NUMBER TWENTY-TWO

Set For Coming Festival Next Week 23-25

Anticipations to be Made Big Crowds—Many Provided for En- joyment of the Visi-

forget, we take this opportunity to extend the general invitation to attend the festival which has ever been in Artesia. This celebration, a feature of the third consecutive season, and the diligent efforts of the Artesia as a growing community truthfully say that we believe your time will be well spent if you arrange your affairs early on the opening day, September 23rd until the closing day, Friday, September 25th.

many features this year, and available for the first time at 9:00 a. m. will have entertainment throughout the day and in the evening should you care to re-ting. One of the features will be doubly attractive to have never witnessed it, fiddlers contest and the square dance to be staged on street. While this event included in the program it has never failed to attract the attention of the public. Concerts, baseball games, games and various forms of the carnivals and will furnish plenty of amusement in addition to the air-planes and rides in the planes to want a little more ex- of amusement.

without saying that of the paraders this year all former records.

CANDIDATE FOR COTTON QUEEN

movement, which contains interest to the people of Artesia made known last week learned that Miss Ethel consented to become a Cotton Carnival. Artesia before had an entry in the through the Cotton Carnival held at Roswell for the year.

ATTEND DUDDING OF THE WELL NEAR HOPE

number of local oil operators attended the spud- ing the No. 1 well of the Artesia Company, which is in the NE 1/4 of the SE 1/4. To M. L. Smith, of the credit for the this test, which will be to 3000 feet unless production is obtained. is very likely as many of both oil and gas encountered in water in the vicinity of Hope.

ARTESIA MERCHANTS OFFER MANY SPECIAL VALUES COMING WEEK

Four Artesia merchants are this week offering special values in merchandise. Ferriman & Son will offer a special sale on a number of articles for Saturday the 19th only. Many articles will be on sale at substantial savings, including piece goods, cotton sacks and ready to wear.

THE FESTIVAL QUEEN CONTEST WILL CLOSE SATURDAY EVENING

Saturday will be the last day to cast your vote for the Festival Queen. If you have not yet cast your vote, this is the final urgent request that you do so at once. Interest in the coming contest has increased considerably in the past few days, but has not reached the stage hoped for by the Festival committee.

Saturday's vote will determine the lucky contestant, who will be crowned Queen during the first day of the festivities. Two beautiful gifts, a kodak, given by the Palace Drug Store and a wrist watch, given by the Mogul Jewelry Co., will be presented to the Queen on the opening day of the Festival, Wednesday the 23rd. Late yesterday a count of the votes was taken and revealed the following results: Glenda Gray 92, Peggy Mitchell, 9, Lois Burns, 14, Lorita Linell 1, Virginia Atteberry 2, Lois Hnulik 2, Maxine Rowan 1.

OLD LAND MARK TORN DOWN TO MAKE WAY FOR MODERN BLDGS.

Adobe Building at Rear of Cunningham Bros. Bar- ber Shop Used by Home- steaders in Early Days of Artesia.

Artesia has hit her stride in maintaining a steady building and improvement program. While it may not be so apparent to those of us who have been here all the while, the observant stranger no doubt sees and appreciates the many improvements under way.

Monday of this week another land mark of the early days was razed, which contains more than passing interest to those who are familiar with the early history. We refer to the old adobe building, which stood at the rear of the Cunningham Bros. barber shop. While the stories told as to the age of the building differ somewhat, this old adobe was one of the earlier if not the earliest building to be erected in this section and was originally used by a man by the name of John Boyle, who homesteaded 160 acres, now comprising a large part of the heart of Artesia. The east line of the 160 acres claimed by Mr. Boyle, as we understand it, is now traversed by Rose Lawn Avenue. The material of the building was in fair shape, although it stood the storms of the elements for more than twenty-five years and was evidently constructed for the rudiments of comfort which the pioneers days afforded, rather than embodying many of the luxuries of the modern homes. It was an inconspicuous structure and the fact that it was passed for many years unobserved, served to make its early history connections even more interesting.

Some of the old timers are agreed that a railroad had been constructed in the Valley before the time that the adobe hut was constructed, but there was no Artesia then, the nearest we could guess, therefore, is that the place must have been called Miller, but contemporaries are not agreed whether a post office had been established at this time. (Continued on last page, column 1)

NEW GARAGE FOR THE EASTMAIN ADDITION

A new sheet iron garage building is being finished up this week in the Eastmain addition near the Texaco filling station. The new structure will be owned and operated by Oscar Montgomery, who hopes to have the new establishment open for business within a short time.

ARTESIA MERCHANTS OFFER MANY SPECIAL VALUES COMING WEEK

Four Artesia merchants are this week offering special values in merchandise. Ferriman & Son will offer a special sale on a number of articles for Saturday the 19th only. Many articles will be on sale at substantial savings, including piece goods, cotton sacks and ready to wear.

The Mize Variety Store will have on display a selected stock of new fall goods at attractive values. The Golden Rule will feature what is known as the Grab Box sale, although special prices will be made on other articles.

Festival Program

ARTESIA, NEW MEXICO
SEPTEMBER 23rd, 24th, 25th, 1925

Exhibits of products in tent at corner of Rose Lawn and Quay, and arts and handiwork at Chamber of Commerce rooms from 9:00 A. M. to 5:00 P. M. all three days. Passenger rides on "Miss Artesia," the airplane, throughout the days.

Reuter and Paul, native Hawaiians..... 8:00 P. M.
Enjoy yourselves, help others enjoy themselves, stay late if you feel that way. Be jolly but be courteous and considerate. Adieu at 12:00.

ARTESIA FIRE BOYS AWAIT THE CALL OF THE FIRE WHISTLE

Don't be alarmed if you should hear the fire whistle on Monday nights between the hours of 8:00 and 10:00 p. m. It might be a fire of course, but the chances are its just the boys doing their weekly dozen and incidentally giving the new fire truck a bit of exercise.

Despite the fact that Artesia at one time had poor fire fighting equipment, the team organized several years ago, is a strong one and will likely be a formidable contender for the state honors in the event a contest is held in the near future. With the new equipment and the prospects of an improved water system, the boys are going to make these fires hard to catch in the future. While it might not be advisable to start a fire just to watch them work, we'll warrant that they will give a good account of themselves if the occasion demands.

Any bunch who can attend the ordinary weekly meeting as regularly as do the Artesia fire boys, indicates that they are certainly interested in their work and should be given the support of the citizenship when it is asked for.

MEXICANS AT ROSWELL AND CARLSBAD STAGE CELEBRATION

The Mexican population of both Roswell and Carlsbad staged a celebration the first of the week, in honor of the 115th observance of Mexico's independence from Spain. The festivities at Roswell started on Monday and lasted through Monday evening. A large per cent of the Mexican population around Artesia attended the celebration either at Carlsbad or Roswell.

Advocate want ads get results.

THE AIRPLANE "MISS ARTESIA" EXPECTED TO FURNISH THRILLS

The two aviators, Lieutenant Ed Deeds and Bill Finlay, who will pilot the airplane, "Miss Artesia" during the days of the coming Festival, have had a world of rich experience in their profession, which would no doubt make an interesting story should space permit. Those who are familiar with the past history of both men are high in their praise as to daring deeds preformed by them in the late war.

Both served as instructors during the war, later Lieutenant Deeds was a prominent member of the Rickenbacker squadron, which was stationed in France. He has served as secretary of the American Aerial Association. Lieutenant Finlay has served a number of years as an aviator and is familiar with all phases of the army aviation. Since the close of the hostilities these young men have been connected with various forms of commercial aviation and have devoted much attention to airplane racing.

If the Festival visitors do not get a super excellent exhibition of all kinds of aerial stunts, we'll badly miss our guess.

CONCERT AT PARK

Tuesday evening, the Artesia Municipal band and orchestra gave a very enjoyable concert at the City Park, which was attended by a large crowd. Owing to the weather conditions it was deemed advisable to postpone the sale of cream and soda water, the proceeds of which would have gone toward the purchase of new uniforms.

The Alfalfa Festival September 23-24-25, Artesia.

Woodstock typewriters for sale—Advocate Office.

NEW DAIRY LOCATED ON OLD BELT PLACE WEST OF THE CITY

F. C. Finley, who hails from Douglas, Arizona, has recently established a dairy farm on the old Belt place, west of town. Mr. Finley plans to make his place a model farm and has added much up to date equipment, including a fly proof milk house and one of the latest milk cooling systems.

His dairy herd, one of the finest in this country, consists of twenty-four head of pure bred Holstein cows, all of which have passed inspection tests for butter fat and have twice been tested for tuberculosis. All of the herd successfully passed the tubercular test before leaving Douglas and were again tested upon their arrival here.

Mr. Finley has been engaged in the dairy business for the past nine years and believes that his past experience has enabled him to know the wants of the public.

MISS OLSON STANDS FOURTH IN TUESDAY'S COUNT FOR C C QUEEN

Artesia's Candidate is Making a Splendid Showing, Although the Nomination Was Made Only a Few Days Ago.

Oneta Bass	444,750
Lucile Cruse	242,130
Bernice Goodman	338,400
Ethel Olson, Artesia	265,500
Olivia Wilkinson	178,485
Adele Bujac, Carlsbad	120,000
Charlene Milam	110,465
Norma Foreman	75,685
Minnie Lumpkins	70,260
V. O. Jones	60,005
Ethel Harrow	60,000
Irma McElmurry	55,190
Madeline Mitchell	55,000
Johanna Dekker	50,275
Laura Knupp	50,055
Olivia Rhea	50,015
Bonnie F. Wheeler	50,010
Mary Dahm	50,000
Juanita Dresser	50,000
Ruth Davis	50,000

Will you kindly look at the above standing in the contest for queen of the Cotton Carnival to be held at Roswell October 8, 9, and 10 and see how Miss Ethel Olson of Artesia stands? Will you notice that on the count which was made last Tuesday she was fourth in the race? And then when you realize that she did not get started until a few days after most of the others, you will understand that Artesia has an excellent chance of naming the queen for the Carnival and that Miss Olson is likely to be the queen who drives away that fine Studebaker coach valued at \$1470 on the morning of October 3.

Miss Olson has a lot of friends in Roswell even who are pulling for her, and her whole support is not coming from Artesia in the future. She is determined to win and her friends both here and in other places in the Valley are going to help her.

This contest is causing wide spread attention, some nominations having been received from San Diego, California.

