ARTESIA, NEW MEXICO, THURSDAY, JUNE 13, 1929

NUMBER 26

Meet At Springs Processed everyday

Called By Pres- Hoover Develops Debating Forum Men Do Not Willing Stopped.

Opposition to President Hoover's order withdrawing aid from oil prospectors signs of abatement today at Colorado Springs. Called especially for the feasibility of limiting the government's development of oil. Operators have gone so far as to oppose the Hoover tariff on imported oil. The associations announced they were not willing to import. The industry has criticized the tariff on imported oil. The New Mexico oil industry is also wired Governor Woodard. Governor Woodard is wired back that he will not do until the matter is decided by the commissioner. The conference called by Hoover to consider conservation voted to have a three day meeting to resolve to meet the president's call and study to the problems.

MAJESTIC TO START SUNDAY MOVIES

The Majestic theater will start Sunday movies, beginning next Sunday, Ray Bartlett, manager announced yesterday. Plans have been made to present a regular program each Sunday evening.

WILLIAMS SHIPS OUT LAMBS

Bryant Williams, Hope sheepman shipped out two cars of lambs to market at Kansas City, yesterday.

SELLS WOOL

John P. Cauhope, Hope sheepman yesterday sold four hundred bags of wool to Gross-Kelly, for 25 cents per pound. The wool will be delivered to Artesia next week.

CRILE DECLARES STATE FORESTS BE CONSERVED

SANTA FE—Land Commissioner A. D. Crile in a letter to the Roswell and Artesia chambers of commerce yesterday pointed out that if any timber on state lands in that vicinity is sold, that the cuttings will be confined to ripe trees and will be supervised with cooperation from the United States forest service.

IS CHOSEN DIST. GOV'NOR'S CLUBS

The two chambers recently protested jointly against the advertised sale of 5,500 acres of state lands in that vicinity. They pleaded that to cut the timber would spoil the scenic beauty of the region which is an annual tourist attraction.

NEW CHATTEL MORTGAGE LAW EFFECTIVE

The new chattel mortgage law became effective Saturday, ninety days from the last session of the last state legislature. It is no longer necessary to file chattel mortgages on migratory property with the secretary of state.

GOOD WILL CAR NO. 13 IN WRECK

Those who believe 13 to be an unlucky number, may have the satisfaction of saying "I Told You So." Anyway No. 13 proved to be unlucky for Walter Graham, who was No. 13 in the good will excursion to the mountains. Mr. Graham's car, a Chevrolet, was damaged in a wreck, according to a phone message received by Mrs. Graham, but nobody was hurt. The details of the accident were not made known.

MAY WEATHER

The total rain fall in May amounted to 4.63 inches, according to a report submitted by R. W. Bruce to the Advocate office Thursday afternoon. The highest temperature recorded during the month was 99, while the lowest was 32.

BODY OF MRS. MUNGER IS SHIPPED TO ARTESIA FOR BURIAL MONDAY

Funeral services were held here Monday afternoon for Mrs. Ida F. Munger, aged 61, of Carlsbad, who died on June 4, in a Los Angeles hospital, following a serious operation. The funeral services were conducted in the Presbyterian church by Rev. H. A. Pearce of Carlsbad, former pastor of the Christian church here.

WM. LINELL WINS OVER SPENCER IN FINALS OF GOLF TOURNAMENT

The first annual golf tournament has proved to be one of the feature athletic events of the season and has attracted unusual interest despite the fact that "it is just a toddling youngster," half through its first season.

In the first round of the championship tourney, B. E. Spencer eliminated A. C. Kimbrough, making the eighteen holes in less than par. The next contest in the championship flight was fought out between B. E. Spencer and Bill Linell and was a hot one. The contestants were tied at the end of the eighteenth hole and played an extra to determine the finals in the championship, Bill Linell winning.

In the amateur flight L. B. Feather defeated Richard Wheatley, Joe Clayton defeated Willis Morgan, Bildstone defeated C. C. Tebbetts. In the ham and egg flight Schonmaker defeated Tex Henson, Albert Richards defeated George Threlkeld, Virgil Wells defeated Dick Atterberry, Ray Bartlett defeated Van Welch Jr., to go into the semi finals. In the booby flight Jas. P. Bates defeated John Boren, Carl Cunningham defeated Terry by default and J. S. Ward defeated Fred Cole.

STEADY PROGRESS ON WELLS--BURCH AND GISSLER ARE WATCHED

Despite the fact that the southeastern area is experiencing its greatest drilling campaign and that steady progress has been made in the greater portion of the tests during the past week, no completions have been made and the sector remains quiet.

NEW TESTS SPUD IN

Three new tests spudded in this week. The Mesa Oil Co., Seale No. 1, in sec. 15-20-27, spudded Monday. In Lea county two tests for the Humble Oil and Refining Co., also got underway. These being the Lindley No. 1, in sec. 23-25-36 and the Bowers No. 1, in sec. 30-18-38.

BIG FRUIT CROP FOR HOPE

Apple growers of Hope are preparing to harvest a bumper apple crop soon. The crop is estimated at 40 to 50 cars. Several growers have arranged to purchase a grading and washing machine, on the co-operative plan, which will greatly facilitate the marketing of this year's crop.

SCOUTS LEAVE FOR CAMP

Twelve Boy Scouts, members of troops 8 and 29, left for the summer camp above Weed, Sunday, to attend the first period of the camp, beginning June 9th. The scouts were accompanied by Bert Humphrey, scout master of troop 29. Messrs Dave Beckett, Ike Keller and Dan Webb drove the boys up. Those attending the first period are:

WALTER COATS, MANAGER OF THE HOPE RODEO, WAS IN TOWN TUESDAY

Walter Coats, manager of the Hope Rodeo, was in town Tuesday arranging details connected with the annual rodeo at Hope, which will be held this year on July 24, 25 and 26. The Hope rodeo, which has always proved to be a major attraction for this section of the country, promises to be bigger and better than ever this year, according to Mr. Coats. One thing that favors the rodeo management is the condition of the range in the eastern part of the state, the best that has been seen in a number of years.

FISHERMEN'S LUCK

J. W. Kennedy and family, Claude Mathews and family, Mr. Peppers and family, Allen Williams and family and Mr. Wilson and family spent the week end on Black river fishing and had good luck, catching plenty of cat fish to eat.

ATTEND GIRL SCOUT JAMBOREE

Mesdames J. W. Berry and D. I. Clowe drove up to Dexter Friday with a number of the local Girl Scouts to attend the jamboree given at Lake Van. Among the local Scouts attending were Misses Juanita Denton, Grace Sinclair, Genevieve Gilliland, Mabel Champion, Roma Cass, Avis Clowe, and possibly others whose names we could not secure.

COTTONWOOD BOND ELECTION CARRIED BY A GOOD MAJORITY

The bond election held in the Cottonwood district Saturday carried by a vote of 118 to 49. The purpose of the election was to approve or reject a \$30,000 bond issue, which will be used to construct a new and modern school building. Plans for the building will be made when the bonds are sold, it was said here yesterday. The new school building will be placed in the center of this district and school work up to the eighth grade will be taught. Under the centralization plan, five or six teachers will be employed.

GEO. JORDAN FATALLY HURT IN AUTOMOBILE ACCIDENT MONDAY

George Jordan, age 20, was fatally injured in a car accident which occurred a mile north of Artesia on the highway, Monday evening about 11 p. m. Mr. Jordan and companion, Herbert Newton were driving toward Artesia in a Ford roadster. While not definitely established, it was said that both young men went to sleep, the car ran off into a borrow ditch and ran down the ditch some fifty yards before it overturned. It was thought that Mr. Jordan became excited when he awoke and saw his plight and in an effort to right the car, overturned it. Jordan was pinned beneath the car for several minutes and sustained a crushed chest. George Walton was one of the first motorists to reach the scene of the accident and assisted in righting the car. Jordan was never conscious and died within an hour after being removed to his home south of town.

WEED SCHOOL TEACHER DIES

W. A. Neve, age 40, died Sunday night in an El Paso hospital, from injuries received in an auto accident near Weed, two weeks ago. A truck in which he was hauling timber to construct a stage for the commencement program at the Weed school, overturned on him, injuring his knee cap. Later blood poison set in, which which caused his death.

MRS. HOWARD MOOTS DEAD

Mrs. Howard Moots of Clovis, died very suddenly yesterday afternoon at 5:30, according to word received here. Further details concerning the death of Mrs. Moots were not made known, and the cause of her death was not learned. She was well known in the Lake Arthur community.

WALTER COATS, MANAGER OF THE HOPE RODEO, WAS IN TOWN TUESDAY

Walter Coats, manager of the Hope Rodeo, was in town Tuesday arranging details connected with the annual rodeo at Hope, which will be held this year on July 24, 25 and 26. The Hope rodeo, which has always proved to be a major attraction for this section of the country, promises to be bigger and better than ever this year, according to Mr. Coats. CROPS AND OIL RIGS HURT BY WIND AND RAIN STORM

One of the most severe electrical storms, experienced in this section in a number of years, accompanied by hail, wind and rain, occurred here Sunday night. Artesia however, escaped the wind and hail, but as the cloud veered to the southeast, hail and wind did considerable damage to a narrow strip of farming territory and to the oil field. Early reports stated that about two hundred acres of cotton was beaten into the ground, but later reports indicated that the damage to growing crops from the hail would reach near 300 acres. Roy Bowman lost two fine horses, killed by lightning. Three rigs and one garage building are reported to have been blown to the ground in the oil field.

