Wilde, Troy Olds, Claud Ruby, and Minor Huffman.

FIRST TRAIN OVER THE NEW RAILROAD PULLS INTO JAL ON FRIDAY

An important event for Lea county, an eastern rail connection passed without a celebration. Friday, the Texas and New Mexico line reached Jal and the first train pulled into the new oil town. There was no demonstration, however. Rails are being laid to north Eunice, the next stop, a distance of 22 miles. Spurs have also been laid out at the Texas pipe line camp, two miles south of Jal. Construction on the new road is expected to be pushed rapidly to the present terminus of the Texas-New Mexico line, Lovington, the county seat.

SIXTY ATTEND G.P.A. BANQUET THURSDAY EVE IN ROOF GARDEN

Members of the Artesia Game Protective Association heard several prominent visitors discuss the propagation of wild life in New Mexico at the annual banquet in the roof garden of the Artesia hotel Thursday evening. Plates were set for about sixty members and guests. In the election of officers, following the banquet, M. W. Evans was chosen president by acclamation. Wm. Linell, former secretary of the local association was re-elected to this position, which was combined with the office of treasurer. Senator Z. B. Moon gave the address of welcome. Fred Sherman, of Deming, president of the New Mexico Game Protective Association, told of the activities of the State Association relating a little of the early history of the association, which was organized at Albuquerque fifteen years ago. Mr. Sherman stressed the necessity of giving the game commission more authority in matters relating to the proper operation of this department.

E. L. Perry of Santa Fe, state game warden, made a short talk on some of the duties connected with his office. Later Mr. Perry made a few remarks relative to the survey of the Oliver Lee pasture, near Alamogordo before the opening of the big game season. This pasture has been largely closed to hunting in the past and it is indicated that sportsmen will make an effort to have it thrown open for hunting big game. W. A. (Pete) Losey of Hagerman, member of the state game commission, also made a few general remarks relative to the work of the commission.

Senator Z. B. Moon, gave a short discussion on the possibility of passing legislation to give the game commission more authority. The fact that the 1929 legislature failed to provide this power has served to handicap the commission in many respects. Dempsey Lewis, fiddler from Crow flat and Lee Savioe, of Artesia, playing the guitar, furnished a diversion (Continued on last page, column 3)

THE EDDY COUNTY TAX APPRAISERS START WORK HERE TUESDAY

The Eddy county tax appraisers, Messrs. Allen Tipton, of Otis, R. H. Westaway, of Carlsbad, deputy tax assessor and A. C. Kimbrough, of Artesia, Tuesday started their labors, appraising the property of this district. They expect to be here some two or three weeks.

Under the new law the board of appraisers have 74 days to complete their work. Except in a few instances, the board will not be able to view all of the property in the thirty-one counties within the prescribed time. In Eddy county the local board hopes to be able to adjust the most important property in this time. Appraisers are required to visit and view each piece of property in order to arrive at a fair valuation.

The Eddy county board cannot expect to attain the maximum results the first year, it will take several years to properly adjust the new system to local conditions, according to R. H. Westaway. "We have all heard the bugaboo that Eddy county may pay more than its share of the state taxes," Mr. Westaway says, "But we are going to put forth our best efforts to see that Eddy county pays only its proportionate share." In speaking of the problems connected with the work of appraisers Mr. Westaway says that every community has a little different local condition, which makes it very difficult to arrive at a fair valuation.

LESLIE HALL IS BURNED TO DEATH AT PAMPA TEXAS JANUARY 29TH

Son Of Artesia Resident Is Burned To Death In A Mysterious Fire—Is Buried At Pampa, Texas Saturday.

Leslie Hall, a former resident of Artesia, who was employed at the Phillips Petroleum Co., casinghead plant during its construction, was burned to death at his home in Pampa, January 29th shortly before 12:00 midnight according to word received here by his brother, William Hall, of the Phillips camp, Thursday morning.

Hall had been living alone in a two-room shack for the last week, since the departure of his brother, Floyd Hall. Neighbors reported that he had seen a light in the house about 11:30 on the night of the tragedy, and that there had been an explosion before the building burst into flames. It was testified at the inquest, however, that a can of cleaning fluid had been kept near the stove. The charred body of Hall was discovered when firemen and others overturned debris and burned timber. Mr. Hall was construction foreman of the White Eagle Oil Co., operating near Pampa. Previous to his recent connection with the White Eagle he had been employed by the Phillips Petroleum Co., for four or five years. F. H. Hall, father of the deceased man, said here Tuesday that his son might have been murdered and then burned. It was not fully determined whether the unfortunate man was trapped in the burning house or whether he was murdered. Mr. Hall stated.

Funeral services were held at Pampa, Texas, Saturday. The deceased is survived by a father, F. H. Hall, of Artesia, a mother, Mrs. J. P. Morgan, of Waurika, Oklahoma, four brothers, Jessie, William and Noble Hall of Artesia and Floyd Hall, of Pampa, and four sisters, Mrs. Florence Murphey and Miss Nora Hall, of Oklahoma City, Oklahoma, Miss Beulah Hall, of Waurika, Oklahoma and Miss Ollie Hall, of Artesia.

NEW MANAGER TURKEY TRACK RANCH HERE

Edd Carr, who has served the Turkey Track ranch as manager for several years, has resigned his position effective this month. He is succeeded by Dwight Craig, formerly of Gallup. Mr. Carr, it is understood has accepted a position with the Cattle Sanitary Board as range inspector. Mr. Carr, is at present supervising the erection of a filling station, located on South First street, south of the Alfalfa Mill property.

MEMBER 100 CAR CLUB

E. O. Jones, salesman for the Jackson-Bolton Chevrolet Co., has recently been made a member of the 100 Car Club, having sold a hundred Chevrolets during the year 1929. There were only forty other salesmen in the El Paso zone to attain this honor.

LIGHTS A MATCH TO SEE IF GAS CAN LEAKS

Bud Ross of the Cottonwood community, farm hand, employed by F. L. Wilson, Sunday night lighted a match to see if gasoline was leaking and is wearing a bandage on his face as result of an explosion. According to the story told here of the accident, Mr. Ross was transferring gasoline into his car with a can. The can, he thought, was leaking and lighted a match to see. His injuries are not regarded as serious.

CLEAN UP CAMPAIGN FOR ARTESIA WILL BE MADE AT EARLY DATE

Dr. O. E. Puckett, county health officer, announces that arrangements are being made to stage a clean up campaign in Artesia at an early date, the exact time will be made known later. Residents will not only be requested to clean up all rubbish and trash in the alleys and back yards, but are asked to give attention to the sanitation conditions also. The county health officer working in conjunction with Dr. W. C. Doss, state veterinary inspector will make an inspection of all dairy plants selling milk, soon. Tuberculosis vaccine will be administered by Dr. Doss to prevent the spread of tuberculosis in this community. Dr. Doss will also make a physical examination of all milk cows.

MAN IDENTIFIED HERE CONFESSES TO LATE POST OFFICE ROBBERY

The Bank Officials Identify Fierro, Who Makes Confession Later Implicating Another Mexican In The Robbery.

Roswell officers have solved the mystery connected with a series of post office box robberies, which have occurred in Roswell during the past month. Benito Fierro, arrested Monday evening in Roswell, was identified by Fred Cole, assistant cashier of the Citizens State Bank Tuesday morning as the person who attempted to cash a United States government check made payable to Santiago R. M. Gonzales, here Monday afternoon.

Chief of Police T. U. Alford, of Roswell was interviewed here Tuesday morning by an Advocate representative and gave a short history of the series of robberies, which he said had been perpetrated over a period of a month. It seems that Fierro and Gonzales shared the same post office box for a time. Later Fierro discontinued to use the box with Gonzales and it developed that Gonzales' key was missing. The box was opened on several occasions and at different times, two government compensation checks were taken. Thursday the second check was removed from the box and officers started an investigation, notifying the banks of this section. Monday evening about 2 p. m. a man, who said his name was Gonzales appeared at the window of the Citizens State Bank and presented a government check for \$100. Assistant Cashier Fred Cole, made a pretense of getting an O. K. on the check from Cashier C. E. Mann, while Bert Shipp, bookkeeper was dispatched to find an officer. The bank officials held the Mexican in the bank for about ten minutes and Mr. Cole, stepped out the side door, thinking that he might see an officer. Fierro followed him out and demanded the check, which was refused. About this time, Mr. Parker approached from the opposite side of the street and Fierro mistaking him for an officer, fled down an alley.

Fierro was arrested in Roswell Monday night and bought back for identification Tuesday morning. Fierro will face a charge of robbing a United States post office. Officers say he has already served one sentence in the penitentiary and was indicted several months ago on a burglary charge in Colorado, but managed to beat the case.

Reports from Roswell say that Fierro made a confession to Chaves county officers, Tuesday night, after being returned to Roswell. Fierro admitted that he took two government checks from the Roswell post office. In his confession Fierro also implicated Lucas Trujillo, who was also arrested on the same charge. Trujillo was arrested in a vacant house by Chief T. U. Alford, where he had been hiding.

SIX EDDY COUNTY PRISONERS GO TO PEN

Sheriff Joe Johns of Carlsbad and Ross Conner of Artesia deputy sheriff, drove over to Santa Fe, Monday with six prisoners for the state penitentiary. They returned Tuesday. Mr. Conner reports a heavy snow just this side of Santa Fe.

RESURFACING TWO MILES

A state highway crew has been engaged in resurfacing two miles of the highway south of town during the past week. "Because the original surfacing was damp when first placed down, it soon worked into ridges. The crew has plowed up this surfacing and reworked it to eliminate the rough spots."

THE LANNING FARM IS SOLD TO A. T. WOODS OF SAN ANTONIO, TEX.

It was learned here this morning that the S. A. Lanning farm, immediately east of town had been sold to Albert T. Woods of San Antonio, Texas, president of the Pecos Valley Gas Co. The Lanning farm consisting of 600 acres adjoins the Artesia city limits on the east. The consideration was not made known. It is understood that the new owner plans a number of new improvements. Mr. Lanning said this morning that he had made no plans for the future. The Lanning family expect to spend several weeks visiting in Kansas and California, but have not decided whether they will make their home here or locate elsewhere. Typewriters for rent at Advocate.

THE OIL MEN PLAN TO CREATE INTEREST IN STATE ASSOCIATION

Plans were made to increase the interest and membership in the New Mexico Oil Men's Association at an executive session held at the office of William Dooley in the Artesia hotel, Thursday evening. The board appointed the seventh executive committeeman and deferred the appointment of the two remaining members until a later date. J. T. Cusack of Roswell, with the Skelly Oil Co., was the seventh member to be appointed. It was indicated that the other members of the committee would be appointed from the northern part of the state.

MONDAY NIGHT IS THE REGULAR MEETING OF CHAMBER COMMERCE

Next Monday evening will be the regular meeting of the Chamber of Commerce. All members are invited to attend the session which will be held in the office of J. S. Ward. There has been an increasing interest shown in the work of the Chamber of Commerce, especially with reference to the employment of a full time secretary. A preliminary survey made of the business district reveals that practically all of the business men are favorable toward the idea of a full time man and sufficient funds have been subscribed to carry on the work. Negotiations are expected to be opened shortly for the employment of a secretary.

