

ARTESIA ADVOCATE

ARTESIA, NEW MEXICO, THURSDAY, JUNE 11, 1925

The Advocate now goes into practically every state in the Union

NUMBER 25

TWENTY-TWO

Oil Co. Build A Line Into Oil Field

A Number of Artesia Folks Spend the Day in the Sacramentos—Cabins Now Under Construction Will Soon be Ready.

About the most popular thing around here is the Sacramento Summer Camp. A good "bunch" of people go up every Sunday for a breath of cool mountain air and a glimpse of mountain scenery. A number of the cabins are completed and others in process of construction and ere long there will be quite a summer colony there. The past Sunday the crowd included Mr. and Mrs. George Welton, Mr. and Mrs. C. W. Bartlett, Ray Bartlett and family, Mrs. Olson and daughter, Miss Ethel, L. P. Evans and family, Frank Donahue and family, Gayle Hamilton and family, Mr. and Mrs. Sid Cox, Bert Sinclair, wife and baby, his mother, Mrs. McCord, and Mrs. Sinclair's parents, Mr. and Mrs. Cleveland, Mr. and Mrs. W. E. Ragsdale and son, Wilmer, W. R. Hornbaker and family, Lewis Story, wife and baby and his mother, Mrs. J. M. Story, Roy Green and wife and the latter's sister, Miss Bernice Kilts. Mrs. Evans and children remained there for the summer. Mrs. Cox came home, but went back again yesterday to stay awhile. Mr. and Mrs. J. S. Sharp started to go up Sunday, but got only as far as Hope when car trouble made them return home.

NEIHOFF OPENS CITY CAFE

The Busy Bee Cafe no longer exists. The name was changed to the City Cafe after Mr. and Mrs. Ernest Neihoff took charge of the institution last week. Mr. Neihoff closed the buildings for repairs immediately after the retirement of the former manager, L. G. Syferd, and the institution was again open Monday under the new name. Several changes have been made in the interior of the building, which has been made very attractive.

PIONEER OIL OPERATOR HERE

J. Mogel, capitalist of El Paso, and E. H. Devore, prominent geologist of the same place, are in Artesia this week, making an inspection of the oil field. Mr. Devore, who was interested in the petroleum industry of New Mexico at an early date, was previously associated with A. C. Crozier at Lakewood several years ago. It is what might be termed a coincident worthy of mention that Mr. Devore chose a location near the present producing area, when he made a placer claim, consisting of approximately 10,000 acres.

AUTOISTS COMPLAINING TOURIST CAMP ON OUR CAMP GROUNDS

The matter of a free tourist camp, which has been discussed at length for the past few months, has not been settled in a satisfactory manner to all of the people interested in Artesia. While a disposition of the camp grounds has been made, it seems that the methods employed at present by the parties taking over the grounds in north Artesia, formerly under the supervision of the Artesia Chamber of Commerce and the American Legion, has given rise to a number of complaints, which will in time give Artesia a black eye so far as the traveling public is concerned. There is another side of the case in question, which must be solved by the citizenship if a remedy is effected. Artesia is at present undergoing a rapid change and it takes times to solve the problems presented by every growing city. In as much as conditions have changed so rapidly, the town has found difficulty in meeting all of the immediate demands. The tourists, however, does not always understand the situation and sometimes the criticism may be unjust.

MORTON HERE

Morton, of Carlsbad, in Artesia this week. F. N. Thies' place away on a visit to his home, Colorado. Mrs. Thies to assure the patrons that they may expect courteous treatment short stay here as they have from Dr. Thies. Mrs. Thies is well known in Artesia and has been associated with her practice of chiropractic for the past several years.

TRUCK IS BURST THROUGH TUESDAY P. M.

The truck, which arrived at the week has been put through a thorough try out of the fire department that it made an exciting while we do not know whether it is a "sorter" or not.

was paraded around town Tuesday, Tuesday a demonstration of the fire department was held at the corner of Main and Main. The fire chief and assistant were present to witness the demonstration. After the truck was connected with the plug the men were able to pull the fire hose some 65 or 70 feet in

SACRAMENTO SUMMER CAMP IS POPULAR WITH THE ARTESIA PEOPLE

A Number of Artesia Folks Spend the Day in the Sacramentos—Cabins Now Under Construction Will Soon be Ready.

About the most popular thing around here is the Sacramento Summer Camp. A good "bunch" of people go up every Sunday for a breath of cool mountain air and a glimpse of mountain scenery. A number of the cabins are completed and others in process of construction and ere long there will be quite a summer colony there. The past Sunday the crowd included Mr. and Mrs. George Welton, Mr. and Mrs. C. W. Bartlett, Ray Bartlett and family, Mrs. Olson and daughter, Miss Ethel, L. P. Evans and family, Frank Donahue and family, Gayle Hamilton and family, Mr. and Mrs. Sid Cox, Bert Sinclair, wife and baby, his mother, Mrs. McCord, and Mrs. Sinclair's parents, Mr. and Mrs. Cleveland, Mr. and Mrs. W. E. Ragsdale and son, Wilmer, W. R. Hornbaker and family, Lewis Story, wife and baby and his mother, Mrs. J. M. Story, Roy Green and wife and the latter's sister, Miss Bernice Kilts. Mrs. Evans and children remained there for the summer. Mrs. Cox came home, but went back again yesterday to stay awhile. Mr. and Mrs. J. S. Sharp started to go up Sunday, but got only as far as Hope when car trouble made them return home.

CONTRACT AWARDED FOR THE EXTENSION OF THE WATER WORKS

The contract for the extension of the water mains and the erection of the stand pipe has been let. Four bidders appeared at the last meeting of the city council and the contract was awarded to Roy Irick, of Plainview, Texas. It will be recalled that Mr. Irick constructed the sewer mains in Artesia some two years ago.

Work will start within thirty days according to agreement, although materials for the water mains are expected in the next few weeks. No definite plans have yet been made as to the size of the stand pipe. This matter will probably be settled definitely at the meeting of the council this evening.

COUNTY AND STATE GO OVER THE TOP IN THE LEGION ENDOWMENT

Artesia's Quota of \$200.00 Oversubscribed on First Day—Carlsbad Also Goes Over the Top—Other Donations Made.

The drive for the American Legion Endowment fund in Eddy county has gone over the top by a good majority, although the complete report is not available at present. Artesia raised a sum near the \$250.00 mark, exceeding the quota set for the town by \$50.00. Carlsbad has raised \$231.00 at the last report and other towns south of Carlsbad, including Malaga and Loving, had made donations, but the amounts were not learned. Eddy County's quota of \$500.00 was practically raised in the two towns of Artesia and Carlsbad. No information has been received as to the amount secured at Hope.

Quick work was made in raising the state quota. One day, June 1st, was set aside and the quota was practically raised on that date.

Indianapolis, Ind.—The quota assigned to Nebraska in the American Legion's national \$5,000,000 endowment fund drive for world war veterans' orphans and disabled veterans has been exceeded. James A. Drain, legion national commander announced Monday. Eleven states have now raised their quotas, Commander Drain said, the list including New Mexico.

20 GALLONS OF CHOCK BEER FOUND WHEN OFFICERS MAKE RAID

The past week has been an unusually active one for the officers who have made several arrests in an attempt to check the various misdemeanors and petty crimes. Sunday officers who visited Oil City found three gallons of whiskey and fifty gallons of chock beer. No arrests have been made in connection with Sunday's haul. Monday night five were arrested in Oil City, charged with playing poker. The defendants in the case were taken before Judge Brice at Carlsbad, Tuesday morning and fined \$35.00 each.

A man, giving his name as Glen Carney, was arrested last week by deputy sheriff M. Stevenson, charged with issuing forged instruments. It was understood that he forged the name of W. K. Bush to several checks and succeeded in getting the cash on them from business houses in Artesia.

Deputy Sheriff Ben Roten, of Carlsbad, took Carney to jail Thursday night where he will await the action of the grand jury.

N. M. N. G. ENCAMPMENT SOON—WANT FIFTEEN MEN FROM ARTESIA

Troop "B" 111th Cavalry N. M. N. G. will leave for Fort Bliss on their summer encampment on July 9th to be gone fifteen days.

They want fifteen men or more from Artesia, who will have full rations, transportation, clothing and pay from the time they leave Artesia until their return.

This being an ideal way to spend a fifteen days' vacation, no doubt there will be many interested in this summer camp. Those who are will find a recruiting officer stationed at the post office in Artesia on Friday, June 12th, any one wishing information in regard to the camp will find him there at 10:30 a. m., or write Captain Mann, at Carlsbad, New Mexico.

See our samples of Engraving—Artesia Advocate.

CHARGE OF PERJURY FILED BY THE DIST. ATTY IN FIELDS CASE

District Attorney Dillard Wyatt filed charges of perjury against A. Kissenger, Stubblefield and Stanfield, Monday morning, before Judge Richardson. These men were witnesses for the state in the case of the state against Judge Fields, who was acquitted of the murder of Harry Justus in the district court last Friday. At the inquest following the death of Justus, these men testified that they saw Field strike Harry Justus on the head with a rock, inflicting the wound which caused his death. At the trial of Fields, these men reversed their testimony, denying that they had seen Fields strike Justus at all.—Carlsbad Argus.

OIL ROYALTIES MAY BE USED AS ENDOWMENT FUND FOR UNIVERSITY

Cannot be Used for Permanent Funds if Reported Action of Swope Stands—President Hill Makes no Comment.

Dr. David S. Hill, president of the University of New Mexico, said Monday night that he had no comment to make on the report that State Land Commissioner E. B. Swope had issued an order that all oil royalties from the lands of the state institutions be placed in the permanent funds of those institutions rather than in the current funds.

Such a ruling would in effect create a sort of endowment fund for the state educational institutions. They would be allowed to use the interest from their oil royalties, but not the principal sums.

It was currently reported Monday night that Mr. Swope had announced such a ruling while here Monday. He could not be reached Monday night to confirm the report. No announcement of the issuance of such an order was made from his office in Santa Fe.

The reported order is of interest to the State University, on whose lands in the Pecos Valley field oil has been discovered, and to other state institutions.

Governor Hannett said Monday night that he had not heard of the (Continued on last page, column 3)

FIVE BIRTHS AND TWO DEATHS RECORDED FOR MONTH OF MAY

Five births and two deaths were recorded by sub register, S. E. Ferree, for the month of May, the smallest number of births sent in for sometime. Births for May are: Mr. and Mrs. E. E. Hyatt, daughter; D. Rodriguez and wife, daughter; Mr. and Mrs. Jesus Lopez, daughter; Mary Yturalde, daughter, Mr. and Mrs. J. H. Burrows, daughter. It will be noticed that girls appear to be far more popular during this month.

Two deaths are recorded, Placia Hernandez and Wm. Carpenter.

