NOTICE OF PENDENCY

EASTER

The Bible tells us that it happened. The cross shows us how it came to pass. The flowers symbolize the resurrection. Flowers and cross and Bible; they are more than a pretty picture. They present an answer to the greatest of life's questions, "After death, what then?"
 You can't explain mysteries, but you can believe them. For nineteen hundred years Christians have been unable to explain the resurrection of Jesus Christ, but they have believed it. For those who have not read, or reading, have not believed, the answer to life's greatest question is, "After death, nothing!" For Christians, who know that Jesus Christ proved eternal life—for them the answer is, "After death, life!"
 The Bible tells us that He died and rose again from the grave. The cross tells us that He did it for us. The flowers tell us that through Easter we, too, have the hope of everlasting life. Bible, cross, flowers! They are the Easter story. They are the message of the Church.

THE CHURCH FOR ALL... ALL FOR THE CHURCH
 The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend and support the church of his choice. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church on Sunday and read your Bible daily.

Evidence Shows Christ Actually Rose From Dead

In a frank discussion of evidence of the resurrection of Christ from the dead, Rev. C. A. Clark, pastor of the First Methodist Church, Tuesday noon at the Rotary luncheon said, "our destinies are sealed in the fact that Jesus of Nazareth, Son of Mary, Son of God, actually rose from the dead."

APRIL 6-7-8

can Senator Edgar F. Down refused to vote money for "expenses of escaped prisoners." Another Republican, Senator Otto Bishop, hastened to explain the \$778.25 item. "That's not to help escaped prisoners," he assured Down. "That's to recapture them."

Detroit police hunted for a Mr. Hair who is charged with trimming an ex-barber of his tools. Harry Hair, 22, was the object of the police search. On complaint of Orville Watson, 42, a former barber, Recorder's Judge George Murphy signed a warrant charging Hair with stealing eight razors, a pair of clippers, three pairs of shears and two combs from Watson's hotel room.

The cat at Llysses Jones' farm faces eviction to the barn because she added a new-born pig to her litter of four kittens. Jones said he brought one of the seven newly-born pigs into the house after he found it was sick. "Tabby showed sympathetic interest," Jones said, "and soon was nursing the pig. But if she keeps it she'll have to move to the barn."

An argument over who shines the Chicago courthouse cuspidors has reached the Illinois Supreme Court. A 58-page brief opposing Republican Sheriff Elmer M. Walsh's suit against the Cook County Board and the Circuit Court judges, says the common law doesn't give the sheriff "statutory powers to scrub and mop floors, polish cuspidors, clean washrooms, run elevators and the like." The big question involved is who handles the hiring and firing of 211 custodial employees.

Ten-year-old Harold Peters of Omaha listened attentively to a graphic radio program on forest fire fighting. As the program depicted the flames roaring over a mile area the youngster could smell the smoke. Then he discovered a fire and real flames. The radio had caught fire.

Solvane cleaner for use on all typewriters at The Advocate.

Plans for honoring USDA employees who have given exceptional or long service to the welfare of American agriculture were recently announced by Secretary of Agriculture Clinton P. Anderson. The first awards will be made July 15. Highest of the three types of awards is the distinguished service award for "notably outstanding contributions to agriculture and to the public service." The superior service award will be given for "service of unusual value beyond that ordinarily required. Individuals will receive appropriate citations and symbolic medals or emblems. Length-of-service awards also will be given for each 10 years of service in the department.

"Unreality" is the subject of the lesson-sermon which will be read in all Churches of Christ, Scientist, on Sunday, April 6.
The Golden Text is: "Every tree that bringeth not forth good fruit is hewn down, and cast into the fire."—(Matthew 7:19.)
Among the citations which comprise the lesson-sermon is the following from the Bible: "I have seen all the works that are done under the sun; an, behold, all is vanity and vexation of spirit."—(Ecclesiastes 1:14.)
The lesson-sermon also includes the following passage from the Christian Science text book: "Man has sought out many inventions, but he has not yet found it true that knowledge can save him from the dire effects of knowledge."
Visitors always welcome.

Lloyd's Underwriters were "intrigued" at the prospect of handing a policy of California dancer Evelyn West's silhouette. It wasn't so much that the Oakland "original hubba-hubba girl," as she signed herself, wanted to insure her bust for 12,500 pounds (\$50,000.00). Lloyd's has policies on many a Hollywood leg. But it was Miss West's application, relayed by an American broker, that was getting dogeared as it passed from hand to hand under the candles that light London's financial district during the fuel shortage. It came on pink notepaper, each

sheet printed across the top with a silhouette of Miss West reclining at ease for a telephone conversation. Details of the policy, meanwhile, are being arranged by return mail at the rate of five shillings (\$1) per 100 pounds (\$400).
It is estimated that the American public spends more than four billion dollars a year on sports.

Artesia Seniors To Be Special Guests At RAAF On 'Army Day'

Arrangements are being completed for the graduating seniors of Artesia High School to be special guests at Roswell Army Air Field Monday, which will be "Army Day," and which has been so proclaimed for Artesia by Mayor A. P. Mahone.

The mayor's proclamation: "Whereas, next Monday, April 7, is being set aside throughout the nation in recognition of one of our great armed forces, the Army, and has been designated as 'Army Day' nationally, as part of 'Army Week,' which will be observed April 6-12, and;

"Whereas, every American should pay homage to the Army, which, with the other great armed forces, so recently brought us successfully through a terrible war;

"Now, therefore, I, A. P. Mahone, mayor of Artesia, do proclaim next Monday, April 7, as 'Army Day' in our city and ask that on that day the Stars and Stripes be flown in front of the several places of businesses and recommend that as many as possible of our citizens attend the special open house and demonstrations at Roswell Army Air Field on that afternoon.

"A. P. Mahone, Mayor of Artesia."

Although the affair at RAAF will be open to the public, the seniors of Artesia High School constitute the only such group which has been given a special invitation to attend. The invitation was secured through the efforts of T. Sgt. Preston Triplett, local Army recruiting officer.

Artesia Pamphlet Should Be Ready About October 1

The RAAF will send army buses here to pick up the boys and girls of the senior class at noon Monday. They are to assemble at the school building. All seniors are to be dismissed at 11 o'clock, so they can eat and return to the school in time to leave for the air field.

The tentative program includes a fluorescence briefing display, the dropping of a bomb from a plane, and the burning of a B-17 or B-29, with the fire-fighting used to extinguish it.

Movies, which heretofore have been restricted, will be shown to the seniors and other guests.

Another phase of the entertainment will be the inspection of a B-29 Super-Fortress.

Tech Society Subject To Be 'Mud' Wednesday

A. C. Smith of Midland, Tex., sales manager for an oil well mud company, will be the principal speaker here next Wednesday evening, April 9, at a meeting of the Artesia Technical Society, when he discusses the uses of muds in drilling cable tool and rotary holes, it was announced by W. E. Scott, president of the society.

The meeting will be on the Roof Garden of the Artesia Hotel at 7:45 o'clock.

