The Advocate now goes into practically every state in the Union

## ROSWELL CAR STOLEN OCT. 8TH LOCATED AT OIL CITY FRIDAY NIGHT

### The Officers Obtain a Confession Which Leads to Discovery of Buried Engine and Two Arrests Are Made.

Those who enjoy reading stories, which smack of mystery, will no doubt find the latest car stealing episode, which had its beginning in Roswell and ending in Oil City, a bit interesting.

On the night of October the 8th, R. A. Cannon, who was formerly connected with the Oil City Casing Crew, is alleged to have stolen a car out of Roswell. Later developments reveal that the car was taken to Oil City, where it is alleged a man by the name of Leo Daugherty pulled the engine from the Roswell car and the engine, which was in the Cannon car changed to the Roswell auto. The engine formerly in the Roswell car was then taken about a mile and a half north of Oil City and buried in dog fashion by Cannon and Daugherty.

Local officers here, had suspected several parties but no definite clew was obtained until a visit to Oil City by Deputy Sheriff M. Stevenson, Officer Lang and T. A. Steffian, Friday night. Practically all night was spent in search, which from all appearances looked futile. Later Daugherty was brought to Artesia and after a severe grueling by the officers, confessed the part he played in the theft and gave out information, which enabled the officers to locate the buried engine. Daugherty and Jack Smith was returned to Artesia and later taken to Roswell where they were placed in jail to await action of the grand jury. Cannon apparently has made good his escape, as no trace as to his whereabouts have yet been found.

It is understood three autos now being held by the officers, were involved in the changing of various parts, but details about the third car is not known at this time.

## BRINGS TWENTY BALES TO GIN ONE DAY

When it comes to bringing in the largest number of bales of cotton to the gin in one day, Jesse Funk of the Cottonwood community has the record. Monday of this week Mr. Funk's force brought twenty bales to the gin. One truck with a trailer hauled four of the bales, which is not a bad record itself.

## THE COTTON GINNINGS TOTAL 4063 BALES UP TO WEDNESDAY NOON

The largest gain in the season was shown in the ginning report of the past week. All of the cotton which will be picked this season is now opened. Several white cotton patches still dot the Valley, although extremely good headway was made last week. 4063 bales represent the total ginnings up to Wednesday noon, according to figures submitted by Wm. Baskin, which include the Artesia section and as far north as Hagerman.

Alfalfa Association	1,580
Larsh Gin, Artesia	1,048
Lake Arthur Gin	460
Hagerman Gin	975
Total	4,063

## SCOUT OUTING

The Boy Scouts with their scoutmaster, Mr. A. L. Allinger, and assistant scoutmaster, Jim Stagner, went out to the Ryerson place (the old Field's place) Friday evening and camped out for the night. After a hearty supper cooked by themselves they sat around the camp fire and amused themselves with songs and games until bedtime. These open air stunts never lose their attraction for youth and the boys had a glorious time.

## N. M. TOTAL PIPE LINE RUNS

	Oct. 17	Oct. 10
Artesia	4,200	3,900
Rattlesnake	300	275
Hogback	575	560
Totals in New Mexico	5,075	4,735

## THE SCHUMANN-HEINK CONCERT AT ROSWELL

A number of people from Artesia plan to attend the concert of Madame Schumann-Heink at Roswell tonight.

Christmas Cards at the Advocate

## 14TH ANNUAL MEET M. E. MISSIONARY SOCIETY HERE THURS. ARTESIA "BULL DOGS" DEFEATED BY ROSWELL FRIDAY SCORE 56 TO 0

### Methodists Provide Entertainment for Numbers of Visitors—Mrs. F. E. Little, President of Carlsbad, Presides.

The fourteenth annual convention of the Methodist Missionary societies of the Roswell District of the M. E. Church South, was held in the church here last Thursday. Mrs. Little, of Carlsbad, district secretary, and holding the highest office in the organization, presided. The only state officer present was Mrs. Randals, of Pecos, who is treasurer of the state organization. Rev. Cochran, presiding elder of the Roswell district, was present and talked upon the "Plan of Unification." The new pastor of the church, Rev. Higbee, also talked upon the "Help the Pastor Expects from the Missionary Society."

Music for the meeting was provided by Mrs. Ralph Rogers, who sang a soprano solo, Mrs. Lester Hinrichsen, who gave a violin solo, and the girls of the Junior Missionary Society, who favored the audience with a song. In addition the convention was very pleasantly entertained with music by members of the choir of the Roswell church, who sang several numbers.

Very helpful talks were given by a number of the ladies and the reports of the various organizations were interesting and an inspiration to greater efforts for the cause. (Continued on last page, column 1)

Keep up with the oil news, a few extra copies of the Advocate for August, September and October, now available as long as they last. 40 cents will buy these numbers. Send your order today to Artesia Advocate, Artesia, N. M.

## COLD WAVE HITS HERE FROM NORTH'RN AREA—SNOW IN DENVER

Artesia is shivering today in the coldest spell of the season, which struck here Tuesday night after traveling southward across the Rocky Mountain states. Montana reports the coldest weather of the season with temperatures ranging below zero in many places. Radio reports from Denver state that they are experienced the coldest spell for the season in seventeen years. Snow is also reported falling in Denver. The extent of damage done by today's cold spell has not been determined, but it will in all probability kill all of the grass and weeds on the ranges.

### Attacks of the Heavy Roswell Team Proves too Much for Artesia—Bull Dogs Will Go To Tularosa Saturday.

"Too much Johnson," describes the defeat of the Artesia Bull Dogs on the local grounds here when they met the Roswell High School team Friday afternoon.

Running behind almost perfect interference, the far heavier and more experienced Roswell team defeated the lighter Artesia team by a score of 56 to 0. Artesia made a good start on the opening of the game, but did not maintain the pace set by Conner, flashy back. Costly fumbles by the Artesia boys counted for several of the visitors touchdowns. Artesia resorted almost entirely to the aerial game, but which proved ineffective against the wide-awake Roswell backs. Conner made several sensational runs and twice put the pigskin within scoring distance, one of the longest runs of the game was made by Conner just before the close of the first half.

Captain Joe Johnson, of Roswell was the outstanding star of the game, scoring six of his team's touchdowns. Forward passing by both teams was ineffective.

Saturday the Artesia team will journey to Tularosa for a return game of the season. The game with Roswell Friday was the second de- (Continued on last page, column 2)

## SOUTHWEST'RN HOMES ORGANIZE A BRANCH OFFICE IN ARTESIA

The Southwestern Homes Inc., with headquarters at Albuquerque is a new concern to enter the building and construction field at Artesia. L. T. Thirley, a former resident of Albuquerque, who located in Artesia sometime ago will have charge of the local management of the concern, which will specialize in building and selling homes. Those who are contemplating the building of a new home, will do well to investigate the proposition offered.

J. M. Gladding, of Albuquerque, architect for the Southwestern Homes Inc., was here Monday and completed final plans for operation. See their announcement in this issue.

## DOINGS OF DISTRICT COURT AT CARLSBAD AT THE PRESENT TERM

### Many Liquor Cases Are Disposed of—Number of Civil Matters Were Also Heard by the Court at This Term.

Two \$500 bonds were forfeited in liquor cases. Bonds of this amount was forfeited in transporting case against Ben Clore, his sureties being G. L. O'Neal and J. H. Baker. In transporting case against Juan Lujan, a similar bond was forfeited, the sureties being Juan Valdez, Benseled Rodriguez, Crescencio Lopez, Catarino Gomez, Pedro Estrada.

Jose Mendoza was found not guilty of larceny, being charged with burning a house in the Mexican quarter.

J. R. Holcomb pleaded guilty to sale and possession charge.

M. B. Thompson was found guilty by jury, of sale of intoxicants.

I. M. Allisip changed not guilty plea to guilty on charges of possession, manufacturing and transporting.

W. W. Enoch entered not guilty plea to perjury charge, growing out of Kemper liquor case last week.

Frank Winton found guilty by jury of possession, clemency being recommended.

Pedro Mejia was found guilty of selling liquor to a minor.

J. B. Henderson and John Foster entered pleas of guilty to possession, sale and transporting.

Civil matters heard included the following: First National Bank, judgment to plaintiff, with property division. Carlsbad Cattle Loan Co. was authorized to pay dividend of three per cent, upon showing by receiver, G. H. Sellmeyer that funds were available for such. Judgment set aside E. C. Higgins vs. J. T. Cauphope; in re assets First National Bank, settlement compromise authorized indebtedness of A. G. Rushing to this bank. Two civil cases dismissed without prejudice were; N. C. Hartel vs. A. F. Frier et als and Artesia Alfalfa Growers Association vs. J. D. Dixon et als.—Current.

## HALLOWEEN DANCE AT SILVER MOON PAVILION

The Hallowe'en dance, which will be given Saturday night at the Silver Moon Dance Pavilion, is expected to be one of the leading social functions of the week. Extensive preparations are being made by the management to take care of a large crowd.

## PAUL HEDRICK, OIL EDITOR OF THE TULSA WORLD VISITS FIELD

After an extensive tour of the Artesia oil field and the surrounding country, Paul Hedrick, oil editor of the Tulsa Daily World expressed the opinion that the field was destined to be one of the most consistent producing areas in the country. Mr. Hedrick who came as the guest of the Oil Men's Club, was met at Roswell by V. H. McNutt, M. Baish and "Bill" McGinn, the party spending Saturday and Sunday touring the field, obtaining information, taking pictures and getting samples of sand.

On Monday the party visited the Carlsbad Caverns and the territory to the south. Mr. Hedrick is one of the foremost writers in the country on oil and formerly worked on several Albuquerque newspapers.

## VISITORS AT ROTARY LUNCHEON TUESDAY

Rev. Johnson, of Ranger, Texas, who is conducting a revival meeting at the Baptist church, Will Lawrence, of Roswell, Kora Meacham, of Albuquerque, Mrs. F. G. Hartell, of Artesia and Rev. Woodruff, of San Jose, New Mexico, were visitors at the Rotary Luncheon Tuesday.

## GET YOUR NAME ON THE DOTTED LINE

Officers of the Chamber of Commerce, at a recent meeting voted to continue the local publicity campaign for another six months. Dr. Clarke and members of the publicity committee are now engaged in having the fund to carry on this work underwritten. We believe it to be the civic duty of the business people of this city to give their financial assistance in this work. Do your part, get your name on the dotted line and keep Artesia in her place, as the best advertised city in New Mexico.

## Artesia Now Has Number of Residences Under Way

### The Present Building Campaign Expected to Greatly Improve Housing Facilities of the Town and More Houses Needed.

The two new adobe duplex apartment houses of Mrs. Martin Yates are practically completed and are a distinct addition to the town. Each apartment consists of a large living room, a kitchen with breakfast nook, bedroom and bath, hall, closets and cellar. There is a fireplace in each living room, hardwood floors and perhaps, best of all, the apartments are electrically heated, and are nicely furnished by the owner. When entirely completed the buildings will have a stucco finish and typically Spanish entrance to the hall. Between the two buildings it is planned to have a patio, or court, which will be seeded to grass and planted with flowers, next spring. These very desirable apartments (Continued on last page, column 2)

## POST OFFICE DEPT. WANTS LARGER SPACE FOR ARTESIA OFFICE

The post office department is this week advertising for larger post office. It has been known for some time that the office room would likely be enlarged, due to the enormous increase in business, but no definite steps were taken by the department until the past week. A few bids have been submitted by owners of buildings, but it is not known at this time whether any bid submitted will be accepted.

## SPECIAL MEETING OF CHAMBER OF COMMERCE

There will be a special meeting of the Chamber of Commerce Monday evening at 8:00 p. m. All members urged to be present. Don't forget the date.

## OILWORKER SEVERELY INJURED BY 20 FOOT FALL FROM A DERRICK

W. E. Taylor, who is with the Pueblo Oil Co., received painful injuries Friday afternoon, when he fell twenty feet from the derrick. Two broken bones of the right hand, two broken ribs and a broken leg was the result of the fall. He received medical attention from Dr. R. K. Hoover.