WRIST WATCH GIVEN AWAY

The wrist watch, which was given away last Saturday to the holder of the lucky number, at the Silver Moon dance pavilion, was won by Frank Wingfield.

Dances at the Silver Moon dance pavilion Tuesday, Thursday and Saturday, music by "Doc" Watson's orchestra.

The management of the pavilion will provide extra floor space for the dances during the festival.

ARTESIA MEN ATTEND RAILROAD MEETING AT LOVINGTON FRIDAY

S. W. Gilbert, Wm. McGinn and Dr. R. K. Hoover, representatives of the Artesia Chamber of Commerce made a trip to Lovington Friday evening where a joint session of a number of commercial bodies was held to discuss the proposed route of the Burlington road. While we did not learn of the number of towns represented in the meet, it is understood that many of the plains towns had representatives present. It is known that the Burlington favors a route into this section and those who attended the Lovington meet feel encouraged over the prospects. While no definite action has yet been taken by the officials of the road, those who are in a position to know, believe that a favorable report will be made.

3 Extentions Made to the Field During Past Week

Pueblo, Fletcher and Baily Cragin May Be Means of Extending Active Drill- ing to East and South- west.

Those who have watched for the extension of the present proven area across the river feel highly encouraged over three possibilities offered in an east and southwest direction. Probably the chief interest is centered in the Baily Cragin well, in the SW 1/4 of the NE 1/4 of Sec. 33-18-29, shot Saturday by Hal Dixon, of the American Glycerin Co., with 200 quarts of nitro from 2230 to 2296 feet, the showing of the well has so far been very satisfactory, although the production may not equal that of the best wells in the proven area. The hole was drilled to 2360 and plugged back. It is reported making considerable gas from a brown shale found between the oil sand and a sandy lime. The well is located six miles east of the discovery well of the field, in Sec. 32 and will probably mean the opening up of a new area to the east.

Next in interest among the extentions is the Pueblo well, in the SE 1/4 of sec. 4-18-28, which extends the field three quarters of a mile east of the activities on the New State lease. It is reported that the first sand was found at 2060 and the second at 2300 feet. The hole is now standing full of oil from the 2300 foot level and the first pumping test is said to have exceeded all expectations.

Fletcher Oil Co., on Flynn, Welch & Yates acreage, in the NE corner of the E 1/4 of the SW 1/4 of Sec. 5-19-28, expect to shoot their well today, which is located southwest of the Mesa. The sand encountered above 2100 feet will be shot. A good (Continued on last page, column 1)

TWO MORE TEACHERS ARE EMPLOYED HERE

Mr. E. P. Eaves, of Tennessee, has been employed as instructor in Science in the high school and Mrs. H. C. Morehead, in the junior high. Two or more teachers are still needed to relieve the congestion in the grades, and in order to make room the fifth grades have been moved out to the high school building. It has been found necessary to divide the auditorium into three rooms in order to provide study halls for some of the classes, but the partitions are adjustable and can be shoved back out of the way when the auditorium is required for entertainments.

STILL FOUND ON MAIN ST. RUNNING FULL BLAST UNDISTURBED

A still uncovered on Main street, running full blast, with no apparent effort at concealment by the owners sounds like the latest sensational development in Artesia. Evidently the former operations of the still has escaped the attention of the officers, as several gallons have been run already, the contents has been used, but so far as could be found the instrument had never been disturbed by an enforcement officer. It is true that the runs have never found a popular market like some of the famous brands of corn liquor and in this connection it might be well to mention that its operations are not a secret, notwithstanding the general public have been ignorant of its whereabouts.

A thorough search of the premises by an Advocate representative failed to reveal any of the usual paraphernalia found around a liquor still; there was no corn, no mash, no rye or anything of the nature of a fermenting process and lest the reader may have drawn an erroneous conclusion we hasten to add that the still, operated by Messrs Fenton and Bryant, proprietors of the Artesia Battery Co., is used for distilling pure water only. Nevertheless the machine is probably as elaborate as any found in this section and is made of copper on the same order of the best liquor stills.

The capacity of the still is approximately 30 gallons per day. About 45 gallons of water is used in distilling 30 gallons of the pure H2O. Those who have never had an opportunity of seeing a real still in operation should go by and take a look at it.

THE COMING FESTIVAL

Only a short time remains for final preparations on the Alfalfa Festival to be staged in Artesia September 23-24-25. While interest has been all that could be hoped for, it is not as great as it should be. An event of this kind, shows more than anything else the public spirit of any community. Anything that is worth doing is certainly worth doing right. For this reason we take this occasion to urge for the last time the cooperation of all of the farmers, business men and oil men who expect to participate in the coming event.

We realize that there are a few people who are prone to criticize the efforts of those who are trying to put the Festival over. An event of this kind will either reflect credit on the community as a whole or it will give it a black eye. Since every resident of Artesia is a part of the community, the activities of the town and community will reflect in a measure on the public spirit of each individual citizen. It is just as easy to pull for the better things as it is to spend the time in idle criticism.

Let's put the spirit of animosity aside and pull for the biggest and best Alfalfa Festival ever staged in Artesia. There is no reason why it can not be done.

THE COTTON SEASON

Before the close of the week, the cotton season will be in full swing. The crop this year seems to be a trifle later than usual, but is opening up fairly well now. Indications are that the price will be stable, but this is a condition which can change overnight.

The present outlook is very favorable for the best crop since cotton made its appearance in the Valley several years ago. If no unforeseen calamity occurs, this year's crop should put many of the farmers on easy street.

The financial condition of the Valley, which should be far in advance of any previous year enjoyed, will no doubt be reflected in the bank statements soon. The steady growth of the agricultural interests of the Valley is very gratifying and indicates that the interest of the farmer has been advanced along with the development of other resources.

KILLING THE FARMERS FRIEND

When an Iowa farmer complained that the pheasants were eating his corn, the game department killed two of the birds, examined two of their crops and found 200 cutworms—and no corn. Almost without exception, when the scientists investigate such cases they find the same result. The farmer owes his crop to the feathered police that keep down the bugs, insects and worms. With continuing slaughter of every form of bird life, the insect loss will be heavier and farm work harder. The nation could train an army of riflemen in a comparatively short time, but it couldn't in a century restore the bird armies that are the farmers' allies in raising food to feed the country.

KEEP AWAY FROM WILDCATS

Buying blue sky and wildcat shares of stock is not the popular indoor sport it was a few years ago. People are learning more and more the wisdom of consulting a bank with a good reputation before making investments and handing out their hard earned money.

National distribution of the better class of investments has become a modern science, and in a great nation like ours with enormous accumulations of newly created wealth it is very important that those who buy securities know what they are get-

CATHERINE LOUGHREY

Miss Catherine Loughrey, a graduate of the normal school of Worcester, Mass., was awarded a prize of \$1,000 by the American Chemical society for her essay on "The Uses of Chemistry for the Enrichment of Life."

DOWN ON THE FARM

Down on the farm 'bout half past four,
I slip on my pants and sneak out the door.
Out in the yard I run like the dickens
To milk all the cows and feed all the chickens,
Clean out the barnyard, curry Rhoda and Jiggs,
Separate the cream and slop all the pigs.
Hustle two hours, then eat like a Turk.
By heck! I am ready for a full day's work.
Then I grease the wagon and put on the rack,
Throw a jug of water in the old grain sack,
Hitch up the mules, slip down the lane,
Must get the hay in, looks like rain.
Look over yonder, sure is I am born,
Cows on the rampage, hogs in the corn,
Start across the meadow, run a mile or two,
Heaving like I am wind-broken, get wet clean through.
Back with the mules, then for recompense,
Rhoda gets straddle the barb-wire fence,
Joints all aching, muscles in a jerk.
Whoop! Fit as a fiddle for a full day's work.
Work all the summer 'till winter is nigh,
Then figure at the bank and heave a big sigh.
Worked all the year, didn't make a thing,
Less cash now than I had last spring.
Some folks say there ain't no hell, Shucks! They never farmed, how can they tell?
When spring rolls 'round I take another chance,
As fuzz grows longer on my old gray pants,
Give my galluses a hitch, belt another
By gosh! I am ready for a full year's work.—The Pathfinder.

Our harvest season is here. Farmers are blessed with normal crops and in some cases better than normal, and prices are above normal. They will find themselves with plenty of money this fall and the slicker stock salesman will be on hand to take it away from them.

There are many good investments in all lines of activity, and all the buyer needs do is use ordinary prudence and consult with responsible banking or investment houses, and millions of dollars will be saved from loss.

AMERICAN HOMES ARE STANDARD OF COMFORT

It has been said that the United States has no distinctive type of art, literature, architecture and other things which the old world claims as its own. We will not argue this question but we would like to point out a step in progress toward human comfort which is distinctly American namely, the age of electrical conveniences.

What American would want to live in the average European dwelling or farm house? Even the hotels, except the more expensive ones, have few or none of the conveniences or luxuries which in this country are considered necessities in the smallest homes. While we may not have developed a distinctive national type of architecture in the United States, we have developed a standard of house comfort which will be referred to in history as the "electrical home" period.

GLIMPSES OF THE PAST

From the files of the Advocate, September 16, 1925.

S. J. Powell has bought the Kuykendall place, paying \$5000 for it.

Miss Bertha Speck has gone to the plains to accept a position as a private teacher.

Mrs. J. E. Robertson left Thursday morning for Missouri on an extended visit with relatives.

Mr. and Mrs. V. E. Fatheree have moved into their convenient bungalow on Rose Lawn Avenue.

E. W. White has sold his interest in the Cash Grocery to W. W. Whiteside and the latter, with G. T. Kitchen, will continue the business.

The Homesteaders, at their meeting Saturday night, elected J. L. Krausa to represent the Artesia homesteaders at the supreme convention in October at Des Moines, Iowa.

Where, Oh Where Has the Severe Looking Sunday Suit Gone?

WHAT has become of the old-time Sunday suit? The one that mother used to lay out on the bed for father every Sabbath morning, and whose appearance was a sign for children to straighten up and remember what day it was?

Of course, it was black and very severe looking, with its cutaway coat, high stiff collar and white bow necktie. The Sunday suit, however, according to Edward R. Born, Fashion Director of the Born Tailors Guild, is a thing of the past. It was an extravagance to have a suit for only one day in the week. Moreover, the man of today insists on being comfortable. So summer Sunday mornings find him donning a business suit for church, well pressed and enhanced with smart hat, tie and gloves. If he feels he must observe the day by being the least bit uncomfortable, let him wear the vest to the suit to complete the outfit.