PLANS UNDERWAY TO ORGANIZE A BALL CLUB AND BUILD A PARK

A movement launched here some few days ago to organize a ball club and build an amusement park has made some progress, but the project is not yet assured. Committees appointed by the Lion's Club and the Rotary Club worked out a proposition and submitted it to the Chamber of Commerce, which was approved. The original proposition was to lease a plot of ground near the highway, erect a park fence and grand stand and later purchase the property if funds were available. The backers of the project felt that this was the most economical way of making a start and accordingly called a mass meeting of all interested parties Monday evening.

Monday evening's meeting revealed that a number of local men felt it would be better to buy the ground and then make the improvements later. So the matter ended when D. I. Clowe, acting chairman instructed the purchasing committee, Messrs Howell Gage and Fred Brainard to see what the property could be bought for. Incidentally Monday evening's mass meeting revealed that a baseball club will receive its share of local support. A number of local citizens made short talks pledging their support to the project, the opinions expressed were somewhat divided as to the feasibility of building the park improvements on leased ground. Among the speakers were Fred Brainard, who explained the purposes of the meeting and gave an outline of the plans of the committee. Other speakers were: C. Bert Smith, R. A. Shugart, Joe Clayton, L. B. Feather, G. L. Deane, C. E. Mann, Howell Gage, and Jas. P. Bates.

TELEPHONE NO. 7

TREES

The Roswell Record of Saturday contained a very timely editorial under the caption, "Trees," which referred particularly to the sale of 5,520 acres of timber land in the Sacramento mountains, advertised for sale by the state on June 12th. As this is written, indications are that the sale has been set aside, however, the matter should be settled for good and all. Recent action on the part of a number of the people of eastern New Mexico, after the sale had been advertised, is excellent evidence that they will fight to preserve the natural beauty of our mountain section.

Quoting part of the poem by Joyce Kilmer, famous American poet killed in the World War, the Record continues:

"Poems are made by fools like me,
But only God can make a tree."

Up on the eastern slope of the Sacramento mountains, where stately pines and spruces are making their last stand against the forester's axe, there is located one of the most scenic regions of the southwest; the home of many people during the summer months; the location of the Girl and Boy Scouts and the favorite resort of hunters from all sections of the state.

Trees cut now bring only a small revenue to the state of New Mexico, a mere pittance as compared to the further revenues from tourists, sale of hunting licenses and what may be the result to the all-important watershed of the Pecos valley.

While no figures can be made available it is certain that the state of New Mexico over a period of years would secure a far greater revenue from the sale of hunting licenses from those desiring to hunt in this region than they would from the present cutting of the timber.

Certainly the state cannot afford to endanger the water supply of the eastern slope of the state, and no man will reason that the state should do anything to mar the scenic beauty of the mountain areas.

As we view the situation it's the poorest kind of business and one which should be immediately stopped by those who have the matter in charge.

The Record believes that the governor and commissioner will see the need of immediate and definite action in this matter and will take whatever moves are necessary to preserve this region for the pleasure and benefit of future generations.

Good roads have recently been constructed into this area in order that those who love real mountain beauty may go and see. Imagine tourists driving many miles to view stumps and a devastated forest, all that might remain of a one day beautiful mountainside.

It has been pointed out here that the state at this time has no agency for enforcing proper forestry methods, that the sale of these lands will mean a wholesale cutting of this timber and the ruining for all time of this area for a recreational area."

OPPORTUNITIES

Clinton F. Berry, Vice President of the Union Trust Company of Detroit, Michigan, says:

That today is the day of unsurpassed opportunities. The old idea that an "opportunity" was a chance to buy as cheaply as possible and sell at the highest price obtainable, is fast going into the discard.

Today, the greatest opportunities exist for those who take something of service to mankind and develop it on such a scale that its cost is reduced and its price lowered, thereby making it available to an ever widening circle of users.

Such a reversal of concepts has widened our boundaries immeasurably. "Inevitable saturation points" vanish into thin air; new and vastly improved ways of doing things reduce costs—but not wages; new inventions pass with amazing rapidity from the stage of luxury to that of necessity; cooperation is being found to be vastly more economical than senseless, cut-throat competition; the light of knowledge is found to be essential to scale the heights of achievement.

But in the complex structure of our modern civilization, where dependence on the efforts of one another is essential and inevitable, the eternal verities remain unchanged. The lasting nature of an opportunity or business depends, more than ever before, upon confidence, integrity, truth and honest dealing. None can disregard these qualities with safety. An appearance of prosperity may be temporarily produced by ignoring them, but retribution will be sure—and on a greater scale than ever before, by reason of the nature of the forces we are now employing upon such immense scales.

The Town Doctor

ON

WHAT GOOD IS A 4TH OF JULY CELEBRATION

A man recently asked me, "What good is a Fourth of July celebration to a town?" And he expressed a question that undoubtedly is in the minds of many, especially those past the age of getting a kick out of any kind of celebration.

It is true that much of the original intent and purpose of Fourth of July celebrations has been lost or at least overlooked in modern ways of celebrating. Have you ever stopped to consider how many of those that shoot firecrackers, never stop to consider why they are doing it? I have often wondered at the percentage of people who make hurrah on the Fourth of July that really pause in commemoration of the deed representative of the day. Leaving unsaid the honor due the day, a Fourth of July celebration has a material value to every community, whether that community holds a festival or the inhabitants go elsewhere to spend the day.

If your town is going to put on a celebration, pitch in and do everything—go to the organization committee or whoever is sponsoring it, and offer to do something.

Get busy and invite your friends to join you and yours for the day. Make it an invitation worth while. If you haven't any friends you can induce to join in the festivities, help somebody else to entertain their guests or appoint yourself a committee of one to do your utmost to help entertain the casual stranger in your midst.

Start now on brightening the corner where you are. Make your yard, your house, your store, your entire town look clean, bright and attractive; put on your best behavior and your most winning smile, and when the company comes, show them around, introduce them to the place where you live, and "sell 'em" on your community.

If the Fourth of July isn't worth anything else to a community, it is worth the opportunity it gives you to "sell everybody" that comes to your town on what a real place it is and that the people in it are real people.

If there is no celebration to be held in your home town, and if you attend a celebration elsewhere, you still have an opportunity to serve well the place where you live. Business goes where it is invited, and stays and comes back to the place where it is well treated and served best—you can not sell people on your town if you do not tell them about your town. Therefore, if you are a guest of those who dwell in some other city, invite them to visit and do business with your town, tell them about your town, "tell 'em 'till you sell 'em" that your town is a good town in which to live, work and prosper.

But whatever you do, celebrate at home, if home is celebrating.

This Town Doctor Article is published by the Artesia Advocate in cooperation with the Artesia Lions Club.

A NUISANCE

Every year hundreds of people are maimed for life by the careless handling of fire works. Large centers have through necessity practically stopped the practice. We have been constantly reminded during the past week of the need of some sort of regulation in Artesia, as the youngsters and others in town have carried on a regular bombardment on Main street.

The practice of celebrating the 4th of July a month ahead of time has become a nuisance to the business men and to the shoppers, especially among the ladies, who are subject to a nerve racking experience. It is not only a nerve racking gauntlet the ladies are compelled to run, if they appear on Main street, but a dangerous practice as well; dangerous to the public safety and dangerous to the business property, for a stop to this sort of thing unless he is aided by the lighted fire cracker may cause the loss of a valuable building.

So far as the bombardment in Artesia has resulted on one child being badly burned and has kept several sick people awake all night. One officer can not put a stop to this sort of thing unless he is aided by the proper authority and the public sentiment. Our city marshal has done his duty, but he must have some backing, if the citizens of the community stop this mal practice short of a tragedy.

How about a little swift action from the city council? Think it over.

HELPING SOLVE OUR OWN TRAFFIC PROBLEM

Progressive business men in many cities have taken an active hand in helping to solve their own traffic problems by a little self sacrifice. We say sacrifice, it isn't really a sacrifice but good business by keeping their cars off the main thoroughfare during the busy hours. Merchants have come to realize that a convenient parking space for their customers is a necessary transaction of business. They have therefore dispensed with a parking place for their own autos in front of their stores and yielded to the customer. In cities the business man either walks or rides the street car.

We do not have an occasion to put this modern practice into use, except of certain days, usually Saturdays, and if the local business men would either park away from the Main street or walk to their place of business, it would be a considerable help.

THE GOOD OLD DAYS

In every community we find a few men and women, who live largely in the past. Thinking of former days and talking of former days is a rather natural course for the human being as he grows older. While the older folks indulge in their favorite past time, we are impressed by some and repulsed by others. Some seem to envy the age of autos and the age of modern conveniences and in so doing appear to make themselves miserable as well as others around them. They may think that they would like to see the day of the horse and buggy return, but if it did, we imagine that they would still be dissatisfied. Constant reflection on the things of the past tends to glorify and magnify them. Stripped of their glamor, past events would be no more enjoyable than the day we experienced them.

