

DUB MUSCLE SHOALS "NIAGARA OF SOUTH"

Likened to Great Falls as Potential Water Power.

Washington.—Muscle Shoals and its Wilson dam, in the further development of which the new administration has declared an interest, is the "Niagara of the South" insofar as potential water power is concerned, according to a bulletin from the National Geographic Society.

"Muscle Shoals is off the main highways and railroads, and considerably south of the center of population, and is therefore not so well known to traveling Americans, as some less important power sites," says the bulletin.

"The Tennessee river, on which these rapids are situated, is the main tributary of the Ohio and carries a large volume of water, especially in the spring months. The river, flowing far to the south and then far to the north, makes a vast bend, greater than that in any other of the major streams of the United States except the Snake river and the Rio Grande.

Drops About 130 Feet.

"Some of the headwaters of the Tennessee rise in Virginia and the stream then makes two complete crossings of the state of Tennessee, looping between times into northern Alabama. It is the portion of the river that lies in Alabama that contains Muscle Shoals, a section of rapids 37 miles long. In this short distance the river drops about 130 feet, nearly a third of the entire fall between Chattanooga and the Ohio river.

"Plans to improve the Tennessee at Muscle Shoals have been in existence for more than a hundred years. The work was first recommended by the secretary of war in 1824. This improvement was wholly for the purpose of bettering navigation. Work was actually started in 1831 and a canal with several locks was constructed, but was of small value. Further improvements to help navigation were made up until the World war, when it was decided to harness the river by a power dam and to utilize its electric energy for the production of nitrates to be used in the manufacture of ammunition. The Wilson dam was begun in 1916 and was not completed until 1925.

"This dam is one of the largest in the United States. The river spreads out to a great breadth so that the dam lacks only about 700 feet of being a mile long. It is approximately 122 feet high to the roadway on top, and contained at the time of its completion a greater volume of concrete than any other dam in the world. Because of the great width of the river at the dam site, construction was very costly. Dam and power house have cost to date \$47,000,000. The power house is situated at the south end of the dam and has foundations which provide for the installation of 18 giant turbines that will produce a maximum of 600,000 horse power.

"Since the completion of the Wilson dam and power house in 1925, the plant has been put to very little use.

"In connection with the building of the Wilson dam, the federal government constructed two huge factories for the manufacture of nitrates from the nitrogen of the air. The various buildings of one, situated at the town of Sheffield, a few miles down stream from the southern end of the dam, are scattered over more than 1,800 acres of land. It has never been in use. The second, four miles up stream from Sheffield and close to the end of the dam, occupies a tract of approximately 2,300 acres. It has been operated only on a test basis. The government also constructed a large steam power plant of 80,000 horse power with which to operate the second nitrate plant pending the completion of the dam.

Near City of Florence.
"The north end of the Wilson dam is in the suburbs of Florence, Ala., a thriving little city of 12,000 inhabitants. Florence is a typical inland southern town of shaded streets, many of them lined with fine old mansions. Like other communities near Muscle Shoals, Florence felt the hectic wartime prosperity that poured liberal wages into the hands of 20,000 workers on the dam and nitrate plants.

"When the Wilson dam was built, primarily for power production, the possibilities of improving the navigation of the Tennessee river by the structure were not overlooked. At the north end of the dam is a canal with its flight of locks through which river boats are lifted into the Wilson lake. Back water from the dam makes the river navigable for 14 miles up stream, but at this point a shallow stretch occurs. There an auxiliary dam is being built which will make the river navigable to Chattanooga. A small dam also has been built several miles down stream from Wilson dam to make possible the passage of river traffic over the lower end of Muscle Shoals.

"When the up-stream dam is completed it will be possible for Tennessee river traffic to operate from Chattanooga to the mouth of the river and on down through the Ohio and Mississippi to the Gulf, carrying its burdens of coal, stone, phosphate rock, coke, iron, lumber, furniture and farm and food products."

GOLD SUPPLY IS NOW OVER THREE BILLIONS

WASHINGTON, D. C.—Gold continued to pile up in the vaults of the federal reserve banks in the week ended March 29.