Church over, a long afternoon and evening ahead, the business suit is put aside in favor of loose flannels, knickers, soft shirts with turn-down collar. Sports clothes that make him at home on the golf links, at the wheel of his car or when pitching a few good balls to work off that Sunday dinner.

The one requirement of Sunday clothes is that they must make you feel like a different person from the one you are all week long. One day's rest in seven is essential and by rest is meant, for the most part, change. A complete change of clothing is one of the best ways of getting this variety into our lives.

If you want quick service and good work on all kinds of cleaning and pressing or alteration work we can do it.

Electric Way of Threshing Grain

Experiments conducted on an Illinois farm can be taken as a guide, the electric method of threshing grain offers attractive possibilities. Two young farmers, Wm. DeLoos and Frank DeLoos, have demonstrated to the satisfaction that electrical threshing is 50 per cent less costly than manual threshing, in the case of wheat, less than half as expensive.

Both methods a thorough job is done, and in addition also electrical threshing with a gasoline tractor, however, compare steam threshing.

Cost of their steam equipment was \$4,772, with operating expenses of \$1,577, a total of \$6,349. The electrical equipment came to \$2,915, and the operating costs were \$1,415, a total of \$4,330. The amount of work was performed by each method—sixty thousand bushels of wheat and fifteen thousand bushels of oats were threshed.

HUGE AMOUNTS GAS SALES TAX

California gasoline tax aggregates \$12,000,000 in fiscal year, 1924-25. Statistical information submitted by the bureau of public roads, show that California with its 2 cent gasoline tax, leads all other states in the Union in amount collected from motorists during the fiscal year ended June 30, 1925. California collected a total of \$11,993,222, and the state of Pennsylvania the nearest in point of collections received \$9,000,000 from a 2 cent gasoline sales tax. Indiana collected less than \$5,000,000 and North Carolina, \$4,500,000. Arkansas was the only state in the Union having a 4 cent tax, last year, but during the current fiscal year North Carolina is to collect a 4 cent a gallon tax, the rate having been raised from 3 cents. The increase in the total amount to be paid by motorists this year is estimated on the basis that there have been certain increases reported in gasoline taxes. Kansas and Michigan adopted 2 cent levies; North Carolina and Tennessee raised its levy 1 cent a gallon, and Wyoming, 1 1/2 cents a gallon.—Index.

SCHOOL AND EYES

The progress your boy or girl makes in the coming school term will depend largely on good vision. If a child is backward in school work it is often due to being unable to see objects clearly which causes an eyestrain and leaves the child severely handicapped in school work.

Defective Vision

can be corrected accurately by properly fitted lenses. Do not send them to school this year only half equipped for their work. Know that the eyes are right. Let us make an examination and tell you.

COTTON CONSUMPTION INCREASES IN 1925

WASHINGTON.—Cotton consumed during August totaled 448,665 bales of lint and 63,583 of linters, compared with 482,989 of lint and 62,513 of linters in July this year and 257,380 of lint and 44,926 of linters in August last year, the Census Bureau today announced.

Cotton on hand August 31 was held as follows: In consuming establishments 680,527 bales of lint and 97,230 of linters compared with 866,259 of lint and 128,478 of linters on July 31 this year and 552,789 of lint and 82,816 of linters on August 31 last year.

In public storage and at compresses, 1,040,178 bales of lint and 22,747 of linters, compared with 514,196 of lint and 28,628 of linters on July 31 this year and 802,064 of lint and 44,239 of linters on Aug. totalled 9,266 bales compared with 9,927 in July this year and 4,136 in August last year.

Exports for August totalled 315,825 bales including 2,640 bales of linters, compared with 202,468 including 4,040 of linters in July this year and 277,647 including 6,064 of linters in August last year.

Cotton spindles active during August numbered 31,269,774, compared with 31,760,596 in July this year and 29,010,630 in August last year.

The Alfalfa Festival September 23-24-25, Artesia.

Simplicity of Cut Is Feature of Footwear

Simplicity of cut is still the hallmark of smart footwear although the tendency is not so marked as it has been, observes a fashion correspondent in the New York Herald-Tribune. Perugia, Greco and Hellstern, three leading French bottlers, continue to emphasize this vogue in their newest models and the most popular shoe of the moment is the court shoe with a slightly rounded toe and a flattened ramp. Very often a buckle, hiding an elastic, is placed rather high on the instep and is a means of varying this model. Also modish is the Louis Duban heel which is fairly straight and no longer much hollowed out. Its height is from five and a half to six centimeters. The golf shoe remains in favor for morning walks and the smartest model has broad straps, ornamented with stitches in two colors. The fashionable shoe shades for afternoon wear are hazel and dove-color, the latter a warm gray, while evening shoes are made in an infinite variety of light shades, in silver and gold, and in a whole range of pastel hues. One leading bottler is employing five or six exquisite pastel shades in kid—delicate pink, yellow, brown and blue—for the theater and dance wear. Lizard skin is still profusely used, particularly in light shades such as beige and gray, to accompany sports costumes made of English woolsens. As in the case of kid there is lizard gilded or silvered on evening models.

DR. JOHN B. STRATON

Dr. John Roach Straton, pastor of Calvary Baptist church of New York city, who says he is willing to lead the fundamentalists now that William J. Bryan is dead.

HOPE ITEMS

(Noel L. Johnson, Reporter)

Born to Mr. and Mrs. R. T. Swift this week a fine girl.

Tom Runyan and son were in Hope one day on their way from the ranch to Artesia.

Mrs. Dave Beckett has secured a contract to pack apples on the Flying H ranch.

Charles E. Ratten came in the other day on land business, and will stay over for a while.

E. L. Brewer, who has been with the Santa Fe, at Clovis for some time, came home to stay a few days ago.

Walter Coates and Leland Miller are busy getting ready for the rodeo and free barbecue to be staged here October 1, 2, and 3.

Mr. Hillhouse and his friend, Mr. Miller, of Kansas, stopped a few days ago and looked things over and remarked that conditions looked good.

Hope farmers are very busy cutting and baling alfalfa, and gathering and packing apples. L. N. Barley has some wonderful Starks and Joe Puckett has Grimes Golden.

About the most interesting thing that has happened during the week is the spudding in of the well by W. A. Siedler Drilling Co., of Wewoka, Oklahoma, who have a contract to drill a well 2500 feet unless oil or gas is found in commercial quantities sooner. The well is located on the NE 1/4 of SE 1/4 Sec. 4, Twp. 18, Range 23, on the F. E. Fite farm, with a block of approximately 8000 acres leased. Hope citizens are jubilant over the beginning of development.

No Stinginess, no deprivation needed---this way!

There is a plan, for you, that simply means buying success. We're here to help you find it.

Today the business of saving money—of achieving financial success—is on a more practical, a more efficient basis than ever before.

No more need it be looked on as a dreary, monotonous program of deprivation, stinginess and gouging self-denial—with benefits withheld until old age.

There is, for every man and woman, some wise, practical plan of saving that fits in perfectly, congenially with modern, everyday living. In such a plan for you, there is nothing irksome, grinding.

And benefits are almost immediate. You feel, once you have started this wise course, a surprising growth in confidence, in power back of all your effort. You find yourself quickly acquiring surer judgment—quicker and clearer vision on the strategic moves in business and home life. Very soon you possess the ability and the financial resource to make every dollar do double duty.

There is nothing vague about this help. It is as real and tangible as physical well-being. You feel it—are conscious of it—are constantly helped by it.

Here you have expert and friendly assistance in doing that—a special department maintained for just this purpose. These men can and will give you new ideas—ideas of actual, immediate value. Practical ideas—developed to meet your own needs. Come in and talk it over.

Minister MacMurray and His Staff in Peking

The imposing looking group is made up of Dr. John Van A. MacMurray, the new American minister to China, and the entire staff of the legation and three Chinese officials. The photograph was made as Doctor MacMurray was to leave his residence in Peking to present his credentials.

LEAVE YOUR AX GEORGE

The following article was clipped from the Inland Oil Index of September 10th, relative to a visit of a Wyoming oil man to Artesia. The advice given might have been very well for several months ago, but the weather conditions have changed. Leave your ax at home George and bring your boat, "cause" we do have some rains down here now and it might be advisable to bring your fog horns too in order to get through these foggy mornings.

The article follows: Cub George Scott issue a sort of weekly bulletin in the interests of the Lions Club in Casper. It is called the "Lions Den." The mast-head carries the following: "Dedicated to the memory of a guy by the name of Daniel who was the first candidate ever initiated into the Lions Club (Something like 3000 years ago.) He didn't make good though. They put him on the Refreshment Committee and had to fire him for refusing to feed the charter members."

A recent issue contained the following about a well-known Casper oil man:

George Jarvis blew into town one day last week but don't let that keep you from Club meetings. He has had a wonderful vacation which included a trip through the Park, Jackson Hole, Idaho, Utah and Artesia, New Mexico. By the way, he says that town of Artesia is mis-named, its so dry down there the only way he could get a drink was to chop a hole through the ice or go to Old Mexico and George ain't got no axe. If he takes hold of things down there like he did the Lion's Club in Casper you better buy some town lots in that burg 'cause she's sure going to boom. "I'll tell the cock eyed world she is."

HIS MATCH

A taxi driver recently got the worst of a wordy bout.

An old man with a wheelbarrow wouldn't get out of the way, and the taximan shouted:

"You ought to be wheeling a baby buggy."

"And you ought to be in it," replied the old man.

A Business Getter

A small boy called on the doctor one evening. "Say, doc, I guess I got measles," he said, "but I can keep it quiet."

The doctor looked up puzzled. "Aw, get wise, doc," suggested the small boy. "What'll you give me to go to school and scatter it among all the kids?"—Bottles.

LAKE ARTHUR ITEMS

(Mrs. Alva Spence, Reporter)

Mr. and Mrs. E. L. Selby left this week for Las Cruces, N. M., where they went on business.

Little Andy Griffith has been sick for the past week. Mr. and Mrs. Griffith took him to the doctor Tuesday.

Mrs. Etta Henry, of Los Angeles, California, came in last Sunday to visit the home of her niece, Mrs. Clyde Nihart.

J. H. Griffin and Bud Baker returned home this week from Oil City, where they have been employed for the past few months.

Howard Simst came in Tuesday from Chicago, Illinois, where he has been with his wife, who was operated upon there a few weeks ago.

