

Pue Homestead Claim Granted At Washington

Department of Interior Grants Pue Homestead Claim — Case attracts Attention in This District.

The fight of Arthur V. Pue, of Carlsbad, "small" stockman, to obtain grazing rights on land near his homestead claim, was believed at an end Friday, when word was received in Carlsbad, from Washington that his homestead claim had been granted by the department of the interior.

Pue recently won the right to graze an average of seventy five head of cattle on the public domain adjoining his homestead, twenty miles east of Carlsbad, reversing a decision of the district grazing board.

The region grazer, in a written ruling, gave Pue the right to graze the land pending outcome of his homestead application, which then was before the secretary of the interior.

James M. H. Cullender, counsel for the Stockmen's Cooperative association, which backed Pue is fighting his case, who is in Washington in the interest of the group, speeded the decision on Pue's homestead application.

The case recently attracted wide attention because members of the Stockmen's Cooperative association, an organization of men with small holding, claimed the "big stockmen are trying to squeeze us out."

Mr. and Mrs. Tom Runyan of the Lower Pecos community were shopping and visiting friends here yesterday. Mr. Runyan stated rain or snow had fallen in his section pretty near every day for the past week.

Mr. and Mrs. A. D. Hill Sr., of the Cottonwood, expect to leave today for Mundy, Texas to visit with a twin sister of Mrs. Hill, Mrs. F. T. Jarvis and Mr. Jarvis. Mrs. Hill, who has been in ill health for several months is slowing improving.

J. S. Cullinan Dean of Oil Fraternity Dies Last Thursday

J. S. Cullinan, 76 of Houston, Texas, dean of the oil fraternity of the south and president of the American Republic Corp., parent company of the Republic Production Co., operating here died last Thursday in Palo Alto, California. He had gone to Palo Alto, California for a visit with Ex-president Herbert Hoover. He was in San Francisco at the time of the recent light quake and developed pneumonia from exposure, which caused his death.

Mr. Cullinan organized the J. S. Cullinan Oil Co., later known as the Magnolia Petroleum Co. He also organized the Texas company and served as president of this company from 1903 to 1913. Later he resigned and organized the American Republics Corp., and about two years ago turned the management of this company over to his son, Craig Cullinan.

Senate Bows To Gov. Tingley In Passage of Tax

SANTA FE.—The New Mexico state senate, bowing to the vigorous demands of Governor Tingley, concurred by a vote of twenty one to three Thursday in the house amendment to the severance tax bill raising the tax on oil from one to two percent.

The action broke a deadlock which brought the assembly to a crisis in obtaining needed revenue in the final two days of the session.

The vote to concur was preceded by a seventeen to seven ballot to reconsider a house amendment previously rejected by the senate. The deadlock sent Governor Tingley before a joint session on the 10th in an appeal for a higher rate.

Following the vote, Tingley said, "I'm greatly pleased. It will assure continuance of social security activities.

The tax places a one percent levy on potash and one-eighth of one percent on other mining, and a two percent on oil.

Easter Sunrise Service at City Park on 28th

Cooperative Service Starts at 5:45 o'Clock With Laymen From Six Churches Taking Part. Music by School Orchestra.

An Easter sunrise service has been planned again this year by the Ministers' Association for 5:45 on Easter morning at the City Park. It is intended to be a community service, and everyone is cordially invited. Parts on the program have been assigned to laymen representing six of the local churches. The school orchestra, under the direction of E. L. Harp, will provide music.

Following is the order of the service:

Trumpet Call to Worship (promptly at 5:45).
Hymn—"All Hail the Power of Jesus' Name."
Invocation—B. G. Sanders, Church of the Nazarene.
Hymn—"Christ Arose."
The Easter Story in Scripture: Matthew 28:1-8—Edgar Bishop, Baptist church.
Luke 24:1-12—Ed Nelson, Assembly of God.
Acts 1:6-11—S. W. Gilbert, Presbyterian church.
Hymn—"Praise Him! Praise Him!"
Prayer—George Frisch, Methodist church.
Hymn—"Blessed Assurance."
Benediction—C. O. Brown, Christian church.

County May Vote On Bond Issue to Erect Court Wing

Eddy county may vote on a bond issue again this fall to erect a wing on the courthouse to replace the dilapidated west section of the court house building in Carlsbad.

A proposal to vote bonds, where in the county would receive government aid under PWA was defeated at the polls about two years ago.

The two-year period, required in such matters, will expire this fall and it is possible the county commissioners may call another election in September.

The second election has the approval of the Carlsbad chamber of commerce and the county commissioners are reported to favor the action according to word from Carlsbad.

The west wing to the present court house is badly in need of repairs and is said to be in a hazardous condition.

Twenty Seven Bulls Ten Females Sold At Hereford Sale

Twenty seven bulls and ten females went through the ring at the annual bull sale of the eastern New Mexico Hereford Breeders association held at Roswell Monday. The twenty seven bulls netted the owners \$4,234. Approximately 300 stockmen attended. H. S. Bissell of Las Cruces, the heaviest buyer took seven animals and French Brothers of Elida offered the largest number of animals for sale, seventeen.

Among the purchasers of ranchers of this section: Prince Domino F, 15, sold by N. H. French to John Fanning of Artesia. Annas Domino, sold by A. L. French to John Fanning. S. Domino 1, sold by Austin Reeves of Elk to R. L. Corn, Roswell. Diamond 3rd, sold by J. H. Simpson to John Prude of Hope. Prince Domino 3rd, sold by Austin Reeves of Elk to H. S. Bissell of Las Cruces. S. Domino 31st, sold by Austin Reeves to Jess Corn of Roswell. Mischief Spartan, sold by N. M. French to Frank Newman of Lake Arthur. Rupert Domino, sold by A. L. French to Ed Martin of Artesia.

Mrs. Moss Spence and daughter Mary Helen and son James Solon of Lake Arthur were shopping in Artesia Saturday.

The Rev. J. W. Slade, former pastor of the Methodist church at Hagerman, died at his home in Toyah, Texas Friday according to word received here. His death was said to have been due to a heart attack following acute indigestion. Funeral services were held in Toyah Sunday and burial was made in Pecos, Texas.

Albuquerque Is Basket Winner

LORDSBURG—The Bulldogs of Albuquerque high school Saturday night won their first New Mexico state basketball championship since 1924, defeating Lordsburg high school, 41-22, for the title.

An amazing second half spurt which abolished all chance for the home five to win gave Coach F. M. Wilson's Bulldogs, class of the tournament from the opening day, the title after they had walked off the court with a slim 14 to 14 half-time edge.

It was Jimmy Pappan, a scoring riot in himself, who led the Bulldogs to victory with 19 points to his credit, but he was smartly assisted by Harlan Morris, who picked up 11 in his own right besides feeding his sharp-shooting team mate.

Saturday scores in the state high school basketball tournament:

Semi-Final Round
Lordsburg 29, Santa Fe 22.
Albuquerque 36, Floyd 26.
Quarter-Final Round
Lordsburg 33, Tucuman 30 (Overtime).
Santa Fe 29, Des Moines 20.
Floyd 26, Socorro 25.
Albuquerque 33, Portales 14.

County Junior Track Meet April 17th at Lakewood

Eddy county junior track meet will be held at Lakewood, April 17, it was announced at Lakewood Saturday.

The meet will be divided into four divisions. A division will be composed of all students who have passed their fourteenth birthday, but who have not reached the age of fifteen. B division will include all students between the age of ten and fourteen years. C division will include all students between the ages of eight and ten years, and D division will include all under eight years.

A division boys will take part in the 75-yard dash, broad jump, high jump, 8-pound shotput, 220-yard relay. A division girls will compete in the 75-yard dash, broad jump, high jump, basketball throw and 220-yard relay.

B division boys will compete in the 50-yard dash, broad jump, high jump, 8-pound shotput, 220-yard relay. B division girls will compete in the 50-yard dash, broad jump, high jump, basketball throw and 220-yard relay.

C division boys will take part in the 50-yard dash, broad jump and 50-yard relay. Girls will compete in the 50-yard dash, broad jump, high jump, basketball throw.

D division boys and girls will compete in shuttle races. No school will be allowed more than three contestants in any one event, unless teams are required. No student who is taking post graduate eighth grade work is eligible to compete in any event.

Each school will be required to certify to W. S. Clary the names of events, and the names of contestants in each event, five days prior to the date of the track meet.

First place winners will be awarded five points; second place, three points; third place, one point. Ribbons will be awarded for first, second and third place winners in each event.

Local Building Activity Continues—Two Modern Dwellings Underway

Building and repair activity continues here with construction started on two modern residences. Clyde Guy has the foundation built for a six room modern residence on west Main street. The new dwelling is located just west of the present home of Mr. and Mrs. Guy Chas. Gaskins has also started construction on a four room modern dwelling in the Keller Ragsdale addition in northwest Artesia. Workmen are finishing the interior of the new duplex belonging to Mrs. C. Bert Smith on Quay street, south of the First Christian church. On the same street, Dick Vandagriff has construction underway on a duplex apartment.

A daughter was born to Mr. and Mrs. Otis Bailey of Hope, Tuesday.

Mrs. W. H. Ballard returned Tuesday from Oklahoma City, Oklahoma where she attended the funeral of her little nephew, Joe Erb, who was accidentally killed on March 10th. The child, son of Mr. and Mrs. Mark P. Erb, was killed when he was struck by a car driven by a neighbor, who was attempting to drive against the sun.

County Officers May Join Radio Hookup of Dist.

Peace Officers Propose a 500 Watt Station at Pecos to Serve Radius of 250 Miles in Texas and New Mexico.

Eddy county officers and police may join a peace officers' radio network hookup for west Texas and eastern New Mexico, Sheriff Dwight Lee announced at Carlsbad Tuesday on his return from a peace officers' meeting at Pecos, Texas. Lee said his office would have to have the approval of the district court and the county commissioners to join the hookup. Peace officers at Pecos, Texas made tentative plans for establishment of a 500 watt, short wave broadcasting station, which would be operated over a radius of 250 miles and would serve eighteen counties in Texas and New Mexico. Texas counties are particularly anxious to have Eddy, Chaves and Lea counties join the move.

Under the tentative plan, the sheriff's office at Carlsbad would have a short wave receiving set and all sheriffs and police cars would also have short wave sets. The station would be located at Pecos. This station would be called by telephone in case of a robbery in this section and the information broadcasted.

Under the plan the expense to the county would be small and would only be a part of the upkeep of the Pecos station. Present communications between peace officers is quite slow compared to the rapid radio information.

Church Addition Is Progressing

The remodeling of the Church of Christ building on Grand Avenue is proceeding at a satisfactory pace. The old roof on the building was torn off last week. Walls of the building have been lowered to accommodate the new roof and the addition to the church, which will consist of three Sunday school rooms has been started. The remodeling and repair work will be completed within about three weeks and when completed the building will contain eight Sunday school class rooms.

A unique plan of financing the cost of the repairing and remodeling has been inaugurated by this church. A series of forty notes for \$50.00 each and signed by the church officers have been issued. Church members purchased the notes, which bear six percent interest. The notes will mature serially, one each month for a period of forty months.

MANLEY WITH LOCAL FIRM

L. L. Manley, former proprietor of the City Garage recently accepted a position in the Artesia Body and Fender Works and will be in charge of the auto repair service and is now on duty there.

TOPS KANSAS CITY MARKET

Kansas City buyers are taking notice of Pecos valley lambs after W. Leslie Martin topped the market Tuesday with two cars of sheared lambs with a high of 10.35c. Mr. Martin has two more cars he plans to sell on the market tomorrow.

RAIN-HEAVY SNOW FALLS IN NORTHERN PART OF THE STATE

Moisture laden clouds failed to materialize moisture for the Pecos valley Sunday and Monday in one of the coldest spells of the present month. Monday the thermometer at the government station registered a low of twenty four degrees above zero and Tuesday morning the temperature had risen to twenty six above zero. In the meantime rains with heavy snow fell over the high elevations in the northern part of the state. Snow also gave the wheat belt of the panhandle of Texas a quarter inch of needed moisture. Precipitation in the mountain district was negligible. Residents of the Sacramento mountains reported freezing weather with moisture freezing to the trees.

The cold spell here is believed to have killed early fruit and probably inflicted some damage to budding trees and shrubs.

Death Takes Mrs. D. E. Buckles 11th

Mrs. D. E. Buckles, aged 63, died suddenly last Thursday morning about 11:45 o'clock after suffering a heart attack, which was due to hardening of the arteries. She was apparently in her usual health Thursday morning when she arose and shortly after eating breakfast, reclined on the living room couch. She complaining of a hurting in her chest and a physician was summoned, but gradually grew worse, and passed on peacefully.

Mrs. Buckles, a native of Mahomet, Illinois came to Artesia twenty nine years ago with Mr. Buckles and has lived here continuously since that time. She was well known here and was active in the Rebeekah lodge and took an active interest in the affairs of the Artesia library and had served on the library board for several years.

She leaves to mourn her loss, a husband, D. E. Buckles, a sister Mrs. B. S. Warner of Ashton, Illinois and a nephew, C. R. Buckles of Urbana, Illinois, who was here to attend the funeral services. Funeral services were held from the Presbyterian church with the Rev. W. B. McCrory, pastor officiating. Burial was made in the Woodbine cemetery.

N. Mex., Refinery To Have Barbecue For Members 21st

Sam Foster, manager of the New Mexico Refinery association said yesterday plans had been made to give a barbecue for members of the association, Sunday at the new refinery plant in east Main addition, a half mile east of the Artesia hotel. The barbecue he said is being given commemorating the completion of the plant. In addition to the free barbecue coffee, and the barbecue accessories will be served. Plans have been made to prepare 300 or 400 pounds of beef.

At the conclusion of the barbecue at noon, plans have been made to have several prominent New Mexicans address the gathering. Ex-governor A. W. Hockenull of Clovis and Governor Clyde Tingley are among those who have been invited to attend the event. Several members of the association from Albuquerque and other points in northern New Mexico are expected to be present.

NEW COMPTROLLER

SANTA FE.—J. O. Gallegos, of Socorro, Socorro county democratic chairman, succeeded Juan Vigil as comptroller of New Mexico Tuesday.

Gov. Clyde Tingley announced the appointment with the statement that Vigil's term "had expired." Gallegos is a member of the board of regents of the school of Mines at Socorro and mayor of that city. He is married and the father of three children.

Vigil's retirement ended more than four years of service in the comptroller's office. He was appointed by the late Gov. Arthur Seligman in June, 1932.

Mrs. Johnny Williams was in Artesia on Sunday.

Three Held at Las Cruces for Murder Also Visited Here

Mr. and Mrs. George A. Lord and Delbert Lord held at Las Cruces for the murder of Robert Aubuchon, employe of a Deming tourist camp, were seen here about two or three weeks ago. J. C. Floore Sr., city marshal said yesterday. Two other men, Emmett Powell and Walter Smith, were arrested by Las Cruces officers later in the day on the same charge.

George A. Lord is said to have admitted complicity in the abduction and killing of the Deming man. Lord, his wife and brother are also wanted in Michigan for murder, Floore said. A police bulletin received here recently has the pictures and finger prints of the three wanted in Michigan. The Lords drove in Artesia about three weeks ago in a car bearing Michigan license and ate supper at a local cafe. They are also thought to have spent the night here. The two brothers were dressed as western cattlemen.

Mr. and Mrs. J. K. Wallingford gave a charmingly informal reception at their apartment in the Artesia hotel, honoring the Right Rev. Fredrick B. Howden, on Sunday evening following the church services.

Public Hearing on Zoning Bill to Be On March 23

Public Will be Given Opportunity to Air Views on Proposed Zoning Ordinance—All Are Invited.

