## THOSE WHO FALL BY THE WAYSIDE

The closing of school, the time of the year most students look forward to will soon be at hand. No doubt many of the students have already begun to make plans for next year. It is assumed the majority of the graduates will enter institutions of higher learning, next fall, while the schools doors will be closed for a number of High school and grade school students, who will enter the university of hard knocks. Some will try their hand at making a living because they are forced to, others will enter the business world of their own volition. Statistics show that the percentage of high school graduates is increasing each year, notwithstanding that a large proportion fall by the way side. It would be interesting to know what the pupils of the city schools will be doing in 1930.

You hear a great deal about the so-called self made men; those who have risen in the world through their own initiative. There will always be men of this type, but according to many authorities their numbers will decrease for conditions ten, fifteen or twenty-five years ago are not the same as they are to-day. The tendency appears to be very definitely toward the school trained man in all of the more desirable situations in the world. The future of our industries depends more on the brain power available to work on the industry's problems than on the rapid strides we have made in machinery and inventions. For as highly productive as our industries may be they are profitable to the owners only as long as they are skillfully managed.

## FARM LEGISLATION

The major task faced by the call session of the legislature at Washington is farm legislation. Whether or not a beneficial measure will be enacted remains to be determined and this can be best done when the proposed measure is given a trial. The general public has been more or less leary of a legislative panacea on account of the political feature of a measure of this sort. Well intentioned remedies may prove disastrous in the end, if the politicians are allowed to make political capital out of it. We hope that the farmer won't be made the goat in this case. Time will tell.

The greatest difficulty has been here-to-fore that the farmer lacks the power of concerted action and the ability to organize and stay organized. These factors have proved a stumbling block to the farmer helping himself.

Chief among the needs of the farmers of this section is more diversification, a stabilization of farm values and farm lands, a low rate on farm loans to encourage home ownership, a more intimate knowledge of the acreage of the respective crops and more especially cotton and providing means of financing the farmer in specified instances.

If the farm measure will bring about a cure for these economic agricultural ills, then we are for it.

## VALUE OF FORESTS

In speaking of Forest Week, which was last week, the State Tribune says:

Conservation of forests is a gigantic business in New Mexico. Welfare of this southwestern country is intimately bound up with duties of the forest ranger. For instance about one-fifth of Arizona and New Mexico is timbered.

In New Mexico there are more than eighteen billion board feet of saw timber. This estimate includes all lands, federal, state and private. New Mexico and Arizona consume more than 400 million feet of lumber annually. As forest officials point out, the need of keeping forests producing to capacity is fairly obvious.

The timber harvest in District Three is \$7,000,000 annually in lumber. Labor receives at least half of this income. More than 272,000 head of cattle and horses use forest ranges, more than 526,000 head of sheep and goats.

## OUR POLITICAL FRIENDS

The Farm and Ranch remarks that a few days ago the Department of Agriculture sent out information on acreage of the various crops except cotton, based on the intention of the farmers to plant. A farmer may know something about how to govern his planting operations on all crops, save cotton. After the cotton is planted, the government is permitted to give the figures, but such information is more value to the gamblers than it is to the farmers.

Along with the Yard and Garden contest, it would not be amiss to stage a clean up campaign, in order to get the best results from the former. Prosperous communities are finding that it pays not only to clean up, but to paint up. We would not only make Artesia a beautiful city, but a clean city as well.

Don't forget to plant plenty of vegetables this year.

# The Town Doctor Says

MOTOR TRAFFIC VERSUS FACTORY PAY ROLL.

There is no denying the value of factories to any community. New industries and more industries should be constantly strived for but many cities overlook or fail to recognize the real value of automobile traffic.

There are thousands of cities and towns with a population of from 10,000 to 40,000 with an average of 25,000 tourist cars per week (cars more than 100 miles away from their home garage). The potential cash value of 25,000 such automobiles per week amounts to an average of \$26,000.00 per town, regardless of the size of that town. The business secured from this mode of traffic is good business; the money is good money. Merchandise purchased by those comprising the motor traffic is always a cash transaction; goods once purchased are seldom, if ever, returned or exchanged, and there is less over-head per individual sale. But it is not only the amount of business or the amount of money that is to be considered when a comparison is made with a factory pay roll.

Thirty per cent of a factory pay roll is spent outside of the town through purchases made by mail, going to the next nearest large town to purchase, and other known practices that keep the earned cash out of local circulation. It has been stated that a dollar of outside money is worth one dollar and ten cents of inside money. Therefore, a town located on a highway, or highways that carry an average weekly traffic of 25,000 cars, has in that traffic a cash asset equivalent to a factory town with a payroll of approximately \$2,000,000 annually.

It is true that factories bring new people to town, but so do highways; in fact, 20 per cent of the motoring public is in the market for or can be sold a new location. The publicity value obtainable from the average factory that can be secured is nothing compared to the publicity and good will that can be obtained through the motorists.

In the past, cities, communities and towns have offered all sorts of concessions and inducements to obtain new factories and no doubt there will be many towns that will continue to do so. There are many communities who lay claims to the fact that they will not offer concessions, but in most cases, the temptation is too great, it seems, and when it comes to the point that some other town in the immediate locality offers a bonus to secure a new industry, other towns do likewise: in some towns it is the purchase of stock, others the furnishing of a free factory site, free light, water or power, but in practically all cases, there is some inducement of a bonus nature that is offered.

There is a town in one of the central states that recently raised \$100,000 and donated it to a shoe manufacturer as a bonus for the locating in their town, of a factory with a pay roll of \$1,000,000.00 in ten years. Figure the per centage paid for the business, with no guarantee that the business of this particular concern would not slump, the factory thereby being closed, or that any of a dozen other things might and could happen.

This same town had a motor traffic the value of which, on a comparative basis exceeded this ten-year pay roll every year. Yet, there never had been any attempt to capitalize on it—business which was at their very door—a virtual gold mine that required only initiative and exercise of the mind to be turned into a reality.

Every city and town in the country has diligently worked, connived and maneuvered to get hard roads, but after getting them, many are sitting back with their hand folded across their laps, apparently blind to the "aces of diamonds" that these roads have made possible. This may be likened to a merchant working overtime for weeks to prepare for a gigantic sale, expending thousands of dollars in advertising to induce the people to come to the store on a specified day, and then failing to open up on the morning of the day designated.

If your town is not getting its share of this business, the reason lies within your town—it may lie with you. If your community is not getting more than its share, it is because you and your town are not going after it.

Business from motor traffic is not hard to get. Apply the same principles that a modern merchandiser applies to getting business for his store and the results will be satisfactory. It is a problem of modern business, and modern business is a problem of selling.

Your town may not have a traffic of 25,000 cars per week, but half—even one-fourth of 25,000 cars, is traffic enough to make it well worth your while to do something to get it. Get sold on the place where you live and then sell it to every motorist that travels through your community.

## "THERE OUGHT TO BE A LAW"

There is a great deal of talk about the need for law enforcement and respect for laws. Civilization cannot be maintained without general observance of the restrictions society has created to protect itself.

But something equally important, and less considered, is that there is also a crying need for laws worthy of respect.

A tremendous percentage of persons now in prison are there because of "crimes" that 25 years ago were not illegal. The life and liberty of the American citizen is hemmed in by legal structures.

Law making bodies have gone on orgies of legislation. Apparently nothing is too tyrannical or too absurd to place on the statute books. Instead of a well-ordered scientific legal code such as was contemplated by the fathers of this country, we have thousands of petty, conflicting ordinances whose enforcement is hopelessly befogged by miles of red tape and bureaucracy.

It is no wonder that many self-respecting Americans are beginning to look with a cynical eye on all laws. Despotism and illogical laws breed contempt for legislation. It is not freedom that creates anarchists, but tyranny.

Constitutional rights are disregarded by law-makers. Personal liberty is becoming little more than a pleasant echo from the past. Millions of good Americans are technically criminals.

There are hopeful signs that this modern "there ought to be a law" age of government will pass. No law can long survive the contempt of great bodies of people. As a nation we would do well to uphold our constitutional rights instead of permitting them to be smothered by bureaucracy and paternalism which destroy liberty and kill private initiative and enterprise. The majority of our people are well disposed and honest and not such morons as the politicians seem to believe.

## DAIRY BUSINESS ON INCREASE IN STATE

The dairy business in New Mexico has had a rapid growth since the first year of county agent work in the state. It was early recognized by the extension service that the dairy cow is the mother of farm prosperity, and the county extension programs have all included work with dairying. High producing cows, males from high producing ancestry and quality dairy calves have been imported. The 4-H dairy calf clubs have been a means of great progress in dairy business in several of the counties.

While no complete data are available for the period covered by extension work, the census report for 1925 shows an increase of 20,000 dairy cows over the census of 1920 in New Mexico, and an increase in average production per cow milked from 257 to 314 gallons, or 57 gallons per cow. There is still much room for improvement in economy of production. The improvement in dairy stock is going forward rapidly each year thru the work of registered bull circles, cow testing associations, and general educational progress.

While dairying has its limitations in areas where feed is scarce or high in price, it has almost unlimited possibilities in areas where feeds are produced in great abundance and at low cost. But whether the dairy problem is one of producing milk for the farm family or producing a large volume of dairy products for commercial purposes, the increase in the dairy business and the improvement, in quality and economy in production of milk and butterfat has a very important part to play in the agricultural progress of the state.

The Agricultural College and extension service are putting forth constant efforts to help in the development of the dairy business in the state. The results of this work are shown in an increase in the number of dairy cattle and dairy products each year in the state.

## More DOCTORS RIDE

on Goodyear Tires than on any other kind

Doctors cannot be delayed by tire troubles or bad roads in reaching sick patients. THEY MUST GET THERE. After years of driving on all kinds of tires, the Doctors of America have found that Goodyears are the best for safety on bad, slippery roads and for long trouble-free mileage. Millions more people ride on Goodyear tires—the result of trying all other kinds—yet Goodyears cost YOU no more.

