Flag, Pet Airport Deer, Is Shot By Someone Out Of Pure Cussedness

Flag, the Artesia municipal airport fawn deer, which was raised by Mr. and Mrs. A. H. (Sug) Hazel, was found dead Saturday morning in the pasture west of the airport, shot through the heart.

DAMAGE IS SLIGHT IN FIRES WEDNESDAY

Artesia firemen responded to two alarms within 15 minutes Wednesday, but in neither fire did damage amount to much.

Industrial-Economic Survey To Be Comprehensive

An industrial and economic survey of the City of Artesia, Eddy County, and Artesia's local trade area, which is being made under contract for the Artesia Chamber of Commerce by Burt C. Blanton, consulting industrial engineer and business economist of Dallas, Texas, is now under way and will be completed in approximately seven months.

Other major divisions of the report will include: Number and distribution of inhabitants, composition and characteristics of the population, occupations of inhabitants, civic considerations, economic factors, educational facilities, climatic conditions, financial considerations, real estate considerations, labor considerations, transportation facilities, manufacturing and processing industries, retail and wholesale trade and service business, market considerations, potentialities of the area, public utilities, manufacturing facilities, new types of industries recommended for location in or adjacent to the city.

Committees will be appointed where necessary by the Artesia Chamber of Commerce to work with Blanton in connection with field work on the survey-project, making investigations, and compilation of data and information. The Artesia Chamber of Commerce will handle requests from business, commercial, and industrial enterprises in the city of Artesia.

Loco Hills Items

Mrs. R. E. Thomas returned last Thursday after visiting relatives in Texas. Mrs. G. C. Kinder, the school health nurse, visited Loco Hills School Monday. Mr. and Mrs. Homer Short gave an April Fool dance in their home last Thursday. About 30 guests enjoyed the dancing and a buffet supper. Loco Hills Community Club members discussed plans to improve the clubhouse last Thursday evening at a business meeting. New members present for the meeting were Mrs. and Mrs. S. E. Chipman, Mr. and Mrs. Shelly Tucker, and Mr. and Mrs. Lee Lucas of Old

Loco Hills and Mr. and Mrs. John McMurray of Maljamar. A program committee was chosen. It consists of Mrs. Harold Adams, Mrs. S. E. Chipman, and Mrs. Glen Unangst. The advertising committee consists of Mrs. Jack Whitaker and Mrs. G. C. Whitefield for Loco Hills and Mrs. Kenneth Shields and Mrs. E. R. McKinstry for Maljamar. A card party was planned for Friday, April 16. The Loco Hills Parent-Teacher Association will meet at the school Friday, April 16. Officers will be installed. Mrs. C. R. Doughty and daughters, Pauline and Patricia Sue, were guests Wednesday of last week of Mr. and Mrs. Latha and Mr. and Mrs. Oscar Doughty and families of Maljamar.

Mrs. Glen Brown caught her right foot in garage doors at the Grayburg Camp during the high winds Wednesday of last week. The foot is badly swollen and several stitches had to be taken. Mr. and Mrs. John Haney and sons, Larry and Roland, of Eunice visited in the Carol Doughty home Monday. Larry visited the Loco Hills School. Mr. and Mrs. W. W. White and daughter, Velta Ann, spent last week end in Monahans, Texas, visiting Mrs. White's grandparents, Mr. and Mrs. E. V. James, and her brothers, J. D. and Bobby Floyd. Buck Black and Earl Kerr of Artesia visited Miss Charlene Henderson Sunday. Ed Henderson, who visited his son, Odell, in the Booker Camp several days, left Monday. Mr. and Mrs. Wesley Meador and family enjoyed an all-day outing on the Pecos River Sunday. Mr. and Mrs. K. A. Holekamp and nephew, Harry Holekamp of Comfort, Texas, visited Mrs. John Stulting and family the latter part of last week. Mr. and Mrs. Holekamp were returning from Tucson, Ariz., where they attended the wedding of one of their sons. Johnnie Williams arrived Monday from San Francisco, Calif., to visit his parents, Mr. and Mrs. Charles Williams. While on the way here, he visited an aunt, Mrs. Ruby Granger, at San Luis Obispo, Calif. Mr. and Mrs. Foy Nevins and children of Hale Center, Texas, formerly of Loco Hills, were guests of Claude Nevins and family. Mrs. Bill Golden of Maljamar visited friends here Tuesday of last week. Miss Clara Brown of Roswell is visiting her niece, Mrs. Andy Melton, and family in Old Loco Hills. Mrs. Virgie Copeland spent last week end in Hobbs visiting her sister and mother. Her mother returned home with her for a visit. Mrs. Vick Roberts went to Roswell Wednesday of last week for medical treatments. Mr. and Mrs. N. G. Barton spent last week end in Big Spring, Texas, visiting their daughter. Mr. and Mrs. Ralph Allred of Artesia were recent guests of Mr. and Mrs. W. R. McClendon. Mrs. M. A. Burrows and son spent last week end visiting relatives in Roswell. Mr. and Mrs. Coy Moss were dinner guests of Mr. and Mrs. James McMurray in Old Loco Hills Tuesday evening of last week. Mr. and Mrs. Moss moved Wednesday of last week to their new home in Oklahoma. Mr. and Mrs. Bill Golden of Maljamar entertained them on the preceding Friday with a farewell party. Guests were Mr. and

Mrs. James McMurray, Mr. and Mrs. Jack Choate, Mr. and Mrs. Carl Winkle, Mr. and Mrs. John McMurray, and Mr. and Mrs. Glen Arthur. Sandwiches, doughnuts, and coffee were served. Mr. and Mrs. Paul Hill of Artesia were recent guests of Mr. and Mrs. Glen Brown. Recent guests in the home of Mr. and Mrs. B. Newton were Mr. Newton's brother and wife, Mr. and Mrs. Frank Newton, and baby of Eunice and Mrs. Newton's brother, J. W. Owens, and family of Hobbs. Mrs. B. Newton and Mrs. Vada Newton visited in Roswell Wednesday of last week. Mrs. Newton and Mrs. Lee Lucas went to Lovington Monday of last week. Ralph Hills' mother is visiting his family at the Loco Hills Representing Plant. Mrs. J. W. Vandever was taken back to Artesia Memorial Hospital Sunday of last week. A family reunion was held at the S. E. Chipman home in the Grayburg Camp last week. Guests were Mrs. L. M. Saster of Waco, Texas, Mrs. B. F. Shaw of Kerens, Texas, Mrs. Robert Weber of Milwaukee, Wis., Mr. and Mrs. C. H. Geer of Norwalk, Calif., and Mr. and Mrs.

