CLARKE WILL HEAD ROTARY CLUB FOR THE NEXT TWELVE MONTHS

The Artesia Rotary Club has recently elected officers and directors, who will serve the coming year beginning with next Tuesday's luncheon. Results of the election announced at the last luncheon hour giving the full list of officers and directors.

Dr. J. J. Clarke will head the organization this year as president, succeeding Dr. C. Russell, whose term expired. J. E. Robertson was chosen as vice president, along with Charley Mann, treasurer and Frank Donahue, secretary, who is a hold over from last year.

REDEMPTION OF THE DELINQUENT TAXES TO AID PUBLIC SCHOOLS

Does Not Promise An Im- mediate Relief But Will Later Prove A Boon To The Finances Of The Pub- lic Schools.

The delinquent tax problem which has been a thorn in the side of the county's finances and at the same time has inflicted a serious problem in the finances of the local schools is on its way to a speedy solution, at least judging from the tax redemption certificates now being issued by the county treasurer, as recorded by the Eddy County Abstract Co., in the daily mercantile report.

It would appear from the amount of the redemption certificates issued by the treasurer on property situated in Artesia, that within a short time all of the property with back tax assessments will be redeemed or will be in the process of redemption. On some dates whole pages of the daily mercantile reports issued are taken by this one item alone.

Q. SADDLER LOCATES HERE

Q. Saddler, of El Dorado, Arkansas, manager of the Bradstreet Investment Company, of that place, has moved with his family to Artesia and will make this place his permanent home. Mr. Saddler will operate with W. E. Lee, in the sale of oil and gas leases.

MEXICANS TRIED FOR SHOP LIFTING HERE GIVEN 5 YR. SENTENCE

Juan Gamboa and Jose Perez, two Mexicans who were tried in Carlsbad last week, charged with shop lifting in Artesia and the theft of two dresses from the store of Feriman & sons, sometime ago, were sentenced to five years in the state penitentiary by Judge Brice recently.

CAR COLLISION ON THE HOPE ROAD SUNDAY NIGHT—NO INJURIES

What might have been a serious car collision was narrowly averted Sunday night when the car driven by Jack Scuderi collided with that of J. L. Mason, just as the Scuderi car had crossed the bridge a few miles of Hope. Both cars were damaged considerably, but fortunately no one was seriously injured. Glaring lights were given as the cause of the accident.

ARKANSAS OPERATOR TO MAKE HOME IN ARTESIA

Frank P. Jackson and wife, of El Dorado, Arkansas, are driving overland by auto to Artesia. Mr. Jackson will be one of the managers of the Artesia Supply Co., and will make his home here.

RAILROAD WEST AGAIN UNDER DISCUSSION ATWOOD GIVES VIEWS

El Paso Wants Road From Lubbock, Texas West— Would Top The Oil And Timber Regions And Also Farming District.

Further information about the railroad west from Lubbock through Artesia and on to Hope is given in the Tuesday's El Paso Herald in an interview from J. D. Atwood, Roswell attorney, which says:

A great source of tonnage for a railroad direct from El Paso to the plains of Texas not heretofore mentioned is the immense forest on the southeast slopes of the Sacramento mountain range, according to J. D. Atwood, Roswell, N. M., attorney, who is here on business.

This forest could be turned into lumber for a railroad due west out of the Artesia oil section, up the Penasco valley to Hope, where a railroad bed is already built through the Pinon, Avis and Weed wool and mohair section to El Paso.

"A railroad from El Paso to Hope would go right through the rim of this forest," said Mr. Atwood, "and the development of a great lumber enterprise there would be practically an easy matter. The Hope section in the Penasco valley is a fine fruit and truck country."

"I believe the direct railroad being worked for would be worth more to El Paso than either hydro-electric power at Elephant Butte dam or a gravity water supply for El Paso from the dam," said Maj. Richard F. Birges, member of the railroad committee.

"While both of the first two projects would be very great for the city, I believe the water supply project, which Congressman C. B. Hudspeth says would double the population of the city, will come eventually, I honestly believe the railroad would be of greater advantage, and that it would double the population of the city in a very few years."

While the building of the railroad is delayed, the Naylor Truck company does a good business. It has four trucks in tri-weekly service from here to Roswell, and business may warrant its being made daily service.

The company, freighting Roswell truck to El Paso, brings along a batch of orders from Roswell merchants and other business establishments, goes direct to the wholesaler, and makes deliveries within two days from the time the wholesalers see the orders. It takes six days by roundabout rail service.

TWIN LAKES OIL COMPANY MOVES OFFICE

Field manager M. E. Baish, of the Twin Lakes Oil Co., has moved his office from the Yates and Dooley building to the office building occupied by Frank Miller.

MISS CHERRY BLOSSOM TO BE PRESENTED APR. 7 AT THE HIGH SCHOOL

The boys and girls glee clubs of the high school will present the difficult but beautiful Japanese Operetta "Miss Cherry Blossom" at the high school auditorium, Tuesday, April 7th, 1924, beginning at 8:30 o'clock p. m.

Anyone who saw "Yanki San" the little Japanese Operetta given by the grade children will have a faint suggestion as to what the high school operetta will be like.

Cast of characters as follows: Cherry Blossom, brought up as a daughter of Kokema, in reality Evelyn Barnes of New York, U. S. A.—Helen Bullock.

Kokema, a proprietor of a Tea Garden in Tokyo, Japan, Comedy part—Herman Cole.

John Henry Smith, or Jack, a New Yorker, on a visit to Japan as a guest of Mr. Worthington—Carl Henderson.

Henry Foster Jones, Jack's pal, in love with Jessica—Charles Walker.

Horace Worthington, a New York stock broker, who is entertaining a party of friends with a trip to Japan in his private Yacht—James Cowan.

James Young, Worthington's private secretary—John Clark.

Jessica Vanderpool, Worthington's niece—Glenda Gray.

Tago, a Japanese politition of high rank—Eugene Denton.

Chorus—Gusha Girls in Kohema's Tea Garden.

American girls and men, guests of Mr. Worthington, visiting Japan on his private yacht.

The high school orchestra will furnish music between acts. An admission charge will be made, the proceeds will go to the high school music department.

PRESENT DEVELOPMENT WILL TEST TREND OF FIELD ACROSS RIVER

New Territories To Be Tested Running In a Southeast Course—The Operators May Uncover New Sand.

All acreage of the Illinois company has been taken off the market according to the latest reports, this comprising about thirty-eight thousand acres. This action on the part of Flynn, Welch & Yates, it is believed, indicates that one of the major companies is soon to buy a controlling interest in the company which was responsible for the opening of the Artesia Pool. While rather slow in entering this section of New Mexico, the big producers are now showing a decided interest in this field and the Texas, Gulf, Sinclair, Humble, Roxana, Pure and others, it is expected will soon follow the lead of the Ohio, Mid-west and Marland, who are actively interested. The running of production from the field will rapidly convince both large and small companies of the value of this territory which gives evidence of long life wells. It is from these and not the great gushers that money is made in the oil business.

Greater production it is believed, will also be obtained at a lower level. The deepening of the Roswell No. 1 well of the New States Oil company in Sec. 4-18-28, has materially increased the output of this well, which is now swabbing 160 barrels daily, with considerable pay still to be drilled.

At the present time interest centers in the many wildcats going down to the north, east and southeast of the proven area. The completion of these tests is expected to give geologists and operators the trend of the field. At the present time the trend appears to be to the east or southeast. The bringing in of the California No. 1 well of A. R. Goodale for a small producer at a shallow depth proved the existence of a pool to the east. The deepening of this hole and the early completion of the Dale C. Cheesman No. 1, in Sec. 35-18-28, should either prove or condemn this territory. It is expected that both of these wells will be nice producers from around 2000 feet. To the southeast interest centers in the drilling of the Ohio Oil company's No. 1, in Sec. 1-19-28, the Wm. Dooley No. 1, in Sec. 11-20-29 and the W. C. Wells No. 1, in Sec. 19-29-30. This latter well will go to 2500 feet unless the regular 2000 foot sand is encountered. A deep test, it is reported, will be drilled south of the Wells location, the hole to be carried down to 3200 feet.

Acreage continues to change hands daily and several hundred rigs in all probability will be running within the next six months.

MAN ARRESTED HERE ON LIQUOR CHARGE TO BE TRIED IN ROSWELL

J. H. Stanley was arrested Monday by officer Stevenson, assisted by the Federal prohibition agent for this district, on charge of possession of intoxicating liquor. Stanley was later taken to Carlsbad, where he was lodged in jail and will be tried on this charge at the Federal court in Roswell.

COL. GORDON HERE

It was understood this morning that Col. William Gordon, of Eastland, Texas had rented the lower story of the Mansion building, to be occupied as a mercantile establishment. A grocery store will occupy the east side of the building, while the west side will be occupied by a first class ladies and gents furnishing establishment.

Col. Gordon has been prominently connected with the oilfields in Eastland county and is well known in that section. He is said to be one of the pioneer builders of the present town of Eastland.

E. A. Moberly, Oldsmobile dealer of Carlsbad was here today.

HIGH SCHOOL PUPILS VACCINATED AGAINST SMALL POX EPIDEMIC

A transient case of smallpox, discovered in Artesia last week during the stay of the Kiwanis ministers, caused some alarm, but it is hoped that the precautions taken will prevent a further spread of the disease. Several of the High school students have been vaccinated as a preventative. The county health officer, in conjunction with the local physicians, have the situation well in hand.

If parents wish their children vaccinated, they may secure the services of the local physicians or this service will be preformed free of charge by the health officer, Dr. Johnson.

It is understood that the state health officer spent Tuesday in Roswell looking over the situation there, however, no fear of an unexpected outbreak of the disease has been expressed here.

COTTONWOOD DAM IS REPAIRED AT A COST OF \$1750.00 RECENTLY

The Cottonwood dam, which was damaged seriously by the washout on the Cottonwood creek last July has been repaired and is now ready for operation, according to N. C. Doering, one of the owners. Improvements were added along with the repair work and the concrete work re-enforced to better withstand heavy rains.