President Scott and other officers for the coming year were elected at the last meeting of the society. R. A. (Bud) Broomfield, Jr., was named vice president and Ted Maschek, secretary-treasurer.

Named on the program committee were N. R. Lamb, chairman, and Foster Morrell, Roswell, and Chuck Aston.

The entertainment committee consists of W. B. Macey, chairman, and Bennett Anderson, and Rex Holmes, all of Artesia.

On the attendance committee are W. W. Ports, chairman, and Mervyn Soyster, Roswell, and R. R. Allport, Carlsbad.

Members of the Technical Society said that in view of the interest focused in this area on deeper drilling, the talk by the Midland man, should be of considerable interest to the members of the oil industry.

Five More Join Artesia Chamber, Moore Reports

Five new members have taken out memberships in the Artesia Chamber of Commerce, bringing the total membership to 208, it has been announced by Dave Moore, secretary-manager.

The newest members are J. C. Taylor, O. R. Gable, Jr., the El Paso-Pecos Valley Truck Lines, H. G. Dossell, and John Buck.

A membership campaign is in progress at the present time and President Chuck Aston has urged every member of the organization to contact his next-door neighbor to determine whether he or she is a member and if they do not hold membership to try and sell them.

Every effort is to be made during the next few months to increase the membership to 300.

All citizens of Artesia and North Eddy County are eligible to hold membership and are invited to join the civic organization, it was stated. Although dues have been arranged and a suggested scale of dues prepared, this is not arbitrary, it was explained, and on the whole, members pay the dues which they desire to pay into the organization.

Anyone interested can secure full information from President Chuck Aston or from Manager Moore at the office of the Chamber of Commerce in the city hall.

City Planning Will Be Discussed At Chamber Lunch

"City Planning" will be the subject for discussion at the next regular luncheon of the Artesia Chamber of Commerce to be held on Friday noon, April 11, it has been announced by Dave Moore, manager.

Clarence Fischbeck, consulting engineer, will be the principal speaker for the luncheon and he will discuss many phases of city planning. This subject, of course, has been freely talked here in connection with zoning of residential areas and with efforts to improve, modernize, and provide some uniformity or common pattern in business store fronts.

The ideal situation, of course, is for plans to be ready when a city is started but in few instances is this done. Much, of course, can be done even after a city is built with the proper program and the proper planning.

It is expected that the discussion will be one of the most interesting yet presented at a Chamber of Commerce luncheon.

President Chuck Aston is urging that as many members of the Chamber of Commerce as possible plan to attend the luncheon. Not only members but interested citizens are invited to be present. The luncheons are held on the Roof Garden of the Artesia Hotel. A plea for all desiring to attend to call the Chamber of Commerce office and request a reservation be made for them has been sounded.

Attendance for the luncheons has steadily increased here and the hope was voiced that April's luncheon would have the best attendance of any yet held.

Legion Invites - (continued from page one)

A nominating committee, to select candidates for the annual election, which will be held at the May meeting. Named were R. A. (Bud) Broomfield, Jr., chairman; Frank Smith, Cal Dunn, Don Bush, and J. B. (Buster) Mulcock.

By action of the members, the regular meeting day for the monthly American Legion meetings was changed from the first Tuesday evening of each month to the first Monday.

The post's appreciation for the splendid work done by Bill Dunson, formerly manager of the North Eddy County Veterans' Advisory Committee office, was shown by the presentation to him of a plaque.

Plans For Fifth District Meet On April 26 Growing

Plans for the annual fifth district field and track meet here April 26 are advancing nicely, it was announced Wednesday noon at the Lions Club luncheon by Shirley Hager, president of the club, which is joint sponsor with the Bulldog Boosters of the meet.

In connection with the field and track meet and by way of helping to underwrite it, an amateur show will be given on the eve of the meet, Friday, April 25, at Central School.

President Hager announced W. G. Short, principal of Park School, has been named chairman for the amateur show, which will be largely for the boys and girls.

A similar contest was held last year prior to the first annual district meet here and was quite successful, both financially and as an entertainment standpoint.

The Lions president also announced the club has placed an order for a 100-watt public address system, which should be its first job at the amateur meet and will be used at the meet. It is much more powerful than the one the club had last year.

The public address system which the directors authorized a meeting Tuesday night, will be available for all athletic and other events in the community, Hager said.

The Lions Club and Bulldog Boosters are planning a banquet on the Roof Garden of the Hotel the evening of Friday, April 18, a week prior to the meet. The banquet will be open to all coaches, athletic directors, and officials from the district. The conclusion of the coaches and officials will have a discussion to determine rules for the meet and work out all angles for putting across successfully.

The banquet will be open to who care to attend, to meet various coaches, athletic directors, and officials of the fifth district. Tickets may be purchased at Hager's Cafe.

President Hager announced track and field meet trophies arrived and are on display in the King's Jewelry window.

VFW Post - (continued from page one)

heretofore for the post flag. The commander appointed D. Burch as chairman in charge of the VFW softball team for coming season.

It was announced refreshments and entertainment will be provided after the installation of the new officers at the April meeting.

creased faster than revenues. A substantial part of our expenses is labor costs—65 per cent. Postwar wage increases negotiated with the unions in the early part of 1946 have increased the company's payroll expense \$5,500,000. We have been and are now engaged in seeking increased rates in parts of our territory in order to restore net earnings largely depleted by wage increases granted a year ago. Any increase in present wage levels would have to be offset by increased telephone rates if the company is to continue to give good service, and have earnings that will attract the capital required to expand and further improve the service.

"Telephone wages are good and have been getting better right along. In the last six year the average hourly wage rate of employees of this company has increased 69 per cent.

The basic rate for beginners as switchboard operators in Artesia is \$26 for a five-day work week, the basic rate for operators with 18 months experience is \$29 a week. Regular increases bring this to a top of \$34 a week. The basic top rates for telephone craftsmen for a five-day work week range from \$61 to \$61.75 in Artesia.

Pleas Sounded - (continued from page one)

the hope that all contributions and gifts would be received this week.

Anyone, however, who has neglected to give or forgets to give or who can not mail their gifts until the first of the week, is still invited to make their contribution to this cause.

Red Cross - (continued from page one)

those who did volunteer, and with the effort put forth by the chairman, the quota was raised.

Chairman Smith devoted many hours to the drive during the past week, making many calls and contacts himself and is largely responsible for the fact that the drive was a success. The contributions, which were mailed or sent to him, also helped in reaching and over-subscribing the quota during the drive.

Anyone, it was stated, who had not been contacted and who desires to make a gift or donation to the Red Cross is invited to send in or mail their check to Chairman Smith.

Lake Will - (continued from page one)

flight composers and directors, became interested in Harp's composition because of the international good-will aspect and the fact the band will be made up of high school boys and girls. He wrote Harp, in part:

"I am busy, but I'll take time to arrange your number. I think your whole idea is a wonderful one—with international affairs all stewed up, the only bright spot on the map is the sight of all these young students (from Latin countries) in New York.

