NUMBER 30

Lee No. 1 Of Pueblo Oil Co. Gets Oil at 2542 Feet

Show Very Encouraging for Real Oil Well—Texas Shepherd Hits Big Pay At 3,285 Feet—Midwest Gregory Gets Gas.

Immediate interest to the local fraternity is the showing obtained in the Lee No. 1 of the Pueblo Co., in the NE 1/4 sec. 34-17-29, eastern Eddy county, the latest apparently the best oil strike reported in this area. Topping what is thought to be a sand at 2542 feet well was shut in to await the completion of tankage on the lease. No production test has yet been made, the prospects for developing a real well are very encouraging. The possibilities of the well will be known until after the off-arrive and a test is made.

Shepherd Big Well

The most important development in a county during the past week was the addition of the Shepherd of the Texas Production Co., in the SE NE sec. 6-26-37, to the region. The big strike was made 285 feet, after workmen had several weeks in trying to get the tools lodged at 3,218 feet. The Shepherd No. 1 is rated as a barrel well or better, and develops southeastern Lea county's major production column as served to stimulate the entire area. Oil men here report that the well has even been felt in the county. The big pay was topped Saturday and for the first two days the well made approximately 100 barrels per hour. On a test Tuesday the well is said to have made 140 barrels and in a test ending Saturday morning the well registered an increase of 140 barrels, making a total of 1,351 barrels. It was estimated at 1,700 barrels daily.

CONTRACT FOR BALL PARK — GRAND STAND TO BE APPROVED SOON

Arrangements have been completed to build the ball park and grand stand, according to an announcement made yesterday by Fred Brainard. The contract for the construction of the park and grand stand will likely be let within the next day or so and materials will be moved in the ground shortly. The park will be built on a plot of ground 350 feet square located in north Artesia, near the highway. The grand stand which is to be of a hexagonal shape will have a seating capacity of approximately 400 people. Construction on the park and grand stand will be rushed to completion in order to start the ball season at the earliest possible time. New suits and baseball equipment have already been ordered and will be ready for use when the new park is completed, Mr. Brainard said.

GARDEN AND YARD CONTEST

The date for final entries in the Garden and Yard Contest is the 15th and the committee is anxious to have all possible entries before that date. If you have a good garden or yard or farmstead or some particularly fine flowers qualified to compete will you not make an effort to enter by next Monday. Show your interest in beautifying your community and encourage the committee, which is doing its best to make the contest a success.

POTASH TESTS ANNOUNCED FOR EDDY LEA COUNTIES

Locations for potash tests in eastern New Mexico have been announced by W. B. Lang of Roswell, the U. S. Geological Service. One of these tests will be in section 5, township 24 south, east in eastern Eddy county. Another test is in section 1, township 24 south in the western part of the county and about 15 miles west of the other test. The first test is located about 15 miles east and slightly north of Malaga. The second is six miles west of the first. The tests will be drilled by the Machinery company. They will be completed before the end of the month and the results will be reported on the two tests announced.

500,000 POUNDS WOOL TO BE SHIPPED FROM HERE THIS SEASON

Wool shipments from this section have amounted to approximately 2,000 bags or a half million pounds, according to a recent estimate made by E. B. Bullock, proprietor of the Bullock warehouse. The average weight of each bag is 250 pounds, which makes the total shipment figure around a half million pounds. The value of the shipments up to date is placed at \$125,000, calculating the total pounds at the present market price.

SIXTY WORKMEN NOW EMPLOYED ON THE NEW HOTEL BUILDING HERE

Finishing work on the new hotel will go forward at a rapid rate now, says Charles H. Sharp, president of the Pecos Valley Development and Engineering Co., and will be completed within a month or five weeks. Sixty laborers are now employed on the construction of the building. All floors have been laid except the second story and work started on this floor to-day. The plasterers have practically finished the plastering work on the sixth floor and in the basement and are now working on the first floor, finishing up the lobby and in the dining room.

The partitions in the various rooms are also being put in place and the wood work on many windows is being set in place. The plumbers and steam fitters will soon have connections made to the heating plant and once this is completed, the interior workmen are expected to make short work of painting and paper hanging operations.

CONTRACT FOR BALL PARK — GRAND STAND TO BE APPROVED SOON

Arrangements have been completed to build the ball park and grand stand, according to an announcement made yesterday by Fred Brainard. The contract for the construction of the park and grand stand will likely be let within the next day or so and materials will be moved in the ground shortly. POTASH TESTS ANNOUNCED FOR EDDY LEA COUNTIES

Locations for potash tests in eastern New Mexico have been announced by W. B. Lang of Roswell, the U. S. Geological Service. One of these tests will be in section 5, township 24 south, east in eastern Eddy county. Another test is in section 1, township 24 south in the western part of the county and about 15 miles west of the other test. The first test is located about 15 miles east and slightly north of Malaga. The second is six miles west of the first. The tests will be drilled by the Machinery company. They will be completed before the end of the month and the results will be reported on the two tests announced.

22 OFFICIALS OF THE W. TEXAS MOTORCADE CONTINENTAL OIL CO. TO SPEND NIGHT HERE VISIT HERE SATURDAY

Oil Officials Traveling In A Big Mack Bus—Makes Stop To Inspect Properties Here—To Visit In Eleven States.

Twenty-two representatives of the Continental Oil Co., including D. J. Moran, president arrived in Artesia Saturday for a brief inspection of the company property here. The Continental Oil Co., is a pioneer in the matter of establishing a refinery in the southeastern part of the state, having constructed a refinery here in 1925. The company also operates a wholesale station here.

The Continental officials were traveling in a large Mack bus, especially equipped for the trip. The bus contained all modern conveniences usually found on real up-to-date passenger trains and steam ships, such as radios, reclining chairs, water coolers, writing tables and many other conveniences designed to aid the comfort of the travelers. The carrying capacity of the bus was twenty-nine passengers. On the outside of the vehicle was prominently displayed the trade mark of the company, "Conoco."

The itinerary of the Continental officials included a visit to various points in eleven states. They left Ponca City, Oklahoma on July 2nd and plan to return by July 23rd.

Those making the trip are D. J. Moran, president; E. T. Wilson, chairman of the board of directors; S. H. Koughan, chairman of the executive committee; E. J. Nicklos, vice-president in charge of production; Walter Miller, vice-president in charge of manufacturing; E. S. Karstadt, vice-president in charge of marketing; W. H. Ferguson, executive vice-president; B. H. Markham, comptroller and assistant to the president; J. J. Cosgrove, general counsel; O. B. Lloyd, sales; Harry Moreland, pipe line; Tom Kenney, pipe line; E. O. Bennett, chief engineer; G. C. Clark, geological; J. M. Hollister, general manager of plants and equipment; H. B. Simecox, production; E. C. Halsey, manager of service stations; Fred Seales, director; J. S. Curtis, southern sales manager; Emerson G. Smith, supervisor of publications; T. D. Harris, manager of motor transportation; S. J. Trilling, secretary; John L. Wilson, representative of the Mack Truck company, and T. Lachenmayer, driver-mechanic.

TOURIST TRAVEL IS INCREASED 20 PER CENT OVER YEAR AGO

SANTA FE—With the Cowboy's Reunion at Las Vegas drawing the biggest crowd in its history, with the Carlsbad Cavern attendance record shattered almost daily and with the New Mexico state museum here reporting a 20 per cent increase in tourist attendance over last year, indications are that all advance estimates of tourist travel throughout the state will be shattered, the state highway bureau has announced.

Tourist bureaus in the mid-west report that their request for information on New Mexico run as high as 100 per week, while bureaus in big eastern centers report requests reaching as high as 400 weekly.

An average of 1,000 highway maps are requested per week by tourists and touring agencies, the service bureau states, while there are already approximately 5,000 requests on hand for copies of the state highway tourist guide when it is off way tourist guide when it is off the press.

MEN'S GOLF TOURNAMENT ENDED LAST WEEK

The first annual golf tournament to be staged by the Artesia Golf club is ended and now a matter of past history. The finals were played considerably behind the original schedule in the last three flights. The winners of the respective flights were: Championship, Bill Linell, 1st; B. E. Spencer, 2nd. Amateur, V. L. Gates, 1st; Joe-Clayton 2nd. Ham and egg, Ray Bartlett 1st; Albert Richards, 2nd. Booby flight, Jim Bates 1st; J. S. Ward 2nd.

Six local golfers who journeyed to Carlsbad Sunday were again defeated. The Cavern City players won by a margin of approximately 3 up.

W. TEXAS MOTORCADE TO SPEND NIGHT HERE GOING TO CLOUDCROFT

Expect To Arrive Here Sunday Evening After Visit To The Carlsbad Caverns—Will Attend Convention In Roswell July 16th.

Artesia will give members of the West Texas Chamber of Commerce motorcade an informal reception on Sunday evening if the motorcade is carry out its itinerary as announced recently. According to plans the party will be en route to Roswell, where they expect to attend the Pecos-Intermountain district session of the West Texas Chamber of Commerce, which meets July 16th.

Starting out the Motorcade will attend conventions in this section, one at Van Horn, Texas on July 13th and one at Roswell on the 16th. From Van Horn they will come to Carlsbad and on the 14th will go through the Carlsbad Caverns. They plan to spend the night of the 14th here and journey west to the mountains the following day, making stops at Hope, Elk, Mayhill and Cloudcroft, and will spend the night at Ruidoso. From Ruidoso they will drive into Roswell the following day for the district convention.

COTTON MAN IN VALLEY

G. S. Crawford, representing the cotton division of the United States government has been in the Pecos valley investigating the claim of some mills owners that irrigated cotton has not the strength of fiber of other cotton. From the data collected, Mr. Crawford believes that the fault lies with minor details connected with cotton growing and hopes to remedy the situation at an early date.

OLD SETTLERS OF ROCKY ARROYO CELEBRATE 4th

The John Fanning family and the Lewis Angel family drove up on Rocky Arroyo Thursday and celebrated the Fourth with some of their old friends, pioneer settlers on Rocky. Besides the early settlers there were a number of others present making a goodly company of a hundred or more, who did justice to a splendid picnic dinner.

LIGHT OIL CONTINUES TO INCREASE IN OIL FIELDS SAYS REPORT

TULSA, Oklahoma—Light crude oil production in virtually all fields of the United States continued to increase during the week ending July 6, to result in a total estimated increase in the daily average production of approximately 29,117 barrels a compared to the estimates for the week ending June 29, according to the oil and gas journal.

Heavy oil on the contrary, decreased approximately 6,169 barrels from the estimated daily average for the week ending June 29, making the estimated daily average production increase for both heavy and light oils, but 22,946 barrels over that of the preceding week.

The estimated daily production for the week ending July 6, was 2,851,168 barrels, as compared to 2,828,222 barrels for the week ending June 29.

Greater Seminole area contributed 10,075 barrels to the 19,735 light oil increase registered in Oklahoma fields. Yates field boosted west Texas production more than 5,000 barrels and total mid-continent production light increased 20,551 barrels. Heavy oil decreased 740 barrels in this major area.