George Richardson and daughters, George Bess and Worth Ann, of Denver City, Texas. Ozell Roberts, George Chase, and C. R. Doughty have been ill. Mr. and Mrs. Oscar Doughty and children of Maljamar and Mr. and Mrs. R. B. Standard of Old Loco Hills were guests of Mr. and Mrs. Edgar Chase Sunday. The Loco Hills Parent-Teacher Association has expressed gratitude to the following men and companies for donating their time and material to the Loco Hills playground equipment: Jack Choate, K. C. Whitely, Jewel Heard, John

McPhaul, George Beal, Earl Smith, Blum, Yancey & Harris Oil Company, Snowden Oil Company, Grayburg Oil Company, Nash, Windfohr & Brown Oil Company, and the Loco Hills Welding Shop. Human beings once were able to see as well at night as cats and owls. In 1940, almost half of all U.S. schools were one-room institutions. In 1940 only half the Ameri-

cans between 15 and 19 years old were in school. FILLERS From 1940 to 1947 the population of the U.S. Pacific Coast States increased about 40 per cent. From 1940 to 1947, the population of Michigan increased by about a million people. The percentage of U.S. women who die in childbirth declined about 49 per cent between 1930 and 1942.

Use Less Paint and Get Style-Tested Beauty Too!

Lowe Brothers HIGH STANDARD HOUSE PAINT

WHY HIGH STANDARD COSTS LESS TO USE

1. Covers solidly more square feet of surface.
2. Has an unusually high percentage of non-evaporating film forming solids.
3. Wears down slowly and evenly—leaving an excellent repainting surface.
4. Made to give extra years of protective service.

* High Standard Colors are selected to be in keeping with latest in color trends.

YOUR NEWSPAPER helps your *COMMUNITY* **PLANNING**

A great future is ahead for our community! Many new homes, business and residential, will be established. Materials not available previously as consumer goods since the war, will permit vast community improvements of every kind. The span of roads leading to and from this city will be better developed, broad and beautiful. The educational facilities offered our youth will be brought to the highest pitch of progressiveness and efficiency from nursery age to high school age needs. And through all these channels, your newspaper will work, bringing you news, business statistics, and uniting all members of the community in best using their efforts to further postwar progress.

Depend on The Advocate to bring the Artesia community up to date in all things! Keep abreast of what is happening, by reading your newspaper without fail. And remember that the hard-won freedom we are now fighting for is symbolized in the simple act of your free press—and finding in it the unveiled truth about all things, of local and domestic interest.

Morningside News

Miss Anna Tice
(Delayed Last Week)

Mr. and Mrs. Bill Simmer and family and Mr. and Mrs. Doug Simmer and family spent the Easter holidays with relatives in Denver City, Texas.

Mr. and Mrs. Jim Standifer brought their 3-month-old son, Hugh, home from the hospital Friday. He was treated for asthma.

Charles Charles, 11-month-old son of Mr. and Mrs. Edgar Foster, is recovering. He has been ill about two weeks.

Mr. V. W. Montgomery, Mrs. Ruth Tice, and Mrs. Cecil Laman, visited Mrs. J. C. Walker on the Hagerman farm recently.

Ann Lily of Oregon, formerly of Nevada, visited the Thurman North family Easter Sunday.

Mrs. Nina Tice and grandsons, Donald and Harry Price, visited Mr. and Mrs. Garland Duncan and family on Cottonwood recently.

Charlotte Duncan spent Saturday night with her cousin, Anna Tice.

Anna, Leonie, Leon, and John, children of Mrs. Edith Tice visited

their uncle and aunt, Mr. and Mrs. Garland Duncan, and family on Cottonwood Easter.

Mrs. Joe Sessum honored her daughter, Judy Cheryl, on her second birthday Sunday afternoon with a party. Mrs. Faye Hitt and Mamie Murphy were cohostesses to Phillip and Carol Bowman, Sandra, Steven, Carol, and Norman Bowman, Janette, Barbara, Peggy, and Elizabeth Sessum, Lena Faye Hitt, Tommie, Ruth, and Sonny Davisson, Louis, Leon, and Anna Tice, Treva Phillips, and Mrs. Lester Bowman.

Mr. and Mrs. Dewey Stephens and children have returned from Slaton, Texas. They plan to make their home in Hagerman.

The home of Mrs. Annie Lucky burned to the ground Saturday night.

Everett Holt took his wife to Lubbock for medical treatments Sunday.

Mr. and Mrs. Olen Thurman and children of Loco Hills visited their parents in Morningside Sunday.

Tony Morton is moving from the Curtis Lee house to one of Mrs. Nina Tice's rent houses.

James Boyd has gone to Lubbock, Texas, for a truckload of feed.

Mrs. Lawrence Burros visited her

parents, Mr. and Mrs. Clyde Hope Saturday.

Mrs. Bill Ballou and son, James, visited Mrs. Nina Tice Saturday.

Mrs. H. F. Benton visited her sister in Shamrock, Texas, last week end.

Elizabeth Vanzandt, daughter of Mr. and Mrs. Roy Vanzandt, stayed with Mrs. George Mann Sunday night.

Mr. and Mrs. Wallace Allison's son is recuperating nicely from an attack of the strep throat.

Jo Ann Vanzandt, daughter of Mr. and Mrs. Roy Vanzandt, spent Friday night with Mrs. G. L. Allison.

Mr. and Mrs. Muriel Hughes and children have moved to Dayton.

Mr. and Mrs. "Doc" Berry are both improving after being ill two weeks.

Mr. and Mrs. George Johnson, Mr. and Mrs. White, Mrs. Edith Tice, Paul Franklin, and Sloan Day attended the Johnnie Lee Willis dance in Roswell Monday night.

Garden Contest Is To Be Held Again This Year

"My gardening work really started when I had to find some way to earn my college tuition."

"We need a pretty good income, for there are 11 members in our family. My garden has supplied the family with vegetables, not only to eat and can for winter use, but also to sell."

"Through 4-H Club work I have learned how to choose a good garden spot, select the right varieties to plant, cultivate to conserve moisture, and control plant diseases and insects."

Such statements are typical of those made by the 46 state winners and 3850 county winners who took part in the National 4-H Garden Contest last year.

Again in 1948 there are offered rewards to 4-H boys and girls who excel in their garden projects. Prizes include medals for county winners and a trip to the National 4-H Club Congress in Chicago.

In addition, eight national winners selected from state champions will each receive a \$200 college scholarship.

New Mexico's county winners last year included Albert Bock of Eddy County.

Patsy Turrietta of Bernalillo County went on to win the state championship.

Complete information about this year's contest may be obtained at the county agent's office in the county courthouse in Carlsbad.

Farmer Today Feeds 13 Others Besides Himself

Enough agricultural products to support himself and more than 13 others was the record chalked up by each farmer and farm worker in wartime 1945. In 1920, one farmer supported only 10, counting himself, and in 1920 only a little more than four.

The figures are cited by Roy Forehand, chairman of the Eddy County Agricultural Conservation Committee, to indicate what technology—applied science—is doing for agriculture.

He points out that in 1945 every man-hour of work meant 44 per cent more gross production than in 1917-21. Half of these savings in hours per unit of product resulted from mechanization.

Other developments, mainly increases in yields of crops and livestock, were responsible for the other half.

Farm horses and mules have been rapidly replaced by tractors, trucks, and automobiles during the last third of a century. A modern tractor and its equipment now save 850 hours of man labor compared with the time required to do the job with the animal power and equipment used a generation ago. What's more, mechanization has made possible more timely operations, and this has helped increase farm production especially when adverse weather delayed the preparation of land and planting.