"One project, such as yours, is more valuable than dubious diplomats, etc. After all, kids are kids, in any language.

"I've had thousands of older kids in my hair for years, and some of my kids are Leonard Smith (cornet soloist with Gold-man band, first trumpet with Detroit Symphony), Robert Roffman (clarinet soloist, Goldman band), Roger Smith and Otto Menard (first trombone and first flute at Metropolitan Opera House, and dozen, like them, some holding the very top position, others secondary tops.

"Some of them, I had to buy pants for—so they could stand up before an audience, in Carnegie Hall and accept prizes, in my composition contests. And they've repaid me many times, by getting somewhere and keeping me young—at least when nobody's watching me too closely."

Company Offers to Arbitrate Wages in Threatened Telephone Strike

★ ★ ★ ★

The company has previously offered to extend the present liberal contract for 90 days. This offer has not been accepted to date by the union.

There are many issues in the present controversy besides wages, such as union shop, and changes in the pension plan to which employees make no contributions. But the main issue is wages and will have to be settled before any overall agreement can be reached.

The Company thinks its present wages are good, the average hourly rate has been increased 69 per cent over the 1941 average.

A strike and interruption of telephone service would be so detrimental to economy of the country as well as such a hazard to the public health and safety, that the company, in order to avert this, is agreeable and has offered to submit to any impartial board of arbitration the issue as to whether its present wages are just and adequate in comparison to what other workers receive in this Rocky Mountain area for work of similar skill and training.

The Company thinks that the matter of wages should be settled by a panel of impartial citizens selected from the area from which the company receives the revenues with which it pays wages and in which most of its rates and charges are regulated by public authorities.

It is particularly important at this time for the company's earnings are such that any increase in the cost of furnishing telephone service must be passed on to the public through rate increases, if the company is to improve and expand the service in keeping with community needs.

With our previous offer to extend the present liberal contract for 90 days, and this offer to submit the matter of wages to arbitration, there is no justification for a strike with its inevitable harm to everyone.

REA Cagers Are Undeclared City League Champs

(Mrs. Edith Tice) ... and Mrs. Bert Mann have announced the birth of a daughter ... Mrs. Ray Tice are the parents of a daughter, who arrived Tuesday, March 25. She has been named Karen Kay. Mrs. Tice and the baby came home from the hospital Friday ...

—Gable Photo

Here are shown the members of the Central Valley Electric Coop. basketball team, which won the city league championship for the 1946-47 season, undefeated in league play. The REA coop's softball team last summer likewise won the city championship, with only one defeat in league play. Standing, left to right: Otto Wood, manager for REA and

and children were visitors in the homes of friends and relatives in Lake Arthur and Hagerman Sunday.

A new gas line has been laid in the Morningside community. Avery Cox and Bud Hemphill of Lake Arthur were visitors here Monday.

Mr. and Mrs. J. E. Walters vis-

ited their daughter, Mrs. Roy Tice, and children Sunday afternoon. Anna Pearl Tice and Sylvia Kershaw have both been ill the last week.

Hangar Flying

Johnny Newman of Roswell was in Artesia Friday.

Wayne Wood and Dean Martin flew to Albuquerque on business Tuesday of last week.

Herman Fuchs and L. E. Naylor of the Southwestern Public Service Company flew the high-line for inspection Tuesday of last week.

M. E. Brown flew to Lovington, Seminole, and Brownfield, Tex., on business Wednesday of last week.

Ted Heidel of Socorro visited his sister, Mrs. H. Fuchs, last week. Heidel is the airport manager at Socorro.

A party was given by the National Aeronautic Association at the airport Friday night. Bingo was played and dancing to the music of a jukebox was enjoyed. A good time and successful party was reported by all.

The ground school day has been changed from Thursday nights to Wednesday nights for the convenience of the new ground school teacher, R. M. Parham. Meteorology is the subject which is being taught at present.

Miss Helen Jewett of Roswell spent the week end at the airport. Miss Jewett was a former employee and is well known in Artesia.

Along with ground school Wednesday night, a night flying class was planned.

A Mr. Rice of Kansas City flew a new Culver in. He visited Bert Bidwell.

Cottonwood Items
(Ora Buck)

The Cottonwood Recreational Club will sponsor a dance on Friday night. It will be held in the

Cottonwood School gym. Mr. and Mrs. Smith and family, who live on the John Buck farm, were visitors in Carlsbad over the week end. A few farmers in the commu-

ity have started planting cotton. The Cottonwood School will be dismissed Thursday and Friday for the state teachers' meeting in Albuquerque.

R. H. Trivitt, principal of the Cottonwood School, has been taking the school census for the 1947-48 term. Mrs. Georgie McNeal of Cottonwood went to Carlsbad the first of the week and is having her ears treated.

Miss Cleo Johnson, daughter of Mr. and Mrs. I. P. Johnson, went to Clovis as a delegate to a home economics convention, which was held there recently.

Glenn O'Bannon was a visitor in Roswell Wednesday of last week. Miss Wynona-Sweepston, county demonstration agent, will give a demonstration on leather tooling

when the Cottonwood Woman's Club meets this afternoon with Mrs. Orval Gray.

Red Cross Sewing was the project undertaken when the Cottonwood Ladies Aid Society met Thursday of last week for an all-day gathering. Nine dresses were completed. The ladies held their meeting in the basement of the First Methodist Church. At noon a luncheon of sandwiches, cookies, and coffee was served. Mrs. Jesse I. Funk, president, presided at a short business session. Mrs. E. P. Malone was presented a gift from the club for her new home. Mrs. I. P. Johnson made the presentation. The April meeting will be held at the home of Mrs. B. E. Green. Those present for the meeting last week were Mmes. Jesse I. Funk, E. P. Malone, Tom Terry, Ralph Pearson, Clarence Pearson, Chester Rogers, James Thigpen, Orval Gray, Roy Ingram, Cori Manda, I. P. Johnson, Glenn O'Bannon, Ed Shrock, Harold Green, Charlie Buck and E. D. Cox, and Miss Mary Frances O'Bannon.

Expert Assemblyman

Blinded by a TNT blast on New Britain, but now back at his pre-war job with a Detroit electrical products company, Theodore Wilden expertly handles a power screwdriver in assembling a switch-box. Wilden's foreman lists him as one of his fastest, most accurate workers.

Catholics Have Special Services For Holy Week

Catholics of the Artesia community are observing Holy Thursday today and will observe Good Friday and Holy Saturday with special services.

Holy Thursday and Good Friday services were scheduled for 8 o'clock in the morning and 7:30 o'clock in the evening, while the special Holy Saturday services will be at 7 o'clock in the morning.

Mass will be celebrated at St. Anthony Catholic Church at 7:30 and 9 o'clock Easter morning, and at the Spanish-American church at 9 o'clock.

At St. Anthony Church the holy hour this evening will be in honor of the Blessed Sacrament. Mass of the Pre-Sanctified will be celebrated Good Friday morning, while the Way of the Cross will be observed at 3 o'clock Friday afternoon. The evening services will be Way of the Cross and sermon.