The total cost of the repair work amounted to \$1750.00, which was \$50.00 under the estimate made when the damage occurred last July. The reservoir rapidly filled when the work was completed and will provide ample water for the land now under the project.

ILLINOIS PIPE LINE CO. ADDS FIVE THOUSAND BARREL STORAGE TANK

Steady Runs Are Now Made Through Line—Twenty Eight Tank Cars Are Loaded Out The First Eight Days.

Regular oil runs are now made by the Illinois pipe line, although capacity runs will not be made until a new pump, which has been ordered, is installed at the loading rack. Until the pump is put in operation the oil in the 5000 barrel storage tank can only be lowered within eighteen feet of the bottom of the tank. An additional 5000 barrel tank has been placed on the line about two or three miles this side of the wells to take care of the oil in the event a break in the line occurs, although oil will be run and kept in the tank. The first oil was turned into this tank Tuesday morning in order to make a test for leaks.

Twenty-eight cars of oil had been shipped from the rack Tuesday morning according to J. C. Douglass, who is in charge of the line. Mr. Douglass, who is an experienced line man from El Dorado, Kansas, will manage all of the operations connected with the oil runs.

Additional gathering and feeding lines have been built recently, but the exact mileage covered by these lines can not be determined until a survey is made.

PECOS VALLEY B. Y. P. U. HOLD SESSION AT THE BAPTIST CHURCH

One hundred and fifty visitors and delegates were present at the Fifth Sunday meeting of the Pecos Valley Baptist Young Peoples Association held at Artesia Sunday afternoon at 3:00 p. m. Practically all of the Valley towns were represented, including Hagerman, Roswell, Hope, Carlsbad and Artesia.

A short business session was held preceding the regular program, which was in charge of Mrs. E. W. Tracy, president of the Artesia B. Y. P. U. Delicious refreshments were served after the business session and program.

The program follows:
"How the Bible was Written, by Mr. Jess Malone, of Hope.
Vocal Solo—Miss Chilcoat, of Carlsbad.
"Objections to the Inspiration of the Bible and How Answered"—Rev. N. A. Coxy, of Carlsbad.
Violin Solo—Edward Tracy, Artesia.

"Baptists Beliefs as to the Authority of the Bible"—Miss Pauline Bullock, Artesia.
Vocal Duet—Roswell members.
"The Bible as the Best Standard"—Miss Hazel Vineyard, Roswell.
Quartet—Hope members.
"The Bible's Place in Personal Life"—Lee Newsome, Hagerman.
Hope will entertain the Association at their next meeting, which will be held in May.

ROWAN MOVES OFFICE

Beecher Rowan, who formerly officed in the Gilbert-Collins building south of the First National Bank corner, has moved his office to Main street, one door east of Brainard-Corbin's Hardware store. Mr. Rowan's office presents a neat and attractive appearance and is easily accessible to all of his patrons.

TELEPHONE NO. 7

The urgent need for a hospital was again evidenced last Thursday when a local oil man accidentally shot himself. The long drive to the hospital at Roswell left him in an exhausted condition but most serious of all allowed possible infection to set in. This city is the gateway to the oil fields to the east. Hundreds of drilling rigs in all probability will be running within the next six months. The work of driller, tool dresser, casing, tanker, pipe line, rig builder and truck driver is especially hazardous. The law of average will decree that a certain percentage of these men will be injured, many seriously.

If means are not provided for the immediate attention of these cases the number of fatalities will be high. It will be impossible to carry them over the rough roads to Roswell or Carlsbad, the distance is too great. This city in its growth will demand many things, one of these is a MODERN HOSPITAL.

FARM PROSPERITY AND SCHOOL SUPPORT

Improved methods of marketing farm products are among the essentials to make liberal school support and consequently to good schools for country children, according to addresses and discussions at the department of rural education which held its annual meeting in Cincinnati, February 23-26. The trend of the three-day discussions centered around the idea of conservation. There must be conservation of the products and resources of the farm itself in order that sufficient revenue may be forthcoming to enable the farm family to participate in the world's accumulation of culture as well as in a realization of higher ideals of comfort and happiness. Conservation of the combined resources of the farm communities which make up the unit of school support is necessary in order that these may be tapped and distributed to the best advantage. Last but not least, there must be conservation of the children's educational interests through a professionally administered school or school system as represented by intelligent centralization of the units of taxation as well as the consolidation of school units.

FACTS WILL BRING PERMANENT PEACE

Owen D. Young, member of the committee of experts which formulated the Dawes plan and saw it through to successful conclusion, is continuing his voluntary work in the interest of world peace and prosperity. Mr. Long is now president of the board of trustees of the endowment fund to be raised for the establishment at Johns Hopkins University of the Walter Hines Page School of International Relations.

These trustees are seeking \$1,000,000 from the American public for the establishment of this school—the first of its kind in the world—an organized unit for research and for a scientific development of facts in the field of international relations. It is the belief of these trustees that only by such practical steps can future international misunderstandings be averted. In an address on this subject, Mr. Young said:

"We desire to outlaw war. Not so long ago we desired to outlaw the yellow fever. We desired to outlaw typhoid. We desired to outlaw diptheria. We desired to shake off the enervating shackles of the hookworm. The plague and yellow fever, typhoid and diptheria, the hookworm and malaria are outlawed in the world today. You all know the dramatic story. The patient research worker in his laboratory, seek-

ing facts, building theories and testing them by experiments, showing not only devotion to his work, but frequently a self-sacrifice which led to his death, came through victor. The practicing physicians, who are the administrators of medicine, adopted the fruits of that research, and today these diseases for the most part exist no more. Science blazed the way for the administrator to follow.

"So with war. It is not enough to have government departments of administration. It is not enough to have and industry of foreign relations. We must supply a science, a systematic body of things known, if we desire to make our aspirations for peace effective. Our curse is ignorance. Facts are our scarcest raw material. This is shown by the economy with which we use them.

"A great body of information must be created and mobilized in some single place about all the other questions which affect international relations. The men who do this research work will become experts in international problems. Some of them will continue their service in pure research as a life career. Others will be drafted into the government service. The Page School will, therefore, achieve three things. First, it will develop a science of international relations. Second, it will ascertain the facts, so far as they can be found, on any particular problem, and third, it will produce a continually growing body of men trained in that science and available for service in the fields of education, government and business. Our contracts with the world at every point should show more conductivity and less useless sparking.

"We invite associates and partners. Let no American who has a desire for peace in his heart fail to contribute the practical tools to make peace an accomplishment. We should like subscriptions to be widespread—a share in the enterprise cost each man what he can afford for such a purpose, and his share is equal to that of every other. Some day the list of stockholders will be presented to the president of the United States with the request that it be filed in the permanent archives of the Department of State as evidence of the desire and intent of the American people to aid their government with a science of international relations. That is to say, by a systematic body of things known about the complex causes of goodwill and ill-will between the nations of the world."

GLIMPSES OF THE PAST

From the files of the Advocate, April 1st, 1911.

L. N. Muncy was thrown from his horse Friday morning and seriously injured.

A. E. Wilborn, of Hagerman and Mrs. Ollie Lee Cotter, of Lovington, were married this week.

Eddie Smith, of Y. O. Crossing sold seven cars of cattle to Weinert and Stedman of Oklahoma this week.

Mrs. Ethel Newcomb has returned to Artesia after spending a few days visiting Mrs. A. G. McElhinney.

Chas. A. Beck, of Toledo, Ohio has moved to Artesia with his family and will make this place his home.

J. W. Van Hoy, of Kansas City, has bought the Artesia Steam Laundry and has secured competent help to manage it.

Mrs. Bertha Cohen received the message this week of the death of her aunt, Mrs. Frank S. Jacobson, of St. Louis, Missouri.

The leaders of Mrs. E. B. Kemp's Sunday school class of the Christian church has bought a fine new tent, which they put up Wednesday afternoon.

B. W. Hale, of the Cottonwood community has closed a deal for the sale of fourteen acres from the east end of his place, to Rev. John Nelson, of Texas.

The Cottonwood dam and reservoir, owned by Dooley and Hefferan, is furnishing a big head of water this spring and the owners are jubilant over their project.

Dr. J. Dale Graham, of Artesia, the physician employed by the reclamation service is now a resident of Camp. He will occupy a tent house until the completion of a hospital.

A SLAM AT DAD

The daughter of a certain strict-principled old deacon had attended a dance the previous night, much against her father's wishes. When she appeared for breakfast the next morning, he greeted her with the words: "Good morning, daughter of Satan."

To which the maiden respectfully replied: "Good morning, father."—Cornell Widow.

We have a complete line of samples of social stationery—Artesia Advocate.

STATE BRIEFS

\$92.32 EXPRESS CHARGES ON HOLSTEIN BULL

John Humphrey received a fine registered Holstein bull last week from the Pabst Holstein Farms at Oconomowoc, Wisconsin. The fine sire, whose mother had a record of 34 pounds of butter per week, is a yearling and will head Mr. Humphrey's fine herd of dairy cattle. The young Holstein bull came to Clovis by express, the charges being \$92.32.—Clovis News.

STATE HAS YET TO RECOVER ONLY \$150,000 FROM DEFUNCT BANKS

Of the more than a million state deposits in banks that have failed in the last few years less than \$150,000 now remains to be recovered. Of this \$14,136.55 is secured by surety bonds and \$135,202.08 by personal bonds.

As the result of these failures surety companies have paid the state \$793,722.95 and sureties on personal bonds \$32,763.06, most of it (exactly \$28,587.88) on the personal bonds put up by the First National bank of Carlsbad. In addition State Treasurer Warren R. Graham has recovered \$110,103.25 on United States bonds.

The \$14,136.55 due from surety companies is on account of the Silver City National bank. This probably would have been paid, but for the fact that this bank is said to be about to be reopened.

