Artesia Drillers Return Tonight Against Vernon

HELPING TO BUILD A GREATER ARTESIA

VOLUME FORTY-NINE

ARTESIA, NEW MEXICO, TUESDAY, AUGUST 5, 1952

NUMBER 63

Good Cotton Crop Forecast

Good cotton crop in Eddy is virtually assured, according to Dallas Riererson, agent, who forecast week-end that unless in weather, or water fac-

son made his predic-tion a county-wide tour. He pointed out that cotton is being heavily, but also that "there are still some factors to be controlled," and there are the factors of water sup-

planted that an adequate sup-plier appears probable. Damages has been caused

farmers are still depend-ent on ladybugs to control the in-vasion, Riererson observed, but cotton growers feel fur-

of cotton-destroying has been made easier by the number of "beneficial" in-

found in the county are a pest, stink bugs, and flea hop-

ered leaf worms have been in small numbers, Riererson

Carper Drilling Employees Join In Picnic Party

Carper Drilling Co. employees of the production department enjoyed a picnic at Maljamar park Tuesday evening, July 29.

Picnic luncheon of fried chicken, baked beans, mixed salads, and watermelon were enjoyed by the following employees and families:

Messrs. and Mmes. Clark Storm and family; Frank Graham and son, and guest, Walter Burch; John Goodwin and family; Edd Jackson; Walter Hammond and family; and guest, Miss Mavis Shipley; J. R. Swinford and son; Ralph Swan and family; Red Brandt and son; E. W. Potts, and Roy Wilson and family.

The evening was spent in pitching horseshoes and square dancing.

Farewell Party Is Given for Mrs. Jacobs

Mrs. Fred Jacobs, who is moving soon to Philadelphia, Pa., to make her home, was honored with a farewell coffee and shower Thursday morning at the home of Mrs. Reed Brainard. Hostesses were Mrs. H. G. Ellis, Mrs. Ira Dixon, Mrs. George Thalman, Mrs. Roger Durand, Mrs. H. T. Gissler, Mrs. Curtis Sharp and Mrs. Brainard.

The honoree received many lovely gifts. After opening them, they were viewed by the guests.

About 45 persons attended the shower.

The refreshment table was laid with a natural and blue Belgian linen cloth and centered with a pottery bowl filled with yellow

Mrs. Smedly Is Honoree at Pink-Blue Event

Mrs. James Smedley was honored with a pink and blue shower Thursday afternoon by Mrs. W. F. Mosley, 809 W. Chisum, with Miss Dene Moseley as co-hostess. Miss Mosley presided over the guest book.

Mrs. Kay Griffin presented a lovely corsage of pink roses to the honoree.

After several games were played and gifts opened, refreshments of tuna fish sandwiches, cheesets, potato chips and cold drinks were served.

Others attending were Mrs. A. J. Smith, Sandra and Glenn; Mrs. Alie Briscoe; Mrs. Rose Blakney of Clouderof; Mrs. Troy Rodes, Barbara and Bobbie; Mrs. J. A. Parrish and grandson; Mrs. Randolph Box; Mrs. Burr Clem; Mrs. Dee Sprayberry; Mrs. Lucille Short, Kay and Ray; Mrs. Jerry McAsland and sons; Miss Billie Kelly; June and Joe Blakney of Clouderof; and Yolanda Mosley.

Those sending gifts were Mrs. Naomia Votaw, Mrs. H. W. Langford, Mrs. Calvin Williams, Mrs. Kay Griffin, Mrs. Willard Griffin, Miss Louise Griffin, Leland and David Griffin, Mrs. Burk Phillips, Mrs. Mutt Alred, Mrs. L. C. Kidd, Mrs. Melton West, Mrs. Tom Briscoe, and Mrs. Albert Mosley of Carlsbad, and Grace Sheets, and Bill Smedley and Corporal Johnnie Briscoe of Korea.

daisies and pink and blue double larkspurs.

Glazed grapes were served in wooden trays. Cookies, rolls, nuts, mints, candies, iced tea, and coffee were served.

Indianapolis, Ind., was one of the first cities in the United States to adopt electric street lighting.

Armadillos always are born in sets of four.

Mrs. McNallen Honored With Farewell Fete

Mrs. W. E. McNallen was honored with a farewell surprise shower Friday evening at the home of Mrs. W. J. Cluney, with Mrs. J. J. Clarke, Sr., and Mrs. Cluney as hostesses.

Mrs. McNallen and her family are moving this week to Tulsa, Okla., to make their home.

The honoree was presented with a personal gift and a corsage of red roses.

Bouquets of summer flowers were used in the living room.

The refreshment table was laid with a lace cloth and centered with mixed bouquets of summer flowers flanked on each side with white decorated tapers in crystal holders. Individual white cakes decorated with the word "Mamie", salted nuts and frosted lime punch were served. The napkins were inscribed in gold, "Mamie."

The guest list included: Mmes. W. D. Green, William Ellinger, J. L. Long, J. L. McNallen, J. C. Triplehorn, James Nellis, Thomas Sheehan, Paul Terry, Louis Campanella, Charles Stogner, John Kintz, Taylor Cole, William Terpening, W. E. Rood, Earle McDorman, Johnny Gooden, and Lester George, and Misses Florence Saul, Kathryn Walterschied, and Grace Witt.

Personal Mention

Thad Cox left by plane Friday for Hillsboro, Ohio, where he was called by the death of Mrs. Cox's father, M. A. Gail, who had been ill for several weeks. Mrs. Cox and children had been there three weeks with her parents. Funeral services were at 2:30 p. m. Sunday at Hillsboro.

Mrs. James Heald and sons, Danny and Marvin, Roy of Artesia, and Mrs. Heald's mother, Mrs. Cliff Longbotham of Green Tree, formerly of Artesia, left by auto on Wednesday, July 27, for Eugene, Oregon, to attend funeral services of Mrs. Longbotham's brother-in-law, Jimmy Bumgardner, formerly of Hope. Mr. Bumgardner was sitting in his car at an intersection and a truck hit his car and seriously injured him. Mr. Bumgardner is survived by his wife, the former Opal Miller, daughter of Mr. and Mrs. Ben Miller of Hope.

Mrs. W. W. Ferriman left by train Saturday evening for Ohio where she plans to spend a month visiting relatives. She will visit her sons, Jim and family at Bay Village, and another son, Dick and family at Gallon. Also visit her sisters and brothers.

Mr. and Mrs. Charles Baldwin and children, and Mr. and Mrs. Ernest Morgan and children of Artesia, and Mrs. and Mrs. Oscar Bayer and children of Shepherd Field, Texas, formerly of Artesia, returned home Wednesday, July 30, from a 10-day fishing trip at Pagosa Springs, Colo. They reported fishing good. The Bayer family left that evening for Shepherd Field.

Mr. and Mrs. Harry Haselby and sons, Ronny and Rusty left Saturday

at the home of Mrs. Carl Lewis, Carpenter Drive, 2:30 p. m.

