City Hospital Project May Start Soon—City Council To Call Special Bond Election

City Agrees To Call Bond Election In April, 1936; Firms And Individuals Asked To Advance The Funds For Project.

A serious effort will be made to bring the new City Hospital project to completion shortly, it was indicated this week. Already a committee of citizens are at work soliciting financial assistance in the undertaking, which will be owned and operated by the city. Firms and individuals will be asked to advance money to this enterprise and under a recent proposal bonds will be issued to care for the advances in funds made. The labor on the building which will likely be located on Roselawn avenue will be cared for under an FERA project, unless radical changes are made in the building plans.

City Passes Resolution
On the 15th of October, the City Council passed a resolution agreeing to call a special election for the purpose of issuing bonds not to exceed the sum of \$15,000, at the next regular election, which will be on the first Tuesday of April, 1936.

The bonds thus voted would care for the advances made by the various firms and individuals. If the FERA approves the labor plan, this will cut thirty percent or better from the cost of the building. Local merchants have agreed to order the hospital equipment at cost, which will still further reduce the cost of the project.

Aid of the larger commercial concerns will first be enlisted, but every firm or individual will be solicited to insure the success of the project.

PRUDE BROS. SHIP CALVES

Prude Brothers of Hope shipped 503 calves from the Lakewood pens Tuesday night. The calves were sold to a Mr. Tjades and went to Spivey, Kansas.

More Money For Cattle Buying Is Expected Soon

A total of 14,230 sheep have been purchased in the county. Checks amounting to \$28,460 have been received by the producers. All checks have been sent out within ten days after the shipment has been accepted. Only 890 goats were purchased.

A total of 20,128 cattle have been purchased for shipment and condemnation. A total of \$300,348 have been shipped during the past week. Eddy county still has an allotment of a few hundred head but these must be shipped soon. All cattlemen that have any cattle for sale or expect to have any within the next thirty days should list them immediately at the county agent's office. This can be done either by letter or phone. It is expected that Eddy county will receive an allotment of additional few thousand dollars for cattle purchases. This allotment will have to be accounted for within a limited period or will be transferred to some other county.

A total of 30 head of cattle have been used in the county for distribution among families on relief. Most of this meat has been canned as received by each family. This meat is distributed through the commodity clerks in the various communities.

L. D. Jones Injured When Overturned In His Car Monday A. M.

L. D. Jones, Artesia restaurant man, was painfully hurt Monday morning when his car was overturned and wrecked near the cemetery as he was driving in from the south. It was understood Mr. Jones ascribed the wreck to the fact that he went to sleep momentarily at the wheel and his car overturned when it hit a bump. The car flipped twice. Mr. Jones is still confined to his bed, but his injuries are not regarded as serious.

Deposits At First National Run Over The \$750,000.00 Mark

A few hours after The Advocate was published last Thursday, tabulations made of the deposits in the First National Bank of that date revealed that a new high mark of the season was reached at that time when the deposits totaled \$750,261.94. Since that time the deposits have varied and at one time jumped approximately \$3,000 above this figure.

Five Foot Rise In Pecos Result Of Big Rains Friday

Threatening clouds failed to materialize any appreciable amount of moisture here Friday night, although light to heavy showers were reported over southwestern New Mexico. Roswell reported 1.19 inches of rain.

The heaviest part of the rain Friday appears to have centered in the hills west of Hope where an inch and a half to two inches fell. The Lower Pecos section received moisture sufficient to fill tanks and run ditches. At the head of the Felix, the rain amounted to about two inches and the Felix ran bank full as a result. The rainfall extended eastward below Hope and northward to Clovis and beyond. Walter Coats, Hope rancher, reports an inch and a half of rain on his ranch four miles southwest of Hope.

Five-Foot Rise in River
The rain was heavy enough on the Pecos and its tributaries to cause a five-foot rise in the river here Sunday, reports said. Waters from snow and rains were still flowing toward Lake McMillan yesterday. Observers said the recent rains had put a foot of water in the lake and that Lake Avalon was practically full.

E. C. Higgins, who has been a patient at the Eddy county hospital for several days is showing improving according to the last report.

TWO MORE N. M. OIL LEASES SELL SINCE DATE OF SALE, NOV. 1

Since the day of the auction sale of state leases at Santa Fe November 10th, Commissioner Vesely has sold two more tracts, No. 3, 999.83 acres in townships 22 S., R. 32 E., and 24 S., R. 33 E., sold to W. S. Patterson, Santa Fe for \$100.00 and tract No. 16 to F. J. Denglade of Lovington for \$639.95, this tract was all in 13 S., R. 36 E. These sales brought the November total to \$33,367.08, of which \$7,657.60 was for rental and \$25,709.48 was bonus.

First Winter Hits

New Mexico felt its first touch of real winter this week with snow, sleet and rain covering the greater part of the state. Last night, this section had its first white frost. The thermometer at the government station registered 21 above, the lowest temperature of the season thus far. A cold mist and drizzle fell here yesterday, but the amount of moisture recorded was small, only .07 inches. In the Sacramento mountain district snow

fell as far east as the Lower Pecos community. Weed reported six inches of snow on the ground yesterday morning. The snowfall at Clouderoft was slightly heavier. The precipitation was .38 inches at Santa Fe yesterday morning, the greatest of any station in the state to report. The storm extended from Omaha, Nebraska, west to Salt Lake City, Utah, and the temperatures recorded ranged from 28 to 10 degrees above.

Eddy County Farm News

The FERA cannery at Artesia is still at work. According to present plans they will have enough vegetables on hand to keep busy all this week. A total of 17,000 No. 3 cans will be filled by this time. All of which produce will be distributed to relief families in Eddy county.

Application for garden projects for the year 1935, one for Artesia and one for Carlsbad, have been submitted for approval. Each project will include fifteen acres of land.

Cutting Leads By Margin 1,291 Votes

With the final official count available today on arrival of the absentee votes from Rio Arriba county, Senator Bronson Cutting, republican, polled 76,245 votes and Congressman Dennis Chavez, democrat, 74,954 votes, a difference of 1,291, according to the figures at Santa Fe yesterday.

Only 759 of the state's 760 precincts cast votes, it was discovered. In Rio Arriba county, a precinct did not cast a vote. It was Haynes 54.

Twenty-eight counties official, two others complete and the 31st county in the state shy 76 absentee votes in the final count give Senator Bronson Cutting, republican, a lead of 1,248 votes over Congressman Dennis Chavez, democrat for the six-year senate seat, according to tabulations compiled at Santa Fe Monday.

Of the 28 counties official, 20 have been recorded with the secretary of state and the figures on the certificates tallied with the official county canvass except in four counties, where there was a difference of a few votes.

The new totals for the state were: Cutting 76,214 and Chavez 74,966, a difference of 1,248 votes.

The official totals from twenty counties from the records of the secretary of state, and McKinley county from the county canvassing board figures, on the rest of the state ticket follows: Senate, short term: Dillon 31,236; Hatch 43,978. Governor: Miller 34,414; Tingley 40,525. Lieutenant governor: Gonzales 29,673; De Baca 42,150. Secretary of state: Perault 31,606; Gonzales 40,825. Auditor: Martinez 29,129; Garcia 42,347. Treasurer: McCormick 29,596; Connelly 43,045. Attorney General: Armijo 27,782; Patton 45,146. Public Instruction: Rosseau 29,406; Rodgers 43,074. Land commissioner: Lee 29,773; Vesely 43,211. Supreme court: Watson 30,243; Brice 42,679. Corporation commissioner: Baca 29,168; Valdez 42,285.

JOE WERTHEIM HAS A NARROW ESCAPE AS CAR FLIPS MONDAY

Joe Wertheim, Carlsbad cotton buyer and former resident, experienced a miraculous escape from death Monday afternoon as he was driving toward Carlsbad. Mr. Wertheim, driving a V-8 Ford had just passed a car in which Fred Brainard and E. B. Bullock were riding, six miles out of Carlsbad, and in passing the Brainard car, his Ford struck a soft shoulder as he momentarily took his eyes from the road and flipped, turning over five times before it finally came to a stop, landing upright.

Except for suffering a severe shock, Mr. Wertheim was not injured. Messrs. Brainard and Bullock, the first to arrive at the scene of the accident, expected to find Mr. Wertheim dead. Instead they found him beside the rear seat covered by the front cushion of his car. He was able to proceed into Carlsbad shortly after the accident.

Mr. and Mrs. Henry Paton of Fort Worth, Texas, arrived here yesterday to make a visit with relatives and attend to business matters.

Messrs. C. J. Dexter, Chas. Morgan, D. I. Clowe and Martin Yates drove down to Carlsbad yesterday and were guests at the luncheon of the Carlsbad Rotary club.

Loose Leaf Binders, special ruling and stock forms—The Advocate

Eddy-Lea Counties Must Elect Senator Within Short Time

A special election to fill the vacancy in the office of state senator from the 19th district, caused by the death of Senator J. H. Jackson, November 9th, is expected to be called before December 8th, it was learned here. According to attorneys, the election must be held within thirty days from the time the vacancy occurs, which in this case will be December 8th. There is no provision made for the appointment of a senator in the event of a vacancy, therefore Governor A. W. Hockenull is expected to issue a call soon.

A. W. Hockenull has requested E. K. Neumann, attorney general, to draft an election proclamation for a vote to fill the vacancy in the state senate caused by the death of Mr. Jackson.

The law requires that a special election shall be called in the event a vacancy occurs before the next general election provided a regular or special session of the legislature comes before the regular election, it was announced at Santa Fe.

Denis Chavez Is Expected To Contest The Senate Seat

Voters Waiting For Word From Chavez Who Is In Washington—Fraud May Be Charged To His Opponent's Election.

New Mexico voters yesterday awaited word from Washington as to whether Congressman Dennis Chavez would contest the apparent election of Senator B. M. Cutting for the long term United States senate. Congressman Dennis Chavez left Albuquerque with his family Friday for Washington and it is virtually conceded that Mr. Chavez will contest the election of his opponent, Senator Cutting, who, on the final official returns yesterday was given a lead of 1,291 votes.

It was believed in Washington that the election of Cutting would be contested on the grounds of fraud and excessive expenditures. The charges of fraud, it was learned, will probably be centered in San Miguel county.

If and when a contest is instituted, the senate itself, which is the judge of its membership, may finally determine who will represent New Mexico in the senate for the next six years despite the fact that Cutting holds a lead. Cutting has announced that the official returns have elected him, while Chavez announced that he had been elected and did not intend to have the election taken away from him.

It was rumored yesterday that Chavez would have a definite statement to make.

Announce Freight Rate Reduction On Short Hauls

WASHINGTON—The interstate commerce commission Tuesday ordered a revision of western trunk line class freight rates designed to increase the revenues of the railroads by reducing short haul rates and in effect increasing those for longer hauls.

The commission also created a new rate zone in eastern Wyoming to be known as zone four with a freight rate 15 percent higher than for what is known as zone three.

The finding is a revision of the western trunk line rate cases decided on May 6, 1930, when the commission authorized a general increase because of the relatively low level of western class rates on short haul shipments in order to meet motor truck competition and bring about some means of increasing revenues from long haul shipments.

The commission said Tuesday that the railroads had sustained their claim. Most of the revisions are technical.

Advocate Want Ads Get Results

Blanks Rural Rehabilitation Available Next Monday Morn.

The State Rehabilitation Corporation Is Formed And Ready To Advance Goods to Clients—Program to Start Soon.

Application blanks will be available by Monday, November 26, for persons who are interested in the services of the Federal State Rural Rehabilitation program. It is not necessary for applicants to be on the relief rolls.

The formation of the State Rural Rehabilitation Corporation has recently been completed and it is empowered to advance capital goods to rural rehabilitation clients. Capital goods may include the purchase or rental of land or buildings, repair on buildings, needed home equipment, livestock, work animals, feed, seed, fertilizer, equipment for community work and other facilities required by the clients in carrying out a farm and home rehabilitation program.

A plan will be worked out whereby the beneficiaries of capital goods should be able to make cash payment for the same over a period of two to five years. In all cases the corporation will hold title to all capital goods until paid for by the client.

Work relief labor may be used in constructing buildings for use by rural clients, or in making repairs on buildings to be used by clients, or in performing other services of benefit to them. The value of such labor is to be charged to the client benefited and will be repayable to the corporation. The charge to the client, however, is to be based on the appraised value of the work done, but under no circumstances will obligations for capital goods be liquidated by work relief labor.

After a plan has been formulated for the client his case will be taken to the County Rural Planning committee for discussion, advice and recommendations. If the committee recommends the family for rehabilitation, the completed application will be sent to the state supervisor of Rural Rehabilitation for approval or disapproval.

\$20,000 In Federal Farm Loans Are Made In Eddy Co.

A thousand one hundred and sixty farmers in New Mexico obtained land bank and land bank commissioner loans totaling \$2,592,000 through the Federal Land Bank of Wichita between May 1, 1933—the month congress passed the Emergency Farm Mortgage Act—and November 1, 1934. This report has been received from the land bank.

Although there was a slight increase in the number of applications for loans received during October over August and September, there is evidence of a leveling off in the number of applications being received by the bank, according to L. E. Call, the bank's president. During October, 2,734 applications for \$12,693,200 were received—394 from Colorado, 1,151 from Kansas, 106 from New Mexico, and 1,083 from Oklahoma.

A partial list of the counties of eastern New Mexico and the number and amount of farm mortgage loans the land bank has made in each:

Chaves, 26, \$70,000.
Curry, 227, \$508,200.
Eddy, 8, \$20,000.
Lea, 39, \$73,700.
Lincoln, 8, \$23,100.
Otero, 11, \$17,000.
Roosevelt, 193, \$398,100.

Mr. and Mrs. Perry Hill and Mr. and Mrs. John Fullilove drove over from El Paso last week to attend the funeral of Mrs. J. H. Jackson. After a visit with relatives they returned home Sunday.

Mrs. Henry Paton of Ft. Worth, but who is in Carlsbad for a few months, visited with relatives and friends here Wednesday.

Turkeys Will Be Fewer This Year Over The Nation

November 29th, the traditional Turkey Day, is close at hand, but up to the present time there is not the usual activity in the local turkey market. The birds are scarcer this year than usual in the principal producing areas because of the extreme dry weather during the spring and summer months. It is estimated that about a third less birds were raised this year than last and there will be a corresponding increase in price of thirty-three and a third percent over last year.

The normal turkey crop of this trade area is over 2,000 birds. This year the crop will be lighter but not as light as in some other districts, likewise the weight of the turkeys may not be quite as heavy as in other seasons. Choice turkeys have been retailing here at fifteen cents per pound.

Local Ginnings

Cotton picking operations were slowed down over the section this week as gathering operations near the end. A total of 256 bales have been ginned in the district since the last report.