FIVE DEFENDANTS DENY CHARGE IN BANK CASE

J. H. Herndon, Roy McDonald, C. E. Bigelow, O. N. Marron and Henry Brewer, indicted for alleged violation of the state banking laws entered pleas of not guilty in the federal court Friday. George A. Kase-man, another defendant, was not present and did not plead. Attorneys W. C. Reid and Francis E. Wood appeared as counsel. They asked an immediate trial. Judge Neblett said cases were set until April 25 and he would endeavor to arrange a trial at that time. Thomas N. Wilkerson of government attorneys asked for more time and the court replied he believed the government should be able to get ready by April 25.

TROOP B WAS INSPECTED SUN.

On Sunday, Captain Franklin, regular U. S. Army, stationed at San Antonio, Texas, made a federal inspection of the Carlsbad Troop B of Cavalry, N. M. N. G. Captain Franklin is officially appointed to make this inspection, and the rating of the Troop and officers will be according to his report and recommendation, which is sent direct to Washington.

The mounted drill inspection was held at 9:45 Sunday morning. This troop led the state last year, and this year they are in better shape for inspection, and have a larger number of men, which assures a high rating again. Through loyal interest of members, the personnel of the Troop is kept up to a high standard.

Lieut. Col. John W. Skipwith, adjutant general, New Mexico, was here this week, arriving Monday, and has been making a thorough inspection of the troop, and is greatly pleased with the standard maintained. Col. Skipwith attended the dance at the Armory on Tuesday night, and expressed his pleasure at that occasion.—Carlsbad Current.

1,500 GALLONS OF MASH CAPTURED BY DEPUTY PENDLEY

Much has been written and much has been pictured by the movies of the moonshiners of the mountain region of Kentucky and Tennessee and the movie fans of Portales have received more than one thrill from witnessing these scenes as pictured by the desperadoes of Hollywood, but little have they thought that the sandhills of Roosevelt county were honeycombed with illicit stills, and some of a size that would have showed the moonshiners of Kentucky and Tennessee up as amateurs.

On Tuesday of this week, while Sheriff Poindexter was down at Roswell after the alleged owner of the still captured at Bluit several weeks ago, Deputy C. C. Pendley, assisted by Capt. Lee Langston and Deputy English, unearthed a real still of a he-bear size. This was located on the Old Wah place about fifteen miles northwest of Portales and was in a dug-out in the sand hills. The dug-out was about 16x40 feet, and contained 1500 gallons of mash, several gross of fruit jars, and all the ingredients that go to the making of the whiskey and alcohol.—Portales News.

FORD MOTOR CO. MADE PROFITS \$100,500,000 1924

NEW YORK—The Ford Motor Co. made profits estimated at \$100,500,000 during the past year, according to a comparative financial statement of the last two preceding years. Wall Street places the total stock valuation of the company at more than a billion dollars.

We have a complete line of samples of social stationery—Artesia Advocate.

Typewriter Ribbons for sale at the Advocate Office.

New Over-Blouses of Bordered Materials

Designers of blouses are experimenting with the new bordered materials and have used them with fine success in both overblouses and tunic blouses. The model pictured shows a very obvious placing of the figured border with a novel collar and laced front fastening.

House Methods Used
in Small Modern Bungalows

Floor Plan.

A. RADFORD
Radford will answer
advice FREE OF
charge pertaining to the
subject. For the readers of
this paper, the author and man-
ager, without doubt, the
most reliable source of in-
formation on the subject. Ad-
dress: William A. Radford,
1000 North Dearborn, Chicago,
Ill. Two-cent stamp
will follow.

The example illustrated of a small
home that has this modern feature
is an excellent one. It is a small
home, 30 by 32 feet, and contains liv-
ing and dining rooms and kitchen and
one bedroom. Being practically square
with no angles in the foundation walls
this home can be built at a very low
cost. It is of frame construction set
on a concrete foundation and has a
basement the same size as the house
itself. The exterior walls are covered
with stucco which may be ap-
plied over metal or wood lath, or any
of the patent stucco bases. While
the house itself is square there is an
8-foot porch at the front, which is
partially enclosed. When flower boxes
are placed on the rails and the usual
porch furniture installed this makes
a very pleasant summer sitting room.
The entrance door leads directly
into the living room, which is large,
its dimensions being 22 by 13 feet.
At the end of the room and connect-
ed by a double-cased opening is the
dining room, 8 feet 6 inches by 13
feet. Back of the dining room and
connected with it by an opening on
either side of which are china cases,
is the kitchen, which is large, 16 feet
6 inches long and 8 feet 6 inches
wide.
The bathroom opens off both the
living room and the bedroom, which
is a rear corner room, 10 by 12 feet
in size. The width of the bathroom
is utilized for a large dressing closet,
which has a cabinet and provides the
daytime home of the space-saving bed.
Thus it will be seen that this ar-
rangement gives all the space of a
five-room home at a greatly reduced
cost.

BACK TO THE FARM MOVEMENT INCREASED

CHICAGO —A back-to-the-farm
movement, resulting in a 42 per
cent increase in farm buying in 1925
and insuring 40 to 50 per cent in-
crease in such transactions this
year, is under way throughout the
United States, according to Dr. Her-
man Janss, director of the farm
lands division of the National As-
sociation of Real Estate boards here
today.

Dr. Janss declared this steadily in-
creasing trek of people to agricul-
tural districts is due to stabilization
of higher prices for farm products,
laws passed by nearly half the
states inspiring confidence in farm
buying by protecting the purchasers
from irresponsible real estate deal-
ers and "a general realization of
advantages by farm life."

Reports from reputable land deal-
ers in various parts of the country
show marked increase in land sales
the first few months of this year
over last year," said Dr. Janss.
"This condition indicates strongly
that the last of 1925 will see al-
most a complete end to effects of
post war 'from depreciation.'"

Dr. Janss cited a survey of farm
real estate trading just completed by
E. M. Fisher, director of education
and research of the farm land di-
vision of the National Real Estate
board, which, on the basis of re-
ports from 31 states and two Cana-
dian provinces, shows the 42 per
cent increase in farm sales in 1924
over 1923.

"The number of acres sold in 1924
increased 44 per cent and prices
showed an advance of 65 per cent,
indicating also an increase in the
valuation of agricultural lands,"
said Dr. Janss.

Novel and Ingenious Style-Points in Coats

This wrap-around coat introduces a
front fullness by means of three
wide side platts, which provide suf-
ficient width without detracting from
its slender lines. The embroidered
inlay on the collar and cuffs is dis-
tinctive and attractive—the design
novel and clever.

Fashion Smiles on Silk Alpaca

If you are not acquainted with silk
alpaca, find an opportunity to meet it
very soon and learn the dependability
and beauty of an aristocratic fabric.
The picture shows a two-piece dress
of black alpaca finished with white
crepe de chine and white buttons. The
design and the fabrics are exactly
suited to one another.

We have a complete line of samples
of social stationery—Artesia Ad-
vocate.

LOCALS

Wm. E. Rose, of Loving, was a
business visitor here Monday.

Dr. and Mrs. C. W. Williams and
son, Rex, left Tuesday for a trip to
El Paso.

Allen Stoker, of the Cottonwood
community spent a few hours in Ar-
tesia Monday.

Mrs. E. P. Sale and children, re-
turned Tuesday from a visit with
relatives at Elkins.

Judge Atkeson, Judge Ferree and
Lloyd Atkeson are attending court in
Carlsbad this week.

Preston Dunn moved this week
into the Drake house on west Main
street, just vacated by Calvin Dunn.

F. M. Haughtaling, a prosperous
farmer living near Artesia, was a
pleasant caller at the Advocate of-
fice Monday.

P. P. Mann, who lives northeast
of town returned to Artesia Satur-
day after two weeks service as a
petit juror at Carlsbad.

Mrs. Emily Stranahan left Tues-
day for her home at Harper, Kan-
sas, after a two months' visit to her
daughter, Mrs. J. R. Hoffman, and
family.

Taylor Ross, of Lakewood, who was
in town Monday, states that every-
thing is moving along nicely in
his community. Farmers in the com-
munity, he says, are needing rain.

E. A. Roberts, manager of the Pub-
lic Utilities company at Carlsbad,
and Lee Morris, electrician with the
same company, were Artesia visit-
ors Friday of last week and made
the Advocate a call.

T. H. Burrows, of Dayton, who was
in town Monday, states that crop
planting in the Dayton community
will be in full blast by another week.
Mr. Burrows will start irrigating
this week preparatory to planting
his crops.

Mrs. R. L. Newberry, with her lit-
tle daughter Doris, arrived last Fri-
day from Weatherford, Texas, to
join Mr. Newberry of the firm of
Newberry and Estes, drilling con-
tractors, who are engaged in the
Artesia oil field.

Mrs. J. F. McMains left yesterday
for Blackwell, Oklahoma, where she
will be the guest of her sister for
an extended visit. Mr. and Mrs.
Kilpatrick will occupy part of the
McMains residence during her ab-
sence. Mr. Kilpatrick is field man-
ager of the Rotary Oil Company.

H. N. White and wife returned
last Thursday from a five months'
stay at Leon, Kansas, and are stop-
ping with their daughter, and fam-
ily, Mrs. E. C. Wilkins, on the Cot-
tonwood. Mr. White and daughter
were callers at the Advocate office
this week, leaving his subscription,
saying he "just has to see an Ad-
vocate once in a while."

CATTLE CASE TO BE TRIED AT EL PASO

EL PASO, TEXAS, March 30.—To establish rights and relations of New Mexico original owners of war finance corporation cattle now in Mexico, if possible, to the satisfaction of the original owners, officials of the corporation are here from Washington, D. C., and officials of the Intermediate loan agency are here from Santa Fe.

Since Federal Judge O. L. Phillips granted the receivership of the New Mexico Livestock and Agricultural Loan company subsequent to which the controversy over about sixty thousand head of cattle in Mexico arose, he is here from Santa Fe, selected to preside at the hearings with the cattlemen.

Eugene Meyer is managing director of the War Finance corporation, and Gerald C. Henderson is general attorney. Others here from Washington are G. M. Brennan, F. L. Fahy, and William Thomas.

Levi Hughes is receiver of the New Mexico intermediate agency, with whom the cattle men are in controversy. Others here from Santa Fe are, H. V. Watson, chairman of the agency and J. O. Seth.

