

School Bus-Truck Crash Kills Four

Three Artesia students and the wife of a Dexter truck driver are dead, several others are critically injured, while all others in an Artesia school bus sustained injuries of various degrees of severity as the result of a head-on collision with the two vehicles nine miles north of Carlsbad State Highway 285 about 10 o'clock Friday night.

The accident happened when the truck failed to avoid hitting a pick-up on its side of the highway, either parked or moving slowly.

The Artesia school bus, in which 28 persons were including 26 students, most of them members of the band, was returning from a football game between Artesia and Carlsbad High Schools, at which the band played and performed.

Those who were killed, or died since: Sam Wesley Lewis, 14, son of Mr. and Mrs. Carl Royce McNallen, 13, daughter of Mr. and Mrs. John McNallen, who died at 4 o'clock Saturday morning in a Carlsbad hospital.

Jerry Stanley Johnson, 14, son of Mr. and Mrs. Paul Standifer of Artesia, who died at 4 o'clock Saturday afternoon in a Carlsbad hospital.

Mrs. Jo Sanders, 35, wife of Jesse M. Sanders, truck driver, of Dexter, who was killed instantly.

The condition of George Blevins, 17, son of Mr. and Mrs. J. W. Blevins of Artesia, is critical and little chance being held for his recovery. He is in a Carls-

bad hospital suffering from skull and spine injuries.

Perhaps the next most seriously injured of the Artesia students is Peggy Shortt, 15, daughter of Bandmaster and Mrs. J. E. Shortt of Artesia. Her condition has been reported as somewhat better.

Also in critical condition is Jesse M. Sanders of Dexter, driver of the trailer-truck, who is a patient in a Roswell hospital.

Mrs. Harlan Johnson, chaperone of the Artesia students, not related to Jerry Stanley Johnson, sustained a fractured pelvis and other serious injuries.

Paul Standifer, driver of the school bus, who was pinned behind the wheel, miraculously escaped death. He was discharged from the hospital in Carlsbad Tuesday.

Sanders' 2-year-old daughter, Jessie Yvonne, had her head in her mother's lap and her feet in her father's lap, when her mother was killed. She since has undergone an operation for amputation of a finger.

Others of the Artesia students who either were hospitalized in Carlsbad or were treated in one of the Carlsbad hospitals and removed to Artesia Memorial Hospital or sent home included Autheran Horton, Jerald Johnson, son of the chaperone; Marjorie Rogers, Juanita Coor, Kirk McCarter, Sonny Garner, Tom Myers, Carl Arnell, Erlene Broom, Charles Delaney, Minyard McCutchen, Hil-

dreth Barker, Charles Shortt, son of the bandmaster, and Betty Crume.

Also riding in the bus and all sustaining some injuries, but not severe enough to demand immediate attention, were Joy Teague, Charles Henson, Edith Gibson, LaVerne Batie, Chester Rogers, and Roy Johnson.

State Patrolman Bill Lewis of Carlsbad, who investigated the accident, said that when the trailer-truck, loaded with 14 tons of cottonseed, attempted to pass the pick-up truck driven by J. C. Carter, 35, of Carlsbad it collided with the bus, which he said was on the right side of the road.

The fronts of both bus and truck were telescoped.

Carter said he and John J. Small, 38, Carlsbad, were returning to Carlsbad from a deer hunt and were driving at a moderate rate of speed when the truck started to pass on a grade. The bus and truck collided beside the pick-up, he said, and the trailer rolled part way over on the pick-up, throwing cottonseed all over the pavement.

Sanders and others said a pick-up was parked on the pavement at the time of the crash.

Small and Carter said they jumped out of the pick-up and were confronted with a scene of confusion. The students on the bus, they said, "were screaming and all scrambled up" inside the bus.

Small, who received Red Cross training as a pilot in-

structor at Sweetwater, Tex., during the war, and others extricated the victims. Passing cars were stopped and the victims were sent in them to the hospitals.

Almost every doctor and nurse in Carlsbad was pressed into service to care for the victims. Dr. C. E. Patterson of Dallas, a brain specialist, was flown there by private plane from Houston. Several Artesia physicians rushed to Carlsbad as soon as receiving word.

Sanders, interviewed by reporters at the hospital said he was driving the trailer-truck "not over 30 or 35 miles an hour when all of a sudden I saw a parked car on the right side of the road, on the pavement. I immediately put on my brakes and endeavored to slow down so I wouldn't hit it, as I saw the lights of a car coming toward me, which I now assume was the Artesia school bus. I knew I could not go around the parked car without hitting the oncoming car."

"All at once my truck seemed to swerve to the left and then the crash came. There is no question in my mind that there was a car parked on the right side of the road ahead of me. I do not believe it was moving, and it did not have any taillight."

With Sanders at the hospital were his two brothers, Roger S. and James E. Sanders, who had driven trucks loaded with cottonseed just ahead of him before the crash.

CURRENT-ARGUS ADMAN TAKES CRASH PHOTOS

The two photographs reproduced on this page and two others elsewhere in this issue were taken soon after the collision by Bill Colvert, advertising manager of The Carlsbad Current-Argus.

Knowing that A. L. Bert, editor of The Advocate, was in the mountains on a deer hunt, Colvert thoughtfully ordered the four cuts appearing in this issue for The Advocate.

Inquest Into Collision Shows Differences Of Fault Opinion

At an inquest in Carlsbad Saturday night between an Artesia school bus and a trailer-truck, resulting in the death of three Artesia school children and the wife of the truck driver, conflicting testimony was given as to whether a pick-up was parked or moving at the time of the accident, according to Sunday's Carlsbad Current-Argus, which continues:

The inquest was held only into the death of Mary Jo Sanders, wife of Jesse Sanders, driver of the trailer-truck involved in the accident. The coroner's jury found that she "came to her death by reason of an automobile collision between an auto driven by J. C. Carter, a truck driven by Jesse Sanders and a bus driven by Paul Standifer."

Six witnesses were called at the inquest before Justice of the Peace E. S. Shattuck. They were R. S. Sanders and J. E. Sanders, brothers of Jesse Sanders; John C. Carter, driver of the pick-up, and John J. Small, a passenger in the pick-up; Sheriff Dwight Lee, and Sheriff's Deputy Cruz Fernandez. District Attorney G. T. Watts conducted the inquest.

The three Sanders brothers, accompanied by their wives, left Dexter late Friday for Otis, driving trailer-trucks loaded with cottonseed, according to R. S. Sanders. He said he was driving the lead truck, J. E. Sanders was second, and Jesse Sanders was third.

R. S. Sanders testified that he saw a pick-up stop and that he "just avoided a collision with a van."

J. E. Sanders told the coroner's jury that he first saw the pick-up when he was about "100 yards" away, that it had no lights, and that he saw no lights when he passed the pick-up "where the accident happened."

The pick-up was stopped on the right hand side of the road on the blacktop, he said, and was headed toward Carlsbad. He thought it was a Ford pick-up.

Carter, driver of the pick-up, testified that he and Small, who were returning from a hunting trip, stopped at a filling station at the intersection of Sitting Bull Falls road and Highway 285 for repairs to the fuel pump, which was "not working well." While there, they drank coffee. He was uncertain whether they stopped "after leaving the station." Carter said the "battery was weak" and that the car had been cranked at the station, but started later with the starter.

Carter asserted he was traveling about 30 miles an hour at the time of the accident and he estimated the bus was traveling at (continued on society page)

Broadcast Opens Emergency Drive, With Pledges Of \$1700

More than \$1700 was contributed or pledged Tuesday evening during a two-hour program over radio station KSVP in the kick-off of a campaign to raise funds for helping to defray the expenses of the victims of the accident Friday night, being jointly sponsored by the radio station and the Artesia Chamber of Commerce.

With Burney Jones, manager of KSVP, acting as master of ceremonies, assisted by Dave Moore, manager of the Chamber of Commerce, short talks were made by a number of local business and professional men, appealing to citizens of the community to contribute generously to the fund.

In what was perhaps the most representative gathering of members of various organizations in the history of Artesia, one after another made a short talk.

The city of Artesia was represented by Mayor A. P. Mahone, who pointed out that this community has "always come through" in other campaigns for funds, such as War Bond and Red Cross drives, and he predicted that the citizens would be generous in this tragic cause.

All of the service clubs, all of the veterans' organizations, several of the churches, and various other groups, and the radio and press were represented in the appeals, while the radio station telephone rang continuously, as pledge after pledge was made.

Those calling in or bringing contributions had the privilege of asking for special numbers, either by transcription or by Curley and (continued on society page)

The Bad And Good

AN EDITORIAL

It takes the bad sometimes to bring out the good.

This was demonstrated Friday night and Saturday and since, as Artesia and Carlsbad citizens joined hands in a common cause to bring comfort and assistance to the victims of the collision.

Offers of rooms and of blood and of anything else which would help were forthcoming from the Carlsbad citizens, who could not do enough for their Artesia neighbors.

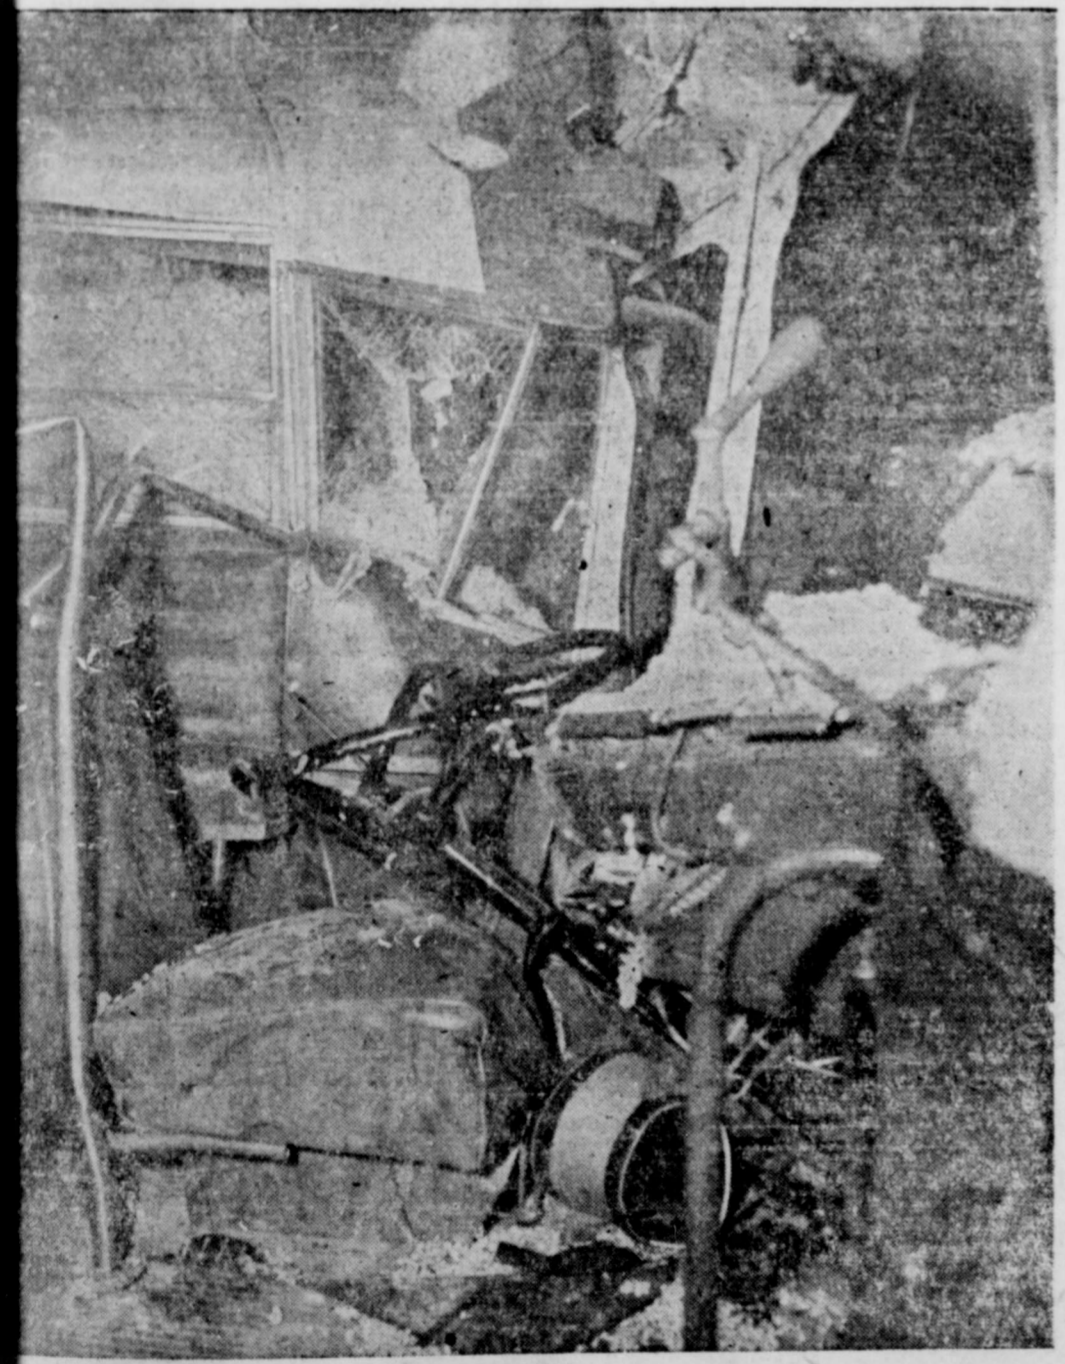

Football players, an entire switch engine crew, and people from all walks of life offered blood — or anything else which might be needed.

Others jumped in to call Artesia parents, both those of the injured and of those in the other bus, in order to reassure them.

Sheriff Dwight Lee and Chief Loyd Bolen of Carlsbad pitched in with their officers while Rev. and Mrs. S. M. Morgan, Coach Kenneth Lance, Deputy J. B. Mulcock, and Mr. and Mrs. W. W. Batie of Artesia, all thankful they had none injured, gave up the idea of sleep to spend the night helping. And there were many others just as active, and they deserve as much credit.

And then there was the spontaneous response here to KSVP and the Chamber of Commerce for funds.