Fast Matrons' club, Order of Eastern Star, picnic supper with families as guests, home of Mrs. Dora Polk.

day on a two weeks' vacation trip to Minneapolis, Minn., to visit relatives.

Mrs. Nell Hamann returned home Sunday from Findlay, Ohio, where she had been visiting her sister, Mrs. Carl Joiner and family for two months.

ARTESIA GENERAL HOSPITAL Births—
July 2 — to Mr. and Mrs. Cliff Dean, son, Herman Crockett, weight 8 pounds 9 ounces.
July 4 — to Mr. and Mrs. Porficio Balencia, son, weight 6 pounds 1 ounce.

Kenneth Newton, who has been attending summer camp of ROTC, Fort Benning, Ga., arrived home Sunday afternoon. He appeared on the Louisiana Hayride at Shreveport, La., on Saturday night and was awarded the grand prize.

Mr. and Mrs. B. Newton and sons, Kenneth, Junior B., and Bennie, left Monday afternoon for a two-week vacation trip to Colorado.

Dr. Catherine Clarke and Dr. Lawrence Clarke of Albuquerque spent the week-end here visiting their parents, Dr. and Mrs. J. J. Clarke, Sr., and brother, Dr. J. J. Clarke, Jr., and family.

Mr. Gurvis Cummins has gone to Chanute Field, Ill., to visit her husband, Captain Cummins.

Mr. and Mrs. Clayton Yoder and children, Sandra and Richard of Enid, Okla., are visiting Yoder's brother and family, C. R. Yoder, near Lake Arthur. They plan to visit the Carlsbad Caverns before returning to Enid.

Mr. and Mrs. Dewey Donovan left Sunday on a vacation trip to Fort Worth, Dallas, and Denton, Texas.

Mr. and Mrs. C. H. Schrader of El Paso are here visiting Mrs. Schrader's mother, Mrs. B. N. Muncy, Sr.

Mrs. Jack Kennedy, who has been visiting her daughter, Mrs. Preston Campton and family at Lovington, arrived Friday for a few days' visit. She left Sunday again to spend some time in Lovington.

Mrs. Oscar Pearson and sons, Jack and Ted, returned home Friday from Nashwak, Minn., where they had been visiting relatives for three weeks.

Guests last week in the home of Mr. and Mrs. J. B. Muncy were Mr. and Mrs. Fred Maples and son, Fred, and daughter, Barbara Ann, and Mrs. Maples' niece, Minnie Laverta Young of Decatur, Texas, and Miss Benita Harris of Roswell. Mrs. Maples and Miss Harris are nieces of Mrs. Muncy.

Mr. and Mrs. A. W. Boyce spent several days last week in the home of Mr. and Mrs. W. A. Gage at Pinon, and visited other friends. Mr. Gage's mother, Mrs. John Gage, who had been ill, is improving.

It is believed the Eskimos lived on the north shore of Lake Superior about 2,000 years ago and moved north from there.

Michigan, Minnesota, and Wisconsin are the three states in the U. S. that don't have capital punishment.

Average number of people for every square mile of dry land on the earth is about 40.

State Taxpayers Huge Levy Government

New Mexico taxpayers pay seven times as much to support the federal government as they maintain their own local government.

L. Doolittle, president, Albuquerque Lumber Company, so decried today, quoting figures prepared by the economic research division of the National Association of Manufacturers for the Pacific Northwest.

With the growing federal tax burden taking the lion's share of the dollar, Doolittle said, "it becomes virtually impossible to provide New Mexico residents with adequate schools, hospitals and essential community services which their day-to-day existence so closely interweaves."

If the local citizen's tax dollar continued, "about 80 cents of the federal government. Only 10 cents goes to local government, and 10 cents to the state."

Responsibility—The federal government has reached out and grabbed many of the responsibilities which properly belong to the community or the state, Doolittle explained. "In taking over responsibilities and functions which used to belong to local state authorities, federal government also has taken more of the tax dollar, and of our individual freedom of movement."

Doolittle emphasized the fact that taxes spent in the local community are spent under the watch-eyes of community residents, can judge the importance and amount of local expenditures. However, little more than two cents out of every ten dollars the citizen pays in taxes goes to local state government, where he sees what is done with his money," he observed. "The other eight dollars wind up in the hands of federal bureaucrats. Some of the money will be spent wisely, some of it will be wasted and some of it will be spent to promote unrealistic programs aimed at denying the citizen's responsibility, freedom and opportunities."

Explaining the comparison of federal and local taxes, Doolittle said that the annual per capita federal tax payment—what every man, woman and child owe if the bill were divided equally among the nation's population—is \$380. Based on total local government receipts of \$8 billion in 1950, per capita tax for local government is about \$52, or about one-fifth the amount of federal tax payments. State per capita payments are approximately the same local, he said.

Doolittle pointed out that Americans will pay an estimated \$60 billion this year in federal taxes—up from \$44.762,000,000 in 1945, peak year of World War II expenditures, federal taxes are \$44,762,000,000. Also, he added the national debt—\$258,682,000 in 1945—is higher now by \$1 billion and may skyrocket to the debt limit of \$275 billion in 1953 if the present administration program is carried out.

Department of Agriculture Urges Farmers to Learn Weather Terms

When the weatherman predicts "showers," there's better than a 50-50 chance of rain. As much as 75 per cent of the area included in the forecast might get enough rainfall to measure. "Fair" or "partly cloudy," without mention of precipitation, means rainfall is not expected in any part of the area.

From none up to 15 per cent of the area may get rain if the prediction is "risk" or "change" of shower.

"Widely scattered showers" indicates rain for from 15 to 30 per cent of the area; "scattered showers," from 30 to 45 per cent; "showers," from 45 to 75 per cent; and "general showers," or "rain" from 75 to 100 per cent.

Making sure cotton farmers have a thorough understanding of these weather terms—now becoming standard in many areas—is one of the objectives of a campaign now in progress across the Cotton Belt. The National Cotton Council, in cooperation with the U. S. Weather Bureau, the Extension Service, and other agencies of the U. S. department of agriculture, is widely publicizing the terms and urging cotton farmers to utilize forecast in planning their operations. Radio stations in many areas are cooperating in the program.

In this area, according to County Agent Dallas Rierson, radio stations carry the weather forecasts at the following times: KSPV, Artesia, daily, 6 a. m., 8:30 a. m., 7:00 a. m., 7:35 a. m., 8:06 a. m., 10:25 a. m., 12:30 p. m., 4:30 p. m., 6:45 p. m., 9:55 p. m.; KAVE, Calsbad, daily, 7:15 a. m., 7:55 a. m., 12:15 p. m., 4:30 p. m., 9 p. m.; KPBM, Carlsbad, daily, 7:14 a. m., 7:30 a. m., 11:30 a. m.

The forecasts, in addition to probably rainfall, often include weather data on relative humidity, temperature, dew, wind velocities, and other conditions. Advance knowledge of these factors is valuable to cotton farmers in operations such as planting, fertilization, chemical weed control, cotton insect control, and chemical defoliation, Rierson points out.

