All of the news told interestingly and accurately each week in the Artesia Advocate.

ARTESIA, NEW MEXICO, THURSDAY, OCTOBER 24, 1929.

NUMBER 45

WEDNESDAY TWENTY-SIX

## Gets Big Sucker In The Jackson Area 2670 Feet

### Million Feet Wet Gas Coming Thru Bridge Dranfill-Reynolds Near Reported To Be On Case.

Expected gas flow estimated at a million feet found in the well of Etz Brothers in the 12-16-30, has added considerable interest to the Jackson area in Eddy county. This test looks promising because of its shallow depth. The heavy flow was found in a well which was drilled to a depth of 2670 feet, which blew the tools out of the hole and lodged and bridged the hole. Field tests show that approximately five million feet of wet gas is coming from the well. Etz Brothers and the fishing job to-day. Reynolds Production Increase attention has recently been given to the discovery well of Reynolds, State No. 1, SE sec. 2-21-31, which has recently doubled its production on the pump about a year ago. When the well was first drilled it was estimated at about 100 barrels per day. During the two weeks the output of the well was gradually increasing, forty-four hour test ending the well made 2,009 barrels the same kind of test Tuesday made 2,100 barrels.

### Ohio Gets Producer

State No. 1 of the Ohio Oil Co. in the SW 1/4 sec. 9-19-38 has been added to the producing list in this area, however, owing to troubles a satisfactory swabs had not been made. Unadvised say that the well is producing 125 barrels of oil and about 100 barrels of fresh water coming from the well. The well was drilled to a depth of 4,208 feet. Streaks of gas were encountered from 4,145 feet. Workmen are presently drilling deeper.

### New Locations Made

Official advice state that fifteen new locations have been made along the edge of the state by companies. The greater part of the new locations are centered in the 11 and 38, near the Hobbs area, which is due for a heavy yield the next few months.

### Grayburg Gets Oil

Well No. 1 of the Grayburg in the center of SENE sec. 10, T. 28 N., R. 10 E., encountered about a ten acre show at 2,865 to 70 feet. Well No. 2 or Jack Danciger in SW sec. 18-17-31, is said to have encountered a show of both oil and gas, but the depth was not learned.

Men are trying to mud off the flow, estimated at sixty barrels in the Bowers No. 1, of the Oil and Refining Co., in the 38-38, Lea county. The flow of 3,690 feet is said to be oil.

Locations are being made to Texas and Pacific Coal and State No. 2, in sec. 21-23-36, section. Officials believe that this is good for 1,000 barrels. The test was drilled to a depth of 3,712 feet.

## BROTHERHOOD ORGANIZED AT THE BAPTIST CHURCH 17th

Artesia Baptist Brotherhood organized at the Baptist church Tuesday evening, following a service in the church parlors attended by over thirty men. The service was presided over by Rev. L. Mann, acting as toastmaster at a program rendered at the table. Two musical numbers were given by the quartette selection by Bert Muncy, Bishop, Roody Cole and an instrumental by Paul Peterson and Merle were enjoyed by the men present. L. Larry of Clovis, was the speaker on the program and the address preceding the organization of the Artesia Baptist Brotherhood. The Brotherhood organized were: V. D. Bolton, B. A. Bishop, vice-president, C. Jesse, secretary-treasurer, George Deane, song leader.

Announcements and Invitations—Printed—Advocate

## MANY SHEEPMEN ARE NOW MAKING THE FALL DELIVERY OF LAMBS

Local sheepmen have been busy for the past few days delivering the fall lamb contracts. John, Newt and George Teal of Hope delivered 1,000 lambs to Bryant Williams, also of Hope, the first of the week. Joe Parker delivered 700 wether lambs to Bryant Williams. Col. Williams Monday delivered 2,700 wether and ewe lambs to the loading pens at Lake Arthur. Sam Williams delivered 867 ewe lambs on the 15th of this month and Tuesday delivered 900 wether lambs, driving them thru to Roswell. D. Jones has delivered 1,200 ewe lambs and P. Etchevery has delivered 1,000 ewe lambs during the past week.

## MONTOYA KILLED IN AN AUTO ACCIDENT LAST MONDAY NIGHT

Apolonio Montoya, age 47, Mexican laborer met his death in an auto accident Monday night near the hour of 7:30, on the south highway about four miles out of town. Messrs. John Fanning and Harry Carder were coming into Artesia in the Fanning car to attend an American Legion entertainment. Mr. Fanning pulled in behind a car that had stopped about a hundred yards south of the Montoya auto to let two motorists pass and had turned into his side of the road and had shifted into high when his lights flickered and he observed the dim outline of a car, but not in time to avoid hitting it. Montoya driving a topless model T Ford had stopped to make some tire repairs and was stooping behind his car when it was struck by the Fanning auto. Montoya was hit by the rear wheel, the force of the blow crushing his chest and the lower ribs, which caused his death about an hour and a half later. Another Mexican had stopped his car a short distance north of where the Montoya car stood and was aiding Montoya when the accident occurred, but never realized what had happened until he heard a Mexican woman scream.

Both of the Mexican cars parked on the highway were without lights. The north car was visible on account of its top but neither Messrs. Carder or Fanning saw the Montoya car in time to avoid the accident. Mr. Fanning struck the fender of the Ford and pulled around, stopping within about seven feet. Montoya was brought into Artesia and rushed to the City Hospital where he expired a short time later.

## COTTONWOOD GIRLS WIN

Two Cottonwood girls, Misses Alma Bradley and Virginia Mae Vaught, won second place in the girls demonstrations at the annual club contest held at the State College, Las Cruces, last week. The Cottonwood young ladies were awarded second place in the demonstration on the subject of "Selection and Care of Shoes and Hosiery."

The awards were made at the closing exercises, Thursday evening, on Friday the 4-H club members were taken on a tour of the principal industries of El Paso, Texas.

## AN UNFORTUNATE ACCIDENT

Mrs. Robert Linn, of Siloam Springs, Arkansas, who is here visiting her friend, Mrs. Campbell of the Oasis, fell while getting out of the Campbell car at the Methodist church Sunday morning, and had the misfortune to have her left hip fractured. The accident is unusually unfortunate on account of Mrs. Linn's advanced age, seventy-four, which renders recovery slow. Her daughter arrived from Lubbock, Texas Sunday night to care for her.

## NO WILD TURKEY HUNTING IN EDDY

There will be no wild turkey hunting in Eddy county this year. An order closing the county has been issued by the state game department and is being published in this issue. The order was made in the interest of wild turkey propagation in the Guadalupe mountains, in the southwestern part of the county. Turkeys have been planted in this area and are increasing nicely it is said, but the department feels that the stock should be protected at least another year.

## DODSON NOT GUILTY

John Dodson was found not guilty by a jury in Lea county district court at Lovington Friday in connection with the death of Bill Guncheon, oil well driller who was killed at Hobbs several weeks ago.

## GINNINGS IN EDDY CO. NEARING 10,000 BALE MARK--FIGURES SHOW

### Inclement Weather Holds Up The Cotton Gathering Operations--Valley Gins Have Turned Out About Half Normal Crop.

Continued inclement weather has hindered cotton gathering operations in this area. During the past week the five gins have turned out 722 bales as against 782 on the previous week. The total ginnings compiled up to last night were 3,665 bales, representing a gain of 403 bales over the corresponding date of last year.

South Eddy county gins have ginned 6,830 bales according to tabulations made yesterday by the Current-Argus, giving Eddy county almost 10,000 bales. Chaves county gins have turned out over 5,500 bales, running the total Pecos valley ginnings up to 15,373 bales or almost half of the normal production of the valley.

The totals by gins in this area follow:  
Lake Arthur gin-----622  
Association gin, Espula-----902  
Association gin, Artesia-----803  
Farmers gin, Artesia-----757  
Association gin, Atoka-----581  
Total-----3,665

## TOMATO RAISING PROFITABLE

The Lakewood community has long been known for its fine tomatoes and was once the home of a tomato canning factory. Farmers who have continued to grow small patches of tomatoes have found the project very profitable. This year, it is said M. C. Lee will realize approximately \$2,000 from a two acre patch of tomatoes. A \$1,000 per acre yield is not a bad return on the investment.

## HARVESTING BEANS

A number of farmers of the Dayton and Lakewood communities are harvesting their pinto bean crop. The patches usually small have made fine yields where properly cared for. Wet weather has hindered the harvesting operations during the past week and in some instances where the beans were piled ready for thrashing, they have been damaged by continual rain fall.

## RURAL ROUTE EXTENDED

The rural route running out of Artesia has been extended to serve an increasing number of farmers. The extension amounts to four miles and takes in a strip of territory in the Lower Cottonwood community a mile wide and two miles long. The route originally extended to the Tom Terry farm and doubled back to the Buel farm. Instead of doubling back the new route runs north to the Lower Cottonwood school building, thence east one mile, thence south two miles.

## ATTENDS NATIONAL MISSIONS MEET

Rev. J. P. Sinclair accompanied by Rev. Leroy Thompson and Edward Gessert of Roswell drove over to Albuquerque Monday, and on Tuesday attended the Presbyterian Synod Committee on National Missions, which convened that day at Albuquerque.

## YARD AND GARDEN CONTEST IS CLOSED

The frost last night closed the Yard and Garden Contest for the year. It was announced this morning that awards would be made as soon as possible and will likely be announced in the next issue of the Advocate.

## ATTENDS RURAL TEACHER'S MEET

A number of rural teachers from this section of the county attended the rural teachers meeting held in the court house in Carlsbad, Saturday. Among the teachers from this section were: Miss Frankie Wailes, of Dayton, Miss Ruby Jenkins and Mable Vowell of the Oil Field school, Mrs. Etta Douglas of Artesia, teacher in the Atoka school, Misses Mae Wilson and Alice Norris of the Upper Cottonwood school.

## BIRTHS

A son to Mr. and Mrs. Gray Coggin, Saturday evening, the 19th.  
A son to Mr. and Mrs. Allen Williams, of the Ohio camp, Monday morning, the 21st.

## LAND COMMISSIONER OPPOSES THE OIL SHUT DOWN IN HOBBS AREA

### Meeting At Roswell Tuesday Is Attended By About 150 Operators -- The Session Closes With No Future Plans Announced.

The meeting of oil operators held at Roswell Tuesday for the purpose of determining whether or not the Hobbs area in southeastern Lea county would be shut in, failed to develop the expected interest among local operators. One oil man summed up the situation by stating that the proposition resolved itself around the question of who would build the first pipe line into the area.

A press report of the Roswell meeting received here yesterday morning says: Orderly development and production of oil in the Hobbs area of Lea county was insisted upon by Dr. A. D. Crile, state land commissioner, when he presented the state's viewpoint on a proposed plan to restrict production in this important oil area of eastern New Mexico.

Dr. Crile's opposition to the plan of restriction was vigorously expressed and after his remarks the meeting was adjourned, no action whatever being taken by the oil men.

There were about 150 oil operators, lease holders and other interested men at the session, held in the Chamber of Commerce rooms, and intense interest in the project was manifest. Gauged by the applause which echoed the statement from Dr. Crile, his standpoint was a popular one with the majority of the oil men represented.

Dr. Crile called the meeting to order and then in a brief introductory address touched on the extent of state controlled lands. The state has about 13,000,000 acres of land, all of which is held in trust for various New Mexico (Continued on page 3, column 1)

## APPLE SHIPMENTS

One hundred twenty-seven cars of apples were shipped from Artesia up until Tuesday evening and it is estimated that about three more cars will be loaded out this week. Gathering operations will be finished in both the Hope and Artesia communities this week.

## HALLOWEEN DANCE AT SILVER MOON PAVILION

A Halloween dance will be given at the Silver Moon dance pavilion on Halloween night, October 31st, under the auspices of the American Legion. The Legion is offering an attractive prize for the best costumed couple to attend the dance on that evening.

## TELEPHONE OFFICIALS HERE

F. T. Ogden, vice-president of the Mountain States Telephone Co., M. O. Pearce, general plant manager and Waldo Cockrell, general traffic supervisor, all of Denver, Colorado were inspecting the company properties here Saturday.

## FIFTH HAY CLIPPING FINISHED

Practically all of the fifth clipping of hay has been finished and stored. The clipping in some instances was almost equal to a regular cutting. Hay production over this section has been heavier than normal, it is believed, during the past year.

## NO NEEDLE GRASS

Cotton growers on the Cottonwood are rejoicing because they have escaped the needlegrass thus far and the indications are very good that the grass that gave so much trouble last year will not be troublesome. Last year several thousands pounds of grass infected cotton was practically lost to the growers.

## FIRST NORTHER

The middle valley experienced the first norther of the season Tuesday morning. The wind was rather brisk and made light winter wraps feel comfortable.

## TRUCK BURNS

A truck loaded with furniture was destroyed by fire last week about a mile south of the Espula gin, when the truck and an auto collided. The truck is thought to have ignited from a broken gas line. Quick work on the part of the rescuers saved a quantity of furniture. The name of the driver was not learned.

Typewriters for rent at Advocate.

## HIGH SCHOOL IS TO BE DISMISSED DURING THE TEACHERS MEETING

Ten Artesia school teachers with Superintendent Kerr, expect to attend the State Educational Association which meets at Albuquerque, Thursday, Friday and Saturday of next week. High school will be dismissed Thursday and Friday, but the Junior High and Central will remain in session.

Miss Ruth Morgan, head of the home economics departments plans to take three students to the state meet of the home economics clubs, which will convene Thursday. Mrs. Tom Terry of the Cottonwood community will drive the young ladies over. Representatives of the local club who will attend the state meet are: Misses Beulah Terry, Thelma Mitchell, and Lilla Jackson.