The Artesia chamber of commerce has arranged a public hearing on the proposed zoning ordinance to be held at the American Legion hut on Tuesday evening, March 23rd, beginning at 7:00 p. m. The purpose of the hearing is to determine if the property owners of Artesia would like to have the City council pass a zoning ordinance, which would permit the council to divide the city into districts and to specify the quality and the cost of buildings to be erected therein. The hearing is opened to the public and everyone interested is cordially invited to attend.

ELLIOTT LAND SALES FOR \$176,000 CASH ANNOUNCED

HOBBES.—The Shell Petroleum company Tuesday announced purchase of 320 acres in the new oil area eleven miles southeast of the Hobbs oil pool for \$176,000 cash. Oil men said the price of \$225 an acre for the land and \$325 an acre for the oil set a new high for acreage in a semi-proven area. The land was bought last week from Lawrence Elliott of Roswell.

Improved Roads Should Make The Hills Popular

Better highways will be ready for travel to the mountains this summer and more highway improvement is in prospect to the mountain area as well as to the oil fields east of here. Motorists going to the hills will be able to travel almost to the Lower Pecos community over improved roads. The last of the eighteen mile strip of road from the Chas. White draw west to within three and a half miles of the Lower Pecos section has been finished and is being traveled. A project of six miles, running two and a half miles up the Pecos has been approved as well as a seven and a half mile project west from Hope to the Chas. White draw. In both projects the road will be graded and graveled.

A WPA project consisting of twelve miles of graded and gravel road running east of Artesia over highway 83 to the Artesia oil field has been surveyed and construction on the project is expected to start at an early date. This will give travelers over 83 a surfaced road for a distance of thirty miles east.

Youth Badly Burned Attempting to Make Fire in Oil Stove

Paul Alvarez, seven year old son of Mr. and Mrs. Pablo Alvarez was badly burned Saturday night, when he attempted to start a fire in an oil stove at the Alvarez home in the southwest part of Artesia. According to the story told of the accident the youth had turned on the oil in an oil stove and had flooded the stove with oil dripping to the floor. When he attempted to ignite the stove, an explosion followed, which enveloped the lower part of his body. When his clothing caught afire, he attempted to run from the house, but was caught and his flaming clothing extinguished. His stomach and the lower part of his body was badly burned. He was given first aid and sent to the Emergency Hospital. He was given a good chance to recover by the attending physician unless complications set in.

Fire also damaged the interior of the Alvarez dwelling. The amount of damages is said to have been in the neighborhood of \$500.00.

Mr. and Mrs. T. H. Flint and daughter, Miss Betty drove over to El Paso, Texas last week. Saturday Miss Betty left by train for Dallas, Texas to join Mr. and Mrs. L. L. Dent for a visit with her sister, Mrs. Frank Dent and Mr. Dent of New York City. Mrs. Flint left the same day for a visit with her daughter, Miss Kitty Flint, a student in the New Mexico University at Albuquerque.

New Oil Wells Number 29 In Southeast Dist.

Activity Centered in The Monument District — Wildcat in East Lea County Still Testing—Roosevelt Test Abandoned.

Continued development of five Lea county districts is noted this week, where twenty nine new wells have been staked. Four large producers with a number of small inside wells were completed also during the period, including a producer for the Hobbs field, the first to be finished there in about two years. Only routine drilling is reported in the principal wildcat areas, with a wildcat well near the east edge of Lea county still testing.

Operators however are still closely following developments at the Parcel No. 1, Brown and Reynolds, sec. 8-21-38, which is trying to test after drilling the casing plug and deepening five feet to 4378 feet. The well made two small heads after workmen ran tubing.

One of the largest wells of the week was finished in the Monument sector in the Shell Petroleum Corp., State 3-K, NE sec. 36-20-36, which was drilled to 3850 feet and flowed at the rate of 100 barrels per hour natural. Three other wells completed in the same district included the Gulf Petroleum Corp., SE sec. 36-20-26, drilled to 3846 feet and made an initial flow of 350 barrels in six hours, also the Repollo Oil Co., Barber No. 6, SE sec. 7-20-37, which flowed at the rate of 250 barrels in ten hours from 3875 feet. Also the General Crude, State 1-G, NE sec. 16-20-37, which was completed for 120 barrels an hour, flowing natural from 3850 feet.

In the Hobbs field, the first well to be finished there in two years was completed in the Stanolind Oil Co., Capps 30-X, NE sec. 3-19-38, completed for 5,470 barrels per day at 4205 feet.

(Continued on last page column 6)

E. A. Hannah Buys Insurance Agency of Late S. E. Ferree

E. A. Hannah purchased the insurance business of the late S. E. Ferree it was announced yesterday. Negotiations for the transfer of insurance accounts were completed several days ago. Mr. Hannah has written all kinds of insurance here for several years and will appreciate a continuation of the patronage of the customers of the Ferree agency. See Mr. Hannah's announcement in this issue.

UNCLE DICK VANDAGRIFF

Word was received here yesterday of the death of Uncle Dick Vandagriff, a former resident of Artesia, which occurred at his home near Bartlesville, Oklahoma after a short illness. His condition had been critical for several days and no hope was held for his recovery. A daughter, Mrs. W. F. Lindsey resides here. Mr. and Mrs. Lindsey drove up to see her father during the early part of his illness, returning home about two days ago after he apparently had improved.

Ott's Jewelry Co., Robbed of \$600.00 In Diamonds 12th

The Ott's Jewelry Co., was robbed sometime last Thursday night of approximately \$600.00 in merchandise. Entrance was made into the building by smashing the glass in the front door with a rock and turning the night lock. Merchandise taken consisted principally of diamonds, although Mr. Ott's said a few cheap watches and fountain pens were taken.

No insurance was carried on the stolen merchandise. Officers had made no arrests and had no clues according to an early report. The robbery resembles the work of amateurs. The merchandise was stolen from a show case. Usually valuables of this sort were placed in the vault at the city office for safe keeping for the night, but Mr. Ott's said he forgot to take the diamonds out of the show case on this occasion.

TELEPHONE 7

IT CAN HAPPEN HERE!

Walter Lippman, the distinguished publicist, has said that he regards the current "constitutional crisis" brought about by the judicial reorganization proposal, the most vital issue since the Civil War. On first glance that may seem an exaggeration—but, on mature reflection, what issue since slavery has so directly affected the fundamental liberties of the people and the basic doctrines on which our government was founded?

The importance of the issue is emphasized by the character of the opponents of the plan. Party lines have been blasted—democrats and republicans have joined to fight something they believe inimical to future freedom and individual security. Economic differences among men have been submerged—"conservatives" and "liberals" are together in the battle lines, cooperating wholeheartedly to prevent the passage of a law that they believe would make the road smooth to dictatorship.

A number of instances of this fact could be cited—one will suffice. In practically every normal issue, Senators Carter-Glass and George Norris are opposed. Both have in common certain characteristics—courage, sincerity and forthrightness. And as a result, both Mr. Glass and Mr. Norris are heading the forces which oppose "packing" the court. They may oppose the plan for different reasons—but each sees in it grave dangers.

It is not a coincidence that outstanding public men of both parties—men who have convictions and do not violate them to follow the mob—are against the proposal, along with almost every leading newspaper, whatever its political allegiance. In addition, observers who saw events lead to dictatorship and ruthless abrogation of liberties in Germany, Italy and Russia, feel that the proposal could very easily do the same thing to America.

It can happen here! Only the force of public opinion can prevent it.

ON LEGALIZED GAMBLING

Many state legislatures are fighting over the passage of gambling or anti-gambling laws as public sentiment is swinging to some sort of regulation for all kinds of gambling devices. It is difficult to see the logic in some of the arguments made for all sorts of gambling and for legalized gambling as a revenue producer for the state and national government.

Gambling with a lure for easy money is subversive to the best interests of the people beyond a doubt and this lure of easy money not only impoverishes in many instances, but it is of harmful influence. Gambling as a vice has many ramifications, extending into all strata of society. The practice exacts a fearful monetary toll every year and many people are rendered destitute by having participated in the various games of chance.

Just why legalized gambling, a practice that usually makes the poor people poorer, should be proposed as a painless tax producer is more than we can understand since the proposal defeats its own purpose in usually impoverishing the very ones society is trying to help.

The gambling instinct is still strong in the human race, since it promises something for nothing with little or no effort. To say that a state or nation should legalize gambling to raise taxes to help the unfortunate is on par with the efforts of a man trying to lift himself out of a mud hole by his boot straps.

ON PLANTING TREES

It has been suggested and the suggestion is very good that citizens of Artesia could profitably plant 2,000 or 3,000 trees before the planting time passes. It would be an exceptionally fine move if property owners in the seventy odd blocks under the curb and gutter project would plant more trees and thus further improve the streets under this project.

Nothing adds to the attractiveness of a community, either in the rural or urban districts like planting trees and shrubbery and few improvements cost so little.

In the near future it is hoped the city may be able to work out a plan to assist in watering trees on vacant lots and more especially in cases where owners of the lots are unknown.

Artesia has made substantial progress both in improving homes and the landscaping around the homes during the past year. Let's keep up the good work.

If you really want to see how a tale can grow, let about fifty people repeat the story and see if you can recognize the story after the fiftieth person has told his version of it. And still some people complain that a newspaper never can get anything right.

Everybody can breathe easier now with the state legislature adjourned and the annual income tax efforts over.

PECOS PLANTING CANTALOUPE NOW

Growers of the famous Pecos cantaloupes this week began the first planting of the melons in preparation for the biggest season in the history of the growth of the melons.

Thirty thousand hot caps were planted on three farms this week.

M. L. Todd, one of the pioneers of the melon business in this section, set out 10,000 hot caps on his farm west of Pecos. Harold Wendt has completed the planting of a like number. J. W. Brooks, another of the first growers of the melons, will set out 10,000 today and tomorrow. Mr. Brooks has been delayed in planting because of the rain which followed immediately after he had irrigated for planting.

This number of hot caps will cover some 30 or more acres, 10,000 of the plants representing about seven acres of land.—Pecos Enterprise.

NEW SCHOOL BUILDING FOR CLOUDCROFT

Timber is being cut in the Lincoln national forest for a new school building at Cloudcroft. The building is expected to be completed in time for school next fall.

Sore Gums-Pyorrhea

Heal your gums and save your teeth. Heal your gums and save your teeth. Just get a bottle of LETO'S PYORRHEA REMEDY and follow directions. Don't delay; do it now. LETO'S is always guaranteed. MANN DRUG STORE

Chislings

Two brothers, Charley and Bill Ballard, both old timers were standing on the street corner the other day arguing which arrived here first. Charley came to New Mexico leading an ox and Bill was behind driving the ox.

The Rev. John Rice, like all Methodist preachers likes chicken, but like the rest of us sometimes pays for the slip of the tongue. He was joking last week when he invited Jack Spratt over for a chicken dinner, but went chickenless as result of his mistake.

Even a printer can be fooled by make-up.

Red—"Suzy won a loving cup."
Ted—"Boy, that gal certainly gets around."

Mother (opening closet door)—
"Did you tell the Lord about being such a bad little girl and ask his forgiveness?"

Small Helen (emerging)—"No, I don't. I did not think you'd want such a scandal known outside the family."

"MINE is the oldest profession," said the physician, "Adam, the first man, was operated upon to get a rib, out of which to fashion the first woman." "My profession is older than that," said the architect. "When the world was created, order was brought out of chaos, and it would take an architect to do that." "Yes, but my profession created the chaos," chimed in an attorney.

At the negro murder trial, a witness was asked if a certain negro was in the car when the shooting was going on.

"Well, he was in there when it started," said the witness.

Alabama is the only state in the union in which the legislature meets only once in four years. All others meet either annually or semi-annually.

Let's move to Alabama!

Notes on sit-down strikers: Times are sure changing. We used to use rocking chairs for pleasure, now they have been made a business vehicle by the sit-down strikers.

Two lady school teachers spending their vacations traveling in the south, stopped at a small old fashioned hotel in Louisiana.

One of the pair couldn't rest until she made a tour of the corridors looking for exits in case of fire. The first door she opened, unfortunately turned out to be that of the one bath room, occupied by an elderly gentleman taking a shower.

"Oh excuse me," the lady stammered, "I'm looking for the fire escape."

She slammed the door and ran back towards her room. To her dismay, she hadn't gotten far along the corridor, when she heard a shout behind her and looking around saw the gentleman, wearing only a towel, running after her like all possessed and yelling every step, as he neared her, "where's the fire?"

Bids have been let for the construction of a \$120,000 court house at Pecos, Texas, county seat of Reeves county. The old building, constructed in 1896 has been vacated.

REAL ESTATE TRANSFERS

The following real estate transfers are reported through H. A. Denton, local real estate agent: Mrs. Lou Blair of El Paso, Texas has sold to R. C. Journey, lot 11 in block 4 of the Tyler addition. Mr. Journey has started construction of a residence on this property. Mrs. Blair also sold to W. T. Shannon, lot 9, block 4. Mr. Shannon also plans to build a residence. R. H. Park of Bruning, Nebraska has sold 160 acres of land five miles northwest of Artesia to Jimmie Buck. Mr. Buck will place part of the land in cultivation and plans on drilling a shallow well and making other improvements. T. E. Hinshaw reports the following sale: V. D. Bolton has purchased the W. R. Atkinson property on South First and Richardson, consisting of five business lots and a dwelling.

HEAVY ENGINE MOVED

HOBBS.—New Mexico Electric Service company crews Thursday completed the moving of a 557-ton natural gas engine seven blocks through streets of Hobbs as a part of a power plant expansion program. The 750-horsepower engine moved on rollers and beams, is expected to be in operation April 1st.

PISTOLES COMING

Friends of Col. and Mrs. William B. Pistole and family may be glad to learn that they expect to arrive in Artesia about May 24th. Col. Pistole, stationed at Boston, Massachusetts with the United States army, as advocate general, will be relieved of his assignment and duty about April 24th. He has been ordered to proceed to his home to await retirement. Col. Pistole writes that the family will drive through.

The Pistoles, early day residents of Artesia have looked forward to returning to this part of the state and now that Col. Pistole is about to be voluntarily retired from service, they are planning to return to this part of the state to make their home.

FINEST AND SAFEST OF BRAKING SYSTEMS!
ON THE NEW FORD V-8

YOU PUSH EASY AND YOU STOP QUICK!

YOU'LL agree when you try the new Ford brakes, that you never felt "softer" or easier Ford brake pedal action, nor ever had any car stop smoother or quicker.

And you get the safety of strong steel cables from the pedal to each wheel. They always work. Weather can't affect them and even damage to one wheel wouldn't affect the other 3 brakes.

Also... Ford brakes give extra-long brake-lining life! Big 12-inch drums give more braking surface for car weight than any other car in America.

All in all, you'll find these brakes a good example of a great Ford principle. It's the principle that the usual way isn't always the best way in building a car... but that the best at the price is what makes you! YOUR FORD DEALER

SUNDAY MONDAY

SUCCESSFUL STATE LEASE SALE

Hope Items

Miss Frances Johnson, Reporter

Mr. and Mrs. Roy Fisher and family, who have been living in the Larimore house, moved Saturday to the Cauhope ranch where they will make their home indefinitely.

Miss Corriene Puckett, of Artesia, spent Saturday night here visiting her parents, Mr. and Mrs. Joe Puckett. Her sister Mildred Puckett, returned to Artesia with her for the day Sunday.

Mr. and Mrs. John Prude came in from their ranch Sunday to attend to business matters before leaving Wednesday for Santa Fe where they will attend the Grand Chapter of the Eastern Star lodge. Mrs. Prude is worthy matron of the order here with Mr. Prude as worthy patron.