OILWORKER RECEIVES PAINFUL BITE FROM CENTIPEDE RECENTLY

Oil field workers are now giving their pants the once over before sliding into them in the cool hours of the morning, since the experience of Curtis Baker, an employee of the Twin Lakes Oil Co. Mr. Baker arose as usual, early Tuesday morning, pulled on the old trousers, ate his breakfast, started to climb into the flivver, then changed his mind. A six inch centipede in the left trouser leg close to the knee, was the reason. He was rushed to town and was given immediate treatment.

JUDGE FIELDS ACQUITTED OWENS FOUND GUILTY OF MANSLAUGHTER

Orville Owens, charged with the fatal stabbing of Wm. Carpenter, at a public camp ground here, on May 8th, was found guilty of manslaughter by the jury at Carlsbad sometime ago. Two or three ballots were taken before the verdict of manslaughter was reached.

Judge Fields, who was charged with slaying Harry Justus during a drunken brawl on April 30th, two miles west of here, was acquitted by the jury after 30 minutes deliberation.

TWO DEATHS OCCUR IN THE COMMUNITY LAST TUESDAY--BURIED HERE

Miss Mary W. Adams Dies at the Home of Her Mother—Mrs. Pollard Dies at Her Home Following an Operation at El Paso.

Miss Mary Webster Adams, who came to Artesia a year and a half ago with her mother and sister, passed away at her home in south Artesia, June 8th, after a lingering illness.

Miss Adams was born in Wooster, Ohio, on October 30th, 1901. While she was yet young, the memory of her life will always be sweet to her friends and relatives. Through all of her suffering she was very patient, never uttering a word of complaint and the fortitude displayed by her is exemplary of a sweet and loving character.

Her thoughts were always of her mother and loved ones caring for her and although she was permitted to live only a short time, she was prepared to meet her Master, whom she learned to serve and love while quite young.

Besides her friends Miss Adams leaves to mourn her loss, her mother, Mrs. A. F. Adams, a sister, Elizabeth Adams, both of Artesia, and a brother, Wallace F. Adams, of Lakewood, Ohio.

Interment was made in Woodbine cemetery. Funeral services were conducted by Rev. L. R. Simmons, pastor of the Baptist church, Wednesday morning at 10:30 a. m.

Mrs. John W. Pollard, wife of J. W. Pollard, well known Artesia farmer, died at her home Tuesday morning at 3 a. m., following a long illness. Mrs. Pollard had returned from El Paso where she underwent an operation a few days ago, and friends were hopeful of her recovery, but after she returned from the hospital her condition gradually grew worse until her death.

The Pollard family have lived in this section for the past twelve years. First living on the Lawrence ranch, they later moved to the Frisch place near town, where they have since resided. During her residence in this community, Mrs. Pollard made many friends, who deeply sympathize with her loved ones in their loss. Mrs. Pollard was known for her unusual energy, she led an active life until her last illness and the good influence she exerted as a mother, will be sadly missed.

She is survived by a husband, J. W. Pollard and two sons, Baxter and T. J.

PITY THE POOR DOCTOR

BOOZE NOT CLASSED AS SNAKE MEDICINE

Holdup artists recently displayed acumen in their operations. After sizing up the physicians at Artesia and Hope, they hit the trail for Carlsbad, where they stuck up Dr. Boatman for \$35.00. Think of a northern Eddy county doctor having that amount at home. Artesia physicians say they can rest easy as far as hold ups are concerned unless the patients kick in on their accounts more liberally.

BRICE REFUSES TO SUSPEND THE MASSEY SENTENCE

District Judge C. R. Brice last week refused to suspend the sentence of W. C. Massey, tried in the Chaves District Court for the murder of Jim Taylor. The refusal came after a lengthy argument by the defense attorneys. Judge Brice stated that he thought a suspension of sentence in this case would be highly improper.

ALLEN STOKER DIES AT ROSWELL HOSPITAL AFTER SHORT ILLNESS

W. Allen Stoker passed away Saturday night about 9 o'clock at St. Mary's hospital after a very serious and long illness. He came here from his ranch down in the Cottonwood community, about two weeks ago. No funeral arrangements have been made as yet pending word from his two sons and brother. The remains are being held at the Tilton Funeral Home.—Roswell Record, June 8th.

Mr. Stoker had lived in the Cottonwood and Lake Arthur communities for a number of years and was well known in both places. A few weeks previous to his last illness in Roswell he had moved here and was a familiar figure on the streets.

3 Additional Wells Are Put On Pipe Line During Week

Crowds See the Wells Shot With Gelatin a New Explosive. Zero Hour Bomb is Used For First In the History of State.

Three more wells have been hooked into the pipe line during the past five days. Two of these, both of which are big wells, were shot into production by the Standard Torpedo Co., who used gelatin instead of nitro glycerin. The first to be shot was the V. K. F. Drilling Cos' No. 1, located in the SW¹/₄ of the SW¹/₄ of Sec. 17, Twp. 18, Range 28, this being across a forty acre tract from the Danziger producer.

The shooting of this well was an exceptionally fine piece of work, being handled by Ford Alexander and Geo. Oliver, both of whom are old timers and know the science of oil well shooting. Sixty quarts run between 2106 and 2125 was set off by a time bomb, known as the Zero Hour. The hole cleaned itself nicely five minutes after the shot, it requiring terrific pressure to lift the 1700 feet of oil, water and muck, it having been impossible to bail the hole down. Casing was run immediately under the direction of Supt. John Myers and the new producer is estimated good for 250 to 300 barrels. This hole is also producing from a sand between 1999 and 2015 feet. This upper pay was not shot.

Two locations will be made by the V. K. F. immediately, one to the north and the other to the east of the present producer.

A shot of 105 quarts, anchored between 2000 and 2045 feet gave the Twin Lakes Oil Company their fourth producer. This well is located in the N¹/₂ of the SW¹/₄ of Sec. 28, Twp. 18, Range 28, being the south offset to the Maljamar No. 1 producer. Flowing natural the well is now estimated good for 300 barrels initial production.

(Continued on last page, column 1)

ARTESIAN WATER STRUCK IN MANNING DOME

The Arkansas Gas and Fuel Co., who are drilling the test well on the Manning Dome, struck a strong flow of artesian water Sunday, according to J. D. Josey, of Hope. The Artesia stratum was found near 270 feet and has created quite a bit of excitement. While no estimate has been placed as to the amount of the flow, it is said to compare favorably with the artesian wells found in the Cottonwood community.

The state has recently granted the Hope project the right to drill several wells in the artesian basin on the upper Penasco and the fact that the well found on the Manning Dome is only a few miles from the artesian basin on the Penasco, gives an encouraging outlook for the future of the irrigation project in the Hope community.

BRICE REFUSES TO SUSPEND THE MASSEY SENTENCE

District Judge C. R. Brice last week refused to suspend the sentence of W. C. Massey, tried in the Chaves District Court for the murder of Jim Taylor. The refusal came after a lengthy argument by the defense attorneys. Judge Brice stated that he thought a suspension of sentence in this case would be highly improper.

CARRYING JONAH

In the course of human events it
is inevitable that Governor Hannett
must repent at leisure of the thing
he did in haste yesterday, when he
issued a statement unqualifiedly ap-
proving all of Ed Swope's marvelous
collection of bonehead plays in the
case of Aud Lusk.

The New Mexican, of course,
shooting accurately at Ed Swope,
doesn't intend to be diverted by
Carlos Magee's maneuver in hustling
Governor Hannett into the line of
fire.

The governor might incidentally
be reminded however, that when the
moving finger has writ it has writ.
His rashness in putting the seal of
approval on this Swope performance
will arise to plague him, involving
as it does disregard by Swope for
decency, fair play, due process of
law, honesty and square shooting.

Nor is it edifying to see the gov-
ernor echoing Mr. Magee's extra-judicial
conviction of a man innocent of
intent to wrong or to break laws,
whose enemies could not produce a
shadow of proof of their charges in
court after six week's hectic in-
dustry.

The New Mexican, however, which
can't produce as long a list of al-
leged Hannett blunders as does Ma-
gee, is not attacking the governor
in this manner, nor does it construe
the Hannett statement as an invita-
tion to rap him. The Magee-Swope
thing is an unfortunate obsession of
the administration, the one big blun-
der, which bids fair to become a fatal
to its success. To have planted in
a paramount state office a man of
the stamp Swope has shown himself
to be in the Lusk affair, cannot
fail to bring disaster to the regime
which Hannett heads. No true friend
of the governor and of state govern-
ment could wish them better luck
than to be relieved of this unfortu-
nate pair of ill-advisers and major
handicaps. With equal sincerity the
New Mexican wishes to see the state
land commission rescued from the
hands of such a man as Swope,
and the governor relieved of his
self-assumed role of Simbad the
Sailor.

The thing cannot last. Governor
Hannett is a man of a different sort
from Swope. Under the present cir-
cumstances he doubtless feels it his
duty to defend him, but it would
have been much wiser to keep sil-
ent. To sponsor Swope's latest ex-
hibition is taking on too much of a
load. Probably no one else but
Swope would let the governor do it.
All consideration of decency, es-
pecially toward his superior, demand
his resignation.—Santa Fe New Mex-
ican.

THE SAME OLD STORY

By J. A. Smith, M. D., Chaves Co.
Health Officer

The protection afforded by vac-
cination was certainly well exem-
plified in the recent situation in this
county. The first case of smallpox
was in a man who had not been
successfully vaccinated. He prob-
ably came in contact with someone
passing through, who had a very
light case or one who was just
recovering from the disease. In
this case the wife had been vac-
cinated and was with the husband
and baby all through the disease
and showed no symptoms whatever.
The baby was vaccinated soon after
the father's condition was suspected
and had a successful take and all
of the baby's symptoms were very
mild and showed to be much mod-
ified by the vaccination. There were
two married men exposed to this
case who had not been successfully
vaccinated and both took the
disease. And all members of their
families who had not been vac-

inated took it from them, while all
the school children in each family,
who were protected by vaccination,
escaped. In one case there were
four children; the oldest, a school
girl who had been vaccinated, and
three pre-school children, who had
not been vaccinated, and the three
oldest children had had chickenpox
about two years ago. In this family
the wife and the three children who
had not been vaccinated had well
marked cases of smallpox, while
the vaccinated school girl, who was
in the house with them all through
the disease, got by without a symp-
tom of the disease. In the case of
the other man, his wife and baby
had not been successfully vaccinated,
while the three older children who
were in school were protected by
vaccination. As soon as this man's
condition was suspected, all the
other members of his family were
vaccinated. The school children be-
ing already protected by vaccination,
it did not take with them and all
of them while at home all through
the disease, got by without a symp-
tom of smallpox. The vaccination
failed to take on the wife and she
had a well marked but mild case of
smallpox, and the baby had a suc-
cessful take but too late to prevent
it from having smallpox, but the
case showed to be much modified
by the vaccination, as it was ex-
tremely mild. This man has a
brother who had not been vaccinated
and took smallpox from him and
had a typical case and not quite so
mild as the other cases were. All
of his family and his hired help
were vaccinated immediately after
his first symptoms and none of them
developed smallpox.

