Misuse of "C" **Bring Cuts**

Currier and Ward Especially Warn Farmers, Ranchers

A warning that the granting of gasoline to "C" book holders may be reduced because of misuse of gasoline was issued this morning by George E. Currier and J. S. Ward, local members of the Eddy County ration board.

Quoting a memorandum from S. M. Graf, state director of the Office of Price Administration, the board members said a number of apparent misuses of gasoline have been brought to the attention of the state office, which suggested to local boards the next grants of gasoline be reduced by the amounts of misuses indicated.

One general complaint was that large number of ranchers and farmers drove great distances to the livestock show at Denver, using their "C" rations, which were issued for agricultural purposes.

Certain farmers and ranchers, Currier and Ward said, are making numerous trips to town, sometimes daily, for various purposes which obviously are not connected with the agricultural needs.

Graf wrote the board members: 'We believe we cannot afford to allow this sort of thing to go on, and we believe that wherever these things are brought to our attention the applicant should be called in and in some way penalized for misuse of the gasoline allocat-

er should they use overestimates Ison. "World Day of Prayer," to be for purposes not included in their She was a daughter of the late Some Christmas

Fire Destroys **Mitchell Home** West of City

Ralph Mitchell and family lost most of their belongings about 5 o'clock last Thursday afternoon, when their frame home a mile west of the city limits was destroyed

Apparently catching from an oil west wind, the dwelling soon was an inferno, one of the hottest fires observed here in a number of years, according to Dallas Golden and Lee Francis of the Artesia Fire Department, who took one of the fire trucks to the scene, but were unable to be of any assistance because of the unavailability of water. No alarm was sounded but the truck was dispatched to be

of assistance if possible. The fire was discovered by Mr. and Mrs. Ray Zumwalt of the Cottonwood, who were passing. Mrs. Mitchell and three children, who were not aware of their danger, were rushed out of the house by Zumwalt, while his wife hurried to the city for assistance. Zumwalt also helped them save a few of their belongings. Mr. Mitchell was

not at home. The house was owned by W. S.

Williams. Firemen were called at 12:15 o'clock Tuesday afternoon to control a grass fire west of the Dr. J. J. Clarke, Sr., residence on

Red Cross Total \$4,055 This Morning Assures Chapter Goal of \$4,850 Soon

C. J. Dexter, Chairman, Believes North Eddy County May Beat State in Early Attainment-Hopes Area Will Increase Donations to Aid in Local Functions

North Eddy County will go over the top within the next few days in the Red Cross 1943 war fund heater and whipped by a strong drive, according to indications this morning, when C. J. Dexter, chapter chairman, reported \$4,055.51 has

en subscribed of the quota of \$4,850. With less than \$800 to go before the quota is reached. Dexter said he believed that if workers from communities in North Eddy County, including those from Hope, the oil fields and the farming districts, report in Saturday, the amount will be attained by Monday.

Pointing out that Monday is March 15, with only half of the drive month gone, it is probable that the chapter will be the first in the state to go over the top.

The \$4,055.51 total reported this morning represents 701 individuals and firms. Dexter said.

FO:

Where it had been for two years, we will never know, but by some strange process the March 10, 1941, issue of The Tucumcari LATIN AMERICAN METHODIST Daily News showed up this week on our exchange table. And the first story at which we glanced contained a definite warning or forecast of Pearl Harbor!

At that time we were hollering our heads off to prepare and were painting warning pictures of the Pacific, as were the majority Spanish you will feel at home, for of other newspapers, but no one would listen.

other newspapers, but no one would listen.

Now read this, taken from an Associated Press story in the having you and will extend a spirit Daily News issue of March 10, 1941, just two years ago yesterday of courtesy. and nine months before the Japs launched their treacherous assault: "One of Premier Musolini's editorial spokesmen asserted today that the British aid bill was 'open intervention in the war against the Axis' and threatened the possibility of 'many disagreeable surprises to England and the United States in the Pacific.'

"This assertion made by Facist Editor Virginio Gayda, apparently referred to action by Japan in the Far East.

"Passage of the bill, he said, might eventually bring the Rome-Berlin-Tokyo Axis into play against the United States.'

The point is not that passage of the British aid bill, or any other p. m. bill, was responsible for the Jap assault, but that the stage was being | C. A. program, Friday, 7 p. m. set two years ago for that action and that the American people could special music and songs.