The weekly statement of the reserve board revealed Friday that \$44,444,000 had been returned during this period to bring the total gold reserves of the twelve institutions to \$3,236,766,000.

The present level is more than \$550,000,000 above that existing when President Roosevelt closed all banking institutions and issued his call for a segregation of the metal at the regional banks.

In the meantime, an abated fear on the part of bank depositors combined with expanded banking facilities to return \$255,000,000 of money in circulation to its normal resting place in the treasury and in the reserve banks.

Other than allaying a temporary fear, the new federal reserve bank note had played an inconspicuous role, the weekly statement disclosed.

Only \$14,228,000 of the new money had been put in actual circulation and is segregated in

five reserve districts of Boston, New York, Philadelphia, Cleveland and St. Louis.

TOO BAD -- TOO LATE

After an auto accident it is sometimes too late to have repairs made that might have avoided a tragedy and a wrecked car. Waiting until a break in your automobile occurs or a simple repair job runs into a neat little total is poor economy. Instead of shopping around for the best price on repairs after they are badly needed, a motorist would be far better off, if a regular inspection is made at stated intervals. Let us check your car at regular intervals and save you money.

Want to Hear a Secret?

... It's real news ... not gossip or propaganda. All set? Listen.

The announcement of the Bank Holiday caused most cash merchants to swallow a couple of times and try to wet their suddenly parched lips with a dry tongue. Sure ... we almost choked too ... but ... some rapid mental gymnastics calmed us. We decided to grant credit to anyone we knew. Think of it ... a cash store, granting credit. Some told us we were crazy ... we granted them the benefit of the doubt ... but went ahead anyway. The result? Listen to this. In ten days we accumulated more than \$1,000,000 worth of accounts, but in TWENTY FOUR HOURS after the banks reopened, 97% of these accounts were paid up in full!

That's gratitude. That's loyalty. We are prouder than ever of our customers. It proves they are honest, dependable, substantial folks who appreciated our policy and our service in an emergency.

A PROCLAMATION BY THE GOVERNOR

Executive Office, Santa Fe, New Mexico

Whereas, the Seventy-second Congress of the United States, at its second session, begun and held at the City of Washington on Monday and fifth day of December, One Thousand Nine Hundred and Thirty-two, passed a Resolution of Congress entitled: "JOINT RESOLUTION PROPOSING AN AMENDMENT TO THE CONSTITUTION OF THE UNITED STATES," which resolution is as follows, to-wit:

"Resolved by the Senate and House of Representatives of the United States of America in Congress assembled (two thirds of each house concurring therein), That the following article is hereby proposed as an amendment to the Constitution of the United States, which shall be valid to all intents and purposes as a part of the Constitution when ratified by conventions in three-fourths of the several states:

"ARTICLE—
"Section 1. The eighteenth article of amendment to the Constitution of the United States is hereby repealed.

"Section 2. The transportation or importation into any State, Territory or possession of the United States for delivery or use therein of intoxicating liquors in violation of the laws thereof, is hereby prohibited.

"Section 3. This article shall be inoperative unless it shall have been ratified as an amendment to the Constitution by conventions in the several states, as provided in the Constitution, within seven years from the date of the submission hereof to the States by the Congress."

JNO. N. GARNER, Speaker of the House of Representatives.

CHARLES CURTIS, Vice-President of the United States and President of the Senate.

Whereas, a certified copy of said Resolution of Congress was received by the Governor of the State of New Mexico upon February 23, 1933, from the Secretary of State of the United States, with the request that the Governor of New Mexico submit said resolution to a convention in the State of New Mexico, for such action thereon as may be had, and Whereas, the Eleventh Legislature of the State of New Mexico passed an Act entitled:

"AN ACT TO PRESCRIBE THE DATE, MANNER AND FORM DELEGATES TO A CONVENTION TO RATIFY OR REJECT A PROPOSED AMENDMENT TO THE CONSTITUTION OF THE UNITED STATES SHALL BE CHOSEN IN THE STATE OF NEW MEXICO; PRESCRIBING THE MANNER AND FORM OF ORGANIZING AND HOLDING SUCH CONVENTION; THE METHOD OF VOTING AND MANNER OF CERTIFYING THE RESULT OF THE VOTE AT SUCH CONVENTION AND PROVIDING FOR THE COMPENSATION OF THE DELEGATES OF SUCH CONVENTION."

