsome and Miss Ruth Newsome were visitors from Hagerman on Sunday afternoon. Miss Newsome is visiting with Miss Mary Alice James, during the week.

Miss Viola Pierson of Upper Cottonwood was a week end guest of Miss Ethel Olson of Artesia.

Misses Billie and Babe Mellard of Hope passed through here Friday en route to Roswell for a visit with friends, returning to Hope Sunday afternoon.

Mr. Boatwright, barber, who has been at Hope for the past three months has accepted a position at Cunninghams. His family will join him this week.

Standard Tires and Tubes and Auto Supplies lower prices than ever sold since 1916 at  
ARTESIA MACHINE SHOP.

## FOR REAL ECONOMY In the Kitchen USE

# CALUMET

### The Economy BAKING POWDER

### A Big Time and Money Saver

When you bake with Calumet you know there will be no loss or failures. That's why it is far less expensive than some other brands selling for less.

### BEST BY TEST Don't be led into taking Quantity for Quality

Calumet proved best by test in millions of Bake-Day contests. Largest selling brand in the world. Contains only such ingredients as have been approved by U. S. Pure Food Authorities.

## The World's Greatest Baking Powder

Jeff Hightower, a former Artesia business man, now living in Clovis, was a visitor in Artesia during the week.

We want your hens, eggs and cream.  
COWARD GROCERY.

Hurry, if you want good work done. I make old clothes look new.  
Phone 61.  
MCCAW TAILOR SHOP.

A large number of local young people and many visitors from Hope, Dexter, Carlsbad and other neighboring towns attended the American Legion dance at the Oddfellows hall on Saturday night. Hans Jazz Houns furnished the music for this delightful occasion.

### NOTICE FOR PUBLICATION Department of the Interior, U. S. Land Office at Roswell, New Mexico, July 5, 1922.

NOTICE is hereby given that Walter T. Blakey, of Artesia, New Mexico, who, on May 28, 1918, made Homestead entry, No. 043696, for N 1/2 SE 1/4, Section 31, Township 16 S., Range 23 E., N. M. Principal Meridian, has filed notice of intention to make three year Proof, to establish claim to the land above described, before S. W. Gilbert, U. S. Commissioner, at Artesia, New Mexico, on the 19th day of August, 1922.

Claimant names as witnesses: John J. Buel, Robert O. Cowan, LuAllen Davidson, and Thomas J. Stagner, all of Artesia, New Mexico.  
JAFFA MILLER,  
July 14 Aug 11 Register.

Abe Burnett, publisher of the Peaceno Valley Press at Hope, was a caller at this office Saturday. He says that great preparations are being made for the Hope Rodeo, August 9th, 10th, and 11th, and looks for the reunion to be better than ever. Mrs. Burnett and children were also in Artesia Saturday and spent the day visiting Mrs. Burnett's mother, Mrs. Newcomb, and sister, Mrs. George Long.

Frank Tigner and Geo. Etts were transacting business here Monday. They are employed on the Roswell-Buffalo oil well near Roswell.

Mr. Austin Brown left on Saturday night for Missouri, where he will spend his summer vacation.

Miss Mary McCaw has returned from Roswell, where she has been the guest of Miss Ruey Jefferies for the past few weeks. Miss Jefferies was in Artesia for a few days, returning with Miss McCaw.

Arthur J. Linn, Consulting Auditor, 211 Union Trust Bldg. Washington, D. C. will be in Carlsbad, N. M., for thirty days and can correspond or consult with individuals or corporations requiring representation before the Treasury Department on income tax matters.

### TALK ABOUT BEING HOT---

I KNOW your wife likes to Bake these hot days. You can tell us that but don't let her hear you say it.

Everything fresh each day. Hot Rolls for dinner, a dime a dozen. A 10c cake, Jelly Roll or cookies for supper or a loaf of that Quality Bread any old time isn't half bad.

WE are rushed but will bake a LOAF for you.

## City Bakery

G. Roy Sallee, Prop.

## Wheat Growers

We want to buy your wheat and are in position to pay top market prices. Don't fail to address us or see Mr. Hornbaker at Artesia personally about it.

Roswell Milling Company Roswell, N. M.

