HELPING TO BUILD A GREATER ARTESIA

VOLUME FORTY-FIVE

ARTESIA, NEW MEXICO, THURSDAY, MAY 13, 1948

NUMBER 20

## Elementary School Zoning Is Under Consideration By Board

At a meeting of the Artesia Board of Education Monday night the possibility of zoning the elementary schools of the city was taken under consideration and tentative plans were set up, it was announced by Tom Mayfield, superintendent of schools.

He said the proposal is being studied, with it likely the zoning will become effective for the 1948-49 school year, provided all necessary details can be worked out.

At the present time primary work is offered only at Central and North Side Schools, with intermediate classes at Park School. Under tentative plans primary work would be offered at all three schools and intermediate work at Central and Park Schools, but not at North Side School, because of limited classroom facilities there.

Superintendent Mayfield said that under the present arrangement school children from opposite sides of the city must walk greater distances to reach schools than the levels of work meet their respective needs is offered than will be required under the proposed plan.

This, he said, is not only an inconvenience to the children, but it increases the traffic hazard because it is necessary to cross more streets. The tentative proposal sets up

as the Park School zone all of the city west of the west side of Eighth Street and its extension in Alta Vista, which is Watson Avenue.

The zone for Central School will be east of the east sides of Eighth Street and Watson Avenue and north to the south side of Chisum Avenue. The zone likewise will include all of that part of the city on the east side of the Santa Fe tracks to the north, including Conoco Colony, as there is no crossing north of Main Street.

For North Side School the zone is tentatively set to include that part of the city north of Chisum and east of Eighth, and including Morningside.

The superintendent said the zoning for North Side School has to be limited, because of the lack of facilities. For this reason, he said, children in the fifth and sixth grades and living in the North Side School zone will have to go to Park School for lack of available rooms at North Side.

The zoning will be for beginners through sixth-grade students, with the North Side School zone exception.

Superintendent Mayfield said children coming to school in buses will continue to be placed in the schools where they are best fitted.

## Air Mail Week Proclamation By The Mayor

Whereas, the Post Office Department in Washington is setting aside the week of May 15 to 21, 1948, as a period of observance of the 30th anniversary of the United States Air Mail Service, and

Whereas, the growth and development of air transport and the aviation industry has and will continue to be fostered and sponsored by the Post Office Department through its Air Mail Service, and

Whereas, the development of an air communications system unequalled in the world has played an important role in the economic and cultural advancement of our people and our nation, and

Whereas, I believe that the citizens of Artesia are vitally interested in the continued development and growth of aviation as it benefits the people, the nation, the postal service, and our relations with the peoples and nations of the world,

Now therefore, I, Oren C. Roberts, mayor of the city of Artesia, do hereby designate the week of May 15 to 21 as a period to observe the 30th anniversary of the United States Air Mail Service, and do call upon our people to take cognizance of this week by taking part in events and activities commemorating this historic event, and by patronizing the Air Mail Service.

Oren C. Roberts, Mayor of Artesia.

## School Budget Of \$379,671 Is Approved As Submitted

The Artesia school budget of \$379,671 for the 1948-49 school year was approved without change and as submitted last week at the annual budget hearing in Carlsbad. The budget for the current year is \$333,407.

The total budget for Eddy County schools approved was \$1,380,459, including funds for increases in teachers' salaries, and compares with \$1,163,778 for 1947-48. Of the total \$663,199 is for Carlsbad schools, \$34,165 for Hope, and \$303,424 for the rural schools.

A reduction of \$525 was made in the submitted budget for Hope. The budget there for the current year is \$30,422. The reduction was made after it developed at the budget commission hearing that 66 per cent was for instructional service and 33 per cent for administrative service. As a result, the superintendent's salary request of \$4500 was reduced to \$4300, and the fund for clerical help from \$725 to \$400. However, his salary was increased from the current \$4000.

The school budgets all provide for a \$240 high cost of living increase in salaries for teachers in addition to their regular increases.

The Artesia budget items for 1948-49 and comparisons with the same items for the current year:

Superintendent's salary, \$7000; \$6400; clerical, \$8172, \$7560; office supplies, \$875, \$825; postage, tele-

phone and telegraph, \$970, \$805; census, \$150, no increase; board, bond and election, \$200, \$125; travel, \$600, no increase; business manager, \$5100, \$4800; audit, \$500, \$350.

Teachers' salaries, \$255,042, \$229,587; principals' salaries, \$18,932, \$18,700; supervisors' salaries, \$4,280, \$4260; school supplies, \$2000, no increase; group insurance, \$1000.

Janitors' wages, \$21,419, \$16,745; fuel, water and lights, \$7500, \$6,000; janitors' supplies, \$1,523, \$1,500.

Transportation, \$21,975, \$19,814; library supplies, \$2000, no increase; promotion of health, \$5,840, \$4300; health, \$500; cafeteria operator, \$4200, \$2000; attendance officers, \$3,540, \$3,300; driver training, \$3,000; other auxiliary, \$1,686, \$486.

A proposal for a co-ordinated health program under which nurses would be under the direction of the district health officer was referred to a committee consisting of R. T. Spence of Carlsbad, a member of the budget commission; Hollis G. Watson of Artesia, a county commissioner; Artie McAnally, president of the Artesia Board of Education, and Hoyt McMinn of the south part of the county. They are to choose an additional member.

The proposal was made by J. E. Owens, tax expert for the Santa Fe Railway.

## Mrs. Henry Lee Dies Suddenly Last Thursday

Mrs. Henry T. Lee, 67, died suddenly at 9:45 o'clock last Thursday morning at Artesia Memorial Hospital, just as she was about to be discharged. She suffered an attack as she was having her picture taken with members of the staff. Mrs. Lee had been ill about two months.

Funeral services were from the First Baptist Church here at 10 o'clock Saturday morning by Rev. H. W. Langford. The body was then taken in the Paulin Funeral Home Hearse to Portales, where there were further services at 4 o'clock in the afternoon. Burial was in a Portales cemetery.

Mrs. Lee is survived by her husband and seven children, Mrs. Ruby Evans, Artesia; Marion Lee, Portales, Calif.; Edward Lee, Roswell; Robert Lee, Portales; H. B. Lee, Hot Springs; Curtis Lee, Artesia, and Hubert Lee, Avondale, Colo.

There also survive Mrs. Lee a sister and four brothers, Mrs. Emma Connell, Weatherford, Texas; Jim Hale, Loraine, Texas; Tom Hale, Hamilton, Texas; Irvin Hale, Portales, and Albert Hale, Synder, Texas.

As Mary Eva Hale, a daughter of Mr. and Mrs. Richard Hale, Mrs. Lee was born in Hamilton County, Texas, March 30, 1885. There on April 5, 1903, she married Henry T. Lee, and to them were born eight children, of whom the seven mentioned survive.

Mrs. Lee came to Artesia from Portales three years ago.

## Bodies Of Gray And Simons Are En Route Home

The bodies of Pfc. Donald S. Simons and Pfc. Avery Gray, who were killed in June, 1944, in the invasion of Saipan, are enroute to the United States for final burial at home, according to telegrams Tuesday to their parents, Mr. and Mrs. John T. Simons, Sr., and Mr. and Mrs. D. N. Gray.

The telegrams were sent from the Quartermaster Depot at Fort Worth, Texas.

They did not say on what ship the bodies are being brought home or when or where it would dock.

However, the parents were told they will be notified when the bodies will arrive at Artesia.

Both of the young men were 18 years old when they gave their lives for their country. They and Pfc. Roy Reyes, also of Artesia, were inducted the same day into the Marine Corps. Private Reyes, who was in the same company as Private Simons, was seriously wounded in the same action in which the others were killed.

Private Gray and Simons were the 18th and 19 North Eddy County men reported to have lost their lives in World War II.

## Artesia Junior Team Defeats Carlsbad Here

The Artesia seventh and eighth-grade track and field team under Coach Claude (Jiggs) Whittington defeated a team from Carlsbad here Tuesday 41 to 39 in a close meet, in which the winning of the relay race was the deciding factor in the final outcome.

Earlier in the season Artesia defeated the Carlsbad team at the Cavern City 58 to 21.

Results of the events to third place, with distance given for the field events:

The 100-yard dash—Domingoes, Carlsbad; Clarence Lamb, Artesia; Minjures, Carlsbad.

The 50-yard dash—Lamb, Artesia; Joe Alvarado, Artesia; Davis, Carlsbad.

The 220-yard dash—Domingoes, Minjures, Ellsworth, all Carlsbad.

The 440-yard run—Samaniego, Carlsbad; Bill Brown, Artesia; Patton, Carlsbad.

Shot put—Don Mulliniks, Artesia; Ellsworth, Carlsbad; Charles Nelms, Artesia, 40.7.

Pole vault—Davis, Carlsbad; Nelms, Artesia; Ulrich, Carlsbad, 7.8.

High jump—Ellsworth, Carlsbad; John Felton, Artesia; Bill Brown, Artesia, 4.9 1/2.

Broad jump—Lamb, Artesia; Vasquez, Carlsbad; Minjures, Carlsbad, 18.6.

The winning Artesia relay team was composed of Lamb, Doyle Cole, Felton, and Alvarado.

## Baccalaureate Exercises To Be On Sunday

Baccalaureate exercises for the graduates of Artesia High School will be held in the school auditorium at 8 o'clock Sunday evening with Rev. Ralph A. O'Dell, pastor of the First Presbyterian Church, delivering the sermon.

The class commencement will be at 8 o'clock the next Friday evening, May 21, in the auditorium. At that time Dr. E. H. Fixley of the University of New Mexico will be the principal speaker and will bring the commencement message.

Because of the baccalaureate exercises Sunday evening, a number of the local pastors have announced there will be no church services. These include the First Baptist Church, First Methodist Church, First Christian Church, Church of the Nazarene, and St. Paul's Episcopal Church. The First Presbyterian Church has no regular evening services.

Although the Assembly of God Church will not dismiss Sunday evening of baccalaureate, the revival services now being held (continued on last page)

## Mrs. Frisk, 87, Former Artesian, Dies In Kansas

Mrs. Eva Margaret Frisk, 87, of Independence, Kan., who lived in Artesia from 1905 to 1915, died April 26 in a nursing home at Independence after an illness of two months.

Funeral services were at Independence April 29, and burial was in Mount Hope Cemetery there.

Surviving Mrs. Frisk are her daughter, Mrs. A. D. Warnock of Atchison, Kan., and two grandchildren. Mrs. Warnock is remembered here as Bernice Frisk.

Mrs. Frisk was born Jan. 11, 1861 at Laysville, Pa., a daughter of James and Malissa Finley. She moved with her parents to Americus, Kans., when she was 10 years old. The family moved shortly afterwards to Emporia, Kan.

She married George W. Frisk May 6, 1896, and with him and their daughter came to Artesia in 1905. Mr. Frisk died here in 1914 and was buried in Woodbine Cemetery.

While living in Artesia, Mrs. Frisk served as matron of the Order of the Eastern Star. She was a lifetime Methodist.

## Mrs. Bradley, 67, Is Buried Here Sunday Afternoon

Mrs. Sarah E. Bradley, 67, widow of the late Sylvester Bradley, a resident of Artesia many years, died at 7 o'clock last Thursday evening at the home in Las Cruces of her daughter, Mrs. J. R. Wright, with whom she had been staying about two months. Mrs. Bradley was failing in health the last two years.

Funeral services were from Paulin Chapel in Artesia at 3 o'clock Sunday afternoon by Rev. Harry Wilson, pastor of the First Christian Church. Burial was in Woodbine Cemetery.

Palbearers were Clyde Roberts, Hugh Kiddy, John Shearman, E. B. Everett, Tom Bryan, and W. R. Hamlin.

Mrs. Bradley is survived by the daughter, Mrs. Wright; a son, H. J. (Sinnie) Bradley of Artesia, two brothers, Ellis Ray of Lamesa, Texas, and Thomas Ray of Loraine, Texas; three sisters, Mrs. A. C. Hester of Lubbock, Texas, Mrs. Vera Winters of Winters, Texas, and Mrs. W. R. Pennington of Pflugerville, Texas, and a granddaughter, Mrs. H. P. Dermody of Las Cruces.

As Sarah E. Ray, a daughter of Mr. and Mrs. James W. Ray, Mrs. Bradley was born March 7, 1881, at Muldoon, Texas. On Aug. 4, 1898, she married Sylvester Bradley, and to them were born three children, of whom two survive.

Mr. and Mrs. Bradley came to Artesia from Dallas, Texas, about 22 years ago, and Mr. Bradley followed the barber trade here many years until a short time prior to his death May 18, 1946.

Mrs. Bradley was a member of the Christian Church.

Here from a distance Sunday for the funeral were Mrs. Bradley's daughter, Mrs. J. R. Wright, and (continued last page this section)

## Death Comes To Mrs. Matthews Here On Sunday

Mrs. Cephas Matthews, 44, died at Artesia Memorial Hospital at 7:40 o'clock Sunday evening after an illness of about six months.

She was born at Meridian, Texas, April 20, 1904, as Laura Kitty Metcalf, a daughter of Mr. and Mrs. John N. Metcalf.

She married Mr. Matthews in Haskell County, Texas, Nov. 13, 1932, and to them were born three sons, all of whom survive. They are Samuel Cephas, John Reginald, and James Arthur Matthews.

Also surviving Mrs. Matthews are her husband and two sisters and a brother, Mrs. A. W. McCoy, Aspermont, Texas; Mrs. C. S. Gay, Haskell, Texas, and John W. Metcalf, Aspermont.

Funeral services were from Paulin Chapel by Rev. S. M. Morgan, pastor of the First Baptist Church, at 2 o'clock Tuesday afternoon. Burial was in Woodbine Cemetery.

Mrs. Matthews was a member of the Baptist Church.

## Nash, Windfohr, Brown Well Only New Oil Producer

Of three completions reported the last week in the Eddy County oil fields, only one was a producer, and it was not a top-allowable well.

During the week five locations were made, of which four were newly staked and the fifth an old well drilling deeper.

The completions:

Nash, Windfohr & Brown, Gissler 10-B, SW NE 11-17-30; total depth 3267 feet; flowed 31 barrels of oil per day, after shot.

Leonard Oil Co., State 1-B, NE SE 2-19-29; total depth 4112 feet; plugged and abandoned.

Nann & Sanders, Shugart-Superior 1, SW NW 26-21-25; total depth 3369; plugged and abandoned.

Locations: Malco-Restler-Yates, State 92, SE SW 27-18-28; Malco-Restler-Yates, State 93, NE NW 27-18-28; Harvey E. Yates, Yates 1, SE NE 6-20-27; Nix & Yates, Yates 1, SE NE 31-20-29; H. W. Snowden, Langford 2, SE SW 9-18-29, old well drilling deeper.

Drilling Report

Magnolia Petroleum Co., State 1-W, SW SE 16-20-22, granite test on east slope of Guadalupes. Drilling at 9731.

W. N. Black Drilling Co., Shield neck 1, 24-16-20, wildcat north-west of Hope.

Drilling at 4375.

Paton Bros., Magruder 10, SE SE SE 35-17-27.

Total depth 1800; cleaning out after shot.

(continued last page this section)

## Fred Riley, Who Lived Here Many Years Ago, Dies

Belated news has just been received of the death in Kansas City Mo., March 13 of Fred B. Riley, 65 former resident of Artesia.

He died while kneeling in prayer at Our Lady of Sorrows Catholic Church with a neighbor, who thought Mr. Riley had fainted. A physician who was summoned pronounced him dead.

Funeral services were from the same church March 17, and burial was in Calvary Cemetery at Kansas City.

Surviving Mr. Riley are his widow; four daughters, Mrs. Clyde Dekey, Mrs. Francis Huff, Miss Belores Riley, and Miss Bernadette Riley; a son, Fred B. Riley, Jr., and three sisters and a brother.

Mr. Riley came to Artesia in 1914 and lived here several years, during which time he owned a sheet metal shop. The family lived on the old Keinath home, now the residence of the Hollis G. Watson family, and he owned a farm west of town.

Prior to moving to Artesia, Mr. Riley was an instructor at the Cheney Automobile School in Kansas City.