Two gallons of barn paint in a one-gallon can

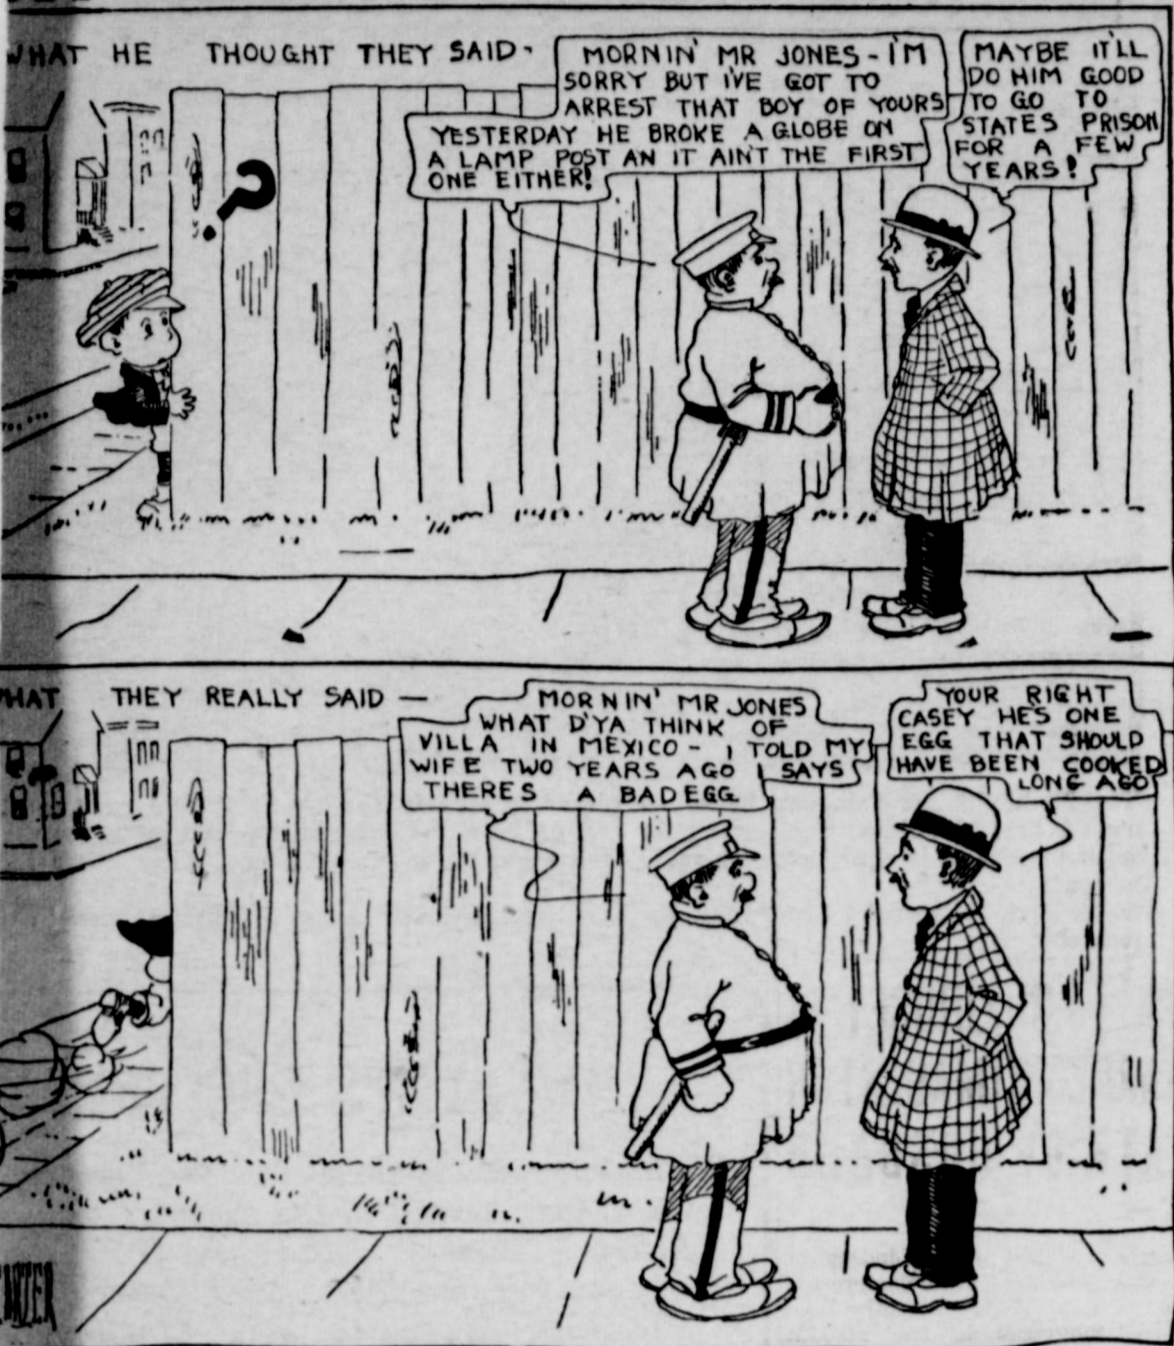

Here's how you can paint your barn at a great saving. To each gallon of LOWE BROTHERS DERBY RED BARN PAINT add a gallon of pure linseed oil. This makes two gallons of tough, wear-resisting paint.

Don't take chances on cheap paints loaded with gasoline, mineral oil, rosin, etc. Get Derby Red when you paint your barn. It's all paint—and double thick! It contains plenty of linseed oil when mixed according to directions. Low in price, too.

Before you paint, see us

**THE KITCHEN CABINET**

Western Newspaper Union. In housekeeping adds to the woman of intellect, order to a woman's accomplishments. — is a best way of doing things, even if it be to boil Emerson. **GOOD THINGS TO EAT** usual cake is the following, worth adding to your list of good things: **Blackberry Cake.**— Cream two-thirds of a cupful of butter, add one and one-half cupfuls of sugar, the yolks of four eggs and two-thirds of a cupful of buttermilk to which a teaspoonful of soda has been added. Add two and one-half cupfuls of flour, a teaspoon of cinnamon, cloves and nutmeg, add one cupful of jelly or jam, then fold in beaten whites of the eggs in layers. **Quenelles.**—Take one cupful water, two tablespoonfuls of four of flour, two whole one extra yolk, three table-spoons of parmesan cheese, two ounce of chopped cooked ham half cupful of white sauce. **Hot Noodles.**—Take two pounds of to three red peppers, one-tenth of rice, one-half teaspoonful of salt, the juice of one lemon, the veal and chop fine, chopped red peppers, mustard, rice and salt. Mix well and spoonful of the mixture in the of a cabbage leaf, roll up, tie, pack rolls in a steamer and the cabbage is tender. Remove strings and serve very hot. (tender young ones) are used of cabbage when they are in season. **Patties.**—Grind two pounds of of lamb. Form into cakes, wrap of bacon around each one with a toothpick. Fry in oil, season when well seared with pan gravy. **Maxwell**

**WILD MAN OF NEW MEXICO ESCAPED ASYLUM**

RATON.—New Mexico's wild man of the mountains Tuesday was identified at J. H. Morris, 42, of Maxwell, New Mexico, who escaped from the New Mexico insane asylum at Las Vegas on June 30, 1926, and had not been heard from since. Morris was brought here Tuesday from Dawson and lodged in jail at the request of the officials of the insane asylum who said they would send attendants to Raton to return him to the Las Vegas hospital. The man has been dubbed Tarzan of New Mexico because he had lived for nearly seven months in a mountain peak between Colfax and Dawson, with no clothing save the tattered rags he wore, and had eaten uncooked sheep, chickens and corn, stolen from the Knight ranch. He told the officers he had sought the mountain seclusion because relatives who sought to kill him were constantly on his trail. Morris was committed to the insane asylum from Maxwell on June 26, 1925. He has a wife, Mrs. Cora Anna Morris and five children at Maxwell.

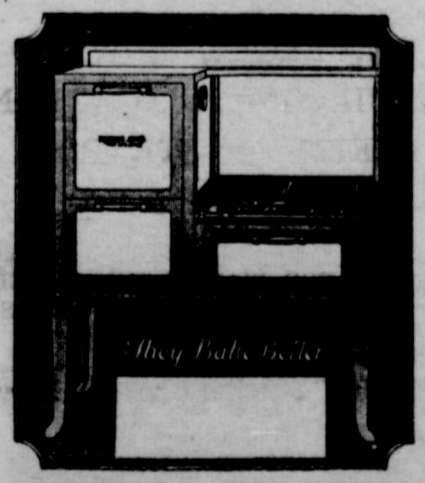

**BIG SHIPMENT OF CATTLE GOES OUT OVER NEW ROAD**

Shipment of the first cattle over the new Texas and New Mexico railroad went out last week. The shipment was made from Cheyenne, the new town in Winkler county two miles south of the state line. This was not only the first large shipment over the new road, but was the first to be made from that section of the country to Maryland, where they went for feeding. The shipment included 786 head of steer and heifer yearlings representing a part of the sale of cattle by Bivens and Morrison from the Flagg ranch, to Fred J. Hughes, of Poolville, Maryland. Mr. Hughes is leaving on the ranch 1,000 head of cows with young calves for a period of 60 to 90 days. He said that he expects to build up an active trade of cattle from this section to be shipped and sold to Maryland buyers. It was reported that the differential between points on the new line from Monohans to Cheyenne had been removed and that cattle shipments may now be made from any point on the New Mexico extension at the same rate as though the shipment originated on the main line of the Texas & Pacific.—Lovington Leader.

He—"I want to marry your daughter."  
Father—"Have you seen my wife yet?"  
He—"Yes, but, nevertheless, I prefer your daughter."

**A COOL KITCHEN AND TIME TO PLAY**

That's what you will have if you install a Detroit Jewel or a Universal Gas Range in your kitchen this summer. In addition to the automatic heat control both of these Ranges have special features. The Universal has in-a-drawer broiler and the Detroit Jewel, which has been the standard in ranges for over sixty years has the largest cooking top of any Gas Range of the same size oven.

**McClay Furniture Store**  
"Your Home Should Come First"

**GOLF**

Golf is a form of work made expensive enough for a man to enjoy it. It is physical and mental exertion made attractive by the fact that you have to dress for it in a \$200,000 clubhouse. Golf is what letter-carrying, ditch-digging, and carpet-beating would be if those three tasks had to be performed on the same hot afternoon in short pants and colored socks by gouty-looking gentlemen who require a different implement for every mood. Golf is the simplest looking game in the world when you decide to take it up, and the toughest after you have been at it ten or twelve years. It is probably the only known game a man can play as long as a quarter of a century and then discover that it was too deep for him in the first place.

The game is played on carefully selected grass with little white balls and as many clubs as the player can afford. These little balls cost from 75c to \$25.00, and is possible to support a family of ten people (all adults) for five months on the money represented by the balls lost by some golfers in a single afternoon. A golf course has eighteen holes, seventeen of which are unnecessary and put in to make the game harder. A "hole" is a tin cup in the center of a "green." A "green" is a small parcel of grass costing \$1.98 a blade and usually located between a brook and a couple of apple trees, or a lot of "unfinished excavation."

The idea is to get the golf ball from a given point into each of the eighteen cups in the fewest number of strokes and the greatest number of words.

The ball must not be thrown, pushed or carried. It must be propelled by about \$200.00 worth of curious looking implements, especially designed to provoke the owner.

Each implement has a specific purpose and ultimately some golfers get to know what that purpose is. They are the exceptions.

After each hole has been completed the golfer counts his strokes. Then he subtracts six and says, "Made that in five." That's one above par. Shall we play for fifty cents on the next hole, too, Ed?"

After the final, or eighteenth hole, the golfer adds up his score and stops when he has reached eighty-seven.

He then has a swim, a pint of gin, sings "Sweet Adeline" with six or eight other liars, and calls it the end of a perfect day.—Exchange.

## HOME ECONOMICS LUNCHEONS

The Home Economic department of the High school has been having a busy and interesting time the past few weeks, serving luncheons in which they demonstrate the many attractive and useful things which they have been learning. The recent social events were:

### The Last Faculty Luncheon

The last faculty luncheon which was given by section A of the Freshmen class. For the luncheon a color scheme of lavender was used, beautiful lilacs being the predominating flowers. The place cards were handmade and represented the departments of the teachers. On this occasion Grace Sinclair and Louise Compton were hostesses, Mattie Mann, Thelma Swisher, Janetta House, Lilla Jackson, Elizabeth Gage, Thelma Mitchell and Wilma Robinson, served the table. Lorene Carder, Evelyn Cobble, Lucretia Jackson, Margaret Nellis, Laura Schnoor and Mary Smith were the cooks and Louise Compton, Margaret Nellis and Lilla Jackson composed the decorating committee. The faculty fortunate enough to be the guests at this delicious meal were: Messrs. Kerr, Eird, Priest, Bruce, Allen, and Odum, and Mrs. Eader, and the Misses Drury, Keys, Burrows, Brown and Oakes.

### Second Year Mothers' Luncheon

The hosts for this luncheon were the second year girls. The color scheme was white and green with the sweet scented honey locust blossoms for floral decorations. The hand painted place cards were in yellow and green. Hostesses were: Verle Campbell and Mary Lynn Haley, waitresses were: Evelyn Dowell, Shirley Haulik, Virginia High, Virginia Goodell and Almer Lee Bankston, and the cooks Mae Burrows and Irene Bell.

The guests of the class were: Messdames Wilson Calvin Dunn, Campbell, Goodell, Haley, High, Kiddy and Livingston.

### School Board Luncheon

The members of the board of education were guests of the Home Economic department at the last luncheon, which occurred on Friday. The color scheme for this event was red and white, red tulips being the flowers used in decorating the table. Red tulips were also the motif for the hand painted nut cups and place cards.

Prof. Kerr acted as host on this occasion with Mrs. Kerr as hostess. The guests were Messrs. and Messdames J. E. Robertson, R. L. Paris, Fred Cole, V. L. Gates and W. E. Kerr, Mrs. Lina Manda, Dr. Puckett and Mrs. Sturman. The waitresses were: Verle Campbell, Mae Burrows, Irene Bell, Evelyn Dowell, Shirley Haulik, Virginia High and Almer Lee Bankston. The chief cooks were: Virginia Goodell and Mary Lynn Haley, who with the assistance of all the other cooks, and supervised by their instructor, Miss Ruth Morgan, prepared the following menu:

- Fruit Cocktail topped with red cherry wafers
- Chicken Pie Cranberry sauce
- Creamed new potatoes
- Macaroni and cheese croquettes
- Pickled Beets
- Hot rolls Butter balls
- Tomato salad in baskets
- Nut bread sandwiches
- Maple cream Meringues
- Salted almonds
- Coffee

### SUNDAY DINNER

Mrs. J. C. Floore entertained at a three course dinner at one o'clock on Sunday. Covers were laid for Mr. and Mrs. Fin Watson, Mr. and Mrs. Philip Kranz of Roswell and J. C. Floore Jr., of Carlsbad and the members of the family.

