Four-Day Ranchhands' Rodeo Slated To Open Thursday Night

Publicity Across State Will Pull Throngs to Four-Day Event

Artesia's first Ranchhands' Rodeo will open Thursday night amid great hoopla and promotion for the first of four performances. Rodeo time is 7:30 p. m. for all four performances Thursday, Friday, Saturday, and Sunday nights.

Crowds are expected at all four performances, and seating accommodations for about 2,500 at each performance will be tightly filled, according to officials of Artesia Roping club, sponsors of the rodeo.

Rodeo day Thursday begins with a parade at 10 a. m., followed by auto race time trials at 1 p. m., and actual races at 2:30 p. m.; a chuck wagon supper with barbecue beef beginning at 5 p. m.; and a Western dance with Gene Hensley at 9:30 in Veterans Memorial building.

Queen of the Ranchhands' Rodeo will be crowned at the opening performance, and with her two closest contenders will reign over all performances of the four day event. A fast-moving show has been produced by Bob Chipman and the roping club under the presidency of Walter Solt.

Solt announced Monday that the roping club had secured the services of Jimmy Meeks of Sundown, Texas, well-known horseman and judge of halter and performance classes across the United States.

Meeks will judge action in the cutting horse contests planned as the closing feature for the last three performances of the rodeo Friday, Saturday and Sunday nights Solt announced Monday.

Top cutting horses include Hopp and Margaret entered by Miller Ammons; Cold Dick and a dun by Paul Jones, Chickasha Mike and a younger horse by Buster Welch of Midland, two horses from Marfa entered by Ted Harper, a horse entered by Earl Netherline from the mountains, and several from Roswell.

Thursday afternoon has been declared a half-holiday in Artesia by proclamation of Mayor J. L. Briscoe. Events slated for Thursday afternoon are the races featuring Indianapolis type cars on the Veterans Speedway, west of Artesia, and the chuck wagon supper, which will be served from 5 p. m. to rodeo time at the roping club arena, west of town.

Admission for the chuck wagon supper will be \$1.25 per plate, according to officers of Alpha Nu chapter of Epsilon Sigma Alpha, sorority sponsoring the supper.

Admission to the rodeo will be \$1.20 for adults, 60 cents for children, according to Solt. The rodeo is scheduled to last 2 hours 15 minutes, Solt said, and rodeo fans are promised a fast-moving list of events.

General admission and reserve tickets for the four-day rodeo are now on sale at Russell Auto Supply in the 300 block of W. Main street. This is the program of events planned for each night of the rodeo.

Grand entry. Bareback bronc riding. Calf roping. Barrel racing. Saddle bronc riding. Double mugging. Specialty act. Brahma bull riding. Added to the list of events will be the cutting horse event as the last event of the shows on Friday, Saturday and Sunday nights.

The non-professional Ranchhands' Rodeo has drawn entries from across New Mexico and West Texas, according to Chipman, rodeo producer. In addition, good animal stock in excellent condition has been secured and tested for the rodeo, Chipman added.

Cars Admitted. Room for parking about 35 cars has been left at the rodeo grounds in addition to the seating, Chipman pointed out. Cars will be allowed to use these parking places on a first-come, first serve basis.

Balloting in the rodeo queen contest closes at 2:30 Thursday afternoon and the winner will be announced and crowned Thursday night at the opening performance.

Specialty acts signed for the rodeo are the bull whip artistry of Richard and Mavis Fulkerson, 16-year-old twins and 12-year-old Rosa Lee Fulkerson, who specializes in riding a large Palomino horse through a blazing hoop.

Bracero Contract Extensions Are Slated Friday

Extension of contracts for several hundred Mexican National farm workers in North Eddy county has been set to begin at 8 a. m. Friday, Aug. 15, according to Carl C. Foster, manager of the New Mexico employment security commission office here.

From 8 a. m. to noon workers contracted through the Artesia Alfalfa Growers association will be processed, Foster said. Those contracted through Eddy county Farm Bureau will be re-contracted from 1 p. m. through the afternoon.