An interesting feature of the directors session Monday evening was the discussion of the coming Yard and Garden Contest. Chamber of Commerce officials are making plans to stress one event in the contest, that of planting more trees. It is hoped that sufficient interest may be created to cause the planting of several hundred trees before the growing season begins. The Yard and Garden Contest, sponsored by the Artesia Women's Club and the Chamber of Commerce will be made an annual affair, according to an announcement made at the close of the contest last season.

Directors also discussed the feasibility of staging a clean up campaign sometime this spring, special attention will be given the business district.

PLANTS SIX MORE CHINESE PHEASANTS

Yesterday M. W. Evans planted six Chinese pheasants on the C. A. P. ranch southeast of town. The pheasants were received from the state game department.

FIRE AT CONTINENTAL REFINERY LAST NITE

A leaky still line at the Continental refinery caused a small loss by a blaze last night, but workmen were soon able to bring the fire under control with a steam line.

BIG ROYALTY SALE IS RECENTLY MADE IN THE BOWERS NO.1 SECTOR

The sale of leases and royalties continue active in the vicinity of the Bowers No. 1 of the Humble Oil and Refining Co., the state's largest well, about three miles northwest of Hobbs. A deal was recently consummated through Tate Brothers of Lovington, whereby the Ohio Fuel Oil Co., purchased thirteen and two-thirds royalty acres or approximately a thirteenth interest in 160 acres of patented land located under the NE 1/4 sec. 31-18-38. The consideration was \$900.00 per acre. The sale is expected to partly fix royalty values in this section.

BABY SWALLOWS NICKEL IS RUSHED TO HOSPITAL

The baby son of Mr. and Mrs. Roscoe Kile swallowed a nickel yesterday. The coin was too large to pass down the oesophagus readily and the child was strangling when his mother pushed it down. It lodged in the bottom of the throat, where it was located by X-Ray and could not be moved further. The parents rushed over to an El Paso hospital last night, and it was thought that it could be successfully removed, necessary instruments being available there. Dr. Stroup accompanied them to El Paso. Woodstock Typewriters for sale at The Advocate.

Jas. P. Jones A Pioneer of This Section Passes Away

Funeral Services To-day In The Rocky Arroyo Community—Settled At Rocky In Pioneer Days In Year Of 1867.

Artesia friends to-day mourn the passing of Jim Jones pioneer resident of the Rocky Arroyo section. The Carlsbad Current-Argus carries the following account of his life, which may be of interest to local people who knew the Jones family.

Another chapter in frontier history of this country was closed Wednesday morning when James P. (Jim) Jones, familiarly known as "Uncle Jim" died at his Rocky Arroyo home, at 9:30 o'clock. He was 73 years of age. Death was due to cancer trouble. Funeral services were held this morning at 10:00 a. m. at the little Rocky Arroyo cemetery, where the family is represented, the service being in charge of Rev. J. O. Cox.

Jim Jones has been for over a half century one of the picturesque characters of this part of the state, having shared in its frontier life. He was a typical cowman, generous, whole hearted in everything he did, and was once wealthy in the cattle industry. The Jones family came into this section from Virginia in 1867, traveling by ox team and covered wagon. They stopped in Pierce Canyon, on the east side of the Pecos near Lov- ing. Here John Jones lies buried today in a grave that every cowboy has helped to keep in good condition. His headstone is of hard sandstone carved with rasp and knife.

Jim Jones occupied the first dug-out in the vanished frontier settlement of Seven Rivers, north of Carlsbad, and was one of the band of pioneers who drove the Indians out of Rocky Arroyo, to take possession of the fertile watered lands. That community has been the Jones home to this day.

He is credited with naming, or being among those who named, Last Chance Canyon and Sitting Bull Falls, when the Indians were driven there.

It is said he knew Geronimo in the days when General Crook forced that noted chief into the Guadalupe and that he knew well the Apache chief, Victoria. He was one of the chief witnesses in the Indian treaty with Chief Quideade.

He and his brother John were close friends of Billy the Kid and were active in the Lincoln County War. It is stated that it was Jim Jones that fired into the barricade of the McSwain group at the last staged battle of that cattle war. The whole membership of the family are associated with the early days along the Pecos and ridges of the Guadalupe.

There were nine brothers of the Jones boys: Frank, Sam and Will are still located on Rocky, Thomas E. Bruce and C. N., are living in Arizona. John and Henry have passed into history. Mrs. Jim Jones died about thirty years ago.

P. V. GAS CO. TO USE GAS FROM LEONARD AND LEVERS LEASE

The Pecos Valley Gas Co., has recently entered into a contract with Leonard and Levers, Roswell oil operators to use the gas from the State No. 1 well in the NW SE sec. 21-17-29, recently completed at 2,383 feet. Another location has been made approximately 1,000 feet northwest of the original well, known as the State No. 2. Additional wells will be completed in this area until the accumulated flow reaches a total of 15,000,000 cubic feet. The gas from the Leonard and Levers lease will be used as a reserve supply to care for any emergency that may arise, officials of the Pecos Valley Gas Co., announced here Tuesday. The State No. 1 of the Leonard and Levers was drilled to a depth of 3,500 feet. Workmen plugged the hole back to the gas sand found at 2,382-2,383 feet, after the well failed to materialize as a commercial oil well. The flow of this well is said to have increased a million feet after being placed on production.

TELEPHONE NO. 7

THE NEW ARTESIA HOTEL

Business men may be interested to learn of the attitude taken by the two Roswell newspapers with reference to the new Artesia hotel. The Roswell Record says:

"The new hotel at Artesia is not only a fine building but it is really finely furnished. Lobby and dining room are handsomely equipped, but it seems that in the bed rooms unusual effort has been expended to make guests comfortable and satisfied. Each room is furnished with fine equipment.

Manager Wallingford is to be congratulated upon the condition of his hotel and Artesia must be highly gratified over the way in which the new enterprise has started."

A few days previous to the Record article, the other Roswell paper had a four or five line comment which was to the effect that Artesia could not expect to build a town around a big hotel. This was the reason why the institution went into the hands of the receiver. A rather adverse criticism for a paper to make and yet hope to have a few subscribers left in the community.

NEW MEXICO'S CROP PRODUCTION (The Earth)

Thirty years ago the production of crops in New Mexico was small, the leading industry being livestock. The census of 1899 showed that the total value of all crops was \$3,065,000 according to Dr. R. F. Hare, federal agricultural statistician. By 1909 the crop value had increased to 8,922,000. Since then there has been considerable development. It is estimated that the value of the crops produced in the state in 1929 will be more than \$40,000,000. During the last twenty years a number of new crops have been introduced into the state, including cotton, grain sorghums, broomcorn and other field crops. Other crops formerly raised only for home use, have become commercial, including alfalfa, beans, Indian corn, hard spring and winter wheat and a number of garden crops including sweet potatoes, cantaloupe, onions, tomatoes, lettuce and cauliflower. New sections including the eastern plains have been opened for development by the construction of railway lines. The plains still offer splendid opportunities for further development and continued increase in the production of winter wheat, Indian corn, kafir and other grain sorghums, broomcorn, hay and forage crops. There also is opportunity for further development of irrigation along the great river systems of the Rio Grande, the San Juan, the Pecos, the Canadian and the Gila, also in a number of shallow water belts. Investigations of probable irrigation projects have been carried on during the last few years by the state engineer. It is possible to increase the irrigated area greatly by construction of new irrigation works. The year 1929 saw considerable development and an increase in the cultivated area and also better production per acre, due to improved farming methods. The year 1930 promises to set a new record in production.

THE SURVIVAL OF THE FITTEST

The survival of the fittest has been the rule in the business and professional world for many years. The merchant who failed to keep up with modern methods and who permitted his overhead to grow out of proportion, or who, through the false ideas of economy, has refused to advertise or employ modern merchandising methods, is either out of business or is a second rater. The professional man who has failed to keep up with his studies and clings to old methods and ideas, wears a frazzled coat and is employed only by those who cannot afford to pay for real service. There was a time when failures at everything else could make a living on the farm. Farming has now reached a period in its history when the old rule of "The survival of the fittest," applies. We see the rule at work every week. Farmers who are clinging to old methods, one crop farmers, the kind that follow methods of their grandfathers, have a low standard of living; their farm is mortgaged and their buildings and fences are in a dilapidated condition. Many of them have lost their farms and more are due to pass into the hands of strangers. They can't make both ends meet by following the practices of grandpap; neither can they longer make a decent living by working only half time. Their places will be taken by men, some of them now boys, who readily acknowledge that they do not know everything about farming and its related lines, and who are willing to listen, read and learn.—Farm and Ranch.

The federal farm board recently sent a second warning to the cotton growers to cut down acreage another year.

THE AMERICAN SPIRIT

We are requested to re-print the following editorial, which appeared in the Tulsa, (Oklahoma) Tribune, at the instance of the meeting of the independent oil operators in Tulsa last week:

The spirit of the Boston tea party, the spirit of the Americans at Tripoli, the spirit of America lives again in Tulsa to-day.

The independent oil producers of five states are organizing to throw off the shackles of despotic price-fixing, to call a halt on the payment of tribute to unfair competition, to demand their rights as an American industry. It is a perfect demonstration of Americanism, a revolution against un-American tactics and governmental policies. It is a revolution in which every citizen of an oil producing state and every lover of American principles of government should enlist.

There is no such thing as equality of opportunity for the independent oil producers of America at this time. The Standard Oil Co., has destroyed it. With the force of its size and the crushing pressure of its importations of foreign oil, it has beaten the independent producer into economic prostration. It has taken away his profits and his rights to run his own business. It is rapidly forcing him out of existence as an oil operator.

Every old-producing state is suffering thousands of dollars losses daily as a result of the Standard's most recent price cut. These losses are felt by every business man and every wage earner in every oil state. And the Standard Oil Co., has not passed on the the consumers of petroleum products one cent that it has so unfairly taken from the oil states.

On the contrary the Standard Oil Co., is robbing the whole American people. It is robbing them of the right to look to their government for fair treatment. It is undermining their faith in the things upon which our government and our economic superstructure have been built.

The domestic oil producers' fight for an oil tariff, as a means to regaining their slipping foothold in the domestic oil market, is a fight not only for their own rights, but for the rights of all the people. If the United States congress bends no longer to the will of the Standard Oil Co., in this matter, the days of American independence are numbered. It is time for a revolution against business dictatorship and political discrimination. It is time the nation was stirred by the spirit that led the independent oil producers to Tulsa.

The citizens of Tulsa should follow up the oil meeting with a mass meeting of their own, as an inspiration for the people of other oil sections. Let congress know the battle is on, the battle to save America for Americans.

THE TAX SITUATION

We shall soon know, whether the method of collecting taxes under the new law has advantages over the old. There will be considerable grief attached to the method of assessing property at 100 per cent of its valuation, such as the board of appraisers were told to do at a recent meeting in Santa Fe, at least until all phases of the new method has time to become adjusted. We can at least enjoy a decreased rate, but this we are afraid will not offset higher taxes. The big problem comes in getting the appraisers in all counties to follow the 100 per cent rule and in assessing the big and little fellows on the same basis.

We are told there will be no legal recourse except through the state tax commission or the board of appraisers. In some counties it has been a popular pass time to go into court and get the values reduced or refuse to pay taxes and get a compromise.

Another thing we hope to see eventually remedied is the delinquent tax law, which will permit a private buyer to come in and purchase delinquent property without too much red tape. There are many vacant lots in Artesia that would be placed on the tax rolls if a purchaser were able to get a title without paying more back taxes than the property is worth. Even though the county and state sustains a considerable loss, they could well afford to see the property pass to a private individuals and be placed on the tax rolls.

