Compress Plant To Be Located at Artesia

Contract of Six And A Half Acres Purchased South of Farmers Gin For the Removal of Plant at Artesia.

Negotiations have been completed for the location of a cotton compress here, it was learned today. The Valley Compress Co., as Cruces has purchased a half acre consisting of six acres south of the farmer's gin and plan to move from Las Cruces. This many owns and operates two compress plants in the Las Cruces and several weeks ago determined to move one of the plants to a suitable site. The purchase of the site was completed this week and the new compress is expected to start moving to the location immediately. W. K. Funkhouser, son of H. A. Denton of Artesia former resident of the Cottonwood community is a stockholder in the compress plant, it is understood. The compress location was purchased through Gilbert and Collocal real estate dealers.

HECKING LICENSE PLATES

Men from the state comptroller's department, Messrs. D. W. Coley and E. Blue, have been since Tuesday noon checking the 1933 auto license plates. Several cars have been spotted in the 1932 plates, but it is known what disposition has been made of the offending cars, as auto owners failed to purchase new plates after the first of the year.

CONDITIONS STILL SLOW

Hard Westaway of Carlsbad, a tax assessor reported yesterday that tax renditions were coming in slow. Only about fifty per cent of the property in Eddy county has been rendered to date. After January a penalty of twenty-five per cent will be applied for non-renderment.

TRUCK LOADED WITH BURNED NORTH TOWN SUNDAY

A practically new Chevrolet truck loaded with feed was destroyed by fire at an early hour Sunday morning about two miles from town. Donald Williams, driver, the driver, was seen to enter from Clovis to Loving when the accident occurred. It was Williams fell asleep for a moment and the truck veered into a ditch, turning bottom side up. He is believed to have rignated in a short in the battery. Both Williams and his companion escaped with slight hurts.

SWISHER SHERIFF SHOT DOWN SUNDAY BY THREE BANDITS

Several persons were arrested over the Panhandle and eastern New Mexico for the fatal shooting of Swisher county sheriff John C. Moseley, Sunday night. Sheriff Moseley was shot to death after he had attempted to stop a suspicious looking car in the edge of Tulia. Later the bandits robbed a filling station at the scene of the killing and escaped. Pecos valley officers were notified to watch out for a dark colored V-8 Ford, in which two men and a woman were riding. Moseley had served as sheriff of Swisher county some five or six years and had visited in the home of The Advocate editor some four or five years ago.

FIVE ARE ARRAIGNED ON LIQUOR CHARGES AT CARLSBAD TUES.

Five men were arraigned before United States Commissioner J. W. Stagner at Carlsbad Tuesday morning on charges of violation of the national prohibition laws following raids staged during the past several days by Prohibition Officers R. L. Neal of Roswell and John Huntley of Albuquerque aided by Sheriff Walter McDonald and Deputy Sheriff Howell Gage. Three were released on bond while two had failed to make bond. Another is charged with violation but has not yet been arraigned. The six were arrested either at Carlsbad or at Loving. L. C. Rice of Carlsbad pleaded not guilty to the charge, waived preliminary hearing and made a bond of \$500. John Hardin of Carlsbad, pleaded guilty, waived preliminary hearing and made bond of \$500. A. M. Brinninstool of Carlsbad pleaded not guilty, waived preliminary hearing, and made a bond of \$500. Julian Benavidez of Loving pleaded not guilty, waived preliminary hearing, and had not made bond of \$500 Tuesday. G. Wash. Blake pleaded not guilty, waived preliminary hearing and had not made bond of \$500. J. E. McFall, charged on the same complaint with Brinninstool was not arraigned Tuesday. Beer, whisky and wine were obtained by the officers, it was stated in the charges.

WATTS HEARING POSTPONED

The preliminary hearing for Emerson Watts Roswell broker was indefinitely postponed Monday at the request of George L. Reese, Jr., in order to give more time to look into evidence and into the complicated questions of law involved. The hearing had been set for ten o'clock Monday morning before W. C. Winston, Roswell justice of the peace. Watts is charged with embezzlement in connection with the operation of his brokerage firm at Roswell. When arraigned he pleaded not guilty to the charge.

EDDY CO. TAXPAYERS ASSOCIATION ELECTS OFFICERS TUESDAY

All Former Officers Are Re-elected—The Organization Submits 20 Recommendations To The State Legislature.

At the annual meeting of the Eddy county tax payers association Tuesday afternoon, all former officers were re-elected as follows: George Price, Artesia, president; Albert Blake, Artesia, vice-president; E. C. Higgins, Artesia, vice-president; C. P. Pardue, Loving, secretary; J. R. Ogden, Loving, treasurer. An executive committee of nine are to be appointed at a later date by the president. The president, Mr. Price made a report of the past year's activities and several talks touching on the local tax situation were made by Messrs. W. R. Hornbaker, of Artesia, Damon, A. J. Crawford, and Dr. Glazier of Carlsbad. County Superintendent H. R. Rodgers of Carlsbad also made a brief speech on the county school situation and called attention to the school meeting to be held at Carlsbad Friday afternoon to discuss the financial condition. Mr. Rodgers expressed an opinion that the schools might be cut to seven months this year unless other means of financing were adopted. He stated that at the present rate of payments, only about fifty-five per cent of the state and county taxes would be paid by July. At a previous meeting of the association met and submitted about twenty recommendations to the state legislators. Among the most important recommendations submitted to the legislature for consideration were that New Mexico teachers should be given preference where qualifications were equal and that all state educational institutions of higher learning should be consolidated into two schools, the state university and the state college. The state school for the blind and the state school for the deaf were excepted so far as these institutions dealt with college or university training. A resolution was offered and accepted authorizing the establishment of a board of control, which body would have the power to select the county officers and their deputies. The most important recommendation was the enactment of a poll tax, which would require each voter to pay \$1.00 poll tax.

THE BILL TO ABOLISH BOARD APPRAISERS READY FOR THE GOV.

SANTA FE—Enactment before February 1 of the measure to abolish county boards of tax appraisers, would save the state \$60,000 State Tax Commissioner Byron O. Beall said yesterday. The bill has passed both senate and house and now awaits action by the governor. If the boards are not abolished by next month, Beall said, their appointment would be mandatory under existing law. Scouting rumors the measure repealed all assessment powers including of assessors, Beall said the bill provides "all powers and duties heretofore exercised by the board shall hereafter be exercised by the assessor."

WANT PRO LAW RETAINED

Several local ministers circulated petitions the first of the week addressed to J. H. Jackson, state senator and Messrs. J. D. Hudgins and Williams, state representatives from Eddy and Lea county, expressing approval of article 23, the state prohibition law and asking that the same remain on the statute books unchanged without any amendments or alterations.