In view of the above facts, that
so many grown people had the
disease and that chickenpox is a
disease of childhood and very sel-
dom seen in adults, and that sev-
eral of the children who had it, had
recently had chickenpox, and that
none of those who had been suc-
cessfully vaccinated had it, this
should be enough to convince any
of those well meaning, but misin-
formed individuals, who still insist
that we have had no smallpox here,
that it really was smallpox. But in
addition to that, several of the
cases were so typical that there
was no room for doubt and some
of them are so well pictured now that
any layman could still make the
diagnosis.

The purpose of this article is to
emphasize the importance of vac-
cination as there are so many people
coming here from all parts of the
country and smallpox is more or
less prevalent in many states in the
union now and has been for some
time.

We are likely to have it brought
in here at any time. Our recent
experience in the value of vac-
cination is the same as that of other
states and the importance of it can-
not be too strongly emphasized.
We have a law in this state requir-
ing all children to be vaccinated to
attend school and that has lessened
smallpox to a great extent and if
vaccination was universally prac-
ticed would soon stop smallpox en-
tirely. All pre-school children, re-
gardless of age, should be vac-
cinated. They are entitled to pro-
tection the same as the school
children and it is better to have
it done before entering school than
after.

There is no country in the world
where vaccination and re-vaccina-
tion have been sufficiently carried
out to eradicate smallpox com-
pletely; but wherever vaccination
has been practiced, smallpox has
diminished in proportion.

COMMISSIONERS ARE ELECTED BY BAR

Results of the State Bar election,
which closed a few days ago, were
announced today by the canvassing
board, consisting of Jose D. Sena,
clerk of the supreme court; James
N. Bujac, assistant attorney gen-
eral; and John Sedillo, supreme
court reporter.

One member of the board of com-
missioners was elected from each
judicial district in accordance with
the new compulsory bar law.

The results follow:
First District—C. H. Gilbert, 192;
J. O. Seth, 4; E. R. Wright, 2; C.
C. Catron, 1; B. M. Read, 1; H. S.
Bowman, 1.

Second District—J. M. Hervey,
196; E. B. Garcia, 1; John Venable,
1; Fred Wilson, 1; J. B. Burg, 1; R.
P. Barns, 1; M. C. Mechem, 1.

Third District—A. H. Hudspeth,
194; R. L. Young, 1.

Fourth District—L. E. Armijo, 74;
F. Faircloth, 18; A. T. Rogers, Jr.,
84; J. Frank Curns, 23; Thomas V.
Truder, 1; W. G. Hayden, 4.

Fifth District—L. O. Fullen, 199;
J. C. Gilbert, 1; Hiram M. Dow, 1;
Tomlinson Fort, 1.

Sixth District—Percy Wilson, 193;
W. B. Walton, 1; A. W. Pollard, 1.

Seventh District—Fred Nicholas,
199; James G. Fitch, 1; M. C. Spicer,
1.

Eighth District—E. C. Crampton,
151; T. A. Whalen, 52; A. H. Dar-
den, 1.

TO SELL YOUR USED CAR

By ERWIN GREER
(President Greer College of Auto-
motive Engineering, Chicago)

At last you have found a pros-
pect who is actually "sold" on your
used car. The demonstration has
been perfect, the old boat has
pulled the hills sweetly and chugged
steadily along at five miles an hour.
The prospect gets out to examine
the tires. "Blah!" You can't tell
me that a car with only five thou-
sand miles on the speedometer
should have four different makes of
tires on its wheels," he sneers. And
your prospect is gone. It is your
fault for not making that sale—your
failure to remedy the car so that
it will check absolutely with your
sales talk. What you haven't taken
into account is that the used-car
buyer is a wise guy these days and
that you've got to have a machine
that satisfies his expert mechanical
eye.

Ask yourself the following ques-
tions, then check against the car
you are to sell.

Do all four of the tires show a
similar degree of wear? Are they
the same make? Does the speed-
ometer agree with them? Remem-
ber that the 5,000 mile gag on the
speedometer is one of the oldest
that is pulled. Be different and
set yours at 10,000. Even better
than this, leave the speedometer "as
is."

And if you repaint the car, don't
forget to replace all dented hub
caps. This insignificant feature is
generally the most neglected. And
the prospect is the first to spot it.

Test the upholstery to determine
whether or not the padding is out
of place or that the springs are
depressed, especially in the driver's
seat. The expense to repair it is
small and this is one of the places
that the expert buyer inspects for
wear.

Is the top in good condition? If
not, have it repaired. A sagging
top ruins the line of the finest
machine. While doing this have all
the broken side-curtain windows re-
paired.

Are the lights in good condition?
Are there any broken lens?

Make sure that the fenders are
free from dents. Take them off
yourself. Then the repairs won't be
half as large as if the repairman
did the job.

How about the doors? Do they
open and close properly? Do they
rattle? A few new rubbers and
twists of a screwdriver will tighten
them again.

And then the tools. Don't strip
a car just because you want to get
rid of it. A good tool kit will add
a better price to the car and ten
to one you get back the price of the
tools twenty times over. And now
you are pretty well set.

Suppose you invite in a friend,
one who is not interested in the
machine you are to sell and invite
his criticism. Often he will find
some highly important flaw that you
have overlooked.

CIVILIAN MILITARY TRAINING CAMPS

In answer to numerous inquiries,
and for the benefit of anyone con-
cerned, the following information
is published pertaining to C. M. T.
Camps.

WHAT IS THE PURPOSE OF
THESE CAMPS? To train our
young American manhood to be bet-
ter citizens through mental, moral
and military training under expert
instructors.

WHO MAY ATTEND? Any
healthy, normal young man of good
character. Ages for 1925 camps are:
basic course, 17 to 24; red
course, 17 to 25; white course, 18
to 20; blue course, 19 to 31.

WHAT IS THE COST OF AT-
TENDANCE? Nothing. Expenses
for transportation, uniforms, food,
medical attention, housing and laun-
dry are paid by the government.

WHAT ARE THE OBLIGA-
TIONS? No obligations whatever
for the basic, red and white course
except that young men pledge them-
selves to go to the camp, receive the
training and behave themselves.

WHAT DO YOUNG MEN GET
OUT OF THE CAMPS? Thirty
days' training in the out-of-doors,
under expert instructors in (a) care
of health; (b) how to swim; (c)
how to ride a horse; (d) radio; (e)
citizenship; (f) hygiene; (g) marks-
manship; (h) how to work; (j) how
to play; (k) team work and the
spirit of community.

HOW ARE THE PARENTS CON-
CERNED? In the knowledge that
their sons (a) are in the hands of
experts in the training of young
men and that they will be well
cared for during the camp; (b) will
be required to pass a critical medical
examination and that they will be
informed by competent army medi-
cal officers of any minor defects
that may be removed or overcome
by proper medical attention; (c) will
be no expense to their parents or
selves for this month's training; (d)
will live in an atmosphere permeated
with the spirit of service to country,
whereby the principles of truth,
honor and good sportsmanship are in-
stalled and taught by precept and
example and in the knowledge that
character building is the main ob-
jective of these camps, and that the
young man attending is taught
without harshness and unconsciously
led into habits of obedience, prompt-
itude, neatness and cleanliness of
mind and body.

INDIAN LO'S VIEWPOINT OF THE OIL GAME

White man comes and makeum rig,
Up on hill and starts to dig.
Injun watches white man toil,
Thinkum mebbey getsum oil,
Thinkum driller heap big fool,
Sets all day on ol' pine stool.

Toolie swingum heap big wrench,
Then goes sleep on greasy bench.
Night-time come—no go to bed,
'Nother outfit come instead.
Never stoppum. Work like Hell,
That's the way they drillum well.

Driller gettum heap big pay,
Cashum checks and go away.
Oil still flows in big steel tank,
Me got money in the bank,
Buy a car and break him quick,
Lef' the dam thing in the crick.

Buy two more and mebbey three,
One for squaw and two for me.
Buy papoose a pair of shoes,
Spend what's lef' for wild-cat booze.
Have good time, but go to jail,
Good friend comes and goesum bail.

Banker says my money gone,
Bye and bye some more come on.
That's the way the oil game goes,
White man getsum—injun blows.
Me think driller heap dam' fool,
Sets all day on ol' pine stool.

WASHSTAND HANDY IN GIRL'S ROOM

Problem Solved by Young Virginia Club Girl.

(Prepared by the United States Department
of Agriculture.)

In any home where there is no running water on the second floor it becomes necessary to have a basin, pitcher, sloop jar, soap dish and holder for the toothbrush somewhere in the bedroom. These useful furnishings do not, however, add to the appearance of the room, and when one has no washstand of the usual type it is hard to know just what to do with them. A little fifteen-year-old club girl in Virginia, Ruby Bing, solved her problem in such a successful and inexpensive

Washstand Made by a Virginia Club Girl.

way that the idea could be carried out by anyone. She built her own stand, to begin with, out of a packing box, some odd lumber for legs, and a 10-cent towel bar. Then she made a curtain for the front of the stand out of unbleached muslin, with yellow butterfly appliques, and a runner to go over the top, both finished with a buttonholed edge in black. This was done as part of her sewing club work. Behind the curtain most of the unattractive washing paraphernalia was concealed. The pictures were taken by the United States Department of Agriculture.

Egg Dressing for Slaw Especially Acceptable

Slaw, or raw shredded cabbage, either hot or cold, is usually made with a cooked dressing that does not contain oil, and hence for those who dislike the flavor of oil, it is especially acceptable. When eggs are plentiful and may be used freely, slaw with egg dressing is not extravagant. The egg yolks contribute iron, fat, and other valuable constituents to the diet. This recipe is recommended by the United States Department of Agriculture.

Egg Dressing for Hot Slaw.

2 EGGS	juice, or 1/4 tea-
4 table-spoonfuls	spoonful celery
water or cab-	seed
bage stock	1 teaspoonful salt
2 table-spoonfuls	Few specks dry
vinegar, or to	mustard
taste	1/2 medium head
2 table-spoonfuls	cabbage (about
shredded green	1 quart)
pepper or 1 tea-	1 table-spoonful
spoonful onion	sugar

Beat eggs well, add salt, sugar, mustard and water or stock; cook in double boiler until it coats the edge of the spoon, thickening like a soft custard; then add the vinegar, and pour while still very hot over the shredded raw cabbage. Let stand a few moments to blend flavor of dressing with cabbage. This may be found even better on the second day than on the first.

LOWER COTTONWOOD ITEMS

(Reporter Miss Margaret Bixler)

David Bartlett was the guest of Price Eaker, Sunday.

Miss Bobo motored to Hope, Sunday afternoon, on business.