## More Than 200 Register To Vote Here On Monday

At least 217 persons were registered to vote Monday at a special registration day at the various polling places in Artesia, according to a count shortly before the 6 o'clock deadline.

Of the number, 111 registered at the city hall, but many of them reside in other wards and some were registered who live in other than Precinct 6, the Artesia precinct.

Monday was the final day in which to register in order to be eligible to vote in the party primaries Tuesday, June 8, after which the registration books again will be opened and will remain open until 30 days prior to the general election next Nov. 2.

## 'Arsenic,' Senior Play, Is To Be Presented Friday

All props and furniture are ready for the curtain to go up on the first act of "Arsenic and Old Lace," being presented by the senior class at 8 o'clock Friday evening in the high school auditorium.

A matinee is being held this afternoon in the auditorium and will begin at 1 o'clock for students.

Charles Lewis is stage manager and is assisted by Keith Kidd, Wesley Needham, Wilson Ports, David Runyan, Bill Fleming, and Johnny Lanning. The stage setting was built last year by these boys for the junior class musical, "Growing Pains."

Miss Hattie Godsell, chairman of the advertising committee, is assisted by Nonnie Ross, Mary McDaniel, and Elmira Terry.

An "Elderberry Wine Bar" will be set up in the hall at the schoolhouse, where Elmira Terry and Annie Dunnam will serve soft drinks between acts.

Ushers will be Shirley Feather, Merced Natera, Essie Hernandez, Hattie Godsell, Ruby Broom, Bonnie Ross, Leatha Vogel, Betty Stevenson, and Socorro Guerrero.

Members of the senior cast are Carol Hensley, Pauline Redmon, Johnny Lanning, Jimmy Blue, Jerry Perry, Jan Crossley, Jerry Everett, Jack Holcomb, Jerry Cole, John Suddreth, Bert Shipp, and a member of the junior class, will be Richard Galatin, Walter Gray, a member of the junior class will also appear in the play.

## GPA Chapter Is Formed Here Tuesday Evening

Calrence E. Fischbeck, who was serving as temporary chairman, was named president of the new Game Protective Association chapter here at an organizational meeting Tuesday evening, at which State Game Warden Elliott S. Barker was a speaker and showed four State Game Department movie pictures.

President Fischbeck and other officers were named by members of a nine-man board of directors, who were elected by about 75 interested sportsmen present.

Douglas O'Bannon was elected vice president and Frank Smith, secretary-treasurer.

Besides the three officers, the other members of the board are Ted Wikowsky, Tom Mayfield, John Mathis, Jr., Wayne Riddle, J. D. Smith, and Wayne Paulin.

The directors were selected from a list of 11 candidates, who were nominated by a special committee appointed at a previous meeting two weeks ago. They were Clyde Roberts, chairman, and A. C. Sadler, and Russell Hill.

Dues for the new chapter were set at \$2 a year for adults and \$1 for junior members less than 18 years old, at a meeting of the board after the general meeting.

At that time a goal of 1000 members was set.

The organization is to meet every two weeks for the present, it was announced, with the next meeting called for Friday, May 21.

In his remarks, Game Warden Barker said that no matter how good a game department is, the protective job cannot be done without the help of sportsmen.

He pointed out that the killing of the pet fawn, Flag, at the Artesia municipal airport some weeks ago, which prompted sportsmen to start the movement for a Game Protective Association chapter here, was but one of a number of such cases in this area. He said at least 10 antelope and 20 deer are known to be killed without reason each year in the Eddy-Lea County district of Deputy Game Warden L. W. Simmons.

Sometimes it is possible to turn up the culprit, Warden Barker said, but usually it is not. However, he added, with the co-operation of every sportsman the job would be easier, because usually someone knows who has committed the crime.

The game warden said that in the last 15 years hunting and fishing (continued last page this section)

## VFW 'Buddy Poppy Day' Is To Be Observed In Artesia Saturday

The annual Veterans of Foreign Wars "Buddy Poppy Day" will be observed in Artesia Saturday, it was announced Monday evening at the regular monthly meeting of the post by Commander Preston Triplett.

He said Bill Gressett is the general poppy chairman. Sale of the poppies will be by members of the VFW auxiliary, who will have booths in the downtown area and also will call at the various stores and offices.

Commander Triplett said the poppies were made by disabled and needy veterans and that the funds the post derives from their sale will be used in the post's rehabilitation program.

Plans likewise were started at the meeting Monday for the observation of Memorial Day at Artesia by the three veterans' organizations. The commanders appointed Jim Head chairman for the VFW, with orders for him to meet with representatives of the American Legion and Disabled American Veterans to work out plans and a program.

Commander Triplett, who was installed at the April meeting, announced the names of appointive officers of the post. They were: Patriotic instructor, Jack Clem; service officer, Creighton Gilchrist; legislative officer, Olin Woodside; publicity officer and membership chairman, Wayne Griffin; officer of the day, Leonard Ledbetter; degree captain, Norman Rogers; sports chairman and member of the United Veterans Club central committee, H. D. Burch.

The building contract offered by the American Legion to the VFW and DAV was accepted with certain revisions by the VFW members. After action by the DAV at its monthly meeting next Monday, the proposed contract will be returned to the Legion for consideration of demanded revisions.

Miss Beth King was a guest at the meeting and submitted a financial report of the United Veterans Club, for which she has been keeping the books.

Commander Triplett prevailed upon the present members to sign up as many more members as possible, especially in view of the fact the annual New Mexico department encampment will be in Carlsbad June 20 to 23.

In order to encourage the signing up of members, a first prize of a \$25 U. S. Savings Bond, and second and third prizes of \$10 and \$5 were offered to members bringing the greatest numbers of new members in a drive to last until Aug. 1.

## Residential Housing Project Here Is Talked At Chamber Luncheons

Steps were discussed at luncheons Friday and Monday noons on the Roof Garden for relieving the housing shortage in Artesia, with the proposal made that a number of units be built through the financing of a group of local men.

Both meetings were attended by members of the board of directors of the Artesia Chamber of Commerce and a number of local businessmen. Luther E. Sharpe, manager of the Chamber of Commerce, presided at both.

At the luncheon Monday, John G. Ryan of Santa Fe, a contractor who is just finishing a big project at Las Alamos, made an offer to build the required number of houses here, provided a building group is formed and his proposal accepted. He said he would build one, two, and three-bedroom houses in groups at a much lower figure than would be required if they were constructed individually.

Ryan said such houses would meet every requirement of the FHA, but that building costs would be held down through mass production.

He had with him tentative floor plans for the three sizes of houses which, he said, could be varied into 120 different combinations.

At the meeting Friday, Manager Sharpe said the Chamber of Commerce board the night prior had unanimously recommended that a housing project be set up here, in which houses be built at figures people can afford to pay, in order to render a service to the community.

He stressed that the Chamber of Commerce would have no part in the actual building, but that (continued on last page)

## Train Whistle Tuesday Morning Is Welcome Sound To Artesians

When the southbound passenger train whistled in about 7:30 o'clock Tuesday morning, it was a welcome sound to many Artesia residents, for it confirmed what they had heard Monday night on the radio, that the railroad strike had been blocked.

No one here knew just what the strike would have done by way of slowing up activities in Artesia, but all are agreed this community would have been greatly affected, along with all others in the nation, if the strike had not been blocked.

Although much of the petroleum and agriculture products of the Artesia community go out by truck the Santa Fe has been carrying a good percentage. And it is probable there soon would have been a big backlog which would have worked a hardship.

Many of the farmers use trucks to transport their alfalfa hay out of the Pecos Valley, but the Artesia Alfalfa Growers Association has been shipping by rail. At the present time hay is being cut and many tons probably would have had to be stacked.

It is not known how soon all local gasoline storage would have been used up, but it is certain it would not have taken long for the refineries here have been moving out their products in an orderly fashion, which did not require great storage facilities.

And it has been pointed out that it is problematical whether the tank trucks, which had been running regularly with shipments of gasoline and other products, would have been able to handle the percentage which had been going by rail.

(continued last page this section)

## Postal Employee Civil Service Exam Deadline Has Been Extended

The deadline for applications for Civil Service examinations for postal clerks and carriers at Artesia has been extended from May 10 to Monday, May 24.

Applications must be filled out and sent in time to be received at the regional Civil Service office at Denver by that date.

The blanks may be obtained from F. M. Davenport at the local postoffice.

## Public Takes Plenty

WE HAVE ALWAYS been just a little curious as to why the public takes so much and spends so much in its public affairs.

But the public has always been a glutton for punishment.

But individuals engaged in business or purchasing service will demand that service for which they are paying. They do not hesitate to condemn poor service; they will threaten to change the place where they are doing business or even fire the individual being paid to do a job if he or she does not do that job.

Yet week after week and month after month they see those being paid out of public funds to do a particular job and yet the job is only being half done or not being done at all. And instead of getting excited about it; demanding an improved service; or making a change they just let matters ride along.

There are over this county, this district, and this state public employees, who are not earning their salaries; not capable of doing their jobs; and those not performing the service, which they are being paid to do.

But the public lets matters ride along; pays little or no attention to the situation; and continues to let salaries being paid to individuals not earning their salaries.

This, of course, is not true of some public officials and some of their employes. We can name those of the public payroll, who are earning more than they are receiving and who are doing an outstanding job. But they are the exception rather than the rule.

We know public officials drawing a good salary to render a definite service, yet they are not rendering the service for which they are being paid and they are devoting too much of the time, which they have sold, to personal affairs and to personal business.

And there are times when we wonder whether they are qualified for the job they have, judging solely on the basis of the mistakes, the poor judgment and the unwise decisions, which they make.

And in such cases, of course, they are not earning their salaries; they are not doing their jobs; and they are not entitled to what they are getting.

But those, who dare to criticize them will soon be condemned. Their attitude always is that what they do is their own business and it is none of the business of any individual, any citizen, or any taxpayer.

They, of course, are wrong in this respect and we are confident if the shortcomings of these so-called public servants were pointed out to the public they will not return them to public office.

And these facts should be pointed out and stressed regardless and irrespective of what the officer may think or believe.

Once again we would like to point out there are some office holders, who feel they own the office, which they operate. They want to run it just as though it belonged to them. They forget the public is paying for a service, which they swore they would provide.

In some instances they are paid for professional knowledge, which they are supposed to possess but some of their conduct at times makes one wonder whether they are qualified to receive the pay, which is being given to them.

But as long as the public permits them to go along and get by with this kind of conduct; with the poor service they are rendering, and the neglecting of their office, they will continue to do so.

About the best thing for the taxpayers and the citizens to do with such cases is to see they are not returned to office when the next election is held. After all the public is entitled to \$1 worth of service for every dollar it pays out for public salaries even though it must demand it to receive it.—O.E.P.

## Only One-Fourth

THE STATE LEGISLATURE of New Mexico, which is charged with appropriating the funds of this state for the maintenance of schools and colleges and the various state departments, today only actually budgets about one-fourth of the total expenditures of the state.

The balance of 75 per cent of the tax money collected for state purposes, is already dedicated through special acts of the Legislature.

This, of course, takes the matter out of the hands of the Legislature.

The worst feature, however, is the fact that

those agencies which receive their money from special tax dedication is that they do not have a definite budget. This means they can spend what they collect for the causes to which these funds are dedicated and for the task of collecting the funds.

This is true concerning the sales tax; the tobacco tax; the various other taxes, which were levied for a definite purpose and which must go under the law for that purpose.

So sometimes when we get to wondering where the tax money goes or why the Legislature does not have funds to appropriate for this or that purpose, it might be well to recall that they only have control over about one-fourth of the state's tax money. It perhaps is well and good for the state to be able to dedicate tax devises for definite purposes. Long ago it was learned that monies collected for a definite purpose and placed in the general fund were oftentimes used for other purposes.

Yet the fact does remain, it appears to this newspaper, that there should be a very definite limit on what these agencies or departments can spend. It also seems reasonable that they too should not only be required to set up budgets but to secure the approval of these budgets.

The members of the State Legislature are the direct representatives of the people of this state, the taxpayers. And it appears to us that it should be their privilege as well as their responsibility and their duty to appropriate these funds.

It perhaps wasn't so wise to dedicate some 75 per cent of the taxes of the state to various departments because this action definitely limits the Legislature in what it can or can't provide state institutions.—O.E.P.

## Game Protective Association

I GIVE MY PLEDGE as an American to save and faithfully to defend from waste the natural resources of my country—its soil and minerals, its forests, waters, and wildlife.

That is the national conservation pledge, which reflects the spirit of the new Game Protective Association in Artesia, and of other chapters throughout the state and nation.

The GPA is concerned in the main with wildlife—game and fish—but the fact its membership is made up of sportsmen one may conclude it and they are concerned with preservation of the soil and minerals, forests, and waters, as well as the wildlife.

And we call the members sportsmen advisedly, for they are not merely hunters and fishermen, or they would have no desire to belong to the GPA. And certainly anyone not a sportsman in the truest sense of the word would have no place in the GPA.

It is heartening to know that the vast majority of hunters and fishermen are sportsmen, that only a few men and women are game hogs and persons who willfully break the game laws—laws which were written for the benefit of all, that game might continue to thrive for orderly and supervised hunting.

We sincerely hope and believe the new chapter here will serve a great purpose and that through the efforts of the members there will be fewer game law violations.

More power to the Game Protective Association.—A.L.B.

## Community Planning

CONSIDERABLE THOUGHT AND ATTENTION is now being given to what cities have and haven't accomplished and what they do and do not have today.

Some of them are beginning to look back to see what other communities secured during the days of WPA and PWA and the other government aid programs. They are beginning to realize now that those cities, which had community planning, accomplished worthwhile projects during those days. They are beginning to appreciate the fact that had they been ready and prepared they would have secured more.

Community planning gained these things back in those days. Community planning is just as valuable today as it was 15 to 20 years ago. It will become more important as the days go by and as time passes.

No city, of course, can have over night all the things that it wants. Artesia cannot build tomorrow or the next day all the things it needs.

But it can plan for these things. It not only can plan for these things but it can start on part of those projects. And then slowly it can build one at a time the things it needs. Over a period of years the things we need and want will be secured.

Every city should plan its growth, its expansion and outline its needs. It should place first things first and then start securing the things it needs.

For instance one of the great needs here is a large public auditorium. The day is coming when it must have a larger city hall. Certainly it needs a new fire department building, which is planned. The enlarged hospital is becoming more and more necessary.

An enlarged athletic field with more seats and accommodations is needed. You perhaps can enumerate many things the city should have and that the city can have. But they all can't be secured at once. They can be secured one at a time.

But we must plan for them; prepare to secure them; and work for them.

But the only way it can be done is to have a city, which plans for its future and for its growth and for its expansion. It must have a planning community that works with citizens and officials and taxpayers to secure these things.

It will require work and study and consideration on the part of such a committee. But now is the time to start. Tomorrow is too late.

Let's start now building our city on a plan and with a definite program in mind.

It will be more than worth the effort and it will be amazing and surprising how if we work out such a program that we can secure and have the things we need and the things we want as a city.—O.E.P.

The Muenster Enterprise says that the average girl would rather have beauty than brains, because she knows the average man can see better than he can think.

## SONAH OF LAKE SUCCESS

## Back Wages Are Paid Out Under Wage-Hour Law

A total of 51 employers in New Mexico agreed to pay back wages in the amount of \$12,014 to 164 employees as a result of inspections made under the federal wage and hour laws during the last six months of 1947, according to Lawson A. Wood, who represents the Wage and Hour and Public Contracts Divisions, U.S. Department of Labor, in New Mexico.

The payments were restitution for failure to comply with the minimum wage and overtime provisions of the Fair Labor Standards Act, which apply to employees engaged in interstate commerce or in the production of goods for interstate commerce, and the Walsh-Healey (public contracts) Act, which apply to government contracts for more than \$10,000.

Most violations disclosed were the result of improper computation of overtime pay, which the wage and hour law requires to be paid to all but specifically exempt employees at the rate of at least time and a half for all hours over 40 in a work week. However, the government official said, some violations involved failure to pay at least the minimum wage of 40 cents an hour, as required by the law.

## New Bulletin Explains Pay By Board, Lodging

Employers in any industry in New Mexico whose employees are covered by the Fair Labor Standards Act (federal wage and hour law) and who pay their workers both in cash and by providing board and lodging, or other facilities, have been advised to consider their operations in the light of a new bulletin interpreting the application of the wage and hour law in such situations.