The ginnings are divided as follows:

Lake Arthur gin.....	605
Cottonwood gin.....	2,475
Association gin, Espulla.....	1,807
Farmers gin, Artesia.....	1,756
Association gin, Artesia.....	1,621
Association gin, Atoka.....	1,403
Total.....	9,667

No Word On 2nd Cotton Rental Checks Here Yet

No definite information has as yet been received in regard to the second rental checks or the parity payment. These checks should be in the county agent's office any day. All producers will be notified immediately upon arrival of the checks.

No word other than the papers have been received at the national pool has been received on the 1933 option.

All producers interested in buying or selling tax exemption certificates should do so at once. The national pool advises that they do not have many on hand and there are very few in the county. After all certificates are gone the producers will have to pay the cash tax of .567 cents per pound.

Mr. and Mrs. Martin Yates and John Ashby expect to leave the first of next week for Austin, Texas, to spend Thanksgiving week with their children who are attending the state university there.

Martin M. Breit, representing Mergenthaler Linotype Co., arrived last Thursday to install our new Model 14-B Linotype. He left for Elida Tuesday to continue his round in this territory.

WILDCAT IN EUNICE DISTRICT MAY OPEN UP A NEW OIL POOL

Shell Well In West Eunice Showing Both Oil And Gas; Locations Staked For Three New Wells In Past Week.

One of the most promising wells in the Eunice district and one which will command attention for the next few days is the State No. 1 of the Shell Petroleum Corp., sec. 12-21-35, a mile and a half west of production. A show of sweet oil was developed at 3178-94 and gas at 3220-30 feet. According to a field report the test hole was full of drilling water and the gas was trying to blow out. Drilling was underway below 3248 feet.

Wells completed included the East Grimes No. 4 of the Gypsy Oil Co., sec. 33-18-38, which on a proration gauge flowed 13,640 barrels of oil with 15,714,000 feet of gas. On a tubing test the well made 5,994 barrels. The General Crude has drilled in its Myers No.

NEW NO. 14 LINOTYPE INSTALLED THIS WEEK

Mergenthaler's Latest Model Expected To Improve Typographical Appearance of Advocate in Future Issues.

With a great deal of satisfaction the publishers of The Advocate announce the installation of a new Model 14 Linotype. This mechanical marvel qualifies us to serve efficiently the large number of persons who look to our publication for enlightenment and entertainment, and who patronize our commercial printing department.

The increasing circulation of the Advocate, together with our desire to place at the command of our advertisers and others the highest grade of topography, induced us to secure a fine composing machine for the quick and accurate and pleasing presentation of the news of the day, and the production of superior commercial printing.

Our new linotype enables us to set by machine many forms of composition that previously necessitated tedious work by hand. Our plant is now capable of turning out composition consisting of correct type faces in many different sizes, and the change from one size to another is made very quickly. At a high rate of speed the versatile operator—whose hand is made famous by the Mergenthaler Linotype Company as "the hand that keeps the world informed"—produces line after line of the sort of composition desired.

This installation is a testimonial to the progressiveness of Artesia and vicinity. An that the good people of the community are duly appreciative of our efforts to serve in all departments of the printing business is manifested by the many compliments received from individual patrons since the arrival of our new machine.

Besides enabling the operator to set various faces and sizes of type, our new Linotype makes it possible for him to produce the rules and dashes and borders used in various advertisements in each issue of our publication. When employed in the composing of advertisements, newspaper headings, booklets, catalogs and many other kinds of printed matter, our new machine enables one operator to set in the same time more type than

NUMBER LAMBS WILL BE FED IN VALLEY AGAIN THIS YEAR

Several thousand lambs will be fed in the valley this year, but the numbers will not approach those last year, due to the shortage of feed. W. Leslie Martin is feeding 1,000 of the Bryant Runyan lambs on his farm south-east of town. The principal feeding operations are concentrated in the Dexter community, where several herds in this section have been moved.

The benefits of acid treatment in the lime districts have been clearly demonstrated and if one needed to be convinced further, the performance of the Humble Oil and Refining Co., State B-1, sec. 29-21-36, should be conclusive. This well was drilled to a depth of 3971 feet and on a gauge made ninety-seven barrels per day. After treating with 2,000 gallons last week the State B-1 made 116 barrels per hour through tubing with 1,920,000 feet of gas.

The Texas Company, Shepherd 2-B, sec. 6-26-34, has also run tubing to the bottom of the hole at 3243 feet to treat with 2,000 gallons of acid. After an eight hour shut down the well flowed at the

THIRTY-ONE YEARS OF SERVICE

Thirty-one years of service to the Artesia trade territory is past history with this newspaper, and while this occasion is not a birthday celebration for us, we do take the opportunity of calling attention to our faith in this area through expenditures for additional modern equipment.

There is nothing noteworthy relative to the accomplishments of the present publishers. What we have done in the way of rendering a public service, if it may be called a service, could have been done by any other group of individuals.

To have one of the best equipped printing shops in eastern New Mexico has been one of the chief ambitions of the publishers. Time will tell whether this has been a wise or foolish objective.

It will afford us much satisfaction if the next eleven years will bring to pass as many improvements and open up as many new developments as the past eleven have brought to the trade area during which time the publishers have been privileged to live here.

More remarkable in the eleven-year period has been the development of our mineral resources. In the beginning there was not a single commercial oil well in this section.

Modern highways have brought the Pecos valley, once regarded as an isolated section, into closer touch with other sections of the nation. Eleven years ago our highways were little more than trails.

And you can probably remember too eleven years ago the Carlsbad Caverns were known as the "Bat Cave" and what a difficult job it was to travel to and from the caverns.

COOPERATION

The importance of closer cooperation between Eddy and Lea counties cannot be stressed too much at this particular time. These counties have one common interest and that is the development of their mineral resources.

Stories in the news day after show plainly that danger lurks in the most unexpected of places. Consider the case of the fellow who was enjoying a game of poker—more or less friendly, it may be presumed—in a town in Ohio.

Some careless hunters will soon go on their last hunt.

RADIO Tubes, Batteries and Supplies Joe Hamann at MANN DRUG CO.

Chislings

If it's not one thing to harass the people it's another. They say it has broken out over this section and is spreading.

L. P. Evans gives this advice to his democratic friends: "If you wish to write Dennis Chavez, address your letter as follows: "And His Name Was Dennis, Albuquerque, New Mexico," and the following note to the Albuquerque postmaster: "If unable to find the address, please forward to Washington in care of Jim Farley."

They talk about the democratic machine of New Mexico, but if such is the case, the machine sure pulled a bone when all the democratic sheep were sold under the drouth relief program in some of the northern counties.

"Every time I have an argument with my girl friends, I enter it in my diary."

The only trouble about getting old is that your friends pass on and leave nobody to tell how handsome you were when you were young.

Job had patience, but, of course, he never had to wait on a government loan, says the Atlanta Constitution.

Republicans should take heart, we've just read where they can produce synthetic sheep.

Sinclair gave these "loud mouth" California boys something to talk about except the climate.

"William, what are the two genders?" "Masculine and feminine. The feminines are divided into frigid and torrid, the masculines into temperate and intemperate."

Boss: "When you called up my wife and told her I would be detained at the office, and would not be home until very late, what did she say?"

Steno: "She said: 'Can I depend on that?'"—Vancouver Province.

Fifty years make a lot of difference. While I am not old enough to remember back that far, lots of my acquaintances can and will verify the following story which I swiped:

I can remember back fifty years (1883) women wore hoop-skirts, bustles, petticoats, corsets, cotton stockings, high buttoned shoes, ruffled cotton drawers, flannel night gowns, puffs in their hair and did their own cooking, baking, cleaning, washing, ironing—raised big families—went to church Sundays and were too busy to be sick.

Men wore whiskers, square hats, scot ties, red flannel underwear, big watches and chains, chopped wood for the stoves, bathed occasionally, drank 10 cent whiskey and 5 cent beer, rode bicycles, buggies or sleighs, went in for politics, worked 12 hours a day and lived to a ripe old age.

Stores burned coal oil lamps, carried everything from a needle to a plow, trusted everybody, never took an inventory, placed orders for goods a year in advance, always made money.

Today women wear silk hose, short skirts, low shoes, no corsets, an ounce of underwear, have bobbed hair, smoke cigarettes, paint and powder, drink cocktails, play bridge, drive cars, have pet dogs, go in for politics and are always sick.

Plants That Contain Rubber

Among the plants native to the United States that contain rubber are six or eight species of Asclepias or milkweed; Indian hemp or Apocynum; various species of rabbit brush or Chrysothamnus nauseosus; numerous plants of a species of Euphorbia; species of goldenrod; guayule or Parthenium argentatum; Colorado rubberweed or Actinea. Rubber cannot be produced commercially from any of these plants.

Most Northern State

Minnesota extends farther north than any other state because a portion of Lake of the Woods county lies north of the forty-ninth parallel (which marks the northern boundary of Washington, Idaho, Montana and North Dakota) along the west shore of Lake of the Woods. Maine and New Hampshire are the two most northern of the New England states.

NEWS BRIEFS OF THE CHAMBER COMMERCE

"As Your Chamber of Commerce Is So Is Your City"

The annual membership meeting of the Chamber of Commerce will be held Wednesday, December 5th, at 6:00 p. m. To this annual meeting all members and their wives are invited but a special invitation is extended to every public-minded citizen of the Artesia trade area.

It is always difficult to get a speaker for such an occasion but this year we are especially fortunate to have as our speaker Roger Miller, who is manager of South-western Division of the United States Chamber of Commerce.

Tickets to the dinner are 50c and may be secured from the manager up to the evening of December 4th. We must know in advance how many to prepare for. Only 150 can be served and indications are that some will be refused dinner privileges due to lack of space.

England Raises Stone in Honor of Pocahontas

Heacham, England.—Echoes of a three-century-old bit of romantic history were revived the other day when a monument to Pocahontas was unveiled here.

Losses 1,000 to 1 Est

Dover, England.—Capt. George Morris gave up an attempt to swim the English channel after a five-hour battle through rough seas thereby losing £1,000.

What's in a Name?

A Fortune in This Paris.—A million two hundred thousand francs is what there was in a name that has just been sold here.

The name that brought this amount with the state taxes and expenses is the "Leon Chandon" champagne mark. The price is believed to be the highest paid for a trade name in the history of the champagne business.

The firm of Leon Chandon was created in 1892 and at that time sold annually about 10,000 bottles of champagne. By 1910 the output had reached beyond the million-bottle amount, and the new purchasers of the name are making extensive plans to promote the sale of their wares throughout the world.

Mrs. Rex Ragsdale of San Francisco, California, is here visiting her parents Mr. and Mrs. T. J. Stagner.

Making The Home More Livable

—With End-Lamps for the Davenport

By Jean Prentice

DID you ever notice how your family or guests gravitate toward the davenport when entering the living room? They usually do. So it's really not surprising how much pleasure and livableness can be secured by adding, as perfect complements to the davenport, good lamps—properly placed! Like an artist with a pallet of paints, a home maker with a davenport, lamps and end tables, can create a balanced arrangement that is beautiful to the eye—and more than that—good to the eye from the standpoint of lighting. How to go about it when one's davenport is placed against a wall is illustrated in the accompanying sketch. Although the lamp arrangement looks casually and gracefully simple, it embodies several technically correct things over which a lighting specialist would nod his head in approval. To begin with, the lamps (quite modish as twins!) are just the right height for this arrangement. Two 60-watt bulbs in each lamp insure adequate light. The shades are open at the top and sufficiently opaque to avoid undue brightness and glare even when both bulbs in a lamp are in use for reading, sewing, or studying.

Since the end tables in this living room are relatively low, the lamps selected are tall in order to send a sufficient spread of light on the book to be read beside it. However, if the end tables used were higher, the eye would catch raw glaring light from beneath the lamp shades. In that case a lower lamp standard like that at the right in the underneath sketch, or a still lower one, as at the extreme left, would be used. Be mindful of the height of your end table and select your lamps accordingly! Many of the better lamps of course have adjustable upper stems and movable sockets, allowing for change in height or spread of light. Bridge or floor lamps, of adjustable types like those sketched in the center, are second choice for this davenport arrangement. They should be placed at either end, the former with a 60 or 75-watt bulb in each lamp and the latter with two 60 or 75-watt bulbs in each one. The difficulty is that the taller floor lamps cannot be placed far enough to the back of the davenport (because of the wall) to keep unshaded light from striking the eyes. If your davenport, however, stands away from the wall, well, that's another—a coming story.

Stockmen Demand Lower Valuations For The Livestock

The state tax commission was asked Monday by representatives of wool growers' and cattlemen's associations to reduce livestock valuations. The request was made at a hearing in Santa Fe to determine the assessment on livestock and the stockmen representatives said a reduction was necessary to save the industry from destruction. The tax commission was told that the livestock industry is at its lowest ebb since long before the days of the Lincoln county (Billy the Kid) war. The commission was told that 400,000 head of cattle have been bought by the federal government; death losses have been heavy; there are fewer head in the state than there have been since the time New Mexico became a cattle country and stockmen are having a hard time getting by. A continuation of present valuations mean ruin, they told the tax commission. Rufus Kunkler, uncle of C. R. and Stanley Blocker, returned to his home in Wadsworth, Ohio, leaving last Thursday, after visiting here for two weeks. He visited the Carlsbad Caverns and several places of interest while here.

WANTED—Clean Cotton Rags at The Advocate.

Mr. and Mrs. Phillip Kranz of Roswell spent Sunday with her parents, Mr. and Mrs. J. C. Floore.

Mrs. Lula Riley of Carlsbad spent the week-end here with her sister, Mrs. E. N. Bryan and sons.

Mr. and Mrs. Pete Jackson of Silver City were here last week visiting his parents, Mr. and Mrs. J. M. Jackson and family.

E. A. Hensen, who is connected with the Artesia Pipe Line Company, and who has recently moved his family here from east Texas, has moved into the Sipple house on Roselawn, formerly occupied by the Emery Carper family.

WANTED—Clean Cotton Rags at The Advocate.

LOCALS

A daughter was born to Mr. and Mrs. Boyd Harrison of Dayton on November 17th.

A daughter was born to Mr. and Mrs. Jack Moon of the Cottonwood Monday night.

Miss Alice Moore and Mrs. Troy Olds were guests in the home of Mrs. Nora Johnson at Hope over the week-end.

The Rev. F. C. Rowland, who was taken seriously ill last week with an attack of asthma, is recuperating nicely.

Mr. and Mrs. Paul Otts and children are spending this week in San Angelo, Texas, visiting Mrs. Otts' parents.

The Rev. P. G. Woodruff, pastor of the First Baptist church here, left Monday for a visit with friends at Clinton, Oklahoma.

Mr. and Mrs. C. V. Brainard expect to move into town for the winter within the next week or ten days. They will occupy the residence of Mrs. Nancy Eipper.

Mr. and Mrs. Rex Wheatley were called to Amarillo, Texas, last Thursday morning on account of the death of S. W. De Boice, brother-in-law of Mr. Wheatley. They returned Sunday.

Mr. and Mrs. Jack Spratt spent the week-end in Carlsbad with Mr. and Mrs. W. E. Flint. Mr. and Mrs. Cal Bildstone were guests at the Flint home for dinner Sunday evening.