The public is invited to attend not-or would not-awaken to the dangers besetting this nation.

That we have awakened and are gradually, but surely, overcoming the advantage the enemy had is apparent. But it is too bad that the American people, smug, should have been such fools.

But now there has been another warning—and the shoe is on the other foot, and the warning comes not from an Axis partner, but from an American, from General Douglas MacArthur.

In a letter to Dr. V. H. Spensley of Albuquerque, chairman of the Bataan Relief Organization, last week, General MacArthur made a promise to New Mexico boys and to their relatives and friends, in at the same time issuing a warning to Japan:

"Your letter of Dec. 27 has just reached me and strikes close to my heart. There is little I can tell you of the men of the 200th and 515th Anti-Aircraft regiments that you do not already know.

"They have written their own immortal record in the bloody transcript of Bataan. I knew them well and loved them greatly. Never a day goes by that I do not pray that God will give me strength to redeem those who survive.

"If I live, I shall return to save them. In the meantime I can only hope that a merciful providence will give you all the divine patience to wait with such sereneness as may be possible the unfold-

ing of the bloody drama which is now being enacted in the Pacific." Just as surely as was the first threat fulfilled, so will be the at 7:30 o'clock. Confirmation insecond and we do believe that God will give General MacArthur strength and that he will live to return to save them.

WATER FOR "VICTORY GARDENS"

Here's an idea for the city dads to consider, not original with us, invited to worship with the conbut suggested to us by one of our good local citizens.

It has to do with the watering of "Victory Gardens," one of the major problems, for the necessary water entails a considerable ex-

The suggestion was made that the city work out some sort of reduced charge-possibly a flat rate-founded on experience and charge persons engaged in raising "Victory Gardens" accordingly.

We all realize that it costs considerable to maintain the Artesia and preaching service at 8 p. m. water system and that the present rates are founded on a cost basis Everyone is invited to worship with of operation. There is no argument there.

But many of the local citizens, realizing that the cost of the water necessary to properly maintain a "Victory Garden" would be prohibitive, hesitate to cooperate in the "Food For Victory" campaign, in which everyone is being urged to raise vegetables.

As the water system is being maintained under the present rate schedule and minimum charges, the additional cost to the city for water to irrigate the gardens would be small-probably only the additional electric charge and depreciation on the equipment.

It was suggested that possibly every water user, who would sign a statement that he is raising a "Victory Garden," be given a reduced rate-or flat rate-for all water used more than a specified amount, probably the amount experience has shown that particular property 7:30 p. m. should use normally.

How about it? It's at least worth considering!

JOBHOLDERS "SPANKED" FOR LACK OF SUPPORT

A portion of a news story in The Albuquerque Tribune the day after the Democratic party dinner there recently brings out what is referred to as "a stinging rebuke to Democratic jobholders of fat federal jobs who fail to support the party which helped them get their jobs," and well it might be. The story speaks for itself: "The rebuke was delivered by the Democratic treasurer, Victor

Salazar, head of the School Tax Division of the Bureau of Revenue, at the Washington Day dinner at the Hilton last night.

"One of the principal speakers, Mr. Salazar said: 'In my speech I am going to talk about something which you have heard talked about in the street; at party gatherings, in offices, but not at these public affairs. But I am going to talk about it here now.

"' I am talking about these federal employes who hold fat jobs and who always refuse to support the party to which they came for indorsements which they needed to get the positions,' Salazar said.

"'Now when we ask them to help support that party they hide behind the thin wall of the Hatch Act, a veil that will not protect them should Republicans ever win an election. Should that happen the Hatch Act will not protect them, the Republicans will say: "There are some stinking Democrats; out they must go." He said that Republicans would 'un-Hatch and re-Hatch' these jobholders."

A small helping is plenty when you're getting a piece of mind. Midland Reporter-Telegram.

OUR NEIGHBORLY HITCHHIKERS

Of course, we are mighty happy the numerous republics south of the border are members of the United Nations, rather than of the Axis, but they strike us very much like the majority of members in on the pavement! almost any organization. The work is done by a handful of members, those who are willing to do the work, while the others just keep up their memberships and ride along.

Putting off until tomorrow things that should be done today is doubt a bad policy. But we've gotten out of a lot of work in our life by doing just that!-Lubbock Journal.