Yes, sometimes it takes the bad to show just how good most people are.—A.L.B.

These are the photographs of the cab interiors of the Artesia school bus, left, and the cottonseed truck after the head-on collision nine miles north of Carlsbad Friday night, in which two persons were instantly killed, two others fatally injured, and 27 were injured, some critically. Three of those killed were Artesia school children, who were returning home from the Carlsbad-Artesia football game at the Cavern City in the bus. The fourth was Mrs. Jesse M. Sanders of Dexter, wife of

the truck driver. Paul Standifer, driver of the bus, was pinned behind the wheel and was seriously injured, but miraculously escaped death. Sam Wesley Lewis, who was killed instantly, and Claire Royce McNallen and Jerry Stanley Johnson, who died later in a Carlsbad hospital, died or were injured immediately behind Standifer's seat. A band cap may be seen on the floor. The bus, with cottonseed over its top, is visible beyond the truck cab in the righthand picture. Cottonseed may also be seen inside the bus cab, left.

Histories Youngsters Killed In Crash

These are brief life histories of the Artesia students who were killed in the head-on collision between the school bus and trailer-truck Friday night.

Sam Wesley Lewis
Sam Wesley Lewis, a son of Mr.

and Mrs. Carl Lewis, was born in Artesia July 2, 1933.

He was in the ninth grade of Artesia High School at the time of his death and took an active part in numerous school affairs.

The youth is survived by his parents and a brother, Donald Branch Lewis.

Funeral services were from Paulin Funeral Home at 2:30 o'clock Sunday afternoon by Robert A. Waller, evangelist of the Church of Christ. Burial was in Woodbine Cemetery.

Pallbearers were H. D. Dunn, Robert Parks, Fletcher Collins, Cecil Mitchell, Elzie Swift, and Herman Green.

Claire Royce McNallen
A daughter of Mr. and Mrs. John McNallen, Claire Royce McNallen was born at Amarillo, Tex., April 5, 1934.

She came to Artesia with her parents from Big Spring, Tex., about three years ago. At the time of her death she was a member of the high school band and otherwise was active in the school. She was in the ninth grade.

Paulin Funeral Home made arrangements for the shipping of her body Saturday to Big Spring, where funeral services were to be held at 9:30 o'clock Tuesday

morning from St. Thomas Catholic Church by Rev. Father Francis, pastor.

Claire Royce is survived by her parents and by a twin brother, Charles Richard, and a sister, Donna Ruth.

Jerry Stanley Johnson
Jerry Stanley Johnson, son of Mr. and Mrs. Eugene Johnson, had lived in Artesia only about three months. He came here with his parents from Gladewater, Tex., where he was born Nov. 30, 1933.

He was a sophomore in Artesia

High School and a member of the band at the time of his death. He was a member of the Methodist Church and was a Boy Scout.

Besides his parents, Jerry is survived by a half-brother, Delber Ray, and a half-sister, Dora Janice.

Funeral services are to be held from the First Methodist Church at 3 o'clock this afternoon by Rev. C. A. Clark, pastor. Burial will be in Woodbine Cemetery.

Pallbearers are to be Cameron Buchanan, Don Norton, Eugene Edwards, J. R. Edwards, and Lawrence Davis.

Union Thanksgiving Services Are To Be At Baptist Church
A union Thanksgiving service is to be held at the First Baptist Church at 10 o'clock next Thursday morning with members of various churches of the city participating.

The message will be brought by Rev. Harry Wilson, pastor of the First Christian Church. Wesley Sperry will sing, "We Thank Thee, O Lord."

The services will be under the auspices of the Artesia Ministerial Alliance.

News Shorts
A small pilotless rocket plane, launched by a British bomber high above the Atlantic, attained a speed estimated at 900 miles an hour in an experiment to determine the effects of flight faster than sound. The plane was the first of a group to be used by the Supply Ministry in experiments with super-sonic speed. The experiments were expected to produce valuable data about performances of ultra high speed aircraft as they approached and surpassed the speed of sound, which varies from about 660 miles an hour at sea level to 760 miles an hour at 30,000 feet. The robot was cut loose nearly seven miles above earth, at 37,000 feet, and at a point 14 miles west of the Scilly Islands. It was adjusted to dive into the sea after about 20 miles.

More than a thousand buyers jammed the Wyoming Hereford Ranch east of Cheyenne to pay a total of \$427,225 for 72 purebred bulls and cows in the annual WHR auction. Record prices included \$61,000 paid by the Hiwan Farms of Evergreen, Colo., for WHR Helmsman 89, and \$53,000 paid by Polka Dot Farms of Cass, W. Va., for WHR Star Duke.

Keep Them Healthy
To reduce lamb and sheep losses from dogs and wolves, use truck flares placed in holders on top of steel posts driven into the ground. Sheep learn to gather near the flares at night. Wolves and dogs are kept away by the flicker of the name and the odor.

If DDT fails to control flies around the barn, it's probably because there are manure piles or old strawstack bottoms nearby. These breeding places can turn out flies faster than DDT can kill them.

Blackhead of turkeys is caused by an organism that is carried by cecal worms. Phenothiazine is effective in removing these worms from chickens and turkeys. Many turkey raisers now give phenothiazine in the mash every three or four weeks to prevent outbreaks of blackhead.

Farms Use Six Times As Many Tires as City
The typical Midwestern American farm has six times as many rubber tires on its rolling stock as a one car city-dwelling family, a survey conducted by B. F. Goodrich company indicates. The survey covered 105 farms in a representative "agricultural" county in Illinois, and disclosed an average of 32 pneumatic rubber tires per farm. From the standpoint of actual rubber volume the farmer's edge is greater.

In the little tube of uranium shown in this picture there is vast latent power—power to create or power to destroy. The power of the atom, if harnessed to peacetime uses, can turn every wheel in the world and open up new avenues of scientific and industrial progress. Made into atom bombs, it can destroy thousands of lives and wreck our civilization. Such vast power in the hands of reckless men is a menace to all humanity.

The teachings of the Bible are our best defense against this threat to civilization. Our great task is to spread these teachings far and wide so that man's destructive tendencies may be turned into the channels of peace.

Fortunately there is a trained agency—the American Bible Society—with 131 years of experience, ready to perform this task of getting the Bible to the people in the furthestmost parts of the world. This agency deserves our support and cooperation.

Since its organization in 1816, this Society has published and distributed more than 365,000,000 copies of the Scriptures in 74 different languages. It works in more than 40 countries in its effort to carry the Bible message to every quarter of the globe.

THE CHURCH FOR ALL . . . ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend and support the church of his choice. They are: (1) For his own sake of his children's sake. (2) For the sake of his community and nation. (3) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

Agreement on Fat Salvage

One idea agreed upon by people in the sport world is the continued need to salvage used cooking fat, to offset the world deficit of fats and oils. Here, Mrs. Lou Gehrig, wife of one of baseball's immortals, Jockey Eddie Arcaro and his wife, Augie Galan of the Cincinnati Reds, and world champion boxer Joe Louis take time out from their busy lives to demonstrate that conscientious fat salvage is still essential and a long step toward a well-fed, peaceful world. Your meat dealer will pay cash for every pound of used fat you save and turn over to him.

KEY GUARD GREEK KING — Hand-picked, special guards for King Paul of Greece stand at attention during a ceremony honoring the Greek unknown soldier at Athens.

SCRAP PILE AHOY: The Army got the job of scrapping ships which are Uncle Sam's part of the Japanese Navy. The scrap metal will be shipped to the United States.

LIBERATOR OF ALSACE: When the French government recently decorated the colors of the First Field Artillery Observation Battalion, it called attention to the "magnificent military qualities" of this American Army Ground Forces unit. The citation accompanying the Croix de Guerre called the battalion "a remarkable unit characterized by a spirit of collaboration and zest for battle. "From Sept. 14, 1944 to Feb. 8, 1945," said the citation, "the battalion operated with I Corps of the First French Army. In spite of violent enemy attacks, the difficulty of terrain and the atmospheric rigors, it tirelessly furnished the most valuable information. Thanks to this unit, more than 700 enemy artillery positions and other installations were located. This magnificent aid contributed in a large measure to driving the Germans from the Belfort Gap and to the liberation of Alsace."

PHYSICAL PERFECTION: Pvt. Chester Oden of the 555th Parachute Infantry Battalion at Fort Bragg, N. C., recently established an all-time high score in the Army physical fitness test. He made a perfect score of 500. Half of those 500 points were attained by doing eight pull-ups, 46 sit-ups, 34 squat jumps, 27 push-ups and a 300-yard run which had to be completed in 51.1 seconds. Paratroopers, who are soldiers of the Army Ground Forces, average well over 350 points in the physical fitness tests. Pvt. Oden is 18 years old and he hails from St. Paul, Minn.

State Police Officer Bill Lewis is shown here inspecting the interior of the school bus from the doorway. School children, band instruments, and seats, which were torn loose, were piled together in the front of the bus. Bill Colvert, advertising manager of The Carlsbad Current-Argus, who took the picture, said he climbed in through the back of the bus to make it. He called attention to blood at the lower left of the seat and on the trombone and case at the lower left.

The Artesia school bus, left, and cottonseed truck are shown as they came together. Cottonseed from the truck's trailer, that was dumped and thrown out in the crash, is seen in the background. "This," Photographer Bill Colvert commented editorially, "is what happens when two large motor-cars take a head-on, each going at least 30 miles an hour."

ner of Uruguay's freedom having used them in his flag. Of a deeper hue of blue combined with white are the emblems of four Central American countries, owing to the fact that they once belonged to the Central American Federation, whose colors were these were. The stripes of the flag of Guatemala are vertical, however, while those on the flags of Honduras, Nicaragua, and El Salvador are horizontal, each bearing its own emblem in the center. Red, white, and blue, always a popular combination as far as flags are concerned, has been used in as many as seven of the American republics, including, naturally, the United States. The banner of Chile adopted in 1810 was blue, white, and yellow.

but this last color was changed to red in 1817 when the present lone star flag was designed. The star was taken from the pennants of the Chilean Indians in the past.

Similar in that it is made of the same colors and also boasts a star, is the flag of Cuba, hoisted for the first time in 1850 during an unsuccessful uprising against Spain, led by Gen. Narciso Lopez.

The flags of Paraguay and Costa Rica are made of red, white, and blue, stripes combined in different ways. It is said that Rodriguez Francia, one of the great men and president of Paraguay, was such a fervent admirer of Napoleon that he chose the French tricolor as the emblem of his own country.

Costa Rica's flag was white and blue at the time it belonged to the Central American Federation, but when it achieved its complete independence, it separated the other two colors by a red stripe.

The Dominican Republic and Panama share not only the same color scheme but also flags divided into four squares. The center of the Dominican Republic's banner is occupied by a cross in memory of the emblem planted by Columbus on the shores of the New World, while the flag of Panama is decorated with one red and one blue star on each white quarter.

Two colors seem to be enough for Haiti and Peru, the suppression of white in the red and blue Haitian emblem being symbolic of the country's break with France and its tricolor. Peru is proud of the fact that its red and white flag was designed by the Liberator San Martin himself, and that it has been in use since then.

Colombia, Ecuador, and Venezuela, the three Bolivarian countries par excellence, have almost identical red, blue and yellow flags, devised by Miranda and used by Bolivar. According to the legend, the blue stripe stands for the sea that separates Spain's former colonies from the mother country's red and yellow flag. To that red and yellow Bolivia adds green instead of blue, the colors standing respectively for the animal, mineral, and vegetable kingdoms.

In the yellow and green Brazilian flag also the green represents the vegetable kingdom and the yellow the mineral, symbolizing the richness of the country and its brilliant future. In the center of the flag is a series of stars forming the constellation of the Southern Cross which is at its meridian over the capital of Brazil.

Finally, the Mexican colors, red, white, and green, bear a typically Aztec symbol, an eagle strangling a serpent.

Thus the colors of the flags of the American countries, blending with each other, form a brilliantly hued rainbow over the Western Hemisphere.

The average American uses more than eight pencils a year.

The Philippines is the only Christian country in the Orient.

Confucius is buried outside the city of K'uh-fow, China.

The black wings of a beetle found in Java are used as dress ornaments.

Know Your Neighbor

Even to those who ignore the continental significance of Pan American Day, it stands for Western Hemisphere flag day. However, in spite of the fact that the emblems of all the American republics are hoisted in every country, few people know how these flags came to be and what story lies behind the colors that are the symbol of a nation.

With a palette of only five tones, red, white, blue, green and yellow combined in different

ways, 21 individual flags have been created, each with its own background and personality.

Traced back to the earliest days of Argentine history may be the Argentine colors, light blue and white, which were worn by the forces of Buenos Aires in opposing the English invasions of 1806 and 1807 and which also served as badges for the patriots who, on May 25, 1810, proclaimed Argentine independence. In 1812 the national flag of Argentina was made of these colors and under the name of "Flag of the Andes," carried the Argentines under Gen. San Martin in their campaign for the liberation in Chile and Peru. The same colors in a different design are used for the flag of

Uruguay, Argentina's small neighbor. They, too, had their origin in the movement for independence of 1810, Artigas the forerun-

EISENHOWER ON EQUALITY
By General of the Army Dwight D. Eisenhower

The fundamental principle of democracy is equality—equality of burden as well as equality of opportunity. Where the defense of our country is concerned, this principle imposes on each American the duty of service in the manner most effective for the preservation of our way of life. Selective Service was its wartime application. Its logical peacetime application is Universal Military Training, an equitable method of preparing the citizen for his personal defense responsibility so that—should war come again—it shall not find us unready. So long as the use of force has not been forever and effectively barred from international relationships, this responsibility must be met soberly and seriously by the United States. Universal Military Training, as proposed by the President's Advisory Commission, is an important clause in American democracy's insurance policy against extinction by war.

ELECTRICAL LIVING

IS ABUNDANT LIVING

Every electric appliance you install in your home means more comfort, added convenience, new leisure hours for you.

But only with all important Adequate Wiring can you really enjoy full electrical living because then you can use any or all of your electrical aids whenever and wherever you wish.

To make sure that your home or place of business has wiring that is adequate just call or write your nearest Public Service office for a visit from a wiring specialist.