This advice was given by Lawson A. Wood, who represents the Wage and Hour and Public Contracts Divisions, U.S. Department of Labor in this state. He said copies of the new bulletin can be obtained at his headquarters, 413 Federal Building, Albuquerque.

Revised and reissued because of the portal-to-portal Act the new bulletin constitutes the general interpretation of the administrator of the wage and hour law, to provide a practical guide to employers and employees, he said. It contains the administrators view with respect to compliance with the basic provisions of the wage

## U.S. Women Tell What They Want In Housedresses

American women want housedresses made with materials of good quality, featuring good design, with emphasis on fit and comfort, and embodying good workmanship, judging by the latest survey of the "Consumer Speaks" project, a nationwide check-up of consumer likes and dislikes, sponsored by the American Home Economics Association. More than 15,500 women taking part in the survey voted for such qualities in housedresses.

The survey showed that consumers tended to be less demanding of low-priced dresses. But in the medium-price range, those from \$2 to \$5.99, the women polled felt that dresses should be colorful, should have control against shrinking or stretching, and should be constructed to prevent excessive raveling. An interest in finishes was also expressed. Fastenings, thread, binding, and trimmings, if used, should be of good quality.

Size and fit, dress details, fabric design and color combinations and style features were among the design characteristics receiving the most votes. In short, the housewives polled want housedresses which fit, are easy to don, comfortable, sufficiently roomy for wear in carrying on a variety of household tasks, and, at the same time, reasonably attractive.

In workmanship, the women voted that essential features include well-made seams and hems, good stitching, good buttonholes, well-secured and reinforced fastenings and pockets, securely attached trimmings, properly constructed collars, plackets, and facings, and shoulder pads properly constructed and placed and firmly secured.

## As Artesia Grows

**TWENTY YEARS AGO**

(From The Advocate Files for May 10, 1928)

Artesia won third place at the district track meet held in Roswell. Roswell took first place, with Carlsbad second.

Boone Barnett was elected the first president of the Lions Club, which had recently been organized.

Twenty seniors were to receive their diplomas May 18. They were Samuel Bewley, Harold Crozier, John DeArcy, Dee House, Harry Jernigan, J. D. Jackson, Roy Middleton, Wilmer Ragsdale, Edward Shockley, Beth Bishop, Edna Bullcock, Carmen Brown, Gladys Cole, Madge Hnulik, Guinn Martin, Dorothy Norris, Virda Myrel, Prude, Mae Wilson, Lulu Wilson, and Ina Cole.

Work was to be started on a nine-hole golf course soon.

Mr. and Mrs. W. H. Kiddy left last week for a visit with relatives in Tulsa, Okla.

Hail damaged crops at Lake Arthur last Thursday. Rainfall in this vicinity measured .31 inch.

## TEN YEARS AGO

(From The Advocate Files for May 12, 1938)

Wayne Truett acted as police judge on "Boy Scout Day" in Artesia. Max Schulze was chief of police for the day.

A. L. (Pot) Bert took the place of W. C. Martin as editor of The Advocate starting this issue.

Major J. R. Kelly of the Military Institute in Roswell gave a talk on the conflict being waged by the Japanese in the Far East at a Rotary dinner.

WOODMEN of the WORLD Life Insurance Society OMAHA NEBRASKA

CHAS. M. LASLEY District Representative Box 188, Roswell, N. M.

NOTICE STATE ENGINEER'S OFFICE Number of Application RA-1527 Santa Fe, N. M., April 29, 1948.

Notice is hereby given that on the 26th day of April, 1948, in accordance with Chapter 131 of the Session Laws of 1931, L. T. Lewis of Roswell, County of Chaves, State of New Mexico, made application to the State Engineer of New Mexico for a permit to change location of well and place of use of 138.3 acre feet of the shallow groundwaters of the Roswell Artesian Basin from well authorized at a point in the SW 1/4 SW 1/4 SW 1/4 of Section 29, Township 16 South, Range 26 East for the irrigation of 46.1 acres of land described as follows:

Subdivision, Part E 1/2 SE 1/4 SW 1/4, Section 29, Township 16 S.; Range 26 E.; Acres 15.0. Subdivision, Part S 1/2 SW 1/4 SW 1/4, Section 29, Township 16 S.; Range 26 E.; Acres 18.5. Subdivision, Part N 1/2 SW 1/4 SW 1/4, Section 29, Township 16 S.; Range 26 E.; Acres 11.1. Subdivision, Part SW 1/4 SE 1/4 SW 1/4, Section 29, Township 16 S.; Range 26 E.; Acres 1.5.

No additional rights over and above those set forth in Permit No. RA-1527 are contemplated under this application which is made solely to correct description of well and lands irrigated.

Appropriation of water from all combined sources to be limited at all times to a maximum of 3 acre feet per acre per annum delivered upon the land.

Any person, firm, association, corporation, the State of New Mexico or the United States of America, deeming that the granting of the above application will be truly detrimental to their rights in the waters of said underground source, may protest in writing the State Engineer's granting approval of said application. The protest shall set forth all protestant's reasons why the application should not be approved and shall be accompanied by supporting affidavits and by proof that a copy of the protest has been served upon the applicant. Said protest and proof of service must be filed with the State Engineer within ten (10) days after the date of the last publication of this notice. Unless protested, the application will be taken up for consideration by the State Engineer on that date, being on or about the 8th day of June, 1948.

More Milk Per Cow? Here's How!

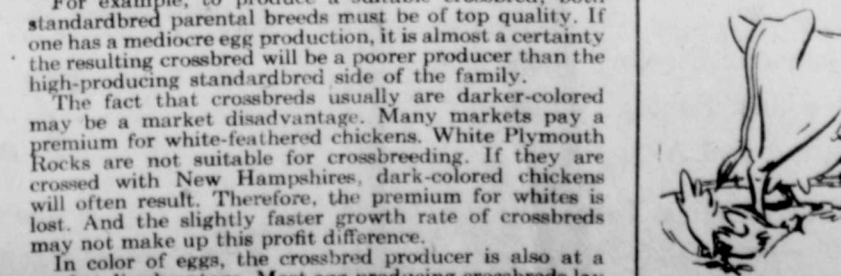

The number of dairy cows in the United States has increased only 1% since 1940. In the same eight years, a 10% increase in population has added about 12,000,000 more mouths to feed. These new American appetites need plenty of dairy products. Where are they coming from? More cows? Certainly that should mean more milk. But to bring more cows into production takes time—three years or more. The other solution is to increase the average production of milk and butterfat per cow. On many farms, dairy production has been increased without adding more cows. Here's how:

- 1. Improve your pastures. Dairy men have a saying—"Grow more grass and make more cash!" Good grass is your best and cheapest dairy feed. Lime and fertilize. Control weeds by spraying and mowing. Reseed to improve grasses. These are all good pasture builders. 2. Handle your milk and cream efficiently. Mechanical separators reduce loss of butterfat and improve its quality. Give more careful attention to sanitation. Quick cooling and proper handling can help you sell milk and cream, of better quality, for more profit. 3. Eliminate cattle pests. New sprays, like derris and DDT, used on the herd and in the barn, can rid your cows of grubs, practically eliminate pesky flies and lice. These pests rob America of an unbelievable amount of milk each year. Iowa alone sets the loss caused by heel flies and grubs at nearly 250 million pounds of milk in one year. 4. Control mastitis and Bang's disease. They are serious enemies of milk production. Complete control of them could increase the nation's milk supply 20% or more. That would be one quart every day for 30,000,000 people. 5. Check with your neighbors. See what they have done to increase their herd averages. You can also get help from your County Agent, your Vocational Agricultural teacher, your State College Experiment Station, or your State Veterinarian. Increase production with more milk per cow. And more milk per cow means more cash for you.

Standardbred vs. Crossbred Chickens

by R. George Jaap Ohio State University, Columbus, Ohio The relative merits of standardbred vs. crossbred chickens may be summed up in three words—not much difference. But this difference is more often in favor of the well-chosen crossbred. The advantages of a good crossbred are: faster growth and more eggs. However, many a slip can occur in crossbreeding chickens which will make them inferior, market-wise, to standardbreds. For example, to produce a suitable crossbred, both standardbred parental breeds must be of top quality. If one has a mediocre egg production, it is almost a certainty the resulting crossbred will be a poorer producer than the high-producing standardbred side of the family. The fact that crossbreds usually are darker-colored may be a market disadvantage. Many markets pay a premium for white-feathered chickens. White Plymouth Rocks are not suitable for crossbreeding. If they are crossed with New Hampshires, dark-colored chickens will often result. Therefore, the premium for whites is lost. And the slightly faster growth rate of crossbreds may not make up this profit difference. In color of eggs, the crossbred producer is also at a market disadvantage. Most egg-producing crossbreds lay colored eggs. Many markets pay more for white eggs. Therefore, the crossbred producer forfeits the profit on white eggs until crossbreds, which will consistently lay white eggs, are produced. In certain cases, crossbreds may develop a greater susceptibility to disease than the better parent. It is possible to develop crossbreds superior to the best standardbred strains. But determining the most suitable crossbreds is difficult because two different breeds are involved.

"It takes a big engine to pull a HEAVY Load"

This little engine is good for its purpose, but is not built to pull such a big load. The larger engine is designed to handle large loads—efficiently, economically and easily.

Two-thirds of the livestock is produced west of the Mississippi River. Two-thirds of the meat is eaten east of the Mississippi. Bringing these two together is a job requiring a large engine.

That's why the country needs nationwide meat packers like Swift & Company. For with processing plants located where most of the livestock is raised, we can help bridge the gap between western range and the kitchen range. It is an important job, and we're proud that we are able to handle a share of it.

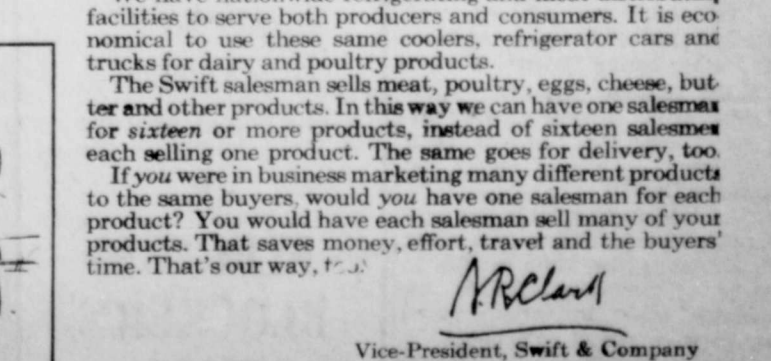

How you gonna care for 'em down on the farm?

Fresh, high-quality eggs grade better, bring better prices and help build consumer demand. Ideal eggs are large, fresh and clean. They are uniform in size and shape. Clear, thick whites, and firm, evenly colored yolks show good interior quality. Top grade eggs begin with a good flock of layers, properly fed and cared for. Remove the roosters when breeding seasons ends—your hens will lay as well and infertile eggs keep much better. Keep the nests well filled with straw. Gather eggs two or three times a day. Never touch eggs! Use steel wool to clean the dirty ones. Keep them in a cool place—not over 60°. Sort them in the case according to color and size. Market them at least twice a week. Remember, your best advertisement is to produce eggs which will reach the consumer fresh, clean and evenly sized. Quality helps make a better market for your eggs.

Soda Bill sez: ... if you bark at people all day you'll be dog-tired by night. ... it's funny how opportunities look so much bigger going away than when coming.

HAM & EGGS GO TOGETHER

Milk, cream, poultry and eggs brought producers a gross income of nearly 6 1/2 billion dollars last year. That's big business! Every family in the nation uses dairy and poultry products. These products are perishable. They have to be handled with care. It's a big job to process and distribute butter, cheese, ice cream, dressed poultry, and eggs in prime condition. It's a nationwide job—as broad and as long as America. We have nationwide refrigerating and meat distributing facilities to serve both producers and consumers. It is economical to use these same coolers, refrigerator cars and trucks for dairy and poultry products. The Swift salesman sells meat, poultry, eggs, cheese, butter and other products. In this way we can have one salesman for sixteen or more products, instead of sixteen salesmen each selling one product. The same goes for delivery, too. If you were in business marketing many different products to the same buyers, would you have one salesman for each product? You would have each salesman sell many of your products. That saves money, effort, travel and the buyers' time. That's our way.

Mr. Clark, "guest editor" this month, is Vice-President of Swift & Company in charge of the Dairy and Poultry Division.

# Senior Class Play, 'Arsenic and Old Lace,' Friday, May 14 H. S. Auditorium 8 P. M.

## SOCIETY

### 'The Forty-Niner' Theme Is Carried Out At Junior Senior Banquet

The annual junior-senior banquet was held Saturday evening in the Masonic Temple with a dance afterwards in the Central School gymnasium, at which the juniors were hosts to the members of the senior class, faculty, and board members.

The theme of the banquet and dance was "The Forty-Niner," with the banquet being held in "Ma's Boarding House" and the dance on the main street of "Roaring Gulch."

Walter Gray was toastmaster for the evening and introduced Tom Mayfield, superintendent, and F. L. Green, principal, as the speakers. Bob Stuart and Bill Bolton represented their respective classes at the head table.

Odell Parham, Austin Starr, and Kenneth Bradley sang "Clementine," and "O Suzanna," during the meal. Joe Chavez and Paul Torres sang Spanish-American numbers and accompanied themselves on the guitar.

The "Harvey Girls" served the dinner. They were Misses Maxine Ashton, Betty Crume, Fid Hamill, Billie Holland, Norma Smith, Sue Suddreth, Jo Ann Burns, Jo Margaret Gore, Pan Horner, Priscilla Kohl, Dorothy Stewig, and Ann Watson of the sophomore class. The girls also presented a dance and sang "On the Atchafalaya, Topeka, and Santa Fe," during intermission at the dance. They were costumed in black skirts, white Gibson-Girl blouses, white ballerina shoes, white organdie aprons, and white organdie bows in their hair.

The head table was centered with a bouquet of wild flowers in a gray enamel pitcher and wash basin. Coal-oil lanterns were placed along the tables and wild flowers in covered-wagon vases completed the decorations.

Placecards were in the shape of covered wagons and the nut cups, in the shape of wheelbarrows, held lemon drops, which represented gold nuggets. The favors were copper pans that could be used as keyrings.

The Central School gymnasium had false store fronts along each side. Some of the stores represented were general mercantile, Wells Fargo, and the sheriff's office, with a noose ready for use in front of it. A board walk had been built along the false fronts where a life-sized cardboard donkey was hitched to the hitching rail.

The stage was made to resemble "John Doak's Temple of Chance," where soft drinks and other refreshments were served during the evening.

The orchestra pit was a cedar corral in which was the New Mexico Military Institute orchestra, which furnished music for the evening.

During the intermission Jack Rains read, "Dangerous Dan McGrew," while Raymond Woodside, Doris Williams, and Bobby Collins did the pantomime. Billy Southard and Elaine Frost furnished a musical background.

Mrs. Margaret Bildstone and R. M. Parham were in charge of the banquet. Walter Gray and Jo Ann Johnson were in charge of all business carried out during preparations for the banquet.

About 197 persons were present for the last school social of the year, which was uniquely presented.

### Mrs. Joe Watson Is Honored At Bridal Shower Last Week

Mrs. Joe Watson, the former Miss Joy Ferne Ferguson, was honored at a bridal shower Wednesday evening of last week in the home of Miss Hattie Ruth Cole. Miss Elmira Terry was cohostess.

The house was arrayed with many beautiful bouquets of roses and other spring flowers. A white ruffled umbrella, tied with white bridal satin streamers, was suspended over the honorees chair and over the pile of lovely and useful gifts.

The lace-covered table was centered with white roses in a silver bowl, flanked by white candles in matching candelabra. Dainty rosadorned cakes in various pastel colors were served with punch.

Miss Helen Watson presided at the guestbook, in which were recorded the names of 30 guests.

**DANCE IN HOPE GYM**  
Saturday, May 22. Music by Bates and Fisher. Admission 75 cents a person. 20-21c-21

### Mrs. E. J. Foster Is Elected President Of President's Council

Members of the President's Council completed their organization Wednesday afternoon of last week in the home of Mrs. E. J. Foster, who was elected president.