The increase in food supplies for feeding an increasing popula-

tion from 1920 to 1942 came about in this way: 30 per cent came from acreages released by the decline in horses and mules; 70 per cent from increased crop and livestock yields and from decreased exports.

a permit to change place of use of 30 acrefeet per annum of the Artesian waters of the Roswell Artesian Basin by abandoning the irrigation of 10 acres of land described as the SE $\frac{1}{4}$ SE $\frac{1}{4}$ NE $\frac{1}{4}$ of Township 20 South, Range 26 East, N.M.P.M., and commencing the irrigation of 10 acres of land described as the NW $\frac{1}{4}$ NW $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 5, Township 20 South, Range 26 East, N.M.P.M.

No additional rights over and above those set forth in Permit No. RA-940 are contemplated under this application.

Lands in Section 6 above described to be permanently dried up and all rights transferred to lands in Section 5 as above described.

Any person, firm, association, corporation, the State of New Mexico or the United States of America, deeming that the granting of the above application will be truly detrimental to their rights in the waters of said underground source, may protest in writing the State Engineer's granting approval of said application. The protest shall set forth all protestant's reasons why the application should not be approved and shall be accompanied by supporting affidavits and by proof that a copy of the protest has been served upon the applicant. Said protest and proof of service must be filed with the State Engineer within ten (10) days after the date of the last publication of this notice. Unless protested, the application will be taken up for consideration by the State Engineer on that date, being on or about the 3rd day of May, 1948.

NOTICE
STATE ENGINEER'S OFFICE
Number of Application RA-324.
Santa Fe, N. M., March 22, 1948.

Notice is hereby given that on the 5th day of March, 1948, in accordance with Chapter 131 of the Session Laws of 1931, J. G. Moutray and Sons of Artesia, County of Eddy, State of New Mexico, made application to the State Engineer of New Mexico for a permit to change place of use of 208.05 acrefeet per annum of the Artesian waters of the Roswell Artesian Basin by abandoning the irrigation of 69.35 acres of land described as follows:

Subdivision: NW $\frac{1}{4}$ NW $\frac{1}{4}$ NW $\frac{1}{4}$ Section 5, Township 20 S., Range 26 E., 5.50 acres; subdivision: NE $\frac{1}{4}$ NW $\frac{1}{4}$ NW $\frac{1}{4}$ Section 5, Township 20 S., Range 26 E., 5.00 acres; subdivision: NW $\frac{1}{4}$ NE $\frac{1}{4}$ Section 5, Township 20 S., Range 26 E., 5.00 acres; subdivision: NE $\frac{1}{4}$ SW $\frac{1}{4}$ SW $\frac{1}{4}$ Section 4, Township 20 S., Range 26 E., 9.39 acres; subdivision: NE $\frac{1}{4}$ SW $\frac{1}{4}$ SW $\frac{1}{4}$ Section 4, Township 20 S., Range 26 E., 2.50 acres; subdivision: N $\frac{1}{2}$ SW $\frac{1}{4}$ SW $\frac{1}{4}$ SW $\frac{1}{4}$ Section 4, Township 20 S., Range 26 E., 5.00 acres; subdivision: part SE $\frac{1}{4}$ SW $\frac{1}{4}$ SW $\frac{1}{4}$ SW $\frac{1}{4}$ Section 4, Township 20 S., Range 26 E., 0.49 acres.

No additional rights over and above those set forth in Amended Declaration No. RA-324 are contemplated under this application. Lands in Section 5 above described to be permanently dried up and all rights transferred to lands in Section 4, above describe.

Any person, firm, association, corporation, the State of New Mexico or the United States of America, deeming that the granting of the above application will be truly detrimental to their rights in the waters of said underground source, may protest in writing the state engineer's granting approval of said application. The protest shall set forth all protestant's reasons why the application should not be approved and shall be accompanied by supporting affidavits and by proof that a copy of the protest has been served upon the applicant. Said protest and proof of service must be filed with the State Engineer within ten (10) days after the date of the last publication of this notice. Unless protested, the application will be taken up for consideration by the State Engineer on that date, being on or about the 3rd day of May, 1948.

John H. Bliss,
State Engineer
14-31-16

NW $\frac{1}{4}$ Section 5, Township 20 S., Range 26 E., 4.50 acres; subdivision: SW $\frac{1}{4}$ NW $\frac{1}{4}$ NW $\frac{1}{4}$ Section 5, Township 20 S., Range 26 E., 9.65 acres; subdivision: NW $\frac{1}{4}$ SW $\frac{1}{4}$ NW $\frac{1}{4}$ Section 5, Township 20 S., Range 26 E., 7.50 acres; subdivision: SW $\frac{1}{4}$ SW $\frac{1}{4}$ NW $\frac{1}{4}$ Section 5, Township 20 S., Range 26 E., 2.85 acres; subdivision: SE $\frac{1}{4}$ NW $\frac{1}{4}$ NW $\frac{1}{4}$ Section 5, Township 20 S., Range 26 E., 0.19 acres; subdivision: NE $\frac{1}{4}$ NW $\frac{1}{4}$ NW $\frac{1}{4}$ Section 5, Township 20 S., Range 26 E., 8.20 acres; subdivision: SE $\frac{1}{4}$ NW $\frac{1}{4}$ SW $\frac{1}{4}$ Section 5, Township 20 S., Range 26 E., 7.79 acres; subdivision: NE $\frac{1}{4}$ SW $\frac{1}{4}$ SW $\frac{1}{4}$ Section 5, Township 20 S., Range 26 E., 10.00 acres; and commencing the irrigation of 69.35 acres of land described as follows:

Subdivision: NW $\frac{1}{4}$ SW $\frac{1}{4}$ SW $\frac{1}{4}$ Section 4, Township 20 S., Range 26 E., 3.12 acres; subdivision: NE $\frac{1}{4}$ SW $\frac{1}{4}$ SW $\frac{1}{4}$ Section 4, Township 20 S., Range 26 E., 5.00 acres; subdivision: N $\frac{1}{2}$ SE $\frac{1}{4}$ SW $\frac{1}{4}$ Section 4, Township 20 S., Range 26 E., 10.00 acres; subdivision: N $\frac{1}{2}$ SE $\frac{1}{4}$ SW $\frac{1}{4}$ Section 4, Township 20 S., Range 26 E., 5.00 acres; subdivision: N $\frac{1}{2}$ SE $\frac{1}{4}$ SW $\frac{1}{4}$ Section 4, Township 20 S., Range 26 E., 5.00 acres; subdivision: NE part SW $\frac{1}{4}$ SW $\frac{1}{4}$ SW $\frac{1}{4}$ Section 4, Township 20 S., Range 26 E., 3.40 acres; subdivision: NW $\frac{1}{4}$ NW $\frac{1}{4}$ SE $\frac{1}{4}$ Section 4, Township 20 S., Range 26 E., 2.31 acres; subdivision: SW $\frac{1}{4}$ NW $\frac{1}{4}$ SE $\frac{1}{4}$ Section 4, Township 20 S., Range 26 E., 9.39 acres; subdivision: SW $\frac{1}{4}$ NW $\frac{1}{4}$ SE $\frac{1}{4}$ Section 4, Township 20 S., Range 26 E., 9.39 acres; subdivision: NE $\frac{1}{4}$ SW $\frac{1}{4}$ SE $\frac{1}{4}$ Section 4, Township 20 S., Range 26 E., 2.50 acres; subdivision: N $\frac{1}{2}$ SW $\frac{1}{4}$ SW $\frac{1}{4}$ SE $\frac{1}{4}$ Section 4, Township 20 S., Range 26 E., 5.00 acres; subdivision: part SE $\frac{1}{4}$ SW $\frac{1}{4}$ SE $\frac{1}{4}$ Section 4, Township 20 S., Range 26 E., 0.49 acres.