As for us we have no desire to go back to the good old days. We are glad that we live in the present age.

INSIDE INFORMATION

Cottage cheese for sandwiches may be moistened with a little cream, with salad dressing, or with tomato catsup.

Leaflet 39, "Eggs at any meal," is a free publication issued this spring by the United States Department of Agriculture, containing many good recipes and suggestions about egg cookery.

One way to keep cool in the summer is to do as much of the necessary cooking as possible very early in the day. Have many cold dishes—salad, cold meats and jellied dishes—cooling beverages, such as fruit drinks and iced tea, and when you can, eat on porch or in the garden.

Fresh tomatoes can be filled with almost any left-over meat or vegetables for a stuffed tomato salad. A filling made of chopped meat, such as chicken, veal, or tongue, cooked pear, chopped pickle or cucumber, and salad dressing, is very good. After the tomatoes have been peeled and scooped out they should be seasoned inside with salt turned upside down to drain, and placed in the icebox until time to fill and serve them.

Competent woman wants man or family washings to take home.—Ad in the Hartford Times.

Wanted—Man for gardening, also to take charge of a cow who can sing in the choir and play the organ.—Westmont, Ill. paper.

The celebrated soprano was in the middle of her number when Johnny noticed the orchestra leader.

"What does that man keep hitting at her for?" he asked his mother.

"He's not hitting at her," replied mother. "Be quiet!"

"Well, then, why does she keep hollering?"

Social Activities

ANNOUNCEMENT PARTY FOR MISS WILSON

The approaching marriage of Miss Lulu Wilson to H. C. Moorehead, on June 23rd, was made at an announcement party given by Miss Wilson's parents, Mr. and Mrs. Frank Wilson, at their home on the cottonwood, Tuesday evening. Six of Miss Wilson's school friends were the special guests of the occasion. The nature of the party was kept a secret until after a delicious two course luncheon was served. Each guest was requested to follow a pink and white string attached to two place cards. The strings led to a basket and at the end of each string was a white heart bearing the inscription, "Lu and Henry June 23rd."

The guest list of the party included Misses Guinn Martin, Ina and Gladys Cole, Carmen Brown, Mesdames Finn Watson and Bill Stretter and the honoree's sisters, Misses Amy and Mae Wilson.

YOUNG MOTHER'S CLUB

The young Mother's Club met with Mrs. Schoonmaker Friday afternoon. The club presented gifts to two of the children, Andree Bulot and Guinivie Ellis, whose birthday occurred on the meeting date. The surprise of the meeting was a shower for Mrs. Howard Byrd. Mrs. Andy Teel of Hope, sister of Mrs. John Dunn was a special guest of the club.

AUXILIARY MEETING

The Legion Auxilliary met with Mrs. J. M. Story Monday afternoon. After a short business session, a social hour was enjoyed. At the close of the afternoon, the hostess, assisted by Mrs. Frank Seale, served refreshments to all members present.

FIRST NIGHT BRIDGE CLUB

Mrs. Martin Yates entertained the First Night Bridge Club, at her home Friday evening. A delicious luncheon was served by the hostess, after which the members and guests enjoyed several rounds of bridge. Substituting were Mr. and Mrs. Landis Feather, Misses Ruth Hickerson and Katherine Clarke.

SECOND NIGHT BRIDGE CLUB

The Second Night Bridge Club met with Mrs. F. G. Hartell Friday evening. After a lovely six o'clock dinner the evening was spent in playing bridge. All of the regular players were present. Mrs. William Compton was a special guest of the occasion.

PICNIC AND FISH FRY AT LAKE MCMILLAN

A number of Missouri and ex-Missouri residents gathered at Lake McMillan dam Sunday to enjoy a fish fry and picnic. Will Gray and sons went down to the dam on the previous night and caught a large number of cat fish, which were prepared for the picnickers. Among those present were: Mr. and Mrs. Will Gray and family, Mr. and Mrs. Carl Joiner, Mr. and Mrs. C. Bert Smith, Mrs. Alexander, Arch Alexander, Mr. and Mrs. De LaPort, Mr. and Mrs. Albert Richards, Mrs. John Lanning and daughter Betty Nelle and Mrs. Lewis Story and children.

BUFFET SUPPER

Mr. and Mrs. Albert Richards entertained a number of their friends with a buffet supper, at their home last evening, at 7 o'clock. The supper was served at quartett tables. The guests found their places by matching place cards to the state of Missouri. The guests were Mr. and Mrs. Tom DeLaPorte of Ladonia Missouri, Mrs. and Mrs. Warren Atwood of Kermit, California, A. C. Kimbrough, Mrs. C. Bert Smith, Mrs. John Lanning and daughter, Betty Nelle and Mr. and Mrs. Dayton Reser.

Wanted—Good gentle horse for cultivating berries. Must be reasonable.—Watsonville, Cal. paper.

Social Calendar

FRIDAY

Girl scout picnic at the City Park at 6:00 p. m.

TUESDAY

Idlewhiles Bridge Club meets with Mrs. Russell at 2:00 p. m.

First Afternoon Bridge Club meets with Mrs. Bert Smith.

THURSDAY (Next week)

Meeting of the Women's Association of the Christian church will be held at Mrs. Walter Graham's.

The Baptist W. M. U. meets with Mrs. Harvey Muncy at 3:00 p. m.

JOINT HOSTESSES AT BRIDGE PARTY

Misses Ruth Bigler and Mary Jackson were joint hostesses at a bridge party given at the E. N. Bigler home Tuesday evening. The color scheme of yellow and white was effectively carried out in decorating the Bigler home. Light refreshments were served at the close of the evening's entertainment. Present were: Misses Mary Jane and Alice Ruth Williams of Hope, Mary Katherine Vasey, Lola Gray, Mary Smith, Fern McCaw, Eloise Reser, Thelma Mitchell and LaRue Mann.

CHICKEN SUPPER

Mr. and Mrs. Frank Tigner were hosts to a chicken supper Friday evening, honoring Mrs. Tigner's sister, Mrs. Charles Kessler of Abilene, Texas and Mrs. Oliver Crozier. Only members of the family were present to enjoy the occasion including Mr. and Mrs. Kessler, Mr. and Mrs. Oliver Crozier, Mrs. Maurice Thurman, Mr. and Mrs. Frank Miller and the host and hostess.

HOLT-MITCHELL

A belated announcement has been received by the Advocate this week, telling of the marriage of Herman Mitchell to Miss Lavesta Holt of Seamore, Texas, on June 3rd. Mr. Mitchell is an employee of the Pecos Valley Gas Co., and has made his home here since February. For the present, Mr. and Mrs. Mitchell are located at the home of the groom's parents, Mr. and Mrs. D. W. Mitchell.

ENTERTAINED FOR MR. AND MRS. RICHARDS

Miss Margaret Perry and sister Mrs. Grossbrenner entertained Thursday evening at the Perry home, with a bridge party, complementary to Mr. and Mrs. John Richards. The guest list included Mr. and Mrs. Charles Mitchell, Mr. and Mrs. O. D. Moyer, Miss Katherine Clarke, Mr. and Mrs. Carl Joiner and the honorees Mr. and Mrs. Richards.

ONE O'CLOCK LUNCHEON

Mesdames J. M. and Lewis Story were joint hostesses at a the J. M. Story home Friday afternoon. Seven tables of bridge and one table of luncheon guests were entertained. Miss Ruth Morgan assisted the hostesses in serving a lovely three course luncheon.

Spring flowers were used in decorating the Story home, which was the scene of a delightful entertainment. Mrs. Deek Phillips won high score and Mrs. Phillips Sr. was awarded the consolation.

AFTERNOON BRIDGE CLUB

The Second Afternoon Bridge Club met with Mrs. S. E. Ferree, Tuesday afternoon. The members and guests enjoyed bridge until 5 o'clock in the afternoon, when the hostess escorted them into the dining room, where a lovely two course luncheon was served. Substituting were Mesdames J. M. and Lewis Story with Mrs. Schoonmaker Friday

Calling Cards, 100 for \$1.75, on best grade paneled or plain stock.—The Advocate.

LOCALS

Mr. and Mrs. C. E. Schneider of Wink, Texas were guests at the Hardwick hotel Tuesday.

Mrs. James Chrisman and children expect to leave Saturday for Roy, for an extended visit.

Bert Smith accompanied by Archie Alexander and John LaPort were Roswell visitors Friday.

Misses Ruth Peterson and Ina and Gladys Cole, accompanied Mr. and Mrs. Clint Cole to Roswell Saturday.

E. O. Feldmeyer of Roswell, a former resident of Artesia was transacting business here the first of the week.

W. B. Glover, who has been working at the carpenter trade in Texas, is making an extended visit with home folks.

Minor Huffman, Boy Scout executive passed through Artesia en route to his home in Roswell, after spending a few days in the Boy Scout camp above Weed.