Mr. Purdy, an accomplished violinist arrived here last Thursday to visit the home of his uncle, M. W. Evans. Mr. Purdy came from Durant, Oklahoma.

E. C. Jackson and wife and J. H. Reeves and wife were among the number from here that attended the Commercial Club's meeting at Oil City last week.

Mr. and Mrs. Redman Pate went to El Paso on business and a pleasure trip. Mrs. Pate will visit her parents there for a few days, but Mr. Pate returned home Monday.

Mrs. Luella Johnston and son, Buster, who have been at Pine Lodge all summer, came in last week to visit a few days at the home of Mrs. Ned Hedges, then left for Portales, where they will spend the winter.

A. G. Lane and son, Wade, went to Plainview, Texas last week and visited a brother of Mr. Lane's. They returned home Friday accompanied by Mr. Will Lane of that place, who will stay here indefinitely for his health.

The revival meeting closed last Sunday night at the Methodist church. About eighteen conversions were accomplished during this time, and thirteen additions to the church were made. Rev. Hatfield will begin another revival on Cottonwood this week.

Eugene Moots, of Chicago, Illinois, accompanied by his bride, came in Sunday to visit his parental home about two weeks. Eugene was married last Wednesday to Miss Pearl Carey, of Chicago. Mr. Moots was reared here and has many friends who will extend congratulations.

The gin seems to be ready for the immense cotton crop for the coming season. They have been running for

several days and have everything in top shape to give quick and efficient service to their customers. Cotton is opening rapidly and we note picking beginning on a number of farms near here.

The public school continues to increase every day, and much interest is manifested in the developing conditions. The manual training rooms have been renovated and thoroughly cleaned and repaired for the use of one or more grades that cannot be accommodated in the school building on account of crowded conditions.

CALL FOR SCHOOL BONDS

To the holders of the bonds hereinafter described.

Notice is hereby given that twelve bonds, Nos. 1 to 12 both inclusive, of \$500.00 each, issued September 1st, 1913, by the Board of Education of the town of Artesia, Education of New Mexico, to "Kountze Brothers" clerk of New York, N. Y.; are hereby called for redemption on the next interest bearing date, September 1st, 1925, after which date, said bonds shall cease to bear interest.

Dated at Carlsbad, New Mexico, July 18, 1925.

R. B. ARMSTRONG,
Treasurer of Eddy County, New Mexico. 9-17-25

Welcome Folks! to Alfalfa Festival

LET'S GO!

NOT JUST AN OIL TOWN!

Visit the Alfalfa Festival next week, September 23 to 25 and be convinced that Artesia and the surrounding community has assets other than oil. Some of the best cotton in the state is grown in this section. See the row crops which will be displayed there, the garden, truck, melons, as well as the other exhibits, which will convince you beyond a doubt of the fertility of the soil around Artesia and the prosperity of its farmers.

TAX LEVIES ASSESSED BY COMMISSIONERS COURT LAST WEEK

At the county commissioners' meeting on Monday of this week, the assessor was instructed to extend the tax rolls as per schedule of the various levies, the certified budget estimate having been received from the state tax commission. Levies in detail are as follows:

County Levies.	
General	.001638
Salaries	.001616
County roads	.000234
County Agent	.000141
Indigent	.000070
Court	.000643
County Audit	.000175
Total within five mill limitation	.004000

State Levies.	
General	.004000
State Schools	.000500
State Roads	.001000
Total	.005500
Interest	.000800
County Health	.000423
County Schools	.017276
Federal Aid Roads	.000500

Special State Levies.	
Cattle and Horse Sanitary	.000200
Sheep Sanitary	.005000
Hog Cholera	.003500

Special County Levies.	
Bee Inspection, 7 cents per colony; road per capita tax \$3.00.	

Municipal Levies.	
Carlsbad, general purposes including 1 mill park levy	.005000
Interest	.002000
Sinking Fund	.001000
Paving	.000225
Total	.008225
Artesia, general purposes	.015000
Interest	.004000
Sinking	.004000
Total	.015000
Hope, general purposes	.004000

School District Levies.
(Seven school districts have no levy—districts 3, 4, 5, 6, 10, 11, and 12). In the following table, districts are as follows:

Dist.	Direct.	Int.	Sinking	Total
C	.003226	.003400	.000444	.007070
1	.002259	.000008	.001200	.003467
7	.001159	.000031	.003110	.004300

CURTIS HILL APPOINTED ASS'T. DIST. ATTORNEY

Curtis Hill, well known local attorney, member of the law firm of Reid, Hervey, Dow and Hill was this morning appointed assistant district attorney of the fifth judicial district and has already entered upon his new duties.

This appointment came from Dover Phillips, of Carlsbad, district attorney of the fifth judicial district. Mr. Phillips was appointed to this position last week by Governor A. T. Hannett.

Dover Phillips for the past three years had served as assistant district attorney under the late Dillard Wyatt and was appointed to fill the vacancy caused by the death of his late chief.

Under the arrangements as agreed upon by District Attorney Phillips and his assistant, Mr. Hill, Mr. Phillips will maintain his headquarters at Carlsbad and Mr. Hill will attend to matters in this city. During court terms they will combine as has been the practice in the district attorney's office in the past.

Both the district attorney and his assistant intend in so far as is possible to maintain the office under the same policies as were in effect prior to the death of Mr. Wyatt.—Roswell Record.

MAGEE RESIGNS FROM STATE ASYLUM BOARD

Carl C. Magee's resignation as a member of the state insane asylum board, dated September 10, was announced at the governor's office Friday.

Gov. A. T. Hannett has accepted it, but has not yet decided whom he will appoint as Magee's successor.

The Albuquerque editor was chairman of the board at a meeting a few hours before his fight with former Judge David J. Leahy in a Las Vegas hotel which resulted in the death of John B. Lassetter, who was trying to hold off Leahy, and the wounding of the former judge by bullets fired by Magee.

WANT ADS GET RESULTS—TRY ONE

By selecting your fall apparel early in the season, you not only derive more fashionable service, but your choice is made from greater assortments. Our stocks are now at their best. Coats, Dresses and Millinery are particularly interesting. You will rejoice in the ample opportunity the variety affords you in choosing the styles most becoming at prices you like.

Coat Fashions for Fall and Winter

Coat buying heads the calendar this month. Cool fall days will soon be here. The newest coats are already here—new silhouettes—new materials—new trimmings. Coats are smartest, however, when showing a lavish use of fur; you will see deep fur collars, wide cuffs and generous bandings of various furs and in the finer garments collars, cuffs and bandings of rich furs. Prices range from **\$12.50 TO \$65**

The Newest Fall Modes in Dresses at Moderate Prices

Advance styles for Fall 1925, especially suitable for the tailored women or for travel or for business wear. Fashioned of Satin, Canton and Crepes with cluster tucks, decorative buttons, silk braids and silk stitching in self and contrasting colors. In tan, black, navy, fawn and the new colors. Many new fall models in the new flair effects are shown in Crepe Satin, Satin Canton and Canton Crepe in the preferred fall shades of black, pansy, navy, cocoa, etc., cleverly trimmed. Ranging in price from **\$12.50 to \$37.50**

RADIO WAVE BAN MAY BE LOWERED TO 150 M.

Will the present wave ban be lowered to 150 meter wave lengths? This is a question upon the lips of thousands of radio "listener-ins" according to K. M. Turner, inventor of the Radio Microphone and one of the foremost radio authorities of the day. It has resulted from the present crowded condition of the air brought about by the ever increasing popularity of radio.

Broadcasting stations have increased so in numbers that the air is practically filled. There are so many now broadcasting on wave lengths from 200 to 550 meters that the permitting of any more stations within this area would greatly jeopardize the reception of all "listener-ins".

Receiving sets would have to be made so selective that it would require the skill of a radio expert to tune them. It has come to a point where the wave ban must either be raised or lowered to permit the granting of more licenses. Most radio authorities predict that the wave ban will be lowered. These predictions have been made in view of the fact that the air, at the present time from 200 to 150 meters is comparatively clear. There are but few amateurs broadcasting in this area. Another condition very favorable to lowering the wave ban is the fact that reception is much more satisfactory on the lower wave lengths, static is decreased very noticeably.

To raise the wave ban above the present limitations would mean a complete revision of all government and commercial stations. This would also take in foreign countries as well. It would in all probability lead to an international conference that would prove very expensive, lengthy and possibly very unsatisfactory.

A radio conference has been called at Washington, D. C. to discuss these problems. Any action taken will depend entirely upon the result of this conference. Everyone interested in the purchase of a radio receiving set should consider very carefully this probable lowering of the "wave ban," as many stations will no doubt be broadcasting on the lower wave lengths within a short time.

LOCAL

W. J. Williamson is expected home this week from a summer visit to Missouri.

Mr. and Mrs. Homer Dunagen and baby daughter drove down from Roswell last Thursday.

Mrs. Harry Wright, of Roswell, spent several days here last week, guest of Mrs. A. F. Phillips.

Little Joe Smith, who was seriously hurt in an auto accident several days ago, is on the road to recovery.

Sid Cox and Bun Muncy went to Santa Fe Tuesday to attend the State Conclave of the American Legion, which is in session there this week.

Calvin Dunn and family and Miss Alice Dunn left yesterday for a motor trip to El Paso and Cloudcroft. They expect to be gone about a week.

The Misses Zananda and Helen Mann left Tuesday morning for Abilene, Texas, where they will be students at Simmons University again this year.

Edgar Williamson has returned from El Paso, where he has been staying recently, having gone there from High Rolls, where he spent the summer.

Mrs. Ben Dunn has been enjoying a visit the past week from her sister, Mrs. McDermott, and baby, and Miss Beatrice Crow and Miss Kurd of Portales. They returned home Tuesday.

Mr. and Mrs. Sid Cox were in Carlsbad Friday.

We neglected to mention last week the birth of a daughter to Mr. and Mrs. John Dunn, Sunday the 6th inst.

P. G. Lindsey and wife, of Dexter, were visitors in Artesia Wednesday. Mr. Lindsey, who favored us with a renewal of his subscription while here, stated he could not do without the Advocate.

Mr. and Mrs. Dan Eipper returned home Tuesday from the Ruidoso, where they spent the summer. Mr. Stone and family, who have been occupying their house during their absence, have moved to D. L. Bryant's house. Mrs. Bryant and children are staying in El Paso for the present in order that the little boy may receive treatment.

