## Sears-Perry Marriage Is Announced

The marriage of Miss Shirley Mae Sears and Jerry David Perry was announced Thursday evening at a party and gift shower complimenting the bride, Mrs. L. O. Albright and Mrs. George Browder of Carlsbad were hostesses at the home of Mrs. Browder.

The bride is the daughter of Mr. and Mrs. John Bryan Sears of Carlsbad and the bridegroom's parents are Mr. and Mrs. Elmer M. Perry of Artesia.

Scrolls tied with colored ribbons were distributed to guests announcing the marriage, which was solemnized at 9 p. m., Nov. 10 in the Congregational Church of Albuquerque. Officiant was the Rev. Parr, pastor of the church.

The bride's parents will honor the couple at a reception at the Sears home Thanksgiving Day. The newlyweds will leave Friday to make their home in Albuquerque, while Mr. Perry attends the University of New Mexico.

Included among the guests at the announcement party were the mother of the bride and also the bridegroom's mother from Artesia and the bride's aunts, Mrs. Ross Sears and Mrs. Burl Sears of Artesia.

# Crucens End Artesia Year By 32-6 Win

## Hard-Hitting Crucens Sweep Artesia Backs

**GAME IN BRIEF**

Las Cruces	
First downs	9
Yards gained rushing	275
Yards lost rushing	6
Net yards rushing	269
Passes attempted	13
Passes intercepted	5
Fumbles	2
Recovery opp. fumbles	2
Penalties	9/85

Las Cruces earned sweet revenge over the Artesia Bulldogs in winning a 32-6 win Friday night at Las Cruces in a game which drew the curtain on one of the most tumultuous Artesia football seasons in recent years.

Las Cruces, sensing its power lay in the game, unleashed the most blocking thrown against Artesia this year, turned out a spectacular offensive game keyed by the rough, driving play of Rudy Estrada, and completely dominated the ball game.

Artesia which lost its first game backfield by the end of the first half, was unable to muster power enough to stop Las Cruces, let alone mount a retaliating offensive.

Nearly all of Las Cruces' five touchdowns were on plays from 30 yards out from the double line.

This was the Las Cruces touch-down string:

—with 4 minutes 20 seconds left, Rudy Estrada, 190-pound center, drove into the striped zone to the 30-yard line after Artesia's return of the opening kick-off on its own 26, was kicked the 40, and returned to the Artesia 42 Skipper Duke plunged to the 28, Jerry Apodaca to the 30, Estrada went over, kick-coming for the extra point.

—Eight minutes into the second quarter Las Cruces recovered Artesia fumble on the Cruces 40, where Estrada seized the leather, running 60 yards to the 20 conversion kicks by the string back failed.

—With 1 minute of the half left, Apodaca intercepted a Johnny Riddle pass on the Las Cruces 13, turned it to the 20, Estrada ran the 22, Duke to the 24, Lawrence Lopez to the 32, Estrada to the 44, where Lopez completed a pass to Jack Glover for another Estrada's kick conversion and the conversion given by a penalty were no good.

—With 1 minute of the second half gone, Las Cruces reeled the ball on its 50, sent it to the 45, had a completed pass from Lopez to Glover nullified by a penalty, then sent Apodaca down the right side of the field to score on a 45-yard run. Estrada's kick was good.

—With 9 minutes of the third quarter elapsed, Cruces scored on a play which began with a pass interception by Apodaca on the Cruces 40. On the next play Artesia recovered a fumble (Larry Riddle), but a play later a pass intercepted by Rufus Singley to the 20, returned to the 29, R. L. Singleton went to the 35, Estrada to the 41, Apodaca to the 46, Apodaca to the 42 on a pass, to the 34 drive play, to the 32, where he took over to the 24 in two plays, and Duke to the 22.

—Lopez completed a pass to Hank Steele in the end zone. The conversion was not good.

—With 4 1/2 minutes left in the game, Johnny Riddle completed a pass from the 45, to Bill Brown in the end zone. The play after Doug Whitefield reeled a Cruces punt from the 20 to the 33, with Riddle abandoning the air two plays later, to carry to the 45 before losing the scoring to Brown.

—Tumpy Barker sustained a heavy bruise in the game, Doug

## Sports Editor Urges High School Athletes To Attend State's Universities, Colleges

Selling the idea of attending New Mexico's universities and colleges to graduating high school athletes is urged by J. D. Kailer, sports editor of the Albuquerque Journal in his column, "The Scoreboard."

In making his point, Kailer also submits a list of outstanding gridsters among the prep schools, and as reported in Friday's Advocate, chose three Artesians among them.