Whereas, said act, having been approved by the Governor of New Mexico upon March 15, 1933, being an emergency act, became effective to all intents and purposes on said March 15, 1933, and

Whereas, under and by virtue of the provisions of said act, it now becomes the duty of the Governor of New Mexico, by public proclamation, to call a convention for the purpose of ratifying or rejecting the proposed amendment to the Constitution of the United States, as hereinbefore set forth as the "Joint Resolution Proposing an Amendment to the Constitution of the United States," and such proclamation to set forth the purpose, time and place of meeting of such convention, and the manner, time and places of choosing the delegates to such convention, and

Whereas, in said act it is provided the delegates to a conven-

tion, for the purpose of adopting or rejecting the proposed amendment to the Constitution of the United States relating to the repeal of the Eighteenth Amendment to the Constitution of the United States, shall be elected at a special election to be held on the 19th day of September 1933, held for such and other purposes, NOW, THEREFORE, I, ARTHUR SELIGMAN, GOVERNOR OF THE STATE OF NEW MEXICO, DO hereby proclaim and call a Convention to be held in the Senate Chamber at the Capitol at Santa Fe, New Mexico, upon November 2nd, 1933, at the hour of 12:00 o'clock noon on said day, there to be organized by the delegates thereto as by law provided for the organization of Presidential Electors, said Convention, on such day and at such time and place, and as organized as herein and by law provided, shall proceed to ratify or reject said proposed constitutional amendment to the Constitution, same being as follows, to-wit:

"SEVENTY-SECOND CONGRESS OF THE UNITED STATES OF AMERICA; Begun and held at the City of Washington on Monday, the fifth day of December, one thousand nine hundred and thirty-two.

JOINT RESOLUTION

Proposing an amendment to the Constitution of the United States.

LAMINATION, that a special election be called, held and conducted as hereinafter provided to elect delegates to the convention hereby called to be held at Santa Fe, New Mexico, as hereinbefore set forth. The manner, time and place of choosing such delegates, and the manner of calling, holding and conducting such election shall be in accordance with the law relating thereto and as follows, to-wit:

1. Within ten days after the date hereof, the Secretary of State of New Mexico shall publish this proclamation once in such newspapers as published notices of the last general election.

2. The number of delegates to said convention shall be three (3) in number, and the names of those persons, not in excess of three, pledged respectively to ratify or reject the proposed amendment who shall have first filed proper nominating petitions with the Secretary of State, as provided by law, shall be placed on the ballot as candidates for the office of delegates to said convention.

3. The ballots for such election, shall be prepared in the manner and form prescribed by the laws of this state relating to such elections. Said ballots shall be distributed, cast and canvassed in the same manner and form and under the same requirements as nearly as possible as is required by the general election laws of this state.

4. Said election shall be held throughout the state upon September 19, 1933, and the polls shall be opened at nine o'clock in the morning thereof and remain open until six o'clock in the evening, and after such time no ballot shall be received.

5. The three candidates receiving the greatest number of all votes cast throughout the state shall be declared elected and shall constitute the convention.

6. Certificates of election shall be issued as provided in the election laws of this state and shall contain the pre-election pledge of each delegate; Provided, however, that the County Canvassing Boards shall canvass the returns of such election within six days after September 19, 1933, and thereupon certify the results thereof in the manner provided by the law relating to general elections in this state and the State Canvassing Board shall meet in the State Capitol upon the fourth Monday after September 19, 1933 and shall at that time and place, canvass and declare the results of such election and issue proper certificates of election in the manner provided by law.

7. Any citizen of this state, who is a qualified elector, shall be qualified to vote for delegates to said convention, and any citizen of this state qualified to hold the office of Presidential Elector, shall be qualified to hold the office of delegate to said convention.