THE COTTON CROP IS ABOUT GATHERED—8,830 BALES GINNED

With only three gins out of the six operating part time, the 1932 cotton crop is practically past history. According to estimates made in the three localities where gins are operating, Artesia, Lake Arthur and Cottonwood, approximately 180 bales remain to be ginned. Cotton to be picked is mostly low grade. The ginnings are divided as follows: Lake Arthur gin 590 Cottonwood gin 2,090 Association gin, Espuela 1,114 Association gin, Artesia 1,540 Farmers gin, Artesia 1,893 Association gin, Atoka 1,603 Total 8,830

EXPECT BETTER PRICES FOR WOOL THIS YEAR

Wool prices this spring should be from nine to twelve cents higher than the corresponding period of last year. Some eastern wool buyers have told west Texas sheepmen. J. M. Lea, representative of Draper and Co., of Boston is said to have informed wool growers of Sutton County, Texas that his company was ready to advance fifty cents a head on spring wool. Mr. Lea also believes that heavy goat losses and light mohair yields should cause an advance in the price of mohair.

NEW LOCATIONS TO KEEP INTEREST IN SOUTHEAST OIL AREA

Four Locations And One Completion For Hobbs Area—Two Tests Are To Be Abandoned In A Short Time.

New locations and one completion in the Hobbs field has served to keep up oil interest in the southeastern area. One location stated indicates that the north-west trend theory from the Hobbs pool is to receive more attention during the coming months. The Humble Oil and Refining Co., has made two locations, one of which will be drilled immediately this being the Hardin No. 1, 330 feet from the west line and 2,310 feet from the north line sec. 18-18-38, northwest of the proven area. The cellar has been dug to another new Humble well, about a half mile northwest of proven territory, this being the Rice No. 1 in sec. 13-18-37, which will probably be drilled as soon as the Hardin No. 1 is completed. Other new locations announced in the Hobbs area is the State No. 25-A of the Continental Oil Co., 330 feet from the north and 2,310 feet from the west line sec. 25-18-37 and the State No. 1 of the Skelly Oil Co., 660 feet from the south and 330 feet from the west lines sec. 17-18-37. A new producer is ready to be added to the production column in the Hobbs field, this being the Humble Oil and Refining Co., No. 3-B Bowers, a total depth of 3,808 feet and the 20-18-38, which was drilled to a total depth of 4,225 feet and on a company test the well made 11,660 barrels flowing open. The Lynch No. 1-B of the Texas Company sec. 24-20-34, in the Eunice area has proved disappointing. Sulphur water was developed at 3,808 feet and the test will likely be abandoned. Another interesting test which is being plugged is the Western Republic No. 1 of the Western Drilling Co., SE sec. 17-13-36, which was drilled to a depth of 5,222 feet.

BIRTHS

The following additional births are reported for this week: Mr. and Mrs. Clarence Conner, son, Wednesday night; Mr. and Mrs. Houston Henderson, son, Wednesday night; Mr. and Mrs. J. W. Withers, daughter, Tuesday; Mr. and Mrs. Tom Harrison of Hope, twin sons, Tuesday.

ARTESIA ASKS FOR SUMMER MEET N. M. NEWSPAPER ASS'N.

Newspaper editors and publishers of the New Mexico News Paper Association held the winter session of the association in Santa Fe Friday and Saturday with some twenty papers over the state represented. Important features of the meeting included an appointment of a legislative committee to work out a program of laws, requiring the publication of county, city and state expenditures in detail, the passing of a resolution demanding that New Mexico educated teachers be given preference in New Mexico schools and a resolution to publicize the attractions of the state in a more extensive manner during the coming year.

In the closing session Saturday afternoon, officers and the executive committee of the association were named. Ed L. Manson of the Clovis News-Journal was elected president, succeeding Carl Dodge of the Roy Record. Paul Guth of the Tucumcari News was chosen vice-president and Orvil Ricketts of the Farmington Times Hustler was elected secretary. The executive committee named included: W. C. Martin of the Artesia Advocate; J. G. Greaves of the Portales News; J. C. McConvey of the Santa Fe New Mexican; Kar Kilby of the Raton Range and Loy E. Cook of the Clayton News.

CRUDE OIL SLASHED 15 TO 20 CENTS PER BARREL IN NEW CUT

Effective Friday, crude oil in the principal producing areas of southeastern New Mexico was cut from fifteen to twenty cents per barrel. Hobbs crude was slashed from 50 to 30 cents. In Eddy county the Malco and Continental Oil Companies cut the eastern Eddy and western Lea areas from 40 to 25 cents and the Artesia field from 45 to 30 cents. The five cent differential in the eastern Eddy and Artesia field represents the difference in the pipe line carrying charge.

COUNTY EDUCATION BOARD APPOINTED

The new county board of education was appointed at Carlsbad last week and will consist of J. L. Williams, Malaga, chairman, J. B. Williams, Carlsbad; J. S. Shearman, Artesia and T. J. Terry, Cottonwood.

STONE IS FATALLY INJURED IN AN AUTO ACCIDENT MONDAY

Jessie Stone, died at St. Mary's hospital in Roswell Tuesday morning as result of injuries sustained when hit by a car Monday evening just north of Dexter on the highway. Mr. Stone never regained consciousness after being rushed to the hospital following the accident. With Stone was Orville ("Slim") Williams, who was out of the path of the car driven by Breeb Hurst of Dexter. A coroner's jury summoned to investigate the circumstances surrounding the accident rendered a verdict to the effect that the accident was unavoidable. Williams testified at the inquest that he saw the approaching car at a distance, but that it did not come close enough for him to feel any danger. Stone evidently stepped in front of the moving car when he became confused. Funeral arrangements were delayed awaiting the arrival of two sisters of the deceased from Shreveport, Louisiana, who arrived this morning. Funeral services will be held in Roswell this afternoon.

GLASS BANK PASSES THE U. S. SENATE YESTERDAY

New Measure If Approved Will Make Radical Changes In The Banking Laws—Long Absent When Vote Taken.