CONSTRUCTION ON GAS LINE IS RAPID

Construction on the eight inch natural gas main to Roswell is progressing rapidly, says Judge Joe Burkett, secretary-manager, although the heavy rains and a holiday will delay the completion of the line into Roswell a day or more. July 20th was the scheduled time to have finished the line into Roswell but with the delays experienced, it is doubtful if the line will be finished before the 22nd.

A LINCOLN COUNTY MAN DROWNS NEAR CARRIZOZO MONDAY

M. Carabajal was drowned in an arroyo near Carrizozo Monday evening when a terrific rainstorm swept Lincoln county between Capitan and Carrizozo.

Carabajal with his wife and two children were held up on the road at an arroyo by high water. Carabajal walked into the water to see whether it was too deep to drive his automobile across and was swept off his feet by the swift current. His body was not recovered for several hours. He was a sheep owner in the Jicarilla section and a member of a prominent Lincoln county family.

JOHN M'CORMICK A VETERAN OIL DRILLER DIES HERE MONDAY

John McCormick, age 72, veteran oil driller died at the family residence at 5:30 Monday afternoon, following an extended illness. Mr. McCormick had been in ill health for some two or three years and about a year ago underwent an operation from which he never fully recovered.

Mr. McCormick, one of the oldest oil drillers in the southwest came to Artesia about three or four years ago from Tulsa, Oklahoma and has made his home here continuously since that time. He is survived by a widow, two daughters, Mrs. W. R. Schoonmaker of Artesia and Mrs. Charles McKee of Ranger, Texas a son, Ralph McCormick of Artesia, and a sister, Mrs. Frank Tigner, also of Artesia.

Funeral services were held here Wednesday morning at the Catholic church, the local rector officiating. Burial was made in the Woodbine cemetery.

S. ANLANIS NOW CITY EMPLOYEE AFTER A BOOZE HAUL ON 4th

Officers raided the premises of Salvador Alanis, who lives in west Artesia, Thursday afternoon and secured a large quantity of beer and a small amount of whiskey. Alanis had the liquor stored in his dwelling for the purpose of retailing it, it was said and was not engaged in manufacturing either beer or whiskey. The cache included 100 bottles of beer and a bottle of whiskey. Alanis was arraigned before S. W. Gilbert and Friday plead guilty on charge of possession of liquor. Judge Gilbert assessed a fine of \$310.00 in as much as this was the second offense for the Mexican. He had previously been arrested on charge of manufacturing liquor. Officers making the raid included Ross and Abe Conner and Carl Gordon, city marshal.

Early information states that Alanis had not been able to raise the required fine and was placed at work, cutting weeds by the city.

SECOND PERIOD SCOUT CAMP OPEN JULY 18th

Sergeant James Duthie of Roswell, who is directing the Boy Scout summer camp above Weed, who stopped off here a short time Saturday afternoon while en route home from the camp, announced that the second period of the Boy Scout camp will open July 18th and last for ten days. The officials are expecting to care for 120 boys at this time. Several local scouts may attend the second period. Joe-Bill Ballard is the only local scout signed up to go so far as is known.

MAYHILL LAD DIES OF WOUND

News was received here Saturday of the death of a young son of Earl Paxton of Mayhill, which occurred Friday as a result of an accidental gun shot wound. Young Paxton and a son of Newt Pentgrass had gone out rabbit hunting and Paxton was shot when a small rifle belonging to Pentgrass was accidentally discharged. The accident occurred during the early part of last week and young Paxton lived for several days. Further details of the tragedy were not learned.

LOSES CAR

Seth Tidwell lost his car Monday night, while attempting to go thru a dip east of Hondo. He was stalled in the dip by water in his engine and before he could get out a wall of water came down and swept the car away. Suitcases containing clothing belonging to two nieces, who were with him, were also swept away. The unfortunate party sought refuge in some houses nearby until daylight, the accident happened about two o'clock in the morning.

Co. Budget Is Made At County Meet On Tuesday

Tentative Plans Made To Construct New Jail—The Road Fund Increased—Board Of Appraisers Is Created.

An increase in the county road fund, tentative provisions for the construction of a new jail and approving the contract for the purchase of the necessary gravel to be used in the highway oiling operations from the county line to Lakewood were among the principal items to receive the attention of the county commissioners at Carlsbad when the county budget was made Tuesday. Nathan Jaffa, of Santa Fe, representative of the state tax commission was present and assisted in framing the budget. The road fund was increased from \$13,000 to \$24,000. Tentative provisions have been made to construct a new jail, if the budget is approved by the state tax commission.

A new item of the budget created is the appraisal fund, which provides for the appointment of an appraisal board to view all property in the county between February 1 and April 15th of each year. The board to consist of a man appointed by the Eddy county commissioners, a man appointed by the state tax commission and the Eddy county assessor.

The county valuations shows an increase of practically \$400,000, while the local valuations show a slump.

BROTHER OF BOONE BARNETT DIES IN OKLA.

Boone Barnett, manager of the Big Jo Lumber Co., received the sad news of the death of his brother E. J. Barnett, which occurred at Tishomingo, Oklahoma, Friday afternoon, following an operation for appendicitis. Mr. Barnett, who was out of town at the time the death message came, did not learn of his brother's death until after the burial Saturday.

EDDY COUNTY PRISONER ESCAPES PEN

Elbert Cisco, a prisoner, escaped from the penitentiary farm at Santa Fe Friday. He is 17 years old. Cisco was sent up from Eddy county on February 26, for forgery. SANTA FE—Albert Cisco, who escaped from the penitentiary farm last week was caught near Pecos Saturday by Tony J. Martinez of Santa Fe and Ramon Uibarri of Las Vegas. Their attention was attracted to the man because a piece was torn out of his shirt where the prison numbers are stamped. Cisco did not resist them and they brought him back to the penitentiary.

DRILLING 14 WELLS ON STATE LEASES NOW

Fourteen oil wells are now being drilled on state lands, A. D. Crile, land commissioner said Monday. Thirteen of these wells are on public school lands, one on capital building land.

FAVORABLE BALANCE REPORTED IN STATE EDUCATIONAL DEPT.

SANTA FE—State School Superintendent Atanasio Montoya announced Tuesday that his department had completed the seventeenth fiscal year with a balance of \$159,291 in the contingent fund "in spite of the fact that the former superintendent exceeded by about \$4,000 the amount of the contingent fund which accrued to her administration."

Mr. Montoya said the favorable balance was achieved principally because around \$4,000 was saved when he turned over the eighth grade examinations to the county school authorities. He said large savings were also made on telephone and telegraph bills. Mr. Montoya said his telephone and telegraph bill for the last six months was \$92.50 while the bill for the previous year under the former administration was \$917.64.

HURTFUL POLICY

The final toll of the Hoover oil conservation policy has not been counted, but in all probability it will cost oil operators over this section well over a million dollars, unless it is modified at an early date. So far as this section is concerned it was the costliest political blunder that has been made in the last fifty years and is so designed to delay the rightful development of the state for possibly as many years more. It may be wise to make reservations for the safety of our future generations, but the rocky mountain area should not be called upon to do it all alone. New Mexico and other Rocky mountain states should be permitted to produce their prorata part of the oil. There is nothing objectionable to the idea of conservation provided that it is properly applied, but when the adoption of a policy has for its purpose the enforcement of a ruling that will deter the development of a state and let one region prosper at the extreme expense of another, then its time something should be done.

In ten, twenty or thirty years chemists may be making commercial gasoline from trees, coal or other substances cheaper than it could be obtained from the ground and in a case of that kind, which is not impossible where will we be?

SOMEBODY OUGHT TO DO SOMETHING

Frequently we are reminded that the poor who are more or less on charity are still with us. The question of how to take care of these unfortunate cases is a matter that something ought to be done about but still nobody does anything. The distribution of the Eddy county indigent fund has become a matter of increasing concern to the county commissioners and one that demands immediate attention.

As the case applies locally how long the business men will continue to contribute to questionable causes, has given rise to considerable speculation, especially in view of the fact that we are not taking care of some of our most worthy local institutions, part of the money, a great part of it is given without system and without knowing anything about the worthiness of the cause. Charity work is not causing all of the financial drain on the community either. It may be a questionable advertising scheme or it may be a questionable promotion scheme, all the same the money goes.

The writer often wonders why our service clubs have been strangely silent on this subject. It appears to us that both the Lions and the Rotary clubs are passing in a real opportunity to be of service to the community. Surely they are not afraid to tackle a problem that promises so much results. Of course we can't expect to effect an entire cure, but we can revolutionize the present methods of contributing to this and that and in the end even a partial cure will be of untold benefit.

REFRESHING MR. WILSON

It may be refreshing to many local operators to know that the problems connected with the interior department's order relative to oil development on government lands has been solved now that Francis Wilson, Santa Fe attorney has told the lawyers of the state "how the hog et the cabbage." Many lease holders will be glad to learn that they have not been hurt by the order of President Hoover, which went into effect March 12th. Mr. Wilson has said so and he ought to know. Quoting from his Clovis address he stated, "The people of the state have not yet been injured by the order. Individuals may have lost TRIFLING amounts by the cancellation of permits, but the state has benefitted enormously because of a policy which has forced great development—much of which is adjacent to state lands and some of which will prove the value of those lands as oil bearing. If these facts are kept in mind, it will be apparent that the committee, which was representing the state and not individuals was in no position to complain as to the past and present effect of the policy.

Speaking of the Colorado Springs conference, Mr. Wilson said:

"Fortunately, wise counsel in the end prevailed and after everyone who had a grievance had aired it to the edification and frequently the education of the assemblage, it was discovered that after all the conference was worthy of being something more than a clearing house for unstruck balances, and it recessed, subject to the call of the president, with the publicly expressed conviction of all present that the real purpose which had actuated the call in the first instance should be pursued until a program of conservation upon which there might be practical accord could be reached."

We might also add that it has been rumored that two oil operators from the Pecos valley were all that kept the New Mexico committee from making an ass of itself and blindly following Mr. Requa's policy of "permissive coercion."

A QUESTION OF TIME

Merle Thorpe, editor of the Nation's Business writes: A young man writes to ask which field of business will offer him the greatest opportunities for success during the next 25 years. Not knowing his inclinations we must discuss the question in general terms.

One not is clear in our present day life. A mighty contest is on to defeat Father Time. Each one of us is born with a given number of years and days to his credit. The fateful span cannot be increased by a single minute, except by getting more done in the given span. That way only can life be lengthened. Practically everything that is going on today is motivated by this urge, and success has perched on the banners of those who have devised ways of making us live longer within our allotted time.

What is mass production but a battle against time? Mass selling is a short-cut over the peddler and the drummer age. Instalment buying defeats time by giving us those things we desire earlier than we would otherwise have them.

First page news is when a train clips five hours off the schedule from Chicago to San Francisco. We applaud and pay tribute to the genius which brings Berlin and Stockholm and Paris to the telephone on our desk. We cheer Lindbergh. The automobile, radio, electric refrigeration, aviation, television—all are eagerly accepted because they give us a glimmer of that thing we most desire, victory over time.