GREEN GRASS AND BLUE SKY

"The other fellow's grass always looks the greenest," but don't jump at conclusions about his job. If he handles it calmly and efficiently without apparent effort, it doesn't necessarily follow that it's a snap.

Very often years of training and constant thought have eliminated waste of effort until to the casual observer it seems simplicity itself. There is a story of a certain sea captain and his chief engineer who were constantly debating which the ship could move more easily dispense with, until one day they agreed to swap places. The chief ascended to the bridge and the skipper dived into the engine room. After a couple of hours the captain suddenly appeared on deck covered with oil and soot. One eye was swollen shut and he was very much worse for wear.

"Chief!" he called, wildly beckoning with a monkey wrench. "You'll have to come down here at once. I can't make her go."

"Of course you can't," said the chief, calmly removing his pipe from his mouth. "She's ashore."—Exchange.

BAG LIMIT REDUCED NEXT SEASON

The secretary of agriculture has announced a reduction in the bag limit for waterfowls next season. Drouth and reclamation work reduced production, and with the present bag limit we are killing more ducks and geese than survive the dangers of the hatching and brooding periods. The report issued by the department places the bag limit on ducks at 15 per day. This is a reduction from 25. The limit on geese has been reduced from 8 to 4 and possession limit to 30 ducks and 8 geese.

It is believed that by reducing the limit our water fowls will have the opportunity to increase.

Some of the democrats over the state are getting a little consolation out of the apparent split in the state republican ranks, but don't fool yourselves boys, the republicans may be split up till the morning of the election, but not after. They have been successful in too many campaigns.

Fiction is less strange than truth, because we meet it oftener.

Learn to labor while you wait if you would work wonders.

INSIDE INFORMATION

Cut sprouting broccoli lengthwise after trimming off the heavy leaves and tough ends of the stalks. It will then cook tender more quickly and evenly, says the Bureau of Home Economics.

Domestic or hutch raised rabbits resemble chicken in flavor and may be cooked in most of the ways in which chicken is cooked. These rabbits are not subject to game laws and may be eaten at any season, according to the biological survey.

A roast meat thermometer eliminates guess work by indicating exactly when a piece of meat has reached the rare, medium, or well-done stage. It can be used for any thick roast—beef, lamb, pork, ham, or veal. The bureau of home economics recommends its use in all recent publications on meat cookery.

Some practical all-in-one winter play suits for children of pre-school age have been designed recently by the bureau of home economics. They are made of warm fleecy or rain-proofed fabrics, and have many new features to aid self dressing and to provide freedom for normal out-of-doors activities.

A radio set in the breakfast alcove permits the homemaker to hear music and other entertainment as she goes on with her work, suggests the bureau of home economics on one of the kitchen convenience slides prepared in cooperation with the extension service. A table in the alcove near the radio is convenient for note-taking on practical household talks such as "Aunt Sammy's" chats or the Household Calendar of the noon network of the U. S. Department of Agriculture.

MUST PLAN ON IF FARM MAINTAINED

plans their production particularly in view of prices of each product next marketing season. Expenditures carefully in incomes, according to the report for 1930 of the Bureau of Agriculture, United States Department of Agriculture in cooperation with the extension service states and the board.

market may improve, but it is unlikely for farm products and fall of 1930 will during last summer to the report. The wheat situation indicate that prices of the United States crop will be much different from the 1929 crop. Corn crop would yield than in 1929 in view of lower feeding

and production of cotton five years, excepting at comparatively high prices certain that any increase would be unwise. Raisers contemplating production are faced with a tendency to increase of cattle and with a drop in prices over the year. The underlying dairy market as bad as would present butter prices, dry herds are closely followed by heifers sent to market. There will be a further increase in size of dairy herds in

point in the expansion of the industry has been reached. It is unlikely that prices for hogs can be maintained at the levels of the last three years. Some reduction in production is expected by the bureau. Demand is likely that demand will be improved by that time. The assumption of mohair is that it will increase but not enough to meet demand at high levels. Domestic consumption of mohair is now about 100,000 pounds. Outlook for poultry and justifies any increase in production of chickens over 1929, but meat, unless production to face the position in price levels.

production of apples to increase gradually over several years and are justified only if the production of high yields are maintained. Rabbits are likely to attack the bark of growing trees when snows cut off their usual food supply. Young trees up to 5 and 6 years old are subject to injury. If rabbits are abundant in the vicinity of a young orchard it is important that the trees be protected. The best method is to place cylinders of woven wire around the trees. Poultry netting of 1 inch mesh, 18 inches high and cut into 1 foot lengths, is satisfactory. In states where rabbits are not protected by law they can be controlled by a bait of apple tree prunings coated with a poisoned starch-paste and scattered about the orchard. This bait is less dangerous to domestic animals than are grain baits. The starch-paste is prepared by stirring a tablespoon of laundry starch—dissolved in a little cold water—into 1 pint of boiling water. Add two-thirds cup of syrup or molasses, and then stir in 1 ounce of powdered strychnine, which has been previously mixed with one ounce of bicarbonate of soda. This mixture may be applied to the apple twigs either by dipping or by means of a paint brush.

Before investing in a going concern, ascertain which way it is going. Visitor: "What's up? Had a bad day." Financier: "Yes. I've lost over \$5,000, and the worst of it is that \$20 of it was my own money!" Typewriters for rent at Advocate.

Three "ingredients" go into every animal grown and marketed—breeding, feeding and care. Care, though the least expensive, is the one often most neglected.

If dairy cows are kept in the stable during the winter, they should be watered two or three times a day, or drinking vessels be kept in the stable so the cows can drink whenever they want to. In very cold weather it is well to heat the water to at least 10° or 15° F. above freezing.

None of the imported alfalfas tested thus far are better than the domestic strains for any part of the United States, according to the bureau of plant industry, U. S. Department of Agriculture, with the possible exception of areas where bacterial wilt is prevalent.

Silage and roots furnish good feed for the sheep flock and are especially useful in keeping ewes in condition during the winter. Too free use of roots for ewes in lamb sometimes increases the losses of young lambs, however, and the exclusive use of silage as a roughage has been shown to be unsafe for the ewes or the lambs to be dropped.

Johnson grass has such a good reputation in the south as a hay grass that the U. S. Department of Agriculture gets many inquiries about its possible success in the northern states. Johnson grass is not recommended as a northern hay grass, as it usually behaves as an annual and winter kills in latitudes north of 38°. This grass also requires a rich soil and is more unsatisfactory on poor, thin soil in the north than it is in the south.

The business farmer who wants to keep complete farm cost accounts should make four kinds of records, says the bureau of agricultural economics, U. S. Department of Agriculture. These are an inventory at the beginning and end of the year; an account of all money paid out or received, and of all purchases or sales on credit; a record of feeds consumed, crop supplies used, and crop yields; and a record of all work done by men, horses, tractor, or other power during the year.

Rabbits are likely to attack the bark of growing trees when snows cut off their usual food supply. Young trees up to 5 and 6 years old are subject to injury. If rabbits are abundant in the vicinity of a young orchard it is important that the trees be protected. The best method is to place cylinders of woven wire around the trees. Poultry netting of 1 inch mesh, 18 inches high and cut into 1 foot lengths, is satisfactory. In states where rabbits are not protected by law they can be controlled by a bait of apple tree prunings coated with a poisoned starch-paste and scattered about the orchard. This bait is less dangerous to domestic animals than are grain baits. The starch-paste is prepared by stirring a tablespoon of laundry starch—dissolved in a little cold water—into 1 pint of boiling water. Add two-thirds cup of syrup or molasses, and then stir in 1 ounce of powdered strychnine, which has been previously mixed with one ounce of bicarbonate of soda. This mixture may be applied to the apple twigs either by dipping or by means of a paint brush.

Before investing in a going concern, ascertain which way it is going.

WM. H. TAFT MONDAY RESIGNED POST CHIEF JUSTICE OF THE U. S.

WASHINGTON, D. C. — William Howard Taft, broken in health by years of labor for the nation, has resigned the exalted post of Chief Justice of the United States.

Through his son, Robert A. Taft, he submitted his resignation Monday to President Hoover while he himself prepared to return to Washington from Asheville, N. C., where he went several weeks ago to recuperate from a near breakdown.

Although the resignation came suddenly, so far as the public at large was concerned, those in the inner circle of the supreme court had been expecting for several days that the former president would be compelled to give up his active duties on the bench.

He had seemed worn and worried for weeks and it appeared to be only a matter of time when a successor should be named.

President Hoover Monday nominated Charles Evans Hughes as Chief Justice of the United States, succeeding William Howard Taft, whose resignation was accepted.

The nomination was made a few hours after the resignation of Mr. Taft was received by the president.

Mr. Hughes resigned as a justice of the supreme court in 1916 to become the presidential nominee of the republican party, but lost in the election to Woodrow Wilson. Mr. Hughes is now in New York City.

An old lady in church was seen to bow whenever the name of Satan was mentioned.

One day the minister met her and asked why she did so.

"Well," she replied, "politeness costs nothing, and—you never know!"

COURTESY EXPERIMENT SHOWS INCREASE IN AVERAGE PURCHASE

The Darnell Service reports the experiment of a hardware store, owner to determine the part played by extra courtesy in increasing sales. One day, when employees, following instructions, waited on customers with only ordinary courtesy, not accompanying them to the door, making further suggestions, or going out of their way to please them, the average sales amounted to 28 cents. The clerks were instructed to show such extra courtesies the following day as taking the customer to the door, calling him by name, showing interest in the purchase, and making a special effort to find the exact article to fit the need. The resulting average purchase is reported to have been 90 cents.—Exchange.

KOB POWER INCREASED

KOB radio station of the New Mexico College of A and M. A. was placed on the 20,000 watt basis February 1, according to Professor Carroon, director.

The station, which has been operating on a 10,000 watt basis, has received from the Federal Radio Commission, its license to increase its power.

PORCH FROCKS

\$1.79

This year our Porch Frock Event is of special significance to every woman, for in addition to their utility around the home, the styles and fabrics are so smart and new as to make these frocks appropriate for almost any occasion. Thrifty-wise women will be seen wearing them to market, to the country club and to parties, all Summer long.

You may choose from many patterns and designs—each one absolutely fast color—neither soap nor brilliant sunshine will dim their fresh beauty. Seams are closely stitched and hems turned and finished—not basted. And their generous length follows the line of all smart new dresses—well below the knee.

Party frock . . . porch dress and a smart ensemble . . . ALL IN ONE

Choose the porch frock you like best. Make a bright little jacket to wear with it—we have many pretty prints very reasonably priced. Then with a clever little hat and a pair of our 98c full-fashioned silk hose, your costume is complete and it cost much less than you have often paid for a dress alone.

Social Activities

WOMEN'S CLUB LUNCHEON

An outstanding event in the club year was the luncheon given by the club yesterday at the home of Mrs. S. E. Ferree at one o'clock. It was a blind covered dish luncheon, cafeteria style, and was a most successful affair of its kind. If the menu had been planned it could scarcely have been more satisfactory for there was a great abundance of attractive and appetizing food, which was heartily enjoyed by a large company of members and the few guests present.