## 300 SCHOOL CHILDREN TO APPEAR IN GOLDEN WHISTLE AT CITY PARK

The public will have an opportunity to witness the season's first operetta, "The Golden Whistle," to be presented at the City Park Sun- afternoon, November 1st, at 3:30. Three hundred school children will appear in the play, which promises to be one of the most gorgeous and most spectacular plays ever presented in this section. The operetta will be staged under the direction of Miss Raguse, music and art supervisor of the Artesia schools, who directed a number of delightful operettas last season.

The Central school children, grades one to four, will stage the play. Beautiful costumes, representing the various characters may be seen from time to time. The three hundred characters are sure to please the public in a hunt for the lost golden whistle.

- The cast of characters follow:
- Buffo—Jessie Paris
  - The Little Old Woman—Evelyn Cobble
  - Elves—Fourth Grade
  - Cardinals—Two Fourth Grade Boys
  - Robin Red Breast—Frank Old
  - Wild Roses—Second Grade
  - Butterflies—Third Grade
  - Fairy Queen—Elizabeth Gage
  - Attendants to Fairy Queen—Fifth Year Girls
  - White Robert—John Donahue
  - Pianoist—Helen Wortman
  - Director—Miss Raguse

### SAY, DID YOU KNOW THIS ABOUT EGGS?

The 1924 chicken egg crop, placed end to end, would reach 838,754 miles, or three times from the earth to the moon, with enough left over to circle three times around the earth and seven times around the moon, is the startling deduction from statistics compiled by the U. S. Department of Agriculture, says E. E. Anderson of the New Mexico A. & M. College.

If all these eggs were sent to the market in standard sized cases and 400 cases to the car, it would take 164,923 cars, and would form a train 1,242 miles long, which would reach from San Antonio, Texas, to Chicago.

At one and one-half pounds per dozen these eggs would weigh 1,476, 207 tons.

If the 678,300,000 chickens raised in 1924 were formed in single file, with one foot of space for each, they would reach more than five times around the earth at the equator.

The total number of poultry on farms January 1, 1925, was 442,800,000, with a value of \$349,006,000. Assuming three square feet of floor space were required for each chicken, a chicken house 20 feet wide would have to be 12,130 miles long, of four times the distance across the United States, in order to house them all. Given only one ounce of grain feed each per day, the yearly feed would amount to 4,870,195 tons.

Compared with farm values of other products, the farm value of the total poultry products is one-sixth as much as all animal products; nearly one-fifth that of all cereals produced; one-third the value of the corn crop; about four-fifths that of the wheat crop; greater than that of the oats raised; nine times the value of barley; over one-half the value of the cotton crop; over four times that of the apple crop; over one and one-half the value of all fruits produced; more than half as great as the value of all hay and forage; nearly three times the value of the potato crop; nearly as large as the value of all vegetables produced; greater than all cattle raised in 1924; nearly as great as the swine raised; eight times the value of all horses raised; six and one-half times the sheep raised; about two-fifths the value of all dairy products; and 11 times greater than the value of the 1924 wool clip.

However, farmers of New Mexico, don't quit raising chickens. At the present time New Mexico consumes almost twice as much poultry and poultry products as is produced in the state.

### "FREE RUSSIA" DOES IT

Few Americans are disturbed at the exclusion of Mr. Saklatvala from our shores. That gentleman has one profession in life, to which he subordinates everything else, and that is the destruction of the British Empire. Enjoying the liberty with which civilization endows him, he has been elected to the British House of Commons for the better housing of his object. He was also made a member of the Interparliamentary Union and chosen as a delegate to the United States, whereupon British co-delegates with him resigned, and the United States withdrew its visa of his passport. The friends of the Revolution in this country, in their elaborate costume of the Friends of Free Speech, say that our government has violated human liberty.

There may be something in that. Mr. Saklatvala's essential harmlessness may better have been indicated by his being permitted to arrive and talk to his heart's content. There is no indication that the United States feared Mr. Saklatvala; the feeling seems to be that it would have been discourteous to Great Britain to have

afforded its bitter enemy a platform here.

An interesting side light, however, has escaped the "friends of freedom." In Russia, that land of the free, that home of the brave (see Soviet laws and Cheka assassinations) they emulate the United States in this very matter. Russia, to be exact, is the most "exclusive" country in the world today. Russia refuses more passports, going and coming, than any nation has had occasion to do since there were passports. The Trades Union delegates only recently appointed a committee to go into Russia; forthwith the Bolsheviki officials began to refuse to visa some passports. One man they did not want because he could speak Russian and therefore, presumably, would not be entirely dependent on the official interpreters for his views as to how free, happy and prosperous the slaves of Bolshevism are. Another man had a reputation for difficult eyes over which to pull the wool. So they had no passports. No one has criticized Russia for that action.

And yet the friends of Bolshevism in this country go into spasms of agony because the avowed revolutionist Saklatvala is refused permission to brew his evil medicine on our soil, while their beloved Bolshevik fatherland excludes all who are believed to be honest observers.

But how are the people to know the facts? unless the newspapers tell them? A harder question: Why is it that the newspapers, having the facts, do not tell them?—Dear-born Independent.

### SEVEN HUNDRED YEARS IN BUSINESS IN SWEDEN

A certain large lumber company in Sweden has been in operation for 700 years and is said to be the oldest lumber concern in existence.

Through scientific methods of forestry, its timber holdings are worked on a continuous yield basis. Every 70 or 80 years this company's loggers return to the same timber tract for cutting, and the cut-over land problem is unknown to them. The company has some 800,000 acres of land on which forestry has been practiced for hundreds of years.

Some such plan as this will be adopted by the larger lumber organizations in the United States to renew our timber resources as they are depleted.

### CONSERVE OIL BY USING GAS

There is more natural gas in California than in any other state except Louisiana. Conservation of it is necessary, but the price is so low that producing companies cannot save it. It is sold in the oil fields wholesale at 5 cents a thousand cubic feet. It must then be piped to consumers in distant towns and cities.

While the public is talking oil conservation, it would be well to consider the idea of paying a slightly increased price for gas so that millions of cubic feet which now go to waste simply because companies cannot afford to handle it, could be utilized and thus save the more precious oil which is often burned where gas could be used.

If producing companies could get 10 cents a thousand cubic feet instead of 5 cents, they could conserve the gas in the ground instead of letting it waste into the air. As gas is a by-product of oil production, the problem of utilizing it is inseparable from oil conservation.

### A GOOD BULL STORY

A traveling man with torn clothes and a crushed hat sat in a country hotel expounding upon the necessity of compulsory automobile liability insurance maintained by the state to protect the public from damage done by automobiles. His clothes had been torn, his car wrecked and his life endangered by a driver with no assets.

A farmer in the corner grocery store, with a bloody nose and a broken buggy whip in his hand, was cussing his neighbor Jones for allowing a bull to run loose on the highway to frighten his team, cause a runaway, upset his load of berries and nearly kill him.

Jones was financially irresponsible but nobody thought of suggesting a law that all owners of bulls should be required to carry compulsory state liability insurance to protect the public from the dangers of such animals. Yet hardly a day passes that one does not read of some person or animal being gored to death by an enraged bull.

Our present laws provide for collecting damages from people whose acts cause injury or loss to others. If persons who are liable are financially insolvent the injured party cannot secure compensation. The same law applies to automobile accidents as to bull accidents or to any other kind of accidents.

Why should the automobile owner be made an exception to the rule in regard to compulsory automobile insurance in order to provide against a possible insolvent driver? Why should the state be put into the business of insurer? The whole proceeding is just another step toward socialism. People thoughtlessly argue in favor of this type of compulsory insurance supported by a state fund, who would not for a minute consider such a proposition if they understood it in all its ramifications. The traveling man and the bull story are everyday examples.

### BILL BOOSTER SAYS

SOMETIMES I THINK THE SELFISH MERCHANT IS ENTITLED TO CREDIT IF HE IS HARDWORKING AND RUNS A GOOD STORE AND GIVES GOOD SERVICE, BECAUSE THAT'S WHAT BRINGS TRADE TO OUR TOWN FROM THE SURROUNDING COUNTRY!"

### GLIMPSES OF THE PAST

From the files of the Advocate, October 28, 1911.

B. B. Miller, of Oklahoma City is here visiting his son, J. E. Miller.

W. B. Robinson, formerly of Gainesville, Texas, has located at Artesia for the practice of law.

Miss Elizabeth Henderson left Wednesday morning for Des Moines, Iowa, where she will spend the winter.

Mr. and Mrs. J. F. Lukins returned Monday night from New York, where they have been on a six weeks' visit.

Miss Eva Dawson was the charming hostess at an enjoyable thimble party Tuesday afternoon, to six of her girl friends.

Ralph Thayer, from the Roswell Military Institute was down Monday visiting his sisters, Misses Julia and Eula Thayer.

President Edward C. Morgan, of Western College will preach at the Christian church next Sunday morning and evening.

### STATE UNIVERSITY WILL ENTERTAIN SUPTS. OF N. M. AND SCIENTISTS

Invitations have been mailed to all superintendents of public instruction in the counties and cities of New Mexico inviting them to be present at the annual luncheon for visiting educators, on Thursday, November 5, 1925, at 12:15 p. m., at the dining hall of the University. The presidents of various civic clubs of Albuquerque, the Rotary, the Kiwanis, the Lions' and the Woman's Club have agreed to send a representative committee from each of these clubs, in order to cooperate with the State University in greeting and in treating hospitably the visiting educators on the first day of the great educational convention in Albuquerque. Speakers on the program of the New Mexico Association for science will also be issued invitations. The number of seats available is definitely limited and therefore reservations can be made and the luncheon served only for those who secure in advance the regular admission cards, the University authorities announce.

In addition to the entertainment of the luncheon, the visiting superintendents and men of science will be given an opportunity to inspect the splendid new library of the State University.

MEXICO 1925  
ESTIMATE  
\$50,000.00

New Mexico's 1925 is estimated at \$50,000.00, according to a survey of the state. The survey was made by R. F. Hare, statistical economist for the state. Hare stated here Friday that the 1925 folder will be the first to show a decrease in the number of farms irrigated. He also stated that the number of livestock conditions being grazed in New Mexico has decreased during the past year. Hare also stated that more attention should be given to the improvement of the production of livestock. He believes it is primarily the substitution of a crop on lands in the state where it was previously produced because of the drought. He also stated that the production of livestock is showing a marked increase. He believes it is primarily the substitution of a crop on lands in the state where it was previously produced because of the drought.

## Make Tailoring an Art Aim of Guild Organized in Chicago

ORGANIZATION of the Born Tailors Guild, an association of master tailors, with headquarters in Chicago, was announced today by W. A. Churchill, executive secretary of the new league. The slogan of the Guild is "Tailors are born, not made," and its two-fold object is to lift the tailoring trade to a higher plane of perfection in the art of making clothes for men, and establish in the minds of men and boys a definite appreciation of style, fabric and tailoring in men's clothes, just as the Parisian designers have made every woman a connoisseur of feminine fashions. Wage scales, labor controversies and price fixing will have no place in the work of Born Tailors Guild, according to Mr. Churchill.

"Our purpose in organizing this Guild," said Mr. Churchill, "is to bind together the master tailors of America, united in an effort of raising the standards of our trade. There is real artistry in the making of clothes and our idea is to place our trade in the class of art. Our objective is for the making of better clothes for men, the perfection of our trade to the very highest point possible."

Back to craft organization of early English times, Mr. Churchill and his associates went to get a model for their association. In those times each craft had its own guild and received a charter from the king. Occasionally the kings were members of them. Guild members were bound by oath of brotherliness to uphold the standards of the profession and to pass down from generation to generation the treasured secrets of that craft. Before a man could become a master tailor he had to serve seven years as an apprentice, then as a journeyman for two years, during which time he was taught all the skill and secrets of the trade. After preparing an exceptionally fine piece of work, his masterpiece, which he submitted to the Guild Assembly, the journeyman became a master and was admitted to the Guild. The spirit of this ancient type of craft association has been made the background of the Born Tailors Guild, according to Mr. Churchill.