Oldest of the Christian festivals is Easter, which began in the apostolic age.

Eddy County Agricultural Conservation Plan Launched

The agricultural resources conservation program organizing group from Eddy county met in the Roswell district meeting with members of the state ARCP group for the purpose of initiating the ARC program. Other counties represented were Lincoln, DeBaca, Lea, Roosevelt, Curry, and the host county of Chaves.

G. V. Clayton of Otero county, a member of the State PMA Committee conducted the meeting and was assisted by Al Firman of the soil conservation service, E. O. Moore, Sr., of Dexter, Archie Vance, state PMA executive officer, and others. It was pointed out in the meeting that the ARCP is a program for the people and by the people of New Mexico for a bigger and better New Mexico through the program of improved agriculture. Since everyone is affected by the agriculture conditions in the state and the nation as a whole it is everyone's business to work toward overall plan of agricultural conservation.

Cloth Plant—

Some of the ideas to be considered in preparing the overall and long range plan could be, promotion of cotton cloth processing plant, fruit and vegetable processing plants bigger and better transportation facilities, better and more conservation of our water and soil, to mention a few.

The participation of every organization business and social, that is interested in the future of New Mexico and its people, physically and morally shall be solicited. The thought back of the ARCP is that the combined efforts of everyone can produce better and greater results with less efforts and expense. Less duplication of effort will be effected and those with one ability will not be working on tasks better performed by others.

All Pledged—
It can be noticed that no single

agency is sponsoring the ARCP, but that the personnel, facilities, and abilities of almost all federal and state agencies have been pledged to the program as the will of the people shall demand. The success of individuals' contribution of ability and effort, no further provision has been made nor needed to make the plan function.

Local plans will be announced by the organizing group as they are formulated.

Leaflet Tells What to Do If Freezer Stops

"What to Do When Your Freezer Stops," a leaflet published by the U. S. Department of Agriculture, offers answers to many questions that freezer owners have been asking the department ever since freezers first came upon the market.

The leaflet tells what to do about

the freezer as well as the food inside, how to estimate the time the food will stay frozen, emergency care of the food at a locker plant, use of dry ice, how to insulate the freezer if dry ice is used, and what to do with food if it thaws.

It's a leaflet to have where you can lay your hands on it in a hurry. You may want to keep it near the freezer along with the manufacturer's instruction booklet, or in your household files with other literature on home freezers and freezing. Single copies of the leaflet may

be obtained free at the county extension office or from the Extension Service, State College, New Mexico.

The ancient Romans considered May an unlucky and June a lucky month for weddings.

Mills Rescues Drillers, Wins 10-5 Over Broncs

Driller relief hurler Rooster Mills pulled another game from the fire for the Artesia team Saturday night in a 10-5 win over Big Spring.

Mills came out in the fifth. The bases were loaded, and Mills was unable to prevent a costly double by Buddy Grimes. After that, Mills settled down to hold the Broncs scoreless for the rest of the game.

Artesia smashed into Big Spring mound offerings, driving out 21 safeties. Six of them came in the sizzling ninth when the Drillers piled up four runs for a safety margin that was effective when paired with Mills' hurling.

Reggi Corrales opened on the mound for Big Spring, giving up nine hits for five runs in 3 2/3 innings. Buddy Baer finished out the game and absorbed the loss by giving up 12 hits for five runs in his 5 1/3 innings on the hill.

Driller newcomer Ruyte started for Artesia, going 4 1/3 innings and giving up seven hits for all five Big Spring runs. Mills was credited with three hits for no runs in 4 2/3 innings.

Ruyte walked one, struck out one. Mills walked three, walked one.

Top Artesia batsmen were Paul Halter with five hits and Bill Haley and John Alonzo with four apiece. Alonzo crossed the plate four times, Sarubbi twice, and Joe Bauman, Rudy Briner, Jim Ackers, and Pete Pichan once apiece.

Artesia got to bat 44 times during the game. Two Artesia hits were scored in the first, two more in the third, one in the fourth and eighth, and four more in the ninth.

Funeral Service Held Saturday For Mrs. Behnke

Funeral services for Mrs. Sarah Behnke were held in Roswell Saturday morning following her death Thursday evening in the home of her daughter, Dr. Kathryn Behnke, 810 Mann.

Mrs. Behnke died shortly after a heart attack. She was 70.

Mrs. Behnke had been visiting friends during the evening and was stricken shortly after returning home.

She was born in Davenport, Ia., Feb. 14, 1882. She was married to Otto C. Behnke in Davenport Jan. 20, 1904. Mr. Behnke died Dec. 23, 1951.

Mrs. Behnke was a charter member of the ladies auxiliary to the National Association of Letter Carriers of Davenport. She transferred her membership to Roswell on coming to New Mexico in April. Services were held at St. Peters church, Roswell, at 9 Saturday morning. Burial was in South Park cemetery, Roswell. Pallbearers were Carl Clardy, Lee Shaughnessy, Arthur Meiering, Joe McQuirk, Chris Schnedar, and R. J. Antram.

In addition to Doctor Behnke, Mrs. Behnke is survived by another daughter, Mrs. Donald McLeod of Roswell; and two sons, Emil of Albuquerque, and Albert of Colorado Springs. Eight grandchildren also survive.

Artesia Again Leads Loop Batting; Sixth in Field

Artesia led Longhorn batting for the fourth week straight this week and Joe Bauman was again the loop's top batsman, followed closely by a cluster of other Drillers.

League statistics released Sunday by Collier Parris showed Artesia with a .301 batting average as a club, earned in 91 games and 3,236 times at bat. Artesia batsmen have knocked out 972 hits for 628 runs. The Drillers accounted for 183 two-base hits, topped only by Roswell, 22 three-baggers, and 100 home runs. Closest contender in the home run department is Odessa with 60.

Artesia is again sixth in club fielding. Big Spring leads with .956, followed by Roswell .953, San Angelo .952, Odessa .950, Midland .949, Artesia .948, Vernon .943, and Sweetwater .934.

Club batting averages show Artesia with .301, followed by Odessa .295, Sweetwater .293, Big Spring .288, Roswell .283, San Angelo .281, Midland .279, Vernon .261.

Bauman holds down the top individual batting spot with an .008 lead over Tuttle of Sweetwater. Big Joe has chalked up .382 in 321 times at bat. League statistics credited him with 32 home runs as of July 28.

Next is Tuttle with .374, followed by San Angelo's John Tayan and Rudy Briner of Artesia, both with .368. Bill Haley is ninth among Longhorn batters with .354, and Jim Ackers is 17th with .331, Paul Halter, 20th man from the top in the loop, has a .331.

Other Artesia batters are John Alonzo with .308, Pete Pichan .298, Vince Sarubbi .266, Mike Rodriguez .228, Wally Hanna .188.

Among the loop's pitchers, Mike Rodriguez of Artesia is eighth from the top with a .737 average, won in 20 games pitched and 15 games completed. Rodriguez has pitched 157 innings, fanned 108 and walked 81. He is credited with 14 wins and five losses as of July 28.