WASHINGTON, D. C.—Climaxing a two-year effort that included breaking one of the longest filibusters of a "lame duck" session, Virginia's 75 year old senator, Carter Glass, last night put through the senate his bill to make far reaching changes in the nation's banking laws. An overwhelming vote of 54 to 9 sent the measure to the house where leaders have said a combination of opposition and other waiting legislation would block a vote on it before this congress dies. The Virginia democrat, a former secretary of the treasury and mentioned as holders of the same post under President Roosevelt, squelched the opposition by circulating a petition to invoke the rigid cloture debate-limiting rule. Thirty-seven senators, including a dozen or more republicans and five senators who opposed cloture last week, signed the petition in less than an hour and it was evident the required two-thirds to adopt it was available if Glass entered it. In the face of this treat, Senators Long of Louisiana and Thomas of Oklahoma, democratic leaders of the filibuster announced they would no longer delay the bill, but predicted it was as good as "dead." Thomas and Long both gave assurance of their good faith by withholding any amendments, and in less than two hours the bill was passed. Long, paired against the bill, was absent when the vote was taken. The measure calls for more than 25 changes in the national and federal reserve acts designed to curb bank closures, assist depositors of closed banks and stop the flow of federal reserve credit to speculative channels.

C. OF C. NAMES NEW OFFICERS IN ANNUAL ELECTION MONDAY

Four officials of the Artesia Chamber of Commerce were re-elected Monday evening, at the first directors meeting of the new chamber of commerce year. The session was held in the Chamber of Commerce office. Mark Corbin was reelected president; M. G. Schulze was chosen vice-president; C. J. Dexter was reelected treasurer; Dr. J. J. Clarke, reelected secretary and Fred Brainard was reelected manager. Mr. Brainard is starting on his third year as manager having been chosen as manager about two years ago, succeeding N. L. Kremer.

FRANK NORFLEET HERE

Frank Norfleet of Hale Center, Texas, who jumped in the limelight several years ago, as a western detective was a business visitor in Artesia Saturday and while here was a guest at the home of Mr. and Mrs. Tex Polk. Mr. Norfleet, a prosperous rancher of the Texas panhandle was the victim of a huge swindle by a gang of confidence men several years ago and gained quite a bit of notoriety in his efforts to bring the men to justice. Every man in the gang paid for his part of the crime even though efforts to catch the men took Mr. Norfleet to several foreign countries and to all parts of the United States.

OUR FEDERAL FIDDLERS

The belief that the people "will witness radical reductions in federal apportionments and expenditures during the forthcoming administration" is expressed by Senator Tom Connally in a letter to Fred W. Hammer of Amarillo. Mr. Hammer recently wrote both Senators Connally and Sheppard that the people were looking to them for action in curtailing the ruinous cost of government, or that new representatives would be sent to Washington at the next election. Mr. Hammer was merely expressing the thought of citizens and voters everywhere. His letter is mentioned here because it brought written replies from both senators placing themselves on record for economy measures.

There is little wonder that the taxpayers are aroused. They see their money by the millions being wasted on foolish and futile expenditures. Mr. Raymond Clapper, the United Press correspondent who has rendered an invaluable service to the American people by his expose of relatives on the payroll of congressmen and senators, only last week brought to light the fact that the government is spending \$18,000,000 annually sending committees to Europe studying the corn borer. He told us at the same time that the total damage sustained by American farmers on account of corn borers has never exceeded \$250,000 in any one year.

A special dispatch from Washington the other day told of a "Catalog of Public Documents," 2,542 pages in bulk, costing \$22,000 or \$11 apiece for the 2,000 issues in printing alone, emerging from the government presses. It is the largest since wartime congress and tells the reader where all other pamphlets issued by the federal payroll may be obtained. Some of its contents are: "Uruguay's Tribute to the Gaucho," "Why Your Child Should Go To Kindergarten," "Nodular Lesions in Spleen of Swine," "Protection of Walrus and Sea Lions in Alaska," and "Feeding Cabbage to Hogs."

Meanwhile the taxpayer cries for economy—to the tune of Washington's fiddling.

Save those letters, Mr. Hammer. They contain a pledge we may want to check up on a year from now.—Amarillo News.

ABOLISH THE LUNG TEST

Boring congress and the public to death, inflicting a heavy printing expense on the taxpayer, and preventing the functioning of our well known system of allegedly representative government, the filibuster is a monstrosity and the marathon speaker who relies upon leather lungs to defeat legislation ought to be outlawed. It is a crime against our institutions and high heaven to permit the emission of such a smothering deluge of words as that emanating for the past week or so from the unstoppable esophagus of the Hon. Kingfish Long of Louisiana. Whether used in the effort to avert good or bad legislation, the filibuster is an inhuman expedient and merely makes the toughest senatorial diaphragm the arbiter of the fate of the republic. It is one of the loudest arguments against the fantastically illogical lame duck session practice. Doubtless Huey Long should have credit for hastening the death of that anachronism, but talking legislation to death ought to be abolished under any and all circumstances.—Santa Fe New Mexican.

CLEAN UP

Physical cleanliness is one of the best panaceas for a low morale, a condition usual to times like these. It is said army officials insist on soldiers shaving regularly, even in the line of battle. Shaving has a wholesome effect. It will add physical comfort to those engaged in a deadly task.

The community spirit is exemplified by the residents of a particular area in much the same manner. Even though financial conditions are not what we could hope for, we can still retain our pride in keeping the premises we occupy orderly and clean. Spring will soon be here and with it the desire to clean up and renew the appearance of our property. Streets free from rubbish and garbage look much better. Let's give the place of our residence a little spring cleaning. We'll all feel better and look better.

ARTIFICIAL STIMULATION

Some oil operators see in the recent reduction in the price of crude oil, an attempt to break the proration operations in east Texas and elsewhere. The oil industry up until recently has been the most successful industry to apply artificial means to restrict production and if the oil business can not correct the overproduction menace, it would hardly be worthwhile for other lines of endeavor to try.

If all of the people who are looking for political jobs attend Mr. Roosevelt's inauguration, the city of Washington, from a financial standpoint, will put one over on Chicago's world's fair.

Don't make the mistake of thinking the big fellow is paying all of those excessive income taxes. He takes it out of the little fellows in the shape of additional profits.

If Mayor Cermak of Chicago continues having Al Capone's lieutenants and henchmen slammed into jail, there may be enough decent people left to reelect him.

We don't blame some of these congressional birds for doing a lot of talking. They like to feel that they have earned their salaries.

We can't expect all of the good things to come our way, and a lot of those that do come we don't want. It's a crazy world, anyway.

One reason that it takes time to overcome a severe business depression is that too many people give up and quit.

We haven't a word to say against the fellow who always borrows his neighbor's paper. The neighbor says enough.

LOCALS

W. C. Marable, Dayton farmer was trading in town Monday.

A daughter was born to Mr. and Mrs. Burditt Davis, Tuesday morning.

Cecil H. Lockhart of Pecos, Texas, oil operator spent Monday here looking after his oil interests.