IN THE DISTRICT COURT OF EDDY COUNTY, STATE OF NEW MEXICO.
J. A. FAIREY, Plaintiff, vs. WIL-

LIAM B. OVERHOLT, et al, Defendants.

No. 10466
SUMMONS AND NOTICE OF SUIT PENDING

STATE OF NEW MEXICO TO: WILLIAM B. OVERHOLT; IMPEALED WITH THE FOLLOWING NAMED DEFENDANTS AGAINST WHOM SUBSTITUTED SERVICE IS HEREBY SOUGHT TO BE OBTAINED, TO-WIT: WILLIAM B. OVERHOLT, if living, if deceased, THE UNKNOWN HEIRS OF WILLIAM B. OVERHOLT, Deceased; SUSIE F. OVERHOLT, if living, if deceased, THE UNKNOWN HEIRS OF SUSIE F. OVERHOLT, Deceased; SAMUEL W. LOVING (ALSO KNOWN AS S. W. LOVING), if living, if deceased, THE UNKNOWN HEIRS OF SAMUEL W. LOVING (ALSO KNOWN AS S. W. LOVING), Deceased; MRS. G. R. SCOTT; MRS. LUCILLE S. POPE; J. S. SIMPKINS, Trustee, or ANY UNKNOWN SUCCESSORS TO J. S. SIMPKINS, Trustee; H. T. BRASELTON (ALSO KNOWN AS HUBERT BRASELTON); VIRGINIA CARTER BRASELTON; C. E. McWILLIAMS, Trustee, or ANY UNKNOWN SUCCESSOR TO C. E. McWILLIAMS, Trustee; along the West Line of said UNKNOWN HEIRS OF G. W. HEGGIE (ALSO KNOWN AS GEORGE W. HEGGIE), Deceased; and UNKNOWN HEIRS OR SUCCESSORS OF W. E. POPE, Trustee, DECEASED; and ALL UNKNOWN CLAIMANTS OF INTEREST IN THE PREMISES ADVERSE TO THE PLAINTIFF.

GREETINGS:
YOU AND EACH OF YOU ARE HEREBY NOTIFIED THAT there has been filed in the District Court of Eddy County, State of New Mexico, a certain cause of action wherein J. A. Fairey is the plaintiff and you, and each of you, are defendants, the same being Cause No. 10466 on the Civil Docket. The general objects of said action are to quiet and set at rest the plaintiff's title, in fee simple, to the following described property situated in

Eddy County, New Mexico, to-wit:

A tract of land situated in the SE $\frac{1}{4}$ of the NW $\frac{1}{4}$ of Section 8, Township 17 South, Range 26 East, N.M.P.M., Eddy County, New Mexico, more particularly described as follows:
Beginning at a point on the North and South one-quarter Section Line that is located 360 feet north of the C/4 corner of said Section 8; thence continuing North along said North and South one-quarter Section Line a distance of 793.0 feet to a point that is 165.0 feet South of the Northwest corner of said SE $\frac{1}{4}$ NW $\frac{1}{4}$ of said Section 8; thence West on a line parallel to the North line of the said SE $\frac{1}{4}$ NW $\frac{1}{4}$ a distance of 1327.4 feet to a point that is 165.0 feet South of the Northwest corner and on the West Line of the said SE $\frac{1}{4}$ NW $\frac{1}{4}$; thence South along the West line of said SE $\frac{1}{4}$ NW $\frac{1}{4}$ a distance of 262.2 feet to the Northwest corner of the J. C. Johnson Addition to the City of Artesia, New Mexico; thence East along the North Line of said J. C. Johnson Addition a distance of 720.0 feet; thence South along the East line of the said J. C. Johnson Addition a distance of 888.0 feet to the East and West one-quarter Section

Line said Section 8; thence East along the East and West one-quarter Section Line a distance of 206.8 feet to the Southwest Corner of the Heggie Addition to the City of Artesia; thence North Heggie Addition a distance of 360.0 feet; thence East along the North line of said Heggie Addition a distance of 400.0 feet to the point of beginning and containing 17.123 acres of land.

YOU AND EACH OF YOU ARE FURTHER NOTIFIED THAT unless you enter your appearance or plead herein on or before the 3rd day of May, 1948, the plain-

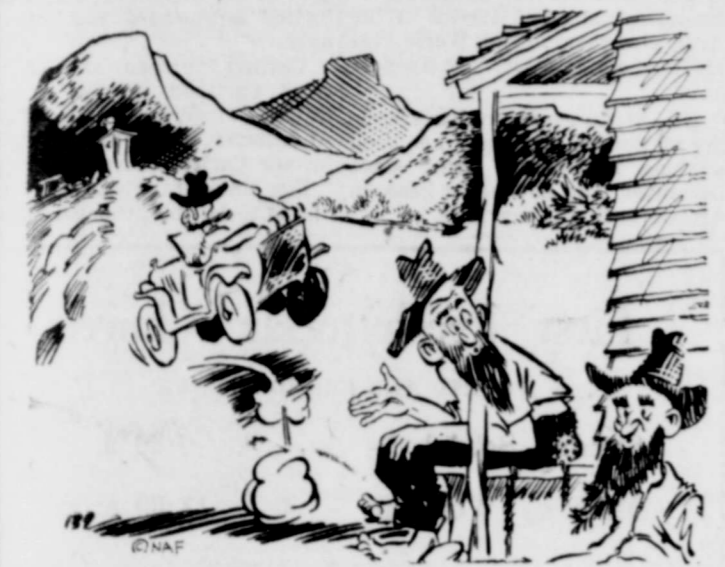

tiff will make application to the Court for a judgment by default and judgment by default will be rendered against you, and each of you, as prayed for in said Complaint.

The name of the plaintiff's attorneys are Cochran & Siegenthaler, whose Post Office Address is Box 128, Artesia, New Mexico. Witness my hand and the seal of the District Court of Eddy County, on this 17th day of March, 1948.

"Talk about VALUE," says America

"CHEVROLET and ONLY Chevrolet IS FIRST!"

You'll find that new front-end styling—new colors—new and even more luxurious interiors add still further to the Big-Car beauty of Chevrolet's Bodies by Fisher. They're the world's finest bodies, found only on Chevrolet and higher-priced cars.