Mr. and Mrs. Bob Clogston of Spearman, Texas, were the week end guests of Miss Katherine Clarke. On Saturday they went through the Carlsbad caverns.

Mr. and Mrs. Dallas Holmes, of Pampa, Texas, arrived in Artesia this week to spend the summer. Mr. Holmes went over to hot springs to take baths for a while.

Mr. and Mrs. Warren Atwood of Kermit, California, stopped off in Artesia for a short visit with Mr. and Mrs. John Richards and Mr. and Mrs. Albert Richards, while enroute to Maine.

Mrs. C. Bert Smith, accompanied by her four guests from Missouri, Mrs. J. J. Alexander, A. C. Alexander and Mr. and Mrs. Tom DeLaPort, went through the Carlsbad caverns yesterday.

Mr. and Mrs. Jim Reeves and Mrs. W. H. Cushman and children left for their home at Marion, Arkansas, yesterday morning after a short visit with their brother Walter Graham and family.

M. W. Evans drove over to Alamogordo, Sunday to meet Messrs F. H. Andrews and Samuel Marshall, oil operators of Los Angeles, California, who are spending a few days here attending to business matters.

Word received here from Dr. and Mrs. H. A. Stroup and family is to the effect that they are having a very enjoyable vacation. On June 7th, they visited in Washington, D. C., and left the following day for a visit with relatives in Pennsylvania and New York.

Miss Lola Ward drove to Carlsbad Sunday morning to meet Miss Dolores Higbee, who was en route home from Abilene, Texas, where she attended McMurray College during the past term. After a few days visit here with friends Miss Higbee left for her home in El Paso, by way of Roswell and will spend the summer with her parents, Rev. and Mrs. C. C. Higbee, former residents of Artesia.

OUTING ON GOLF LINKS

Mr. and Mrs. Tom DeLaPort, Mrs. J. J. Alexander, A. O. Alexander, Mr. and Mrs. John Richards, Mrs. and Mrs. Finn Watson, Mr. and Mrs. Albert Richards and Mr. and Mrs. Dayton Reser played a few holes of golf Tuesday and afterwards enjoyed a steak fry.

FORTNIGHTLY BRIDGE CLUB

The Fortnightly Bridge Club met Tuesday afternoon with Mrs. J. B. Atkeson. After the usual one o'clock luncheon, the afternoon was pleasantly spent playing bridge. Substitutes were Mesdames John Richards, J. H. Jackson, Chester Russell and Misses Katherine Clarke, and Dora Russell.

ENTERTAINS WITH OLD FASHIONED QUILTING

Mrs. C. M. Cole entertained at her home yesterday afternoon with an old fashioned quilting party and at noon served an old fashioned chicken pie dinner. Among the guests were: Mrs. Lillian McNeil, Mrs. R. Peterson, Mrs. Frank Wilson, Mrs. George Beal and Mrs. B. A. Bishop.

COTTONWOOD ITEMS
(Miss Alma Bradley, Reporter)

Messrs Glen O'Hannon and Rube Dunn have returned from the northern part of the state, where they spent a few days fishing.

Otis Howard, who has been visiting his brother, Monroe Howard and family, left for Amarillo last week, where he will visit relatives.

Mrs. Wilma Dillard, county superintendent of schools was in the Cottonwood community Saturday, looking after duties connected with her office.

Ernest and Cooper Malone, who have been visiting in Roswell, at the home of their grandmother, Mrs. Eva Cooper, returned home last week.

W. L. Bradley drove over to Las Vegas Thursday with his daughter, Miss Lenora and Miss Kathleen Newman of Artesia, who will attend the summer session of the Normal University.

Misses Alice and Dorothy Norris, who have been attending the University of Oklahoma, at Norman, returned home Thursday, to spend the summer with their parents, Mr. and Mrs. John Norris. Miss Alice received her A. B. degree at the recent commencement.

The Happy Hour Club met last week at the home of Misses Grace and Pauline Watson. The afternoon was spent in sewing under the supervision of Mrs. J. I. Funk. Refreshments were served at the close of the meeting. The next session will be held with Mrs. E. P. Malone.

CARD OF THANKS

We wish to thank our neighbors and members of the American Legion for the many acts of kindness during the illness and death of our beloved Phillip Bach. Also for the beautiful floral offerings.

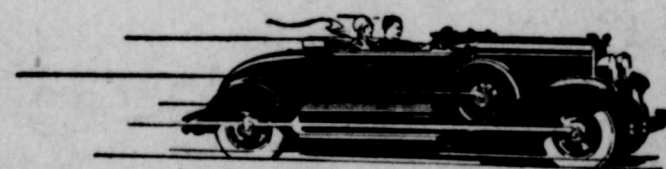

Mrs. D. E. Hedgpeth, Mrs. Ruby Haines, Mrs. Pearl Warnock and Emil Bach and family. 26-1tp

Burlingame bent over the paper. His eyes, filled with tears, dropped on the desk.—Washington Post.

A FIVE-YEAR-OLD FORECAST MORE THAN REALIZED

" + + + the Chrysler is, in reality, the first step in the general revision of motor car design which is bound to follow its advent. + + + For it is an entirely new type of car, built on a new kind of engineering, which produces results radically different from any heretofore registered in the industry."

CHRYSLER'S INFLUENCE ON YOUR CAR

It has become an axiom of the motor car industry that much of what comes tomorrow originates in what Chrysler engineering does today.

For five years, Chrysler has been the acknowledged leader in thrilling performance. For five years, Chrysler has led the way in individuality and modern smartness of design.

Those in possession of the facts know that there is scarcely a motor car today that does not owe some improvement in its make-up to Chrysler—and has not become a better car by reason of Chrysler engineering achievement.

Emulation is a nice compliment to Chrysler leadership, of course. But the

mere copying of features cannot equal the complete Chrysler results.

To you who are about to choose a new car, a natural question arises: Why not enjoy a Chrysler *itself*, so long as Chrysler smartness, comfort, performance and quality are the goals to which other cars are striving? Let us show you in a test of your own choosing the superiority of Chrysler to anything aspiring to compete with Chrysler.

CHRYSLER "75"—\$1535 to \$1795—Right Body Styles + CHRYSLER "65"—\$1040 to \$1145—Six Body Styles. All prices f. o. b. factory. Chrysler dealers extend convenient time payments.

To Send 1,500 Boy Scouts Abroad

The world's largest gathering of boys will take place at Birkenhead, England, with 1,500 American Boy Scouts participating, at the Third World Scout Jamboree, July 31—August 13, when 50,000 boys from all corners of the world will camp together. The Jamboree celebrates the coming of age of the Boy Scout movement, established by Gen. Baden-Powell in 1908. American Committee in charge, (upper row) Frank Presbrey, Chairman; Mortimer L. Schiff, George D. Pratt, New York, G. Barrett Rich Buffalo and (lower left) James E. West, the Chief Scout Executive. American championship Jamboree troop (center) Copenhagen World Jamboree, 1924, and (lower right) Scout Executive Lorne W. Barclay, Executive Officer American contingent. The prince of Wales, Chief Scout of Wales and many other notables will camp with the scouts.

Scout Richard Wheatley of Artesia, New Mexico, has been appointed by the Eastern New Mexico Council, as the representa-

tive to the world wide Boy Scout Jamboree, to be held in England in July. Scout Wheatley will join a group of Scouts at McAlester,

Oklahoma. They will sail from New York City on one of the Cunard liners. After attending the Jamboree at Liverpool, they will

visit Belgium, Holland and France. Loose-leaf Binders, Special Ruling and Stock Forms.—The Advocate.

NEW PASTORS AT NAZARENE

Announcement was made this week that Rev. and Mrs. W. A. Henry of Hagerman had accepted the call of the local Church of the Nazarene, succeeding Rev. and Mrs. H. A. Huffman. Rev. and Mrs. Henry have supplied the Hagerman Church of the Nazarene during the past year and have made the acquaintance of a number of local people. Sunday will end the pastorate of Rev. Huffman, who will be transferred to another field after the district assembly next week. Rev. and Mrs. Huffman have made many friends here, who regret to see them leave.

A goodly attendance is very much desired, as this will be the last Sunday before the annual district Assembly, which meets at Clovis, June 19th to 23rd and this is the Sunday which terminates the pastorate of Rev. and Mrs. W. A. Huffman. The new pastors, Rev. and Mrs. Henry, will be here immediately after June 23rd to assume their work.
May we look for you next Sunday.

Why Galleries "Whisper"

Whispering galleries are generally the result of accident. There are two general types—the focusing and the conducting. The dome of St. Paul's cathedral in London is the second type. A whisper close to and along the smooth concave wall is continually deflected inward upon itself by the wall, is prevented from spreading and is thus conducted with only slightly diminished intensity to the other side of the dome. The sound, traveling by great circles, concentrates again at the opposite end of the diameter of which the sound is produced.

SECRETARY OF STATE DECLARES TOBACCO LAW TO BE INOPERATIVE

SANTA FE.—Mrs. E. A. Perrault, secretary of State, Saturday declared the New Mexico tobacco law inoperative and the referendum to be in effect, through formal certificate declaring that referendum petitions contain more than the number of signatures required by the constitution. This certificate which recites by official count there were 49 signers to the petitions and only 29,576 names were necessary, will include the number of signers from each county.