Noel Meeks and family left yesterday for LaVerne, California where they expect to make their home.

Mrs. Paul Clewell was sufficiently recovered to return from the hospital at Carlsbad last Wednesday.

Dr. Edward Welsh and family spent the week-end with Mr. and Mrs. Jim Jackson on the ranch near Mayhill.

Mr. and Mrs. Stephen Garst, of Magdalena, have been here the past week visiting her sister, Mrs. W. H. Cobble and family.

Mr. and Mrs. W. H. Cobble drove to Carlsbad Monday with their house guests, Mr. and Mrs. Stephen Garst of Magdalena.

D. I. Clowe, manager of the Artesia yard of the Kemp Lumber Co., was attending to court matters at Carlsbad Tuesday.

Neal Stollard, of Texon, Texas, manager of the New Mexico Pipe Line Co., spent the first part of the week looking after company business here.

Mrs. W. C. Gray left Tuesday morning for Columbus, this state to make an extended visit with her daughter, Mrs. Lola Gray Reed and family.

Marvin Jackson, James Jackson and Bill Latham of Mayhill, were here last Thursday on business and visited at the J. M. Jackson home while in town.

Mr and Mrs. Roger Durand and Miss Abby Durand and Mr. and Mrs. Ralph Pearson of the Cottonwood spent Sunday with relatives at Hagerman.

The Rev. H. M. Reeves, formerly of Portales has recently moved his family to Artesia and assumed his duties as pastor of the Assembly of God church.

Thebert French, Miss Inez Marley, Jim Huey and Miss Charline Sizemore of Roswell, were dinner guests of Thebert's mother, Mrs. W. S. French on Sunday.

A letter received by The Advocate last week from Mrs. Roy Flamm, nee Miss Lois Poynter at Los Altos, California advises us that she is contemplating returning to Artesia to make her home here.

The friends of Mrs. W. J. Haskins will be interested to learn that she is a patient at the Hendricks-Laws sanatorium in El Paso, where she expects to remain for some time. Mr. Haskins, who was here with her en route to El Paso, went on to their home at Judkins, Texas.

Miss Ruth French drove her niece, Miss Elizabeth Gage to Roswell Sunday to join the State College musical club on its return to the school. Mrs. Mary Baten Multer, of the music department, who accompanied the club on its trip, had heard Miss Elizabeth play in state contests at Silver City and Las Vegas, in both contests of which she won first place, and was so much impressed with her ability that she took the young lady with them to enter the music department of the school.

They Smash All Hoodoos Bravely

Thirteen prominent business men of Chicago have formed the "Jinx club" and, meeting on Fridays, they amuse themselves by defying all the common superstitions. Here are H. G. Powers, secretary; Sidney Strotz, president, and Joe Triner, vice president, breaking mirrors, spilling salt, and holding an opened umbrella indoors. And nothing has happened to them yet.

PICKED UP ON MAIN

Here's another contribution to the ten most beautiful words in the English language, which we swiped from the Tucumcari Daily News. They are no doubt the choice of Paul Dodge, editor.

Heterochromosome, encephalitislethargica, formadehydesulphoxylic, hexamethylenetetramine, sicherheitspolizei, xanthocreatinine, quadrisacramentarian, gastroenterostomy, photocromolithograph. Honorable mention: I, my, me, myself.

"Father," said the small boy, "what is a pork barrel?" "My son, you are entirely to inquisitive."

"Don't you know?" "Only in a general way. It's an institution, more or less mythical, to enable a congressman to show his folks that he can bring home the bacon."

"You say that you are the sole support of a widowed mother, your father having been recently killed in an explosion. How did the explosion happen?"

"Mother says it was too much yeast, but Uncle Jim thinks it was too little sugar."

"What are they moving the church for?" "Well, stranger, I'm the mayor of these diggin's, and I am for law enforcement. We've got an ordinance what says no dance hall shall be nearer than 300 feet from a church. I give 'em three days to move the church."

The train suddenly came to a grinding stop, which made the passengers jump.

"What has happened, conductor?" "Nothing much, we just ran over a cow."

"Why, was it on the track?" "No, we chased it into a barn."

In a few remote parts of the U. S. and more especially the state and national capitols, where it has not trickled down to the population that there has been any change in the business conditions, they'll still argue you down that this depression business is only a state of mind and will give you

MAKES WOMEN LOSE FAT

Miss Bea M. Haines of Dayton, Ohio writes: "I weighed 180 so started to take Kruschen. I never was so surprised as when I weighed myself the first week—I lost 7 pounds. I just bought my 3rd jar and am down to 145—am still taking them and never felt better in my life." (June 17, 1932).

To take off fat—take one-half teaspoonful of Kruschen Salts in a glass of hot water in the morning before breakfast—one bottle that lasts 4 weeks costs but a few cents—get it at any drugstore in America. If this first bottle fails to convince you this is the SAFE and harmless way to lose fat—your money gladly returned.

Don't accept anything but Kruschen because you must reduce safely.

WANTS \$15,000 TRANSFER

The state board of education Saturday asked the state finance board to make a transfer of \$15,000 in its favor to permit it to carry on its rural aid program.

The rural aid work is financed out of the mineral leases fund. The federal treasury's annual check to be credited to this fund is being held up, crippling the work. In sending the check, the comptroller of the United States deducted more than \$1,000 to reimburse Uncle Sam for the gasoline tax paid New Mexico on fuel used in government owned cars. If the state accepts the reduced check, it will recognize the right of the government's claim to the exemption, and whether the state can legally do so is a question that is being debated in official circles.

SEATING MAY BE OF INTERIOR

WASHINGTON, D. C.—Three States senators will be seated in the Roosevelt cabinet accept places which their offices say have been offered. They are: Senator Carter Glass of Virginia, secretary of the treasury; Senator Thomas J. Walsh of Idaho for attorney general; Senator Bronson Cutting, New Hampshire, progressive republican, secretary of the interior. It is said, was definitely placed in the incoming cabinet's official family during its visit to Washington last week and has accepted yet.

Senator Glass is conferring with friends over the advisability of accepting a place he held as part of Woodrow Wilson's administration.

Senator Walsh, long a member of the senate foreign relations committee. Both are in their sixties, both are frail and neither is likely to burden himself with the tremendous amount of detailed work which accompanies each job.

Senator Cutting, happy in an atmosphere where he is gaining respect, power and respect, is not likely to prefer a senate seat, although western progressives are delighted with his appointment. They would regard it as a major recognition of their contribution to Mr. Roosevelt's administration.