Mrs. Earl Darst was elected vice president and Mrs. William C. Thompson, Jr. secretary-treasurer.

The group held a discussion on movies for children, summer recreation, Bible school, and legislation pertaining to education. They expect to make complete plans on all projects and put them to work in the fall when most clubs resume activities.

### First Afternoon Bridge Club Meets Friday At Myers Residence

The First Afternoon Bridge Club met in the home of Mrs. J. Hise Myers Friday afternoon for a few games of bridge.

Substitutes for the afternoon were Mrs. John Rowland, Mrs. A. B. Coll, and Mrs. Nevil Muncy. Members present were Meses J. W. Nellis, J. M. Story, Jeff High tower, and J. W. Berry.

The hostess served light refreshments to the group at the close of the meeting.

### Coke-Ettes Are To Honor Pledges At Spanish Dinner

Members of the Coke-Ettes Club are honoring their pledges at a Spanish dinner in the home of Miss Fid Hamill this evening, it was announced Monday afternoon at a meeting in the home of Miss Jo Ann Johnson.

During the meeting, the members decided to hold a cake and pie sale at the Artesia Pharmacy Saturday. Proceeds are to defray the expenses of a trip to Ruidoso.

Light refreshments were served at the close of the meeting to about 29 members.

The next meeting will be Monday afternoon in the home of Miss Stela Baker.

### Miss Pat Watson Presented Ring

Miss Pat Watson, Artesia High School senior, who was crowned "Football Queen" last fall, is shown here receiving from John Suddreth a diamond ring, mounted on white gold, a gift from Cummins House of Time, which was presented Friday evening, April 30, at a banquet at which the Girls' Bulldog Pep Club feted members of the school athletic teams.

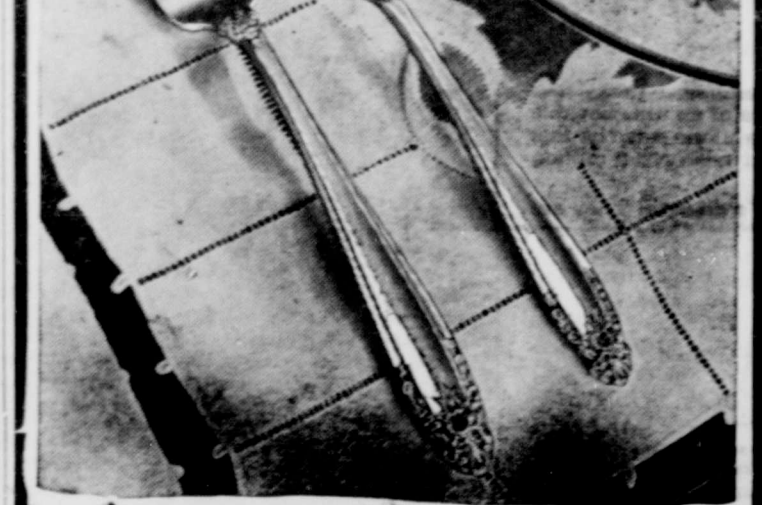

### Drama Group Plans For Activities Of Next Fiscal Year

The drama group of the American Association of University Women made plans for next year's activities at a meeting in the home of Mrs. Lillian Bigler Monday evening.

It was decided to present a radio play at the first of the new club year and then present a full-length play later.

The drama group will hold its final meeting in the home of Mrs. Bigler Monday, May 24. The group has extended an invitation to those who are interested in working with them to attend this last meeting of the association year.

The program for the evening featured the reading of the first act of "Dear Ruth." The second act will be read at the next meeting.

### Second-Class Badges Awarded To Girl Scouts

Girl Scouts of Troop 15 received their second-class badges last Thursday evening at the Presbyterian Church after a covered-dish dinner. Mrs. Herman Jones made the presentation.

Miss Sally Sears gave the invocation. After the dinner, the Scouts presented a dance. "Strut Miss Lizzy," Rev. Ralph O'Dell, guest speaker, gave the girls a talk on "The Model Girl." His talk was followed by a solo by Miss Marilyn Cox. The program closed with the singing of the Scout song, "Day is Done."

All the Scouts present received second-year badges, except Miss Shirley O'Dell, who was already a second-class Scout.

Guests present for the occasion were Mr. and Mrs. W. C. Bradshaw, Rev. and Mrs. Ralph O'Dell, Mr. and Mrs. Britton Coll, Mr. and Mrs. Sam Henderson, Mrs. M. A. Sinclair, Mrs. Thad Cox, Mrs. Ross Sears, Mrs. Leroy Cranford, and Mrs. Herman Jones.

Members present were Misses Marilyn Goodard, Sally Sears, Marilyn Cox, Margaret Bell Henderson, Eileen Sinclair, Janice Cranford, Shirley O'Dell, Celeste Bradshaw, Jean Coll, and Patsy Jones.

### Social Calendar

Thursday, May 13

Monday, May 17  
Past Presidents' Parley meets with Mrs. Jesse Truett for luncheon, 1 p.m.

### High School Youths Present Program Of Music To Rotary Club

A musical program was presented Tuesday noon at the weekly luncheon of the Artesia Rotary Club by two high school boys, Reese Booker and Norvil Howell.

Young Booker played as piano solo "Aragonnais," by Massenet, and "Minuet," by Paderewski, and

### Mrs. Lewis Means Is Honoree On Friday Evening At Shower

Mrs. Clifton Perkins was hostess at a pink and blue shower honoring Mrs. Lewis Means Friday evening.

The gifts were presented to the honoree in a bassinets decorated in pink and blue.

The tea table furthered the pink and blue scheme with pink roses and blue candelabra. Miss Hattie Ruth Cole and Mrs. Perkins presided at the table and served pink punch and individual cakes to the guests, who were Meses Leon Barker, Ray Lewis, Howard Ackin, Cecil Hightower, H. G. Buchannon, Jack Woodside, James Powell, Wayne Truett, Curtis Bolton, B. J. Perkins, and R. N. Russell, and Miss Jimmie Starkey.

### PTA To Give Tea For Mothers Of First-Year Pupils

The Central School Parent-Teacher Association is giving a tea at 3:30 o'clock Friday afternoon at Central School for mothers of children who will enter their first year of school in September.

The tea was planned Wednesday morning at a meeting of the executive board of the PTA in the home of Mrs. J. J. Clarke, Jr.

The board members also heard a report given by Mrs. J. A. Mathis, Jr., Mrs. Charles Miller, and Mrs. Buster Colvin who attended the association's convention held in Taos April 23-24.

At the tea Friday, Mrs. G. C. Kinder and Mrs. Margaret Finke will address the guests on the topic for the day, "How to Prepare Your Child for School." The topic covers physical as well as mental fitness and is calculated to help the mother of a beginner.

Mrs. Mathis will bring the program to a close with a short report on her trip to Taos.

Howell, accompanied at the piano by Mrs. Glenn Caskey, played a coronet solo, "Carnival of Venice," by Ronger. They were introduced by Mr. Caskey.

G. R. Brainard, a former member of the club, was a guest of A. P. Mohane in observation of his 84th birthday, in honor of which the Rotarians sang, "Happy Birthday to You."

OFFICE SUPPLIES AT THE ADVOCATE

### Artesia, Carlsbad Clubwomen Plan Extended Trip To Hawaii, Alaska

Three members of the Federation of Women's Clubs of the Pecos Valley expect to leave next week for an extended tour of the Hawaiian Islands, Alaska, and points of interest on the West Coast.

Mrs. E. J. Foster, president of the third district and vice president of the New Mexico Federation of Women's Clubs, with an outstanding record this year in club work; Mrs. C. R. Blocker, a past district and vice president of the State Federation, chairman of citizenship in the New Mexico Federation, active in clubwork for many years, and Mrs. William Glazier, an early resident of Carlsbad and active in club and social circles in that city are the members who plan to go on the tour.

They plan to fly from El Paso Monday, May 17, and will be met the next morning in Honolulu by Mr. and Mrs. James H. Jones, brother-in-law and sister of Mrs. Foster, who have made reservations at the Royal Hawaiian Hotel one of the finest in the world, for the party. Plans are under way by Mr. and Mrs. Jones to show the visitors everything of interest possible during their week on the islands.

On their return to the states, they will go to Portland, Ore., for the annual convention of the General Federation of Women's Clubs May 23-29. Convention tours will include Mt. Hood and other

places of interest. After the convention, Mrs. Foster and Mrs. Blocker will be joined by Mrs. Maureen McBee and Mrs. A. Kimmetts of Hobbs for a day cruise to Alaska, returning to the states for the Rose Festival in Portland and a day at Vancouver.

Mrs. Foster expects to fly to Portland to Plainview to join Foster and their two children, Eddie and Betty Jo, in time for wheat harvest. Mrs. Blocker expects to visit a nephew, Col. Cooper and Mrs. Cooper, in Francisco before returning to Carlsbad by way of Lake Tahoe and points in Canada.

**CARD OF THANKS**  
We wish to thank the friends who sent flowers and cards of sympathy at the time of the death of our mother and grandmother, Mrs. Bradley—Mr. and Mrs. H. J. Bradley, Mr. and Mrs. J. R. Wright, Mrs. H. P. Dermody.

**CARD OF THANKS**  
We wish to express our appreciation to our many friends for their kindness through the illness and death of our loved one, Mrs. Eva Lee—H. T. Lee and family.

**CARD OF THANKS**  
Mr. and Mrs. C. E. Carter wish to thank all friends and neighbors for sympathy shown during recent bereavement.

LOCALS

and Mrs. L. V. Willard Jr., formerly of Kessler Air Base, who had been visiting Mr. and Mrs. Wallace Anderson, left Saturday to visit his parents in Kansas City, Kan. Later they plan to attend his brother's wedding in Manhattan, Kan. Lieutenant William has been transferred to the Eastern Air Force. Mrs. Willard will make her home with her parents for the present. Mrs. J. P. Wallace of Roswell recently announced the engagement of her daughter, Mary Margaret Seeling, a student at Draughon Business College, Lubbock, Texas, to Austin Cowan of Turlock, Cal., formerly of Roswell. The wedding will take place in June. Mr. and Mrs. A. R. Stroup and daughter, Majorie, were here visiting his brother, Dr. H. A. Stroup, and other relatives. They were en route from Iola, Kan., to Pomona, Cal., where Mr. Stroup is employed by a construction company. After visiting the Carlsbad Caverns with his parents, Miss Stroup returned to Kansas City, Kan., where she is a technician in the University of Kansas Hospital. Mr. and Mrs. William S. Cooley of El Paso have announced the birth of a second son, born Sunday at Southwest General Hospital. The new arrival also has a sister, Miss Cooley, the former Lelia Cooper, is a niece of Mrs. C. R. Ransberger, and a former Artesia school teacher. Mr. and Mrs. C. W. Walker of Santa Fe visited Mrs. Walker's parents, Mr. and Mrs. Charles Ransberger, over the week end. Mr. and Mrs. Ivan Andrews and children of Alamogordo spent the week end in the home of Mr. and Mrs. Preston Bortley. Mr. and Mrs. Porter Warren and Miss Lena Hayse of Memphis, Tenn., visited Mr. and Mrs. J. M. Jackson and family this week. Also visiting Mr. and Mrs. Jackson were Mr. and Mrs. Marvin Jackson, and Mr. and Mrs. Jimmy Reed and baby of Lovington and Mrs. Oren Van Winkle and children. A. J. and Elizabeth Ann, of Mayhill, all of whom visited Sunday. Mrs. S. M. Brown, Sr., has returned from a seven-month visit with her son-in-law and daughter, Mr. and Mrs. C. R. Horan of Fort Worth, Texas; her daughter, Eloise Brown of Chicago, and her son and daughter-in-law, Mr. and Mrs. Charles Brown of Pottsville, Pa., where Mr. Brown is manager of the Park Hotel. Rev. and Mrs. S. M. Morgan and Mr. and Mrs. Tom Brown will leave next week for Memphis, Tenn., to attend the Southern Baptist convention May 17 to 21. Mr. Brown will attend as a delegate to the laymen's and pastor's conference. Mrs. Morgan and Mrs. Brown are delegates to the Women's Missionary Union conference. Mr. and Mrs. Barney Cockburn, Ross Sears, and John E. Cochran, Jr., arrived home Tuesday from Dallas, Texas, from where they flew as far as Odessa. For Mrs. Cockburn it was the end of a trip of nearly a month. She and Mrs. Carl J. Barnes flew to New York April 19. There Mrs. Barnes visited her sisters, Mrs. Harry Shuler and Mrs. James H. Rand of Remington. Mrs. Cockburn joined Mr. Cockburn and Mr. and Mrs. Don Angle, also of Artesia, in Chicago. A week later Mr. Cockburn, J.

Grady Wright, and Johney Cockburn joined the group, as did M. T. Hartwell, Midland geologist, and Mrs. Hartwell. Mr. and Mrs. Hartwell, Mr. and Mrs. Barney Cockburn, and Mr. Cochran flew to Dallas Friday. Mrs. O. J. Adams of Long Beach, Calif., formerly of Artesia, is here this week visiting Judge and Mrs. G. U. McCrary and other old-time friends. Conrad Pope, seaman second-class in the Navy, arrived home last Thursday on a 12-day leave from San Diego, Calif., to visit his parents, Mr. and Mrs. H. A. Pope. He plans to leave Saturday. George DeSmet left Wednesday for Compton, Calif., to be present when his sister-in-law, Mrs. Emil DeSmet, who won a trip to Honolulu on the "Queen for a Day" radio program, sails. He planned to bring back with him his father, Martin DeSmet, and his sister, Mrs. Frances Harris. R. H. Trixitt, principal of Cottonwood School, this week expressed in behalf of the school appreciation to the Cottonwood Recreation Club and the people of Artesia for the liberal contribution made to the school's athletic club through sponsoring a dance in the gymnasium. Mrs. Bob House entertained her sister, Mrs. Berry McBride, of Fort Worth, Texas, and a niece and nephew of Burbank, Calif., and a niece and nephew of Eunice this week. She also received a letter from her son, Dwight, who said he would be home June 10. Mrs. Lloyd Dorand and Mrs. L. W. Coll have just returned from New Orleans, where they visited friends, her mother-in-law home for a visit and relatives. Mrs. Droand brought Mr. and Mrs. W. R. Phillips entertained Mrs. Ussery and daughter, Sue, and Fred Hyer of Carlsbad in their home Saturday. Mr. and Mrs. J. L. McNallen joined them for dinner Saturday evening to celebrate Mr. Hyer's birthday. Clarke Miller has been sent to Amarillo by the Ferguson-Steele Company to relieve a co-worker for a two-week vacation. He will return home. Mr. and Mrs. Ed Boans of Grants formerly of Artesia, were here over the week end. Ramon (Red) Davidson, son of Mr. and Mrs. S. G. Davidson, was home over the week end from Sul Ross College, Alpine, Texas. Municipal band rehearsals are being held on Monday evenings, instead of Tuesdays, as has been the custom in the past. They start at 7:30 o'clock and are held in the band room of the high school. Honor For Gold Star Mothers Is Meeting Theme Gold star mothers of the American Legion Auxiliary were honored at a regular meeting Monday afternoon in the Veterans Memorial Building. The entire program was dedicated to the mothers. Those honored were Mmes. Nancy Eipper, John Simons, Sr., R. J. House, T. C. Hegwer, Nina Tice, and Fannie Jane Pennington. Each was presented a gold-colored rose corsage. Mrs. Frank Smith, poppy chairman, appointed her committee for Poppy Day, Saturday, May 29, and stressed the need for a greater

