IT'S A SMALL WORLD

Ever run into a friend in Tokyo, or meet one of your neighbors in Amsterdam? Maybe not—but such things are happening every day!

It makes you stop and think—the way this world is shrinking. It makes you wish that the men and women who live on opposite sides of the globe had more things in common.

There can be no more unifying force in the world than a common belief in God. And toward that ideal we are rapidly progressing. Christians the world over are feeling and expressing their unity of faith and purpose.

Next Sunday is World-Wide Communion Sunday. On that day, within the space of a few short hours, Christians in every land will reverently participate in the Lord's Supper which has been a mark of Christian faith for almost two thousand years.

Worship with the World in the Church of your choice!

THE CHURCH FOR ALL... ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend and support the church of his choice. They are: (1) For his own sake, (2) For his children's sake, (3) For the sake of his community and nation, (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church on Sunday and read your Bible daily.

Artesia Unit Of Legion Auxiliary Is Host At District Meeting Here

The Artesia unit of the American Legion Auxiliary played host to a number of representatives of other chapters at a fifth district meeting held here Saturday. The session opened at 10 o'clock Saturday morning in the Veterans Memorial Building. Mrs. H. R. Paton, district president, opened the meeting and routine activities followed.

During the morning Mrs. Jeanette Michelet, past national chaplain, was introduced to the delegates. Greetings from Artesia and several other chapters were extended by representatives of the chapters. A nominating committee was appointed by Mrs. Paton. Mrs. W. O. Dunlap, Jr., was named chairman with Mrs. Hugh Hall and Mrs. Andy Compary assisting her.

Mrs. Compary, who is department child welfare chairman, gave a report for her department. Frank Smith, child welfare chairman of the American Legion post, talked to the women briefly on child welfare.

One of the day's highlights was an address by Mrs. Gordon Smith of Bath, England. She spoke on the type of organizations in England which correspond to the American Legion and Auxiliary. She mentioned briefly the work of the groups and how they carried on their meetings. Mrs. James Griffin, daughter of Mrs. Smith, was introduced after the talk.

A talk on publicity and how it could improve the auxiliary was given by Mrs. W. W. Moeller of Carlsbad, department publicity chairman. She stressed greater membership for greater publicity. Luncheon was served at the First Methodist Church, after which the delegates returned to the Veterans Building for the afternoon session.

Reports from the various units on what is being done in the cities belonging to the fifth district consumed the greater part of the afternoon meeting. General business at hand was brought forward and discussed and plans for future projects were outlined. Mrs. Smith again spoke to the delegates and used the topic of her morning speech in order that those who were unable to attend the morning meeting could benefit from her talk.

Mrs. Leslie Burns of Carlsbad was elected first vice president of the fifth district after a report from the nominating committee.

Mrs. Hershey of Hagerman and Mrs. Paton gave reports on the national convention which they recently attended in New York City. Mrs. Hershey stressed the need for a girls' state organization in New Mexico.

The Artesia unit members served punch and light refreshments at the close of the day.

During the morning a musical program was presented by H. O. Miller, who sang three vocal selections, "When Love Is Kind," "Trade Winds," and "Sylvia." He was accompanied by Mrs. Stanley Carper. Mrs. Howard Whitson, accompanied by Mrs. Carper, played a violin solo, "Liebesfreud," by Fritz Kreisler, after Mrs. Smith's address.

At the luncheon, Miss Carol Hensley entertained with a number of accordion selections and a vocal number.

At the afternoon meeting, Miss Jo Margaret Gore, violinist, played two selections, "Nocturne in E-Flat" by Chopin, and "Ah, Sweet Mystery of Life," by Herbert. Mrs. I. L. Spratt played her accompaniment.

Mrs. J. T. Caudle entertained with vocal numbers later in the afternoon. Mrs. Carper played her accompaniment as she sang, "By the Waters of Minnetonka" and "Gypsy Love Song." The closing musical selection of the day was the singing of "America" by the entire group.