GOES HOME TO DEATH

Yukio Ozaki, seventy-three-year-old Japanese statesman and pacifist and a former mayor of Tokyo who left London recently for home believing that certain assassination awaited him upon his arrival there. Mr. Ozaki's statements in the United States and London are said to have been construed by some of his countrymen as unpatriotic.

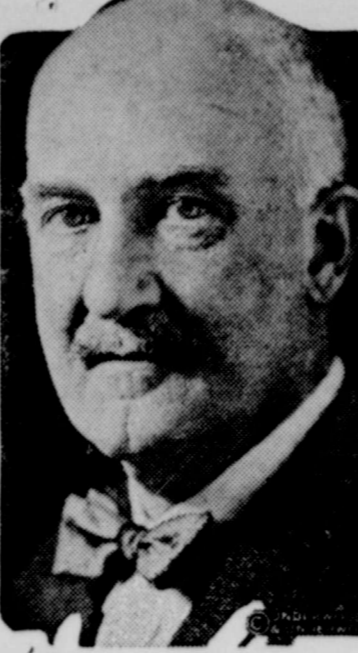

FEDERAL DISCOUNT RATE IS LOWERED

WICHITA, Kansas—The federal Intermediate Credit Bank of Wichita announced the first of this week that financing institutions discounting farmers' notes with it can now charge an interest rate not exceeding 5%.

"Because the federal intermediate credit bank was able to sell its debentures bearing a very low rate of interest," announced John Fields, president of the institution, "the loan and discount rate of the bank was reduced on January 16 from 3 1/2 to 2 3/4%." This is just one-half the rate charged at the beginning of 1932. The reduction in rate is largely attributed to the beneficial effect of the act of congress last May which made the debentures of the federal intermediate credit banks eligible as collateral security for loans made to member banks by federal reserve banks. This made the debentures more liquid and more desirable, from an investment standpoint. The action of congress was reflected by a reduction in interest rate by the federal intermediate credit bank to 3 1/4% on June 15, 1932. The lower rate just established, is a combination of the reflection of the liquidity of these bonds and their desirability as an investment plus a general low rate on short-term paper.

Fourteen agricultural and livestock credit corporations have loans discounted with the federal intermediate credit bank. Of these corporations, two are in Colorado, two in Kansas, four in New Mexico and six in Oklahoma. Discounts are held by the bank from one state bank in Colorado, four in Kansas and two in Oklahoma.

ENVOY WAS VEXED

Irwin W. Laughlin, American ambassador to Spain, who declined to attend a ceremonial dinner because the vice president of the Spanish republic was given precedence over the ambassadors in the seating.

The lights in the crowded bus had failed and the passengers were thrown in confusion. "Can I find you a strap?" the tall young man asked a young lady at his side. She smiled sweetly. "Thank you," she replied, "but I have just found one." "Good!" he replied. "Then perhaps you wouldn't mind letting go of my tie."

ARTESIA DEFEATS ROSWELL 21 TO 15

The Artesia Bull Dogs made a whirlwind finish in the game with the Roswell high school at Roswell Friday and won 21-15 after trailing until the last period. Artesia failed to register a field goal during the first half and was trailing 13-7 at the end of the third quarter. In the final period Artesia scored fourteen points while Roswell only tallied once.

Williams of Artesia with eight points was high point man of the game. Following is the box score:

TWENTY-SIX COUNTIES ARE OVERDRAWN

Twenty-six of New Mexico's 31 counties were overdrawn in their accounts on January 1, statements of their condition as of December 31, 1932, filed in the state comptroller's office showed. Comptroller Juan N. Vigil said Friday at Santa Fe.

Many of the county overdrafts were small and constituted no serious threat to their credit, Vigil said, but a few were large enough so that their immediate elimination is of prime importance if those state units are to maintain good financial standing.

Vigil said that he intended to warn the county commissioners in the overdrawn counties that the practice of allowing overdrafts to occur habitually must cease and that greater care must be taken by them to see that expenditures are balanced by revenues.

The comptroller said that he did not think it would be necessary to do so, but that if the overdrafts in certain counties continue to occur with the regularity that they have in the past, he would notify the county's bonding company and ask them to compel a balancing of finances.

Bernalillo county, Vigil said, had the largest overdraft of the 26 erring counties. The amount overdrawn in Bernalillo, he said on December 31, was in excess of \$40,000.

HORSES ARE IN GOOD DEMAND IN COLORADO

DES MOINES—Horses are the only farm commodity in actual demand to day, believes Dr. James Farquarson of Colorado Agricultural College, Fort Collins, Colorado.

"It is not unusual in northern Colorado for a fairly good horse to bring \$125, with exceptional animals being worth much more," the doctor told members of the Iowa Veterinary Ass'n. "Horse breeding is coming back to stay."

For a Few Cents a Day

The home with a telephone has many advantages—for a few cents a day.

A telephone provides priceless protection against delay in case of sudden illness, accident or fire.

It provides the convenience of saving countless errands. It brings social calls, invitations, and banishes loneliness. It's a contact with employers who want to reach folks the quickest way.

These, and many other uses, are part of the telephone's daily service.

BROOD FISH PLACED IN FEDERAL HATCHERY

Brood fish are now being placed in the various rearing ponds of the federal fish hatchery east of Dexter preparatory to the hatching season, T. F. Nelson, superintendent of the hatchery, announced at Roswell Tuesday.

The state hatchery north of Dexter will be operated this season by the federal bureau of hatcheries under an agreement with the state for one-half of the output. The state hatchery will be operated this season only as a crappie hatchery, and the state will be to no expense except for the distribution of its one-half of the fish raised.

Black bass, perch, bream, cat and crappie will be raised this year by the state bureau of fisheries, everything now pointing to a most successful season.

WANTS SCHOOL LOANS

WASHINGTON, D. C.—Senator J. Hamilton Lewis, of Illinois, Tuesday made a strong plea for legislation authorizing the Reconstruction Finance Corporation to make loans for school operation.

If the schools close, teachers will go hungry and revolt, and thousands of children will have no place to spend their time, the Illinois senator said.

He said the situation opens the prospect of an army of new criminals.

LAME DUCKS ABOLISHED

WASHINGTON, D. C. — After ten years of trying and a hundred of waiting, the United States modernized its political machine by eliminating defeated officials—the "lame ducks"—from government.

A twentieth amendment was written into the constitution declaring that after this year both the president and the newly chosen congress shall take office the January following November's election, and that the old time short session which for so long has clogged the political machinery with its ineffectiveness, shall be held no more. The present one is the last.

Thirty-six states of the union ratified the amendment in less than one-tenth the time it took to convince congress that the country demanded abolition of this lumbering antiquity.