A Mexican government demand which would have raised contract rates to \$2.50 for cotton picking and \$1.75 for cotton pulling has been dropped, Foster has stated. Contracts will be extended at \$2 per hundredweight for picking and \$1.50 for pulling.

Subsistence allotment of \$1.50 per day paid by New Mexico employers of Mexican Nationals will also continue at the level, Foster declared, according to information received from M. R. Salazar, state director of the employment security commission.

In sentencing White, District Judge C. Roy Anderson said "it is distasteful to me" to commit to the state penitentiary someone of White's age.

However, Judge Anderson said, he did not believe White should go unpunished. The sentence given White is a minimum sentence, the judge observed.

Raleigh Newbill, Jr. of Hope, also 18, pleaded guilty to larceny of calves, but received a deferred sentence. Records revealed Newbill has not previously been involved with the law.

White had been before juvenile authorities several times, however. Trial of three men accused of illegal purchase of cattle is expected in the October term of district court. Men involved are Andy Roy Teel, youthful Hope rancher; E. C. Hair, Artesia businessman; and Billy Gremlin, former Artesia police officer.

Two juveniles are involved in minor accident. A minor auto accident involving two juveniles was investigated by Artesia police at 9:45 a. m. Sunday. Neither of the youths involved were injured, nor was damage severe.

Police gave this account: John F. Collins, 16, of box 371, Artesia, attempted to pass an auto driven by Melvin R. Schneider, 17, 304 W. Hank, at the intersection of Thirteenth and W. Main.

As Collins attempted to pass, Schneider swung his car into a left turn, officers reported. The two autos skidded 47 feet. Speed of both cars was reported as being 25 miles an hour.

The Collins car sustained damage to the right front fender and wheel, and was not driveable. The Schneider car was damaged in the left rear fender.

State Legion Tournery Final Game Tonight

Two and possibly three baseball games today will decide the New Mexico state American Legion Junior tournament battle which began here Sunday afternoon.

This morning at 10, Las Cruces and Las Vegas will meet. The winner of that game goes against Albuquerque in a game tonight at 7:30. Should Albuquerque lose the first contest, a second game will be played under the tournament double-elimination system.

All games are slated for Driller park. Admission is 60 cents for adults, 30 cents for children. Last night Albuquerque defeated Las Vegas 5-2. All runs were scored in a hectic sixth inning.

In a preliminary game last night, Carlsbad Little League defeated Artesia Little League All-Stars by 5-2. Artesia will play a return game at Carlsbad Saturday.

Albuquerque broke a 0-0 stalemate with its five runs in the sixth. Nelson doubled and Economides and Hoek walked. Morris was safe on a fielder's choice that put out Nelson at the plate. Roads went to first on an error, Hoek scoring on the same play. Then Brown doubled to score Morris and Roads, Patterson was walked, and Brown came in on an error.

Vegas countered in the sixth with two runs after two outs. Jim Bickle and Baca both gained first on catcher errors. Bickle scored on a single by Bob Wolf. Baca came in on an error.

Batteries for Las Vegas were Chris Trujillo, who allowed six hits for five runs, and Paul Sorenson. Albuquerque batteries were Brown, who pitched one-hit ball, and Youkum.

Earlier Monday Las Cruces loosed five runs in the second inning to knock Clovis from the tournament, 5-0.

Simplified Plan to Re-Register Cars, Trucks Outlined Here

A simplified motor vehicle re-registration plan designed to eliminate long lines and tedious waiting was outlined before Don O. Jensen, license distributor, and Artesia auto dealers Friday morning by Tony Luna, commissioner of the New Mexico motor vehicle division.

Luna told the Artesia Advocate the motor vehicle division had converted motor vehicle registration to an International Business Machines (IBM) system, eliminating costly and time-consuming hand labor.

Here is how the motorist will re-register his car next year. Distributors will receive prepared registration cards on IBM forms from the state motor vehicle office. On the card will already be punched in code all information about cars registered through that dealer in 1952.

The motorist, if he is re-registering the same car, has only to be stamped on the IBM form, sign his name, and pay his fee.