We don't mind if our coffee is weak so long as our army is strong.-Grenville (Ill.) Advocate.

with a champagne bottle misses her ship for a swinging strike, she'll probably hit the next one.-Detroit News. A news item says a 4-year-old boy who had never spoken, one

day startled his parents by remarking: "This is a helluva world." That kid had been thinking instead of talking.—Dalhart Texan.

Oh, Mister Ripley! We met a lady of 30 the other day who has a twin brother who is 42!-Lubbock Journal.

Lois Jackson stayed with her sister, Gladys Jackson, in Artesia

Unless the federal government eliminates "hampering restrictions on the obtaining of labor," New Mexico crops will decrease 20 per cent in 1943, Gov. John J. Dempsey declared in Santa Fe. "There can be no material improvement in the labor situation in the state until the government removes the restrictions necessary to obtain labor," the governor asserted. "The red tape has made it 'impossible' to bring in laborers from Old Mexico." Dempsey said he would place tion the proposal of Secretary of Agriculture Claude R. Wickard that school youth in rural areas be used to fill gaps in labor shortages this spring. The reduction in crops in the state was brought out in a survey conducted by the governor.

Ernest Thompson, Mrs. R. R. Cor-Tax Returns for the Year 1942

tunity, as the deadline date is rapdly approaching, Alfred E. Triviz of the New Mexico Extension Service points out. The income tax return should be in by March 15.

To determine if an income tax return must be filed, ask yourself this question: "What was my gross ncome for 1943?" This means income from all sources without considering any expenses or deductions. If the gross income was \$500 or more and the person is single, or \$1,200 or more and the person is married, then a return must be made. The filing of a return does not necessarily mean that a tax must be paid. This will depend on the income, deductible expenses, personal exemption, and credit for dependants.

Farmers and ranchers should obtain two forms-1040 and 1040-F. These forms are aavilable at offices of Internal Revenue, banks, or postoffices. If not available at these places, a request should be sent to the Collector of Internal Revenue, Albuquerque.

Are records being kept on 1943 operations? An income tax return will have to be made at the end of the year. In addition, farmers and ranchers will have to figure the victory tax on their 1943 ncome, therefore, record keep-At Naugatuck, Conn., Joseph ing is doubly important this year. quicker. Try it.

Artesia, N. Mex.

The New Mexico state government and both houses of the Legislature arranged to pay honor to Archbishop Rudolph A. Gerken of Santa Fe, who died Tuesday of last week. State offices closed Saturday morning for the funeral. Gov. J. J. Dempsey's staff, including colonels aide-de-camp and a guard of honor from the New Mexico State Guard attended the services. The House and Senate of the Legislature, now in recess, appointed committees to officially represent them at the rites.

Coffee-Wise

In coffee, it's quality rather than quantity that counts. That's why the coffee-wise are making that one cup of coffee per day offer the very best there is in coffee . . . flavor, aroma, inspiration and sheer taste joy.

BUYING COFFEE-Be sure to get the right grind for your coffee maker ... Regular Grind for percolator or for boiling . . . Drip Grind for drip and vacuum makers.

MEASURE ACCURATELY both the coffee and water, and use standard measures for uniform results. We recommend 11/2 to 2 level tablespoons of coffee for each standard measuring cup of water. (A standard measuring cup equals from 11/2 to 13/4 dinner cups.) For best results, make pot at least two-thirds full. A clean pot pays dividends in

Percolator Coffee - Use either hot or cold water. Start timing when the "perking" begins and "perk" slowly for 7 to 10 minutes.

Boiled Coffee-Add coffee to cold water in pot or sauce pan. Let it come to a rolling boil, remove from heat and allow a few minutes for the grounds to settle. Strain and

Drip Coffee-Preheat pot. Pour boiling water into top compartment, and allow to drip slowly. The dripping time should take from 6 to 8 minutes to obtain the peak of flavor and aroma.

Vacuum Coffee-Have water in lower bowl boiling before fitting upper bowl in place. Begin timing when the water rises and comes in contact with the coffee. Control the heat so that the coffee and water are infused together from 5 to 7

Christ, at the parsonage home. The bride was attired in an attractive spring wool suit of aqua blue, with brown accessories.