### THE INTERMEDIATE C. E. SOCIETY SOCIAL MEETING

The Presbyterian Intermediate Christian Endeavor Society held a delightful social evening in the church social room last Friday evening. The earlier part of the evening was spent in games, after which the young lady members served cake and lemonade. There were present: Thelma McCaw, Grace Sinclair, Jeanne Wheatley, Wallace Gates, Richard Wheatley, J. W. Collins, Fletcher Collins, Boyd Wright, Jack McCaw, Edwin McCaw and Rev. J. P. Sinclair.

### YOUNG PEOPLES' CHOIR

Mr. Dean, leader of the Young Peoples' Choir of the Baptist church pleasantly entertained the organization at his home last Monday evening. Following choir rehearsal there was a business session during which the following officers were elected: Herman Dick Jones, president, Almer Lee Bankston, vice-president, Gladys Cole, secretary and Irene Stewart, treasurer. A social time completed the evening. Mrs. Dean assisted by Mrs. Herman Jones, served refreshments of strawberry shortcake and lemonade. There were about twenty-five young people present.

### ENGRAVING AT THE ADVOCATE

## Social Calendar

TELEPHONE 217

### THURSDAY (TO-DAY)

Mens Bible class of the Baptist church will entertain the Ladies class at the church parlors this evening beginning at 8:00 p. m.

### MONDAY

The Woman's Forum will meet with Mrs. V. L. Gates at 2:30 p. m. Chester Russell, Jr., who recently returned from Porto Rico, will have a place upon the program, giving a talk about that little known island.

Library Board meeting at the Library at 3:00 p. m.

### TUESDAY

The Idlewhites Bridge club will meet with Mrs. Sid Cox at 2:30 p. m.

The First Bridge club will meet with Mrs. S. E. Ferree at 2:30 p. m.

The Young Peoples choir will meet at the Baptist church at 7:30 p. m.

### WEDNESDAY

Senior Class day program at High school at 2:30 p. m.

Miss Velma Borschell assistant state demonstration agent will give a demonstration of salads at the high school at 2:30 p. m. The women of Artesia are invited to be present.

### FRIDAY

The P. E. O. will meet with Mrs. H. A. Stroup at 2:30 p. m.

The Second Evening Bridge club will meet at the Ferree home at 6:30 p. m.

The Cemetery Association will meet with Mrs. Ed Wingfield at 2:30 p. m.

The Young Mother's club will meet with Mrs. Tom Franklin at 2:30 p. m.

Junior-Senior banquet at Central school auditorium beginning at 7:00 p. m.

### ANNUAL SUPPER

The members of the Christian church held their annual supper in the Bullock banquet hall last Thursday night with a good attendance. The evening was devoted to an informal social time and was one of the most enjoyable the church has ever had. There was, however, an enjoyable musical number in which two young girls, Ruth Graham and Elizabeth Gage, in charming and appropriate old time costumes sang, "When My Honey Sings An Old Time Song," with Mrs. G. U. McCrary accompanying at the piano.

### FRIST EVENING BRIDGE CLUB

The club met at the home of J. J. Clarke last Friday evening for its regular supper and bridge. Miss Ruth Hickerson of Chicago, and Miss Katherine Clarke were guests of the club.

### BIRTHDAY PARTY

Mrs. R. D. Blair gave a birthday party at the Oasis Friday afternoon in honor of the 13th birthday anniversary of her young daughter, Thelma. The refreshments consisted of ice cream and cake. Mrs. Miller Ammons assisted Mrs. Blair in serving and also in conveying the young girls out to the Oasis. The young people who enjoyed the outdoor party were in addition to the honoree, Mary Ann Miller, Modeene Faulkner, Jessie Lee Cunningham, Glenna McLean, Nina May McLean, Elsie Jer-nigan, Zanna Filbert, Mildred Ammons, Cora May Marable, Inez Knowles and Berthold Alcorn.

### YOUNG MOTHERS CLUB

The Young Mothers club drove to Carlsbad last Thursday and held their meeting at the home of Mrs. C. E. House. Twelve members and a guest Mrs. John Beckett, of Wilmington, California, attended the meeting. There was no regular program, but the afternoon was devoted to a social time, with refreshments.

### DINNER PARTY

Mr. and Mrs. Dayton Reser entertained at Dinner yesterday complimentary to Mr. Reser's brother, Earl Reser, and family. In addition to the honor guests covers were laid for Mr. and Mrs. Ira Reser, Mrs. Winnie Atwood, Miss Eloise Reser, Mrs. Locke Bibb, of El Paso, Mrs. Joe Jesse and the hosts.

### FORTNIGHTLY BRIDGE CLUB

The club met at the home of Mrs. Frank Seale Tuesday for its regular one o'clock luncheon followed by bridge. There were three substitutes: Messdames J. M. Story, M. W. Evans and J. R. Atteberry and Mrs. Fred Hartell was a luncheon guest.

## THE FACULTY PLAY

It is not "Applesauce" to say that the production of the noted play, "Applesauce," by the High school faculty Tuesday evening at the Central auditorium was a big success. Human nature bulks large in "Applesauce," and was skillfully portrayed by the cast. The cleverness of the dialogue had a great appeal and its humor was irresistible. The action of the play moved around the crotchety behavior of "Pa Robinson," Mr. Odum, especially toward "Ma" Robinson, Miss Ruth Morgan, and the "applesauce," of Bill McAllister, played by Kenneth Priest, who by the means of its use eventually becomes their son-in-law, and gets practically every thing he goes after. The part of the daughter, Hazel, was very attractive as played by Miss LaVon Brown and Miss Allouene Keys, successfully made the character of the frank friend stand out in all its unattractiveness. J. Clark Bruce effectively portrayed the part of the conceited and close-fisted lover, and T. C. Eird gave an excellent illustration of the way in which a hard-headed and successful business man can become a helpless pawn in the game of life when he meets a good case of "applesauce," used by a nephew and only relative.

The faculty play has become an institution of our school and has uniformly been so good that the public expects a superior entertainment. This year certainly the public was not disappointed.

### C. E. PICNIC

The Christian Endeavor of the Christian church had a picnic party on the lawn at the Frank Thomas home last Friday evening. Out door games made a lively evening and refreshments of ice cream and cake were served. There was a goodly number present.

### THE SECOND BRIDGE CLUB

The club was entertained by Mrs. L. P. Evans at its regular meeting on Tuesday afternoon. There were two substitutes: Mrs. J. P. Lowry and Mrs. Wallace Anderson. Mrs. Curry assisted the hostess in serving the refreshments, which were in two courses.

## LOCALS

Born to Mr. and Mrs. Albert S. Woolford, Sunday the 28th ult, a daughter.

Twin boys were born to Mr. and Mrs. Bert Sinclair Tuesday morning, the 30th inst.

Ed Cass and Mr. and Mrs. Tom Burrows were at home from Wink, Texas, over the week end.

Rev. J. D. Terry reports that he has about three hundred acres of cotton up and looking fine.

Earl Reser, wife and three children arrived Monday from Renfrow, Oklahoma, to spend a few weeks with his parents, Mr. and Mrs. Ira Reser.

Sunday school day was observed during the eleven o'clock hour at the Methodist church last Sunday morning. The principal feature of the program was a playlet depicting the work of the Sunday school in its various branches.

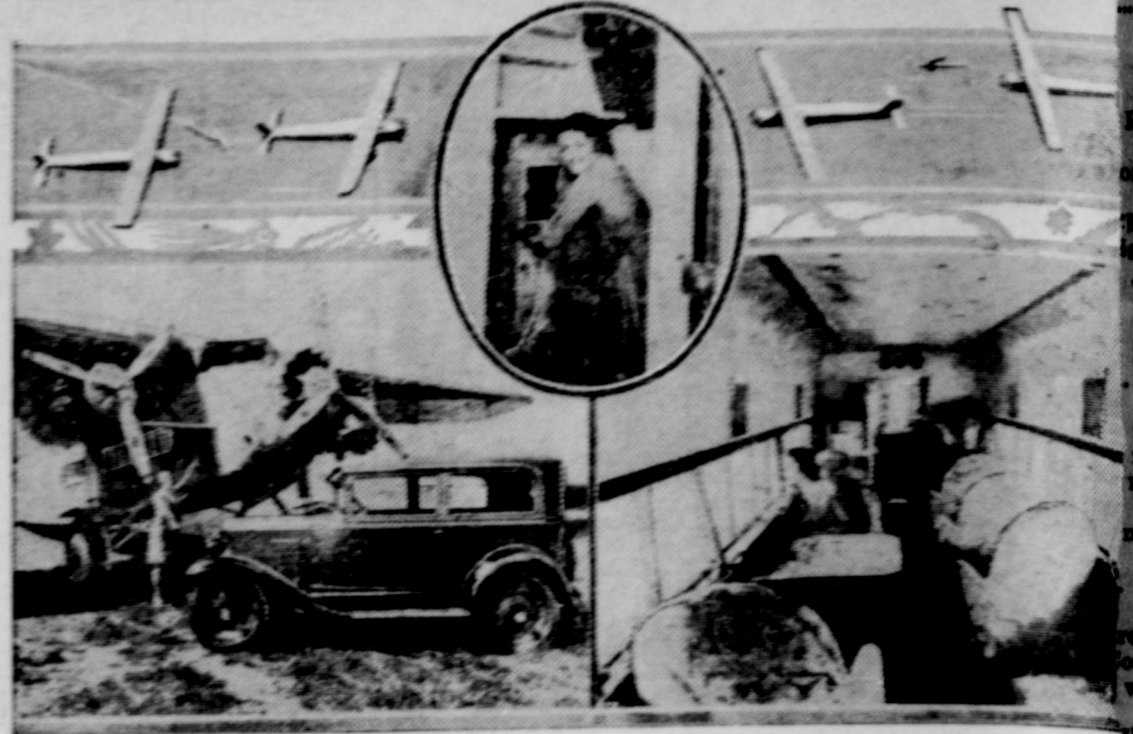

Miss Helen Mann was at home from Plainview, Texas, where she teaches piano in Wayland College, for a week end visit. She came over with a "bunch" of about thirty students of the college and one or two teachers, who made a trip through the Carlsbad Caverns on Saturday. The crowd left for Plainview that night.

Mrs. Rex Williams, of Escondido, California, arrived this week for a visit of several weeks with her parents, Mr. and Mrs. Beecher Rowan. She joined Mr. and Mrs. Ferris Arnold at Phoenix, Arizona, where Mr. Arnold had gone on a business trip, and drove on through with them. The Arnolds are also visiting their parents, Mr. and Mrs. Rowan.

E. L. Glosbrenner and family arrived from Lincoln, Nebraska, Tuesday evening and are visiting Mrs. Glosbrenner's parents, Mr. and Mrs. E. L. Perry. Mr. Glosbrenner will succeed in the employ of the Illinois Pipe Line, F. J. Montague, who has resigned and will, at the close of school, return with his family to their former home at Lusk, Wyoming.

Mrs. Clarence M. Wright left Saturday for her home in Dallas, Texas, after a ten days visit to her aunt and uncle, Mr. and Mrs. J. P. Lowry. Mrs. Wright, who will be remembered as Rosa Dee Talbot, was returning home after spending a few weeks at El Paso, while her husband, who is an associated press reporter was stationed there to report the Mexican news.

## Luxury Enters Air Travel

The Richfield Oil Company have just placed in service, for use by their executives, the most beautiful Fokker plane ever built. In addition to upholstery which takes its from the sky, it is equipped with radio, writing desk, kitchenette and many other innovations. Della Parks, Chevrolet Six owner, was fortunate in being one of the first to ride in new ship.

## MRS. P. G. LINDSEY IS AWARDED DAMAGES FOR DEATH OF HUSBAND

Friends of Mrs. P. G. Lindsey of Upland, California, may be interested to learn that she has recently been awarded judgment in the amount of \$50,000 for the death of her husband, who was killed at a grade crossing a year ago. Mrs. Lindsey was represented in the suit by her brother Kenneth C. Wiseman, of Los Angeles and P. N. McClasky of San Bernardino. A newspaper clipping following the hearing of the case says:

Following the hearing that lasted several days in Superior Judge Benjamin F. Warner's court in San Bernardino, Mrs. Lillian E. Lindsey, of Upland, was on Friday awarded judgement of \$20,000 for the death of her husband, P. G. Lindsey, who was killed in a railroad crossing accident on Hellman avenue, near Cucamonga, a year ago when hit by a Los Angeles-San Bernardino Pacific Electric train.