Rooster Mills and Milton Marshall are tied at 15th with .625. Mills has pitched in 21 games, completed none, but has gone 87 innings. He is credited with five wins against three losses. Marshall has pitched in 13 games and completed four, and has also won five while losing three.

Irvin Armin is No. 18 among the loop's pitchers with his .600, earned in 46 innings scattered across eight games. Bob Pressley has a .500 in 87 innings hurled in 14 games. Frank Fernandez has chalked up a .200—third from the bottom—in 75 innings in 17 games.

Big Spring Takes Drillers 9 to 4 Despite Hits

Big Spring knocked Artesia to a 9-4 loss Friday night despite being out-hit by the Driller, 13 to 10. The win was credited to Bronc strong-arm Aramis Arencibia, who effectively scattered Driller hitting power.

Both Jim Ackers and Joe Bauman collected home runs, and Bauman accounted for two runs batted in.

Artesia hitting placed Arencibia in tight spots throughout the game, but the Bronc pitcher was always able to stave off last-minute trouble that might have changed the game's outcome.

Al Valdez scored the telling blow for the Broncs with his double in the seventh, bases loaded, for four of the inning's five Bronc hits that decided the game in Big Spring's favor.

Herrman, Artesia's new limited service pitcher from the Clovis Pioneers of the West Texas-New Mexico league, went all the way, giving up 10 hits for nine runs and taking the loss.

Arencibia walked four as against eight for Herrman, while striking out six compared to Herrman's two.

Artesia was scoreless until the

fifth inning, when one run came in. A second came across in the sixth, tying the game at 2-2. But the Bronc rally in the seventh melted Artesia's resistance, and a two-run rally in the top of the ninth was ineffective. Ackers socked his homer in the sixth inning, and Bauman's came in the ninth with Paul Halter aboard. Bauman's round-tripper was his 33rd of the season.

Eagles Defeat Van Horn, 18-7

Artesia's semi-pro Eagles conquered the hitherto undefeated Van Horn, Texas, club by 18-7 in a slugfest played out here Sunday afternoon in Eagle park.

The Eagles began their drive on Van Horn with 6 runs in the first, followed up with eight more in the fifth. Miscellaneous runs came in the second, third, and seventh.

Van Horn was able to score in only three innings Sunday afternoon. The Texans drove three across in the first, and wound up with a solitary in the eighth.

On the mound for the Eagles was Raul Viton, former Driller pitcher.

Line score for the game:
Artesia 621 080 10x-18
Van Horn 300 300 001-7

Many male birds which have neutral colors share the hatching task with the female, but brightly-colored males seldom hatch the eggs.

Tribe Drives To 12-2 Win Over Drillers

Midland's Indians hit two Artesia pitchers for 18 hits Sunday to blast out a 12-2 win, with the eight-hit pitching of Israel Ten holding the Drillers down.

A tight duel into the fourth inning was abruptly broken when Midland slammed seven runs across the plate on five safeties and two walks.

Starter Mike Rodriguez was relieved following the Indian smash, giving way to Bob Pressley for the remaining four. Bob Pressley, as Artesia reliever, yielded 1 hit for five more runs.

The Indian route was completed in the seventh and eighth innings when five more runs were shoved over. Three Indians crossed the plate in the seventh, two more in the eighth.

Artesia earned its runs in the

fifth and seventh with one run in each. Ten was in trouble in the fifth when Artesia loaded the bases on three consecutive hits. The Drillers were unable to capitalize on the full-house, however, and garnered only one run.

Again in the ninth Ten was in trouble when Artesia desperately attempted a rally. Joe Bauman singled out to right, followed by Bill Haley and Jim Ackers, leading the bases.

But Pat O'Keefe snagged a flyball from Pete Pichan's bat and Bert Hanna let a shallow fly go to shortstop Scooter Hughes to retire the Artesians and their rally.

Rodriguez was credited with the 12-2 loss.

Two Artesians Return to Lobo Grid Line-Up

Two Artesia boys—A. L. Terpening and Bobby Morgan—are among University of New Mexico grid candidates who have earned Ribs Bay-singer, Lobo acting athletic man-

ger, to predict UMN grid prospects "brightest in a long time." Terpening was top punter in the 1951 Skyline conference, an honor he held down until he was sidelined with an injury last season.

Bobby Morgan is one of five lettermen ends returning to the UMN lineup, and classed as among the "capable receivers."

Despite a 4 won 7 lost record in its initial Skyline year in 1951, Lobo prospects may be better this

year because of a host of returning lettermen which are, according to Howard Peterson of the Albuquerque Journal, "two-deep at almost every position."

The number of electric trolley coaches in use in American cities has increased 132 per cent since 1940.

Methodical Engineering Search

Failed to Reveal Lost Gold Mine

Add to New Mexico's legends of lost gold mines the story of a fabulously rich gold deposit in the San Pedro Mountains, south of Santa Fe, that a methodical search by engineers has failed to locate.

The story is told in an article, "The Mystery of the Lost Gold Mine," by Charles F. Williams, of Santa Fe, in the July issue of New Mexico Magazine. Williams is the lessee of San Pedro claims which are being developed as a copper property.

The "lost mine" is called Cathedral Stope on an old map and reports, which are supposed to exist, but Williams writes that it does not appear on any known maps of the San Pedro mountain mines. These old workings, according to the report, "contained gold ore of exceptional richness."

The stope or cavern is said to be so large that the beam from a five-cell flashlight does not reach from wall to wall or floor to back. In the stope they report finding a large iron mortar which must have been used by the old time

gamabusenos to grind the ore in order to recover the gold. The gold is described as occurring as thin interlacing ribbons in the floor, which is a marble formation—and as finely divided free gold in the walls, which are described as a monzonite. They also report seeing rotting timbers, assumed to be old burro stalls.

The engineers reportedly located an old prospector who had been in the stope, but when they brought him from California he was unable to locate the opening. Next a crew of miners was put to work removing caved material, and a considerable area on the mountain-side was cleared down to bed rock with a bulldozer. But the opening to Cathedral Stope remained as much a mystery as ever.

Williams reports that the present owners are not continuing the search for the lost gold mine. "They are now wholly concerned with plans to re-open and re-quip the property to produce metal now so critically short in the defense program."

One in 18 Fatal Auto Accidents Due to Defects

There was something wrong physically with one out of every 18 drivers involved in the 32,500 fatal motor vehicle accidents last year, according to the National Safety Council.

In "Accident Facts," the council's statistical yearbook, which is just off the press, three-fifths of these defects were listed as fatigue and sleeping while driving.

One out of every nine pedestrians killed by motor vehicles had some physical defect. Defective eyesight was reported in more than one-fourth of these cases, defective hearing in one-tenth, and illness or other bodily defects in the remaining three-fifths.

The Atlantic is the saltiest of all oceans; the Indian ocean is second, and next is the Pacific.