Roy Bartlett was the guest of Eugene Bixler at dinner, Sunday.

Mr. and Mrs. Kersey Funk were Artesia visitors, Saturday night.

The Briscoes were the dinner guests of Mr. and Mrs. Daugherty, Sunday.

Mr. and Mrs. Archie Hill were the guests of Mr. and Mrs. Clyde Eaker at dinner, Sunday.

Miss Iona Hill and A. D. Hill, Jr., were the guests of Oscar Montgomery, Saturday night and Sunday.

A large number of people gathered at the Bixler home, Sunday afternoon and participated in a song service.

Gene Denton and Miss Barbara Denton were in Artesia Saturday night, attending the dance at the Oasis.

The Baptists will begin a revival at the Upper Cottonwood school house, Friday night, the 12th. Everybody welcome.

Mr. Wilfred Harding, Mrs. Denton's nephew, is a visitor at the Denton home for a few weeks. Mr. Harding hails from Texas.

Mrs. Shipman and son, Horace, and her niece, Miss Frances Neff, of Detroit, Michigan, are guests at the Will Eaker home for several days.

Mrs. Houston Felton was hostess at a party, given on Friday night, June 6th, in honor of the birthday of Miss Leonora Bradley. A large number of young people were present and enjoyed themselves immensely. Ice cream and angel food cake were the delicious refreshments.

First Dictionary Chinese

The first dictionary was Chinese and was compiled about 1100 B. C., by Pa-ou-she. It contained about 40,000 characters. The first modern dictionary was by a Venetian friar, Ambrose Calepini, a Latin work, before 1500.

Mice Save Human Lives

Fire that destroyed a grocery store on the first floor of a building in Dunbar, Scotland, drove upstairs hundreds of mice, which awoke the occupants of the top story flat just in time for them to escape with their lives.

Loses His Tithes on Races

An English churchman recently promised to give his week's winnings on horse racing to the church's lighting fund, but announced later that he could not carry out his plan because he had lost on every race.

Method Unchanged

Ancient Egyptian noblemen speared fish in much the same manner as do Americans today. The spear handle was tied to the wrist and the weapon was thrown at the fish.

Navy Launches a Big Electric Ship

Even the queen ships of the United States Navy, the group of electrically driven fighting vessels that includes the U. S. S. Maryland and West Virginia, most powerful battleships in the world, will be excelled in propulsion power, speed and length by the U. S. S. Saratoga, the first of two airplane carriers just launched at Camden, N. J.

The other airplane carrier, the U. S. S. Lexington, will be launched this fall at Quincy, Mass. Originally, these two vessels were to have been battle cruisers and as such would have been classed the mightiest men-o-war possessed by Uncle Sam.

The Navy at present has but one airplane carrier, the U. S. S. Langley, named after the scientist who made the first practical investigation of aeronautics. This ship was rebuilt from the old collier, Jupiter, the first vessel of the Navy to be equipped with turbine electric drive.

The Saratoga and Lexington will be literally floating airplane fields. They will also be floating electric generating plants. As naval vessels they will be the longest in the world. Their power plants, installed by the General Electric Company, will be capable of developing the tremendous force of 180,000 horsepower.

NOOK FOR BREAKFAST IN FARM KITCHEN

Breakfast Nook in Virginia Farm Home.

(Prepared by the United States Department of Agriculture.)

In many modern houses a space is especially set apart, either in a corner of the kitchen or between the kitchen and dining room, for what has come to be known as a "breakfast alcove." The fashion has been to have a painted stationary table in this alcove, and built-in benches or seats to match. When painted in gay colors these little alcoves are cheerful and attractive, and as they are so close to the source of supplies and so easily kept clean they save the housewife considerable labor.

A farm woman in Chesterfield county, Virginia, who found it convenient to serve breakfast in her kitchen decided that even if she had no space or materials for building a "breakfast alcove" she could apply the idea to her own needs and the furniture she had already. So she set one end of the kitchen apart for a "breakfast nook" and made it as gay and cheerful as she could with little corner shelves, a bowl of flowers on the table, a fresh table runner, and a bright homemade rug on the floor. Two windows let in the sunshine, and the oil table and chairs were given a coat of varnish and polished to make them fit into the general scheme. Except for the varnish no money was spent. The picture was taken by the United States Department of Agriculture.

OHIO OIL CO. BUILDS PIPE LINE

(Continued from page one)

company is now operating in all the producing oil states of the union and its coming to the field will have a far-reaching effect and will give the oil development work in this section of the state a great impetus.

With the completion of this line there will be three pipe lines connecting the field with the railroad. The Flynn, Welch & Yates line is running into Artesia and the Gilliland Oil company line is running into Dayton.

The coming of the Illinois Pipe Line Company into the field is most significant because it means that the producers at all times will find a ready market for their oil regardless of market conditions. The Ohio Oil company markets its own oil and will probably be able to purchase oil at all times and without regard to the general conditions of the market over the country.

This in itself, say oil men, is one of the most important steps forward ever taken by the oil field. This company, because of its vast marketing facilities and storage possibilities, will be in a position to purchase this oil even though a slump should come in the oil market over the nation. This means a ready market the year round for the producers of the field and a market necessarily means steady production and steady development.

The Ohio Company now has approximately 10,000 acres in Eddy, Chaves and Lea counties. The majority of their acreage is located in or near production across the river east of here. The past ac-

tions of the company indicate that they mean business and the present expansion is the most encouraging feature of their faith in the field. Five strings of tools are now operating and more activity is promised in the near future.

The fact that this company is now taking so much interest in the field, has attracted other major companies, some of whom have already entered the territory east of the river.

TOURIST CAMP

(Continued from page one)

mooded question. The free camp seems to have lost some of its former popularity and as a result many towns have abolished the free camp grounds and have preferred to turn the property over to some individual, who makes a small daily fee in return for a few modern conveniences. The average tourist, we do not believe, objects to this fee, provided he gets the proper service, but in the event he does not, he has a just right to complain.

The committee appointed by the Chamber of Commerce, let the free park out to private parties with the understanding that the camp should be kept sanitary and a few modern conveniences installed for the convenience of the tourists. While we have had no opportunity to make a personal investigation, we were under the impression that this had been done. If it has not, the matter should be looked into at once. It would be an opportune time for the Chamber of Commerce to take action in the matter and endeavor to stop some of the criticism, if properly grounded.

There are still many advocates of the free camp ground and the arguments presented may well be worthy of consideration. Former president of the Chamber of Commerce, C. W. Bartlett, handed us a clipping from the Fairbury News, in which a free camp ground fan writes a letter of thanks to the local Chamber of Commerce. There are some good points brought out in the letter, which is as follows:

Belleville, Kans., May 29.
To the Chamber of Commerce:

Gentlemen:—In fairness to your city you should investigate the truth of the enclosed article. The average tourist or proper user of your lovely tourist camp in your park is worth from \$3 to \$10 in trade to the merchants of your city—principally restaurants, clothing, auto supply stores and gasoline stations.

You look at your park where the tourist camp is located and you will not find the slightest disfiguration. If your decision is carried out it will result in causing the tourists to go on to the next town and carry along a bitter feeling against your fair city and class it, say with—City—a dead one. Your park caretaker may save a few steps, your hotels not benefit in the least. You can prevent long stays in the park by limiting the stay to one or two nights or days, and have your visitors who come within your gates go away boosting for Fairbury.

You are going to help ruin your tourist trade, and then what about your auto supply business. Put yourself in the place of a man leaving your city taking a trip to Denver or California. Do you want to camp along the roadway? Don't let one or two men ruin the name of your fine and now hospitable city.

A few tires and tubes alone if purchased in your city each month will pay for your trouble. I bought one casing in your city recently that cost me \$20. Was moved to buy it there entirely by your excellent camping facilities.

Boost the tourist trade. Don't knock it.

Very Truly Yours,
A TOURIST

Here is the other side of the question, which has appeared in several of the leading dailies.

"There are many critics of the public motor camps as we have them today. The American forestry association is now officially opposed to free sites offered as an inducement for lingers. What is recommended is a camp made sanitary and equipped with certain recognized comforts and conveniences. For these accommodations a charge should be made sufficient to pay for maintenance and interest on the investment. The free camps should be discouraged. There are too many penurious and irresponsible tourists. Somebody will get hold of a second hand Ford and spend a season in idleness and vagabondage. He will go into one of these free camps and sponge on chance acquaintances for gasoline and provender. He will take advantage of such friendships as he is able to form for the purpose of borrowing money, clothes and repairs. Such travelers are a dead loss to any community they

INVESTMENTS

MR. INVESTOR—

HOPE ITEMS

(Noel L. Johnson, Reporter)

John Paul Brownlie is home from school.

Mrs. Anna H. Coffin drove to Roswell the other day.

J. H. Bridgman and Noel L. Johnson visited Carlsbad Monday.

Thomas Coffin left for Fort Bliss, to attend summer camp and see the sights.

M. L. Smith has returned from Las Cruces where he has been for several days.

E. P. Cox, J. D. Rice and Sam Henry are repairing the school house, giving it a thorough overhauling and repainting.

W. P. Riley and wife have returned from El Paso where Mrs. Riley has been teaching school the past term. They expect to make Hope their home in the future.

The Dunken well is busy getting ready to begin drilling. With a ninety foot derrick and most of the drilling equipment on the ground, this test will begin within the next few days.

While crops are not as they usually are at this time of year it seems that we have a much better chance to mature various crops here than many places in the state.

Sheepman are preparing to shear sheep, while the grass is very short there still is some hope of it raining in time to make a good year for everybody, including farmers and stockmen.

Land owners are working on a plan to block up a tract of land for a drilling contract for a test for oil. It is well known that a showing of oil is found in most every water well in the country that has been drilled.

Dr. Puckett is spending a few days in Carlsbad looking after the practice of his friend, Dr. Pate, who is away on a vacation. While we regret that our doctor has had the time to help any other doctor out and leave us temporarily without a physician, we are glad to be able to give a good reason for it. We are not sick here at present and should anything happen, it would only take him about two hours to be on the ground, if needed.

The Chamber of Commerce has just received the report of the El Paso to Plains railroad. El Paso Chapter American Association of Engineers made their last visit to Hope on the request of the Hope Chamber of Commerce, after the inspection of the country by C. B. Althman, Noel L. Johnson, W. C. Mahoney and S. W. Lewis through the Sacramento mountains. The report is a good one with Hope's line showing a much better and more even grade than the southern route.

ONE WOMAN KILLED WHEN TEAM RUNS AWAY LAST WEEK

Mrs. Will Jouett, who lived in the Hollene neighborhood, is dead and Mr. Jouett has serious injuries caused from an accident which happened Sunday night when a team ran away with a wagon in which they were riding, throwing them out. Mr. and Mrs. Jouett, accompanied by their three children, were on their way to church in a wagon when a passing automobile frightened their team. The wagon was carried into the ditch, throwing Mr. and Mrs. Jouett out. She received serious injuries from which she died Tuesday morning. The small eight months' old baby she held in her arms was uninjured. Two other children, two and four years old, were in the back of the wagon and notwithstanding the fact that the frightened team ran about seven miles, the wagon did not turn over and the children held on fast and came out of the accident without a scratch. Parties in a car followed the team and when they were stopped the children were lying faces down in the bed of the wagon, badly scared but uninjured.