In filing the litigation in behalf of her four minor children, Thelma, Elbert, Etta and Eunice, Mrs. Lindsey asked for \$50,000.

A 10 days stay of execution of the judgment to permit the filing of a motion for a new trial by the defendants was granted by the court.

Mr. and Mrs. J. R. Batterton arrived last Friday from Enid, Oklahoma, and were the guests of his brother, W. L. Batterton, and wife until Saturday, when they left for their home. They were accompanied home by Mrs. L. R. Batterton, who had been visiting here with her son and wife and will spend some time with them in Oklahoma, before returning to her home at Sturgeon, Missouri.

## WELTON'S GROCERY

We have one of the nicest little country stores ever visited, located in the shopping district of Artesia. There is nothing especially special about us or our prices or our way of doing business. We are too proud to undertake to imitate the thing that we are to small to B. Call in and look us over, you might be like your neighbor—find you could save some money by paying us our regular prices.

## E CHURCHES

### PAUL'S CHURCH (Episcopal)

Rev. Hall Pierce  
Sunday, May 5th.  
Communion 8:30 a. m.

### CHURCH OF THE NAZARENE 18th and Missouri Streets A. Huffman, Pastor Phone 295

10 a. m., Sunday school.  
11 a. m., morning worship.  
6 p. m., Junior Society.  
7 p. m., N. Y. P. S.  
8 p. m., Evening service.  
9 p. m., Tuesday, orchestra prac-  
10 p. m., Wednesday, Prayer meet-  
11 p. m., Friday, cottage prayer

We invited to all these ser-  
mons to the church with the  
welcome.

### FIRST BAPTIST CHURCH

On Sunday evening we had the  
service we have had for some  
time. We had good services through-  
out the day. We are glad to see  
the church in the hands of the  
pastor and family a  
to begin after next Sun-  
day continue some two or three  
times. The pastor goes to Missouri  
on the second Sunday in May where  
he will preach the Baccalaureate  
for the Southwest Baptist  
Conference. His family will accompany  
him and they will spend some time  
visiting friends. Their  
son who is now in school in  
California will accompany them home.  
The account of the pastor being  
for the second Sunday we  
will have our Mothers' service next  
Sunday. We shall expect the mothers  
to be in a body in the mid-  
dle of pews and the service will  
be a message suited to the  
occasion. The pastor will  
sing and the music will be ap-  
propriate for the occasion. We will  
have special music and some  
of the mothers used to sing. The  
service is especially invited. Use  
to assist some aged mother  
service. It will be a blessing  
to all. At the evening  
service the pastor will speak  
of the Young Peoples' service.  
The Young Peoples' service  
will furnish some good music.  
Young women and girls are  
invited to this service.  
Let us have a good time  
next Sunday.  
R. PETERSON, Pastor.

### PRESBYTERIAN CHURCH

Fourth and Grand  
John P. Sinclair, Pastor  
Phone 249.  
May 5th.  
10 a. m., Sabbath school. Grades  
will be honored.  
11 a. m., Morning worship. Ser-  
mon, "The New Reformation  
type," some sidelights on how  
the Protestant churches of Europe  
are doing post war conditions.  
7 p. m., Christian endeavor, two  
songs.

### WOMAN'S GUILD

## Can Scarcely Tell Yard Is Same One After Contest Idea Hits Community

A BACK YARD BEFORE IMPROVEMENT

LOOKS LIKE A DIFFERENT PLACE NOW

WHAT a wonderful transformation results in the appearance of  
the back yard once a Yard and Garden Contest has been held in  
a community, is shown most forcibly in the above illustrations. Dis-  
orderly, with rubbish and shacks, in the first picture, proper planting  
along fundamentally sound lines made this back lot a beautiful and at-  
tractive part of the home. Unsightly objects were screened from view and  
the carpenter added a few artistic touches to harmonize with the im-  
proved grounds. Transformations like this one take place everywhere  
Yard and Garden Contests are held. Shrubs and perennials were the  
base of the improvement in this case.

### EDISON WANTS TO EDUCATE A BOY MAY BE FROM N. M.

SANTA FE.—Governor Dillon has  
been asked to help select New Mex-  
ico's candidate for a four year tech-  
nical school scholarship which is  
being offered by Thomas A. Edison  
"to some outstanding American boy  
who has made his mark in scientific  
studies during the present school  
year."

Forty-nine boys are to be chosen,  
one from each state and the Dis-  
trict of Columbia, as candidates.  
They will be taken to the Edison labo-  
ratories at West Orange, N. J., at  
Mr. Edison's expense, and there given  
an examination by Mr. Edison him-  
self to determine the winner.

The state board of education is to  
select each state's entry, says Charles  
Edison in a letter to Governor Dil-  
lon. He is to be a high school boy  
or preparatory school boy who in the  
board's opinion "best measures up to  
the highest standards."

None of the 48 who fail of selec-  
tion in Mr. Edison's test will be sent  
home empty-handed. Each is to be  
presented with an Edison radio-phon-  
ograph combination.

Calling Cards, 100 for \$1.75, on best  
grade paneled or plain stock.—The  
Advocate.

CARBON PAPER—The Advocate

### THE LITTLE THINGS

The little things we fret about  
How trivial they are!  
And yet they bring regret about  
And cause us many a jar.  
The little things of sham and pride,  
Of selfishness and greed,  
Will often honest friends divide  
And cause a heart to bleed.

The little things we fret about.  
The broken cup and plate,  
The argument we bet about  
That often ends in hate,  
The fancied slur that wasn't meant  
Which sharp reprisal brings—  
Oh, half the big world's discontent  
Is due to silly things.

The little things we fret about,  
Arn't worth the rage we spend.  
They're things we should forget  
about,  
In laughter let them end.  
For sorrow hurts let's save our  
tears;  
We'll need them one and all,  
Let's not go grumbling thru the years  
O'er silly cares and small.  
—EDGAR A. GUEST.

"The preacher in our church last  
Sunday told us how Lot's wife look-  
ed back and turned into a pillar of  
salt. I couldn't help thinking when-  
ever my wife looks back she turns  
into a telegraph pole or a lamp post  
or something.—Detroit News.

# ANNOUNCING

## An Electric Rate Reduction

FOR ARTESIA

## EFFECTIVE MAY 1, 1929

The Southwestern Public Service Company, realizing its ob-  
ligation as a community builder, has made every effort, through  
efficient management and operation, not only to give you perfect  
service twenty-four hours each day, but to pass on to the com-  
munity which it serves and helps to build, the savings of this  
efficient and economic operation. The revised rates are shown  
below:

### LIGHTING RATE

First 25 KWH Per Month	16c
Next 25 KWH Per Month	12 1/2c
Next 50 KWH Per Month	10c
All Over 100 KWH Per Month	7 1/2c

Minimum Bill Per Month, Artesia \$1.50  
Dexter, Hagerman and Lake Arthur \$2.00

### COMBINATION RESIDENTIAL LIGHTING AND COOKING OR REFRIGERATION RATE

First 25 KWH Per Month	16c
Next 100 KWH Per Month	4c
All Over 125 KWH Per Month	3 1/2c
Minimum Bill Per Month, Artesia	\$4.00
Dexter, Hagerman and Lake Arthur	\$4.50

### IRRIGATION POWER RATE

#### Summer Rate

First 400 KWH Per Month	4 1/2c
Next 600 KWH Per Month	4c
Next 1200 KWH Per Month	3 1/2c
Next 1800 KWH Per Month	2 1/2c
Next 6000 KWH Per Month	2c
All Over 10,000 KWH Per Month	1 1/2c
Winter Rate, Per KWH	3 1/2c

### Minimum Bill:

- (1) \$2.00 Per horse power on demand per month on power contracts from April first until October first.
- (2) \$1.00 Per horse power on demand per month on power contracts during the months when contract is continued during period between October first and January first.
- (3) \$0.50 Per horse power on demand per month when power contract is signed for three months, from January first until April first.

All of the above rates are net, an allowance of one cent per  
Kilowatt Hour having been deducted, as a prompt payment dis-  
count. In case any bill is not paid on or before its due date the  
gross amount will be due and collectable.

Rackley the unknown heirs of F. L. Hopkins, deceased, the unknown heirs of Myrtle K. Hopkins, deceased, Minnie Peitz, if living and if dead her unknown heirs; Mollie King, if living and her unknown heirs if dead; G. R. King, if living and if dead his unknown heirs; Clara O. Duncan, if living and if dead her unknown heirs; James Hicks, if living and his unknown heirs if dead; Adalpo Yturralde, if living and if dead his unknown heirs; Ester P. Yturralde, if living and her unknown heirs if dead; E. Etcheverry, Bautista Barbara, Sisto Santa Cruz, and all unknown claimants of interest, right, title, lien or equity in and to any of the property (being the property described in the plaintiff's complaint herein) adverse to the plaintiff.

GREETING: you and each of you are hereby notified that civil action is now pending against you and each of you in the District Court of Eddy County, State of New Mexico, wherein W. A. Moore is plaintiff and each of you are defendants numbered 4776 on the Civil Docket of said court; that the general objects of said action are to quiet and set at rest the title of the plaintiff in and to the following described property situated in Eddy County, New Mexico, to wit:

- a. Lot 5 in Block 47 in Stevens Addition to the Town of Eddy, (Now City of Carlsbad) Eddy County, New Mexico.
  - b. Lot 8 in Block 13 in the Original Town of Eddy (Now City of Carlsbad) Eddy County, New Mexico.
  - c. Lot 4 in Block 18 Original Town of Eddy (Now City of Carlsbad) Eddy County, New Mexico.
  - d. Lots 16 and 18 in Block 9 in the Original Town of Eddy (Now City of Carlsbad) Eddy County, New Mexico.
  - e. Lot 7 in Block 52 Stevens Addition to the Town of Eddy (Now City of Carlsbad) Eddy County, New Mexico.
- And to bar and estop you and each of you from having or claiming any lien, rights, title or interest in or against said property adverse to the plaintiff.
- You are further notified that unless you enter your appearance in said cause on or before the 12th day of June 1929, judgment will be taken against you and each of you by default for the relief prayed for in the complaint filed in said cause.
- You are further notified that Chas H. Jones is the plaintiff's attorney and his post office address is, Carlsbad New Mexico.
- Witness my hand and seal of the above named court this 15th day of April 1929.

(SEAL) THELMA T. LUSK, County Clerk.

Hd. Orig 2-19-09 320 acres. 028824 MFN  
NOTICE FOR PUBLICATION  
Department of the Interior U. S. Land Office At Las Cruces, N. M. April 22, 1929.

Methods of producing, baling, and loading alfalfa hay for markets are described in Farmers' Bulletin 1539-F, "High-Grade Alfalfa Hay." This bulletin may be secured from the U. S. Department of Agriculture, Washington, D. C.

To get a lesser number of the best-quality blooms from cut-flower rose bushes, they should be pruned every spring to within 6 inches or 1 foot of the ground. To get a greater number of smaller blooms, one-third to one-half the wood should be cut.

There may be different kinds of soil in the farm garden and it is well to consider this when planning the spring planting. Early crops and those that need quick, warm soil do best on high, warm land. On moist, low land such crops as celery, onions, and late cucumbers should be planted.

Calves raised to be fattened as yearlings should be taught to eat grain before they are weaned so they can be weaned with only a slight interruption of growth and loss of milk fat. Less feed will be needed to put them into good condition and they can be finished for market earlier.

Many new methods in dairy and poultry marketing are coming into use, says the Bureau of Agricultural Economics, U. S. Department of Agriculture—the dressing of poultry at packing establishments, the use of paper containers in selling retail milk and cream, the rapidly expanding business in frozen eggs, and tank trucks instead of the familiar milk can for hauling milk in bulk.

Chicks of different ages should not be raised together. The older ones will crowd the younger, and the result will be poorly developed chickens. Chicks should also be separated according to sex. Cockerels of the lighter class, such as leghorns, should be separated from the pullets when about 8 weeks old, and cockerels of the general-purpose class, such as Plymouth Rocks, may run with the pullets a little longer.