Conveniences for the office, visible index filing systems, adding and bookkeeping machines, typewriters, dictaphones—all for what purpose? To save time, thereby making more time available for other things. Conveniences for the home, running water, electricity, roller screens, thermostats—all evidences of the inexorable fight against time.

The question of the day is, "How long will it take? An earlier generation asked, "How far is it?"

CREDIT

J. Lionberger Davis, Chairman of the Board of the Security National Bank of St. Louis, says:

That the present credit situation, which is being discussed throughout this country and the rest of the world, is puzzling because the fundamental principles are not kept in mind.

Money is only a symbol. People really borrow things. If one borrows a thing which he uses productively and profitably, the use of credit is legitimate. If, however, one borrows a thing which he cannot or does not use productively and profitably, credit is abused.

Most of the present credit stringency and high rates of interest are due to the hope of speculators that they can borrow securities and sell them later at a profit which will be sufficient to pay high carrying charges and leave to the borrower riches which he has not earned.

Tulip speculators in Holland, commodity speculators in 1920, gamblers in Florida lands during the boom two or three years ago, all suffered from the same delusion.

We are told by hopeful security salesmen that "we are living in a new era," but, whether we are or not, laws of gravity and of supply and demand still operate.

In the long run, wealth is created and riches are received by those who produce what society needs and wants. It is only by work that wealth is produced and one can consume only what he produces unless he is a parasite or a lucky gambler.

America offers limitless opportunities for those who are willing to use their brain and brawn—A faithful servant will be rewarded, but a gambler usually rides credit waves for a fall.

HANDS OF TOILERS

The man who works with his hands has often been extolled in rhyme and prose. His sweat-beaded brow, his blue denim shirt, his toil-worn hands have been woven into pictures that have made the manual laborer a romantic figure. The latest addition to the galaxy of approving phrases comes from no less a person than Thomas A. Edison, the greatest laborer of them all.

"I believe in cleanliness of course," he said "but really there is nothing I enjoy seeing more than the signs of recent work on the hands of a man or boy." Honest toil, of whatever character, is building the foundations of prosperity, and the signs of that toil are honorable. America's industrial progress is made possible by the grimy hands of a million workingmen, but her reputation for consideration and cleanliness is based upon the fact that the workman can wash off the signs of his labor before he goes home.

Industry is gradually making it possible for the man who carries a dinner pail and wears overalls on the job to leave at the end of the day looking and feeling as spruce and neat as his white collar brother. Lockers, showers and washrooms are essentials in the best organized plants. Posters and plant meetings advocating cleanly habits strengthen the ideas which these facilities themselves suggest. Hands that show the signs of recent toil need not be grubby hands, and if they are, they are likely to indicate a slovenly workman or a backward industry.

MUD MUST GO

Twenty-five years ago in this country a good road was the exception, rather than the rule. Now we have the greatest highway system in the world. The growth in use of the automobile was responsible for this development.

Money spent for improved roads is returned in social and industrial benefits. Highways are the foundation of community progress. Now a new phase of highway expansion is appearing, the building of secondary or feeder roads.

Roads are being extended into rural districts as never before since methods have been devised for using asphalt and road oils give water proof hard surfaces at a minimum of expense.

HOME AND FACTORY REVOLUTIONIZED
Civilization might be defined whereby mankind replaces antiquated methods with new methods that are more efficient, economical and time saving.

For generations, heating, both in the home and factory, has been accomplished by using solid fuels requiring hard labor.

Now, by utilizing heat, such as is furnished by automatic oil and gas burners, another great step is made in the march of civilization.

Automatic heat saves drudgery, expense, smoke and dirt, and is becoming as much a part of the modern home and factory as electricity and the telephone.

FAMOUS COLUMN

(Note: The column below is written by a high powered writer especially for the Advocate. Reproduction in whole or in part prohibited unless by special permission.)

Francis C. Wilson Santa Fe lawyer office holder and g. o. p. politician told the bar association at Clovis the other day how to solve the oil conservation difficulty in New Mexico. Yes, let's let the lawyers try it now since Governor Dillon's Colorado Springs committee composed of most everybody except the oil men has tried and failed. If we ever have any technical newspaper question to solve we are going to call on the watters union.

The writer has made a discovery of interest to every housewife, its not necessary to wash the dishes but twice a week. That brings to mind the story told by Mrs. M. W. Evans on M. W. Soon after they were married M. W. was rather insistent that Mrs. Evans take a needed vacation assuring her that he could keep the house just as well as she. After a month's visit she received the following telegram from M. W.: "Where is the dish pan?"

LONELY—Rural pedagogue wants rich curly headed husband with plenty of brains who can fix Aimee Fords and wash dishes also clean house. Address X, care this office.

The charge of "conduct unbecoming an officer" can be stretched to cover almost anything, as Policeman Jules Reinhardt of New Orleans found out. On such a charge he was suspended for allowing the attractive proprietress of a soft drink stand to powder his nose.

Bishop Acheson of the Episcopal diocese of Connecticut does not share the view that dancing is sinful, as was held by the women of one of his parishes. He rebuked them by saying, "it's the best reducing exercise there is."

Thirteen countries in Central and South America have promised cooperation in the World Agricultural Census of 1930.

THINGS THAT NEVER HAPPEN
By GENE BYRNES

CHRYSLER EMPLOYEES TAKE THEIR VACATIONS FROM AUG. 1 TO AUG. 15

Officials of Chrysler Motors have announced an important innovation in the control of production as affected by the establishment of uniform vacation periods for all employees during the coming summer.

All employees in the manufacturing and shipping departments of the De Soto and Plymouth plants of the Chrysler Corporation are taking their vacations during the two weeks from July first to July fifteenth. Similar arrangements have been made to allow all employees in those departments at the Dodge Brothers plant to take simultaneous vacations from August first to August fifteenth.

According to K. T. Keller, vice-president in charge of production, "The Officials of the Chrysler Corporation developed this plan where, by vacation periods might be simultaneously enjoyed by all employees only after a study which extended over a three year period.

"Production experts in many industries have long been aware that production suffered during the summer months, due to the fact that crews at work over the six to eight weeks period usually necessary to complete vacations, necessarily had to be skeletonized and occasionally had to include temporary employees not always fully familiar with the working operations. The result production and sales plans were sometimes seriously upset.

"In order that all employees might have full vacations with the minimum effect on production, we planned after careful study to effect a closure of the above plants.

"Dealers orders are necessarily in our hands several weeks in advance of deliveries. This year, when all production and sales record for Chrysler Motors have been broken, dealers orders in advance exceed all previous years. We are able, therefore, to anticipate accurately the sales requirements of the fifteen day vacation periods in the various divisions, and thus to maintain our retail deliveries.

"While this one-time vacation policy is admittedly an innovation," declares Mr. Keller, "it is one which we have undertaken to pioneer after exhaustive study of the problem from a production viewpoint. The receipt of orders in advance of normal have given us this year our first opportunity to give the new system a practical trial. If the plan works as anticipated it will not only be followed by the Chrysler Corporation in the future, but will, we anticipate be generally adopted by other large manufacturers."

MORE LICENSES SOLD BY GAME AND FISH DEPT.

SANTA FE—The state game and fish department sold 31,846 licenses and permits during the seventeenth fiscal year, representing a gain of 3,235 or eleven per cent over the sixteenth fiscal year, State Game Warden E. L. Perry announced Monday. The gain in residents licenses was 1,891 and the increase in non-residents was 1,204. The department's license revenues increased from \$10,258 to \$17,248.

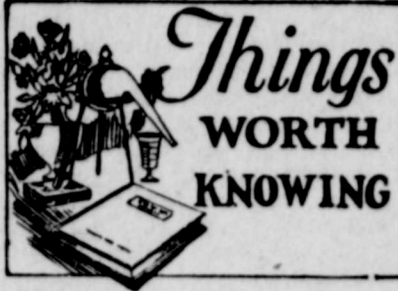

The thirty-day permits for the Elephant Butte and other lakes decreased, but Mr. Perry believes this was because an increasing number of fishermen took out full season license.

Things WORTH KNOWING

If the young heifer is handled occasionally and gets accustomed to the hatler and stanchion, she will be much easier to manage when she is put into the milking herd.

Begin to feed the ram in your flock extra grain about a month before the breeding season. Two parts of oats and one part of bran in bulk make an excellent mixture, according to the U. S. Department of Agriculture. Oats alone are also good.

"Propagation of Trees and Shrubs" is the title of Farmers' Bulletin 1567-F, a new bulletin that can be obtained free from the U. S. Department of Agriculture, Washington, D. C. It describes the methods of propagating deciduous fruit trees as well as trees and shrubs for the home grounds.

The common toad should be welcomed as a guest on the farm, since it is an enemy of many injurious insects, including the plum and apple curculios, potato beetle, tent caterpillar, cankerworm and gipsy and brown-tailed moth caterpillars. About 98 per cent of the toad's food is of animal origin, and more than 60 per cent consists of harmful insects, according to the U. S. Department of Agriculture. The toad feeds during the evening and night, and in 24 hours consumes insect food equal to four times its stomach capacity.

A colt gets more than half its full growth during the first year, so it should be kept growing well. The mare needs plenty of pasture grass and grain to stimulate a good supply of milk for the foal. When the colt is from three to four weeks old, it should be given some grain. A good mixture is 4 parts crushed corn, 3 parts bran, and 1 part linseed meal. As soon as it will eat hay, some good legume hay should

be provided. The colt should be weaned at from 5 to 6 months, when it is eating plenty of grain and hay.

Chickens from the flock as "broilers" should be put on a fattening ration gradually, and care taken not to overfeed at the beginning. Keep the birds with a keen appetite for the first few days and gradually increase the quantity fed each time. Toward the latter part of the fattening period they may get all they will eat. Fattening rations may be made up of a variety of grains. Two good ones are as follows: 6 parts corn meal, 3 parts rolled oats and 1 part middlings; or 6 parts corn meal, 2 parts ground oats (without hulls) and 2 parts middlings. Feed these rations with milk, using 2 pounds of milk to 1 pound of mash. If milk is not available, add one-half part

of meat scrap to the mash.

William Banks of Brooklyn will in future be charitable toward telephone girls who give him the wrong number. Called from sleep by a midnight ringing of his telephone he found that the call was intended for someone else. He also found his home was full of escaping gas and by quick work saved his family.

AMERICAN POTASH CO. SITS PERMANENT POTASH LEASE

SANTA FE—The American Potash Co. is negotiating with the land office for a permanent potash land lease, Commissioner A. D. Crile said Friday. The company's representatives claim that heretofore in use is not considered development and Mr. Crile believed with them.

Understanding is arrived at, company plans to open fields in and Lea counties. The American Potash company have already preliminary work in Edgemoor.

REFERENCE DENIED OIL LEASE HOLDER

SANTA FE—The only preference will be accorded by the state to lessees of oil and gas. The bid at public auction under the District Judge Reed in the mandamus action of Malone to compel the land office to renew his lease of public

land was a friendly test case to determine preference rights on

Commissioner A. D. Crile said the claim of Malone on lands that, if the lessee had preference right on lands part were in the restricted area, exercise that preference meeting the highest bid at a public auction, and further that Malone preference right because neglected to file an application prior to the expiration of his original lease.