"We seek to bring back into the tailoring craft some of the old-time romance and idealism of Tooley Street," he said. "We want our master tailors to reassert their pride in perfection of workmanship and to study men's dress as a profession. Such an idea should mean better-dressed men and more economy throughout the industry." The first president of the Guild is Edgar R. Born, of the tailoring house of M. Born & Co., established fifty years ago. It was named in his honor.

Shoe repairing is a part of the curriculum of the Memorial Junior High School, of San Diego, California. The course is thoroughly practical, and the ten lessons comprise a study of foot anatomy, as well as grades of leather, classification of shoes, and the actual work of repairing. One unit of university credit is allowed for the completion of the course and a state credential to teach the subject.

## HOPE ITEMS

(Noel L. Johnson, Reporter)

M. L. Smith is in El Paso on a business trip.

Born to Mr. and Mrs. Santiago Villa, this week, a girl.

Allen Johnson was elected to teach in the high school this week as an emergency teacher.

Our school is progressing nicely and the attendance is so large that an extra teacher has been engaged.

M. L. Steel, of Amarillo, has been here several days looking after interests of the Stock Growers Bank of Kansas City.

W. M. Atkinson, representing the War Finance Corporation has been spending several days here checking up livestock items.

W. A. Watson will leave with his family this week for San Pedro, California, to spend the winter on account of Mrs. Watson's health.

Hollis G. Watson was here this week shaking hand with friends, returning to Loving with his mother, who will spend the winter at his home.

Farm labor is rather scarce these days owing to so many of our people having drifted away during the summer and fall to Valley points, but most of them are returning now.

There is nothing particularly interesting going on outside the interest shown in the Fite well, which is bringing many inquiries and visitors. A good many oil leases have changed hands lately and most everybody is watching the progress of the well from day to day.

## Telephone Line Scales Long's Peak

Racking Poles and Wires Above the Timber Line

In constructing a telephone line up the rugged side of Long's Peak in Colorado this past summer, the old Indian mode of transportation was put into use in conveying the equipment up the mountainside. One string of horses carried the wire, one the poles, and another the hay for the one horse that was kept above timberline for emergency use.

Long's Peak is about 150 feet higher than Pike's Peak and nearly 600 feet higher than the Jungfrau in Switzerland. It towers up in the sky some 14,255 feet. For those who seek inspiration and fame as mountain climbers, it has

long been a favorite spot. The problem of stringing a telephone line up along the trail for emergency and aid calls from peak climbers proved no easy task, but it has now been successfully accomplished. The line is five miles in length, the terminal being about two miles above timberline, as the trail runs. It is connected with the main line at Kirkwood Inn and is tapped in at Estes Park. A number of people have, in the past few years, lost their lives by accident or in storms while climbing this giant peak, and it is thought future casualties may be reduced to a low minimum by use of the telephone.

## HANNETT NAMES ELECTION BOARD FOR NOV. 7TH

Gov. A. T. Hannett Monday afternoon named the board to draw up an airtight election law, with the idea of cutting out the many possibilities for fraud found to exist in the present law, and set November 7 for its first meeting.

The make-up of the board: Republican attorneys—C. B. Botts, Albuquerque, former justice of the supreme court; James M. Hervey, Roswell, president of the State Bar association and former attorney general.

Democratic attorneys—Summers Burkhardt, Albuquerque, United States attorney for New Mexico for eight years; J. L. Lawson, Alamogordo.

Legislators—Sen. E. L. Holt, Dona Ana county; Rep. Don R. Casados, Mora county.

Holt is a republican and the son of a former state senator, and a man active in republican politics, while Casados is the democratic whip of the lower house. Both are World war veterans and members of the American Legion.

In making the names public Governor Hannett said he had conferred with Hugh H. Williams, republican state chairman, relative to the republican members of the board and Mr. Williams had expressed hearty approval of his selections.—New Mexican.

## ASK REPEAL OF VIRTUALLY ALL GOV'T. REVENUE TAXES

Washington.—Bids for portions of the Treasury's \$300,000,000 tax reduction melon continued to pile up before the House Ways and Means committee Tuesday.

Taxpayers representing various interests sought relief from more of the special levies, a majority of them pressing for outright repeal of the taxes in the new revenue measure which the committee will start drafting next week.

With Tuesday's appeals, the committee now has been asked to repeal almost every miscellaneous tax now levied, a program which would mean a reduction of probably several times the total \$300,000,000 recommended by Secretary Mellon. He suggested that \$240,000,000 of this be allotted to a reduction of the income rates.

While the committee appears to favor repeal of as much of the miscellaneous tax burden as possible, representatives Treadway, Republican of Massachusetts and Garner, Democrat of Texas, pointed out that there is a limit and if all appeals were granted the government would find itself with virtually no revenues.

## THE STATE FOOTBALL RESULTS FOR LAST WEEK

## COTTONWOOD ITEMS

W. W. Wallace was in Loving last week on business.

Mr. and Mrs. Jesse Funk will attend the Schumann-Heink concert at Roswell tonight.

Mr. Herbert Southard, of Artesia visited his sister Mrs. Kersey Funk one day this week.

Mr. Bert Thompson, of Quanah, Texas is expected in this week to look over his farm interests and visit his brother, E. D. Wells.

Miss Mabel Watson, who has been suffering from a severe case of tonsillitis, has been removed to the home of her sister at Dexter.

Earl Hedgecoxe returned Sunday from Hot Springs, N. M., where he has been with his father for the past two weeks. He reports his father improving nicely.

Mrs. Matilda Larsen, of Washington, D. C., has arrived to spend the winter with her sister, Mrs. Nelson and her neices, Mrs. Clarence Pearson and Mrs. Oscar Pearson.

The many friends of Mr. and Mrs. John Summers have received announcements of the birth of a daughter. The little girl has been named Eleanor Elvira. The Summers are now in Oregon.

There will be a pie supper at Upper Cottonwood school house Friday night. These worthy teachers are trying to do some necessary improvement of grounds. Let's help them out.

Cottonwood Woman's Club met Thursday with Mrs. Jesse Funk. There was a good attendance and much interest, shown in plans for the winter's work. The club will meet next with Mrs. Monroe Howard.

## WOMEN VOTERS WANT NEW ELECTION BOARD

Santa Fe, N. M.—The Santa Fe League of Women voters at a meeting Monday night adopted a resolution asking the presidents of the State League of Women voters and State Federation of Women's clubs to submit a list of names to Governor A. T. Hannett and request him to select two women from this list to be added to the board to draft a new election law.

Mrs. Anna V. Huey, president of the Santa Fe organization, said she had communicated with two other state presidents, but they had not indicated what their attitude would be.

## MONDAY'S FORECAST INCREASES THE 1925 COTTON PRODUCTION

Washington, D. C.—A probable cotton production of about 15,226,000 equivalent to 500 pound bales the department of agriculture announced Monday is indicated by reports as of October 18 on condition, abandonment, probable yields and ginnings. A probable crop of 14,759,000 bales was indicated two weeks ago, last year's crop totalled 13,627,356 bales.

The probable yield from October 18 indications is placed at 164.7 pounds of lint cotton per harvested acre compared with 152.0 pounds on October 1 this year and 151.4 pounds, the final yield last year.

An abandonment of cotton acreage since June 25 of 4.8 per cent leaving about 44,231,000 acres for harvest this year is indicated by preliminary reports. That compares with an estimated abandonment from June 25 to the close of the season of 3.0 per cent in 1924, of 4.1 per cent in 1923, and 10 year average 3.3 per cent.

The percentage in western states of abandonment of acreage since June 25 and the indicated production based on all available information on October 18 follows:

Texas abandonment 9.0 per cent and 4,050,000 bales.

New Mexico 27.0 per cent and 60,000.

Arizona 3.7 and 90,000.

California 1.0 and 130,000.

About 70,000 acres additional to California are being grown in Lower California, Mexico.

Cotton prices broke \$6 a bale Monday on publication of the government crop estimate of 15,226,000 bales, an increase of 476,000 bales compared with the forecast on October 1. December contracts sold as low as 19.98 cents a pound and January 19.22.

Cotton of this year's growth, ginned prior to October 18, totalled 9,519,784 running bales counting round as half bales and excluding liners, the census bureau announced Monday. Last year 7,615,981 or 55.8 per cent of the crop had been ginned to that date. The ginnings in western states prior to October 18, by states follow:

Arizona, 30,675.

California 16,989.

New Mexico 16,536.

Texas 2,404,460.

Round bales, counted as half bales, included in total ginnings numbered 145,964, compared with 203,424 to that date last year.

## LOCAL

Mr. Hammett was down from Portales yesterday with a load of sweet potatoes.

B. R. Hammond and C. Y. Rascoe made a business trip to Santa Fe the first of the week.

George Welton returned last week from a visit to California. He was accompanied home by his son, Billy Wirt, who will spend a few weeks here.

Mr. and Mrs. W. L. Batterton, Mrs. Lucy Robinson and Mr. V. Phelps, arrived from Missouri Saturday and are visiting Mrs. Robinson's son, Frank Robinson, and family. They plan to make Artesia their home in the future.

The small son of John Simonds had the misfortune to break one of his legs Tuesday. It is not known just how the accident occurred, but it is thought that the little fellow fell from a box. He was taken to the Carlsbad hospital.

D. E. Hedgspeth, who was taken suddenly ill Monday morning, is slightly improved at the last report this morning. All of Mr. Hedgspeth's family are now at his bedside, including Mrs. F. L. Hamilton of Notla, Texas, Mrs. Ed Shields, of Enid, Oklahoma, Mrs. James Maddy, of Enid, Oklahoma, Mrs. S. A. Butler, of Lingsdale, Oklahoma, and Marvin Hedgspeth of Perryton, Texas.

## STAMPS CONVEY KNOWLEDGE OF HISTORIC OCCASIONS

"Postage stamps are an effective means of stimulating loyalty and patriotism. Everybody who posts or receives a communication through the United States mail receives, no less volens, a transitory lesson in the history of the Nation," says Harry S. New, postmaster general, in an article in School Life, a publication of the Interior Department, Bureau of Education.

"In general the designs upon the regular issues have included the representation of the head of one of the presidents, but in the past fifty years the custom has grown of commemorating important historical events by special issues," states the postmaster general. "The novel appearance of the new stamps immediately arrests the attention of the user, and inquiry into its meaning naturally follows. The result is a valuable lesson in history which few escape, even those of limited education."

"Thirteen special series of adhesive stamps have been employed to impress historical occasions upon the popular mind," Postmaster General New continues. "They have carried to thousands their first knowledge of

some of the events which were thus celebrated, and they have led millions of our people to a wider and more intelligent understanding of the circumstances that have contributed to our national existence."

**As Increasing  
of Your Antenna**

ple principles applied to  
receiving set will enable  
to keep in tune with  
from 200 to 600 meters. If  
is placed in series with  
it has practically the  
as increasing the length  
thereby making it pos-  
up higher wave lengths.  
the coil the greater will be  
in wave length. If a  
condenser is placed in series  
antenna or ground wire the  
range of the set is re-  
smaller the capacity of  
the greater will be the  
length. To place a coil  
with the antenna connect the  
to one end of the coil  
wire from the other termi-  
to the antenna binding  
net. A series condenser is  
the same way.