Those who have kept bees have no doubt had many interesting and amusing experiences. M. R. Jones comes forward this week with a new one, although the incident was at first thought to be serious. Mr. Jones had just stacked 83 supers on a truck and had moved them some 200 yards when he hit an irrigation ditch. The bee supers were spilled and some were apparently ruined by the smash. While the owner viewed the wreck with some concern, the bees from a colony nearby swarmed in and took possession. After they had stayed near the wreck for several hours, practically all returned to the apary, except a few unable to get out. After they were permitted to crawl out of the supers none could return to the hives on account of eating too much honey.

MAGEE IS BOUND OVER TO ACTION OF GRAND JURY UNDER BOND

East Las Vegas.—Within an hour of his announced arrival here Thursday afternoon at one o'clock, Carl C. Magee, Albuquerque editor charged with the murder of John B. Laster in an altercation with former Judge D. J. Leahy in the Meadows hotel the night of August 21, had been arranged in justice of the peace court in Upper Las Vegas, a suburb; had pleaded not guilty, was bound over to grand jury under accepted bond of ten thousand dollars.

Old, but No Fool

She (to old suitor)—You know what people would say—that you were foolish enough to let me marry you for your money.

He—Oh, no, my dear; they would say I was too smart to let you get it any other way.

Boiler Explosion on Steamer Fatal to Many

Steamer Mackinac whose boiler exploded as she was carrying a load of excursionists through Narragansett bay, killing about fifty men, women and children and injuring many others. Most of the victims were killed by inhaling live steam.

Picture Hat for Fall —Soft Purple Velvet

A picture hat—and isn't it a picture! Purple velvet as soft as the leaf of a pansy; a silver band, a line of silver piping, a huge rose in shades of purple and pink. It is a model that promises to be popular this fall.

Hats for Small Women, Also for Fat Sisters

No small woman ever should wear a very large hat. She loses herself under it like the child under the big umbrella. The brimless hat is the best choice if one wishes to give the impression of increased height, and the wide hat is not yet the only thing in the picture. The boyish cloche, and the saucy hat with the rolling brim, so becoming to the smallish, young-looking features, are putting up a courageous fight for their existence, and will no doubt win, since women, if not noted for knowing what they want, are famous for knowing how to get it.

A curved or dropped brim on a small person makes the figure appear even shorter. The turned-up brim, on the other hand, by directing the eye upward, causes a person to look taller than she actually is.

Small, drooped brims, such as the pokes and mushrooms, are effective and childlike, when one's smallness is a point of attractiveness, and it is desired to emphasize it.

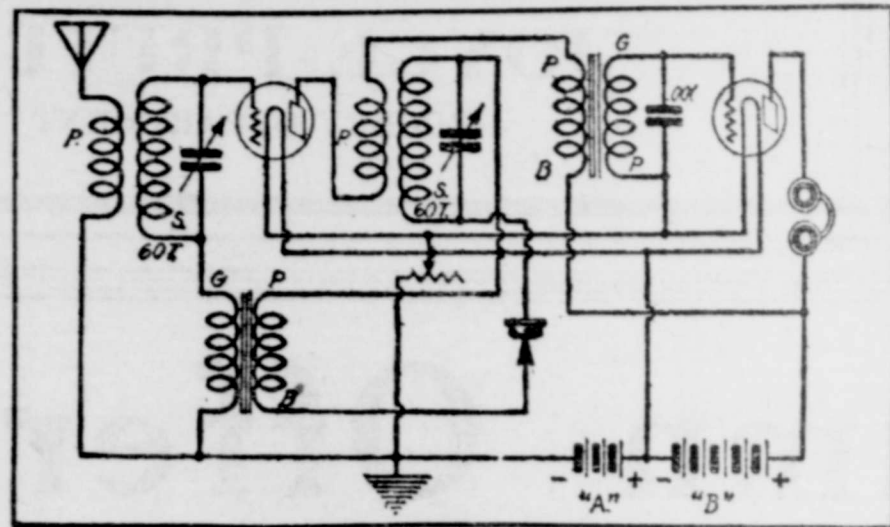

Bulky trimming is another thing that was never intended for the little person. And in the same way, any trimming that stands out away from the hat at a sharp angle, or in any way breaks the simple line of the hat, always is worn to her disadvantage. The present fancy for putting the trimming on top of the crown will give you height.

If you have a small head and a large body, the medium-sized hat will even things up. Much depends upon the size and contour of the face, since one cannot divorce the features from the figure. Just remember that the effect of a wide or medium-brimmed hat is always to make the face appear thinner and the body shorter; while the small, close-fitting hat heightens the figure and broadens the face. The short, fat woman should choose a hat large enough to make her face look thin, yet not wide enough to shorten her figure. She should avoid brimless hats which broaden her face, and hats which chug down in the back too far, and thus call attention to the size and shortness of the neck. Tricorns look particularly well on this type, and rolled hats, and off-the-face brims are also becoming, if not too round. The short, thin girl looks best in the small, smart styles, with the up-and-coming lines and trimmings which increase her height and make her face softer and fuller.

Floral Trimmings

A quaint poke hat of brilliant red millan has a moire ribbon crown band in the same tone and a spreading fan arrangement of life-sized poppies placed over the upturned revers at the back of the crown and brim. A broad-brimmed hat of fine hair in deep and light mauve tones is trimmed with a single velvet poppy, very large and loose-petaled, and made of panne velvet shading from pale orchid to rich pansy purple. This is placed over the front of the crown.

RADIO

Wiring Diagram of the Two-Tube Reflex Receiver Will Aid in Proper Arrangement of the Apparatus.

By JAMES E. CARTIER,
in New York Herald-Tribune.

The construction of seemingly difficult multi-tube radio receivers seems to have been the stumbling block of many amateur builders. For this reason the home constructor has been inclined to build sets along simpler lines. Although a two-tube receiver does not seem capable of receiving signals like one of its bigger brothers it is surprising just what results may be obtained with such a set if properly constructed.

The Air Service two-tube reflex receiver employing the well known Harkness circuit seems to be one of reasonably simple design. The list of parts for the construction of this receiver is as follows:

- 7 by 12-inch panel.
 - 7 by 11-inch baseboard.
 - Two standard sockets.
 - Two audio-frequency transformers.
 - One rheostat (six ohm).
 - Battery switch.
 - Crystal detector.
 - Double circuit jack.
 - Single circuit jack.
 - Set of six binding posts.
 - Two .00037 mfd. condensers.
 - Two radio-frequency transformers.
- Of the above-mentioned parts the two radio-frequency transformers may be easily constructed by the handy radio builder, or may be bought in kit form ready to assemble.

Coil-Winding Data.

For the benefit of those who desire to construct their own radio-frequency transformers the data will be given

herein. The secondary of both of the coupling transformers is the first to be wound on the tube form. The secondary of the transformer coupled to the antenna circuit should have 60 turns of No. 24 wire, wound on a 2 1/2-inch form, and over this should be wrapped a sheet of insulating cloth or waxed paper. This serves as an insulator between the primary and secondary coils. The primary should consist of ten turns of the same size wire wound over the insulating cloth and in the same direction as the secondary. It is absolutely necessary that both coils be wound in the same direction if best results are to be had.

The primary of the second coupling transformer is slightly different in size. This transformer is wound on the same diameter tube and assumes the same physical proportions as the transformer just described, the chief difference being that the primary consists of 32 turns instead of 10.

In order to make it possible for the set to be mounted in as small a space as possible the coupling coils may be mounted directly on the back of the condensers with the secondary wires connected to the two terminals. The primary wires should be left disconnected until the set is to be wired. Then they may be connected to the respective places in the circuit.

The two transformers should be mounted at right angles to each other in order to minimize coupling between the two.

The drilling of the panel and the wiring of the set is no more difficult

than the ordinary simple regenerative receiver. The wiring diagram, as shown, will aid the constructor in the proper arrangement of the apparatus. Will Not Oscillate.

A particular advantage of this receiver is that it will neither oscillate nor radiate an interfering wave on the air. One of the tubes employed in the receiver acts as a radio-frequency amplifier and is reflexed so as it acts as a radio and audio-frequency amplifier at the same time, or in other words, does double duty. The detecting is accomplished by means of a simple crystal detector.

Such a simple receiver, although seemingly small in size, ought to be capable of receiving many stations, both local and distant with sufficient volume to operate a loud speaker.

Either loop or outdoor antenna may be used on such a reflex receiver, although the latter will give better results on distant stations.

Mounting the Apparatus.

The two variable condensers are mounted on the extreme ends of the panel with the rheostat and crystal detector in the middle. This arrangement allows the operator to control the set with ease, all controls being within easy reach.

When wiring the amplifier best results will be obtained by having the audio-frequency transformers placed at right angles to each other. This does away with the possibility of howling.

Particular care should be exercised in wiring the system. Make sure the

wires are as short and direct as possible. In no case should the grid wires come near a plate wire. If it is found necessary to cross grid and plate wires there should be at least an inch between them and in no case should they run parallel.

This circuit will operate equally well with any of the standard hard amplifying tubes now on the market. The 201A and 301A are particularly recommended. Best results should be obtained when using a plate voltage of about 90 volts.

The set has been found to have the quality of being quite selective. If a good grade of crystal detector is employed very little adjustment will be necessary.

Particular stress should be made on the point that the performance of the set depends largely on the wiring. Wires in the radio-frequency circuit, especially the plate and grid wires, should not be run parallel. If these points are observed the builder ought not to have any difficulty in making the set operate well under favorable conditions.

Contemplation

"I have heard that you contemplate retiring to private life."

"I do," answered Senator Sorghum; "the same as I contemplate going to heaven. It's a sweet and blissful prospect, but somehow you don't feel in any particular hurry about it."—Washington Star.

Very Sick

"My lawyer," said a European tenor, "he writes me that my contract is sick."

"Sick? How do you mean sick?"

"And the tenor pointed to the word 'invalid.'"

Better BUICK owners are Masters of the Road

Once you have driven the 75-horsepower, 75-mile-an-hour Better Buick;

Once you have wheeled it over some particularly tough hill—in high gear—gaining speed all the way;

Once you have observed the way it assumes the lead in traffic;

Once you have checked its economical gasoline consumption against your friends' cars—

Then you will realize that the Better Buick with its 75-horsepower Valve-in-Head engine gives you power—speed and inexpensive performance like no other car you have known.

The best way to discover how very much the Better Buick has added to the pleasure of driving is to drive a Better Buick. We have one waiting for you telephone call.