You'll get much better performance with economy from Chevrolet's world's champion Valve-in-Head engine. It has the finest record of dependability of any automotive power plant! And Valve-in-Head engines are exclusive to Chevrolet and more expensive automobiles.

How much more smoothly and steadily Chevrolet rides on all types of roads! Here's real Big-Car comfort. It's the fine result of the Unilted Knee-Action Gliding Ride; and this feature, too, is found only on Chevrolet and higher-priced cars.

You and your family will have Big-Car safety, too. For Chevrolet brings you the three-fold protection of Fisher Unilted body-construction, the Knee-Action Ride, and Positive-Action Hydraulic Brakes—another combination of features found only in Chevrolet and more costly cars.

Turn in Scrap Iron and Steel In Chevrolet and more costly cars.

Yes, from one end of the country to the other, public enthusiasm for the new 1948 Chevrolet points to a great public conviction that CHEVROLET and ONLY CHEVROLET IS FIRST in all-round value as in popularity. More people drive Chevrolets, according to official nationwide registrations and more people want Chevrolets, according to seven independent nationwide surveys than any other make of car. You'll understand why when you see this newer, smarter, finer Chevrolet for '48. Your own judgment will tell you that it gives more value... that it alone offers BIG-CAR QUALITY AT LOWEST COST!

As you know, public demand for new 1948 Chevrolets is at the highest level in all Chevrolet history. For that reason, we urge you to keep your present car in good running condition, pending delivery of your new Chevrolet. Come in, get skilled, dependable service, now and at regular intervals.

Four-H Girls Are Keeping Up With 'New Look'

The average 4-H Club girl in a small town or on a farm, in order to acquire the "new look" in clothes, is making her own fashion trends, and seeing to it that every outfit is becoming to her type and expressive of her personality. She is acquiring the make suitable skills necessary to through taking part in the 1948 national 4-H dress revue.

Participation in the program affords the 4-H girl the opportunity to model her "best" dress in her local county revue. If she enters a medal of honor, she may enter the state dress revue, the winner of which will receive an

NOTICE OF PENDENCY OF SUIT
THE STATE OF NEW MEXICO
TO: William Crandall, defendant, impleaded with the following named defendants against whom substituted service is hereby sought to be obtained, to wit: The following named defendants by name if living, if deceased their unknown heirs, to wit: Said William Crandall, Margaret Crandall, R. H. Morrow; and unknown claimants of interest in the premises adverse to the plaintiff, GREETING:

Time to Change

to a lighter weight HI-V-1 Motor Oil for summer driving.

HI-V-1 is a High Viscosity Index Motor Oil that stands up and thoroughly lubricates on hot summer days.

HI-V-1 protects those close moving parts of your motor.

HI-V-1 cleans as it lubricates, reducing sludge, gum and varnish formation. Naturally this reduces fuel consumption... increases power and mileage.

See your friendly Champlin dealer today. Ask him to drain and refill with HI-V-1 for quality lubrication.

Communication 'Message Center' Set Up At Bliss

A new method for families of servicemen stationed in distant lands to communicate directly with their far-off menfolk has taken root at Fort Bliss, and all indications are that the idea may spread.

Long a delightful hobby where one may make a world tour in the spare bedroom or den, short-wave radio has become the means of bringing together servicemen stationed overseas and their loved ones at home.

The Army itself inadvertently aided the plan at the Antiaircraft Artillery and Guided Missile Center at Fort Bliss by loaning radio equipment and a former head-

quarters building at the El Paso Amateur Radio Club, an organization of 100 "hams" in the El Paso area.

The station serves as a "message center" for husbands overseas and their families. Entire families gather around the mike at W5MGI, the call signals of the Fort Bliss station, and have a half-hour or so gabfest with their men.

For persons in the hinterland who cannot make the journey into El Paso for one reason or another, the club accepts messages from the men overseas and relays them to the people at home. Many important messages have been relayed in this manner.

Intimate news that once required months of travel and today takes days by the most modern plane routes, is exchanged in a matter of split seconds by the

fastest method that science has yet devised.

One officer stationed in Okinawa has been holding regular weekly get-togethers with his wife and three children at the Fort Bliss station, and the officer has become so enthused that he is studying to acquire his permit.

In sometimes requires weeks to make arrangements for the men overseas and the families at El Paso to appear before amateur mikes at the same time, but once the contact is made the frequent meetings become happy family reunions. There is no charge for the service, and club members are only too happy to effect the gatherings as a sideline to their constant roaming of the world over the short-wave airwaves.

Every State Is Represented On Campus Of UNM

Final figures just released by Dr. Daryle E. Keefer, head of admissions at the University of New Mexico, show a grand total of 4335 students registered for the second semester at that institution.

Men students still outnumber the women three to one, the reports show, with a total of 3241 and only 1094 women on the campus.

Broken down into individual college enrollments, the figures are: Arts and sciences 1440, engineering 825, education 505, business administration 556, fine arts 286, pharmacy 125, graduate school 276, general college 265, and law 47.

The freshman class, with 1375 students, tops the field of 1209 sophomores, 735 juniors, and a relatively large class of 594 seniors. Men veterans make up 2346 of the total of 3241 male students. Women veterans of the last war only total 97 out of the 1094 female registrants.

Bernalillo County has contributed 1738 students to the second semester roster, more than all out-of-state students combined, who number only 1713 to the campus this semester.

Every state in the union is rep-

Uncle Sam Says

resented. New York leads with 216, and Illinois is a close second with 214. Other top contributors are California, Texas, Ohio, Pennsylvania, New Jersey, Michigan, Colorado, and Missouri, in the order named.

Forty-seven foreign students from 19 countries and four territories are represented on the university campus. Foreign lands represented include Argentina, Brazil, Bolivia, Canada, Colombia, Denmark, Egypt, England, Guatemala, France, Greece, Iran, Italy, Mexico, Nicaragua, Norway, Palestine, Peru, and Venezuela.

Farmers And Consumers Save By ACP Program

Both the farmers who carry out the conservation practices and the consumer who helps foot the bill can be proud of what they've done under the Agricultural Conservation Programs, says Ray Forehand, chairman of the Eddy County Agricultural Conservation Committee.

This year about 150 million dollars has been appropriated for conservation under ACP. Divided among the 145 million people in the country, that means a little more than a dollar per person. But to the farmer it means that 10 or 20 or maybe 200 or 300 persons are co-operating with him in getting the conservation job done on his farm.

In actual practice, under this partnership program for soil and water conservation, the chairman

explains, the farmer more than matches every dollar put up by consumers. In addition he usually does all the work. Often, encouraged by the limited help in getting started, he expands his conservation efforts far beyond the basic practices of the program.

Dividends resulting from this public-farmer partnership are many and varied, says the chairman. The farmer has a better farm. Erosion and depletion are slowed down. The farm will last longer. Continued operation is assured and production is increased.

The public benefits from continued abundant production of food and other essential agricultural commodities. The land is being held on the farm and improved. Especially, says the chairman, the program is an insurance policy which continues to pay dividends indefinitely into the future. Both farmer and consumer help pay the dividends and both are the continuing beneficiaries. This partnership is about the most effective way found of getting the job done.