Before the land office has leases at private sales, but the rental price prevailing in the area in which the land is located. The landman ruled that that sort of preference is no longer permitted.

A WARM WELCOME THAT HAS NEVER WORN OUT

"The nation-wide acclaim with which the Chrysler is heralded is due to the quick appreciation of a motor-wise public that here at last is a car which is a marked departure from all earlier practice and performance. ++ In distinctive appearance, in performance ability, in economy of operation, in fine standards of manufacturing, in roadability, in driving convenience, in supreme quality, motor car experts give the Chrysler a place apart. ++ For the Chrysler is more than a great engineering feat—it is, literally, the culmination of all past engineering experience."

—Advertisement Saturday Evening Post May 3, 1924

TRUE FIVE YEARS AGO AND STILL TRUE

Daring to go back five years when the first Chrysler appeared, Chrysler can read without apology every promise made then, for every promise has been fulfilled.

In 1924 Chrysler was new. Its claims for performance, economy and stamina had not been proved valid by the hundreds of thousands of cars and millions of miles of driving that support today's leadership.

True, the automotive industry was started by Chrysler innovations. The public trend was to Chrysler if only because Chrysler instantly out-moded other cars. Comprehensive tests had convinced Chrysler engineers that they had built a superior

product. Chrysler owners before long discovered that the car upheld every promise made for it, and their eagerness to testify to its speed, its power and its strength resulted in the prevailing world-wide acceptance of Chrysler.

Now, in 1929, the public's confidence in Chrysler is still unwavering. You, too, will discover the reasons for this increasing acceptance of Chrysler leadership in quality and value if you will test the car yourself.

CHRYSLER "75"—\$1535 to \$1795—Eight Body Styles. CHRYSLER "65"—\$1040 to \$1145—Six Body Styles. All prices f. o. b. factory. Chrysler dealers extend convenient time payments.

McDONALD-McCLAY

A marriage of interest to Artesians is that of Miss Leah McClay, who was united in wedlock to Mr. Roy McDonald, of Los Angeles on last Wednesday, the 3rd, inst.

Following the marriage the couple left for a honeymoon trip to northern California. They will be at home in Los Angeles, where the groom is engaged in the real estate business. They are planning a trip to Artesia later in the summer.

The bride is the only child of Mr. and Mrs. Owen McClay and was brought up in Artesia, where she graduated from the high school. She attended Drake University at Des Moines, Iowa for two years, but took her degree from Oklahoma University in 1922. She has taught successfully in the schools of California for a number of years and had been elected for her fifth year in the schools of Santa Monica, in which for the past year she had been in charge of the library work in the school. Many old friends in Artesia will wish her success and happiness in her wedded life.

GLASSER-McCOMBS

Announcements have been received here of the marriage of Miss Sarah McCombs to Mr. Albert Glasser in East Chicago on Saturday, June 29th. Miss McCombs with her father J. H. McCombs, and sister Miss Elizabeth, spent the winter here and returned to their home at Venetia, Pennsylvania the last of May.

LEGION AUXILIARY MEETS

Despite the hot weather the Unit is keeping up a healthy interest in its work and at the monthly meeting on Monday planned for a cake and bread sale to be held next Saturday. Routine business occupied most of the session and at the close Mrs. Ben Prior, who was hostess for the day, served delicious refreshments of ice cream and angel food cake.

FORTNIGHTLY BRIDGE CLUB

The club was delightfully entertained by Mrs. Fred Cole on Tuesday. On account of the absence of members from town the substitute list was unusually long, and consisted of the following: Mesdames Floy Hartsfield, Howell Gage, Myron Bruning, Stanley Blocker, Ben Prior and the Misses Helen Mann and Ella Brown.

PICNIC HONORING MRS. CLAPPER

Mr. and Mrs. Carl Martin entertained at picnic dinner on the Fourth complimentary to their guest, Mrs. Blanche Clapper, of Indiana, the other guests being Mr. and Mrs. Owen McClay and Mr. James Bates. Mrs. Clapper left for her home yesterday.

THE SECOND BRIDGE CLUB

Mrs. Aubrey Watson was hostess to the club at its meeting on Tuesday afternoon serving delicious refreshments in two courses. Substituting were Mrs. Joe Anderson of El Paso, Mrs. Wm. Compton, Mrs. J. M. Story, Mrs. C. A. Bulot and Miss Aline Rowan.

BIRTHDAY DINNER

Mrs. Lewis Story entertained a few neighbors and friends Tuesday evening with an impromptu dinner, honoring the birthday of her husband. The dinner at 7:00 o'clock was served in two courses. After the meal was served the guests were entertained with several rounds of bridge.

THE WORLD'S AUTOS

Interesting figures concerning the distribution of motor vehicles throughout the world are contained in the annual booklet just issued by the National Automobile Chamber of Commerce, which shows among other things that while China has only one automobile for every 17,000 persons the United States has one for every 4.9 persons.

Outside of United States territory Canada ranks highest in number of cars in proportion to population, having one motor vehicle for every 9 persons.

In respect to actual numbers the United States registration represents 77 per cent of all the automobiles in the world, or 24,493,124. The United Kingdom stands second with 1,318,169 closely followed by France and Canada with slightly over one million each.

Among the states California has more automobiles in proportion to population than any other, with one motor vehicle for every 2.8 persons. Georgia stands lowest, with one for every 11.5 persons.

DUNN-MARTIN

Mr. Harold Dunn and Miss Guinn Martin were united in the bonds of wedlock last Sunday, Rev. Tozer, pastor of the Presbyterian church of Carlsbad being the officiating minister. The nuptial service was performed at nine o'clock in the morning, the beautiful ring ceremony being used and the couple were attended by Mr. Herman Green and Miss Velma Richards. The bride was attired in an attractive brown ensemble suit with hat and gloves to match.

Following the marriage the bridal party returned to Artesia, where they were entertained at dinner at the home of a brother-in-law and sister of the bride, Mr. and Mrs. J. W. Berry. Later in the day they left for a short honeymoon trip to Cloudercroft. They will return this week and will be at home to their friends in the Gates apartments.

The bride is the youngest daughter of Mr. and Mrs. D. S. Martin and the groom, the youngest son of Mr. and Mrs. Preston Dunn. Both are graduates of the Artesia High school. The groom is associated with his father and brothers in Dunn's garage. The young people begin their wedded life with the best wishes of the community in which they have grown up and spent practically all of their lives.

DINNER PARTY

Mrs. Owen McClay entertained at dinner at noon on Monday complimentary to Mrs. Blanche Clapper of Indiana, a former resident of Artesia. The other guests present were Mesdames Carl Martin, G. U. McCrary and Tom Whitted.

MISS BURDITT WRITES

July 8, 1929.

Artesia Advocate
Artesia, New Mexico.
Gentlemen:

I received a letter this morning that might be of interest to the Artesia people, from the W. R. Hornbaker family, dated July 3. They were in Washington D. C., at the time of writing and said they were all well, having a fine time, and seeing some magnificent sights. They had visited Niagara Falls, spent some time in Chicago and had seen many other places of interest. But grandest of all was their visit to Washington and the White House, where they had the privilege of being introduced to President Hoover.

I am getting the Advocate regularly and enjoying the home news. I could not get along without it, in fact, for it keeps me posted on things of interest too numerous to be mentioned by letters received from there.

Sincerely yours,

CHARLES BURDITT.

Announcement Cards, blank or printed—The Advocate.

THE YOUNG MOTHER'S CLUB

The club had a most interesting and helpful meeting at the home of Mrs. George Williams last Friday afternoon. The topics for the day were: "The Nervous Parent" and "The Nervous Child," which were presented by Mrs. Margaret Ellis and Mrs. Williams, and elicited a spirited discussion. The club follows the pleasant custom of remembering the birthday anniversaries of the children and on this occasion little Barbara Ann Bulot, received a number of pretty gifts in honor of her anniversary. Mrs. Howard Gissler was the guest of the club at this meeting and the customary light refreshments completed the afternoon.

ILLINOIS PIPE LINE PICNIC

The Illinois Pipe Line force and their families and a number of their friends drove down to Rocky Arroyo and celebrated the Fourth with a picnic in that attractive canyon. In the company were the manager, E. H. Perry and family, T. J. Fox and family, T. E. McBride and family, O. D. Moyer and family, Carl Joiner and wife, E. M. Phillips and family, E. L. Glossbrenner and family, and Tex Henson of the company and the Misses Thelma Mitchell, Ella Brown, Helen Mann, La Rue Mann and Virginia Goodell and Harvey Yates, William Compton and Keith Miller.

PICNIC ON ROCKY ARROYO

Mr. and Mrs. Oliver Scoggins of Hope, Mrs. W. S. French, George Gage and family, Edington Gage and wife, and Joe Richards and family composed a party that spent the Fourth picnicking on Rocky Arroyo.

BIRTHDAY SURPRISE

Mrs. T. J. Fox was given a birthday surprise at her home in the Illinois Pipe Line camp, yesterday afternoon. Light refreshments were served and Mrs. Fox was the recipient of many pretty and useful gifts. The members of the surprise party were Mesdames O. D. Moyer, T. S. McBride, Carl Joiner, "Whitey" McCutcheon of the field and Mesdames E. M. Phillips, W. C. Gray, J. G. Littlejohn and E. H. Perry and Juanita Perry from Artesia.

BRIDGE DINNER

Mrs. S. D. Gates entertained at a two course dinner at noon yesterday complimenting Mrs. Withington, of La Pryor, Texas and Mrs. Joe Anderson of El Paso. Other guests were Mrs. E. J. Brooks and Mrs. Wm. Compton. Following the dinner the afternoon was given over to bridge.

Mr. and Mrs. C. O. Brown left yesterday morning for a three weeks sojourn at Hot Springs.

The Misses Effie McCaw and Erma Woolridge left Tuesday morning for Ruidoso, where Miss McCaw will spend a two weeks' vacation and Miss Woolridge will remain one week.

WASHING!

BY THE SIDE of many a stream in Europe you can see women doing the family wash in that old, back-breaking way; they carry heavy baskets down to the stream—soak the clothes and scrub, scrub, scrub on the bare boards and hard rocks.

Contrast that with the average American home where washing is done in comparative ease. New labor-saving soaps and compounds eliminate much of the old scrubbing, even in homes where electricity does not eliminate it all. Wash-day is over in a few short hours. Time for pleasure, for other things.

Not only in washing, but in practically every phase of woman's work, new products and inventions are freeing her from home drudgery and slavery. She has leisure now and comforts that the average foreign woman cannot even imagine.

To a large measure this has been due to advertising. Advertising has familiarized American women with new inventions. Advertising has made possible the wide distribution of new products. By increasing sales, advertising has reduced the price of modern household utilities to the reach of the modest purse.

PRACTICAL PHILOSOPHIES

By J. SCOFIELD ROWE, PRESIDENT,
The Metropolitan Casualty Insurance Company of N.Y.