DAYTON ITEMS
(Mrs. Inez Billings, Reporter.)

A. Fredickson returned from Arizona Sunday.

Work on the Sullivan Refinery is progressing quite rapidly.

L. G. Randall, of Artesia was here visiting friends Monday.

Mr. and Mrs. W. E. Polk, of Cad- do, Texas, are but recently new residents here.

Chas. A. L. Gehrmaan and I. W. Billings made a business trip to Roswell Tuesday.

J. H. Skillin, of Salina, Kansas, is now local manager for the Big Jo Lumber Company.

Mr. Blocker, publisher for the Artesia Advocate, was a business caller in Dayton Saturday.

W. O. Sherrard, Jess Witcher and J. R. Kimbrough left on the 14th for Phoenix, Arizona.

The Procter Cafe located in their new building Saturday and will be prepared for business Monday.

A modern four room cottage was completed this week by Contractor Haworth for Mr. Charles Parks.

Contractor Haworth built an addition to the Summit Grill last week, in the form of a sleeping porch.

Joe Davis and James O'Neil are operating a dry cleaning establish- ment in a section of O. T. Hunt's barber shop.

The Illinois Pipe Line men have completed the six-inch pipe line into Dayton and are now preparing to three-inch line.

Earl C. Cleaveland returned from a business trip to El Paso Saturday. Theodore Carter accompanied him for a short visit.

William Scott and Earl C. Cleaveland went to Carlsbad Monday, where they will spend a few days attending business.

Verne De Autremont, manager of the Home Bakery and Grocery at Lakewood, was a dinner guest at the Summit Grill Sunday.

Mr. and Mrs. R. L. Shoop are now the proprietors of the Dayton Drug Store, having purchased stock and

The Alfalfa Festival September 23-24-25, Artesia.

fixtures therein from J. W. Hen- derson Monday, the 14th.

Two weeks more work will see the completion of the 55,000 barrel oil storage tank that is being built by the Illinois Pipe Line Company.

Mrs. T. M. Evans, arrived here from Clovis to join her husband, who is an employee of the Sullivan Re- finery Company. They are now oc- cupying one of the Kerr residences.

Bob George, left the first of the week for Bloomington, Indiana, where he will finish his high school education. He had an interest with Darling and Ullum in a garage and gasoline service station.

Mr. and Mrs. Charles Hall and Mr. and Mrs. Fulbrite, who accom- panied them, arrived here Thursday, the 10th, from Milwaukee, Wisconsin. Mrs. Ruby Hall is now employed in the Oil Flyer Cafe.

George Kuetter arrived Tuesday afternoon over the Santa Fe from Albuquerque. He expects a full new set of billiard room fixtures—bil- liard tables, cigar cases, etc.—to ar- rive in the next few days.

George W. Glasspool made a trip to Albuquerque last week and on his return Monday the truck he was driving broke down near Roswell and the Darling and Ullum "Chev- vie" was called to tow him home.

A regular banquet was celebrated Saturday night by the Tank Build- ers, at the Oil Flyer Cafe. A sumptu- ous chicken dinner and refresh- ments were served and the "tankies" most certainly had an enjoyable time.

C. S. Clarke and others, who are drilling a well eight miles south- west of here in section 12, twp. 19S range 24E., have resumed work af- ter a few days shut-down. Mr. Clarke is now on a business trip to Louisiana and other points.

A committee of Dayton represen- tative citizens are raising funds by popular subscription for road work on highway to oil field. A road crew will immediately start work and it is hoped to have the road in a passable condition within a few

Conditions Changed
He—You are very extravagant in your dress.
She—Before we were married any- thing that was for me you never thought extravagant, no matter how much it cost.
He—Huh! I never said what I thought then.

The Alfalfa Festival September 23-24-25, Artesia.

Word has been received that Mrs. Louis Shoop reached Houston, Texas safely, though she encountered quite a bit of rain and muddy roads in the trip there. Her husband, John Shoop, is one of the tank builders and stayed at home to continue his work.

LEGAL ADVERTISEMENTS

NOTICE

In the Probate Court of Eddy County, State of New Mexico

IN THE MATTER OF THE ESTATE OF JOHN POLLARD, Deceased.

Notice is hereby given that the undersigned was on the 19th day of August, 1925, appointed special administrator of the estate of John Pollard, deceased, by Honorable D. G. Grantham, Probate Judge of Eddy County, New Mexico.

Therefore all persons having claims against said estate are hereby notified to file the same with the County Clerk of Eddy County, New Mexico, within one year from the date of said appointment as provided by law, or the same will be barred.

C. E. MANN,
Administrator.

NOTICE OF MASTER'S SALE

SINCLAIR REFINING CO, a corporation, Plaintiff

Vs.
G. A. SHELTON and LIZZIE SHELTON, his wife, FIRST NATIONAL BANK OF HOPE, a corporation, ROBERT R. BARRETT, executor of the Estate of Edgar L. Barrett, deceased, E. F. GALLUP and M. J. GALLUP, his wife, and L. L. PRUDE, Defendants.

J. D. Bunting, intervenor.
No. 3938.
Whereas, an order was duly made and entered in the above entitled cause on the 4th day of May, 1925, by the judge of the District Court of Eddy County within the Fifth Judicial District foreclosing a certain mortgage given by the defendants, herein, covering the following described real estate:

Lots 10 and 12 in Block 2 of the town of Hope, upon which is situated the Shelton Garage, and Lot 8 in Block 5 of the said town of Hope, including all permanent fixtures and machinery in the said Garage, and which order directed me to make sale of the said property, as provided by law, for the purpose of satisfying and paying off the judgement rendered in said cause by said order, and which said order directed me, as special master appointed by the said order to pay off and satisfy the said judgement, or so much thereof as the proceeds of the said sale would pay off and satisfy, in the following order, to-wit:

First, the judgement rendered therein in favor of the intervenor, J. D. Bunting, in the sum of \$2957.28, principal and interest, and \$296.72 attorney fees and cost of this suit, \$16.00.

Second, the judgement rendered therein in favor of the plaintiff, Sinclair Refining Company, in the sum of \$1327.75 and interest \$301.30 and \$162.90 attorney fees.

Third, and for the further cost in carrying this sale into effect, including the advertisement and such master fees as the Court may allow.

Now, therefore, notice is hereby given that I will sell the said described property, or so much thereof as shall be necessary in satisfaction of said judgement, interest, attorney fees and the costs, aforesaid, on Monday, September 21st, 1925, at the First National Bank Building in the town of Hope, at the hour of 10 o'clock A. M. on said day, at public outcry to the highest and best bidder for cash, as the law provides in such cases.

Witness my hand this the 25th day of August, 1925.

JAMES W. STAGNER,
Special Master.

NOTICE FOR PUBLICATION

Department of the Interior, U. S. Land Office at Las Cruces, New Mexico, August 25, 1925.

NOTICE is hereby given that Isaac W. Floyd, of Dayton, who, on October 21st, 1920, made Homestead No. 048203, for W 1/2 Section 29, Township 20, Range 25, N. M. P. Meridian, has filed notice of intention to make Five year final proof, to establish claim to the land above described, before S. W. Gilbert, U. S. Commissioner, at Artesia, New Mexico, on the 9th day of October, 1925.

Claimant names as witnesses:
William J. Gushwa, of Dayton, New Mexico.

George L. Howell, of Dayton, New Mexico, John Fanning, of Dayton, New Mexico,

Grant Knepple, of Lakewood, New Mexico.

(SIGNED) NEMECIA ASCARATE,
Register.

NOTICE OF SUIT

In the District Court, County of Eddy, New Mexico.

JOE ANDERSON, Plaintiff,

Vs.
C. SHAPLAND, MINNIE A. SHAPLAND and MUSETTA WARE, Defendants.

No. 4122.
State of New Mexico To C. Shapland, Minnie A. Shapland and Musetta Ware, said defendants, greeting:

You and each of you are hereby notified that said plaintiff has filed a suit against you in said District Court, being No. 4122.

The object of said suit is to foreclose a mortgage, dated April 15, 1920, executed by defendants, C. Shapland and Minnie A. Shapland, his wife, to plaintiff for \$400.00 with ten per cent interest thereon from date, which mortgage was recorded in Book 20, Page 155 of mortgages, Eddy County, New Mexico, records, and conveyed Lot 13 in Section 1, Township 16 south, Range 25 east,

N. M. P. M., Eddy County, New Mexico, and to bar and foreclose all rights and equities of said defendants in said real estate and appurtenances, except the equity of redemption.

You are further notified that unless you enter your appearance in said cause on or before November 3rd, 1925, judgment will be rendered against you and each of you by default as prayed for in the complaint herein.

S. E. Ferree is the attorney for the plaintiff herein and his business address is Artesia, New Mexico.

Witness my hand and the seal of the District Court this 3rd day of September, 1925.

(SEAL) G. W. SHEPHERD,
County Clerk.

L. M. NELSON,
Deputy.

In the District Court of Eddy County, State of New Mexico.

CHESTER RUSSELL, Plaintiff

Vs.
GEORGE W. ROBERTS and, if dead, his heirs, JAMES S. BAKER, and, if dead, his heirs, and the STATE NATIONAL BANK OF ARTESIA, N. M. and, if not in existence, its successor if any, and any and all unknown claimants and their heirs, if any, adverse to the plaintiff in Lots 2 & 4 in Block 42 Artesia Improvement Company addition to the town of Artesia, Eddy County, New Mexico, defendants.

No. 4128.

The State of New Mexico to George W. Roberts and, if dead, his heirs, James S. Baker and, if dead, his heirs, and the State National Bank of Artesia, New Mexico and, if not in existence, its successor if any, and any and all unknown claimants of interest adverse to the plaintiff in Lots 2 and 4 Block 42 Artesia Improvement Company addition to the town of Artesia, Eddy County, New Mexico, defendants greeting:

You and each of you are hereby notified that the above entitled suit has been filed and is now pending against you and each of you in said Court and that unless you enter your appearance in such case on or before the 7th day of November, 1925, judgment by default will be rendered against you and the plaintiff will apply to the Court for the relief demanded in the complaint. The general object of said suit is to quiet the title of plaintiff in and to Lots 2 and 4 in Block 42 Artesia Improvement Company addition to the town of Artesia, New Mexico, against each and all of you to establish the fee simple estate of the plaintiff in said land against the adverse claims of each and all of you.

The plaintiff's attorney is G. U. McCrary and his postoffice address is Artesia, New Mexico.