That's all. Heretofore, even re-registration forms had to be filled out in quadruplicate, and numerous questions answered every year. The long form will only be filled out by motorists who have just moved to New Mexico or by those with new cars.

Luna said re-registration of motor vehicles is 75 per cent of the motor vehicle division's registration work. The new system will not only avoid delay in re-registering by the motorist public, but will aid law enforcement officers, Luna pointed out. IBM forms will be filed in triplicate—one by name of owner, one by car engine number, and one by license number.

Artesia Man's Attempted Jail Break Foiled

An Artesia man who has several times expressed his hate of accommodations at Eddy county jail in Carlsbad Sunday evening attempted to shoot his way out, but was foiled.

Deputy Sheriff Carl Hawkins slammed a cell door in the face of Dale Edwards, who has rushed him with a loaded pistol, to quickly end possibility of a 12-man jail break.

Edwards has been confined to jail on charges of stealing 15 tires from an Artesia business firm last Dec. 31.

Hawkins was returning a prisoner about 6:30 p. m. when Edwards rushed him. The deputy quickly shoved his prisoner to the ground and slammed the door in Edwards' face.

Later Sheriff Bill High, accompanied by deputies and Carlsbad city police, found other prisoners had bundled up clothes and other belongings, evidently prepared to follow Hawkins had the break been successful.

The gun was found on a window sill in Edwards' cell. It was an old army-type revolver. Sheriff High said he "had no idea" how the weapon came into the jail. He added he would confer with Asst. Dist. Atty. Richard Robinson on the attempted jailbreak.

Edwards was taken to Eddy county jail in mid-June after he pleaded not guilty to charges of breaking and entering. He was confined to jail in lieu of \$2,000 bond set by Justice of Peace J. D. Josey in a preliminary hearing here.

City Council to Meet Wednesday in New Quarters

Artesia city council is scheduled to hold its first meeting in August Wednesday night at 7:30 p. m. in new council chambers in City Hall.

Enlarged council meeting rooms and additional space to accommodate the many visitors who have come before the group in recent months. The council will meet in former upstairs city library quarters, which have been redecorated.

The library has been moved to basement floor of City Hall. Copies to come before the council will include the first full-month report to be presented by Artesia municipal hospital's board of directors headed by George Currier and Miss Margaret Hughes, administrator.

Attention on paving some city streets, as well as repair of others also being forthcoming from this Wednesday night's council meeting.

The council is also expected to open the matter of city administration, which was discussed at July 23 meeting. Mayor J. L. Briscoe and the council at that time debated hiring of former city supervisor or city administrator.

Decision on that discussion was delayed, however, at Roberts' request. The former mayor told the council he preferred to have members think the entire matter over individually before making a final decision.

\$7,200 provision in the city budget has been made in the event Roberts is hired.

Methodist Vacation Bible School Closes With Special Ceremony

The Methodist vacation Bible school closed Friday with a program attended by parents of children who had attended the school. C. S. Powell, general superintendent, reported a total enrollment of 172 children with an average attendance of 129. Seventy-eight had perfect attendance and six others missed only one day. Ninety-nine teachers served on staff.

Rev. C. A. Clark opened the closing program with invocation. The program summarized the work in each department. Headers reporting were Mrs. O. R. Neatherlin, pre-school; Mrs. Ralph S. primary; Mrs. Owen S. junior; and Mrs. Richard S. intermediate. They introduced teachers who had worked in each department.

School—The pre-school children directed Mrs. Max Johnson, sang three songs: "I Thank God, 'Jesus Loves Me'" and "Sing a Song of Gladness." Mrs. Gable gave a summary of the work the children had done on the subject, "The World About Us."

The primary children dramatized the story, "The Thirsty Villager" under the direction of Mrs. Davis, who narrated the story. Children were dressed in Arabian costumes, representing Arabian and Moslem peoples they designed and made. The children sang three songs and were led by Mrs. Keith Dampf. Mrs. Owen Haynes gave a summary of the study the juniors had made of the subject, "Friends at Work." Mrs. H. N. Morgan led the children in a litany which stressed things that juniors could do for their church, community and country. They sang, "The Fathers Built This City."