Wedding Announcements and Invitations, Engraved or Printed—Advocate

NOTICE is hereby given that John Jerry Jones, of Hope, N. M., who, on May 2, 1924, made Hd. entry containing 320 acres, No. 028824, for S½SE¼ sec. 24, N½SE¼, NE¼, Section 25, Township 16-S., Range 20-E., N. M. P. Meridian, has filed notice of intention to make three year proof, to establish claim to the land above described, before C. B. Altman, U. S. Commissioner, at Hope, N. M., on the 3rd day of June, 1929. Claimant names as witnesses: R. H. McDonald, Tom Young, Ira Welty, R. G. Jones all of Hope, N. M.

**NOTICE OF SPECIAL MASTER'S SALE**

Notice is hereby given that I, J. L. Polk, was duly appointed Special Master, in the case of Owen McClay vs. John Grant No. 4701 on the docket of the District Court of Eddy County, New Mexico, on the 18th day of February, 1929, by G. A. Richardson, judge of the said court by his decree and order therein, directing me to make sale of certain property therein foreclosed in satisfaction of the judgement therein obtained, \$143.65 principal, \$14.86 interest and \$15.85 collection fees, with cost of suit expended \$11.50 together with such further cost to be expended in the sale of the property including a special master's fee, and the interest on said judgment from the 18th day of February to the date of sale \$4.00.

Now, therefore, I will proceed to sell and sell to the highest and best bidder for cash the said property, to wit: the S½ of the NW¼ of Sec. 17, Township 17, S. Range 23, E. Eddy County, New Mexico, at public outcry at the front door of the Citizens State Bank in the town of Artesia, in said County on the 20th day of May 1929 at the hour of 10 o'clock a. m., on said day or so much thereof as will satisfy the said judgment.

This the 24th day of April, 1929.

J. L. POLK, Special Master.

**AUTO OWNERS SHOULD CHECK AND INSPECT CAR FOR GOOD DRIVING**

"The far sighted motorist who would enjoy a spring and summer of care-free driving will make arrangements now for a thorough checking and inspection of his automobile." That is the reply made by W. A. Hillman, Chrysler Service Manager to a question asked by Clyde Guy local Chrysler dealer.

"Years of experience prove that after a winter season of operation a motor car should be prepared systematically for the warmer weather in order that every part may function properly.

"In order to be sure that his car is placed in perfect condition every owner should insist upon fifty separate inspections. This may seem like a large order, but when handled by skilled men, such as those trained in the Chrysler Service School and working in Chrysler service stations throughout the country, it may be performed rapidly and economically to the benefit of car and owner.

"Probably no part of a car is more essential to safety than the steering mechanism. A careful inspection of all the parts of the steering apparatus should be made not only to insure safety but also ease of control. The steering knuckle pins and bushings should be looked over. The front wheel bearings, the tie rod and the drag link connections should be adjusted, and to promote easy steering the tires should be inflated to the proper pressure and the front wheels properly aligned.

"In the braking system a number of inspections are necessary. The brake bands should be properly adjusted, the lining examined and the check band aligned. More important, however, in the case of hydraulic brakes, is the necessity of having the supply of brake fluid checked and replenished if necessary.

"Winter driving over bumpy, icy roads often causes joints and bolts to loosen. It is necessary, therefore, to check the following details throughout the chassis: Tighten the universal joint bolts. All spring clips and body bolts as well as the bumpers, fenders and shock absorbers should also be tightened. The transmission and the differential should be drained, washed and refilled with the proper lubricant for warm weather.

"The engine is the heart of the automobile and consequently it should receive expert attention. To insure the satisfactory performance of the engine, the following should be done: Inspect the water hose connections, pack water pump, flush cooling system, tighten cylinder head, tighten manifold nuts, adjust fan belt, adjust timing chain and tappets, clean and adjust breaker points and clean wire terminals at distributor cap. Spark plugs should be cleaned and adjusted, and the carburetor removed and thoroughly cleaned.

"With the exception of the engine, probably no part of the automobile receives more wear than the clutch. The clutch throwout bearing and the clutch pedal are easily adjusted.

"The electrical system should be examined with care. The generator and started have wearing parts that will need cleaning and adjusting. Battery terminals should be cleaned and water should be added. Care should be taken that all lights and switches are working properly.

"The proper care of an automobile is pleasure insurance. Spring and summer are the seasons for real motoring enjoyment only if the automobile is in good operating condition. Chrysler service stations in every part of the country are prepared to give owners competent and efficient service in the preparation of their cars for spring and summer driving.

The Henry Ford Trade School was started October 26, 1916, with six students. At the beginning of this year, 2,750 were enrolled. Boys are taught to be skilled workers at the school.

**MICKIE SAYS—**

ADVERTISING IS LIKE FARMING, FOR YOU SOW THE SEED AND REAP THE CROP—AND NO MATTER HOW OFTEN THE FARMER HAS CULTIVATED THE FIELD, IF HE QUITS FOR A SINGLE YEAR, THE WEEDS ARE ALL OVER THE PLACE! AND IF THE MERCHANT QUITS ADVERTISING HIS BUSINESS, IT LIKEWISE FAILS TO PROSPER.

Now more than ever is Plymouth a joy in performance, as it is in comfort, quality and low upkeep. The moment you step inside the improved, Chrysler-built Plymouth you are aware of exceptional comforts. In addition to uncramped roominess, Plymouth has self-conforming seat cushions of lounge-chair restfulness.

Chrysler engineers have created many new refinements in Plymouth's famous Chrysler "Silver-Dome" type engine. These include longer stroke and an increase in piston displacement; a heavier crankshaft; larger interchangeable bearings; larger connecting rods; a newly designed system of full-pressure lubrication. These and a number of other improvements have accomplished in the full-size Plymouth a remarkable type of performance, comfort and economy heretofore unlooked for in a low-priced motor car.

Now more than ever is Plymouth brisk and flexible in pickup. Now more than ever is Plymouth smooth and quiet through all gears and all speeds.

# Another Record!

over

# 500,000

## New Six Cylinder

# CHEVROLETS

### since Jan. 1<sup>st</sup>

Sweeping constantly ahead to greater and greater heights of popularity... making and breaking new records of success with impressive regularity... the new Chevrolet Six has established one of the most remarkable records in automotive history—more than 500,000 on the road since January 1st!

Not only does this brilliant accomplishment surpass the greatest record that Chevrolet has ever achieved in the past—but it brings to Chevrolet the significant honor of having built in only four months a greater number of six-cylinder cars than any other manufacturer has ever produced in an entire year!

Even with such a record to focus attention upon the outstanding value of the Chevrolet Six—many people still do not appreciate what "a Six in the price range of the four" actually means!

To such persons, consideration of the features responsible for this tremendous popularity will prove a revelation. So read the adjoining column carefully—and then come in and ask for a ride in this sensational six-cylinder car.

The ROADSTER.....	\$525	The COACH	The Convertible LANDAU	\$725
The PHAETON.....	\$525	\$ 595	The SEDAN DELIVERY.....	\$595
The COUPE.....	\$595		LIGHT DELIVERY CHASSIS.....	\$400
The SEDAN.....	\$675		1 1/4 TON CHASSIS.....	\$545
The Sport CABRIOLET.....	\$695	All prices f. o. b. factory Flint, Michigan	1 1/4 TON CHASSIS WITH CAB.....	\$650

COMPARE the delivered price as well as the list price in considering automobile values. Chevrolet's delivered prices include only reasonable charges for delivery and financing.

## Outstanding Features of the New Chevrolet Six that have created this Tremendous Popularity—

### 6-Cylinder Smoothness

Due to the finer inherent balance of its six-cylinder motor—the new Chevrolet Six provides that smooth, quiet, flexible performance which is characteristic of the truly fine automobile. At every speed, the power is delivered easily, freely and without annoying vibration.

### 6-Cylinder Getaway

In sheer brilliance of performance, as well as in smoothness and quietness of operation, the new Chevrolet Six is a revelation. Acceleration is remarkably fast. And a new non-detonating cylinder head eliminates every trace of "lugging."

### 6-Cylinder Speed

The new Chevrolet Six has speed in abundance—but even more important than its speed is the smooth, quiet, restful comfort you experience at every point on the speedometer. You can open the throttle wide with a feeling of complete security.

### Better Than 20 Miles Per Gallon

The marvelous performance of the Chevrolet Six would be exceptional in any car. But in the new Chevrolet Six it is actually sensational—for here it is combined with an economy of better than 20 miles to the gallon of gasoline!

### Exceptional Riding Comfort

Another vital factor that has influenced over a half-million people in their selection of the new Chevrolet Six is its marvelous riding comfort. It travels smoothly over rough roads—and its balance on turns and corners is exceptional.

### Beautiful Fisher Bodies

Longer, lower and roomier—finished in attractive, long-lasting colors—and upholstered in rich, deep-tufted fabrics—the new Fisher bodies on the Chevrolet Six introduce into the low-price field an entirely new measure of style and distinction.

### Proved Dependability

Tested for more than a million miles on the roads of the General Motors Proving Ground—the new Chevrolet Six went into the hands of its owners thoroughly proved in every detail. And now reports of its performance on the highways of the nation pay glowing tribute to its endurance and dependability.

### Amazing Low Prices

An achievement that surpasses even the brilliant performance qualities of this sensational six-cylinder car are the prices at which it is offered. Study these prices, and compare them with any other car and you will recognize the remarkable value represented in this Six in the price range of the four!

**ROSWELL GIRL JOINS CUSHMAN'S REVUE**

**MISS LAVANNA LEE**

Daughter of the gifted Ida McCune Williamson, who arrived Saturday to take the season's lead with the Cushman Revue, now playing at the Princess Theatre, Roswell.

**LAKE ARTHUR ITEMS**  
(Mrs. Ned Hedges, Reporter)

Rev. Dye held the first service at the Baptist church Sunday night.

Rev. Dye and Rev. Hedges have combined night service when they fall on the same Sunday.

Clyde Nihart and son, George and Messrs. McCall and Burdick spent the week end on the Ruidoso.

Raymond Burdick is planning to take his rooms of seventh and eighth graders to the Caverns Friday.

Tom Ridgway and family left for Bruin, Kentucky, Wednesday for an indefinite visit with his mother and other relatives.

Bob Allison and Mrs. H. A. Sims represented the local Rebecca and Odd Fellow lodges at the Odd Fellow convention in Carlsbad last week.

Mrs. Clyde Wilson and children of Lubbock, Texas and Mr. and Mrs. Bohannon of Clayton, Texas are visiting with the A. J. Lane family this week.

Rev. Hedges conducted church service at the Methodist church Sunday morning. The orchestra was a wonderful help with the program, and Mrs. Clyde Nihart and Miss Vera Herby favored the congregation with a song.

Miss Velma Borschell will be present Monday afternoon May, 6th at the home of Mrs. Dick Spence, for a sewing demonstration. All women of the community are urged to be present. The meeting is called for 2:00 p. m.

Among those in Roswell this week attending to business matters were: Mr. and Mrs. E. C. Jackson, Mrs. H. A. Sims, Mrs. Lee Shinneman, Lucile Price, E. C. Latta, Mr. and Mrs. W. Walden, John Jones and A. V. Flowers and Ned Hedges.

The Sew and so club met at the home of Mrs. Ned Hedges Tuesday afternoon. There being no new business the regular business session was postponed and the time was pleasantly spent in a social time. Refreshments were served to the regular members and one guest, Mrs. Gray Coggin. The next meeting will be held at the home of Mrs. Dick Spence.

**Ceiling Will Decrease Dwelling Fire Menace**

Cellar fires have proved about as dangerous to the safety of the home and its occupants as any other source of conflagration. It therefore behooves the home owner when he starts to build to consider ways and means of reducing this danger. Some communities protect the interests of the home owners by requiring safeguards not usually employed.

The greatest single protection is a fire resisting ceiling. Metal lath and portland cement plaster are given a rating of one hour resistance to fire by fire prevention agencies.

In addition to the ceiling, all walls should be firestopped. This means an incombustible barrier to fire placed between floor beams and any other open spaces where a draft of air could carry flames up through walls or partitions back of the plaster.

**Warns Against House Constructed on Fill**

It is not safe to build on a fill. It is very difficult to tell when settlement has been completed. The strength of this material is so unreliable that a building placed upon it probably will settle unevenly. If this takes place you will have cracked walls, cracked plaster and more or less general deterioration.