Ed Kissinger will leave Friday with his mother, Mrs. Mary Kissinger, who will spend the winter in California with her daughter, Mrs. Harry Vance and family at Rosemead, and her son Lee Kissinger and wife at Ontario.

J. E. Hooten, Lower Penasco merchant, was attending to business matters here Monday. Mr. Hooten reports his section received a splendid rain Friday night. The rain put the river up and filled all water holes, he says.

NOW

IS A GOOD TIME TO BUY SALES BOOKS

You are watching the markets closely. You know that recent events have strengthened the entire commodity price structure. And no doubt you realize that the upward swing may soon become even more general and more pronounced.

We do not claim the gift of prophecy, but we do believe it would be advisable to place sales book orders now for either immediate or future delivery.

Check your stock today, anticipate your requirements, and buy on today's low market. You can't lose and you may win.

The Advocate

Better TIMES AHEAD

We have noted with satisfaction the increasing optimistic spirit in evidence in this area and the improvement in the general business conditions.

On this occasion we extend to The Artesia Advocate a wish for many more years of useful service for the faith shown by this organization in the purchase of additional modern equipment.

GOV.-ELECT TINGLEY STUDIES PROBLEMS OF STATE FROM BED

Governor-elect Clyde Tingley is studying state problems from his bedside at Albuquerque.

Tingley suffered a second attack of lumbago recently and has been confined to his bed since his return Saturday from a hunting trip to Vermejo Park.

At present he is interested in getting his legislative committee at work on a program and is listing suggestions for a study on taxation, health and educational programs.

Most of those invited to sit on the governor-elect's commission

have accepted but Tingley said he does not wish to announce the personnel of the body until all acceptances are in and a time has been set for the first conference which will be as soon as possible.

Happenings and incidents connected with the early-day history of Artesia and the surrounding territory with which the older residents are familiar is chronicled in The Advocate, the oldest business establishment in Artesia. The Advocate was founded in 1903 by the late Gayle Talbot. The first issue on file is dated August 29, 1903, and if there was an earlier issue, it was not filed. The files of the newspapers published here prior to 1920 are incomplete, in fact, only about half of The Advocate files were preserved during this period and only about two years of The Pecos Valley News which was launched in 1906.

During the thirty-one years The Advocate plant has been in operation, there has not been a steady march of progress onward. Like other firms or individuals trying to establish a place in a new section there have been periods when this newspaper did well to make its appearance after a fashion and especially was this true in the years 1916 and 1917 when the community spirit was at its lowest ebb and a wholesale migration of the town's population seemed imminent.

Mr. Talbot, who established The Advocate, was twice identified with its publication after his first years of service. He retired the first time in 1905 to enter the real estate business and turned the helm of its operation to C. E. Biles. It appears from the files that Mr. Biles operated The Advocate until February, 1906, when it was again turned to Mr. Talbot. By the way, it seems while Mr. Biles was publisher of The Advocate he was so enamored with the climate that he ran the following slogan over the masthead: "No Stormy Winter Enters Here—'Tis Joyous Spring Throughout the Year." The publisher later "rued" the day he placed the slogan over his masthead and had to take it out. In August, 1908, Mr. Talbot again relinquished the duties of editor, this time to J. D. Whelan, who is now editor of a daily in Idaho. Mr. Whelan served as editor of The Advocate until J. L. Tullis took over the editorial duties in March, 1911, operating under The Advocate Publishing Co., a corporation of local citizens.

In the meantime, the Pecos Valley News was launched under D. L. and J. K. Newkirk in 1906. While a complete file of The News is not available, it appears that The News was operated until 1914 when it was consolidated with The Advocate. During the period when both The Advocate and News served the Artesia trade territory, the rivalry at times grew bitter.

In the year 1913 or 1914 A. W. Henry took over The Advocate. Mr. Henry operated the newspaper until 1917 or possibly 1918 when the plant was turned to Mr. and Mrs. Jack Hollister. From the best information available it appears that Mr. and Mrs. Hollister were operating The Advocate plant in what is now the

HOPE ITEMS
Frances Johnson, Reporter

Harvey O. Garst of Las Cruces was a business visitor in Hope Monday.

Miss Edna Puckett, teacher in the Hope schools, spent the weekend with her parents, Dr. and Mrs. O. E. Puckett at their home in Carlsbad.

The Rev. Ray McGrew, new pastor of the Methodist church, South, of this place, delivered his first sermon here Sunday to a large congregation.

Word was received here Monday by Mr. and Mrs. Dee Swift from their son-in-law, Harold Mehrine of Portales, that his father had passed away at Clovis Monday.

Mrs. Bryant Williams spent several days last week visiting her parents, Mr. and Mrs. Francis Johnson, and her sister, Mrs. Harve Walton, at their home in Portales.

Mrs. Albert Jackson and children left Friday for their home in Ft. Worth, Texas, after spending several months here visiting Mrs. Jackson's parents, Mr. and Mrs. C. R. Coffin.

Tom Latham was here from his home near Alamogordo visiting Mr. and Mrs. Dave Bunting. Mr. and Mrs. Cy Bunting, Mr. and Mrs. Bill Bunting and Ernest Bunting.

Mrs. J. P. Parks of the Parks ranch near Hope, left Tuesday for Estilene, Texas, where she will visit her mother Mrs. Z. C. Collier. She plans to spend about two weeks before returning home.

Mrs. Rene Skipworth of Milwaukee spent several days here last week visiting her brother, Bonnie Altman. She left Tuesday for Carlsbad for a short visit with relatives before returning home.

L. P. Glasscock, E. P. Tatman and Thomas Coffin, all ranchmen in the vicinity of Hope, returned Monday from points in Kansas where they went to arrange for winter pasture for their lambs.

Mrs. Laverne Wilburn and children returned to her home here Monday after spending several weeks visiting her parents, Mr. and Mrs. Sam Buckner, at their home near High Rolls while Mr. Wilburn was attending to business in Ajo, Arizona.

Mrs. M. E. Pichke, Mrs. Anna H. Coffin and Miss Mary Jane Williams left Friday for Albuquerque where they are visiting this week. Miss Williams is attending home-coming at the University. Mrs. Coffin is visiting her daughter, Miss Mary Catherine, and Mrs. Pichke is visiting her friends, Mr. and Mrs. L. M. Fletcher.

Mr. and Mrs. R. L. Cole entertained at their farm home Saturday evening with a bridge party. Those present were, Mr. and Mrs. Hawkins, Miss Hilda Kletky, Miss Marjorie Johnson, Raymond Buckner and Merle Ogle. Refreshments of hot chocolate, caramel cake, candy and apples were served at the close of the evening's entertainment.

Mr. and Mrs. Frank Curry and Miss Loy entertained the Hope school faculty with a theater party at the Majestic Theater at Artesia Monday evening. Those attending were: Supt. and Mrs. Edwin Hawkins, Edna Puckett, Edna Bullock, Pauline Merrill, Hilda Kletky, Marjorie Johnson, Bill Pickel, Merle Ogle, Miss Loy and Mr. and Mrs. Curry. The picture they saw was "Treasure Island."

Eugene Chambers entertained Saturday evening with a treasure hunt which was attended by about twenty-five young people of Hope. The hunt began at seven-thirty at his home about a mile south of town and covered the whole community. The treasure hunters who were successful were Wallace Johnson who found a large cake at the home of the host. Refreshments were served after the guests returned from the hunt.

Mr. and Mrs. J. H. Bridgman and Mrs. Bridgman's mother, Mrs. Henriette Hughes and Parris Damewood motored to Tatum Sunday where they were joined by Mr. and Mrs. Jerald Damewood of Lubbock for a brief visit after which Mrs. Hughes returned to Lubbock with her daughter and son-in-law, Mr. and Mrs. Jerald Damewood, where she will spend the winter. Mr. and Mrs. Bridgman and Parris Damewood returned to Hope Sunday evening.

Mrs. Billie Ballard and Miss Babs Mellard entertained with a birthday dinner dance Saturday evening celebrating the birthday of Miss Babs Mellard. Those attending were Mr. and Mrs. Bonnie Altman, Mr. and Mrs. Bill Riley, Mr. and Mrs. Dave Bunting, Mr. and Mrs. Cy Bunting, Mr. and Mrs. Howell Hamil, Mr. and Mrs. Bill Bunting, all of Hope, and Mrs. Rene Skipworth of Milwaukee, and Tom Prather of Alamogordo. A very pleasant evening was enjoyed by those present.

Chevrolet Produces 10,000,000th Car On 23rd Birthday Anniversary

The 10,000,000th Chevrolet came off the assembly line at Flint, Michigan, November 13, as Chevrolet workers all over the United States joined in a celebration marking the 23rd anniversary of the founding of the Chevrolet Motor Company.

Ceremonies were held at each of the nine Chevrolet assembly plants throughout the country, at which company officials were hosts to civic leaders and persons prominent in state and local government.

The building of the 10,000,000th Chevrolet was observed with ceremonies participated in by M. E. Coyle, president and general manager of the company, and the principal members of its staff.

The 10,000,000th Chevrolet was presented to the police department of the city of Flint, and officially accepted by Mayor Howard Clifford and Chief of Police James V. Willis. This car, a standard four-door sedan, was placed on display in the lobby of the General Motors building in Detroit for the remainder of the week.

When equipped with radio and loud-speaker systems, it will be used as a safety patrol car in Flint.

Mr. Coyle, whose connection with the company covers the period in which 9,882,856 of the 10,000,000 cars were built paid tribute to Charles E. Wetherald,

vice-president and general manufacturing manager, now completing his 23rd year with the company. Mr. Coyle spoke highly of the loyalty and faithfulness of the thousands of Chevrolet employes, and alluded briefly to the fact that registration figures show Chevrolet to have registered more cars and trucks this year than any other manufacturer. This marks the sixth year in the last eight in which Chevrolet has led the industry, he said.

Among those accompanying Mr. Coyle during the ceremonies were Mr. Wetherald and his staff; H. B. Hatch and Felix Doran, Jr., assistant general sales managers of Chevrolet; C. P. Fiskien, advertising manager, and his staff; and newspaper representatives.

The Chevrolet Motor Company of Michigan was organized in November, 1911, and a factory was acquired shortly afterward in Detroit. During the first full year of operation, the output totaled 2,999 cars, a heavy schedule for those days. The 1912 model was a six-cylinder five-passenger touring car known as the "Classic 6," and listed at \$2,150 at the factory.

The six-cylinder car gave way to a four-cylinder model in 1914, and the four-cylinder line was continued until November, 1928, when the first of the modern six-cylinder Chevrolet line was announced. Since then, Chevrolet has built 4,825,202 six-cylinder cars.

"THE CONTINENTAL" BRINGS PLOT DANCES TO THE BALL ROOMS

Ball room dances will not be mere dances from now on. They will tell stories, just like the interpretative dances of professionals.

The first of the new plot idea dances is "The Continental," which is being introduced to the public in RKO-Radio's musical comedy, "The Gay Divorcee," which comes to the Majestic Wednesday and Thanksgiving, matinee and night.

"The Continental" is demonstrated in this lavish photoplay by Fred Astaire and Ginger Rogers as co-stars. They recently introduced that dancing rage, the "Carioca," via the screen, and the new number is expected to prove even more popular.

As described by Dave Gould, who staged it as well as the "Carioca," "The Continental" represents the progress of a gay and enthusiastic courtship, made up of steps from the favorite dances of different nations, including the stately Minuet, the Rhumba, the Tango, Waltz, Fox Trot, Strut, Low Down, and the simpler forms of Tap.

It begins with a gesture of chivalry, a la Minuet. The gentleman

kisses the lady's hand. Thus introduced, they are ready to begin.

The girl rests her forehead against the gentleman's shoulder and they do a circular Fox Trot.

The pair, drawn into greater intimacy, now soar into a frivolous but simple tap step.

The joy of their meeting thus expressed, the couple again become romantic, in a series of Waltz whirls to Fox Trot tempo. As these conclude, the gentleman elevates the girl's hand above his head and she struts happily around him.

By this time the romance is far enough along to entitle the gentleman to a little gaiety on his own hook. He launches the girl into a glorious, complicated convoluted that combines a bit of jazz, a dash of Rhumba and a snappy cut-out step.

The climax of the romance is a beautiful, animated Waltz which ends in a snap halt after a whirl, and the girl's momentum carries her across the gentleman's knees, sitting posture. She is then kissed; the end of the romantic story.

Majestic To Show Daring Narcotic Film On The 24th

WASHINGTON—The relentless fight of the Federal Government against illicit morphine, has been so effective that the supply in this country has been reduced by about eighty-five per cent in the past three years, according to a government executive. "And another comforting fact," added this authority, "is that we seem to have checked the spread of drug addiction. Those who have made huge profits by creating narcotic converts and selling them drugs, are not now doing such a profitable business as in other years. Furthermore, an increasing number of addicts are appearing in courts of the nation and pleading to be sent somewhere so they may take the cure."

"I am certain that gigantic progress will be made as soon as the government has completed the establishment of farms in Lexington, Kentucky, and Fort Worth, Texas, where addicts will be treated as sick people needing full hospital care and not as some sort of criminals." Dealing with the shortage of morphine, this well-known authority said:

"Addicts in desperation have been forced to switch to heroin because the once normal supply of

morphine in illegal trade has dwindled almost to nothing in this period.

"A few years ago, it was possible for addicts to buy morphine for \$12.00 an ounce. Many of the former markets for this dope no longer exist. In the few places where morphine still is obtainable the cost per ounce is about \$150.00 and this usually is diluted."

An ounce of morphine counts 437 grains. For the ordinary medicinal dose one-eighth to one-fourth grain is sufficient. The average dose of addicts is six grains per day.

ARTESIA GETS PUBLICITY IN SOUTHERN BROADCAST

Artesia was the only town in the state to get publicity in the "Southern Broadcast," an organization composed of the managers of the various chambers of commerce in the various southern states. The articles in question, prepared by the local Chamber of Commerce, was a story on how this section emerged from the drought.

Mr. and Mrs. R. L. Cole entertained at their farm home Saturday evening with a bridge party. Those present were, Mr. and Mrs. Hawkins, Miss Hilda Kletky, Miss Marjorie Johnson, Raymond Buckner and Merle Ogle. Refreshments of hot chocolate, caramel cake, candy and apples were served at the close of the evening's entertainment.

Mr. and Mrs. Frank Curry and Miss Loy entertained the Hope school faculty with a theater party at the Majestic Theater at Artesia Monday evening. Those attending were: Supt. and Mrs. Edwin Hawkins, Edna Puckett, Edna Bullock, Pauline Merril, Hilda Kletky, Marjorie Johnson, Bill Pickel, Merle Ogle, Miss Loy and Mr. and Mrs. Curry. The picture they saw was "Treasure Island."

Eugene Chambers entertained Saturday evening with a treasure hunt which was attended by about twenty-five young people of Hope. The hunt began at seven-thirty at his home about a mile south of town and covered the whole community. The treasure hunters who were successful were Wallace Johnson who found a large cake at the home of the host. Refreshments were served after the guests returned from the hunt.