Witness the hand of the Clerk of said Court and the seal thereof at Carlsbad, New Mexico, this 11th day of September 1925.

NOTICE OF MARSHAL'S SALE

Notice is hereby given, that under and by virtue of an ORDER OF SALE issued by the Hon. Orie L. Phillips, Judge of the United States District Court for the District of New Mexico, in that certain cause pending in said court, wherein the United States of America is plaintiff and LEE STEADMAN is defendant, same being No. 3173 on the Criminal Docket of said court, in which said order it is provided, among other things, that the United States Marshal for the District of New Mexico be, and hereby is, ordered and directed, to sell the said

automobile at public auction, to the highest and best bidder for cash, after having notice of such sale by publication in ARTESIA ADVOCATE, at Artesia, New Mexico, once a week for two successive weeks, the last for two successive weeks, the last for five days before the date of sale; therefore, as herein directed, I, Secundino Romero, United States Marshal for the District of New Mexico, will, on the 7th day of October, 1925, at the hour of Two O'clock P. M. offer for sale at public auction, and sell to the highest and best bidder for cash, at the front door of the Artesia Motor Company, Artesia, New Mexico, One Ford Car, Serial No. 167825, Motor No. 8460923, Model 1924.

SECUNDINO ROMERO,
United States Marshal,
By A. L. MORRISON,
Chief Deputy.

9-17-25

NOTICE OF THE SALE OF REAL ESTATE AND PERSONAL PROPERTY OF THE ESTATE OF NOLEY POWELL, DECEASED.

In the District Court of Eddy County, New Mexico.

NELLIE POWELL, Administratrix, of the Estate of Noley Powell, Deceased, Petitioner.

Vs.
IDA TEEL, NINA DUNN, HERMAN POWELL, RUE POWELL, ALLENE POWELL, RAY NELL POWELL and NELLIE POWELL, Defendants.

No. 3860.

Notice is hereby given that pursuant to a Decree and Order of sale in the above entitled matter, made by the Judge of the District Court of Eddy County, New Mexico, on the 13th day of March, 1925, in which Decree and Order, I was appointed Special Master to sell the hereinafter described real estate and personal property, I shall expose for sale and sell at public auction to the highest bidder for cash at the Front Door of what is known as the Powell Black-Smith Shop in the Town of Hope, Eddy County, New Mexico, on Saturday the 17th day of October, 1925, at the hour of 10 o'clock in the forenoon of that day, all the right, title, interest and claim of the Estate of Noley Powell, Deceased, and all the interest of the heirs of said Estate, being the Defendants, Ida Teel, Nina Dunn, Herman Powell, Rue Powell, Allene Powell, Ray Nell Powell and Nellie Powell, widow of Noley Powell, Deceased, and each of them, in and to the following described property, situated in the Town of Hope, Eddy County, New Mexico, and more particularly described as Lot 7 in Block 1 of the Original Town of Hope, New Mexico, and the improvements thereon and all the tools and equipment belonging to or connected with the Black-Smith Shop, located on the above described lot.

That said sale will be made for the purpose of paying the indebtedness of the Estate of the said Noley Powell, especially the mortgage indebtedness against said property, amounting to \$612.63, with interest thereon at the rate of 10% per annum from the 13th day of March, 1925.

Given under my hand as such Special Master, on this the 15th day of September, 1925.

N. L. JOHNSON,
Special Master.

Firestone
Tire Prices Are Lower
CRUDE RUBBER HIGHEST IN YEAR
Buy Now and Save Money!

The unprecedented demand for Firestone quality and mileage has more than doubled the sales of Gum-Dipped Cords to car owners so far this year, enabling us—because of this tremendous volume—to keep prices low.

Experienced car owners insist on tires that deliver the greatest mileage at the lowest cost per mile, because such tires last longer—make the restricted rubber supply go further—reduce crude rubber costs—and help maintain the present low tire prices.

Gum-Dipping, the  **Most Miles Per Dollar**

Firestone extra process, is also one of the biggest and most important economy factors in tire performance. This method of treating cord fabric, developed by Firestone tire chemists and engineers, insulates every fiber of every cord with rubber, and gives the sidewalls the extra strength to withstand the extra flexing strain—insuring maximum safety, comfort and economy.

Buy now—make sure of economical transportation by obtaining these outstanding Firestone superiorities at present low prices.

AMERICANS SHOULD PRODUCE THEIR OWN RUBBER...

DOME WELL NO 2 MAKES SPECTACULAR FIRE FRI. NIGHT---LOSS IS HEAVY

The most spectacular fire ever witnessed in the oil field, occurred Friday night when the Dome No. 2, a recent completion, blazed up as oil shot over the derrick and high in the air. This well had been shot Thursday and as the cleaning out process was under way, the well in some manner caught fire. No explanation has ever been made as to the origin of the fire, which is apparently unknown.

The flames which soon consumed the derrick, soon spread to a 250 barrel storage tank nearby, and rapidly burned the tank full of crude. The well burned for a time uncontrolled, but was finally extinguished after the control head was shut.

Despite the fact that the blaze consumed probably much of the oil which was thrown out in heads, it is understood that over 408 barrels of oil was saved during the night. The operators sustained the heaviest loss in not being able to clean out the well, as un-official estimates place the production of the well ahead of any other completion ever made in the field. The flush production lost is therefore considered the most serious one, although several hundred dollars worth of crude burned besides the derrick and machinery, which is valued around \$5000.00 or \$6000.00.

THREE EXTENSIONS TO FIELD

(Continued from page one)

showing of both oil and gas was found.

A deep test of the Mesa well, in Sec. 4-19-28, may be made, although two favorable sands have been found. The top sand was struck at 2018 and the second sand was topped at 2082 feet. It depends on the developments of this well within the next few days as to whether the two sands struck will be shot or whether the hole will be deepened.

Of the producers completed for the week, the Dome No. 2, in Sec. 21-18-28, is easily the outstanding completion for the week. Shot with 140 quarts of nitro in the 33 feet of sand encountered the well responded, flowing a solid stream of oil over the mast for ten minutes and then making three heavy flows in the first one and one-half hours. It is reported making heads from 40 to 60 minutes. It had made 450 barrels in twelve hours previous to the fire, which destroyed the derrick, a large amount of oil and a storage tank. The burning of the rig has hindered the cleaning out process, although another rig has been erected over the hole.

Following closely behind the Dome No. 2, in the amount of production, Snowden-McSweeney, McNutt No. 6, 500 feet west of No. 4, was shot Tuesday with 140 quarts of the American Glycerin Co., in the second sand found from 2068 to 2099. The well made 45 barrels of oil the first 20 minutes. Friday the top pay will be shot from 1886 to 1899.

Maljamar No. 9, 530 feet west of well No. 5, was shot Monday by the Mendenhall Torpedo Co., with 70 quarts of nitro from 2023 to 2052 and is reported making 300 barrels flush production. So far the well has proved better than expected.

The Ohio Oil Co., Gilliland No. 2, was shot Friday, but no report is available as to the amount of production. Ohio Toomie Allen No. 2, 500 feet east of well No. 1, have completed the hole and are awaiting shot. The Ohio Toomie Allen No. 4, has 1200 feet of oil in the hole after striking sand from 2066 to 2078 and 2084 to 2092.

OLD LAND MARK TORN DOWN

(Continued from page one)

Plans have been made by Cunningham Brothers to erect three modern business buildings near the site of the old adobe. Each building will be 20 feet wide by 40 feet long and will face the east, occupying the space between the rear of the barber shop and the south alley. The buildings will either be constructed of adobe or stucco and will be of a substantial character with a modern front well lighted.

It is understood that the owners plan to start on the buildings soon, but the exact date was not learned.

Woodstock typewriters for sale—Advocate Office.

FOURTH CUTTING OF HAY

Much of the fourth cutting of alfalfa hay is now being marketed. Choice hay was bringing \$21.00 per ton, grade No. 1, \$19.00, standard \$17.00, grade No. 2, \$15.00.

D. H. Hedspeith, one of the most successful tomato growers of the Valley, has started marketing his crop this year. He is experimenting with a new variety, which produces some of the largest fruit we have ever seen. They are not only large, but even and well matured. He left the Advocate a sample of each variety grown and we can testify to their goodness.

Items of Social Interest In and Around Artesia

WOMAN'S CLUB MEETING

There was a called meeting of the Woman's Club in the I. O. O. F. hall yesterday afternoon for the transaction of special business. Delegates were elected to the meeting of the State Federation in Santa Fe early next month. They were Mrs. F. G. Hartell and Mrs. Frank Hightower, delegates and Mrs. Jeff Whitson and Mrs. S. W. Gilbert, alternates. Mrs. M. A. Corbin was elected musical delegate to represent the Artesia club at the state concert always given during the convention.

Plans were also made for assisting with the Woman's department of the Alfalfa Festival. The various departments of the club will have charge of the different departments in the Woman's exhibit and ask the co-operation of the ladies of the town in making this exhibit a success. Any information as to articles will be gratefully received.

Curio Exhibit—Mrs. Earl Bigler.
Pictures and China—Mrs. J. B. Atkeson.

Rest Room—Mrs. M. P. Skeen.
Flowers—Mrs. M. A. Corbin.
Fancy Work—Mrs. S. S. Ward.

RECEPTION FOR TEACHERS

The Parent Teachers' Association will give a reception for the teachers at the Baptist church tomorrow evening at eight o'clock. All patrons and others interested in the schools are cordially invited to attend. There will be a musical program and a good social time. Come out and show your interest in the schools.

LEAGUE SOCIAL

The Epworth League gave a watermelon social at the church last Friday evening. The social was given in honor of the members, who were leaving for college, and also for the new young people who have lately been in attendance. Several games, directed by Dr. Ruby Morton, added much to the pleasure of the evening.

REBEKAHS TO CELEBRATE ITS 74TH ANNIVERSARY

The Rebekah Lodge is planning to celebrate its 74th anniversary next Monday evening with an entertainment in the lodge room. A short session of lodge will be held and the remainder of the evening devoted to the entertainment. All lodge members and their families are urged to be present.

LEGION AUXILIARY CONVENTION MEETS

The Department Convention of the American Legion Auxiliary was held in the Chaves county court house in Roswell last Tuesday and Wednesday. Delegates from the various Auxiliaries over the state were present, making the convention a very interesting one. The delegates were most royally entertained by the Roswell Chapter, which besides taking the guests into their homes, arranged receptions, drives, and a picnic supper at the Country Club in their honor.