sale of poppies this year than ever before. She said that more than 25,000,000 poppies have been made by veterans and the New Mexico quota is 1,000,000 this year. The boys high school quartet sang, "Jolly Roger Song," and Donald DeMars sang, "Water Boy," accompanied by Miss Rita Webb. Mrs. William Siegenthaler, representative for the Artesia Story League, told the story of "The Revolving Mothers." Mrs. C. R. Baldwin, president, presided at a short business meeting and announced that the fifth district meeting would be held in Roswell June 3. The tea table was beautifully decorated with red poppies. Mrs. Baldwin presided at the punch bowl. Gold roses and iris were used to decorate the hall. Hostesses for the occasion were Mrs. Frank Smith, Mrs. John Lively, and Mrs. John A. Mathis, Jr. A guest, a sister of Mrs. Smith from California, was present. Mr. and Mrs. Pete L. Loving left Sunday night by train for Wilmington, Calif., to visit their son and daughter-in-law, Mr. and Mrs. Dawson Loving, and two children. They planned to return next week. Willis Gene Holland, son of Mrs. Sam Watson, has been named to the fall honor roll at Texas Tech at Lubbock. Ensign Dwight Arnell, who had been home on leave from the Navy visiting his parents, Mr. and Mrs. B. G. Arnell, left Friday for Washington, D. C., where he was to catch a plane for Europe to take over his duties as disbursing officer of the heavy cruiser, U.S.S. Rochester, which is now at Piraeus, Greece. J. C. Fields returned home last Thursday night from the Veterans Hospital at Albuquerque, where he was a patient 43 days. He feels somewhat better, but said he will have to return to the hospital later. Robert O. Anderson, president of Malco Refineries, Inc., Roswell, formerly of Artesia, has been named a member of the committee on government royalty oil regulations of the National Petroleum Council, Walter S. Hallanan, chairman, announced in Washington, D. C. Oilfield School Pupils Entertain Pupils of Oilfield School entertained their mothers at a Mothers Day tea Friday afternoon in the schoolhouse. The theme of the tea was Chinese. The schoolroom was decorated with Chinese faces, posters, and lanterns. A sandtable depicted a Chinese village. The pupils were dressed in Chinese costumes to complete the scheme. Johnny Francis was the "teacher" of a typical Chinese class session, after the class session, Marcia Pennington and Donald Lloyd sang "The Chinaman." The reminder of the program consisted of three plays, "The Flu," "Turning the Tables," and "Too Much Borrowing." Readings were

given by Glenda Rae Matthews, Billy Joe Forsyth, Larry Moore, Johnny Francis, Richard Peppers, and Joan Harrison. First and second-graders sang "The Swing." Jetta Ruth Day pantomimed "Sweet and Low," while a chorus sang the selection. The tea table was centered with dark pink carnations and tall green candles. Fifth grade girls who poured, were Evelyn Marshall, Jetta Ruth Day, Nancy Risby, and Jimmie Doris Walker. Mrs. Henry Ottjes, the teacher made the welcoming address to the mothers, and Mrs. J. D. Walker gave the response. All the mothers received gifts. After the tea, the pupils held a spelling contest. Those winning blue ribbons were Renelle Forsyth, first grade; Andrea Jo Melton, second grade; Mary Ellen Davis, fourth grade, and Nancy Risby, fifth grade. Some sort of record was set at the hospital the last week, not a single birth was recorded. Jeff Floyd underwent a major operation at the hospital Wednesday of last week. Bonnie Fay Waller, daughter of Mr. and Mrs. Robert Waller, underwent a major operation last Thursday. Mrs. Don Adams entered the hospital Friday for medical attention. Mary Jo Shegts, daughter of Mr. and Mrs. Clarence Sheets, underwent major surgery Friday. Felix Farmer entered the hospital Friday for medical care. Mrs. Jeff Schoolcraft received medical attention at the hospital Friday. Walter Burch entered the hospital Friday for medical attention. Mrs. Dan Sullivan received medical attention at the hospital Saturday. D. B. Shira entered the hospital Saturday for medical treatment. Mrs. David Edmund entered the hospital Sunday for treatments. W. A. Blevins entered the hospital Sunday as a fracture case. Mrs. Lucille Metzger was a medical patient at the hospital Sunday. Mrs. Ambrosia Villa received medical attention at the hospital Monday. Hiran Howard entered the hospital as a fracture case Monday. Billy Ray Richmond, son of Mr. and Mrs. W. L. Richmond, had his tonsils removed Tuesday. Curtis Wilson received medical attention at the hospital Tuesday. George James underwent a major operation at the hospital Tuesday. Alvin Mitchell, son of Mr. and Mrs. J. E. Mitchell, entered the hospital Tuesday for medical care. DONNA JO RIEGER IS HONORED ON BIRTHDAY Mrs. Modelle Rieger honored her daughter, Donna Jo, with a wiener roast on her 12th birthday Sunday evening. The group played games and sang songs during the evening. Mrs. O. R. Gable, Jr., was appointed chairman of a committee to plan social activities for the summer months at a meeting of Beta Sigma Phi Monday evening in the home of Mrs. C. M. Murphy. The group decided to have one

big social each month instead of regular meetings. During the program each member gave a one-minute talk on "The Most Beautiful Spot I Know." The president, Mrs. William C. Thompson, Jr., announced that the next meeting would be in the home of Mrs. W. B. Macey at 8 o'clock Tuesday evening, May 25. Mrs. Murphy served light refreshments to Mmes. O. R. Gable, Jr., Charles Bullock, William C. Thompson, Jr., Harry B. Gilmore, Raymond Lamb, and L. W. Coll, and Miss Nancy Haynes. No additional rights over and above those set forth in Permits Nos. RA-1469, RA-1469-S, RA-2046 and RA-2046-S are contemplated under this application.

Appropriation of water from all sources combined to be limited at all times to a maximum of 3 acre-feet per acre per annum delivered upon the land.

Any person, firm, association, corporation, the State of New Mexico or the United States of America, deeming that the granting of the above application will be truly detrimental to their rights in the waters of said underground source, may protest in writing the State Engineer's granting approval of said application. The protest shall set forth all protestant's reasons why the application should not be approved and shall be accompanied by supporting affidavits and by proof that a copy of the protest has been served upon the applicant. Said protest and proof of service must be filed with the State Engineer within ten (10) days after the date of the last publication of this notice. Unless protested, the application will be taken up for consideration by the State Engineer on that day being on or about the 7th day of June, 1948.

John H. Bliss, State Engineer 19-3t-21

From where I sit . . . by Joe Marsh  
**The Laugh's on Them!**

A lot of folks (outsiders mostly) laughed when we formed our Town Improvement Council. Couldn't figure why we needed such a group, so long as we had a competent local government in office. But the laugh's on them—because the Council has done a lot of good in our town: put the "Stop" signs up on Main Street, subscribed a new ward to the City Hospital, fixed up the Teen-Age Centers; organized our charities. From where I sit, the people can do as much to run a town as government itself—just the way industry can regulate its operations over and above the laws imposed upon it: like the brewers' program of "Self Regulation." They inspect all taverns selling beer—to make sure they're clean, orderly, law-abiding . . . warning those few that aren't to "clean up" or run the risk of being closed up. And like good citizens the tavern keepers are wholeheartedly behind the program!

### Alliance Votes \$25 To Assist In Free School Case

At a meeting Monday of the Artesia Ministerial Alliance it was decided to send a check for \$25 to the Free Schools Committee of Dixon, N. M., to assist in the committee efforts to retrieve the schools of the Dixon district from an ecclesiastical order which has turned the schools there to sectarian purposes.

In the discussion it was brought out that a case was filed in District Court March 10 and will be carried to the United States Supreme Court if necessary.

After Rev. C. A. Clark, president of the alliance, had read a communication from the Free Schools Committee, it was recommended that churches of Artesia receive offerings Sunday to assist in fighting the case.

A resolution was passed urging and requesting the city council to extend all utilities and sanitary facilities to all parts of the city at the earliest possible time. The alliance is concerned particularly with conditions existing in North Hill, members said.

Another resolution requesting a more rigid enforcement of compulsory school attendance laws was passed. The alliance is calling on both the school officials and the city authorities to become interested in this community problem.

It was announced the daily vacation bible school of the churches for the teaching of a general course of religion and related courses will run from 9:30 to 11:30 o'clock five days a week for two weeks. Mrs. A. W. Boyce is to be dean of the school this year.

Rev. Clark, who will soon retire as pastor of the First Methodist Church, presented his resignation to the alliance, expressing sincere regret at having to give up his connection with the alliance. The alliance with deep regret accepted the resignation, as Rev. Clark is to take up his new work at the Sacramento Mountains Assembly grounds of the Methodist churches of this area or conference.

Robert A. Waller of the Church of Christ will succeed to the presidency of the alliance, as he was vice president. Rev. Harry M. Wilson, pastor of the First Christian Church is secretary-treasurer.

### GPA Chapter-

(continued from page one)

In New Mexico have increased at least 500 per cent, creating a big job for the department in providing game and fish and in their protection. He said this requires the use of funds paid into the department, whereas in every session of the Legislature there are attempts to divert game and fish funds to other departments or uses.

At the last session of the Legislature, he said, a bill was introduced which, if passed, would have diverted at least 70 per cent of the game funds to other uses. But this will not happen if the sportsmen are organized in sufficient numbers to stop it.

Pictures shown by Warden Barker were of elk hunting at Varnum Park, the trapping and transplanting of antelope, trout fishing throughout the state, and a mountain lion hunt.

William H. Blaine of Raton, auditor for the Game Department, who accompanied the game warden here, spoke briefly and on the growth of the department, until today it is outstanding in the United States and at present has \$1,200,000 invested in lands and equipment.

The meeting was held in the Artesia High School library, to which Game Warden Barker presented an autographed copy of his book, "When the Dogs Bark Tread."

### Train-

(continued from page one)

Although the greater part of the food stuff consigned to Artesia outlets regularly comes in by truck it is only hauled for the most part from the wholesale centers, which would soon be affected. And the customary packing house car which comes to Artesia each week would have been cut off.

Although there are no resident members of the railway brotherhoods which were scheduled to strike, it would have immediate effect on the majority of Santa Fe employes, who had been notified to report for work on Wednesday if the strike had come about.

It is pointed out that the laying off of the railway employes would have been only the first in a chain of events which would have been felt in Artesia greatly and would have thrown many out of employment, if the strike had not been called off and had continued for any length of time.

There is hardly a store or business in Artesia which would not have been affected.

### Bulldog Nine Beats Carlsbad Tuesday 10-5

After losing to Roswell 7 to 4 here Friday, the Artesia Bulldogs won their first baseball game of five played this season, when they defeated the Carlsbad Cavemen there Tuesday 10 to 5.

The Cavemen will come to Artesia Saturday for a doubleheader, the first game of which will start at 1 o'clock.

In the game Tuesday, Boyce Cauble knocked a home run a distance of 370 feet.

Artesia made 10 runs, 9 hits, 4 errors; Carlsbad, 5 runs, 6 hits, 5 errors.

Batteries: Artesia, Ken Foster, Duane Tucker, and Cauble; Carlsbad, Ater, McDonald, and Pledger.

The Bulldogs are being coached by Kenneth Lance.

### Artesia Takes Third In State Track Meet

Artesia High School took third in the annual state track and field meet Saturday at Albuquerque, in which Albuquerque placed first and Carlsbad, fifth district winner a week prior, was second.

Albuquerque piled up 42 points Carlsbad 34 1/2, and Artesia 18.

Jimmie Blue of Artesia, who broke the pole vault district record here April 24, when he cleared the bar at 10 feet 9 3/4 inches took first at Albuquerque with a vault of 11 feet one-quarter inch.

Bill Fleming, who broad jumped 22 feet 3 3/4 inches in the district meet for a new district record, scored first in the state meet with 21 feet 9 3/4 inches.

Fleming was likewise second in the javelin throw, the same as in the district meet.

Athletes from the fifth district piled up more points than those from all the other seven districts combined.

Jo McMinn of Carlsbad, who made such a good showing in the district meet here and was close behind Jimmie Blue for high-point man, took that honor at the state meet with firsts in the 100 and 440.

### BURGLARS STEAL TIRES AT TEXAS STATION

Burglars broke into the Texas Oil Company bulk station building on North First Street Friday night and stole four tires and 21 tubes.

The burglary was discovered Saturday morning and reported to police, who had not apprehended the burglars up to Wednesday.

### Residential-

(continued from page one)

The directors are interested in seeing a project started, which would be done by any group interested in investing for a small profit and in seeing that houses are built. The entire responsibility, he said, would be in the hands of such a group.

Manager Sharpe, who visualized 100 to 150 new houses here within a year under such a project, recommended likewise that there be more rent houses.

He said the board of directors had decided that the housing problem is the first "must" to be tackled.

No definite steps have been taken as yet and the idea is still in the talking stage. However, it is possible a group will be formed here in the near future, ready to secure a contractor and start on the project.

### College Dean Is To Speak At Graduation For Carver Students

PROF. WILSON

Prof. S. L. Wilson, dean of Fort Worth College and supervisor of vocational veterans' schools in Tarrant County, Texas, will be the graduation speaker at exercises at Carver School at 8 o'clock Saturday night. His subject will be "Growth in Education."

The speaker holds a bachelor's degree from the Houston College, Austin, Texas, and a master's degree from the University of Iowa and is a member of Alpha Phi Alpha fraternity.

Students who will receive diplomas are Elizabeth Armstrong, Minnie V. Casteal, Bessie Meria Hutson, Virgie Mae McKinney and Fred D. Haynes.

### Baccalaureate-

(continued from page one)

There will be cancelled for commencement on May 21.

The baccalaureate program: Processional, Augusta Spratt; invocation, Rev. Harry Wilson, pastor of the First Christian Church; music, "We Thank Thee Lord," by Bortniansky-Tkach, girls' glee club; Scripture and prayer, Numbers 10:11-13, 28-36. Rev. Wilson; music, "Service," by Cadman, girls' glee club.

Sermon, "Untrodden Ways," Rev. O'Dell; benediction, Rev. Wilson; recessional, Mrs. Spratt.

It has been requested that members of the congregation remain in their seats during the processional.

The ushers are to be furnished by the junior class, which is also in charge of decorations for the auditorium.

Miss Shirley Sherwood and Clayton Fike, juniors, were chosen by the senior class to lead the processional, in keeping with a tradition of the schools that the seniors choose a junior girl and boy to escort them.

### H. V. (Vic) Parker Is Candidate For Commissioner

Nominating petitions have been filed for H. V. (Vic) Parker for the office of county commissioner of Eddy County for District 2, subject to the action of the Democratic primary.

Parker is a resident of the Cottonwood area in North Eddy County, where he has lived continuously the last 22 years. He was formerly in the mercantile business in the Cottonwood area and has been actively engaged in farming the 22 years he has been here. He has always taken an active interest in public affairs and is familiar with the needs and problems of the entire county.

Parker said he is very interested in obtaining good and adequate farm-to-market roads for Eddy County, and in the development and improvement of the highways.

This will be the first time that he has been in the race for any public office and he said he would make no campaign promises except that he would do his best at all times to serve the people of this county. He also said he would pledge his whole-hearted support and co-operation with the state, county, and municipal authorities to every worthwhile project for the good of the county as a whole.

He said he believes that the office of county commissioner is one of the most important offices in local government, and he intends to give all the time necessary to the affairs of the county.

### Pre-School Music, Art Pupils Give Concert Birthday Saturday

The pre-school music and art pupils gave an end-of-the-year concert and art exhibit in the basement of the First Christian Church Friday evening for a limited number of friends and relatives.

The concert was on beginners' music theory and note recognition. The "Rhythm Band" played "May Bells Ring," "Circus Parade March," and "The Dancing Lesson" from "Hansel and Gretel." Mrs. Wallace Gates was in charge of the musical part of the program.

Mrs. M. A. Mapes described the art exhibit and told of advancements made during the year.

### Sherwood And Havins Buy Out Artesia Furniture

C. G. Sherwood and Ed Havins have purchased the Artesia Furniture Company from Bill Angley and will take over operation as of Saturday, they have announced.

Angley came here about four years ago and opened the business with his nephew, Clarence Key, who sold his interests to Angley more than a year ago and opened his own business.

The new owners of the Artesia Furniture Company were both formerly employed by the McClay Store and both are experienced furniture men.

They have announced they will continue to operate on the same general policies as employed by Angley and will handle both new and used furniture.

### Legion Auxiliary To Hold Annual Sale Of Poppies On May 29

The American Legion Auxiliary unit will hold its annual poppy sale Saturday, May 29, on which day units throughout the nation will observe "Poppy Day," it was announced this week by Mrs. C. R. Baldwin, local unit president.

She said Mrs. Frank Smith, poppy chairman, will be assisted by members of the unit, who will work throughout the day in the downtown area, or until all of the 5500 poppies which have been ordered are sold.