Mr. Jouett's injuries consist of a hurt on one of his limbs which necessitates his walking with a crutch. The remains of Mrs. Jouett, who was but twenty years old, were interred at the Hollene cemetery Wednesday.—Clovis News.

OKLAHOMA BOARD OF EDUCATION ENDORSES C. M. T. C.

Fort Sam Houston, Texas, June 9. —The State Board of Education of Oklahoma, after careful consideration of the matter, announced that graduation from the Basic course the citizens' military training camps would constitute a credit toward graduation in the high schools of Oklahoma of one half unit in physical education.

This is the first move of its kind in the Eighth Corps Area and the Corps Area Commander is greatly pleased with the action taken by the educational authorities of Oklahoma in officially recognizing the merits of the citizens' military trainings camps.

Close to three thousand applications have been received for the six C. M. T. Camps of the Eighth Corps, the number is mounting rapidly each day. The camps are open to normal healthy young men between the ages of 17 and 31.

\$64,320.69 RECEIVED BY STATE

The distribution of the state land office's revenues for May, which has been made by Manuel Armijo, chief clerk, totals \$64,320.69 for the income funds and \$2,245.30 for the permanent funds. This is neither the highest nor lowest but an average distribution.

The state University got \$5,782.62 for its income fund which may be spent for current uses. This is the biggest amount received by any institution and is made up partly of oil royalties. The university is the only institution getting royalties. If a proposed constitutional amendment, to be voted on at the 1926 election receives a majority and if congress then approves the plan, the university will have to share the royalties with the other institutions according to their acreage.

JUDGMENT AGAINST SEN. MOON FOR \$1,031.38

Last week in district court, judgment by default and final judgment was rendered by Judge Brice in favor of United States National Adjustment Co., a corporation, against Z. B. Moon, in a suit on notes. Judgment was for \$658.93 and interest from Sept. 27, 1919, making a total of \$1,031.38.—Carlsbad Current.

NOTICE
ENGINEER'S OFFICE
of Application 720.
N. M., May 6, 1925.
hereby given that on the
1st day of May, 1925 in accordance
with Chapter 49, Irriga
tion of 1907 Mrs. Florence V.
Moore, County of Chaves,
New Mexico, made formal
application to the State Engineer
of New Mexico for a permit to
change the place of use of a part or
the water from Pecos
River to the reasons as set forth
in this application: the
use of the water being
granted under permit No.
720, approved May 15, 1913, by
the use of such water
SE 1/4 of the SW 1/4; and
the SE 1/4 of Sec. 7, T. 17
S., N. M. P. M. To, 4
lot No. 1, and 6 acres in
both in Sec. 18, T. 17 S.,
E., N. M. P. M., and to
the point of diversion from
the SE 1/4 of the SW 1/4
of R. 27 E., N. M. P. M.
whence the SW corner of
said section 7 bears south 65 degrees
east distant, as granted
under permit No. 720 and approved on
the 15th day of May, 1913, to a
point in Lot No. 18, T. 17 S.,
E., N. M. P. M., whence
the corner of Sec. 18, bears
south 65 degrees E. 4405 feet

person, firm, association or
other person, deeming that the grant
of the above application would
be detrimental to their rights
in the water of said stream system
a complete statement of
the reasons therefor, substantiated
by affidavits of the State Engineer
and a copy on applicant on or
before the 27th day of July, 1925,
for the Engineer to
application up for final
decision unless protested. In
protested applications all

CALIFORNIA MAN HAS MUCH FAITH IN THE OIL FIELD

By Llew H. Davis, in El Paso Times

"That the oil territory of south-eastern New Mexico, is destined to become one of the most important in the United States, is my opinion, after a prolonged trip over a 1,000 miles with my friend, Richard Ballard of Silver City, extending from Santa Fe to Duran, Buchanan, Roswell, Artesia and Lea county," said Judge John I. Hinkle, vice president of the First National Bank of Huntington Beach, California, who was in El Paso yesterday.

"I base my opinion not only on my personal observations, but also on the fact that a number of the biggest oil companies of the United States are busy drilling test wells in that vast area. Among those drilling are several of the more important interests of California. These people, in my judgment, would not invest outside of California's great oil fields unless they had good reason to believe in the New Mexico fields.

Region Hardly Scratched.
"I met many prominent oil men, and the consensus of opinion among them is that the New Mexico field has hardly been scratched, and that the big production will eventually be found in the Pennsylvania formation which lies below the Permian formation. The present production is around 2,000 feet. It remains for the big companies to penetrate the deeper sands."

Mr. Hinkle brought with him a bottle of the high-grade paraffin oil found in the shallow field east of Duran. This discovery made at the shallow depth of only 66 feet, has started an intensive drilling campaign in that region. The McAdoo company is drilling a deep test east of the discovery well and other companies are putting up rigs to drill around the Buchanan and other structures.

Mr. Hinkle and associates have secured state leases covering over 62,000 acres, and have selected a location called the Hinkle Dome, about 30 miles east of the Duran or Luna well, which has been mapped by prominent geological engineers as a likely site for production.

Bank Deposits Increase.
The hotels in Roswell, Artesia and other oil centers are filled with oil men. While in Roswell, Mr. Hinkle was the guest of his brother, former Governor James F. Hinkle, president of the First National bank of that city.

"By the way," said Mr. Hinkle, "I met scouts of some of the major companies at Roswell, who told me that they had canvassed the fields north of El Paso in what is called the Newman field, and they predicted that eventually there would be a great oil field there, even greater than the Pecos Valley field. These men voiced the belief that the oil sands in the Newman district lie about 400 feet deeper than the present time."

PUBLIC NOTICE

Public notice is hereby given that pursuant to a petition filed with the Board of County Commissioners of Eddy County, New Mexico, petitioning such Board for the opening of a public highway within and for the County of Eddy and State of New Mexico, beginning at a point common to the section corners of sections 21, 22, 27 and 28, Township 18 South, Range 26 East, N. M. P. M., thence due east along such section line a distance of twelve miles, to a point common to the section corners of Sections 21, 22, 27 and 28, Township 18 South, Range 28 East, N. M. P. M. which Petition has been accepted, commissioners appointed to view and map out such proposed highway, their report having been filed with recommendations, which said report was duly accepted and such highway designated.

NOW THEREFORE, public notice is hereby given, that, any person desiring to protest against the final designation of such highway shall file with the County Clerk of Eddy County, New Mexico, a protest in writing, on or before the next regular meeting of the Board of County Commissioners, on July 6th, 1925, at 9 o'clock A. M. otherwise such highway shall be permanently designated as a public highway within and for Eddy County and State of New Mexico.

W. G. BROWN,
Chairman of Board County Commissioners, Eddy County, New Mexico
(ATTEST)

G. W. SHEPHERD,
Clerk.

MESCALERO INDIANS PLANT 2000 ACRES IN FIELD CROPS

Mescalero, June 6th.—The Indians of the Mescalero reservation are busy with the planting of field and garden crops. About 2,000 acres will be put under cultivation. Ordinarily most of the land is planted to barley and oats, but the farm supervisors are urging a scientific crop rotation and this year the crop will be more varied.

The largest body of land in one area is in the Elk district and comprises 800 acres. Members of the original Mescalero tribe live here and are among the most prosperous on the reservation. An excellent road has been built to Elk from the agency in order to facilitate handling the crops from the Elk division.

Much grain is being planted by the Geronimo Indians who are located on the White Tail division. A number of new threshing machines and separators and other implements were recently purchased for the Indians. The Geronimo band, about 200 in number, were brought here from Fort Sill a few years ago.

Advocate Want Ads Get Results.

to conclude his work here as preacher and pastor on June 21. On that Sunday, therefore, he will deliver his last message to congregation and community.

Come and enjoy these services.

METHODIST CHURCH

Sunday school at 9:45 a. m. The increase in attendance is a source of inspiration to all concerned. We hope to have others next Sunday.

Preaching service at 11:00 a. m. Sermon by the pastor.

Epworth Leagues each meet at 7:00 p. m. Good programs.

Evening service at 8:00 p. m. A subject of interest to all will be discussed at this hour.

Mid week prayer meeting each Wednesday at 7:30 p. m.

A good delegation is attending the Standard Training School at Roswell this week but will return for Sunday services.

Again we wish to express our very great pleasure at having so many visitors at our services, also glad to have a number of our young people who have been attending school elsewhere and are now with us.

We extend to all an urgent invitation to attend our services.

JAMES H. WALKER
Pastor.

LAKE ARTHUR ITEMS (Mrs. Alva Spence, Reporter)

Mrs. Grace Murphy went to Artesia Tuesday on business.

J. P. Hudson and family moved to Hagerman this week to make their home.

Alvin Calahan left this week for Laredo, Texas, where he has a position.

Ed Merritt and family came in this week from Texas to visit indefinitely.

Grover Williams and family, of Roswell motored down Sunday to visit friends.

Mr. and Mrs. Ned Hedges and Mrs. Luella Johnston motored to Artesia, Monday.

Marie Hedges came in Monday from Pine Lodge, where she has been with her mother.

Mary Belle Hudson left this week for Los Angeles, California, where she will visit a sister.

Earl Nichols and family, of Carlsbad, are visiting the home of his father, J. L. Nichols and family.

Mrs. Howard Moots and children left this week for Clovis, where they will make their future home.

Ned Hedges has received a new well rig, shipped from Toyah. He is drilling a city well for Artesia now.

Work is progressing rapidly on test well No. 8, located in Sec. 8, Twp. 17-26, in which Joe Irvin is interested.

Bob Fletcher and wife, of Roswell, and Ernest Fletcher and wife, of Plainview, Texas, were in town Wednesday.

Mr. and Mrs. J. P. Shinneman and Earl Shinneman and family, motored to Carlsbad to visit George Benz and family, Saturday. They returned home Sunday.

Misses Estelle and Edna Johnston, of Portales, who are attending the Teachers' Training school in Roswell, spent Wednesday here with Mrs. Luella Johnston.

Mrs. Tom Clark came in this week from Roswell, where she has been for the past few weeks. Mr. and Mrs. Clark have a new girl, named Velma Mae, born May 22.

Mrs. Jesse Knox and son, John, came in Saturday from Lafayette, Indiana, and will spend the summer here. Mr. Knox, who is in Silver City teaching at present, will be in soon.

Miss Jane Spence came in Monday from Abeline, Texas, where she has been in school for the past term. Nelle Hill accompanied her here and will visit for a few days before returning to her home in Roswell.