Holy Saturday morning Blessing of the Baptismal and Easter Water, the Paschal Candle, and the New Fire will be observed. The public is invited to attend all or any of these services.

Alaska, including the Aleutian Islands, was purchased by the United States from Russia in 1867 for \$7,200,000.

KNOW YOUR BREED
Texas Longhorns
By W. J. DRYDEN

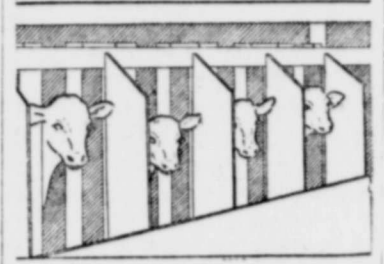

This ancient breed of cattle, which used to roam in the southwest in vast herds, is being successfully rescued from threatened extinction by the U. S. Fish and Wildlife Service.

Texas Longhorns first were introduced to this continent in 1521 by

Gregorio Villalobos, a governor-general of "New Spain." With the introduction of heavier, better cattle, the Longhorns began to disappear.

Shelter for Calves

Shelters for calves and heifers should be dry and well-bedded. The Washington State college individual pens about 24 to 30 square feet in area may be used for small calves. They help prevent the calves from sucking each other, make it easier to feed the calves individually and help to prevent spread of disease.

Penicillin Fails at Pear Blight Control

While penicillin has proven the wonder drug of the century, it has proven utterly unsuited to control pear and walnut blights, according to work done by Dr. B. A. Rudolph, University of California deciduous fruit station at San Jose. Large concentrations failed completely to check the disease when injected into the trees. It is believed that excessive dilution of the drug by the sap stream is responsible.

LLOYD BOLIN IS NAMED CARLSBAD POLICE CHIEF

Lloyd Bolin, a former member of the Artesia Police Department, has been appointed chief of police in Carlsbad by Mayor L. C. Garrett and approved by the council there. He succeeds C. C. McCasland, who resigned.

Chief Bolin left the Artesia department about two years ago, since when he has been a police officer in Carlsbad. He is not related to Artesia Police Officer Joe Bolin, but the two are good friends and each at times has expressed admiration of the other's ability as an officer.

Detachable collars for men's shirts were first manufactured in Troy, New York, about 1865. Complete sets of all sizes loose leaf paper for loose binders at Advocate.

Parking Meters—

(continued from page one)

Paul L. Brown, pastor of the Presbyterian Church, again acted as moderator for the program. Reverend Brown presented the topic for discussion and the members participated freely in the subject of traffic violations, including speeding, double parking and "U" turns at corners, where these are now prohibited by city ordinances. Wikowsky opened the discussion, pointing out the fast driving on both North and South First Street, which is State Highway No. 285. He expressed the belief that

signs erected designating the speed limit and warning drivers that patrolmen are on duty would reduce this speeding.

Kiddy announced that the speed limit signs had been erected and that he felt officers would be able to devote some time to this high-way in the future.

The question of speeding in residential areas was stressed by Cox and he urged that it be halted. Councilman Brainard pointed out that lack of an adequate police force and more particularly a motorcycle officer prevented proper patrolling of these streets. He

stressed the fact that Artesia has grown rapidly and present funds do not permit employing as many policemen as the city actually needs and urged those present and the listening audience to consider ways and means of increasing the revenues of the city, not only to provide additional police protection, but other things, which the city needs.

In answer to the question as to why the "U" turn signs had not been erected, he stated this took time. He explained that these signs are being ordered but that probably temporary signs could be erected in the meanwhile.

Artie McAnally discussed this problem as well as the need for protection for motorists at the Main Street Santa Fe crossing. The fact was stressed that the Santa Fe has been requested to install signal bells at this crossing and they have given assurance this would be done when they are available. The need for not parking of box cars so as to obstruct the vision also was stressed.

It was brought out during the discussions that this request has been made to Santa Fe officials at various times and that assurance was given this protection would be given.

The matter of stop lights or signal lights on Main Street also

was discussed with opinion divided but the idea was voiced that if it would speed up traffic and avoid or eliminate congestion, they should be installed, but if they slow down traffic they should not be installed.

The forum was summarized by Reverend Brown in a few brief remarks and he invited the public to voice their opinions on this and other matters concerning Artesia.

The forums are sponsored by the Artesia Chamber of Commerce and time on the air is given by the local radio station.

Hawaii became a territory of the United States by the adoption of its organic act by the United States Congress in 1890.

New Jersey was one of the original 13 states of the Union. It boasts many important manufacturing cities and has a larger summer resort population than any other state in the country, both shore and mountain.

The city of Chicago is the home of 10 major and a number of minor universities.

The tourist catering industry in the United States is estimated to have an annual cash income value of five million dollars annually.

NOTICE

The Eddy County Board of Education will receive bids up to 9

o'clock a. m. April 9, 1947, for the wrecking of Dayton School building, the materials to be preserved in the best manner, all brick to be cleaned for re-use, and all lumber to be assorted according to dimensions, nails to be

pulled, etc. See the county superintendent for terms of contract.

The MEAT DOLLAR

Here's what becomes of the average dollar received by the world's largest food manufacturers—the American meat packing industry. It represents dollars received from the sale of meat and from all other sources, including sales of by-products and non-meat items, such as poultry, dairy products, cleansers and soaps.

Based on latest available U.S. government figures, the portions of the divided dollar are typical of the industry in recent years; slight variations occurring from year to year. For example, profits sometimes are slightly less, sometimes slightly more. Profits on sales are below those of 29 other leading manufacturing industries and always are so small as not to affect the price of meat to the consumer, averaging only a fraction of a cent per pound. Industry economists say better earnings would permit more scientific research, as well as quicker modernization of equipment and manufacturing facilities; thus providing opportunity for the industry to improve further its efficiency and economical operation.

People with immense leisure never find time to do anything.

Farm Briefs

By Dallas Rierson

Eddy County Extension Agent

Maybe you have often wondered why ham and eggs make such a satisfying food combination. Well, scientists of the Bureau of Animal Husbandry now tell us that the proteins of these foods supplement each other so well that the two supply more nourishment when eaten together than when eaten separately. Previous experiments had shown that the

protein in pork enhanced the nutritive value of bread eaten with value of the protein in pork. It's of eggs enhances the nutritive value to have a scientific reason for eating such appetizing stuff.

Farmers and ranchmen have found it necessary to use more operating capital this last year because of higher farm wages, higher prices for replacement livestock and feeder stock, as well as higher prices for machinery repairs and all other production costs. The majority of operators are keeping their debt low and borrowing money for as short periods as possible, according to the Farm Credit Administration of the ninth district.

Livestock on U.S. farms declined in numbers last year for the third successive time since the all-time peak of 1944. In terms of animal units, which allow for differences in size and feed requirements, livestock (excluding poultry) were 3.7 per cent lower than a year prior.