AVOIDING WASTE

Thrift is the sign of careful upbringing—economy the response to that inward monitor which warns us that those who waste shall want.

In the building of a great enterprise economy is of tremendous importance. The business from which we draw our living has every right to demand our best, hence wastefulness of any kind is a serious disloyalty.

Economical management is the ideal of every well-directed business, the text of many disclosures, the subject of much literature; but a program of avoiding waste can be realized only to the extent that each worker makes it his object to practise real economy in his daily task.

To be thoughtless or indifferent in expending company money, to misuse anything of value or to waste part of the time for which we are paid is inexcusable and cannot fail to impair our self-respect. A day of reckoning is always just ahead for the waster.

In a large organization little leakages often creep in unnoticed but the very size of the undertaking can multiply these small wastes into great waste which may convert profit into loss and turn success into failure.

Modern business, realizing keenly the vital need of avoiding waste and lost motion, employs experts to devise means for "cutting the cost," but the real expert is the "man on the job" who should be ever alert to find ways of improving his work.

Conservation for its own sake carries real satisfaction. To develop the seeing eye and the inquiring mind, to take nothing for granted but to learn for oneself if something can be bettered or something saved is to add an immense element of interest to one's task.

Give thought to the saving value of "courtesy, clarity and brevity" in correspondence. Apply the test of rational economy before making long distance phone calls or dispatching hasty telegrams. Don't waste time—your own or other people's. To fritter away our small portion of eternity is to squander the privilege of living.

The intelligent worker whose sense of honor leads him to conserve resources not his own even more carefully than if they belonged to him is the man most likely to attain the responsibilities for which his high conception of duty qualifies him.

(Miss Alma Bradley, Reporter)

Mrs. Southard who has been in the hospital at Carlsbad returned home last week.

Mr. and Mrs. John Norris and children were guests at the Ben McLarry home at Lake Arthur Sunday.

Messrs. John Norris, J. D. Funk, Tom Terry and I. P. Johnson all members of the local school board attended a county board meeting at Carlsbad last week.

Mr. and Mrs. Glen O'Bannon and children of this community and Mr. and Mrs. Rube Dunn of Artesia motored to Taos Friday where they spent a few days camping and fishing.

Mr. and Mrs. C. N. Pearson and little son, Clarence Melvin drove to Amarillo, Texas last week for their daughter Alma who has been visiting her cousin Mrs. Floyd Senter and Mr. Senter. Mr. and Mrs. Pearson spent a few days visiting other points in Texas before returning home.

Miss Margaret Brown and friends, Mrs. Lyon and Mary Lyon of Abilene, Texas, who were visiting at the home of Mr. and Mrs. Maynard Brown made a trip through the Carlsbad Caverns last week, they also visited at the home of Miss Brown's brother, Stafford Brown of Carlsbad. They went by way of El Paso, Texas to visit with Miss Eloise Brown there.

Mrs. Houston Felton entertained the Cottonwood Woman's club at her home on Lower Cottonwood Friday afternoon. This being a special called meeting in honor of her mother Mrs. E. D. Wells formerly a member of the club. Among the women present were Mesdames Manda, Funk, Brown, Bradley, Howard, Garner, Johnson, Rambo and the honoree, Mrs. Wells.

An officer on board a warship was drilling his men.
"I want every man to lie on his back, put his legs in the air, and move them as though he were riding a bicycle," he explained. "Now begin."
After a short effort, one of the men stopped.
"Why have you stopped, Murphy?" asked the officer.
"If you please, sir," was the answer, "I'm coasting!"

This is the cats whiskers, A London firm was recently taken to task for a violation of the customs laws upon receiving a consignment of children's handkerchiefs described as cotton. The handkerchiefs and the embroidered kitten in the corner of each were cotton, but each kitten had four tiny silk whiskers, which caused the whole outfit to be classified as silk.

"Where Satisfaction Is Guaranteed"

LOCALS

J. S. Sharp made a business trip to Roswell Tuesday.

Mrs. Z. B. Moon and Mrs. Abe Burnett were Roswell visitors Friday.

Amos Devoll and family left last week for a visit to relatives in Arizona.

Charles Renfro, of Albuquerque, spent the Fourth here visiting Miss Vella Spivey.

Mrs. Aubrey Watson and little daughter, Shirley, returned Sunday from a sojourn at Ruidoso.

Mr. and Mrs. Finn Watson and Aubrey Watson spent Sunday with their parents at Pecos, Texas.

A. E. Wilder of Greensboro, North Carolina is spending a few days here looking after property interests.

Mrs. Anna Mae Robinson and daughter, Miss Wilma of Carlsbad spent Sunday with relatives in Artesia.

Prof. Kerr and family returned Sunday from the Artesia-Sacramento camp, where they spent the month June.

Elsie Swift and family and his father, Dee Swift, of Hope, returned Sunday from a visit to southern California.

R. W. Dunn and family and Glenn O'Bannon and family have been fishing on the Chama in the northern part of the state the past week.

J. S. Ward drove up to Cloudercroft Saturday afternoon for Mrs. Ward, who had spent a short time enjoying the cool breezes of the Cloudercroft section. They returned Sunday.

H. C. Holcomb, watchman at Lake McMillan reports that the lake is practically full, but the water is going fast. A number of the project farmers are doing quite a bit of irrigating.

Mr. and Mrs. E. D. Wells of Tucumcari spent a few days here last week visiting their daughter, Mrs. J. H. Felton and Mr. Felton of the Cottonwood community. Mr. Wells reports that the Tucumcari section is harvesting a big wheat crop.

News comes from Judge Jackson and family that they are having a splendid trip to the northwest. They had seen "Old Faithful" geyser in Yellowstone, spout three times and were leaving for Washington state. They expect to return by way of California.

Mr. and Mrs. E. R. Burnett and Mrs. C. W. Burnett of Hamilton, Ohio arrived here last week for a visit with Mrs. Burnett's cousin, L. P. Evans and family. They plan to make an extended visit with the Evans family at the Artesia-Sacramento camp and also visit other points of interest in the state. Mrs. C. W. Burnett plans to spend some time with her brother at Gallup, this state, before returning home.

Bert Bishop is spending a two weeks' vacation from Joyce Pruitt's on the Ruidoso. He is accompanied by his family including Miss Jennie Beth, who is having her vacation at the same time. Mr. Bishop is taking the opportunity to build a cabin on his lot there. The family are also attending the Baptist Encampment, which began there yesterday and will continue through Sunday. The Misses Thelma and Hannahelle McCaw are with the Bishops.

THE CHURCHES

CHRISTIAN SCIENCE SOCIETY
613 W. Main Street

Sunday, July, 14th, 1929.

Sunday services at 11:00 a. m.

Wednesday services at 7:30 p. m.

Subject of the Bible lesson for Sunday is "Sacrament." In this lesson the following scriptural selection is found. John 4:23. The hour cometh, and now is, when the true worshippers shall worship the Father in spirit and in truth: for the Father seeketh such to worship him, also the following citation from Science and Health with Key to the Scriptures by Mary Baker Eddy, page 241. We should reach the Hareb height where God is revealed; and the corner stone of all spiritual building is purity. The baptism of spirit, washing the body of all the impurities of the flesh signifies that the pure in heart see God and are approaching spiritual life and its demonstration. The public is cordially invited to attend these services.

ST. PAUL'S CHURCH
(Episcopal)
Rev. Hall Pierce

Service Sunday, July 14th. Evening prayer and sermon at 5:00 p. m.

THREE SPECIAL DAYS AT THE METHODIST CHURCH

Last Sunday morning the pastor Harold G. Scoggins preached on the theme, "The Young Man," this Sunday the theme will be "The young Woman." The following Sunday July 21st he will preach on the theme "The Old Folks."

July 21st will be Old Folks day at the church. The church will be fittingly decorated with flowers, a special section will be reserved for the guests of honor "The Old Folks." Recognition will be given to the oldest person, to the oldest Methodist, the person who has been a member of the Artesia church the longest, to the person who has been on the official board the longest.

A committee composed of Mrs. I. C. Dixon, chairman, Mrs. Will Benson, Mrs. Reed Brainard and Mrs. Harold G. Scoggins, has been appointed to decorate the church and secure flowers.

The congregations at all the services of the church have been exceptionally good considering the season and that there are so many people out of town.

Especially have the Wednesday night services been well attended for the past month or so. These services have been devoted to the study of certain books of the Bible, thus far Hebrews, Ruth and Job have been studied.

Rev. Fred B. Faust, the conference superintendent of Sunday schools was a visitor recently and graded the work of the Sunday school and pronounced it a one hundred per cent efficient Sunday school.

At the recent session of the third quarterly conference the Presiding Elder complimented the church upon its splendid condition and the type of work it is carrying on.

FIRST PRESBYTERIAN CHURCH
Fourth and Grand
Rev. John P. Sinclair, Pastor
Phone 249.

Sunday, July 14th, 1929.

9:45 a. m., Sabbath School.

11:00 a. m., Morning worship.

Sermon Subject, "A Colony of Heaven" a study of Christian extraterrestriality.

7:15 p. m. Christian Endeavor.

Two groups.

8:00 p. m. Popular peoples service, sermon subject, "The Golden Touch of God." Regarding Oliver Goldsmith it is said that he touched nothing that he did not adorn.

Miss Hazel Wells of El Paso will sing at both services, morning solo: "Invocation" (by More). Evening solo: "I Shall Not Pass Again This Way."

Some people when they reach

manhood throw what they call childish things out of the window; and they include their religion among them. This is like throwing out the baby along with the water of the bath. The church is the greatest promoter of personal religion and Sunday is the church's best day. Therefore support your churches next Sunday.

THE FIRST BAPTIST CHURCH

We had two good services with one addition last Lord's day. The attendance was very good considering the vacation period. Our encampment is now in session at Ruidoso. Some of our people are now there and others are going this week. The pastor is to speak at the encampment three times the last of this week. But he will be back for next Sunday's services.

The subject of the morning sermon will be, "The Voyage of Life." At the evening hour the pastor will speak on, "Excuses." We hope to have good music with our orchestra helping out. The fans help to keep our building comfortable during the services. We extend to you a warm welcome to all our services. We have a good Bible school in the morning and good B. Y. P. U. services at 7:00 o'clock in the evening.

R. PETERSON, Pastor.

EXCAVATION WORK SUSPENDED

Excavation work in the prehistoric Indian villages about two miles north of town closed this week, after satisfactory progress for over a month. Many rooms of an old pueblo were uncovered and beautiful formed pottery, stone images and other specimens were unearthed. Wesley Bradford, of the New Mexico State museum, who had charge of the work in cooperation with University of Kansas, states that the project will probably be taken up again this year. The culture, he believes dates back to the Casas Grande period in Old Mexico, over 1,000 years old. Alamogordo Advertiser.

SOAKING LAS CRUCES

The El Paso Post ran a tourist map of New Mexico the other day, showing roads and scenic spots for the tourist.