The intermediate group sang, "Savior Like a Shepherd Lead Us," and others. Gretchen Petty gave a report on the study they had made on "Living Together in Today's World." A table which they made in their arts and crafts was presented to the primary department.

Pastor Concludes—Rev. R. L. Willingham closed the program with the benediction. After the program the exhibit of arts and crafts by all departments was viewed by the audience. Outstanding in arts and crafts was the life-size house made by the primary children as a reproduction of a house in the town of Lebanon.

They also made interesting travel cases for their trip to Lebanon in which they kept their materials day by day. Beautiful white ceramic Bibles lettered in gold were made in the intermediate department under the direction of Mrs. Del Smith.

The juniors exhibited interesting tapestries made of dark blue denim depicting Biblical characters and scenes.

State Golf Tourney Is Set For Albuquerque August 25

The 38th annual New Mexico State Golf association tournament will be played August 25 through Labor Day at the Albuquerque Country club, with Arthur Prager, general chairman, making plans for the event to be the outstanding program in the association history.

Prager estimates a field of 250 players from the 25 New Mexico golf groups that are members of the association, with an additional 300 or more to attend the social functions of the tournament as they accompany members of their family to Albuquerque for the Labor Day holiday week-end.

Officers of the association are: John McCormack, Albuquerque, president; Prager, vice president; and Ted Russo, Los Alamos, secretary and treasurer.

Sixteen-Inning Eagle Game Still Ends in 6-6 Stalemate

Sixteen innings of baseball ended in a 6-6 stalemate reached in the seventh inning in a game played between the semi-pro Artesia Eagles and the Dell City Texans Sunday.

The game at last was called because of darkness.

Kenneth Foster pitched all 16 innings for Artesia, while the Dell City team used three hurlers.

Artesia scored two in the first and four in the fourth, while Dell City netted two in the first, one in the third, and three in the seventh.

And the 6-6 tie could not be broken through nine innings more.

Coor and Copeland crossed the plate for Artesia in the first. In the fourth Raul Viton, former Driller pitcher playing second base for the Eagles Sunday, singled, came in on Cervantes' double, and was followed by Juarez and J. Cortez, who both singled and came in on a double by Foster.

Artesia Eagles are now second place in the Southwest league, semi-pro loop. A play-off game has been set for next Sunday, but time and place will not be decided until Thursday noon.

Had Artesia won Sunday's game at Dell City, the final would have been played here next Sunday.

Carlsbad Takes Option to Buy Longhorn Club

Carlsbad baseball interests took an option to purchase a Longhorn baseball club—probably the Vernon Dusters—this week-end and immediately scheduled two meetings to start a financial drive.

C. F. Montgomery, tentative head of the drive to organize professional baseball in Carlsbad, said a tentative option had been secured on "a Longhorn league baseball club" its equipment, and players.

Name of the team was not revealed in publicity released Sunday, but the team had been designated as the Vernon Dusters in

an earlier news story.

Fund raisers organized a three-men teams will try to collect \$60,000 in Carlsbad for purchase and operation of the baseball club. A kick-off breakfast has been scheduled for Tuesday, and a meeting at 7:30 Friday in the county courthouse.

Hal Sayles, Longhorn league president, said a representative of his office will probably attend a mass meeting.

Carlsbad interests will seek to build a ball park meeting specifications of the Longhorn loop. Montgomery said the park and ball club will be owned by Carlsbad Baseball association, of which Montgomery is temporary president.

The association will be organized on an incorporation basis. Montgomery stated. All funds designated will be held in escrow until enough is secured to assure purchase and operation of the club.

Vernon is the farthest east town in the Longhorn league, and purchase by Carlsbad will considerably shorten travelling distances as well as promote a beneficial three-way rivalry in the Pecos valley among Carlsbad, Artesia, and Roswell.

Sweetwater Turns Tables to Down Drillers By 8-4

Artesia was able to master only four unearned runs—three on walks and one on a hit batter, against Sweetwater's eight runs in the final game of a homestand Sunday night.