## BUILD HAY BARNs. SOME ARE DOING IT

Ask those who stored their hay last year what profit they made over the September 1st price and the February 25th price. You hay growers are all brainy men, figure this out for yourself. You could have paid for several barns with the difference in the prices of hay between these two dates.

Big Jo Lumber Company  
Artesia, New Mexico

# GUILTY!

One of our citizens recently made a trip to the mountains and was caught in a heavy rain storm. In order to secure shelter he crawled into a hollow log. The rain continued for some time and the log became soaked and swelled until he found that he was held fast and could not get out. He then began to mediate upon his good and bad deeds in the past and upon reflection discoverek that he had never built a house in his home town, never repainted the old one he had bought, never repaired his fence, never built a garage for his car and when he happened to think that he had never made arrangements with the KEMP LUMBER COMPANY to place Mu-metal weather strips on his doors and windows to save his wife running all over the house with a dust cloth and mop and every time a car passed, he felt so small that he immediately crawled out of the log.  
Call at our office and let us show you model of the best weather strip on the market for the money.

# Modern Morocco

Street in a Moorish Town

(Prepared by the National Geographic Society, Washington, D. C.)

There is something to be learned from the recent "swing around the circle" by the President of France through Morocco. It includes visits to Mohammedan holy places near which, a few years ago, "Christian infidels" were not permitted. Smiles of welcome met this French party where formerly all Europeans received scowls or worse. It seems that the history of Algeria is being repeated and that French economic penetration is proving a success in this anomalous country, whose Arabic name means "the extreme West," but which has harbored more tenaciously than Egypt or Mesopotamia the flavor of the East.

Until a decade ago Morocco scorned western civilization and had succeeded in keeping itself at least a millennium and a half behind the times. Moslem fanaticism ran riot. Jews and Christians were treated with a mixture of contempt, suspicion and hostility. Because, as a result of pressure by the European powers, Christians were permitted to own land in Tangier, Moroccans referred to it as a "dog town," and one Moslem map-maker insisted on leaving it off the map of Morocco. Relatively few Europeans lived in the country outside of Tangier and a few other coast cities; and in some of the towns considered holy, it was as much as a non-Moslem foreigner's life was worth to appear.

The Morocco of today is something of a mixture governmentally. Theoretically it is all under the control of the sultan of Morocco. As a matter of fact, however, the country is divided into three parts—still nominally under the sultan. Along the Mediterranean and extending inland for 50 to 100 miles is the narrow zone recognized to be under Spanish influence. A caliph appointed by the sultan is supposed to be in control of this zone, assisted by Spanish officials. The city of Tangier, on the northwestern point of Africa, and a small surrounding district, constitute a special zone in which an international commission assists Moroccan officials. The main portion of Morocco—something like nineteen-twentieths—is under a French protectorate which has existed since 1912.

## Has Many Capitals.

Morocco is a land of many capitals. The sultan has palaces in Fez, Tafielt, Marrakesh (Morocco City) and Rabat, and resides in each from time to time. For some years Tangier was the diplomatic capital where all foreign envoys were resident and where a representative of the sultan also resided. Life and property were too insecure in the interior for foreign envoys to feel safe in the city in which the sultan happened to be living. This situation has changed since the French protectorate was established and the resident general now resides in the city of the sultan, having residences as well in the other capitals.

From the sea, Tangier is the Arab city of North Africa par excellence, for the ugly dashes of yellow, green and red, with which scattered modern constructions have marred the otherwise glistening whiteness of the native city, are not distinguishable until the steamer lies close in. Being a city of "infidels," it has been visited only on the rarest occasions by the sultan.

The traveler from Europe will be struck at once by the total lack of the well-known rumble of city streets, for though the uneven thoroughfares are in most parts paved with cobblestones, wheeled vehicles are practically unknown, not only in Tangier, but throughout the empire. The streets are nevertheless crowded with other means of transport. So narrow are some of them that at the oft-repeated "Balak!" "Look out!" one must again and again spring into some doorway

in order to let donkeys, mules and horses, with their spreading burdens, pass by.

Camels have to be unloaded on the "soko," or market-place, outside the walls. Things too heavy to be carried by a single animal must be transported by men, and it is no unusual sight to see great stones five and six feet long slung on poles and borne by a dozen or more half-naked Arabs.