8. Registration for said election and the appointment of election officials shall be had and done as provided for in Chapter 135 of the 1933 Session Laws of New Mexico.

N. M. SHIPPERS LOSE \$100,000 YEARLY

SANTA FE—New Mexico shippers, according to the state corporation commission, are losing \$100,000 a year because of a rate established in January 1932. A hearing on this rate will be held in Albuquerque April 19, requested by the National Livestock association.

When the I. C. C. last year ordered states to submit rates, New Mexico submitted tariffs only on on-line shipments. A joint-line rate was not offered, the commission said Monday.

This works a decided disadvantage to the shippers, the commission said, explaining a shipment of 100 miles on one railroad and 32 miles on another brought a minimum carload charge of \$85.80 on the rates as they stand. In reality, the commission said, the rate could be \$59.40.

The difference is because each line collects the single line rate and the shipper pays 44 per cent more than if a joint-line rate was applied. New Mexico is said to be the only state in the Union which has this rate system.

The figures apply only to intrastate rates, as interstate rates are fixed by the I. C. C.

STATE MAGAZINE NOW AVAILABLE TO ALL

"New Mexico" the state magazine, is now available for everyone who desires it at a subscription price of one dollar a year, is announced today by Harry E. Shuart, managing editor of the publication. Heretofore, it has been a free distribution periodical the distribution being limited to the number which could be supplied with the magazine up to the amount made available for the cost of production.

In announcing the subscription plan, the editor of the publication said:

"We have been confronted with the necessity of being obliged to refuse to send the magazine to more than 5,000 persons who had requested it. The only solution to the problem was to ask each person who receives the magazine to pay one dollar. This additional income will permit us to send the magazine to all who request it and are willing to pay the nominal subscription price.

"It seemed manifestly unfair to charge to one person and to be obliged to refuse to send it to another, even though that person desired to pay for it. The volume of requests which we were unable to fill became so great that, in fairness to all, the only method we could adopt was to make a subscription charge.

"Those who have been receiving the publication without cost have been notified that it will be necessary for them to pay for it in the future. The magazine is also being placed on news stands at fifteen cents a copy.

"The decision to place a subscription price on the publication was made after a mail vote was taken among the readers. Out of 387 of those who had been receiving the magazine without any charge, 360 approved the idea of a subscription price and 27 did not.

"The subscription charge will not affect those magazines which are sent out of the state to tourist bureaus, chambers of commerce, libraries and others where they will serve the purpose of giving publicity to New Mexico and bringing into the state new people and new money."

Here's Grandfather of Typewriters

Operating one of the first typewriters ever made, Miss Eileen Dona depicts one of the world's first typists in the commemorative exercises, in New York, of the sixtieth anniversary of the invention of the typewriter and the entrance of women into the modern business world.

PRESBYTERIANS MET AT HAGERMAN AND DEXTER MON.-TUES.

The first session of the Pecos Valley Presbytery was held at the Hagerman church Monday evening beginning at 7:30 o'clock. The Rev. A. G. Tozer of Carlsbad, presided and delivered the opening sermon. The main feature of the session was a speech by Dr. McKean, missionary to North Siam, on his medical work. Dr. McKean expressed optimism as to the future of Siam and the work that is being carried on there. In the election of officers the Rev. J. A. Hedges of Hagerman was chosen as moderator for the ensuing year. The Rev. John Anderson of Dexter and Judge Harry Patton of Clovis, were elected commissioners to the general assembly. Dr. LeRoy Thompson of Roswell was chosen clerk.

Pastoral relations between the Clovis church and the Rev. E. S. Cook were officially severed and the Rev. Cook demitted his connection with the denomination.

Tuesday the Presbytery held an all-day meeting at Dexter. Mrs. R. L. Paris president, presiding and Mrs. Ralph Shugart secretary. B. F. Butts, syndical president of Las Cruces was in attendance and delivered a very interesting address.

Dr. James W. McKean, retired missionary, honored the ladies with his presence and brought to them a very helpful message.

Mrs. R. L. Paris was re-elected president and Mrs. Ralph Shugart secretary at the annual election of officers.