**LOCALS**

Mr. and Mrs. Skelt Williams were in from the ranch Tuesday.

Mrs. John McCann is a patient in St. Mary's hospital at Roswell.

Miss Esther Morgan was at home from Roswell over the week end.

Senator Moon and Martin Yates made a business trip to Lovington Monday.

W. A. Hamilton of Lake Arthur, was attending to business matters here Monday.

Mrs. Jas. E. Christman and Mrs. Slaght, were Carlsbad visitors Sunday afternoon.

Judge and Mrs. Joe Burkett are expected home to-day from a business visit to Dallas, Texas.

Mr. Allan, of San Antonio, Texas, was here last Saturday visiting his niece, Mrs. C. W. Hughes.

Aubrey Watson was operated upon for the removal of his tonsils Tuesday and is progressing satisfactorily.

J. F. Dunagan came down from Roswell Sunday for an extended visit to his daughter, Mrs. George Dunagan, and family.

Mr. and Mrs. Albert Blake left Sunday morning to spend the summer at Columbus, Indiana, where their farm is located.

Mr. and Mrs. L. L. Clark went with Mr. and Mrs. Ossie Coalsen of Carlsbad to El Paso for a week end visit. They returned Monday.

Mrs. Viola Samuels was here from Roswell last Thursday and Friday visiting her friend, Mrs. Tom Ragsdale, and attending the Missionary Conference.

Mr. and Mrs. Joe Clayton and daughter, Pauline, and the latter's friend, Nelle Jackson, spent Sunday with Mr. and Mrs. John Prude on their ranch, southwest of Hope.

Mrs. H. C. Hodges arrived yesterday to visit her sister, Mrs. Finn Watson and Mrs. Watson here and her parents, Mr. and Mrs. John Prude and other relatives at Hope.

J. E. Robertson drove up to Roswell Friday to meet his sister-in-law Mrs. Hull from Maryville, Missouri, who is visiting her sisters Mesdames Robertson and Mrs. R. L. Paris.

E. A. Hannah and J. H. Jones of Artesia and Mr. Medcalf of Hope left yesterday to attend the state convention of the Modern Woodmen at Albuquerque. They will return tomorrow.

Mrs. C. C. Higbee went from Conference for a visit with Mrs. Albert Cochran in Clovis. She returned here and spent Sunday with Mrs. E. T. Jernigan and Mrs. Reed Brainard before going home to El Paso.

Mr. and Mrs. Hollis Olyphant were here last week visiting Mrs. Olyphant's sister, Mrs. O. E. Nickey, and Mr. Nickey. They were en route home to Wichita, Kansas from Alpine, Texas.

C. Bert Smith accompanied by Mrs. Smith, Mrs. Emma Alexander and son, Arch, drove over to Douglas Arizona the first of the week for a short visit with Mrs. Alexander's son, Mayo Alexander and family.

Dr. Russell, wife and son, Chester, and nephew, John Hogins, returned Sunday night from Albuquerque, where they visited over the week end with Miss Ruth Russell and Miss Estell Hogins and also took in the track meet between New Mexico and Arizona Universities.

Friends of Miss Loraine Gable have received invitations to the Commencement exercises of the High school at Lubbock, Texas, Miss Loraine is not only a member of the graduating class, but is also a popular member of the high school, having recently been voted one of the four most beautiful girls among its students.

Among the former residents here for the Methodist Missionary Conference last week were besides the president of the conference, Mrs. J. H. Walker, and Rev. Walker, presiding elder of the Las Vegas district, Mrs. C. C. Higbee, of El Paso, Texas, Mr. and Mrs. Selby of Las Cruces and Mrs. E. S. Shattuck of Carlsbad.

Two programs were given at the High school assembly this week. On Tuesday afternoon the cast of the faculty play, "Applesauce," gave a scene from the production, which proved a good advertisement, for the show drew a big house. Yesterday morning the Freshmen class, sponsored by Mrs. Rader gave a very good entertainment at their assembly.

From 8,000 to 10,000 telephone calls are handled in two hours every working day at the Fordson offices of the Ford Motor Company. The peak telephone loads are between 9 and 10 a. m. and 2 and 3 p. m.

**THRIFT TAUGHT AS MERE PENNY PINCHING IS PRODUCTIVE OF HARM**

(By S. W. Straus, president American Society for Thrift.)

"Several people have challenged the idea of thrift education in the school curriculum, saying that it teaches miserliness to the children."

This statement, in a letter written by a prominent worker in the Parent-Teacher Association movement, was recently brought to the attention of the writer. It embodies the point of view held by many and has come as the direct result of the false teachings of those who confuse money saving and thrift.

Persons who object to the teachings of thrift in the schools are within their rights if they have in mind simply the penny pinching conception of it. It is a fact that the encouragement of thrift, if designated as mere saving, would in all likelihood encourage miserliness upon the part of many children.

It was for this very reason that the American Society for Thrift as long ago as 1915 began laying foundation for a thrift course in the schools of America through which the children would be taught the thrift of personal progress, elimination of waste, efficiency, good health and good morals. For many years educators from all parts of the country gave thought and effort to the creation of concrete lessons in thrift. More than a year ago these efforts were reduced to the tangible form of an outline course of study in thrift, which, during the school year now drawing to a close, has found its way into thousands of classrooms.

What the children of America may gain from this course of study in thrift is suggested by the following excerpt from one of its early chapters—"To apply one's self to the earning of money, to spending less than earned, and to investing wisely, constitute a large and important part of a rational thrift program. In addition to this, there are certain social aspects that need emphasis. The thrift of time, the thrift of energy, the thrift of health, conservation of natural resources—all have a place in thrift work in school."

This writer recognizes the danger of going no further in the teachings of thrift than an appeal to miserly habits on the part of many but the teaching of a broad, progressive concept of thrift, meaning in a word the elimination of all waste, is not only advisable but is becoming more and more necessary for those who would hold their place in the race for personal success as the activities of mankind are organized to-day.

**For Your Information o the New Bogus or Hot Check Law**

The recent session of the legislature enacted a new law making it a felony to draw, utter or deliver a check on any bank or other depository in which there are no funds or insufficient funds for the payment of the check. The new law carried the emergency clause and therefore is now in full force and effect. The text of the law follows:

Committee Substitute for Senate Bill No. 126. An Act—

To amend Section 1 of Chapter 132, New Mexico Session Laws of 1919, being an act prohibiting the making, drawing, uttering or delivering of any fraudulent check, draft or order for money, and providing punishment therefor.

Be it enacted by the Legislature of the State of New Mexico: Section 1. That section 1 of Chapter 13 of the Session Laws of 1929 be amended to read as follows:

"Section 1. Any person who, with intent to defraud, shall make, draw, utter or deliver any check, draft or order for the payment of money upon any bank or other depository in payment of any account, knowing at the time of such making, drawing, uttering or delivering, that the maker or drawer has not sufficient funds in or credit with such bank or other depository for the payment of such check, draft or order, is guilty of larceny, and upon conviction thereof shall be fined not more than five thousand dollars, or imprisoned for not more than five years, or both such fine and imprisonment.

"In the prosecution under this section as against the maker or drawer thereof, the making, drawing, uttering or delivery of a check, draft or order payment of which is refused by the drawee because of lack of funds or credit, shall be prima facie evidence of intent to defraud and of knowledge of insufficient funds in or credit with such bank or other depository."

# PRES. HOOVER READY TO STUDY THE ANGLES OF THE OIL PROGRAM

WASHINGTON, D. C.—President Hoover was represented Friday by a group of senators from the public land states as ready to study their request that his order for the conservation of oil on public lands should not affect applications for prospecting permits and leases unacted upon by the department at the time the order became effective. Exceptions would be made, the senators said, in the case of applications which would not stand the test of investigation. They added that their interest was solely in bona fide cases and they insisted that there should be no discrimination against such applicants. The president was also asked that the interior department, in administering the order, give consideration to cases of permits in which special equities existed at the time of the order stopping further prospecting and drilling except where permittees had complied with all of the provisions of the leasing act. It was explained that frequently permittees have the right to prospect on a certain geological formation pooled their resources and sunk a single test well with a view to drilling others in the event a dry hole was found in the original well. It was contended that such permittees should be permitted to carry on additional work. Similar consideration was asked for individual permittees who had found dry holes after sinking one well and who were willing to continue their drilling to determine whether oil deposits did not exist in adjacent territory covered by the permits. Those calling on the president were: Senators Walsh, democrat, Montana; Kendrick, democrat, and Warren, republican, Wyoming; Pittman, democrat, Nevada; Bratton, democrat, New Mexico, and representative Carter, republican, Wyoming.

## LOCALS

Mr. and Mrs. Arba Green and Miss Irma Green were Roswell visitors Saturday.

J. S. McCall, Carlsbad attorney was attending to business matters here yesterday.

Mrs. I. C. Dixon spent yesterday with Mrs. John McCann, a patient at St. Mary's hospital.

J. B. Cecil will load out a car of mixed sheep tomorrow for the market at Kansas City.

Friends here will be interested to learn that Mr. and Mrs. Paul Fuller, (Margaret Mathes) expect to sail for Siam, June 14 to resume their missionary work in the Presbyterian college at Bangkok. Mr. Fuller graduated from the San Francisco Presbyterian Seminary at San Anselmo, a suburb of San Francisco, on April 25th and Mrs. Fuller, who was in poor health, being sufficiently recovered to go back to that trying climate, they are to return to their work. Dr. Mathes, who with Mrs. Mathes, has been spending the winter with the Fullers at San Anselmo, has much improved in health and has both been teaching in the Seminary and taking work there. Another item of interest is the birth of a son recently to Mr. and Mrs. Donald Mathes of Dallas, Texas.

# GUARD ROSES AGAINST DISEASES AND INSECTS

Rose bushes, like all other plants are susceptible to many diseases and insect pests says R. F. Crawford of the New Mexico Agricultural College. Persons who desire to grow roses should have some knowledge of the causes of such diseases and the methods by which they may be prevented or controlled.

Powdery mildew is the most serious disease of roses in New Mexico. Nearly all types of roses are susceptible, including wild roses, hybrid teas and climbing roses, particularly the Crimson Rambler and Dorothy Perkins.

The first sign of powdery mildew is grayish or whitish spots on the young leaves and shoots. These whitish spots are made up of chains of small, colorless spores. If warm, muggy weather occurs in the late spring or early summer, the development of the distase may be extremely rapid. In the case of a severe attack the growth may be stunted, the leaves curl, become dried and drop off, and unopened buds, young stems and thorns may be entirely overgrown with the powdery coating. The vitality of the plant is so lowered by repeated attacks and even by direct attack upon the buds that the plants become worthless.

The fungicide which has been found most practical is a dust mixture consisting of equal parts flowers of sulphur and hydrated or air slacked lime. This dust mixture is inexpensive, is easily applied, and also does not discolor the foliage to any appreciable extent. It is applied with a small hand duster which can be purchased from most hardware stores or seed houses. The first application should be made about the time the flower buds start to develop, or earlier if any mildew appears. Repeated applications at intervals of three weeks should be made until late summer, to provide protection for the new growth. It must be remembered that one application will not entirely control the disease.

The most serious of the insect pests attacking the rose are the aphids, which suck the juices. A 40 per cent solution of nicotine sulphate mixed in the proportion of one ounce to five gallons of water and sprayed upon the plants so as to come into direct contact with the bodies of the insects, will eradicate them readily. Foliage and bud chewing insects, such as chafers and slugs, are held in check by applications of stomach poisons. Arsenate of lead or calcium arsenate in ration of one pound to twenty-five gallons of water, is a suitable remedy. Applications of the sulphur-lime dust to which has been added one pound of lead or calcium arsenate to nine pounds of the above mixture, will control the leaf eating insects and powdery mildew.

The rose scale sometimes becomes abundant on the canes, incrusting them with a whitewash-like coating of small circular insects, about one-tenth inch in diameter. Pruning out the infested canes and applying a dormant spray of four per cent lubricating oil emulsion or any good grade of commercially manufactured oil spray, will effectually control this pest.

Several species of mites or red spiders feed on the foliage, causing it to become brown, wither and fall. Dormant sprays of oil emulsion and summer application of sulphur-lime dist will keep these pests under control.