Mr. and Mrs. Dee Swift have purchased the Larimore house and plan to begin remodeling immediately in order that they may make it their future home. Mr. Swift, who has been in the mercantile business here, and who recently sold the Drug Store to Irvin Cox, plans to remain in Hope.

Mrs. Hal Hamill left Wednesday morning for Santa Fe where she will attend Grand Chapter of the Order of the Eastern Star. She was accompanied as far as Albuquerque by Mrs. Brewer, who is visiting her son, Regan Brewer. Mrs. Hamill will remain a few days after Grand Chapter to visit friends.

Dr. Anderson, of Ft. Sumner, who is substituting in the county health office, in the absence of Dr. Puckett, and county nurse, Miss McKinney, visited the schools here Friday giving sick tests to the children. They also conducted a baby clinic while here. They plan to return to Hope soon to vaccinate positive cases shown by the test.

The Chuck wagon dinner served at the gym Saturday night by members of the F. F. A. club proved a success in that everyone enjoyed a different kind of entertainment. Thirty seven dollars was cleared by receipts from the door and contests held during the evening. Miss Mary Katherine Teel, daughter of Mr. and Mrs. George Teel, was crowned queen of the club. Financial returns of the evenings entertainment will be used to send the boys to the state meeting which will be held in Las Cruces.

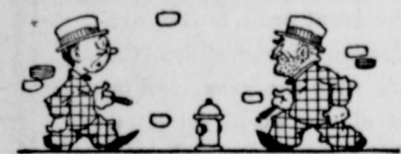

Mrs. Will Scoggin and Mrs. Charley Barley were joint hostesses at a forty-two party given at the Scoggin home Saturday night honoring St. Patrick's day. Guests played at five tables during the evening. At St. Patrick's color scheme was used. Cocoa, cake, and marshmallow pudding was served to the guests. Those present were, Mr. and Mrs. Bryant Williams, Mr. and Mrs. Oliver Scoggin, Mr. and Mrs. Dick Carson, Mr. and Mrs. Andy Teel, Mrs. Will Kellar, Mr. and Mrs. McCormick, Mr. and Mrs. Virgil Craig, Mr. and Mrs. George Teel, Mr. and Mrs. John Ward, Mr. Charley Barley and the hostesses.

BUSINESS VOCATION DISCUSSED AT MEETING

E. B. Bullock in charge of the weekly program of the Artesia Rotary club Tuesday, presided over a round table discussion on vocational ethics and rounded out an interesting program by propounding a number of questions concerning modern business ethics.

Twenty two of the twenty five state oil and gas tracts were sold to the highest bidder at Santa Fe March 10th by the state land commissioner, in one of the most successful sales of the season.

Tract 1, consisting of 840 acres and located in twps. 3, 9, 10, 11, 15 ranges 32, 33, 35, 36, 37 sold to P. J. Burns of Pittsburgh, Pennsylvania for \$504.00. Tract 2, consisting of 400 acres and located in 19-29, sold to the Ohio Oil Co., for \$620.00. Tract 3, consisting of 400 acres and located in 19-29 sold to Dorothy Heard of Santa Fe for \$115.00. Tract 4, consisting of 400 acres and located in 19-29 sold to Dorothy Heard for \$100.00. Tract 5, consisting of 160 acres and located in 18-38 sold to Roy G. Barton of Clovis for \$480.00. Tract 6, consisting of 1597 acres and located in 23-ranges 34 and 35 sold to James M. Murray of Hobbs for \$17,659.72, the highest of three bidders. Tract 7, consisting of 160 acres and located in 23-23-34 sold to the Gulf Oil Corp., of Tulsa, Oklahoma for \$961.00. Tract 8, consisting of 640 acres and located in 23-34 sold to the Gulf Oil Corp., for \$3,842.00. Tract 9, consisting of 160 acres and located in 31-23-35, sold to Fred Luthy of Albuquerque for minimum of \$160.00 after sale.

Tract 10, consisting of 160 acres and located in 31-23-35 also sold to Mr. Luthy for \$160.00. Tract 11, consisting of 480 acres and located in 23-34 sold to James M. Murray for \$3,484.80. Tract 12, consisting of 160 acres and located in 9-23-34 sold to the Gulf Petroleum Corp. Tract 13, consisting of 160 acres and located in sec. 16-23-34 sold to R. S. Magruder of El Paso, Texas for \$161.00. Tract 14, consisting of 160 acres and located in 21-23-34, sold to Shell Petroleum Corp., for \$200.00. Tract 15, consisting of 160 acres and located in 22-23-34, sold to the Humble Oil and Refining Co., for \$600.00. Tract 16, consisting of 160 acres and located in sec. 23-23-34 sold to the Humble for \$600.00. Tract 17, consisting of 160 acres and located in 26-23-34, sold to the Gulf Oil Corp., for \$960.00. Tract 18, consisting of 160 acres and located in 31-23-34, sold to the Shell Petroleum Corp., for \$200.00. Tract 19, consisting of 160 acres and located in 31-23-34, sold to the Shell for \$200.00. Tract 20, consisting of 160 acres and located in 33-23-34 also sold to the Shell for \$200.00. Tract 21, consisting of 160 acres and located in 34-23-34, sold to the Humble for \$600.00.

30 bids were received on tracts 22 and 23 and 25. Tract 24, consisting of 160 acres and located in 2-24-34 sold to the Tidewater Associated Oil Co., after sale for \$175.00.

NEW LAW ON BIRTH REGISTRATION

The passage of Senate Bill 70 by the thirteenth legislature not only established a separate state board of health but made some important changes in the law regarding registration of births.

Until now certificates of birth filed before 1920 remained in the office of the county where they were filed. These certificates are becoming more and more valuable and with the coming into force of the new law they must be transferred to the office of the state department of health in Santa Fe where the director of public health is required to "file, bind, index and preserve in a fireproof vault all such original certificates for the permanent state record."

The increasing value of possessing a birth certificate has also induced the legislature to take new precautions that such certificates shall not be improperly obtained. The new law requires that certification of births occurring one year or more before the date of filing must be made by a district judge who must be satisfied that the birth actually took place as certified before the certificate can be accepted. Parents who wish to avoid all the complications of court procedure should be careful to see that the baby's birth is registered soon after the event and in any case before the baby is a year old.

One more change: the old law provided that there should not be more than one subregistrars of births and deaths in any one school district. Recognizing that by consolidation some school districts are growing larger this restriction has now been removed.

BEG PARDON

In referring to the death of Louie Unzueta at Temple, Texas last week, the Advocate inadvertently referred to Mr. Unzueta as a brother of Mrs. Tom Heflin. Mr. Unzueta is a brother-in-law and not a brother of Mrs. Heflin. And we gladly issue this correction and at the same time apologize to Mrs. Heflin for the error.

Livestock and Range Report

New Mexico range prospects have been improved by above normal precipitation during February and prospects at this time indicate a good supply of spring range feed, according to the monthly report issued by the United States Bureau of Agricultural Economics through the office of Fred Daniels, agricultural statistician. Cattle and sheep have withstood the cold of recent weeks and are reported to be in good condition over the state.

RANGES: There has been a material increase in the amount of soil moisture over most of the state during the past month. The average precipitation for the state during February was 0.95 inch, or 0.24 above normal. Up to March 1, it remained extremely dry in counties in the northeastern corner of the state. Parts of other counties lying along the eastern border of the state remained dry up to March 1. Very little snow remains on ranges now in use. There is considerable depth to snow in higher altitudes, making prospects for summer ranges and irrigation water very good. Range and pasture feed is getting very short, necessitating an increase in supplemental feeding. The present supply of hay and other livestock feeds is considered ample to carry livestock until green feed is available. There will be a small carryover of all kinds of feed. The stock water supply is generally ample over the state, but the supply is getting short in tanks and small streams in the northeastern counties. The condition of ranges is reported at seventy seven percent of normal as compared with seventy five last month, and 82.1 for the ten year average.

CATTLE & CALVES: Cattle and calves have held up well during the past month. Although February has been possibly colder than normal, the shrink has not been greater than usual for this time of year. Cows are generally in good flesh; and, with present range prospects, there should be a good calf crop this year. Sales during the past month have been light. Losses of all classes of cattle have been exceptionally light for this time of the year; however, the weather during the coming weeks will determine later losses. The condition of cattle and calves is reported at eighty two percent of normal,

the same as last month, as compared with eight five percent for the ten year average.

SHEEP & LAMBS: Sheep have wintered well so far and are possibly in about normal condition for this season of the year. Ewes are in good flesh and a good lamb crop is expected during the coming season. Losses of all classes of sheep have been normal, or possibly below, so far this winter. Contracting of wool during the past month has not been as active as during January. Wool contracts reported last month seem to be somewhat stronger than earlier in the season. The condition of sheep is reported at eighty six percent of normal as compared with eighty five last month and eighty five seven for the ten year average.

WILLIAMS ESCAPES INJURIES IN ACCIDENT

Sam Williams, Cap Rock rancher returned Friday from Oklahoma City, Oklahoma, near where he escaped serious injury two days previous when he was returning home with J. J. Lane of Roswell and U. Christmas of Las Cruces. Mr. Lane driver of the car which overturned between Oklahoma City and Amarillo, Texas suffered a fractured rib and is a patient in an Oklahoma City hospital. Messrs. Williams and Christmas were more fortunate and escaped with minor bruises.

PAVED STREETS

Are Necessary to the Progressive City

NOW that Artesia is getting seventy blocks of curb and gutter and blacktop streets, why not place the property in this district on par with the improved streets by beautifying the landscape and painting and making needed alterations and repairs to the dwellings.

Thus property owners would not only be protecting the investment in their property, but enhancing the valuation of their property as well.

We have everything to build, repair or fix it and will be glad to have you avail yourself of our planning service.

Game on Forests of New Mexico

ALBUQUERQUE.— Big game and wildlife is holding its own on the national forests of New Mexico, according to the 1936 game and fish report just compiled by Robert P. Boone, game management expert at the regional forest office.

Hunters on New Mexico forests increased to 7,740, from the 1935 total of 7,185. One out of four hunters got his deer. The percentage (25.2) was slightly higher than the year before.

Game census figures, as estimated by forest officers, showed minor increases or decreases in various species since 1935, but Mr. Boone said the changes shown were generally due to revised estimates. Figures for all five National Forests in the state are:

Game animals—86,460 deer, 1,040 antelope, 855 elk, 1,355 bear, 115 mountain sheep, 14,400 turkey, and 40,450 squirrels. Predatory animals—11,325 coyotes, 6,345 wildcats, 420 lions, twenty four wolves and twelve wild dogs.

Figures on fish population of streams were not available, but the report showed that nearly two million fish were planted during 1936 in New Mexico. The state of New Mexico planted 1,818,680 trout of the black spotted native, rainbow and eastern brook varieties. Federal planting consisted of 118,000 rainbow and 42,000 black spotted native trout. The grand total was 1,978,680 fish.

The year's kill by hunters was 2,005 deer, 75 bear, 50 antelope, 15 elk, 830 wild turkey and 1,840 squirrels.

It was estimated that predatory animals killed 10,730 deer, 125 antelope, 15 elk, 15 mountain sheep, 2,905 turkey and 5,900 squirrels. Total of predatory animals killed was estimated at 910 wildcats, 1595 coyotes, 105 lions, 4 wolves and 3 wild dogs.

Cooperating with the New Mexico Game and Fish Department, forest officers examined the licenses of 2,941 hunters, and reported known or suspected violations of game laws. Convictions resulted in six instances.

Continued inroads by coyotes drew special attention. The report stated, "The coyote apparently continues not only to invade the higher mountain ranges, but to thrive and increase in these areas. The commercial trappers as a rule avoid these areas because of inaccessibility and adverse weather conditions which make trapping strenuous, disagreeable and frequently non-profitable."

SOCIETY.

LEGIONAIRES ARE GUESTS OF AUXILIARY ON ST. PATRICK'S NIGHT

One of the most attractive and exclusive parties of the social season was that given at the American Legion Hut on March 17th at 7:30 o'clock. The St. Patrick's and Easter idea were combined to make the decorative scheme most attractive. At one end of the hall was a table laid with a green scarf set with silver candelabra filled with green tapers, this was the presidents table. The occasion of the party was the celebration of the 18th birthday of the American Legion. The evening's program was opened by the singing of the "Happy Birthday" song followed with an address by the Rev. Anderson of Dexter, president of the New Mexico Natural Beauty League; Rev. Anderson used the Natural Beauty League as the subject for his talk. Several readings were then given by young Artesia folks. "Scarecrow", and "Putting the Dolly to Sleep", given by Thelma Gage; Lloyd Wilkinson read two selections, "Just 'Cause I See Colored Black", and "Poor White Trash", Lloyd was very effective in blackface make-up. "Betty at the Baseball Game", and "Specialty Jim" were given by Helen Watson; and "Country Gossip", and "Twinkle, Twinkle Little Star" by Lela Bess Mann.

After the program the Auxiliary presented the Legion boys with a plaque of the Auxiliary resolutions adopted at the Cleveland convention. It is illuminated on woodcraft paper mounted on a background of yellow burch. The resolutions support the Conservation of Natural Resources. In the absence of Bryan Savoie, commander of the Legion, the president of the Auxiliary, Mrs. John McCann called E. N. Bigler forward to receive the plaque, which will be hung in the Hut. The guests then enjoyed playing games. Part of the evening was spent in the singing of old war songs. The birthday cake was presented to the Legion and was in turn auctioned off netting \$7.75. Bill Linell thanked the ladies of the Auxiliary in behalf of the Legion for the very enjoyable evening.

Mrs. McCann requested all Auxiliary members to remember the cooked foods and apron sale on April 17. Also the initiation service for the uninitiated members at the next regular meeting of the Auxiliary.

ARTESIA MATRONS ENTERTAINS AT LUNCHEON

Several Artesia ladies were charmingly entertained at a luncheon at the home of Mrs. Ben Pior on Friday at 1:00 o'clock. The green and white, appropriate to the St. Patrick season, was used in all appointments. The guests, Meses Albert Richards, Jesse Truett, Frank Linell, Dick Vandagriff, Alex McGonagill, P. V. Morris and the hostess, and Mrs. John McCann, president of the American Legion auxiliary were seated at the large table which was centered with a bouquet of beautiful pink sweetpeas. All the ladies with the exception of Mrs. McCann were members of the past presidents parley of the American Legion auxiliary. A surprise handkerchief shower, honoring Mrs. P. V. Morris, whose birthday it was, was given. Mrs. Frank Linell presenting the gifts with appropriate verses accompanying. At the business session which was held later in the afternoon the group voted to adopt a nurse, Mrs. De Lang, of Ft. Bayard, near Silver City and to send her a subscription to the New Mexico Magazine.

EPISCOPAL GUILD AUXILIARY WITH MRS. EARL BIGLER

Members of the Episcopal Guild auxiliary were the guests of Mrs. E. N. Bigler on Thursday afternoon. Mrs. J. K. Wallingford, chairman of the auxiliary, was in charge of the program also the leading of the devotionals. Two chapters from the book, "The Return to Religion," were reviewed by Mrs. Wallingford and two chapters from the other book being used in the study course, "The Episcopal Church," were given by Mrs. Bigler. Light refreshments were served and the special offering, a lenten custom of the Guild, was taken. All members and several guests were present.