Adequate Wiring MEANS:

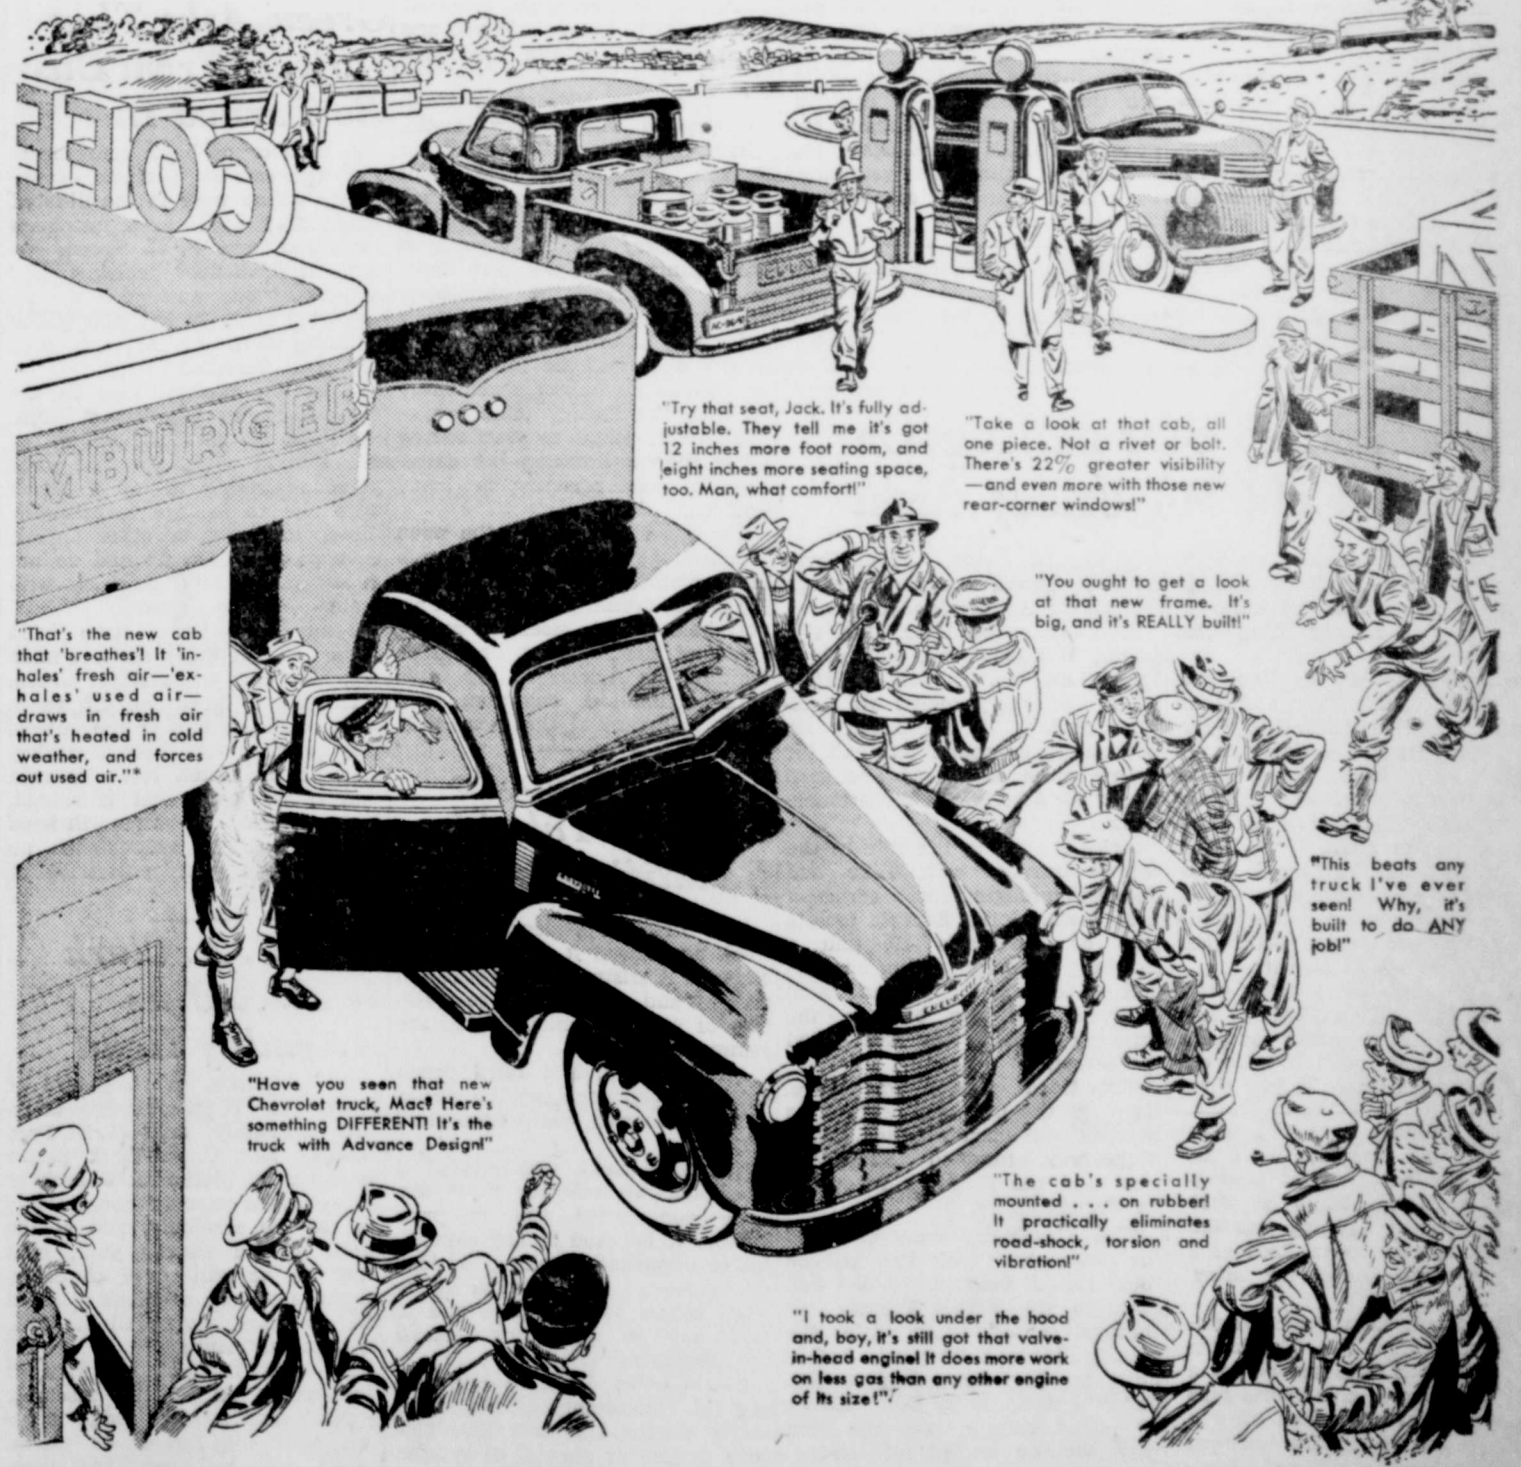

1. ENOUGH CIRCUITS for serving efficiently and safely all the appliances you have.
2. LARGE ENOUGH WIRE for serving your present and future needs.
3. ENOUGH OUTLETS AND SWITCHES for convenient living.

We have nothing to sell but good electric service.

SOUTHWESTERN PUBLIC SERVICE COMPANY

23 YEARS OF GOOD CITIZENSHIP AND PUBLIC SERVICE

"They're the talk of the coffee stops!"

"That's the new cab that 'breathes'! It 'inhales' fresh air—'exhales' used air—draws in fresh air that's heated in cold weather, and forces out used air."

"Have you seen that new Chevrolet truck, Mac? Here's something DIFFERENT! It's the truck with Advance Design!"

"Try that seat, Jack. It's fully adjustable. They tell me it's got 12 inches more foot room, and eight inches more seating space, too. Man, what comfort!"

"Take a look at that cab, all one piece. Not a rivet or bolt. There's 22% greater visibility—and even more with those new rear-corner windows!"

"You ought to get a look at that new frame. It's big, and it's REALLY built!"

"This beats any truck I've ever seen! Why, it's built to do ANY job!"

"The cab's specially mounted... on rubber! It practically eliminates road-shock, torsion and vibration!"

"I took a look under the hood and, boy, it's still got that valve-in-head engine! It does more work on less gas than any other engine of its size!"

*Free-air heating and ventilating system optional at extra cost.

Officers, Inspectors Clamp Down On Brake-Light Stickers

Representatives of all local authorized and licensed brake and light inspection stations in Artesia agreed at a meeting Monday evening on a strict adherence to the law in regard to inspections and joined with officers in launching a campaign to see that all motor vehicle operators in North Eddy County maintain their vehicles in accordance with the law.

The garage and service men declared that under no circumstances will they give anyone an inspection sticker unless he has complied with all phases of the safety law involved.

It was brought out by C. S. McCasland of the State Police and Deputy Sheriff J. B. Mulcock that the fact a vehicle carries a current inspection sticker does not privilege the operator to drive a faulty vehicle upon a public highway.

"The fact a car has a sticker is no license to operate a defective car," Officer McCasland said.

The campaign here launched by the licensed inspectors and officers is in line with that started last week by Sheriff Dwight Lee, who announced road blocks were to be established, so officers could inspect vehicles with hopes all might be reached.

That was before the accident Friday night. But the meeting Monday was three days after it, and the local inspectors were aroused and determined to do all in their power to eliminate as many future accidents as possible.

The officers pointed out the requirements for trucks and trailers, which include all of those imposed upon passenger cars, as well as several others. And, they said, many farmers are among the worst offenders. "There are many 'sorry' cotton trailers on our roads, without lights and with other regulations not complied with, and all are potential killers," Deputy Mulcock said.

Officer McCasland pointed out that the campaign is not one only for the present, but that it will be perpetual.

"I was sent here to do a job," he said, "and I intend to do it. However, such a job requires the co-operation of officers, courts, and the public. We are your employees; help us enforce your laws."

The seven requirements for receiving an inspection sticker for a passenger car, as pointed out at the meeting:

Windshield wiper working; clear-vision windshield; rear-view mirror; two headlights with dimmers in front and two taillights, one with a red reflector and the other white and shining on the license plate; two sets of brakes, foot and emergency, each set effective on at least two wheels; safe steering apparatus; horn in working condition.

In addition trucks and trailers must have clearance lights, three

each flag, flare, and fuses; brakes on any trailer or semi-trailer carrying a load of 1500 pounds or more, and a set of reflectors for each side, both front and rear.

The inspectors agreed on a fee of 50 cents for making an inspection, which, it was pointed out, frequently is very cheap, considering the time involved, if all requirements are not being carried out.

The penalty for issuing a sticker without seeing that the vehicle involved complies with the regulations is not less than \$50 and not more than six months in jail and the loss of inspection license. A penalty is likewise provided for a vehicle operator who attempts to obtain a sticker illegally.

In addition to the officers and license inspectors, Neil B. Watson, city attorney, had a part in the discussions.

Three Children In Vaccination Case Immunized

Three Artesia children of school age, whose parents previously had refused to submit them to vaccination, resulting in fines of \$50 each by Justice of the Peace J. D. Josey, presented certificates of vaccination Monday to Vernon Mills, principal of Central School.

The parents, F. H. Woernal, Oscar Nichols, and Mrs. Thelma Moore, when arraigned before Judge Josey Nov. 1, refused to permit to have their children vaccinated in accordance with the New Mexico laws applicable to school children. Nor did they produce certificates from a physician qualified under the law to issue such showing that vaccination would be detrimental to the health of the children.

After being fined by Judge Josey, the defendants filed notice of intention to appeal, and formal appeal bonds were filed Nov. 6, carrying the case to District Court.

Officers said that as the children have been vaccinated and proper certificates have been produced there will be no further charges, but it was not learned immediately what disposition will be made of the original fine and appeal.

The Nichols and Woernal children were vaccinated in San Antonio, Tex., where parents had gone to consult an attorney, and the Moore child was vaccinated by a local physician, according to the certificates.

Cavemen Sweep Over Bulldogs On Carlsbad Field 34-7 Friday Night

The Carlsbad Cavemen swept to a 34-7 victory over the Artesia Bulldogs at Carlsbad Friday evening playing in a chilling west wind.

Artesia scored in the final period, when Jimmie Blue and John Sudderth carried the ball in a series of plunges to the Carlsbad six and a first down, from where Sudderth drove across. Another plunge by Sudderth gave the Bulldogs the extra point.

Roy Dickson, 140-pound Carlsbad scaback, scored all five of the Cavemen's touchdowns, while Sam Etchevery made good four of five attempts to convert.

The Cavemen got a break early in the first quarter, when Sudderth, big Bulldog back, got off a poor punt and the ball went out on his 42-yard line. In just three

is' 13-yard stripe. From there Dickson knifed his way through left tackle for the touchdown.

A few moments later Blue, 170-pound Bulldog back, got off a long punt but it was nullified when Etchevery reeled off a 40-yard runback to the Artesia 38. Dickson sped around left end for a first down on the 15 and then swept the other flank for a touchdown.

Artesia came to life late in the second quarter with Blue and Sudderth plunging for a series of first downs. Jerry Everett took a pass on Carlsbad's 19, and a roughing penalty advanced the ball to the nine. Blue and Sudderth bucked the ball to the three-yard line as the half ended the threat.

The third quarter was scoreless, but the Cavemen were in a hole as the quarter ended, when Etchevery fumbled Sudderth's punt and the Bulldogs recovered on Carlsbad's 19.

The Cavemen, however held for downs and took the ball on their 16. A penalty put the ball back to the eight, Mendez cut through center, broke into the clear and raced 72 yards before he was pulled down from behind on the Artesia 20 by Don DeMars, 197-pound center. On the next play Dickson circled left end to score standing up.

With Blue and Sudderth carrying the ball, Artesia rolled up the field 60 yards on a series of line plunges for a first down on the Carlsbad six. From there Sudderth drove across and then added the extra point with a line plunge.