Mr. and Mrs. J. H. Bridgman and Mrs. Bridgman's mother, Mrs. Henriette Hughes and Parris Damewood motored to Tatum Sunday where they were joined by Mr. and Mrs. Jerald Damewood of Lubbock for a brief visit after which Mrs. Hughes returned to Lubbock with her daughter and son-in-law, Mr. and Mrs. Jerald Damewood, where she will spend the winter. Mr. and Mrs. Bridgman and Parris Damewood returned to Hope Sunday evening.

Mrs. Billie Ballard and Miss Babs Mellard entertained with a birthday dinner dance Saturday evening celebrating the birthday of Miss Babs Mellard. Those attending were Mr. and Mrs. Bonnie Altman, Mr. and Mrs. Bill Riley, Mr. and Mrs. Dave Bunting, Mr. and Mrs. Cy Bunting, Mr. and Mrs. Howell Hamil, Mr. and Mrs. Bill Bunting, all of Hope, and Mrs. Rene Skipworth of Milwaukee, and Tom Prather of Alamogordo. A very pleasant evening was enjoyed by those present.

Chevrolet Produces 10,000,000th Car On 23rd Birthday Anniversary

The 10,000,000th Chevrolet came off the assembly line at Flint, Michigan, November 13, as Chevrolet workers all over the United States joined in a celebration marking the 23rd anniversary of the founding of the Chevrolet Motor Company.

Ceremonies were held at each of the nine Chevrolet assembly plants throughout the country, at which company officials were hosts to civic leaders and persons prominent in state and local government.

The building of the 10,000,000th Chevrolet was observed with ceremonies participated in by M. E. Coyle, president and general manager of the company, and the principal members of his staff.

The 10,000,000th Chevrolet was presented to the police department of the city of Flint, and officially accepted by Mayor Howard Clifford and Chief of Police James V. Willis. This car, a standard four-door sedan, was placed on display in the lobby of the General Motors building in Detroit for the remainder of the week. When equipped with radio and loud-speaker systems, it will be used as a safety patrol car in Flint.

Mr. Coyle, whose connection with the company covers the period in which 9,882,856 of the 10,000,000 cars were built paid tribute to Charles E. Wetherald,

vice-president and general manufacturing manager, now completing his 23rd year with the company. Mr. Coyle spoke highly of the loyalty and faithfulness of the thousands of Chevrolet employees, and alluded briefly to the fact that registration figures show Chevrolet to have registered more cars and trucks this year than any other manufacturer. This marks the sixth year in the last eight in which Chevrolet has led the industry, he said.

Among those accompanying Mr. Coyle during the ceremonies were Mr. Wetherald and his staff; H. B. Hatch and Felix Doran, Jr., assistant general sales managers of Chevrolet; C. P. Fiske, advertising manager, and his staff; and newspaper representatives.

The Chevrolet Motor Company of Michigan was organized in November, 1911, and a factory was acquired shortly afterward in Detroit. During the first full year of operation, the output totaled 2,999 cars, a heavy schedule for those days. The 1912 model was a six-cylinder five-passenger touring car known as the "Classic 6," and listing at \$2,150 at the factory.

The six-cylinder car gave way to a four-cylinder model in 1914, and the four-cylinder line was continued until November, 1928, when the first of the modern six-cylinder Chevrolet line was announced. Since then, Chevrolet has built 4,825,202 six-cylinder cars.

"THE CONTINENTAL" BRINGS PLOT DANCES TO THE BALL ROOMS

Ball room dances will not be mere dances from now on. They will tell stories, just like the interpretive dances of professionals.

The first of the new plot idea dances is "The Continental," which is being introduced to the public in RKO-Radio's musical comedy, "The Gay Divorcee," which comes to the Majestic Wednesday and Thanksgiving, matinee and night.

"The Continental" is demonstrated in this lavish photoplay by Fred Astaire and Ginger Rogers as co-stars. They recently introduced that dancing rage, the "Carioca," via the screen, and the new number is expected to prove even more popular.

As described by Dave Gould, who staged it as well as the "Carioca," "The Continental" represents the progress of a gay and enthusiastic courtship, made up of steps from the favorite dances of different nations, including the stately Minuet, the Rumba, the Tango, Waltz, Fox Trot, Strut, Low Down, and the simpler forms of Tap.

It begins with a gesture of chivalry, a la Minuet. The gentleman

kisses the lady's hand. Thus introduced, they are ready to begin.

The girl rests her forehead against the gentleman's shoulder and they do a circular Fox Trot.

The pair, drawn into greater intimacy, now soar into a frivolous but simple tap step.

The joy of their meeting thus expressed, the couple again become romantic, in a series of Waltz whirls to Fox Trot tempo. As these conclude, the gentleman elevates the girl's hand above his head and she struts happily around him.

By this time the romance is far enough along to entitle the gentleman to a little gait on his own hook. He launches the girl into a glorious, complicated convulsion that combines a bit of jazz, a dash of Rumba and a snappy cut-out step.

The climax of the romance is a beautiful, animated Waltz which ends in a snap halt after a whirl, and the girl's momentum carries her across the gentleman's knees, sitting posture. She is then kissed; the end of the romantic story.

Majestic To Show Daring Narcotic Film On The 24th

WASHINGTON—The relentless fight of the Federal Government against illicit morphine, has been so effective that the supply in this country has been reduced by about eighty-five per cent in the past three years, according to a government executive. "And another comforting fact," added this authority, "is that we seem to have checked the spread of drug addiction. Those who have made huge profits by creating narcotic converts and selling them drugs, are not now doing such a profitable business as in other years. Furthermore, an increasing number of addicts are appearing in courts of the nation and pleading to be sent somewhere so they may take the cure."

"I am certain that gigantic progress will be made as soon as the government has completed the establishment of farms in Lexington, Kentucky, and Fort Worth, Texas, where addicts will be treated as sick people needing full hospital care and not as some sort of criminals." Dealing with the shortage of morphine, this well-known authority said:

"Addicts in desperation have been forced to switch to heroin because the once normal supply of

morphine in illegal trade has dwindled almost to nothing in this period.

"A few years ago, it was possible for addicts to buy morphine for \$12.00 an ounce. Many of the former markets for this dope no longer exist. In the few places where morphine still is obtainable the cost per ounce is about \$150.00 and this usually is diluted."

An ounce of morphine counts 437 grains. For the ordinary medicinal dose one-eighth to one-fourth grain is sufficient. The average dose of addicts is six grains per day.

The film will be shown for one night only, beginning at midnight Saturday, the 24th. All seats 35 cents.

ARTESIA GETS PUBLICITY IN SOUTHERN BROADCAST

Artesia was the only town in the state to get publicity in the "Southern Broadcast," an organization composed of the managers of the various chambers of commerce in the various southern states.

The articles in question, prepared by the local Chamber of Commerce, was a story on how this section emerged from the drought.

MRS. WILLIAMS HONOR GUEST AT PRETTY PARTY

Mrs. Kenneth Williams was named honor guest at a pretty bridge shower given Friday evening at the Joe Richards home with Miss Winifred Deterick as hostess. She was assisted by Miss Juanita Richards.

A double doorway opening into the living room was attractively decorated in pink and white. Placed underneath the arch was a cradle beautifully decorated and holding a large "sleepy doll." A floor lamp shedding a soft pink glow across the cradle was the only light in the rooms when the honor guest, Mrs. Williams entered. A table near-by held a shower of beautiful gifts which were opened immediately.

Guests were seated at bridge tables with pink and white covers decorated with cunning baby pictures. At the conclusion of a delightful session of bridge Miss Violet Robertson received the Lovely high score prize Miss Lucille Forsythe consolation and Mrs. Williams guest of honor prize. Baby pictures were passed out to the guests and poetry was written on the backs by each. These were made into a little book and also presented to the honored one.

The pink and white color scheme was again reflected in the dainty luncheon sets and the delicious refreshment course served by the hostess. The guest list included Mrs. Williams, Misses Lucille Morris, Jean Macdonald, Mary Woods, Beulah Strang, Margaret Williams, Alma Thompson, Lucille Rowley, Ella Brown, Edna Drury, Lucille Forsythe, Violet Robertson, Ethel Bullock, Helen Bullock, Elsie Palmateer, Mmes. Joe Hamann, Howard Stroup, Albert Richards, Landis Feather and Fletcher Collins.

M. E. MISSIONARY SOCIETY

The Methodist Missionary Society met at the home of Mrs. Emery Carper with Mrs. W. S. Williams and Mrs. John McCann as co-hostess Friday afternoon. The meeting announced at the home of Mrs. E. T. Jernigan for Thursday afternoon was postponed on account of the Jackson funeral.

Mrs. George Frisch presided during the business session and was leader in the discussion on "Missionary Challenge of the Rural Circuit." She was assisted in the discussion by Mmes. T. S. Cox, W. S. French and John McCann. The devotionals were led by Mrs. Reed Brainard.

Light refreshments were served by the hostesses at the close of the afternoon. There was a good attendance of the members.

FRIDAY EVENING BRIDGE AT MORGAN HOME

Mr. and Mrs. Charles Morgan entertained members of the Friday Evening Bridge club at their home last Friday evening.

Seated for the evening of auction were: Messrs. and Mmes. Jack Clady, Boone Barnett, Dick Vandagriff, Charles Morgan, Miss Mary McCaw, Mrs. Walter Douglas, Mrs. Lapsley and John Richards. High score prize was awarded to Mr. and Mrs. Clady, the low to Mr. and Mrs. Barnett. Light refreshments were served by the hostess at the conclusion of the games.

CONTRACT STUDY CLUB WITH MRS. M. W. EVANS

Mrs. M. W. Evans entertained members of the Contract Study club at her home Tuesday.

Guests were treated to a delicious quail dinner at one o'clock. Games of contract followed, high score being made by Mrs. Stanley Blocker.

Those enjoying this afternoon of games with Mrs. Evans were: Mmes. Earl Bigler, C. J. Dexter, Jeff Hightower, L. P. Evans, Aubrey Watson and Martin Yates, and Mrs. Stanley Blocker, a substituting guest.

The Presbyterian Missionary Society meets with Mrs. Effie Wingfield at 2:30 p. m.

The Mission Study class at Methodist church. All-day session.

CHEVIE SIX SURPRISE PARTY FRIDAY NIGHT

The ladies of the Chevie Six Bridge club were completely surprised with a delightful dinner bridge Friday evening with their husbands acting as hosts.

On leaving home a number thought that a football game in Carlsbad would be the end of their destination. Others were going to the picture show while another of the hosts had his wife put on her very best and look her prettiest to meet Governor-elect Clyde Tingley and Mrs. Tingley.

Dinner was served promptly at seven o'clock at the Hotel Artesia, after which they retired to the home of Mr. and Mrs. Stanley Blocker where the evening was spent at contract.

Those enjoying the occasion were: Messrs. and Mmes. Fred Cole, Leslie Martin, Carl Bildstone, Alton Partee, Howard Whitson and Stanley Blocker.

CHEVIE SIX ANNUAL THANKSGIVING DINNER

Members of the Chevie Six Bridge club enjoyed their annual Thanksgiving turkey dinner Tuesday evening at the home of Mr. and Mrs. Fred Cole.

The long table, beautifully laid, was centered with a fruit basket, lighted with golden candles and strewn with bright colored autumn leaves. A large Thanksgiving bird, baked to a golden brown, graced each end of the table. Seated were Messrs. and Mmes. Carl Bildstone, Howard Whitson, Leslie Martin, Stanley Blocker, Fred Cole and Alton Partee.

Games of contract completed a delightful evening. Mrs. Blocker held high score for the ladies, and Mr. Bildstone for the men at the conclusion of the games.

BOX-WOELK

Miss Beatrice Box of Carlsbad, formerly of the Cottonwood community, became the bride of A. T. Woelk in Roswell Sunday with the justice of the peace officiating.

Mr. Woelk is local manager of the Western Union Telegraph Company. He has been with the company for the past ten years and located in Artesia for the past two years.

Mr. and Mrs. Woelk will make their home in Artesia.

Women's Club Celebrates Its Thirtieth Anniversary Wednesday

The thirtieth birthday anniversary of the Artesia Women's club was celebrated at the club house with a lovely birthday party Wednesday afternoon.

The pink and white club colors were used in all decorations. Crepe streamers from three walls were fastened to and draped over the large light fixture at the center back, directly under this decoration a table adorned with a lovely lace cloth was centered with the three tiered birthday cake, beautifully decorated in club colors. Tall pink tapers were placed on either side in double silver holders.

Mrs. S. E. Ferree, one of the pioneer club women, was hostess at the door. In receiving line were seven past presidents and the acting president. Mrs. J. B. Atkeson, first president of the club, which was organized in November, 1904, headed the receiving line. She wore a white mull dress trimmed with shadow embroidery and set in lace insertion, a pattern hat, fine straw decorated with black plums and a big red rose, carried a reticule on her right arm, these were all worn by Mrs. Atkeson thirty years ago, she wore a black Spanish lace scarf of 1860.

Mrs. Albert Black was second in line, she wore a heavy black grenadine trailing skirt of many gores, measuring five yards around the bottom which was finished with a brush lining, and an embroidered black blouse with high collar, a heavy leather belt with jeweled buckle and pin to match. A large plumed cartwheel hat in black, and shoes twenty-five years old completed her costume of the early 1900.

Mrs. Mark Corbin third in line wore a well-tailored black silk bengaline dress which had belonged to her mother. This dress had a square yoke and high collar of black net trimmed in soutash braid, a large picture hat completed her early day costume.

Fourth in line was Mrs. H. A. Stroup, who served the club as president during two different periods. Mrs. Stroup was beautifully gowned in a gorgeous black silk battenburg lace and net dress, belonging to Mrs. S. E. Ferree and purchased by her at Wannamakers in New York City thirty-five years ago. A butterfly pin thirty-five years old, set with blue stones, was her only ornament.

Mrs. G. R. Brainard fifth in line wore a lovely silver lace dress which was worn at a silver anniversary many years ago, a lace scarf draped around her shoulders to match her gown. Mrs. Brainard wore her hair dressed in the style of 1904.

Sixth in line was Mrs. C. R. Blocker who wore a long black skirt with deep fringe at the bottom, a small bustle in the back tucked black silk blouse, a horse hair bee hive hat and a black beaded cape. The blouse and hat were worn by Mrs. Albert Blake in 1904, the cape by Grandmother Blocker during that period. She also carried an old fashioned hand bag belonging to Miss Ella Bauslin.

Mrs. G. U. McCrary seventh in line was costumed in a perfectly gorgeous black and gold brocaded gown of the heaviest satin, trimmed in black jet, basque style with long full train. This gown was worn by the great grand-mother of Stewart Phillips, son of Mr. and Mrs. Roy Phillips. It was purchased in Saint Louis about 1900 and has been wonderfully well preserved.