A very worthwhile program followed the luncheon and began with a group of vocal solos by Rev. Scoggins, with Mrs. Scoggins accompanying. Mr. Scoggins has a fine voice and his singing was much appreciated. Later he addressed the club upon the subject, "The Youth of Today." His talk was a thoughtful and reasonable discussion of this important subject, embodying a comparison of the environment and character of the youth of to-day with the youth of the recent past and the responsibility of present day adults for the environment in which youth finds itself, which is conceded to be the most complicated and difficult in all history. There was food for reflection and helpful thought in the address which commanded the closest attention of the listeners.

The last number on the program of this interesting day was the business session during which two old members, Mesdames J. P. Lowry and Fred Brainard, were re-instated and two new members, Mesdames J. C. Floore and Elzie Swift, were admitted. The club voted to join with the Chamber of Commerce in a Yard and Garden contest again this year. Mrs. G. R. Brainard, state treasurer, gave a brief report of the Executive Board meeting, at which she was present in Alamogordo last Saturday. The next meeting will be a recital given by Mrs. M. A. Corbin on the 19th, the place to be announced later.

In addition to Rev. and Mrs. Scoggins, two other guests, Prof. Kerr and Mrs. Anna Hadley, were numbered among the forty persons present at the luncheon.

BIRTHDAY PARTY

Monday was Albert Linell's fifth birthday anniversary and his mother, Mrs. Will Linell, invited a number of his little friends to help him celebrate, the mothers and little brothers and sisters being included. St. Valentine furnished the motif for decorations, a large brilliant heart surmounted by a lovely birthday cake with five candles, forming a brilliant centerpiece for the dining table, at which the children were served with delicious refreshments. The children invited especially for Albert were: Bobby Feather, Shirley Watson, Sibyl Pior, Margaret Attebery, Christine Anderson, Andre Bulot, Wanda Story, Lewis Story, Jr., and Louis Staerker.

MISS BERA CROSBY HONORED

The Junior class of which Miss Bera Crosby was a member gave her a handkerchief "shower" in the Junior Home room last Thursday morning prior to her leaving for State College on Saturday with her parents who are locating there.

Miss Crosby was also the honoree at an enjoyable party given for her on Friday evening at the home of Miss Katherine Filbert. The evening was spent delightfully with games and light refreshments were served.

MRS. RICHARDS MAKING VISIT TO AUXILIARIES

Mrs. Albert Richards, department president of the American Legion Auxiliary, left Tuesday on an official trip to the southwestern and northwestern districts of the state. She went first to Las Cruces, where she joined the party of Commander Dan Vaughan, of Las Cruces, who in company with the national vice-commander and the national assistant adjutant of the American Legion, of Indianapolis, Indiana, is making his official visit to the government hospital for disabled veterans at Ft. Bayard. This hospital is one of the important projects of the Auxiliary and receives financial aid for the veterans from the department funds every month. Mrs. Richards, while over there, will visit the units at Silver City, Albuquerque, Gallup, Farmington, Santa Fe and other points in the western part of the state. She expects to be absent two weeks or more.

THE T. E. L. CLASS

The T. E. L. Class of the Baptist Sunday school held its business and social meeting at the home of Mrs. Charles Ransbarger on Tuesday afternoon. Light refreshments were served during the social hour.

Social Calendar

TELEPHONE 217

FRIDAY

The P. E. O. Sisterhood will meet with Mrs. J. H. Jackson at 2:30 p. m.

The Cemetery Board will meet in the apartments of Mrs. Walter Douglas in the Edd Wingfield home on Richardson avenue at 2:30 p. m.

MONDAY

The American Legion Auxiliary will meet with Mrs. Fred Cole at 2:30 p. m.

TUESDAY

The Idlewhiles Bridge club will meet with Mrs. Jim Berry for a one o'clock luncheon.

THURSDAY (NEXT WEEK)

Circle 1 of the Baptist W. M. S. will meet with Mrs. B. A. Bishop at 3:00 p. m.

THE PASSTIME BRIDGE CLUB

The regular meeting of the club was held at the home of Mrs. Roscoe Kile on Tuesday afternoon with every member present. Mrs. Margaret Ellis was a special guest. Delicious refreshments were served.

THE "CHEVIE SIX" BRIDGE CLUB

The club met at the home of W. C. Gray last Friday evening for its regular meeting, the hosts being Mr. and Mrs. Carl Joiner. Delicious refreshments were served after the playing. There were four substitutes, Messrs and Mesdames Leslie Martin and Joe Hamann.

SECOND NIGHT BRIDGE CLUB

Mr. and Mrs. R. D. Compton were hosts for the regular meeting of the club Friday evening, which began with a splendid turkey dinner at seven-thirty o'clock. There was one substitute, Mrs. M. A. Corbin.

THE SECOND BRIDGE CLUB

The Second Bridge club was entertained at a delicious two course luncheon at its regular meeting at the home of Mrs. Jeff Hightower, on Tuesday afternoon. The luncheon was served at one o'clock and there was an extra table of guests, besides three substitutes. Those present besides the regular members were: Mesdames M. W. Evans, J. H. Jackson, Leonard Jernigan, Chester Dexter, Ralph Shugart, P. J. Phillips and Stanley Blocker.

FORTNIGHTLY BRIDGE CLUB

The Fortnightly Bridge club met at the home of Mrs. A. C. Kimbrough on Tuesday and was really a charming Valentine party. The Valentine symbols were used lavishly in decorating the quartette tables, used for the luncheon and also cards. Cleverly designed place cards and favors, the handiwork of the hostess, were part of the decorative scheme. A lovely luncheon in two courses was served. There were two substitutes, Mesdames A. L. Bruton and D. L. Grimm.

SOPHOMORE CLASS PICNIC

The Sophomore class had a picnic at the Lakewood dam Tuesday evening and after the picnic supper enjoyed the evening by playing lively games. Besides class members the following teachers were present: Misses Edna Drury, Myrtle Burroughs, Ellouze Keyes and Florence Oakes.

VALENTINE PARTY FOR MISS WILLIAMS FRIDAY

Mrs. Bryant Williams of Hope, gave a Valentine party as a surprise for her daughter, Miss Margaret, Friday evening. The Valentine motif was carried out in the playing of games and the decorations. Four tables enjoyed playing hearts. Miss Mary Louise Cole and Vernon Bryan cut for high score, Miss Cole winning the prize. Each guest was requested to shoot at a red heart with a bow and arrow. Foy Young proved to be the best marksman and won a Valentine.

The hostess was assisted in serving a turkey salad course by Mrs. Robert Cole. Among the young people present were: Misses Marjorie Johnson, Effie Fite, Mary Louise Cole, Florence Scott, Anna Alcorn, Mae Payne, Messrs Foy Young, Emmett Young, Floyd Cole, Vernon Bryan, David Alcorn, Gerald Duncan and Evane Finley.

Announcement Cards, blank or printed—The Advocate.

Basketball

Coyotes Defeat Bulldogs

The Artesia Bulldogs, lost a fast game to the Roswell Coyotes at Roswell Friday evening. The locals lost the game without an alibi, but hope to do better when they meet this team in the annual tournament here, February 28 and March 1.

The Artesia Juniors met defeat at the hands of the Roswell Juniors by a score of 10-17, preliminary to the high school game.

EVENING FORTNIGHTLY BRIDGE CLUB

The Evening Fortnightly Bridge club were guests of Mr. and Mrs. Albert Richards for their regular meeting last Friday. A two course dinner served, cafeteria style as evening o'clock, was followed by an evening of cards. Mr. and Mrs. H. S. Williams were the only substitutes.

BIRTHDAY PARTY

Little Sibyl Pior was "seven times one" last Saturday and her mother, Mrs. Ben Pior, invited a number of her little girl friends to help her celebrate the interesting event. The afternoon was spent happily in playing games and Mrs. Pior served refreshments of sandwiches, cake and cocoa in a color scheme of pink and white. The little chums invited were Peggy Linell, Joan Littlejohn, Betty-nelle Lanning, Wanda Story, Jane Shugart, Mary Baird, Margaret Attebery, Shirley Watson, Katherine Louise Williams and Phyllis Bartlett. A number of the mothers and little brothers and sisters were also present to enjoy the fun.

DRAMATIC CLUB INITIATION

Wednesday evening at 7:15 the Dramatic Club met at the High school to initiate its new members. After the initiation some games were played and refreshments were served. The old members attending were: Estelle Vogel, Oueida Atkins, Jimmie King, Evelyn Cobble, Beulah Aiken, Bera Crosby, Lillie Newman, Ruth Graham, Mable Champion, Irving Withers, Ray Cowan and Russell Floore. The new members who were initiated were: Vesta White, Irene Bell, Milta Newman, Nora Christman and John Hogins. Others who did not attend are: Ethelyn Cobble, Roy Garrison and Glennis Smith.

MILLIONS OF FISH ARE PLANTED IN NEW MEX. STREAMS--PERRY

SANTA FE—The state game and fish department planted 3,146,340 trout and 35,500 bass and sunfish in New Mexico streams last year, State Game Warden Edgar L. Perry stated yesterday. In 1928, the number of trout was 4½ million. The decrease is accounted for by the fact that there was an epidemic in the trout hatcheries last year, killing off thousands of trout.

The cost of planting was \$13.52 per 1,000 in 1929, \$9.89 per 1,000 in 1928. The epidemic explains the difference, said Perry. The operating cost showed a decrease in 1929, being \$42,800 for all hatcheries, against \$44,691 for 1928. That covers all hatcheries.

The cost of hatching and rearing trout by panting size has been reduced by a change in diet. Heretofore they were fed liver, which was expensive; now they are being fed horse and burro meat and thrive on it, said Perry, even the bone being ground up and fed to the fishes.

\$587,000 FOR BOLL WORM FIGHT

WASHINGTON, D. C.—A resolution to appropriate \$587,000 for cleanup work in non-cotton zones established in Arizona in a campaign against the pink boll worm, was adopted unanimously yesterday by the house and sent to the senate.

206 NAMES ADDED TO THE MILLION DOLLARS INCOME TAX CLASS

WASHINGTON, D. C.—The year 1929 saw 206 additions to the select group of those whose individual incomes exceed one million dollars. In all there were 496 in this exclusive class and of these 24 had incomes running past the five million mark. Altogether the 496 had a total income of \$1,073,706,325, of which the government collected \$187,525,926 in income taxes. These figures were compiled by the treasury in reporting on incomes tax collections of last year and were issued for publication Monday. A decrease of 50,588 in the number of returns as compared with the preceding year was noted, but the total of income taxes collected showed an increase of \$316,014,283. In the million dollar class 241 persons has a revenue of from \$1,000,000 to \$1,500,000, 105 of from \$1,500,000 to \$2,000,000, 89 had incomes of from two to three millions, 20 of from three to four millions and 17 had incomes of four to five millions. The 24 whose incomes exceeded \$5,000,000 had a total income of \$242,236,796, or an average income of more than ten million dollars each.

Department Of The Interior, United States Land Office, Las Cruces, N. M., January 24, 1930.

Notice is hereby given that the State of New Mexico has filed in this office its Indemnity School Land Selection List. 9395, Serial No. 041152 for the following land: Lots 3, 4, 5, Sec. 5; Lots 9, 13 & 14, Sec. 6, T. 16-S., R. 23-E. The purpose of this notice is to allow all persons claiming the land adversely or desiring to show it to be mineral in character, an opportunity to file their protests against the approval of the selection. GASOLINE TAX COLLECTIONS UP

SANTA FE—Gasoline tax collections totaled \$202,671.80 for January a gain of \$51,342.57 over January 1929, Miss Mary Bartolino, assistant state comptroller announced Monday. The January collections are mostly on December consumption. Approximately 1,026,851 gallons were used on New Mexico highways in December, an increase of 33.27 per cent over December, 1928. That is the biggest increase yet reported by the gasoline bureau.