A fumble by Carlsbad on fourth down gave Artesia the ball in Carlsbad territory a few moments later, but Dickson pulled a Bulldog pass out of the air on his 30 and outran the pack 70 yards to score untouched.

ADVOCATE WANT ADS GET RESULTS

Advocate Coming Out Day Early For Thanksgiving

In order for the staff to observe Thanksgiving Day with the remainder of America, The Advocate will be printed a day early next week, coming out on Wednesday.

This will necessitate whole-hearted co-operation of advertisers and correspondents, all of whom are asked to move their schedules up at least a day, more if possible.

Co-operation has always been enjoyed in the past, when it was planned to step up the printing of The Advocate a full day and it is hoped everyone will comply again.

Armistice Day and the deer season, with part of the force gone the latter part of last week, have thrown schedules off somewhat, both as to last week's and this week's issues, and it is regrettable that the schedule must be thrown off a third week in succession, but it cannot be helped, provided the shop is closed for Thanksgiving—which it will be.

Military Rites Planned Friday For Pfc. Tice

Full military rites will be bestowed upon Pfc. Francis W. (Byo) Tice, who was killed in Germany March 5, 1945, at services at the Veterans Memorial Building in Artesia at 10 o'clock Friday morning, with members of the United Veterans Club in charge and Bill Dunnam serving as chaplain.

The body of Private Tice, the fourth local boy whose body has been returned home for final burial, was to arrive in Artesia by rail this morning. His is one of the first bodies to be returned from the European theater.

A son of Mrs. Nina Tice and the late Tom R. Tice, who died about 14 years ago, Francis W. Tice, was born at Hollis, Okla., Feb. 14, 1916. The family moved to Artesia about eight years ago from Lake Arthur, where they had previously moved from Oklahoma.

He was the first of the sons of Mrs. Tice to enlist, and joined the Army in October, 1940. He trained at Fort Sam Houston, Tex., and Camp McCoy, Wis., before being sent overseas.

Private Tice, who was attached to the Second Engineers Division, First Army, was wounded in Normandy in June, 1944, shortly after the D-Day invasion of France. After hospitalization in a rear sector, during which he was awarded a Purple Heart, he was returned to his old outfit, with which he was serving when killed.

Besides his mother, Private Tice is survived by his grandmother, Mrs. Mattie Williams, Lake Arthur, and 11 brothers and sisters, who are:

Mrs. Annie Lee Myers, Roswell; Homer E. Tice, Tulsa, Okla.; Mrs. Essie Roberts, Hobbs; Mrs. Lorado Adams, Lovington; A. Y. Tice, Ulysses, Kan.; Mrs. Mabel Duncan, Artesia; Mrs. Emily Hipp, Old Ocean, Tex.; Alton W. Tice, U.S. Army, Pacific theater; Tom Tice, Chicago; Ray Tice, Artesia, and Mrs. Nina Web, Okemah, Okla.

Under the custom established in Artesia by way of paying homage to the war dead brought home for final burial, business houses will be closed from 10 to 11 o'clock Friday morning.

Green Asks That Objects From Bus Be Turned In

A number of band instruments and uniforms or portions of uniforms which were in the ill-fated bus Friday night have not been recovered, and P. L. Green, Artesia High School principal, has asked that they be turned in either to his office in the high school building here or at the high school in Carlsbad.

It is not thought that anyone has picked up any object from the scene of the accident with the intention of theft, but that some persons wishing to be of assistance, uniforms, or other objects have picked them up and do not know what should be done with them.

Some such items have been turned in, but many still are missing, according to Principal Green. He said it makes no difference what condition any of the objects may be in, to turn them in so they may be accounted for. He said that if an instrument is ruined, but turned in, the owner will need worry about its whereabouts no longer if he gains possession of it.

Garden Club To Sponsor Yuletide Beautification

The Artesia Garden Club this week announced it will sponsor a citywide Christmas beautification contest and invited the co-operation of other organizations in the community.

First, second, and third prizes will be given each for the decorating of doorways and decorating windows.

The movement was started a week ago, when Mayor A. P. Mahone contributed \$25 in prize money, to be used as any committee or organization taking the lead might elect. At that time he invited others to contribute and to take part in decorating Artesia for Christmas.

The Garden Club, in announcing the sponsorship of the movement, disclosed it will give five rose bushes or shrubs as prizes.

Mrs. Virgil Jordan, chairman, said members of the Garden Club hope Artesia will take on a glamorous and festive appearance for the Christmas holidays, as this is the first year certain materials have been available since the war.

Organizations or individuals wishing to contribute to the prize list with money or otherwise were invited to contact Mrs. Jordan, Mayor Mahone, or Dave Moore, Manager of the Chamber of Commerce.

CARD OF THANKS
Words cannot express our appreciation to our friends for their flowers and kindnesses since the tragic death of our son and brother, Sam Lewis.—Mr. and Mrs. Carl Lewis and family. 47-lc

Charlie Coates, Old-Time Hope Rancher, Is Dead

Charles S. Coates, better known as Charlie Coates, 85-old-time Hope rancher, died at Artesia Memorial Hospital at 10 o'clock Monday night about five weeks after suffering a heart attack.

He was born in Louisiana Nov. 13, 1862, a son of Mr. and Mrs. Wayne S. Coates, and attended school in New Orleans. As a young man he moved to Kerens, Tex. In 1903 he and his brothers, Rush and Claude, moved to New Mexico and took up homesteads southeast of Hope, where they farmed and went into the cattle and sheep business.

However, a drought forced them out and they moved about 20 years ago to Hope, where they established Coates Brothers Service Station, which they operated until about a year ago, when they retired from active work and leased the station.

Funeral services were from the Methodist Church in Hope at 2:30 o'clock Wednesday afternoon by Rev. E. A. Drew, pastor. Burial was in Lower Hope Cemetery.

Pallbearers were Paul Beavers, Jess Musgrave, W. E. Rood, Leonard Akers, Jack Stegall, M. C. Newsom, and J. P. Menefee.

Mr. Coates, who was single, is survived by a brother, Rush B. Coates, both of Hope, and other relatives at Kerens, Tex.

Paulin Funeral Home of Artesia was in charge of the funeral arrangements.

Irby Drug Plans Grand Opening In Enlarged Store

The Irby Drug has announced that the remodeling and enlarging being done on the store in the Carper Building will be finished soon and the grand opening day will be Wednesday, Nov. 26. An extensive redecorating program has been carried out and the floor space has been enlarged to 40x80 feet.

The enlargement consists of adding to the former store space half of the former Southern Union Gas Company's office, the other half of which has been added to the Batis Food Store, giving both extended frontages. Batis is to have a reopening soon, although doing business as remodeling continues.

Modern design has been carried out through Irby Drug, with new all-glass showcases on the floor. All shelves have been designed to give the customer a full view of merchandise.

The different departments will be clearly marked so that items may be sighted easily.

A new, enlarged soda fountain, now containing a grill, has been installed, thereby affording better service as well as a larger variety. Several booths and tables have also been added to give more seating capacity.

The prescription department is now located at the rear of the store and all prescriptions will henceforth be compounded in full view of anyone wishing to watch the procedure. The drugs are kept in a dust-free cabinet which keeps the rear wall.

The enlarged floor space, the full-view showcases and shelves, and the fluorescent lighting make this one of the most modern, up-to-date drug stores.

Blessy Irby, owner and manager, has also announced that on Wednesday, Nov. 26, the grand opening day, all visitors will be asked to register their names and addresses when visiting the store. At 5 o'clock that afternoon prizes will be given away.

Bank Deposits Of Eight Million Reached Monday

For the first time in history deposits in the First National Bank of Artesia surpassed eight million dollars Monday, when the balance sheet disclosed them to be \$8,056,102.69.

This compared with deposits on Nov. 17 a year ago of \$7,486,722.64, while the highest total during 1946 was last Dec. 4, when the balance sheet showed \$7,713,548.60.

Total resources Monday were \$8,363,657.51, compared with \$7,717,311.42 a year prior, and \$6,137,507.32 two years prior.

Loans Monday were \$2,271,455.05, whereas on the same date one and two years ago they were \$1,912,089.74 and \$1,455,418.67.

Ross Sears, president of the bank, said the growth of the bank makes it necessary at this time to have 28 employees, including six officers.

He said the present banking quarters are very crowded, but that it is hoped the bank will be in its new building between Rose-lawn and Third Street on Quay Avenue for next fall's business, with ample room for all phases of the business.

'Taxpayers Pay Bill,' Priestley Says In Editorial

An editorial, "Taxpayers Pay the Bill," by Orville E. Priestley, publisher of The Advocate, on the urgency of action against the construction of the Middle Rio Grande Flood Control, Reclamation, and Rehabilitation Project, as provided in a bill introduced into the U.S. Senate by Senator Dennis Chavez of New Mexico, was received by The Advocate from the publisher's office at Las Cruces, where he is also publisher of The Sun-News, too late to run on the editorial page of this issue, but will be found on another page.

Because of the threat to the Rio Grande Valley in South New Mexico, which depends on irrigation water as does the Pecos Valley, everyone is urged to read the editorial.

Messages Of Sympathy Are Acknowledged

Many messages have been received here since the accident Friday expressing the sympathy of various communities, organizations, and individuals and addressed to officials of the Artesia school system, the Chamber of Commerce, Mayor A. P. Mahone, and The Advocate.

Typical — and perhaps closest to the children and their families involved — is one addressed "To Our Artesia Neighbors" from Irvin P. Murphy, superintendent of Carlsbad schools, and dispatched by telegram to The Advocate. It reads:

"To Our Artesia Neighbors: "No measure of Carlsbad sympathy can mollify your stark loss in the recent highway tragedy, but our students and citizens are shocked and deeply regretful. "All of us want to help in every way we can.

"We are impelled to do more and more for those who survive and for other youths.

"Sincerely yours, Irvin P. Murphy, superintendent of Carlsbad schools."

Neither space nor time permits the publication this week of more of the expressions of sympathy to the Artesia community. But school and city officials asked that public acknowledgment be made in these columns to those who have been so kind and thoughtful.

Mayor A. P. Mahone of Artesia led the Artesia community and represented it in an acknowledgment of the many messages received by the several bodies in this city.

He likewise expressed the appreciation of the Artesia community to the officials, law officers, doctors, nurses, and other citizens of Carlsbad for the co-operation and willingness to help shown by them all in Artesia's sister city of Eddy County.

Thanksgiving Vesper Services Planned Sunday

Special vesper Thanksgiving services will be held at the First Methodist Church by the choir at 4:45 o'clock Sunday afternoon under the direction of Mrs. Glenn Caskey, it was announced by Rev. C. A. Clark, pastor.

Fifteen minutes of Thanksgiving organ music will be played prior to the program proper by Mrs. Johanna Gerhardt of Carlsbad, formerly of Artesia, who also will play the offertory as guest organist.

Charles Cox, regular organist for the church, will be the accompanist for the remainder of the program.

The choir will offer anthems, Thanksgiving music, and some solos, while Miss Marietta Woodruff will whistle two solos. Miss Woodruff, a niece of Mrs. Gerhardt, also lives in Carlsbad and is formerly of Artesia.

The public is invited to attend and hear the songs of Thanksgiving offered by the choir.

DEER-HUNTER LIST BEING WITHHELD

A list of successful deer hunters is being kept at The Advocate office, but no story is being written this week because of the heavy run of news.

Such hunters or their friends are invited to call this office to report successful kills, giving, if possible, the number of points and weights.

Trio Chest Campaign To Raise \$6500 To Be Launched Tuesday

The Trio Chest Drive is to be kicked off with a breakfast for workers at Skinnier's Drive-In at 7:30 o'clock next Tuesday morning, on which day it is hoped by Hollis G. Watson and J. D. Smith, co-chairmen, to complete the campaign and reach the goal of \$6500.

It is expected upwards of 60 workers will attend the breakfast, at which they will be assigned to teams and be given prospect cards.

The co-chairmen said the funds sought will be for the Boy and Girl Scouts and the Artesia Community Chest, the only three groups participating this year, whereas a year ago the USO was also included.

The quotas for Boy and Girl Scouts have been increased somewhat because of the increase in the costs of carrying on the work and because the program has been extended to reach more boys and girls.

For the Boy Scouts the quota was set at \$3500, which is to be allocated to the Eastern New Mexico Area Council, which included the Gateway District of the Artesia Area.

The quota for the Girl Scouts is \$2000 and for the Community Chest is \$1000.

For the purpose of the campaign, which the co-chairmen hope to complete in a one-day drive Tuesday, two "ranch bosses" are to be appointed. Each of them in turn is to name four "foremen," or team captains, and they will have teams of eight workers.

Of the eight teams, two are to be composed of women, while the remainder will be business and professional men, who will give of their time in helping to put the campaign across.

The workers are to report back to the co-chairmen during the day.

Annual Christmas Seal Sale To Be Launched In Artesia Next Monday

The annual campaign for the sale of Christmas Seals to raise funds for the fight against tuberculosis will be launched in Artesia Monday, to continue until Christmas, it was announced by Mrs. Joe Nunn, chairman.

The campaign here this year is to be sponsored by the Artesia Nurse's Club, of which Mrs. Nunn and Mrs. C. G. Kinder, secretary, are members.

Plans are to mail out blocks of Christmas Seals next Tuesday to many of the local citizens. But, it was pointed out, everyone in the community cannot be reached that way, as the mailing list is not complete. So the sponsors have invited those who do not receive blocks of the seals to contact members of the Artesia Nurses' Club.

It is possible there will be some duplications made and persons receiving more than one block of seals are invited to purchase them all if they so choose, but no one is obligated.

However, members of the club urged that citizens of the community be generous in the purchase of Christmas Seals, as the money raised through their sale is used in the never-ending fight against tuberculosis.

The seals sell for a penny each, and the blocks are in 100's. They will not carry letters through the mails, but letters will carry them. Mrs. Nunn said. Such letters must in addition carry the customary postage. But the use of the seals on letters and Christmas cards helps raised funds.

The campaign nationally is sponsored by the National Tuberculosis Association, with headquarters in New York.