Common Alfalfa Seed Is Plentiful In New Mexico

Several months ago the Department of Agriculture announced a program whereby the price of common alfalfa seed would be supported to eligible producers. The support price is 17 cents per pound for seed testing at least 90 per cent germination with a minimum of 97 per cent pure seed.

The price was supported through the Purchase Agreement Program with Commodity Credit Corporation, and county committees approved the producers' agreements for Commodity Credit Corporation.

Twenty-five producers in Dona Ana and 32 in Eddy County signed the agreement covering in excess of 600,000 pounds of seed. The producers retain title to this seed until May 31 and may sell it any time prior to that date. This is by no means all the available alfalfa seed in these counties, as many growers did not sign the agreement.

Because of the improved outlook for irrigation water, many farmers may want to plant alfalfa this spring for the soil-conserving value and for the hay crop. Anyone experiencing difficulty in securing seed may write the chairman of the Eddy County

committee for the names of dealers or producers having seed for sale.

Trip To Cattle Congress To Be Given In State

A trip to the biggest dairy show in the world, the annual Dairy Cattle Congress in Waterloo, Iowa, will be the award for the winning senior team and coach in New Mexico's 4-H dairy production demonstration contest in 1948.

In previous years, winning teams had been awarded trips to the National 4-H Club Congress in Chicago.

County winners in the dairy production contest will receive medals. State winners will be

chosen at the annual 4-H state encampment on the campus of New Mexico A. & M. College in August.

To be eligible for state awards, a club member must have reached his 14th birthday by last Jan. 1, must have had two years of previous 4-H Club work, and must be enrolled in a 4-H dairy project this year. Club members who are not eligible for the state award may compete for demonstration practice. Demonstrations may be on any phase of dairy production — marketing, milk, sanitation, feeding, and the like.

Leaders advise any boy or girl who may be planning to give a demonstration this year that now is the time to get it written and start working it out with teammates.

Soil Conservation Program In State Moves At Record-Breaking Rate

The soil conservation program in New Mexico moved ahead at a record-breaking rate in 1947, according to Leonard Appleton, soil conservationist of the New Mexico Extension Service.

In a recent report on the activities and accomplishments of New Mexico's 58 soil conservation districts in 1947, Appleton said more conservation work was carried out under the district's program last year than in any previous year.

Lice Inflict Heavy Damage on Cattle

DDT Treatment Cuts High Winter Losses

Lice are injurious to all types of cattle. Animals produce less meat and milk if lice are unchecked. Young animals and poorly-nourished old animals suffer most from lice.

The winter season is the time lice are bad on cattle. The louse population builds up then. Dr. Harold Junderson, extension entomologist at Iowa State college, says one louse infested cow in fall means 1,000 the following March.

For lice control on cattle, DDT is being used successfully. Early in fall, before cold weather arrives, it is mixed with water and sprayed on the animals. After cold weather comes, a DDT dust is recommended. Farmers are being advised to use a dust containing 10 per cent DDT. Some of the powdered louse killers on the market contain less than 1 per cent DDT, but have other effective insecticides combined with the DDT.

New Chemical Utilized For Grasshopper Poison

Research men at various state colleges after trying benzene hexa chloride, a chemical discovered in Europe and brought to this country for experimental use as a grasshopper poison, believe it is the best thing yet discovered for hog manure as well as grasshopper control. The compound is a wettable powder that can be used as either a spray or dip for hogs and is sold under various trade names.

Farm Briefs

By Dallas Rierson
Eddy County Farm Agent

Another call for scrap iron and steel is going out to farmers. The current short supply of scrap and the outlook for this spring seriously threaten the maintenance of steel production. Maximum production is essential to curb inflation and to support the foreign aid program as well as domestic economy.

Every ton of additional scrap counts in the present situation. Farmers are urged to carry out a thorough search for undiscovered scrap metal and for obsolete equipment and move it promptly into the market.

Pigs need a good start if they are going to make a profit for the man who raises them. To give pigs a good start, feed them ground oats, barley and corn, with skimmed milk before they are weaned.

In the spring, seed a mixture of oats and barley to furnish pasture for the hogs. As soon as the pigs are weaned, they are ready to go out and make the best use of this green pasture. Not only do the pigs get a lot of good,

cheap food from the pasture, but it also helps to keep them in condition to ward off disease. This system prevents the young pigs from going into a slump when they are ready for market.

Give your permanent pasture land a head start before you put the cows on it. Young grass, just starting to grow, provides only a very little feed, and the cattle may injure the sod and reduce the grazing they may get later.

Overcrowding baby chicks is a sure way to check their growth and reduce vitality. Reduced vitality in turn causes the outbreak of various diseases. Each chick should have half a square foot of floor space when started in the brooder house, and this space should be increased as the chicks develop in size.

World's Largest Potato Yard Found in Chicago

The world's largest potato yard is located — not in Idaho, nor in Maine — but in the largest city near the geographical center of the nation—Chicago.

In the Wood street yards of the Chicago and Northwestern railroad,

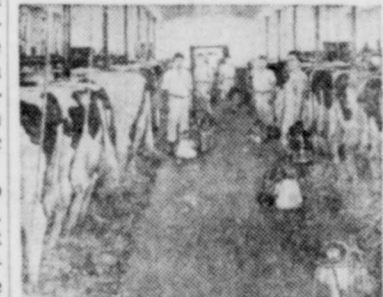

an average of 20,000 carloads of potatoes are handled annually. Many thousands of tons of other vegetables also pass through this yard.

The yard is the central marketing point for potatoes, which come in from virtually every state in the union. Dealers and brokers assemble in the yard each day before dawn to buy, sell or reconsign an average of 36,000 bushels daily. The Wood street yard is a far cry from the wooden platform which served as a terminal years ago.

Milk Testing Traced To Michigan Farmers

By Louis Sellers

Forty years ago a few progressive dairy farmers in Michigan organized the first cow-testing association in the United States. They wanted to improve the profitability of their herds. They hired a tester to

Part of the increase in production can be credited to progressive Michigan dairy farmers.

and test the milk of each cow and to keep a record of her feed cost and income. They wanted that information so they could cull the low producers from their herds and feed the balance economically.

In the best four years of their pioneer effort, these Michigan farmers doubled the average profit per cow. Since then thousands of other dairy farmers have followed their example with equally striking results.

oil and grease. Don't use summer oil in winter. Bearings may burn out in five minutes before the heavy oil is heated up enough to flow to the vital parts.

"Use the right kind of oil and grease at every lubrication point on your tractor."

"Remember that no machinery manufacturer or dealer has ever advised a farmer to use a 'bar-gain counter' oil."

"Use the oils and greases exactly as the tractor manufacturer has directed you and at the recommended working-hour intervals."

"Change engine and transmission oil promptly. To work an

oil overtime is always very costly in the long run.

"Keep all containers, greases, guns, and measures clean and protected. Wipe off each fitting before greasing."