Sweetwater boomed to a four-run start in the first inning Sunday night, and added three more in the second to weave a safe lead. The Braves added another in the seventh to wrap up the game.

Artesia scored three in the third and one in the ninth.

Cortez singled to start the first inning Brave drive. Buck followed with another safety. Silter gained first on an error, and Bernal doubled to score three, later coming in on Finley's single.

In the second Cortez gained first on a fielder's choice, and was followed by Hughes and Buck on a pair of singles. The last two came in on Silter's single.

John Alonzo, Paul Halter, and Joe Bauman were all walked by Solis in the third, and Rodriguez was sent in with the bases loaded. Bill Haley, Jim Ackers, and Wally

GI Bill Provides Full Compensation

Editor's Note: This is the first of four articles on the new GI Bill for veterans who served in the Armed Forces any place in the world since the start of the Korean conflict on June 27.

The new GI Bill's unemployment compensation program, administered through the states by the U. S. department of labor, provides post-Korean veterans with payments of \$26 a week, a total of 26 weeks. The top that any veteran can get, is \$676.

The unemployment program effect 90 days from the date it was signed. It has been with the new law's muster program in the following

veteran entitled to \$100 must not get unemployment compensation until 30 days discharge or 90 days from the date the bill was signed—the effective date of the program—which is later. A veteran who gets mustering-out pay has to wait 60 days after discharge or 90 days after the bill is signed, one who receives \$300 must wait 90 days after discharge days after the bill is signed, ever comes later.

Eligibility requirements for three categories—education and training, and unemployment compensation—include (1) a discharge conditions other than dishonorable; (2) active service any time after June 27, 1950, and (3) 90 days' total service, undischarged sooner for a re-connected disability.

Mustering-out payments, provided for in the law, will be at time of discharge to anyone served in the rank of captain or less in the Army or Air Force, or lieutenant senior grade or less in the Navy. The veteran must have an honorable discharge.

Payments are \$300 for those at least 60 days' service who were on active duty outside the continental limits of the United States; \$200 for those with 60 or more service who were not in the USA or Alaska, and for those who spent less than 60 days on active duty.

Veterans eligible for \$300 will get \$100 upon discharge; \$100 a month later, and \$100 a month later. Those who are to receive \$200 will get \$100 at discharge and the remainder a month later. And veterans eligible for \$100 will get it all upon discharge.

Korean veterans discharged under the new GI Bill became law may receive mustering-out pay. To obtain the money, they must apply to their branch of service within two years from the date the bill was signed—July 16, 1952, for the mustering-out program, and to that in effect after the War II, will be administered by the Armed Forces and the

The new GI Bill extends job-finding assistance to veterans with service after the start of Korean hostilities, on the same basis as for veterans of World War II. The help includes job counseling and employment placement services of the Veterans Employment Service, a part of the U. S. Employment Service.

Discharge Paper Must Accompany Vet Application

Applications to the Armed Forces for mustering-out pay due veterans for active service since June 27, 1950, must be accompanied by original discharge certificates.

Veterans are urged by local VA officials to have photostatic copies made of their original certificates before parting with them, even though temporarily. Also, discharges can be recorded free of

Stock Auctions In West Gross Billion Dollars

Livestock auction markets in the West have sprung from almost nothing 25 years ago to a place of major importance in livestock marketing. In 1951, about 460 auctions in the West handled a gross sales of about a billion dollars.

This trend is reported in the first of three new bulletins, all to be published as "Trade in Western Livestock at Auctions," by agricultural economist of New Mexico, 11 other western states, and the USDA. In New Mexico, H. B. Pingrey and W. P. Stephens of the agricultural experiment station, are conducting the livestock marketing research on which the bulletins are based.

The first bulletin covers the subjects of auction development, importance, and operations. It points out that smaller auctions are located in the Pacific Coast area, while larger auctions are in the Great Plains. Cattle and calves account for most of the gross value handled in the auctions. Local farmers, ranchers, and feeders are the major consigners and buyers.