Selected to represent their respective clubs at the meeting were Mrs. W. T. Haldeman and Mrs. Nevil Muncy, Atoka; Mrs. Robert McCaw and Mrs. Jack McCaw, Cottonwood Woman's Club; Mrs. R. L. House and Mrs. Forrest Lee, Lakewood; Mrs. Felix Cauhape and Mrs. Maurice Teel, Hope; Mrs. M. E. Wathen and Mrs. Glenn O'Bannon, Cottonwood Community Club.

Mrs. Orval Gray and Mrs. Gissler have charge of the meeting. The two representatives will meet with representatives from South Eddy County to complete plans for the 1948 club program at a later date.

Children's Theater Of New York To Bring 'Alice In Wonderland' Here

The presentation of "Alice in Wonderland" by the Clare Tree Major Children's Theater of New York, which will be held in Artesia Saturday, Nov. 15, will mark another step in the history of Artesia's civic clubs in furthering their drives for the better things for the children of the community.

It also approaches the quarter-century mark for the actors' organization as the only long-established professional theater for children in the United States, and the most far-reaching in the world. The performances of the group in this city are sponsored by the Central School Parent-Teacher Association, Girl Scouts, and Story League.

A fascinating success story is the tale of the founding of the organization in the fall of 1923 by Clare Tree Major. Mrs. Major, appalled by the fact that the children of New York were deprived of the cultural and educational advantages of the theater, assembled a company of Broadway actors and actresses and presented Saturday morning matinees in her own theater, the celebrated Princess.

As the word spread, calls came from Pennsylvania, New Jersey, and Connecticut. "Why don't you bring your children's theater to us?" was heard on every side. As a result the first children's theater touring company was launched. Today, in its 24th season, seven complete motorized companies of adult professional actors and actresses cover 47 states and Canada.

The organization is a nonprofit group inspired by idealism and a real concern for the cultural development of children. Annually the groups play to audiences including grownups, and reach more than two million persons.

Mrs. V. P. Sheldon, chairman of the committee in charge of arrangements for the coming performances, feels that in bringing the plays of this famous group here, the three sponsoring organizations are making a worthwhile contribution to the community.

Three performances of well-known children's stories will be offered by the group during the season. In addition to the November presentation of "Alice in Wonderland," "Hans Brinker" is scheduled for January and "The Sleeping Beauty" will be shown in March. Season tickets for the plays will go on sale early in November. Further announcements as to where the plays will be presented and when and who will be in charge of ticket sales will be made in the near future.

Federal Gas Tax Exceeds Revenue Total In 1947

Each month the federal gasoline tax costs American motorists more than the total annual tax receipts of the national government a hundred years ago, according to A. E. Martin, chairman of the

New Mexico Petroleum Industries Committee. He made this comparison in a statement in which he urged that the federal gasoline tax be repealed.

Martin pointed out that receipts from the 1½-cent federal tax on each gallon of gasoline have averaged \$32,500,000 a month for the first five months of 1947, while for the entire year 1947, receipts of the federal government from all revenue sources amounted to only \$26,495,769.

"My point is," he added, "that the motorists as a class are today bearing a larger share of federal taxation on just one product alone in just one month than was borne in a whole year by all the taxpayers of the nation a century ago. And this doesn't even take into consideration the other federal taxes on lubricating oil and motor vehicle parts and equipment.

"The 1½ cent a gallon federal gasoline tax, he continued, is imposed on top of the 'enormously

high' state gasoline tax of 5 cents a gallon with the result that the total tax the consumer pays on each gallon of gasoline amounts to more, relatively, than he would pay on some of the most extravagant luxuries. This is probably the most vicious example of multiple taxation that you could find in the entire country today.

"Twenty-seven state governments, as well as countless individual citizens throughout the nation, have petitioned Congress to repeal this tax as it was adopted as a 'temporary emergency' measure 15 years ago. Now Congress is studying a complete revision of the federal excise taxes. I am convinced that this study can only conclude that the federal tax on gasoline should be placed at the very top of the list of levies to be repealed. As a violation of state's rights and a discrimination against an already overtaxed group of citizens, it is a measure that cannot be defended on either logical or equitable grounds."