An estimated 75 million acres of

denuded and poorly-stocked forest land will have to be planted to trees if it is to grow timber even within the lifetime of present-day children, the Forest Service of the U.S. Department of Agriculture reports. The total forest acreage planted in this country since 1926 totals almost six and a half million acres. The 75 million acres in need of planting is about a sixth of the nation's commercial timber land.

"Pilot" programs were initiated early this winter to try out the use of non-fat dry milk in school lunch programs where supplies of fresh fluid milk are not available. The program was first started in each of eight states, including New Mexico. These programs have been quite successful and have shown that the serving of a reconstituted beverage is entirely practical in these schools.

The "Cinderella story" of cottonseed has been told repeatedly. Cottonseed was first regarded as a bothersome waste which piled up at the cotton gins and had to be disposed of at the ginners' expense. At first it was used as a fertilizer, but as the value of the oil became known, oil mills developed, usually as small-scale plants operating for only a few months with rather crude equipment and unskilled labor.

Increased use of the oil for shortening in food, for soapmaking, and for other industrial purposes made cottonseed an important by-product of the cotton industry, with the seed providing an increasing proportion of the total crop income.

Cellulose chemistry, which provided a market for the linters on the seed, led to better equipped plants so that there are only half as many oil mills as there once were, with each oil mill handling about twice as much seed. Development of solvent extraction would probably lead to a further decrease in the number of mills and corresponding increases in the average capacity of each.

The Bureau of Agricultural Economics of the U.S. Department of Agriculture reports that domestic food supplies for 1947 will be about as large per person as in 1946 and that retail food prices are expected to adjust gradually downward from last November's peaks. Average retail prices for the year, however, are likely to be above the average for 1946, unless consumer purchasing power declines more sharply or quickly than anticipated.

Homemaking Is Feature of 4-H Girls' Program

Valuable incentives to rural girls who aspire to become successful homemakers are offered in the 1947 national 4-H Club girls' record program. In this activity, conducted under the direction of the Extension Service, participants learn all phases of homemaking through 4-H Club projects which serve to develop house-

keeping skills and home management ability. To buy wisely and use farm and home resources intelligently are featured in their training.

A typical 4-H girl's record in homemaking shows that during eight years in club work she prepared and served 5681 dishes for family meals, sewed, made over, or mended 107 garments, and canned 3292 jars of food. She also made 80 home improvement articles, raised 12½ acres of garden, prepared 2771 packages of food for freezing, gave 59 demonstrations, and served her club as junior leader. In addition, her home grounds beautification achievements won state honors.

As incentives for "all-around" achievements in homemaking, merit awards are offered for the 25th consecutive year. The awards include medals of honor to county winners, an educational trip to the 4-H Club Congress in Chicago to the state winner, and \$200 scholarships to six national winners.

Last year's state winner in New Mexico was Ruby Lois Franklin of Melrose. County winners were named in Bernalillo, Quay, San Juan, San Miguel, and Socorro Counties.

Land Leveling Is Being Done In Central Valley

Five contractors have been leveling land in the Central Valley district. Some land is being leveled in narrow benches 56 feet wide, some in benches 100 feet wide, and some in blocks 200 feet wide. Soil Conservation Service technicians are assisting the farmers with this work.

Width of benches is determined by: Size of irrigation head, depth and condition of soil, slope of land, size of machinery in use on farm, and money to be expended by farmer.

Benches are usually laid out in widths so the head of water may be divided to fit the bench, or if a much larger block is wanted, division of bench is made to fit the head of water. For example, if an irrigation head will normally cover a strip 90 feet wide and it is desirable to make a block wider than this, a width twice, three times, or possibly four times 90 feet would be selected.

Depth of soil has not affected more than 25 per cent of the jobs completed to date. If soil has a depth of less than 24 inches, it would not be advisable to level in benches, the SCS said. Slope of land affects the width of bench in that a deeper cut is necessary on a greater grade. The deeper the cut the more rich soil is moved from one portion of the bench and deposited in another. Quite often yields are lowered for a year or two on those areas where excessive cuts are made.

Benches should be made wide enough to accommodate the turning of the largest equipment in use on the farm, it was advised by the SCS.

Cost of leveling is affected by a number of factors. Therefore, it is necessary to survey any field to be leveled before it is possible to make a close estimate. This survey is also necessary in order to determine where cuts and fills are to be made. The cost will be higher for leveling into large blocks on any field, but many of the farmers believe the additional cost is justified because of the ease of irrigation, plowing, cultivating, harvesting and because fewer drop structures are needed. Installation of drop structures where irrigation ditches cross these benches is necessary to make irrigation successful. Leveling in benches should not be attempted unless irrigation structures are to be installed.

Those who have recently completed or are continuing land leveling with Soil Conservation Serv-

Provide Now for Vegetable Storage Temperature Control Important Factor

Plans must be made ahead to insure proper storage facilities for vegetables. Regardless of type of storage used, temperature and moisture control are essential.

Experiments at Ohio experiment station indicate that one effective method of reducing moisture loss from vegetables is to cover them or place them in closed, but not sealed, containers. This procedure confines the moisture evaporation and tends to maintain a near-saturated atmosphere about the vegeta-

Vegetable roots stored in warm (50° F.) moisture-saturated atmosphere.

This method is especially applicable to dry-atmosphere storage rooms, not necessary when relative humidity is maintained at 90 per cent or above.

Underground storage is ideal for storage of most root crops. Temperature of the storage should be maintained as low as the cost of cooling will allow.

If present storage facilities have not proven entirely satisfactory in the past, now is the time to make plans to improve moisture control or regulate temperature.

Abundant Supply Of Eggs Greater Than Demand

Roy Forehand, chairman of the Eddy County Agricultural Conservation Committee, advises that eggs are now in abundant supply at bargain prices.

He said at the present time egg production is running somewhat above that of last year, yet military, foreign, and trade demands for storage purposes are smaller than at this time last year. Even though consumers are now eating large quantities of eggs, produc-

tion is considerably greater than consumer demand. Forehand pointed out that the problem in Eddy County can be solved in a constructive manner if consumers make liberal use of eggs while they are abundant. "Serve eggs every day in many a way is a good rule to follow any time of the year and it is an especially appropriate rule to remember just now," Forehand advised.

He emphasized the fact that eggs are a basic food and are unique because of the many ways in which they can be prepared "as eggs" and in combination with other foods. They may be served at breakfast, at lunch, and as the main dish at dinner; they also find their way into hot breads, sauces, and salad dressings, and in cakes, cookies, custards, and many other desserts.

Milk Production Records Broken During Last Year

The average production of the 400,000 cows in Dairy Herd Improvement Associations in the U. S. last year was the biggest in history, E. E. Anderson, dairy specialist of the New Mexico Extension Service, said, analyzing latest records of the U.S. Bureau of Dairy Industry.

DHIA cows averaged 8592 pounds of milk and 346 pounds of butterfat in 1946, Anderson said. The dairy specialist reported that improved practices adopted by members of herd improvement associations are gradually putting more cows in the higher producing classes.