Harvey improvements to the mplied by himself than \$200,000 on the exchange would mean Otero county tax roll pered area passes to e, but the Chamber of no objection because d of recreational value g resources would be ntifically by the gov- mber would be scient- ted and one-quarter ds from timber sales he schools and roads, and watershed would be tected.

OILFIELD SCHOOL NOTES

A number of new pupils have been enrolled since the Christmas holidays making a total of sixty-seven in attendance. The Lakewood boys' and girl's basketball teams played at the oil field Friday a week ago, the score being in favor of the Lakewood boys and the oil field girls. Both teams went to Lakewood last Friday, the oil field teams winning both games. The following pupils were placed on the honor roll for the month of January. First grade—Buddy McCrary, Velma Newberry, Neoma Branscum, and Claud McGonagil; Second grade—Peggy Roberts, Izetta McKay; Third grade—Haskell Rich, Bud Carr, Benny Wylie, Billy Branscum, Ruby Kennedy, Howard Branscum, Maxine Roberts, Vernon Norris; Fourth grade—Louise Beard; Fifth grade—Ruth Wylie, Wilma Moyer, Margaret McCrary, Jean Solt; Sixth grade—Ralph Shafer, Jaunita Carr; Seventh grade—Esther Fargier. Through an error the names of Benny Wylie and Raymond Kennedy were left off the honor roll for December. Dr. Puckett visited our school last week and finished his work of examining and vaccinating the pupils.

Mrs. Glenn O'Bannon and little daughter, Mary Frances, were the guests of Misses Jenkins and Vowell at the oil field Saturday and Sunday.

V. TATE PLEADS NOT GUILTY TO THE MURDER CHARGES AT CLOVIS

V. Tate, Clovis auctioneer charged with first degree murder in the killing of G. C. Bohannon and son, Carl, was arraigned before Judge Patton Monday afternoon at Clovis and through his attorney Carl A. Hatch, pleaded not guilty to both charges. The court set the day of trial Monday morning, February 10. Permission was granted to the defense by the court to change the pleas. District Attorney J. C. Compton announced that the prosecution will be ready on the date set but the defense stated that a motion for continuance might be filed. As Tate was brought into the court room by the sheriff all eyes were turned in his direction but he showed no signs of nervousness. Tate was taken back to jail immediately after the hearing.

An Ideal Rest Nevered—Planning a pleasant vacation? Henry N. Peck—A delightful one; my wife is to spend a month with her mother.

Greater Beauty - Finer Performance

Never has a Chevrolet car won greater praise for its appearance than the new Chevrolet Six. Its new Fisher bodies reveal in every detail the artistry that has made the Fisher name famous throughout the motor car world. In beauty of line and color, in balance and harmony of design, they represent one of the greatest style triumphs in Fisher history. Upholsteries are richer and more durable. The instrument panel carries a new and more attractive grouping of the control instruments. Seats are wider and deeper. In fact, not a single feature has been overlooked that would add to the comfort and convenience of both driver and passengers.

In addition to its new beauty, the new Chevrolet Six represents a remarkable advance in every phase of performance. Its improved six-cylinder valve-in-head engine has been increased to 50 horsepower—giving faster acceleration, and greater reserve power. Steering has been made safer and easier. Four Lovejoy hydraulic shock absorbers provide exceptional riding comfort. Fully enclosed, internal-expanding, weather-proof brakes give positive braking control. And numerous structural improvements add to the car's dependability, endurance and long life. Come in today and see this car. And remember, it is now available—

For Beautiful Hands and Arms

By DORIS HALE
DuBarry Beauty Consultant

BEAUTIFUL hands, more than anything else, tell the true character of their possessor. Many of you probably will say, "But I wasn't born with beautiful hands, and that's that." Well—I'll admit you can't change their actual formation. If your fingers seem too long or too short there's little you can do about it. And it's hard to remedy hands that are very fat or thin. But at least you can keep your hands soft and smooth, even if you have lots of work to do around a house or in an office. Your nails should be beautifully manicured, and the cuticle never allowed to become ragged.

Perhaps you have hands that were tanned by the summer's sun. Of course this tan will fade in time, but I'd suggest hastening the process by using a gently whitening hand cream. Keep a jar of it in your kitchen, up above the sink, and another in the bathroom. Always apply a little hand cream after washing your hands, to protect them against possible discoloration or roughening by housework. Use it on the arms, too, especially when they have been wet.

After I have given myself a

facial I like to spread the remaining cream all over my two hands, rubbing them together until most of it is absorbed. If there's time, I massage my arms, too. This will prevent the skin from getting flabby, and will keep it soft.

So many of us remember to keep our hands and arms smooth and white, but forget almost entirely how easily the elbows become roughened when neglected. Let me advise you to rub a skin food or tissue cream into them before going to bed. Both creams are softening in effect, and will help to keep the elbows from becoming coarse skinned. I always put a little of one of these creams into the palm of each hand, and work it into my elbows with firm rotary motions. Usually I leave it on all night, and most of the cream has disappeared by morning.

If you're going out in the evening, use hand cream on your hands and arms just before you finish dressing. Then dust lightly with a powder puff, and rub in the powder smoothly. This will transform even neglected arms and hands into smoothness and whiteness.

Most of us prefer to wash our hands regularly with warm soap and water, but if your skin is very tender and chapped, I suggest substituting a good cleansing cream occasionally.

THE CHURCHES

CHRISTIAN SCIENCE SOCIETY
613 W. Main Street

Sunday services at 11:00 a. m.
Wednesday services at 7:30 p. m.
Subject of the Bible lesson for Sunday, February 9, 1930 is "Spirit." In this lesson the following scriptural selection is found: "Not by might, nor by power, but by my spirit saith the Lord." (Zech 4:6).

Also the following citation from Science and Health with Key to the Scriptures, by Mary Baker Eddy, page 249: "Let us feel the divine energy of spirit, bringing us into newness of life and recognizing no mortal, no material power as able to destroy. Let us rejoice that we are subject to the divine powers that be." Such is the true science of being.

Visitors always welcome.

FIRST PRESBYTERIAN CHURCH
Fourth and Grand
Rev. John P. Sinclair, Pastor
Phone 249.

Sunday, February 9, 1930.
9:45 a. m., Sabbath School.
Lincoln Day program will be used at the opening service.

11:00 a. m. Morning worship.
Subject: "Joy on a Desert Road," or the story of the first African convert to christianity. What is the Presbyterian church doing for the American Negro?

6:15 p. m. Christian Endeavor. Two groups.
7:00 p. m., popular peoples service. Music by church orchestra and anthem by Junior choir. Sermon subject: "Nail Prints of a Christian," or "Some Marks of Christian Personality." A message in honor of Lincoln's birthday.

Wednesday 7:30 p. m. church fellowship and Bible study.

METHODIST EPISCOPAL CHURCH SOUTH
Rev. Harold G. Scoggins

"The large church with a warm welcome and a helpful gospel." Interest and attendance is increasing in the Sunday school. Last Sunday saw the largest attendance at the Methodist Sunday school since before Christmas. Sunday school begins promptly at 9:45 a. m.

Morning worship at 11:00 a. m. The congregations are growing with the passing of each week. The theme for Sunday morning: "We Shall See Him As He Is."

Epworth Juniors service every Sunday evening at 6:00 p. m. in the Junior room. Epworth senior League every Sunday evening also at 6:00 p. m. in Senior League room. There will be an Epworth League party at 7:30 p. m. Tuesday evening, the Hagerman Leaguers have been invited to attend. All Artesia Leaguers are invited.

Evening worship at 7:00 p. m. The theme of the evening sermon this Sunday "A Christian's Attitude." Last Sunday evening the congregation was the largest evening crowd in several weeks, a large number of young people were in attendance.

The standard training school has been moved a week later and the date is now the week of February 24th. The board of managers is working now enrolling the people who intend taking the course. A large enrollment is indicated. Christians from several churches have indicated their intentions of taking the work. The courses are: "Worship for Primary," Mrs. J. C. Ballard; "A Survey of the Old Testament," Dr. Allen Moore and "Evangelism Through the Sunday School," by Harold G. Scog-

gins. The text books have already arrived and may be secured from Mrs. G. C. Kinder, chairman of board of managers.

THE CHURCH OF CHRIST
Corner 7th and Grand Ave.

Our Bible school is holding up fine. There was still an increase in attendance last Lord's day over the previous Sunday, with several new members added to the classes. The Bible reading is taking on new interest. Everyone is urged to read the new testament through during this quarter. Every member of the church should make every effort to be in Bible school every Lord's day. A most hearty invitation is extended to all who will come and attend our Bible school and church services.

Our sick sister, Miss Bertha Rose, who has been confined in the hospital in Carlisbad for the last two months, is back, and is being cared for by Mrs. Knepple. She has an excellent place to stay and is receiving the very best of care and attention for which the church is very thankful.

The ladies meet every Thursday afternoon at 2:30 for their Bible study and sewing. Visitors will receive a hearty welcome any time.

We hope to have another good increase in our Bible school next Lord's day. Come and bring someone with you.

Bible school at 10:00 a. m. Scripture lesson given by one of the brethren at 11:00 a. m., followed by the Lord's Day Communion services.

An invitation is extended to all.

FIRST BAPTIST CHURCH

We appreciate very much the interest as manifested in the church work last Sunday. We had good services and very good attendance considering the amount of sickness.

Rev. Fred Cole of Montezuma was here last week and will be here again this week in the interest of the college. We are always glad to have him. We are expecting a good day next Lord's day. We shall be glad to see all our members in the services. Come and bring the family and enjoy the services.

The pastor will bring a message Sunday morning on "Divine Leadership." At the evening service the subject will be: "Will Christ Come to Earth Again?" The question with everyone should be: Is Christ leading my life? And then the question is: Will my saviour come back to this earth again? We shall try to help you solve these problems next Sunday. We are expecting good music from our choir and orchestra.

We have a very interesting Bible school at 9:45 a. m. You will enjoy being in one of our classes. Come and bring the children. Our B. Y. P. U. for our young people are having some good programs. They meet at 6:00 p. m. We extend to you a hearty invitation to all our services.

R. PETERSON, Pastor.

LOCALS

Mrs. Frank Seale and Mrs. Dick Attebery motored to Roswell Monday.

Born to Mr. and Mrs. Perry W. Gary, last Thursday, the 30th, a daughter.

Mr. and Mrs. Bryan Runyan were in town from Lower Penasco the first of the week.

The Misses Minnie and Edna Dungan and Irma Woolridge were business visitors to Roswell Friday.

The little daughter of Jim Bates has been seriously ill with scarlet fever the past week, but is a little better.

Mrs. Francis Painter came up from Pecos Friday for a two weeks' visit with her parents, Mr. and Mrs. N. T. Kelley.

Mr. and Mrs. Ike Keller and son, Osborne, and Mrs. Keller's father, Wm. Osborne, drove over to Hobbs oil field Sunday.

John Y. Waldrop, formerly of Roswell, has been employed as assistant local manager in the Artesia yard of the Big Jo Lumber Co.