**Winding Coils**

simple matter to wind a coil  
of wire spaced a short  
from the next one. Start the  
thread and wire, at the same  
time considerably more ten-  
sion than when no thread  
after the coil is wound and  
the wire fastened, the  
coil be uncoiled. It is much  
easier to persuade a friend to  
of wire in one hand and  
thread in the other while  
with hands to turn the coil

**Strong Membership Appeal  
In Red Cross Disaster Relief**

Asking themselves "What if disas-  
ter should visit our city?" the leading  
citizens of many communities of the  
United States have adopted the Scout  
motto to "Be Prepared."  
Impressed by the frequency and the  
wide range of peace time calamities  
in their country, they have organized  
their communities with the thorough-  
ness which normal conditions permit,  
against the possibility of a time when  
there will be no chance for thought  
or plan. Red Cross Chapters in many  
localities are similarly prepared.

# SUPERPOWER IN RADIO IS USED IN FIRST TESTS

Giant Laboratory of WGY Transmits With Greatest Power Ever Used—Engineers Expect Useful Results.

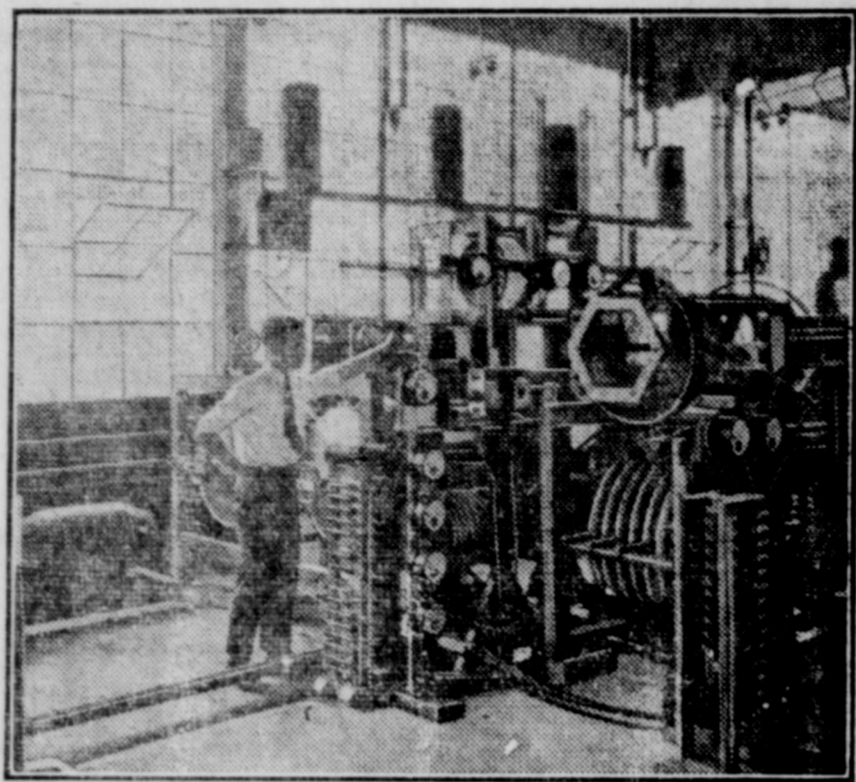

From the largest and most powerful transmitting laboratory in the world WGY, of Schenectady, N. Y., has just broadcast on superpower, using 50 kilowatts on the antenna for the first time in this country or abroad.

This laboratory was erected three miles outside of Schenectady by the General Electric Company for the purpose of making a systematic study of transmission phenomena. It is equipped for research on wave-lengths from five meters to 3,000 meters with power from five watts to 100,000 watts.

"The laboratory occupies 54 acres of land, and consists of 13 buildings, three towers 300 feet high, one tower 150 feet high, and a multitude of smaller towers ranging from 60 to 100 feet in height. From and between the towers is arranged a network of antennas with which we hope to secure fundamental data on the most efficient antenna for a given wave-length and power.

"To return to the subject of what superpower can be for broadcast reception:

"First, it is obvious that the power of the transmitter, if increased, will

Highest Powered Radio Broadcast Transmitter with which WGY made radio history.

According to Adam Stein, Jr., managing engineer of the radio department, General Electric Company, "The ultimate object of tests in the use of superpower in radio broadcasting is, of course, an appreciable improvement in the service to broadcast listeners."

"This laboratory," said Mr. Stein, "is designed to permit a thorough study of radio transmission in general, and broadcast transmission in particular. The laboratory provides equipment for obtaining the transmission characteristics of wave-lengths between five meters and 3,000 meters, and up to powers of 100 kilowatts. In addition, there has been provided sufficient antenna structures so that the best type of antennas or radiators can be determined for the various wave-lengths.

provide increased energy at a receiving station, thus raising the level of the signal above that of the noise. This should, to some extent, tend to decrease the effect of static and other disturbances.

"Second, the use of high power at the transmitting station may appreciably decrease the extent to which fading at present interferes with reception. The extent to which superpower may help fading is still one of the unknown facts, and one of the problems which it is the purpose of these tests to determine.

"Third, the effect of superpower is to increase the range of the transmitter so that the program can be satisfactorily received over a greater area, and hence provide better service both day and night."

### NOTED CONVICT IN JAIL AT PECOS

W. H. Harkins, noted convict, is again in jail at Pecos, Texas. Last week he was taken from the Texas penitentiary agent, Bud Russell at Pecos and placed in jail to await trial for alleged fraud and forgery charge by the Pecos Valley State Bank at Pecos. This offense was committed in 1924 and at this time he was given over to Ft. Worth authorities and convicted of forgery charges there.

### RED CROSS FINANCES SHOW WIDE SERVICES

Past Year Cost \$10,321,679.80;  
Duty to Ex-Service Men Paramount.

Washington.—The national and international services of the American Red Cross are portrayed graphically in a statement of the Red Cross finances for the past fiscal year ended June 30, 1925. Expenditures by the Red Cross (including both the National Organization and the Chapters) during this period aggregated \$10,321,679.80.

The obligation of the American Red Cross to the ex-service and service men is represented in this sum by a total expenditure of \$4,225,292.61. In the interests of disabled veterans, the Red Cross expended \$3,577,916.42, of which \$1,677,916.42 came from the National Organization, and \$1,900,000 from the more than 3,000 Chapters and local branches of the society. Red Cross services to the men of the Regular Army and Navy the past year called for \$647,376.19, of which the National Organization furnished \$310,376.19, and the Chapters, \$337,000.

Sharing in importance with this responsibility was the Red Cross work of disaster relief during the year. In these operations there was absorbed a total of \$1,922,782.90 up to June 30, this year. This represented \$1,622,782.90 of National Organization funds and \$300,000 from the Chapters. Relief in foreign disasters amounted to \$255,579.55. This sum was appropriated altogether by the National Organization.

Insular and foreign operations of the American Red Cross during the year included relief in foreign disasters, the League of Red Cross Societies, Junior Red Cross Foreign Projects, assistance to insular Chapters and similar functions. Besides its disaster relief, the National Organization financed these other branches of foreign work also, including \$110,238.72 for assistance to insular chapters, \$177,450 for the League of Red Cross Societies, \$84,384.43 for Junior projects abroad, and \$80,057.62 for other insular and foreign operations.

In addition to its paramount duty to assist veterans and other service men and their families, and its disaster relief, the Red Cross expended at home through its national and chapter funds, a total of \$1,029,616.05 for its Public Health Nursing Service; \$154,135.09 for nutrition instruction; \$314,422.76 for First Aid and Life Saving; \$445,707.34 for Junior Red Cross; \$132,759.88 for instruction in Home Hygiene and Care of the Sick; and carried on similarly important home duties. Included in the latter were such valuable services as the Enrolled Nurses' Reserve, for which the National Organization expended \$45,562.64; while other national operations at home amounted to \$302,957.64. The chapters, in addition to the large part they played in all Red Cross activity, spent \$678,000 of their own funds on general chapter services.

The broad humanity of the American Red Cross can never be measured by the money it costs, but even in bare terms of dollars and cents, the scope of its work is indicated. A study of these facts also shows the necessity for the largest possible enrollment, since Red Cross service is maintained almost entirely by its membership. The annual invitation to participate in this work through membership in the American Red Cross, is extended from Armistice Day, November 11, to Thanksgiving, November 26.

### Red Cross First Aid Popular in America As Accidents Gain

The rapidly mounting toll from traffic accidents has brought home to the public the necessity of being prepared to render prompt assistance while awaiting the doctor. During the past year 356 chapters of the American Red Cross were instructing classes in First Aid, and in the same period certificates were issued to 26,601 persons qualified by Red Cross experts.

Many cities throughout the United States are showing interest in securing first aid instruction for their police and fire department personnel, and through the work of local chapters, practical results have been obtained in such cities as Washington, D. C.; Toledo, O.; Boston, Mass.; South Bend and Indianapolis, Ind.; Port Arthur, Texas, and other communities. In co-operation with the State authorities, intensive training in first aid and rescue methods has been given to State police and constabulary members at four State training schools.

Instruction in these subjects in public and private schools, colleges and universities has increased during the year. Attention has been given to training teachers at institutes and summer schools.

The Red Cross first aid railroad car has been in continuous operation throughout the year. It covered 10,340 miles, visiting 137 cities, where 1,200 meetings were conducted by the surgeons, with a total of 146,827 people.

Industries particularly have availed themselves of the instruction afforded by the Red Cross. The Western Electric Company, for example, reports a reduction of the accident rate per 1,000 employees.

### WEATHER FOR SEPT. GENERALLY MODERATE

The month averaged slightly below the normal in temperature, and considerably above in rainfall. In each, however, much variation obtained in the various parts of the state, due, apparently, to the local character of the changes in temperature, and to the local showers and thunderstorms that occurred.

The temperature of the month was quite generally moderate until the 1st and 22nd, and again it warmed up by the 29th or 30th. Light to killing frost touched a few of the higher northern districts on the morning of the 14th, and spread well over northern counties on the 23rd-24th or 26-28th; coming, no doubt, a little too early for much of the late growth.

As suggested, the showers were again exceedingly local in character but were generally sufficient to exceed the normal fall, except in the extreme southeast, the southern tier of the counties westward to Luna, and in a few localities elsewhere. The excess was greatest in Curry, Roosevelt, and northeast Chaves counties, but was large also in parts of Guadalupe, De Baca, eastern San Miguel, Harding, eastern Mora, and Union counties. Showers were most general on the 2nd to 6th, 10th to 13th, and 20th to 24th, although they occurred at some point in the state daily until the 24th. Highways suffered much damage by the local downpours of the 12-13th and 23rd-24th.

Farm work made good progress during the month, which was favorable, and harvest made good progress also, although there is much late grain which will yet require two, three, or four weeks to mature. Ranges became good to excellent, and stock was in good condition. Seeding of fall grain went forward rapidly, and a large acreage was put in.

**Temperature.**  
The monthly mean for the state, based upon the records of 109 stations having a mean altitude of about 5,000 feet, was 64.0 degrees, or 0.3 degrees below normal, as determined from 80 stations having records for ten years or more. The highest monthly mean was 74.9 at Orogrande, and the highest recorded temperature, 97 at Artesia on the 15th, at Turney's ranch on the 15th and 16th, and at Cuervo on the 18th. The lowest monthly mean was 49.2 degrees at Lee's ranch, and the lowest temperature, 18 degrees at the same station on 24th. The greatest local daily range was 59 degrees at Dulce on the 26th.

**Precipitation.**  
The average precipitation for the state, based upon the records of 171 stations, was 1.98 inches, or 0.45 inch above the normal, as determined from 127 stations having records for ten years or more. The greatest monthly amount was 7.27 inches at Abbott, and the least, 0.03 inch at Columbus. The greatest amount in any 24 consecutive hours was 4.20 inches at Abbott on the 30th. A trace of snow touched some of the highest northern peaks on 13th and 23rd-24th. Precipitation (0.01 inch or more) occurred on an average of 6 days, while 17 were clear, 9 partly cloudy and 4 cloudy. The prevailing direction of the wind was from the southwest.

### SOMETHING TO SUIT

The Cook—Shall I make a nice cottage pudding for dessert?  
Mrs. Justwed—Certainly not. Don't you know we're not living in a cottage! Make a flat pudding instead.