## ARTESIA GRID TEAMS TO PLAY A DOUBLE BILL AT ROSWELL SATURDAY

Two Artesia school elevens, the Bulldogs and the Junior High squad will journey to Roswell Saturday where they will meet the New Mexico Military Institute Preps in the morning and the Institute Colts in the afternoon at the Institute grid. The first game will be called at 10:00 a. m., Saturday morning between the Junior High eleven and the Institute Preps. The second game will be called at 1:00 p. m., between the Bulldogs and the Institute Colts.

Six more games including Saturday's contest will complete the Bulldog's schedule for the year.

The season will close Thanksgiving day with the Bulldogs playing the Carlsbad Cavemen here. The remainder of the games this season are as follows:  
November 8th, Artesia at Carlsbad.  
November 11th, Artesia at Portales.  
November 15th, Artesia at El Paso, with Bowie High. (This will be the only night game of the season).  
November 22nd, Brownfield, Texas High at Artesia.  
November 28th, Carlsbad at Artesia.

## COTTON MARKET

The New York cotton market received a decided boost Tuesday when it was announced that a billion dollar loan would be available to cotton growers to hold back the crop. The market advanced \$1.50 per bale on the opening Tuesday morning.

The opening and closing is as follows:

	Open	Close
October 18th, -----	17.97c	17.93c
October 21st, -----	17.98c	18.02c
October 22nd, -----	18.32c	18.50c
October 23rd, -----	18.45c	18.12c
October 24th, -----	18.13c	

## ROAD OIL OPERATIONS SLOW

Wet weather, which prevailed over this section last week held up the road oiling operations between the Espula gin and Lake Arthur for several days. Workmen have placed practically all of the material on the road from Espula to the county line road and have oiled a strip of road south of Lake Arthur.

It was learned from unofficial sources that the road from Lakewood south a distance of nine miles would be oiled as soon as the project to Dexter has been completed.

## LION'S CLUB HAS AN INTERESTING MEETING

Interest is increasing at the meetings of the Artesia Lion's club. Four visitors were present at the luncheon Friday and heard a program rendered by the educational committee under the direction of Otis Brown.

Among the visitors present were: C. G. Clift, of Spring Lake, Texas, V. D. Bolton, Messrs. Reid and Chas. Morgan all of Artesia.

## NINETEEN CARS OF CATTLE LOADED OUT

Nineteen cars of cattle were loaded out of the local pens yesterday. Thirteen cars were shipped to Waynoka, Oklahoma by the Felix Cattle Company, where they will be placed on a winter wheat pasture. Six cars were shipped to the market at Kansas City by R. L. Paris.

## HOPE MAN INJURED

C. T. Wimberly of Hope, was reported to have been seriously injured Friday night when his car overturned on the Clovis highway about four miles south of Roswell.

## GIFT TO LIBRARY

The library was enriched recently by a gift of fifteen books from Mrs. Chester Dexter, also a book upon textiles from Mrs. Kate Morse.

## Killing Frost Last Night Snow Falls In Mountains

### Vegetation Killed When The Thermometer Drops To 27 Degrees--Four Inches Of Snow Reported At Weed Yesterday.

The first killing frost of the season occurred last night when the temperature ran down to 27 degrees. The frost followed in the wake of a cold wave, which struck here yesterday morning and gradually grew more severe. The frost last night was somewhat earlier than the average killing freeze of this section.

While leaden clouds swept the valley yesterday, a fairly heavy snow was falling in the mountains to the west. Weed reports four inches of snow and a light sprinkle of snow fell at Hope, Roswell and Maljamar. Snow before frost is rather unusual in the valley. Temperature dropped to 19 degrees at Santa Fe and Las Vegas yesterday morning and rose to 54 degrees shortly before noon. Snow drifted in the highway between Santa Fe and Las Vegas made travel slow. Two inches of snow fell at Capitan and Ruidoso yesterday morning, according to reports received here but the highways are still open.

The frost which fell here last night is believed to have killed all vegetation. No damage was done except possibly to late cotton. The freeze is expected to cause earlier cotton to open rapidly.

A weather report submitted by R. W. Bruce, weather observer this morning places the total precipitation for the year at 10.45 inches. The precipitation for the month of October since 1925 is given below:

Year	Inches
October 1925 -----	1.05
October 1926 -----	.07
October 1927 -----	.04
October 1928 -----	1.53
October 1929 -----	1.13

Date of first killing frost is as follows: October 28, 1925; October 1926, light frost on 25th, killing frost on November 9th; October 1927, light frost on 12th, killing frost on November 17th; October 1928, killing frost on October 18th.

## NEW COTTON PICKER IS DEMONSTRATED HERE

A new cotton picker, known as the American Cotton Picker, recently received by L. P. Evans, attracted a good deal of attention in a street demonstration here Tuesday. The picker is operated on the suction principle and two propellers at the end of a suction tube. The propellers pull the cotton from the boll but will usually throw out the burr or any part of the stalk. The machine is equipped with two suction tubes and requires two operators, who move the machine as it may suit their convenience. The machine is capable of picking a bale of cotton per day and is said to retail for about \$500.

## ROTARY VISITORS

G. T. Witt and L. Goldstone both of Amarillo, Texas and Roy Daniels of Roswell, were visitors at the luncheon of the Artesia Rotary club, Tuesday. A good program was rendered under the direction of Rev. H. G. Scoggins.

## WANTS HISTORICAL ARTICLES FOR THE HENRY FORD MUSEUM

If you have an item of historical interest or know of an item of historical interest, you will be giving your section some splendid advertising by calling attention of the Ford museum at Dearborn, Michigan, to this article. Dick Attebery, manager of the Artesia Auto Co., will be glad to assist you in this undertaking. As we understand the proposition, the museum will either accept the article or a picture of the article. Mr. Attebery will be glad to explain further details of the proposition to any interested party.

## FURNITURE STILL ARRIVING

Furniture for the new hotel continues to arrive and another car was received the first of the week. All springs and mattresses have arrived and are ready to be placed in the rooms.

ZEB'S REFLECTIONS

Twenty years ago we used to think a fellow that could carry a pencil behind his ear was a business aristocrat. The business man who could stick a pencil behind his ear and step out on the street in his black overalls was an object of admiration by all the country folks. We did not know until later that a man with ears inclined to flop was at a distinct disadvantage in assuming the roll of a business dictator. Even at the time when carrying a pencil behind the ear marked the man as an outstanding character, some people like ourselves were compelled to be classed with the common herd and carry our pencils in our pocket.

Then somebody invented the pencil holder and the outstanding character gradually faded out.

## THE SHUT DOWN AT HOBBS

The proposed oil shut down at Hobbs appears to be a puzzle to the residents of that section, according to an early report. A meeting was announced at Roswell for Tuesday, during which time it was proposed to shut in the production of the Hobbs field. New Mexico, one of the youngest producing states in the Union is destined to catch it in the "neck." Regardless of the ultimate outcome of the Roswell meeting, we fail to see where a complete shut down would materially benefit the continued threatened over-production menace. Production in the Hobbs area or any other section of New Mexico for that matter is only a drop in the bucket compared with some of the leading petroleum states and we fail to see any reason why this state should not be allowed to produce its pro-rata part of the nation's crude supply, where pipe line facilities are available.

## A FINE SPIRIT

The Roswell Record compliments Artesia very highly on a letter written by the Artesia Chamber of Commerce to Branch Rickey, one of the officials of the St. Louis Cardinals, members of the national league baseball association, urging that Mr. Rickey establish a spring training camp at Roswell. We do not know the present chances of Roswell in securing the new enterprise, but feel sure that the Chamber of Commerce letter expresses the sentiments of the local people. After all why shouldn't it? What helps Roswell will help the entire valley and if Roswell does succeed in landing the St. Louis Cardinals next spring other clubs might be induced to come into the valley and then other towns would likely have an opportunity to secure a spring training camp.

If we do have to brag just a bit on our own business men, as a body they have never thrown an obstacle in the way of a worthy enterprise, even though they could not help. After all is said and done this is really the only successful way of building an empire, though we may never grow to be the largest city in the valley.

## JEALOUSY--MURDER

Black Diamond, massive circus elephant, is dead. Authorities have averred that the beast killed because of jealousy when he saw a woman talking to his trainer. He paid with his life because his little jungle brain lost its veneer of submission and reverted back to the savage instincts of old. Had Black Diamond been a human, a smooth tongued lawyer could have easily obtained acquittal on a case of insanity. But he was only an elephant. The jungle law of an eye for an eye and a tooth for a tooth was the law he lived by—it was the law he died by.

There is an excuse for a beast's letting the pangs of jealousy set him on the path to kill, but what excuse has a man to offer when he neglects to conquer the "Green Demon" and obeying its dictates, murders in a fit of savagery? In Roswell, there is a youth facing a charge of murder. Asked why he murdered his sweetheart, he gave the same age-old reply—jealousy. We point to him and say that he is a fiend. How much more of a fiend. How much more of a fiend is he than we ourselves are? Latent in us all, one of the most potent of our passions is—jealousy. Most of us are subject to its dictations. We do not think this is so, because we have never been in a major circumstance where its powers were brought into play within our hearts. We look askance at the man who is a greater success in business than we. With our eyes fixed upon him, we walk straight into the mire of failure. We do not heed the force that led us astray, and never recognize our old enemy, jealousy. If we recognize this force for what it is, and conquer it, we will never commit a crime as a sacrifice to it as king.

# The Town Doctor (The Doctor of Towns)

ON  
SOME TOWNS WON'T TAKE TELLING

Not long ago the executive head of a town's leading civic organization, and owner and publisher of the largest newspaper, had called to their attention the fact that among such things, grass was growing in the sidewalks and curbs of their business district. They laughed and said, "Well, I guess that won't keep any business out of town."

In the same month the officials of another city were reminded that they had no parks or playgrounds for youngsters or grown-ups, and they replied, "Oh, that doesn't mean anything; we have plenty of other things, and a place to play won't keep any factories from coming here."

About the same time another community was warned that lack of interest in their community shown by so many citizens might prove costly. They said, "Ha! ha! What has that to do with it as long as we have a Chamber of Commerce with plenty of money and pull?"

Now I am told that city No. 1 was crossed off a list of seven towns selected as "possible" for a factory with a fifty thousand dollar monthly payroll, due to conditions reported as "run down, seedy and unattractive appearance of the community in general."

A large industrial concern, in the final analysis of two accepted towns chose the other in preference to town No. 2, because the report on my desk shows said town had no recreational facilities for employees to whom five million dollars would be paid annually.

In this afternoon's mail there is evidence that because a survey of town No. 3 showed the population 72 per cent negative civically, the town was refused a donation of \$250,000 which it had asked of a large foundation.

As long as citizens of a community refuse to profit by the experience of others—as long as they won't be told or appreciate the telling, just that long will those towns stay as they are, failing to get new business and allowing the business they have to go elsewhere.

"He didn't know the gun was loaded," "He didn't stop, look and listen," are famous epitaphs. Now as far as towns are concerned, you can add, "We never thought about that."

This Town Doctor Article is published by the Artesia Advocate in cooperation with the Artesia Lions Club.

## LONG STAPLE COTTON

Senator Cutting has proposed a duty on long staple cotton. This proposal, a very commendable one may fall by the wayside as has the proposed tariff on oil and jute.

The cotton grower has derived little benefit from legislative aid thus far and it appears that the federal farm board's proposals will be insignificant, in so far as it will actually help the cotton grower. We are told that experiments conducted with cotton for bagging have demonstrated that cotton is just as cheap and more durable than jute, yet the jute interests continue to import their material into this country free of duty. Outside of conducting a few experiments with cotton as bagging material, the government has done nothing toward encouraging the adoption of cotton bagging, which would provide an additional demand of several million pounds of the south's own product.

The wise farmer isn't going to depend too strongly on legislative aid but will endeavor to increase the grade and staple of his cotton so that he can compete with the foreign long staple, in his own market. Cotton imports from Egypt and other foreign countries have been gradually growing in the United States for more than half a century, we are told, forcing an increasing amount of American short staple cotton on a foreign market. With a united effort in cotton culture, there is no doubt but that the cotton farmer is in a position to aid himself by scientific selection of planting seed, rather than waiting for legislative help.

It would be a great help to the Pecos valley cotton growers as well as cotton growers over the south and west to be protected by a duty on long staple cotton, at least until they could be able to grow a cotton that would satisfy the requirements of the spinners at home.

## BRATTON'S AIRCRAFT MEASURE

A bill of far reaching importance, and one which if passed, will do much to cut down the terrific loss of life in aviation was introduced in the senate recently by Senator Sam C. Bratton, of New Mexico. Summed up, the purpose of the bill is to place all aircraft, airplane companies, pilots and fliers under the jurisdiction of the Interstate Commerce Commission. This will then place aviation on the same status as the railroad and steamship lines.

Explaining the bill, Senator Bratton said, "The commission should exercise its control through the issuance of letters and certificates of public convenience and necessity. Furthermore under the bill the commission is authorized to govern rates and schedules of operation."

Experts throughout the capitol hail the bill as one of the first measures ever introduced in this country to place aviation on a safer basis. One member said that this would do much to stabilize flying and is a measure that is much needed.

## THE NEW MEXICO EXHIBIT AT DALLAS

The New Mexico exhibit at the Dallas fair, is attracting wide attention, according to press reports of last week. The exhibit says the report has already been viewed by more than 200,000 people. The exhibit covers 11456 square feet and is backed by a curtain with a scene from the Rudivoso section, featuring the White Mountains, which extends the full fifty-six foot width of the booth. The foreground of the exhibit is a map of the state covering 784 square feet. The map is laid out complete with railroads, highways, towns and the stock raising and farming area. The east side of the state is featured by agricultural exhibits.

The general exhibit is in charge of Ladd Haystead, who assumed charge of the publicity of the exhibit at the direction of Governor Dillon.

## SAVING MORE A MATTER OF WILL POWER THAN ABILITY TO EARN

By S. W. Straus, President American Society for Thrift.

Many persons excuse themselves from practicing thrift on the plea that they cannot save anything and maintain a good standard of living. While it may be true in some cases that temporary circumstances make it impossible to get ahead in the world, those instances are exceptional.