F. M. Davenport, Paris Damewood, Crowell Allen and Paul Peterson, made a trip to Roswell Sunday, presumably in search of adventure.

Dr. Ruth G. Van Dusen arrived recently from Los Angeles, California, to enter into partnership with Dr. Esther Seale in the practice of chiropractic.

Jack Seudari, a former resident of Artesia, who operated a trucking line here for several months in 1925-26 was visiting friends and attending to business matters here Tuesday.

Mrs. Sherman, Sr., of Roswell, spent last week here with her son, John Sherman, and family. The family took her home to Roswell Sunday and spent part of the day there.

Rev. W. G. Jones, preacher on the Lake Arthur, Dayton circuit and family, spent Sunday in Dayton, where an all day meeting with a picnic dinner at noon, was held in the Methodist church.

Mrs. S. S. Ward and daughter, Miss Jack, spent the week end in Roswell, with Mrs. Ward's daughter, Mrs. Bob Rehn. Mrs. Ward attended the Culpepper meetings and Jack took in the basket ball game Friday night.

Mr. and Mrs. F. M. Hughes, of Santa Fe, spent Sunday here, guests of their old friends, Mr. and Mrs. James Christman. Mr. Hughes, who is state tax appraiser, went from here to Lovington on business connected with his office.

PEAS BRINGS FARM WOMAN FAME AND FORTUNE

Hvass, of Kennan, Wis., Wins \$1,250 in National Canning Contest—Gives Pressure Cooking Credit.

Champion canner is a fine cook in a lumberjack's kitchen. She is Mrs. Mary Hvass, of Kennan, Wis., who won this year's prize of \$1,250 in the national-wide canning contest, sponsored by the National Canners Association, just ended in Chicago. Mrs. Hvass' jar of home-cooked peas, which won the prize, was a can of peas. She is a pioneer who has won prizes ever since she was a child. Her husband, John Hvass, set out a good farm from their Wisconsin home at the county and

at a lumberjack lunchroom, where she met and married lumberjack John Hvass. They moved to Wisconsin first to a small farm, later to a larger one, where they are living today. There Mrs. Hvass helped her husband fell trees, build barns, fences, and their house. For nearly thirty-three years they struggled together.

When Mrs. Mary Hvass heard that one jar of peas that she had canned was worth \$1,250, it seemed incredible to her. It was just one jar out of hundreds that were canned all as part of a summer's work. And it was simple business to put them up. She followed directions in a government bulletin.

"I used a pressure cooker, as the government advised, because I've tried every other way and I know it's best," she explained.

"First, I blanched the peas for 30 minutes in scalding water. Then I dipped them in cold water, poured them in a mason jar with seasoning, and put the jar in my pressure cooker for 50 minutes at 240 degrees.

"That's all the work it took to make them ready for the contest. I wouldn't want anything more certain and simple than my Kook-Kwick pressure cooker for canning peas and all kinds of food."

Judges of the contest who declared the peas canned by Mrs. Hvass to be perfect in flavor, color and general appearance, were Dr. Margaret Justin, president of the American Home Economics Association; Dr. Louise Stanley, director of the United States Bureau of Home Economics; Mrs. Josephine Bakke, home economics director at Iowa State Agricultural College; Miss Elaine Massey, director of girls' club work in Mississippi and George Farrell, director of extension in the Middle West for the Department of Agriculture.

There are canned peas and canned peas that win prizes, but those that were canned by Mrs. Mary Hvass go even further. They are going to pay for their own creaming and buttering. The grand prize check of \$1,250 is going to set up Mrs. Hvass in the dairy business.

Her ambition for many years was to own a herd of pure-bred Holstein cattle and to extend her prize-winning into wider fields. Now her ambition will be realized with the purchase of the nucleus of such a dairy herd.

G. L. Marrs has purchased the Bob Gushwa farm southwest of Dayton. The sale was consummated the first of the week.

H. S. Williams, local manager of the Southwestern Public Service Co., was taken to Roswell Tuesday morning, where he will undergo hospital treatment for an infected hand. Mr. Williams, who had the misfortune to get his hand burned in a fire here about two weeks ago has been nursing a bad hand for the past ten days and up until recently, his condition was apparently improved.

SHAFT FOR THE FIRST POTASH MINE IN THE STATE DOWN 22 FEET

SANTA FE—Looking to the exploitation of the immense potash deposits in southeastern New Mexico, the American Potash company is now sinking a shaft 16 miles east of Carlsbad, State Geologist G. C. Staley of Santa Fe reported yesterday.

It is the first potash shaft undertaken in the state. There have been borings to determine the size of the deposits, but the American Potash company's work is the first with a view to commercial development.

The hole, is already down 22 feet, and is 7x22 feet in dimensions at the surface, large enough for a double compartment shaft with a man-way. It is to be 1000 feet deep.

MILLIONS WILL BE ADDED TO THE TAX ROLLS OF NEW MEXICO

SANTA FE—Millions of dollars are expected to be added to the tax rolls when the state tax commission, headed by Nathan Jaffa as chairman, assesses the railroads and other corporate property. The commission meets for that purpose March 1st.

This expectations rests on questionnaires sent out to railroads, telephone and telegraph companies, oil pipe lines and public utilities. They call for far more complete data than any state commission has ever required heretofore.

The valuation of the railroads is based by law on the engineering valuation determined by the I. C. C. That is the replacement value as of June 30, 1916, in the case of the Santa Fe; June 30, 1914, in the case of the others. To the engineering valuation is added "additions and betterments," which on some roads is from 30 to 50 per cent of the original valuation.

Another factor is taken into consideration, called the "state of efficiency." That is determined by the I. C. C. and means a subtraction.

There have always been two valuations for the common carriers in New Mexico—one for the corporation commission, the other for the tax commission. The tax authorities this year plan to bring the taxable valuation closer to the rate-making valuation, believing that one is too low and the other is too high. It will be the first time that official cognizance has been taken of the records on file in the corporation commission by the tax commission.

Locomotives and rolling stock are assessed separately and are then added to the valuation for the roads. The forms sent out to the railroads contain 48 questions, seeking minute details as to their property—down to the sledges used to drive spikes in ties.

The state tax commission this year takes over for the first time the assessment of public utilities, water, electric and gas plants. Previously they have been assessed by the county assessors. The questionnaires being prepared for the utilities, in some cases, contain as many as 60 different items and are expected to disclose every detail of their investments.

NOTICE OF PUBLICATION Domestic

Pursuant to Section 1018 of New Mexico Statutes Annotated Codification of 1915, as amended by Session Laws of 1925, notice is hereby given of the filing in the office of the State Corporation Commission of New Mexico of Certificate of incorporation and Certificate of Stockholders' Non-Liability of JACKSON-BOLTON CHEVROLET COMPANY (No Stockholders' Liability).

1. The amount of authorized capital stock is \$50,000.00. The amount of capital stock actually issued and with which the company will commence business is \$25,000.00.

2. The names of the incorporators and their postoffice addresses are: J. M. Jackson, Artesia New Mexico; Lizzie J. B. Jackson, Artesia, New Mexico; Anna Frances Jackson, Artesia, New Mexico; V. D. Bolton, Artesia, New Mexico; Minnie Bolton, Artesia, New Mexico.

3. The objects and purposes of the said corporation are: To own lease or rent, and operate garages; to buy and sell automobiles and motor trucks and vehicles of every kind and description; and to do any and all things authorized by the Certificate of Incorporation.

4. The principal place of business of the corporation and the name of the statutory agent therein and in charge thereof, upon whom process against the corporation may be served is J. M. Jackson, at Artesia, New Mexico.

5. Filed in the office of the State Corporation Commission on January 27th, 1930, No. 16094, Cor. Rec'd. Vol. 7, Page 722, at 10:45 a. m. STATE CORPORATION COMMISSION OF NEW MEXICO,

By MAX FERNANDEZ, Chairman.

Certified copy of certificate of incorporation has been recorded in the office of county clerk of Eddy County, January 29th, 1930, at 11:45 a. m.; Book 3, Page 428, of Records of Incorporation. 8-1tc

300 INDEPENDENT OIL OPERATORS WANT A TARIFF ON OIL

WASHINGTON, D. C.—Three hundred independent oil operators petitioned President Hoover Tuesday for support in their drive to obtain tariffs of one dollar a barrel on oil and fifty cents a barrel on refined products.

Secretaries Hurley and Wilbur were called in by the president to talk with a group, but later no comment was forthcoming from any source. Earlier the visiting delegation had held a meeting presided over by Wirt Franklin, president of the Independent Oil Association of America, and attended by members of the congressional delegations from the western and midwestern states. Among the operators in attendance were men from Colorado, Wyoming, Texas, Oklahoma, Arkansas, Montana, Louisiana and New Mexico.

Others who urged congress to "preserve the American market for American producers and refiners" were Robert Winbourn, attorney general of Colorado, the personal representative of Governor Adams of that state, and James H. Gardner, president of the Gardner Petroleum corporation.

Franklin said a protective tariff on oil was essential to national defense, the life of the domestic industry and the welfare of all business enterprises in producing sections of the nation.

LOWER COTTONWOOD SCHOOL NOTES (H. R. RODGERS)

The enrollment in the Lower Cottonwood school for the month of January has reached one hundred twelve, the greatest enrollment in the history of the community. Of this number seventy-two are Anglo-Saxons with the remaining forty Spanish Americans.

Some idea of the respect and awe in which the compulsory school law is held may be had by considering that with an average enrollment of thirty for the past five months we have had an average attendance of fifty-six. All patrons are reminded that for the remainder of the term every effort will be made to have every child in school every day unless excused by illness.

The following pupils are recognized doing honorable and meritorious work for the month of January, having made an average in all subjects of B and having been neither absent nor tardy:

Eighth grade—Lamar Johnson; Sixth grade—James Felton, George Johnson, Mary Jane Terry; Fifth grade—Chas. Johnson, Abundio Balderras, Elsie Brisco, Edna Bowman; Fourth grade—Alene Brisco, Ruby Rowland; Third grade—W. H. Brisco, Derrill Rodgers; Second grade—Ava Lee Boyce, Mary Johnson, Quentin Rodgers; First Grade—Helen Johnson, Roberta Brisco.

COTTONWOOD ITEMS (Miss Alma Bradley, Reporter)

Mr. and Mrs. W. N. Waldrip motored to Carlsbad on business Saturday.

Mr. and Mrs. Bob Vogel and Bob Jr., were visiting at the home of Mrs. Vogel's parents, Mr. and Mrs. Will Waldrip last week.

Mr. and Mrs. Kermit Southard and Mrs. Southard's sister, Pauline Watson visited Mr. and Mrs. L. A. Carson of Tucumcari, last week.

The 4-H club girls of the Cottonwood community will begin their work for 1930 Saturday, February 8th. The meeting will be at the home of Mrs. Jesse Funk.

Marjorie Belle and Joe Bill Funk entertained quite a number of their friends with a birthday party Sunday afternoon. Marjorie Belle and Joe Bill received many nice presents. Refreshments were served by Mrs. Funk.

The Cottonwood Woman's club met at the home of Mrs. Tom Terry, last week, officers elected were: Mrs. E. P. Malone, president; Mrs. W. L. Bradley, secretary-treasurer. The next meeting will be at the home of Mrs. Ray Rodgers.

