It multiplies man- after the rush season is over. The public generally is power not only in the enthusiastic worker, but in those too leary of the shysters methods to be caught in any about him, as well. It is contagious. It breeds ideas, trap laid, but there is always a number of people, who envelope for subscriptions—it is creates initiative, and results in effective work that unsuspectingly fall a prey to their cunning methods liable to be lost-send a money ordof offering something for nothing.

Vendors of this sort are not legitimate competition A BRIEF SUMMARY OF ECONOMIC CONDITIONS of the local merchants and it appears to us that both the public and the merchants should be afforded some protection. We believe that a prohibitive occupation tax, would stop at least part of their pernicious acticultural situation" published by the U. S. Department

of Agriculture, will give an idea of economic condi-Vendors of this sort, however, are very forgetful and will forget to pay their rent, light bill, board bill "Except for some cotton still to be picked and some and occupation tax unless reminded. For this reason we believe that the officers should be especially watch-More land was in crops than last year. Yields per ful in seeing that the said vendors enrich the coffers of acre were slightly better than last year and better than average. Total crop production was 7.6 per cent above the city tion tax. the city treasurer at least the amount of the occupa-

ODD BITS OF NEWS

Mrs. William Headly of Pierpont, Ohio, has given the 10 year average. Agricultural expansion must be Birth to three sets of twins in three years. Five of the twins are girls.

In a recent decision at Wichita Falls, Texas, the some of the important crops were larger than average judge of the juvenile court, recommended a juvenile and some smaller. Potatoes, for instance represent training school for young girls, who had committed the first offense.

At Phoenix, Arizona the mysterious disappearance nuts, and grain sorghums are large crops. Cotton, hay, of several colonies of bees was finally solved. Skunks had eaten them. Examinations of the stomach of one narriso about average crops. Cabbage and onions are short skunk revealed 265 bees.

The department of commerce finds that the average motorist used 227 gallons of gasoline during the first six months of 1928.

A Denver judge called a defendant arraigned before him on charge of drunken driving, a liar.

A book printed on paper from corn stalks, was recently issued in New York. The object was to demonstrate the use of farm waste products in industry.

Two centenarians, natives of New Mexico, died re-

cently at Las Cruces. Lion Zamora claimed to be 106 years old while Mrs. Maria Armijo, a full blood Navajo Indian was 122 years of age.

Some people are leaving here for other places, and some are coming here from other places—the number being about equal.

ed a sunt and E. B. Bullock, area commissioner gave a short talk. The early part of the program was devoted to a few enjoyable musical numbers which consisted of a cornet solo by Jessie Carroll Paris and a cornet duet by Johnnie Bill Collins and Jessie Carroll Paris.

INSIDE INFORMATION

Select a young turkey weighing Wipe the inside of the turkey and sprinkle with salt and pepper. Fill the cavity with hot stuffing, but do not crowd the stuffing in tightly or it will not have the light fluffy con-Tuck the legs into a band of the not fall out or become moist when the breast bone and put the turkey a small quantity of water in the hour or longer, until the turkey is baste the turkey with the drippings one side and then on the other during the cooking so that it browns well all over and the breast does not become too brown or dry. A good way to test a turkey for "doneness" is to pierce one of the legs near the breast bone. If the liquid does not show a red tinge, the turkey is ready to serve. Another test is to lift the wing and see whether it would be easy to disjoint in carving. Place

Candlewax stains are often found festivities. They usually consist of paraffin colored with pigment dye. Much of this material may be scraped spot may be sponged with wood al-