Quite a number of the ball fans of Lake Arthur motored to Carlsbad Sunday and enjoyed a baseball game played between Lake Arthur and that place. After a close game the decision was given in favor of Carlsbad, the score being 13 to 14.

The members of the Epworth League were entertained last Friday evening in a social on the Methodist church lawn. Misses Maggie Lane and Grace Harvey arranged a number of contests and games that were enjoyed by those present. Ice cream was served.

I am waiting to buy a room modern house. Write description, location, best cash price to P. O. Artesia, New Mexico.

Question: Why is Buick so safe and easy to steer?

Answer: Because of Buick's wonderful steering mechanism. It is the most expensive type now installed on any motor car—and worth the difference because it adds to Buick performance still another point of superiority.

Items of Social Interest In and Around Artesia

PICNIC SUPPER

Some of the Peoples' Mercantile force and a few others enjoyed a picnic at the home of Mrs. Una Hutcheon, the Norton farm east of town, last Thursday evening. Fried chicken, with many delectable accessories, made up the menu. In the party were Mr. and Mrs. Ossie Coalsom, Mr. and Mrs. Lucas, Miss Peggy Mitchell, Mrs. Hutcheon and little daughter, Helen, Miss Ruby Norton, Messrs. Norton, Oscar Samelson, Guy Stevenson and Mr. Cody.

DINNER PARTY

Miss Ruby Norton, assisted by her sister, Mrs. Una Hutcheon, entertained at six o'clock dinner last Friday at the Norton farm, east of town. Her guests were Dr. and Mrs. R. K. Hoover, Miss Corey, Dr. R. E. Hoover and Messrs. Baish and Myers.

FAMILY RE-UNION

The J. M. Jackson family are enjoying a family re-union this week, all of the ten children and seven grandchildren, being in Artesia. Miss Anna Frances came home from the State University last week and Marvin from Melbourne, where he is farming this season. Mr. Earl Beck also came from Vaughn to join his family in a visit to Mrs. Beck's parental home. The Becks are moving from Vaughn to Seattle, Washington, in the near future.

MORNING TOWER MEN'S BIBLE CLASS

The class, which is held at the Majestic theatre every Sunday morning, is proving a great success and growing right a long. A short patriotic service is held at every session. A cordial invitation is extended to all men, who are not affiliated with any other Sunday school.

BRUCE-PATZ

News has been received here of the marriage of Mr. W. D. Bruce, formerly of Artesia, to Miss Leona Patz, of Galveston, Texas. Mr. Bruce is the son of Mr. and Mrs. R. W. Bruce, of Artesia, and is at present an engineer for the Santa Fe railroad in Galveston.

Lights and Pumps Are Greatest Farm Desires

So far as the woman on the farm is concerned, there has always been a glowing possibility of giving life a happier aspect through the coming of electricity. It has been asserted that ninety-six out of every one hundred women on the farms of the nation handle a big wash on Monday. Seventy-nine out of the hundred trim and fill kerosene lamps and thirty-six help with the milking. That points unmistakably to the duties which the average farm woman would like to see electricity take over first of all. Those duties would be included in an electric lighting system and a small electric pumping outfit. To be rid of the kerosene lamp chore, and never again to "tote water" for dish washing, laundry work or bathing would make anybody's days seem more sunny.

LOCALS

James Stagner has recently received license to practice law.

Mrs. Abe Burnett and children were over from Hope Tuesday.

H. K. Cobean, of Roswell, was a business visitor in Artesia Wednesday.

Mr. and Mrs. R. L. Newberry and Mr. and Mrs. C. L. Jones were Carlsbad visitors Sunday.

Dave Runyan and daughter-in-law, Mrs. John Runyan, were in from the Runyan ranch the first of the week.

Miss Annie Laurie Ellis came Saturday from Memphis, Texas to visit her sister, Mrs. Eldridge Solomon.

Mrs. J. B. Cecil returned yesterday from an extended stay in Ohio with her mother, who is an invalid.

Mrs. Carr, Mrs. Clark and the Misses Mildred and Vesta Frisch and Vella Spivey drove to Roswell Tuesday.

Mr. and Mrs. Jess Day, of Carlsbad and former residents of Artesia, spent Sunday here with Mr. and Mrs. Eldridge Solomon.

Miss Mildred Gardner is here from El Paso visiting her aunt, Mrs. Bob Caraway, also the Misses Willie May and Gladys Shannon.

Messrs. Jay and Homer Barnett, residents of California, now visiting in Roswell, were here Tuesday to see their cousin, Calvin Lucas, and wife.

Miss Mary Thayer came from Carlsbad Tuesday to take a position as stenographer with the Kaiser Truck Co. Miss Thayer is a sister of Mrs. Calvin Lucas.

Mrs. J. H. Jackson and son, Cavett, and Mrs. Frank Thomas and son, Gray, returned Tuesday from a week's camp trip in Hay canyon, near the Sacramento summer camp, west of Weed.

Rev. J. H. Walker, Mrs. Walker, Mrs. Grover Kinder, the Misses Gladys Cowan and Helen Bullock and Mr. Lloyd Cowan are attending the Methodist Sunday School Teachers' Training School in Roswell this week.

Bronson M. Cutting, of Santa Fe, owner of the Santa Fe New Mexican, spent a few hours last week inspecting the oil field. He was accompanied to Artesia by Attorney J. D. Atwood and Grant Keyes, both of Roswell.

Prof. J. T. Reed has been engaged as superintendent of schools for the coming year. Mr. Reed comes here from Tularosa and is highly recommended. Miss Gladys Cowan, who has taught in our schools before has been engaged to teach in the Central school.

Mr. and Mrs. Harry Manda and children came in by auto from Gallup on Monday and are visiting his parents, Mr. and Mrs. Frank Manda, and various friends. They will leave tomorrow for a trip to Oklahoma and Kansas. Mrs. Manda will accompany them on their trip east and expects to meet in Oklahoma, a sister, whom she has not seen for a score of years.

Mrs. Robinson, who arrived the last of the week from Clovis, has established herself here in the instruction of music and expression.

She had twenty-three years experience in public school work and is well qualified to teach both instrumental and vocal music, as well as expression. Mrs. Robinson, in addition to being a musician, is something of a missionary and did considerable work among the Japanese and Mexican populations of Clovis.

Mr. and Mrs. Landis Feather and Landis Ed, spent Sunday in Cloudcroft with Mrs. Adlai Feather, of State College. The latter has taken a cottage at this popular resort for the summer and has with her, her mother, Mrs. Howells, who came over from Italy in April. Miss Shirley Feather accompanied her brother and family to Cloudcroft and is the guest of Mrs. Adlai Feather for this week. She will go from there to California for the summer.

F. C. Whipple, local manager of the Singer Sewing Machine Co., has opened a Singer shop and will do hemstitching and dress making in connection with his sales work. Mr. Whipple has placed Mrs. Chas. Ransbarger in charge of the hemstitching machine, who is also an experienced dressmaker. This will no doubt prove quite a convenience to Artesia people as they have heretofore had to send this class of work out of town. The new shop is located opposite the Advocate office. Give them a trial.

PROOF OF PERVERSITY

"Reports say the rye crop is the best ever."
"Well, doesn't that just show the perversity of nature—when it can only be used for bread?"

Chiropractic adds life to years and years to life—adv.

See our samples of Engraving—Artesia Advocate Office.

Greeting Cancels Stamp

One of the most original stamp cancellations ever put on a piece of United States mail was that used by the postmaster at Cassville, Wis., June 25, 1852, when he wrote "Good Morning, Edward" across the stamp when he recognized the name of the addressee as that of one of his personal friends.

CANARY BIRDS FOR SALE

I will have 100 Canary birds on sale at Peoples Mercantile Co., Saturday, June 13th. One day only. Mrs. D. Swift, Hope, New Mexico. 25-31p

LEGAL ADVERTISEMENTS

NOTICE

In the Probate Court, Eddy County, State of New Mexico.

IN THAT MATTER OF THE LAST WILL AND TESTAMENT OF WILLIAM W. MEEKS,
Deceased.

No. 520
TO WHOM IT MAY CONCERN:
Notice is hereby given that an instrument purporting to be the Last Will and Testament of William W. Meeks, deceased, has been filed for probate in the Probate Court, of Eddy County, New Mexico, and that by order of said court the 6th day of July, 1925, at the hour of 10:00 o'clock A. M. at the court house of said court, in the City of Carlsbad, New Mexico, is the day, time and place for hearing proof on said Last Will and Testament.

Therefore, any person or persons wishing to enter objections to the probating of said Last Will and Testament are hereby notified to file their objections in the office of the County Clerk of Eddy County, New Mexico, on or before the time set for hearing.

Dated at Carlsbad, New Mexico, this 25th day of May, 1925.
(SEAL)

G. W. SHEPHERD,
County Clerk, Eddy County, New Mexico. 23-41

STATE OF NEW MEXICO NOTICE FOR PUBLICATION OIL AND GAS LEASE OF PUBLIC LANDS, EDDY COUNTY.

Office of the Commissioner of Public Lands, Santa Fe, New Mexico.
Notice is hereby given that pursuant to the provisions of an Act of Congress, approved June 20th, 1910, the laws of the State of New Mexico, and the rules and regulations of the State Land Office, the Commissioner of Public Lands, will offer for lease for the exploration, development and production of oil and gas, at public auction to the highest bidder, at 9 o'clock A. M. Friday, August 14th, 1925, in the town of Carlsbad, County of Eddy, State of New Mexico, at the front of the Court House therein, the following described lands, to-wit:

- Sale No. L-63.
The SE¹/₄NE¹/₄ and NE¹/₄SE¹/₄ Sec. 17, Twp. 16S., Rge. 28E., the NE¹/₄SW¹/₄ Sec. 10, Twp. 17S., Rge. 27E., N. M. P. M., containing 120.00 acres.
- Sale No. L-64.
The SW¹/₄ Sec. 32, Twp. 16S., Rge. 29E., N. M. P. M., containing 160.00 acres.
- Sale No. L-65.
The SE¹/₄ Sec. 32, Twp. 16S., Rge. 29E., N. M. P. M., containing 160.00 acres.
- Sale No. L-66.
The NW¹/₄SE¹/₄ and SE¹/₄SE¹/₄ Sec. 36, Twp. 16S., Rge. 29E., N. M. P. M., containing 80.00 acres.
- Sale No. L-67.
The E¹/₄ of SE¹/₄ Sec. 32, Twp. 17S., Rge. 28E., N. M. P. M., containing 80.00 acres.
- Sale No. L-68.
The NE¹/₄NW¹/₄ Sec. 7, Twp. 19S., Rge. 29E., and SW¹/₄SW¹/₄ Sec. 2, Twp. 20S., Rge. 29E., N. M. P. M., containing 80.00 acres.

All of the above described land lie within a radius of proven territory.