MISS CECILIA REHBERG ENTERTAINS FRIDAY EVENING

The members of the Friday Evening Bridge club, and one guest, were invited to the home of Miss Cecilia Rehberg for bridge, on Friday at 7:30. Mrs. Ferris Arnold was the guest and members present were Meses. Lowell Naylor, Lawrence Carroll, J. O. Woods, Steve Lanning, Bill Naylor, Harvey Yates, and Miss Elaine Feenster and the hostess. The high score was won by Mrs. Lowell Naylor and low by Mrs. Harvey Yates.

MISS MARGARET FRISCH WEDS J. W. HASTINGS

Miss Margaret Frisch, daughter of Mr. and Mrs. George Frisch, and Mr. James Wallace Hastings, son of Mrs. Florence Hastings, were married late Sunday afternoon in a beautiful ring ceremony at the home of the bride's parents on Roselawn, the Rev. John Rice officiating. The vows were exchanged before a bank of pink and white carnations, snap-dragons and ferns. The bride wore a very becoming navy blue bolero dress matched with blue hat and shoes, and white gloves, a corsage of pale pink talisman roses. The members of the immediate families and most intimate friends of the couple were the only witnesses present. Following the service the group adjourned to the dining room where in the center of the table, covered by a lacy cloth, was a wedding cake frosted in pink and white and topped with the figures of a miniature bride and groom. Mrs. Hastings cut the first slice and Miss Abbie Durand cut the remaining pieces. Coffee was poured by Mrs. Perry Johnson of Groom, Texas, sister of Mrs. Hastings, and served by another sister, Mrs. C. B. Chunn of White Deer, Texas.

Mrs. Hastings is the third daughter of Mr. and Mrs. George Frisch. Having attended the Artesia high school and lived in this city most of her life she has a wide circle of friends here. Mr. Hastings is a native of Canyon, Texas, where he attended high school and college. He is now an employee of the Malco Refinery. Until later Mr. and Mrs. Hastings will make their home with the bride's parents.

JACKSON DAY DINNER AT CARLSBAD

Approximately 150 democrats attended the Jackson day dinner at the Crawford hotel dining room in Carlsbad Monday evening. The dinner attracted party leaders from over this section and from the state capitol.

Ray Soladay, Carlsbad postmaster acted as toastmaster in the absence of L. R. Conarty, county chairman who was ill and introduced the following speakers, the Rev. H. W. Jordan of Carlsbad, J. L. Truett of Artesia, Tom Neal of Lovington, Judge J. B. McGhee of Roswell, Fred Brainard of Artesia, State Supt. H. R. Rodgers of Santa Fe, and Attorney General Frank Patton of Santa Fe.

Attending from this section were: Messrs. and Meses. J. A. Reed, Jesse Funk, C. R. Blocker, J. L. Truett, also Fred Brainard, George Nixon, S. S. Ward and W. C. Martin, and Miss Helen Vera Funk of Santa Fe.

NEW MEXICO FEDERATION OF WOMEN'S CLUBS IN CARLSBAD APRIL SECOND-THIRD

Mrs. C. R. Blocker, president of the Third District of the New Mexico Federation of Women's Clubs, will preside at the seventeenth annual convention of the organization, which will be conducted in Carlsbad April 1 and 2. The session will be called to order at 1:30 p. m. on Friday and will close at noon on Saturday. Among the prominent women, connected with Women's club work throughout the state, who will take an active part in the work of the convention are Mrs. J. O. Seth, state president of Santa Fe; Mrs. R. W. Goddard, vice president at large of Las Cruces; and Mrs. Jefferson D. Atwood, chairman of citizenship of the General Federation of Women's clubs of Roswell.

Delegates who were elected to attend from Artesia include Mrs. J. L. Truett and Mrs. Hollis Watson. A third delegate will be appointed by the president, Mrs. Jeff Hightower. Mrs. Hightower will also attend, as president of the Artesia Woman's club.

All club women are invited and urged to be present.

BIRTHDAY PARTY FOR ANNA MARIE DUNN

Anna Marie Dunn, daughter of Mr. and Mrs. Calvin Dunn was hostess to eight little friends yesterday afternoon the occasion was the celebration of her 4th birthday. Decorations were in keeping with St. Patrick's day. After enjoying a number of games the guests were served with ice cream and angel food cake. Sacks of candy with all day suckers were distributed as favors.

Guests present were: Norma Hancock, Patricia Ann Daugherty, Thelma Gage, Patsy Jean Withers, Linda Clayton, Bobby Ohnemus, Charley Westley Cockran, Sammy Lewis, Meses. Preston Dunn, G. C. Kinder and Harry Walsh were also guests at the celebration. Each little guest brought a gift for Anna Marie.

ELEVENTH BIRTHDAY CELEBRATED BY JIMMIE HASKINS

At four o'clock in the afternoon of Friday, March 12, Jimmie Haskins celebrated his eleventh birthday with a party at his home followed by a line party at the Ocotillo theater. Games out of doors furnished the entertainment at the home, followed by refreshments. Three out of town guests enjoyed the afternoon with the local children, these included, Wanda Ruth Lord, Georgia Castleberry of Midland, Texas and John Roy Roberts of Odessa, Texas. Other friends present were, Billie Sue Barnett, Shirley Watson, Betty Reed, Beulah Hollis, and Wendell Welch, Robert Feather, J. L. Brown, Reese Otts, Perry Shulze, George Dungan, Bob Strickler, Bobby Simons and Joe Graham.

BUSINESS WOMEN'S CIRCLE MEETS

Mrs. P. G. Woodruff was hostess to the Business Women's Circle of the Baptist church on Tuesday evening at her home. The regular business meeting and Royal Service program took up the major part of the evening. Five members besides the hostess were present including Misses Maurine Lewis, Jennie Beth Bishop, Lucile Morriss, La Rue Mann, and Mrs. Lynn Buford. The hostess served a light refreshment course.

WANTED a boy of high school age to learn watch and jewelry trade. Paul Otts. 11-1tc.

THREE TABLES OF BRIDGE WITH MRS. GILLESPIE

Mrs. Ed. Gillespie entertained members of the Viernes Bridge club and an extra table of guests with contract at her home on Friday afternoon, using as her motif the St. Patrick's idea. The club made an innovation in the awarding of prizes. Instead of giving second high, and low score honors, the person who is average will receive second high honors. Mrs. Wren Barker won high and Mrs. Boone Barnett, average. Mrs. Gillespie's guests were Meses. Carroll Adams, who was winner of the guest prize, Walter Thompson, Howard Stroup and Miss Elizabeth McCombs. Regular club members who attended were Meses. Joe Foster, Lawrence Carroll, Boone Barnett, A. G. Glasser, Wren Barker, Owen Haines, Andy Compary and the hostess.

MISS GATES HONORED

DENTON, Texas.—High scholastic attainments the first semester of this year won for Miss Virginia Gates, daughter of Mr. and Mrs. V. L. Gates of Artesia, a place on the dean's special honor roll at Texas State College for Women (CIA). This distinction, accorded only 329 students in a student body of almost 2,400, was officially recognized March 11 when a special honor's day program was held at the college.

Miss Gates is a member of the sophomore class, and is working toward a bachelor degree in primary education.

MRS. ALF COLL HAS H 2 0 CLUB

The H 2 0's were entertained on Friday afternoon at the home of Mrs. Alf Coll, where the group met for the regular games of contract. Those who assembled to make up the two tables were Meses. C. R. Lowry, Roy Lowe, F. G. Hartell, J. B. Atkeson, Alf Coll and Jeff Hightower, substituting guest Mrs. Coll was the winner of the high score.

CARD OF THANKS

We wish to express our sincere appreciation to our friends for their many kindnesses during the illness and death of our father and grandfather and for the beautiful floral offerings. Boss Walters and family, Buck Walters, Mr. and Mrs. Mark Walters. 11-1tc.

NEW MISSIONARY GROUP IS FORMED

A new missionary group, temporarily called the Circle No. 2, of the Methodist church, met at the home of Mrs. John Rice on Thursday afternoon for the purpose of officially organizing and electing officers. Mrs. Howard Stroup was made chairman, Mrs. Joe Foster, treasurer; and Mrs. Herman Green, secretary. The devotionals were led by Mrs. John McCann. Those present were Meses. Zanna Lusk, Paul Rushing, Owen Haines, Reed Brainard, John McCann, Joe Foster, Howard Stroup, Herman Green and the hostess. Mrs. McCann assisted the hostess in serving light refreshments.

CHRISTIAN CHURCH DINNER

A large attendance was recorded at the dinner and program given last Thursday at the Christian church. The ladies of the church were in charge of the preparation and serving of the dinner. Mrs. Thomas Massie arranged the evening's program, consisting of two readings in costume given by Mrs. Reeser, two pantomime numbers, by the young people of the church, a vocal solo by the Rev. Thomas Massie and the singing of old time songs by the congregation.

Cottonwood Items (Bonnie Rowland, Reporter)

Cottonwood Ladies' Aid will meet Thursday, March 18th.

Witcher Angell from the Oilfield spent Saturday here looking after business matters.

Mrs. Paul Zeleny was able to be about Sunday after being ill with the flu for a week.

"Hoot" Bradley spent the week end in Roswell with his sister Mrs. Owen Phillips, and husband.

Mrs. H. B. Worley is now taking treatments at the Mineral Wells Apartment at Hagerman.

Mr. and Mrs. Everett O'Bannon took their small son to Hagerman Friday where he received medical aid.

The Rev. Bowden will begin a revival here this Sunday, March 21st, lasting through the Easter week.

Ralph Hershey was accompanied by J. S. Sharp of Artesia on a business trip to El Paso, Texas last week.

Mr. and Mrs. S. L. Nowak visited with Mrs. Nowak's brother who lives in Hot Springs, New Mexico, last week.

Mr. and Mrs. S. L. Nowak had as their guests last week her sister, Mrs. O. F. Moore and baby from Albuquerque.

Mrs. Claude Brown and children from Carlsbad visited here last Wednesday with her cousin, Mrs. F. R. Zumwalt, and family.

Mr. and Mrs. H. V. Parker drove to Roswell last Wednesday night to take their small son, Buddy DeWayne, to an ear specialist there.

L. R. Buck is recovering from a severe attack of the flu, which he contracted while visiting with relatives at Carrizo Springs, Texas.

Mrs. D. C. Hobbs from Corona, New Mexico, has been visiting with her niece Mrs. Monroe Howard, and family for the past two weeks.

Mrs. Alice Hershey accompanied Mrs. Button Shultz of Artesia to Roswell Saturday where they spent the day looking after business matters.

The small son of Mr. and Mrs. Q. Navarrette received a bad cut above his forehead while playing on the Cottonwood school ground Friday.

Mrs. Annie Smart from Carlsbad and Mrs. C. W. Rowland from Artesia visited with the Lewis Rowland family last Thursday afternoon.

R. E. Coleman was brought home here from an El Paso hospital last Friday. He had his broken leg re-set, and he received other medical aid.

Mrs. W. C. Flemming, who spent last week here visiting with her daughter, Mrs. Glen Yarnell, returned to her home in Roswell Sunday with Mr. Yarnell.

Mr. and Mrs. Archie McDonald and children from Vaughn, New Mexico, visited the first part of last week with her sister, Mrs. Glen O'Bannon, and family.

The Epworth League of the Lake Arthur church had a joint meeting with the Cottonwood League here Sunday night. A fine program was enjoyed by the young people present.

Lewis Rowland accompanied other Texaco dealers and H. D. Dunn, local agent, to Roswell last Tuesday evening where they attended the "Texaco Dealers Planning Council."

Mrs. Dorothy Hanny from Carlsbad was the guest of the D. A. Bradley family to a three course dinner last Friday. The salad and the table accessories carried out the St. Patrick motif.

Witt Terry and Mark Terry left last Wednesday for their homes at Rasston, Oklahoma, after a two week's visit here with the T. J. Terry family, and the J. D. Terry and Paul Terry families south of Artesia.

Mrs. T. J. Terry and daughters, Mrs. J. A. Clayton Jr., of Artesia and Mrs. Orval Gray, and Mrs. N. R. Stroud who have been visiting in the J. D. and Paul Terry homes near Dayton, left last Wednesday morning for a visit at Altus, Oklahoma, Mrs. Stroud's home.

Mrs. Bryan Shoemaker was the charming hostess to a bridge party given in honor of her husband's birthday, March 15th, at their home. The house was colorfully

decorated with the St. Patrick color scheme. The dainty refreshments, too, carried out this motif. About twenty friends enjoyed this occasion.

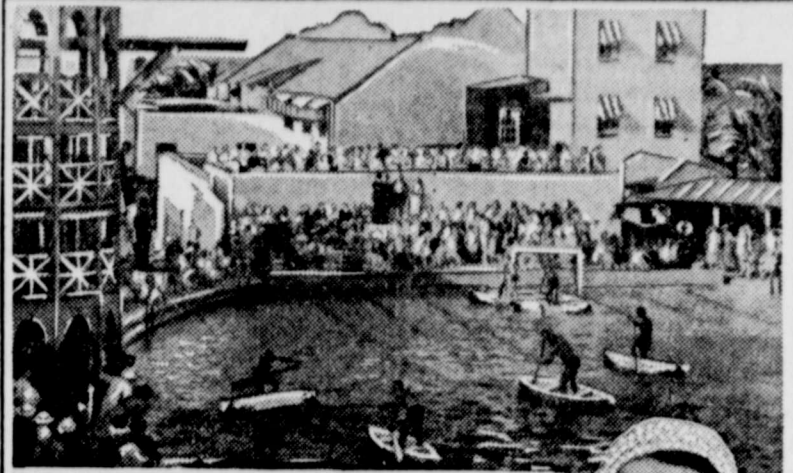

The girls' division of the Cottonwood 4-H Club met last Thursday afternoon at the school house with Mrs. Dorothy Hanny and Mrs. Wayne Norris, the local supervisor. The cooking instruction booklets were given out, and a cooking partner for this summer's work was chosen by each member. The next meeting will be Saturday, March 20th, at the home of Mrs. Wayne Norris. The girls will prepare and cook food at this meeting.

The Cottonwood Community Extension Club met Friday, at the farm home of Mrs. O. B. Montgomery, with Mrs. Mervon Worley as her co-hostess. Mrs. Dorothy Hanny from Carlsbad was present for this meeting. She devoted most of the afternoon to discussion on how this newly organized club would function. The programs for each monthly meeting for the rest of the year were decided upon by discussion. It was also decided to have year-books, which can be secured at the next meeting. This club will meet the fourth Wednesday in each month; the next meeting being March 24th, at the home of Mrs. Monroe Howard with Mrs. Everett O'Bannon as her co-

hostess. At the close of the meeting delicious refreshments consisting of Shamrock shaped cookies iced in green, sandwiches, fruit salad with a green jello base and whipped cream, and an iced drink were served to the members and guests.

decorated with the St. Patrick color scheme. The dainty refreshments, too, carried out this motif. About twenty friends enjoyed this occasion.

CAMERA ANGLES IN THE LATE NEWS

PIRATES AT PLAY—A new thrilling sport, Pirate Polo, is introduced to the Winter visitors at the MacLadden-Deauville Hotel, Miami Beach, Florida.

CORONATION—Author F. L. Collins, (insert) now in London, tells coronation secrets. George VI, he says in the current Liberty magazine, will ride in the same coach on May 12th that George V used in 1911.

SHE'S ON THE FENCE—Alice Reinheart illustrates her dilemma. Scheduled to be among the first television artists, Alice is hearing the call to Hollywood. She is the leading lady for the True Story Court of Human Relations. (NBC-Red Network)

SPRING TRAINING—Here's Buddy Hassett stretching for a tall one as he limbers up in the Brooklyn Dodgers' Southern camp. Now in the cellar, the Dodgers are building from the ground up using youthful college men like Buddy.