Those who attended from Artesia were: Mmes. Paris, Shugart, Kerr, Gilbert, Wheatley, Tarbet, Hoagland, Gates, G. R. Brainard, Knoedler, Truett, Wm. Linell, Hamilton, Russell, McCrory and Miss Emma Clark.

CERTIFIED SEED IS TAGGED AND SEALED

During the past week several seed dealers have been operating in the Mesilla Valley, selling gun run cotton seed as certified, says G. R. Quesenberry, of the New Mexico State College. Some of this seed is sold in used labeled bags, but is not certified seed.

Farmers should insist when buying seed represented as certified, that certification tags, bearing the name of the grower or association, are attached to each bag with a seal.

Certification tags and seals have been furnished every certified seed grower, and as they cost the seller nothing extra, buyers should expect to find one on every bag of seed.

FEE IS RAISED

Inspector Ed Toner of Carlsbad received mandatory instruction from the state cattle sanitary board to raise all inspection fees from 3 to 5 cents per head. Mr. Toner has no option except to obey, and the new rate is now in force.

INCOME TAX RETURNS SHOW A BIG DROP

WASHINGTON, D. C.—Income taxes of \$2,380,200 reported on March 31, the last day for filing returns, brought the total for the month to \$180,712,300 compared with \$195,410,800 a year ago.

The amount, however, does not represent all returns filed because many were mailed and would not be counted until this week, so officials believe the government still has a chance of exceeding the amount collected during last March.

The treasury's statement for the end of March showed the government completed nine months of the 1933 fiscal year with a deficit of \$1,522,239,493 and expenditures of \$2,883,853,282.

The gross debt of the nation on March 31 amounted to \$21,362,460,177 as compared with \$20,934,729,209 at the end of February and \$18,506,720,307 in March 31, 1932.

A drop of nearly \$300,000,000 in income tax collections for the nine months of the fiscal year was one of the causes of the deficit. In that time the tax has amounted to \$564,044,349 compared with \$853,532,165 last year.

the association another year was as follows: E. L. Harp, Artesia, president; Mrs. Merl Cramer, Raton, vice-president; Mrs. Francis Clark, Carlsbad, secretary and O. G. Joiner, Lovington, treasurer. All contestants who made a grade of average or better will be permitted to go to Lubbock, Texas to compete in the Tri-State Music Festival to be held there April 6, 7, and 8.

Towns and communities represented at the festival here included: Raton, Roswell, Hagerman, Tularosa, Carlsbad, Artesia, Lovington, Lake Arthur, Dexter, Hope and Hobbs.

Local attendance at the Tri-State Music Festival at Lubbock, Texas will not be as great as last year, but three cars will likely leave for Lubbock tomorrow. Among those planning to go are Ray Bartlett and Mmes. A. P. Mahone, Frank Miller, Howard Whitson, E. L. Harp, Ernest Hannah, Jr., Bert Muncy, Jr., Mrs. Doris Deter Welborne, Mr. and Mrs. Alvin Payne and daughter, Josephine. The following students plan to enter the contests: Misses Mary Ann Miller, Margaret Mahone and Phyllis and Shirley Bartlett and Josephine Payne, Ernest Hannah, Jr., and Bert Muncy, Jr. Others who may go have not announced definite plans as yet.

CARD OF THANKS

We deeply appreciate the kind words spoken and sympathy shown us during our recent bereavement. We especially appreciated the floral offerings. Your kindness will always be remembered.

Mr. and Mrs. Landis Feather and Bert Shipp left yesterday afternoon, going by way of El Paso, Texas to spend the night and on to Las Cruces for a short visit with Mr. Feather's brother.

CATCHES FIRST STEELHEAD

Oscar D. Goodsell, Roswell resident caught the first steelhead trout seen in southeastern New Mexico waters, at Lake McMillan last week, according to a report from Roswell. It was said that Mr. Goodsell was fishing for cat when he felt a mighty pull on his line and after a few minutes battle landed a steelhead trout weighing 2½ pounds.