Cattlemen here for the meeting include, P. C. Hilliard, spokesman, and T. B. Cook, Magdalena; Ivory and Jim Murray, Silver City; R. W. and H. P. Vinson, Sam Smith and J. G. Ursey, Carlsbad, and the following who have been with the cattle in Mexico until, as they alleged they were "fired out." Paul Ares, Theo. and Lew Gatlin, F. Gentry, Floyd Gage and Roy Morley.

The cattlemen charge "gross mismanagement" of the cattle in Mexico and since they still have equities in the cattle, they should have some say in the management.

ALBUQUERQUE, N. M., March 30. P. C. Hilliard, of Magdalena, N. M., a cattleman and attorney, representing about ten other New Mexico cattlemen who have cattle in Mexico, announced here last week that an attempt would be made to file a count or accounting against Levi Hughes, receiver for the New Mexico Livestock and Agricultural Loan company, the intermediary agent for the War Finance corporation, which holds the mortgages on the New Mexico cattle sent to Mexico grazing lands about two years ago.

He made public a letter from Theodore Gatlin who had investigated the handling of the cattle in Mexico in which Gatlin charged that about 3,000 head of 22,000 had died during a drive 125 miles from Terrazas ranches to the Santa Clara Bustillos ranches.

He said the losses were light until the cattle were delivered at the Santa Clara ranch border and the American cowboys fired and Mexican outfits put in charge. Gatlin alleged the range to which the cattle were driven was not as good as the one on which they have been kept since their transfer to Mexico. Mr. Hilliard opposed the firing of the American cowboys and said a further complaint would charge that the cattlemen were told when the cattle were taken to Mexico that the cost would be around 25c a head per month whereas now the average cost has risen to around 60c.—Santa Fe New Mexican.

ANNUAL CONGREGATIONAL MEETING OF PRESBYTERIAN CHURCH HELD TUESDAY

On Tuesday evening the Presbyterian church of Artesia held its annual congregational meeting. This was preceded by a delicious supper, served cafeteria style by the ladies aid society, under the direction of its president, Mrs. R. G. Knodeler. In spite of threatening weather and infantile sickness, a large attendance was in evidence. At 7:30 o'clock the business meeting was held, presided over by Rev. W. Hooper Adams, who is serving as supply pastor. Reports were made by Mr. S. W. Gilbert, clerk of the session, church treasurer, David Ivan Clowe, for the Sunday school by Miss Emily Hewitt, secretary, for the ladies aid and missionary societies by Mesdames V. L. Gates and S. W. Gilbert; and for the Christian Endeavor society by Miss Vivian Wascom. In practically every line growth was shown, despite the fact that the church has been without a minister nine of the twelve months of the year. All treasuries showed balances on hand. As elders, Messrs. V. L. Gates and S. W. Gilbert were elected for three years to succeed themselves and Mr. W. B. Glover was elected as a new elder.

The congregational made a change in its financial and property management by consolidating the boards of trustees and deacons, electing six deacons, three of whom were explicitly designated as trustees of the property. The board of deacons, two of whom were elected for three, two for two, and two for one year, now comprise Messrs. Raleigh Paris, W. A. Bryan, Sandford Gates, D. E. Buckles, Rex Wheatley and D. I. Clowe. This board was empowered to elect its own treasurer and other officers. The new deacons will be ordained and installed next Sunday morning. The meeting closed as it had opened, with prayer, "peace and harmony prevailing."

Mystery

"How do you sell this lumber?" "I often wonder myself, ma'am."

CARL LOMEN

Carl Lomen, a prominent Alaskan, has gone to Washington to make an appeal to the American Red Cross to go to the relief of 12 Americans who are supposed to have been kidnaped from Wrangell island and taken as prisoners to Siberia. It is understood that the State department also has asked the Red Cross to aid them. Capt. Charles Welis, a Pennsylvanian, commanded the band.

LAKE ARTHUR SCHOOL NOTES

During the week of March 23rd, the school was favored with three visits by Rev. Maddox and singer Lewis. His subjects discussed were "Idealists," "Theories of Evolution" and "Prayer," all of which were instructive and educational. Mr. Thurman has announced a declamation contest by the high school and eighth grade in the near future.

A letter of thanks was recently received by the school from Miss Jewel Floyers, for the flowers received during her illness.

Several plays which have been ordered by Miss Gibbany have arrived and one will be selected for presentation at the close of school.

Last Friday the high school baseball team played their first game of the season and defeated the local nine 12 to 5.

The Verdict

Slim—"How did your wife enjoy your vacation?" Tim—"Oh, she tells me I had a wonderful time."

Easily Answered

"Why is one of the billiard balls always red?" "Because it is kissed so much."

Advocate Want Ads Get Results.

LAKE ARTHUR ITEMS

Miss Mary Gibbany spent the week end in Roswell visiting her parents.

Miss Esther Thomas spent the week end in Hagerman the guest of her brother and family.

Mr. and Mrs. Solon Spence spent Sunday near Dexter, guests of Mr. and Mrs. Otto Dozier.

Bob Bailey and family and Harry Bailey and family spent last Sunday in Dexter with friends.

Those who were sick in the community last week are all improving steadily, we are glad to note.

Mr. and Mrs. G. H. Toney, Mrs. Becker and Miss Dorothy, will go to Roswell Friday to visit a few days.

William Hill and family came in last week from Colorado, and will make their future home among us.

Mrs. G. H. Toney returned Tuesday from Roswell, where she has been visiting for the past few days.

W. A. Hams and wife, of Hagerman spent several hours in Lake Arthur Tuesday, visiting with their friends.

Mrs. J. A. Griffith and daughter, Mrs. Lillard Johnston visited the men folks down in the oil fields Tuesday.

Mesdames Ella M. Becker and J. H. Reeves, accompanied by Miss Marie Hedges, went to Roswell shopping Saturday.

John Griffith, Lillard Johnston and Dan Baker are down in the oil fields southeast of Artesia, drilling surface wells.

Roy Moots, depot agent at Greenfield, is home on a vacation. He is visiting the home of his sister, Mrs. Solon Spence here.

Paul Russell, who has been south of Carlsbad, with a bunch of cattle, came in Friday to visit with the home folks for a few days.

Mrs. A. Russell, who has been visiting for the past month in Coyle, Oklahoma, came in last Thursday. She visited a sister whom she had not seen in forty years.

Mr. and Mrs. M. W. Evans entertained with a six o'clock dinner

Tuesday the following guests, Mr. and Mrs. G. H. Toney, Mrs. Ella Becker and daughter, Miss Dorothy.

Ben Smith and family moved here from Hagerman last week. They have lived here once before and have many friends that will welcome them back again. Mr. Smith will have charge of the oil filling station now being erected by E. C. Jackson, across the railroad track.

The hotel Michigan changed hands Tuesday, a deal was made whereby Mrs. Annie Edington, of Hagerman became the owner of the hotel, formerly owned by Mrs. Ella M. Becker. Mrs. Edington comes to our little town well recommended, and we feel sure she will keep the hotel up to standard. Mrs. Becker has not formulated any plans definitely yet.

At the close of a successful Baptist revival held here for the past two weeks by Rev. Maddox, state evangelist, of Montezuma College, and Professor Stanton Lewis, choir director, of Clovis, the following were baptised at the tank at the Redman Pate home: Mrs. W. A. Sturman, Gerline Flowers, Flora Terry, Glen Evans, Forest Boone, Mr. and Mrs. Slager and two daughters, Lois and Ollie Lee.

Crawford and Eaker shipped four thousand five hundred head of sheep from their ranch three miles west of town, last Tuesday, to Emporia, Kansas. These sheep were certainly in fine shape. Mr. Eaker being an expert in grading and feeding sheep for the market. He has had excellent results along that line for a number of years. The train of sheep consisted of seventeen double deck cars. Those accompanying the train were: W. A. Eaker and sons, Elgin and Price, F. E. Bixler and Mr. Richards.

Monday evening the spacious home of Mr. and Mrs. J. S. Nichols was thrown open to the young people of the community, in a social, as the result of a contest in which the senior and junior choirs, were interested, during the Baptist meeting. The evening was spent in social conversation among the elders, and games and stunts among the young folks. Mr. Lewis proved himself quite proficient in entertaining the young folks. He arranged for the serving of delicious strawberry ice cream and cake to the guests that numbered about sixty.

Last Sunday morning immediately after Sunday school, the members of the Epworth League, of the Methodist church, left in cars for Roswell to attend the Fifth Sunday Epworth League convention held there. Lunch was carried along and eaten picnic fashion at South Springs, after which the party motored into Roswell. The session began about 2:30 at the First M. E. Church South. Each number of the program was enjoyed. Some very interesting and instructive talks were given by various Leaguers along the Valley. Special music was furnished. The kind hospitality of the Roswell League was shown when they invited the entire assembly into the basement where light refreshments were served. The next meeting will be with Hagerman, in May. These meetings are always a pleasure to look forward to.

WOULDN'T STAND FOR CHANGE OF KEEPERS

Love of his old keeper, an aged employee of the Paris zoo, is the only explanation of an unusual strike on the part of Bobby, a famous elephant, whose back has carried children, rich and poor, for 22 years, says the London Mail. Every day during that time Bobby's caretaker filled buckets with water, potato peelings and oats. But he was growing old and the government decided to replace him without consulting the elephant. The first two days the beast refused to eat and bellowed loudly whenever attendants attempted to make him carry his usual load of youngsters. His fury increased until he began to demolish benches and tear holes in the sides of the elephant house, rushing everywhere looking for his old master. To stop the destruction the old keeper was recalled and received an affectionate welcome from the elephant, who caressed the tip of his ear with his trunk, making noises which the old man interpreted as cooing.

Crepes Maintain Lead in Spring's Negligees

All the soft, light crepe weaves are well suited to this pretty and practical negligee, whether they are of silk, cotton, or the two combined, and nearly all of them are washable. When crepe de chine is used the plaiting is of self-material, but on cotton negligees it is usual to make the plaited frill of silk.

HOPE ITEMS

Richard Donaldson, of Loving, was in Hope this week end.