"Twenty years ago," he said, "nearly half the association cows produced less than 275 pounds of butterfat a year. Now three-fourths of the association cows produce more than that. Furthermore, at the present time about 100,000 cows in associations annually produce more than 425 pounds of butterfat per cow."

The dairy specialist also said that the better-producing cows pay better, too. According to Bureau of Dairy Industry reports, the cows that produced only 200 pounds of butterfat during the year yielded a return of only \$78 above feed cost, he said, while cows that yielded 400 pounds of butterfat yielded a return of \$208 above feed cost.

Awards Added In 4-H Leadership For This Year

Complying with the request of state 4-H Club leaders made through the extension subcommittee on 4-H Club work, awards on county, state, and sectional levels have been added to the previous national recognition in the 4-H leadership program for 1947.

The object of this program is to encourage, through 4-H Club work, the development of leadership qualities essential to a progressive and wholesome rural life. The new awards, which are for

one boy and one girl winner each in their county, state, and extension section, comprise gold medals of honor, gold watches, and trips to the 1947 National 4-H Club Congress, Chicago, respectively. National awards, which remain the same as in previous years, are \$200 college scholarships to the first-place boy and girl and \$100 scholarships to the second-place

boy and girl. In addition, the first place boy and girl will each be presented a silver trophy, to be held for one year.

The use of alfalfa fertilized with phosphate as a soil-building practice, according to New Mexico Experiment Station agronomists.

Artesia's Ministers Speak
 (Robert A. Waller)
 (Messages in this department for the month of April will be brought by Robert A. Waller, evangelist of the Church of Christ. All ministers of the city have been invited to contribute to this column, which is turned over to one each month. Rev. Kenneth H. Tuttle, pastor of the First Christian Church, wrote the messages for March.)

THE RESURRECTION
 At this season people in general are thinking of the resurrection of Christ, more than at any other time of the year. For that reason I wish, in this article, to present a few thoughts along that line.

The resurrection of Christ is a fact, an undeniable fact. It is supported by testimony that is indisputable. In the 15th chapter of First Corinthians, Paul enumerates it as one of the facts of the Gospel of Christ. Facts are to be believed, but are worthy of belief only when there is sufficient testimony to support them.

For that reason Paul, when reminding the Corinthians of this fact, reminded them Christ appeared to over 500 persons after his death, the major portion of whom were alive at that time. Some tell us that Christ did not rise from the dead, that the Bible record is false.

The question for us to decide is this: Shall we believe those who know nothing about what happened 2000 years ago, or shall we believe a record, the testimony of eye witnesses, that has stood for almost 2000 years?

Why is this fact of great importance? It is important because it means the difference between whether Christ is divine, the Son of God, or whether he was simply a human being, nothing more. In introducing his letter to the Romans, Paul speaks of "Jesus Christ as being of the seed of David according to the flesh," but "who was declared to be the Son of God — by the resurrection of the dead."

During his life Jesus manifested his divinity in many ways. His teaching marked him as being superior to any human being. Those who heard him were astonished and observed the difference between him and any of the other teachers of his day. His miracles

definitely identified him with those who observed and knew. Nicodemus was a ruler of the Jews. He came to Jesus and said, "We know that Thou art a teacher come from God, for no man can do the things that Thou doest except God be with him." Some today deny that Jesus performed miracles, but those who saw him and were in a position to know affirm the fact that he did.

Jesus showed his power over death when he raised the dead, as when he called Lazarus from the tomb after he had been dead four days, but the climaxing proof was given when he planted the rose of immortality on his own open tomb. Christ arose!

The Lord's Supper, which is to be partaken of on the resurrection day of Christ, is an affirmation of our faith in this fact. Jesus said, "For as oft as ye eat this bread, and drink the cup, ye proclaim the Lord's death till He come." We proclaim the fact that He died, but lives, and will come again. It is a glorious fact because it is a guarantee of our resurrection also.

INTERNATIONAL HARVESTER says:
"Any price is too high if it can be reduced."

We second the motion We'll do our part!
International Harvester has reduced prices to save users of its products \$20,000,000 a year. The reductions apply to a selected list of various products made by the Company. In making its announcement to the general public last week, International Harvester said: "We believe there is nothing more important to this country than to lower the prices of goods people buy. "The American people have insisted that the government withdraw from its attempts to control prices in peacetime. That places the responsibility where it belongs—in the hands of business and industry. "Because we believe price reduction is vital, we are willing to assume the risks involved." As International Dealers we will do our part. We will pass International Harvester's price reductions to our customers. And now a word of gratitude to our friends who have patiently waited for the new machines they need. As most of our customers are aware, International Harvester has done everything possible—and some things that seemed impossible—to maintain and increase production. The outlook is somewhat better. Soon we hope to supply equipment to all of those who have cooperated so faithfully with us. Meanwhile, the same top-quality International Service and Parts that have kept equipment operating for our customers during the difficult years are available from us. We urge our friends to continue to use these facilities to obtain maximum operating economy. International Harvester is doing its part with quality, increased production and reduced prices. We will do our part in this territory

ON ARMY DAY, APRIL 7TH, ASK YOURSELF:

"WHAT AM I DOING FOR PERMANENT PEACE?"

What will you do for your country? You can take a full-time job at good pay in the Regular Army. Or, you can join other young men in your community in your local National Guard unit. If you are in college, you can get your training and Reserve Officer commission in the R.O.T.C. Or, if you have served in the Army, you can resume your military training and have your former grade or rank in the Organized Reserve Corps.

If you believe in America, you'll believe in your new Regular Army

and its civilian components. You'll feel a certain tingle of pride—to know that others depend so much upon you, and envy you the inspiring fellowship you enjoy.

In the Regular Army you can have excellent training in valuable skills or trades. All your necessary expenses are cared for. You get travel, adventure. And after 20 years you can retire at half pay for the rest of your life and on up to three-quarters pay after 30 years of service! Get full details about all the advantages of Regular Army enlistment at your U. S. Army Recruiting Station.

Two Reasons Why University Pool Is Popular

Here are two reasons why in spring a young man's fancy at the University of New Mexico turns to the university swimming pool.

Celebrating the arrival of the vernal equinox and the opening of the pool are, left to right, Marjorie and Norma Tormoehlen, twin daughters of Mr. and Mrs. Charles Tormoehlen of Chicago. The 20-year-old university juniors are majoring in drama.

County Agent Warns Farmers, Never Trust Bull

The "gentle" bull is too often the one which acts at unexpected moments, gores someone to death, or inflicts serious injury. County Agent Dallas Rierson warned farmers.

"One of the principal safety rules for dealing with dairy bulls is to handle them as little as possible," Rierson said. "With a well-constructed bull pen, any bull can be handled safely. The gates and doors, as well as facilities for feeding, watering and breeding, can be arranged so that there is no need for the caretaker to expose himself to attack. The complete layout consists of an oblong exercise pen connected to a shelter and breeding chute.