BIRTHDAY PARTY FOR ORLENA MARTIN

Orlena Martin, daughter of Mr. and Mrs. W. C. Martin, was twelve years old yesterday and commemorating the occasion was the honor guest at a birthday party given at the Martin home yesterday afternoon by her mother. Twenty five friends gathered to help her celebrate. The St. Patrick motif was carried out in the refreshments consisting of a birthday cake adorned with twelve candles and ice cream. Balloons were presented to the guests as favors. The honored guest was the recipient of many gifts.

Guests were: Betty Flinchbaugh, Margaret Atteberry, Shirley Watson, Shirley Bartlett, Anna Jane Jackson, Velma Walters, Velma Hancock, Helen Jean Evans, Lucille Rowland, Ada Kirkley, Guinevere Ellis, Wilma Owens, Delores Mayerhoffen, Barbara Wheatley, Gladys Jackson, Eddie Speck, Roderrick Watson, Robert Ferguson, James Manley, Don Morgan, Val Morgan, George Lowe, Max Schulze Riley Brown, Lewis Story.

THREE TABLES OF BRIDGE WITH MMES. E. J. BURKMAN AND TOM JAMES

Another of the affairs suggestive of St. Patrick was the lovely luncheon-bridge party presided over by Mrs. E. J. Burkman and Mrs. Tom James on Wednesday afternoon. The hostesses used green and white in decorations. Mrs. Albert Richards was winner of the first prize for holding high score and Mrs. Manda won the consolation prize. A draw prize was awarded to Mrs. Helen Rushlow. Those who were gathered at the three tables were Mmes. Ben Pior, Dick Vandagriff, Boone Barnett, Jack Clady, Ed Gillespie, Mel Mapes, Frank Linell, Carl Manda and the two hostesses.

TEACHERS MEET AT JR. HIGH

The first part of a three part panel discussion on the problem, "What are the contributions of the major functions of social life to the philosophy of education," was conducted at the Junior high school on Friday afternoon at 2:30. Teachers of Artesia, Atoka, Dayton, and Cottonwood were present. Supt. W. E. Kerr lead the panel in the discussion, assisted by Mrs. Leon French, and Misses Winifred Det-

terick, Linna McCaw and Marie Stokesberry. The next meeting will be held on March 26 for the purpose of working on the second part of the question, "What contributions to the philosophy of education may be made by a knowledge of the changes in amount and kinds of recreation as a result of the Industrial Revolution."

BEAUTIFUL PARTY GIVEN BY MRS. HISE MYERS

On Tuesday afternoon Mrs. J. Hise Myers was hostess to the members of the First Afternoon Bridge club and members of the H 2 0 club when she entertained with a contract bridge party. All of the appointments were in the spirit of St. Patrick's day. Mrs. Ted Flint was the winner of the high score. Mrs. T. M. Bradford, houseguest of Mrs. Myers was a guest at the tea hour. Members of the First Afternoon club who were present, Mmes. Jeff Hightower, C. R. Blocker, Beecher Rowen, F. G. Hartell, J. M. Story, and G. U. McCrary. The other guests included Mmes. John Lowe, Roy Lowe, Lewis Story, Ted Flint, J. B. Atkinson and Alf Coll.

ST. PATRICK'S PARTY FOR YOUNG FOLKS

St. Patrick was the incentive for a gay evening for Artesia young folks when Miss Sybil Pior entertained at her home on Friday. The hostess used green and white in decorations and refreshments, and Irish games were played during the evening. Those bid to the affair were, Misses Wanda Story, Mary Baird, Phyllis Bartlett, Jane Shugart, Bettynell Lanning, La Verne Hampton, Catherine Louise Williams, Edna Carder, Wanda Morris, and Messrs. Edwin Ward, Jack Denton, Bernard Cleve, Junior Anderson, Ray Lewis, Curtis Bolton, Eugene Conner, Quentin Rogers and Wayne Truett.

MR. AND MRS. MCGONAGILL HONOR VISITORS

Mr. and Mrs. Alex McGonagill were host and hostess at a picnic dinner Sunday at their home in the Oil Field in honor of Mr. McGonagill's cousin, Mrs. Sam Collier and daughter, Mary Emma, and Ed Ross of Taloga, Oklahoma whom they had not seen for thirty four years. Other relatives who enjoyed this happy get together were Mr. and Mrs. Geo. McGonagill; Mr. and Mrs. John Angell and family; Mr. and Mrs. Shirley Wooten and son Dee, Mr. and Mrs. Will McGonagill and family; Mr. and

Mrs. Ernest McGonagill and family.

Mr. and Mrs. Don L. Myers were business visitors in Cloudcroft Tuesday.

A daughter was born to Mr. and Mrs. Ed Gromo Sunday at the Carlsbad hospital.

 Santa Fe, N. M., Feb. 25, 1937.

Notice is hereby given that on the 25th day of February, 1937, in accordance with Chapter 131 of the Session Laws of 1931, J. T. Collins of Artesia, County of Eddy, State of New Mexico, made application to the State Engineer of New Mexico for a permit to appropriate the shallow ground water of the Roswell Artesian Basin to the extent of 480 acre feet per annum by the drilling of a 12 $\frac{1}{2}$ inch well approximately 250 feet in depth, located in the W $\frac{1}{2}$ W $\frac{1}{2}$ W $\frac{1}{2}$ SW $\frac{1}{4}$ Sec. 19, T. 17 S., R. 26 E., N. M. P. M., for the purpose of irrigating 160 acres of land described as being the SW $\frac{1}{4}$ of said Sec. 19.

Any person, association or corporation deeming that the granting of the above application will be truly detrimental to their rights in the waters of said underground source may file a complete sworn statement of their objections substantiated by affidavits with the State Engineer and file proof of service of a copy thereof upon the applicant with the State Engineer on or before the 8th day of April, 1937, the date set for the State Engineer to take this application up for final consideration unless protested.

THOMAS M. McCLURE,
 State Engineer.

Pneumonia Fatal To T. Walters

An attack of pneumonia proved fatal to Tillman Walters aged 80, after a brief illness. The death of Mr. Walters occurred at the home of his son, Boss Walters at 5:00 o'clock Monday morning.

Mr. Walters, a retired farmer had lived in this section for thirty eight years. Twenty years of his residence in New Mexico had been spent at Portales. Funeral services were held at the Boss Walters home Monday afternoon with the Rev. John Rice, pastor, officiating. Burial was made in the Woodbine cemetery. Two sons, Boss Walters of Artesia and Buck Walters of Roswell and a nephew Mark Walters of Weed were here to attend the funeral services. Surviving sons and daughters in addition to the above mentioned include, Joe Walters of Phoenix, Arizona, Pete Walters of Proberta, California; Aubrey Walters also of Proberta and Mrs. Byrd L. Turner of Hot Springs.

"WINTER OVERCOAT" BOOSTS THE COTTON YIELD FOR FARMERS

A five-acre field near Rome, Georgia, yielded one-half bale of cotton per acre in 1932; two bales per acre in 1936. In the intervening years, the owner, J. S. Cutton, planted a cover crop of legumes each winter. The legumes provided a "winter overcoat" for his field, that otherwise would have been exposed to the rains, according to the Soil Conservation Service. They also fixed nitrogen in the soil and made it capable of supporting a heavier growth of cotton. He saved the soil of the five-acre field, increased its fertility and conserved moisture. His 1936 cash income from the field was \$740. If his 1932 crop had been sold at 1936 prices, he would have received \$185.

More than a half million acres of crop-land in the cotton belt will be covered with legumes throughout the winter months, as a result of the programs of the various state experiment stations, the Soil Conservation Service and other agencies advocating this practice.

20,933 HEAD OF CATTLE ARE SHIPPED

ALBUQUERQUE.—New Mexico shipped 20,933 cattle in February, 11,548 fewer than last month, but much more than the same month last year when 15,355 head went out, Walter Naylor's report to the New Mexico Cattle Sanitary Board showed Friday.

DURAND GETS GOOD WELL

A good shallow well has been drilled in on the new farm of Roger Durand, just south of the city cemetery. The well was drilled to a depth of 246 feet and when a 1,500 gallon per minute pump was placed over the well, the pump failed to faze the water supply.

NOW IN STOCK
BYRON-JACKSON
TURBINE PUMPS

These pumps can be furnished with geared heads at variable gear ratios—Can be connected directly to motor.

These pumps will provide an economic lift for shallow water and can be furnished in practically any capacity needed.

We also have casing and pipe fittings for your shallow well.

Satisfaction Service

If Your ELECTRIC SERVICE BILLS Were DELIVERED LIKE FOOD

If you paid for electric service each day, just like you buy groceries and other commodities, your account would be very complicated in appearance. The cost of electric service in the average home is a grand total of the amounts each type of appliance uses but will vary according to the daily use of electricity.

But it is impractical to divide the cost of electric service for each appliance. Yet at the end of the month, your electric service bill accounts for these few cents worth of electric service you use each day.

When you receive your electric service bill, think back over the many times you have used electric service during the month; divide the total by the number of days and see how little electric service costs in comparison with other expenses.

Beware The Cough That Hangs On

From a common cold

No matter how many medicines you have tried for your cough, chest cold or bronchial irritation, you can get relief now with Creomulsion. Creomulsion not only contains the soothing elements common to many remedies, such as, Syrup of White Pine Compound with Tar, fluid extract of Licorice Root, fluid extract of Wild Cherry and Menthol, but also has fluid extract of Ipecac for its powerful phlegm loosening effect, fluid extract of Cascara for its mild laxative effect and, most important of all, Beechwood Creosote is perfectly blended with all of these to reach the source of the trouble from the inside. Creomulsion can be taken frequently and continuously by adults and children with remarkable results.

Thousands of doctors use Creomulsion in their own families as well as in their practice knowing how Creomulsion aids nature to soothe the inflamed membranes and

heal the irritated tissues as the germ-laden phlegm is loosened and expelled. Druggists also know the effectiveness of Beechwood Creosote and they rank Creomulsion top for coughs because you get a real dose of Creosote in Creomulsion, unadulterated so that it is palatable, digestible and potent for going to the very seat of the trouble.

Creomulsion is guaranteed satisfactory in the treatment of coughs, chest colds and bronchial irritations and especially those stubborn ones that start with a common cold and hang on for dreadful days and nights thereafter. Even if other remedies have failed, your druggist is authorized to guarantee Creomulsion and to refund every cent of your money if you are not satisfied with results from the very first bottle. Don't worry through another sleepless night—phone or go get a bottle of Creomulsion right now. (Adv.)

ORDINANCE No. 36.

AN ORDINANCE DEFINING "MILK" AND "CERTAIN MILK PRODUCTS"; "MILK PRODUCER"; "PASTEURIZATION"; ETC., PROHIBITING THE SALE OF ADULTERATED AND MISBRANDED MILK AND MILK PRODUCTS, REQUIRING PERMITS FOR THE SALE OF MILK AND MILK PRODUCTS, REGULATING THE INSPECTION OF DAIRY FARMS AND MILK PLANTS, THE EXAMINATION, GRADING, LABELING, PLACARDING, PASTEURIZATION, REGRADING, DISTRIBUTION, AND SALE OF MILK AND MILK PRODUCTS, PROVIDING FOR THE PUBLISHING OF MILK GRADES, THE CONSTRUCTION OF FUTURE DAIRIES AND MILK PLANTS, THE ENFORCEMENT OF THIS ORDINANCE, AND THE FIXING OF PENALTIES.

Be it ordained by the City Council of the city of Artesia as follows:

Section 1. The following definitions shall apply in the interpretation and the enforcement of this ordinance:

A. Milk is the lacteal secretion obtained by the complete milking of one or more healthy cows, excluding that obtained within 15 days before and 5 days after calving, or such longer period as may be necessary to render the milk practically colostrum free; which contains not less than 8 percent of milk solids not fat, and not less than 3 1/2 percent of milk fat.

B. Milk fat or butter fat is the fat of milk.

C. Cream is a portion of milk which contains not less than 18 percent milk fat. Sour cream is cream, the acidity of which is not more than 0.20 percent, expressed as lactic acid.

D. Skimmed milk is milk from which a sufficient portion of milk fat has been removed to reduce its milk fat percentage to less than 3 1/2 percent.

E. A milk beverage or a skimmed milk beverage is a food compound or confection consisting of milk or skimmed milk, as the case may be, to which has been added a sirup or flavor consisting of wholesome ingredients.

F. Buttermilk is the product which remains after fat is removed from milk or cream in the process of churning. It contains not less than 8 percent of milk solids not fat.

G. Cultured buttermilk, cultured milk, and cultured skim milk are products resulting from the souring or treatment, by a lactic acid or other culture, of milk or milk products. They contain not less than 8 percent of milk solids not fat.

H. Vitamin D milk is milk the vitamin D content of which has been increased by a method and in an amount approved by the health officer.

I. Reconstituted or recombined milk is a product resulting from the recombining of milk constituents with water, and which complies with the standards for milk fat and solids not fat of milk as defined herein. Reconstituted or recombined cream is the product resulting from the combination of dried cream, butter, or butter fat with cream, milk, skim milk or water.

J. Milk products shall be taken to mean and include cream, sour cream, goat milk, vitamin D milk, buttermilk, cultured buttermilk, skimmed milk, reconstituted or recombined milk and cream, milk beverages, and skimmed milk beverages.

K. The terms "pasteurization," "pasteurized," and similar terms shall be taken to refer to the process of heating every particle of milk or milk products to a temperature of not less than 142° F. and holding at such temperature for not less than 30 minutes in approved pasteurization apparatus, provided that approval shall be limited to apparatus which requires a combined holder and indicating thermometer temperature tolerance of not more than 1 1/2° F., as shown by official tests, with suitable testing equipment, and provided that such apparatus shall be properly operated and that the indicating thermometers and the recording thermometer charts both indicate a temperature of not less than 143 1/2° F., continuously throughout the holding period. The terms "pasteurization," "pasteurized," and similar terms shall also include the process of heating every particle of milk or milk products to 160° F. and holding at that temperature or above for not less than 15 seconds in apparatus of approved design and properly operated. Provided that nothing contained in this definition shall be construed as disbaring any other process which has been demonstrated as of at least equal efficiency and is approved by the State health authority.

L. Any substance claimed to be any milk or milk product defined in this ordinance, or which carries a grade label unless such grade label has been awarded by the health officer and not revoked, shall be deemed adulterated and misbranded.

M. A milk producer is any person who owns or controls one or more cows, a part or all of the milk or milk products from which is sold or offered for sale.

N. A milk distributor is any person who offers for sale or sells to another any milk or milk products for human consumption as such.

O. A dairy or dairy farm is any place or premises where one or more cows are kept, a part or all of the milk or milk products from which is sold or offered for sale.

P. A milk plant is any place, or premises, or establishment where milk or milk products are collected, handled, processed, stored, bottled, pasteurized, or prepared for distribution.

Q. The term "health officer" shall mean the health authority of the City of Artesia, or his authorized representative.

R. Average bacterial plate count shall be taken to mean the logarithmic average of the bacterial plate counts of the last four consecutive samples, taken upon separate days, irrespective of periodic grade announcements. Average reduction time shall be taken to mean the arithmetic average of consecutive samples, taken upon separate days, irrespective of periodic grade announcements. Average cooling temperature shall be taken to mean the arithmetic average of the temperatures of the last four consecutive samples, taken upon separate days, irrespective of periodic grade announcements.

S. The grading period shall be such period of time as the health officer may designate within which grades shall be determined for all milk and/or milk products, provided that the grading period shall in no case exceed 6 months.