The old saying, "Where there's a will, there's a way," is particularly applicable in the matter of saving money. Those who do not save or who think they cannot are not fair with themselves. They are unwilling to make certain sacrifices. Their minds are biased by false pride or egotism. Their viewpoint is incorrect.

If they should think the problem clear through they would determine to find ways by which they could save something even though the amounts be small.

Upon one's ability to find such ways of saving money, depends very much of one's chances of success in life.

This is a phase of the matter that should be given the deepest consideration. Also it should be borne in mind that those who are not sufficiently interested in their own welfare to lay a certain portion of their earnings for the future do not care enough about real success ever to achieve any substantial place in the affairs of men.

Before there can be success there must be desire to succeed. And this desire must be so deep that it overcomes every barrier.

Students of economic conditions in this country tell us that poverty is steadily being eliminated through the processes of education. There was a time within the memory of many now living when dire poverty existed in every city if not in every community. The general standard of living has been steadily advanced for the last fifty years and conditions are such to-day that there is hardly a person anywhere who is not in a position to save money if he so chooses.

## Stomach Trouble

If you suffer from gas, bloating, heartburn, acid, or sick stomach, because of dyspepsia, try the Diotex 15 Minute Test. Absolutely harmless. Works fast. Five positive digestive aids in pleasant tablet form. No soda, dopes or laxatives. Get Diotex from your druggist for only 60c. Try it. See how fast it works. Money back if it doesn't give stomach comfort in 15 minutes, and soon help restore good digestion.

## Women Suffering Bladder Irritation

If functional Bladder Irritation disturbs your sleep, or causes Burning or Itching Sensation, Backache, Leg Pains, or muscular aches, making you feel tired, depressed, and discouraged, why not try the Cystex 48 Hour Test? Don't give up. Get Cystex today at any drug store. Put it to the test. See for yourself how quickly it works. Money back if it doesn't bring quick improvement, and satisfy you completely. Try Cystex today. Only 60c.

## 3 GLASSES WATER HELP CONSTIPATION

One glass of water is not enough—take three glasses one hour before breakfast. Much better results are obtained by adding a teaspoon of simple glycerin, saline compound (known as Adlerika) to each glass. Adlerika acts on BOTH upper and lower bowel and removes old waste matter you never thought was in your system. Stops gas and sour stomach in TEN minutes! Relieves constipation in two hours.—Palace Drug Store.

## How a checking Account Helps You Get Ahead

Money carried on your person is easily spent.

You do not stop to determine where each dollar is going.

Money carried in the bank subject to check causes you to think twice before spending it.

Money deposited subject to check accumulates faster than it will in your pocket.

ARE WE RIGHT?

## THE CHURCHES

**FIRST PRESBYTERIAN CHURCH**  
Fourth and Grand  
Rev. John P. Sinclair, Pastor  
Phone 249.

Sunday, October 29th, 1929.  
9:45 a. m., Sabbath School.  
11:00 a. m., Morning worship. A  
message to inspire and help  
us for the daily task.

4:45 p. m., Christian Endeavor.  
Groups.  
7:30 p. m., Popular peoples ser-  
vice. Music by church orchestra.  
Sermon by Junior choir. Sermon  
subject: "The Awakened Runaway."  
The meaning of the story of the  
savior in the book of Jonah.

Any person's who in the clash of  
isms and isms are being drawn to  
Inner Light are invited to join  
us in public worship next Lord's  
day.

**CHRISTIAN SCIENCE SOCIETY**  
613 W. Main Street

Sunday, October 27, 1929.  
Sunday services at 11:00 a. m.  
Wednesday services at 7:30 p. m.

Subject of the Bible lesson for  
Sunday is "Probation After Death."

In this lesson the following scrip-  
ture selection is found: "And let us  
be weary in well doing, for in  
season we shall reap, if we faint  
not." (Gal. 6:9).

Also the following citation from  
Science and Health with Key to the  
Scriptures, by Mary Baker Eddy,  
page 569. "Every mortal at some  
time, either here or hereafter must  
struggle with and overcome the mor-  
tal belief in a power apart from  
God."

Visitors always welcome.

**METHODIST EPISCOPAL  
CHURCH SOUTH**  
Rev. Harold G. Scoggins

Special emphasis is being laid  
on religious education in the Meth-  
odist church. This is showing itself  
in a reorganized and more efficient  
Sunday school program in the Sunday  
school. This important work under  
supervision of Mrs. G. C. Kinder  
general superintendent and her as-  
sistants, George Frisch in the adult  
class, Mrs. I. C. Dixon junior su-  
perintendent and Mrs. H. G. Scoggins  
junior primary superintendent. Un-  
der the leadership of this corps of  
superintendents there is a splendid,  
efficient and consecrated force of  
teachers. The Sunday school session  
begins at 9:45 a. m. each Sunday  
and closes shortly before eleven.

At 11:00 a. m. Rev. Harold G. Scog-  
gins will preach upon the theme:  
"Where Did You Get Your Creed?"

Do you believe, well, what do  
you believe and why? In the evening  
session the theme will be: "The Difference  
between Death and Life." How does  
it become the other?

The Epworth League has its wor-  
ship program at 6:30 p. m. each  
Sunday. The Epworth leaguers are  
having a league party on Mon-  
day evening at 7:00 p. m. All of the  
people are invited to the party  
whether they are members of the  
league or not. The league has re-  
cently had the election of officers and  
are taking on new life and  
showing signs of reawakened activity.  
The Sunshine class will have its  
session this afternoon at the residence  
of Mrs. Billy Cox on Quay street.

Missionary Society is giving the  
annual chicken pie dinner tonight  
at the church dining room.

Wednesday evening services at  
7:30 p. m. each Wednesday are being  
held at a worshipful and thought-  
ful study of the book of Romans.  
Next week we will study the doctrine  
of the book.

It was glad when they said unto  
us, let us go unto the house of the  
Father.

**FIRST BAPTIST CHURCH**

The men's banquet, served in the  
department of the church last  
Friday evening was quite a suc-  
cessful one. Thirty-two men sat down to  
a table together and enjoyed a  
social feast of good things. An  
interesting program followed,  
beginning with an address from  
Lary, of Clovis. A laymen's  
banquet was then effected which  
will result in great good.  
The men left feeling that they had  
a very profitable and pleasant  
evening together.

We had good crowds and good in-  
terest in all our services last Lord's  
day. One was received into the fel-  
lowship of the church and two were  
baptized at the evening hour.

Sunday morning the pastor  
preached on, "The Glorious Gospel."  
The evening hour he will preach  
"Weighed in the Scales." Good  
will be furnished at these ser-  
vices.

We have a good Bible school  
with good classes for all ages. We  
are glad to have you in one  
of our classes. The B. Y. P. U. s.  
will conduct their programs at 6:30 p. m.  
All young people are invited.  
We will always find a warm wel-  
come in our services.

R. PETERSON, Pastor.

**CHURCH OF THE NAZARENE**  
W. A. Henry, Pastor.

Sunday school at 9:45 a. m., Clarke  
superintendent. We have a  
Bible class also our Ladies  
class, they are two of the best  
in town, come and visit them.  
Worship service 11:00 a. m. Ser-

## CALIFORNIA CRUDE OIL GETS DRASTIC PRICE CUT MONDAY

SAN FRANCISCO, Cal.—Drastic  
price cuts for crude oil faced the  
great California industry Monday  
when it became known that the Shell  
Oil company would follow the action  
of Standard Oil of California in  
marking down bids roughly fifty per  
cent.

Executives of Shell company said  
the schedule set by Standard would  
be followed by Shell as a matter of  
course. The Union Oil company also  
was expected to announce a sched-  
ule of price cuts, affecting fields not  
dominated by Standard.

The remaining purchasers were ex-  
pected to fall into line, with the re-  
sult that many small independents  
would be forced sharply to limit out-  
put.

Necessity of checking the rate of  
production of crude grew from piling  
up of stores which taxed storage fac-  
ilities, placing supply steadily above  
demands, thereby giving the industry  
a touch of "acute economic indigestion."

New prices, which vary in accord-  
ance with gravity of the oils brought  
cuts of 50 to 75 cents a barrel at  
Signal Hill, Santa Fe Springs and  
Seal Beach. Santa Fe Springs cuts  
ranged between 70 and 75 cents. Seal  
Beach 50 and 51 cents and Signal  
Hill 50 and 60 cents.

meeting in your home, phone 295.

## WOMAN DRIVES A CHRYSLER 3,067 MILES IN 5 DAYS

The old idea of a woman's place  
being anywhere except behind the  
steering wheel is fast becoming a  
myth. Her accomplishments in the  
last decade, over land and sea, by  
airplane, speedboat, and motor car,  
have revised all previous conceptions  
of feminine capabilities.

That transcontinental trips by auto-  
mobile no longer hold terror for the  
modern woman driver is seen by a  
letter recently received by J. W.  
Frazer, General Sales Manager for  
the Chrysler Corporation at Detroit  
from Miss Jessie McCauley, of Valle-  
jo, California, who covered the  
3,067 miles from the Chrysler factory  
at Detroit to San Francisco, in five  
days and 13 hours, an average of ap-  
proximately 600 miles a day, in a new  
Chrysler coupe.

The drive was an unusually severe  
test—even for a man driver. Leav-  
ing Detroit in a car that had not  
been broken in, she made the first  
lap of the 624 miles from Detroit to  
St. Louis in 19 hours, driving in the  
early morning through comparatively  
heavy traffic, fog and detours made  
necessary by floods. During the next  
day's driving, congested roads re-  
duced the total to 441 miles and the  
third day brought her to Trinidad,  
Colorado, and Raton Pass with 550  
additional miles on the speedometer.

Passing through the desert and Santa  
Fe, she stopped the following day at  
Barstow, California, with a total  
mileage for the day of 603. On the  
fifth and last lap, Miss McCauley  
made the cut across the Mojave Des-  
ert in a sand storm so fierce her  
speed was less than 30 miles an hour  
for hours on end. She arrived, how-  
ever, at San Francisco, 849 miles  
from the starting point for the day,  
and five and a half days from Det-  
roit. In her letter she said she  
made the entire trip without breaking  
the speed laws in any state from  
Michigan to California. Miss Mc-  
Cauley's trip is the more remark-  
able when it is taken into consid-  
eration that she is only 5 feet 1 1/2  
inches tall and weighs but 105 pounds. Her  
introduction to the automobile came  
14 years ago when she experienced a  
severe illness and being unable to  
walk, took to driving. Since then  
she has covered approximately 200,000  
miles at the wheels of 38 different  
cars.

"The Chrysler performed perfect-  
ly," was her only comment about the  
trip. "I should like to do it over  
again."

Red, White, Blue and Yellow carbon  
paper for tracing on cloth.—The  
Advocate.

INTERNAL-EXPANDING HYDRAULIC BRAKES

travel than other cars. For one  
of the notable achievements of  
the Chrysler Multi-Range is  
its ability to develop highest  
speeds and greatest power with  
far less engine speed than was  
ever before possible.

Think what that means in  
an average year of driving—

8,400,000 fewer engine revolu-  
tions for every 10,000 miles cov-  
ered; 8,400,000 fewer chances  
of imparting wear and tear to  
the moving parts mechanism;  
8,400,000 fewer demands on the  
gasoline and oil supply systems.

And these brand-new cars give  
you the smoothest, liveliest,  
most enjoyable and economical  
performance in modern motor-  
ing. A demonstration proves it.

Chrysler Imperial, "77", "70", "66"

## BRIBERY CHARGES AGAINST QUINN ARE DISMISSED SAT.

SANTA FE—One bribery indictment against Frank Quinn, former equipment engineer of the state highway department, was quashed Saturday, but the court withheld action on two other bribery charges to which demurrers have been filed, pending an appeal to the state supreme court of the court decision in the immediate case.

In his written opinion Saturday Judge Holloman sustained a demurrer filed by Attorney O. O. Askren to one charge that Quinn accepted \$250 from H. D. Camp of the Motor Truck Sales Co., of El Paso. This demurrer contended that Quinn was not subject to the New Mexico bribery statutes because he could not be classified as a public official. Judge Holloman held that Askren's contention was correct.

"There are other cases similar to this one pending," the court's written opinion said, "to which demurrers have been filed. I feel that a proper determination of the law in this case is so important to the state that we should have the judgment of the highest court upon it, for that reason, I am withholding action upon the demurrers filed in the other cases with the request that the district attorney immediately appeal this matter to the supreme court for review by them. In the meantime the defendant will be held in the other cases under his present bond until this case is finally determined."

Quinn is at liberty under \$5,000 bond on the two other bribery indictments and he also faces two indictments for violation of the state prohibition law.

### Recipe for Tasty Dish for Luncheon or Supper

Any dish containing melted cheese should be served promptly, so it is well to plan carefully for quick management at the last minute. While the tomatoes in the following recipe are thickening, make the toast, see that the table is ready, plates hot, and everybody seated at the table. This tasty dish from the bureau of home economics will be found excellent for lunch or supper. When used for a regular meal, a plain lettuce or raw vegetable salad with french dressing would be good with it, and fruit for dessert:

- 2 cups canned tomatoes
- 2 cups canned corn
- 1 onion, sliced
- 3 tbs. butter
- 1/4 lb. sharp cheese, flaked
- 2 tsp salt
- 3 tbs. flour, browned

Brown the onion in one tablespoonful of butter. Boil the tomatoes for five minutes, then press through a fine sieve to remove the seeds. Brown the flour in a heavy iron skillet and mix with the remaining two tablespoonfuls of butter. Add the tomato, and cook until thickened. Combine all the ingredients except the cheese, and cook for two or three minutes. Then stir in the flaked cheese. When the cheese has melted, serve on slices of thin crisp toast.

## IRONING IS MADE VERY MUCH EASIER

Board Hinged So That It Will Fold Away in Closet.

(Prepared by the United States Department of Agriculture.)