"As an additional safety feature, the bottom fence rail should clear the ground by at least 12 inches so that a man can escape if he should get trapped in the pen. Upright safety escape openings are sometimes provided at the chute and at the corners."

The county agent suggested that farmers ring their dairy bulls at an early age and replace worn or weakened rings on older bulls. When ringing and dehorning, he advise, always have the animal securely fastened.

"When it is necessary to lead a bull," Rierson said, always use a staff so you can keep him at a safe distance. And never let a dairy bull run with the herd. Besides being hazardous for people, it is injurious to the bull."

According to statistics for 1939, barley has a wider range of distribution than any other cereal. In 1939 the United States produced 276 million bushels on 12,000 acres.

Bayonne, N. J., was settled by the Dutch about 1655. It is a world center for the refinement of petroleum products.

Two Vets Open Summer Theater

Two Washington, D. C., radio announcers, both World War II veterans, have used a Veterans Administration-approved loan to reopen a summer theater at nearby Clincy, Md. The rural theater had been closed since the early days of gasoline rationing. Glenn Taylor (taking up the current attraction, right) and Redge Allen split a 14-hour working day between announcing duties and theater work. Expenses gobbled up most of the first year's take, but both are optimistic about the future. "We didn't expect to make a killing this season," Allen said, "but wait until next summer." Taylor (left) and Allen convey their leading lady, Miss Rosemary Murphy, in for morning rehearsal in the center photo. In the lower picture, Miss Mimi Norton takes her cue from Director Tony Randall, former member of the Army Signal Corps, as Jack Salamanace, veteran and member of the permanent company, looks on.—Veterans Administration Photos.

Social Security Lump-Sum Pay Based On Record

The 1946 amendments to the social security Act extend the time during which lump-sum applications may be filed upon the record of a worker who died outside the United States. This announcement was made by Perry A. Webb, manager of the Roswell office of the Social Security Administration.

The Social Security Act provides that lump-sum payments cannot be made unless the application is filed within two years of the date of the worker's death. Under the amendment, however, the two-year period did not begin until last Aug. 10, in the case of a person who died outside the United States.

This amendment will affect survivors of servicemen who died overseas and survivors of various civilian workers who died outside the United States during the war. It is effective if death came after Dec. 6, 1941, and before Aug. 10, 1946. In these cases if application is filed by Aug. 10, 1946, the lump-sum payment may be made.

Letter and legal size manila file folders at Advocate.

Anchored Soil Will Defeat Dust Storms

Farmers in the Great Plains states are heeding a warning that another cycle of dry years may bring back the disastrous dust storms of the early 'thirties," Paul T. Scott, South Dakota State college, writes in Capper's Farmer.

The farmers propose to beat nature to the draw by anchoring at least a portion of the susceptible acreage with hardy grasses.

Most important discoveries made in the fight against erosion were the

Anchor the soil to prevent erosion.

adaptation of certain tame grasses and new methods of seed harvest for the Plains natives. Bromo grass now has spread over the eastern portion of the Plains states and into the Corn Belt. Crested wheatgrass is proving a near-miracle as a land cover and pasture in the northern part. Mechanical processes have been developed for harvesting and seeding buffalo grass, the grammas and wheat grasses.

Home, Farm Lead in National Accidents

With the accident rate skyrocketing and the home and farm leading over air, rail and highway as the scene of most accidents, it is time we settled down to some constructive thinking and acting along safety lines. Most of these accidents would not have happened if someone had been a little more careful, watchful or alert, or if the farmer would inspect his equipment before using it.

New shipment of statement forms available at Advocate now.

Letter and legal size manila file folders at Advocate.

The first systematic attempt to educate the American Indian was made by John Eliot in 1646. Eliot learned the language of the tribes, translated the Bible into this language and had copies of it printed on the first printing press set up in the United States.

Sound planning for the next 10 years is the most important thing a farmer can do right now, says G. L. Boykin, extension county agent leader with New Mexico A. & M. College.

A piece of adhesive tape on the end of a curtain rod will make it

easier to run the rod through the hem and thus save tearing the curtain, advises Veda Strong, home management specialist of the New Mexico Extension Service.

"A place for everything and everything in its place" is a prime safety rule for farm and home.

PROTECT YOUR VALUABLES

From Fire and Theft

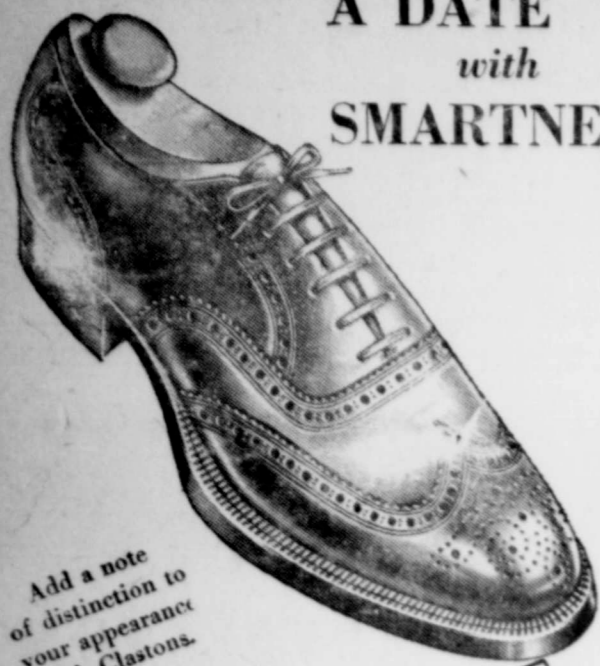

By Installing a DeLuxe Floor Safe

These DeLuxe Floor Safes are built to be installed in cement in the floor of your home at any desired spot or in business houses. They provide ample storage space for valuables and come with either locks or combinations. They can be completely hidden or covered. They are ideal to use in the small business and safeguard the cash or the change, which often times must be left at the place of business at night or over the weekend. They give full protection from burglary or from fire.

Loco Hills Items

(Mrs. Earl Smith)

Mrs. Norman Krouskop of the Grayburg Camp entertained with a pink and blue shower, honoring Mrs. Claude Nevins Tuesday of last week.

Jewel Heard left Monday of last week to attend the Southwest Livestock Show and Rodeo in El Paso.

Mr. and Mrs. Earl Merchant's baby has been seriously ill and has been placed in Artesia Memorial Hospital.

Mrs. H. Crosby has returned from a visit with her daughter, Aileen, who lives on a ranch near Las Vegas.

George Albert Chase left Monday of last week to take a position in the mountains west of Artesia.

Mrs. George Wallace and children were in Roswell Tuesday of last week. They went to arrange for an artificial eye for G. W. Wallace, Jr., who lost an eye in an accident recently.

Neal Jackson and family, who live near Dallas, Tex., are visitors in the home of Mr. Jackson's parents, Mr. and Mrs. Jack Johnson.

Mr. and Mrs. Leroy Cranford and family went to Portales Sunday, March 16.