No bid will be accepted for less than a bonus of \$5.00 per acre which shall be deemed to include and cover the first year's rental for said land. The rental per year for each lease for the remaining years of the lease shall not be less than \$100.00, and no person will be permitted to bid at such sale except he has prior to the time set therefor, deposited with the commissioner of Public Lands, or with his agent in charge of said sale, cash or certified exchange to the amount of the said minimum bid. Deposit of all unsuccessful bidders will be returned. The deposit of the successful bidder will be held by the Commissioner of Public Lands, and by him applied in payment of such bid, but if the successful bidder shall fail to complete his purchase by paying on demand any balance due under his purchase including the cost of advertising and the expenses incidental to said sale, then in that event such deposit shall be forfeited to the State of New Mexico as liquidated damages. The Lease will be made for a term of ten years and as long thereafter as oil and gas in paying quantities or either of them is being produced from said land by the lessee and shall be made in substantial conformity with oil and gas lease form No. 35 on file in the office of the Commissioner of Public Lands, copy of which form will be furnished on application of any person interested.

The successful bidder shall be required by the terms of said lease to begin actual drilling of a well upon some portion of said lands, with an adequate drilling equipment within six months from the date of the lease, and to drill the same to a depth of 2500 feet, unless oil and gas, igneous or metamorphic rock shall be encountered at a lesser depth.

The Commissioner of Public Lands reserves the right to reject any or all bids.

Witness the hand and official seal of the Commissioner of Public Lands of the State of New Mexico, this 23rd day of May, 1925.

Mohammed's Sweetmeat

One of the oldest dishes of which any record can be found is the Arabian "khabis," which is said to have been invented and named by the Prophet Mohammed. It consists of fine selected dates coated with a mixture of honey and butter, and it is still a favorite dessert and confection among the Orientals, to whom the date is a staple food. It is interesting to note that the word "khabis" has come to be used by the Arabs as a synonym for happiness.

Verdun's Unhappy History

Verdun, which became blood-soaked during the World War, had been the scene of previous heavy bloodshed, one of the instances having been in the general massacre of Jews by peasants in a religious misconception in the Fourteenth century. This was about 1317. There was not a Jew in England from 1610 to 1624, and for some time after 1894 there was none in France.

In the Time of Trouble

Children and maids are frequently at a loss in an emergency and a directory hung over the telephone with the names, addresses and telephone numbers of the family physician and a substitute, the nearest fire box, the police station, the family pastor and the business places of all employed members of the family, will sometimes avert a tragedy.

Dromedary and Camel

Dromedary is a name sometimes given to the Arabian or one-humped camel, but properly belonging to a variety of that species distinguished by slenderness of limbs and symmetry of form and by extraordinary swiftness, "bearing much the same relation to the ordinary camel as a race horse or hunter does to a cart horse."

Far-Flung Telephone Bell

The telephone is gradually spreading into the most out-of-the-way corners of the earth. On the bleak steppes of Lapland, in the swarming baltars of Mecca, under the fringed palms of the South Sea Islands, may be heard the peremptory summons of the telephone bell.

Originals of Names Old

Glasgow, the second city of the British empire today, obtained its name from two Celtic words, "glas" meaning green, and "gha" meaning deer—deer green place. Dublin came from "dubb," meaning black, and "linn," meaning pool. Rutland is a corruption of Redlands.

"None So Deaf"

"Bredren," said the colored preacher earnestly, "in some folks de still, small voice ob conscience keeps a-gettin' stiller and smaller, until at las' it'd sure had to learn de deaf and dumb langwidge ter attract deir attention."—Boston Transcript.

Penny-a-Week Alimony

An infirm old bootmaker's plea that he pay only a penny a week toward her support because he was blind in one eye and his wife a habitual drunkard was granted recently in Marylebone court, making a low maintenance record in England.

GLIMPSES OF THE PAST

From the files of the Advocate, June 10, 1911:

Mrs. E. H. Cradall has gone for a visit with her mother at Dow City, Iowa.

Spring Lake opening will be next Wednesday and continue until midnight.

Mr. and Mrs. W. T. Beger went to Roswell Thursday to attend the bee association.

E. C. Lamb, of Dayton, has been busy loading out hay from his farm east of town.

Will Swope, of Dexter, has been in Artesia the past week, greeting his many friends.

Mrs. C. W. Lawrence and daughter, Miss Pearl, are visiting in Portales and Roswell this week.

Dave Runyan has returned from a trip of several weeks to points in Texas and Arkansas.

Prof. Botts, of Hope, stopped over in Artesia last Monday night on his return from Roswell.

P. V. Pardon has returned from Texas points in the interest of the cement company of Sipple and Pardon.

Mr. and Mrs. H. C. Rordbough will leave soon for Oklahoma City, where they will make their future home.

Mr. and Mrs. Eugene Beeman have moved into the bungalow on the corner of Richardson and Fourth streets.

Capt. M. S. Murray, of Roswell, was in Artesia Monday and accompanied the local military company to a target practice in the country.

Mrs. Blocker, Sr., is spending the week with friends in Carlsbad.

Mr. Rodden, proprietor of the studio, was here from Roswell Friday.

Dyke Cecil, who was a student at the Roswell Military Institute the past year, returned home last week.

Miss Dorothy Tigner returned to Roswell Sunday after a week's visit to her sister, Mrs. Frank Miller, and family.

Perley George and family, accompanied by Messrs. Moorehead and Lugston, spent Sunday in the mountains at Avis.

Mrs. D. Swift and daughter, Mrs. Mehrens, who is spending the summer with her mother at Hope, were shopping here Tuesday.

Mr. and Mrs. J. F. Bauslin were down from Hagerman Sunday. Their daughter, Mrs. Oscar Bullock, and baby, returned home with them for a week's visit.

Mr. and Mrs. C. A. Sipple left last week to spend the summer in Colorado. R. D. Compton, prominent oil operator from Whittier, California, will occupy the Sipple residence during their absence.

Mrs. George Welton has received the encouraging news that her son, Billy Wirt, who had been operated upon in a San Francisco hospital recently and had been seriously ill, is now improving satisfactorily.

Mrs. J. R. G. White and children came the first of the week from Little Rock, Arkansas, and will spend the summer here. They are located at the home of Mrs. McNeil. Dr. White is state evangelist of the Baptist church in Arkansas.

**BELL WELL AT PECOS
TO BE COMPLETED BY
THE BLUE BIRD OIL CO.**

General Manager Scott Etter of the Bluebird Oil Company, of Los Angeles, began work on the Bell Well No. 1, the discovery well of the West Texas oil fields, Wednesday. He expects to make a producer of it in a short time. The well was drilled by the Dixie Syndicate to 4508 feet. At 652 feet the production that made the Pecos oil boom, of 1920, was found. This was shut off after producing six weeks by water breaking into the well from above. The well was cemented off and drilled deeper, and big gas from a sand at 1700 feet created much excitement, but, as the well was so high on the structure the oil did not come. The gas was cased off and the well was drilled deeper. The formation from 2190 feet to 2510 feet practically all furnished oil. It is from these formations the Bluebird Oil Company expect to get the production. At 2731 feet a showing of gas was encountered which when cased off and Braden headed, furnished fuel for drilling the lower part of the well. The Delaware sand was reached at 3999 feet and was penetrated 508 feet. It was found to be a real oil sand filled with oil but as the well had been filled with water when the sand was reached so the gas might be drowned back and the sand penetrated, it was found impossible to bring the well in, though hundreds of barrels of oil came up through the 4500 feet of water, until a string of tubing parted and piled up in a wide place in the well, at 3745 feet and the big production expected at the bottom of the well was lost. The well was plugged back to 2350 feet and was shot with 360 quarts of Nitro. It was practically cleaned and has been in that condition for sometime. Ira J. Bell, trustee for the Dixie Syndicate, contracted with Mr. Etter, general manager of the Bluebird Oil Co., to complete the well on a percentage basis. Mr. Etter brings to the work a crew of workmen qualified to make a success of the well, consisting of Drillers Lindsey and Cummings and Helpers, Williams and Grissom.

The Bell Well has always held much interest with the Pecos people and the progress in the work on it will be watched with great interest.—Pecos, Texas Enterprise.

**THE LAS CRUCES
LAND OFFICE BUSY**

On account of the consolidation of the Roswell Land office and the one here, we have an enormous amount of work piled up in the office, among which we have a great number of notices of intention to make Final Proof. They will be taken up for action in the order in which they were received, and notices sent out. From April 15th the Roswell land office did no more current work as their records had to be crated and shipped this office for use on May 1st. As soon as it becomes possible to get the notices out, you will be advised what action has been taken on your particular application. Respectfully yours,
NEMECIA ASCARATE,
Register

We have a complete line of samples of social stationery—Artesia Advocate.

**Colors Add Interest
to Fashions of Season**

Color is more important this season than at any time since the war. This statement has been made before, but it cannot be too much insisted upon, for the vogue for color brings with it such important consequences. In a season when many shades are popular, it is vital that matching shades be obtainable in hats and accessories, in silks, woolsens and trimmings; and the vogue for certain colors is quite apt to influence the neutral tone ranges of shoes, hosiery and gloves.

It is very difficult this spring to pick out certain colors and say definitely that they are leading shades. The following sums up the opinion of a correspondent on color trends in which no one shade can be placed at the head of the list.

Blues are very important, for both day and evening, ranging from navy, through royal, "drapeau" or French flag blue, cornflower, China, nattier to Madonna. These are well balanced blues with little leaning toward other shades in their tone. Periwinkle is the one blue that borders on another shade, in its case toward the mauve range, that is much in evidence, and one sees a great deal of it.

The mauve-violet range, tending more toward red than blue, is in favor, particularly for evening. One sees a great deal of mauvy pink and cyclamen, and of deeper lie-de-vin shades.

The greens are mostly in the yellow caste, and there are a great many both for day and evening. Those for day wear range from light grass green to fine woolsens like covert coating, to a bright shade that is almost Irish green; while for evening, the range includes grass greens, pistaches, menthe and chartreuse.

Certain houses indorse clear reds, and one or two sponsor yellow, so there is a possibility that the vogue of such a house may result in a vogue for one of those colors; so far they are less generally seen than the other shades mentioned, although no color is ignored in the showings.

**SWEET CLOVER GOOD
FEED FOR LIVESTOCK**

The feeding value of sweet clover hay is not quite equal to that of alfalfa, but it is far better feed than much of the roughage offered to livestock, says George R. Quesenberry of the New Mexico A. & M. College. At first stock will consume only a small amount of it, but once they develop a taste for sweet clover, they eat as much of it as other hay.

The big advantage of sweet clover in New Mexico, where it is most adaptable, is that it can be grown in many places where no other hay or grass does well. It thrives where the water table is close to the surface and alfalfa will not grow. In the dry farm sections where flood waters pass over the lower lands and smooth slopes following heavy rains, excellent rains, excellent stands have been secured and a good hay produced.