In these narrow streets the little box-like shops, waist high, give the proper oriental setting to the whole. In them we see the owner reclining and sedately reading, seemingly oblivious to the stirring scenes around him, until he is "disturbed" by a purchaser for his goods, all of which are within arm's reach.

## Fez Once a Paradise.

Inland Fez is, of course, different from Tangier. The golden days of Fez began in the Ninth century and continued till about the Thirteenth. It was then celebrated as a paradise. Around the city were splendid gardens of rarest fruits. The soil, watered by a thousand streams, was of extraordinary fertility. Its numerous schools and libraries and its famous university attracted students even from Europe. The climate, its fruits and flowers, its fountains and wells, its verdure and beauty, caused the city to enjoy a reputation unique in Islam. Its glories have departed, but it still boasts of one of the most sacred mosques of the Mohammedan world, that of Mulai Idress, "the Younger," the founder of the kingdom.

The sights of Fez are its teeming streets, bazars and markets. Weeks can be spent in this interesting city, and yet new and strange scenes be met with at almost any moment. Snake-charmers, medicine-men, storytellers, with their gaping crowds, artisans and tradesmen of every description, costumes from the four quarters of Morocco and beyond interest the traveler at every turn. But all is not poetry in Fez. Revolting are the horrible diseases to be seen on every hand.

The residence portion of the city is strikingly unattractive. One can scarcely believe that he is being taken to call on one of the wealthiest Moors of the city, when he stops in a narrow street, barely five feet wide, inclosed by high, prison-like windowless walls. These walls are the houses themselves. A massive, iron-studded door will be opened, and in semi-darkness one will be conducted along a tortuous, dingy passage, through several doors, to suddenly emerge into one of those inner courts which are the masterpieces of oriental architecture, with its mosaics, tiles, fountains, colonnades or light Saracenic arches supporting a second gallery above, all covered with a profusion of colored and gilded arabesques and pendentives.

Almost rivaling these inner courts in popularity, especially with the women, the flat roofs of the houses must be mentioned. Here during certain hours the men are never expected to appear, for they are then sacred to the women of the families, who resort to them unvelled to enjoy the cooling breezes from the Atlas mountains.

The city of Mekinez might be called the monument of Mouley Ismael, the great contemporary of Louis XIV, who even dared sue for the hand of a daughter of the great French king. His mania for building is everywhere in evidence. For miles along the road leading to the quarries is the north great blocks of stone can still be seen lying, just as they fell from the hands of the slaves when they heard that their tyrant sovereign was dead. But a melancholy interest is attached to these great buildings, for it must be remembered that hundreds of Christian slaves toiled and died on these gloomy walls.

## LITTLE IMPROVEMENTS MAKE FARM AUTOMOBILE FAR MORE EFFICIENT

It is Combination of Many Small Things That Makes Up a Satisfactory and Complete Whole.

There always seems to be some improvement that can be made on the farm auto, no matter how well equipped the car may be. These improvements are often very small matters, but it is the combination of many small improvements that makes up a satisfactory and successful whole.

Fig. 1 shows an auto clamp vise. How often does the driver mechanic (who is, after all, the only one who can run a car both economically and efficiently), need a vise while away from the garage? Generally, through lack of one at the time, only a makeshift repair can be made and these often cause extra trouble afterwards when the car is in the garage.

The safety first motto applies to the tool kit as well as the driver, writes Arthur White in the Montreal Family Herald. This kit should always be inspected before getting away with the car, especially if going any distance. The most satisfactory and the quickest way to check tools and materials is to make a list of the contents and affix it to the inside of the tool box. It is an easy matter, then, to run over and check the items. This, too, is the only way to checkmate the tool borrowing fiend who pounces on your tools, borrows them and neglects to return them for weeks on end.

However, to return to the vise which is intended for light, small parts, holding them rigid while one is working on them. It is affixed to the engine and is held down by the engine head bolts. If these bolts are too short, it would be as well to secure longer ones, only taking care, when tightening them up, not to overstrain them, otherwise a broken stud results.

To make the vise two pieces of steel three-eighths or one-half inch will be needed. This is heated in the forge and then bent and formed as in the sketch, holes being drilled to fit the width of the studs. The movable section of the vise has two lugs, filed out at the bottom. These are then fitted into slots which are cut in the fixed portion. The tightening screw is made from any piece of one-half-inch bar

fixed up to pass through the holes in the vise. This also is heated and bent as shown. Afterwards a thread is cut, and a suitable nut fitted to it.