Noel L. Johnson is in Roswell attending to business matters.

Mrs. Highese has returned from Carlsbad, she is much improved in health.

D. E. Brownlie was in Carlsbad this week. He had been called there by the court.

Miss Hazel Belle Johnson, Oleta French and Mr. Richard Donaldson motored to Roswell Sunday.

Mr. and Mrs. Z. B. Moon went to Loving Sunday evening, where Rev. Moon held services Sunday night.

Ned Richards and family have returned from California, where they have been for the past two years.

Sam Joy and Gordon Bumgardner have returned from Bradey, Texas where they have been for the past week.

Will Wright, an old resident of Hope, passed through going to Mayhill where they will visit his wife's family.

Word has been received from Dr. Puckett that they are on the road home. They spent the winter in Driscoll, Texas.

Brother Moon preached a fine sermon Sunday morning. The doors of the church were opened and several people joined.

Alterations

Interior painting should be done from November to April; plumbing alterations from December to March. Roofing, conductor and gutter repairs should be made in June, July and August.

Heating plants should be overhauled and repaired as soon as they are shut down in the spring. Major repairs of this nature and all alterations and replacements of parts should be started in April.

joyed seeing the Picher well shot and also the finding of the Mexican diamonds.

EAST TEXAS RECEIVES MUCH WANTED RAIN

Dallas, Texas, March 30.—Rains of varying amounts were reported from Dallas northeastward, giving farmers hope that the long dry spell has been broken. There was only a drizzle at Dallas, but conditions tonight were favorable for rain. The precipitation has been much less than usual in this part of the state for several months.

The reports said there were rains from Bonham to as far south as Tyler, north and south on a line with Dallas received only slight moisture.

New Electricity Idea

A submarine cable in one continuous length of 2,700 feet has been recently laid across the Hudson river at Garrison, just below West Point, according to the Electrical World. The makeup of the cable and the method of laying it presented some features not encountered in everyday practice. The cable is to carry current from the east side of the river to the west side for local distribution in the immediate vicinity of Garrison. Power is to be transmitted at first at 2,300 volts with ungrounded star-connected transformers, and this will later be changed to 4,000 volts with the neutral grounded.

CORONA SCHOOL HOUSE IS RAZED BY FIRE; FINE GYM DESTROYED

ALAMOGORDO, N. M.—Word has been received here of the destruction of the Corona school house by fire. The building was razed, it is said. It was insured for \$20,000. The school had one of the finest gymnasiums in the entire state and its loss is keenly felt by residents of the community.

Corona is north of Carrizozo on the El Paso & Southwestern system. It is reported here that the fire gained rapid headway and the building was enveloped with flames in just a short time.

Origin of the fire has not been learned.

The Fortune Teller

Frank Donahue is confined to his home this week on account of illness.

Sheriff Shattuck was in town Tuesday from Carlsbad, enroute to Santa Fe.

E. M. Neff, of Chicago, Illinois spent the week here looking over the oil prospects.

James Jackson and wife are rejoicing over the birth of a son last Friday morning.

A. J. Crawford, a farmer of the Hope community, was a business visitor here Monday.

Attorneys Ferree and Atkeson were transacting legal business in Carlsbad Tuesday.

George Frisch moved his family this week to their new home on south Roselawn avenue.

Mrs. M. C. Lee and daughter, Bernice, from Lakewood, were shopping in Artesia Saturday.

Lewis Story moved Monday to the house on Quay street, which he bought some time ago from Mrs. "Shorty" Lindsay.

Prof. Floyd was in Roswell last Thursday and Friday, having taken his children there for medical attention.

John Richards enjoyed a visit last week from a friend, Fred Johnson, of El Paso, who spent a couple of days with him.

Calvin Dunn moved Monday to the house on Quay street, which he bought some time ago from Mrs. "Shorty" Lindsay.

Martin Yates and Mr. Ramey, of the International Supply Co., returned Tuesday from a business trip to Tulsa, Oklahoma.

Oscar Bullock and wife are moving here today from Hagerman. They will occupy the Stone cottage, corner of Fourth street and Missouri avenue, just vacated by Lewis Story.

Mrs. Phillips, who has been visiting here for the past couple of months with her daughter, Mrs. Van Welsh and son, Deek Phillips, and their families, leaves today for her home in New York state. Mr. Welsh goes with her as far as Kansas City.

Mrs. A. L. Allinger went to Roswell Tuesday for an X-Ray examination of her throat, the object being to locate a bone, which she had accidentally swallowed. Her husband and daughter, Miss Leona, accompanied her. Mrs. Ethel James taught for the latter during her absence.

District Judge C. R. Brice and District Attorney Dillard Wyatt passed through Artesia en route to their home at Roswell after attending court duties at Carlsbad. Judge Brice returned again to Carlsbad Monday where he will preside at several civil suits in the District court.

The last number in the Lyceum course was a lecture given by Dr. Powell last Friday evening. The subject of the lecture was "Democracy and Tomorrow." It was a constructive lecture in which Dr. Powell discussed present conditions and tendencies and future prospects and gave many helpful ideas.

Rev. Porter Norris, pastor of the Church of Christ at Roswell, occupied the pulpit of the Church of Christ here last Sunday morning and afternoon. He was accompanied by Messrs. Rogers and St. Clair, of his own church. Joe Puckett and family and Miss Fox were over from Hope for the afternoon service.

S. D. Gates and wife this week moved into their house on west Main street, known as the Hanger place, and Walter Ferriman and wife took possession of the Gates house, which they purchased a couple of months ago. Mr. and Mrs. F. J. Lukins are expected back from California about May first and will occupy their old home, in which the Ferrimans have been living.

W. E. Ragsdale returned last week from Bisbee, Arizona, where he and his brother, Tom, were called by the fatal illness of their mother. Mrs. Ragsdale passed away last Saturday and the remains were taken for burial to the old home at Hopkinsville, Kentucky, a daughter, Mrs. Ball, accompanying them. Tom Ragsdale remained until the end came and afterwards to look after business matters. The deceased was seventy-six years of age.

Say "Otiose," Not "Lazy"
Are cross-word puzzles helpful? The other day we were doing one when we had to find a six-letter synonym for "lazy." As a starter we already had "o" and from somewhere within us came the whisper "otiose." We hurried to the dictionary and verified its meaning. "Otiose" has now become fixed in our vocabulary. Not only that, but we have directed the attention of friend wife to the word, with the hope that when next she feels like characterizing us with the shorter and uglier term, she will substitute "otiose." It is much less jarring.—Boston Transcript.

COTTONWOOD ITEMS

Arch Hill was a business visitor in Artesia Saturday.

Mr. and Mrs. Bixler and daughters were Artesia visitors Monday.

Mrs. Denton was a caller at the Bixler home Friday, the 27th.

William Bryant, of Artesia was attending the revival here, Sunday.

The Wilsons attended church and Sunday school in Artesia Sunday morning.

Little G. C. Denton was ill two days last week and unable to attend school.

W. A. Eaker, Clyde Eaker and Price Eaker were in Artesia on business Saturday.

Mrs. McKinney and Mrs. Lon Hill were callers at the Bixler home Thursday afternoon.

Mr. and Mrs. Tuttle, of Artesia, were among those who attended church here, Sunday.

The Walters and daughter, Mrs. Evans, of Hagerman, were down Sunday attending the revival.

Misses Frances and Florence Nelson, Gladys Henderson and Eloise Reece were in Artesia Saturday.

Mrs. J. Hollingsworth and the Lusks were guests at the Bixler home for supper Sunday afternoon.

Mrs. Oscar Montgomery and her cousin, Miss Hill, were business visitors in Artesia several days ago.

Mrs. Bradley and daughter, Miss Leonora, and Miss Emma Briscoe motored to Roswell Friday, on business.

Mr. and Mrs. Albert Floyd and family left Wednesday, for Roswell, where they will stay indefinitely.

Mr. and Mrs. Cecil Brannon and children left Wednesday for the Plains, where they will visit until Saturday.

Miss Margaret Bixler, Mrs. Cyde Eaker and Mrs. Cecil Brannon were the guests of Mrs. Lou Hill, Tuesday afternoon.

Mr. and Mrs. Wells and Rev. Watkins were dinner guests at the Thomason home near Artesia, one day last week.

Mr. and Mrs. Kersey Funk and Mrs. Mamie Coffil were dinner guests at the Jesse Funk home at noon Sunday.

Mrs. Alva Spence, of Lake Arthur is canvassing our community this week and taking orders for dress materials, etc.

A few nights ago, grandmother Eaker became worse and the chiropractor was called. She is feeling much better now.

Mr. and Mrs. C. E. Aydelotte and baby daughter were here from Hagerman, Sunday to attend the revival and visit the Bixlers.

The Lusks, Miss Myers, Clayton Yoder, Henry Perry, Miss Rucker and several others were down from Hagerman Sunday attending the Church of Christ revival.

A letter was received last week saying that, under the care of a chiropractor, Reece Palmer, who was so badly injured last October, would soon be able to drive the Ford. This is good news to us, for Reece has suffered much, having

Embroideries Enrich Spring's Dressy Coats

Among the dressier coats for spring, rich embroideries reveal sumptuous colors and oriental designs in wide, irregular bandings. Embroidery in the coat shown here extends nearly to the hemline and covers at least half of the sleeve. A collar of dyed squirrel carries out its warm brown tones.

ALLEGED OSCURO P. O. BANDIT HELD AT MADRID

Pedro Gonzales, charged with holding up the Oscura postoffice, eighteen miles south of here, and with shooting assistant postmaster Ed Corn, was captured by Marshal Tom Stewart at Madrid Tuesday night.

The arrest of Gonzales followed the confession of Jose Campo, in the Lincoln county jail. Campo confessed being one of the gang, and implicated Gonzales and Martin Barel as his accomplices.

Barel escaped while Gonzales was being arrested. It is believed Barel will try and reach the border by a circuitous route.

Campo will be taken from Carrizozo to Santa Fe the end of this week.—Carrizozo News.