BAD GUESSER

The young man was very fond of Dolly, but he was rather shy.

They were sitting together when there came a ring at the front door bell.

"That will be Mr. Robson," said Dolly.

"Oh! Well—er—there's such a thing as—er—being out, you know," suggested the shy young man.

"Yes," said Dolly. "And there's such a thing as—er—being engaged."

TALKIES DEMONSTRATE NEW CHEVROLETS AT THE EL PASO MEETING

Highly enthused over business prospects for 1930, Messrs J. M. Jackson and V. D. Bolton local Chevrolet dealers returned last week after attending a two days series of business meetings in El Paso with officials of Chevrolet Motor Company.

V. D. Bolton stated that talking pictures were used to demonstrate points in servicing and merchandising cars and that the pictures so vividly portrayed the various points that the dealers in attendance were very enthusiastic.

In addition, according to Mr. Bolton playlets and skits dealing with automobile problems were used to more graphically portray the points which the officials desired to stress.

D. E. Ralston, assistant general sales manager, Chevrolet Motor Company, headed the party which is making a tour of the southwest and west. The party is one of four sent out yearly by Chevrolet Motor Company.

Mr. Ralston stated "The road building activities in Texas and New Mexico indicates that the vast natural resources of these states will be more rapidly developed. Last year the Chevrolet dealers in this zone enjoyed a very remarkable year and I consider 1930 just as promising."

Mr. Bolton also pointed out that officials contend that the trend of travel is to the southwest and west and that eventually Texas and New Mexico will be in a very enviable position. A very comprehensive survey of this territory revealed that eastern manufacturers consider these states a very good market. A banquet at the Hussman hotel in the evening closed the first day's proceedings. The second day was devoted to meeting with Chevrolet officials and the discussing of problems pertinent to the industry.

Entertainment provided by the El Paso zone, received the action of the Chevrolet officials. A tour of El Paso was included in the itinerary of the officials and the historical background of the state was gloriously and graphically portrayed by a specially selected guide.

Typewriter Ribbons—The Advocate

A woman always looks prettiest in her happiest moments. Happiness is a product of optimism. If you would appear at your best be an optimist. Optimism inspires that buoyant spirit which manifests itself in a radiant face, laughter which is music to all who hear it and a personal magnetism which attracts favorable notice. When optimism dominates in all ways you will be courted and welcomed as a companion.—Lillian Russell.

THIS AND THAT

When there are a few sandwiches left over from any occasion, wrap them carefully, and if the next meal is a luncheon or breakfast, dip them into a fritter batter and fry until well browned. Serve hot.

Scalloped Corn and Celery.—Take two cups of corn, one cupful of celery finely chopped, one cupful of dry bread-crumbs well buttered, one teaspoonful of salt, one small green pepper, two tablespoonfuls of butter, one cupful of hot milk. Arrange corn, peppers, celery and crumbs in two alternate layers in a buttered baking dish. Add butter to the hot milk and pour over the vegetables. Cover with buttered crumbs and bake 40 minutes. This will serve eight.

Rice and Fish Loaf.—Take one package of lemon gelatin, one cupful of boiling water, dissolve the gelatin and add one-half cupful of cold water, one-half cupful of chili sauce and one-half teaspoonful of salt, chili, and when slightly thick stir in one cupful of salmon, tuna or other cooked fish, two cupfuls of cooked rice (cold), one chopped green pepper or six stuffed olives chopped, one small green onion chopped. Turn into a loaf pan and chill until firm; unmold, slice and serve with a tart sauce such as mayonnaise with chopped pickles or a lemon butter.

Meriton Pickle.—Slice five dozen unpeeled green cucumbers about four inches long. Sprinkle with salt in layers and let stand over night. Drain off the brine, add one and one-half dozen small onions sliced thinly. To five cupfuls of vinegar add one large cupful of the best olive oil, three teaspoonfuls of celery salt, one-half teaspoonful of white mustard seed and beat vigorously; pour over the cucumbers and onions and put into jars and seal. Keep in a cool place.

30 DAY EXTENTION GRANTED FOR PAYING AUTOMOBILE LICENCE

SANTA FE — State Comptroller Gilberta Mirabal Friday sent telegrams to field men in charge of the issuance of motor vehicle license plates in the 31 county seats, instructing that the offices be closed which are manned by clerks whose remuneration is from the "two-bit notary fee."

Thereafter the motor vehicle bureau will have several branch offices scattered over the state for the convenience of applicants, Mr. Mirabal said, but they will be only in the larger towns. He will announce a list of these towns soon.

The 25 cent fee, charged under a law requiring applications for licenses to be acknowledged by a notary, has been used to pay the extra employees added to the motor vehicle department staff during the rush period on motor vehicle licenses.

There are not enough regular employees to staff offices in all of the county seats, Mr. Mirabal said. No charge, however, was made to persons, who applied at the state capital for that office is maintained by regular employees.

Governor Dillon extended the time for application until March 1, so that branch offices will be established and kept open for another month.

According to a telegram received by F. E. Hubert, deputy collector of Carlsbad, the 25 cent notary fee will be discontinued and the employees of the comptroller's office will be placed on a straight salary. It will still be necessary, however, to acknowledge the license application before a notary.

TRIANGLE DOUBLING STORAGE

The Triangle Oil Co., is doubling the storage capacity of the local plant, with the addition of three storage tanks, Bert Muney, local manager announced Tuesday. The Triangle warehouse is located on North First street. Additional tankage will enable the company to store 20,000 gallons. The storage will be used mostly for distillate.

M. D. Brannon of Clovis, veteran employee of the Triangle Oil Co., expects to move here soon and will assist Mr. Muney with the sale of local products. G. W. Head, of Clovis, manager of the Triangle Oil Co., was here Tuesday looking over the properties of the company.

LOCALS

V. D. Bolton was a Roswell visitor Tuesday.

Mrs. J. M. Story and Mrs. E. D. Phillips motored to Roswell to-day.

Mrs. Chester Russell left Monday for Tucson, Arizona to visit a sister. She expects to be away a couple of weeks.

'Round Home by CHAS. S. KINNISON

Old-Fashioned Flowers

The old-fashioned flowers seem sweetest to me,
For some fancied reason or other—
In each fragrant petal there's something I see
That always reminds me of Mother.

The mem'ry it brings me is winsomely sweet,
A mem'ry that never shall perish—
And in it the two of us smilingly meet—
A love-laden mem'ry I cherish.

We stroll through the garden, and stop here and there,
Admiring the colorful splendor
Of flowers she's planted and nurtured with care,
With hands that were loving and tender.
We stop at the roses and chat for a while—
She tells me how sweetly they're scented,
And there 'midst the flowers our hearts are a-smile;
How happy are we, and contented!

And here are the zinnias, the dahlias, and phlox;
The sunflowers, nodding and lazy,
And threading among them are neat little walks—
And there is an old-fashioned daisy!
And now as we're leaving the garden, I find—

For some fancied reason or other—
The old-fashioned flowers seem gentle and kind,
And so they remind me of Mother.

IT REALLY WORKS

When the world looks like a pretty serious problem, say to yourself and mean it, "I don't give a damn!" When you sales quota is far above your sales and the time to recover is short, start out, not with a feeling that you've just got to do it to-day, but say to yourself, "I don't give a damn! And work like the devil. If your pet customer spends three-fourths of the grudging half-hour he gives you in telling you what a bum joint you represent, smile and humor him along and say to yourself (and mean it), "I don't give a damn!"

When delivery was promised on the eighteenth and your tracer locates the car with a busted drawbar on a siding in the evening of the twentieth say to yourself, "I don't give a damn! and burn up the wires to get the car moving."

It may not be elegant language; the sentiment of valentine honey-ings is lacking; your wife may disapprove of it; there's no consistence in it; but it does work!—The Imp.

AUTHOR FINDS NEW MEXICO BEAUTY REGION

SANTA FE—An article in the Sunday New York Times entitled: "New Mexico and Arizona Offer Great Variety of Natural Attractions and Good Roads," has just been sent to the service bureau of the state highway department by the author, Leon Dickinson. This article praises the many natural attractions to be found by the tourist in New Mexico and Arizona in the winter as well as in the summer. The author who has just finished a trip via Route 80 to California, says he found the roads in excellent condition all the way.

"Those who have traveled by railroad have no conception of the natural and archeological wonders easily accessible to those traveling thru the southwest in a motor car," Mr. Dickinson asserts.

One amusing mistake is made by the author. In speaking of Ysleta, Texas, he says that there "are found the last surviving members of the Pueblo Tribe of Indians." If the writer had traveled more extensively in New Mexico, he would have found that there are 10,845 Pueblo Indians in the 27 Pueblos in this state.

The number of articles in newspapers and magazines all over the nation about the southwest generally and New Mexico in particular is steadily increasing. The service bureau of the highway department is called upon constantly to furnish material to writers who want to spread the good news of the attractions of the Land of Cibola.

THE TAX COMMISSION WANTS ASSESSMENT BE EQUAL OVER STATE

"While the state tax commission wants an equal assessment of property all over the state, at the same time the only instruction we can give you is to assess property at its actual value; that is the law," Nathan Jaffa, chairman of the tax commission, told the boards of county assessors at Santa Fe Saturday.

This observation was made during discussion by the various county boards regarding how they should proceed to determine a percentage upon which they could assess property in their own counties and at the same time develop a state-wide equal assessment.

"There will not be an equal assessment if we value our property at 100 per cent in Bernalillo, County," Assessor Tony Gilbert said, "if Dona Ana county adopts a 20 per cent basis and San Miguel county a fifty per cent basis. If all of the counties are going to assess 100 per cent that will be fine, but if one assesses at one percentage and another at a different figure, we can't hope for equality."

There was a suggestion from the back of the room that there are different ways of arriving at "actual values" a forced sale, the replacement value, or the law of supply and demand might be taken as standards and different values reached in each instance.

There was a frank discussion of the fact that while the constitution requires the assessment of property at its "actual value" the practice has been to put it on the tax rolls at a percentage of that figure.

It will be up to the various boards to determine what basis they shall select to arrive at actual values.

2,000 TO MARS AND BACK

The automobile of America will travel approximately 156 billion miles during 1930, according to a computation made by the National Automobile Chamber of Commerce. "Oh," thinks the modern American who is used to spinning miles during a single day, "that isn't so much; just remember how many automobiles we have." Those 156,000,000,000 miles, however, represents more than 4,000 times the distance to Mars, states Alvan Macauley, president of the National Automobile Chamber of Commerce, and if one contrasts the distance with the motor-traveled in another country, it gains significance. In China for instance, all the people with the exception of a comparative handful, are born, exist and die within a radius of twelve miles.

While we are congratulating ourselves on the progress and freedom that have been brought about by the motor, an enterprising historian has traced the automobile's origin to France and the year 1769. The blessed peace time vehicle was actually invented as a military necessity by Nicholas Joseph Cugnot, a French captain of artillery, who was eager for some means of moving heavy cannon more rapidly. Captain Cugnot devised a crude tractor-form of machine that could carry four persons and even transport them at the terrific rate of two and a quarter miles an hour! The vehicles were steam driven. This was at the same time that Watt was striving to improve his steam engine. The year 1679 is also, incidentally, the year of Napoleon's birth.