## GOVERNOR ISSUES TWO CONDITIONAL PARDONS SAT.

Gov. A. T. Hannett Saturday granted conditional pardons to two young men in the state reformatory and commutations to two prisoners in the state penitentiary.

Severo Lopez's sentence was commuted to eight to 13 months. He was serving from a year to a year and a month in the penitentiary, having been sent up from Bernalillo county last May.

Leo Weltz' sentence is cut to one to three years in the other commutation. He was committed from Colfax county last February to serve three to four years. Weltz is said to have borne a good reputation prior to his conviction and to have been of great assistance to his parents in supporting a big family.

In both cases clemency was recommended by the parole board.

The young men getting conditional pardons from the reformatory are John F. Philpot, sentenced in Chaves county in January, 1922, to serve two and one-half to three years, and Ira Kennedy, committed from Curry county in August, 1924, to serve not less than one or more than one and one-half years. Both pardons were recommended by the reformatory board.

As to the former, the board said he has not quite finished his minimum sentence but he is a grown man, perhaps 22 years old, and it was felt the school could not do him any further good but that he should be out earning his own way instead of being a ward of the state. His record has been commendable.

Kennedy is said to be a grown man and past the influence of the school for good.

Both pardons are conditional on their getting employment and conducting themselves in a law-abiding manner—New Mexican.

## LAKE ARTHUR ITEMS (Mrs. Alva Spence, Reporter)

J. B. Crook is driving a new Ford Coupe.

Mr. and Mrs. Clyde Nihart went to Artesia to visit Sunday.

Mr. and Mrs. Cal Hill have moved into rooms in the H. A. Sims home.

W. S. Haven and Mrs. V. J. Burks motored to Hagerman last Wednesday.

Mrs. J. P. Shaddock, of Oklahoma City came in Friday to visit the home of her sister, Mrs. Alva Spence.

Mr. and Mrs. Emil Follin, of Long Beach, California, came in this week to see their sister, Mrs. Marie Hedges.

Mr. and Mrs. Donley, of Dexter came down Saturday and accompanied Mr. and Mrs. Shinneman to Carlsbad Sunday.

Mrs. Bob Rowan was elected teacher to take the third and fourth grades to relieve the crowded conditions in the school here.

About four thousand head of cattle were dipped, according to the state law, here last week at the Russell ranch, north of town.

Walter Walton and wife, accompanied by Mrs. Jerry Williams and Mrs. V. J. Burks motored to Artesia one day last week.

The cotton gin is running steadily all day and far into the night many nights. The weather has been most favorable to the farmers for their cotton picking.

Miss Margaret Henderson, who is teaching at Texico, came in this week to visit a few days with Mrs. Solon Spence. Miss Margaret's school is closed for a month on account of the harvest season.

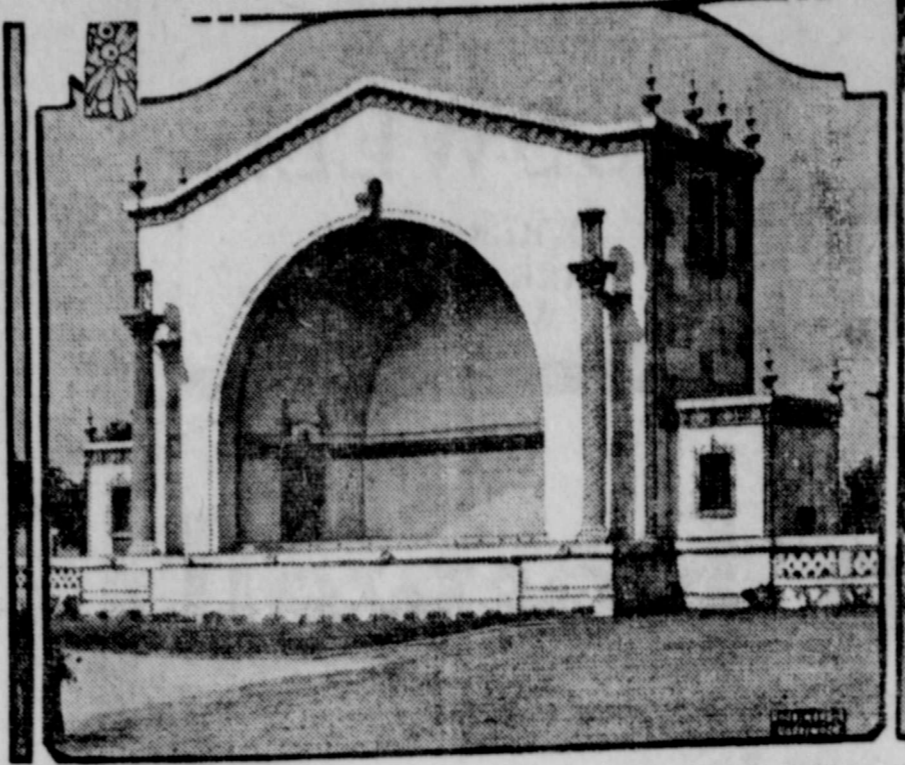

The members of the Senior Epworth League will have a Hallowe'en party at the beautiful country home of Mr. and Mrs. D. A. Bradley next Saturday evening. All members are invited to attend.

The members of the Senior class of the Hagerman high school attended the play here, "The Deestriet Schule," in a body, after which they motored to the Washington ranch, where they enjoyed a wienier and marshmallow roast.

We understand eighteen thousand head of sheep were loaded out from here last week. We didn't count them, but we never saw, or expect to see so many sheep again. They were driven in from the sheep ranches east of here.

The play "The Deestriet Schule," given by the Adult Bible class last Friday evening was voted a success by those who attended. The house was crowded to the utmost capacity, the cafeteria supper was also enjoyed. Proceeds which amounted to \$70.00 will be used to repair the condition of the Methodist church.

## Architectural Gem in Davenport

This music pavilion, believed to be the most artistic in any public park in America, has just been dedicated at Davenport, Iowa. It was presented to the city by W. D. Peterson as a memorial to his daughter Wilma, a talented musician, who died recently. The pavilion, which cost \$50,000, is built of Indiana limestone and polychrome terra cotta in Spanish renaissance style.

## NEW COMPANIES WILL ENTER LOWER VALLEY OILFIELD

The following clipping taken from the Pecos Enterprise at Pecos, Texas, will be of interest to many readers, who are watching the lower valley field.

Developments in the Pecos oil fields this week are marked by the building of several new derricks on new locations. On five different holdings, derricks have been partially erected, with preparations for drilling in the near future, being rapidly forwarded. The majority of these recent entries in the field expect to be able to spud in during the month of November. The list of beginners includes the World Oil Co., Schooler & Slack, Gulf Production Oil Co., Dixie Oil Co., and the

### Deep Rock Oil Co.

The operations now being carried on at the P. V. Petroleum Co. well, (Sec. 82, Block 1, W. & N. W. R. R. Co.) consists of cleaning out sand, and slag. The daily work is bailing, and swabbing out the dirt, that was torn down by the shot, and that has been constantly shifting in since the first strike. Though headway against this trouble is apparent, the drilling superintendent has decided to return to drilling tower, which signifies that there will be a continuous shift on duty. Work will be carried on 24 hours a day in the hopes of speeding up this task of cleaning out the hole. After the completion of this work, a definite test can be made as to the production possibilities of the well. At present there are increasing signs of gas and oil, which is flowing in larger quantities. No estimate as yet can be made of the exact flow, or even a close approximate guess.

**Items of Social Interest In and Around Artesia**

**SIMS—SPECK**

The many friends of the Speck family here will be interested to learn of the marriage of Miss Blanche Speck to Mr. Paul Sims, which occurred at Long Beach, California, a short time ago. Miss Blanche received her high school education at Artesia and for a few years has been a successful teacher. They will make their home at Long Beach.

**BIRTHDAY DINNER**

Mrs. Gail Hamilton celebrated her birthday anniversary by serving a sumptuous dinner at noon on Monday. Mrs. H. T. Boyd, of California, was the guest of honor, and the others present were Mrs. Sallie Smith, Mr. and Mrs. Otis Brown and Mr. J. T. Collins.

**CEMETERY ASS'N. ELECTION**

Wednesday, November 3rd, at 2:30 p. m. the cemetery association will hold its annual business meeting at the home of Mrs. Joe Anderson, 307 Grand Avenue.

Every woman in Artesia who is interested in the cemetery is invited to attend this meeting and cast her vote for the board of directors. The cemetery belongs to the community and is supported by the general public and no individual receives any benefit from donations or sale of lots. All money received is used to maintain and beautify the cemetery.

For the benefit of those who may not know, we wish to say that the present board of directors has served for years and some of them ever since the association was organized, sixteen years ago, and we feel that it is the duty of some others who are vitally interested to come forward now and assume this work.

**BOARD OF DIRECTORS**

**REBEKAH INITIATION**

Five candidates were initiated at the regular meeting of the Rebekah Lodge on Monday evening. The new members are Mrs. L. R. Simmons, Mrs. Abe Connor, Mrs. Charles Shorey and Mr. and Mrs. Frank Thomas. A social hour followed the initiation ceremonies, during which light refreshments were served and the initiates were made to feel at home.

**BIRTHDAY SURPRISE PARTY**

Grandma Rigdon passed her seventy-ninth milestone Sunday and the event was celebrated by her grandchildren with a bountiful dinner at the home of Clarke Wilde on West Grand avenue. The dinner was a complete surprise to Mrs. Rigdon, but she enjoyed it all the more for that fact. The day was rounded out with a tea at her own home, which was also a surprise. At this time the grandchildren presented her with a nice tea set. The years sit lightly upon grandma's shoulders and her days are passed in a serenity beautiful to see and which comes only at the end of a useful and happy life. The company on this happy occasion was made up of grandchildren and great grandchildren and included Mr. and Mrs. Clarke Wilde and family, Fletcher Owen and family, Paul Wilde and family and Miss Alice Owen.

**M. E. DISTRICT MISSIONARY MEETING**

Mrs. Fred C. Rowell, Mrs. Otis Breneman, Mrs. W. E. Davis, Mrs. R. H. McCune, Mrs. Will Beaty, Rev. C. K. Campbell and Rev. J. B. Cochran motored down to Artesia Thursday to attend the District Woman's Missionary meeting. Mrs. Rowell was on that program; Mrs. W. E. Davis contributed a vocal solo and Mrs. Davis and Mrs. Otis Breneman, a duet.—Roswell Record.

**ALTAR SOCIETY MEETING**

The Altar Society of St. Anthony's shot.

V. K. F. No. 1, in the NW 1/4 of the SW 1/4 of sec. 23-18-28, abandoned.

**Chaves County.**

Arkansas Gas and Fuel Co., No. 1, Manning Dome in the SE corner sec. 14-15-17, drilling below 2125 feet.

Colorado Gas and Fuel Co., NW SW sec. 16-8-27, drilling below 3370 feet.

Coontail No. 1, Jarvis et al., SE 1/4 of Sec. 28-15-23, drilling below 400 feet.

Dresser No. 1 sec. 24-10-27, drilling below 2540 feet.

Petroleum Exploration Co., in sec. 15-15-29, near the Cap Rock, drilling below 1700 feet.

White Oil Co., SW SW sec. 25-10-26, drilling at 1225 feet.

New State Petroleum Co., SW NE sec. 27-10-26, drilling below 380 feet.

Neal et al., sec. 25-9-25, setting pipe at 700 feet.

Lewis et al., sec. 13-8-24, depth 2861, changing to standard rig.

**Lea County.**

Covert et al. in sec. 15-21-33, skidding to new location.

Maljamar Oil and Gas Corp., No. 1, on government permit in the NE 1/4 sec. 21-17-32, rigging up.

W. A. Wyatt No. 1, formerly known as the Penton No. 1, in sec. 19-16-34, drilling below 600 feet.

**LOCALS**

R. A. Brewer was a Roswell visitor Tuesday.

Miss Alma Norton has returned from California.