Reminiscence of the scene in rural America in bygone years, this year's seal symbolizes the pioneer spirit which enabled Americans to conquer a wilderness and which enables them to fight a relentless battle against a disease which kills 53,000 Americans a year.

The 41st annual Christmas Seal sale will be conducted throughout the nation from Nov. 24 until Christmas. Of the money raised in New Mexico, 95 per cent will be used within the state for local and statewide tuberculosis control projects, Mrs. Nunn said, and the other 5 per cent will be forwarded to the National Tuberculosis Association to support research and other services on a national scale.

Donald Potter, Hope Youth, Is Accident Victim

Donald Lee Potter, 18-year-old son of Mr. and Mrs. Emmett Potter of Hope, died about 8 o'clock last Thursday night between Pinon and Dunken from suffocation, after breathing gasoline fumes when a truck in which he and other deer hunters were riding overturned in the Sacramento Mountains, spilling gasoline from a drum over him.

At an inquest before Justice of the Peace W. E. Rood of Hope, it was brought out that the party was coming down from their hunting place to spend the night at the place of Paul Stephenson, brother of Clifford Stephenson of Pinon, a member of the party, when the car hit some rocks on a curve and overturned.

Members of the party said they were siphoning gasoline from the barrel of gasoline to the truck's tank while proceeding, at the time of the accident.

Testimony showed that Potter fell under the barrel and was drenched with the gasoline from the open vent. He died on the way to Dunken.

The party, consisting of Potter, Stephenson, and Doelph Crockett, Thomas Lee Harrison, and Marvin Holley of Hope, had been hunting three days.

Members of the jury, M. C. Newsom, J. C. Ward, John R. Moore, J. E. McCabe, Henry B. Jones, and John Hardin, found that young Potter "came to his death by reason of a car accident."

Donald Lee Potter, son of Mr. and Mrs. F. E. Potter, was born at Carlsbad Jan. 25, 1929. He lived at Hope nearly all his life.

Funeral services were from the Church of Christ in Hope at 2:30 o'clock Saturday afternoon by Robert A. Waller, evangelist of the Church of Christ of Artesia. Burial was in Upper Hope Cemetery.

Young Potter is survived by his parents and two brothers, James Emmett Potter of Hope and Wilbur Herbert Potter of Houston, Tex.

Funeral arrangements were in charge of Paulin Funeral Home of Artesia.

Sales At The New Stock Pavilion Start Next Week

The Artesia Livestock Sales Corporation will open its regular sales next week in the new sales pavilion north of Artesia and a quarter mile west of the Joe Nunn and Santa Fe Railway stockyards. It was announced this week by George Schneider, president, and Col. E. T. Ashby, secretary and auctioneer.

The opening sales will be Tuesday and Saturday of next week, on the first date of which cattle, hogs, sheep, and feed will be sold, to be the regular Tuesday items. The Saturday sale next week and on subsequent Saturdays will be devoted to horses, mules, farm machinery, household goods, and miscellaneous.

Feeds also will be sold on Saturdays, as well as on Tuesdays.

The present sales barn, built from surplus Army buildings at the Roswell Prisoner of War camp, is 48x100 feet, and in it is a sales ring about 20x48 feet. Seats adjacent will accommodate 500 to 600 spectators and bidders.

Outside a door are scales, which will be housed in time within a "L" to the present barn.

Outside are 24 pens, a number of which are equipped with feed and water troughs, the latter fed by city water.

A portion of the main sales pavilion is devoted to office space and a luncheon room, which is to be operated each Tuesday and Saturday during sales.

Schneider and Colonel Ashby said that although the business will be devoted principally to livestock sales, they intend to sell implements and furniture.

SCOUTS TO SPONSOR JACK FROST TRAVELOG

The Boy Scouts are sponsoring at the Veterans Memorial Building at 7:30 o'clock Tuesday evening an illustrated talk by Jack Frost of his various trips down the San Juan and Colorado Rivers by flatboat.

All Boy Scouts, Cubs, parents, and the general public are invited to attend the affair and hear Frost describe his experiences, illustrated with slides from pictures he took himself. There will be no charge.

Farmers Buy 25 Per Cent Nation's Petro Products

Twenty-five per cent of America's petroleum products are bought by farmers, making them

the nation's largest consumer group, according to D. G. Mackenzie, chief technologist of The Texas Company.

The bulk of these petroleum products goes into mechanized farm equipment. Other products are used for heating farm homes, lighting, and cooking, and still others for insecticides, fertilizers, and waterproof covering, Mackenzie declared. The farmer even takes his crops to market on roads surfaced with asphalt or impregnated with heavy oils.

Pointing out that the petroleum industry, in turn, is still very dependent on farm products, Mackenzie said one item the industry manufactures in great quantities is a grease used to lubricate the axles of the driving wheels on railroad locomotives. For that one type of grease, farms produce 20,000,000 pounds of beef tallow each year.

Furfural, a liquid extracted from corn cobs and oat hulls, is another in a long list of farm products that are useful to the petroleum industry, Mackenzie asserted.

Furfural plays an important role in a "laundry process" in the refining of petroleum, for it "washes out the constituents not wanted, and leaves a highly refined petroleum product," the oil expert said.

Worms Curtail Yield And Growth Among Chickens

Worms are a hindrance to poultry raisers because they often are responsible for reduced egg yields as well as prolonging the time required for chickens to reach marketable size. While the effect of worms on poultry is not often easy to detect, the harm done over an extended period may be of considerable importance.

Of the many types of worms known to be poultry parasites, there are but few which are numerically important enough to cause serious trouble. But these few species are found almost everywhere poultry is raised.

One of the commonest is the large roundworm. This is the worm with which most poultry-

KNOW YOUR BREED

British Percheron
By W. J. DRYDEN

The British Percheron, like the American Percheron, originally was imported from the La Perche province near Normandy, France.

First used extensively during World War I, the demand for this

type of draft horse was so great Percheron exhibited at British Percheron Horse show, Histon, Cambridge.

that by 1918 the British Percheron Horse society had been formed to encourage the breeding of Percherons for agricultural work.

The color of the British Percheron is gray or black with little white. Stallions are a minimum of 16 hands, 3 inches tall, with mares allowed 2 inches shorter.

men are familiar. It is large—1½ to 4 inches in length—and causes heavy damage when great number of them infect a flock. They are prolific breeders, female worms passing several thousand eggs daily. Under favorable conditions a small worm develops in an egg in about two weeks, and when such an egg is eaten by a chicken an adult worm develops after another five to seven weeks. This worm then hatches more eggs which the chicken passes back to the soil through the droppings.

Large roundworms, in their development in chickens, cause considerable damage to the intestinal wall. This damage frequently causes birds to become emaciated and stunts their growth. If the infection is severe enough, the bird will die.

The cecal or pinworm is a tiny worm between one-fourth and one-half inch in length. It lives in the tips or blind ends of the ceca of chickens and turkeys. While it is not especially harmful to chickens, the cecal worm or its egg acts as the carrier of blackhead organisms infecting turkeys and is often responsible for severe losses in turkey flocks. Its life cycle is similar to that of the large roundworm.

The intestinal capillaria worm is a long threadlike worm that may cause chickens to become droopy and emaciated, to develop diarrhea, and if the infection is heavy enough, to cause death losses.

The several types of tapeworms are flattened, ribbon-shaped, segmented worms that are found in the intestines of poultry. They vary considerably in size, carry both sexes in each segment, and

do not have either a mouth or intestinal tract. Flies, ants, grasshoppers, and bugs serve as intermediate hosts for tapeworm eggs, and when one of these insects is eaten by a chicken the tapeworm infection gains a foothold.

Red Cross Assumes Debt As Outright Grant, Not To Be Paid

The two Red Cross workers on duty in the office of the Percy Jones Hospital in Battle Creek, Mich., noticed a small girl who stood near the doorway looking very worried. Finally one approached her and asked, "Can I help you?" The little girl looked relieved. "Is this the place where I can get a loan? My daddy is a patient, and I came up to see him. He isn't in, and I haven't any money to get home. The elevator man said this was the place to get a loan."

The worker, thinking that the child had come from some distant city, asked how much money she would need to get home.

The little girl replied quickly, "Ten cents. I live all the way at the end of the Goodals bus line." The worker handed her a dime. "Thank you very much," the child said earnestly. "When can I repay this?"

Suppressing a smile, the worker gravely explained that in this case the Red Cross would consider the money an outright grant and would not expect to be repaid.

Feeding Stimulants To Increase Weight Utilization of Feed Profits From Dosage

Evidence that tonics and stimulants are as effective for livestock and poultry as they are for humans is contained in research conducted by Washington experiment station.

A year ago the experiment station started a feeding trial with four groups of Hereford heifers (six in each group). One group (serving as a control) was fed a basal grain ration consisting of barley, oats, beet pulp, peas and bran.

The other three groups had the same grain ration, with these additions: Lot 2, Fowler's solution (18 grams arsenic trioxide per 1,000 pounds of grain); lot 3, 300 grams of nux vomica per 1,000 pounds of grain; lot 4, 2 pounds thiouracil per 1,000 pounds of grain.

During the first two weeks of feeding, the heifers getting nux vomica (lot 3) gained 3.8 pounds per head daily; those getting Fowler's solution, 2.6 pounds; those getting thiouracil, 2.4 pounds; control animals, only .6 pounds. During the following two-week period, nux vomica steers gained 4.1 pounds; Fowler's solution, 3.1; thiouracil, 3; control, 3.

As the weeks went by, the average daily gains for all groups came closer together. Here are the rates of gain for the four groups at the end of 14 weeks: Controls (no stimulant), 2.35 pounds; Fowler's solution, 2.6 pounds; nux vomica, 2.7 pounds; thiouracil, 2.5 pounds.

The cost of feed per pound of weight gain was lowest in the nux vomica group. That is, they made better use of feed than the others.

Governor Mabry:

During the campaign last year, your supporters boasted you were a fine, upright, Christian gentleman of unimpeachable honor and integrity. They promised, if you were elected, the graft, corruption, "legalized blackmail and skulduggery," which existed under Tingley, Miles and Jack Dempsey would be abolished by you.

They confided to the church people that you hated saloons and the liquor business. You might even put them out of business, if you were elected. The simple-minded and gullible swallowed that baloney; intelligent voters regarded it as so much "hogwash" or "tripe."

Apparently, you do hate saloonkeepers and the liquor business. Even your most ardent supporters never dreamed you would try to put them out of business by making them contribute to your campaign fund. During the past few weeks, State Liquor Inspectors, who are paid by the taxpayers to attend to official business, have been sent by your administration to saloonkeepers and other liquor dealers in Eddy and Chaves Counties, and presumably in every county in the state, to collect \$50 from each of them—not for the state, but for the Democratic party—and your campaign fund.

No liquor dealers, in his right mind, is going to refuse to buy one of your so-called "Democratic Club" cards. If he did, the State Liquor Inspector could close him, or her, overnight, making them lose their entire investment.

The Republican party feels that the liquor business is a legitimate business in this state. It was made so with the help of your party, and therefore it is entitled to as much protection from the Governor and other state officials as any other business, as long as it is law-abiding.

Since you are forcing the liquor industry, a legitimate business, to pay \$50 per into your campaign fund, we cannot help but wonder, Governor, just how much of "a take" you are demanding and getting from illegal gambling joints operating throughout the state?

If your method, Governor, is that of a fine, upright Christian gentleman, maybe we'd better pick an outlaw next time. Your fund raising methods, Governor, in our opinion, are as detestable and despicable as any every employed by the late Al Capone's gangsters.

(See Carlsbad Current-Argus, Oct. 24, 30; Nov. 6, 13, and Roswell Morning Dispatch, Nov. 9, 1947, for comments on State Liquor Inspectors collecting from the liquor dealers.)

Mayhill News

(Mrs. Onie Clayton)
Mr. and Mrs. R. W. Formwalt and daughters, Helen and Virginia, were visitors in the Pecos Valley Wednesday last week.

Mr. and Mrs. Ray Smith and Mr. and Mrs. Preston Brantley visited in Artesia last Thursday.

Mr. and Mrs. Bill Mackey and children visited in the home of Mrs. Mackey's parents, Mr. and Mrs. Doyle Scott, Sunday.

Mrs. Ralph Hooten and children went to Artesia Saturday for medical attention. Mr. Hooten went to Artesia Sunday to bring his family home.

A number of lucky hunters from this district have brought home deer and turkey.

John Dove went to Roswell Monday.

Mr. and Mrs. Kenneth Potter,

BOBBY BARLEY of Hope and his first-place Jersey heifer in the recent 4-H Club and FFA show and sale at Carlsbad are shown. He is attending New Mexico A. & M. College at present. Young Barley has completed his 10th year of 4-H Club work and now has a herd of dairy cattle. He also showed the first-place fat calf in the lightweight division. Carolyn Jones of the Artesia Junior 4-H Club, who entered the 1140-pound grand champion steer was pictured in a recent issue. Her calf was bred by John Prude, whose ranch is west of Hope, and it sold to the Carlsbad Elks Club for \$1 a pound.

Jr., visited in Artesia Saturday.

Mr. and Mrs. K. R. Potter visited in Alamogordo Friday.

Mrs. Cara Curtis, Mrs. Tony Curtis, and Mrs. Josie Stirman attended the funeral of Sam Lewis, son of Mr. and Mrs. Carl Lewis, one of the victims of the Artesia bus accident, in Artesia Sunday.

Thomas Parker, who suffered a broken leg recently, is back on his job near Elk.

Mr. and Mrs. Lowell Davis and family visited in Artesia Saturday.

John M. Mershon and son,

John, went to El Paso Monday last week.

Mr. and Mrs. Edward Scott have returned from a visit in Oklahoma.

Mr. and Mrs. Cleve Dockray and Mrs. Homer Barkley visited in El Paso Saturday.

Jude Williams visited in the Veolan Curtis home Monday evening of last week.

Miss Mary Edith Dove, daughter of Mr. and Mrs. John Dove, and John Posey, son of Mr. and Mrs. Lloyd Posey, were married in a candlelight ceremony Sunday evening at the Baptist Church in Mayhill. The couple was attended by Miss Marilyn Swearingen and John Mahill. They left immediately after the ceremony for a short honeymoon trip to El Paso.