MOHAIR PRODUCTION 1931-32

Mohair production in 1932, including kid hair, in six leading mohair states was 16,495,000 lbs., compared to 19,071,000 lbs., clipped in 1931, according to the estimate of the United States Department of Agriculture. This decline was due to a decrease of 7 per cent in the number of goats clipped and in the average clip per goat.

GOOD RECORD

Mrs. Grover Kinder, school nurse, has recently checked the first grade pupils of the Central school for diphtheria and found that out of 141 pupils, 138 were protected. Other grades are being checked as rapidly as possible and results will be announced as fast as the examinations are completed. Dr. O. E. Puckett, county health officer thinks the above record is a splendid one.

REESE WILL MOVE

District Attorney George L. Reese, Jr., will move to Carlsbad about May 1, he announced last week, following the close of his work in the March term of the district court at Carlsbad.

"Black Magic" Practice Popular in Old France

Charlatanism, sorcery and black magic concentrating in the terrific holocaust epitomized by the Marquis de Sade, carried on right into the bloody hours of the French revolution.

A French sorceress, Catherine Monvoisin, known as "La Voisin," was much patronized by the great ladies of de Montespan's time, with somewhat the same object as de Montespan, love, riches, avarice, hatred. La Voisin, clever woman that she was, soon got wealthy with her philters and witchcraft.

Her fame, of course, drew de Montespan, who along with a few minor episodes such as black mass celebrations, got embroiled in the famous "affaire des poisons," in which Montespan plotted with La Voisin to poison Louis XIV. The plot caused such a scandal that Louis closed the court. La Voisin was executed early in the case and de Montespan got off through influence. Later, strangely enough, after she went into retirement, she became so good as to come near sainthood.

Madame de Montespan was quite a generous patron of letters and she set the styles for clothes as well as decoration. She was born in 1641, died 1707.

Evolution of Sauerkraut

The story of sauerkraut is an interesting one, for it dates back to the very early preserving days. In those days all sorts of fruits and vegetables were placed in the sauerkraut in order to preserve them. Among these were apples, plums and pears. Every day some slice apples and add spices to their sauerkraut in order to secure unusual flavor. Sauerkraut as well as cabbage contains large quantities of vitamin C and is therefore valuable in our diet, and although these early folks who first tried to preserve cabbage did not know this, cabbage has always been considered a wholesome food.

Beauty Sleep

The first dim light filtered in through the filmy curtains and struck full upon her chin strap. It crept upward until it covered the cleansing cream generously smoothed upon her face. Still farther stole this first reviving beam; it touched the skin tonic, the special astringent, the muscle oil, the circulation ointment, and finally reached the eyelash darkener. At this point she stirred and thrust out a bare arm pink to the elbow with liquidine bleaching lotion. She turned uneasily and with a drowsy motion adjusted her wrinkle eradicator, and fell into another doze.—Kansas City Star.

A hearty welcome is extended to all.

SHIPPING OUT HAY

The Alfalfa Association reports an increasing demand for store hay. About two or three cars of hay are being shipped out daily to eastern markets and choice hay is bringing \$9.00 per ton. Hay seems to be higher than any other farm commodity at this time.

BOARD WANTS ONLY NEW MEX. TEACHERS EMPLOYED IN SCHOOL

Only those teachers, who are residents of New Mexico will be employed in the rural school system of Eddy county another year, the county school board meeting at Carlsbad last week decided. No married women teachers will be employed in rural schools. This rule will not be retroactive and will not apply to married teachers already in service. Teachers now employed, if they go to summer school must attend some New Mexico institution, unless they are pursuing some degree in an outside school.

SCOUTS IMPROVING PUYE

Girl Scouts of troops 1 and 3 will be found on the job regularly every two weeks throughout the spring season, improving and beautifying Puye. Because most of the troop leaders are members of the faculty of our city schools and are very busy at this time, members of the council will meet with the scouts to assist in their project. Plans have been completed to pipe water from the city main onto the Puye grounds, grass will be planted and the trees and other plants better cared for. Miss Evelyn Cobble is the newly appointed leader of troop 4.