A bactericidal process is the application of any method or substance for the destruction of bacteria which, in the opinion of the health officer, does not adversely affect the equipment or the milk or milk products or the health of the consumer, and which is effective.

T. The word "person" as used in this ordinance shall mean, person, firm, corporation, or association.

V. Goat milk is the fresh, clean lacteal secretion, free from colostrum, obtained by complete milking of healthy goats, and shall comply with all the requirements of this ordinance. The word "goats" shall be interpreted to include goats.

Section 2. No person shall within the City of Artesia or its police jurisdiction, produce, sell, offer, or expose for sale, or have in possession with intent to sell, any milk or milk product which is adulterated, misbranded, or ungraded. It shall be unlawful for any person, elsewhere than in a private home, to have in possession any adulterated, misbranded, or ungraded milk or milk product.

Section 3. It shall be unlawful for any person to bring into or receive into the City of Artesia, or its police jurisdiction, for sale, or to sell, or offer for sale therein, or to have in storage where milk or milk products are sold or served, any milk or milk products defined in this ordinance, who does not possess a permit from the health officer of the City of Artesia and on whose vehicle there does not appear in a conspicuous place the permit number in figures at least 3 inches high and 1 1/2 inches wide. Only a person who complies with the requirements of the ordinance shall be entitled to receive and retain such a permit.

Such a permit may be revoked by the health officer upon the violation by the holder of any of the terms of this ordinance or in any emergency when in the judgment of the health officer, the milk or milk production product in question has become a public health menace. Provided, that the holder of said permit shall, after complying with such revocation, have the right of appeal to the board of health.

Section 4. All bottles, cans, packages, and other containers enclosing milk or any milk product defined in this ordinance shall be plainly labeled or marked with the name of the contents as given in the definitions in this ordinance; the grade of the contents if said contents are graded under the provisions of this ordinance; the word "pasteurized" only if the contents have been pasteurized the word "raw" only if the contents are raw; the name of the producer if the contents are raw, and the name of the plant at which the contents were pasteurized, if the contents are pasteurized. In the case of vitamin D milk, the designation "Vitamin D Milk" and the source of the vitamin D. The label or mark shall be in letters of a size, kind, and color approved by the health officer and shall contain no marks or words not approved by the health officer. Every restaurant, cafe, soda fountain, or other establishment serving milk or milk products shall display at all times, in a place designated by the health officer, a notice approved by the health officer, stating the lowest grade of milk and/or milk products served.

Section 5. At least once during each grading period the health officer shall inspect all dairy farms and all milk plants whose milk or milk products are intended for consumption within the City of Artesia, or its police jurisdiction. In case the health officer discovers the violation of any item of sanitation, he shall make a second inspection after a lapse of such time as he deems necessary for the defect to be remedied, but not before the lapse of 3 days, and the second inspection shall be used in determining the grade of milk and/or milk products. Any violation of any item of this ordinance on two consecutive inspections within any one grading period shall call for immediate degrading. One copy of the inspection report shall be posted by the health officer in a conspicuous place upon an inside wall of one of the dairy farm or milk plant buildings, and said inspection report shall not be defaced or removed by any person except the health officer. Another copy of the inspection report shall be filed with the records of the health department.

Section 6. During each grading period at least four samples of milk and/or cream from each dairy farm and each milk plant shall be taken on separate days and examined by the health officer. Samples of other milk products may be taken and examined by the health officer as often as the health officer may require. Bacterial plate counts shall be made in conformity with the latest standard methods recommended by the American Public Health Association. Examinations may include such other chemical and physical determinations as the health officer may deem necessary for the detection of adulteration, these examinations to be made in accordance with the

latest standard methods of the American Public Health Association and the Association of Official Agricultural Chemists. Bacterial plate count, reduction time, and cooling temperature results shall be given to the producer or distributor concerned as soon as determined if said results fall within the limits prescribed for the grade then held. Samples may be taken by the health officer at any time prior to final delivery of the milk or milk products. All proprietors of stores, cafes, restaurants, soda fountains, and other similar places shall furnish the health officer, upon his request, with the name of the distributor from whom their milk and/or milk products are obtained. Bio-assays of the vitamin D content of vitamin D milk shall be made when required by the health officer in a laboratory approved by him for such examinations.

Section 7. At least once every 6 months the health officer shall announce the grades of all milk and milk products delivered by all producers or distributors and ultimately consumed within the City of Artesia, or its police jurisdiction. Said grades shall be based upon the following standards, the grading of milk products being identical with the grading of milk except that the bacterial standards shall be doubled in the case of cream, and omitted in the case of sour cream, buttermilk, and cultured buttermilk. Vitamin D milk shall be only of grade A or grade B pasteurized, certified, or grade A raw quality. Certified milk is milk which conforms with the requirements of the American Medical Association and the Milk Commissions in force at the time of production and is produced under the supervision of the Medical Milk Commission of the City of Artesia and of the State board of health or of the city or county health officer of Artesia.

Grade A raw milk is the average bacterial plate count of which does not exceed 50,000 per cubic centimeter, or the average reduction time of which is not less than 8 hours, and which is produced upon dairy farms conforming with all the following items of sanitation:

1. Physical examination and, except as provided hereinafter, a tuberculin test of all herds and additions thereto shall be made before any milk therefrom is sold, and at least once every 12 months thereafter, by a licensed veterinarian approved by the State livestock sanitary authority. Said tests shall be made and any reactors disposed of in accordance with the requirements approved by the United States Department of Agriculture, Bureau of Animal Industry, for accredited herds.

A certificate signed by the veterinarian or attested to by the health officer and filed with the health officer, shall be evidence of the above test. Provided that in modified accredited counties and modified accredited area system approved by the United States Bureau of Animal Industry shall be accepted in lieu of annual testing.

For diseases other than tuberculosis such tests and examinations as the health officer may require shall be made at intervals and by methods prescribed by him, and any diseased animals or reactors shall be disposed of as he may require.

2. A dairy or milking barn shall be required, and in such sections thereof where cows are milked windows shall be provided and kept clean and so arranged as to insure adequate light properly distributed, and when necessary shall be provided with adequate supplementary artificial light.

3. Such sections of all dairy barns where cows are kept or milked shall be well ventilated and shall be so arranged as to avoid overcrowding.

4. The floors and gutters of such parts of all dairy barns in which cows are milked shall be constructed of concrete or other approved impervious and easily cleaned material, shall be graded to drain properly, and shall be kept clean and in good repair. No horses, pigs, fowl, calves, etc., shall be permitted in parts of the barn used for milking.

5. The walls and ceilings of all dairy barns shall be whitewashed once each year or painted once every 2 years, or oftener if necessary, or finished in an approved manner, and shall be kept clean and in good repair. In case there is a second section of a milked ceiling shall be tight. If the feed room adjoins the milking space, it shall be separated therefrom by a dust-tight partition and door. No feed shall be stored in the milking portion of the barn.

6. All cows yards shall be graded and drained as well as practicable and kept clean.

7. All manure shall be removed and stored or disposed of in such manner as best to prevent the breeding of flies therein or the access of cows to piles thereof.

8. There shall be provided a milk house or milk room for the cooling, handling, and storage of milk and/or milk products and the washing, bactericidal treatment, and storage of milk apparatus and utensils. The milk house or room shall be provided with a tight floor constructed of concrete or other impervious material, in good repair, and graded to provide proper drainage; shall have walls and ceilings of such construction as to permit easy cleaning and shall be well painted or finished in an approved manner; shall be well lighted and ventilated; shall have all openings effectively screened including outward-opening self-closing doors, unless other effective means are provided to prevent the entrance of flies; and shall be used for no other purposes than those specified above except as may be approved by the health officer, shall not open directly into a stable or into any room used for domestic purposes, shall have water piped into it, shall be provided with

adequate facilities for the heating of water for the cleaning of utensils, shall be equipped with stationary wash and rinse vats, which, in the case of retail raw milk, if chlorine is employed as the principal bactericidal treatment, shall be of the 3-compartment type, and shall be partitioned to separate the handling of milk and the storage of cleansed utensils from the cleaning and other operations, which shall be so located and conducted as to prevent any contamination of the milk or of cleaned equipment.

9. The floors, walls, ceilings, and equipment of the milk house or room shall be kept clean at all times. All means necessary for the elimination of flies shall be used.

10. Every dairy farm shall be provided with one or more sanitary toilets conveniently located, and properly constructed, operated, and maintained so that the waste is inaccessible to flies and does not pollute the surface soil or contaminate any water supply.

11. The water supply for the milk room and dairy barn shall be properly located, constructed, and operated, and shall be easily accessible, adequate and of a safe, sanitary quality.

12. All containers of other utensils used in the handling, storage, or transportation of milk or milk products shall be made of non-absorbent material and shall be subjected to a safe cleaning, and must be in good repair. Joints and seams shall be soldered flush. All milk pails shall be of a small-mouth design approved by the health officer.

13. All containers, equipment, and other utensils used in the handling, storage, or transportation of milk and milk products must be thoroughly cleaned after each usage.

14. All containers, equipment, and other utensils used in the handling, storage, or transportation of milk or milk products shall be subjected to an approved bactericidal process with steam, hot water or chlorine.

15. All containers and other utensils used in the handling, storage, or transportation of milk or milk products shall be stored so as not to become contaminated before being used.

16. After bactericidal treatment no container or other milk or milk product utensil shall be handled in such manner as to permit any part of any person or his clothing to come in contact with any surface with which milk or milk products are in contact.

17. The udders and teats of all milking cows shall be clean at the time of milking. Abnormal milk shall be kept out of the milk supply and so handled and disposed of as to preclude the infection of the cows and the contamination of the milk.

18. Milk flanks, bellies, and tails of all milking cows shall be free from visible dirt at the time of milking.

19. Milker's hands shall be clean, rinsed with a bactericidal solution, and dried with a clean towel, immediately before milking and following the completion of milking in the milking operation. Wet-hand milking is prohibited. Convenient facilities shall be provided for the washing of milker's hands.

20. Milk and milk handlers shall wear clean outer garments while milking or handling milk, milk products, containers, utensils, or equipment.

21. Milk stools shall be kept clean.

22. Each pail of milk shall be removed immediately to the milk house or straining room. No milk shall be strained or poured in the dairy barn.

23. Milk must be cooled within 1 hour after completion of milking to 50° F. or less and maintained at that average temperature, until delivery. If milk is delivered to a milk plant or receiving station for pasteurization or separation, it must be delivered to the plant or station cooled to 50° F. or less and maintained at that average temperature until delivered.

24. Milk and milk products shall be bottled from a container with a readily cleanable valve, or by means of an approved bottling machine. Bottles used for case prices or earth closets are permitted and used, they shall be separate from the building and shall be of a sanitary type constructed and operated in conformity with the requirements for Grade A raw milk.

25. The water supply shall be easily accessible, adequate, and of a safe, sanitary quality.

26. Convenient hand-washing facilities shall be provided, including warm running water, soap, and approved sanitary towels.

27. Only sanitary milk piping of a type which can be easily cleaned with a brush shall be used.

28. All containers and equipment with which milk or milk products come in contact shall be constructed in such manner as to be easily cleaned, and shall be kept in good repair.

11. All wastes shall be properly disposed of.

12. All milk and milk products containers and apparatus shall be thoroughly cleaned after each usage and subjected immediately before each usage to an approved bactericidal process. When empty and before being returned to a producer by a milk plant each container shall be effectively cleaned and subjected to bactericidal treatment.

13. After bactericidal treatment all bottles, cans, and other milk or milk products containers shall be stored in such manner as to be protected from contamination.

14. Between bactericidal treatment and usage and during usage containers and apparatus shall not be handled or operated in such manner as to permit contamination of the milk.

15. Milk bottle caps and parchment paper for milk cans shall be purchased and stored only in sanitary tubes and cartons, respectively, and shall be kept therein in a clean dry place until used.

16. Pasteurization shall be performed as described in section 1. The time and temperature record charts shall be dated and preserved for a period of 3 months for the information of the health officer.

17. All milk and cream received for pasteurization but not pasteurized

within 2 hours after it is received at the plant shall within 2 hours receipt be cooled to a temperature of 50° F. or less and maintained thereat until pasteurized, except during separation; and all pasteurized milk and milk products shall be immediately cooled to an average temperature of 50° F. or less and maintained thereat until delivery.

18. Bottling of milk and milk products shall be done at the place of pasteurization in approved mechanical equipment.

19. Overflow milk or milk products shall not be sold for human consumption.

20. Capping of milk and milk products shall be done by approved mechanical equipment.

21. Every person connected with a pasteurization plant whose work brings him in contact with the production, handling, storage, or transportation of milk, milk products, containers, or equipment shall furnish such information, permit such physical examinations, and submit such laboratory specimens as the health officer may require for the purpose of determining freedom from infection. The health officer, or a physician authorized by him, shall in each such instance take a careful history and if such history suggests that such person may be a carrier of or infected with the organisms of typhoid or paratyphoid fever or of any other communicable disease likely to be transmitted through milk or milk products he shall secure appropriate specimens of bodily discharges and cause them to be examined in a laboratory approved by him or by the State health authorities.

22. All persons coming in contact with milk, milk products, containers, or equipment shall wear clean outer garments and shall keep their hands clean at all times while thus engaged.

23. All vehicles used for the transportation of milk or milk products shall be so constructed and operated as to protect the milk or milk products from the sun and contamination. Such vehicles shall be kept clean, and no substance capable of contaminating milk or milk products shall be transported with milk or milk products in such manner as to permit contamination.

24. Walls and ceilings of rooms in which milk or milk products are handled or stored shall have a smooth, washable, light-colored surface and shall be kept clean.

25. Unless other effective means are provided to prevent the access of flies, all openings into the outside air shall be effectively screened and doors shall be self-closing.

26. All rooms shall be well lighted and ventilated.

27. The various milk-plant operations shall be so located and conducted as to prevent any contamination of the milk or of the cleaning equipment.

28. The elimination of flies shall be used. This requirement shall be interpreted to include separate rooms for the pasteurizing, cooling, and bottling operations; the washing and bactericidal treatment of containers and equipment. Cans of raw milk shall be unloaded directly into pasteurizing rooms.

29. Pasteurized milk or milk products shall not be permitted to come in contact with equipment with which unpasteurized milk or milk products have been in contact, unless such equipment has first been thoroughly cleaned and subjected to bactericidal treatment. Rooms in which milk, milk products, cleaned utensils or containers are handled or stored shall not open directly into any stable or living quarters.

30. Every milk plant shall be provided with toilet facilities conforming with the ordinances of the city of Artesia. Toilet rooms shall not open directly into any room in which milk, milk products, equipment, or containers are handled or stored. The doors of all toilet rooms shall be self-closing. Toilet rooms shall be kept in a clean condition, in good repair, and well ventilated.

31. The water supply shall be easily accessible, adequate, and of a safe, sanitary quality.

32. Convenient hand-washing facilities shall be provided, including warm running water, soap, and approved sanitary towels.

33. Only sanitary milk piping of a type which can be easily cleaned with a brush shall be used.

34. All containers and equipment with which milk or milk products come in contact shall be constructed in such manner as to be easily cleaned, and shall be kept in good repair.

35. All wastes shall be properly disposed of.

36. Every milk plant shall be provided with toilet facilities conforming with the ordinances of the city of Artesia. Toilet rooms shall not open directly into any room in which milk, milk products, equipment, or containers are handled or stored. The doors of all toilet rooms shall be self-closing. Toilet rooms shall be kept in a clean condition, in good repair, and well ventilated.

37. The water supply shall be easily accessible, adequate, and of a safe, sanitary quality.

38. Convenient hand-washing facilities shall be provided, including warm running water, soap, and approved sanitary towels.