Mrs. Perrault said she would certify that the signatures were numerically sufficient to place the referendum into effect, but that she would not certify that the signatures were correct.

Attorney General M. A. Otero, Saturday was preparing the certificate of information regarding the petitions supplied to him by Mrs. Perrault.

Mrs. Perrault said that although there was no legal or constitutional provision for her to take this action, that she was issuing the certificate because the law was repealed in her office and in the absence of specific direction she had devised some method of her own to meet the situation.

Printer's Assistant Is Known as "Devil"

The original printer's devil operated ink roller in the days of the hand press, says Pathfinder Magazine. In Joseph Moxon wrote in "Mechanical Exercises" as follows: "The printer sometimes has a Week-Boy take Sheets, as they are Printed the Tympan: These Boys do in a Printing-House, commonly black and white themselves; whence the workmen do jocosely call them Devils; and sometimes Spirits, and sometimes Demons."

According to a legend, Aldus Manutius, a printer at Venice in the latter part of the Fifteenth century employed the first part of the Sixteenth, employed a negro boy as a helper in his shop.

Those were the days when belief in the devil was common, and most of the Venetians were not familiar with the colored race. Many people thought the negro boy was an Imp or evil spirit and began to clamor for an investigation. When the matter came to the attention of Manutius he issued a statement to the following effect: "I, Manutius, printer to the Doge of the Holy Church, have this day publicly exposed the printer's devil. All who think he is not flesh and blood are invited to come and see him." There is no evidence to show that the incident, if it actually occurred, was responsible for the origin of the "printer's devil" as the name of the printer's helper.

The New Firestone Supreme Balloon

FIRESTONE Leadership started when it developed and sold the first automobile tires replacing the clincher tires which were held on the rims by wires. They also developed the first practical Non-Skid Tread design. Firestone then replaced the high pressure tire by developing and selling the first Gum-Dipped Balloon, which today holds all world records for speed, safety, mileage and endurance. ¶ This Leadership is maintained by the development of the Firestone Supreme Balloon, which is the last word in design, with larger air volume, added number of Gum-Dipped cord plies, thicker tread, greater non-skid protection, without impairing the wonderful riding qualities of the famous Firestone Gum-Dipped Balloon. ¶ This new development puts tire construction far ahead of modern driving conditions, embodying powerful, high speed automobiles, equipped with four-wheel brakes, which demand of tires not only greater strength and endurance, but added non-skid features where protection and safety are more important today than ever before. ¶ Come in today! We will give you a liberal allowance on your old tires.

Hoover "Democrat" Mule

There are many people who know that Herbert Hoover, President of the United States, maintains a ranch in California. There are probably many more who would like to know why this mule—the national symbol of the Democratic Party—makes his home on the Hoover Ranch. It may be that President Hoover feels sorry for the Party—pardon us—the mule, and has taken him in. At any rate "Hawkshaw," our village detective, using a Chevrolet Six-Cylinder Convertible Coupe, caught these pictures at the ranch.

H. J. KLINGER HEADS THE CHEVROLET SALES FORCE OF OVER 35,000

DETROIT, Mich.—A new figure rose to prominence on the automobile horizon a few weeks ago with the appointment of H. J. Klinger as vice president and general sales manager of the Chevrolet Motor Co. Mr. Klinger takes charge of a selling force of more than 35,000 people and becomes the leader of an organization geared up to sell more than one million automobiles annually.

In his new position, Mr. Klinger, at 40, takes over the work formerly directed by R. H. Grant, now vice president of General Motors.

Mr. Klinger was born July 5, 1889, at St. Clair, Mich., where he lived until finishing at the St. Clair high school in 1908. That fall he entered the University of Michigan becoming a member of the Lit Law class of 1912.

He left the University before taking his degree to become associated with the Chalmers Motor Company, where he remained for a short time. His first introduction to sales work was in the summer of 1912 when he went with the Murphey Chair Company in Detroit. During his five years with this organization, the new Chevrolet sales chief had a hand in the company's advertising work, served as traffic manager and later as sales manager.

At the outbreak of the war he volunteered and was sent to the officers' training camp at Fort Sheridan, Illinois, where he was commissioned a first lieutenant of infantry. He was transferred later to the Fourth Anti-Aircraft Machine Gun Battalion with which he saw a year's service overseas.

After he was mustered out of service early in 1919, opportunity beckoned in Dayton and he went to the Ohio city and joined the sales organization of the Delco Light Company. In his five years with this company he gained a broad knowledge of sales and advertising in varied capacities and in many sections of the country. This was his first contract with R. H. Grant with whom he was later to become more closely associated.

Mr. Grant came to Chevrolet early in 1924 and recognizing Mr. Klinger's success in Delco-Light, urged him to join Chevrolet. The new Chevrolet sales chief then resigned his post as branch manager for Delco-Light at Sioux Falls, S. D., and went to St. Louis, Mo., as zone sales manager for Chevrolet.

A year later he was called to the central office of the company in Detroit and in 1926 was made an assistant general sales manager.

Public acceptance of the Chevrolet car had been increasing by leaps and bounds and it became necessary for Mr. Grant as director of the far flung selling organization to extend and expand his sales force to cope with the growing demand for the product. In the working out of his plan of perfecting the organization that was soon to sell more than a million cars annually, Mr. Grant found it advisable to share more of the responsibility with Mr. Klinger. As a result in May 1927 Mr. Grant became vice president in charge of sales and Mr. Klinger became general sales manager.

For the last two years, Mr. Klinger has been closely associated with Mr. Grant in the designing and carrying out of plans that brought to

LEA COUNTY RAIL HEARING POSTPONED

SANTA FE—Postponement of the time for the interstate commerce commission hearing on the proposed Lea county railroads, will make it possible for Chairman Hugh Williams of the state corporation commission to attend, without the necessity of state financial gymnastics to provide the funds.

The Washington meeting, it was learned Saturday has been postponed for another month or two, so the finance board can keep it \$450, the state auditor will be able to keep his accounts straight, and Governor Dillon will be able to keep his word to the people of Lovington, for next year's contingent fund will be available after July 1.

The meanest husband in Denver: He shaves in his wife's presence just so he can get away with making faces at her.

LAKE ARTHUR ITEMS

(Mrs. Ned Hedges, Reporter)

Mrs. Moss Spence left Thursday for Las Vegas to enter the summer session of the Normal University.

Mrs. Shirley Smith returned Monday from a few weeks visit with relatives and friends in Missouri.

Mrs. Sam Franke and four daughters, are visiting Mrs. Frank's brother, Roy Vermillion and family, this week.

Baker Flowers employed as instrument man for the Highway Department, is spending a few days here visiting homefolks.

Mrs. Loretta Adams and children left for their home in Jerome, Missouri, Monday, after a few days visit with Mrs. Adams' parents here.

Miss Mae Brewer has been employed in the Lake Arthur schools, succeeding Mrs. Owens, who resigned. Miss Brewer is a sister of Mrs. Ben Frazier and comes well recommended.

Mr. and Mrs. Howard Moots returned to their home in Clovis, Friday, after a fortnight's visit with their parents here. Their daughter, Miss June, remained for a longer visit.

Mr. and Mrs. George Waldrip, returned last week from Socorro, where they spent a few days looking after their mining interests.

The intermediate boys and girls of the Methodist Sunday school have recently started a contest in bible reading. At the end of the contest the losers will entertain and treat the winners.

Mrs. W. W. Walden was hostess Tuesday to the Sew and So Club. The business meeting was presided over by Mrs. B. C. Moots, who has been visiting in the east for several weeks. Plans were made by the club to do additional work during the summer. Light refreshments were served at the close of the session. The next meeting will be held with Mrs. John Haven on June 25.

WOMEN OPERATE THE CHRYSLER WITH EASE

An ever increasing popularity of Chrysler cars with women is reported from all over the world. Women driving Chrysler cars are recording achievements of which even the best men drivers need not be ashamed. The manner in which these cars respond to control, according to women who have spent hundreds of hours behind the wheel, makes these achievements possible.

An unusual tribute to the stamina and ease of operation of Chrysler cars was paid by Mrs. Vivian W. Adams, wife of Major John Quincy Adams, United States marine corps, in a communication recently received by the Chrysler Sales Corporation, in which she vividly describes a 10,000 mile trip in a Chrysler "72" coupe through southern Europe, accompanied only by her friend, Mrs. Gertrude T. Baskin.

Desiring to visit parts of southern Europe unfrequented by the average tourist, Mrs. Adams and Mrs. Baskin against the advice of friends, left New York with a Chrysler coupe which had already covered 30,000 miles, with the intention of driving from Cadiz, Spain to Turkey.

From the outset, the two women found the roads scarcely fit for motor car journey. They covered the first 1,200 miles from Madrid over the Pyrenees, at a time of the year when the heat in the mountains was terrific. Although the car had to labor up roads which seemed but goat trails, for hours on end, at no time were they forced to stop because of the motor becoming overheated.