Mrs. Martin Yates last in line is acting club president. She made a striking picture in a black silk gown of long straight lines, with a large heavily beaded purple bertha. A black velvet ribbon band was held at the throat with a large cameo. A picture hat of purple velvet completed her costume.

Mrs. Atkeson was introduced by Mrs. Martin Yates. She gave the early history of the club which began with twelve members and for many years had a limited membership of twenty with only married women eligible. The club was organized as a study club doing their first civic work when they federated in 1911. Departmental work was first introduced into the club in 1914.

Each of the past presidents were introduced by their predecessors and spoke very briefly on the achievements of their term of office. Mrs. Mark Corbin who has given of her musical talent to the club for many years rendered a vocal selection which was one of her first before the club, Mrs. I. L. Spratt was accompanist for the afternoon. Mrs. John Lowery spoke of the accomplishments of the club under the leadership of Mrs. Martin Yates, giving she, Mrs. S. E. Ferree and Mrs. Jeff Hightower much credit for the erection of the club home. Mrs. G. U. McCrary another musician who has given much of her talent for the pleasure and benefit of the club, rendered the variations of an Old Black Joe on the piano. Mrs. Howard Whitson played a beautiful violin number. Mrs. Yates sang a selection, "Your Voice," which she has sung many times during the past years. Mrs. G. R. Brainard who is active in both local and federated work of the state spoke of the future for the Women's clubs. Mrs. Brainard pictured a bright future for club

women, inasmuch as women generally are interested in state, national and international issues no other club offers the opportunity to keep informed as does the Women's clubs. They offer the young woman the privilege of schooling herself and forming an intelligent opinion of her own, a general culture which radiates into the community will be more pronounced in the future. The closing number of the program gave a touching scene, Mrs. Yates singing softly and sweetly two verses of Auld Lang Syne, everyone joining in the final chorus as Mrs. Atkeson and Mrs. Will Benson the only two charter members living in Artesia clapped hands.

The candles were lighted on the birthday cake, as everyone made a silent wish, the thirty glimmering lights were blown out by Mrs. Atkeson, who cut the cake as Mrs. Jeff Hightower and Mrs. Beecher Rowan presided at the handsome double silver service. A cup of tea and a slice of birthday cake was served each of the hundred guests by members of the entertainment committee of which Mrs. Stanley Blocker is chairman.

This occasion was named a china celebration, the club was presented with almost two hundred pieces of china. They also received a small amount of silver which is to be applied on club silverware.

AUXILIARY COMMITTEE AT JESS TRUETT HOME

Mrs. Jess Truett, as chairman of the membership committee of the American Legion Auxiliary, entertained the personnel of her committee at her home Monday afternoon.

November 20th ended the year for the activities of this committee and a final report was made out at this time to be sent to headquarters at Santa Fe. The completed membership list for the year numbered 74. Every effort will be made to have a larger list at the close of 1935.

A social hour was observed and a delicious refreshment course served by Mrs. Truett to the following ladies, Mmes. P. V. Morris, Frank Linell, Ben Pior, Dick Vandagriff, and Gail Hamilton.

FORTNIGHTLY BRIDGE CLUB

Mrs. Landis B. Feather was hostess Tuesday when she entertained members of the Fortnightly Bridge club.

Her home was decorated in fall flowers from her garden. The tables were adorned with Thanksgiving covers when the delicious one o'clock luncheon was served. Five rounds of contract followed with high score going to Mrs. C. R. Blocker.

Guests were: Mmes. I. L. Spratt, Frank Seale, William Linell, John Lanning, J. B. Atkeson, W. C. Martin, Albert Richards, Charlie Martin, B. D. Clarke, Hollis Watson, C. R. Blocker, Mrs. J. M. Story, a substituting guest, and Mrs. C. Bert Smith and Mrs. R. M. McDonald, luncheon guests.

VIRGINIA AND MARY C. WOODS ENTERTAIN

Miss Virginia Woods entertained with a lovely dinner party Monday evening, naming Miss Agnes Ann Williams of Elk as honor guest. Others present were the Misses Laura Bullock, June Carper, Inez Knowles, Pauline Clayton and Joan Wheatley.

Boy friends of the young ladies were invited for an after-dinner game of cards.

Miss Mary Catherine Woods entertained with a dinner and slumber party Tuesday evening. Her guests were the Misses Elsie Jernigan, Marjorie Funk, Jessie Lee Cunningham, Geraldine Felton and Irene Gillispie.

Boy friends were invited for an hour of dancing after dinner. The young ladies were guests for a slumber party at the Woods home that night.

OIL FIELD LADIES GIVE A SHOWER FOR MRS. ROGER SHERMAN

Mrs. Roger Sherman of Roswell, wife of the visiting minister, was the recipient of many lovely gifts at a shower given by the ladies of the Oil Field at the home of Mrs. W. A. Beard yesterday afternoon. Mrs. Robert Corbin was co-hostess. Delicious refreshments were served at the close of the afternoon.

HOME MAKERS CIRCLE MEETS

The Home Makers Circle of the Baptist Missionary Union met at the church last Thursday for an all-day quilting. About twelve or fifteen ladies were present.

A brief business session was conducted by Mrs. J. M. Story, president. A covered dish luncheon was enjoyed at noon.

Calling Cards, 100 for \$1.75, on best grade paneled or plain stock.—The Advocate.

MRS. WOODS ENTERTAINED INFORMALLY WEDNESDAY

Mrs. A. T. Woods entertained informally at one o'clock luncheon at her home Wednesday.

Seated at the beautifully laid table were Mmes. Martin Yates, S. E. Ferree, G. U. McCrary, J. B. Atkeson, J. M. Story, G. R. Brainard, N. M. Baird and Mrs. Woods. A delicious turkey menu was served.

MRS. REX RAGSDALE COMPLIMENTED TUESDAY

Mrs. Rex Ragsdale of Oakland, California, was complimented on Tuesday evening when Mrs. Sadie Wilson entertained at six o'clock dinner in her honor. Other guests were Mr. and Mrs. T. E. May of Clovis, J. R. Dearing and Miss Mary McCaw.

Mrs. Wilson and her guests attended the theater after dinner.

Walter Douglas has been confined to his home all this week on account of illness.

Scoop

By THAYER WALDO

THE telephone bell clattered with raucous insistence. Collins hunched up on an elbow, swearing vaguely, and slumped toward the clock. Its luminous face showed 2:10. Another jangle. He stumbled across the room, and picked up the instrument.

The voice in his ear was crisply energetic: "Hello, Collins. This is Barnes, night city editor. Say, we just tuned in on a police call sending a patrol car to investigate a woman screaming, and it's right in your neighborhood. 590 Franklin. How about hopping over there quick? Might be a real story in it."

"All right—all right." Three minutes of fast moving had him dressed and headed out. The fourth building from the corner had 500 in gilt letters across its glass door, with "Berkeley Arms," underneath.

Collins went up the short walk and tried the knob. It didn't turn. He moved across the grass past the building's front corner. From the unlighted side, a fire escape's zig-zag skeleton loomed. Suddenly, from somewhere above, came a woman's brief, low cry.

Swiftly he went forward, stopping beneath the fire escape's lowest platform. A swing, a jerk and he was standing on the iron slats.

With a swift move he went on, up the steps to the third floor platform. Here only curtains screened the window. Beyond that, the gloom was unbroken, and no sound reached Collins. He started for the stairs ahead—and then pulled sharply back. From just within the room, a little spot of orange had glowed and gone again. A man spoke, low and intense:

"Marty, listen to me! I'm sorry I frightened you, dear. I didn't dream you'd be asleep, or I'd have knocked instead of using my key."

A woman's voice, soft and a little breathless, said: "Oh, it's—it's all right now. But this isn't fair of you, Tom. You shouldn't be here. I told you the other night—"

Passionately, the man broke in: "Oh, I know what you told me—that's why I had to come, as soon as I knew that you—that he'd gone to the sanitarium. Marty, you can't do this thing—do you hear me? God, it's not as if I were pleading for something that mattered in life for both of us, and everything that can ever count is gone if we don't carry it through as we planned. You know that!"

An instant's silence, in which the cigarette lived again. Then the woman answered. "Tom, it's hard—so terribly hard! I wanted to tell you all I felt and thought about—about us, and why we couldn't go on. Somehow, though, I knew it wouldn't do any good; that I might as well just say it and not try to explain. But now—oh, darling!"—her voice was cloudy with tears—"I do love you so!"

A pause. Then she went on, more calmly. "I just know now that I must try to make you understand. Tom, I can't leave Marty, because it would kill him. Oh, it would be different if he were—were normal. But don't you see, he'd believe I did it because of that. I loved him. Tom—I think I did—when we married. How could he ever understand that his accident has nothing to do with the change in my heart? Every minute of his life, every word he's written, in these last five years has been for me. When he's away, for these treatments, all he seems to think of is my happiness. Each time he returns with some plan or surprise to please me, Tom, do you see now why I can't go away from him?"

"Well, I guess there's nothing for me to say, except good-by. I—I think I'd better go at once."

Abrupt movements and the sound of a doorknob turning. A shaft of light fell suddenly across the bed, and Collins saw her.

Then the latch clicked shut and beyond the window blacked again. Collins straightened and turned toward the iron stairs.

Home, he lit a cigarette and dropped in a chair by the phone table. Staring ahead at nothing in particular, his face was speculative. At last he tore a sheet from the memo pad beside him, took out a pencil, and scribbled across it: "Lover Visits Prominent Woman"

As Writer-Husband Absent. An instant's thought; then, underneath:

"Life of Marty French, Well-Known Invalid Novelist, Surprised In Secret Rendezvous."

For a moment he looked critically down at the words, amusement tingling his lips. Then he picked up the phone and spun its dial. When contact came, he said, "Hello—Barnes. . . . Collins speaking. Say, what the h—l is this—a gag? I've been snooping around that joint for half an hour. There's not a thing stirring."

The answer came with swift conviction.

"Collins, old man, I'm terribly sorry; I handed you a raw deal. Just plain stupid of me not to notice. That address was 500 South Franklin"

KINGSFORD-SMITH LANDS SHIP ON SILVERTOWNS

When the Goodrich equipped Lady Southern Cross swooped down on Los Angeles to land at Mines Field a few days ago, Guy Whitaker, right, manager of the Goodrich Aeronautical Division, was on hand to congratulate Sir Charles Kingsford-Smith, left, on his remarkable flight from Brisbane, Australia, to Oakland, California.

Fewer Lambs To Be Fed This Year In Western States

Developments in the lamb feeding situation during October point to a larger volume of lamb feeding this season than seemed probable a month ago. Shipment of feeder lambs into the corn belt states inspected through stock yard markets in October were large compared with October 1933 and 1932 and large relative to shipments during the preceding three months when compared with years prior to 1932. The movement of feeder lambs to feed lots, not going through markets, was also fairly large both in the corn belt and into western feeding areas. The total number of lambs fed in all areas this season, however, is still expected to be somewhat smaller than last season.

In the western states the total number of lambs fed this season will be much smaller than last year. In Colorado the number to be fed in northern Colorado is expected to be from 15 to 25 percent smaller than last year, in the Arkansas valley 25 to 35 percent smaller, with somewhat similar reductions in other sections of the state. In Wyoming the reduction from last year is now indicated as about 30 percent and in Montana 45 percent.

Because of the relatively heavy movement of feeder lambs into the corn belt, and relatively high prices for feed, it is probable that the number of fed lambs marketed to the middle of January will be fairly large and that the reduction in the market supply of fed lambs will be most marked during the latter part of the feeding season.

Public Urged To Buy Health Seals

At a meeting of the officers of the New Mexico Tuberculosis Association, held recently in the office of Dr. LeRoy Peters, Albuquerque, "Follow up the Survey" was the slogan adopted for the Seal sale campaign which begins throughout the state on November 30th.

Plans were also formulated at this time for the annual meeting of the association to be held early in December.

Those who attended the meeting were: Dr. Carl Mulky, Dr. LeRoy Peters of Albuquerque, Dr. Robert O. Brown, Mrs. Francis Wilson, Santa Fe, and Miss Eleanor L. Kennedy, acting executive secretary for the association, also of Santa Fe.

It will be recalled that the recent health survey was initiated by the New Mexico Tuberculosis Association and paid for by the sale of Christmas Seals, with aid from the State Health Protection fund.

A complete report of the state health survey has been printed and is ready for free distribution to those who are interested in receiving a copy. The public will be interested in knowing that thousands of copies of the above survey report have been printed with no cost to the New Mexico Tuberculosis Association, through authorization of the State Planning Board and the F. E. R. A.

A complete report of the blood survey conducted in Mora county by Dr. Walter Clarke, medical field director of the American Social Hygiene Association has gone to press and will be ready for distribution at an early date.

Read the above mentioned reports. Use the tuberculosis seals on your Christmas packages and help to "Follow up the Survey."

Mr. and Mrs. J. U. Meador were in Artesia transacting business on last Thursday.

Mrs. Fred Hill and daughter from the Oil Field spent last week end visiting at the home of Mr. and Mrs. J. U. Meador.

Mr. and Mrs. Roy Moots and family of Vaughn who visited here over the Armistice day returned to their home on Monday afternoon.

Mrs. Z. L. Wallace who has been visiting with her mother at Mil-sands for the past two weeks returned to her home on last Friday.

Here Are Tasty Mince Pies That All the Family Will Applaud

These turkey cutouts give a novel Thanksgiving touch to these individual pies made with dry mince meat.

MINCE Pie, that traditional delicacy, is now an every day favorite. Why not treat the family tonight with this spicy delicacy. It's easy to make and economical this modern way with a package of dry condensed mince meat. For a novelty, serve individual mince pies with turkey cutouts of golden pastry. Lay a turkey pattern of stiff paper on the thinly rolled crust and cut around the pattern with a sharp knife.

Turkey Mince Pies

1 (9 oz.) package dry mince meat, and 1 1/2 cups water boiled almost dry

add the water, place over heat and stir until all lumps are thoroughly broken up. Bring to brisk boil; continue boiling for one minute. Allow to cool. Line individual pie plates with pastry and fill with mince meat mixture. Cut off surplus pastry and flute edge of lower crust. Place turkeys cut out of pastry on top of mince meat. Bake thirty-five minutes in a hot oven (400 degrees F.). To make a delicious variation for this pie cut one or two cups of pitted canned prunes in half and place evenly over the top of the mince meat before adding the pastry turkeys.

New models to choose from. We've sold lots of these Heaters, ask your neighbor and then ask us for a demonstration.

McClay Furniture Store

"Your Home Should Come First"

Two Centuries More Useful Service . . .

That expresses our sentiment toward The Advocate in the efforts of this organization to broaden its service to the trade territory it serves by modernizing its plant—as the ed says "it takes intestinal stamina to request us to congratulate his establishment with space we pay for," but is the way progress and improvement is made.

The merit of the Products we sell, more especially Goodrich Tires, Tubes and Batteries

made possible through years of tireless efforts and experiments. Goodrich could have been satisfied with making just tires, but they weren't. Now Goodrich has even made it possible to eliminate worries incidental to flat tires and punctures.