When other improvements were being made in the kitchen at the suggestion of the home demonstration agent, one Massachusetts farm woman had her ironing board hinged so that it would fold away into a narrow closet if not in use. A hinged leg provided the necessary support for it at the best height for her to work. The electric plug was located conveniently.

Hinged Leg Provides Support for Board at Right Height.

and shelves were put below the ironing board, in the closet, to hold the iron, the sprinker bottle, wax, pressing cloths, and other accessories.

A wise housekeeper plans to do her ironing at the hours least subject to interruptions. It is poor economy to have to heat up an electric iron or any other and then allow it to cool while one goes to the door or chats with a neighbor. Sprinkled clothes often dry out, and one loses the momentum that comes after one has started well on a definite job.

If laundry work has to be done at home the less ironing there is, the better. This point should always be kept in mind in purchasing either household linens or clothing, and in planning washable dresses. The flatter and plainer the garments, the more quickly and easily are they ironed.

Sitting down to iron is a good idea. If one has a stool or chair the right height to permit the comfortable use of the right arm and shoulder. Good light is essential, both from a window in the daytime and from an artificial source on the shorter days. The ironing board should be smoothly padded and should have at least two removable covers of unbleached muslin to be used alternately. A rubber spray head on a medium-sized bottle enables one to sprinkle the clothes lightly, rapidly, and uniformly. A clothes horse nearby and some hangers for freshly ironed dresses will keep finished work from wrinkling and aid in airing and drying it.

The electric iron should always be disconnected when it is not in use, even for a short time. The electric iron, or any other kind, should be stored in a clean, dry, cool place. If put away for any length of time it should be greased.

## INSIDE INFORMATION

Have spare ribs and sauerkraut for a change. Select 2 well-padded ribs. Wash them and cut them into pieces suitable for serving. Cook with the sauerkraut in sufficient water to cover for about an hour. When tender drain off the liquid and serve.

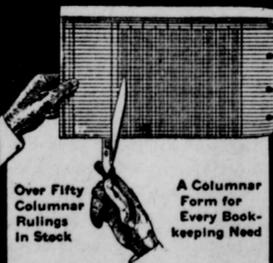

To make mint sauce for roast lamb, mix 1/2 cup of water, 1/2 cup of vinegar, 1 1/2 tablespoons sugar, and 1/2 teaspoon salt and bring to the boiling point. Remove from the fire and add 2 tablespoons chopped mint leaves and allow the sauce to stand three or four hours before serving.

Roast stuffed breast of lamb is an appetizing and economical meat. Have the butcher crack the bones so that the meat may be carved between the ribs, and also make a slit under the ribs close to the rib bones for pocket to hold the stuffing. Fill this cavity with any savory stuffing you prefer. Foremeat, or ground meat, makes a good stuffing, or bread crumbs with poultry seasoning, or with spinach, or cress. Sew up the cavity and bake the roast slowly in an uncovered pan without water.

To wash a quilt make suds of pure soap and warm water and allow the quilt to soak in it for half an hour. Souse and squeeze in other fresh suds to remove the rest of the dirt. Quilts should not be rubbed. For rinsing use two waters of the same temperature as the suds. Do not try to wring the quilt. Hang it, dripping, outside in the shade to dry, spreading it between two lines, and shaking it often. Cotton wool and down quilts may all be washed in this way. Those with silk or sateen covers may be pressed with a warm iron.

## ORDER CLOSING EDDY COUNTY TO TURKEY SHOOTING

Pursuant to the authority contained in Section 7, Chapter 35, Session Laws of 1921, and in order to protect from destruction the wild turkeys planted by the Game Department in the Guadalupe Mountains last year until they have had time to reproduce and stock the area, the State Game and Fish Commission does hereby declare the County of Eddy to be closed to turkey shooting during the year 1929, and the killing, capturing, hunting, or pursuing of any wild turkeys within the said County of Eddy during the year 1929, is hereby declared to be unlawful.

Done at Santa Fe, New Mexico, this 14th day of October, 1929. BY ORDER OF THE STATE GAME AND FISH COMMISSION, E. L. PERRY, Secretary.

"Well, now that you've married I suppose you're finding out all your wife's likes and dislikes?" "My," said the newlywed hopefully, "do you suppose she has any likes?"

## LEA COUNTY RAIL HEARING IS TO BE HELD NOVEMBER 9

SANTA FE—The I. C. C. has set November 9 for the hearing on its examiner's report on the Lea county railroad situation, together with exceptions filed by the South Plains & Santa Fe, a subsidiary of the A. T. & S. F., Chairman Hugh H. Williams of the state corporation commission announced recently. Mr. Williams will go to Washington to sit with the I. C. C. in the hearing.

The examiner's report recommends that both the Texas & New Mexico and the S. P. & S. F., be given certificates of public convenience and necessity which would permit them to lay rails into Lovington. The report was adverse, however, to the Santa Fe's application to build southward from Lovington.

The Santa Fe has filed exceptions to the report. Green—Tell me honestly, now have you ever found any practical use for what you learned in college? Grey—I should say I have. One night when burglars got into our house I scared them off with our college yell.

## THE MAIL CLERK!

Who must work quickly— which means reading difficult handwriting with speed—requires perfect vision.

The one and only way to assure this is to have the eyes examined at intervals—not less than once a year—and upon the first indication of defective vision he should obtain glasses.

He should go to an Optometrist, whose scientific training makes him the logical one to consult.

**COMMISSIONER OPPOSES CURTAILMENT OF HOBBS OIL AREA**

(Continued from first page)

Institutions. Of the tract about 100,000 acres are under leases for the lease holders representing every state in the union and a number of foreign countries.

The proposition of curtailed production was submitted by John W. Eastland, representing the Prairie Oil and Gas Co. Mr. Eastland touched on the excessive cost of storage reservoirs and said that his high cost of storage could be eliminated were the oil kept in the ground. He said there need be no alarm of any complete curtailment of activity since leases nearing expiration insured considerable development for the immediately ensuing months. He then asked for the opinion of Dr. Crile.

Following the statement from the commissioner, G. B. Jenkinson of Denver, representing the Midland Refining Company, moved that the view of the stand taken by the commissioner the session be affirmed. The motion carried by a wide majority.

Dr. Crile's address in part follows: "The whole problem falls under two divisions:

First: That of the conservation of petroleum, and

Second: The present economic condition.

By reason of an act of the last legislature, namely: Chapter 132, of the Session Laws of 1929, agreements are permitted to be made in the interests of conservation of oil and gas or the prevention of waste among the operators in the same and gas pool, and where lands belonging to the state are situated in such pools the commissioner is authorized to enter into such agreements as a party on behalf of the state, when, in his judgment, the best interests of the state will be served thereby. As I understand the matter under consideration and your proposition, you now desire to enter into a pooling agreement as permitted under this statute to be effective in the Hobbs area of a county, New Mexico.

Approximately 35,000,000 acres of land lying within the state of New Mexico, are now under the complete control of the federal government. In the matter of conservation of oil and gas as to these lands has been, and is now, being administered in the most exacting notion of conservation without regard to any of the state administration might be as to its development or conservation, a conservation which by considered drastic.

The ownership of the remaining lands in New Mexico is divided between the state and private owners which approximately 13,000,000 acres are held in trust by the state for 22 beneficiaries.

The question now arises to the commissioner how far shall he proceed with the lands under his control for the beneficiaries in conservation of its oil and gas.

The records indicate that the lands considered produce but a small portion of the total consumption of oil and gas within the sovereign state of New Mexico by its citizens and its visitors. So long as this state produces but a small part of its consumption no scheme of pro-rating or rationing in could properly apply. It is evident that only in those sovereign states where production far exceeds their consumption would it be equitable to enforce any curtailment of production.

The other argument set forward, that the oil and gas may be exhausted and that we are endangering the future in the matter of supply, is to appal whatever to the commissioner.

The second point is the economic situation. There is much merit in the argument set forth concerning the depletion of oil and gas at this time at the prevailing price. I regret so much that the economic situation is such that it may not prove as desirable for development as would be desired, either for the producers or for the state. If some plan might be had that had in it the elements of certainty concerning the future of oil and gas, from the economic standpoint this request might be favorably considered. In view of the present development of oil and

**THE JONES PRO. LAW INCREASES ARRESTS LESSONS CONVICTIONS**

WASHINGTON, D. C.—Evidence that the Jones law providing prison sentences and heavy fines for prohibition violators had led to an increase in arrests but a decrease in convictions was seen recently in statistics of civil and criminal prosecutions made public by the department of justice. The law was in effect four months of the year.

The report showed that 56,786 prohibition cases had been prosecuted in the 1929 fiscal year, an increase of 1,057 over 1928. Convictions for 1929, however, were 47,100 or a drop of 1,720 from 1928's total. Indicating that the Jones law had been a factor in the situation, fines for 1929 totalled \$7,476,300, or a gain of \$473,000 over a year in which there were 29,114 prosecutions.

Since the Jones law was in operation only four months of the 1929 fiscal year, there has been no opportunity to study its workings over a full year.

Willy—Pa will you please tell a fairy story?

Pa—Well, let's see, how will I begin is?

Ma (sweetly)—Begin it, I was detained at the office, dear; and then continue.

gas, especially in California, Texas and Oklahoma, and in further view of the condition which makes production at the present price still profitable in most instances, and in the further view that no one now knows whether oil will be worth \$1.50 per barrel of 75c per barrel within the next five years, and in view of the fact that the beneficiaries of the royalties arising from the leases issued by the state of New Mexico within the Hobbs area are in dire need of funds, and that these funds are more available to the common schools and the state institutions of New Mexico, is reduces the taxes of the citizens of New Mexico in the same proportion, and due to the fact that one-half of the area of New Mexico pays no taxes, it being held by the federal government, and that the burden of the support of the government of the state of New Mexico is exceedingly heavy, by reason of these things it would seem that my duty as a trustee for and on behalf of the state of New Mexico and its institutions is such that we could not hazard the results of the shutting down of production at this time. While it is evident that the present price of oil will have a tendency to slow down development and production, in view of all that has been stated heretofore, the commissioner of public lands of New Mexico feels that it is his clear duty to insist on an orderly development and production of the leases held by the operators and producers in the Hobbs area.

"And furthermore, it is the hope of the commissioner of public lands that the common carrier pipe lines shall in due course of time be prepared to receive oil developed on state leases."

Among local operators and oil men attending the Roswell meeting Tuesday were: M. E. Baish, M. A. O'Brien and N. M. Baird.

**WILL PROBE INTO PRICES COTTON SEED AND MEAL**

WASHINGTON, D. C. Investigation by the federal trade commission into an alleged combination of cotton seed crushers and oil mills to fix the price of cotton seed and cotton seed meal was ordered Monday by the senate.

She was a new driver. She just missed the fire hydrant, ran over the curb and brought her motor car finally to a stop in front of a sidewalk filling station.

"Bring out your scales, please," she said.

"Scales?" queried the tank tender, puzzled.

"Yes," she replied. "See how many pounds of air I need in my tires."

# Social Activities

## MOTHERS'-DAUGHTERS' BANQUET THURSDAY

An event in the Childhood and Youth Week was the Mothers' and Daughters' banquet given by the ladies of the Methodist church at the Bullock banquet hall last Thursday, evening at half past six o'clock, for the daughters of the congregation. Ladies who had no daughters, borrowed some for the occasion, and it was a goodly company of nearly sixty that sat down to the long table and overflowed to a smaller one. The table was beautifully adorned with dahlias, roses, chrysanthemums and a wonderful bouquet of old fashioned flowers.

The banquet was served in two courses and at its close, Miss Elizabeth Gage went to the piano and the company joined in singing, "America the Beautiful." This was followed by a merry round of old-fashioned games, the mothers participating as joyously as the daughters. Altogether it was an evening of unalloyed fun, which was appreciated equally by the mothers and daughters.

## THE P. E. O. SISTERHOOD

The P. E. O. Sisterhood were the guests of Mrs. S. W. Gilbert at its regular meeting last Friday afternoon. Part of the business meeting was given over to planning for a luncheon, which the chapter will give next Saturday afternoon at which time Chapters A of Carlsbad, and B and K of Roswell will be the guests of Chapter J. The program for the afternoon was upon "National Monuments of New Mexico," with Mesdames Paris, Atkeson and Russell, assisting the leader, Mrs. Stroup. A social meeting followed the program during which Mrs. Gilbert served light refreshments.

## THE PASSTIME BRIDGE CLUB

The club met at the home of Mrs. Boone Barnett last Wednesday afternoon. There were three substitutes, Mesdames J. A. Clayton, Howard Gissler and Maples of Albuquerque. High score was won by Miss Violet Robertson and low score by Mrs. Gissler. The organization of the club was effected, Mrs. Schoonmaker being chosen president.

## MRS. MAPLES HONORED

Mrs. Lapsley entertained with three tables of bridge Tuesday afternoon, complimentary to her sister, Mrs. Maples of Albuquerque. The Hallowe'en motif was carried out in the decorations and tallies and refreshments were served in two courses. Mrs. Barnett won high score and Mrs. Swift, low score, and a guest prize was presented to Mrs. Maples. Present besides the honor guest were: Mesdames Henry Paton, J. G. Littlejohn, Elzie Swift, Harold Everts, George Williams, Neville Muncy, Roscoe Kile, John Sherman, Charles Morgan and Boone Barnett.

## THE DEANERY MEETING

The meeting of the Episcopal Deanery of eastern New Mexico was held here last week, beginning with a reception for the visiting Episcopalian at the Bigler home on Thursday night. On this occasion splendid vocal music was rendered by C. A. Bulot, who sang several solos and conducted congregational singing. Mr. Hempy, rector at Clovis, also favored the company with a couple of solos. Mr. Hempy, who has a wonderful tenor voice, studied for grand opera before he decided to enter the ministry, and his singing was much appreciated. Miss Florence Oakes accompanied the singing. The Friday program began with communion at 7:30 a. m. and at 10:00 o'clock Bishop Howden gave an address. At noon a luncheon was served at the Bullock banquet hall to all visitors and in the afternoon Mr. Hempy, addressed the laymen's meeting upon the subject of the "New Prayer Book." The ladies of the church was addressed by Mrs. Fennell, of Marfa, Texas, upon the subject of missionary work of the church. The convention was presided over by Rev. Hall Pearce of Carlsbad, rector in charge of the mission.