Throughout Spain they encountered few motor cars and the natives of the villages and hamlets over which they passed were amazed not only by the fact that a woman was driving the automobile, but that any automobile could be built which a woman could operate.

From Madrid the couple drove through France to Paris, where after a two months' stay in which they improved their driving skill in the crowded traffic of the French metropolises, they set forth for Sofia, in the Balkans. For 1,359 miles they drove their Chrysler over roads belying description, but it was not until they had covered a total of 5,000 miles from their start at Cadiz, that they experienced their first tire trouble. At that, the trouble was not caused by road conditions, but by a gang of rowdies in a small village, who, enraged by the French license on the car, cut one of the tires.

Through eleven different countries Mrs. Adams and Mrs. Baskin drove, finding the roads a little less terrible than the price of gasoline, which cost \$1.50 a gallon in some places. Despite the road conditions, however, no mechanical difficulties were experienced, not even when they approached the Bulgarian frontier, which was entered through Drago-man Pass, a narrow gorge, not at all suitable for motoring. Over this stretch of road an army escort accompanied the two daring women, to protect them from bandits, reported lurking in the mountains.

Through Macedonia the interperd women drivers proceeded, finding the 600 miles just before they reached Athens, through Salonika, the worst of the trip. Here the road was filled with ruts and made practically impassable by huge boulders which had descended from the mountain-side and which they were forced to roll out of the way before they could proceed.

At points these pathways turned narrow corners on the edge of precipices and a slight swerve would mean that the dauntless couple and their car would be dashed to death on the rocks beneath.

For four miles on the journey, while the pitiless sun beat down upon them, they were forced to drive in second, yet never once did the sturdy Chrysler motor over-heat or fail to respond to Mrs. Adams' call for power.

In every village in which the car halted, curious throngs, at times the entire populace, surrounded the Chrysler coupe, exclaiming with interest, for in some of these places the inhabitants had never seen a self-propelled vehicle.

Eventually Athens was reached, and after several days the two women, who had braved the treacherous mountain trails and the dangers of the semi-civilized territory through which the roads took them, were incapacitated by slight attacks of dengue fever, which had the city in its grip. On their recovery they drove over similar roads to Adrianople, on the Turkish border, with the intention of crossing the border and touring Turkey. The fact that duty of \$600 was demanded changed the minds of Mrs. Adams and Mrs. Baskin, and they changed their route, driving through Bulgaria to Rumania, after paying a fee of \$15 to cross the river Danube in a ferry boat, a charge of \$1 a minute for the short journey.

The roads in Rumania were a great improvement over any they had traveled and as a consequence they met many motorists, most of whom, Mrs. Adams stated, were driving Chryslers.

After reaching their original objective, the Chrysler "72" coupe was headed west and the two women pro-

Things WORTH KNOWING

To prevent horses from eating oats too rapidly, place a little chopped clover hay or some whole corn-cobs in the feed box with the oats.

One of the best kinds of sweet clover hay comes from the soeeling crop harvested with wheat or rye. This mixture of sweet clover and straw cures well in the shock without much damage to the grain and makes fine feeding after thrashing.

Some tomato growers allow diseases to destroy their crop on the belief that spraying delays maturity. Spraying experiments conducted by the U. S. Department of Agriculture over a period of seven years show that there is no difference in the average earliness of sprayed and unsprayed tomatoes. Fluctuations in earliness are probably due to differences in the soil.

One of the most important factors in successful mushroom culture is good ventilation. This not only supplies oxygen but allows the carbonic acid gases exhaled by the growing plants to escape. Drafts should be avoided, however, as sudden changes of temperature check growth and cause darkening and cracking of the mushrooms.

Turkeys are not so domesticated as chickens and often lay their eggs in secluded spots. Hidden nests can be found by confining the turkey hens early in the morning after they come from the roosts and letting them out late in the afternoon, when they will make straight for their nests. Sometimes turkeys will take to nests made for them out of boxes or barrels.

Parasites are insidious in their attacks and will rob the livestock owner quietly and without warning. They rarely cause quick death, but parasitized animals are unthrifty and in time become emaciated and die. Such cases should be taken in hand early. Call in a good veterinarian and if necessary, have one of the worst animals killed and examined to find out the cause of the trouble.

Here's where knotty boards can make themselves useful. A box with short, thick sides is more resistant to rough handling if it is made of knotty lumber than if it is made of clear lumber, says the Forest Service of the U. S. Department of Agriculture. Boxes with short, thick sides may come apart as a result of the direct pull exerted by the contents of the boxes on the nails, unless the shocks caused by rough handling are absorbed by springing of the boards. Knotty boards absorb such shocks better than clear boards because they are more flexible.

It is profitable to raise colts from mares that earn their feed by furnishing farm horsepower, and under good management enough colts can be raised annually to replace aging stock. The young stock can be worked from 4 to 7 years of age and then sold. The outstanding requirement of the profitable brood mares is that they be both breeders and workers. Ordinarily sound, young mares of the heavy draft

ceeded over good roads through Hungary, Austria and France back to Paris, after having consumed five months in their tour and having covered 10,000 miles.

type are the best to use. The cost of raising horses is less if good use is made of coarse roughages in winter and cheap pastures in summer.

Decayed cavities in fruit trees, besides weakening the trees, furnish a harbor for ants, wood-boring larvae, and other pests, and may be filled with cement. All of the decayed wood should be removed first with a very sharp tool, and the edges of the bark and cambium immediately covered with shellac. Then paint the exposed wood in the cavity with a mixture of about one-third creosote and two-thirds coal tar. Use a good grade of cement in the proportion of 1 part to 2 or 3 parts of sand. The materials should be mixed with water to a thick, plastic consistency and should be well tamped in to the cavity. A few nails driven in the cavity will help support the cement, and a slight undercut should be made around the edges so that the hardened cement will be keyed in.

WATER FOR THE KITCHEN

There are farm water systems to suit every need and to fit every pocketbook. A \$2 pitcher pump fastened to a bracket or a shelf at the kitchen sink will draw water from a spring, cistern, or well several hundred feet away if the water is not more than 10 to 20 feet below the pump. A force pump, which can be bought for about \$5, will permit the use of an upstairs tank with one or more cold water faucets. The addition of an \$8 range boiler provides both hot and cold water. Sixty to \$70 dollars spent for an automatic electric pumping unit and pressure tank, with a capacity of 3 or 4 gallons a minute, does away with the drudgery of hand pumping. This system has a pressure switch that automatically starts the pump when the pressure

More TOURISTS RIDE

on Goodyear Tires than on any other kind

Tourists travel for pleasure, not to be delayed in a strange country by tire troubles. Experience has shown them that for endurance on long trips, at sustained high speeds and in all kinds of weather and for traction over all sorts of roads, Goodyear tires have no equals.

Millions more people ride on Goodyear tires. Why not?—they're the best yet cost no more.

M-D Numetal WEATHER STRIPS for Windows & Doors

EASILY INSTALLED—Unnecessary to remove windows or doors. No mess. No inconvenience. Numetal is the most modern and practical type of permanent weather strip.

EFFICIENT—Numetal meets every weather strip requirement. Keeps out snow, cold draughts, rain, dust, dirt and street noises, prevents windows from rattling. Numetal takes care of all shrinkage and expansion of windows and doors and makes a weather-proof, yet easily operated window at all times.

PERMANENT—Numetal is made from everlasting spring metal—laboratory tested for temper. Outlasts the building invisible, yet always on the job.

INEXPENSIVE—Fuel savings run as high as one-third on Numetal equipped buildings. See our demonstration. Estimates gladly furnished. Telephone or call at our store today.

KEMP LUMBER COMPANY

HOW

PHRASE IN COMMON USE MAY HAVE ORIGINATED.—

It has been suggested, says the Mentor Magazine, and not without good cause, that the homely expression, "bringing home the bacon," may have originated in the ancient English ceremony called "The Dunmow Flitch," at which a gammon, or flitch (a side or leg), of bacon was awarded to the couple that swore that for a year and a day they had neither had differences nor wished themselves unweid. The ceremony takes its name from the historic village where the custom originated, at Little Dunmow in Essex, forty miles from London.

The antiquity and origin of the Dunmow Flitch ceremony is obscure. Some think that it had an ecclesiastical beginning; that a gammon of bacon was first given by the prior as a reward to a "pilgrim" or novice, who after a year and a day had not repented of his "marriage to Holy Church," as it was called. Other historians suggest that the flitch was given when the church blessed, made permanent (and rewarded!) "handfastings;" i. e., irregular marriages that were tried out for a year and a day. The ceremony is supposed to have become more or less a jocular tenure even before the Fourteenth century, and the frequent revivals that have been made partly solemn and partly an excuse for merry-making.

For a long while the custom fell into abeyance, although there have been frequent attempts at revivals. Even to this day ceremonies are held in various parts of England, although it is many years since one was held in Dunmow itself.