Why Old Age Seems Hard

"So John D. is eighty-five," said a New York banker on the birthday of the multimillionaire. "Well, I remember a remark of his about old age that he made on his retirement from business.

"A man is like an automobile," he said. "By the time he gets himself in satisfactory running order, finds out his strength and his weaknesses, and learns how to get a decent day's work out of himself—why, by that time he's considered old-fashioned and a back number, the young folks laugh when he goes by, and nobody wants anything to do with him for love or money."

Artesia now has one of the best equipped optical offices in the state. Edward Stone's office now being fully equipped with modern instruments for sight testing. 2-4-ltc

been paralyzed in the lower limbs since his fall.

Rev. Watkins closed the revival Sunday evening and left for his home in Texas. We were all very sorry to have him go. His sermons were very wonderful and his influence in our community could not be excelled. We hope Rev. Watkins will find it well to return sometime in the future and give us another series of services and perchance, make his home among us.

DID YOU EVER STOP TO THINK

By E. R. Waite

THAT in the minds of the public, advertising has a decidedly distinctive place. It has been put there by the definite policy of persistent advertisers in advertising only the best in quality.

THAT well advertised products, on account of their high quality and the service they give, have proven themselves the best time and time again.

THAT it is a well known fact that persistent advertisers never substitute for quality. Substitutes for quality never satisfy.

THAT discriminating buyers demand advertised products, for their quality is guaranteed and gives its users complete satisfaction.

THAT of the many methods of advertising created, none has met with such cordial appreciation as advertising through the printed page.

THAT advertising through the printed page meets every requirement of every line of business. It surpasses in economy and brings better results than any other known method of advertising.

THAT good advertising, not only brings business but builds prestige. Wide-awake business concerns profit by its service.

More and better advertising creates a desire on the part of its readers to possess. Persistent advertising means more sales and more sales means more profits.

The world knows that persistent advertising always keep step with progress.

THAT the minds of the public, advertising has a decidedly distinctive place. It has been put there by the definite policy of persistent advertisers in advertising only the best in quality.

Hotels on Ocean

Hotels on floating islands in mid-Atlantic will be a feature of the new airway to be opened next spring, which will make it possible to reach Buenos Aires by way of Paris in less than a week from London. The scheme has been prepared by Pierre Latesoers, the French airway magnate, and only the formal sanction of the French government is now required.

The floating islands in the Atlantic will be constructed to afford accommodation for passengers and sea-planes alike. They will be established on the route between Dakar (Senegal) and Fernando de Noronha island, off the Brazilian coast.

BURSUM OWES STATE \$3,374.59 SAYS AUDITORS

Former United States Senator H. O. Bursum is charged with owing the state \$3,374.59 in the report by auditors of the state land office, just made public by State Comptroller Carter.

A special schedule is devoted to rentals alleged to be due on lands covered by lease No. 15898 issued to Bursum on October 1, 1922 for 43,061.94 acres which were included in purchase contracts and leases on prior dates. On this date, according to the report, Bursum owed the state \$3,374.59 exclusive of penalties and interest which was past due.

Bursum Owes \$3,374.59? The auditors say: "The rental on lease No. 15898 has been figured in accordance with former leases covering this land and the existing law in effect October 1, 1922. The rental thus figured amounts to \$5,021.52 * * *. To this amount has been added the rental for the period from October 1, 1922, to October 1, 1923, at the rate of 3 cents per acre per annum and deducted from the first payment of \$2,938.77 made on lease No. 15898 leaving a balance of \$3,374.59 due the state of New Mexico for the use of the land held under this lease * * *. Of this amount \$2,656.27 should have been collected on the notes returned to H. O. Bursum (for prior leases). As these notes are not on file rental charges have been based upon the use of the land by H. O. Bursum * * *"

It is also desired to mention the 6,419.67 acres of land omitted from lease No. 8426. The tract books show that this land was released to H. O. Bursum December 11, 1922, but the land does not appear in this lease. The memorandums in the tract book give the impression that a lease has been issued but no lease is of record in the state land office. To date, only two sections out of 10 have been eased and the office should ascertain who is using the balance of the 5,120 acres."

Otero Owes \$9,183.79? The charge is made that the state has sustained a loss of \$9,183.79 "through failure to collect from E. M. Otero the correct rental charges due on land used by him and a total loss of \$1,607.06 on land selected for him but not leased by him at the time of selection."—Santa Fe New Mexican.

WILLIAM D. SHEPHERD

Attorney William D. Shepherd of Chicago, foster father and chief legatee of the late William Nelson McClintock, young millionaire orphan, who has been involved in an inquiry into the cause of McClintock's death.

Wanted—A Grandmother

Maizie Ellen played with some children next door and they were always talking about their grandmother doing this or that for them. Maizie Ellen had no grandmother, and it worried her because she could not refer to one. She asked her mother, but, of course, mother could not provide a grandmother for her. Finally she approached her Aunt Kate, whom she was visiting one day: "Aunt Kate, I want a grandma. You got gray hair and look just like a grandma. I believe I'll just call you grandma. I want one. All the other little girls have one."

Advocate Want Ads Get Results.

M. Otero the correct rental charges due on land used by him and a total loss of \$1,607.06 on land selected for him but not leased by him at the time of selection."—Santa Fe New Mexican.

THE RED CROSS AIDS SUFFERERS OF RECENT STORM IN ILLINOIS

Since the occurrence of the tornado disaster in Illinois, Missouri, and Indiana, the branch office of the American Red Cross at St. Louis has been and is filling immediately all requests for food and clothing received through the accredited representatives of that organization now located in every important community in the stricken area, according to Wm. M. Baxter, Jr., Assistant to the vice-chairman in charge of the branch office at St. Louis.

All relief work in Murphysboro, Illinois, has been officially turned over to the American Red Cross following a mass meeting of Murphysboro citizens. This action follows that taken by other local relief committees in the devastated areas and the relief work in the entire tri-state disaster in Missouri, Illinois and Indiana, is now under the direction of the Red Cross. Central administrative headquarters have been established at Murphysboro, Illinois, from which relief operations for the three states will be directed. Area offices will also be established immediately in each community struck by the tornado of March 18.

A large corps of trained Red Cross disaster workers is being assembled and the rebuilding and rehabilitation program of the organization rushed to completion. The emergency relief is well in hand, every injured person has been cared for, the homeless temporarily sheltered and provided with food. The full force of the disaster relief organization has been thrown into the task of permanently rehabilitating every sufferer.

Henry M. Baker, Red Cross Director of relief operations, assured the sufferers today that the Red Cross will not stop until every sufferer from this terrible catastrophe has been rehabilitated according to Red Cross standards.

Although full directions and responsibility for relief work have been placed upon the Red Cross, other relief agencies including the Salvation Army and the Volunteers of America are on the ground giving the Red Cross valuable help during the emergency period.

While assuring the sufferers that every means will be used to complete the work at the earliest possible time, Mr. Baker told them it was well to realize at this time that the extensive rebuilding program undertaken by the Red Cross would require a long period and that no human organization could complete the immense task of building newer and greater communities on the ruins of the devastated cities within less time than many months.

Time Will Tell

John Jimson was very ill. He called in a doctor, who hemmed and hawed, and called in a second doctor. Then while John Jimson listened, the two quarreled about his case. "You're wrong," said Dr. No. 1. "I'm right," retorted Dr. No. 2. "You're wrong," repeated Dr. No. 1. Here the patient gave a groan and brought the medical men to a realization of the needs of the moment. But Dr. No. 2 couldn't resist a last swipe. "Have your own way," said he, "but I'll prove I'm right at the post-mortem."—The Argonaut.

YOU SHOULD TAKE CHIROPRACTIC ADJUSTMENTS BECAUSE

They will make you well. They leave no bad after effects, such as follow the use of medicines and drugs. They are inexpensive, and being sick is the most expensive thing in the world.

They will make you happy, for healthy people are happy people.

They take but a few minutes of your time daily, so the busiest man or woman has time to get well.

They are effective in both ACUTE and CHRONIC troubles, and prevent acute trouble from becoming chronic.

They have made thousands of others well and your body is built on the same plan as theirs.

They prevent operations, thus saving you much suffering and expense.

They are scientific because they remove the CAUSE of disease and do not doctor effects.

Don't say impossible. That is what they told Edison, Marconi, the Wright Brothers and others.

SCHOOL ELECTION NOTICE

In accordance with Chap. IX, Sec. 904 of the New Mexico School Code an election for the purpose of electing three school directors will be held Tuesday, April 7, 1925.

Said directors shall be elected for four years each.

Only legal voters, residing in Municipal School Dist. No. 16 shall be qualified to vote.

Said election will be held between the hours of 8 A. M. and 6 P. M., at the Central School building in the town of Artesia, Eddy County, New Mexico.

M. P. KEEN, Chairman of Board of Ed. Mun. School Dist. No. 16.
LINA A. MANDA, Secretary.

NOTICE

In The Probate Court, Eddy County, State of New Mexico.

IN THE MATTER OF THE ESTATE OF MURRAY SCHENCK, DECEASED.

No. 505.
NOTICE is hereby given that the undersigned, was on the 2nd day of March, 1925, appointed, executrix of the estate of Murray Schenck, deceased, by Hon. D. G. Grantham, Probate Judge of Eddy County, New Mexico.

Therefore all persons having claims against said estate are hereby notified to file the same with the County Clerk of Eddy County, within one year from date of said appointment as provided by law, or the same will be barred.
CORDELIA T. SCHENCK, Executrix.

3-12-4-2

Faultless Tailoring in Two-Piece Suits

When stylists call the new two-piece suits "mannish" they refer to their simplicity and irreproachable tailoring, for colors and materials are definitely not mannish. A delightful spring model is pictured in a tan and brown cross-bar material with the fewest number of bone buttons possible to use for finishing. It is a faultless suit with skirt ten inches from the floor.

IGNORANCE

A congressman's wife, waking him in the middle of the night, told him that there were robbers in the house. "Impossible," said the Congressman. "There may be robbers in the Senate, but not in the House."—Florida Times-Union.