The poppies were made by veterans in the Veterans Hospital at Fort Bayard.

### Mrs. Burr Clem Is Honored By Daughters On Her Birthday

Mrs. R. O. Whitted and Mrs. Leroy Bynum honored their mother, Mrs. Burr Clem, on her birthday Friday evening in the Clem home.

The house was attractively decorated with bouquets of red roses. Ice cream, cookies, and coffee were served to Mr. and Mrs. J. S. Mills, Mr. and Mrs. W. G. Short, Mr. and Mrs. G. E. Jordan and son, Lee; Mr. and Mrs. Glenn Collard, Mr. and Mrs. Jack Clem and daughter, Dekka; Mrs. G. L. Beene, and Burr Clem.

### Mrs. Thomas Harwell Is Honored Tuesday On Her Birthday

Mr. and Mrs. James Heald honored Mrs. Thomas Harwell on her birthday Tuesday evening with a party in their home.

A birthday cake was served with lemonade and coffee to Mr. and Mrs. Jack Tandy, Mrs. Cliff Long, both, Mrs. Doc Loucks, Mr. and Mrs. Jimmy Keith and children, Jackie, Glenis, and Kenneth; Mr. and Mrs. Maurice Dipple, and Thomas Harwell.

Those who sent gifts were Mr. and Mrs. Bill Angel and Mrs. Norma Harwell.

Morriset and Esterbrook desk pens and renew points at the Advocate.

### Bankers' Convention Is Well Attended By First National People

The 37th annual convention of the New Mexico Bankers Association in Roswell last Thursday through Saturday was well attended from Artesia as representatives of the First National Bank.

They were Ross Sears, president, and Mrs. Sears; Fred Cole, vice president, and Mrs. Cole; H. A. Spies, vice president; George Ferrima, assistant cashier, and Mrs. Ferriman, and Charles F. Hammett, assistant cashier.

Cole was appointed chairman of the agricultural and livestock committee of the state convention.

### Covered Dish Supper Precedes Meeting Of Eastern Star Tuesday

The Order of the Eastern Star held a covered-dish supper prior to its meeting Tuesday evening at the Masonic Temple.

Mrs. Ed Kissinger, who was in charge of the serving, attractively arranged the main dish, chicken pie, and all the trimmings on the tables.

Mrs. Phyllis Reeves was the only visitor of the evening.

The next meeting will be held Tuesday, May 25, at the Masonic Temple, when an initiation will be held.

### Mrs. E. J. Foster To Head Council Church Women Next Year

Mrs. E. J. Foster was chosen president of the Council of Church Women at the regular monthly meeting Friday at the First Methodist Church.

Elected to serve with her were: First vice president, the wife of the new Methodist Church pastor, who will be appointed in June; second vice president, Mrs. Ralph O'Dell; third vice president, Mrs. Harry Wilson; secretary, Mrs. John A. Cross, and treasurer, Mrs. Lonnie Chester.

Mrs. Owen Hensley had charge of the afternoon program and introduced Rev. Ralph O'Dell as guest speaker.

Sally Sears, Shirley O'Dell, and Leota Hopp, accompanied by Mrs. O'Dell, sang a few selections for the group.

### DR. MOORE TO PREACH AT CHRISTIAN CHURCH

Dr. Sherman B. Moore, general secretary of the Christian Missionary Society for the Rocky Mountain area, will occupy the pulpit at the Christian Church at 11 o'clock Sunday morning. The services will be broadcast by KSPV.

A covered dish dinner will be served to all persons in attendance. Preparations are being made by the Women's Council of the Church, Mrs. J. W. Jones, president.

### Cooking And Sewing Are Studied By 4-H Club On Saturday

Members of the 100 per cent 4-H Club studied cooking and sewing at a meeting Saturday in the home of their leader, Mrs. Ralph Rogers.

During the sewing course, the group mastered the skill of making French seams and neat patches.

Billy Jean Muncy, Winnie Phillips, and Willa Green gave a demonstration on measuring flour and shortening as a special feature during the cooking course.

The group enjoyed a picnic lunch after the meeting.

### 'Sock Party' Surprises Leroy Bynum On His And Exhibit On Friday

Mrs. Leroy Bynum surprised her husband with a "sock party" on his birthday Saturday evening in their home.

The living room was decorated with bouquets of snapdragons. A table, covered with white, held a large cake on which was the inscription, "Happy Birthday Leroy." Pink roses surrounded the cake, which was flanked by pink candles.

The hostess served ice cream with the cake to Mr. and Mrs. Marvin Sanders, Mr. and Mrs. Chester Voloshik, Mrs. R. O. Whitted, Mrs. R. L. Bynum and son, Jimmy and Walter Bynum.

### Mother-Daughter Tea Is Given Sunday By Brownie Scout Troop

Brownie Scout Troop No. 10 gave a mother-daughter tea Sunday afternoon at the Presbyterian Church.

The hostesses gave a resume of the year's work and advancements as a special treat for their mothers.

The tea table had a lovely bouquet of red roses for a centerpiece.

The mothers attended the tea 98 per cent. Those present were: Mrs. W. M. Siegenthaler, G. Kelley Stout, Don Butts, Katherine Downey, E. G. Hubbard, Ivan Herbert, O. L. Wehnt, Fletcher Collins, Ernest Hill, and R. T. Hutson.

The leaders, Mrs. M. Duane Sams and Mrs. Leland Lewis, were also present.

Funds for the tea were saved by the girls, who also took all responsibility in plans and decoration.

### Mrs. E. J. Foster To Head Council Church Women Next Year

Mrs. E. J. Foster was chosen president of the Council of Church Women at the regular monthly meeting Friday at the First Methodist Church.

Elected to serve with her were: First vice president, the wife of the new Methodist Church pastor, who will be appointed in June; second vice president, Mrs. Ralph O'Dell; third vice president, Mrs. Harry Wilson; secretary, Mrs. John A. Cross, and treasurer, Mrs. Lonnie Chester.

Mrs. Owen Hensley had charge of the afternoon program and introduced Rev. Ralph O'Dell as guest speaker.

Sally Sears, Shirley O'Dell, and Leota Hopp, accompanied by Mrs. O'Dell, sang a few selections for the group.

### Baptists Nursery Shower Is Given At Church Sunday

Leaders of the First Baptist Church nursery department gave a shower for the nursery room Sunday afternoon in the new educational building erected by the church.

The purpose of the shower was to obtain toys and fixtures for the department.

All women who attended the shower received corsages as they entered and signed their names in the guestbook, which Mrs. Rufus Lee kept.

Mrs. R. L. Bynum, Mrs. H. C. Golden, and Mrs. Louise Dillard received the guests.

A large table stood in the center of the room. At one end of the table, a large cake, encrusted with "Nursery" and decorated with pink rosebuds was set. In the center of the table was a large bouquet of pink roses, which was flanked by pink candles. Pink and blue streamers were tied to the candles and mingled among the roses.

The guests were served pink and blue plates and received pink napkins. Mrs. Leroy Bynum presided at the punch bowl and Mrs. Loyd Monroe at the cake.

Red roses were placed around the room.

About 50 guests called during the afternoon and left gifts for the use of the nursery.

### June Allyson To Be Seen Here In 'Good News'

She's scant five feet, weighs less than a hundred pounds, but has enough energy to smash the atom. After spending a few days with June Allyson, who will appear Sunday through Tuesday on the Lansun screen in "Good News," a merry-go-round seems more stationary than a tub.

The cottage of the Dick Powells is, like its owners, American of English ancestry. Low, built with straight lines, it sits atop a small hill, fenced in by a trio of farm rails painted white by June herself. Its gardens are filled with young avocado and orange trees (their bases colored with borders of purple iris and lemon verbena).

Two important rooms of the house are still unfinished—the den and nursery. The latter has to wait until the stork rings once, twice, or even three. Children are another project in which this pint-sized dynamo is interested. The den, however, has no defense against June. It is for Dick—very masculine, plaid-trimmed, comfortable with sturdy furniture, ash

trays big enough for a selection, and a set of the Encyclopaedia Britannica. Dick assumes responsibility for the books, and June assumes responsibility for the whole to cover!

Right now she is on "vacation," having left "Arabesque" behind last week.

She's the same about her moment is the most important of her career. Assigned to lead in the Technicolor "Good News," June has authority on the Roaring Twenties. Flappers, flaming youth, ABC's to her. She rehearsed the "Varsity Drag" so furiously that she danced twenty pairs of opera-length

### NOTICE OF PUBLICATION

Pursuant to Section 54-1-1 of the New Mexico Statutes Annotated, publication of 1941, notice is given of the filing in the Corporation Commission of the State of New Mexico of a Certificate of Incorporation of the State of New Mexico of a Certificate of Incorporation and Certificate of No Stockholders Liability of HI-GO PRODUCTS, INC. (No Stockholders Liability). The amount of authorized capital stock is: \$100,000.00.

2. The names of the incorporators and their post office addresses are:

Sam Sanders, P. O. Box 398, Artesia, New Mexico.

H. C. Bidwell, 503 West Ave., Artesia, New Mexico.

Richard E. Pingelton, P. O. Box 398, Artesia, New Mexico.

3. The objects and purposes of said corporation are:

To manufacture, buy, sell, in, and to engage in, and carry on the business of manufacturing, buying, and dealing in toys, novelties, goods, wares and merchandise of every class and description and as more fully set forth in the Articles of Incorporation.

4. The Principal place of business of the corporation is at: Building, Artesia, New Mexico AND THE NAME OF THE STATUTORY AGENT IN AND IN CHARGE OF UPON WHOM CLAIM AGAINST THE CORPORATION MAY BE SERVED is: Sanders, P. O. Box 398, Artesia, New Mexico.

5. Filed in the office of the Corporation Commission of the State of New Mexico, Vol. 6, Page 86, at 11:48 A. M. STATE CORPORATION COMMISSION OF NEW MEXICO.

By Don R. Casado, Chairman.

Certified copy of Certificate of Incorporation has been filed in the office of County Clerk Eddy County, May 7, 1948, P. M., Book 5, Page 313.

**SNOWY DAY IN EXERCISE "SNOWDROP"**—Members of the 505th Airborne Battalion Combat Team go into their second phase of Exercise Snowdrop as the countryside adjacent to Pine Camp, New York, becomes blanketed in snow. Preliminary training, in which the paratroopers acclimated themselves to severe winter weather, came in handy when frigid storms swept the northern states. The maneuvers were airmaxed by a mass jump from giant C-82 packet planes.

### Every Farm Wife A Fire Chief?

Rierson Suggests

"Every farmer's wife a fire chief." That's what County Agent Dallas Rierson is urging in order to cut down the number of farm fires that kill approximately 3500 persons annually in America's rural areas.

More than 50 per cent of farm fires start in the farmhouse, Rierson revealed. "The housewife, therefore, is the logical person to be home 'fire chief' and check up on others in the family so they won't start fires through carelessness.

This means she must be especially careful in her own everyday tasks, he pointed out. Electric irons alone start 40 fires a day in American homes while ignition of hot grease and cookstove fires account for many more.

As home "fire chief," the farm wife should "deputize" a man in the family to check electric connections and outlets regularly to prevent fires from sparks and short circuits, Rierson declared. She also should see that dry cleaning is not done near stoves or open flames. Home dry cleaning fires kill more than 302 people every year. Careless smoking causes more than a

third of the 300,000 fires that happen in the home every year, according to figures of the Fire Protection Institute. Smoking in bed kills more people than any single

cause and should be forbidden. Housewives should see that their families use common sense and not take needless fire risks, Rierson said. An extra precaution is to

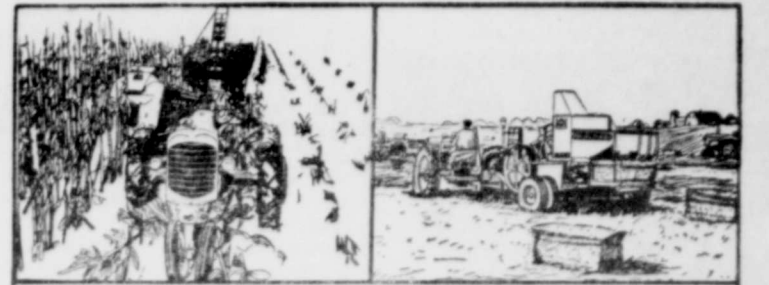

### TRIPLETS BORN TO MOTHER OF 14

IN THE INCUBATOR ROOM of St. Luke's Hospital, Duluth, Minn., nurses hold in their arms the three girls born to Mr. and Mrs. Adolph Erickson, of Duluth, who have 14 other children, the oldest 22. The triplets, weighing from three and a half to five pounds, are (l. to r.): Armita Lee, Ardis Lou and Arlene Lynn. (International Soundphoto)

have approved fire extinguishers within easy reach in case fires do happen. Properly used, they can keep fire from spreading while help from volunteer or other fire companies is on the way. But the greatest fire preventative is fire alertness. And housewives can make their families alert and keep them alert to fire dangers better than anyone else in the family.

Single and double-drawer steel card filing cabinets. The Advocate.

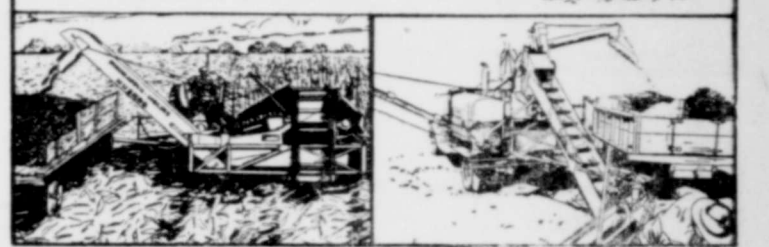

### THINK SAFETY AND ACT SAFELY

Modern high-speed farm machinery must have chains, gears, and revolving shafts to do the job for which it is designed. It can be safe to work around if the operator uses thought and care. Power take-off shields are provided for safety . . . never operate a power take-off operated machine without the shield in place and properly secured. If it becomes necessary to stop for adjustments or to remove an obstruction from the machine, don't make a move until you have disengaged the power take-off and shut off the tractor motor. Farm accidents cause altogether too much suffering, grief, and misery. Do your part to prevent accidents by always thinking about your safety and the safety of others.

Call on us for details and see how MM machinery is made for extra safety for you.

**Farm Briefs**

By Dallas Rierison  
Eddy County Farm Agent

It takes about two and one-half acres of good productive cropland to provide every person with food and clothing to maintain an average American standard of living.

Weed seeds transported in irrigation ditches in the Western states cause an annual loss estimated at 200 million dollars. To prevent the spread of weeds to farm land, irrigation ditches must be kept clean.

To farmers and others who know the dollar value of good topsoil, silt laden streams are a painful sight. It means less fertile soil necessary to produce grass and crops. It means fewer fish in streams and a reduction in the storage capacity of reservoirs.

The soil is composed of the same elements which are found in the human body and the body is dependent upon the soil to furnish these elements in ample amounts for growth and maintenance. Conservation of the soil therefore means healthier people.

Too few people realize that wildlife is a crop of the land. Everyone recognizes that the yield of a corn crop depends on the fertility of the soil. The same applies to wildlife. Fertile soil means better hunting and fishing.

There is a high relationship between weaning weights of pigs and their later development up until marketing time. Therefore, the sows and litters should be fed liberally. The creep-feeding of the pigs will increase their weights at weaning age, save some drain on the sows, and there will be less set back when they are weaned.

Every farm should have a disposal pit for getting rid of the carcasses of dead turkeys, chickens and other small farm animals. The size of the pit should be determined by the animal population of the farm. But it should be at least 10 feet deep and four feet wide, with a covered opening on top about 16 inches wide. The burning of dead animals requires fuel, oil, and shallow burying invites other animals to uncover the carcasses and spread diseases over the farmstead.

Acco fasteners, one and two inch capacity. The Advocate.

SUBSCRIBE FOR THE ADVOCATE

**Farm Topics**  
**Legumes Open Soil To Air and Water System of Rotation Prevents Compaction**

Tight "stuffy" soils are robbing many farmers of high bushel-per-acre yields of corn and small grains each year. Loams, silt loams and clay loams need large amounts of organic matter in the plow layer and deeper to keep them open and loose for high crop production.