Miss Linna McCaw was a Carlsbad visitor Saturday.

Jim Stagner made a business trip to Carlsbad Saturday.

Mr. and Mrs. G. M. Winans were in Roswell yesterday and today.

Mrs. J. F. Cobble and daughter, Mrs. Jasper Marable were in Carlsbad Saturday.

Mrs. J. M. Story left Tuesday morning for an extended visit with relatives in Illinois.

Mr. and Mrs. S. A. Lanning have returned from a visit to relatives in Missouri and Kansas.

Mrs. Anna McWilliams, of Roswell, was here the past week visiting Miss Jeanette Williamson.

Miss Inez Jones, accompanied by the Misses Severtson and Rittman, spent the week-end at her home in Carlsbad.

Miss Katherine Walterscheid spent yesterday in Roswell, going up with her sister, Miss Christine, from Carlsbad.

E. L. Humphrey, of Long Beach, California, a former resident of Artesia, is making a short visit here this week.

Mr. and Mrs. J. B. Cecil drove to Roswell Sunday to see their son, Dyke, who is a student at the Military Institute.

T. A. Steffian, assistant state comptroller was in Artesia the first of the week on business connected

Catholic church held an all day meeting at the home of Mrs. Paul Terry, east of town, last Thursday. The Society is holding weekly meetings for the purpose of sewing for their bazaar, which will be held in connection with a cooked food sale on Saturday, the 7th, inst. A splendid dinner was served at the meeting last Thursday and was enjoyed by the Mesdames J. J. Clarke, George Clark, McGinn, Murphy, Meeks, Gallup and Dooley and the Misses Katherine Walterscheid, Nell Morrison, and Florence Morrison and the hostess.

**SUNDAY SCHOOL CLASS PARTY**

The young married women's class of the Methodist Sunday school had a Halloween party at the home of Mrs. C. R. Blocker last Tuesday afternoon. The Halloween spirit was evident in the decorations and also in the refreshments. The party was by way of a welcome to the new pastor's wife, Mrs. Higbee, who has consented to be its teacher in place of Mrs. Walker. The business meeting followed an afternoon of needlework and visiting and was the climax of the affair, for only then was a most interesting secret revealed. For the past month each member had been a "Sunshine Friend to some other member, but none knew the identity of this individual, until it was revealed at this time. A new assortment of "Sunshine Friends" was drawn for the coming month. Mesdames Kerns and Cal Lucas were joint hostesses at this very delightful party. Those present besides the hostesses were Mesdames Higbee, Reed Brainard, Fred Brainard, Shultz, Ralph Rogers, Billy Cox, Griggs, Meeks, Ben Pior, Keller, Kinder, Cal Beckett, Hartell, W. C. Martin, Evans, Jernigan, Hornbaker, Austin, Lawrence Wilde, George Gage, Lester Heinrichsen, Austin Brown, Landis Feather, Lillian Major, McDade and Michael.

**ATTEND NAZARENE ASSEMBLY**

C. J. Wilde, Miss Amy Wilde and Mrs. May Wilde left Tuesday by auto for Bethany, Oklahoma, where they will attend the district assembly of the Nazarene church and also visit Bethany College, which is the educational headquarters for the Church of the Nazarene and where Rev. May has been dean for a number of years.

They plan to visit Ralph Wilde, formerly of Artesia before returning home next week.

**WOMAN'S CLUB**

The club met in regular session yesterday afternoon, the president, Mrs. G. R. Brainard, presiding. The program was in charge of the Literary Department and three very interesting reviews of short stories were given by Mesdames Lowry, S. D. Gates and Graham. Roll call was responded to with quotations, and current events, and the Music Committee, which has a place upon every program, conducted a musical test revealing how well the members remembered old hymn tunes and their names. Echoes of the State Federation Meeting at Santa Fe were given by Mesdames Brainard, Hartell, Hightower and Stroup. Five new members were taken in—Mesdames George Threlkeld, Gene Rowland, and Mary Abbott and Miss Ella Bauslin.

The first meeting in November will be in charge of the Music Committee.

with his office.

D. E. Bryant was seen Saturday going in the direction of El Paso with a coop of eight chickens, a dog, a crate of eggs, a box of apples and an Advocate stuck in his right coat pocket.

Mrs. A. L. Allinger and Miss Leona Allinger drove to Carlsbad Saturday with Miss Edith Clement, county health nurse, who was returning to the county seat from Hope.

Rev. and Mrs. Higbee took six o'clock dinner with Mr. and Mrs. Calaway on Wednesday evening. Mr. Calaway's father was a member of Rev. Higbee's congregation at Albuquerque.

Mr. Watson and wife, of Hope, left Tuesday for California, where they expect to spend a few months for the benefit of Mrs. Watson's health. Mr. Watson has been employed in Welton's grocery for some time past.

Mrs. R. E. Horne, Jr., accompanied by her sister, Miss Myra Norris, left Monday for Detroit, Michigan, where she will join her husband, after a short visit in her former home state, Mississippi. Mr. Horne is now employed by the Ford Motor Co.

Notice is hereby given that I, A. E. Whitehead, mortgagee in that certain Chattel Mortgage dated the 15th day of April, 1925 and made by W. J. Thomas of Artesia, Eddy County, New Mex. and covering the following personal property:

1-Majestic Range Stove, 1-40 gallon water heater, 1-Hessmann Refrigerator, 1-Open top Refrigerator, No. 126, 3-Dining Tables, 6-Dining Chairs, 10-Lunch Counter Stools, 1-Wash Rack with sink connected, 1-Lunch Counter 24 feet long, 1-Perfection Coffee Urn, 1-5 Gallon Water Cooler, 1-Hall Tree, 1-Back Counter 10 feet long, 1-Mirror, four by nine feet, 2-Back Counters 10 feet long each, 2-Signs, one of which is an electric sign, a certain lot of dishes used in the Cafe, Glidewell and located therein, have taken over the said property, under the terms of the said mortgage and the authority therein given, and That I will offer for sale and sell at public vendue the said property on Tuesday, Nov. 3rd, at 10 o'clock A. M. on said day at the North door of the J. F. Glidewell Cafe at No. East Main street in the town of Artesia, Eddy County, New Mexico, to the best and highest bidder for cash, under and by virtue of the terms of the said mortgage; that the object of the sale is to satisfy the payment of the note or indebtedness, the mortgage is given to secure to-wit: Bal. One note \$915.00, interest \$47.18.

IN WITNESS WHEREOF, I hereunto set my hand and seal this 7th day of October, 1925.

A. E. WHITEHEAD, Mortgagee.

NOTICE OF THE SALE OF REAL ESTATE AND PERSONAL PROPERTY OF THE ESTATE OF NOLEY POWELL, DECEASED

In the District Court of Eddy County, New Mexico.

NELLIE POWELL, Administratrix, of the Estate of Noley Powell, Deceased.

IDA TEEL, NINA DUNN, HERMAN POWELL, RUIE POWELL, ALLENE POWELL, RAY POWELL and NELLIE POWELL, Defendants.

Notice is hereby given that pursuant to a Decree and Order of sale in the above entitled matter, made by the Judge of the District Court of Eddy County, New Mexico, on the 15th day of March, 1925, in which Decree and Order, I was appointed Special Master to sell the hereinafter described real estate and personal property, I shall expose for sale and sell at public auction to the highest bidder for cash at the Front Door of what is known as the Powell Black-Smith Shop in the Town of Hope, Eddy County, New Mexico, on Saturday the 28th day of November, 1925, at the hour of 10 o'clock in the forenoon of that day, all the right, title, interest and claim of the Estate of Noley Powell, Deceased and all the interest of the heirs of said Estate being the Defendants, Ida Teel, Nina Dunn, Herman Powell, Ruiel Powell, Allene Powell, Ray Nell Powell and Nellie Powell, widow of Noley Powell, Deceased, and each of them, in and to the following described property, situated in the Town of Hope, Eddy County, New Mexico, and more particularly described as Lot 7 in Block 1 of the Original Town of Hope, New Mexico, and the improvements thereon and all the tools and equipment belonging to or connected with the Black-Smith Shop, located on the above described lot.

That said sale will be made for the purpose of paying the indebtedness of the Estate of the said Noley Powell, especially the mortgage indebtedness against said property, amounting to \$612.63, with interest thereon at the rate of 10% per annum from the 15th day of March, 1925.

Given under my hand as such Special Master, on this 15th day of September, 1925.

N. L. JOHNSON, Special Master.

NOTICE

In the Probate Court of Eddy County State of New Mexico.

IN THE MATTER OF THE ESTATE OF JOHN POLLARD, Deceased.

No. 523

TO WHOM IT MAY CONCERN:

Notice is hereby given that C. E. Mann of Artesia, Eddy County, New Mexico, has filed a petition praying to be appointed general administrator of the estate of John Pollard, deceased, and that by order of the Probate Court of said County the 4th day of January 1926 at the hour Room of said Court in the city of Carlsbad, New Mexico, is the day, time and place set for hearing said application.

THEREFORE any person or persons wishing to enter objections to the appointment of the said petitioner as administrator in the estate of John Pollard, deceased, are hereby notified to file their objections in the office of the County Clerk of Eddy County, New Mexico, on or before the time set for said hearing.

Dated at Carlsbad, New Mexico, this 15th day of October, 1925.

(S.E.L.) G. W. SHEPHERD, County Clerk.

A LONG STORY

Bones—"What did your wife say about you're being out so late the other night?"  
Jones—"Don't ask me yet. When she gets through with the subject, I'll condense it for you."

AMOUNT DELINQUENT TAXES COLLECTED

Just how much of its taxes each county is collecting is shown in the following statement by Chief Tax Commissioner J. E. Owens.

The first column gives the average collected for the four years of 1920 to 1923, both inclusive, in terms of percentage, and the last column the percentage of the 1924 taxes actually collected.

	Four Year Average	1924
Bernalillo	95.12	86.63
Catron	86.74	67.84
Chaves	92.08	82.21
Colfax	93.65	89.92
Curry	95.25	87.50
De Baca	90.63	82.91
Doña Ana	94.12	88.50
Eddy	94.20	79.57
Grant	98.51	98.35
Guadalupe	92.63	88.43
Harding	86.19	62.28
Hidalgo	97.03	95.03
Lea	95.33	77.56
Lincoln	93.32	83.75
Luna	95.45	94.95

Note: Above percentages are as of August 31 in the following counties: Harding, Lea and Sandoval.

BANKERS HELP

The banks of Linn County Oregon, are showing more enthusiasm than ever this year in behalf of a county corn exhibit similar to that held last year at the Linn County Fair. Last year's exhibit was the result of a contest for a prize offered by a number of local banks. This was so successful that this year ten out of the eleven banks in the county will subscribe to the effort.

The Agricultural Committee of the Alabama Bankers Association has recommended that a scholarship fund be established for the education of worthy young men and women along agricultural and home economics lines. It is estimated that if each bank in the state were to contribute 25 cents per thousand capital, five to six thousand dollars per annum would be realized.

The Agricultural Committee of the Oklahoma Bankers Association, in its report, recommends that the bankers see that a competent agent is appointed in each county and that he has a degree from some agricultural college. They believe that the agricultural possibilities of the state should be better advertised and that each county bankers association should do some work along that line.

Searcy County Bankers Association, Arkansas, entertained as its guests recently some seventy-five farmers and business men. The result was the organization of the North Central Arkansas Agricultural Association. Its purpose will be to co-ordinate the efforts of the farmers and business men in promoting a better agriculture. Searcy County bankers are giving 100 settings of purebred eggs for distribution to the boys' and girls' clubs in the county.

H. S. Mowrer, chairman of the Agricultural Committee of the New Jersey Bankers Association, together with H. J. Baker, director of extension work in the College of Agriculture, made a complete tour of the state this spring, calling on the county agents and agricultural committees of the various county organizations to get a definite line-up on the work done and the plans for the coming year. Ways and means for furthering the program of the state committee were considered at these conferences.