"Next to yourself, your local farm equipment dealer is the man most interested in seeing you get first-class service from your tractor."

U.S. piano production dropped from 350,000 in 1923 to 27,000 in 1932 but was up over 100,000 again in 1938.

Maljamar News

Mrs. Kenneth Shields Oscar Loyd has been confined to his home the last week because of a severe cold.

The Maljamar Baptist Church had a dinner Easter Sunday and an Easter egg hunt for the children. About 130 persons attended the affair with guests from Loco Hills, Andrews, Texas, and Hobbs. A bit of excitement was caused by the discovery of a small rattlesnake in one of the hiding places. It was killed immediately.

Mr. and Mrs. Ralph McGill entertained their granddaughters, Ruth Ann and Marilyn Eveland of Hobbs, over the Easter holidays.

Mr. and Mrs. Bill Edwards were guests Sunday of Mr. and Mrs. Kenneth Shields. The group went to Roswell during the afternoon.

Mr. and Mrs. Barry and family spent the Easter holidays with Mr. and Mrs. Frank Ashlock at the Maljamar Repressing Plant.

Mrs. Ken Whitely and children visited Mrs. Whitely's mother, "Ma Payne," Sunday.

H. C. Hunter and sons spent the Easter holidays in Artesia. Mrs. Hunter is visiting in Texas.

Mrs. J. D. Peek and daughter of Loco Hills visited Mr. and Mrs. Ott Vowell over the week end.

Mr. and Mrs. Glen Bowers entertained relatives from Lockney, Texas, over the week end.

Mr. and Mrs. L. Poer and sons spent Friday night in Portales with relatives.

J. C. Davis, L. Poer, and Walter White made a business trip to Elids, Texas, Tuesday of last week for the Baptist Church.

Luther Kelly and son, Kenneth, went to Lamesa, Texas, with Mrs. Kelly's son-in-law, Ed Taylor of Artesia. Wednesday of last week the Barney Cockburn Oil Company moved a house into the camp recently.

The Kewanee Oil Company has a new lease house under construction.

Mr. and Mrs. Ira Pleasant took their daughter, Wanda, to Artesia for medical attention last Thursday.

Mr. and Mrs. Dick Hicks of the Fulerton field were guests Sunday of Mr. and Mrs. Cecil Holeman.

Mr. and Mrs. Melton West and family visited Mrs. West's parents, Mr. and Mrs. Dan Yancy of Roswell.

Children of Maljamar Repressing Plant employees had an Easter egg hunt Friday of last week. Guests for the hunt were Annett and Gene Fruit. The prize Easter egg was found by Tommy Potts. Those attending were Lannie and Gary Ashlock, Joey Hatfield, Joyce Davis, Tommy Potts, Beth and Gary Rhymis, Dick Hunter, and Billy Golden.

Travis Kelly, Peggy Jean Castleman, and Arthur Melton spent the Easter holidays at their respective homes. They are attending Eastern New Mexico College in Portales. Arthur Melton's home is in Hope, but he visited Travis Kelly during the holidays.

Mr. and Mrs. Luther Kelly entertained their daughter, Mrs. Ed Taylor, and family of Artesia over the Easter holidays.

Mr. and Mrs. Sterling Isaacs visited Mrs. Isaacs' mother in Artesia Monday evening of last week.

Mrs. O. Furrar entertained her daughter from Lubbock over the week end.

Mr. Potts' mother of Artesia spent the Easter holidays with him at the Maljamar Repressing Plant.

Mr. and Mrs. A. Glover returned Monday of last week from Rising Star, Texas, where they had been visiting relatives.

Mrs. A. W. Golden and Mrs. E. R. McKinstry took their sons to the Clare Tree Major production in Artesia Wednesday afternoon of last week.

Mrs. John McMurray, Mrs. Kenneth Shields, and Mrs. A. W. Golden visited Mrs. Coy Moss Wednesday of last week. Mrs. Moss served coffee to them and Mr. and Mrs. James McMurray and Mrs. Richardson. The Moss family is moving to Oklahoma soon.

Mrs. Odell O'Neil took her children to Hobbs for medical care Monday of last week.

The Ace Bridge Club met at the home of Mr. and Mrs. Kenneth Shields Monday evening of last week. Mr. and Mrs. Jimmy Cunningham won high scores.

Mr. and Mrs. John Fruit took their daughter, Annett, to Lubbock Tuesday of last week to consult an optician.

their daughter, Linda Kay, to Artesia for medical attention Tuesday of last week.

Mr. and Mrs. L. J. Kelly spent the Easter holidays in Lovington visiting Mr. and Mrs. Les Alston.

Home Notes

By Miss Wynona Swepton
Home Demonstration Agent

Meat consumption in the U.S. in 1947 was about 154 pounds per person, the largest on record since 1909. More beef was consumed per person than in any one of the last 37 years. However, people ate less veal and pork than in some of the war years. Lamb and mutton consumption in 1947 was the lowest since 1927.

The production of canned baby food has developed into a big business in the last few years. In 1935, babies in the U.S. were eating on the average only two pounds of canned baby food a year. By 1939, they were averaging 13 pounds a year. And in 1947, babies' consumption of food specially canned for their use was up to 45 pounds.

Fruit products make up about half of the total of baby foods on the market. Vegetables rank second, making up a fourth of the

total. Meat products account for 10 per cent. Desserts, custards, and puddings make up the remainder of baby food stocks.

Top spots on the plentiful foods list this week go to apples, cabbage, lettuce, and eggs. Runners-up are grapefruit, oranges, carrots, broccoli, beets, and spinach. Grocery shelves should also be lined with processed foods, including grapefruit, citrus juices, tomato juice, sweet potatoes, pumpkin, and lower grade peas. Other plentiful foods are nuts, stewing chicken, dried fruits, peanut butter, frozen peas and fish.

On The Farm

An average-size hen that produces 200 standard-size eggs a year lays almost five times her body weight in eggs.

New Mexico's 2,449,000 bushels of farm-stored wheat may be seriously damaged by insects unless precautions are taken. Every year insects destroy 300,000,000 bushels of stored grain in the U.S.

Keeping farm accounts not only aids in filing income tax returns but also helps to improve farm business.

This year may be the biggest food production year in history if

America's home gardeners meet the nation's goal of 20,000,000 Freedom Gardens.

SOUTHERN HOSPITALITY*
Crusty-brown, tender, juicy
SOUTHERN FRIED CHICKEN!

Serve a platter of southern hospitality—fried chicken sizzling an invitation to good eating. M-m-m-m, crusty-brown outside...tender, juicy, rich-flavored inside. It takes good chicken to fry up so extra tempting. The kind of chicken Safeway sells. We start by selecting just the top-quality poultry. Then keep it properly refrigerated to reach you at its very best. So good that we say: unless it pleases you 100%—all your money back.

Carbon Monoxide Hazard Exists In Many Garages

The State Department of Public Health has received a report from Pope A. Lawrence, assigned to New Mexico by the U.S. Public Health Service, and Carl Jensen, supervisor of industrial hygiene of the State Department of Public Health, relative to certain health hazards which are known to exist in automobile garages and repair shops.