Mrs. Haymaker, who has so successfully served the organization as its president during the past year was re-elected to the office. Mrs. McCullough, of Roswell, was elected state secretary, Mrs. Shuffelberger of Albuquerque, first vice president, Mrs. Isaacks, of Las Cruces, second vice president, Mrs. Albert Richards, of Artesia, treasurer, Mrs. Gerhardt, of Tucumcari, chaplain, Mrs. Kelly, of Tucumcari, sergeant at arms, Mrs. Stafford, of Grenville, historian.

Mesdames Richards, Frank Linell, Sid Cox, Ralph Rogers and H. A. Stroup, represented the Artesia Unit throughout the convention, and Mrs. G. B. Dungen and Mrs. Lydia Widney, members of this Unit, were visitors to the Convention on Wednesday.

NOTICE REBEKAHS

Since we observe our 74th Anniversary of the Rebekah Lodge Monday night September 21st, lodge will open at 7 p. m. instead of 8 p. m.

S. S. CLASS PARTY

The Methodist Sunday school class, taught by Mrs. Walker, held its regular monthly party at the home of Mrs. Ike Keller on Tuesday afternoon. There was a good attendance of members, who enjoyed a quiet social time after the business session was over. The hostess was assisted by Mrs. Grover Kinder in serving a salad course. The ladies present were Mesdames Walker, Gage, Leon Meeks, Shultz, McDade, Cal Beckett, Hartell, Reed Brainard, Price, Eastman, Kerns, Ralph Rogers, Ray Blocker, Kinder and the hostess.

BABY CLINIC

Miss Edith Clement, county health nurse, reports a very successful baby clinic last Friday afternoon. Twelve babies were examined by the nurse and Dr. Vaughn, county physician, who was also present. Mrs. I. C. Dixon and Mrs. Howard Gissler were attendants for the afternoon. On Friday morning Miss Clement ex-

NEW TRANSMISSION LINE WILL MEAN MUCH TO THIS COMMUNITY

The act last week, at Roswell, of turning on the electric power which connects Artesia and Roswell was something that the average citizen does not appreciate. We, of this city, have been accustomed to having lights and power sometimes good, sometimes bad, sometimes indifferent. Now with the new high line we may expect not perfection, but the highest efficiency possible. If you will glance over the old rates under former ownership you will find an appreciable difference. This has been made on account of new blood injected into the arteries of the community, by extensive improvements of the plant at Roswell, linking up the towns between, thereby serving many more customers, in this way increasing the volume of business, thus giving to those interested not only good service, but a rate that was not possible under the old regime. To those not conversant with the building of these transmission lines, it is impossible to give an estimate of the work and difficulties encountered by those who put over the construction and final finish of the undertaking. Too much credit cannot be given to Mr. C. M. Einhart, president of the Southwestern Public Service Co., to Mr. Frank Schram, general manager of the Pecos Valley properties, and those assisting, for their untiring efforts in the matter.

This is not a local condition but is of interest to the whole Valley. What benefits one part of the Valley benefits all, and it will be the means of bringing in more people, the establishing of more industries and a helpfulness to those who have waited for this electrical transformation. There need be no fear that the work of the company will cease with the completion and operation of these lines, but we may look for any added improvements that may be needed to furnish electric power. With ample capital back of them, with a deep interest in the welfare of the community in which those who have charge of the company live, we may expect greater efforts on their part in the future.

ARTESIA MUNICIPAL BAND AND ORCHESTRA TO GO TO CARLSBAD

The Artesia Municipal Band and Orchestra will leave tomorrow afternoon for Carlsbad, where they will appear in a public concert to be given on the court house lawn. The entire membership from both the band and orchestra will make the trip. A free supper will be served the organization by the citizens of Carlsbad, according to an announcement made by director C. W. Bartlett, who stated that probably arrangements would be made to have the Carlsbad band in Artesia during one day of the festival.

DANCE

Dances at the Silver Moon Dance Pavilion Tuesday, Thursday and Saturday. Music by "Doc Watson's" orchestra. A good time guaranteed.

EASTERN STAR PICNIC

An annual event, in the Eastern Star lodge, which affords much pleasure, is the picnic held every fall. This picnic occurred in the city park last Monday evening and to it were invited not only the families of the members, but other Stars and Masons, new in the community. The occasion afforded a good opportunity to meet the new people and make them feel at home in our midst.

And the socialability and comradeship that prevailed were indeed gratifying. A number of lively games gave zest to the occasion and the sedate members were scarcely recognized spinning around in the "Flying Dutchman" and "Three Deep." The splendid picnic supper, served cafeteria style, met with hearty approval, and especially the angel food cake which graced one of the tables in honor of the birthday anniversary of Mr. Perry, manager of the Illinois Pipe Line, who has lately come to live among us.

SURPRISE BIRTHDAY PARTY

Mrs. Grover Kinder invited a few of their friends in Tuesday evening to celebrate her husband's birthday anniversary. A splendid cake surrounded by (we can't say how many) candles was served with ice cream and the evening passed very pleasantly in visiting. Little Rachel Swift, whose birthday occurred the same day, also had a birthday cake shared with the children of the Filbert, Katherine, Zana and Natalie the grown-ups, who helped Mr. Kinder celebrate were Messrs. and Mesdames Ike Keller, Elzie Swift, Virgil Wells, and Howell Gage.

LAWN PARTY

Mrs. Mary Abbott entertained a number of friends Tuesday evening at a lawn party. After a delightful picnic supper the remainder of the evening was spent in playing Forty-two. Those present were Mr. and Mrs. Hammond, Mr. and Mrs. Leon Meeks, Mr. and Mrs. Eaton, Miss Gladys Cowan, Mrs. E. W. Solomon, Dr. Ruby Morton, Lloyd Cowan, Mr. Whipple and Mr. Ellis.

Our Schools

The school board passed a ruling recently that children who are six years old or before November 1st, might attend school provided they enter by Monday, September 21st and provided also that the total enrollment in the first grade does not exceed 100 pupils.

J. T. REID, Supt.

ORANGE AND BLACK

The senior class held a meeting last week to organize their class for the coming year. Robert Feemster was elected president, Elizabeth Adams, vice-president and Cecil McClean, secretary and treasurer. Miss Russell, who faithfully sponsored them through their sophomore and junior years, was again chosen as sponsor.

The High School Orchestra has been re-organized by Miss Raguse. It has played at the school opening and has been praised highly for its excellence. Last Sunday it played three numbers at the Baptist church. These numbers were very difficult but were played unusually well. New members are joining the orchestra and it now consists of twelve pieces.

Football practice is coming along at first rate speed. A large number of boys are practicing faithfully and regularly every afternoon. Mr. Krause is proving to be an excellent coach and every day he unfolds new secrets in football lore.

New football suits are being proudly displayed by some of the boys and prospects are bright for our school colors, orange and black, to come out on top this year.

Several good games are being scheduled for the football season. This year the match game will be played on the new football field recently made on the vacant lot on West Main and Tenth streets. This field is better than the high school grid-iron and it will be more convenient for the town people to come to the games.

Mr. Green, representative of the Star engraving company, was at high school Monday and Tuesday displaying a beautiful array of class rings and pins to the seniors.

The boys' and girls' glee clubs have been re-organized by Miss Raguse. Both glee clubs are much larger than they were last year and it seems as if this is going to be Music Year for A. H. S. The glee club periods have been used for voice testing this week but regular work will soon start.

The second year class in Home Economics, under the supervision of Miss Morgan, is serving lunches to the students and faculty every day. They will continue to serve these lunches unless the demand for them ceases. These lunches are being served at cost so there is no chance for a large profit to be made by the Home Economics department. They should be very convenient for the out of town pupils and for the ones who do not care to go home for lunch.

Several members of the A. H. S. Alumni were visitors at high school this week. They were: Eula Bee Clayton, Bud Stodt, Vera Madge Eaton, Bertha Richards, Helen Bullock, Bennie Kaiser and Elwood Kaiser.

Two new teachers, Miss Elizabeth Hogue, of Carlsbad and Miss Hazel Morris, have been employed. Miss Morris has taught two years in our schools and she is welcomed back by the new and former pupils, especially the junior class of this year, which was sponsored by her when they were in the eighth grade. She will teach in Junior high. Miss Hogue will have primary work.

Woodstock typewriters for sale—Advocate Office.

COTTON GINNINGS

The two Artesia cotton gins had a total of 82 bales at noon today. The season was started Saturday by the Alfalfa Association, but the Larsh gin, which has recently installed a new plant, was late in getting under way, due to delays in testing out the new machinery, however, they are working full time now. The Lake Arthur gin started work this morning and had ginned two bales at the last report. While cotton has been a little slow in opening up, it is hoped that the gins will be working full time by the close of the week.

Very little of this season's cotton has yet been offered on the market. The price was ranging from 25.25 to 26.00 today with an upward tendency.

SHOWING ALL STYLES

The dry goods department of the Peoples Mercantile Co., have on display a large assortment of the latest fall styles in both ladies and mens ready to wear. If you are anxious to see what the new fall styles are like, you are invited to pay this store a visit.

The Alfalfa Festival September 23-24-25, Artesia.

DOVER PHILLIPS APPOINTED DISTRICT ATTORNEY

A wire was received here Tuesday by Dr. F. F. Doepp from Governor Hannett stating that Dover Phillips had been appointed to succeed Dillard Wyatt in the office of District Attorney.

The announcement was received with great satisfaction by the many friends of Mr. Phillips, who fully appreciated his position in not being an avowed candidate for the office made vacant by the death of his friend and co-worker. Mr. Phillips is already familiar with the affairs of the district attorney's office, he having served as assistant under Mr. Wyatt, who has made enviable records in their fight for law enforcement in the Fifth Judicial District.

The new appointee is a young lawyer of splendid attainments who will fill the office with ability and an eye to the best interests of the people of the district.—Carlsbad Current.

SELLERS INJURED

While installing the plumbing and heating fixtures in an apartment house at Artesia last Thursday, Elmer Sellers met with an accident which in all probability will cost him the loss of both eyes. Sellers was attempting in soldering some pipes for the Roswell Plumbing and Heating Company when he tripped on a loose board in the temporary floor of the building and fell, splashing hot metal into both eyes. He was rushed to St. Mary's Hospital in Roswell where all possible care has been given him but it is doubtful whether they will be able to save his eyesight.

M. R. Jones has the thanks of the Advocate force for a delicious bucket of new honey.