If you are familiar with the improvements made by Goodrich you know the reason for the big increase in sales.

ELECTION PROCLAMATION

TO THE QUALIFIED VOTERS OF THE LAKE ARTHUR DRAINAGE DISTRICT:

I, I. S. Reser, Chairman of the Commissioners of the Lake Arthur Drainage District, in accordance with law, fixing the time for the election of Commissioners, and by virtue of authority in me vested by law do hereby proclaim and declare that a regular election of three members of the Board of Commissioners of the above named Lake Arthur Drainage District in Chaves and Eddy Counties of the State of New Mexico, in place of I. S. Reser, E. C. Jackson and I. P. Johnson, whose terms are now expiring as members of said Board. Said election is to be held in the town of Lake Arthur, New Mexico, in the office of E. C. Jackson, on Tuesday, December 4th, 1934, between the hours of nine a. m. and six p. m. Judges named to conduct said election are Victor Buel, W. R. Foster and A. V. Flowers.

No list of candidates has been filed with the Secretary of the Board of said election. All qualified electors within the Lake Arthur Drainage District, and any persons residing in Chaves and Eddy Counties, who are owners of agricultural land within the said Lake Arthur Drainage District will be entitled to vote.

This notice is to be published in The Artesia Advocate, Artesia, New Mexico, for four issues. IN WITNESS WHEREOF, I have hereunto set my hand and caused the Secretary of said District to affix the seal of the District hereto, this, the 5th day of November, 1934.

I. S. RESER, Chairman. E. C. JACKSON, Secretary.

NOTICE FOR PUBLICATION

Department of the Interior, U. S. Land Office at Las Cruces, New Mexico, October 30, 1934.

NOTICE is hereby given that Fred H. Savoie, of Artesia, N. Mex., who, on October 15, 1929, made original homestead entry, No. 040404, and on March 28, 1932, made additional homestead entry No. 042850 for Lots 2, 3, 4, SW 1/4, SW 1/4, W 1/2 SW 1/4, Sec. 1, and SW 1/4, W 1/2 SW 1/4, S 1/2 NE 1/4, Section 9, Township 17 S, Range 23 E, 4 SW 1/4, Meridian, has filed notice of intention to make 3 year Proof, to establish claim to the land above described, before Gilbert, U. S. Commissioner, at Artesia, N. Mex., on the 13th day of December, 1934.

Claimant names as witnesses: Eddie C. Gray, John W. Jackson, Frank V. Hagaman, Rex Wheatley, all of Artesia, N. Mex. PAUL A. ROACH, Register.

THE CHURCHES

CHRISTIAN SCIENCE SOCIETY

"Soul and Body" is the subject of the lesson-sermon which will be read in all Churches and Societies of Christ, Scientist, on Sunday, November 25th.

The golden text is: "The word of God is quick, and powerful, and sharper than any two-edged sword, piercing even the dividing asunder of soul and spirit, and of the joints and marrow, and is a discerner of the thoughts and intents of the heart." (Heb. 4:12).

Among the citations which comprise the lesson-sermon is the following from the Bible: "As for me, I will behold my face in righteousness: I shall be satisfied, when I awake, with thy likeness." (Ps. 17:15).

The lesson-sermon also includes the following passage from the Christian Science textbook: "Christian Science explains all cause and effect as mental, not physical. It lifts the veil of mystery from soul and body. It shows the scientific relation of man to God, and disentangles the interlaced ambiguities of being, and sets free the imprisoned thought."

FIRST BAPTIST CHURCH

Pastor, P. G. Woodruff. Sunday school superintendent, Fred Cole. General B. T. U. director, Miss Maurine Lewis.

9:45 Sunday school. Topic: "The Christian Steward" or "Stewardship and Service." Matt. 25:14-30, and faithful servant: thou hast Golden text: "Well done, thou good and faithful servant, thou hast been faithful over a few things, I will make thee ruler over many things: enter thou into the joy of thy lord." Matt. 25:21.

11:00 Song service and sermon. 6:00 B. T. U. service. Old and young alike are missing some most vital training if you are not attending this service of our church. These B. T. U.'ers are really doing things, and doing them with a spirit that has created a very fine type of interest and enthusiasm. The seniors took the efficiency banner last Sunday night.

7:00 Song service and sermon. Monday night at seven o'clock at the church will be held our regular weekly choir practice. We would appreciate the attendance of more people who sing at these weekly practices—young people and adults.

On Wednesday night at seven o'clock at the church will be held our regular mid-week prayer service. No satisfactory substitute has yet been found for a praying membership in a church of the living God.

Last Sunday afternoon the B. A. U. went down to the First Baptist

A Lot To Be Thankful For

The Great Divide

The Great Divide is an elevated ridge of land or a watershed in western United States separating the rivers which flow toward the Atlantic from those which flow toward the Pacific. The expression "Great Divide" is commonly applied to a broader extent of country than the Continental Divide or watershed proper.

Columbus, the Discoverer

Columbus fully deserves the title of discoverer of this continent, even though it is contended that he never set foot on the mainland of North America. John and Sebastian Cabot discovered the North American continent five years after Columbus landed on San Salvador in the West Indies, part of America.

Advantages of U. S. Waterways

The United States has 5,000 miles of ocean coastline, 15,000 miles of navigable rivers, and 3,700 miles of shoreline on navigable lakes. Twenty-eight states are accessible to ocean-going vessels. A number of other states are so situated that they can transport freight to the seaboard by river steamers and barges.

Typhoid Bacteria Very Small

The bacteria that cause typhoid fever are representative of those that are rodlike in form. They are so small that 12,000 of them laid end to end would form a line only an inch long. It would take 9,000,000,000,000 of them to occupy a cubic inch. Still these are by no means the smallest bacteria.

Tibetans Dislike Cleanliness

Tibetans, distinguished for their gentility and dirt, who never take their clothes off and replace the parts that rot off with patches, regard the white man as a curious-looking person, with features that are all wrong, and his clothes the funniest-looking things on earth.

church at Carlsbad and put on a most splendid extension program. The program was well rendered, and a great deal of enthusiasm was created among the members of the Carlsbad B. A. U. They are going to take up the idea and put on an extension program themselves in the near future.

With our new heating arrangements in the auditorium installed, no one need stay away from services for fear they will not be warm enough. The preacher thinks perhaps it is a bit too warm in the auditorium now.

CHURCH OF CHRIST

Bible school 10 a. m. Preaching 11 a. m. Young people's meeting 6 p. m. Preaching 7 p. m.

Brother H. G. Hobbs of Pecos, Texas, who conducted our series of meetings sometime ago, will do the preaching next Lord's day and night. Brother Hobbs is a young man in age, but preaches the Gospel with power. He is one of the greatest Bible students that ever preached in Artesia.

We have one of the largest Bible schools in Artesia and the house is almost filled every Sunday for church services. If you haven't heard Brother Hobbs, come out next Lord's day and hear this wonderful young preacher.

Howard Haines of Lubbock, Texas, has located in Artesia and he has charge of the singing. Our song service is unexcelled. Come next Lord's day for both the morning and evening services. You will enjoy them.

Advocate Want Ads Get Results

EXPANSION IS THE CROP TREND FOR NEXT YEAR

Cotton and Wheat Farmers Will Be Permitted To Plant More Acreage Next Year.

WASHINGTON—Bigger crops for market, with little change in benefit payments going to farmers probably will be the general trend of agricultural adjustment in 1935.

Although adjustment officials have not completed their program for next year, parts of it have been announced or indicated in a general way, so that it is fairly certain contract signers will be permitted to plant more cotton, wheat, corn and certain types of tobacco, and to feed more hogs than was allowed under 1934 contracts.

On the other hand new adjustment programs are in the making which may curtail such crops as peanuts and sold sugar beet acreage below the peak.

Drought and acreage restriction have drastically changed the farm picture that greeted the "adjusters" when they began formulating their programs in the early summer of 1933.

Then they were faced with a wheat surplus of nearly 400,000,000 bushels, a world carry-over of cotton equal to a year's crop, two or three years of tobacco supply ahead, a cattle population rapidly approaching the peak of a new six-year cycle and a mounting hog surplus.

Today, as the "adjusters" prepare their plans, they find surpluses about normal, or greatly reduced. They are emphasizing the

adjustment contract as an instrument to hold production in step with consumption or demand rather than as an instrument of continued restriction.

Cotton growers under voluntary agreement will be permitted to plant at least 6,000,000 acres more than in 1934.

Wheat growers under contract may expand plantings by about 2,500,000 acres.

Corn-hog producers probably will be permitted by their voluntary contracts to make a moderate increase in hogs, and perhaps plant 2,000,000 more acres of corn.

There may be an increase in acreage of such types of tobacco as fluecured.

Cotton growers planted only 28,000,000 acres this year, compared with an average of 40,000,000 acres from 1928 to 1932. Contract signers planted only 24,000,000 acres, reducing by 40 per cent under their base. Secretary Wallace has announced the required reduction will be no more than 25 per cent of the base next year.

Wheat growers who in 1933 agreed to reduce acreage in 1934 and 1935, were required to withhold 15 per cent of their base acreage this year, but will be asked to keep only 10 per cent out of production next year. The contract of this year that meant a retirement of about 7,500,000 acres, means only about 5,000,000 acres out of production next year.

DR. WOMACK ATTENDING MEDICAL ASSOCIATION

Dr. C. L. Womack is in attendance at the Southwestern Medical Association today and tomorrow. The association will hold its final session Saturday.

HEALTH COLUMN

Not Reported

Last month the doctors of New Mexico reported 87 new cases of syphilis, 91 new cases of tuberculosis. This does not mean that there were more new cases of tuberculosis than of syphilis in the state. We have good reason to believe that the reverse is true. We know that there is a greater tendency to avoid reporting syphilis. We know, from our health survey, that for every case of syphilis that is reported to us there are three cases actually under medical care and more than sixty cases who have not even consulted a doctor and so cannot possibly be reported.

If every case of active syphilis were known to the health authorities, if they were allowed to investigate both the origin of the infection and the contacts of the infected case, it would be scarcely a year before this most dangerous, wide-spread and expensive disease would be completely under control. There are twenty thousand people in New Mexico who, on the average, will go on living half as long as they might have done if they had not contracted syphilis. This is the price we pay for our respectable ignorance.

At least a thousand unborn babies are infected every year in this state with syphilis. The fortunate ones die before they are born. Practically all these babies could be saved if the people knew of the danger and all expectant mothers had their blood tested early in pregnancy. We sacrifice their lives and the virility of our race to our respectable ignorance.

That great physician, William Osler, believed syphilis to be the biggest killing disease. If we would allow common sense to triumph over convention there is no other disease which could be brought so quickly, so completely, under our control.

WHITE LEADS RACE FOR SPEAKERSHIP

ALBUQUERQUE — Alvan N. White, re-elected member of the legislature from the 22nd district, again will be candidate for speaker of the house. White, who has served four terms in the legislature and two terms as speaker, is reported to have sufficient votes pledged to insure his selection when the legislature convenes in Santa Fe in January.

1750 TOURIST INQUIRIES

Since October 29th, the Artesia Chamber of Commerce has received 1,750 inquiries from tourists relative to this section. The inquiries from tourists were the result of the state advertising campaign launched by the New Mexico Highway Department, last summer, calling attention to the recreational possibilities of New Mexico.

LOVINGTON MEN UP AS SUCCESSOR TO JACKSON

Two Lovington men are being prominently mentioned to succeed the late J. H. Jackson, state senator. These men are Powatan Carter, attorney, and Luke Roberts, Lovington publisher. From the best information available as this is written, Senator Jackson's successor will have to be chosen by a special election.

BUY That Gas Appliance for winter comfort NOW. Comfort is mighty desirable any time—but in the winter it may mean your very health. Uncontrolled heat that runs from too-hot to too-chilly is especially dangerous when you have colds or "flu" in the house (or even in the neighborhood). Let us show you these highly perfected GAS HEATING appliances. 15% Special Reduction on Gas Radiant Heaters Gas Circulating Heaters Gas Floor Furnaces (This offer is for a limited time) Pecos Valley Gas Co. Phone 50 J. HARVEY WILSON, Manager

Improvements SHOW CONFIDENCE. This organization is delighted to see any firm, individual or community take a forward step as only through these forward steps is progress made. We therefore take this opportunity to extend our congratulations to The Artesia Advocate in installing the latest type of typesetting machine. Improvements of this sort indicates this newspaper has faith in Artesia and the trade territory surrounding. After all our relations as well as yours are based primarily on confidence and faith in the future, lacking these, stagnation in the business world is created, which in turn disrupts our social welfare. Therefore it is our pleasure to encourage any improvement which makes Artesia a better town in which to live. We strive to carry our responsibility in the community in which we live by participating in public welfare, by the development of the natural resources of this section and by the manufacture of products worthy of our name. RICK BUILDING

Advocate History

McClay Furniture Store at the time of the arrival of J. R. Hoffman. Mr. Hoffman launched The Artesia American, which was later consolidated with The Advocate when The Advocate plant was acquired from Mr. and Mrs. Hollister.

In August, 1923, The Advocate plant was purchased from J. R. Hoffman by W. C. Martin, the present editor. In April, 1924 a partnership between W. C. Martin and C. R. Blocker, then of Carlsbad, was formed, and is still existent.

Since 1923 The Advocate plant has been moved twice. It was then located in the Muncy building, opposite the Hardwick hotel. The plant was moved to the building to the rear of the First National Bank, now the Malco Refineries office and after about five years of operation in this building was moved to the present location on West Main. Incidentally, the present location of The Advocate office is only about three doors east of the location in which the office was first established. The Advocate was then located in an old frame building and occupied as Richards Electric Shop until the building burned three or four years ago.

The building now occupied as a shop and office is owned by the management and is twenty-five feet wide by one hundred and twenty feet, giving floor space of 3,000 square feet.

In 1923 The Advocate was being issued as a six page, six column paper. Since that time the size of the pages have been increased to seven columns and the average issue is from eight to ten pages, the largest edition ever published was twenty-six pages on the occasion of the opening of the Artesia Hotel.

At the time the present publishers assumed charge of The Advocate, the plant consisted of a Junior Linotype not in use, a Pony Babcock Optimus newspaper press, two job presses, one 8x12 and one 12x15, one electric motor attached to newspaper press, a perforator, small cutter, several job stones type racks including several cases of eight point type, used in hand setting and about the usual amount of job and display type as that found in the ordinary small print shop.

Early in 1924 a Model 5 Linotype was purchased, which is still in use. Later an assortment of modern equipment was added which included an electric stitcher, a steel stone and composing rack, a large size punch, a new 12x18 C. & P. job press, an assortment of job and display type, a Miller saw-trimmer, a steel type rack and a large Miehle newspaper press, weighing 22,000 pounds.

The Model 14B Linotype recently installed, which replaced an old Model L, is the last word in a type setting machine. It is possible for an operator to set thirty-six different faces of type without moving from his seat.