Mrs. Cranford's parents, Mr. and Mrs. H. G. Rowley, returned with them and will visit here for a while.

Mrs. L. D. McKinney and daughters of Hobbs are guests in the home of Mr. and Mrs. Fred La Fontaine of the Carper Camp.

Mrs. Jack House and Mrs. Glen Backer of Hobbs were guests of Mr. and Mrs. James Clemons last Thursday. The ladies are connected with the Sinclair Oil Company.

Mr. and Mrs. G. W. Wallace and family had as guests Sunday of last week Mrs. Wallace's parents and brother, Mr. and Mrs. Walter Thornton and Richard, who live in Roswell.

Miss Doris Cleven, a student at Texas Tech in Lubbock, arrived Friday to spend the week end with her parents, Mr. and Mrs. James Cleven.

Miss Billie Jean Barton arrived Wednesday of last week for a short visit with her parents, Mr. and Mrs. N. G. Barton. She left Saturday for Big Spring, Tex.

Mrs. Barton took her there and visited another daughter and family, who also live in Big Spring.

A revival, to be held at the First Baptist Church, will start Easter Sunday. Rev. J. Roy Haynes will have charge of the services.

George Owens of Quitaque, Tex., will be the evangelistic singer. The church extends a welcome to everyone. Services will be held at 10 o'clock each morning and 7 o'clock each evening.

Mrs. Gary Moore has returned from Gene Autry, Okla., where she was called because of the illness of her father, John Smith.

Mrs. Lou Ervin of Fort Stockton, Tex., has been visiting in the home of her sister, Mrs. C. H. Mahres.

She returned to Fort Stockton Sunday.

Mr. and Mrs. George Teel were visitors in Roswell Monday.

Mr. and Mrs. Claude Matthews entertained Sunday with a birthday dinner honoring Mrs. J. W. Kennedy, Mrs. Raymond Kennedy, and Miss Lola Matthews, who have all had birthdays recently.

Raymond Kennedy is a brother and Mrs. J. W. Kennedy the mother, of Mrs. Matthews.

Mr. and Mrs. E. L. Miller and family of Sundown, Tex., were guests in the home of their son, Carl Miller, and family Saturday night and Sunday.

They brought with them Carolyn Kay, a daughter of Mr. and Mrs. Carl Miller, who had been visiting them. While here they also visited Mr. and Mrs. Earl Smith and Mr. and Mrs. J. H. Hyders.

Mr. Smith and Mrs. J. Hyders are brother and sister of Mrs. Miller. Mr. and Mrs. Harold Miller of Maljamar visited Mr. and Mrs. Carl Miller Sunday.

Harold and Carl Miller are brothers.

Mrs. N. G. Barton was hostess to the Community Helpers' Club when that group met Thursday, March 20.

A quilt, to be sent to an orphan's home at Portales, was pieced. The hostess served delicious refreshments to Mrs. Wendel Johnson, Mrs. Carl Miller, Mrs. Charles Phelps, Mrs. W. E. Proffit and children, Charlotte Ann and Glenda Fay; Mrs. Le Roy Cranford, Mrs. E. R. McKinstry, Mrs. G. W. Wallace and children, Judy and G. W. Mrs. James Cleven, Mrs. J. W. Walker, Mrs. B. W. Williams, Mrs. V. E. Roberts, Mrs. G. E. Moore, Mrs. Earl Smith, Mrs. J. Roy Haynes, Miss Billie Jean Barton, and Carol and Patricia Doughty.

The next meeting of the club will be Thursday, April 24, in the home of Mrs. J. L. Briscoe in the Woolley Camp.

Mr. and Mrs. Garlan Wells and family left Monday for Wilson, Okla., where they were called because of the death of Mrs. Wells' grandmother, who was bedfast seven years.

Mrs. Dick Holland of Ada, Okla., is visiting in the home of Mrs. Jack Choate.

Mrs. LeRoy Cranford, Christine Lloyd, Mrs. Ross, and Mrs. O'Neil were visitors in Hobbs Monday.

Mr. and Mrs. John Leo of Maljamar left last Thursday for Abilene, Tex., for a visit with Mrs. Leo's mother.

Mr. and Mrs. Doc Burns and family have moved from Maljamar to Clovis.

Mr. and Mrs. Crawford Perry and son, Billy Jack Taylor, of Shidler, Okla., arrived Monday and plan to make their home in the community.

Mr. and Mrs. Lloyd Newman moved Monday to a farm, which they have purchased near Artesia.

Mrs. George Weir's daughter, Mrs. J. L. Briscoe, Mrs. Charles Phelps, and Mrs. Ott Vowel have all been confined to their homes this week because of illness.

Mrs. Vowel has pneumonia.

Mrs. Luke Taylor left last week for Temple, Tex., to undergo surgery. About 20 friends gathered at the Maljamar Cafe last Thursday to give her a farewell shower.

She received many lovely gifts, including a complete cosmetic set. Refreshments of coffee and doughnuts were served.

Grigsby Comes To Artesia As Dowell Engineer

GORDON R. GRIGSBY

Dowell Incorporated, which acidizes oil wells and performs other oil well services, has announced the appointment of Gordon R. Grigsby as sales engineer at Artesia.

The announcement came from N. D. Webb, Texas-New Mexico district manager.

The addition of the new post augments the Dowell facilities at Hobbs.

Grigsby has been with Dowell since May, 1944, during which time he has specialized in the use of plastics and their various oil well applications.

Prior to this time he was employed in the Gulf Coast oil fields, where his experience included both drilling and production.

NOTICE OF PENDENCY OF SUIT

THE STATE OF NEW MEXICO TO: Dewey Harrell, defendant, impleaded with the following named defendants against whom substituted service is hereby sought to be obtained, to-wit: Dewey Harrell, Freda Estelle Harrell; the following named defendants by name if living, if deceased their unknown heirs, to-wit: Eugene Ackerman, Martha A. Dean (sometimes known as Mat-tie A. Dean); the unknown heirs of the following named deceased persons, to-wit: William W. Riddell, John Dean and G. B. Taylor; and Unknown Claimants of Interest in the Premises Adverse to the Plaintiffs. GREETING:

You, and each of you, are hereby notified that an action has been commenced and is now pending in the District Court of Eddy County, New Mexico wherein JOHNIE BURKE, M. F. WILLIS and S. C. SCARBROUGH are plaintiffs and you, and each of you, are defendants, said cause being number 9897 on the Civil Docket of said Court.

That the general object of the action is to quiet title in each of the plaintiffs to three tracts of land, and each owned in severalty by one of the plaintiffs and which plaintiffs acquired under a common source of title, said lands being in Eddy County, New Mexico and lying west of the railroad in Section 21, Township 17 South, Range 26 East, N.M.P.M., and as being the property described in the Complaint in said cause and as more fully described in the Complaint; and to bar and forever estop you, and each of you, from having or claiming and lien upon, or right or title to said lands adverse to the several estates of the plaintiffs therein, and to for-