HANGAR FLYING

Bad weather was the most prominent occurrence at the airport the last week, with rain, wind, sleet, and even a little snow.

Mr. and Mrs. A. H. Hazel returned Friday evening from their deer hunt in the Capitans. They reported a fine hunt and enjoyable camping trip. Included in their party were Mr. and Mrs. B. F. Hines of Hobbs, Mr. and Mrs. William Hines of Salinas, Calif., W. E. Madden and Ennis Morgan of Odessa, Tex., Mr. and Mrs. Ray Bell of Capitán, Kenneth Nosker of Ruidoso, and Ted Heidel of Artesia.

Gene Chambers flew to Deming on business last week.

Carter Izard took his solo cross-country flight Sunday to Lubbock and Tucumcari.

William Ledbetter took his dual cross-country flight this week to Tucumcari and Lubbock.

Southard Brothers Return From Hills On Motorbikes With Deer

Going deer hunting on motorcycles would not seem the proper mode of transportation, but proved rather satisfactory for Bob and Bill Southard.

Last Saturday they proceeded from their home to a spot near Sitting Bull Falls on their motorcycles, camping equipment tied

on behind. After killing a seven-point buck Sunday, Bob, age 20, tied the deer on behind the seat of his machine and Bill, age 15, took care of the camping equipment on his.

Though the motorcycles were difficult to manage, they arrived home safely much to the amazement of many scoffers who had seen them on the way to the hunt, proving that he who laughs last, laughs best.

Farmers Buy 25 Per Cent Nation's Petro Products

Twenty-five per cent of America's petroleum products are bought by farmers, making them

the nation's largest consumer group, according to D. G. McKenzie, chief technologist of The Texas Company. The bulk of these petroleum products goes into mechanized farm equipment. Other products are used for heating farm homes, lighting, and cooking, and still others for insecticides, fertilizers, and waterproof covering, Mackenzie declared. The farmer even takes his crops to market on roads surfaced with asphalt or impregnated with heavy oils. Pointing out that the petroleum industry, in turn, is still very dependent on farm products, Mackenzie said one item the industry manufactures in great quantities is a grease used to lubricate the axles of the driving wheels on railroad locomotives. For that one type of grease, farms produce 20,000,000 pounds of beef tallow each year.

Carlsbad, N. M.

Furfural, a liquid extracted from corn cobs and oat hulls, is another in a long list of farm products that are useful to the petroleum industry, Mackenzie asserted. Furfural plays an important role in a "laundry process" in the refining of petroleum, for it "washes out the constituents not wanted, and leaves a highly refined petroleum product," the oil expert said.

Worms Curtail Yield And Growth Among Chickens

Worms are a hindrance to poultry raisers because they often are responsible for reduced egg yields as well as prolonging the time required for chickens to reach marketable size. While the effect of worms on poultry is not often easy to detect, the harm done over an extended period may be of considerable importance.

Of the many types of worms known to be poultry parasites, there are but few which are numerically important enough to cause serious trouble. But these few species are found almost everywhere poultry is raised.

One of the commonest is the large roundworm. This is the worm with which most poultry-

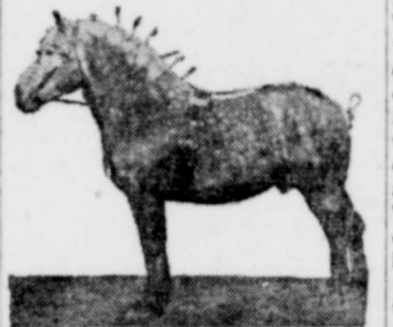

ENVOY'S DAUGHTER AND PUP — Blond, 18-year-old Sharman Douglas, daughter of Ambassador and Mrs. Lewis Douglas, holds her wire-haired puppy, Reggie, at new home at Princess Gate, London, where family settled recently.

KNOW YOUR BREED

British Percheron

By W. J. DRYDEN

The British Percheron, like the American Percheron, originally was imported from the La Perche province near Normandy, France. First used extensively during World War I, the demand for this

type of draft horse was so great Percheron exhibited at British Percheron Horse show, Histon, Cambridge.

that by 1918 the British Percheron Horse society had been formed to encourage the breeding of Percherons for agricultural work.

The color of the British Percheron is gray or black with little white. Stallions are a minimum of 16 hands, 3 inches tall, with mares allowed 2 inches shorter.

men are familiar. It is large—1½ to 4 inches in length—and causes heavy damage when great number of them infect a flock. They are prolific breeders, female worms passing several thousand eggs daily. Under favorable conditions a small worm develops in an egg in about two weeks, and when such an egg is eaten by a chicken an adult worm develops after another five to seven weeks. This worm then hatches more eggs which the chicken passes back to the soil through the droppings.

Large roundworms, in their development in chickens, cause considerable damage to the intestinal wall. This damage frequently causes birds to become emaciated and stunts their growth. If the infection is severe enough, the bird will die.

The cecal or pinworm is a tiny worm between one-fourth and one-half inch in length. It lives in the tips or blind ends of the ceca of chickens and turkeys. While it is not especially harmful to chickens, the cecal worm or its egg acts as the carrier of blackhead organisms infecting turkeys and is often responsible for severe losses in turkey flocks. Its life cycle is similar to that of the large roundworm.

The intestinal capillaria worm is a long threadlike worm that may cause chickens to become droopy and emaciated, to develop diarrhea, and if the infection is heavy enough, to cause death losses.

The several types of tapeworms are flattened, ribbon-shaped, segmented worms that are found in the intestines of poultry. They vary considerably in size, carry both sexes in each segment, and

do not have either a mouth or intestinal tract. Flies, ants, grasshoppers, and bugs serve as intermediate hosts for tapeworm eggs, and when one of these insects is eaten by a chicken the tapeworm infection gains a foothold.

Red Cross Assumes Debt As Outright Grant, Not To Be Paid

The two Red Cross workers on duty in the office of the Percy Jones Hospital in Battle Creek, Mich., noticed a small girl who stood near the doorway looking very worried. Finally one approached her and asked, "Can I help you?" The little girl looked relieved. "Is this the place where I can get a loan? My daddy is a patient, and I came up to see him. He isn't in, and I haven't any money to get home. The elevator man said this was the place to get a loan."

The worker, thinking that the child had come from some distant city, asked how much money she would need to get home.

The little girl replied quickly, "Ten cents. I live all the way at the end of the Goodals bus line." The worker handed her a dime. "Thank you very much," the child said earnestly. "When can I repay this?"

Suppressing a smile, the worker gravely explained that in this case the Red Cross would consider the money an outright grant and would not expect to be repaid.

Log-O-Life baby books. A complete record of your child's life history.—Advocate Office Supply.

Feeding Stimulants To Increase Weight Utilization of Feed Profits From Dosage

Evidence that tonics and stimulants are as effective for livestock and poultry as they are for humans is contained in research conducted by Washington experiment station.

A year ago the experiment station started a feeding trial with four groups of Hereford heifers (six in each group). One group (serving as a control) was fed a basal grain ration consisting of barley, oats, beet pulp, peas and bran.

The other three groups had the same grain ration, with these additions: Lot 2, Fowler's solution (18 grams arsenic trioxide per 1,000 pounds of grain); lot 3, 300 grams of nux vomica per 1,000 pounds of grain; lot 4, 2 pounds thiouracil per 1,000 pounds of grain.

During the first two weeks of feeding, the heifers getting nux vomica (lot 3) gained 3.8 pounds per head daily; those getting Fowler's solution, 2.6 pounds; those getting thiouracil, 2.4 pounds; control animals, only .6 pounds. During the following two-week period, nux vomica steers gained 4.1 pounds; Fowler's solution, 3.1; thiouracil, 3; control, 3.

As the weeks went by, the average daily gains for all groups came closer together. Here are the rates of gain for the four groups at the end of 14 weeks: Controls (no stimulant), 2.35 pounds; Fowler's solution, 2.6 pounds; nux vomica, 2.7 pounds; thiouracil, 2.5 pounds.

The cost of feed per pound of weight gain was lowest in the nux vomica group. That is, they made better use of feed than the others.

Governor Mabry:

During the campaign last year, your supporters boasted you were a fine, upright, Christian gentleman of unimpeachable honor and integrity. They promised, if you were elected, the graft, corruption, "legalized blackmail and skulduggery," which existed under Tingley, Miles and Jack Dempsey would be abolished by you.

They confided to the church people that you hated saloons and the liquor business. You might even put them out of business, if you were elected. The simple-minded and gullible swallowed that baloney; intelligent voters regarded it as so much "hogwash" or "tripe."

Apparently, you do hate saloonkeepers and the liquor business. Even your most ardent supporters never dreamed you would try to put them out of business by making them contribute to your campaign fund. During the past few weeks, State Liquor Inspectors, who are paid by the taxpayers to attend to official business, have been sent by your administration to saloonkeepers and other liquor dealers in Eddy and Chaves Counties, and presumably in every county in the state, to collect \$50 from each of them—not for the state, but for the Democratic party—and your campaign fund.

No liquor dealers, in his right mind, is going to refuse to buy one of your so-called "Democratic Club" cards. If he did, the State Liquor Inspector could close him, or her, overnight, making them lose their entire investment.

The Republican party feels that the liquor business is a legitimate business in this state. It was made so with the help of your party, and therefore it is entitled to as much protection from the Governor and other state officials as any other business, as long as it is law-abiding.

Since you are forcing the liquor industry, a legitimate business, to pay \$50 per into your campaign fund, we cannot help but wonder, Governor, just how much of "a take" you are demanding and getting from illegal gambling joints, operating throughout the state?

If your method, Governor, is that of a fine, upright Christian gentleman, maybe we'd better pick an outlaw next time. Your fund raising methods, Governor, in our opinion, are as detestable and despicable as any every employed by the late Al Capone's gangsters.

(See Carlsbad Current-Argus, Oct. 24, 30; Nov. 6, 13, and Roswell Morning Dispatch, Nov. 9, 1947, for comments on State Liquor Inspectors collecting from the liquor dealers.)

...MORE CIRCUITS TO CARRY YOUR TELEPHONE CALLS

Maintaining, improving and adding to the vast network of local and long distance telephone lines is a job that goes on day by day, year in and year out. Since the end of the war 33,245 circuit miles of long distance lines have been added in the area we serve, and urban lines are being added at a pace to match the installation of central office equipment.

Poles, wire, cable, switchboards and other central office equipment—these will be added continuously until everyone can have the kind of service he wants, when it is wanted.

A MAN OF THE WORLD

Yes, and we mean in an important sense, for the eyes of the World are upon him.

He is the American farmer.

He, alone, among the farmers of the major nations, is able to feed his own countrymen and hungry millions in other lands. Last year he sent 20 million tons of food abroad while maintaining our own diet level—already the best in the world.

This high production efficiency—achieved by the persistent application of new tools and scientific discoveries—must be maintained in months to come. For food is still fighting for peace.

And so is steel.

Steel companies, which already have set new peacetime production records, are spending more than one billion dollars on improvements and expansion to meet the needs of reconstruction abroad and our expanding economy at home.

Through steel and farm production lies a great source of American strength. And only the strong can hope to keep the peace.

NOTICE OF PROPOSED IMPROVEMENTS OF CERTAIN STREETS, AVENUES AND ALLEYS WITHIN THE CITY OF ARTESIA, NEW MEXICO, AND OF THE TIME AND PLACE OF A HEARING AS TO THE PROPERTY AND ADVISABILITY OF MAKING SUCH IMPROVEMENTS, AS TO THE COST THEREOF, AS TO THE MANNER OF PAYMENT THEREOF, AND AS TO THE AMOUNT THEREOF TO BE ASSESSED AGAINST THE PROPERTY SO IMPROVED.

TO THE PROPERTY OWNERS AND TO WHOM IT MAY CONCERN: You are hereby notified as follows:

That, on the 13th day of August, 1947, the City Council of the City of Artesia, New Mexico, determined that the interests of the City require that the following streets, avenues, alleys and intersections within the said City should be graded, paved, curved and otherwise improved, to wit:

- 1. Washington Avenue from the west line of Fourth Street to the City limits on the west.
2. Dallas Avenue from the west line of Ninth Street to the City limits on the west.
3. Missouri Avenue from the west line of Tenth Street to the City limits on the west.
4. Grand Avenue from the west line of Eleventh Street to the City limits on the west.
5. Fifth Street from the north line of Washington Avenue to the south line of Dallas Avenue.
6. Sixth Street from the south line of Park Avenue to the south line of Washington Avenue; from the north line of Washington Avenue to the alley between Washington Avenue and Dallas Avenue.
7. Seventh Street from the north line of the Alta Vista Addition to the south line of Washington Street; from the north line of Washington Street to the south line of Dallas Avenue.
8. Eighth Street from the north line of Washington Avenue to the south line of Dallas Avenue.
9. Ninth Street from the north line of Alta Vista Addition to the south line of Washington Avenue; from the north line of Washington Avenue to the south line of Dallas Avenue.
10. Tenth Street from the north line of Washington Avenue to the south line of Dallas Avenue; from the north line of Dallas Avenue to the south line of Missouri Avenue.
11. Eleventh Street from the north line of Washington Avenue to the south line of Dallas Avenue; from the north line of Dallas Avenue to the south line of Missouri Avenue; from the north line of Missouri Avenue to the alley between Missouri Avenue and Grand Avenue.
12. Twelfth Street from the north line of Washington Avenue to the south line of Dallas Avenue; from the north line of Dallas Avenue to the south line of Missouri Avenue; from the north line of Missouri Avenue to the south line of Grand Avenue; from the north line of Grand Avenue to the south line of Richardson Avenue.
13. Park Avenue from the east line of Second Street to the west line of First Street; from the east line of Second Street to the west line of First Street.
14. Quay Street from the west line of 11th Street to the south line of Main Street.
15. Chisum Street from the west line of Fourth Street to the east line of Tenth Street.
16. Fourth Street from the north line of Chisum Street to the south line of Adams Avenue.
17. Fifth Street from the north line of Texas Avenue to the south line of Chisum Street.
18. Sixth Street from the north line of Texas Avenue to the south line of Chisum Street.
19. Ninth Street from the north line of Texas Avenue to the south line of Chisum Avenue.
20. Texas Avenue from the west line of Ninth Street to the east line of Tenth Street.
21. Tenth Street from the alley between Main Street and Texas Avenue to the south line of Chisum Avenue.
22. Osborne Street from the north line of Lot 5 of Keller and Ragsdale Addition to the south line of Chisum Avenue.
23. Eleventh Street from the north line of Main Street to the south line of Chisum Avenue.
24. Twelfth Street from the north line of Main Street to the south line of Chisum Avenue.
25. Merchant Avenue from the west line of Eleventh Street to the east line of Twelfth Street; from the west line of Twelfth Street to the City limits on the west.
26. The alley between Quay Street and Main Street from the west line of First Street to the east line of Sixth Street.
27. The alley between Main Street and Texas Street from the west line of First Street to the east line of Sixth Street.
28. Shearman Street from the east line of Roselawn Avenue to the west line of Second Street; from the east line of Second Street to the west line of First Street.
29. Roselawn Avenue from the north line of Moseley Avenue to the south line of Logan Avenue.
30. First Street from the north line of Center Street to the south line of the bridge over Eagle Draw.
Pavement to be six inch gravel base with a two inch asphaltic wearing surface, or a double penetration asphaltic wearing surface. Curb and gutters to be concrete.
Alley pavement to be Portland Cement Concrete.
That Classen and Rowland, engineers for the City, have fully complied with all of the requirements and have prepared and presented estimates, plans and specifications for said improvements to the City Council of the said City, all of which were accepted, approved and ordered filed in the office of the City Clerk, reference to which is specifically made and the same made a part hereof as if set forth at length herein.
That the total estimated cost of improving said streets, avenues and alleys is \$243,305.00, and that it is proposed to assess the cost of improving said streets, avenues and alleys above specified (not including intersections) upon all of the property fronting or abutting upon said specified streets, avenues and alleys; provided that in the case of lots or parcels of land of irregular shape or of less than the regular length, the City Council shall determine what property should be assessed for the cost of improving such lots or parcels, and to make equitable assessments against such property as shall be determined to have been benefited by such improvements.
That the cost of paving intersections shall be assessed upon the property abutting thereon within one-half block from such intersection.
That it is proposed to permit the assessments for said improvements to be payable in ten (10) installments, the first of which shall be due and payable on or before one year after the publication of an Ordinance levying such assessments, and one installment shall be due and payable each year thereafter until all of said installments are paid in full. Unpaid assessments and deferred installments will bear interest from the date the assessing Ordinance becomes effective, at the rate of six percent (6%) per annum, payable semi-annually.
That the property proposed to be assessed for such improvements is described as follows:

Table with columns: Name of Street, Addition, Block Lot No., Owner, and assessment details. Includes entries for Washington Forest Hill, Dallas Forest Hill, Missouri Forest Hill, and others, listing owners like Fruto De Cota, Frank Duran, John J. Stevens, etc.

Table listing property owners and addresses, including names like Tyler Subdiv., Roselawn-Lincoln Fairview, and Blair.

Table listing property owners and addresses, including names like Frances W. Collins, V. D. Bolton, and various street names like N-60-ft.

Table listing property owners and addresses, including names like Howard Whitson & Robt. F. McQuay, Clayton & Stegman Addition, and various street names like Alley North Main.

The manner of payment therefor, and as to the amount thereof to be assessed against the property abutting thereon or benefited thereby.

Notice is further given that any property owner or other person interested therein desiring to be informed in advance of the probable cost of improvements to be assessed against his property...

This notice is given by authority of the City Council of the City of Artesia, New Mexico, this 8th day of October, A.D., 1947.

T. H. Ragsdale, City Clerk.

IRBY DRUG

Your Drug Store in the Carper Building

PROUDLY ANNOUNCES

**The Official Opening of Artesia's Finest Drug Store
Wednesday, November 26 10 A. M.**

WITH AN 8-POINT PROGRAM

In presenting this 8-point program to you we have had but one thought in mind—Better service at as low a cost to our customers as possible. Our business has grown steadily since we came to Artesia and we are deeply grateful to the people of this trade territory for your support and patronage. It has been you who made it possible for us to bring this type of drug store to Artesia. We have quite a sizeable investment in this drug store and have not hesitated to increase that investment where we have thought that the service, efficiency and beauty were enhanced. We made this investment because we had confidence in this community and we know that the people of this trade area deserve and would support a drug store of this type. This 8-point program is your program, conceived and designed wholly for you.

Here are the 8 points and what they mean to you:

1-Giving You the Finest Drug Store in New Mexico.

We challenge any other drug store in New Mexico for sheer beauty, design and arrangement. Ultra modern, yet the simplicity, the roominess (40x80 feet) and the eye-level display of merchandise is a most pleasing surprise as you enter this new drug store through either the north or south door.

2-We Are Going "Fair Trade"

This means that here at Irby Drug you can buy drug items at a price equally as low as any other place in New Mexico. This means to you a saving from as much as 10 to 18 per cent on your drug needs. This is not CUT RATE, but quite definitely "FAIR RATE" by a FIRST RATE DRUG STORE.

3-Semi Self-Service

Our method of display and our "spaciousness" makes it possible for you to "browse" about this modern drug store and make your own selection from the plainly priced items. We want you to do this, for we have designed this store for but one purpose—ease of service to you.

4-Departmentalization

The Irby Drug Store has been "sectionalized" or divided into departments, plainly identified by appropriate signs above each section, making it much easier to guide yourself to the proper item for quick service, sections marked as follows: Cosmetics, Toiletries, Baby Needs, Drugs, Prescriptions, First Aid Supplies, Feminine Hygiene, Gift Department, For Men, Tobaccos and Candy.

5-The Most Complete and Up-to-Date Cosmetics Department

In Artesia, Irby Drug is particularly proud of this department. We have a lady in charge of our cosmetics Department who will sincerely try to help you with your cosmetics problems. We offer you the following choice and exclusive lines that can only be bought in Artesia at Irby Drug: Helena Rubenstein, Elizabeth Arden, Prince Matchabelli, Barbara Gould, Daggett & Ramsdell, Peggy Sage, Herd Farms, Sportsman. We also carry all nationally advertised lines, such as Coty, Max Factor, Ponds, La Cross, Armand, etc.

6-A New, Modern, Open Prescription Department

While our drugs are completely inclosed in a clean, dust-free cabinet, we prepare your prescription right out in full view of anyone who might care to watch us compound prescriptions. This is the most modern, the cleanest and the most sanitary prescription department in New Mexico. Besides, it is very attractive. This is our pride and joy and once you have seen this department you will not be satisfied with having your prescriptions filled in a less modern prescription department.

7-Fountain and Sandwich Service

Our clean, modern and efficient fountain service has now been enlarged to include a grill. We serve many types of sandwiches, over 20 of them, plus Hot Dogs, Hamburgers, Chili and Soups. You will like this service at Irby Drug. It's clean.

8-Weekly Specials

Each week the Irby Drug "Bargain Counter" will be loaded with a limited amount of "Bargain Specials" which will definitely save you money. Do not fail to visit this counter. This will be a weekly feature.

FROM 10 A. M. TO 4 P. M. WILL BE VISITING TIME

The Irbys and the Store Personnel Invite You to Be Their Guests. Come in and Register

Valuable Prizes Will Be Given Away

We Will Not Try to Sell You Anything—We Just Want You to See Your Drug Store. We Are Proud of It and We Think You Will Like It Too.

See Ad on Opposite Page

FUTURE KING AND FAMILY—Prince Carl Gustaf, 14 months old, of Sweden, with mother, widowed Princess Sibylla, and sisters (left to right), Desiree, Birgitta, Christina and Margaretha. His father, Prince Gustaf, died in plane crash last January. The boy is in line for throne after grandfather, Crown Prince Gustaf Adolf, and great-grandfather, King Gustaf V.

**ed For Saving
ore Used Fats
Even Greater**

eed for American women
ve used kitchen fat is made
more urgent by the govern-
y announcement that it will

ship*abroad, during the last three
months of this year, more fat and
oils than were exported during
the entire first half of 1947.

The Department of Agriculture
will ship to foreign countries 452
million pounds of fats and oils—
a staggering total of nearly 96
million pounds more than was
shipped during the first half of
this year.

For the last five years, the U.S.
has shipped abroad more fats and
oils than it has brought in from
other countries. This year, the
U.S. will send to other countries
more than a billion pounds of fats
and oils, almost 10 per cent of to-
tal U.S. production.

This is in sharp contrast to the
prewar days when the U.S.
brought in from Asia, Africa, Eu-

rope and the Philippines two bil-
lion pounds of fats and oils more
than it shipped abroad.

Currently, it is estimated that
the world is short nearly eight bil-
lion pounds of fats and oils. There
are a number of reasons for this
shortage. In Europe the war and
its aftereffects such as inflation,
low production because of the
lack of industrial machinery, and
much smaller shipments of food
and other vital materials from
southeast Asia and Eastern Eu-
rope, have created a critical short-
age of fats and oils among other
things.

**Rierson Warns
About Dangers
Of Insecticides**

County Agent Dallas Rierson
warned farmers to be extremely
careful when using flammable in-
secticides to spray barns, corn
cribs, and grain storage. Carbon
bisulfide or "high life," as it is
commonly called, is one of the
most dangerous sprays, he said.
This insecticide is more explosive
than gasoline and it can ignite
from the heat of a pipe stem.

If flammable fumigants and in-
secticides must be used, the coun-
ty agent pointed out, they should
never be kept inside of a building
housing persons or animals. Nev-
er, under any circumstances,
should anyone strike a match
within 10 feet of a building which
is being fumigated, Rierson said.
"When using these flammable

TWINS AT MILK FESTIVAL—Carolyn and Marilyn Vallem, 17-month-old twins of Rockford, Ill., dip straws into a milk bottle at annual Milk Day Celebration at Harvard, Ill.

insecticides," Rierson said, "be
sure there is an approved fire ex-
tinguisher handy. There are ex-
tinguishers especially designed to
put out chemical fires quickly and
effectively."

The county agent cautioned
against using insecticides which
produce harmful fumes. He ex-
plained that the gasses or fumes
set up by some fumigants can
cause a serious lung condition
that often results in death. Farm-
ers should be very wary about
purchasing fumigants and insecti-
cides that do not bear the Under-
writers' Laboratory seal, the coun-
ty agent said.

Sprays which have a fire hazard
less than kerosene are considered
safe, Rierson added. Nevertheless,
a fire extinguisher near by pro-
vides necessary protection. Be
prepared for fire, he said.

**CONSERVATION IMPORTANT
IN FRANCE TOO**

Frenchmen too have had to con-
serve their soils. After hundreds
of years of experience, they de-
scribe its importance this way:
"Our soil is our country; to save
one is to save the other."

Will pay cash for clean cotton
rags.—Advocate office.

**Deer Hunters Find
Ammunition Hanging
In Guadalupe Tree**

Ammunition has been rather
scarce for deer hunters this sea-
son, but according to Jay Good-
rich he found it growing on trees.
While deer hunting in the Guad-
alupe Mountains, Goodrich and
two companions found about five
feet of 50-caliber machine gun
ammunition hanging in a tree.
The ammunition was split up
among the tree hunters and Good-
rich brought his in for display in
The Advocate window. The only
drawback was that they didn't
happen to have a 50-caliber ma-
chine gun along, so could not use
the rounds for deer hunting.

Eleven per cent of U.S. farms
had electricity in 1935, but 37 per
cent were electrified in 1943.

The area drained by the Mis-
sissippi River system is the great-
est fertile plain on earth.

U.S. farm woodlots cover about
126 million acres, the largest
acreage being in the eastern half
of the country.

About 35 per cent of the areas
of the 24 U.S. national parks are
timbered, representing about 19
million acres of forest land.

The United States uses about
500 million fence posts a year,
enough to build 1,500,000 miles of
fence.

IRBY DRUG

Your Drug Store in the Carper Building

PROUDLY ANNOUNCES

The Official Opening of Artesia's Finest Drug Store
Wednesday, November 26 10 A. M.

WITH AN 8-POINT PROGRAM

In presenting this 8-point program to you we have had but one thought in mind—Better service at as low a cost to our customers as possible. Our business has grown steadily since we came to Artesia and we are deeply grateful to the people of this trade territory for your support and patronage. It has been you who made it possible for us to bring this type of drug store to Artesia. We have quite a sizeable investment in this drug store and have not hesitated to increase that investment where we have thought that the service, efficiency and beauty were enhanced. We made this investment because we had confidence in this community and we know that the people of this trade area deserve and would support a drug store of this type. This 8-point program is your program, conceived and designed wholly for you.

Here are the 8 points and what they mean to you:

1-Giving You the Finest Drug Store in New Mexico.

We challenge any other drug store in New Mexico for sheer beauty, design and arrangement. Ultra modern, yet the simplicity, the roominess (40x80 feet) and the eye-level display of merchandise is a most pleasing surprise as you enter this new drug store through either the north or south door.

2-We Are Going "Fair Trade"

This means that here at Irby Drug you can buy drug items at a price equally as low as any other place in New Mexico. This means to you a saving from as much as 10 to 18 per cent on your drug needs. This is not CUT RATE, but quite definitely "FAIR RATE" by a FIRST RATE DRUG STORE.

3-Semi Self-Service

Our method of display and our "spaciousness" makes it possible for you to "browse" about this modern drug store and make your own selection from the plainly priced items. We want you to do this, for we have designed this store for but one purpose—ease of service to you.

4-Departmentalization

The Irby Drug Store has been "sectionalized" or divided into departments, plainly identified by appropriate signs above each section, making it much easier to guide yourself to the proper item for quick service, sections marked as follows: Cosmetics, Toiletries, Baby Needs, Drugs, Prescriptions, First Aid Supplies, Feminine Hygiene, Gift Department, For Men, Tobaccos and Candy.

5-The Most Complete and Up-to-Date Cosmetics Department

In Artesia, Irby Drug is particularly proud of this department. We have a lady in charge of our cosmetics Department who will sincerely try to help you with your cosmetics problems. We offer you the following choice and exclusive lines that can only be bought in Artesia at Irby Drug: Helena Rubenstein, Elizabeth Arden, Prince Matchabelli, Barbara Gould, Daggett & Ramsdell, Peggy Sage, Herd Farms, Sportsman. We also carry all nationally advertised lines, such as Coty, Max Factor, Ponds, La Cross, Armand, etc.