Our Community

AND SECTION NEEDS:

A better highway connection to the oil fields, to encourage better farming methods and more farmers, a City Hospital, street improvements as rapidly as finances will permit, more modern houses and apartments and more co-operation with the oil men and the oil industry.

TELLS CREDIT FACTS—Alexander Edward Duncan, chairman of the board of the Commercial Credit Company, who will give vital facts on credit as guest speaker on the Forum of Liberty program Thursday, Nov. 29. Factor in hundreds of thousands of "time" purchases, he will be heard over Columbia network at 8:30 P.M., EST.

FORESEES STRIFE IN SAAR—Edwin C. Hill, famous CBS commentator on the Human Side of the News, predicts that the plebiscite in the Saar Valley of Germany on January 15 will go down as one of the most ominous events in history. The Saar, he says, constitutes the greatest threat to peace in Europe.

ON THE RELIEF SPOT—A photographic study, specially made for this month's American Magazine, shows the federal relief administrator, Harry L. Hopkins, at his job of distributing federal funds to nearly four million families.

HALT ARIZONA'S "INVASION"—Arizona National Guardsmen entrain for duty at Parker Dam site to take possession of the Arizona side of the Colorado River to enforce Governor B. B. Moeur's proclamation of martial law.

JUDGE 75, WEDS GIRL 26—White-haired Judge Marcus Kavanagh, 75 year old dean of Chicago jurists, and his bride, 26 year old Jeanne Latour, his former secretary.

ALLURING NEGLIGEE—Distinctly Empire in style is the alluring negligee worn by Ginger Rogers, popular motion picture actress. It is made of orchid chiffon which falls in graceful ripples over an orchid satin and lace slip.

NATIONAL CORN HUSKING CHAMPION—Ted Balko, 29 year old Redwood Falls, Minn., youth was declared the champion of the 1934 National Corn Husking Contest, when he picked 25.78 bushels in the prescribed hour and twenty minutes.

WESTERN STATES IN FIGHT OVER RIGHTS

Boundaries, Water and Oil Cause of Disputes.

Denver.—The status of disputes among western states surrounding and including Colorado has not quite reached the point where it may be said that all is quiet on the western front.

The quarrels center around such widely divergent things as water rights, boundaries, truck licenses and oil.

A parley among Colorado, Nebraska and Wyoming over allocation of waters of the North Platte river adjourned here recently in a deadlock, with each state standing pat for what it considered its rights. Each state wants more water for new power and irrigation projects.

Colorado wants to borrow Nebraska's claim to Platte river waters comes under the general heading, "first come, first served." The corn and sugar beet growing state has received some court support to its contention that states nearer the headwaters of the river cannot deprive Nebraska of water after it already had developed irrigation projects.

Colorado wants to borrow some water from the North Platte near the source, which is in Colorado, then pay it back later, meaning down the river farther, to Wyoming and Nebraska.

After starting in Colorado, the North Platte winds through Wyoming and that state wants its share for a big power and irrigation project near Casper. Nebraska also wants to expand its use of North Platte water by building a power and irrigation project near North Platte, Neb.

A satisfactory settlement of this tangle appears difficult.

Boundary Dispute.

Colorado and New Mexico still have a boundary dispute inherited from pioneer times. Gov. Edwin C. Johnson of Colorado gave economy as a reason for refusing to permit an appropriation to complete a survey which would, perhaps, make it clear to some residents along the Colorado-New Mexico border just where they stood.

Fort Morgan, Colo., and Scottsbluff, Neb., were hot spots earlier this year in the Nebraska-Colorado truck license war. Arrests were made at both places of truckers of the other state who did not carry licenses of both states. Peace was declared when Colorado passed a reciprocal truck license law to conform with Nebraska's.

The difficulty over oil developed after Governor Johnson of Colorado assured Gov. Leslie A. Miller his state would use Wyoming oil, in preference to all other, for improving its roads. The Standard Oil Company of California, however, claimed it offered oil to Colorado cheaper than Wyoming oil could be obtained. Wyoming believes that Colorado should prove its loyalty to its sister state by using its products. Coloradans are divided on that question.

Dry Dock for Big Liners Is Completed at London

London.—The largest dry dock in the world is completed. Characterized as one of the greatest feats of engineering, the dock has been under construction for the Southern railway for two and a half years. Its cost is \$8,000,000.

Originally it was intended to provide accommodation for the projected 70,000-ton Cunard liner. This uncompleted vessel, however, still is in the docks at Clydebank, while the Cunard company and the British government discuss various ways of raising the necessary funds for its completion.

Meanwhile the railway company has gone ahead with the dry dock, which is 1,200 feet long and 135 feet wide at the entrance, and will have adjoining it a 7,000-foot quay well capable of berthing seven of the largest liners, as well as eight large passenger and cargo sheds.

The dock was constructed under extreme physical handicaps, for under the site a bed of sand charged with artesian water at considerable pressure was discovered. It became apparent that unless preventive measures were taken quickly the water would force its way through into the dock excavations. The engineers solved the problem by sinking tube wells down to the sand.

Sharks Attack British Squadron in Scapa Flow

London.—Forty vessels of the British home fleet in full panoply of war did not frighten the sharks of Scapa Flow, Orkney Islands. Perhaps they had often attacked the German warships sunk in those waters without suffering any casualties. At any rate, they attacked the invading ships. One of the sharks picked a small vessel as its prey and was killed only after a stiff battle. Another shark, measuring about 27 feet, was struck and injured by the drifter Muriel.

The vessel lurched from the force of the impact, and the shark immediately wheeled about and launched itself against the hull. The bangs sounded like gunshots and were plainly heard on Scapa pier.

Police Records Show Old Tires Are Dangerous

Police records indicate that a much greater percentage of automobile accidents happen during the early fall and winter months from skidding than during any other period of the year.

"This is due," says B. F. Pior, local Seiberling tire dealer, located at Fifth and Main, "because with the coming of the first cold rains and snows a new set of driving conditions exist which motorists do not take into consideration." "During the summer months streets and pavements are usually dry and motorists have very little difficulty in stopping their cars. As fall approaches, however, tires are usually pretty well worn, little anti-skid tread is left on them and when the first snow, rain, sleet, and ice come, motorists are caught unaware. When they tramp on the brake pedal they find instead of the car coming to a smooth stop, that a bad skid, often occurs, resulting in a smashed fender, a broken wheel, or a serious accident.

"Therefore, we urge motorists to replace their smooth dangerous tires with new safe Seiberling tires now and prevent accidents that might otherwise occur." Mr. Pior carries a complete stock of Seiberling Vapor Cured and Air Cooled tires at all times. "The Seiberling Air Cooled Duo Tread tire is without doubt the safest tire in the world," Mr. Pior explains. When the first tread of this remarkable tire wears off, a safe anti-skid tread appears which assures safe driving down to the last mile.

GRAZING ACT DEMOCRATIC

F. R. Carpenter of Washington, new director of grazing, says his administration of the Taylor act is to be democratic—not bureaucratic.

He told newspaper men that administration of the Taylor grazing act, affecting some eighty million acres of public land, will be on the basis that "stockmen are capable of mature judgment and of making their own decisions with the public welfare in view." He was explaining his decentralized administrative plan. "After a study of administrative costs," said Carpenter, "I believe the work can be as effectively accomplished for about one-fourth the cost which would be involved in a so-called bureaucratic set-up."

Mr. and Mrs. R. D. Brown, father and mother of Mrs. John McCann, and her sister, Mrs. C. C. Tetts, husband and baby, who have been visiting Mr. and Mrs. McCann for several weeks, returned to their home in Coleman, Texas, leaving here Sunday.

Independent Oil Ass'n. To Outline Program Ft. Worth

A constructive program of legislation by congress for the stabilization of the petroleum industry will be presented to the membership at the fifth annual meeting of the Independent Petroleum Association of America, to be held at Fort Worth, Texas, on Friday and Saturday, December 7 and 8, according to President Wirt Franklin.

The association, representing independent operators in eighteen oil producing states and having members in sixteen additional non-oil producing states, has also had cooperation from twenty-five local, state, and area independent oil and gas and royalty associations throughout the United States.

"The association has stood consistently," said Mr. Franklin, "since its organization in 1929, for a tariff on imports of crude petroleum and refined products for the protection of the domestic industry."

ROSWELL COWBOY SHOOTS SELF MONDAY

Martin L. Stevens, aged 33, shot and killed himself at the Bass hotel in Roswell Monday night about midnight. Stevens is said to have shot himself in the heart with a revolver. He had lived in Roswell for the past five years. His physical condition is believed to have caused the act.

PENASCO ITEMS

Boyd Williams, Jr., is attending court at Roswell this week.

Mr. and Mrs. John L. Parker and daughter spent the week-end visiting at Felix.

Mr. and Mrs. John Posey and daughter Mrs. J. L. Parker were business visitors in Roswell Monday.

Wednesday Charles M. Martin, Chaves county school superintendent, visited the Penasco and Elk schools.

Mr. and Mrs. Jim Jackson of Mayhill and John Shearman of Artesia attended church at Elk Sunday.

The Penasco and Elk farmers start gathering corn this week. Lloyd Posey of High Rolls and F. Joy of Felix are helping the Elk farmers.

The Rev. C. A. Clark, who has the Tularosa-Sacramento circuit, preached his first sermon at Elk Sunday. Services will be held at Elk at 7:30 p. m. Saturday, December 8.

Among the week-end visitors to Roswell were Messrs. Frank Crockett, Austin Reeves, A. B. McGuire and F. G. Irwin, Mmes. A. L. Cleve, Bernard Cleve and Ella Stanley and Miss Ernestine Chesser.

Saturday, November 24, there will be a big dance at William Dockray's home in honor of Mrs. William Dockray, Henry Dockray, and Miss Trudie Mobley, whose birthdays are November 25, 26 and 20 respectively.

Mrs. Frank Smith is expecting her father, J. S. Follett, and her sister, Mrs. G. W. Kesselring, both of Tulsa, Oklahoma, the later part of this week. The sister will visit here for about a week, and her father will make an indefinite stay.

Oil Brings State A Total Of \$1,064,241.98 First Ten Months

F. S. Donnell, abstractor at Santa Fe has recently prepared some interesting figures on the income derived by the state on oil lands for the first ten months of 1934. These are presented herewith:

Month	Rentals and Fees	Royalties	Totals
January	\$79,636.21	\$39,575.50	\$119,211.71
February	42,556.96	44,257.77	86,814.73
March	46,135.16	37,716.16	83,851.32
April	55,012.51	44,953.28	99,965.79
May	42,733.12	44,095.62	86,828.74
June	44,436.52	46,267.42	90,703.94
July	47,230.93	44,973.62	92,204.55
August	79,635.11	45,493.21	125,128.32
September	85,042.70	51,393.07	136,435.77
October	98,234.72	44,856.39	143,091.11
Totals	\$620,653.94	\$443,588.04	\$1,064,241.98

Last year income from rentals and fees amounted to \$563,831.69, representing a full year's income from this source. The income from the sale of royalties this year is running the highest in history of the state.

Celebrating Thanksgiving? Build a Candy Log Cabin as Centerpiece

Here's a novel Thanksgiving centerpiece. The candy logs are made from a short-cut recipe using sweetened condensed milk.

CANDY logs, piled into a tiny cabin, will make a novel centerpiece for Thanksgiving festivities. Puritan dolls, a diminutive toy turkey and a background of little trees add a realistic setting. Here are short-cut, failure-proof candy recipes made with sweetened condensed milk that will sweeten the holiday fun.

Chocolate Logs

1 square unsweetened chocolate
2/3 cup sweetened condensed milk
1 cup confectioners' (4X) sugar
1/4 teaspoon vanilla
1/2 cup coconut, toasted

Melt chocolate in top of double boiler. Add sweetened condensed milk and stir over boiling water five minutes or until it thickens. Remove from fire. Add confectioners' sugar and vanilla and mix thoroughly. Shape into small logs. Roll in toasted coconut. Allow to stand in cold place several hours, or until very firm, before building the log cabin.

Small sections of log may be used as props to give greater firmness and security to the little house; and tooth picks should be thrust through them where they cross, to hold them securely in place.

Chocolate Fudge

2 cups granulated sugar
1 cup water
1 cup sweetened condensed milk
3 squares unsweetened chocolate
1 cup nut meats (optional)

Mix sugar and water in large saucepan and bring to boil. Add sweetened condensed milk and boil over low flame until mixture will form firm ball when tested in cold water (235° F.-240° F.). Stir mixture constantly to prevent burning. Remove from fire, add chocolate cut in small pieces. Chop nut meats and add. Beat until thick and creamy. Pour into buttered pan. When cool, cut in squares.

BULLDOGS LOSE LAST HOME GAME TO PORTALES—SCORE 13 TO 24

Fumbles Costly in Last Half of Game—Rally Closing Seconds of Play Too Late.

The Artesia Bulldogs lost the last home game of the season Friday to the heavier Portales high squad by a count of 24 to 13. The superior weight of the visitors proved effective in the last half when the Portales lads scored three touchdowns, but failed to make the extra point in the three tries.

The half ended with the scored 6 all. Both scores were made on straight football. Portales' second counter came on a forward pass and the third counter on an intercepted pass combined with end runs. In the meantime the Artesia squad had made some costly fumbles and lost a splendid chance to score when a local receiver dropped the ball with a clear path ahead. The visitors secured possession of the ball on another fumble and playing end runs and line bucks, scored the fourth touchdown.

In the closing minutes of play, Artesia made a touchdown on a pass from Conner to Champion and also made the extra point. The local squad playing with renewed pep against the Portales reserves might have turned the tide had the game lasted ten minutes more.

The starting lineup:

Artesia	Pos.	Portales
Cogdell	lg	Moody
P. Gray	lt	B. Briggs
Wilds	le	Fields
Burnett	c	Meiner
Funk	rg	Martin
Tidwell	rt	Baker

HIGHWAY ASSOCIATION ELECTS NEW OFFICERS

Arthur W. Brandt, commissioner of highways of New York, was elected president of the American Association of State Highway Officials at the concluding session of the 20th annual convention in Santa Fe Thursday.

He succeeds O. S. Warden of Great Falls, Montana.

Brandt was elevated to the presidency from the executive committee.

The four new vice-presidents are Ernest L. Bailey, state road commissioner of West Virginia; Ed McDonald, Oklahoma City, Oklahoma; J. T. Ellison, chief engineer of the Minnesota highway department and G. D. Macy, highway engineer of New Mexico. W. W. Mack, chief highway engineer of Delaware, was re-elected treasurer.

Thomas H. McDonald, Washington, D. C., chief of the federal bureau of public roads, and C. B. Treadway, Tallahassee, chairman of the Florida highway commission, were elected to five-year terms on the executive committee.

Who Wants To?
Engineers have estimated that it would cost more than \$250,000,000 to duplicate the great wall of China.

Mushroom as Barometer
The mushroom is so sensitive to changes of temperature and moisture that it acts as a barometer.