Tests performed in a number of garages have revealed that in some instances there exists in the atmosphere of such shops a fairly alarming concentration of carbon monoxide, which is one of the constituents of the exhaust gases generated in the operation of automobile engines. The concentrations of carbon monoxide have

been high enough to cause headache and mental lethargy by the time an individual has worked several hours on the job.

So far no reports have been received of any fatalities in commercial garages. However, during the winter months with garage doors closed and engines being run for tuning up purposes or by customers permitting their cars to idle while waiting for service, there does exist a definite hazard to the health of the employees of inadequately ventilated shops, the men said.

Carbon monoxide is a colorless, odorless, and tasteless gas. Therefore the individual has few warning signs that he is being subjected to its action. Relatively low concentrations of carbon monoxide in the atmosphere can produce severe symptoms. However, in non-fatal cases, recovery is usually complete. Carbon monoxide is not a cumulative poison.

Many garages have asked the State Department of Health about ozone generating machines which have been offered for sale to garages for the alleged purpose of purifying the atmosphere in such garages. Ozone generating machines have been studied by reliable investigators including personnel of the U. S. Public Health Service and many state and city health departments and they found that ozone machines are ineffective for removing carbon monoxide from the atmosphere under ordinary conditions of use.

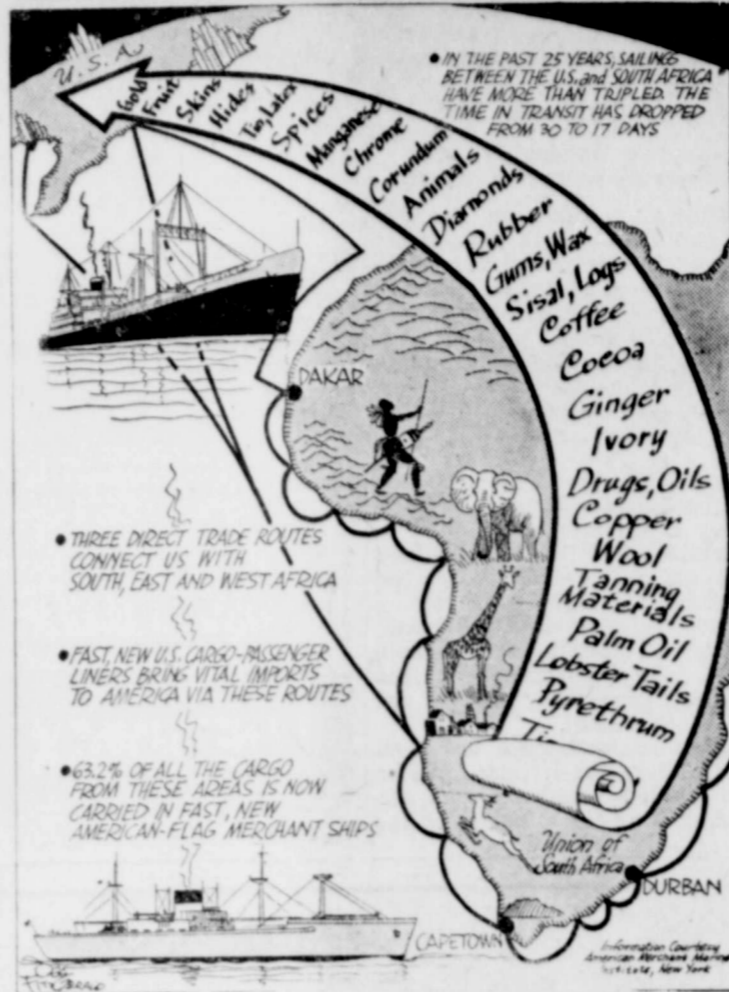

These workers also report that there appears to be no scientific basis for an inference that ozone in the atmosphere of garages would have any beneficial effects at all. Although the machines do generate ozone and add it to the atmosphere, they do not reduce the health hazard caused by carbon monoxide.

If ozone is generated to such an extent that it exists in the atmosphere in concentrations greater than one part in a million parts of air it exerts harmful influence on the person breathing the air.

According to the information available to the State Department of Public Health and its industrial hygiene workers, the only effective way of removing carbon monoxide from the atmosphere of garages and repair shops is a combination of tailpipe exhaust systems and general mechanical ventilation.

The investigators said it is noteworthy that some forward-looking proprietors of garages and repair shops have already installed or are planning the installation of approved exhaust ventilation systems.

What Africa Sends Us

the Carlsbad Irrigation District. Very few irrigation wells were in use prior to 1947.

A table showing the comparison of water levels in the wells may be consulted in the offices of the state engineer in Santa Fe, the Artesian well supervisor in Roswell, the Bureau of Reclamation in Carlsbad, and the U.S. Geological Survey in Albuquerque.

Tuesday to answer questions about the various types of Social Security benefits and transact other business concerning the program. He will be at the assembly room in the city hall.

During World War I there were frequently more U.S. Navy pilots in the hospital than were available for duty.

From 1940 to 1947, the population of Texas increased by about 703,000 people.

From 1940 to 1947, the population of Ohio increased by about 866,000 people.

Three-quarters of the U.S. population between 5 and 19 years old was attending school in 1940 compared with about half in 1890.

PAULIN FUNERAL HOME

ON THE FARM

New Mexico's share of national forest receipts during the last fiscal year were \$108,216, an increase of \$32,000 over that paid in 1946.

A garden can be made profitable by using good soil, good seed, and good fertilizer and by controlling diseases and insects.

Although the world's food production is increasing, the food shortage in some areas is more critical than a year ago. And, because of the 10 per cent increase in population since 1940, per capita world food supplies are substantially below the pre-war period.

Potatoes are the only major food crop whose world production declined in 1947. The drop occurred chiefly in Europe.

Ground-Water Levels Decline In Carlsbad Area

The ground-water levels in the Carlsbad area in New Mexico declined an average of more than eight feet during 1947, W. E. Wrather, director of the U.S. Geological Survey, announced. The decline is indicated by a comparison of measurements made in 23 wells in February, 1947, by the U.S. Bureau of Reclamation with those made in January, 1948, by the Geological Survey, in cooperation with the state engineer of New Mexico.

The wells are distributed over the irrigated area from about two miles north of Carlsbad to Malaga, 17 miles south of Carlsbad. Seventeen of the wells are irrigation wells, three are unused

wells, and three, at the Carlsbad Air Base, are domestic wells. The decline ranged from less than two feet in three wells on the northern and southern outskirts of the pumped area to as much as 16 feet in a well a mile east of Otis and six miles south of Carlsbad, near the center of the pumped area.

Records of water level have been kept since 1942 on the three air base wells southwest of Carlsbad and since 1944 on the Merchant and Barfield wells about a mile east of the air base. These records indicate a lowering of 17 feet from January, 1943, to January, 1948, more than 13 feet of it in the last year, February, 1947, to January, 1948. This period of maximum decline coincides with the period of intensive development of the irrigation wells, occasioned by the severe shortage of surface water for the lands of