Witnessing the ceremony were Mrs. Saint Clair Emmons, Misses Frances and Mary Emmons and Robert Emmons, mother, sisters and brother of the bridegroom; J. C. McCasland, brother of the bride; Miss Jean Ray and Mr. and Mrs. Bob Sallee.

Mrs. Emmons, who was reared here, is a graduate of the Artesia schools, and is employed by the Ross Baking Company.

Cpl. Emmons, who came to Artesia about four years ago and was employed at the Dixon-Yates Oil Company before being inducted into the Army about nine months ago, arrived home Wednesday of last week. He is now stationed at Fort Leonard Wood,

Cpl. Emmons plans to leave Friday for his station. Mrs. Emmons will remain in Artesia for the present time.

Miss Mildred Painter Bride of Peter Jones On Friday Evening

of Mr. and Mrs. B. C. Painter of Artesia, became the bride of Pfc. Peter S. Jones of Russellville, Ark., Friday evening at the Presbyterian manse here with the Rev. J. Basil Ramsey reading the single-ring ceremony.

The bride wore a powder-blue silk street-length dress, with black accessories. Witnessing the ceremony were Mr. and Mrs. Painter, parents of the bride.

Mrs. Jones, who came from her parents about a year ago, has Flint for the last seven months.

Private Jones, who arrived here Wednesday of last week, is a mechanic in the Motor Division, stationed at Camp Wallace, Tex.

The newlyweds left Monday evening for Hitchcock, Tex., near Camp Wallace, where they expect to make their home.

Hool-Lee Marriage Recently Announced

Mrs. Opal Hool of Artesia and Forrest Lee of Lakewood have recently announced their marriage which was performed on Jan. 3 in Carrizozo. Marriage vows were exchanged at the Baptist parson-age by the pastor of the Baptist Church in Carrizozo. Miss Frances Emmons of Artesia accompanied the couple and witnessed the cere-

Mrs. Lee is a daughter of Mr. and Mrs. A. L. Netherlin of the Artesia community and Mr. Lee is a son of Mr. and Mrs. M. C. Lee of Lakewood. In this marriage members of two pioneer families were unted. Both the Netherlin and Lee families are well known in the Pecos Valley.

Mrs. Lee, who returned to Artesia from New York City about two years ago, has made her home on West Main Street. She bought the residence property soon after returning here. She has held the position of assistant bookkeeper with the Carper Drilling Company since taking up her residence here.

After announcing their marriage the last week in February, Mr. Lee and his bride spent a week across the Mexican border and in Chihauhau City, Mexico, on a wedding

Mr. and Mrs. Lee are at home at the ranch home of Mr. Lee, near Lakewood.

Eected President Of P. E. O. Sisterhood

Mrs. Leslie Martin was elected president of the Artesia chapter "J" of the P. E. O. sisterhood at the regular meeting Friday at the

Martin home. A covered dish luncheon, in

charge of Mrs. C. E. Mann, was served at 1 o'clock. Other officers elected to serve with Mrs. Martin were: Vice president, Mrs. Grady Booker; treasurer, Mrs. R. L. Paris; recording secretary, Mrs. Howard Stroup, re-

elected; corresponding secretary,

Mrs. Ralph Shugart, re-elected; chaplin, Mrs. C. E. Mann, and guard, Mrs. Wallace Gates. Mrs. William Linell, outgoing president, installed the officers. The next meeting will be at 2:30 o'clock Friday, March 19, at the home of Mrs. Glenn Booker.

MRS. MAHONE UNDERGOES A MAJOR OPERATION

Temple, Tex., about three weeks sition as bookkeeper at the Malco ago and underwent major surgery about two weeks ago, is getting duty in the U. S. Army at Fort The Children's Story Hour, will along nicely. She expects to re- Bliss Wednesday.

"Ladies, let's help cook a tank!...

"Funny thing! We women understand why sugar, coffee, gasoline and oil have to be rationed ... but few of us dream that the Gas that cooks our breakfast bacon is also a vital war material!

"It probably never occurs to us that we are actually helping to build a tank or a plane or a ship or a gun when we avoid wasteful use of Gas in cooking and especially in house heating and water heating.

"For Gas is used in making nearly every kind of weapon we need to

"We women have always known that Gas is the fastest cooking fuel, that it's completely flexible and easy to control. So we can easily understand why Gas is important in helping to give our fighting forces better equipment - that it's speeding production in order that our boys may finish the job over there and get back home.