PLAN TO PROTECT OIL AND POTASH LANDS IN STATE

Albuquerque, N. M.—A plan for production of oil and potash from state lands, which he said would return sufficient revenue to make taxes unnecessary, was advanced Saturday by Stephen Roehl, county assessor.

He proposed that the state construct plants to refine the oil and potash from its own lands.

"With an investment of \$500,000 the state could make \$7,000,000 a year profit," Roehl said.

He planned to go to Santa Fe to discuss the idea with members of the legislature.

\$9,599,948 FOR DRY ENFORCEMENT

Washington.—Nine million, one hundred twenty thousand dollars, the smallest sum in the 13 years of national prohibition, was earmarked for the enforcement of the dry laws in the fiscal year 1934 by the four department appropriation bill reported Saturday to the house.

The budget recommended \$9,599,948, but the house appropriations committee applied the average cut of five per cent on the measure as a whole to the amount asked for the prohibition bureau.

INTERNATIONAL SCOUT COUNCIL RANKS HIGH

Report compiled at headquarters of Region Nine, Boy Scouts of America, released this week shows that out of the forty-five councils in the region, the International Scout Council ranks high in number of scouts per capita in 100,000 population. The number of scouts enrolled in any council is one of the best indications of the interest and "life" of scouting in that council. Region nine includes the states of New Mexico, Arizona and Oklahoma. Headquarters are at Dallas.

HALLORAN CASE IS DISMISSED YESTERDAY

PHOENIX, Arizona — Superior Court Judge J. C. Niles dismissed yesterday a charge of accessory to the crime of murder against J. Halloran. The "inconsistency in the state's case," Judge Niles said, arose from the testimony of the chief witness, Winnie Ruth Judd, who testified she slew the man here on October 16, 1931, self defense after an argument that started over Halloran's friendship with another woman.

NEW CONTINENTAL GAS DESCRIBED AS ENGINEER'S TRIUMPH

The Continental Oil Co., has recently placed on the market a new gasoline, which is being offered by seven retail stations in the Artesia area. The new product is bronze in color to distinguish it from the ordinary white gasoline and is described by company officials as an engineering triumph in performance. The new motor fuel on sale over many states is said to possess many advantages over the ordinary Chief among the advantages are that it is made to suit the needs of the climate in which it is sold. It has a higher octane value and therefore is a more perfect anti-knock fuel. From the manufacturing standpoint it is made on a smoother curve and has the quick starting feature combined with more power and more mileage.

The Continental Oil Co., is offering \$10,000 in prizes, \$5,000 for a name and \$5,000 for the best slogan. Our readers will recall that the Continental also offered similar prizes when the new germ process motor oil was placed on the market some two years ago, which met with a general and popular response. Any Continental dealer will be glad to give further details concerning the prizes. See the display ad in this issue for particulars.

PONCA CITY, Oklahoma—Accepted as an expression of confidence in the business outlook for 1933 was announcement here by Continental Oil Co., of the approval of the largest advertising budget in the company's history, coincident with the release of an advertising campaign announcing a \$10,000 prize contest in connection with the introduction of Conoco's new bronze high test gasoline.

"Not only will the 1933 advertising budget be the largest in the company's history," said President Dan Moran, "but the major portion of the appropriation will be devoted to the purchase of newspaper space."

The \$10,000 prize contest, which is being announced in newspaper advertising throughout the country offers \$5,000 as a grand prize for the best name for Conoco's new bronze gasoline, and \$5,000 in 74 cash prizes for the best slogans describing the merits of the new high test gasoline. The contest will close February 26th.

SILVER ADVANCES

NEW YORK—Heavy buying in silver futures on the national metal exchange Tuesday has brought the sharpest price advance in several months. Active contracts jumped from a half to one and three-quarters cents per ounce. Traders attributed the rush of the speculative demand to the possibility that some form of inflationary legislation may benefit silver.

WASHINGTON, D. C.—The cry for the remonetization of silver at a 16 to 1 ratio with gold, heard far and wide in the nineties from the lips of the late William J. Bryan, rang out again Tuesday in the senate as an effort was made by democratic liberals to attach such an amendment to the Glass banking reform bill.

Senator Wheeler of Montana revived the historic issue with the declaration that the boosting of silver prices would cure most of the world's troubles. He said that it would doubt the value of the world's primary money and said that there is not enough gold in the world to transact business.

GOVERNOR WANTS TO CUT \$4,207,835 OFF THE STATE BUDGET

Appropriations reduced to \$4,207,835 are recommended by Governor Seligman in his budget message, sent up to the house Saturday at Santa Fe.

They include \$10,960 emergency appropriations for the present fiscal year; \$2,120,995 for the 22nd fiscal year, ending June 30, 1934, and \$2,075,880 for the 23rd.

The total for each year is under what the departments and institutions requested. The governor pruned \$250,759 out of their requests in making these recommendations.

The appropriations made by the 1931 legislature were \$2,276,233 for the 20th and \$2,259,675 for the 21st (the current) fiscal year.

However, the governor points out, only \$2,005,264 of the appropriations for the present year is to be expended because of curtailments insisted on by the state authorities, including himself, because of the falling off in tax collections.

Of the appropriations approved by the governor it will be necessary to raise by means of the property tax \$1,536,465 for the 22nd and \$1,496,150 for the 23rd fiscal year. The rest is expected to be produced from miscellaneous revenues.

No estimate is made by the governor as to the tax rate required to raise these amounts. However, Rupert F. Asplund, director of the Taxpayers Association of New Mexico, said it would take 5-3-10 mills, based on the expectation of a 90 per cent collection, if the state's valuation remains unchanged. A loss in valuation is expected.

The 1932 levy for state purposes was 5 1/2 mills.

It may be necessary to uncover other sources of revenue to make possible a reduction in the state's rate, says the governor.

The amounts requested for the next two fiscal years, off which the governor trimmed \$250,759, were \$2,244,272 for the 22nd and \$2,203,362 for the 23rd year.

The \$10,960 emergency appropriations include: Preparation and printing of the budget—\$1,000.

Capitol custodian committee, to pay seven extra employes during the legislature—\$840.

Department of education, for printing a course of study—\$3,000.

WANT TAX MORATORIUM

SANTA FE—Three bills designed to bring relief to the harried New Mexico taxpayers were passed by the senate of the 11th legislature Tuesday.

One of the measures would declare a moratorium for the benefit of property owners in general. Of the other two one would aid the farmer and the other the city dweller.

A reduction in the lien for interest and penalty on delinquent taxes for 1931 and prior years to six per cent, and a period of nine months grace in which to pay taxes for the first half are provided in HB5, which the senate passed 17 to 5.