6-A New, Modern, Open Prescription Department

While our drugs are completely inclosed in a clean, dust-free cabinet, we prepare your prescription right out in full view of anyone who might care to watch us compound prescriptions. This is the most modern, the cleanest and the most sanitary prescription department in New Mexico. Besides, it is very attractive. This is our pride and joy and once you have seen this department you will not be satisfied with having your prescriptions filled in a less modern prescription department.

7-Fountain and Sandwich Service

Our clean, modern and efficient fountain service has now been enlarged to include a grill. We serve many types of sandwiches, over 20 of them, plus Hot Dogs, Hamburgers, Chili and Soups. You will like this service at Irby Drug. It's clean.

8-Weekly Specials

Each week the Irby Drug "Bargain Counter" will be loaded with a limited amount of "Bargain Specials" which will definitely save you money. Do not fail to visit this counter. This will be a weekly feature.

FROM 10 A. M. TO 4 P. M. WILL BE VISITING TIME

The Irbys and the Store Personnel Invite You to Be Their Guests. Come in and Register
Valuable Prizes Will Be Given Away

We Will Not Try to Sell You Anything—We Just Want You to See Your

FUTURE KING AND FAMILY— Prince Carl Gustaf, 14 months old, of Sweden, with mother, widowed Princess Sibylla, and sisters (left to right), Desiree, Birgitta, Christina and Margaretha. His father, Prince Gustaf, died in plane crash last January. The boy is in line for throne after grandfather, Crown Prince Gustaf Adolf, and great-grandfather, King Gustaf V.

rope and the Philippines two billion pounds of fats and oils more than it shipped abroad. Currently, it is estimated that the world is short nearly eight billion pounds of fats and oils. There are a number of reasons for this shortage. In Europe the war and its aftereffects such as inflation, low production because of the lack of industrial machinery, and much smaller shipments of food and other vital materials from southeast Asia and Eastern Europe, have created a critical shortage of fats and oils among other things.

Rierson Warns About Dangers Of Insecticides

County Agent Dallas Rierson warned farmers to be extremely careful when using flammable insecticides to spray barns, corn cribs, and grain storage. Carbon bisulfide or "high life," as it is commonly called, is one of the most dangerous sprays, he said. This insecticide is more explosive than gasoline and it can ignite from the heat of a pipe stem. If flammable fumigants and insecticides must be used, the county agent pointed out, they should never be kept inside of a building housing persons or animals. Never, under any circumstances, should anyone strike a match within 10 feet of a building which is being fumigated, Rierson said. "When using these flammable

ed For Saving re Used Fats Even Greater

need for American women we used kitchen fat is made more urgent by the government's announcement that it will

ship abroad, during the last three months of this year, more fat and oils than were exported during the entire first half of 1947.

The Department of Agriculture will ship to foreign countries 452 million pounds of fats and oils—a staggering total of nearly 96 million pounds more than was shipped during the first half of this year.

For the last five years, the U.S. has shipped abroad more fats and oils than it has brought in from other countries. This year, the U.S. will send to other countries more than a billion pounds of fats and oils, almost 10 per cent of total U.S. production.

This is in sharp contrast to the prewar days when the U.S. brought in from Asia, Africa, Eu-

insecticides," Rierson said, "be sure there is an approved fire extinguisher handy. There are extinguishers especially designed to put out chemical fires quickly and effectively."

The county agent cautioned against using insecticides which produce harmful fumes. He explained that the gasses or fumes set up by some fumigants can cause a serious lung condition that often results in death. Farmers should be very wary about purchasing fumigants and insecticides that do not bear the Underwriters' Laboratory seal, the county agent said.

Sprays which have a fire hazard less than kerosene are considered safe, Rierson added. Nevertheless, a fire extinguisher near by provides necessary protection. Be prepared for fire, he said.

Loco Hills Items

(Mrs. Earl Smith)
Recent guests in the home of Mr. and Mrs. Garel Westall were Mrs. George Westall and daughter, Ann, of Ruidoso and Mrs. Don Hudgens and children, Gerry and Gale, of Lovington.
Mrs. Ed Havens and children of Artesia and Mrs. Pat Murphy of Lovington have been visiting Mrs. Jack Phillips.
Mr. and Mrs. John Haney and daughter and her husband of Eunice visited here last Thursday.

Mr. and Mrs. J. W. Arnold and daughter, Sandra Kay, of Beebe, Ark., have been visiting Mr. Arnold's sister, Mrs. Alvin Bland, and family.
Mr. and Mrs. Hal Hamill and son have returned from Coalgate, Okla., after visiting Mrs. Hamill's parents.
Mrs. Barton Merchant, of Sundown, Tex., formerly from here, has recovered from her recent operation.
Mrs. Lynn Northcutt of Albuquerque is visiting her mother, Mrs. T. H. Burrows of Artesia, and her sisters, Mrs. L. E. Van-

derver and Mrs. Alfred Rutledge of Loco Hills.
Mrs. T. H. Burrows of Artesia has been ill, and her daughter, Mrs. Alfred Rutledge, has been staying with her.
Mrs. J. H. Stulting of Comfort, Tex., arrived last Thursday to visit her son, John Stulting, and family.
Miss Bonnie Seal of Chowchilla, Calif., arrived Staraday to visit her sister, Mrs. Herschell Moye, and family of the Oilfield Service Camp.
Mrs. W. A. Lloyd of the old Illinois field was a guest Sunday of Mrs. Carl Foster of Artesia.

PICTURED HERE are Sonny Garner, Artesia 4-H Club boy, left, and his three Southdown ewes, won through the Sears Foundation contest, which he entered in the recent 4-H Club and FFA show and sale at Carlsbad. The other boys holding ewes are Tommy Price and Jim Thomas.

accordance with Chapter 131 of the Session Laws of 1931, C. C. Grimlan of Artesia, County of Eddy, State of New Mexico, made application to the State Engineer of New Mexico for a permit to change location of well and place of use of 30 acrefeet per annum of the shallow ground waters of the Roswell Artesian Basin by abandoning the use of well No. RA-1382, located at a point in the SW 1/4 NE 1/4 SE 1/4 of Section 7, Township 17 South, Range 26 East for the irrigation of 10 acres of land described as the SE 1/4 NE 1/4 SE 1/4 of said Section 7, and drilling a new shallow ground water well 12 inches in diameter and approximately 150 feet in depth at a point in NW 1/4 NW 1/4 SW 1/4 of Section 8, Township 17 South, Range 26 East, N.M.P.M. for the irrigation of 10 acres of land described as the SW 1/4 NW 1/4 SW 1/4 of said Section 8.
Any person, firm, association, corporation, the State of New Mexico or the United States of

America, deeming that the granting of the above application will be truly detrimental to their rights in the waters of said underground source, may protest in writing the State Engineer's granting of approval of said application. The protest shall set forth all protestant's reasons why the application should not be approved and shall be accompanied by supporting affidavits and by proof that a copy of the protest

has been served upon the protestant. Said protest and proof service must be filed with the State Engineer within ten days after the date of the publication of this notice. If protested, the application will be given final consideration for approval by the State Engineer on the 12 day of December, 1947.

J. L. Taylor has completed a water well on his farm.
Mr. and Mrs. John McCauley of Maljamar were guests Sunday of Mr. and Mrs. W. M. McCauley and family.
Mrs. Noah Buck left Saturday morning for Santa Fe to visit relatives and friends.
Members of the Cottonwood Woman's Club held a food sale in Artesia Saturday.
Mr. and Mrs. W. F. Pierce and Mr. and Mrs. Joe Hargens of Bardwell, Tex., visited Mr. and Mrs. W. M. McCauley last week. They also visited in Ruidoso and Cloudford.

Cunningham Is Presented Pin By DAV On Monday

At its regular meeting Monday night in the Veterans Memorial Building, Donald S. Simons Chapter No. 19, Disabled American Veterans, voted to accept the membership of Claiborne Buckner and Marshall Belshe, donated \$25 to the veterans' emergency relief fund, presented Wade C. Cunningham a past commander's badge, then topped it all off with coffee and doughnuts after the meeting.
The relief fund will be augmented by \$25 from Clarence Kipple Post, American Legion, and, it is understood, Lloyd W. Evans Post, Veterans of Foreign Wars, will contribute a like sum. A relief committee representing the three organizations will use the money for emergencies of distressed veterans.
Presentation of the badge to Cunningham came as a surprise to him, as he did not know he was entitled to it. He served as commander for a short time during the organizational period of the chapter, and since has been one of its most loyal and faithful members.
After the presentation to Cunningham, Bill Dunnann announced that two wheelchairs have been ordered and will be placed at the disposal of the chapter as soon as they arrive. Upon their arrival an announcement giving the name of the donor and their use will be made. "However," Dunnann said, "this much appears certain, they will be placed at the disposal of non-veterans also, probably with veterans having a priority."

Cunningham Is Presented Pin By DAV On Monday

I Want A Home

I am a 1947 Car.
I was built by a famous automobile manufacturer.
I was sold to one of their authorized dealers.

This dealer delivered me to a new owner for \$1362.10.
My new owner didn't need me very badly.
At least he sold me to another dealer for \$1700.00.

Then some fellow bought me at an auction sale for \$1920.00.
We started south and west.
Somewhere down the way we stopped for another sale
I heard the auctioneer shout "sold to the man over there"
For \$2250.00.

I am now on a big lot with a price tag of \$2475.00.
(Gee I must be improving with age.)
I have never been registered.
I know I am in good shape because I already been 1813 miles
(maybe all of that doesn't show.)
I've been tried at all speeds and by 5 different drivers.
I look like I am brand new.

Won't Somebody Please Buy Me For Keeps?

NOTE:
We don't have this car but we saw it yesterday.
You can buy it almost anywhere but just in case you don't like that kind of business

We Can Keep Your Old Car in Shape Until We Can Deliver You a New One at a Decent Price

GREETINGS:
 YOU AND EACH OF YOU ARE HEREBY NOTIFIED that there has been filed in the District Court of Eddy County, State of New Mexico, a certain cause of action wherein Thomas C. Bogle is the plaintiff and you, and each of you, are defendants, the same being Cause No. 10279 on the Civil Docket. The general objects of said action are to quiet and set at rest the plaintiff's title, in fee simple, to the following described property situated in Eddy County, New Mexico, to-wit:

Right of Way, and SE $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 4, Township 16 South, Range 26 East, N.M. P.M.
 Tract 4: E $\frac{1}{2}$, E $\frac{1}{2}$ NW $\frac{1}{4}$ and NE $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 10, Township 16 South, Range 26 East, N.M.P.M.
 Tract 5: That portion of the E $\frac{1}{2}$ SW $\frac{1}{4}$ and SE $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 11 lying West of the Pecos River; and W $\frac{1}{2}$ W $\frac{1}{2}$ of Section 11, Township 16 South, Range 26 East, N.M. P.M.
 Tract 6: W $\frac{1}{2}$, W $\frac{1}{2}$ SE $\frac{1}{4}$ and SW $\frac{1}{4}$ NE $\frac{1}{4}$ of Section 14, Township 16 South, Range 26 East, N.M.P.M.
 Tract 7: E $\frac{1}{2}$ of Section 15, Township 16 South, Range 26 East, N.M.P.M., except 15 acres West of Drainage Canal in the SW $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 15.
 Tract 8: W $\frac{1}{2}$ NW $\frac{1}{4}$ NE $\frac{1}{4}$ of Section 23, Township 16 South, Range 26 East, N.M. P.M.
 Tract 9: All that part of the SE $\frac{1}{4}$ of Section 22, Township 16 South, Range 26 East, N.M.P.M., lying East of The Drainage Canal, save and except all oil, gas and other minerals, in, under, and that may be produced from said land, heretofore reserved.
 YOU AND EACH OF YOU ARE FURTHER NOTIFIED that

unless you enter your appearance or plead herein on or before the 5th day of January, 1948, the plaintiff will make application to the Court for a judgment by default and judgment by default will be rendered against you, and each of you, as prayed for in said Complaint.
 The name of the plaintiff's attorney is John E. Cochran, Jr. whose Post Office Address is Box 128, Artesia, New Mexico.
 Witness my hand and the seal of the District Court of Eddy County, on this the 15th day of November, 1947.
 Marguerite E. Waller,
 District Court Clerk,
 Carlbad, New Mexico
 (SEAL) 47-4-50

automatic controls...
 smokeless broiling...
 easier,
 faster,
 cleaner cooking!

They're new... they're wonderful! This ROPER automatic Gas range is just one of the dozens of new fully automatic Gas ranges built to "CP" standards. Whichever "make" you choose for your "New Freedom Gas Kitchen," look for this "CP" seal!

you get *everything* in the amazing new **GAS** ranges!

lights without matches

Oven, broiler, top burners—everything lights automatically! And no other cooking fuel is as fast—as responsive—as Gas. You can turn from high-boil to simmer in a split second!

broils without smoking

Sizzling steaks... tender lamb chops... this is char type broiling as only the quick, clean Gas flame can do it. And it's easier to clean up afterward! Just lift the broiler out and wash it as you would a plate!

even cooks a meal while you're out of the house!

Set the automatic clock control... Gas turns on at right time, heats over to right temperature, turns itself off!

Only Way to "Handle" Poison Ivy

Every now and then, Doc Hollister gets a serious case of poison ivy—like the time Ma Hoskins couldn't play the organ—and I run a notice in the paper, suggesting folks check up around their places for signs of the weed.
 That's all that's necessary. Everybody makes a careful check, and usually it's just a single patch that needs uprooting. Because vigilance keeps poison ivy down, the way it controls everything else.
 Take our Better Business Bureau... or the Brewers' Program of "Self Regulation." The Brewers are

anxious to keep undesirables out of the "field," so they keep a constant check on taverns selling beer. If there are any signs of "poison ivy" they see that the offending tavern gets cleaned up... or reported to law enforcement agencies.
 Naturally, the tavern keeps co-operate. And as a result any "poison ivy" is a rare exception. Because, as I say, vigilance is a mighty effective control.

Joe Marsh