John Deere '60' Demonstration Set Wednesday

A demonstration of the new John Deere model 60 tractor has been scheduled for the J. J. Terry farm near Artesia at 10 a. m. Wednesday morning, according to officials of Miley Implement Co., Artesia.
 The farm is located near Cottonwood, northwest of the school house.
 The demonstration will emphasize hydraulic two-way plow action features of the new model 60, Miley Implement stated.

Voters Can Now—

(Continued from Page One)
 have been established in Artesia. It is expected, however, that an organization of civic clubs and other groups will be formed to facilitate voter interest in registration and in going to the polls.

New Act—

(Continued from Page One)
 at 7:30 Thursday night. She will be chosen from among eight candidates on a penny-ballot basis. Two other candidates will be chosen as her assistants.
 The rodeo is slated for four days consecutively, Thursday, Friday, Saturday, and Sunday nights, under sponsorship of Artesia Roping club.

New Franklin—

(Continued from Page One)
 ical air-conditioning, many-color interior decor, and a maximum of display space.
 Gifts will be presented opening day shoppers who visit the store.

Artesia Water—

(Continued from Page One)
 and other warm-weather needs. Artesians, according to city figures, used \$12,865.11 worth of water in July, as against \$8,840.50 worth of water in June. The new rate, representing a 60 per cent increase, went into effect July 1, and water users were billed under the new rate in statements for July, mailed out Aug. 1.
 The increase amounts to \$4,024.61.
 For comparative purposes, Artesian's in July of 1951 were charged \$9,539.79, a figure that is \$3,325.32 below the July 1952 charge of \$12,865.11.
 The new city water rate was pass-

ed after the city council decided improvements are needed for the Artesia water system and for the city disposal plant. Councilmen have already passed a \$125,000 revenue bond issue to rebuild the disposal plant.

Water mains are also to be cleaned under the new rate increase, and may also be paid for by the revenue bond issue. Some city mains are reported to be 30 to 60 per cent plugged by mineral deposits, resulting in low pressure in many areas.

The Alaskan fur seal does not swim at birth but must learn as a pup.

Public Health Statistics eased for First Six Months

State Department of Public Health has just released the comparative statistics on communicable diseases for the first six months of 1952 compared with the first six months of 1951 and the five-year average for the first six months of the years 1948 and 1952.

There were 7 cases of diphtheria reported in 1952, 18 cases in the first six months of 1951 and a five-year average of 24 cases of diphtheria reported in the first six months of 1952; 2 cases of dysentery reported in the first six months of 1952; 7 cases of dysentery in the first six months of 1951, and a five-year average of 31 cases of dysentery in the first six months period.

There were 343 cases of gonorrhea reported in 1952, as compared with 300 cases of gonorrhea in the first six months of 1951, and a five-year average of 416 cases of gonorrhea for the first six months of 1952. There were 375 cases of gonorrhea reported for the first six months of 1952, as compared with 375 cases of gonorrhea reported in the first six months of 1951, and a five-year average of 375 cases of gonorrhea for the first six months of 1952.

Meningitis—There were 9 cases of sero-meningitis reported in the first six months of 1952, as compared with 5 cases of sero-meningitis reported in the first six months of 1951, and a five-year average for the first six months of 5 cases of sero-meningitis. There were 13 cases of pneumonia reported in the first six months of 1952, as compared with 54 cases of pneumonia reported in the first six months of 1951, and a five-year average of 479 cases of pneumonia in the first six months of 1952. There were 28 cases of poliomyelitis reported in the first six months of 1952, as compared with 24 cases of poliomyelitis reported in the first six months of 1951, and a five-year average of 19 cases of poliomyelitis in the first six months of 1952. There were 134 cases of scarlet fever reported in the first six months of 1952, as compared with 19 cases of scarlet fever reported in the first six months of 1951, and a five-year average of 19 cases of scarlet fever for the first six months of 1952.

Smallpox—There was 1 case of smallpox reported in the first six months of 1952, as compared with 1 case of smallpox reported in the first six months of 1951, and a five-year average of 1 case of smallpox in the first six months of 1952. There were 87 cases of syphilis reported in the first six months of 1952, as compared with 472 cases of syphilis reported in the first six months of 1951, and a five-year average of 688 cases of syphilis for the first six months of 1952. There were 13 cases of typhoid fever reported in the first six months of 1952, as compared with 23 cases of typhoid fever reported in the first six months of 1951, and a five-year average of 23 cases of typhoid fever for the first six months of 1952. There were 134 cases of whooping cough reported in the first six months of 1952, as compared with 134 cases of whooping cough reported in the first six months of 1951, and a five-year average of 359 cases of whooping cough for the first six months of 1952.

U.S. Production Of Milk Shows Little Increase

Milk production in the U. S. has increased very little in the last 10 years, but the number of people has increased by more than 20 million, according to the Bureau of Agricultural Economics. Production of milk per person now is about 730 pounds a year, compared to the 1935-39 average of 820 pounds per person.

But milk is being used more efficiently today for human food than it was in the 1930's. People are getting milk—but often in different forms. They are using more whole fluid milk and whole milk products like ice cream, canned milk, and cheese. Great advances have been made in using the part of the milk below the cream line.

Large quantities of skim milk, formerly fed to farm animals or wasted, now are being used in non-fat dry milk, skimmed milk drinks and cottage cheese. Americans now use for food about 70 percent of the solids-not-fat of milk produced, compared to only 50 percent in the early 1930's and the 1920's. Consumption of practically all milk products, except butter, is higher today than before World War II.

Average Use of Electricity Is Fixed for Homes

Have you often wondered how much current is consumed by your electrical appliances? Farm engineering specialists have estimated kilowatt-hour consumption of the various appliances like this:

House lights, 30 per month; washing machine, 4 per month; flat iron, 5 per month; liquor, 10 per month; radio, 8 per month; kitchen refrigerator, 30 per month; water heater, 75 per month per month; and electric range, 30 per month per month.

Kilowatt-hour consumption rates for other appliances are as follows: Vacuum cleaner, 3 per year; food freezer (3-6 cubic feet), 20-45 per month; food freezer (15 cubic feet), 75-120 per month; barn lighting, 18 per month; milking machine, 1 for each 3 cans; poultry house lights, 15 per month per 100 hens; and five horsepower motor, 5 per hour.

Wheat Crop to Be Supported At \$2.20 Bushel

The 1952-crop wheat will be supported at a national average price of \$2.20 a bushel. Last year's average was \$2.18 a bushel.

Only wheat grading No. 3 or better, or No. 4 or No. 5 because of test weight or because it contains wheat of the classes Durum and/or Red Durum, will be eligible for loan or purchase agreement. The loans will be available through January, 1953, and will mature April 30, 1953, or earlier on demand. Purchase agreements may

Artesia Credit Bureau

DAILY COMMERCIAL REPORT
and
CREDIT INFORMATION
Office: 225 Carper Building

be entered into and mature on these same dates.

Price support rates at Missouri River terminal markets will be \$2.49 a bushel for Grade No. 1 heavy of the class Hard Red Spring and Grade No. 1 of the classes Durum, Hard Red Winter, Soft Red Winter, and White wheat.