The measure called for a six months delay before delinquency for the first half. This was amended, after much argument, to make the period nine months. The amendment was offered by Senator Arthur Starr (D., Dona Ana).

For support of this amendment, Senator Starr said the farmer would not be benefited by a six months delay but would in nine months.

RATIFIES LAME DUCK AMENDMENT

SANTA FE.—The state legislature Saturday ratified the lame duck amendment to the national constitution, making it the thirty-fifth state to do so. Only one more state's ratification is needed to make the measure a part of the federal constitution and eliminate the lame duck session of congress.

Under the amendment, the newly elected congress will take office in January following the election and it would not be necessary to wait 13 months for the congress to meet in regular session.

Ratification came when the house passed without a dissenting vote the senate joint resolution which previously had been approved by the senate unanimously.

The signature of the governor is not necessary.

CHAVES FARMERS DROP NON-RENTITION THREAT

Chaves County Farm Bureau, through its executive committee in session at Roswell Friday voted unanimously to use every sane and reasonable effort to reduce taxation in Chaves county and to accomplish this end members of the committee voted to join various other agencies and associations in Chaves county in a united drive on high taxes.

Members of the committee said they had abandoned a plan which had been announced formerly by some members of the association for non-rentition or non-payment of taxes in Chaves county until they had received a blanket reduction of 50 per cent on farm property and improvements.

REPORTS ON COTTON SHOW IMPROVEMENT

The government report on the grade and staple length of the cotton ginned in the state of New Mexico up to December 1, 1932, has just been issued according to President H. L. Kent of the New Mexico State College.

The grades on this year's crop are not as good as last year. About 69 per cent of this year's crop graded extra white, middling or better, while last year nearly 92 per cent was classed in these grades. The lower grades this year are largely due to bad weather toward the latter part of the picking season.

Staple length, however, shows substantial improvement over 1931. Of the crop to December 1, 1932, 20 per cent stapled 1 1/4 inch or better as compared with 7. 6 per cent of the year before. In the 1 1/16 to 1 3/32 lengths, there was 45.4 per cent in 1932 and 39.8 per cent the year previous. In the length under 1 1/16 the percentages were lower in the 1932 report, there being less than 1 per cent in these lengths as compared with nearly 11 per cent in 1931.

This improvement is largely due to the work being carried on by the New Mexico Crop Improvement

Subject of the Bible lesson for Sunday, January 29th, is "Love." Golden Text: 1 John, is: "Beloved, let us love one another; for love is of God; and every one that loveth is born of God, and knoweth God."

One of the citations in the lesson-sermon 1 John 4: "There is no fear in love; but perfect love casteth out fear."

A correlative passage from the Christian Science textbook states: "The fear of disease and the love of sin are the sources of man's enslavement. The fear of the Lord is the beginning of wisdom," but the scriptures also declare, thru the exalted thought of John, that "perfect love casteth out fear." Visitors always welcome.

A new Junior B. Y. P. U. was added to the general B. T. S. organization of the First Baptist church last Sunday night. The New Junior Union known as the "Deacon's Buddies" is under the leadership of Mrs. F. C. Rowland. Officers were elected and the deacons and parents of members were elected as honorary members and urged to visit the union as often as possible. A splendid program was rendered by the youngsters without reference to their quarters which is one of the first steps toward reaching the A-1 standard set for Junior Unions. There is now four unions in the local Baptist training service: senior, intermediate and two junior unions.

The huge navy airship Macon, sister of the Akron, is shown above 5 per cent covered. Two of the four fins are in place and installation of instruments in the control car soon will be made. The ship is scheduled for completion some time in March and following its trial flights and acceptance by the navy, is to be based at Sunnyvale, Calif.

5,112,139 Pounds OR 690,289 Gallons OR 2,556 Tons That folks represents the engine fuels, lubricating oils and greases that we delivered to customers in the Pecos valley during 1932. It would make quite a sizable greasy spot in any man's country. Its nothing to gain any national recognition over and may not be the largest in the valley; but we challenge any one to show a like gallonage for the first full year of distributing from one depot. THERE MUST BE A REASON. We contribute it to THE SATISFIED CUSTOMERS. Satisfied because we have the most complete dispensing equipment in the valley handling only the highest grade fuels at prices that are right. Let us show you how to make this year's crop with less trouble and expense. State Oil Service Co. Anything In Oil "THAT GOOD KIND" Phone Artesia 333

CATTLE ON FEED SHOWS DECREASE

WASHINGTON, D. C.—There was an increase of about 5 per cent in the number of cattle on feed for market in the eleven corn belt states on January 1, 1933, over the number on January 1, 1932, according to the cattle feeding estimate of the Bureau of Agricultural Economics. The percentage increase was about the same in the areas east and west of the Mississippi river but in the area east of the river, this represents an increase following an increase in January 1932 over 1931, while in the area west of the river, the increase this year only partially offsets the decrease in January, 1932.

In the western states, there was a decrease of about 7 per cent in the number on feed January 1, 1933, from the number a year earlier. This decrease was due to the sharp decrease in Colorado, which is usually the largest cattle feeding state in the western group. Most of the other western states either had increases or little change this year from last. The number on feed in Texas this year while large compared to most recent years, was a little smaller than last year.

Information furnished by a large number of feeders as to the weight of cattle on feed and probable months of marketing shows that the proportion of heavy feeders, weighing over 1,000 pounds, was smaller this year than last and that the proportion of both medium weights and light weights, including calves, was larger than last year. The proportion to be marketed before April 1 was reported as about the same as was reported a year ago, but considerably smaller than was reported two years ago.

While the shipments of stocker and feeder cattle from stockyards markets into the corn belt states during the last six months of 1932 were 10 per cent smaller than in 1931 and the smallest for the period in at least fourteen years, reports from feeders as to the origin of the cattle on feed showed a sharp decrease in the proportion bought at stockyards and a marked increase in the proportion of locally produced cattle and some increase in the proportion brought in from outside points other than stockyards.

FOURTH HUNDRED PER CENT ROTARY MEET

Tuesday was the fourth hundred per cent meeting held by the Artesia Rotary club during the month of January and the occasion was celebrated with an interesting address on the subject of international banking by J. E. Robertson. A new custom was instituted at this time that some member will make a five minute talk at each meeting. Fred Brainard was the speaker on this occasion, discussing the prospects for a hospital in Artesia. P. V. Thorson of Roswell, area scout executive made a short talk on scout work.

Four new members were initiated into the club Tuesday, the members being Jess Truett, Hugh Burch, Jim Berry and Earl Bigler.