COMPARATIVE INCOME PAID BY NEW MEXICO

Figures are usually very dull, but the facts that can be secured from a government publication, sometimes make very interesting reading. The commissioner of internal revenue in Washington, D. C., has just published a booklet showing in great detail the reports from the income tax returns of the various states and territories of the U. S. Owing to the immense amount of work involved it takes sometime to collect all the facts, hence it is impossible to bring the work right up to date. The figures just made available are for the year 1922 and are taken from the income tax reports filed in March, 1923.

New Mexico did not pay as large a tax as many of the other states. In New York City alone, there was twice the number of taxpayers as there is population in this state, but New Mexico is not at the foot of the list in the number of returns nor in the amount of the taxes paid.

The population of the state as of July 1, 1922, as estimated by the bureau of census is given as 268,861. This is only an estimate based on various tables, and on the census of 1920. It shows a growth of 8,511 over the last census. While Arizona has made great strides in population, still the report shows that this estimate for New Mexico is more than 1,230 over Arizona's estimate. The per cent of population filing returns in New Mexico is 3.13, and there are ten other states with a smaller percentage.

It is to be noted that net incomes of less than \$1,000 for single or unmarried persons or heads of household, plus an addition for each dependent person are exempt. The tables and all other figures pertaining to individuals apply to those who make or submit an income tax return, and are taxed according to such return. Also there is not included any returns that may be made by persons temporarily a resident of this state. Unfortunately all residents of this state are not citizens of the state. There are some who while living here, maintain their legal residence elsewhere, and usually send their income tax reports from that place.

Personal returns have been grouped into various classes of a given income and the table published is as follows:

	1922	1921
Under \$1,000.....	818	892
\$1,000 to \$4,000.....	3,996	4,253
\$2,000 to \$4,000.....	5,542	5,704
\$4,000 to \$5,000.....	673	528
\$5,000 to \$10,000.....	423	322
\$10,000 to \$20,000.....	68	52
\$20,000 to \$50,000.....	5	4

Dividing according to the number of returns from each county in the state, including all classes of income, the table for 1922 shows some fluctuations over the same table for 1921.

	1922	1921
Bernalillo.....	2,848	2,581

BOY SCOUT ACTIVITIES

The Boy Scouts had their regular weekly meeting at the Legion hall last Thursday evening. Charles Bullock and Orland Syferd were selected to attend the Rotary luncheon on the following Tuesday. A hike was planned for Friday and on that day a number of the scouts hiked to the Turknott farm south of town where they prepared supper in the open.

On Thursday and Friday evenings a training course for scoutmasters and assistant scoutmasters was conducted by Mr. Minor Huffman, of Roswell, who is scout executive for Southern New Mexico. The training was very interesting and though the course was not as well attended as it should have been, some very good work was done, and those interested in the scout movement here were greatly encouraged by the interest shown.

MAY DAY

Throughout the country May first will be observed as Child Health Day. The entire nation will have its thoughts directed to the health of children of all ages. The schools, the churches, the clubs and the official agencies will join in the celebration.

Very shortly suggestions for school programs will be ready in this office. The Women's Clubs are already prepared to get behind the plans. Health officers and public health nurses should prepare now, by consultation with the Women's Clubs, Parent-Teachers Associations the school authorities and any other local groups interested.

It would be well to write at once to the American Child Health Association, 370 Seventh Avenue, New York City, for suggestions and material.

2297 to 2311 feet—oil sand
2311 to 2314 feet—gray and brown lime

**YOUR DAIRY COW NEEDS
MINERALS IN HER FEED**

A dozen or more minerals are required by the dairy cow's body, says O. C. Cunningham, of the New Mexico Agricultural College. Common salt supplies her with two of them, and when she has plenty of salt only two of the other minerals are apt to be lacking in her ration, with the exception of iodine in the goiter belt. The two that may be lacking are lime and phosphorus.
During the period of heaviest milk production the good dairy cow does not seem to be able to assimilate enough lime and phosphorus from her feed, even though the ration be of the most desirable kind and contain a mineral supplement. At this time she takes minerals from her bones to supply them in her milk. Toward the end of her lactation period and during her dry period, the mineral content of her body will be built up again, provided she has the proper amount of mineral in her feed. For this reason it is essential that the dairy cow have a plentiful supply of mineral in her feed during her dry period as well as when she is producing milk.
Leafy legume hay is rich in mineral, especially in lime, and a good grain ration is rich in phosphorus. Wheat bran and cottonseed meal are two dairy feeds available in New Mexico that are especially high in phosphorus content. The dairy cow's ability to assimilate mineral is limited and it is doubtful whether she can assimilate more mineral than is supplied by a liberal supply of legume hay and a good grain mixture, but it is probably good insurance to feed a mineral supplement to dairy cows in any case, even when they are receiving the most desirable ration. When the cow is receiving a poor quality of roughage and when she has no bran or cottonseed meal in her grain mixture, she is more likely to have a deficiency of minerals in her ration.
Pure limestone, finely ground, is a good source of lime. Steamed bone meal and ground rock phosphate will supply both lime and phosphorus. Two or four ounces per day of steamed bone meal or ground rock phosphate will be a satisfactory amount to use. One part ground limestone and one part steamed bone meal will make an excellent mixture when legume hay, which is rich in lime, is not available. If desired one part of common salt may be added to the above mixture.
These materials, which can be bought much more cheaply than most ready mixed mineral feeds, furnish all the supplementary mineral materials needed by the dairy cow. If ready mixed mineral feeds are bought, dairymen should be careful to see that the manufacturer makes a definite statement as to the ingredients contained, and to be sure that they are not paying an exorbitant price for materials which do not add value to the mixture.
When the cow is dry and when she is on pasture is a good time to feed minerals, because she is building up the mineral supply in her body during the dry period, and she can assimilate mineral to a better advantage when she is receiving green feed. Dry roughage that is leafy and cured green seems to aid in the assimilation of minerals.
We have a complete line of samples of social stationery—Artesia Advocate.

WHICH?

**\$50 for Painting or \$500 for Repairing
A 1000 Per Cent Investment**

There are life insurance policies and fire insurance policies, but an **INLAND PEERLESS PAINT POLICY** against the weather is just as important. Government figures show that each year **ONE** house in every **FOUR** is destroyed by the ravages of weather.

Look at Painting as an investment, not as an expense.

Look around you at the houses going to rack and ruin. What is doing it? Weather, of course. There is only one defense against this and that is **PAINT**.

But paint, like weather, is of many kinds. Buy paint that has proved its staying power over a period of 32 years—**INLAND PEERLESS BODY**.

THREE WELLS COMPLETED IN PAST WEEK 1 OTHER IN SAND

(Continued from page one)
 Officials hoped to make a well out of the showings carried in the lime below the sand and although it is reported that the well made 60 barrels of oil in fifteen minutes after the shot was placed.

Following a second shot of 60 quarts placed between 1964 and 1980 feet the Picher No. 1 has picked up slightly in production and from the latest report is now making 30 barrels.

Local operators are now watching the McNutt No. 1, on the Simpson farm in Sec. 7-18-27, which is reaching an interesting depth of 2025 feet.

Following the shooting of the Picher No. 1, the Illinois No. 9, 550 feet north of well No. 7, was shot Friday by the New Mexico Glycerin Co. Good results were obtained and the well promises to equal or exceed the other completions of the Illinois interests.

Well No. 10 was shot the following day, Saturday, by the New Mexico Glycerin Co., at 1995 feet. The early indications were that No. 10 would not equal the production of No. 9, but the well is reported to have improved later and will probably equal the other wells of this company.

Following is a summary of the operations on the other wells for this week.

Roswell No. 1, New State Oil Co., in the SW 1/4 of Sec. 4-18-28, swabbing 160 barrels daily.

Roswell No. 2, 550 feet north of Roswell No. 1, drilling.

Gilliland et al., in the SW 1/4 of the NE 1/4 of Sec. 29-18-28, shut down at 1700 feet putting on wire line.

Rotary No. 1, in the SE 1/4 of the NE 1/4 of Sec. 29-18-28, straight reaming at 1620 feet.

Cheesman No. 1, Merchant tract, 250 feet south and 250 east of the NW 1/4 of the NE 1/4 of Sec. 35-19-28, setting 8 inch casing at 550 feet. It might be interesting to note that the log of this well to depth drilled, checks with that of Twin Lakes No. 1.

Snowden McSweeney, in the SW corner of Sec. 21-18-28, ready to commence drilling operations.

Wm. Dooley, Rawson permit, in the center of Sec. 11-20-29, drilling below 200 feet.

Ohio Oil Co., well No. 1, Francis Tracy permit, in the NW corner of Sec. 34-21-26, drilling below 1900 feet.

Ohio Oil Co., well No. 1, Merchant lease in the S 1/2 of Sec. 1-19-28, drilling below 1100 feet.

Ohio Oil Co., well No. 1, McCullough permit in the NE corner of Sec. 1-20-27, drilling, depth reported near 300 feet.

Seven Rivers Oil and Gas Co., in the east side of the west half of the NW 1/4 of Sec. 29-18-28, drilling around 500 feet.

Twin Lakes No. 3, 550 feet north of well No. 2, in the SW corner of Sec. 28-18-28, drilling below 1600 feet.

Standard of California, Reiff permit in the NE of the SW 1/4 of Sec. 8-20-28, drilling at 175 feet after encountering some difficulty with quick sand above this depth.

Holeman et al., will start drilling operations on Royal Duke No. 2, east of well No. 1, in Sec. 29-18-28.

W. C. Wells No. 1, in the NE 1/4 of Sec. 19-29-30, drilling at 300 feet.

Burgess No. 1, Irwin S. Burgess, on Edgerton permit, in the SW of the SW of Sec. 18-28-28, have commenced drilling operations. This test is located two miles north of the California No. 1.

California No. 1, A. R. Goodale permit, in the SW of the SE 1/4 of Sec. 30-18-29, drilling below 1800 feet.

M. M. Miller, Olson No. 1, Olson permit in the NW corner of the NE of the Sec. 4-20-27, drilling depth not learned.

Donahue No. 1, in Sec. 11-16-27, drilling below 700 feet.