The map ran true to form, as other maps that have been run for years in El Paso, absolutely leaving out Las Cruces, but showing Hot Springs as the next town above El Paso. Further, the Alamogordo-Las Cruces road was left off the map, and no mention was made of the White Sands. This is not giving the tourist true information regarding New Mexico highways, nor is it giving Las Cruces a square deal.

—Rio Grande Farmer.

Highway Department

MUST PAY INTEREST ON 1922 ROAD BONDS

SANTA FE—The state board of finance Tuesday held that the state highway department would have to stand the \$50,000 interest on 1922 highway bonds.
This sum represents interest which came due June 30 for which the ninth legislature made no provision for payment.
State Treasurer Emerson Watts has already paid the interest by taking \$50,000 from the state road fund. He wrote the finance board that the highway department did not feel that it should be made to pay this \$50,000, but that the highway commission was willing to advance the money if the finance board would agree to reimburse the road funds from taxes which will be paid in December.

The board of finance decided Tuesday morning that it was under no obligations to reimburse the highway department for the interest.

When the 1929 general appropriations bill was written, the highway department agreed to pay the interest amounting to \$100,000 a year for the eighteenth and nineteenth fiscal years, but the legislators neglected to provide \$50,000 for meeting the interest of the last six months of the seventeenth fiscal year.
Treasurer Watts asked the board of finance Tuesday what he should do about a bill for \$417 for expenses incurred in connection with the sale of \$750,000 worth of highway debentures recently. The board told him to take it out of the road fund.

LAKE ARTHUR ITEMS

(Mrs. Ned Hedges, Reporter)

W. W. Walden was in Carlsbad Tuesday on business.

J. R. Spence was in Hagerman attending to business matters Wednesday.

A number of families spent the evening of July 4th at the home of Clyde Nihart.

The gin crew is busy making some improvements on the machinery at the Lake Arthur gin.

Mr. and Mrs. George Owens of Roswell were the supper guests of Mrs. Alice Knox Tuesday.

W. A. Jordan and family are moving from Artesia back to Lake Arthur and will occupy the Bratton residence.

Mr. and Mrs. Mark Matley were called to El Paso Friday by the sudden death of Mrs. Matley's uncle Will Stammann.

Bank Selby was the guest of Howard Beasley several days the fore part of the week. The Selby family is camping on the Ruidoso.

Mrs. John Knox is expecting to leave for Long Beach, California next Friday for an extended visit with her son and daughter.

Mrs. J. E. Gromo who has been visiting her daughter, Mrs. Fred Lemon in Las Cruces for the past two weeks returned Wednesday morning.

Mrs. B. C. Moots who has been visiting her son Howard Moots and family in Clovis for the past three weeks returned home Tuesday afternoon.

Mrs. J. B. Popnoe and children accompanied by Mrs. George Bryan came in from California last week the ladies drove through and are visiting at the homes of their respective parents, J. W. Harvey and Mrs. A. Russell.

The Sew and So club met with Mrs. J. H. Reeves Tuesday. Mrs. Latta brought a number of quilt blocks and the time was spent piecing them together. At the close of the afternoon delicious refreshments of ice cream and cake were served to the members and one guest, Mrs. John Griffith. The next meeting will be at the home of Mrs. E. C. Latta on July 23rd.

LOCALS

A son was born to Mr. and Mrs. Otis Brown this morning.

Cy Edgerton left Saturday for a trip to Texas, near Dallas.

Mrs. John Richards is visiting Mrs. John Lanning in Roswell this week.

Mrs. Joe Burkett left Saturday for a fortnight visit at San Antonio, Texas.

Lem Billingsly and J. D. Patterson spent the week end visiting in El Paso.

Mrs. Jack Wingfield returned Monday from a six weeks' visit to Los Angeles.

Mr. and Mrs. McNeil and Mr. and Mrs. Burkett Jr., spent the Fourth on the Ruidoso.

Bert Muncy, Jr., went to Elkins Saturday to spend some weeks with relatives on the ranch.

Miss Georgina Galton has been here from Carlsbad this week visiting Miss Leona Allinger.

Mr. and Mrs. B. F. Kaiser and son, Clarence, were in town from their ranch east of Dayton last Saturday.

Mr. and Mrs. F. M. Combs of the new oil town of Lea, spent the 4th here, guests of Mr. and Mrs. C. E. Daniels.

Mr. and Mrs. Will Ballard and son, Joe Bill visited at Elk and the Manning ranch on the Upper Felix last Friday and Saturday.

Mrs. Perley George and daughter, Mattie, went up to Pinon yesterday to spend a few days with Mrs. Stephenson, a niece of Mrs. George.

Jess Truett and family and John Sherman and family spent Sunday at the John Day ranch on upper Rocky Arroyo and report a splendid time.

Lauren Gelwick and wife returned Sunday from Las Cruces, where they had spent the Fourth with his sister, Mrs. C. R. Vandagriff and Mr. Vandagriff.

Mrs. Rude Wilcox and baby are visiting her parents, Mr. and Mrs. Witt, at Lovington. Mr. Wilcox drove them over Sunday and spent the day there.

Mrs. Ralph Shugart and children and their guests, Mr. Shugart's brother and wife, Mr. and Mrs. L. A. Shugart of Indiana, are spending a fortnight at Cloudercroft.

Announcement Cards, blank or printed.—The Advocate.

Mr. and Mrs. Lawrence Wilde and small son, La Verne, drove to Amarillo, Texas last night to spend ten days with Mrs. Wilde's parents, Mr. and Mrs. I. O. Carroll.

H. J. Root of Indianapolis, Indiana who is interested in oil development of this section, left for his home Saturday after spending a few days here looking after his oil interests.

Dr. R. C. Hoover accompanied by Nick Wescott left for Pittsburg, Pennsylvania last week, where Dr. Hoover goes to visit his brother and Mr. Wescott will undergo medical treatment.

Mrs. Baugh and two sons arrived Tuesday to visit her brother, Tom Ragsdale, and family. They are on their way home to Bisbee, Arizona, from a trip to Georgia and other points east.

HEADS AND HATS

One must have a good opinion of his head to treat it to a \$500 hat, it would seem, but that is what thirty or more Americans are doing this year, according to the style committee of the Hat Institute in New York, which also declares that the well-dressed man must have a minimum of three straw hats this summer.

The head-gear prescribed includes a yacht sailor for business wear; a Panama, leghorn, manila or any of the body straws for sport, country and resort wear, and a China split for evening. The aristocrat of this layout, of course, the Panama.

But the Panama belies its name, as it does not come from Panama at all, but is made in South America, being woven by hand from the straws of the stemless screw pines that grow wild in Ecuador and Colombia. Expert weavers often spend a year in making one hat, and when it is perfect in every detail it sells in this country for \$500, where a market is found for about 30 each year.

Extravagance of women in the matter of hats has been the subject of many jibes in the past, but it appears that they have nothing on the fastidious male in this respect. Possibly a nifty hat is a useful adjunct in enabling one to get by with a mediocre head.

WILBUR FAVORS STATE CONTROL

BOISE, Idaho.—Secretary Wilbur addressing the governors of western states or their representatives, Tuesday advocated the transferring to states willing to accept the responsibility the control of surface rights to all public lands, not included in national parks, monuments and forests.

The interior department head said that "with sound factional thinking it may eventually develop that it is wiser for the states to control even the present national forests."

Such a public land policy, he said, will need to be worked out, "so as to hold the oil, coal and mineral rights of public lands subject to some form or proper prospecting law with development on a royalty basis of discovery with due consideration to conservation for the future."

"Look here, waiter, is this peach or apple pie?"
"Can't you tell from the taste?"
"No, I can't."
"Well, then, what difference does it make?"

CHEVROLET INSTALLS SERVICE MACHINE SHOPS FOR ALL MODELS

What Chevrolet Motor company has been doing since the introduction last January of the new six cylinder line to insure ample parts and effective service to the millions of owners of Chevrolet four cylinder cars, is revealed in a factory statement released recently.

Among the adjustments effected to safeguard the continued usefulness of former models have been the establishment of service machine shops at Detroit and Flint, specializing in the exclusive manufacture of past model parts; additional service training schools where dealers' mechanics are taught the latest methods for serving the old and new models; additional zone warehouses which expediate the delivery of parts to dealers; and revisions in the system by which the dealer is stocked with past model parts.

Independent manufacture of past model parts became necessary just as soon as intensive production began on the new sixes. When the company was specializing in four cylinder manufacture the turning out of past model parts was relatively easy. Temporary suspension of production in the Flint Motor Plant and the Detroit Gear and Axle Plant permitted the building of past model parts without serious inconvenience.

The drastic changes represented in the 1929 car, however, and the increased demand for precision work on the main production lines made it impossible to follow the former method. Hence space has been set aside in these two giant factories and special machinery installed for the exclusive manufacture of past model parts.

Chevrolet's training schools have been generally given credit for the expertness of mechanics in the dealer's service garages. This skillful army of trained workers has always been recognized by the company as the keystone around which the efficient Chevrolet service system has evolved.

Invariably the man who makes your adjustments, if you are a Chevrolet owner, is a thoroughly trained worker because he is a graduate of one of these schools. There are now 38 schools, and they are open the year around. Each of the 10,000 Chevrolet dealers is required to send at least one of his shop men to these schools annually.

In charge of competent instructors, the course is of five days duration, and is followed by a rigid examination. Amplifying this formal instruction, Chevrolet has made available for all service men a complete reference library. This consists of the carefully edited four cylinder repair manuals, back issues of Service News and a comprehensive series of slides, detailing in picture and text the latest approved procedure.

Chevrolet's chain of zone warehouses is being increased regularly. At present there are 32, and before the year ends seven more will be put into operation. These warehouses wholesale old and new car parts to the dealer. Located strategically there is no dealer so far away from one of them that delivery of his order cannot be made within a few

hours. In addition the warehouses serve as quarters for the service schools.

The factory cooperates fully with the dealer in protecting him against overstocking with past model parts or running short of them. The balanced stock parts plan and the dealers order pad, based on past sales and monthly inventories insure the dealer of an adequate number of past model parts at all times. At present Chevrolet is manufacturing 9,000 different past model parts. According to the records of the service engineering department the company has during its history

manufactured between 100,000 and 125,000 distinct parts.

She was only a garbage man's daughter, but she was not to be sniffed at.

Today's Chevrolet is scoring a huge nationwide success because it represents one of the most sensational achievements in automotive history—a Six in the price range of the four.

The Chevrolet six-cylinder engine delivers its power freely, quietly, and easily throughout the entire speed range—delightfully free from annoying vibration and rumble. Combined with this remarkable six-cylinder smoothness are equally remarkable speed, power and acceleration—and an economy of better than twenty miles to the gallon.

In addition to such sensational performance the Chevrolet Six offers the outstanding advantages of Bodies by Fisher. And no car ever provided a more impressive array of modern convenience features—adjustable driver's seat and VV one-piece windshield in closed models, easy action clutch and gear-shift, ball bearing steering, and instrument panel complete even to theft-proof Electrolock and electric motor temperature indicator!