"So let's all remember . . . it's just as patriotic to use Gas wisely as it is to make the many other sacrifices that are needed for Victory!"

MEETING WARTIME NEEDS - Today the Gas industry is producing more Gas than at any time in history. Yet because the demands of war production may reduce the amount of Gas normally available for household use you are urged to use Gas

is vital to war production

SALES RECEANKS AND THE WAR THE BATTLE of the BONDS

> THE sale of War Bonds is a battle that we Americans are fighting right here at home. It is a battle to raise war funds in a sound, non-inflationary way. The tide of this battle has ebbed and flowed. For months last summer our side was losing—we missed national goals again and again. Then, for a while, we went on the offensive and passed monthly goals. But the battle goes on, month after month, and can't end until the war ends. Keep trying. Keep buying. Your purchases are more important now than ever.

Guy Chevrolet Co., Inc.

ARTESIA, NEW MEXICO

Your engine's cylinders can't stop empty. They'll either load up with fresh raw gas when you shut 'er off, or get caught with stale burned gas they can't belch out.

In those useless leftovers are corrosive acids, trapped in the engine you can't replace-along with moist "sweat" as the interior cools. Any chemistry freshman knows these causes of biting corrosion, always present-long before wartime. But when your car was in frequent use, at speeds that thoroughly warmed the engine, it helped to offset the worst acid effects. How different today, when mileage, speed, and average engine heat are all down-giving acid its chance to run riot!

You can't open the engine and keep

sponging out any acids or other moisture, while your car stands little used nowadays. But without extra fuss or extravagance you can change to Conoco Nth motor oil and get your engine internally OIL-PLATED.

You're familiar with anti-corrosive plating...like chromium-plating. Just as closely, this protective OIL-PLATING will be kept surfaced to delicate parts by advanced synthetic means-as described in the celebrated patent on Conoco Nth. Though your gasolinerationed car makes few runs, you can combat corrosion between times. For you can keep your engine OIL-PLATED by changing to Conoco Nth this Spring at Your Mileage Merchant's Conoco station. Continental Oil Company

Capt. Lusk, Naval Ace, Son of Superintendent Schools, Is Killed

26, son of Mrs. Georgia Lusk, state superintendent of schools, who attained a Naval ace's rating in air fighting in North Africa, was killed in an aerial collision at San Diego, Calif., Tuesday.

The captain arrived back in the United States little more than a month ago from the African front, where he distinguished himself. He had been awarded the Distinguished Flying Medal with three Oak Leaf Clusters and the Air Medal. He was still on leave and was to have reported soon at San Francisco for further assignment.

He was born at Lovington, Sept. 6, 1916, a son of Mrs. Lusk and farm, Artesian well, new turbine the late Dolph Lusk. He is sur-

Floore and Reed Charleen Martin and Miss Betty Brainard of Artesia left Sunday Flint, students at Stephens College in Columbia, Mo., will meet their parents in Kansas City for a visit. Mrs. Flint will visit indefinitely A. Tripp, and family.

Shortage Skilled Men Justifies Amateurs To Prune Own Trees

Amateur tree surgery is justified at present because there is a shortage of men skilled in tree care, Ray R. Hirt, associate professor of forest botany and pathology, New York State College of

Forestry, has declared. In order to do work of this nature satisfactorily and with reasonable safety, certain equipment is essential, according to Hirt. At least two saws, preferably a threefoot crosscut saw for large branches and a small hand crosscut saw for small branches are needed. Both should be sharp and have a rather wide set in order to cut green wood. A sharp knife, a chisel and some kind of mallet also Mr. and Mrs. James Warden of are desirable. If large branches Carlsbad, formerly of Artesia, are to be removed, a rope or two

The following precautions should be followed, Hirt said: When working in trees, tie yourself in properly and securely; do the same with your tools; to be sure that the branches you cut from a tree do not fall so as to do damage to other good branches and make sure that falling branches will not injure nearby trees or buildings, and do no work in trees when they are

wet or icy. The federal government through the National Park Service has issued a number of pamphlets on tree The young man used to call in care. They may be ordered from Artesia up to about a year ago, Washington, D. C., cost 10 cents Superintendent of Documents at each.