The bulletin suggests several possible improvements for livestock auctions, such as revised bonding requirements, sales by weight instead of head, sales of graded lots of livestock, enforcement of sanitary regulations, and increased market news reporting at auctions.

charge with county clerks. Once recorded, certified copies may be secured as needed.

This information is of special interest to veterans considering early enrollment in training under the Veterans Readjustment Assistance Act of 1952, sometimes referred to as the Korean GI Bill. Applications for training under this bill will be available at VA offices on or about August 20, 1952. A certified or photostatic copy of the veteran's discharge must be submitted to the VA when the application for training is filed.

YOUR Wheel of Fate?

Let's go on a picnic—let's go to the shore, to the mountains—to Aunt Susie's. Let's go!

But let's stop, look and listen first! Of the 35,000 fatalities on the highways in 1950, 14,310, or over four in every ten, were killed on Saturdays and Sundays. 644,200 more were injured or maimed for life. Last year the toll was even higher.

When you start out for a family week-end of fun, the Wheel of Fate is right between your hands! One slight swing of that wheel can pull you over the line and into the danger zone of oncoming traffic—into tragedy and death.

Hurry-up week-end and holiday driving, riding bumper-to-bumper at hazardous speeds, leaves no leeway for split-second action. The wheel may be only a dead stick in your hands. You've seen pile-ups on the highway—three, five, seven or eight cars telescoped into junk when a car ahead blew a tire and the wheel went out of control. And you've thanked your lucky stars your family was safe—that time!

So when you and Mom and Jack and Mary go week-ending on the highways, respect that Wheel of Fate in your hands. Use it to guide your family home—alive!

Shortage of Lime Cuts Alfalfa Yield

Liming Acid Soils Is Must for Good Legumes

If your alfalfa fields show yellow streaks where growth is sparse and puny, the cause is probably a shortage of lime in the soil.

The light, bare streaks on the alfalfa field near Evansville, Wisconsin, shown in the above photograph, were due to soil acidity that had not been corrected by liming. The spreader truck had lapped too wide when the field was being limed and some areas didn't get any.

The thick alfalfa growth came from parts of the field that were limed.

Agronomists emphasize that liming acid soils is a "must" if you want to get efficient results from the fertilizer you add. Acid won't produce good legume yields, they say, even if plenty of fertilizer is used. They point out that the entire alfalfa field was fertilized with 400 pounds per acre of 0-20-20.

Note the thick and light alfalfa growth in the above picture caused by uneven application of lime.

Liming helped the fertilizer increase alfalfa hay yields 4 1/2 times and the protein yields by 5 1/2 times. Hay yields on the limed soil averaged 8,100 pounds per acre, compared with 1,400 pounds on the acid soil. Alfalfa hay from the limed soil had a 14.5 per cent protein content, with a total yield of 886 pounds per acre; from the unlimed soil the hay had an 11.5 per cent protein content, with a total protein yield of 161 pounds per acre.

Rev. Roland Brown, Noted Churchman, to Preach Here

Artesians will have an opportunity to hear Rev. Roland J. Brown, one of America's outstanding churchmen, in community-wide services Aug. 16 and 17.

REV. ROLAND BROWN

He will visit Artesia for worship services and conferences with Pecos Valley pastors.

He will give a general lecture at First Christian church, Sixth and Quay, at 7:30 Saturday evening.

On Sunday morning he will address First Presbyterian congregation at 10 a. m., and will return to the First Christian church for morning worship at 10:50. He will also conduct an afternoon service at 2:30, and an evening service at 7:30.

To Meet Pastors—

He will confer with Roswell, Carlsbad, and Artesia pastors at 2:30 Saturday afternoon at the First Christian church.

Rev. Brown was for 15 years pastor of Parkside Baptist church of Chicago with an outstanding record of progress and service. He is noted especially in the field of prayer.

He has recently spent seven months in England on an evangelistic tour throughout the United Kingdom under the auspices of the Movement for World Evangelization, London. Among noted churchmen welcoming him and assisting with his program were the Bishop of Worcester and of Barking.