39. Only sanitary milk piping of a type which can be easily cleaned with a brush shall be used.

40. All containers and equipment with which milk or milk products come in contact shall be constructed in such manner as to be easily cleaned, and shall be kept in good repair.

41. Walls and ceilings of rooms in which milk or milk products are handled or stored shall have a smooth, washable, light-colored surface and shall be kept clean.

42. Unless other effective means are provided to prevent the access of flies, all openings into the outside air shall be effectively screened and doors shall be self-closing.

43. The various milk-plant operations shall be so located and conducted as to prevent any contamination of the milk or of the cleaning equipment.

44. The elimination of flies shall be used. This requirement shall be interpreted to include separate rooms for the pasteurizing, cooling, and bottling operations; the washing and bactericidal treatment of containers and equipment. Cans of raw milk shall be unloaded directly into pasteurizing rooms.

45. Pasteurized milk or milk products shall not be permitted to come in contact with equipment with which unpasteurized milk or milk products have been in contact, unless such equipment has first been thoroughly cleaned and subjected to bactericidal treatment. Rooms in which milk, milk products, cleaned utensils or containers are handled or stored shall not open directly into any stable or living quarters.

46. Every milk plant shall be provided with toilet facilities conforming with the ordinances of the city of Artesia. Toilet rooms shall not open directly into any room in which milk, milk products, equipment, or containers are handled or stored. The doors of all toilet rooms shall be self-closing. Toilet rooms shall be kept in a clean condition, in good repair, and well ventilated.

47. The water supply shall be easily accessible, adequate, and of a safe, sanitary quality.

48. Convenient hand-washing facilities shall be provided, including warm running water, soap, and approved sanitary towels.

49. Only sanitary milk piping of a type which can be easily cleaned with a brush shall be used.

50. All containers and equipment with which milk or milk products come in contact shall be constructed in such manner as to be easily cleaned, and shall be kept in good repair.

51. All wastes shall be properly disposed of.

52. All milk and milk products containers and apparatus shall be thoroughly cleaned after each usage and subjected immediately before each usage to an approved bactericidal process. When empty and before being returned to a producer by a milk plant each container shall be effectively cleaned and subjected to bactericidal treatment.

53. After bactericidal treatment all bottles, cans, and other milk or milk products containers shall be stored in such manner as to be protected from contamination.

54. Between bactericidal treatment and usage and during usage containers and apparatus shall not be handled or operated in such manner as to permit contamination of the milk.

55. Milk bottle caps and parchment paper for milk cans shall be purchased and stored only in sanitary tubes and cartons, respectively, and shall be kept therein in a clean dry place until used.

56. Pasteurization shall be performed as described in section 1. The time and temperature record charts shall be dated and preserved for a period of 3 months for the information of the health officer.

57. All milk and cream received for pasteurization but not pasteurized

within 2 hours after it is received at the plant shall within 2 hours receipt be cooled to a temperature of 50° F. or less and maintained thereat until pasteurized, except during separation; and all pasteurized milk and milk products shall be immediately cooled to an average temperature of 50° F. or less and maintained thereat until delivery.

58. Bottling of milk and milk products shall be done at the place of pasteurization in approved mechanical equipment.

59. Overflow milk or milk products shall not be sold for human consumption.

60. Capping of milk and milk products shall be done by approved mechanical equipment.

61. Every person connected with a pasteurization plant whose work brings him in contact with the production, handling, storage, or transportation of milk, milk products, containers, or equipment shall furnish such information, permit such physical examinations, and submit such laboratory specimens as the health officer may require for the purpose of determining freedom from infection. The health officer, or a physician authorized by him, shall in each such instance take a careful history and if such history suggests that such person may be a carrier of or infected with the organisms of typhoid or paratyphoid fever or of any other communicable disease likely to be transmitted through milk or milk products he shall secure appropriate specimens of bodily discharges and cause them to be examined in a laboratory approved by him or by the State health authorities.

62. All persons coming in contact with milk, milk products, containers, or equipment shall wear clean outer garments and shall keep their hands clean at all times while thus engaged.

63. All vehicles used for the transportation of milk or milk products shall be so constructed and operated as to protect the milk or milk products from the sun and contamination. Such vehicles shall be kept clean, and no substance capable of contaminating milk or milk products shall be transported with milk or milk products in such manner as to permit contamination.

64. Walls and ceilings of rooms in which milk or milk products are handled or stored shall have a smooth, washable, light-colored surface and shall be kept clean.

65. Unless other effective means are provided to prevent the access of flies, all openings into the outside air shall be effectively screened and doors shall be self-closing.

66. All rooms shall be well lighted and ventilated.

67. The various milk-plant operations shall be so located and conducted as to prevent any contamination of the milk or of the cleaning equipment.

68. The elimination of flies shall be used. This requirement shall be interpreted to include separate rooms for the pasteurizing, cooling, and bottling operations; the washing and bactericidal treatment of containers and equipment. Cans of raw milk shall be unloaded directly into pasteurizing rooms.

69. Pasteurized milk or milk products shall not be permitted to come in contact with equipment with which unpasteurized milk or milk products have been in contact, unless such equipment has first been thoroughly cleaned and subjected to bactericidal treatment. Rooms in which milk, milk products, cleaned utensils or containers are handled or stored shall not open directly into any stable or living quarters.

70. Every milk plant shall be provided with toilet facilities conforming with the ordinances of the city of Artesia. Toilet rooms shall not open directly into any room in which milk, milk products, equipment, or containers are handled or stored. The doors of all toilet rooms shall be self-closing. Toilet rooms shall be kept in a clean condition, in good repair, and well ventilated.

71. The water supply shall be easily accessible, adequate, and of a safe, sanitary quality.

72. Convenient hand-washing facilities shall be provided, including warm running water, soap, and approved sanitary towels.

73. Only sanitary milk piping of a type which can be easily cleaned with a brush shall be used.

74. All containers and equipment with which milk or milk products come in contact shall be constructed in such manner as to be easily cleaned, and shall be kept in good repair.

Governor Signs Laws Enacted By N. M. Legislature

SANTA FE. — The following measures enacted by the 13th legislature were signed into law Monday by Gov. Clyde Tingley:

SB 234—Extending from June 1 to Oct. 1, 1937, the Rio Grande compact between New Mexico, Colorado and Texas. (Emergency.)

SB 65—Authorizing boards of directors of irrigation districts formed to cooperate with the federal government to sue for delinquent assessments, tolls and charges.

SB 140—Raising the salaries of fifth class county treasurers and assessors from \$1,200 to \$1,500, and increasing deputy allowance.

SB 105—Relating to optometry and the issuance, revocation, suspension and reinstatement of certificates of registration to practice.

SB 187—Providing for formation of non-profit membership corporations to promote and encourage the use of electricity.

SB 90—Amending existing statutes relative to state board of emblems.

SB 80—Regulating the sale of petroleum products to be administered by bureau of revenue.

Substitute for SB 49—Levying a severance tax of two per cent on oil and natural gas, one per cent on potash and one-eighth of one per cent on all other minerals severed from the soil and timber. (Emergency.)

SB 156—Relating to property assessments for watering and maintaining streets in cities and towns.

SB 161—Making it unlawful to use force, threats, intimidation, etc., in obtaining signatures for referendum, recall, or petitions for elections on bond issues or consolidation of school districts. (Emergency.)

SB 174—Providing for compensation to be paid commissioners in commission form of government cities. (Emergency.)

SB 181—Making a maximum area of 2,000 acres for parks or lakes used for keeping game or fish and requiring each such park to be enclosed by a game proof fence. Amended.

SB 168—Authorizing municipalities to sell or lease non-essential municipal property without first calling an election and validating such sales or leases heretofore made. (Emergency.)

Substitute for SB 36—Requiring employers to have bi-monthly paydays, pay discharged employees within 24 hours and giving enforcement of act to state labor commissioner; providing penalties. Committee substitute for SB 41—Creating a state drivers' license law. (Effective Jan. 1, 1938.)

SB 153—Relating to fees in probate courts and providing for the filing of certain proceedings in the probate courts without cost.

SB 231—Providing for retirement of superannuated or disabled employes of public schools.

Substitute for SB 207—Amending present laws relating to the publication of legal notices.

SB 108—Amending existing laws relating to the control of rural schools.

SB 162—Authorizing revenue commissioner to install measuring devices on oil and gas lines.

SB 188—Requiring notices to be given persons interested in administration of estates on filing of request therefor.

SB 182—Providing for a special election Sept. 21, 1937 for balloting on any proposed constitutional amendments which may be submitted to the people by the thirteenth legislature.

SB 37—Providing for annual inspection of nurseries and nursery stock for licensing nurseries, and giving enforcement to the state agricultural college. Amended.

SB 144—Making teachers of common schools as well as those of state schools eligible under retirement law.

SB 186—Requiring a \$5 motor vehicle registration fee of non-resident agents or representatives traveling into New Mexico for the sole purpose of supervising or consulting with local agents or representatives of the business concern by whom they are employed.

SB 208—Providing for the dismissal with prejudice of actions on proceedings in district court where no action has been taken toward the termination thereof by the plaintiff or by the defendant for two years.

SB 77—Defining waste artesian water more fully.

SB 172—Providing for compulsory registration of all qualified voters for election of city commissioners in cities under Chap. 21, 121 law.

SB 173—Providing for the length of term of city commissioners and staggering the terms in commission form of government cities.

SB 134—Amending existing laws relating to bonds issued by counties, cities, towns, villages and school districts.

SB 137—Amending present laws relating to school district bonds.

Committee substitute for SB 104—Revising the state's liquor control laws and providing for Sunday closing, and placing excise

Barney Bros. Three Ring Circus Coming to Artesia

Unique in every respect the Barney Bros. Circus has real offerings. It is the one circus that is rightly called, "The Circus that is Distinctly Different" on March 29th for one day only this very show Barney Bros. Three Ring Wild Animal Circus, to be exact is to be with us with all its unique features. Minus the horse drawn wagons, the obsolete wooden railroad cars, and most of all the high prices, but the most noticeable absent feature is the high powered press agent, Barney Bros. use none of that, but rather display press notices from the press of towns where they have played, to read through line after line of praise for the management of its accomplishment. It really is a treat for one connected with the press. The Minneapolis Daily Capitol said in part, "The hundreds of circus lovers that braved the rain and cold to witness the Barney Bros. Circus here yesterday were all rewarded for it was the snappiest and cleanest circus to show these parts in many moons. The Barney Bros. Circus are welcome back here at any time they find it convenient to play our city. The fifty acts each one a star were presented with lightning rapidity and not a dull moment prevailed." Some of the featured circus acts with the Barney Bros. Circus are The Henry

taxes on all liquors. Amended. Emergency.

Sub. HB 96—Providing that public printing must be purchased from New Mexico firms.

Sub. SB 40—Relating to insurance and amending annotated and session laws; and making state department of insurance self-sustaining.

SB 233—Raising to four per cent the rate of interest allowable on the \$10,000,000 highway debentures.

HB 201—Appropriating \$500 for each of two fiscal years to purchase land and rights for Bluewater reservoir sites, power and recreational purposes.

SJR 13—Directing state tax commission to investigate the valuation of telephone and telegraph companies and other public utilities.

Sub. SB 17—Authorizing bigger allotments in various judicial districts for assistant district attorneys.

SB 15—Creating the office of juvenile court attorneys.

HB 135 — Authorizing firing squads at veterans' funerals.

HB 218—Amending existing law relating to revaluation of real property for tax purposes every four years to provide work shall be begun 90 days prior to the first of the year in which such valuations are to take effect.

HJR 26—Proposed constitutional amendment permitting designation of a supreme court justice to try cases where no district judge is available.

Sub. HB 18—Providing for discharge of tax liens for taxes, interest and penalties upon delinquent taxes, if paid on or before June 15, 1937.

Alamogodo ministers will hold their annual Easter Services at the White sands.

Thirty three cars of livestock were shipped out of Clovis last week. Eight cars of horses were included in the shipment and went to the cotton sections of the south.

Health Column

Conducted by Dr. J. R. Earp, Director, New Mexico Bureau of Public Health.

SELF ASSERTION
The large audience in Seth Hall was still. The Albuquerque Symphony Orchestra, all eyes on the conductor's baton, was poised for its big number. Upon the expectant silence fell a loud ho-hum. Some small boy had sensed a rare opportunity to make 800 people aware of his importance.

The desire to assert oneself is normal. School teachers by awarding grades and prizes and in other more subtle ways make good use of it. But when the normal desire is thwarted it becomes dangerous, to society as well as to the individual.

We owe to Dr. Alfred Adler a clear statement of the exaggeration of this impulse in youngsters "who have been treated as step-children by Nature" — children whose opportunities have been blighted by poverty, by belonging to an unpopular race or class, or by some physical handicap. They develop a sense of inferiority which feeds in them a need for social dominance. This need may become the overmastering impulse of their lives. Sometimes, indeed they do achieve leadership as did Dirsa, the little Jew boy, and thoroughly deserve their longed for prominence. But if they cannot win plau-

dit they will often be satisfied by fame of another kind and so many of our eccentrics and even our dangerous criminals are made.

Most of us suffer some symptoms of this suppressed desire. We recognize them in the boastful, the cocksure, those who carry a chip upon the shoulder, the scandal monger, the finicky of food, the hysterical, the dictatorial husband

or wife. Worst of all is the parent who compensates for his own secret misgivings by teasing, scolding, and snubbing the youngsters. Too often the inferiority complex is passed from one generation to another in just this way.

CHURCH OF CHRIST
Corner 7th and Grand Ave.

The remodeling of the building at the corner of 7th Street and Grand avenue began the 8th. The work will progress just as fast as possible and should be ready for use in the very near future. During the building program the meetings of the church will be held in the Junior High School gymnasium. We appreciate very much the kindness of the Board of Education and Superintendent Kerr in extending to us the use of the Junior High gymnasium while our building is being remodeled. We also appreciate the kind interest and cooperation of all of our friends in Artesia in making this program possible.

The mid-week meetings will be held from house to house as will also the Ladies Bible class. Announcement will be made at the place of meeting.

Regular Bible school, preaching, and communion services will be held each Sunday at the Junior School gymnasium. We invite you to attend.

ALLEN E. JOHNSON, Minister.

FIRST CHRISTIAN CHURCH

Announcements for the week:
Sunday—
9:45 Sunday School. We want to push our attendance over the one-hundred mark on Easter Sunday. Let us make it one hundred next Sunday to prove to ourselves that we can do it on Easter Sunday!
11:00 a. m. Morning worship, preaching and communion. Sermon subject: "What Is Death?" This is the second in a series of sermons on the theme: "He hath set eternity in their hearts." (Ecclesiastes 3:11).

6:00 Junior Christian Endeavor.
7:00 Young People's Meeting.

Wednesday—
7:00 Choir rehearsal.

Thursday (next week).
7:30 Candle light communion service, commemorating the institution of the Lord's Supper. We are anxious to have all of the members of the church present for this service; visitors are also cordially invited. We are trying to make it as beautiful and impressive as possible.

THOMAS MASSIE, Minister.

CHRISTIAN SCIENCE SOCIETY
613 West Main St.

"Matter" is the subject of the Lesson-Sermon which will be read in all Churches and Societies of Christ, Scientist, on Sunday, March 21st.

The Golden Text is: "I have declared, and have saved, and I have shewed, when there was no strange God among you; therefore ye are my witnesses, saith the Lord, that I am God." (Isa. 43:12).