KIEL TEACHES PERSONAL RESPONSIBILITY

SON TEXT—Ezekiel 33:1-20.
DEN TEXT—Every one of us
give an account of himself to
the Lord.

MARY TOPIC—Ezekiel's Message
TRINE TOPIC—Ezekiel's Message
IMMEDIATE AND SENIOR TOPICS
God Take Note of My Life?
NG PEOPLE AND ADULT TOPIC—
Individual Accountability to God

Ezekiel's Responsibility (vv. 1-9).
The commission of the prophet is
renewed. Hitherto his utter-
ances were mainly of a threatening
nature, having as their objective
the turning of the people from their
ways. They refused to heed
the prophet's words, the result of
which was the falling of God's judg-
ment upon them in their complete
destruction and the destruction of Jeru-
salem. When it became clear that
the people would not heed God's warn-
ing through the prophet, the prophet
was silent—dumb. This tragic
event was portrayed through the
parable of the watchman.

Awful as this
was, he was to desist from weep-
ing that even natural sorrow
was to be expressed at the time
of his judgment.

The renewal of the prophet's
mission, his messages were mainly
of warning. His responsibility is set
under the figure of a watchman.
Every man in his position. Every
Sunday School teacher
is a watchman. Indeed, upon every
man has been imposed certain re-
sponsibilities. Two things are re-
quired of a watchman.

First, he must hear the word at God's mouth
and be a source of the message of every
Sunday school teacher.
Second, he must originate his message but
not at God's mouth, so should
not every minister.

Sound the warning (v. 7).
Hearing God's message he was
to bring it to the people. The
watchman's duty is both to hear and
to speak. The people are to be
warned of the impending danger.
The sound of the alarm makes the
people guilty of the blood of the
wicked (v. 8). After the warning the
watchman carries his own guilt (v. 9).
The Attitude Toward the Sin-
ner (vv. 10, 11).

He declared in His word that
the sinners on the part of His peo-
ple cause them to "perish
from the heathen," to "pine away
iniquity" (Lev. 26:38, 39).
The sinners of this pronouncement, some
were so wicked that their case
was hopeless. To meet this attitude
of the prophet assured them
that he had no pleasure in the death
of the wicked, but that his sincere
desire was for the wicked to turn from
their evil ways and live. Regardless of what
had been he assured them
that his pleasure was bright, but God's
pleasure is, "Turn ye from
your ways, for why will ye die
of Israel?"

Sinner's Personal Responsi-
bility (vv. 12-20).
The prophet created the members of the
fictitious beings, possessing
of choice. They have moral
responsibility, enabling them to distin-
guish between right and wrong. The
principles govern the sinner
and the watchman.

Righteousness will not avail
for the sinner (v. 12).
The righteous man turns to do
his past seeming righteous-
ness of no avail.
The sinner does not make impossible
acceptance with God (vv.
13-15).

Of the law of habit, ev-
ery act makes it harder for the
sinner to repent, but God's mercy and
grace are such that if the
sinner repents, God will restore.
The restoration required (vv. 15, 16).
The sinner's repentance is that so
possible the sinner make
his wrongs done. There is no
act of restitution, but
the sinner is to be restored to
his former position.

COTTON ACREAGE IS INCREASED OVER THE U. S. SAYS REPORT

WASHINGTON, D. C.—The acreage of cotton under cultivation in the United States July 1 was 3.2 per cent more than a year ago. The department of agriculture Monday estimated the area at 48,457,000 acres compared with 46,946,000 acres on July 1 last year.

The condition of the crop on July 1 was not announced by the department which is forbidden by law from estimating that figure at this time, nor was a forecast made of production.

The acreage in cultivation July 1 and revised figures for the area a year ago include:

Texas—July 1 area 18,697,000; July 1 1928 18,330,000.
New Mexico—July 1 area 132,000 July 1, 1928 123,000.

Arizona (A)—July 1 area 226,000; July 1, 1928 202,000.
California — July 1 area 319,000; July 1, 1928 223,000.

Lower California (B)—July 1 area 151,000; July 1, 1928 160,000.

(A) Including prima Egyptian long staple cotton estimated at 67,000 acres this year, compared with 50,000 acres in cultivation a year ago.
(B) Not included in California figures, nor in United States total.

THRIFT MAKING PROGRESS AS CLASS ROOM STUDY

By S. W. Straus, President American Society for Thrift.

During the school year which recently came to a close, great progress was made in the development of thrift education. The past school year marked the real beginning of thrift as a part of the school curriculum. This is not to minimize the value of previous efforts. The school savings bank has been a recognized part of school work in many systems for a number of years. Here and there, also, efforts have been made to give thrift a place among the common branches of study.

Something over a year ago, however, a definite course of thrift study was completed through the co-operation of the American Society for Thrift. Mr. Arthur H. Chamberlain, educational director of that organization, now reports that during the first year of the introduction of the thrift course of study it found its place in school systems in 18 states and the territory of Hawaii. Of these states three are in the east; eight in the central section; three in the south; two in the west and two on the Pacific coast. There were 37 cities in these states where the course of study was prominently used. Mr. Chamberlain reports, in addition to which there were numerous counties in which it was adopted.

To those who are not familiar with these activities, a word of explanation will prove of interest. The first steps toward the introduction of thrift into the American school system were taken at the meeting of the National Education Association in Oakland, California, in 1915. Committees of educators were then appointed to canvass the whole situation and a number of years required for research. Still further time was needed by the educational committees to translate their data into definite classroom lessons. The task was brought to a close early last year. Since then two editions of the outline study course in thrift have been published; the third is now in preparation.

Thus it would appear that a very commendable start has been made. With the school year to begin this fall, the subject of thrift will no doubt find its way into an ever increasing number of classrooms. It is also worthy of note that the great parent teacher organization has become interested in the subject and in many places is giving splendid cooperation.

No one can doubt the value of thrift in the school room; on the contrary its value is beyond the power of human comprehension.

SAID THE SALMON TO THE WHALE

"Gee, you ought to live in fresh water a while," said the salmon to the whale.

"What's fresh water?" asked the whale.

"It's free from salt."
"Salt? What's salt?"
"It's what the ocean is full of," quoth the salmon.

"What's the ocean?"
The whale, you see, had no means of comparison, because he had never been anywhere. He didn't even know he was a whale. It is said that in rural China the natives never heard of China and do not know they are Chinamen.

Now that you are through laughing, the United State government discovered, when the income tax laws went into effect, that the average small business man was as innocent about business administration as that whale was about water and the Chinamen about China. So the government compels us to keep books of account. As to selling advertising, new ideas, styling the stuff we sell, we are still permitted to be rural chinks.

INSIDE INFORMATION

Only fruits and tomatoes should be canned in the water-bath. All non-acid vegetables and other foods should be processed under steam pressure.

In cutting out a dress make the back shoulder seam 1/2 inch longer than the front and ease and extra fullness on the front. Make this allowance whether the pattern gives it or not.

Resinous substances, such as sticky fly paper, are often hard to remove from clothing. Try turpentine, benzol, carbon tetrachloride, chloroform, wood or denatured alcohol, ether, kerosene or gasoline.

To whip cream successfully in warm weather, it is well to chill the cream, bowl, and whipper before you begin. Cream for whipping should contain at least 30 per cent butter fat, aged for 24 hours or more.

To prevent buttermilk from "wey-ing off" in summer, the cream should be churned when only mildly sour, and the buttermilk should be cooled immediately and kept as cold as possible. In hot weather the curd is likely to settle to the bottom, leaving clear whey on top. In this form buttermilk is not so attractive. Buttermilk that is only mildly sour and kept in a refrigerator or in cold water will usually wey off very little for several days.

Salmon loaf is a good summer dish because canned salmon can be obtained almost anywhere, and the kitchen will not be heated for very long in making it. Drain the oil from a can of salmon and pick out all bones and skin. Break the meat into fairly small pieces. Add an equal amount of soft bread crumbs from the center of a loaf. Add 2 well-beaten eggs, salt, pepper, chopped parsley and enough milk to moisten—about 1/2 cup. Place in a greased baking dish, mold into a loaf and bake in a moderate oven until brown.

Leaving a fashionable hotel, a wealthy but close-fisted man was surrounded by servants, all expecting tips. Getting past this batch, he stepped into a waiting car, the door of which was held open by the house porter who thrust out his palm. "You're not going to forget me, sir?" he inquired anxiously. "No," said the guest, in a voice charged with emotion, as he grasped the outstretched hand. "I'll write to you!"

"Boy, I'm a man of some calibre."
"You're a big bore, all right."

**Earn of Unusual Roof Design,
Provides Stalls for 29 Cows**

By W. A. RAGFORD

Mr. William A. Ragford will answer questions and give advice FREE OF CHARGE on all problems pertaining to the subject of building work on the farm, for the readers of this paper. On account of his wide experience as editor, author and manufacturer, he is, with one doubt, the highest authority on the subject. Address all inquiries to William A. Ragford, No. 1117 North Commercial, Chicago, Ill., and only enclose two-cent stamp for reply.

The barn here illustrated is designed for the medium-sized herd. It provides accommodation for 29 cows with a bull pen and calf stall at one end. The dimensions of this building are 56 feet by 30 feet.

One of the features in the placing of the feed bins and the silo. This arrangement, it will be noticed, centers the supply of feed and facilitates the establishing of a feeding plan which will eliminate all wasted energy. The arrangement places the cows facing out. The preference, relative to this point, is divided among different farmers, some preferring the arrangement which faces the cows in, and others favoring that used in this design. From the standpoint of sanitation, it certainly seems an advantage to keep all of the lit-

ter in one central alley, away from the walls of the building. The gutters flanking the latter alley are sloped toward the center of the barn and a drain is placed at the inner end of each gutter. Where running water under normal pressure is available, it is the work of but a few minutes to thoroughly clean out the stable.

The outstanding feature of this barn is the roof construction. Although the plan shows a practically symmetrical arrangement of the two parts of the stable, the superstructure of the building is different in these two parts. Above the right-hand part of the stable, as it is shown in the accompanying plan, there is a hay mow for the storage of timothy or alfalfa hay. This mow is covered with a gambrel roof having its peak at right angles to the length of the barn. Above the other part of the stable there is a smaller storage space for straw, covered with an ordinary gable roof having its peak in line with the length of the barn.

Such a scheme applies when it is not necessary to have a large mow space.

Delusion

When Mabe and I began our married life, The days were sweet, and free of any strife.

Our happiness it seemed was most complete— But oh, at times the bills were hard to meet!

For in those days the little envelope That pay-day brought, was mostly filled with hope.

And so, I thought, if I had more to spend, Our little worries all would come to end.

Well, on ahead, the short years swiftly flew,

And bit by bit, our income slowly grew. And now, today, though poor we are indeed,

As money goes—we have all that we need. We're happy, too—but truly I confess, Today, we have no more of happiness Than did we have in far-off yesterday. When Love was all that cheered us on our way.

High Priced Eggs

Now is the time to condition your hens and pullets for the high priced eggs that will come this fall. Reduction in the price of feeds and grain will make it easy for the local poultrymen to get their laying flock in shape to reap the benefit of high priced eggs from low priced feeds.