Fig. 2 shows a method of heating the intake manifold from the exhaust manifold. This increases the efficiency of the gas in cold weather. The idea is to cover the entire manifold with a copper sheet, bending it well around each manifold and making it meet in the rear. This copper jacket is held in place by making holes through it to correspond with the bolts on the engine, slipping it over these bolts, setting the pipe clamps in place and finally tightening up the nuts as usual. The copper conducts the heat from the hot exhaust pipes direct to the intake manifold. After running the engine about ten minutes the intake becomes so hot that the hand cannot be held upon it; thus it preheats the gas, and so raises its explosive power.

Fig. 3 shows another fitting for cold weather. This consists of a box-like case for the muffler and is fastened to the underside of the floor.

The casing can be made of sheet metal or even of wood. A number of holes should be bored through the floor of the car directly above this deflector; not so close or so numerous as to weaken the floor, of course, but sufficient to permit the heat from around the exhaust muffler, escaping into the car. This excess heat usually is lost in radiation; but, by being diverted to the interior of the car, it will add greatly to the comfort of the occupants in winter.

Another convenience when driving through snow or mist is a home-made windshield wiper. The very useful one shown in Fig. 4 is made of a piece of weather-strip (felt edge) mounted on a bent rod of spring wire. The clip is made of sheet metal fastened by means of a small bolt. On the other end of the wire, a small spool, with the flanges removed, is mounted. If the felt edge is saturated with equal parts of glycerin and alcohol it will coat the glass with an oily film, which tends to shed water.

## RIGHT AIR PRESSURE IS QUITE NECESSARY

Overloading or Underinflation Increases Temperature.

Amount of Heat Generated by Tire Is Due to Flexing and Bending of Fabric and Rubber—Old Tire Most Susceptible.

The heat that is noticeable in a tire after it has been run for a few hours is generated by the tire itself, due to flexing and bending of fabric and rubber. The amount of heat depends upon the rapidity and extent of this action. An overloaded or an under-inflated tire heats more rapidly than a properly inflated and properly loaded tire. Similarly, an old tire, due to weakness, is more susceptible to this heat-producing action than a new tire.

The strength factor built into the standard pneumatic tires of today is far above what the tire is ever called upon to deliver, except under most extraordinary circumstances. Experimental tests have shown that in order to blow out a new first-class tire by additional air pressure it is necessary to exert a force of over thirty times the regular recommended pressure.

Tire experts claim, therefore, that there is absolutely no reason, so far as a blowout is concerned, for a reduction of air pressure before going out on long runs or during hot days. The maximum increase in air pressure that could be expected, under any condition, would not exceed fifteen pounds—the average would not be greater than six pounds. This small increase in pressure will not blow out the casing.

The motorist should not concern himself over making inflation allowances for changes in temperature. The important point to remember is at all times to have enough pressure and that it is very rare that one has too much. Proper air pressure is necessary that full service may be received.

## Tax Rather High.

Tax on passenger automobiles in Great Britain is \$5 per horsepower. In Italy the tax for an average car runs between \$2,000 and \$3,000 a year.

## TIRE TOOL FOR AUTOMOBILE

Device is Applicable for Both "Straight Side" and "Clinchers" Types of Rims.

The Scientific American in illustrating and describing a combination automobile tire tool, the invention of F. Emmenegger of 2444 Chippewa St., St. Louis, Mo., says: The invention relates more particularly to a combined-tire tool adaptable for use in

A Perspective View of the Tool.

taking off and replacing tires, and is applicable alike to what are known as "straight side" tires in demountable rims, and "clincher" type tires of other rims.

## YOU AUTO KNOW

That oil "wears out" and that it should therefore be replaced with new oil every thousand miles or so. This "wearing" process is due to the fact that some of the oil works up past the piston where it is burned up; other portions work out around the different parts of the engine and are lost, but the major portion of the oil remains in the "sump" or crank case long enough for it to become mixed with the gasoline which has been forced past the piston. In time, the addition of this gasoline thins the oil to such an extent that it has comparatively little lubricating power.