Among the citations which comprise the lesson-sermon is the following from the Bible: "The Lord

Ladino Clover For Pasture

Ladino clover, a giant form of common white Dutch clover, is a long-lived perennial. Its low, spreading and dense growing habit and its quick recovery after being grazed make it admirably suited for pasture purposes under irrigation. Because of the large yields of forage produced, as compared with yields secured from other forage crops grown on the same land, ladino clover is rapidly becoming the most valuable irrigated dairy pasture crop in the western coast states, says E. E. Anderson of the New Mexico State College.

Any legume may cause bloating, but cows are reported to be less susceptible to bloating on ladino than on other legumes, with the possible exception that with sweet clover it would be on a par. The prevalence of weeds tends to reduce this difficulty for the first two years after ladino is seeded. It is only after ladino has crowded out such vegetation and becomes practically a pure stand that bloat gives any trouble.

This crop requires a long period of moderate or cool temperature. In New Mexico scattered trials have indicated that ladino clover can be grown successfully on good irrigated soils where the elevation is in excess of 4,000 feet.

Ladino clover is slow to become established, therefore, patience on the part of the grower is necessary. It is usually understood that if a clover seedling is found to every square foot, a good stand will normally be obtained. Shading of the clover seedlings by weeds will retard growth, but does not appear to injure permanently either the stand or growth, provided the moisture is sufficient. If the weeds become too large, however, they should be removed, either by pasturing or mowing in order to give the clover a better chance to grow.

LIQUOR BILL PASSES

SANTA FE.—Less than an hour before expiration of the legal 60-day session at noon Saturday, the senate voted, thirteen to three passage of the liquor bill, with house amendments providing of Sunday closing, and diverting all liquor revenue to the relief and security authority.

Social Security forms and systems—The Advocate.

shall fight for you, and ye shall hold your peace." (Ex. 14:14).

The lesson-sermon also includes the following passage from the Christian Science textbook: "The broadest facts array the most fallacies against themselves, for they bring error from under cover. It requires courage to utter truth; for the higher Truth lifts her voice, the louder will error scream, until its inarticulate sound is forever silenced in oblivion."

Health Column

Conducted by Dr. J. R. Earp, Director, New Mexico Bureau of Public Health.

Corrections

A supervising nurse reports on her visit to one of the county health nurses, one of those who came back to New Mexico after receiving public health training at Western Reserve University:

"Miss ——— was pleased with the number of parents who responded to the invitations sent out that they come to school to discuss the defects of their children, but rather disappointed at not being able to do more toward assisting them with corrections. Dental corrections seemed especially hard to obtain."

Many public health workers have suffered disappointment from this cause. What is the good of telling the parents about the danger of rheumatism from an infected tooth if the parent cannot afford to take the child to a dentist?

We must remember that ability to pay for medical or dental care depends at least to some extent on the desire to obtain medical care. The American people spent 360 million dollars a year for "patent medicines." A good part of this money could be spent for the correction of defects if the spender had more confidence in the preventive value of dentistry than in the curative value of such mixtures as sugar and chalk.

One and a half million dollars were spent on amusement in New Mexico in 1935. Some of that money might have been spent, no doubt, on correcting defects, if the relative importance of corrections had been understood. And then there is the money spent on candy which is not really an essential food. Last year a single merchant in Santa Fe reported the sale of 40,000 pounds of candy! It is an important part of the duty of a public health nurse to teach the value of preventive medicine as

Carlsbad-Loving Wins County Meet

Defeating Otis by the same score by which they beat Malaga in the semi-finals, Carlsbad's junior high school basketball players won the county championship Saturday night in a thirteen to ten victory at Carlsbad. The Loving girls team beat the Cottonwood girls 19-11 to win the county championship.

Carlsbad reached the finals by defeating Malaga 13 to 10 in one of the most hotly contested games of the tournament.

Otis, after defeating Lakewood 19 to 15 in the first round, trounced Loving 10 to 5 in the semi-finals. Loving drew a bye in the first round.

Carlsbad won its first round game against Hope by a score of 20 to 12, while Malaga trounced Cottonwood by the top heavy score of 20 to 3 in the first round.

The Cottonwood girls went to the finals by defeating Otis by a score of 16 to 12. Loving beat Malaga 24 to 16 to gain the finals.

The Hope girls team, which drew a bye in the first round, did not appear for the tournament.

We Buy and Sell Typewriters, Adding Machines, and All Kinds of Office Equipment—The Advocate.

compared with candy, whiskey and other things which somehow can be bought. There are many parents who believe they cannot employ a dentist who, after the poisoned tooth has become a poisoned heart, will be able to pay the undertaker.

This is not to deny that very many parents truly cannot pay for preventive medical or dental care. To help such there is a state health protection fund. In the last fiscal year \$2,600 from this fund was matched against an equal sum from voluntary public contributions for the correction of defects.

Hospital Notes

(Emergency Hospital)

Mrs. Walker McClatery was a patient at the hospital the first of the week, following a minor operation.

Mr. Berger of Hope is a patient at the hospital suffering from an infection caused by injuries sustained while playing basketball.

Mrs. Nora Hodges, mother of Mrs. R. J. Parks of Hope has been released from the hospital and is further recuperating in a private apartment.

Paul Alvarez, son of Mr. and Mrs. Pablo Alvarez is recuperating from burns sustained in an accident Saturday night.

SCARLET FEVER

An unusual amount of scarlet fever has been prevalent over the community according to reports and in many instances the start of the disease is very difficult to detect. Carl Henderson, county sanitarian says if your child develops a sore throat, keep him at home until it can be determined whether or not the sore throat may be the beginning of the fever. Quarantine regulations should also be closely observed to prevent the spread of the disease.

HIGHWAY MEETING

A meeting of communities along highway 83 east as far as Fort Worth is being held today at Lamesa, Texas. Elliott Roosevelt, son of President Roosevelt was expected to drive to Lamesa, with the Fort Worth delegation, it was said yesterday.

WANTED—Clean Cotton Rags at The Advocate.

Typewriters for rent—Advocate.

SHEEP KILLING DOGS

There has been a very large loss of sheep during the past few weeks in the vicinity of Lovington. They are reported to have been slaughtered by dogs.

Pearl Caudill in the Hester community has been the heaviest loser, and losses have been sustained by Burl Groves and by W. E. Caudill.

Mr. Groves reports the loss of 25 sheep in one night and Pearl Caudill is said to have lost 60 during that time, while several were killed in the lot at W. E. Caudill's after they had been put in the pens.

Altogether, probably more than \$1,000 worth of sheep have been killed by dogs during the past two weeks.

There are probably a hundred

dogs in Lovington which could be well spared and the whole country would be better off if they were put out of the way.—Lovington Leader.

LEAVE OIL-JITTERS BEHIND

GET CHANGED TO OIL-PLATING

Spring's here, but let's not put any loud "new suits" on all the old oil bogeymen. After all, botherless engine lubrication gets down to a few calm facts that are facts.

No. 1 . . . You want to be certain that your engine doesn't grind every time you start, while oil is "coming up" from below. Oil-Plating, produced only by Conoco Germ Processed oil, can never lose time "coming up," because it's already there!

For the patented Germ Process creates such a powerful attraction between oil and metal that the inside of your engine becomes *Oil-Plated*. And you know that platings aren't runny, but stay up in place. That's the way Oil-Plating will stay up to ward off all the worst starting wear you ever heard of.

And No. 2 . . . Whether you've got a "good old car" or the latest thing, you want to make any driving schedule without being nervous about the heat indicator and the oil level. You can easily keep them where they belong. This is exactly why: the Germ Process creates a far stronger normal type of oil film and then checks friction still further by means of modern Oil-Plating—entirely extra . . . exclusive to Conoco Germ Processed oil. Costs no more when you change; costs you less all season. Continental Oil Company

Eight-Year-Old Inventor Gets Patent—Jordan B. Bierman, of New Rochelle, N. Y., is one of the government inventors to whom a patent has been issued. His invention relates to clothes racks.

On Beyond

(By Anna Nolan Clark)

(Editor's Note: This is the fourth and concluding article of a series of four written by Anna Nolan Clark, New Mexico author.)

At last April came to Tiguex bringing soft, warm days fresh with smells of sun-warmed earth. Snow disappeared and in its place hardy, little Spring flowers thrust up inquisitive hands of young greenness. The hills were clean, bright pink again and freshets of melted snowwater leaped gayly down their fat slopes to join the icy Rio Grande in its valley bed below.

At Tiguex, Coronado's army came out into the sunshine of promised summer. They shed their sullenness as they shed the appropriated blankets of the Indians. Humor returned, warming hearts that had chilled in the bondage of winter. The Turk's tales of gold again took on their golden glamor. Zestful preparations were made for the advance to Quivira.

They were so gallant, these men of Spain, so brightly daring, so gayly courageous; when they were ready to start on their march they did so with valor. True, this time there was no rolling drums, no silver-toned trumpets; the buidons were soiled tatters, silks were faded, velvets grown limp, but hearts were high and hope triumphant.

Shortly after sunrise one morning in April, 1542, the procession started on the long march to Quivira. At this time there were eight hundred men left and nearly that number of horses and mules. The imprisoned chief from Cicuye and the Turk were given their liberty to go on the march with the rest of the men.

Although there were no drums or trumpets, the cry of "On beyond to gold," swelled men's throats and made majestic music.

And thus, days later, they reached Cicuye. The Indians here, again as before, gave to the expedition the Turk, as guide, and also Isopete, another captive Quiviran. The Turk's promises became even more enticing. Isopete was not so enthusiastic, although he declared that whether there was gold there or not it was a fine country. The Spaniards wasted little time at Cicuye, pausing only long enough to lighten the loads of provisions on the pack animals in order to conserve their strength for the homeward trek when they would need be burdened heavily with plundered gold.

The men were in high spirits. Jauntily they proceeded. When they arrived at the Pecos river they found it in flood and, at about where Puerta de Luna now stands, the Conquistadores were forced to delay four days while they built a bridge in order to cross.

Then they continued on, counting their footsteps to measure the leagues of distance. Before many days they reached the "country of the cows." They encountered Indian hunting bands and were quick to observe how these Redmen subsisted mainly on the buffalo. These Indians, although not hostile, were reserved and indifferent. Coronado's men received no information from them. The reason for this may have been that the Indians used the sign language and the Turk was the only interpreter.

The Conquistadores marched on and on for days and days, counting the leagues of travel, observing the land, its people and their ways. Gradually the great plains closed in on them. Mountains and valleys were lost in the distances left behind. The world became flat, flat and round, a monotonous sea of waving grass covered and bounded by fathomless sky. There were no trees, no rocks, no buttes, no canons, just a sea of sky above and a sea of grass below. And the grass sprang erect again as they traversed it, leaving no backward trail. They felt themselves as moving dots in a vast, motionless space. Nameless terror seeped into their blood. The plains were strange, eerie, haunted by grim, grey ghosts of fear. Gayety became weighted with stones of depression. Desolation stalked among the riders of the cavalcade. The obsession that they were lost filled their days with dread and made the nights uneasy with fitful dreaming.

It was recalled that way back in the winter at Tiguex a certain guard had sworn that he spied upon the Turk in his imprisonment and had seen him capture the devil in a pitcher of water and talk with him there.

But the Turk maintained that he knew his way, that just beyond lay Quivira embedded in gold.

And the men continued on, counting the leagues as beads on a rosary.

One and all they lost their bearings and could tell directions only at sunrise and sunset. Isopete declared that they were going southwest and that the province of Quivira lay to the north.

At last after thirty-seven days a friendly tribe of Indians were met who confirmed the statement of Isopete.

A council of war was held. The Turk was called before the men. Hours passed by as the sullen night settled itself over the brooding plains. The Turk was weary of spinning tales that glittered with gold. He confessed. These men long ago should have died of hunger and despair, but no, they were living, though their horses were dying around them, they were alive and demanding gold. What was this gold that they desired so madly, the Turk wondered. He knew not gold, only freedom and this the chiefs of Cicuye had promised him if he would lead them there unwanted strangers out beyond to die. He had led them out beyond, but not to die. They refused to die. They wanted gold.

The Turk was put in chains. Death was delayed that its taste could grow more bitter.

The army was sent back to Tiguex and Coronado and thirty men turned themselves about and started for Quivira with Isopete in the lead and the manacled Turk in the rear. The buffalo were in migration north and so the men followed them; traveling when these great creatures traveled, resting when they rested, fording the rivers where the great numbered herds had worn down the banks and made the waters shallow.

After more than a month they reached Quivira, several straw-hatted villagers. Nine hundred fifty leagues from the City of Mexico, two years of constant hardship and endeavor and they were at Quivira. The land was fat and black, the vegetation like that of Spain, but not in the entire province was there gold to be seen.

The men stayed for twenty-five days. There was no gold.

Coronado turned back, reached Tiguex and the army and wintered there. The winter was mild, but the men were discontented, disillusioned and homesick. They were ill clad in skins and rags. They were unkempt and lousy.

Coronado was injured in a fall from his horse. Although his body mended his spirit was broken. He welcomed a petition from some of the men declaring that they were ready to give up the quest and return home.

And so they returned to New Spain, but when they reached its borders men deserted at every town until there were but a scant hundred to disband at Mexico City.

Coronado reported to the Viceroy that he had found no gold, but Castenada came nearer the truth when he said, "Although he found no gold, at least he found a place in which to search for it."

Four hundred years afterward the vanguard of the Conquistadores, the Flower of Spain, are still marching—marching over the desert, over the mountains, thru the valleys of the land opened to them by Don Francisco Vasquez de Coronado who found no gold, but found for us, thank God, a place in which to search for it—a place of golden days and turquoise nights, where the caminos are paved with sunlight and the portals frame the sky because, invitingly, they stand ajar.

The End.

A son was born to Mr. and Mrs. Buster Kinder of Hope yesterday.

A daughter was born to Mr. and Mrs. Harvey L. Baker this morning.

Mrs. John Mauer underwent an appendectomy at the St. Mary's hospital Tuesday at Roswell.

Bureau for Identifying Stolen Articles Established Recently

Sheriff Dwight Lee said here last Thursday the sheriff's office at Carlsbad had established a bureau of identification for guns, bicycles, typewriters, adding machines, etc. The bureau is established to obtain a record of the numbers and models of these various articles in case of theft. Heretofore, the sheriff's office has never been able to obtain an accurate record of stolen articles of this nature when a theft occurs. Many guns, bicycles, etc., are often found in raids, but identification is difficult. The registration of these articles is not compulsory, but if owners will record the make, model and serial number if any, the stolen articles can often be quickly recovered. The cooperation of every owner is urged. Sheriff Lee explained his office could not afford to make any think like a county canvass to secure a list of these articles, but the effectiveness of the bureau is dependent on the voluntary cooperation of the people.

Eddy County Farm News

Fred Barham, county agent announced here yesterday he was calling the county and community committee to meet in Carlsbad Friday. Committee members will go over the 1937 forms to be filled out for the county producers. Headquarters for the community committee of each district in the county will be arranged for and producers notified by letter as to where these headquarters will be made.

Farmers will soon start making the 1937 work sheet. In assisting farmers in filling out the new work sheets, committeemen will require two copies of the map of the producers farm. County Agent Barham said this was important and no work sheet will be filled out without the accompanying maps.

A belated announcement of the birth of a baby daughter born to the C. E. Specks was received today. The baby was born in Carlsbad on February 27th.

Miss Helen Vera Funk returned to Santa Fe Tuesday to resume her duties in the state superintendent's office after a visit with her parents, Mr. and Mrs. Jesse Funk of the Cottonwood.

Miss Virginia and Mrs. A. O. Alexander of Mexico, Missouri, who have been the guests of Mr. and Mrs. John Lanning and Mrs. C. Bert Smith, left Sunday for a month's visit in California.