PRACTICE MAKES PERFECT

A barber reported to work two hours late.  
"What's the big idea?" demanded the boss.  
"I'm sorry," replied the barber, "but while I was shaving I talked myself into shampoo, hair cut, and massage.—Good Hardware."

The Better Buick is a Man-sized Motor Car

People appreciate a smart-driving, easily-handled but full-sized, man-sized car. The Better Buick for instance.

Each Buick model seats its capacity of full-grown people—in relaxed ease—without cramped legs or necks. Tall people, especially, enjoy its extra head-room and leg-room.

American men and women are above the average stature. And a smaller car than Buick is apt to be tight-fitting, low-ceilinged, crowded!

Drop in and try the ample, arm-chair comfort of a car that is right in size. Bring some of your sporty friends. You will find another big reason why Buick is so widely considered a better motor car—another reason why there are a million more enthusiastic Buick owners.

Or telephone, and we will send a Better Buick to your home or office for you to try.

**Daddy's Evening  
Fairy Tale**  
By Mary Graham  
Bonner

**MRS. CUCUMBER GREEN**

Her name was Mrs. Cucumber Green. She had another name, too. Margaret was her other name. She had been given that name when she was a baby and she had had nothing to do about it. She had given herself the name of Mrs. Cucumber Green and that was the name she liked to be called. She always called herself by that name and so did her "pretend" neighbors. The "pretend" neighbors were so nice. She always did the speaking for them and so they never made mistakes in her name.

A Play Kitchen.

Her big home was in a big house but her special home was back of the bed. There was a space between the back of the bed and the wall, quite a long, and quite a wide space. She called this Number Four Green Lane.

On the wallpaper were little painted houses and her "pretend" neighbors lived in these. They used to talk to her. She changed her voice so they could do this.

"How-do-you-do, Mrs. Cucumber Green?" Then she changed her voice so it was just like her own.

"Very well, indeed, I thank you," she answered.

"And are the children quite well, Mrs. Cucumber Green?"

"Quite well, I thank you," she answered again. "Only," she added, "I am a little bit worried about Robbie. He caught a cold yesterday and I do hope it don't get worse."

"Dear me, that is too bad," the neighbor said, sadly, shaking her head.

"Well, I do hope I won't have to give the dear child a dose of castor oil," Mrs. Cucumber Green said. "If I have to do that I have two chocolates to give him for taking it. But I shall not give it to him unless I have to do so. I always think it is so unkind to give a child castor oil unless he is very, very sick."

"Just the way I feel about castor oil," said the neighbor.

"And are the other children well? I think you said they were?"

"Oh, very well," said Mrs. Green.

Now Mrs. Cucumber Green was just four years old. It was a most perfect age. It was such a nice, round, complete age. Next year she would be five. She was "going on" five now. She had been given a set of pink dishes for her birthday, and a big cloth cat. The cat had to be leaped up against something or he would fall down. She had already given the cat a fine name.

Lucifer was the cat's name, named after a big cat who lived across the street. The big cat's mistress used to call out for him.

"Lucifer, Lucifer, Lucifer, Luc-fer!" She was going to have a party in the afternoon so she was very busy dressing the children during the morning. It was hard to decide just which clothes they should wear as they had quite a few nice clothes.

Of course Gyp, the darling little gray dog stuffed with sawdust, didn't need to be dressed, except that there was a blue ribbon to tie around his neck.

Neither did Johnny Naples have to be dressed. He always wore the same suit, summer and winter, for best and for every day. His suit was a bright worsted one of many colors and as he had come all the way from Naples, which was way across the sea, she had given him the name of Naples.

Her uncle Johnny had given him to her and so she called him Johnny, too.

But most important of all was the dressing of Allie Baa. Allie Baa was a rag doll, the most adorable, wonderful rag doll in the world. Her body was just the right size for hugging, and though her painted face was kissed until it was quite dull, still every year or so Allie's face could be re-painted.

That was not her whole name. Her whole name was Alice Gustava Ariel Star Jewel Bright Carol Carmen Cucumber Green, but it was easier to call her Allie Baa for short.

With grown-up mothers it was much nicer that they didn't have favorites with their children. Grown-up mothers should never have favorites and so they were very good about this. But when you are a "pretend" mother you can have favorites. That is one of the nice things about being a "pretend" mother.

Allie Baa was Mrs. Cucumber Green's favorite child. The others were very kindly treated, and they were loved, as all children should be. Mrs. Cucumber Green knew that.

But Allie she adored!

**LOCALS**

Ike Keller and family visited relatives at Hope Friday.

Born to Mr. and Mrs. Ben Dunn Friday, October 3, a son.

Mrs. Reser went to El Paso Monday on a short business trip.

Mr. and Mrs. Earl Whittecar, of Hope, were trading in town Monday.

The Misses Vera Madge Eaton and Evelyn Stone visited friends in Roswell Sunday.

W. C. Powell, of the Upper Cottonwood community, was a business visitor here Saturday.

Frank Howard of the Cottonwood community was attending to business matters here Monday.

Oscar Samelson and Billy Wirt drove over to Santa Fe the last of the week and spent a few days.

Mrs. R. L. Collins, of Carlsbad, spent the week-end here with her parents, Mr. and Mrs. S. G. White.

Mrs. Oscar Bullock and baby are spending this week with her parents, Mr. and Mrs. J. F. Bauslin, at Hagerman.

Mrs. Royce Garrett, of Roswell and Miss Frances Prince, of Clovis spent the week-end here with Mrs. Margaret Ellis.

Mrs. Fred Clayton and baby, who had been spending a couple of weeks here with Mr. Clayton, left Monday for their home in Albuquerque.

Mr. and Mrs. C. Bert Smith came home Sunday from Albuquerque, where they had been visiting friends since the meeting of Grand Lodge.

The last cutting of alfalfa in the Cottonwood community will soon be finished, according to L. R. Buck, who was a visitor in Artesia Saturday.

Mr. and Mrs. R. B. Dixon (Bethelgene Stagner) have announced the birth of a daughter at the city hospital in Phoenix, Arizona. The little lady bears the name of Virginia Clare.

Mr. and Mrs. Fred Knowles returned Monday from a two months' stay at Belle Plain, Kansas. It was impossible to keep Fred in Kansas now that ducks are flying south and the deer season is at hand.

C. A. Sipple and wife, Ray Sipple, wife and little son, and Lee Myers, wife and baby, who have been spending the summer on the Sipple ranch at Haxtum, Colorado, are expected in a few days to spend the winter here.

Edgar Williamson will leave the last of the week for Arizona, where he will spend the winter. His sister, Miss Jeanette, will spend the winter in El Paso, Texas. Joe Stevenson, cashier of the Ohio Oil Co., and family are occupying the Williamson house.

**STAGE LINE RATES**

The state corporation commission expects to require motor stage and truck lines to publish their rates, by filing them with the commission, following Assistant Attorney General James N. Bujac's ruling Saturday that they are common carriers and subject to regulation by the commission. The commission may impose other regulations. When the rates are published they cannot be changed by these lines except on 30 days' notice, unless the commission approves it. This rule now applies to all railroad rates. Stage lines have been filing tariffs in a half-hearted fashion heretofore, according to Al Roughton, rate clerk of the commission, but no truck lines have ever published any rates.

### SIX WELLS ADDED TO PRODUCERS DURING WEEK

(Continued from page one)

Dome to the west, was given a 200 quart shot from 2045 to 2084 feet, this being run by the American Glycerine Co. The bottom of the hole in this producer was carried to 2095 feet. After cleaning itself the well made a large flow within five minutes and was then turned into the tanks. After flowing 260 barrels in the first twelve hours the swab was put to work this bringing 460 barrels in twenty-four hours. According to a report the seven producers on this property are averaging 150 barrels daily with the No. 1 being a very small well.

Snowden-McSweeney also completed their No. 3 in Sec. 33-18-28, in the south end of the field which was shot with 110 quarts by the American from 2007 to 2021 feet the bottom of the hole being 2053 feet. While no gauge has been taken it appears to be the best completion on that property and will probably be good for around 75 barrels.

In Sec. 17-18-28, the V. K. F. Oil Co. have a good well in the No. 5, located on the east side of the lease and which appeared like a small producer when shot. Cleaned out and put on the pump the No. 5 has been making close to 168 barrels daily. The No. 3 on the same property has slightly increased its production, it having been cleaned of 60 feet of cavings and squibbed to burn out the paraffin.

In the same section the Williams Petroleum Co. have completed their No. 2 which was bumped with 200 quarts from 2025 to 2160 feet with the bottom of the hole at 2180 feet. Cleaning out has almost been completed and the well will be good for around 100 barrels.

The Dancier Oil & Refining Co. will materially increase their production with the shooting of the No. 3 and No. 4 Kaseman in Sec. 4-18-28, both of which are standing with considerable fluid in the hole. The No. 3 has stopped drilling at 2290 feet with the No. 4 at almost the same level. The pay in the latter was encountered from 2251 to 2265 feet.

Indications are that the Ramage No. 1 well will make a good pumper after the hole has been cleaned out. Following the shot the well was put on the pump making 7 barrels an hour for the first twenty-four hours, this lowering the fluid to the top of the sand. While no accurate gage has been reported the Ramage it is believed will do around 40 barrels.

Southwest of this test interest is now centered in the Cheesman-Balard-Clark No. 1 on the Grace Massey permit which is now drilling at 1640 feet. A pink shale picked up in this test at a depth usually encountered in the proven area is looked on as a good indication.

South of the Massey permit well a distance of two miles, work has been resumed on the Bailey-Cragin No. 1 on the Randolph permit which made a small producer at 2500 feet. The hole is now down 2530 feet it being the intention to go to the 2700 foot sand encountered in the Goodale well. This latter is now classed as a gasser making close to a million feet daily.

One of the most interesting deep test of the field was started this week, being the Wooley-Jones No. 1 in SE corner Sec. 33-17-30, starting with a 20-inch hole, standard rig and tools, Steelsmith & McCann, contractors.

This will be watched with much interest as this locality has been highly recommended by geologists.

### MISSIONARY SOCIETIES MEET HERE THURSDAY

(Continued from page one)

At noon the ladies of the church served a splendid dinner in the Sunday school room. The tables were beautifully decorated with fall flowers and the one at which Mrs. Little, the presiding officer sat, was adorned with a wonderful birthday cake with quite an array of candles. The cake was in honor of Mrs. Little, whose birthday it happened to be.

The session closed at four o'clock, at which time the birthday cake was cut and served with coffee to the visitors, before their departure for home, and also to all others present. It was a very pleasant ending to a very successful convention.

Those from out of town were: Roswell—Mesdames Petty, McCune, Brenneman, Rowell, Davis and Baty and Rev. Cochran. Dexter—Rev. and Mrs. Hatfield and Mrs. Stanley. Hagerman—Rev. and Mrs. Lee, Mesdames Luke, Gage, Campbell, Floto, West and Givan and Miss James, the recording secretary of the convention. Hope—Mesdames Moon, Coffin, Santo, French and Anderson. Carlsbad—Rev. and Mrs. Gaston, Shattuck, Kindle, Grantham, Regnier, Little and Quinn. Pecos—Mrs. Ben Randals.

### NEW TIME TABLE

Definite announcement of a new time card on this division of the Santa Fe is expected within a few days. At a meeting of Santa Fe officials held in Topeka, Kansas last Saturday the matter in a change of schedule on the Pecos valley division was taken up and some changes were made. However the changes are being kept strictly secret and will not be made public until the latter part of this week.

Advocate want ads get results.

### MRS. KORA MEACHEM WELFARE WORKER, IS AN ARTESIA VISITOR

Mrs. Kora Meacham, of Albuquerque, Vice-Pres. of the State Board of Public Welfare, was a guest of the Rotary club at Tuesday's luncheon and made a short talk on the various phases of her work. Mrs. Meacham's visit to Artesia was primarily in the interest of the Red Cross Christmas seals, placed on sale each year by the various civic organizations of the community. Funds from the sale of Red Cross Christmas seals are used to help the tuberculars.