Uncle Sam Says

Many tributes will be paid newspaper boys on annual Newspaper Boy Day this month. Thousands of newspaper boys are members of thrift clubs, sponsored by the International Circulation Managers' Association. Perhaps no greater honor will come to these boys than to point them out as school boys who are demonstrating how to go into partnership with their Uncle Sam in building a growing fund for future education. By investing their newspaper boy earnings in U. S. Savings Bonds regularly, they are getting their Uncle Sam to pay part of the expense. Your bond officer or banker will explain how regular bond buyings can provide four years of college education, one year of which will be paid for by your Uncle Sam as interest on your investment. U. From where I sit... by Joe Marsh

"It's Living That Counts"

I stole the title of this column from a magazine article that said a whole lot better than I can what farm and country life can mean.

We talk about farm profits, production, research, and mechanical improvements... but isn't it true, what we really value is the life country living offers us?... the chance to be close to our families and neighbors... children sharing in the chores... working with our own hands at a worthwhile job.

And country pleasures are simple: good talk at day's end, and

a glass of mellow beer with friends... the companionship of man and wife, unruined by distractions of the city... the mutual tolerance of one another's tastes—in choosing a friend, or a glass of beer, or a candidate for Governor.

Mind, I'm all for material improvements. But from where I sit, the real goodness of our country life is that spirit of tolerance, moderation, and good fellowship.

A group of people from this community spent Saturday and Sunday at Sitting Bull Falls. Included in the group were Mrs. Noah Buck, Mrs. Marie Smith, Mr. and Mrs. Dudley House, Mr. and Mrs. Walter Taylor, Eugene Buck, and Miss Mary Lou Cunningham.
Dick Allen of Roswell, formerly of Cottonwood, who was seriously injured in a tractor accident about a month ago, is still confined to a Roswell hospital, but is reported improving nicely.
The local farmers report that worms are eating on the alfalfa hay in this vicinity.

Mrs. M. S. Brown of Artesia had as guests over the week end her sons-in-law and daughters, Mr. and Mrs. McNeil Sullison of Santa Fe and Mr. and Mrs. C. R. Horan of Fort Worth, Tex. Mrs. Brown accompanied Mr. and Mrs. Horan to Fort Worth and Dallas for a visit. They left Sunday morning.
Mrs. Noah Buck left Saturday night for Hot Springs for a visit with her mother, Mrs. Ella Avant.
Mrs. M. S. Brown of Artesia visited her son, M. S. Brown, Jr., and Mrs. Brown of Carlsbad Wednesday and Thursday of last week.

'Teeners Swarm Memorial Building

—Gable Studio

Crowded into this picture are about 100 of the more than 600 'teen-age boys and girls of the Artesia community and their guests from Jal, who attended the third weekly canteen Friday evening at the Veterans Memorial Building, sponsored by the United Veterans Club of Artesia.
The dance and social affair marked for the Artesia youngsters a celebration of the football victory over the Jal Panthers, but

the Jal boys and girls entered into the spirit of the thing and, although it was nearly too crowded to dance, all seemed to have a good time.
The canteen is expected to attract a large number of 'teen-agers Friday evening, but Friday evening of next week, after the Hobbs-Artesia football game here, it is contemplated a new record will be set.

New plants being built in the Southwest will make gasoline, Diesel fuel, and chemicals from natural gas.

Pipelines are being built to carry natural gas thousands of miles from fields in the Southwest to population centers.

In Maine last year 6,500,000 bushels of potatoes were converted to starch.

Crops Output To Be Large Despite Corn Prospects

Despite poor corn prospects, total production of all crops this year is expected to be near the average for the last five years, the best five-year period in the nation's history. The total is 21 per cent more than the 1923-32 base, and only slightly below the record set last year.

Contributing to the large total volume are record crops of wheat, rice, pears, and grapes; relatively heavy outturns of flaxseed, soybeans, buckwheat, tobacco, peanuts, sugar beets, peaches, citrus, and truck crops, and above-average production of hay, oats, beans, peas, sugarcane, and apples.

Crops below average include barley, rye, and cotton, which are well above 1946 production, and corn, sorghum grain, sweetpotatoes, and broomcorn, which are less than in 1946. Feed-crop prospects are reported below average for the country as a whole, although varying by regions.