The Egyptians played checkers as far back as 1600 B.C.

NOTICE OF PUBLICATION STATE OF NEW MEXICO OIL CONSERVATION COMMISSION, SANTA FE, NEW MEXICO

The State of New Mexico by its Oil Conservation Commission hereby gives notice pursuant to law and the rules and regulations of said Commission promulgated thereunder of the following public hearings to be held at 9 o'clock a. m. on August 19, 1952, at Mabry Hall, State Capitol, in the City of Santa Fe, New Mexico.

STATE OF NEW MEXICO TO:
All named parties and persons having any right, title, interest or claim in the following case, and notice to the public.

CASE 402:
In the matter of the application of the Oil Conservation Commission upon its own motion for an order revising Rule 1114 of the Commission's Rules and Regulations providing for the use of Form C-115-S, Operator's Monthly Report—State Land, said form to be used in lieu of Form C-115 in reporting production and runs on state land.

GIVEN under the seal of the Oil Conservation Commission of New Mexico at Santa Fe, New Mexico, this 25th day of July, 1952.
State of New Mexico,
Oil Conservation Commission,

Artesia Water Supply

ACCORDING TO GEOLOGICAL experts who have been studying the Roswell artesian basin, which furnishes domestic and farm-ranch water for the Roswell and Artesia areas, a 10-year drought since 1942 has lowered ground water levels about 100 feet.

Geologists point out that Artesia faces more danger concerning its water supply than does Roswell. While the Roswell sector of the Artesia basin receives recharge from the White and Capitan mountains, Artesia must depend on rainfall in the Sacramento alone.

The Roswell sector of the basin has a greater run-off potential than does the Artesia area of the underground basin, according to studies. And while the main water-bearing strata runs 200 feet below the surface at Roswell it is between 900 and 1,100 feet beneath Artesia.

However, despite these differences the welfare of the two communities is integrally bound up in the overall condition of the Roswell artesian basin. While some minority pressure groups do not wish dropping ground water levels to be publicized, we believe the citizens of the Pecos Valley should be made aware of what is becoming a highly difficult situation at best.

Don't Blame Employer

IT IS NOT your employer's fault there are deductions made in your pay check. He doesn't like it any more than you do—he doesn't like it because he has to handle the money; make out the reports; match your contribution for old age pension; and pay a per cent on your salary into the unemployment fund.

The average employee, however, discusses very frequently his salary and his pay. Nine times out of ten, a survey discloses, he talks about his take home pay. His idea of a salary is what he receives and not what he is actually paid. That, of course, isn't true and it isn't fair to his employer.

Employers over the nation would be delighted to drop all of the deductions now taken out of pay checks. They don't like collecting the withholding tax, which is income tax for Uncle Sam. They would much rather that the government would collect this from the employee. But the chances are the idea will never be dropped unless the court rules it is illegal. Uncle Sam has been able to collect considerable in income taxes he was never able to collect before.

Those employees, of course, who are entitled to refunds obtain these when they file their income tax reports.

The deduction for old age pension is not something the employer likes to deduct, either. Today that is one and one-half percent of the salary. Besides holding out this amount from the pay check, the employer must match this with another one and one-half per cent. In addition to this the employer has to pay in a per cent of the salary for unemployment compensation. There is no deduction made from the employee's check for unemployment. Only the employer pays this.

But surveys over the nation have disclosed that the average employee thinks of his pay as his "take home pay." That, of course, isn't true because the deductions made include payment of his or her income tax and their contribution to the social security program.

And although employees may think of their boss as making these deductions in their checks, you can be assured that the employer would be delighted not to make these deductions and not to have to follow with making the payments and filing the reports with the government.

But the take-home pay check isn't your salary—it is your pay after you have made a payment on your income tax and made your contribution to your old age payments.

That Health Council

SOME COMMUNITIES of the state have been busy organizing what they call health councils — organizations to make recommendations regarding improved and better sanitary programs.

There is no question that these organizations are needed in a good many communities of the state and without a doubt they are a fine thing for every community.

In most cases efforts are made to get into these groups members of various organizations so that when the council speaks it is not just speaking for the active members in the organization but it is speaking for several hundred or in some instances thousands of people.

There is no question but what we are careless about our sanitation. There isn't a city which cannot make some improvements in its sanitary program which will make more safeguards for the health of the community.

Far too often we wait until an epidemic has already struck before we get concerned and before we get busy. Had we been busy the chances are the epidemic would never have visited our community.

But there is always some improvement possible in the collecting of our garbage, the disposal of this garbage and in having safe and sanitary garbage cans. We become careless concerning this.

There are always campaigns needed and necessary to keep down flies and to reduce the number of mosquitoes. No one can be sure how many diseases the flies and mosquitoes carry.

There usually are some open pit privies here and there in violation of state laws and health laws. And one of these in a community is just one too many for the good and the safety of that community.

A health council makes recommendations regarding these things. It studies sanitation methods; it studies the

FOR THE LADY'S FAVOR

What Other Editors Are Saying

NOT SO BADLY OFF

New Mexico isn't the only dry spot in the United States, and a lot of places it is hotter, with humidity running so high both people and vegetation are parched.

In some places in the Midwest crops are already burned down until farmers will have practically no income this year. New England is suffering from drought that has all sorts of agricultural associations alarmed.

Even a spot or two in the south where rainfall is usually plentiful are suffering from droughts of such intensity that emergencies have been declared by the federal government, always quick to lend money to farmers who are in distress.

Up in New England, however, alarmed farmers are talking about artificial rain-making to relieve the situation, probably not hearing that out here in the Southwest it has been declared a failure and that farmers are pulling out of the racket.

Seeding clouds might be practical in New England where rain clouds often form, but in a time of drought one does not look for clouds, and that perhaps would make attempts at creating rainfall by artificial methods impractical.

It strikes us that we are not any worse off than many sections of the United States, even though we have been suffering from a drought that has been prolonged for millions of years. We don't expect too much rainfall, and our vegetation has been tempered to a lack of moisture. Therefore, maybe we are better off than those sections of the country that have to have rain every week or so, or face the possibility of bankruptcy.—Roswell Daily Record.

MINIMUM AGE FOR DRIVERS' LICENSES

Is the big sedan hurtling down a New Mexico highway without a driver?

No. A closer look discloses a small boy peering between the rim of the steering wheel and the bottom of the windshield.

New Mexico law provides that anyone over the age of 14 may have a driver's license, although between the ages of 14 and 18 parents' permission must be obtained.

Yet some 14-year-olds are so small they hardly

THE COTTON PICKERS

We think the Mexican government is a little out of line in demanding that cotton-picking wages for "braceros" in New Mexico and Texas be increased to \$2.50 a hundred or that government contracts covering the thousands of Mexican nationals working in these two states will be cancelled.

A wage of \$2 a hundred is the standard starting rate for all cotton pickers in this area, whether citizens of Mexico or the United States; and we can't see that the government of Mexico has any business trying to dictate wages in this country.