The Manning Dome.

The first test of the Arkansas Gas and Fuel Co., for this section was made Saturday by F. M. Siller, chief geologist at Shreveport, Louisiana, on the Manning Dome. The test will be located in the SE 1/4 of Sec. 29-17-18, in Chaves county, west of Hope. Material for the rig now en route, will be hauled from Artesia to the location.

Lease Sales Active.

The number of lease sales have been active during the past week, although the activity on the local market has not been as great as the preceding week. Among the larger sales is reported the transfer of the northwest quarter of section 32, also the northeast quarter of section 36 in township 21, range 30 to the Keyes Oil Corporation. Judge C. A. Hatch, of Clovis also made a purchase from W. C. Wells for acreage in the north half of the northeast quarter of Sec. 36-21-30.

Couldn't Prove It

The hall was crowded to hear the eminent speaker on religion. He spoke for some minutes when, suddenly, a man rose from the body of the hall and, walking up to the platform, said in a loud voice:

"The trouble with you clergy is that you believe in things you can't see. I don't. I'm a man of common sense."

"Ah, are you?" answered the speaker without hesitation. "Well, let us believe the things we can see. Put your common sense on the table and then we will believe that you have it."—Rehoboth Sunday Herald.

MRS. J. H. MIZE BURIED AT CELINA TEXAS HER FORMER RESIDENCE

The following item relative to the death and burial of Mrs. J. H. Mize of Artesia is taken from the Celina, Texas Record.

Mrs. J. H. Mize died at her home at Artesia, N. M., about 10:30 Tuesday night of influenza. Mrs. Mize was the mother of E. P. (Tip) Mize, of Celina, who returned from her bedside Friday night, believing that she was on the road to recovery when he left.

The body will arrive here at 11:22 tonight and will be taken to the home of Mr. and Mrs. E. P. Mize, two miles southeast of town and the services over it will be conducted there at 2:30 Friday afternoon. Interment will be in Celina cemetery.

Deceased, with her husband, lived in this community for twenty-six years. They went to Bishop, Texas, about nine years ago and from there to Artesia, N. M., eighteen months ago.

Mrs. Mize was born February 7, 1859. She leaves a husband and ten children, E. P. Mize, of Celina, Mrs. Canzadia Smith of Corpus Christi, Texas; J. W. Mize, of Artesia; Miss Virgie Mize, who lives with her parents; Howard and George Mize, of Denton; Mrs. Joe New, of Driskell, Texas; Mrs. Louvania Moore, of Bishop, Texas; Mrs. Hattie Camp, of Robbstown, Texas.

Mrs. Mize was a good woman in the true sense of the word and the manner in which she lived during her long residence in this community is responsible for the fact that many warm friends here will mourn her death. They love her because they knew her for her real worth. Her years were full of good deeds and she reared a family of fine sons and daughters, through whom the good influence she exerted will continue.

When Mrs. Mize spent some weeks here last summer she gained five pounds and told her son, Tip that she had better health here than at any place she had found and that she intended to return, buy her a home in Celina and spend the remainder of her life here but she was not to carry out her intention.

SECOND ATTEMPT MADE TO ROB MAGAZINE OF THE AMERICAN GLYCERINE CO.

A second attempt to rob the magazine of the American Glycerine company, located in the hills east of this city, failed last night, the thieves apparently being frightened away before sawing the second lock. The work appears to be that of "yeggs" operating in the southwest. At the present time about 3000 quarts of the deadly fluid are stored in the magazine and one false step, according to Hal Dixon, local manager, someone will meet an untimely end. The local police are working on a clue that points to several undesirable, who have been hanging around town for the past few days.

WILL RESUME MANUFACTURE OF ICE FOR CUSTOMERS

The ice plant will soon be running full time, according to C. E. Heskett, manager of the Artesia Utilities Company. Ice deliveries in the residential district will be resumed next week on Tuesdays and Fridays and full time runs will be made as soon as the demand justifies.

Why Orange Tree Died

There is one remarkable case on record of a tree that determinedly killed another tree. A clergyman had a pine tree and an orange tree in his garden. One spring he noticed that the orange tree was drooping, and on digging down he saw that the roots of the pine, which stood at some distance, had twisted round the roots of the orange tree and were strangling it to death. The offending roots were untwisted and cut away, and the drooping plant revived. But eventually the orange tree died. Then on digging down at a greater depth it was found that the pine had attacked the orange root lower down and accomplished its murderous purpose.

Items of Social Interest In and Around Artesia

PECOS VALLEY EPWORTH LEAGUE UNION MEET

The Pecos Valley Epworth League Union was held in Roswell, Sunday, March 29th, at 2:30 p. m., where the following program was given.

- Song.
- Song.
- Prayer.
- Vocal Duet—Miss Tura Bates and Alice Walters, of Carlsbad.
- Talk, "Mountain Mission"—Rev. Means, of Weed.
- Music by Hope League.
- Talk, "Mexican Mission"—Elizabeth Lancaster, of Roswell.
- Pageant, "The Value of Unity"—Hagerman League.
- Vocal Solo—Glenda Gray, of Artesia.
- Talk, "Negro Mission"—Miss Grace Harvey, of Lake Arthur.
- Business announcements.
- Song.
- Benediction.

PRESBYTERIAN AID SOCIETY

The aid society recently held its annual election of officers and at the regular meeting of the society at the home of Mrs. Jackson refreshments were served and a social hour was enjoyed in their honor.

The newly elected officers, are Mrs. R. G. Knoedler, president, Mrs. Ed. Wingfield, vice president, Mrs. Gayle Hamilton, secretary and Mrs. J. H. Jackson, treasurer.

QUARTERLY SOCIAL

The Baptist people held a social at the church last Friday evening. These socials, which have hitherto been held monthly, have now been made a quarterly event. They are devoted to a good social time of games, visiting and refreshments. The one held on last Friday evening was up to the high average of enjoyment of the previous affairs.

TURKEY DINNER

Mrs. R. T. Ferson entertained at a turkey dinner at noon last Sunday, covers being laid for Mr. and Mrs. George Welton, Mr. and Mrs. Will T. Minor, Mr. Blair of El Paso and the hostess.

AUXILIARY MEETING

The American Legion Auxiliary will meet at the home of Mrs. G. B. Dungan, Monday afternoon. All members are urged to be present.

BUILDING IS ACTIVE EAST OF TRACKS NEW COMPANYS TO LOCATE

(Continued from page one)
 A force of ten men is now at work on the construction of the first building, others will be added later which will bring the total up to twenty or more men employed. The services of a local contractor could not be obtained at this time according to the district manager and the company contractor from Tulsa has arrived to take charge of the building operations.

Materials which will be handled by the company have been shipped from the main warehouse, two or three cars having already arrived. One report has it that seventeen cars are now en route here.

According to the district manager, the company will maintain at Artesia one of the largest supply houses found between Tulsa and the west coast.

Oil Operators, Attention!

I wish to get in touch with parties who have considerable drilling to do, who will let contracts for the drilling and who will pay freight on heavy drilling machine and tools. A No. 1 stuff Oklahoma to New Mexico. Address C. F. Finfield, Wagoner, Oklahoma. 4-2-4tp

THROUGH DEATH TO LIFE (Contributed)

Have you heard the tale of the aloe plant
 Away in the sunny clime?
 By the humble growth of an hundred years
 It reaches its blooming time,
 And then a wondrous bud at its crown
 Breaks out into a thousand flowers.

The floral queen in blooming seen
 Is the pride of the tropical bowers,
 But to plant to the flowers is a sacrifice,
 For it blooms but once, and in blooming dies.

Have you further heard of this aloe plant
 That grows in the sunny clime?
 How every one of its thousand flowers,
 As they drop in blooming time,
 Is an infant plant that fastens its roots
 In the place where it falls on the ground,
 And fast as they drop from the dying stem
 Grow lively and lovely around.
 By dying it liveth a thousand fold
 In the young that spring from the death of the old.

Have you heard the tale of the pelican,
 The Arabs gamel el Bahr,
 That lives in African solitudes
 Where the birds that are lovely are?
 Have you heard how it loves its tender young
 And toils and cares for their food?
 It brings them water from the fountains afar
 And fishes the seas for their food.
 In famine it feeds them what love can devise
 The blood of its bosom, and feeding them, dies.

Have you heard the tale they tell of the swan,
 The snow-white bird of the lake?
 It noiselessly floats on the silvery wave,
 It silently sits in the brake;
 For it saves its song till the end of life;
 And then, in the soft, still even,
 'Mid the golden light of the setting sun,
 It sings as it soars in heaven;
 And then the blessed notes fall back from the skies,
 'Tis its only song, for in singing it dies.

Have you heard these tales, shall I tell you one?
 A greater and better than all.
 Have you heard of Him who the heavens adore,
 Before whom the hosts of them fall?
 How He left the choirs and anthems above,
 For earth in its wailing and woes
 To suffer the shame and pain of the cross,
 And died for the life of his foes?
 Oh Prince of the Noble! Oh sufferer divine!
 What sorrow and sacrifice equals to thine?

Have you heard the tale, the best of them all,
 The tale of the holy and true?
 He dies, but His life in untold souls
 Lives on in the world anew.
 His seed prevails and is filling the earth
 As the stars fill the skies above.
 He taught us to yield up the love of life
 For the sake of the life of love.
 His death is our life, His loss our gain,
 The joy for the tear, the peace for the pain.

Now hear these tales, ye weary and worn,
 Who for others do give up your all,
 Our Saviour hath told you that seeds that would grow
 Into earth's dark bosom must fall,
 The husks will decay and be lost in the earth
 And then will the fruit appear.
 The grain that seems lost on the earth below

The Way of Life

BIRTHS:

Born to Mr. and Mrs. P. L. Collier, of Carlsbad, a son, Richard Earl Collier, March 29th.

Born to Mr. and Mrs. Irvin L. Martin, of Artesia, a daughter, Meredith Martin, March 10th.

Born to Mr. and Mrs. James E. Matkins, of Carlsbad, a son, James Emery, Jr., March 28th.