The Bishop of Worcester writes of pastor Brown, "We discovered the secrets of God's blessing on his ministry. He is a man of God and a man of prayer." The Bishop of Barking said, "One cannot listen to Mr. Brown or be in his company for a few minutes without realizing that he is most truly a 'man of God'. The atmosphere of the presence of God is about him, giving him calmness and peace. He is a living proof of the truth of the words of Isaiah—"In quietness and confidence shall be your strength."

He preached and lectured in both sate and free churches, include the great Brunswick Methodist church in Newcastle, where the Rev. Leslie Newman regularly preaches to 1200 people. Reverend Newman writes of him as one "having the qualities of a saint." Others said, "He is that rare visitor to these shores, a humble American."

Dr. Thomas Cochrane, one of his sponsors in the United Kingdom wrote, "The most frequent words that fall from his lips are love and prayer."

During his visit to England he spoke at Oxford, Canterbury Cathedral, Parliament and at Westminster chapel. The reports of his work from month to month in his letters requesting prayer from his many hundreds of friends, sounded like new chapters to the Acts.

Reverend Brown with his wife, Marcia, are two of the main leaders in the Camp Farthest Out being held at the Scott Able 4-H camp in the Sacramentos, Aug. 8-15.

How much assistance the rain will be to cotton and alfalfa growers could not be immediately known early Monday, but it is generally believed that a much greater rain is needed.

Artesia Youth Returns to U.S. On Plane Carrier

After spending seven months in the Far East operating with units of the UN naval forces, the aircraft carrier USS Philippine Sea has returned to the United States. Serving aboard her is Glenn I. Exum, fire control technician seaman, USN son of Mr. and Mrs. J. I. Exum, and husband of the former Miss Bobbie J. Roberts of 705 Mann avenue, all of Artesia. During her time in the Far East the Philippine Sea sent her Panther jets, Skyraider attack bombers and Corsair Fighter bombers on daily strikes against Communist supply and communication lines.

In addition to the "line-cutting" and "rail-splitting" missions, the

pilots concentrated on gun emplacements, troops, supply areas, factories and warehouses, destroying anything of possible use to the enemy.

As a parting shot at the Com-mies, planes from the Philippine Sea, and three sister carriers hit the strategic hydro-electric plants along the Yalu river and throughout North Korea. With Navy, Marine, and Air Force jets flying cover, Philippine Sea planes delivered a stunning blow at the Red's power systems.

The Philippine Sea is the first of the four carriers that made the strike, to return to the states.

Farmers Face Call for Higher Food Production

In the next four or five years, the farmers of the nation could produce about 20 per cent more than they did in 1950 and 18 per cent more than in 1951, if there is need for such a volume of farm output and provided that steps necessary to assure it are taken.

This information was contained in a report on a U. S. department

of agriculture study to estimate agriculture's capacity to produce under conditions of need for large increases in farm output. Data in the report also will be used in laying the groundwork for future production goals programs.

The report indicates that most of the increases in production could best be obtained through adoption of improved farming practices and greater use of fertilizer and machinery, while labor requirements and acres of cropland would remain about 1951 levels.

Nationally, the projected increase is based on estimates that farmers could increase hog output 12 per cent above that of 1951, cattle and

calves 14 per cent, milk 12 per cent, commercial broilers (chickens) 30 per cent, eggs 12 per cent, corn 21 per cent, wheat 40 per cent, rice 18 per cent, cotton 11 per cent, soybeans 14 per cent, tobacco 11 per cent, and potatoes 24 per cent.

Results of this study, which take account of recent research and testing, indicate that the South has the greatest possibility for increasing production, percentage-wise, with the North Central, Mountain, Northeast, and Pacific regions following in that order.

More than half of the increased production in every region (and 58 per cent for the nation as a

whole) could come from feed and livestock. The rest of the increase might come largely from grains, fruits, vegetables, and cotton.

The report, "Agriculture's Capacity to Produce" can be obtained from the Office of Information, S. Department of Agriculture, Washington 25, D. C.