Among those who attended the convention were Rev. Hempy and Mrs. Cotton, of Clovis, Rev. Fred Howden and wife, Mrs. John McClure, Mrs. Woodhead, Mrs. Wyndham, Mrs. McGaffey, Mrs. Ray and Mrs. Selby of Roswell, Mr. and Mrs. Marx of Dexter and Rev. Milton Swift, rector at Ft. Stanton.

## ART EXHIBIT AND SILVER TEA

A Silver Tea will be given in connection with the exhibit of Carl Redin pictures, which will be given under the auspices of the Artesia Woman's club, on Wednesday, November 6th, I. O. O. F. hall.

## Social Calendar

TELEPHONE 217

### FRIDAY

The Second Night Bridge club will meet at the Beecher Rowan home.

The Young Mothers' club will meet with Mrs. Charles Morgan at 2:30 p. m.

### SATURDAY

Chapter J, P. E. O. will entertain Chapter A, of Carlsbad and Chapter B and K, of Roswell at a one o'clock luncheon Saturday at the high school building.

### TUESDAY

The Passtime club will meet with Mrs. Schoonmaker at 2:30 p. m.

The Second Afternoon Bridge club will meet with Mrs. R. D. Compton at 2:30 p. m.

The Fortnightly Bridge club will meet with Mrs. Lewis Story at 1:00 p. m.

## PRESBYTERIAN MISSIONARY SOCIETY ENTERTAINS

As a means of becoming better acquainted with an establishing fellowship with the Carlsbad Missionary Society the Artesia Society arranged a social for last Thursday afternoon at which the society of the Carlsbad church, which came into the northern branch of the Presbyterian church only during the last year, were to be the honor guests. But Thursday happened to be a very rainy day and the Carlsbad Society was unable to come. So the Methodist Society, which was meeting that afternoon became the beneficiaries of the delightful entertainment planned. The place of meeting was the Wheatley home. A short program consisting of vocal solos by Mesdames V. L. Gates and Myron Bruning, and a reading by Mrs. R. L. Paris, was given and delicious refreshments were served.

## HALLOWE'EN BRIDGE PARTIES

Mrs. Charles R. Blocker and Mrs. Andrew C. Kimbrough were joint hostesses at a Hallowe'en bridge party at the Blocker home on Tuesday afternoon, honoring Mrs. Harold Bruton, of Laddonia, Missouri. A Hallowe'en color scheme was used and refreshments were in two courses. In the playing everything was in reverse order, Hallowe'en spirit presiding at each of the five tables. Mrs. W. C. Martin won high score and a guest prize was presented to Mrs. Bruton. The guest list included in addition to the honoree, Mesdames Aubrey Watson, Rude Wilcox, Tex Henson, Raymond Bartlett, Otto Stearker, Will Linell, Lewis Story, W. C. Martin, D. L. Grimm, L. B. Feather, Fred Brainard, Edson Jones of Waukegan, Illinois, Frank Seale, Carl Joiner, Dick Attebery, J. Leslie Martin, H. S. Williams, Albert Richards and A. L. Bruton, of Laddonia, Missouri.

Mrs. C. R. Blocker, assisted by Mrs. A. C. Kimbrough was hostess again Wednesday at a Hallowe'en bridge, entertaining five tables. The decorations and refreshments were identical with those of the Tuesday party. Mrs. Beecher Rowan won high prize and Mrs. Schulze consolation. The guests on this occasion were Mesdames Compton, Clarke, J. H. Jackson, J. M. Story, E. L. Perry, S. W. Blocker, C. Bert Smith, Hightower, Atkeson, Jack Curry, Green, Russell Rowan, Shugart, Schulze, Dexter, Wheatley, Henry Paton and M. W. Evans and Miss Violet Robertson.

## FACULTY LUNCHEON

The first year girls in home economics entertained the high school faculty at a three course luncheon at noon last Thursday. The dining table was very attractive with an arrangement of fall flowers, which were well used in decorating the room. The luncheon was well cooked and daintily served and was pronounced one of the best ever served by freshmen girls so early in the year. The fortunate guests were: Messrs. Kerr, Bird, Bruce, Wilkins and Allen, Mrs. Rader and the Misses Brown, Drury, Burrows, Keys, Oakes and Jarvis. The members of the class who gave the luncheon, under the supervision of the home economics teacher, Miss Ruth Morgan, were: hostesses—Jeanne Wheatley and Mary Louise Paris; decorating committee—Bobbie Davidson and Myrna Yeager; serving committee—Velma French, Catherine Cogdell, Alice Moore, Mildred Fox and Elizabeth Muncy; chief cooks—Victoria Moore and Mona Sinclair; assisting cooks—Norma Christman, Gwendolyn Bliss, Janie Hamilton, Lillie Miller and Mabel Myers.

## HOME ECONOMICS CLASS ENTERTAIN MOTHERS

The girls of the freshman home economics class gave a four course luncheon yesterday afternoon, at which their mothers were the guests. A color scheme of pink and white was cleverly carried out. Pink crepe paper garden hats made pretty nut cups and dainty old-fashioned maids in pink and white made attractive decorations on the hand-painted place cards.

The mothers present at the luncheon were: Mesdames Frank Miller, J. S. Christman, H. F. Bliss, J. P. Sinclair, Bert Muncy, J. P. Moore, J. A. Hamilton, G. W. Henderson, R. L. Paris, L. O. French, Nellie Cogdell, Rex Wheatley and Jessie Morgan.

The hostesses were: Loma Ruth Henderson and Velma French; the waitresses, Gwendolyn Bliss, Norma Christman, Lillie Miller, Victoria Moore and Mona Sinclair; and the cooks were Mary Louis Paris, Alice Moore, Elizabeth Muncy, Mildred Fox, Mabel Myers, Janie Hamilton, Myrna Yeager, Jeanne Wheatley, Catherine Cogdell and Beatrice Davidson.

## FOOTBALL BOYS ENTERTAINED

A number of the mothers of the football team entertained the boys, thirty-four in number, also the members of the visiting team from Spring Lake, Texas, and the men of the high school faculty at a buffet supper at the home of Mrs. Rex Wheatley last Friday evening. The visiting team, which comes from the largest strictly rural school in Texas, paid the Artesia team a fine compliment. It was that this was the cleanest playing team they had contended with this year. The coach of Spring Lake is an uncle of Mr. Wilkins, science teacher and assistant coach here. The visitors made a trip to the Carlsbad Caverns Saturday on their way home.

## METHODIST MISSIONARY SOCIETY MEETING

The Methodist Missionary Society met for its regular literary meeting last Thursday at the home of Mrs. I. C. Keller, but abandoned its meeting to accept the invitation of the Presbyterian Missionary Society to be its guests at a special meeting at the home of Mrs. Rex Wheatley.

## HIGH SCORES ENTERTAINED

The low score members of the Idlewhites Bridge club entertained the high scores at a turkey luncheon at the home of Mrs. J. H. Jackson, on Tuesday afternoon. The guests were met at the door by Perry Hill, a guest in the Jackson home, who also waited upon the table. Much fun was created by the order that no guest should speak during the meal on penalty of paying a heavy fine, although the hosts might tantalize them ever so much. The ludicrous efforts of some of the victims to express themselves wordlessly are reported to have been better than a show. Hallowe'en decorations were used in the adornment of the spacious home and the dining table.

## ART EXHIBIT AND SILVER TEA

An exhibit of paintings by Carl Redin will take place on Wednesday November 6, under the auspices of the Woman's club. Carl Redin needs no introduction to Artesia. His pictures have been viewed with appreciation by Artesia art lovers on several occasions. The paintings in this exhibit are all new and the subjects all new but one, the leader being a picture of the Grand Canyon. A number of Artesia people have examples of Redin's work among their prized possessions.

## BIRTHDAY PARTY

Quite a number of friends gathered at the Wittkopp home Friday after school to help Leland Arthur celebrate his seventh birthday. Mrs. Harold Scoggins, who claims the same natal day celebrated with Leland Arthur.

Among those present were: his teacher, Miss Palmateer, his Sunday school and music teacher, Mrs. W. E. Ragsdale, Rev. and Mrs. Scoggins and son, Grant, and Miss Olive Buel. After the six o'clock dinner the company had a line party at the Majestic theatre.

All present report a fine time and wish many happy returns of the day.

## STATE LIBRARY ASS'N. TO MEET

An interesting program has been prepared for the New Mexico Library Association meeting which occurs in Albuquerque October 31 to November 1. Among the numbers on the program which might be of interest locally in a "Reading List of Books on Mexico" by Mrs. T. E. Whitney librarian of the Roswell public library.

## FIRST BRIDGE CLUB

The club was entertained on Tuesday afternoon by Mrs. M. A. Corbin who served the usual refreshments in two courses. Candles trimmed in orange and black on each quartette table were suggestive of the Hallowe'en season. Fall flowers were also used in decorating the rooms. There were four substitutes, Mesdames A. F. Phillips, S. W. Blocker, R. D. Compton and Beecher Rowan.

Typewriters for rent at Advocate. Typewriters for rent at Advocate.

## DILLON LEADS THE GRAND PARADE AT DALLAS FAIR SUN.

DALLAS, Texas.—Governor Dick Dillon, wearing cowboy regalia, and astride a pinto horse Sunday afternoon made his debut at the Dallas State Fair, by leading the grand parade for the world champion rodeo, which is annually an attraction of the Texas fair. The New Mexico governor won cheer after cheer from the grandstand loaded with Texans as the parade of cowpunchers and cowgirls moved past the judges' stand.

The sight of the New Mexico governor, erect in stirrups, holding a tight rein on a horse prancing to the inspiration of lively band music, ten gallon hat held high in salutation, while that Dick Dillon Smile beamed all over the crowd, gave the Texans a mighty thrill.

The governor's airplane from Clovis arrived at Dallas airport at noon yesterday. He was accompanied by Dr. A. L. Dillon, of Clovis, Dr. H. L. Kent, president of New Mexico A. & M., Bob Anglin, secretary of the Clovis Chamber of Commerce, Dorothy Greathouse of Clovis, and Mack Stanton, publisher of the Clovis News-Journal.

As the roar of the motor died away on the landing field there arose above the hub-hub the strains of "O, Fair New Mexico," played by the Dallas State Fair Band.

## REPUBLICAN RANKS MAY BE SPLIT

ALBUQUERQUE — The political warfare between Old Guard and Progressive republicans which has been flaming since the legislature and has found almost continuous expression in indirect ways came to the public in a more positive manner Monday night in speeches before the Bernalillo County Young Men's Republican Club Tuesday night by State Treasurer Emerson Watts and State Auditor Victor Ulibarri.

Both progressive speakers appealed "to the better elements of the G. O. P. organization to rescue the party from a selfish and corrupt element which seeks to dominate the party." Mr. Watts, advocating more educational advantages for New Mexico children referred to the governor's road program with the assertion that New Mexico during the past fiscal year paid more than six times as much for roads as it did for the education of children of the state.

The financial statement for the state for the year ending June 1929, he said, shows that disbursements for the common schools of the state were \$1,017,248.20 while \$6,811,788.35 was spent during the same period for roads.

"That may be all right," Watts said. "I have no criticism to offer of the variance of the two amounts, but think it over."

## MRS. G. R. BRAINARD HONORED

Mrs. G. R. Brainard was elected treasurer of the State Federation of Women's clubs at the state convention which was held at Silver City last week. Mrs. Brainard has been filling this position very acceptably by appointment during the past term. Mrs. J. D. Atwood, of Roswell, was elected vice-president at large.

Inquisitive woman (eyeing catch)—Oh! Poor little fish. Annoyed angler—Well, Madam, if he'd kept his mouth shut he wouldn't have got into trouble."

## HALLOWE'EN HOLLER

Yes, make lots of noise on Hallowe'en night, but be on time.

You may have lots of buttons and hooks to fasten, if you wear a costume that night, but a good watch will tell you how much time you have to make your appointment.

If you plan a Hallowe'en gift, give Jewelry—something that will last. See our nice line of Helbros Watches for ladies, men, boys and girls. We also have a nice display of other late models in popular makes.

## COTTONWOOD ITEMS

(Miss Alma Bradley, Reporter)

Miss Violet Smith of Dexter spent last week end at the Rambo home.

Miss Mary Funk spent last week at Hagerman with Miss Kate Hamm.

Mr. and Mrs. Aubrey Watson of Artesia were visiting on Cottonwood Sunday.

Mr. and Mrs. Joe Funk and daughter, Mary visited in Carlsbad last week.

Mr. and Mrs. Oscar Montgomery of Arizona, are visiting at the home of Mrs. Montgomery's parents, Mr. and Mrs. A. D. Hill.

## BRIDGE PARTY

Miss Eloise Reser entertained quite a number of her friends at her home on Cottonwood with a bridge party Friday night. Among those present to enjoy the evening were the Misses Camille Horner, Alma Pearson, LaRue Mann, Ruth Bigler, Mary Jackson, Fernie McCaw, Grace Stanley and the hostess and Messrs. J. O. Woods, Keith Miller, Chester Mitchell, Floyd Rogers, Melvin Jernigan, James Naylor, T. J. Pollard and Mr. and Mrs. Dayton Reser. High score was won by Miss La Rue Mann and Keith Miller, low score Miss Camille Horner and Melvin Jernigan. Refreshments of sandwiches, salad and punch were

## TARIFF TO MAIN ISSUE IN 1930 ELECTION

WASHINGTON, D. C.—A statement in the biennial election of 1930 and the presidential campaign two years later if the pending bill were enacted as written was made in the senate Tuesday by Senator LaFollette, republican, Wisconsin.