It is significant that the United States Department of Labor has fixed the \$2 current rate for cotton picking as applicable to all field hands, whether U. S. or Mexican. Also, an official of the Labor Department, which handles the import labor problem, says the workers themselves are satisfied with the \$2 rate.

We think the Labor Department is right in deciding against forcibly returning the "braceros" to Mexico because of a provision in the U.S.-Mexican labor treaty which states that the U.S. secretary of labor shall determine the prevailing wage rate guaranteed under individual contracts.

We think the U.S. is being fair in expressing a willingness to write into the contract a provision guaranteeing the individual bracero \$2 per hundred pounds or the prevailing wage, whichever is higher. The rate for cotton picking almost always increases after the season gets under way.—Carlsbad Current-Argus

can see over the windshield and it seems obvious they can't have the car fully under control at all times.

Maybe the solution to that aspect of the problem would be to add a minimum height to the requirements for licenses. But then perhaps we'd have some 14-year-olds wearing elevator shoes to the drivers' license bureaus.

Probably the only solution is for the state of New Mexico to catch up, in this respect at least, with driving license laws in most other states.

The minimum age for drivers' licenses should be at least 16 years.—Tucumcari Daily News.

grams of the United States health department; it acts for the good of the citizens.

And an organization which has good recommendations and which speaks for several hundred people instead of just a few people carries weight and impresses the governing bodies and results in action being taken.

Artesia would probably find such an organization useful here and would find that it would help improve even the good program which is in effect in the city today.

There is always room for improvement in our sanitation program.

Navy Asks Aid In Identifying Accidental Dead

The Navy is trying a new procedure to cut down delay and inconvenience to next of kin in cases involving accidental deaths of Navy

As Artesia Grows

TWENTY YEARS AGO
(From The Advocate files for Aug. 4, 1932)

William Dooley, president of Ranger Mines, Inc., and Howard Stroup left here last week to spend a week in the Caballo mountains, testing out placer gold claims with a view of starting development soon.

Fred Brainard, manager of the Chamber of Commerce, drove to Roswell yesterday and attended a meeting for the purpose of discussing ways and means of improving the highway to various points of interest in the Sacramento mountains.

Announcement was made of the marriage of Miss Virginia Egbert and Howard Whitson, which was solemnized in Oklahoma City on April 18 when Mrs. Carl Bidstone entertained with a bridge party.

Mrs. C. Bert Smith was the surprise honoree, Monday at the Artesia Sacramento camp, when the whole camp gave a party in honor of her birthday anniversary at La Grande, the summer home of Mr. and Mrs. L. P. Evans.

Born to Mr. and Mrs. J. L. Briscoe on Sunday, a son.

Andy Anderson is taking his vacation from the Palace Drug store and left yesterday for a trip east.

TEN YEARS AGO

(From The Advocate files for Aug. 6, 1942)

Wayne Truett, son of Mr. and Mrs. Jesse L. Truett of Artesia, can now take his place with the finest rifle marksmen in the county, it was disclosed in Washington by the junior division of the National Rifle association. The 18-year-old Artesia boy has just been awarded the "expert rifleman medal."

Ralph Petty, owner of the Artesia Pharmacy, announced today the store will have its formal opening Saturday, after having been through a repair period caused by a fire June 21.

D. I. Clowe, secretary of the Artesia Rotary club, read a paper, "Eels and Rotary," at a weekly club luncheon Tuesday, in which he made comparisons between eels and Rotarians, pointing out that the two species are quite unrelated, in that the eels are slick and slide out of things and are cold-blooded.

Mrs. F. C. Hart entertained the Miercoles Bridge club Friday afternoon.

Paul Coffin, son of Mrs. Anne Coffin of Hope, and Miss Mary Catherine Powers of Eagle Lake, Texas, were married July 11 at Austin, Texas.

men away from their duty stations. During the past year, there were 22 deaths in the Eighth Naval District in this category.

The Eighth Naval District — comprising Arkansas, Louisiana, New Mexico, Oklahoma and Texas — has been chosen for a six-month trial period for the procedure by authority of the Secretary of Navy.

The change, suggested by officers of the Eighth Naval District staff, may be adopted by all districts in the continental United States.

Undue Delay—Formerly, Navy doctors at this headquarters had experienced a number of cases where undue delays were caused in shipping the remains of Navy personnel to the next of kin. Because the word had to be relayed to Eighth Naval District headquarters by the Bureau of Medicine and Surgery in Washington as to notification of next of kin, disposition, etc., it had taken from two to four days to get bodies prepared and shipped.

Under the experiment, the delay will be cut to approximately 24 hours, as authority for preparation and encasement of remains in accordance with next of kin's wishes will be granted by this headquarters.

Money has been set up for the Eighth Naval District to defray expenses in connection with the death of a person on active duty while away from a duty station on liberty, leave or under orders to another activity.

Notify At Once—Anyone witnessing an accident in which Navy personnel may be fatally injured is asked to immediately notify Eighth Naval District headquarters either by a collect telephone call or collect telegram. This is in addition to notifying local authorities.

Medical officers here will immediately get in touch with a funeral director who will take charge of the preparation and encasement of the remains, notify the next of kin by telegram, and issue orders to the funeral director to carry out the wishes of the next of kin.

Lucky You

TRANSPORTATION

**ARTESIA ---
HAS SHIPPING
FACILITIES TO SERVE
YOU TO AND FROM ALL
POINTS OF THE
COUNTRY---**

***DID YOU KNOW** that you can get second day delivery on merchandise, ordered from Colorado, Texas, Oklahoma or Arkansas and third day delivery from Illinois, Missouri or California?*

For instance—Hill Lines have service to all shipping points south of Highway "66", El Paso and Highway "285" east, and maintain overnight service.

Truck-trailer transportation is handled efficiently by trailer interchange instead of freight transfer—this saves a day, sometimes, in commodity delivery.

Being the center of one of the richest agriculture and ranching com-

munities in the state, it is imperative that Artesia have the service of major transportation companies. ! !

The vast amounts of cotton, alfalfa, sheep and cattle are taken to the market centers by large trucks built to suit the purpose.

Travelers to and from Artesia are not delayed for long with ten passenger busses entering the city every twenty-four hours and adequate Santa Fe train service.

Even the metropolitan centers of the country do not have more modern means of delivery than Artesia. We are also served by other truck lines and by rail via Santa Fe railroad.

WEDNESDAY - THURSDAY, AUG. 6 - 7

IN THE PROBATE COURT OF EDDY COUNTY, STATE OF NEW MEXICO

IN THE MATTER OF THE ESTATE OF J. M. PARKHILL, SR., Deceased.

No. 1783

STATE OF NEW MEXICO TO: LOTTIE LEE PARKHILL, NAN PARKHILL JONES, MARY ELIZABETH PARKHILL, JAMES M. PARKHILL, GEORGE B. PARKHILL, JOHN J. PARKHILL, DORA DEE PARKHILL, PURCELL and WILLIAM B. PARKHILL, the Unknown Heirs of J. M. Parkhill, Sr., Deceased, and to the per all Unknown persons claiming any lien upon, or right title or interest in, or to the Estate of said Decedent.