Assembly Of God Special Services To Start Sunday

Rev. A. E. Kelly, new pastor of the Assembly of God Church, announced this week a special revival service will start at 7:30 o'clock Sunday evening, to continue each evening for at least two weeks, with Rev. Paul F. Bauer of Colorado bringing the messages.

The services will feature a children's junior revival, with attention given to the boys and girls each evening, the pastor said.

Rev. Kelly came to Artesia from Belen, where he was pastor the last two years. He succeeds Rev. H. L. Franks, who has accepted a pastorate at Hatch.

The new pastor is married and he and Mrs. Kelly have two daughters, Linda, 4 years old, and Betty Lois, 17 months.

He has extended an invitation to the public to attend the special services at the church, Fourth and Chisum Avenue, and to hear the messages by Rev. Bauer.

Foundation Helps Keep Taverns On Enforcement Line

Support of the brewing industry for enforcement activities to maintain strict law observance in any retail beer dispensary was pledged New Mexico's peace officers.

The assurance of co-operation was made by Charles J. Huff, state director, United States Brewers Foundation, during an address in which he explained the industry's "self-regulation" program.

"So strong is our belief in adequate law enforcement . . . that we lend all our facilities to agencies working toward that end," he asserted.

The foundation director pointed out that his organization utilizes "warning letters to tavernmen, citations to official agencies, and, where necessary, discontinuance of beer and ale sales" in support of enforcement activities.

Enrollment In New Mexico 4-H Clubs Increases

New Mexico's 4-H Club enrollment has jumped to 6790 members this year—a gain of 710. The 3578 girls and 3212 boys are enrolled in 356 clubs under the supervision of 410 local leaders.

Other figures reported by L. S. Kurtz, state 4-H Club leader of the New Mexico Extension Service, show that club members are enrolled in 85 different projects and activities covering all phases of agriculture and homemaking ranging from soil conservation, orchard management, and farm records to electricity, frozen foods and child care.

pleasure trips, Callaway said. Similar surveys in other states show the same ratio of necessary and pleasure travel.

The studies, made long after gasoline rationing and travel restraints had ended, show that highway transportation is becoming increasingly important in everyday living, he added.

Improvement Of Soil Reflects On Everyone In U.S.

Calf shipping time is approaching again, which brings up the ever present question: "Which heifer calves should I keep?" and "How can I best improve my heifer replacements?"

One of the best judges of heifer replacement is a pair of ordinary platform scales. Width and depth of body thickness, heavy quarters, size of bone, straight top lines, quality, smoothness and balance are important in heifer replacements, but not as important as weight, from the point of dollars and cents returned.

One thing to look out for when cutting out those heaviest heifers is the offspring of a cow that just produces a calf every two or three years. Her calf will likely carry

the factor for shy breeding and should be sold. Dry cows should be permanently branded at branding time to ascertain which are continuous producers and which are boarders.

Dusting of grass weeds and shrubs with DDT will kill any dog ticks which spread Rocky Mountain spotted fever, the U.S. Department of Agriculture reports.

Survey Shows Most Highway Trips Necessary

Four out of five highway motor trips are still in the "necessary" class, despite the end of gasoline rationing and the tremendous upward surge in motor vehicle usage, J. T. Callaway, president of the American Road Builders' Association, pointed out, in discussing the importance of highway travel in modern life.

Recent surveys of highway use in North Carolina, in which 58,755 drivers were interviewed, showed that 80 per cent of their travel is necessary, according to a report from James S. Burch, engineer of statistics and planning. Trips to and from work and school, business and shopping trips, visits to doctors and dentists, and hauling account for most driving.

School Lunch Funds Are Apportioned in States, Territories

About seven million children of America's 27½ million in elementary and high schools will benefit from the school lunch program this year.

Funds amounting to \$48,750,000 have been apportioned among the states and territories to reimburse partially participating schools for their purchases of food for school lunches. The law requires that federal funds be matched by funds from sources within the states.

Bacteria as Plant Food Increases Grain Yield

The use of bacteria as food for plants is the basis of a new preparation known as phosphobacteria, developed at Leningrad Institute. Each gram of the preparation contains up to 200 million specially cultivated bacteria, which on reaching the soil transform complex organic matter containing phosphorus into soluble salts from which the plant can draw nourishment. The bacteria increased crop yields.