LaFollette, in a scathing denunciation of the financial committee reported by the finance committee asserted "the same complacent sleek attitude on the part of those who 'betrayed' the country in the tariff of 1909, was being exhibited by the same party to-day in its position toward the farmer.

The 1909 law, he said, led to a split in republican ranks and election of a democratic president in 1912.

Wife—"Before we were married you said mother could stay with me whenever she pleased."

Husband—"Yes, certainly, but she doesn't please."

## Over 395,000 Lost Calls

"Three Months' Time Lost Daily" in Mountain States

It happens to all of us. Perhaps just once during the day or on some days, several times, you dash to the telephone to find that the calling person had become impatient and failed to give you time to answer. On the other hand you, too, may have been in a hurry and the person you were calling reached the telephone too late.

About 18 per cent of the daily average of 2,207,856 calls in the entire territory served by this company are not completed largely because the calling party abandons the call without allowing sufficient time for an answer, or the called person delays answering. The total time lost daily approximates three months.

You can help make your own service more satisfactory by waiting two minutes before abandoning a call and by answering your telephone as promptly as possible. A recent survey has proved that when the ringing of the called telephone was continued for an additional minute, answers were obtained in 23 per cent of the cases.

Incompleted calls are a handicap to good service—some are unavoidable, of course, others can be completed with your help—may we have your cooperation?

THE UTILITY INDUSTRY HONORS BIRTHDAY OF THOMAS A. EDISON

Scenes that tell the past and foretell the future greeted President Hoover when he visited Henry Ford's historical village Oct. 21 to participate in the ceremony memorializing the achievements of Thomas A. Edison, according to news stories sent out by the Associated Press telling about the "community of yesterday" which has been created by the purchase of many historical buildings in various parts of the country and restored to their original condition and placed on foundations by Henry Ford in his historical village at Dearborn, Michigan.

As the Edison Day Jubilee was to honor mainly Thomas A. Edison, the chief interest, of course, was centered around Edison and his achievements which have moved civilization forward by leaps and bounds. The utility industry has a well prepared nation-wide program for the purpose of calling attention to the experiments, work and wonderful accomplishments of Edison.

There was interest, too, in Henry Ford and his achievements as a manufacturer, financier, business executive, and beyond question the world's greatest industrialist. Southwestern Public Service Co., appreciates the opportunity to honor Thomas A. Edison and at the same time recognize the outstanding achievements of his intimate friend and admirer, Henry Ford, who said in referring to the achievements of Edison, that mass production would be impossible without electric power.

Because Henry Ford is rated as the largest user of electricity among the manufacturers of the world, the public will be keenly interested in his viewpoint as to the best means of promoting the development of the electrical industry of the country, and for that reason call attention to some of the recent statements of Ford in an interview published in Forbes Magazine on September 1, 1929, which are in part as follows:

"I am not afraid of what the newspapers call the Power Trust. I would welcome a real Power Trust. And as sure as shooting, the country by and by will have a real Power Trust. "By that, I mean that all the power resources of the country should be linked together under one control and every part of the country supplied from the logical distributing point. Power is all important. You cannot do a thing without power. "The very best power now is power distributed by big concerns. But we should and must and will go much further. There are now hundreds, not to say thousands, of different power plants scattered all over the country.

"The whole power of the nation should be generated under one directing organization. It should be thoroughly standardized. All the plants should be connected together. "No, I am not a bit afraid that a Power Trust would gobble up everything and everybody. There never will be anything without potential competition. Besides, the people will always assert themselves whenever things get out of balance, and will effectively demand and get fair treatment. "A lot is being said about the profits made by those taking part in the power mergers now going on. People shouldn't worry too much about that. Money keeps on flowing. The question is not 'Who gets the money?' but 'What tangible asset is left to the people?' The people always get the real gain, even though some groups may get the passing profit. The main thing is to get the power resources of the country put on a more scientific basis. After all, it is the actual results achieved which count most. These people won't be able to take their money with them, and they will leave behind them a country more efficiently equipped with power.

"What they are doing is helping to have the country become more conscious of the importance of what electricity can do for them. Only a beginning has been made in making

FORMER ARTESIA RESIDENT IS ACTIVE IN CIVIC WORK

The following item from the September American will be of interest to Artesia, since Mrs. Greenlaw, is a former citizen, widow of the late Dr. Greenlaw, who was a practicing physician here for a number of years.

The blind of Birmingham, Alabama soon will be able to go about as if they had eyes when the campaign of Mrs. Kate Greenlaw, executive secretary of the Birmingham Association for the Blind, is fully in operation. She has induced philanthropic persons of the city to make possible the importation of German shepherd dogs, which have recently become invaluable aids to sightless people, among them Senator Thomas Schall, of Minnesota. They are trained, not merely to direct their footsteps and indicate direction to be taken. Not

electricity do the work of the world. The ground has only been scratched. "Power can revolutionize the lives of the people of this country. It can lift the burdens from the backs of the workers. It can abolish most of the tasks of the housewife. It has hardly made a beginning on the farm — where its possibilities are perhaps the greatest of all."

To the best of its ability the Southwestern Public Service company has followed the advice of this great industrialist. While the Southwestern Public Service company does not claim that the unlimited supply of dependable electric service which it has furnished is the sole or even the chief reason for the unparalleled development in the Pecos valley, nevertheless it has every reason to be proud of the part it has played in the development of the territory which it serves.

Realizing that the backbone of this valley's prosperity lies in the fertility of its broad fields, its major effort has been in lowering the cost of electric power to the farmer. Over a hundred miles of rural distribution lines and fifty miles of high tension lines bring this essential servant to the farms of the Pecos valley at approximately half the cost of five years ago. Three electric rate reductions for irrigation service in the past few years have brought the average rate down to a little over three cents per kilowatt hour.

In reviewing the history of the phenomenal development of the electrical industry in west Texas and eastern New Mexico, the following facts should be noted: That as late as October, 1924 one of the great banking institutions of the country expressed the opinion that any attempts to finance the requirements of Texas Utilities company by issuance and sale of first mortgage bonds would not prove successful, giving as a reason for such opinion that the territory served by the company was too scattered and also too remote from sand bank's retail bond market.

In October 1925, due to the efforts of Judge I. R. Kelso, a party of leading investment bankers from Boston, New York, Detroit, St. Louis and other eastern cities, visited west Texas and eastern New Mexico. The citizens arranged and conducted the eastern bankers on a tour of the country which was in every sense a decided success. It proved to be mutually helpful to the visitors and local people. The bankers, at various receptions and banquets given in their honor by the citizens of west Texas and eastern New Mexico, promised without qualification to finance all of the requirements necessary for the development of the country. The eastern bankers have made good every promise made to the citizens.

To-day, Texas Utilities company New Mexico Public Service company and Southwestern Public Service company are owned and operated as a combined or interconnected property by the same management of the controlling company, so ably aided by Judge I. R. Kelso, as a direct result of the visit of the eastern bankers and the cooperation of the citizens of the plains country.

That since October 1925, the management of the controlling company has, by merger, acquisition of property as an entirety and the construction of transmission lines, built up an electric utility applying electric service to 63 towns in west Texas and eastern New Mexico covering a territory equal in area to the state of Pennsylvania, with approximately one thousand miles of transmission lines in operation or under construction at this time. That the management takes pride in the fact that cooperation on the part of the citizens of the territory has made it possible for the companies to carry out their building program in advance of the rapid growth of the territory which it serves, and at the same time make so many substantial reductions in rates. While Texas Utilities company, New Mexico Utilities company and Southwestern Public Service company have regarded themselves as an integral part of every community served by them and are proud of the productive power and the material greatness of the territory developed, nevertheless the companies have at all times bottomed every investment made upon their abiding faith in the spirit of fair play and cooperation manifested by the citizens of the plains country and the Pecos valley.

only the dogs, but the blind themselves, must undergo a period of training before they can work together properly. The dogs will not work with blind beggars, a fact which influenced Mrs. Greenlaw in her campaign, since her organization discourages begging and promotes methods tending to make the blind self-supporting.

**NOTICE OF FORCLOSURE SALE**  
In The District Court Of Eddy County New Mexico

The Waldo State Bank, a corporation, and S. L. Cantley, Commissioner of Finance of the State of Missouri, Plaintiffs,  
Vs.  
W. R. Waltner, Susan Virginia Waltner and Erma Waltner, Defendants.  
No. 4816.

WHEREAS, The Waldo State Bank, a delinquent corporation, and S. L. Cantley, in the capacity of Commissioner of Finance of the State of Missouri, secured judgment in the District Court of Eddy County, New Mexico on the 22nd day of August, 1929 against the defendants, W. R. Waltner and Susan Virginia Waltner, his wife, in the sum of \$9,891.14 as principal, interest and attorney's fees with interest thereon at the rate of 6% per annum from the said 22nd day of August, 1929 until paid and cost of suit, and

WHEREAS, plaintiff secured judgment against all of said defendants W. R. Waltner, Susan Virginia Waltner and Erma Waltner, for the foreclosure of its mortgage deed and an Order to sell the hereinafter described real estate, premises, interest in Artesian Well and Ditch Right, and

WHEREAS, I was appointed Special Master to carry out the judgment and the order of sale therein made, NOTICE IS HEREBY GIVEN, that I will, as such Special Master, expose for sale and sell at public auction to the highest bidder for cash, at the front door of the First National Bank of Artesia, in the Town of Artesia, Eddy County, New Mexico, on Thursday, November 21, 1929, at two o'clock p. m. of that day, all the right, title, interest, claim and estate of the defendants, W. R. Waltner, Susan Virginia Waltner and Erma Waltner, in and to the following described real estate, interest in Artesian Well and Ditch Right, situated in Eddy County, New Mexico and more particularly described as follows, to-wit:

The West half of the Northwest Quarter (W $\frac{1}{2}$ NW $\frac{1}{4}$ ) and the North Half of the Southwest Quarter (N $\frac{1}{2}$ SW $\frac{1}{4}$ ) of section four (4), and the Southeast Quarter of the Northeast Quarter (SE $\frac{1}{4}$ NE $\frac{1}{4}$ ) of section five (5) all in Township Seventeen (17) S., of Range Twenty Six (26) E., N. M. P. M. except the railroad right of way and the ditch right for irrigation purposes heretofore conveyed to William P. Jones; together with a 5-6 interest in the Artesian Well near the Southwest corner of the Southeast Quarter of the Northeast Quarter of said Section Five and a ditch right across the NE $\frac{1}{4}$  of the NE $\frac{1}{4}$  of said Section Five reserved by part of the first part being one rod wide and commencing 165 yards West of the Southeast corner of said 40 acres and running diagonally to the Northeast corner of said 40 acres.

Said sale to be made for the purpose of satisfying the foregoing mentioned judgment against the defendants, W. R. Waltner and Susan Virginia Waltner in the sum of \$9891.14, with interest thereon at the rate of 6% per annum from the 22nd day of August, 1929 until paid, and cost of suit and foreclosure sale.

Total amount of principal, interest and attorney's fees due on date of sale .....\$10,039.50  
Clerk's Cost ..... 14.00  
Sheriff's cost ..... 9.00

Total amount due on date of sale, not including Special Master's fee to be fixed by the Court and cost of Publication of this Notice .....\$10,062.50  
Notice is further given that said sale will be made subject to a lien for all unpaid State and County Taxes against said property.

GIVEN under my hand as Special Master on this 7th day of October, 1929.

CONNIE CHILCOAT,  
43-4t Special Master.

**NOTICE OF APPOINTMENT**

In the Probate Court of Eddy County, New Mexico:

Notice is hereby given that I, Georgia A. Hedgpeth, was duly appointed administrator of the Estate of Phillip Bach, deceased, on the 27th day of August, 1929 by the Hon. M. O. Grantham, Probate Judge of Eddy County, New Mexico.

Therefore all persons having claims against the said estate are hereby notified to file the same with the County Clerk of Eddy County, New Mexico within one year from the date of said appointment as provided by law or the same will be barred.

GEORGIA A. HEDGPETH,  
44-4t Administrator.

**OVER THREE MILLION MILES OF ROAD IN THE U. S. SAYS A REPORT**

WASHINGTON, D. C.—Recent figures place the total of all roads in the United States at slightly over three million miles. Of this amount approximately 300,000 miles are embraced in forty-eight systems which constitute the main traffic routes of the country.

A study of roads constructed up to the present time by states with federal aid shows that the states are vigorously attacking the job, despite the fact that the federal government is lagging behind on its share of the program as previously agreed upon.

Again, viewed from the standpoint of construction accomplished, in the various types of road, it is found that the demand has been so great for highways, that while the largest mileage or roads built are of the cheaper types, and which might be economically constructed of a higher type, those in authority have felt compelled to provide the public with as many miles of travelable surface as possible, as the figures bearing upon this point clearly indicate.

The total improved mileage of this latter group stands at approximately 223,000 miles. The term improved in this connection, according to data supplied by the American Association of State Highway Officials, includes roads that have been graded and drained roads improved with sand-clay, gravel, waterbound macadam, bituminous concrete, brick asphalt, and a few miscellaneous types. It also includes roads under construction to be completed within the present season.

In the 300,000 miles embraced in the various state highway systems, an approximate total of 138,000 miles have been improved without federal aid, while only about 85,000 miles have been built with federal aid.

Calling Cards, 100 for \$1.75, on best grade paneled or plain stock.—The Advocate.

**WE CAN'T CONTROL THE WEATHER... but**

**..WE CAN CONTROL VOLATILITY!**

"There's been a lot said about the weather but very little done about it" —until Phillips 66 was perfected. Here, at last, is a motor fuel in which the volatility of each gallon is controlled to fit the season and the climatic conditions of the locality in which you buy it. The result? Instant starting —any weather. Quick warm-up. Easy acceleration. Mileage and power that gratify. All this at no extra cost! For best results try a full tank of Phillips 66... or 66 Ethyl.