## TRI-STATE FAIR SIGNS UP RODEO FOR JULY 3-4-5

AMARILLO, Texas.—Announcement of a contract with Miller and King for a great Tri-State Fair association rodeo in Amarillo July 3, 4 and 5 was made by Wilbur C. Hawk, president of the Tri-State Fair, this week. In addition to announcing the contract with this famous Holly, Colorado firm of rodeo managers and performers, Mr. Hawk announced that \$7,500 in prizes would be offered to riders, ropers and other rodeo contestants in the three-day event. Miller and King will bring some of the most famous bucking horses and Brahame steers in the world to Amarillo in addition to an array of busters seldom ever seen in this section. The rodeo cotnests will be open to the world, and anyone wishing to compete should write Clyde Miller, Holly, Colorado.

# A STATEMENT

## By General Electric

Some publicity has recently been given to the claim that only one electric refrigerator on the market has a cold control device. We have had communications from our own sales people and from General Electric Refrigerator owners, urging us to openly refute it. As everyone familiar with the industry products knows, the temperature control device has been one of several features of our refrigerator from the beginning. In fact we introduced it originally, over two years ago. Our control has the added merit of being conveniently located and readily accessible, which is actually exclusive. Like "Quiet Operation", temperature control was not considered really important until the General Electric Refrigerator appeared.

Two or three years from now, other manufacturers may be advertising "Hermetically Sealed Mechanism," "All Steel Cabinets," "No Oiling," "Sanitary Chilling Chamber," "No Radio Interference," "Lower Cost of Operation," "Elimination of Troublesome Parts," etc. These are all features of the General Electric Refrigerator NOW. Every one of them is more important than any temperature control device. Let us be sure that no oral or written statement of ours tends to elevate lesser features beyond their real significance or value, regardless of what others may do.

Do not imagine that the public is greatly confused. Remember that while others are boasting 10%, 25% and 35% sales increases, which we are glad to see, our business is running at the rate of a 100% increase for 1929 over 1928, after a 400% increase for 1928 over 1927.

The General Electric household refrigerator continues to lead the field by a good margin, there are "Over a quarter of a million General Electric Refrigerator owners, and they haven't spent a single dollar for service." Here is something real to enthuse over.

## THE ARTESIA ADVOCATE

Artesia, New Mexico

**THINGS THAT NEVER HAPPEN**

**SOUSA TO BROADCAST DURING CHEVROLET HOUR ON MONDAY**

DETROIT, Michigan.—Evidence of the wide-spread popularity of the new six cylinder Chevrolet was revealed here recently in an announcement by R. H. Grant, vice-president of the Chevrolet Motor Company in charge of sales, that more than a half million of the new cars have been placed on the road since the first of the year.

A significant feature of this achievement, it was noted, is the fact that Chevrolet in four months time built a greater number of six cylinder cars than any other automobile manufacturer has ever produced in an entire year.

This figure would have been even greater, Mr. Grant pointed out, if Chevrolet had been able to take immediate care of the tremendous volume of orders, with which the factory has been flooded since the introduction of the new car.

"Nearly every month this year has seen a new monthly production record. In order to satisfy the demand for cars pouring in from nearly every section of the country, output has been steadily increased as fast as consistent with the precision manufacturing methods which Chevrolet employs," said Mr. Grant.

To signalize the achievement of placing on the road more than 500,000 cars in less than four months time, Chevrolet has secured John Philip Sousa and his world famous band for an hour's broadcast over a nation wide hook-up Monday night. It will be the first time that the celebrated March King has been heard over the radio. The radio debut of the famous band master will come over the air during the regular General Motors "Family Hour," starting at 8:30 p. m., eastern standard time.

Although Mr. Sousa has played to more people than any other director in the history of band music, appearing once before a single audience of 153,000 people at the International Exposition in Glasgow, America's grand old March King on Monday night will have one of the largest audiences that ever listened to one musical offering.

Thirty nine stations extending from coast to coast and from the Great Lakes to the Gulf will be linked together for Sousa's radio debut. Because of Sousa's fame as a band master and composer and because of the universal affection in which he is held, it is expected that a record breaking radio audience will tune in.

**GILLENWATER IS DEAD AT MAYOS—NOTED IN STATE**

GALLUP.—Captain W. H. Gillenwater, fifty-six years old, lifelong republican and one of the old political warhorses in New Mexico, died Monday night at Mayo Brothers' hospital at Rochester, Minn.

In recent years he had been interested in the public utilities at Gallup but formerly had resided on a ranch near Albuquerque.

He had suffered from rheumatism for many years. Mr. Gillenwater was a former republican state chairman.

Visitors have passed through the plants of the Ford Motor Company at Detroit in such large numbers during the last year that some months more than 50,000 persons witnessed production of the Model A Ford.

**WHAT THEY WRITE US**

Artesia citizens are making a very noticeable effort to beautify our city and do everything just about right, and everyone you hear on the street or at public gatherings has something to say about every citizen doing or not doing his or her full duty to the community by getting behind every worthy movement with all the individual personality and push possible, and it is indeed a commendable spirit in our citizens to wish to have a part in putting over any movement for the betterment and safety of our community.

But we have one condition here that is ridiculously foolish and recklessly dangerous and the situation becomes more aggravated as the number of autos increase on our streets, someone is going to get badly hurt or perhaps killed before we become aroused and do something to remedy this evil.

The situation is simply this. When ever the fire alarm is sounded everyone in town who has an auto or can get into one, immediately proceeds to get into the street, in a mad rush to get somewhere, and completely blocks the way so that it is entirely up to the fire department to exercise caution to prevent an accident or tragedy.

Of all the crazy stunt driving the people of Artesia certainly put it on when our fire alarm sounds.

In other cities we have visited, at such times everyone on the streets any place in the city, immediately drives to the curb or as near the outside of the street as possible to get, and stops and remains at a standstill until all the fire apparatus has arrived at the fire, and no one drives nearer than one block from the fire and certainly no one drives over the hose or in any way interferes with the work of the firemen.

It is a misdemeanor in Artesia to drive over the fire hose and several have paid a fine for the offense and more will pay a fine if they are not more cautious in such matters.

Why does the public make such a mad rush to get to a fire, and in what way can they assist by getting in the way of the fire department?

It is the business and duty of the fire department to respond to every call and make all possible haste, because the first ten minutes of any fire determines very largely what the loss will be.

No one has any objections to your going to a fire, if you would go with as much haste as you go to church, but first give the Artesia fire fighters a fair chance to get to the blaze, by getting to the curb or outside of any street and remaining at a standstill until all of the fire department has arrived at the fire and then remaining at least one block away because you can see better what is going on at that distance and there are plenty of men on the fire department to handle the fire and will call on you if needed.

Respectfully Submitted,  
A FIRE FIGHTER.

Pat's eye was badly discolored. his wife asked him who did it. "Mike Murphy," he sadly replied. "What!" she exclaimed, "do you mean you let that little shrimp black your eye?" "Martha," said Pat reproachfully, "don't speak disrespectfully of the dead."

INSIDE INFORMATION

Russian dressing is simply mayonnaise, with catsup or chili sauce, and chopped olives, or pickles, or celery added to it.

When oysters go off the menu during the months without "R," claims remain to be enjoyed. They are a good source of vitamins A, D, and E and like all sea food contribute iodine, which helps to prevent goiter.

Don't leave any cereals in packages when shutting up the house for a vacation, however short. It is better to give away any small remnants than to have them spoil.

If possible, have your winter furs and garments dry-cleaned before storing them over the summer. Then pack them away carefully in tight boxes or packages which cannot be entered by moths in search of a place to lay their eggs.

Most consumers of meat know that choice beef is normally a bright or cherry red with the fat a white or cream color, as compared with the darker lean and yellow fat of the plainer animal.

With the hens of the United States laying at the rate of 45,600 eggs a minute, the nutrition specialists in the United States Department of Agriculture say it makes for good nutrition as well as good economy to use eggs freely in the family menu.

FORD IS CONTINUOUSLY OPERATED IN ALPS A PERIOD OF SIX DAYS

An official test of the Model A Ford motor in Switzerland, with the Alps as a proving ground, has demonstrated that the new Ford could be operated for a long, continuous period over abrupt, steep hills, without lifting the hood.

The fact that the trip was made when roads and climate conditions in the mountains were bad is cited as further evidence of the stability of the Ford car.

Passing through Lucerne and the Grimmel Pass, the car took the Furka Pass at an altitude of 2,431 meters, then the St. Gothard Pass down the Italian lakes through all the large Swiss towns and back to Zurich.

In each town the car was stopped, but not the motor. The motor ran constantly from the time the car was started in Zurich until the return six day later.

The new road project between Alamogordo and Clouderoft through La Luz canyon to Highrolls has been completed, says the Alamogordo Advertiser and the heavy machinery is being moved to the Malpais project at Carrizozo.

BOY SCOUT NOTES

Everything is being put in readiness for the opening period of the Boy Scout camp. The first period will open June 9th and close June 19th.

Local Scouts have not decided definitely just which period they will attend. Several improvements have been made since the closing of the camp last fall.

Last year two hundred and twelve scouts attended at least one of the ten day periods and this year the enrollment promises to be even larger.

JAFFA MILLER TO HEAD THE REFORM SCHOOL

Jaffa Miller of Roswell was appointed superintendent of the State Reform School at Springer to succeed J. F. Hutchinson, deceased.

J. W. Turton of Niles, Michigan, has driven the three Ford automobiles he has owned a distance equal to nine times around the world, has never been out of gas, oil or water and has never had an accident.

WE THANK YOU!

Your MODEL T FORD is still a good car

THE Model T Ford led the motor industry for twenty years because of its sturdy worth, reliability and economy. Those same reasons continue to make it a good car.

As a matter of fact, nearly one-fourth of all the automobiles in use today are Model T Fords. Millions of them can be driven two, three and even five more years with reasonable care and proper replacements.

Don't sacrifice your Model T, therefore, but take it to the Ford dealer and have him estimate on the cost of putting it in A1 shape. A very small expenditure may be the means of giving you thousands of miles of additional service.

For a labor charge of \$20 to \$25 you can have your motor and transmission completely overhauled. This price includes new bearings, reboring cylinders and any other work necessary. Parts are extra.

Valves can be ground and carbon removed for \$3 to \$4. The cost of tightening all main bearings is only \$6. The labor charge for overhauling the front axle is \$4.50 to \$5—rear axle assembly, \$5.75 to \$7.

New universal joint will be installed for a labor charge of \$3. Brake shoes relined for \$1.50. Rear spring and perches rebushed for \$1.75. The cost of overhauling the starting motor is \$3. A labor charge of approximately \$2.50 covers the overhauling of the generator.

It will pay you, therefore, to see your Ford dealer and have him put your Model T in good running order. By doing so you will protect and maintain the investment you have in your car and get months and years of reliable transportation at a very low cost per mile.

### COUNTY IS HEALTHY TEN BIRTHS AND NO DEATHS FOR APRIL

Ten births and no deaths is the record for the month of April, established by this district according to S. E. Ferree, sub-register for the Cottonwood, Atoka and Artesia districts. The births include: Mr. and Mrs. Salvado Alaniz, daughter; Mr. and Mrs. S. Ruis, daughter; Mr. and Mrs. Therrera, son; Mr. and Mrs. R. V. Hernandez, daughter; Mr. and Mrs. Roxie C. L. Journey, son; Mr. and Mrs. Vee Thorpe, daughter; Mr. and Mrs. Samuel Torres, son; Mr. and Mrs. Albert S. Wofford, daughter; Mr. and Mrs. Bert Sinclair, twin sons.

### OIL STORY (Continued from first page)

fect that the Vacuum Oil Co., encountered an increased flow of gas at 4,090 feet, the amount of the additional flow was not learned. In the Jackson area, the Burch No. 2 of the Grayburg Oil Co., in sec. 19-17-30, encountered a showing of free oil at 1,430 feet yesterday afternoon. The Haggerty No. 1 of Leonard and Levers in sec. 18-16-30, found an additional showing of oil at 3,367 feet. Samples from the well are said to resemble the formation just above the pay in the Jackson well and indications are very encouraging for striking the pay within the next twenty-four hours. The amount of showing around 3,367 feet could not be determined.