Heavy soils that are low in organic matter and worked with heavy tractors and machinery become

Tap roots of alfalfa and sweet clover, as shown in sketch, break through packed soil to assure water and plant food for growing crops.

packed, especially just below the plow sole. These compactions slow down the intake of water. They cut down the amount of water and air the soil will hold for crop use. They keep the fibrous roots of corn and small grain "stuffed" away from water and air held deeper in the soil.

Temporary relief can be had by using machines that reach below the ordinary plow layer and break up the plow sole compactions. Real relief, however, comes only through regular use of deep-rooted legumes in the rotation.

The driving tap roots of sweet clover and alfalfa force their way through the compactions and reach deep into the soil, thus opening it to air and water. The mineralized organic matter they leave there improves soil tilth and furnishes plant food for other crops.

Channels of the tap roots are routes for water and air and fibrous roots to follow deep into the soil. Compaction-busting alfalfa and sweet clover need phosphate and potash if they are to do a good job.

**He's a Rat**

What is the most destructive animal in the world?  
No—it's not a puppy or a small boy!

The common Norway or brown rat has absolutely no competition when it comes to the ability to destroy. Annually, rats alone destroy about

4 per cent of the total grain and cereal crop in the United States, figures compiled by extension service entomologists indicate. As if its destructive abilities were not enough, the rat is host to carriers or is itself a carrier of bubonic plague, typhus and other diseases which are deadly to man.

Few farms are entirely free of rats, although rat populations can be reduced quickly. Cleaning up the premises, rat proofing, cutting off food supply, poisoning and trapping are major points in an effective rat control program. But, once the control measures begin to show results, there can be no relaxing. Rat control is a permanent, year-around program. A few days of poisoning will have only a temporary effect on the rat population.

**Modern Dairy Buildings Will Boost Efficiency**

Increased efficiency has entered the dairy industry with more widespread use of milking rooms and milk houses.

The ideal location for a milk house is attached to the milking room or barn. In most areas, sanitary requirements permit construction under the same roof.

Adjacent construction permits the dairyman to coordinate feeding, caring for the cows, milking them and handling the milk into an efficient system.

Miles of walking are saved annually when the milk house is adjacent to the milking room or barn, figures compiled by Cornell university show.

Requirements permit construction under the same roof.

Adjacent construction permits the dairyman to coordinate feeding, caring for the cows, milking them and handling the milk into an efficient system.

**Rabbit and Chicken Raising Is Profitable**

To offset high meat prices, home production of rabbits and chickens can be carried on very economically, making the family at least partially independent of commercial sources.

Raising of rabbits and chickens at home has a big advantage in the economical use of feeds, because such animals mature more quickly and at a lower feed cost per pound of gain in weight.

**Livestock, Like Humans, Become Salt Starved**

A good mineral mixture should be balanced with protein feed and corn in the feeding of hogs. Two parts of steamed bone meal, two parts of limestone and one part salt constitute a good mineral mixture. Livestock can become salt starved, the same as humans.

Tests at Purdue university showed that one pound of salt fed to hogs saved 147 pounds of corn and 40 pounds of protein supplement.

**Stock Feeders Give Talks At Annual Meeting**

Talks by three New Mexico stock feeders took the spotlight at "Feeders' Day" at New Mexico A & M College. More than 300 stockmen from New Mexico and Texas attended the annual event.

Stanley Barnett, sheep feeder from Roswell, told the feeders that he made \$52 a ton on his alfalfa last year by grazing lambs on it. Fred Freas, cattle feeder from Bluewater, said that he profitably feeds carrots to fattening cattle when the price of carrots is unfavorable. T. L. Simpson, Las Cruces cattle feeder, explained that his method of wintering stocker cattle includes putting the animals on alfalfa-cotton pasture for 60 days and putting them in the feedlot for 60 days.

In welcoming the feeders, J. R. Nichols, president of the college, struck the keynote of the day when he emphasized that the college stands ready to serve New Mexico to the limit of its ability.

H. R. Varney, dean and director of agriculture, suggested that the feeders would do well to substitute protein supplements for feed grains whenever possible until the new feed grain crops become available. He predicted that demand for meat animals will be strong next year, feed supplies greater, and feed prices lower in relation to the price of meat animals.

J. H. Knox, head of the animal husbandry department, reported that in this year's grain-saving experiment, steers fed medium amounts of ground maize, 6.5 pounds daily, gained almost as much as those fed heavy amounts, 8.5 pounds. The saving per head was about \$15. He said that the results were unusual, and may not be obtained another year.

Marvin Koger, associate animal husbandman, said that thouracil neither increased the rate nor decreased the cost of grain in cattle.

Fringed tapeworms cause thousands of dollars worth of sheep losses to be condemned annually under federal meat inspection, R. W. Allen, parasitologist of the Bureau of Animal Husbandry, told the feeders. He reported that the new research laboratory, established at State College by the BAI and the experiment station, is being used now to study the problem of how the sheep acquire the parasite.

For the second year of the experiment, lambs receiving more than three pounds of corn silage did not gain as efficiently as those receiving only alfalfa hay for roughage. P. E. Neale, animal husbandman, told the feeders. Ivan Watson, extension animal husbandman, led a discussion on the use of sulfur to prevent loss of lambs in the feedlot. Most of the feeders said they thought that losses could be prevented by regulating feed rather than by using sulfur.

**Not All Of Cropland Lost Is Blown Away Or Washed Down River**

Not all cropland and pasture that is lost is blown away or washed down the river says C. V. Hempill, chairman of the New Mexico PMA committee. When land is taken over by useless plants which prevent the growth of useful plants, it is lost as far as production is concerned—lost until it can be brought back into the production cycle.

Bureau of Naval Personnel, Navy Department, Washington, D.C., and they likewise may be procured from Naval installations or veterans organizations, or from the Bureau of Naval Personnel.

Limited initial token presentations of the Gold Star Buttons will be held throughout the United States and some possessions on Memorial Day.

Horn, stable, and horse flies cut deeply into beef and milk production when they attack pastures and keep them from being contentedly at time when the costs normally are lowest. Cattle grubs do much damage to beef and may reduce beef production while ticks, lice, and screwworms take an immense toll by way of unproduced which should go to hungry people. Infested animals are "hard-keepers" and cannot produce good meat.

**Smash Sale Records**

All records for Ayrshire auction sales in the U. S. were broken when an average of \$2,267.39 was paid for 23 Scottish bred Ayrshires imported and sold by Frank V. Lile of Bellefontaine, Ohio. The sale grossed \$52,150.

A new record price for Ayrshire bull calves was set at \$4,600 by Howard Baum and Sons of Paint Valley farm, Bainbridge, Ohio, in the purchase of eight-month-old Killoch Gay Smark (above).

Maljamar Items

Mrs. Kenneth Shields
Mrs. John McMurray left Wednesday of last week for a visit with her parents in Oklahoma. She went with her brother-in-law and his wife, Mr. and Mrs. James McMurray of Loco Hills. They plan to be gone a week.
Mr. and Mrs. Ott Vowell took their daughter, Patsy, to Lubbock Wednesday of last week to have tonsils removed.
Mrs. Son Taylor and Mrs. Kenneth Shields went to Lovington Wednesday of last week to visit Mrs. Fred La Fountain of Hobbs.
Mr. and Mrs. Frank Rhym and family and Dick Hunter went to Clarendon Wednesday of last week.
Mrs. John Leo became ill last Thursday and was taken to a hospital in Hobbs.
Mrs. E. R. McKinstry went to Lubbock last week end to visit her parents. Mr. McKinstry's mother of Hagerman is staying with Mr. McKinstry while she is here.
Mr. and Mrs. Buck Blackney of Lovington have bought the Maljamar Cafe and will take over as soon as school is out. Mr. and Mrs. Poer, former owners, are going to Lubbock where Mr. Poer is employed by the railroad.
A large dog, that had been killing sheep on the Taylor ranch, was killed after slaughtering his last 14 lambs at one time. Cecil Holeman killed the dog.
J. C. Watson, formerly of Maljamar, has started a well on the Caprock.
Lon McKinstry spent last week end at Camp Baca in the mountains near Lincoln with Boy Scout Troop 69.
Mrs. Odell O'Neal took her niece, Jerry O'Neal II, to Artesia for medical attention Saturday. She had swallowed a large amount of coal-oil.
Mr. and Mrs. Oscar Doughty and family left Sunday of last week for Heaton, Okla., on a vacation.
The Kewanee Sewing Club met at the home of Mrs. John Leo Friday. Homemade ice cream and coconut cake were served to Mmes. Ralph McGill, Lacy Dunlap, Dru Taylor, John Farmer, L. G. Doughty, Bill Wilson, and Grady Richards of Lovington. The group planned to have a chicken dinner in the near future.
"Ma" Payne visited her daughter, Mrs. Ken Whitely of Loco Hills, who was ill.
Mr. and Mrs. J. C. Davis visited in Eunice Tuesday and Wednesday of last week with Mr. Davis' parents, Mr. and Mrs. W. A. Davis.
Mrs. L. G. Doughty took her daughter, Betty, to Lovington Friday evening for medical care.
Mr. and Mrs. Dru Taylor visited Ham Bishop, who is seriously ill in Lovington.
John McMurray flew from Artesia with Ted Heidel to Vernon, Texas, where they were guests of Mr. McMurray's niece, Mrs. K. C. Shannon, for lunch. Mr. McMurray is a student of the Hazel Flying Service.
Mr. and Mrs. Guy Ellis visited in Maljamar Sunday while en route to Wichita Falls, Texas.
Mr. and Mrs. Son Taylor entertained Mr. and Mrs. Dick Hicks of Fullerton Field, Texas. Mr. and Mrs. Hicks also visited Mr. and Mrs. Garel Westall in Loco Hills.

NEW YORK GREETS DeVALERA

ALTHOUGH HIS SHIP arrived at New York in the early morning, Eamon DeValera, voted out of office after 16 years as prime minister of Eire, was given a hero's welcome as he returned to the city of his birth. Beside "Dev" is Frank Aiken, Eire's former Minister of Finance. In foreground, is Grover Whalen, reception committee chairman.

Veins On Cow's Udder Are Not Milk Barometer

In judging dairy cows, farmer shouldn't go by the size and number of veins on a cow's udder, E. E. Anderson state extension dairy specialist, said.
According to the old idea, a cow would be a high producer if she had a lot of veins showing on the surface of her udder and if she had big so-called "milk veins" running along the belly and big milk "wells" where the veins entered the abdominal wall, the dairy specialist said.
But during recent years, Anderson said, experiments by U.S. Department of Agriculture scientists at the Beltsville, Md., research center have proved the old idea to be wrong. After grading 10 Holsteins and 89 Jerseys, according to the veins on their udders the scientists kept milk production records on the cows.
The results showed that there was no significant relationship between the size of a cow's udder veins and her milk-producing ability.
After amputating an udder and studying the part that the surface veins play in the circulation of the cow, the USDA scientists found that the veins on the inside of the udder were large enough to handle all the blood in that organ. The size and largeness of the abdominal veins were of little importance.
"So," said Anderson, "Out the window goes another old notion on how to judge a cow by merely looking at her."

Farm Values In New Mexico Are Much Increased

Farm real estate values in New Mexico are 37 per cent higher than in 1920 when the World War I land boom reached its peak, according to C. G. Shull, president of the Federal Land Bank of Wichita. He reports that land values in New Mexico rose 8 per cent during the year ending March 1, while the values for the country as a whole rose 7 per cent.
Shull says, too, that the average size of farm mortgage loans recorded by various lender groups from 1940-47 has increased noticeably. The largest increase was 125 per cent on mortgages recorded by individuals. Those recorded by commercial banks increased 76 per cent, insurance companies 42 per cent, federal land banks 20 per cent, and other lenders 57 per cent. During that same period (1940-47) the total farm mortgage debt in New Mexico increased 7.2 per cent while the country as a whole decreased 27.5 per cent.
Nationally, the volume of voluntary sales during the 12 months ended March 1 decreased about 15 per cent from the record high of the previous year. The rate of turnover was 49 per 1000 farms as compared with 57 for the previous year. Reports indicate further decrease in the volume of sales is expected during 1948. Fifty-five per cent of the record sales in surveyed counties were entirely for cash as compared with 56 in 1946 and 58 in 1945. Down payments in the mortgage-financed transfers have averaged about 40 per cent of the purchase price during each of the last four years. Properties that now carry a debt of 50 per cent or more of current

Members Of 4-H Helping To Fill 'Bread Basket'

With domestic food consumption increasing yearly, together with continued demands for foreign aid, 4-H Club members are determined to help keep America's "bread basket" filled.
"For this specific purpose, about 200 thousand farm youth are taking part in the 1948 national 4-H field crops awards program," says L. S. Kurtz, state 4-H Club leader. "The program is designed to help 4-H'ers acquire a better knowledge and develop skills in approved

Examinations For VA Positions To Be Given Soon

Examinations for registrar, registrar assistant, and medical administrative officer at Veterans Administration hospitals and regional offices in Colorado, Wyoming, Utah, and New Mexico have been announced by the Civil Service Commission.
The positions require experience in the field of medical administration. Entrance salaries range from \$2644 to \$4932 a year.
Also announced were examinations for insurance conservation officer in the Denver branch office at \$5905 a year. A minimum of three years of general experience and a year and a half of specialized experience in life insurance is required.
Applications for registrar, registrar assistant, and medical administrative officer must be on file with the board of U.S. Civil Service Examiners, VA branch 13, Box 1280, Denver, not later than May 24. Deadline for filing of applications for insurance officer and insurance conservation officer is May 17.
Further information and necessary forms can be obtained also from the U.S. Civil Service Commission and at first or second-class postoffices.

FLAVOR-OF-THE-MONTH FOR MAY.. Velvet ORANGE-PINEAPPLE
It's a cool, colorful orange ice cream, with generous bits of crushed pineapple—made from the real fruits and juices, not artificial. Ask for Orange-Pineapple at your favorite Velvet dealer's.

NOTICE OF PROPOSED IMPROVEMENTS OF CERTAIN STREETS, AVENUES AND ALLEYS WITHIN THE CITY OF ARTESIA, NEW MEXICO, AND OF THE TIME AND PLACE OF A HEARING AS TO THE PROPRIETY AND ADVISABILITY OF MAKING SUCH IMPROVEMENTS, AS TO THE COST THEREOF, AS TO THE MANNER OF PAYMENT THEREOF, AND AS TO THE AMOUNT THEREOF TO BE ASSESSED AGAINST THE PROPERTY SO IMPROVED.

TO THE PROPERTY OWNERS, AND TO WHOM IT MAY CONCERN:

You are hereby notified as follows: That, on February 27, 1948, the City Council of the City of Artesia, New Mexico determined that the interests of the City required that certain streets, avenues, alleys and intersections within the said City should be graded, paved and otherwise improved, with the cost of such improvements to be assessed against the owners of the property abutting on said streets, avenues, alleys and intersections.

Pavement to be six inch gravel base with a two inch asphaltic wearing surface, or a double penetration asphaltic wearing surface. Curb and gutters to be concrete. Alley pavement to be Portland Cement Concrete.

That Classen and Rowland, engineers for the City, have fully complied with all of the requirements and have prepared and presented estimates, plans and specifications for said improvements to the City Council of the City of Artesia, all of which were accepted, approved and ordered filed in the office of the City Clerk, reference to which is specifically made and the same made a part hereof as if set forth at length herein.

That the total estimated cost of improving said streets, avenues, alleys and intersections is \$274,792.25, and it is proposed to assess the cost of improving said streets, avenues, alleys and intersections against the owners of property abutting thereon.

That it is proposed to permit the assessments for said improvements to be paid in full within thirty (30) days after completion and acceptance of said improvements or to require the assessments for said improvements to be paid in five (5) installments, the first of which shall be due and payable on or before sixty (60) days after the publication of an Ordinance levying such assessments, and one installment shall be due and payable on the same day of each year thereafter until all of said installments are paid in full. Unpaid assessments and deferred installments will bear interest from the date the assessing Ordinance becomes effective at the rate of six per cent (6%) per annum, payable semi-annually.