For pasturing purposes it cannot be equalled for cattle or sheep. Little danger will be experienced from bloat, and the amount of pasturage is large. It is best not to turn the stock on the crop during its first year until the plants attain a foot in height. The large amount of pasturage results the second year, and if moisture is plentiful it will be the earliest pasture. Some fields in the state have had good feed in February.

Land intended for sweet clover should be worked shallow and firmed well before planting, and the seed should be covered very lightly.

Planting may be done any time between February and July. A few good stands have been secured as late as August and excellent crops of hay harvested the second year, but the earlier planting is most desirable.

Both the yellow and white biennial do well in the state. The former is most common in the northern part of New Mexico and produces a slightly finer hay, altho the latter is the most generally used farther south.

**Tassels Important in
Fashions This Season**

So many articles of dress are finished with tassels that the tassel has come to have a significant part of its own. Infinitesimal containers of cosmetics, cigarettes and so on have often a large tassel to balance the wrist cord at the top. Some of the newest purse-bags and envelope purses are trimmed with fringe or finished with long silk tassels.

The tassels introduced in costumes are huge this season. A soft girle finished with a large tassel at each end adds charm to an informal cloth frock or an afternoon gown of satin or crepe. In evening dress tassels of silk or of pearl, crystal or metal beads are used effectively on some of the newest gowns, and one conspicuously handsome evening wrap has two enormous tassels of silk and gold thread to finish scarf ends that fall from each shoulder at the back.

**Chiffon Feathers Used
as Border, Like Coq**

Femininely elegant coats of georgette or chiffon follow the tailored mode of the moment, but soften their outline by means of a border of chiffon feathers, which is chiffon cut in feather-like pieces to resemble coq. This trimming was seen on a black chiffon cape, and round a rust-colored chiffon coat, and again in an entire flat boa in black-and-white chiffon, thus effectively simulating a feathered scarf.

The chiffon coat to accompany the lace or chiffon gown undoubtedly promises well this summer, and with it this mode of trimming will be more and more developed.

**Coat of Lovely Fabric
With Beige Fox Collar**

This coat, made of a popular fabric, is practical enough for general wear. The collar of beige fox gives the needed touch of color; the low belt line and slightly flared skirt accent the smartness of the garment.

FACING CHECK CHARGE

William Knowles was arrested in Artesia late yesterday on a charge of passing a number of worthless checks in this city. He is being held here awaiting a hearing on this charge.—Roswell Record, June 5th.

WHICH?

\$50 for Painting or \$500 for Repairing
A 1000 Per Cent Investment

There are life insurance policies and fire insurance policies, but an INLAND PEERLESS PAINT POLICY against the weather is just as important. Government figures show that each year ONE house in every FOUR is destroyed by the ravages of weather.

Look at Painting as an investment, not as an expense.

Look around you at the houses going to rack and ruin. What is doing it? Weather, of course. There is only one defense against this and that is PAINT.

But paint, like weather, is of many kinds. Buy paint that has proved its staying power over a period of 32 years—INLAND PEERLESS BODY.

DANCE at "The Oasis"

ARTESIA'S NEW PLEASURE
Every Wednesday & Saturday
Music By
"THE HARMONY FIVE"

Dance under the stars. Cool, delightful, romantic. Proper deportment strictly enforced, at all times. Nothing to mar the most refined sensibilities. Young will find a new meaning to the Terpsichorean Art, in rhythm with the lilting measures of the Harmony Five. COME ONE! COME ALL!!

OIL NEWS

(Continued from first page)
To the south of the Twin Lakes lease, Snowden-McSweeney obtained their initial producer in this field, being their No. 1 well, located in the NW 1/4 of the NW 1/4 of Sec. 33, Twp. 18, Range 28. This well is approximately the same size as the Twin Lakes No. 1, being good for around 100 barrels.

The usual luck, however, did not follow this company in their No. 1, located in the SW 1/4 of the SW 1/4 of Sec. 29, Twp. 18, Range 28, as it failed to produce after being given two shots, one of forty and the second of sixty quarts.

The other tests are proving somewhat disappointing, these being the Compton No. 1, located in the SW 1/4 of Sec. 16 and the Sandburg No. 1, located in the NW 1/4 of Sec. 17, both in Twp. 18, Range 28.

While numerous sands have been encountered carrying nice showings, neither is in the rank of a commercial producer, with the bottom of the holes below 2300 feet. There is a chance, however, that a lower pay will be found around 2400 feet. It is possible, according to a number of operators, that a dry strip may run through the field, as many are of the opinion that the Roswell sand is in a separate pool.

Dissappointments in the local field have come more or less as a shock to a number of operators, who apparently forget that the law of average exacts a certain percentage of dry holes for all producers obtained.

A number of completions are looked for during the coming week, these including the C. J. & W. No. 1, offsetting the Dancigar to the east, the Sandburg Mills No. 1, Los Angeles New Mexico Oil Co. No. 1, Dancigar No. 1, in the north extension and the Ohio Oil Co. No. 1 in Sec. 18, Twp. 18, Range 28.

With gas increasing steadily in the A. R. Goodale No. 1, the well will be drilled to 2500 feet, it now being down 2420. These gas sands, according to Mr. Goodale, will be shot with thirty quarts, it being his intention to erect a single unit casing head plant on the lease.

Additional gas is also reported from the Dale Cheesman test in Sec. 35, Twp. 18, Range 28. While trading has been a little slow around the proven area, wildcat blocks continue to change hands with a demand being chiefly for acreage to the southeast. It is reported that the Texas company now controls 15,000 acres on the Sansimon ranch, east of Carlsbad. The Mesa Oil Co. have purchased the S 1/2 of the SW 1/4 of Sec. 2, Twp. 21, Range 30. D. D. Nolan purchased the north half adjoining the Mesa. This acreage is on the Twin Hills anticline, the big structure worked out by V. H. McNutt and which will be drilled by Snowden-McSweeney.

Drilling Summary
Arnott and Gross No. 1, of the New Mexico-Los Angeles Oil Co., in NE corner SE 1/4 SE 1/4 Sec. 8, Twp. 18, Range 28, drilling below 1900 feet.

Bailey & Cragin No. 1, Randolph permit, in the SW 1/4 of the NE 1/4 of Sec. 33, Twp. 18, Range 29, drilling in.

Brainard No. 1, Brainard permit in the NE corner of SW 1/4 of NE 1/4 Sec. 29, wp. 17, Range 27, drilling below 1600 feet.

Geo. Bobb, Thompson No. 2, in the SW 1/4 of the SE 1/4 of Sec. 18, Twp. 17, Range 28, drilling at 500 feet.

Geo. Bobb No. 1, on the Thompson permit in Sec. 18, Twp. 17, Range 28, waiting on casing to set at 711 feet.

V. K. & F. Drilling Co. No. 1, in SW corner of NE 1/4 SW 1/4 Sec. 17, Twp. 18, Range 28, producing.

Van Welch No. 1, Dunn permit, in NE corner SW 1/4 Sec. 10, Twp. 18, Range 28, producing.

Wells & Son No. 1, in SE corner NW 1/4 Sec. 19, Twp. 20, Range 30, cementing off water.

Williams Petroleum Co., of Los Angeles, California, in the SW corner of the S 1/2 of the SE 1/4 of Sec. 17, Twp. 18, Range 28, drilling below 1000 feet.

THE CALL OF THE "MOON"

By E. R. L., Moonshine Poet

The golden west
Is ever blest
Never a drouth have we.

You can make a bet
We'll always be wet
Flooded with moonshine, you see.

Nearly every night
To see a wonderful sight
Down by the river take us.

And then by the brink
Of the river we'll drink
"Moonshine on the Pecos."

Dome Oil Co., in the SE corner of the NW 1/4 of the SE 1/4 of Sec. 21, Twp. 18, Range 28, moving rig.

OIL ROYALTIES MAY BE USED AS ENDOWMENT FUND FOR UNIVERSITY

(Continued from page one)
issuance of the order. He said that some time ago he had suggested that the state institutions use their income from oil royalties only for permanent improvements and not for operating expenses. He stated that he had never recommended that the principal sums derived from oil royalties be withheld from the institutions and only the interest be paid to them.

Mr. Swope is said to take the position that oil is part of the realty holdings of the institutions and only the interest from the money derived from it can be looked upon as income. The reported order is said to affect all revenues so

FORT SUMNER AREA MAKES APPLICATION FOR PECOS RIVER WATER

Following surveys of the Pecos river above Fort Sumner, R. F. Walter, chief engineer of the Reclamation Bureau has filed in State Engineer George M. Neel's office notice of intention to make a formal application of 180,000 acre-feet to irrigate lands principally in the vicinity of Fort Sumner and Carlsbad.

The dam is to be located in the southwest quarter of Sec. 34, township 5, north, range 24 east.

The announcement of this step came from United States Senator Sam G. Bratton, who is interested in the matter and expects to give it careful consideration. He had wired Dr. Elwood Mead, director of the Reclamation bureau, for a copy of the complete file covering the several surveys made of this section of the Pecos together with the reports made in connection with it.

The notice filed in the state engineer's office is under the provisions of Sec. 5699, Code, 1925, under the terms of this statute the filing of such a notice vests in the government a prior right to the specific amount of the unappropriated waters of the rivers, provided such right is perfected within three years from and after the date on which the notice is filed. The description of the lands indicates that the government intends to store water at this point for use in irrigating the lands in the valley of the Pecos River at Fort Sumner and also to be used in the vicinity of Carlsbad for use in connection with the present system there—Santa Fe New Mexican, June 8th.

LOCAL

Mrs. J. D. Terry, of Atoka, has been quite ill, but is better at this writing.

Dr. Gallaher left yesterday for Ft. Bayard, where he will be in the hospital for some time.

Miss Linna McCaw, with a party of girl friends from Columbus, visited the Carlsbad cavern yesterday.

Mr. Joe Baker, of Loving, was here on business the last of the week. He was the guest of A. L. Allinger while here.

Judson Doss, with his wife and baby, arrived from El Paso this week and are guests of his parents, Dr. Doss and wife. He has a position in the Richards Electrical shop and will remain here.

Dr. Chester Russell, who was recently elected as a representative of the Artesia Rotary Club to the International Rotary Convention at Cleveland, Ohio, left this morning to attend the meeting. Dr. Russell expects to be gone about a week or ten days.

J. M. Stricker, of Kansas City, Missouri and brother, B. E. Stricker, of Ottumwa, Iowa, accompanied by L. E. Parker, of Roswell, were visitors at the oil field Wednesday. Mr. Stricker, of Kansas City, became interested in the field two or three years ago and has kept in touch with the drilling operations through the Advocate.

far received from oil lands. About \$12,000 in royalties is said to have been received up to June 1 from institutional lands. It is estimated that the total annual royalties will run close to \$90,000.