YOUR CHILD AND THE SCHOOL
By Dr. ALLEN G. IRELAND
Director, Physical and Health Education
New Jersey State Department of Public Instruction

Concentrated Sunshine
The shorter day of the autumn and winter means "cod liver oil time" to an increasingly large army of parents. Or it may be the halibut or the salmon that is the benefactor. The needs, values, and results are just the same. Your family physician should make the choice.

But of one thing we are sure, and it is that a great many children are in absolute need of one of the liver oils and it is very likely that practically all children would be benefitted. We witness one of the marvels of science and take it so calmly. We discover that sunshine is essential to the normal growth of children and to the health of adults. We find out why. Other investigations discover in the fish liver oils those chemical elements called "vitamins," and it turns out that they are identical with the elements manufactured in our bodies under the influence of the sun's rays. Thus, when the short day comes and children are deprived of sunshine because of attendance at school, we have at hand nature's own product and substitute.

I shall never cease to regard these discoveries as being among the greatest triumphs of man. We should rejoice in this knowledge and we should use it, that coming generations will be ever better fitted to carry on the world's work. To say that it is one of our obligations as parents and teachers is not putting it too strongly. Sunshine is essential and it is better than the substitute. Lacking it in quantity, we should rely upon the next best, one of fish liver oils. But, as always, get your physician's advice.

Bowie High of El Paso and Clovis Will Tangle in a Passing Attack Expected to be Sensational.

CARLSBAD, (Special)—Clovis and Bowie high of El Paso will meet on the gridiron Friday night under the giant floodlights of Carlsbad's new football field in the outstanding high school grid game of the season in the southwest.

This intersectional game will bring together the mythical champions of New Mexico against Bowie high, last year's district champions in the El Paso district, and in position to win this year's district championship depending upon the outcome of one more game.

More than 1,000 football fans from outside of Carlsbad are expected for the game. Clovis is bringing a special train. It is expected that one or more special coaches will be added at Roswell to the special train bringing several hundred Roswell fans down to the game. Artesia is also expected to have a large delegation here as well as numerous other localities in southeastern New Mexico.

Additional bleachers are being built at the new field to aid in caring for the crowd but it appears now that standing room even will be at a premium.

The game will see a sensational passing attack with Eddie Miller on the tossing end for Clovis. Added to this is the terrific power of Joe Maddox, 210 pound full-back on the Clovis team who is said to run the 100 yard dash in 10.2 seconds. The Clovis team has scored 446 points against 37 for opponents this year.

Pitted against them will be the Bowie Bears which also has a formidable offensive. Athletic critics expect both teams to score during the game and the result will depend, it is expected, on the ability of the defense of the teams to stop what heretofore has

Uses for Arsenic
Besides arsenic's use as an insecticide some of its compounds are used in medicine for certain types of anemia. It has been advocated as a preservative for wood and is employed as a "clearing" agent in the manufacture of glass.

Solid Comfort
A London doctor, at his own request, was buried fully dressed in blue serge suit, holding a box of matches in one hand and a pipe in the other, with a tobacco pouch lying on his breast. His favorite stick lay by his side.

Names for Wall-Eyed Pike
In the Great Lakes, the wall-eyed pike is called white-eye, jack-salmon, blowfish, low pike or picker. In other localities, he may be a river trout, jack-pike, white-eye, jack-salmon, blowfish or blue pike.

Pimento and Pimiento
Pimento, as used for flavoring, is an allspice obtained from the dried, unripe, aromatic berries of the pimento tree. Pimiento is a Spanish sweet pepper.

Use of Thunderbird Design
The thunderbird design is found on many Indian shields of buffalo hide or rawhide and in fraternal emblems and pictograph cowhides.

Why U. S. Can Be Thankful
There are 280 different kinds of orchestral drums used in India, and Hindu bands often use as many as twenty-five of them.

Ample Lighting Fixtures Cost So Little—

—Yet mean so Much to the Protection and Comfort of the Eyes of both Young and Old!

Is your home one of the hundreds without ample lighting facilities? Possibly you have the most modern equipment, but the sockets fail to carry the proper type and size lamps. Possibly the light is not sufficiently bright to give eyes proper strain free comfort while reading or for your children while studying.

There's little need of our telling you the handicaps the child, with improper eyesight, shoulders in his school work, or the handicaps he will suffer later on in life.

It costs so little more—possibly only a few cents per month—to have proper lighting in your home and it means so much to the protection and comfort for the eyes of every member of your family.

GENERAL NEWS BRIEFS

Justice Dan K. Sadler will become chief justice of the New Mexico supreme court after January 1st, succeeding Chief Justice Dan C. Watson, it was announced at Santa Fe last week.

December 1st, is the last day motorists will have to reserve last year's numbers for their license plates. After that license plates will be distributed on the first come, first served basis.

Congressional leaders sat their minds toward a possible compromise on the bonus question last week, in the face of a survey showing the house overwhelming for the cash payment and the senate sentiment much more favorable than last year. Result of a press survey indicate President Roosevelt may be forced to accept a compromise to stop the growing move toward cashing the estimated \$2,000,000,000 veterans certificates.

Despite the rapid growth of government spending, a report of the treasury Saturday showed the spending was hundreds of millions behind President Roosevelt's estimate of expenses for the fiscal period. If the present rate of spending continues it will be about three billion dollars behind the president's estimate on next June 20th.

Three highway employees were killed Saturday when a truck they were riding in slid off a snow-covered highway near Cowles on the banks of the Pecos in San Miguel county.

Scrap silver and sludge with an estimated value of \$10,000 to \$20,000, being transported from Rochester, New York, to Irvington, New Jersey, in a ten-ton truck, was the object of a search Saturday night by police of seven states.

A report issued Monday by Secretary Ickes, public works administrator, showed New Mexico had been allotted \$2,249,900 for public works projects. Three projects have been completed, three are under construction and one is under contract.

Northern California dripped from the heaviest storm of the season the first of the week as authorities attributed at least eight deaths due to wind and rain. In the San Francisco bay area, where all deaths occurred, the storm uprooted trees and choked streets with debris.

Immunization from infantile paralysis is believed to be possible through the development of vaccine from monkeys, it was announced at New York last week.

Mrs. Alice Hargreaves of West-erham, England, the originator of "Alice in Wonderland," died Friday in her home at the age of 82 years, after living in retirement for a number of years.

New Linotype

ordinarily could be produced by five or six men or women doing the work by hand—and the composition is incomparably better. While for a long time we have received the patronage of a host of subscribers, advertisers, and printing buyers in general, we look forward to the handling of an even greater volume of business now that we are better qualified to render the sort of service most to be desired.

It has been our aim to present the news of the day without fear or favor, and to reflect faithfully the ideals and ambitions of our constituents, and we shall continue to devote our talents and resources to the fulfilling of this aim. And of great help to us in the carrying out of our purpose will be our new Linotype.

J. Harvey Wilson was accompanied this week on his trip to Clovis and Tucumcari by Mrs. Wilson and small daughter Janice.

For hair styles that are different, call the Artesia Beauty Shop, Phone 322. 47-11c

Farmers In The Drouth Areas Can Get Feed Loans

"Stockmen in drouth areas who cannot obtain credit from other sources will continue to be eligible for emergency feed loans for their foundation herds this winter, provided they keep their credit in good standing and show their intention of repaying the loans," W. I. Myers, governor of the Farm Credit Administration said. "The emergency crop and feed loan offices," Governor Myers said, "have made loans in the primary drouth areas without requiring chattel mortgages in order to make funds available quickly to save hundreds of thousands of cattle and other stock, but they have done so with every expectation that the money will be repaid."

"The emergency crop and feed loan division of the Farm Credit Administration has dealt leniently with such borrowers, but each loan case has been carefully inspected. Farmers have shown their good faith by cooperating and not attempting to get loans where they were not needed, but of course we cannot expect credit will continue to be available unless borrowers keep the loans in good standing and show their intention of paying the debts."

"The emergency crop and feed loan offices are the only source of these unsecured emergency feed loans. They are disbursed from a part of the drouth appropriation approved June 19, 1934, and are not made through any of the permanent credit institutions under the Farm Credit Administration."

"Up to November 1," Governor Myers continued, "over 191,000 farmers and stockmen obtained these initial emergency loans to feed their stock and about 134,000 supplemental advances have been made, for a total of \$21,500,000, out of the allocation of \$96,785,000 for such purposes. On an average about \$1,250,000 a week is being loaned to feed cattle and other stock, and during the winter additional credit will be available as needed if the borrowers keep their credit good and show their intention of paying their debts."

November 21.....	12.24	12.25

Cotton has held up well during the week but shows no signs of getting out of its rut and until this does occur it is anybody's guess as to what we may expect.

Congress will be in session now in six weeks and much will be said, if nothing done, about repealing the Bankhead act. Proposals along this line will be bearish and in view of the very large government held cotton it does not seem to make spinners uneasy about their supplies. No hedging activities indicates their willingness to let the government carry the cotton until such time as it is actually needed in their business, and with such large supplies no rush need be expected to buy cotton.

We cannot see any material advance (at least not sufficient to let those out who placed cotton that was once worth 13.50 in the government 12c loan pool) in the immediate prospect. Should March get up around 13.00 heavy selling will make its appearance but still March at 13c will not give local holders the desired break as it costs to hold cotton, whether by government loans at 4 per cent with 25c monthly charges, or "on call." As has often been pointed out, \$5.00 the bale per year is about the best that can be expected.

Late cotton, not worth 12 cents should by all means go to a benevolent government.

EXTEX AREA HAS MORE THAN 15,000 OIL WELLS NOW FLOWING

The number of wells in the crowded East Texas oil field passed the 15,000 mark this month, records of the Texas Railroad Commission disclosed this week.

The first half of November saw 118 wells completed, bringing the total of 15,094 on November 15.

Allocations given the new wells increased the daily allowable production of the field 3,044 barrels to 411,752. If completions are as numerous for the last half of the month, the allowable on December 1 will be about 415,000 barrels.

OVER 2,000 LAMBS TO GO TO KANSAS AND OKLAHOMA POINTS

Over 2,000 spring lambs have been loaded out of here during the past week to points in Kansas and Oklahoma. Casabonne Brothers shipped out 623 head Friday to Cunningham, Kansas, where they will be placed on pasture. The lambs were purchased by Clark and Gaskill at a reputed price of four and a half cents per pound. The animals were above the average in weight and quality, weighing about sixty pounds each.

Monday, John P. Cauhope of Hope shipped fifteen cars of lambs or approximately 4,500 head to various points in Oklahoma, where they will be placed on the wheat fields.

EVENING BRIDGE MRS. COMPARY HOSTESS

Mrs. Andy Compary entertained at bridge Wednesday evening at her home.

Guests were seated at three tables for five rounds of contract in which Mrs. Albert Glasser won the high score prize and Mrs. Robert McProud consolation.

A delicious refreshment plate was served to the following guests by the hostess at the conclusion of the games: Mmes. Howard Gissler, Marvel Archer, Francis Painter, Merrill Sharp, W. G. Cook, E. T. Barnes, Albert Glasser, Robert McProud, W. H. Barker, Howard Byrd, Goss and Miss Leona Wooten.

Twenty-Nine Young Ladies Nominated In Xmas Gift Contest

Twenty-nine young ladies have been nominated in the Joyce-Pruit Christmas gift contest. The winner will be entitled to a trip to Mexico City with all expenses paid during the Christmas holidays. A vote will be given for each 25 cent purchase and each 25 cents paid on account. The standing of the candidates yesterday afternoon was as follows:

Misses Elsie Jernigan, Peggy Wilson, Virginia Gates, Mary Jane Terry of Artesia; Miss Virginia Glasscock of Hope; Misses Joan Wheatley, Ruth Hogan, Elsie Palmater; Mrs. Alma Pearson Ingram, Lake Arthur; Miss Glenna McLean, Alice Moore, Pauline Clayton, Lois Fanning, June Carper of Artesia; Miss Gene Pearl White, Hope; Miss Lillian Hefflin, Nina Gray, Laura Bullock, Virginia Woods of Artesia; Miss Maud Bowman, Dayton; Miss Carmen Valenuela and Christine Bostick of Lake Arthur; Misses Margaret Nellis, Myrtle Curry, Josepa Reyes, Milquida Sosa of Artesia; Miss Ruth Mahan of Lake Arthur and Helen Molina and Irene Gillispie of Artesia.

Mrs. Roy Spivey of Wink, Texas, former secretary of the late J. H. Jackson, returned to Artesia in the first of this week to help in the Jackson law office for the next few weeks.

Authorize Sale Of 635,020 More Bales Of Surplus Cotton

The national surplus cotton tax-exemption certificate pool to date has authorized the sale of surplus tax-exemption certificates equivalent to 635,020 bales of cotton and already has collected \$5,388,268 which is being held in an earmarked account in the treasury for distribution to producers who surrender certificates to the pool, as announced by the Agricultural Adjustment Administration.

The granting by the pool of authorization to sell certificates equivalent to 635,020 bales does not necessarily mean that this amount has been sold, as some counties which have requested surplus certificates probably have over-estimated their needs. The cash on hand received from the sale of certificates represents payments for approximately 60 percent of the certificates sold. Money for the other 40 percent is in transit between the cotton growing counties and Washington.

Surplus certificates sufficient to pay the tax on 650,000 bales of cotton have been surrendered to the pool and more certificates are expected to be received before November 24, the final date on which the pool will accept surrender of certificates. Sales will be made by the pool after that date, however, so long as there is sufficient demand to warrant its operation.

The money received from the sale of certificates at the standard rate of four cents a pound will be distributed after the pool's operating expenses are deducted, among owners of surplus certificates who surrender them to the pool for sale a bale for certificates sold. When on the basis of approximately \$20 the pool is closed, each producer will be returned his pro rata share of any certificates the pool does not sell. These may be exchanged for 1935 tax-exemption certificates in excess of his regular allotment of such certificates in the event the Bankhead Act is made effective for next year.

J. S. WARD DISCUSSES INSURANCE BEFORE THE ROTARY CLUB

J. S. Ward was the principal speaker at the Artesia Rotary club luncheon program Tuesday, discussing some interesting facts relative to the various phases of fire insurance. At this time the birthdays of two members, Chas. Morgan and Boone Barnett were honored and Mmes. Morgan and Barnett were present to see it well done. Two birthday cakes bearing forty-three candles each were brought out and cut after the candles were lighted. Later it was discovered that some of the members near the cakes were suffering from the heat of the candles and to prevent any ill effects therefrom the candles were ordered extinguished.

Visitors in addition to above named ladies were Dick Vandagriff and William Linell and W. C. Martin, who paid for his own meal, was a guest of C. J. Dexter.

ROSWELL MAN IS FOUND DEAD WEDNESDAY

Evidently fatally stricken by a heart attack, the body of W. J. Burch, 52, of Roswell, was found yesterday about 7 p. m. in the open country 13 miles northwest of Roswell by his son, James W. Burch.

The elder Burch, it was reported left home Sunday morning on a hunting trip and was supposed to have returned Tuesday. When he did not arrive, his son became alarmed and started the search which ended with the finding of his father's body last night.