Mrs. Meacham, who was accompanied to the Rotary club by Mrs. Hartell, also visited the schools while here.

The sale of Red Cross Christmas seals this year will be under the direction of the Woman's Club and the Parent-Teachers' Association.

Mrs. Meacham has played a prominent part in social welfare work over the state for a number of years. At present she is also connected with the State Tribune in the capacity of editorial writer for the "woman's page."

### "BULL DOGS" DEFEATED FRI.

(Continued from page one)

Black (Baylor University, Waco, Texas) Head-linesman.

### ARTESIA NOW HAS MANY RESIDENCES UNDER WAY

(Continued from page one)

ments have long been engaged and the west building is already occupied by Mr. and Mrs. Bowers and Mr. and Mrs. Reuben Paine. Mr. Kennedy and Mr. Cheesman have rented the east building.

The new Presbyterian Manse was finished the last of the week and the pastor, Rev. Jones, and family took possession of it Monday. It is also a very desirable home, consisting of six rooms besides the bath, etc. The very large living room is thrown with the dining room making a fine place for the pastor and his wife to entertain the members of his flock at the social affairs of the church. It is built in bungalow style, has hard wood floors and modern conveniences. Its position next to the church makes it most convenient.

Dan Eipper has just completed a nice addition to his home at the corner of Roselawn and Quay street. Another duplex that is virtually completed is that, which Mr. J. F. McMains has constructed for himself and Mr. Graffa, just west of the Yates apartments on Dallas street. These apartments also consist of a living room, kitchen, bedroom and bath, etc. The house is bungalow style and will make two very attractive homes. The two families expect to move into it the last of this week.

The Artesia Building Association has just finished a modern three room stucco dwelling on Rose Lawn. S. W. Gilbert is completing an adobe residence on Richardson Avenue. R. V. Young is building a modern six room residence on Eighth and Texas streets. The Illinois Pipe Line is completing a modern stucco adobe residence on the south side of the City Park for the local manager, Mr. Perry.

Woodstock typewriters for sale—Advocate Office.

### EMMONS DAY

The following clipping taken from the Sturgeon, Mo., Leader, about S. P. Emmons will no doubt be of interest to many readers. Mr. Emmons, who has visited Artesia a number of times, is the father of Mrs. Martin Yates.

Mexico—S. P. Emmons, president of the Mexico School Board, began his sixty-first year of consecutive membership in the Methodist Sunday School here October 18. The day was observed as "Emmons Day" by the church, with special services. Since 1864, when as a 17-year-old boy he entered the Sunday school, he has served in some official capacity, and for years was superintendent.

### LEGION AUXILIARY MEETING

The November meeting of the Auxiliary will be held at the home of Mrs. Dan Eipper next Monday afternoon at half past two o'clock. A good attendance of members is hoped for.

We have a complete line of samples of social stationery—Artesia Advocate.

### DANA GARDNER MUNRO

Dana Gardner Munro, State department expert on Central American affairs, has been assigned as secretary of the American legation in Panama. Doctor Munro's home is in Princeton, N. J. He attended the University of Wisconsin and University of Pennsylvania and before entering the diplomatic service studied Central American affairs on the ground for two years for the Carnegie Peace endowment. He has been assistant chief of the division of Latin-American affairs, State department.

### AMONETT DEFEATED

Edd Amonett, golf champion of New Mexico, emerged from his fray with Walter Sikes, champion of the Panhandle section, six down in 36 holes. This in substance means that Amonett lost 6 holes to Sikes at Amarillo, all of which he must overcome if he is to defeat Sikes in the 72 hole match when the final 36 are played in this city.

The Roswell golf players returned from Amarillo and they are unanimous in saying that they had one of the greatest times of their lives, being royally entertained by the Amarillo golfers whom they describe as the finest bunch of fellows they ever met.—Roswell Record.

### APRON BAZAAR

The ladies of the Presbyterian Aid Society will hold an Apron Bazaar in the Joyce-Pruit hardware store next Saturday afternoon, beginning at two o'clock. Cakes, pies and doughnuts will be sold in connection with the Bazaar.

We have a complete line of samples of social stationery—Artesia Advocate.

### THROUGH CABLE LINKS CHICAGO AND NEW YORK

Telephone Engineers Complete Work on World's Longest Continuous Line

The New York-Chicago telephone cable, the last splice of which was made at Swanton, O., nineteen miles west of Toledo, on August 11, is the longest telephone cable in the world. It is 661 miles in length, more than twice that of the length of the telephone cable which runs from London to Edinburgh and which is only 400 miles long. In America, the nearest approach to the New York-Chicago cable in length is the underground line of 452 miles connecting Boston and Washington.

Glistening in the sunlight like a giant thread, running sometimes along the highways and at others over mountains, through forests and across rivers, the new cable passes from New York over the Orange Mountains in New Jersey to Reading, Pa., thence to Harrisburg, where it swings southward to Shippensburg and then climbs the Alleghenies on its way to Pittsburgh. Swinging once more northward, it goes through New Castle and Cleveland to Toledo, and from that point runs almost due west to Chicago.

This new aerial cable represents one of the most important telephone developments of recent years. It is designed to meet the ever-increasing demand for telephone toll service and is virtually free from storm damage and particularly from sleet storms. As it stands completed, it gives assurance of a service capable of being expanded to meet future needs.

The cable has required seven years to build. It provides more than 250 telephone circuits, and more than 500 telegraph messages can also be sent simultaneously with the telephone conversations. To provide facilities for the same number of telephones and telegraph circuits by open wire construction would require about ten heavily loaded pole lines of the usual type.

### NEW MEX. ALTOGETHER

(Kyle S. Crichton)

It's a great year for New Mexico cotton, if the holler from Roswell and Las Cruces for cotton pickers means anything. The chambers of commerce of those places have been pleading for help. On top of that Dr. R. F. Hare, agricultural statistician, says this year's New Mexico crop will bring approximately \$7,500,000. 60,000 bales of cotton, averaging 500 pounds to the bale, will be produced, says Dr. Hare, and 30,000 tons of cotton seed will be produced out of the 60,000 bales of cotton. Who says things aren't looking up in New Mexico.

Edward L. Doheny, who prospected over every mile of country in southern New Mexico in the eighties and now is about the richest oil man extant, has at last begun to take interest in New Mexico oil. He now has holdings in the Farmington fields, and was on his way up there last week. At the time he was going through Albuquerque there was a meeting at Atlantic City of the American Gas Association with Henry L. Daugherty, of New York, saying there was a "truly alarming" situation existing with regard to the scarcity of this country's supply of natural petroleum oil. Putting two and two together it would seem that the big oil men were going to have to find new fields. The old ones are wearing out. It may be New Mexico's chance for big development.

1500 yearlings and 500 two and three year old steers were sold last week at Alamogordo from the Mesalero Indian Reservation to the West Pyle Cattle Company of Marfa, Texas. The Mesalero cattle brought top prices, the yearlings going for \$30.80 a head and the two and three sold for \$6.16 per cwt. or approximately \$52 a head.

The New York World of Sunday, October 10, carried an interesting article on D. H. Lawrence, the noted English writer, by Kyle S. Crichton, whom you may have heard of. It told of Lawrence's ranch fifteen miles north of Taos, which he came to as the ideal place to live after traveling over most of the inhabited earth in search. Lawrence also tells of the ranch in his latest novel, "St. Mawr." After living in England, on the Continent, in Africa, Asia, Australia, Mexico and other parts of the United States, Lawrence decided to settle down in New Mexico as being miles beyond any of the others. Its such things as that that are going to make New Mexico famous. Why don't you say a few good things for it on your own behalf.

Ticket agents at all Santa Fe railroad stations have received instructions concerning the Indian Detour of the Santa Fe-Fred Harvey systems which will be inaugurated May 15, 1926. Passengers west bound who wish to take the motor trip leave the California Limited at Las Vegas, go by motor to Santa Fe, Tesuque, Santa Clara, San Juan, Santo Domingo and Puye. At noon the third day they board the train at Albuquerque. Passengers east bound reverse the trip.

The Santa Fe-Fred Harvey systems are going to develop the Indian Detour as the Grand Canyon was developed. It is the greatest step forward for New Mexico in years. It means that people who have never had any impression of the state save what they got from the train window will not get into the interior of the state and get an idea of its vast resources. It should add millions of dollar of capital for new investments here.

### BRATTON HAS BILL TO MAKE LEASES VALID

United States Senator Sam G. Bratton's first bill in congress probably will be a measure, on which he is working now, to validate all oil and gas leases sold by the state land office without advertising.

"I am going to go slow at first and I'm not taking back a whole armful of bills to start with," said he today when asked whether he had any legislation in mind. He expects to leave for Washington about the first of the month.

Leases issued without advertising have been held constitutional by the state courts, according to Senator Bratton, but there is a question among lawyers as to whether the federal courts would take the same attitude. If he can get his bill through this question would be eliminated.

Speaking of the necessity for such legislation, he said he knew of a prominent attorney who recently refused to pass an assignment of a 140,000-acre lease in the Artesia oil field, a lease originally granted without advertising, on the grounds that it might not hold water in federal courts if attacked there.

Senator Bratton expressed the opinion that one of the first questions congress should take up is the public domain, saying that this is vital to the livestock interests of the southwest.

### Information on Winding Form for Square Coils

The experimentally inclined radio fan can make ready use of the coil winding form illustrated herewith. The resultant coil will have a square form of perfect shape and offers another type of coil for measurement. The constructional details of the winding form are simple and the form itself is not difficult to construct. It is adaptable to all sizes and the material for its construction is readily obtained.

Cut Tube Into Equal Parts and Fasten as Shown.

To construct the form follow the directions. The sides of the square are equal to the diameter of the tube. The length of the coil is governed by the length of the tube before it is cut. Cut the tube into two equal parts and fasten as shown. The winding form is completed.

### LAS VEGAS WILL ANOTHER BANK

East Las Vegas, N. M. state bank will enter the business in Las Vegas with the Meadow City Bank, capitalized at \$50,000 and \$25,000 plus by J. I. Staley, of Wichita Falls, Texas, and of associates also interested in the bank. The bank was announced Tuesday. The bank will be J. I. Staley, Wichita Falls, president; Y. W. Case, Frederick, Oklahoma; John H. Leathermaker, N. M., and Miss Coschman, East Las Vegas.

The new bank is expected about December 1.

Announcement was made Tuesday that the Las Vegas National Bank application for a charter here is fully signed and filed with the comptroller of currency of the National Bank of Wichita associated with L. R. Hurst of the Red Star Mill and other capitalists. The capitalization of the bank has not been announced.

The organization of the bank brings the total of banks in the territory which was set up in 1922, four of which came defunct during the depression during the past

## Foot Comfort Demonstration Nov. 1

Foot troubles are universal. Government records show that 7 out of every 10 adult people have some foot trouble.

You are probably a victim of foot trouble if you may be only a corn, a callous, a bunion or a serious trouble such as weak and broken-down feet. You might not know the nature of your trouble until you know that your feet ache, pain, and get aching on the slightest provocation.

### FOOT COMFORT EXPERT

Come to our Foot Comfort Department on date and get a Free Demonstration. There's nothing like this valuable service. This work is in the hands of a Special Demonstrator from The Scholl Mfg. Co., an opportunity that every foot sufferer should take.

### FREE PEDO-GRAPH PICTURE

In a few seconds' time, without removing your shoes, you can make a photographic print of your feet. It positively shows if you do have foot troubles and at what stage the trouble has progressed. This service is absolutely free and places you under no obligation.

### FREE SAMPLES

Do you want to know how to stop corns and blisters? Come in and get a sample of our Zino-pads. They remove the cause of corns and pressure. Thin, antiseptic, healing.