The man who wishes to get the most economical power out of his car will therefore see that the crank case is drained regularly, depending upon the temperature at which the engine is run, the grade of oil used and the fit of the piston. Ordinarily this should be attended to every 1,000 miles and at no time should the car be driven more than 2,500 miles without attending to this important detail.

# PROMINENT PEOPLE

## Fighting Organized Crime in Chicago

Here is a man who will have responsibilities—Roger Sherman, president-elect of the Chicago Bar association, Chicago, with a thousand new policemen and extra prosecutors, is fighting an organized crime machine. President Sherman is a graduate of the University of Michigan, class of '94, and of Northwestern University law school.

"With crime in the saddle and honest men taking to the woods, there is more need than ever for upright, fearless lawyers and for honestly conducted bar associations," he said. "The true function of the bar association is to see that honest and able men are elected to the bench and that crooked lawyers are kept from preying on the public. The Chicago Bar association each year spends a large part of its income in conducting bar primaries to determine who are the best candidates for judicial office.

In promoting the election of such candidates and in conducting disbarment proceedings against unscrupulous lawyers. Under the association's direction a committee of Chicago's foremost lawyers, called the "grievance committee," sits nearly every week in the year to hear complaints against members of the bar. A lawyer employed by the association gives all of his time to conducting disbarment suits before this committee and before the Supreme court of the state. This is not required because lawyers as a class are more dishonest than any other class of men. The contrary is true. But lawyers must be above suspicion."

## Uncle Sam Is Not Worried Over Ricci

United States government officials are not disposed to pay heed to criticisms that have been made abroad and in this country with respect to the recent tour of the country made by Vittorio Rolando Ricci, the Italian ambassador to the United States, addressing the Italian-American communities. It is charged, in the interest of Italy.

Ambassador Ricci, who addressed Italian communities from coast to coast, including Chicago in his itinerary, in his public addresses urged the Italian people to become American citizens and to exercise the right of franchise.

On his face, critics of the ambassador's trip say, there may have been nothing wrong or no impropriety in his public utterances, but they assert that the main purpose of the trip was to discuss with Italian leaders in this country plans for centralizing the Italian vote here and concentrating it wherever possible upon election of men to office in this country who would act favorably toward the interests of Italy whenever occasion presented.

Such a course of action, it has been said, is entirely without the functions or the privileges of a foreign ambassador and constitutes interference in American domestic affairs by the representative of a foreign government.

## Gives Million to Art for Art's Sake

George F. Baker, New York financier and philanthropist, has given \$500,000 to the Society of the New York Hospital and \$1,000,000 to the Metropolitan Museum of Art. He gave \$700,000 to Columbia university last January for the purchase of the Dyckman tract for an athletic stadium.

As was the case with the gift of Mr. Baker to the art museum, his gift to the hospital is in United States Victory loan 3 1/2 per cent notes. In accepting the gift the board of governors voted unanimously to establish the George F. Baker endowment fund of \$750,000, consisting of the present donation of \$500,000 and the \$250,000 given to the society by Mr. Baker in 1912. He was elected a governor in 1896, and has since served the institution ably and devotedly.

The Society of the New York Hospital operates the New York hospital in West Sixteenth street, the Bloomingdale Hospital for Mental and Nervous Diseases at White Plains, and the Campbell Cottages for Convalescent Children at White Plains. It is the second oldest hospital institution in the United States, having been granted a charter by King George III of England in 1771. Since that time the hospital has treated 2,018,000 patients, 75 per cent of them free of charge.

Mr. Baker has been a trustee of the Metropolitan for thirteen years.

## From "Little Poland" to "Gold Coast"

Here is a portrait of Stanislaw Szukalski, the Polish sculptor of New York who married Miss Helen Louise Walker of Chicago. It's a reproduction of a sketch by his friend Rudolph Weisenborn of Chicago in the style both most favor. Szukalski's radical art methods have made him a storm center in the world of sculpture here and abroad.

There's a romance in the marriage. The sculptor's father was a Chicago blacksmith and as a boy he modeled at the Northwestern settlement. His bride, quite an artist herself, is the daughter of Dr. S. J. Walker of Chicago and Lake Forest. The distance from "Little Poland" to the "Gold Coast" is geographically short but socially a life's journey. Though in the same city, they aren't on the same planet, socially. Why Miss Walker was to have been Mary Landon Baker's one bridesmaid—that time Mary kept young McCormick waiting at the church. Szukalski first became a storm center in Chicago several years ago when he rebelled against the system of instruction at the Art Institute school. Over this dispute he left the institute.