How Thin Gold Can Be

The thinnest sheets known to have been made of gold mechanically are 0.00001 millimeters thick. This would indicate that if a cubic centimeter of gold could be hammered out to the same thickness it would cover 100,000,000 centimeters, or 100 square meters, equivalent to about 120 square yards. At this rate a troy pound of gold would cover about 235 square yards of surface. It is to be remembered, however, that this is figured on the basis of the thinnest possible sheet of gold to be made mechanically. Ordinarily, gold foil is 10 to 20 times as thick and would cover a correspondingly smaller area.

drops to 20 or 30 pounds and stops the pump when the pressure reaches 40 or 50 pounds.

CAUTION says, "Plymouth is self-evidently a safer car to drive. Its full-size ruggedness every part is assurance of utmost strength and stability."

WHEN you make it a matter of cold-blooded business to familiarize yourself with everything that low-priced cars in general have to offer, all the inner voices tell you that the newly-refined Plymouth is the car for your money.

PRIDE says, "Plymouth is a real full-size automobile, not a miniature—the roomiest and most comfortable of all low-priced motor cars—a car you can display to your friends and invite them to ride in, without offering a single excuse."

THRIFT says, "Plymouth not only gives you the superior qualities and features that appeal to judgment, pride and economy, but Plymouth at the same time costs so phenomenally little to maintain and operate."

WISDOM, summing it all up, says, "Buy a Plymouth. It's the greatest value in its field."

FRIST 50,000 COPIES
OF HIGHWAY TOURIST
MAPS NOW OFF PRESS

SANTA FE.—The first 50,000 copies of the official 1929 highway tourist map are now off the press and ready for distribution, it was announced today by the Highway service bureau.

The new map is considerably larger than the issues of previous years and is attracting favorable comment from the first agencies to receive copies. Service bureau workers stated. A small strip of each adjoining state is included in the map to aid tourists to orient themselves in regard to New Mexican localities while planning their trips from outstate points.

All the principal topographical features of the state are shown on the face of the map together with a complete highway chart. The back of the map contains lists of points of interest in the state, a message from the Governor's pen, the national forests, the Indian pueblos, reservations, and a list of principal towns and their road locations.

The greatest part of the space on the back of the new map is given over to pictorial views of points of interest in the state, which it is thought, will serve as a powerful advertisement for New Mexico.

FEED THE LIVESTOCK
PLENTY OF MINERALS

There are only a few minerals that need be given to livestock to supplement that which is procured in their feed, says J. L. Lantow of the New Mexico Agriculture College. Most feeds contain enough of the different minerals, so that no thought need arise concerning them. However, stock should always be supplied with salt. The part of the salt that is so essential has been proved to be the chlorine. In some areas there is a deficiency of iodine in the water, and if there is little or none in the feed, such condition brings about an undeveloped or improperly developed foetus.

Many people have observed cattle chewing bones, an indication of a condition that may develop into what is known as loin disease. This disease is often called creeps, which is caused largely by a lack of the non-assimilation of phosphorus. Vitamin D, or sunlight, helps in the metabolism of calcium and phosphorus. There may be a lack of phosphorus and calcium even though no outward appearances indicate it. A number of these cases will be present whenever places extremely lacking in these minerals occur on the range. It has been advisable in such cases to place before the cattle a mixture consisting of three parts bone meal and two parts salt. This mixture will be eaten quite readily.

It is thought that possibly there is apt to be more of a mineral deficiency on the range when the forage is dry than when it is in a succulent condition. Whenever a deficiency exists the addition of bone meal will increase gains of both dam and young, raise the state of health, prevent creeps, and increase the percentage of calf crop.

It might be assumed that the animal's appetite for any material is an indicator of the need of it.

Pat Murphy attended a safety meeting. The boys had been given some printed instructions and the safety man wanted to check on results.

"Pat," he said, "can you give me six good reasons for safety?"

Now Pat wasn't up on his reading, but he was rather quick with his come-back.

"Sure," he replied, "the four little Murphys, me wife an' meself!"

MICKIE SAYS—

HIGHWAY DEPARTMENT
SOUNDS WARNING TO
CHILDREN OFF ROADS

SANTA FE. — Sounding a warning to parents and school teachers, a bulletin issued today by the state highway department calls attention to the increase of probability of highway accidents by the coming of the summer vacation for school children.

"With the turning out of the thousands of children from the guardianship of the school for the summer vacation," says the bulletin, "the probabilities of highway accidents in which children will be the victims increases many fold. Parents and school teachers are asked to warn the children against the habit of playing on the highways and of loitering at intersections.

"The children should be told that when walking on a highway to proceed always against traffic not with it. That is, the left side of the road should be used by pedestrians so that approaching cars will be seen and if dust or other obstructions clogs the drivers gaze the pedestrian so hazarded may jump into the borrow ditch which parallels each road

"Stealing rides on trucks or the backs of touring cars is a habit addicted to by children which has been the cause of fatalities in the past. As the driver of the machine rarely knows the child is on the back of his vehicle, the only protective measure which can be taken for this hazard is for the children to be admonished in school before its close and by parents."

USE OF DAIRY PRODUCTS
SHOWS RAPID INCREASE

Dr. C. W. Larson, Director of the National Dairy Council, has gathered some interesting figures in regard to the consumption of dairy products.

The average person, so he states, consumes about 500 pounds of milk a year in the form of manufactured products, such as butter, cheese, ice cream and condensed milk.

During the past seven years we have increased our per capita consumption of milk from forty-three gallons to fifty-five gallons. Butter consumption has jumped from 14.7 to 17.62 pounds per capita. The consumption of cheese has increased per capita from 3.5 to 4.5 pounds. Ice cream has increased 2.46 gallons.

As an average, the same number of people in the United States have increased the butter consumption thirty-four million pounds each year for the last seven years. Not only has our cheese been consumed but we have imported additional amounts. Last year nearly eighty million pounds were imported. During this period there were only 140,000 additional cows in the United States to take care of this tremendous increase in consumption and rapid growth of population. It all goes to show that we are rapidly improving the quality of our cows, use better systems of feeding and management and consequently get an increased and more efficient production.

JUST KIDS—From Victory to Defeat.

By Ad Carter

PHILLIP BACH DIES IN AN EL PASO HOSPITAL SAT.--BURIED HERE

Phillip Bach, aged 46, son of Mrs. D. E. Hedgpeth of Artesia, died in the Beaumont hospital at El Paso Saturday, following an attack of acute appendicitis. Mr. Bach, however, had been ill for several weeks and two weeks ago was sent to a Carlsbad hospital and later transferred to El Paso.

Mr. Bach had lived in the community for a number of years and was well known here. He was an ex-service man and had seen active service with the U. S. Navy. It was through the efforts of the American Legion post here that he was placed in the government hospital at El Paso for treatment.

The body was shipped from El Paso for burial and arrived here Monday. Funeral services were held Tuesday afternoon at the graveside in charge of the Clarence Keple Post, American Legion.

The deceased is survived by a mother, Mrs. D. E. Hedgpeth, a brother, Emily Bach, of Artesia and two sisters, Mrs. Ruby Haines and Mrs. Pearl Warnock, of Oklahoma City, Oklahoma.

How Icebergs Are Located

There is an international ice patrol maintained by the United States coast guard which patrols the Newfoundland coast and locates the icebergs on ocean routes. The location of such icebergs is communicated to the hydrographic office of the Navy department, which in turn passes on the information to the different steamship companies. All nations subscribe to this safety measure and remunerate the United States for performing this service.

Why Scraped Ice Whitens

Ice becomes white when scraped because the scraping leaves a multitude of small irregular surfaces which reflect the light in all directions, giving the white appearance.

SHEEP HERDER FOUND DEAD SOUTHWEST OF HOPE YESTERDAY P. M.

Maximo Otero, 33, and single, employed at the Lawrence-Turner sheep camp, about 20 miles west and south of Hope, was found dead yesterday morning, by the herder of the other flocks of the company. The body showed that the man had died from a bullet wound through the heart.

Information was not complete last night as to whether his death was the result of a suicide or of a range fight.

Deputy Sheriff Coffee and Judge W. C. Winston left at noon yesterday for the scene, where an inquest was held.—Roswell Dispatch.

Why Transplanting of Races Is Inadvisable

If black absorbs more heat than white, why can the colored race endure hot weather better than the white race?

In speaking of color, in a test made with the various materials dyed different colors and covering blocks of ice to determine which color absorbed the most heat, the blocks under the white material at the end of a given period were larger than the blocks under the black color. The explanation for this, of course, is that white deflects more rays of the sun than black. In speaking of the negro and dark races and their adaptability to heat, this test does not hold good. With the human element it is largely the question of being acclimated. The negro race, as far back as our records run, was a native of the tropical countries. Consequently the transplanting of this race to Northern climates makes its members just as uncomfortable as it would make an Eskimo, also dark-skinned, to put him in the extreme South.—Washington Star.

Clarence Smith returned yesterday from a fortnight's visit to Kansas points. Mr. Smith reports crop prospects along the route generally good. Corn prospects are poor owing to the heavy rains, but the grain and cotton prospects are excellent, he says.

WORK OF FILMING THE MEDICINE MAN IS NEARING COMPLETION

Work on the filming of "The Medicine Man," is nearing completion. The scenes in which the Indians were used have been completed, and the Indians have returned to the Mescalero Indian Reservation. All scenes which will be taken in this vicinity have been finished and the company is working in Roswell on interior scenes in the Armory.