Phil-up with **Phillips 66**

© 1929, Phillips Petroleum Company  
**CONTROLLED VOLATILITY**

WHEN THE THERMOMETER GOES DOWN THE VOLATILITY GOES UP. Gasoline must vaporize before it can be fired in the cylinders of your motor. Volatility refers to the ability of gasoline to vaporize. With volatility controlled, Phillips 66 vaporizes as quickly in cold as in warm weather.

# Celebrating Light's Golden Jubilee

During the past Fifty Years, the tiny glow of EDISON'S light has grown into a radiance which floods the world. This marvelous development has accounted for the growth of immense industries and huge electric light and power companies.

Since the discovery of the Electric Lamp the problem of distribution of electricity for lighting has been the greatest confronting the electrical industry. Today, through research and diligent management, the Electric Light and Power Companies are giving to millions of homes the most economical and reliable lighting service that science has ever developed.

The Electric Light and Power Companies are still improving their methods of generating and distributing electricity, and these improvements mean savings to the consumer.

Your Electric Company on this, the GOLDEN JUBILEE OF LIGHT, pledges itself to the continuance of the wonderful work of Thomas A. Edison, by providing you with the best electrical service at the least possible cost.

A treat for everyone. A laugh  
a thrill—a tear.

"The Carnation Kid"

HAS THEM ALL

### SOUTHWESTERN JOINS IN PAGING TRIBUTE TO THOS. EDISON MONDAY

The Southwestern Public Service Co., joined the nation in paying tribute to Thomas A. Edison on "Edison Day Jubilee," celebrating the fiftieth anniversary of the incandescent lamp. Window decorations displayed by the local office were in evidence Monday and a number of radio fans tuned in on the national hook up to listen to the fine program broadcasted out of Detroit Monday night, at which time President Hoover was the principal speaker.

Although the ceremonies formally celebrated Edison's perfection of the incandescent lamp, the celebration actually was a huge party arranged by Mr. Ford for his friend "Tom" Edison. Scarcely a word of expense or effort had been spared by Ford to make the "party" a complete success in every detail.

In connection with the perfection of the incandescent lamp, our readers may be interested to know of the newspaper report that was printed in the New York Herald of Sunday December 21, 1879, concerning Mr. Edison's invention. Part of the report follows:

Edison's electric light, incredible as it may appear, is produced from a little piece of paper—a tiny strip of paper that a breath would blow away. Through this little piece of paper is passed an electric current and the result is a bright, beautiful light, like the mellow sunset of an Italian autumn.

"But paper instantly burns, even under the trifling heat of a tallow candle!" exclaims the skeptic, "and how, then, can it withstand the fierce heat of an electric current?" Very true, but Edison makes the little piece of paper more infusible than platinum, more durable than granite. And this involves no complicated process. The paper is merely baked in an oven until all its elements have passed away except its carbon framework. The latter is then placed in a glass globe connected with the wires leading to the electricity producing machine, and the air exhausted from the globe. Then the apparatus is ready to give out a light that produces no deleterious gases, no smoke, no offensive odors—a light without flame, without danger, requiring no matches to ignite, giving out but little heat, vitiating no air, and free from all flickering; a light that is a little globe of sunshine, a veritable Aladdin's lamp. And this light, the inventor claims, can be produced cheaper than that from the creapest oil. Were it not for the phonograph, the quadruplex telegraph, the telephone and the various other remarkable productions of the great inventor, the world might well hesitate to accept his assurance that such a beneficent result had been obtained, but, as it is, his past achievements in science are sufficient guarantee that his claims are not without foundation, even though for months past the press of Europe and America has teemed with dissertations and expositions from learned scientists ridiculing Edison and showing that it was impossible for him to achieve that which he has undertaken.

When Edison began his experiments in September 1878, he had just returned from the inspiring scenery of the Rocky Mountains, where he had been enjoying a little recreation after several months of hard labor. He was ripe for fields and enterprises new. A visit to a Connecticut factory where an electric light was used concentrated his thoughts on the subject of lighting by electricity, and he determined to attack the problem. Previous to this time, although he had roamed broadcast over the domain of electricity, wrestling from it, as is well known, many of its hidden secrets, Edison had scarcely thought of the subtle fluid in connection with practical illumination. Now, however, he bent all his energies on the subject, and was soon deep in the bewildering intricacies of subdivision, magneto currents, resistance laws and the various other branches going to make up a system of lighting by electricity. The task before the young inventor was divisible into two parts.

First—the producing of a pure, steady and reliable light from electricity; and

Second—Producing it so cheaply that it could compete with gas for general illumination.

Of the two systems before him—viz., voltaic arc and the incandescence system, Edison chose the latter as his field of operations. Prominent among the difficulties incident to incandescent lighting it will be remembered, was the liability of the platinum (when that metal was used) to

### EDUCATIONAL PROGRAM AT ALBUQUERQUE

The educational council program of the New Mexico Educational Association which meets in Albuquerque on October 31, November 1 and 2 will be very interesting.

The educational council program will consist of several numbers by such school men as Superintendent Oscar D. Moore, who has made a study of the needs of pensions. Indications are that Superintendent Moore has some interesting facts to present on case studies in our state. Principal J. R. McCollum representing the executive committee of the New Mexico Educational Association, always has interesting data on the school land situation. His study will include the land income situation up to and including October of this year and will interest every school man in the state.

Superintendent R. J. Mullins will present a paper on the "Reorganization of the State Department of Education" and will point out how the Amendment fails to meet the original plans of the Association. Superintendent Mullins has made a thorough study of this problem over a long period of time, and will have something of value to present.

Because of the action of the executive committee on the state education reorganization plan and the motion of Superintendent Pope to present a plan to study the general revenue situation as to sources, methods of collecting, and expenditures, with a view to meeting more adequately the total fiscal needs of all phases of government, there should be considerable discussion, according to Dean S. P. Nanninga, president of the council.

Sunday school teacher—"And what did David get after he fought Goliath?"

The Kid—"Sixty per cent of the gate receipts and a chance to meet the winner of the bout between Cain and Abel."

melt under the intense heat of electric current, and the liability of the carbon, when that was employed, to gradually become dissipated under the combined action of gases and the electric current.

### OVER 1,300,000 CHEVROLET SIXES SOLD THIS YEAR

The phenomenal success registered by the Chevrolet six offers ample proof of the power, performance and smart appearance for which the car was praised when it was first placed on the market at the first of the year. Critics are uniform in the opinion that the introduction was one of the greatest forward steps in the automotive history, symbolizing as it does the introduction of a six cylinder car into the low-priced field.

Various factors of which the Chevrolet six can rightfully boast—such as ease of handling and smooth riding, as well as economy of operation, combined in gaining the public approval for the product. Public approbation is the secret of the success of any automobile and the public has responded beautifully to the Chevrolet six.

Early in August the one millionth car left the assembly lines at the factory. At this date over 1,300,000 cars have been delivered to their owners. The tremendous popularity of the six indicates that it is not at all impossible that 1,400,000 cars will be sold this year.

Close students of national sales are paying tribute to the policies of General Motors in the handling of the Chevrolet six. The students point that General Motors experienced over a long period of time before obtaining the results they desired. The effect is that the public is cognizant of the fact that General Motors has produced a truly remarkable automobile in the Chevrolet six.

Engineering authorities who recently visited the Chevrolet factory stated that the new valve-in-head six cylinder engine, which in tests developed 46 horse-power at low engine speeds, is undeniably the most forward step in automotive engineering. They point out that the Chevrolet boasts of ample flexibility which provides plenty of power for all occasions, whether it be a steep grade or a quick get-away in traffic.

The modern automobile faces more

problems than the car of five years ago. The traffic situations in the cities and towns demands a car that will "go" when the lights flash "go." A car that retards traffic is not good for a fast moving traffic system and Chevrolet engineers looked years ahead in designing an engine which would speed the driver through traffic snarls.

For years drivers taking long trips complained of "riding fatigue," to overcome this, the Fisher body craftsmen devised an adjustable front seat, which permits the operator of the car to change position and hence give him relaxation at various times. It is not unusual for an operator to drive 500 miles a day at the present time because of the adjustable front seat. The adjustable front seat is found on all closed models and has been agreeably—in fact, enthusiastically received.

The modern car must be smart in appearance. Fisher bodies are smart and Chevrolet has been hailed as an extremely smart looking car. There is a certain symmetry of body line and beautiful flending of fender, hood and top that makes the Chevrolet virtually glow with "class."

Chevrolet dealers all over the country are enjoying a harvest this year. The introduction of the immaculate Imperial Sedan and the classy sport coupe are sales-increasers. The Imperial Sedan presents an unusually smart appearance for town driving while the sport coupe is finding favor with the younger folk who want appearance and power in their selections. The comfortable and roomy rumble seat in the sport coupe is just one of the modish features that "flaming youth" finds so appealing.

"The man who gives in when he is wrong," said the orator, "is a wise man, but the man who gives in when he is right is —"

"Married," said a weak voice in the audience.—Comrares.

# Millions of Miles of Constant Testing

to maintain the *outstanding quality and dependability* of  
**The Chevrolet Six**

In spite of the fact that a million Chevrolet Sixes have already been placed in the hands of owners, and have proved their performance and stamina by billions of miles of service over every type of highway the nation affords—

—the Chevrolet Motor Company continues to take new Chevrolet Sixes from the assembly line at the factory and subject them to pitiless testing on the roads of the General Motors Proving Ground!

This passion for proof—this consistent refusal to accept any

tests as final—is one of the fundamental reasons for the overwhelming popularity of Chevrolet cars. For in no other way is it possible to make the Chevrolet Six so sound in design and materials—so dependable in performance—and so economical to operate!

If you are considering the purchase of an automobile, come in and see the new Chevrolet. You will find that it is more than a Six in the price range of the four. *In every way it is a finer car than you ever thought possible in the low-price field!*

A fifth wheel speedometer accurately measures speed and mileage on all Chevrolet test runs at the Proving Ground.

## ARTESIA DOWNS SPRING LAKE, TEXAS ELEVEN ON MUDDY FIELD FRI.

Practically all of Coach Allen's second string men saw action in Friday's football game at Brainard park, when the Artesia High Bulldogs defeated the Spring Lake Texas eleven 19 to 0 on a muddy field. The game was marked by frequent penalties. The off side playing on the part of Artesia accounts for the major part of the eight penalties assessed against the locals.

The Bulldogs excelled in practically every department of the game, although the visitors showed exceptional defensive strength. Clayton and Pollard were the shining lights for the locals. Clayton made a brilliant play on an intercepted pass in the first quarter, which accounted for the second touchdown. Pollard caught a pass the third quarter and made the last touchdown.

"Pewee" Gray, sub quarterback, proved his metal and made for himself quite a reputation as a ball carrier in the second half by two successive end runs. He will be seen in the regular line up another year, if he remains in school. The visitors had two good men in the right end and the full back. These men succeeded in checking several promising Bulldog gains by breaking through the line and stopping the local advance.

The summary:  
1st half—Spring Lake, completed two forward passes for ten yards, intercepted three passes for a gain of 25 yards, made two first downs and was penalized one time for ten yards. Artesia attempted four forward passes and completed two for 30 yards, intercepted one pass for 25 yards, made six first downs and was penalized four times for 20 yards.

2nd half—Spring Lake, attempted six passes and completed three for 36 yards, made five first downs, intercepted one pass, was penalized three times for 15 yards. Artesia attempted eight forward passes completing two for 35 yards, made three first downs and was penalized four times for 20 yards.

Score by quarters:  
Spring Lake ..... 0 0 0 0—0  
Artesia ..... 12 0 7 0—19  
Officials: Referee, Scoggins, Southwestern U; umpire, Rideout, New Mexico U; headlinesman, Cole, Simmons U.

## H. L. AND J. B. MUNCY ATTEND FUNERAL FOR J. K. STEVENS MONDAY

H. L. and J. B. Muncy of Artesia returned Tuesday evening from Plainview, Texas, where they had gone to be present at the funeral for their nephew, Lieutenant J. K. Stevens, who was killed in an airplane crash near Scott Field, Illinois, Friday. Lieutenant Stevens was a former resident of Plainview, Texas and was well known in that section. His chum, Lieutenant Charles E. Short, of Amarillo, Texas who was piloting the plane was instantly killed when the machine went into a tail spin at an altitude of 2,000 feet on a farm three miles from Scott Field, Illinois. Lieutenant Stevens was taken to a hospital and lived for an hour, but never regained consciousness.

Lieutenant Stevens had been employed by the Bell Telephone Co., at Fort Worth, Texas and was later transferred to St. Louis and about ten days ago received notice of a transfer to New York City. He had made preparation to leave for his future home the day following the sad accident.

Both Lieutenants Stevens and Short were buried at the same hour by the Masons. Lieutenant Stevens was buried in Plainview and Lieutenant Short in Amarillo. Lieutenant Stevens is survived by a mother, a brother, Grady, a student in Wayland College, at Plainview and six uncles, J. B., H. L., and Bert Muncy of Artesia, Rev. R. L. Muncy, of Floydada, Texas, Ed Muncy, of Sidwell, Oklahoma and O. C. Muncy of Denton, Texas.

**SAN MARCIAL BANK**  
IS SHORT \$25,000  
BY DEFALCATION

**ALBUQUERQUE**—From bank records, water soaked by the swirling flood waters of the Rio Grande, state bank examiner Lawrence Tomme, has revealed shortages totaling more than \$25,000 and a criminal complaint was filed here Wednesday by district attorney Fred Nicholas charging David Baca, assistant cashier of the San Marcial bank, with embezzlement. Baca left the devastated village of San Marcial about a week ago and is believed to have gone to Old Mexico. He told an acquaintance in San Marcial that he had obtained a job in Mexico.

# LOCALS

Vic Newcomb was in Carlsbad Sunday.