We recommend Growena and intermediate hen chow for your early pullets.

There is a Purnia Feed for every purpose—ask us!

**STATE GOVERNMENT
COSTS \$12,326,335.57
SAYS TREAS. WATTS**

SANTA FE.—The operating costs for the state of New Mexico for the seventeenth fiscal year which closed June 30 were \$12,326,335.57, according to the report of state treasurer Sherman Watts announced Saturday. Of his sum, more than half, totaling \$6,811,788.55 went into highways of which \$2,199,511.24 came from federal aid. In addition to this amount \$50,010 which came from special levies was spent and \$419,422.00 was credited to sinking funds to retire highway bonds.

The next largest expenditure was \$1,017,248.00 for the common schools. State Treasurer Watts' books showed a balance on June 30 of \$3,659,249.00 which includes \$1,942,559 in deficit banks. These figures represent a gain of more than a million dollars for the year, but there is to be considered, of course, the well-known deficit in the appropriations account. The bank deposits totaled \$2,545,679.00 on June 30.

The receipts for the seventeenth fiscal year totaled \$13,414,396.95 with the gasoline tax as one of the chief sources of revenue. The income from the five-cent gasoline tax was \$2,009,535.01. Receipts from county treasurers on taxes collected totaled \$2,762,881.11, while state lands yielded \$1,444,689.70 which was credited to the "suspense account," and there was a credit of \$1,222.42 to the "roads general account."

All other items were less than \$1,000,000.

The details at the foot of the financial statement showed the following: Balance at close of sixteenth fiscal year, \$2,971,798.02; receipts of seventeenth fiscal year, \$13,414,396.95; disbursements for seventeenth fiscal year, \$12,326,335.57; balance at close of seventeenth fiscal year, \$3,659,249.00. Total transfers amounted to \$12,326,335.57.

FEEDER'S PURINAGRAPH

A mountain stream—cold water trickling over rocks—the old moss-covered pump house—cool and shady where the milk and cream is kept sweet, solving the problem of summer time; that of keeping the milk and cream from souring. We gather these interesting thoughts in reading the current issue of the Feeder's Purinagraph, a Purina Mills house magazine which contains some timely information on this subject.

"Clean stencils—buckets, cans and strainers, are very important," the article says, "because in summer, cans are more apt to become fouled. Have a simple trick to sun all buckets and cans every day. Scald buckets and rinse all cans when they are returned, and then put them on the rack to dry."

"A great deal of sourness and spoiled milk is caused by dirt falling into the milk at the time of milking from the udder of the cow. Clip the hair on the flanks and under the udder of each cow, and then wipe them off with a damp cloth at each milking," the article reminds us.

"The quicker you can cool the milk the better, and the colder you keep it, the longer it will stay sweet."

"A milk cooling tank is of absolute necessity on any farm. It can be hooked up between the pump and the stock tank and fresh, cold water can be kept in it without wasting the water. If you have a pressure water system, you can use a spiral cooler or a corrugated cooler. If you do not have such a system, a cone cooler filled with ice water is good."

"All that has been said of cooling milk, will apply to cream. However, thick cream will not spoil as rapidly as thin cream. Set your separator to produce 30 to 35 per cent cream."

The Feeder's Purinagraph concludes its article with the ever important admonishment to "Cool each batch of cream before adding it to the can."

SUBMARINE DISASTER

PEMBROKE, Wales.—Navy experts and divers Tuesday entertained only the slenderest hope of saving any of the 21 men aboard the submarine H-47, which sank 20 miles due west of Fishguard Tuesday after a collision with the submarine L-12 during surface maneuvers with 18 other submarines. The flotilla was en route from Lampash to Portsmouth naval station.

Twenty ships of the British navy rushed Tuesday evening to the rescue of the H-47 lying 270 feet below the surface of St. George's channel. Salvage operations with Pembroke docks as a base will begin as soon as the vessels arrive, under the personal direction of Rear Admiral H. E. Grace, commanding officer of submarines at Portsmouth.

The total casualties of the collision reached 23 Tuesday night with the death of Arthur Sampson. Injured seaman of the L-12, Chief Signaling Bull of the L-12 reported missing is believed to be dead.

Mr. and Mrs. George Henderson and daughter Loma Ruth, returned from a visit to Long Beach and other southern California points Tuesday.

COMMUNITY BAND AND ORCHESTRA GIVES A CONCERT AT CITY PARK

The community orchestra and band gave an open air concert at the City Park, Friday evening July 15. Under the direction of Ernest Harp, director. The following program was rendered:

1. "Sempere March"..... Sousa
2. Overture—"King Lear"..... Howard Hall
3. Serenade—"Twilight Thoughts"..... Hilde
4. Waltz—"Alone"..... Lake
5. March—"Nitty"..... Loos
6. Intermission
7. Selection—"Piano"..... Gounod
8. Galop—"The Pongee"..... Lake
9. March—"108th Medical Regiment"..... Mader
10. "Star Spangled Banner"..... Smith

Mr. and Mrs. M. J. Holmes of Baird, Texas stopped off in Artesia yesterday for a short visit while on route from the Carlsbad Caverns to Cleardrift.

G. E. Brainerd drove up to Roswell the last of the week and returned on Sunday with Mrs. Brainerd, who is spending a week or two at home.

Jack Gladly has bought the cement hangar on Missouri avenue, which Aubrey Watson has been occupying. The latter moves his week to one of the lined cottages on Texas street.

Mrs. Bert Kaiser, who underwent an operation for appendicitis at the Sister's hospital in Carlsbad some time ago, was able to return home last week.

KOB RADIO PROGRAMS

Dairy feeding will be the chief subject of the program to be broadcast July 15, and the discussion will be on the proper feeding and care of dairy cows. Aunt Sammy will give an interesting talk on table decoration, the danger of eating raw pork and will give some interesting ways of using both oranges and eggs. The proper housing and care of pullets is the principal topic for July 17. Aunt Sammy gives some information on canning, also some recipes for using summer vegetables.

The program for July 19 will feature hot weather suggestions for stockmen with special reference to pigs, calves and colts. Aunt Sammy will talk on jelly making.

Instructive pointers on handling a roadside market, also some suggestions for garden planning are the subjects for July 21; and for the housewife some information on the Frozen Pack method of keeping fruits. Guards for bird houses and peony troubles are also discussed.

What the poultry man should do in midsummer is featured in the talk on July 24. This covers the subjects of both eggs and the birds themselves.

On July 26, an interesting talk on farming will be given, also some instructive remarks on the kinds of fertilizers for different soils.

Tune in on Monday, Wednesday and Friday evening on KOB and hear a good program. Wave length, 254.1 meters; time 7:00 to 8:00 p. m.

THE NEW IMMIGRATION LAW

The following excerpts is taken taken from the new immigration law, relative to the registration of aliens and should be of special interest to the Mexican population:

Under the terms of the act of congress approved March 2, 1929, any alien not indigible to citizenship who entered the United States before June 3, 1921, without then or thereafter being inspected and admitted for permanent stay by immigration officials, may make application to have his residence in the United States legalized, and upon establishing to the satisfaction of the commissioner general of immigration that he:

- (1) Entered the United States prior to June 3, 1921.
- (2) Has resided in the United States continuously since such entry.
- (3) Is a person of good moral character, and
- (4) Is not subject to deportation.

He will be issued a certificate attesting for his legal residence in the United States. This law went into effect on July 1, 1929, after which aliens desirous of obtaining such certificate may apply in person or by mail to the nearest immigration officer for application blanks which will be furnished with full instructions concerning the manner in which they are to be executed.

No penalty follows the failure to take advantage of the provisions of this act as its only purpose, so far as registry is concerned is to enable aliens who have resided in the United States for any number of years and who are not subject to deportation to obtain evidence of their right to remain here. Neither does it require that a person who becomes registered take out his naturalization papers, although certificates issued thereunder will be accepted in naturalization proceedings as an evidence of the rightful holder's legal residence in the United States for naturalization purposes.

IT WILL PAY YOU To read carefully all that our advertisers have to say.

LION ROARS

THINK! HAVE MONEY

The newly elected officers of the Artesia Lion club will be installed at a banquet with the Lionesses present on Friday night.

The committee appointed by the Lion club to collect funds for an athletic park in Artesia, for the use of school athletic contests as well as all other athletic events report excellent success so far but a more united cooperation of club members and other public minded citizens is needed.

Lion Pat Kelly says that he cannot bring his Lioness to the banquet but thinks he can persuade some ladies to come with him.

Howell Gage has a great oration on "Brotherly Love" that will draw a large audience whenever he announces the date for his first public appearance in Artesia.

Lion Boone Barnett states that he cannot run around as much this week as he did during the past month. Mrs. Barnett is now home from a visit to Oklahoma.

The entire pack is interested in President Willis Morgan's vacation which commences next week. He is to spend a portion of said vacation on the beach of California. What will happen whenever he comes in contact with the lure of the mermaid is not known but many fear for Willis' welfare.

Lion Rube Dunn and Frank Seale representatives of two large wholesale oil companies report that the Artesia territory uses over 90,000 gallons of gasoline per month. This means that the state gets \$4,300.00 per month from Artesia gasoline consumers for highways. This ought to help a great deal. It would mean \$50,000.00 per year to pay on the New Mexico road debentures.

COMMUNITY ORCHESTRA GONE TO RUIDOSO

A number of local musicians and members of the community orchestra, left Saturday for Ruidoso, where they have been engaged to supply music for the Baptist encampment which closes Sunday, July 14th. Included in the community orchestra members for Artesia were Prof. and Mrs. E. L. Harp, Ernest Harp Jr., Cyril and Glen Stone, Grace and Mona Sinclair, Mrs. C. C. Plar, Miss Vera Plar, Earl Plar, Misses Thelma and Hamabel McLaw, Jennie Beth Bishop and Burton Bishop.

LARGE ONIONS

E. V. Haisley believes that most any kind of garden truck can be grown here including onions and has proceeded to demonstrate his ability as an onion grower. Tuesday he brought an onion into the Ad-voocate office that measured 16 1/2 inches in circumference. From two rows of onions about fifty feet in length, he gathered three bushels.

BOOZE POURED OUT

The matter of destroying liquor is getting to be rather a common occurrence on the streets of Artesia. Tuesday officers Carl Gordon and Abe Conner destroyed 100 bottles of beer and a small quantity of whiskey, acting under the order of the district judge. The liquor was an accumulated stock, confiscated by local officers in recent raids.

Mrs. W. P. West and family went to Artesia Sunday afternoon to visit in the A. E. Crosby home. Mrs. Crosby and Mrs. West are sisters. Mr. Crosby is very ill following injuries sustained in an oil well explosion some time ago.

—The Hagerman Messenger

Take a Quarter Home

Ice Cream is no longer considered a luxury by dietetists but a real body building food in a very palatable form.

At our fountain you will find only Kipling celebrated Ice Cream in a variety of from four to six flavors. It costs us more than you the same as ordinary ice cream.

Therefore there must be a difference