When these scenes are completed they expect to take some scenes in the mountains, and in the Carlsbad Caverns.

Dexter has settled down to peaceful living again. Signs of the wild cow town are beginning to disappear. The sidewalks and streets have been cleaned out. The saloon front which was constructed for use in several scenes is still standing. The company has left if for Dexter to use if they see fit. The paint on the stores to make them look weather stained has not been removed yet.

Judging from all reports from Hollywood, "The Medicine Man," promises to be one of the best and prettiest western pictures ever produced.—The Hagerman Messenger

Why Formal Salutation

Since knighthood was in flower fighting men have saluted one another. In the old days when knights met, each would raise his visor to show the other who he was. This is the origin of our modern salute, which is therefore much older than most of our present-day customs. Just as fraternities have the handclasp and lodges have a secret greeting, just so do fighting men have their salute, which is their byword. An American man-of-warman saluting a French officer is giving him an international greeting as a brother-in-arms. Although the junior saluted first, the senior always answers and therefore recognizes the junior as a comrade in his profession.

Why Water Colors Vary

Pure ocean water has a clear blue color because salt water does not absorb the blue rays of sunlight as it does the red rays. The blueness of the water depends largely upon its saltness. The Arctic and Antarctic, which are cold and not very salt, are vivid green.

Why Rumania Honors Wilson

At Alba Julia, in Transylvania, a memorial is to be erected to Woodrow Wilson. This is in gratitude for his assistance in uniting Transylvanians and other Rumanians to the fatherland. The cornerstone will probably be laid in May.

Why It's "Shot" Silk

"Shot" silk is so called because thread of one color in the web is shuttled, or shot, through warp of another color. This gives the effect of different colors being visible from different angles.

Uncle John's Mistake

By H. LOUIS RAYBOLD

(Copyright.)

"I NEVER knew your Uncle John to do anything foolish before," worried Sally's Aunt Jane. "But it certainly does look as if he had gone and done it now! Buying all that worthless land in Cummings!"

"Maybe he figures the trolley will be going through there some day," suggested Sally.

"Trolley my eye! So far from putting any trolley through there, there's talk of ripping up the rails to Centerboro and putting in a bus route. No, your uncle just fell for that silly Freda Barnes who wanted to clear out the minute her husband died and go to Florida. Pretending she'd let that piece of woods go cheap. Why, it's been lumbered over and over so that the timber on it's no bigger round than your fist."

"Well, time will tell!" Sally was a sententious little thing, but, being one of those pretty, dimply girls, did not have to depend on brains alone for popularity.

John stood his wife's ragging good-naturedly. "Guess I got a right to spend pa's legacy any old way I please. Tain't as if it were our savings. Maybe I'm a sucker—maybe not. I don't believe Walter Stanley thinks so," he added with a sly glance at Sally.

His niece flushed. "Since Walter's been so interested in being road commissioner he doesn't think much about anything else," she said.

Uncle John puffed at his pipe in silence for a while. Then, "Want to drive over to Cummings tomorrow and take a look at the property, Jane?" he inquired.

His wife tossed her head. "Not tomorrow or any other time," she snapped.

"Well, that's all right," drawled her husband. "I'll take Sally here."

On the way to Cummings the following morning Sally and her uncle were at first busy with their own thoughts. Sally's were concerned with young Walt Stanley.

He and she had grown up together and it had been a fond dream of her aunt and uncle that they would ultimately make a match of it. Recently some tiny rift had seemed to separate them and, as there loomed a prospect of losing him, Sally realized that her heart had been lost to her girlhood chum.

Suddenly she broke the silence. "Uncle John, do you think that for any reason Walt is sore because you bought this Barnes' property?"

Uncle John stroked his chin with thin old fingers. "No—not exactly," he said finally. "Truth is, he and I have been having a little scrap that's only indirectly concerned with this land here. Walter's pishheaded, and I'll give you a bit of advice. When you marry him, use diplomacy. There, here's where my land begins. See that pretty little knoll? How's that for a site for a house, Sally? Glad, old gal."

For Uncle John still drove his bay mare for all Aunt Jane's urgings to buy a car. "Time enough when the old gal dies!" was his invariable answer.

As they rounded the bend where the Centerboro road joined the Cummings road they came upon a group of men standing on the bank that sloped up from the highway. Sally, with a leaping of her pulses, saw that one of them was young Stanley. Whatever was Walt doing here at this time of day?

"Look here, Sally," said her uncle abruptly, as he tossed the reins into her lap. "You drive on to the grove and wait for me there. I've got something to say to these fellows."

An hour later, Sally was still puzzling over what business was requiring the presence of men whose affairs would ordinarily have kept them busy elsewhere, and what her uncle had to do with it all.

Suddenly, through the trees she saw the figure of Walter. How dependable he looked! She scrambled to her feet and the next minute was locked in his arms.

"Sally," he said hurriedly. "I'm stealing a march on your uncle. Promise me you'll marry me, darling! I am afraid, if you don't now, your uncle will never let you!"

"Why—what—"

"Well," said Walt, not releasing her. "I'll tell you, honey. There's a new state highway going through and your uncle has been fighting tooth and nail for it to go through Centerboro rather than Cummings. Funny, too, because with this property on his hands, you'd think he'd welcome an increase in value. However, it's decided to run it here. And, of course, I was afraid your uncle's anger—"

"Her uncle's anger be blowed!" drawled a familiar voice that caused them to separate guiltily. "You are both of you too dumb to let live! This is the only way for the road to go, and sakes alive! And it just doubles my land here for house lots! But I had to play my little game so as not to give my fellow townspeople a chance to say that my future son-in-law ran the road by his father-in-law's property! Besides, you're that pig-headed, Walt, that the more I urged you to run it one way, the more likely you'd be to run it the other! It's just as I told you, Sally, you got to handle this man with diplomacy!" He beamed upon them. "Now, I'll be ready to go back in just about ten minutes. I'd advise you to make the most of your time!"

And needless to say, they did!

Business Confidence

Through our many years of serving the people our aim has been to merit their confidence. We do what we say we will do—no clap-trap methods—crazy sale ideas—mark-up and mark-down—no price has ever been used—when we make a special price it means a special saving to the trade.

Big Flock of Specials

- Table No. 1:**
One Big Lot Ladies' Pumps and Ties worth from \$6.50 to \$11.00—
SPECIAL \$4.95

One Big Lot Ladies' and Misses' Pumps and Oxfords worth \$5.00 to \$8.50—
SPECIAL \$2.95
- Table No. 3:**
Big Lot Ladies' Dresses, many purchased at this occasion—
BIG SPECIAL \$6.95
- Table No. 4:**
POUDRE BLUE WORK SHIRT
Regular \$1.50 retailer, sweat proof and guaranteed—
SPECIAL, 2 FOR \$2.25

SOMETHING NEW EVERY DAY
Joyce-Pruit Co.

THE FIRST BAPTIST CHURCH

The warm weather is upon us and quite a number out of the city so it becomes us who are here to be faithful to our church work these summer months. The pastor was glad to see the good attendance at our morning service last Lord's day. The storm interfered with the night attendance but the Presbyterian orchestra with our own gave us some fine music and we had a good service.

The pastor will speak Sunday morning on, "Leaving All For Jesus." At the evening service he will speak on, "The Power Of Choice." This was to have been the theme last Sunday evening but the pastor spoke to the young people on another theme. We are expecting good music from our senior choir at the morning service and from our junior choir at the evening service. Our Bible School meets at 9:45 a. m., and our B. Y. P. U.'s at 7 p. m. We extend to you a warm invitation to all our services.
R. PETERSON, Pastor.

PUBLIC NOTICE

Notice is hereby given that Johnson, operating under the name of Quick Way Trucking of Roswell, New Mexico, applied to the State Corporation Commission of New Mexico, for a license to operate a Public Conveyance. Necessity to operate between Roswell and Carlsbad, New Mexico. Said Corporation Commission set the 22nd day of June, 1929, for the hearing to be held at Carlsbad, for the consideration and application.

The purpose of this notice is to allow all persons interested an opportunity to show cause why a certificate should not be granted to the STATE CORPORATION COMMISSION, Motor Transportation Department.

Born, to Mr. and Mrs. J. E. Bowman, Tuesday, a fine son.

Misfortune followed Mrs. Virgil Wells on their relatives at Hamilton, Tennessee. Mr. and Mrs. Wells, Thursday and on Saturday Mrs. Wells was stricken with an operation. He was resting in an early report.

Announcement Cards, blank or printed.—The Advocate.

Mr. and Mrs. J. E. Bowman, Mr. and Mrs. Roy Bowman and Miss Jack Huffman, drove to Alamogordo last week to meet Mrs. Elmer Cooley of Phoenix, Arizona, who will visit her father, J. E. Bowman and other relatives for a few days. Mrs. Cooley will be remembered as Miss Anna Bowman.

CANDY

Don't let your Candy appetite suffer in the summer time because you are afraid you can not get Fresh, Delicious Candy. We keep our bar and box chocolates ice cold in the Frigidaire.