Prof. Kerr and family were week end visitors to El Paso.

Mrs. A. L. Mount and Mrs. Sewell motored to Roswell Monday.

L. L. Clark of Peoples Mercantile Co., was a Roswell visitor yesterday.

J. D. Josey of Hope, was attending to business matters here Friday.

Mr. and Mrs. Alva Curry of Artesia, were visitors in Hagerman Sunday.

Messrs. N. B. McCullough and G. E. Brake of Clovis were visiting in Artesia yesterday.

Mrs. R. L. Collins was in Artesia Tuesday visiting with her parents, Mr. and Mrs. S. G. White.

Mrs. Tom Propeck and daughter, Francille Perry, left last week for an extended stay in Dallas, Texas.

Frank Markl, local manager of the Mountain States Telephone Co., at Roswell was a visitor here Friday.

Mr. and Mrs. Grover, who have been here a number of times, came in from California the last of the week.

Mr. and Mrs. C. G. Mason and little daughter, Betty Jo, of Hagerman were Sunday guests at the home of Bert Bryan.

O. N. Wherrett, of Roswell, deputy income tax collector was attending to duties connected with his office here yesterday.

Luther Rideout and son, Garland, were called to Clarendon, Arkansas yesterday morning by the critical illness of Mr. Rideout's mother.

Dr. J. J. Clarke is attending the West Texas Chamber of Commerce convention which convenes in El Paso to-day for a three day session.

Mr. and Mrs. Swank and baby and Miss Emma Caraway were here from Lovington Sunday visiting Miss Caraway's parents, Mr. and Mrs. Jack Hastie.

Mr. and Mrs. Averill arrived from Del Rio, Texas, Monday to visit with their daughter, Mrs. Cecil Saltz. Mr. Saltz is connected with the Keiser Transportation Co.

Keith McCrary and family, of Childress, Texas, are motoring thru and are expected to arrive tomorrow for a visit with Mr. McCrary's parents, Judge and Mrs. G. U. McCrary.

Wayland Byrd returned last week from Wyoming, coming with some of the Keiser trucks. His parents are located in Oregon at present, but intend to locate in British Columbia eventually.

Perry Hill arrived from El Paso, Texas, Tuesday for a visit with his father, Fred Hill, and his friend, Cavitt Jackson. His mother, who is in a sanatorium in El Paso, is steadily growing worse.

Andy Anderson, arrived home yesterday from Brunswick, Missouri, where he completed a pharmacy course in the Bowen's Institute of Pharmacy. Andy has assumed his old position with the Mann Drug Co.

Mr. and Mrs. D. Cox, formerly of Artesia were here over the week end visiting their friends, Mr. and Mrs. W. A. Jones. On Monday in company with Mr. and Mrs. Jones and son, they made the trip through the Carlsbad Caverns.

Messrs. Ed Gage, Hugh Longwell, D. D. Bell, M. C. Bell and H. D. Guess all of Pinon were in Artesia Tuesday, transacting business connected with the Pinon-Avis Angora Goat Association. D. V. B. Arnold also of Pinon was attending to business matters here Monday.

Friends here will be interested to learn that Rev. C. C. Higbee, who has been living in El Paso the past year, received an appointment at the conference recently held at Marfa, Texas, to the charges at Crane and Iran, in the southern Texas oil field. The family will continue to live in El Paso.

Mr. and Mrs. Destree and two children and Mr. Destree's mother, were here last week visiting at the home of Alvin Payne. Mrs. Destree, Jr., is a sister of Mrs. Payne. They were on their way from their home at Fort Worth to El Paso. The Destrees were formerly residents here, Mr. Destree and his father were employed in the construction of the Ford garage we understand.

**Crystal Gasoline Stops Knocks Triangle Oil Co.**

Mr. and Mrs. Pete Lovng spent Monday in Hope.

C. W. Jones of Roswell was an Artesia visitor Monday.

Mrs. E. A. Paton and Mrs. H. F. Bliss were Carlsbad visitors Monday.

Doc. B. L. McLeer of Lakewood was a business visitor here Monday.

Jeff Hightower came in last night and will spend several days at home.

Frank Runyan, of Penasco was attending to business matters here Tuesday.

Mr. and Mrs. J. F. McMains and Mrs. Withers Sr., motored to Roswell Sunday afternoon.

Mr. and Mrs. G. M. Winans went to Roswell Monday, where they will be located for the present.

F. M. Jones arrived from Brown county, Texas, to spend the winter with his son, W. A. Jones, and family.

Ray Dunnett, of Tulsa, Oklahoma, former oil operator in the Artesia field was a business visitor here last week.

Mr. and Mrs. G. R. Brainard left Saturday for Temple, Texas, where Mr. Brainard planned to go through the clinic.

Mrs. Edson Jones visited in Carlsbad the first of the week with Mrs. Fred Westfall, who drove her home on Tuesday.

Dr. O. E. Puckett spent Tuesday in Artesia administering the second dose of diphtheria toxin anti-toxin to a number of school children.

Rev. and Mrs. W. A. Huffman of Roswell, were visiting friends here Tuesday. Rev. Huffman is the former pastor of the Nazarene church.

Dorris Ransbarger, "Fat" Naylor, Clyde Cobble and other members of the National Guard were in Carlsbad yesterday for their quarterly examination.

Mr. and Mrs. Neal Schuster left last week for a trip to Kansas City. From there they will go to Long Beach, California for a visit before returning here.

Mrs. Clay Lavis and two children will leave tomorrow for their home at Hurley, after a fortnight visit to her sister-in-law, Mrs. Charles Ransbarger and family.

Mamie Stroud, of Dayton, daughter of J. D. Terry, was stricken with acute indigestion Sunday evening and taken to a Carlsbad hospital. She is reported to be improving slowly.

Mr. and Mrs. W. B. Stanford, of Waco, Texas, arrive to-day for a short visit with E. B. Bullock and family. Mrs. Stanford is an aunt of Mr. Bullock and sister of Mrs. M. E. Bullock.

Mr. and Mrs. Smith, of Odessa, Texas, were the guests of Mr. and Mrs. J. H. Jones, Tuesday. Mrs. Thelma King, daughter of Mr. and Mrs. Jones accompanied them back to Odessa yesterday.

Mrs. Bradley, of Imperial, Texas, has been here the past ten days looking after gathering the apples on the Neville Muncy farm, having purchased the crop. Mrs. Bradley is starting in the hotel business at Imperial.

Miss Elsie Howe and Herbert Flossie motored over from El Paso Sunday and were accompanied home by Miss Howe's parents, Mr. and Mrs. C. B. Howe, who had been visiting another daughter, Mrs. Shirley Smith here for the past two weeks.

Dr. Esther Seale went to Roswell Sunday to spend a week visiting Mrs. K. L. Hestead, who was a sorority sister at the University at Albuquerque, and other friends. Tuesday morning Dr. Seale was the honor guest at a breakfast given by Mrs. Hestead and five other sorority sisters.

Gerald Damewood, of Lubbock, Texas, was in town Saturday and Monday visiting his brother, Paris Damewood, en route to and from Hope, where he visited his sister, Mrs. J. H. Bridgeman. Mrs. Hughes, mother of Mrs. Bridgeman, accompanied him home for a visit with his wife, who is her daughter.

Miss Katherine Ragsdale seems to be making splendid progress in her musical studies in Cincinnati. Last Wednesday she appeared upon the program at the dedication of the largest Y. M. C. A. in Cincinnati, singing three numbers. Her many friends are glad to learn of her success, which is evidenced by the fact that the Conservatory considered her singing good enough for her to appear at this great gathering.

Typewriter Ribbons—The Advocate

## FARM BOARD WILL AID COTTON GROWERS BY A HUGE FEDERAL LOAN

WASHINGTON, D. C. — As the first major step of its career, the federal farm board has worked out a plan for improving the present price of cotton and is prepared to take similar action on wheat under a scheme to be announced later.

The board is of the opinion that prevailing cotton prices are too low, and believes the solution lies in more orderly marketing of the year's crop. It is prepared to lend an unlimited amount of money to cotton growers, that they may hold their product off the market.

Analyzing the present cotton market, the board is of the opinion that open fall weather in the southern states has led to too rapid marketing, with world consumption meanwhile on a level equal to that of last year and the total supply of American cotton at a lesser stage than a year ago. More cotton, it believes, has been rushed into the market than it can temporarily absorb, with resulting depressed prices and lack of confidence in cotton values.

To assist the growers to hold back their crop and meanwhile meet their financial obligations the board proposes to lend to cotton cooperatives qualified as borrowers under the Capper-Volstead act, "sums sufficient to bring the total amount borrowed from all sources by such associations to 16 cents per pound on graded and classed cotton, basis middling seven-eighths inch staple, less proper deductions to cover freight charges."

In a statement announcing its plan the board pointed out that there is a cotton cooperative in every cotton growing state open to membership of every cotton farmer. The grower may join the cooperative, the statement continued, ship his cotton to its concentration point, and draw his advance after it has been graded and classified.

### LARGE CROWDS AT REVIVAL CAMPAIGN

Things are stirring down at the tent night after night as the "Little Whirlwind Evangelist" from the west coast continues to bombard sin and everything vile in Artesia and country side. The devil is certainly getting some hard blows night after night, as people are constrained to believe the gospel of Jesus Christ and sinners are getting ear and heart filled and soon "The Big Gusher" that is expected before the revival is over, will come in and glory will be flowing everywhere in Artesia. Saturday night a big night in attendance, and the evangelist preached a red hot sermon on the Jonahs of Artesia, everyone enjoyed many hearty laughs from the beginning to the end of the sermon. The evangelist Mack Wyatt in charge of the campaign promises to give some real thrillers this and next week, as follows: "The Meanest Man in Artesia," "Poor Old Rich Namaan of Artesia," "Artesia's Last Prayer Meeting," "Is Mussolini the Anti-Christ," "The United States in Prophecy" (on Saturday or Monday night), and other sermons that will stir men's and women's hearts for Christ.

### COMMITTEE.

## PETITIONS HIGHWAY DEPT. TO AID IN THE WEST HIGHWAY WORK

The Las Cruces-Cloudcroft-Lovington Highway Association through Z. B. Moon, president and J. S. Ward, secretary has petitioned the state highway department at Santa Fe to complete without delay the ten mile strip of road between Elk and Mayhill. The text of the petition follows:

October 21, 1929.  
To the Members of the State Highway Commission  
Santa Fe, New Mexico.  
Gentlemen:

In view of the importance of the highway from Las Cruces to Lovington, which road is fostered by the Las Cruces Cloudcroft, Lovington Highway Association;  
And whereas large expenditures have already been made by the State Highway Department and the forest service on the mountainous sections of this project, with work now under way in James canyon and need of considerable more money:

Whereas there yet remains for completion, one of the most important parts of this highway, namely that between Mayhill and Elk;

Whereas until the completion of this section, public travel must be restricted causing great inconvenience and a material loss in revenue to the state of New Mexico:

Therefore, be it resolved that this association petitions the State Highway Department to enter into a cooperative agreement with the U. S. Forest Service and the Bureau of Public Roads for the construction of this road between Mayhill and Elk, in Otero county, New Mexico. That this construction be with the least possible delay and that the finished road be made a part of the U. S. Forest Highway system.

It is further resolved that the

## 214 OIL AND GAS WELLS PRODUCING ON STATE LAND

SANTA FE—State Land Commissioner A. D. Crie has so adjusted the records of the land office so that daily an immediate conception of oil and gas development in the state may be quickly obtained in a few minutes reference to records.

For the first time in the history of the office, the officials are able to visualize quickly the oil and gas fields of the state as a unit.

The new records show 214 gas and oil wells now producing in New Mexico on state land, and from each one of them royalties are accruing to the common schools and higher educational institutions of the state.

On common school lands there are 71 producing wells, the University of New Mexico lands has 139 wells, the Agricultural College three and the Deaf and Dumb school one.

The Flynn Welch and Yates company has 53 wells operating which is the largest number by far, held by any company. Other companies which have opened up larger numbers of wells are: Ohio Oil Company 29; Texmore Oil and Gas 22; Three Sands Oil Company 16; Eastland Oil Company 9; Empire Gas and Fuel Co., Texas Production Company, and Williams Petroleum Company five each while other companies have wells ranged from one to four.

county commissioners of Otero county be asked to approve this petition and that a copy of the same be sent to the State Highway Commission and the U. S. Forest Supervisor of this district.

The Las Cruces-Cloudcroft-Lovington Highway Ass'n.  
Z. B. MOON, President.  
J. S. WARD, Secretary.

### FORTNIGHTLY BRIDGE CLUB

The night club of the Fortnightly Bridge club was held at the home of Mr. and Mrs. Fred Cole Friday evening. The Halloween motif was carried out in the decorations. Two course dinner was served 7:00 o'clock and a delightful evening was spent in playing bridge. The score for the men was made by C. R. Blocker and Mrs. Landis Feather, Mr. and Mrs. Henson and Mrs. Bruton of Ladd, Missouri.

### NEW PATENT GAS BURNER

Jack Cunningham, until recently proprietor of the Antlers Cafe, has patented a gas burner. Mr. Cunningham has been offered a large sum for his patent. The Antlers Cafe has been closed and Mr. Cunningham will devote his time to marketing the natural gas burner.

### LOSES TRUCK AND A LOAD OF COTTON BY LIGHTNING

Charles Phillips, Dayton farmer, had the misfortune to lose a truck and about 800 pounds of cotton by lightning last week.

### FIRE AT SYFERD RESIDENCE

Prompt work on the part of L. Syferd averted what might have been a serious fire, when a can of gasoline ignited at the Syferd residence. The blaze was extinguished without the aid of the fire department.

### ART EXHIBIT

Art lovers should not fail to see the exhibit of New Mexico and southwestern pictures by the noted artist Carl Redin, which will be exhibited at the I. O. O. F. hall Wednesday, November 6th.