During the season of 1915-16 Szukalski exhibited at the institute. Among his pieces which became known then were "Broken Melody," "The Orator," "Birth of a Thought," "Annunciation" and "The Fall." This group of blackened clay sculptures won considerable recognition.

Misses Alyffe and Phyllis Polk entertained a few friends with a home dance a few days ago. A very enjoyable occasion was enjoyed by the members of the younger set.

**MANDA WITH WICHITA**  
Carl Manda, local baseball artist, who has been with Calgara in the Canadian league for the past two seasons has been sold to Wichita of the Western League. He started with Wichita against Denver last Saturday as a pinch hitter and has been in the game since at his old position on third base.

### PAVING PROTEST NOTICE

TOWN OF ARTESIA, NEW MEXICO.  
Notice of Hearing to Property Owners Under Paving Resolution.

TO ALL PROPERTY OWNERS HEREINAFTER NAMED:  
A Provisional Order having been adopted and approved by the Board of Trustees of the Town of Artesia, New Mexico, on June 28, 1922, ordering certain streets and intersections to be graded, gravelled, paved, macadamized and otherwise improved, the cost of such improvements to be assessed against the owners of property abutting upon such streets and street intersections; and a Resolution having been adopted by the Board of Trustees of the Town of Artesia, on Tuesday, the 18th day of July, 1922, ordering a hearing to be given to the owners of property abutting on such streets and intersections, (It being proposed to pave and otherwise improve such intersections and assess the cost thereof against the owners of property abutting thereon within one-half block in each direction from such intersections.) Now, therefore,  
You and each of you are hereby notified that, pursuant to such Resolution, ordering a hearing to be given to the owners of property affected by such Provisional Order, a public hearing to such property owners will be given by the Board of Trustees of the Town of Artesia in the Town Hall of said Town of Artesia, beginning at 7:30 P. M., on Monday, the 21st day of August, 1922; such hearing to be adjourned from time to time and from day to day as the proceedings may require; at which hearing, you, as a property owner, affected or as a person interested therein, may appear before the Board of Trustees in person or by counsel and be heard as to the propriety and advisability of making such improvements, and as to the cost thereof, and as to the manner of payment thereof, and as to the amount thereof to be assessed against the property abutting thereon. In person, or by counsel, you may appear at such hearing and contest the proposed assessments for such improvements, the regularity of the proceedings with reference thereto, the benefit of such improvements to the property, or any other matter with reference thereto.  
The total estimated cost of said entire improvements is \$44,559.86.  
The property which you own, or in which you are interested, and against which it is proposed to make an assessment for such improvements, is described as follows:

NAME OF OWNER	LOT NO. BLOCK NO.	LEGAL DESCRIPTION
The Atchison, Topeka and Santa Fe Railway.		98 feet of right-of-way abutting on south side of Main Street and extending from the east line of Lot 1 in Block 7 in Original Town of Artesia to a line two feet west of the track upon the Main line of A. T. & S. F. Railway, and

You are further notified that, if you desire to be notified and advised in advance of the probable cost of the improvements to be assessed against your real estate, you may obtain general information as to the character of the proposed improvements, the frontage of your property which it is proposed to improve and an approximate estimate of the probable cost to be assessed against you and your property, by calling in person, or by your agent or attorney, at the office of the Town Clerk in the Town Hall of the Town of Artesia, New Mexico, during business hours on any week day between this date and the date set for hearing.

You are requested, in the event you desire to file a protest against the said improvements or against any matter or thing connected therewith, to file such protests in writing with the Town Clerk of the Town of Artesia, on or before the commencement of said hearing, although protests in writing are not the only means of protest open to you as you may also protest orally at the protest meeting.

BY ORDER OF THE BOARD OF TRUSTEES of the Town of Artesia, New Mexico, this 18th day of July, 1922.

M. H. FERRIMAN,  
Mayor of the Town of Artesia.

Attest:  
B. STEPHENSON, Town Clerk.