That the property proposed to be assessed for such improvements is described as follows:

OWNERSHIP FOR PROPOSED PAVING

 That pursuant to a Resolution duly adopted on the 3rd day of May, 1948, the City Council of the City of Artesia will meet on Wednesday,

day, the 9th day of June, A.D., 1948 at the hour of 7:30 P.M., at the City Hall in said City, such hearing to be adjourned from time to time and from day to day, as the proceedings may require, at which time and place the owners of property abutting on said streets, avenues, alleys and intersections so to be improved, or any other person interested therein, may appear before the City Council and be heard as to the propriety and advisability of making such improvements, and as to the cost thereof, and as to the manner of payment therefor, and as to the amount thereof to be assessed against the property abutting thereon or benefited thereby.  
 Any property owner or other person interested in said improvements who has any objections or protests against the construction of said improvements is hereby requested to reduce such objections or protests to writing, specifically stating the grounds for his objections or protests, in order that the same may receive proper consideration by the City Council, although oral protests will be heard and duly considered.  
 Notice is further given that any property owner or other person interested therein desiring to be informed in advance of the probable cost of improvements to be assessed against his property, may obtain general information as to the proposed improvements and approximate estimate of the probable cost by calling in person, or by agent, at the office of the City Clerk in the City Hall building in the City of Artesia, New Mexico, during business hours on any week day.  
 This notice is given by authority of the City Council of the City of Artesia, New Mexico, this 3rd day of May, A.D., 1948.  
 Oren C. Roberts  
 Mayor

### Farmers Urged To Invest In Savings Bonds

One of the best ways for New Mexico farm and ranch families to add to their financial reserves and insure their future security is by buying U.S. Savings Bonds during the nationwide Security Bond Drive. G. L. Poykin, associate director of the New Mexico Extension Service and member of the state's advisory bond committee, said this week New Mexico's quota in the drive, which continues until June 30, is \$7,000.

The campaign to increase the sale of savings bonds to farmers is a part of the U.S. Treasury Department's efforts to boost all savings bonds purchases by all groups, Poykin said. He pointed out that the present bond drive has three purposes: To spread the national debt among all citizens, to get the public debt out of commercial banks and into the hands of individuals as an anti-inflation measure, and to encourage more people to put aside a "cushion" of savings against the time when money may not be so plentiful.

"Farmers and ranchers, more than any other group, know how quickly the economic picture can change," Poykin explained. "They are well aware of the evils of both inflation and depression. Their investment of extra cash in Savings Bonds will help stave off inflation now and depression later on."

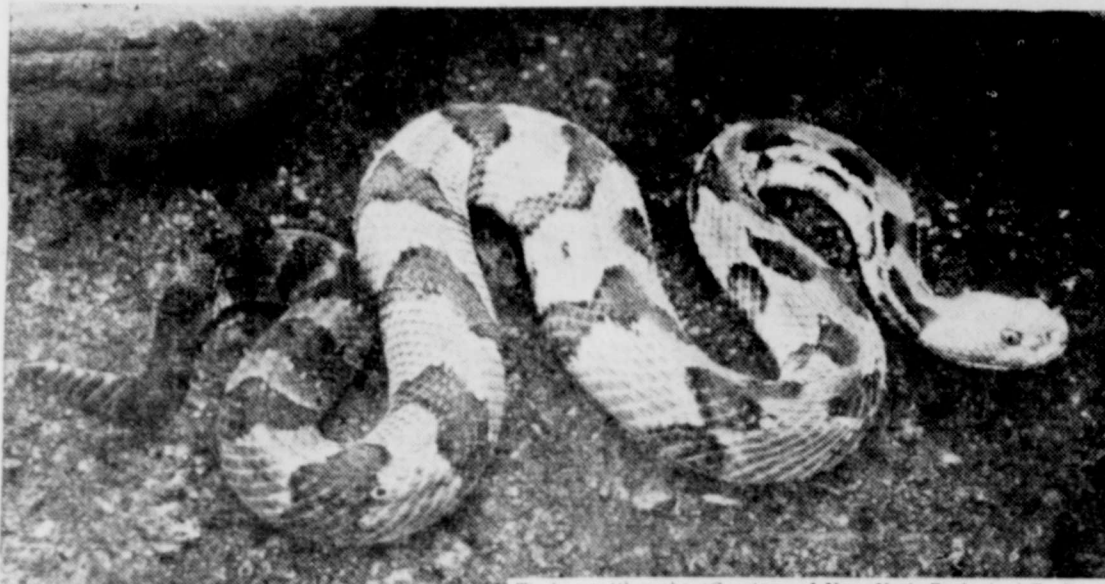

During the war, according to Treasury Department figures, farm families invested more than five million dollars in U.S. Savings Bonds. The bonds to be sold during the Security Drive will be the E, F, and G series, the same series of bonds which were sold during the war and have been on sale since. County agents and subject matter specialists of the State Extension Service are co-operating with county chairmen in staging the campaign.

## Snakebite Season's Here

### Someone's Going To Be Bitten — What Would You Do If It Were You?

Timber rattlesnake (Courtesy of New York Zoological Society)

**DIRECTIONS FOR EMERGENCY TREATMENT OF SNAKEBITE**  
 SEND FOR PHYSICIAN AT ONCE. 1. APPLY TOURNIQUET immediately about 2 inches above bite. Loosen at intervals to prevent gangrene. 2. MAKE CROSS CUT INCISIONS, with sharp knife or razor blades at bite and on advancing edges of swelling. 3. APPLY SUCTION at each cross cut incision for fifteen minutes of every hour. 4. INJECT ANTIVENIN as soon as possible around the wound and higher on the bitten limb. 5. After injection of Antivenin, RELEASE TOURNIQUET and CONTINUE SUCTION with empty Antivenin syringe until all symptoms subside.

ABOUT 3000 unsuspecting persons in the U.S. will be victims of snakebite this year. Of these persons, 35 percent may die from lack of modern treatment, many more suffer the loss of an arm or leg.

The snakebite season in the U.S. runs from early spring to late fall. Just at the time when fishermen, vacationists, Boy Scouts and Girl Scouts take to the outdoors, so do the snakes. Nor is the farmer or experienced sportsman exempt from the danger of snakebite.

#### The Snake To Be Wary Of

Rattlesnakes, copperheads and moccasins—all the snakes most dangerous to man—belong to the family known as "pit vipers." They are recognizable by flat, triangular heads; eyes with catlike pupils, and a deep depression (the "pit") midway between but below the level of the eye and nostril. One or more species may be found in every state.

The Florida diamond-back prefers scrub palmetto and low brush along the southeastern coast, frequently close to water; the Texas diamond-back, bold and aggressive, is often seen in open, cultivated land in the southwest, and even in or near farm buildings. The timber rattler ranges over the flat coastal plains of the south and the hills of the north and east, and may invade harvest fields. The prairie rattler inhabits the Great Plains from Canada to Mexico; and the Pacific rattler, the Pacific coast, with an isolated colony in Arizona. Ground rattlers (the pygmy and massasauga), somewhat smaller species, are common to certain parts of the south, east and middle west, the massasauga extending westward to Texas and Arizona. The pygmy prefers dry areas with low vegetation; the massasauga occurs in prairie country, wet or dry, but usually shuns water, and has been reported in woodpiles, cellars, under steps, in hay fields, and on mossy ground under bushes and evergreen trees.

perheads, common to the east and south and extending westward to Texas, usually prefer wooded hills and wild, damp meadows, and may be seen along old stone walls or about abandoned sawmills. The water moccasin (cottonmouth) inhabits swamps, streams and lakes from the Dismal Swamp in Virginia southward, and extends westward to Oklahoma and central Texas, and up the Mississippi Valley to southern Illinois and central Missouri. (There are no poisonous snakes in the fresh waters of the north. The common water snake is not only harmless to man but in feeding on dead fish in the streams it removes a source of contamination—a valuable service to farmers and sportsmen.)

All poisonous snakes in the United States can strike accurately about half their length, may strike wildly for greater distances, and when thoroughly aroused, some will attack repeatedly. The Texas diamond-back, if disturbed, quickly coils and may strike simultaneously with the sound of the rattle. Both copperheads and moccasins are especially dangerous for they resemble certain harmless snakes, and lack the telltale rattle.

#### Snake Venom

Snake venom originates in a pair of poison glands connected to two hollow fangs which when at rest are folded against the roof of the mouth. When the snake strikes, the fangs are thrown forward for the bite and release of poison. The venom of pit vipers destroys the blood cells and breaks down the vessels, weakens the heart action and poisons the higher nerve centers. Within a few minutes there is severe burning pain at the wound, the skin becoming dark and purplish; swelling soon appears, rapidly increases and spreads upward. The victim, in agony, becomes weak, dizzy, faint, sick at the stomach and perspires profusely; bleeding from body openings, paralysis and perhaps blindness and un-

consciousness may follow, ending in death, generally after several hours or days.

#### Modern Treatment

The victim of snakebite should not take alcoholic stimulants, nor should he walk or run, as this will distribute the poison more quickly throughout his body. Potassium permanganate or strong acids damage the tissues, and application of the organs of chickens or other animals is useless. The only effective treatment for snakebite (the usual first aid measures having been applied) is prompt injection of antivenom serum, made from the blood of horses that have been immunized over a period of several months with small and very gradually increasing doses of snake venom.

#### Serum Now Available

In the United States this serum—Antivenin—is produced solely by Wyeth Incorporated, Philadelphia, for treatment of rattlesnake, copperhead and moccasin bites. Use of Antivenin in large enough doses prevents death, relieves pain and other evidences of poisoning, and shortens convalescence. Lives have been saved by injection of Antivenin even as much as four days after the bite.

In powder form, supplied in vials, Antivenin remains effective without refrigeration, for five years. For injection, the dried serum is easily dissolved by adding the sterile distilled water provided in the accompanying syringe. Although it is best administered by a physician, the serum may be given by others (with due caution, of course) if medical aid cannot be reached in a few hours. Children need larger doses than adults—in some cases twice as much—because they have less resistance and less body fluid with which to dilute the poison. After injection the empty syringe may be reversed for suction of the wounds, which must be continued until all evidences of poisoning have disappeared.

bandry department, reports the results of a four-year feeding trial conducted at New Mexico A & M College.

One conclusion that Knox makes from his study is that corn silage either alone or in combination with alfalfa hay, is a satisfactory roughage for fattening cattle. However when it is fed alone, cottonseed meal must be fed for additional protein, and powdered oystershell

or limestone flour are needed for calcium, he found.

Another of Knox's conclusions is that a roughage of cottonseed hulls and alfalfa hay is less profitable than alfalfa with hagar fodder, alfalfa with corn silage, or corn silage alone.

A third finding is that the combinations with alfalfa effectively prevent bloating, which often occurs when alfalfa is fed as th-

only roughage.

The 20-page bulletin gives an analysis of the feeds used, describes their qualities, and tells the exact amounts used. It also shows how much feed was required to produce 100 pounds of gain, and how much gain was made each year from the feeds. Copies of the bulletin may be obtained from the Agricultural Experiment Station at State College, or from the county extension agent.

### Increased Yields Noted With Use of Fertilizer

Wheat yields can be stepped up 7 to 14 bushels per acre and the hay crop can be increased through use of more fertilizer in hay and pasture crops seeded in small grains, declares Dr. D. R. Dodd of the Ohio experiment station.

This practice is particularly profitable on land already highly productive, Dodd points out. As an example, he cites tests made by research men on plots at the Ohio station. The land's producing capacity already had been built up by good soil management so that it was producing an average of 85 bushels of corn, 23 bushels of wheat and 3 tons of hay per acre.

In the tests, a 2-12-6 fertilizer was applied at increasing rates to wheat.

### Minnesota Starts Big Tree Planting Project

As the first step in a far-reaching tree planting program authorized by the state legislature last year, Minnesota is planting about two million trees this year.

A million deciduous and coniferous trees are being sold at cost plus handling expense for planting on private lands. Another million coniferous trees are available for free distribution for planting on public lands.

### Farmer Reclaims Land Grows Prize Corn Crop

On a farm once considered "too poor" for the growing of corn, Edward Harvey of Booneville, Ky., last year produced 125.9 bushels of corn on one acre to win the corn derby contest in Owensley county.

To build up the land, Harvey seeded grass and legumes for hay and pasture, applied phosphates, lime, manure and tobacco stalks, and seeded cover crops for turning under.

Since 1920, motor equipment has replaced enough horses in the United States to release 55 million acres formerly used to grow horse feed—about 20 per cent of U.S. crop land.

The National Safety Council estimates that a third of the automobiles now on American roads have some mechanical defect which makes them unsafe.

### NOTICE FOR BIDS FOR WATER WELL FITTINGS

Sealed bids will be received by the City Clerk of the City of Artesia, New Mexico, at the City Hall

until 7:30 P. M. on May 26, 1948 for the furnishing of a water well pump and necessary fittings for installation as follows:

- ITEM I
- 1 ea. 1200GPM, 1760 RPM, 153 TDH, 62 BHP water lubricating turbine pump for 12 3/4" ID casing consisting of the following:
    - 1 ea. 75 HP, 1760 RPM, 220 Volt, 3 Phase, 60 Cycle VHS drive motor with non-reversible ratchet.
    - 1 ea. 1200 GPM discharge head, 100 feet 8" ID x 1 1/2 column and shaft complete.
    - 1 ea. 5 stage 12 MC turbine bowl assembly.
    - 10 feet of 8" ID suction pipe.
    - 1 ea. 8" ID suction strainer.
    - 1 ea. Square D pump plant panel 220 Volt, 3 Phase, 75 HP.

ITEM II

The following fittings are required for connection of pump to the 8" water main:

- 1 ea. 8" flange gate valve

- 1 ea. 8" Sparling main meter for water.
  - 1 ea. 8" ID dresser coupling No. 38.
  - 4 ea. 8" ID flange component bolt, cast iron standard.
  - 1 ea. 8" check valve, iron body metal seat, swing check, flange type.
  - 2 ea. 12" Bell and Spigot iron class 150.
  - 60 feet of 12" pipe cast iron, ment lined, class 150.
  - 1 ea. 8" to 12" sleeve, cast iron water main, class 150.
  - 1 ea. 8" x 8" x 12" tee, all cast water main, cast iron, class 150.
- Separate bids will be accepted on Items I and II and bidder should specify maximum delivery date, not to exceed 60 days from date of contract to purchase.

Done by order of the City Council.

Agriculture report. Production prospects for 1948 indicate a still greater supply available for the domestic market despite the expected increase in European shipments.

Continued increase in the production of small wheel tractors and equipment used with such tractors is in prospect for 1948. Production of dairy and poultry equipment, feed cutters, and horse drawn equipment has been high and may decline, but it is expected production will be adequate to meet requirements.

Incomplete reports on 1947 production indicate a total production of farm machines about a third higher than in 1946 and about double the 1935-39 average. Wheel tractor production reached 420,000 units as compared with 255,000 in 1946 and the previous high mark of 313,000 in 1941.

Farm machinery exports in 1947 also were at a high level, accounting for about 18 per cent of the total production, including industrial tractors. Exports included 80,000 wheel tractors, 15,000 garden tractors, and 12,000 crawlers. About two-thirds of the crawlers were for non-farm use. Total U. S. production included 420,000 wheel, 166,000 garden, and 38,000 crawler type tractors.

Prospects for 1948 indicate an increase in exports to European countries over 1947 while exports to non-European countries may remain about the same. The domestic and foreign demand for crawler tractors and large wheel diesel type or those adapted to heavy fuel is expected to remain strong and the supply situation "relatively tight."

### Soils Lack Some Of Trace Elements In Majority Of States

Deficiencies of one or more trace elements are found in nearly every state in this country. These elements are sometimes called the seven minor plant foods, boron, cobalt, copper, iron, magnesium, manganese, and zinc. Though needed amount of these elements is small, its absence will be apparent in the crop or in the livestock which consumes the feed grown on such lands.

In seven different states, boron is so badly needed on some of the soils that its application is a part of the Agricultural Conservation Program in those states. Usually boron applications greatly increased the yields of sensitive crops such as alfalfa.

The soils of seven other states are known to be deficient in cobalt which can be noticed in a lack of thriftiness in the animals eating crops from those soils. Cobalt deficiency is usually avoided by giving some form of cobalt to the animals themselves.