### FIREMEN'S BENEFIT DANCE

Members of the Artesia fire department have arranged to give a benefit dance at the Silver Moon Tuesday evening beginning at 9:00 p. m., in connection with the local Woodmen meeting. Funds secured from this dance will be used to purchase uniforms and other necessary supplies for the fire department. Details of the Woodmen meeting are not known as this is written, however, it is said that the Woodmen and firemen will stage a joint parade at 5:00 p. m., which will be followed by a supper for both of these organizations. Governor Dillon has been invited to be present on this occasion.

### WOOL CLIP AT HOPE

Several sheepmen of the Hope section are making the spring clip. Owing to the fact that the clip is several weeks early it is expected to be light but of good quality.

### ATTEMPT TO DYNAMITE FISH

M. Stevenson deputy game warden and a party of Artesians attempted to locate the person or persons, who are believed to have attempted to dynamite fish in the Delaware river near the state line Sunday. Several explosions were heard, resembling dynamite charges, but no trace of the would be dynamiters could be found after an extended search.

Calling Cards, 100 for \$1.75, on best grade paneled or plain stock.—The Advocate.

### INTEREST HIGH IN THE DISPLAY AND TRACK MEET AT JUNIOR HIGH

The eighth grade room won the track and field meet at the Junior High school grounds, Friday. Louise Smith was the high point girl and Hansford Shockley was the high point boy. Owing to lack of space only the winners of first place in each event are given:

Class A winners, girls: 50 yard dash, Louise Smith; running broad jump, Louise Smith; running high jump, Louise Smith; 220 yard relay, room 6.

Class B winners, girls: High jump, Velta Mae Jones; 100 yard dash, Clara Mae Marable; broad jump, Evelyn Finley; soccer kick, Nina Tebbetts; basketball throw, Nora Ellen Ransbarger; 50 yard dash, Cora Mae Marable; Indian club race, room 6; 220 yard relay, room 7; 440 yard relay, room 8.

Class C winners, girls: 50 yard dash, Nell Jackson; 100 yard dash, Alice Moore; 220 yard relay, room 8; high jump, Jeanne Wheatley; broad jump, Nell Jackson; soccer kick, Averil Stuart; basketball throw, Victoria Moore; 440 yard relay, room 8; Indian club race, room 8.

Class A winners, boys: 50 yard dash, Earl Schneider; 100 yard dash, Buster Tidwell; running broad jump, Earl Schneider; running high jump, Buster Tidwell; hop, skip, jump, Earl Schneider; 440 yard relay, room 6.

Class B winner, boys: 50 yard dash, Joe Bill Ballard; 100 yard dash, Joe Bill Ballard; 220 yard dash, Joe Bill Ballard; 120 yard hurdles, Edwin McCaw; 440 yard run, Joe Bill Ballard; running high jump, Edwin McCaw and Willard Mitchell, tie; running broad jump, George Nicholson; pole vault, Roy Cowan; 440 yard relay, room 8; shot put, Donoll Fanning.

Class C winners, boys: 50 yard dash, Hansford Shockley; 100 yard dash, Hansford Shockley; 220 yard dash, Hansford Shockley; 440 yard run, Hansford Shockley; 120 yard low hurdles, Paul Bruce; broad jump, Hansford Shockley; high jump, Ross Conner; Pole Vault, Ralph Chapman; shot put Ross Conner; 440 yard relay, room 8.

A number of patrons visited the exhibit placed on display at the Junior High school building Friday. The display, showing the results of the work done in the respective grades was said to be the best ever seen in a similar exhibit. Six health posters shown on the local exhibit were sent to Carlsbad.

### MAY DAY OUTBREAKS

Eight dead, 78 seriously injured, 600 arrests in Berlin. Several dead and "many" hurt in Kovno. Mob dispersed from American embassy, Mexico City. Hungary's principal cities "armed camps." More than 3,200 arrests in Paris. Communism parading the Soviet-armed forces in Moscow. Above concisely are the outstanding events marking the celebration of May day, 1929. Offsetting them, however, came reports from Brussels of quiet parades, more sparsely attended than in ten years, from rural France depicting outdoor oratory, but no violence and from southeastern Europe, South America and Central America recording exceptionally quiet.

ENGRAVING AT THE ADVOCATE

### LOCAL RESIDENTS ARE URGED TO MAKE WAR ON THE DANDELIONS

Attention of property owners is called to the fact that the season for displaying flowers in the contest has arrived. Beautiful spring flowers have brightened up the Chamber of Commerce room on Wednesday for the past two or three weeks. This is the season for snapdragons and growers of this flower are urged to bring in their exhibits. Roses are also coming into bloom and the committee is anxious to have large displays of these and other flowers as their seasons arrive. If you have not listed your flowers, do not fail to do so at once and have a hand in the effort to encourage the beautifying our town. You may not care to take the prize, but your interest will help to build up a proper town spirit. Recognition is due the two Banks, E. C. Higgins and Albert Richards, who advanced the cash, which made it possible to secure the attractive vases in which the floral exhibits are placed.

It has been suggested that attention be called to the encroachment of the dandelions upon the lawns in town. The rapid spread of this weed is seriously threatening the beauty of a number of lawns. Nothing but a determined fight will rid the town of them. Some cities have found it necessary to plow up all the lawns and let them lie fallow for a couple of years in order to kill out the dandelions. Let's take action now before the case becomes so desperate and keep it up until all are exterminated.

**Battle Scars**  
A wrinkle on the face should not humiliate the owner of the face. A wrinkle is a mark of heroism—the record of a battle of life.—Atchison Globe.

**Alum Stops Blood's Flow**  
Sometimes it is difficult to stop flow of blood after a tooth has been extracted. If powdered alum is applied to the cavity it will stop the bleeding.

**Beyond Recall**  
It is with a word as with an arrow; the arrow once loosed does not return to the bow; nor a word to the lips.—Abdel Kader.

**Spanish Stilt Walkers**  
In Spain no parade is complete without its contingent of stilt walkers, who are attired in colorful masquerade costumes.

**Fear of Woman Greater**  
All in all, I believe man's love, fear and awe of women is greater than of God.—E. W. Howe's Monthly.

**Dough Won't Do It**  
A lot of dough doesn't necessarily keep a man from being half baked.—Farm and Fireside.

**Blase**  
A mistletoe Christmas wouldn't handicap the modern younger generation a bit.—Des Moines Register.

**Capability**  
The person who is really capable of friendship never lacks friends.—Woman's Home Companion.

### ARTESIA LOSES TRACK AND FIELD MEET TO THE ROSWELL HIGH SCHOOL

Roswell High won over Artesia High school Friday at a track and field meet by a score of 77 5-6 to 47 1-6. The event was first announced as a triangular track and field meet between Roswell, Carlsbad and Artesia, but Carlsbad dropped out leaving Roswell and Artesia to compete.

The results by events:  
Mile Run—First, P. Rogers, Roswell; Second, Gray, Artesia; third, Pashea, Artesia. Time, 5 minutes 14 seconds.

Pole Vault—Pollard and Miller of Artesia tied for first; third, Gray of Roswell. Height, 9 feet 4 inches.  
440-Yard Run—T. Rogers, Roswell first; second, Pollard, Artesia; third, Lumpkins, Roswell. Time, 57 seconds.

Shot Put—Bond, Roswell, first; second, Peed, Roswell; third, Cullen, Roswell. Distance 41 feet 2 inches.  
100-Yard Dash—Adams, Roswell, first; second Montague, Artesia; third, McDonald, Roswell. Time, 11 seconds.

High Jump—First, Bond, Roswell, and Miller, Artesia, tied; third, Adams, Roswell. Height, 5 feet 3 3/4 inches.

High Hurdles—Montague, Artesia, first; second, Adams, Roswell; third, Peed, Roswell. Time, 17.3 seconds.  
Half Mile—T. Rogers, Roswell, first; second, Gray, Artesia; third, Pashea, Artesia. Time, 2 minutes 32.4 seconds.

Broad jump—First, Bond, Roswell, second, Lumpkins, Roswell; third, Hinkle, Roswell and House, Artesia, tied. Distance, 18 feet 7 inches.

Discus—First, Bond, Roswell, second, Miller, Artesia; Third, Pollard, Artesia. Distance, 98 feet 9 inches.  
220-Yard Dash—First, Montague, Artesia; second, Adams, Roswell; third, McDonald, Roswell. Time, 24.5 seconds.

Javelin—Cullen, Roswell, first; second, Gray, Roswell; third, Blair, Artesia. Distance, 131 feet 2 inches.

Low Hurdles—Adams, Roswell, first; second, Madigan, Roswell, Montague, Artesia and Pollard, Artesia, tied. Time, 29.6 seconds.

Relay—Roswell, first; Artesia, second.

Officials—Glen Austin, starter; Coaches K. F. Priest and Art Corum, judges.

### Double Story Portico Marks Southern Colonial

Mount Vernon, so beautifully situated with its wide-spreading lawns, is a nationally known example of Southern Colonial architecture. Although these Southern mansions were invariably built on ample plots of ground, because plenty of land was available, a large estate is not essential. Modern adaptations of this style can be found in many of our suburbs, nestled pleasantly in the green shrubbery. The distinctive two-storied portico is the feature of this style of house. The tall slender columns may be either round or square. The column caps may be gracefully curved or molded according to the taste of the owner and skill of the craftsman. The cornice surmounting the columns will offer opportunities for architectural detail of more than average merit with graceful molding, delicate modifications and a balustrade with interesting pattern. The roof may be flat or the portico may be covered by the main roof. The floors of porticoes of this nature are invariably placed at grade level, allowing people to step directly onto the lawn. Because of the exposed location open to elements, floor material should be durable; stone, tile, brick or cement offering a wide range of texture and color.

The house plan does not vary from the Colonial precedent. The central hall opens into living rooms on either side. An attractive stairway leads to the sleeping quarters above. The second floor rooms on the front are shaded by the portico roof and should not depend exclusively for light upon the windows in this wall. The wall and ceiling of the portico should be finished in light color and the portico itself kept shallow.

**MOHAIR CLIP LARGE**  
The mohair clip in the Pinon section is expected to be larger than usual it was learned here a few days ago.

**Look at Nature; Colors  
Brighten Tiny Things**  
There is a leaning today towards gayer and more bizarre exterior color schemes. Before adopting any of them for your house, take this hint from nature. One of her larger children, the elephant, has a sober, gray tonality, while the tiny birds and insects are usually vividly colored. This thought is useful when selecting exterior color schemes, especially nowadays when such gorgeous and brilliant colors are available in paints and stains. A small amount of bright color will usually be more effective than a large expanse, while neutral, conservative tones are ineffectual, ordinarily, if used as decorative touches.

**Now You Tell One**  
We always feel when a motor bus about fifteen feet wide and experiencing more or less engine trouble is just ahead of us in the traffic that it has just as much right to the use of the street as we have.—Ohio State Journal.

### THE RURAL TRACK AND FIELD MEET IS HELD FRIDAY AT LAKEWOOD

The track and field meet for the rural schools, held at Lakewood Friday, was very successful. In addition to well filled baskets brought by the visitors, Lakewood was host to the entire visiting delegation during the noon hour with a delicious barbeque and fish fry and all of the fixin's. The barbeque and fish fry was in charge of H. C. Holcomb, watchman at Lake McMillan.

The athletic cup was won by Lovington, with a total score of 59 points in the track and field events. This is the third time the Loving school has won the athletic cup, which becomes the permanent property of the school. The relay cup was also won by the Lovington school, with a total score of 13 points. This cup had been held by the Otis school for two years. Upper Cottonwood won first in the Schuttie relay race and Lovington won first in the arch goal ball. Each school will be given a large picture for the room.

In addition to these results the girls team from the Oil Field won first place in the 220 yard relay race. Lower Cottonwood won first place in the 440 yard girls relay race.

Mr. and Mrs. Landis Feather and children drove up to Cloudercroft Sunday and took with them their little niece, Ika Feather, who had been spending the week here. At Cloudercroft they met Prof. Adalia Feather and family, and they all spent the day together in the mountain resort. In the evening each party returned home, little Ika going back to Las Cruces with her parents.

**Calling Cards, 100 for \$1.75, on best grade paneled or plain stock.—The Advocate.**

# MOTHER

There are lines in her forehead and gray hair,  
That the care of a lifetime and love have put  
There are roses now faded that left her cheeks  
To blossom for loved ones, whose welfare she seeks,  
But all the beauty of living for others  
Shines in her face and the face of all motherhood.

Lest we forget May 12th is Mothers' Day.  
The best we could give her would fall short of what we owe Mother. Remember her with a card, motto, candy or stationery.