FINED FOR CONTEMPT OF COURT WEDNESDAY

W. R. Hornbaker and Bob Morrison, cotton buyer were arraigned yesterday in justice court on charge of contempt of court and found guilty as charged and fined \$10.00 and costs. The case grew out of shipping out some cotton from the yards of the Alfalfa Association which had been attached and on which Mr. Morrison had a mortgage. The defendants gave notice of appeal to the district court.

Contempt of court cases are very unusual for the justice court of this district, according to Lake J. Frazier of Roswell, assistant district attorney, who prosecuted the case.

WATCH OUT FOR FAKERS

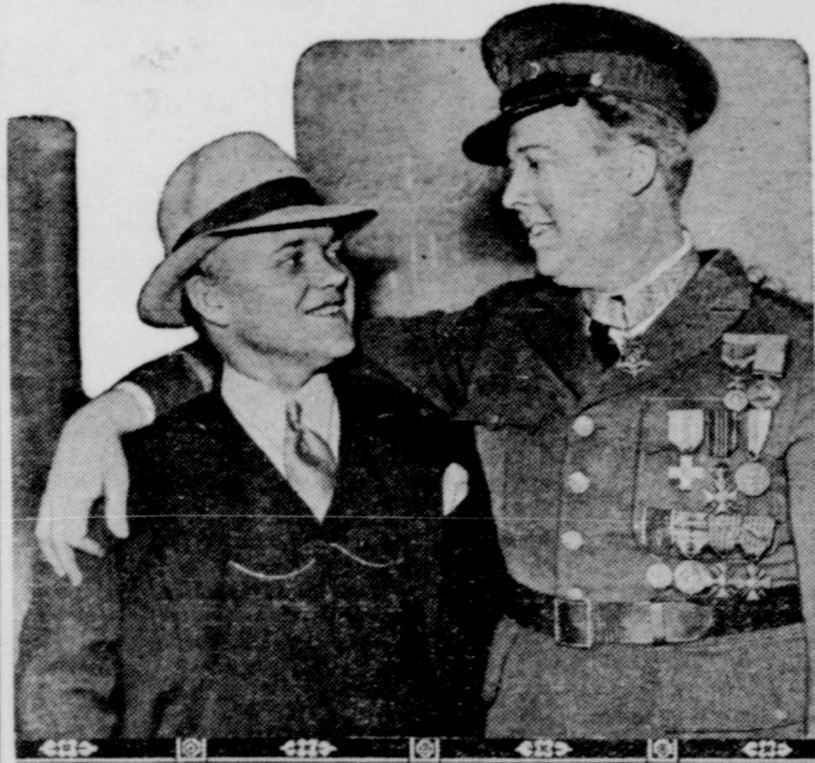

Several persons, firms and individuals are said to be operating at the present time on propositions connected with a free trip or trips to the world's fair at Chicago, beginning in June. Some propositions are legitimate and others are reported to be fraudulent. There are schemes operated in other parts of the nation which has to do with some sort of advertising and in which the merchant or business man may be asked to participate.

There are exceptions of course, but usually when something is offered free, it makes those who have had experience skeptical. The Advocate will be glad to cooperate in getting any information regarding a firm or an individual who seeks to promote trips to the world's fair, where expenses are paid.

JACKSON BILL TO AID STATE BANKS

SANTA FE — New Mexico's state banks moved a step closer to federal aid Monday.

The senate of the 11th legislature passed a measure which would permit them to borrow from the Reconstruction Finance Corporation.

The bill, introduced by Senator J. H. Jackson, (D., Eddy-Lea) has approval of the state bank examiner and the State Bankers' Association.

Under suspension of rules, it received 22 affirmative and no negative votes.

Approved under suspension of rules was SB56, introduced by Senators Ed E. Wilson (D., Bernalillo) and John H. Mullis (D., Chaves) to cut the penalty for non-declaration of property from 25 per cent to 5 per cent. The vote was 22 ayes, no noes.

One dissenting vote, that of majority floor leader J. W. Tackett, (D., Bernalillo-Sandoval-San Juan) was cast against SB 4 which proposes establishment of a plant at the penitentiary for production of motor vehicle license plates and highway signs.

Tackett said he opposed the measure because he feared it might keep out of the state some company which might contemplate setting up a plant to manufacture license plates. The bill was introduced by Senator Clarence F. Vogel (D., McKinley).

County boards of tax appraisers were started on their way to extinction by the senate by a favorable vote of 22 to 8, under suspension of rules, on a bill with that purpose.

Senator Taylor E. Julien (D., Quay) introduced a bill which would abolish the office of state comptroller and place its auditor's duties in the hands of the state auditor and collection work with the state treasurer.

WANTS TO DISCUSS THE SCHOOL FINANCES

Requests have been sent to the school boards of the three municipalities in the county, Carlsbad, Artesia, and Hope, by H. R. Rodgers, county superintendent, inviting them to meet with the county board of education at Carlsbad Friday to discuss plans for the holding of schools during the coming weeks.

Tax payments have been so meager that the possibility that schools may have to close before the usual time is seen and H. R. Rodgers, county superintendent of schools desires that all of the county boards discuss the situation since all are affected by the tax payments.

MISS CORA COTTON TO VISIT GRAVE OF NEPHEW IN FRANCE

Miss Cora Rogers of Artesia is among the five New Mexico women invited by the war department to make a pilgrimage this year to the grave of a relative in France, says the Santa Fe News.

During the past three years, 5,958 women have visited the eight cemeteries and chapels in Europe which hold the remains of American war dead. Six of these cemeteries are in France, one in England and one in Belgium. Each of the pilgrims has visited the cemetery in which the remains of her husband or son lies, or if his body was never located has visited the memorial chapel near the place of his death. His name is inscribed in the chapel.

The quartermaster general has been charged with the responsibility of arranging pilgrimages for the women and has established offices in New York and Paris to handle the movement.

Widows, mothers and relatives of soldiers from New Mexico buried in the Meuse-Argonne cemetery in France who have been invited to make the pilgrimage include: Miss Cora Rogers of Artesia; Mrs. Maria Jorgenson of Cliff; Mrs. Mathias Willhoit of Knowles.

Mrs. Mary Emma Williams of Grandy will make the pilgrimage because her son, Private Charles J. Williams was buried at sea.

Mrs. Alice L. Peplil of Flora Vista has been invited to visit the grave of her son in the Oise-Aisne cemetery.

Miss Rogers, who is visiting relatives in the east, plans to sail for France this summer, it was understood here. Under the ruling of the war department, Miss Rogers is eligible to make the trip as a foster mother of a nephew, Harry Rogers.