Greetings:

Notice is hereby given that Lake J. Frazier, Administrator of the estate of J. M. Parkhill, Sr., Deceased, has filed his Final Report and Accounting as Administrator

of this estate, together with his Petition for Discharge and for a determination of the heirship of said Decedent, and the Probate Court of Eddy County, New Mexico, has fixed the 15th day of September, 1952, at 10:00 A. M. at the Court Room of said Court in the City of Carlsbad, New Mexico, as the time, place and day for hearing objections to said report. At said time and place, the Court will proceed to determine the heirship of those claiming the estate, the ownership of the estate, and the interest of each respective claimant therein or thereto, and the per all Unknown persons claiming any lien upon, or right title or interest in, or to the Estate of said Decedent.

Frazier, Quantius & Cusack, whose address is 123 West 4th Street, Roswell, New Mexico, are attorneys for the Administrator.

THEREFORE, any person or persons wishing to object are hereby notified to file their objections with the County Clerk of Eddy

QUALITY SERVICE

THE PRESCRIPTION PHARMACY

How helpful Can We Allow friends to be...?

Their advice may be offered in a spirit of helpfulness—and still be dangerous. The remedy that seemingly helped one may be entirely wrong for another.

When sick, seek advice only from your Doctor. Diagnosis and treatment are specialized knowledge with him—not guesswork. Seek his guidance in all matters of health, and follow his directions faithfully. His prescription will be written especially for you.

TO: Ambrosio C. Jimenez, defendant, impleaded with the following named defendants against whom substituted service is hereby sought to be obtained, to wit: Ambrosio C. Jimenez (also known as Ambrosio Jimenez, Etienne de P. Bujac, John Price, Mamie Price, Joe A. Clayton, Cecil P. Clayton, San Diego, El Paso & St. Louis Railway Company, a dissolved corporation, Unknown Successors of San Diego, El Paso & St. Louis Railway Company, The Unknown Heirs of the Following Named Deceased Persons, to-wit: C. Bert Smith, Deceased, E. P. Bujac, deceased, Irene Price, deceased, and Mrs. Annie Clayton, deceased; The Following Named Defendants by Name, if Living, if Deceased Their Unknown Heirs, to wit: L. W. Martin, Charlie Ferris, Curtis S. Ivey, I. V. Whitesides, Sarah I. Whitesides, G. P. Ferree, Lester Alvin Willburn, Jim Willburn, Mrs. M. E. Green, Goldie Claudine Kitchens, Elizabeth Hodges, John R. Hodges, Joseph Dukes, T. W. Carter, T. W. Carter, Trustee, John R. Williams, Mary E. Williams and W. D. Mahony; and All Unknown Claimants of Interest in the Premises Adverse to the Plaintiff. GREETING:

Each of you are hereby notified that an action has been commenced and is now pending in the District Court of Eddy County, New Mexico,

wherein GEO. E. CURRIER is plaintiff, and each of you are defendants, said cause being NO. 13171 on the civil docket of said Court.

You are further notified that the general object of the action is to quiet title in the plaintiff in fee simple against all claims of the defendants in the property described in the Complaint, which property is situated in Eddy County, New Mexico and is more particularly described as follows:

TRACT NO. 1:
Lot 7 in Block 1 of the Smith Subdivision (being a part of Block 11, Fairview Addition) to the City of Artesia, New Mexico.

TRACT NO. 2:
Lot 7 in Block 57 of the Artesia Improvement Company Addition to the Town (now City) of Artesia, New Mexico.

TRACT NO. 3:
Lots 2 and 4 in Block 22 of the Artesia Heights Addition to the City of Artesia, New Mexico.

TRACT NO. 4:
Lot 1 in Block 23 of the Artesia Heights Addition to the City of Artesia, New Mexico; SUBJECT TO mortgage to Personal Finance Company.

TRACT NO. 5:
Lots 22 and 23 in Block 9 of the Morningside Addition to the City of Artesia, New Mexico.

TRACT NO. 6:
Lots 6, 7, 8 and 9 in Block 6 of the Morningside Addition to the City of Artesia, New Mexico.

TRACT NO. 7:
Lots 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15 and 16 in Block 11 of the Morningside Addition to the City of Artesia, New Mexico; SUBJECT TO a mortgage to F. F. Thorp and Harold C. Prentice, as now of record.

TRACT NO. 8:
Lots 16 and 17 of the Re-plant of Block 23 of the Fairview Addition to the City of Artesia, New Mexico.

TRACT NO. 9:
Part of Block 31 of the Fairview Addition to the City of Ar-

tesia, described as: Beginning at a point 210 feet east of the southwest corner of Block 31, Fairview Addition to the City of Artesia, New Mexico, thence north 100 feet; thence east 40 feet; thence south 100 feet; thence west 40 feet to the point of beginning. (Said tract being the same tract of land described in Tax Sale Certificate 5216 and Tax Deed 1881 as tract "40x100" in Block 31, Fairview Addition, Artesia, New Mexico.)

SUBJECT TO mortgages to The First National Bank of Artesia, Artesia, New Mexico, as now of record.

of you from having or claiming any lien upon, or right, title or interest in or to said lands adverse to the plaintiff.

If you, or any of you said defendants, fail to enter your appearance in said cause on or before the 27th day of August, 1952, judgment by default will be entered against each defendant failing to appear, and plaintiffs will apply

to the Court for the relief demanded in the complaint.

Plaintiff's attorney is NEIL B. WATSON, Artesia, New Mexico. WITNESS my hand and the seal of said Court on this the 11th day of July, 1952. (SEAL)

Marguerite E. Walker, Clerk of the District Court. By: Pat Bartlett, Deputy. 57-41-T-67

Cadillac

You Can Whisper - and Be Heard!

We should like to have you come in for a ride in a Golden Anniversary Cadillac. And when you do, we hope you will just sit back and relax... and listen!

And what will you hear?

Well, you'll hear the soft sound of the wind as it slips past the streamlined body... and, possibly, the quiet ticking of the electric clock.

But aside from these—you'll hear almost nothing. In fact, you'll find you can actually whisper—and be heard by your fellow-passengers!

We want you to experience this because nothing speaks more eloquently or more convincingly of motor car quality than—silence!

It tells you, first of all, that here is automotive engineering at its superlative best. For such silence of operation can only come when every phase of the car's performance is in perfect harmony.

It speaks of precision—for only the greatest accuracy in design and construction can result in such remarkable freedom from vibration.

It is a testimonial to fine craftsmanship—to quality materials—and to scientific styling.

And, of course, this marvelous quiet foretells many of the pleasures and satisfactions you would enjoy as the car's owner. It promises rest—and relaxation—and peace of mind... and a minimum of upkeep expense.

So why not take our suggestion—and come in and drive this beautiful Golden Anniversary creation? Let it tell you its own wonderful story through the things you cannot hear!