SOUTHERN PACIFIC LOOP TRIP TO GO TO CAVERN

F. S. McGinnis, vice-president in charge of traffic of the Southern Pacific railways announced at Carlsbad that his railroad will develop a loop trip in southern New Mexico featuring the Carlsbad Caverns. This loop trip for vacationists will include Alamogordo, Cloudercroft, El Paso and Carlsbad.

Mr. McGinnis and his party made a trip through the Caverns and he predicted Cavern visitors would reach the attendance of Yellowstone and Yosemite national parks and the Grand Canyon.

OLD RESIDENT OF ROSWELL DIES HERE

John Weisinger, a resident of Roswell and Artesia for many years, was buried in the Carlsbad cemetery after services at 11:30 Saturday morning in the Thorne chapel. He died in St. Francis hospital yesterday morning of pneumonia, after an illness of a week in the hospital.

For eight years, Mr. Weisinger was in the employ of the state highway department at Roswell. He was 48 years old. Surviving him are a divorced wife and her two children, in California, and a brother, who lives in Unalaska, Texas. The brother was notified of the death, but up to noon Saturday had not replied to the telegram.—Current-Argus.

Father: "The man who marries my daughter will get a prize."
Ardent Suitor: "May I see it please?"

Scientists say the bee language is a kind of dance performed with their feet. As we recall, the only bees that ever tried to communicate with us have sat out the dances.

THINGS THAT NEVER HAPPEN

By GENE BYRNES

HIGHWAY DEATH TOLL INCREASES NEARLY 50 DURING THE YEAR 1929

One person out of every four thousand New Mexicans was killed in a highway accident in 1929. The death toll jumped from 72 in 1928 to 101 in 1929 on New Mexico roads. This is nearly a fifty per cent increase in the highway death toll.

The percentages assigned to various accident causes remain about the same. Again, motorists' liability heads the list, with 65.8 per cent of all accidents traceable to definitely preventable causes. Approximately 30 per cent of all accidents were caused by the inattention on the part of the driver under which head comes recklessness, incompetence and carelessness.

Speeding as an accident cause dropped one per cent in 1929, with 23.8 per cent of accidents laid to this cause while 1928 showed 24.8 per cent. Intoxication also showed a drop of from 12.6 per cent to 6.9 per cent. The column "miscellaneous" remains at nearly the same figure with 4.8 per cent in 1929 against five per cent in 1928.

Rain and snow showed a rise to approximately five per cent, defective vehicle a drop of three per cent to 15.2, skidding nearly the same with 1.5 per cent, strong lights 2.4 per cent and defective road 1.8 per cent, the latter being a rise of four tenths of one per cent over 1928.

Under the heading "condition of road" there was a definite rise in the "good" column of 11 per cent. Nearly three-fourths of all accidents occurred on good road. Approximately 11 per cent occurred on "fair" road, six tenths of one per cent on "bad" road, nearly five per cent on "new work" and 11 per cent were "unknown."

Curves were the location for nearly twenty-five per cent of the accidents while straight road has 34.4 per cent chalked up. No accidents were reported on detours, slightly more than one per cent at railroad crossings but over 6 per cent on bridges, spillways and similar structures.

LOCAL OWNERSHIP FEATURE OF J. C. PENNEY CO. STORE

"The national opinion shared by housewives all over the country is that the J. C. Penney Co., store is a part of the town in which it is located and this is substantiated by the personal experience of investigators who have covered all sections of the country," says M. G. Schultze, manager of the local J. C. Penney Co., store.

"In nearly every locality the manager is allied with some community activity, is invariably a member of Kiwanis, or Rotary, or Lions or similar organizations and is active in the local Chamber of Commerce and other civic and business movements.

"A study of local contributions reveals the fact that in a large number of cities, the J. C. Penney Co., managers are among the leading contributors to charity and they are not restricted in this phase of their activities.

"Certain typical cities where studies have been made, disclose the fact that the women employees, in many cases, are the best paid of all women salesmen in those cities and that liberal bonus awards at the end of the year, enhance their earning capacity.

"Every manager is a stock holder in the company and therefore in the store which he operates and in this respect occupies a position similar to that occupied by other local merchants who utilize a certain amount of outside capital to finance their business.

"Among the J. C. Penney Co., store managers are found men of nearly every recognized creed and of widely divergent political opinions.

"In many sections of the country, the J. C. Penney Co., store has been the pioneer department store of the locality and there are many towns of which it is said, 'they grew up around a Penney corner,' by the older inhabitants."

THREE DEATHS AND FOURTEEN BIRTHS ARE RECORDED IN JAN.

Residents of this section are preparing to make a splendid showing in the federal decennial census, according to the opinion of Judge S. E. Ferree, sub-register for the Cottonwood, Atoka and Artesia districts. Judge Ferree recorded fourteen births against three deaths during the month of January.

Births were recorded to Mr. and Mrs. E. M. Lindley, son; Mr. and Mrs. James E. Francis, son; Mr. and Mrs. E. E. Joy, daughter; Mr. and Mrs. E. W. Briscoe, daughter; Mr. and Mrs. B. Bricker, daughter; Mr. and Mrs. J. W. Lanning, son; Mr. and Mrs. A. E. Crawford, daughter; Mr. and Mrs. Lester Dolphes McKay, son; Mr. and Mrs. Landis Feather, daughter; Mr. and Mrs. Benito Lopez, daughter; Mr. and Mrs. Orba Briscoe, daughter; Mr. and Mrs. Frank Mullenax, daughter, Mr. and Mrs. Percy W. Gary, son; Mr. and Mrs. Joe Garcia, son.

Deaths recorded were: Mrs. M. L. Henry, Mrs. E. L. Gardner and A. J. Parker.

OIL STORY

(Continued from first page)

county, known as the McDonald No. 1.

Among the promising tests in eastern Eddy county, is the Arnold No. 1 of Henderson and Dexter in the SE sec. 23-17-30, which recently encountered a favorable break at 3,185 feet. The hole filled 500 feet with fluid in 24 hours. The Turner No. 2 of Jack Danciger in the NWSW sec. 18-17-31, is drilling below 3,545 feet with a hole full of oil. Operators estimate the present production of the well at better than 100 barrels daily.

A deep test will be made of the Anna Wright No. 6 of the Midwest Oil and Refining Co., in the NW SE sec. 14-19-38, east of the Hobbs field, which last week encountered sulphur water at 4,232 feet.

RABBIT DRIVE LAST SUNDAY

It was estimated that five hundred rabbits were killed in a drive on the C. N. Moore farm Sunday. About forty men and boys participated in the shooting. Shells for the drive were furnished free by the farmers.

Rabbits are very numerous about here, and they cause great damage to the crops each year. Now, as the duck season is over, the nimrods of Hagerman and Dexter ought to get a little good practice for next year on these baby kangaroos of the plains. The farmers were considerate of us by letting us tramp over their fields day after day hunting ducks. Lets pay them back now by helping them rid their lands of this pest. They'll appreciate it.

—The Hagerman Messenger

SEASONABLE DISHES

As almost every one likes a good potato salad here are two worth adding to your card index:

Potato Salad.—Take ten small boiled potatoes, three small cucumbers, three stalks of celery, four hard-cooked eggs, one small grated onion. Cut the vegetables into thin slices and use any desired dressing with salt and cayenne to season. The charm of a good potato salad is lost unless the dressing has had plenty of time to season the potatoes and cucumbers. The potato should be marinated at least two of three hours with a snappy dressing, then the cucumber and onion may be added a short while before serving.

Salad Dressing.—Take the yolks of seven eggs, gradually beat in four tablespoonfuls of the best olive oil and one-half cupful of melted butter, the juice of a lemon, three tablespoonfuls of salt, one-half cupful of vinegar, one tablespoonful of sugar, one-half teaspoonful of mustard. Cook over hot water until thick.

Cheese and Celery.—Take a cream cheese, add enough cream to make slightly soft, season well and tint a delicate green. Make a mound of browned, salted and peppered walnuts and radiate the stalks of celery around the mound. Serve with crackers as a salad.

Cheese Nests Salad.—Take cream cheese, tint a delicate shade of green and roll into small eggs around a peanut or almond. Pepper with finely minced parsley and a few with chopped nuts. Lay into lettuce nests and serve with a mayonnaise dressing.

Sherry's Dressing.—Mix one-half cupful of olive oil with five tablespoonfuls of vinegar, one-half tablespoonful of powdered sugar, one small chopped Bermuda onion, two tablespoonfuls of finely chopped parsley, one-half teaspoonful of chopped red pepper, one tablespoonful of chopped green pepper and one teaspoonful of salt. Let stand an hour in a mason jar; shake for five minutes before serving.

THE GROUND HOG SAYS SIX WEEKS MORE OF INCLEMENT WEATHER

Those who believe that the ground hog knows his stuff when it comes to forecasting the weather, will make a mistake to discard their "heavies" or put their wraps away in the summer closet. Mr. Ground Hog saw his shadow, Sunday, February 2nd, and according to the ancient legend we are to have six weeks more of inclement weather. Judging from the first two days of the week, we are inclined to believe this ancient sage knows his weather.

Most of the weather observers will do well to hold in mind that the ground hogs on the local golf course were laboring under somewhat of a handicap on the above date. An Advocate representative, stationed on said course to observe the reactions of the said animal on ground hog day, saw one hog dart back in his hole, after C. Bert Smith made a long shot, apparently forgetting to look for his shadow. Another animal was seemingly dazzled by the brilliancy of John Richard's "Zebra stockings" and only blinked as he darted for cover and no ground hog dared stick his head out of the ground while Tex Henson and Willis Morgan were on the course, for fear of getting a stray ball on the "noodle."

PUBLIC LANDS BILL FAVORABLY REPORTED

WASHINGTON, D. C. — A favorable report on the house bill carrying \$50,000 appropriation, authorizing President Hoover to appoint a commission of 25 persons to study and report on the conservation and administration of the public domain, was ordered yesterday by the senate public lands committee.

HOUSE PASSES 31 MILLIONS FOR RURAL POST ROADS

WASHINGTON, D. C.—The house yesterday adopted unanimously the Wood resolution to appropriate \$31,400,000 for federal aid in the construction of rural post roads. The measure now goes to the senate.

Chairman Wood of the appropriations committee, explained the Bureau of Public Roads was without funds and unable to continue the federal aid program.

ATTENDS FORD MEETING

Dick Attebery returned Thursday evening from Denver, Colorado, where he attended a meeting of the Ford dealers of the Denver branch. Several days were spent in outlining the work for the year 1930.

Calling Cards, 100 for \$1.75, on best grade paneled or plain stock.—The Advocate.

BOYS' DAY AT ROTARY

Tuesday was boy's day at the Rotary luncheon and a fitting program for the occasion was presented under the leadership of J. E. Robertson. Fourteen local boys were guests of the club at this time. Speakers appearing on the program were: J. E. Robertson, C. O. Brown, Rev. H. G. Scoggins, Dr. O. E. Puckett, Miss L. G. Todd and Miss Edith Hodgson. Among the boy guests present included Edgar Bishop, Richard Wheatley, Mark Corbin Jr., Robt. Grassi, Osborne Keller, Delbert Jones, Orval Gray, John Collins, Billy Bullock, J. C. Paris, Cavitt Jackson, David and Frank Clowe.

Out of town visitors present included Clarke Dilley, L. Lewis, R. H. Daniel, of Roswell, Miss L. Todd, county nurse, of Carlsbad, Dr. O. E. Puckett, county health officer of Carlsbad and Miss Edith Hodgson, state health nurse.