This is the text of Kailer's column:

In the fall of 1950, The Journal sports staff advocated a strong "sell the states athletes on the state university" policy for New Mexico. UNM's athletic department, then under the direction of Bert Huffman, recognized the bumper crop of prep stalwarts that year and awarded numerous scholarships. To say that the move paid handsome dividends is putting it mildly. A simply carbons the plan of universities in Oklahoma, Texas, California and others.

Defense—the backbone of the Lobos' 1952 success—has involved many of those high

schools seniors. From Hobbs comes Larry White and Dick Lauderdale; from Carlsbad is Don Jaeger; Artesia presented Bob Morgan and a versatile back in A. L. Terpening; Albuquerque donated Marlin Pound (AHS) and Jay Crampton (Highland).

Last autumn, the prep crop fell below the high standard of 1950. And of the All-State first team, only Artesia's Jim Juares landed on the campus. Athletic scholarships were taboo according to Skyline regulations, being awarded on an academic basis. Because of this deficit, UNM must now rely on junior college transfers from such schools as LaSalle-Peru, Ill.—home of boys like Don Papi, Bill Kaiser, Bill Rettko, Pete Nolasco and Horace Morris. If this Midwestern institution will come through again, the situation may assume a rosy complexion.

Back to the state high school situation. This fall, members of The Journal sports staff believe they have seen enough stalwarts in action to honestly say that 1952 equals 1950. The list does not include seniors from Carlsbad or Clovis—a pair of fine eleveners—because the scribes never watched the clubs.

At ends, Las Cruces' Jack Glover and Artesia's Bill Brown get the nod; Hobbs—Ken Morrison and Tom Pruett—tackles hold sway in these posts; Highland's Teddy Rhodes tops a good crop of guards; Albuquerque's Mike Schlik takes center. The backfield presents a man-sized headcase. Las Cruces' Larry Lopez or Artesia's Yumpy Baker, quarterback; Farmington's Ralph Boan and Bill Keys, Hobbs' Dave Murrell and Don Spoonmore, Santa Fe's Joe Chavez, Al

buquerque's Jack Brown, Highland's Tom McDonald, halves; Artesia's Larry Beadle, Las Cruces' Rudy Estrada, Farmington's Clark Manwarren and Highland's Rusty Schaffer, fullback; Glover and Boan are juniors, the rest graduate in June.

The ex-lettermen from the University have already stated that they'll make every effort to get the majority of the above names registered next fall. The Boosters, unwilling to be left in the cold, will meet shortly to adopt leaf measures.

To refresh memories, the operation goes something like this: Albuquerque boosters or lettermen contact high school coaches;

the mentors in turn visit with UNM alumni in the particular city; prospects are "encouraged" to consider the State U. We haven't entered into the more intricate plans of school winning and dining prep stars by chance visits of a boy to a campus. This is illegal according to the de-emphasis. The agreements between alumni and prepsters are not covered in the Presidents' Code, however.

But before this pattern is followed, this writer believes it would be well to bring out a legal and honest weapon often relegated to the mothballs. That is state loyalty.

Here in Albuquerque, it is our honest opinion that we have two boys who are outstanding college prospects—McDonald and Rhodes of Highland. McDonald is state scoring leader with 133 points; Rhodes is an all-around fine guard.

Reports have reached our ears

that this pair has been tendered offers from Baylor, TCU, Oklahoma and UCLA. There probably are others.

Before they cast their lot with any of the above institutions, may we inject some advice. If you are like 95 per cent of other college graduates from this state, you will settle down in this state. Possibly you will assume the business responsibilities of your father. In plain words, if you're a young man seeking a state offering one a future, consider New Mexico. It has a lot to offer. Census reports bear out our point.

UNM may be unable to offer you anything comparable to other big schools save an earnest welcome and a sound education. But to us, these gifts are important.

If you lived in heavily populated states like Illinois, Texas, Pennsylvania or California, no one could begrudge your desire to look elsewhere. You'd simply be a little minnow in a big pool here in New Mexico, however, every fish counts.

We've lived in New Mexico but five years and already folks term us life-long residents. We've learned to like the people, the climate (yes, even dust storms)

and the State University. Surely, if we have been "won over" in this time, you must have a far greater loyalty.

Consider that welcome mat, the future long and wisely. We speak for President Tom Popejoy, Coaches Dud DeGroot, Willis

Barnes, George Petrol and Athletic Director Ribs Baysinger when we say that the Lobos will be glad to have you and all the gifted boys from Hobbs, Artesia, Roswell, Las Cruces, Farmington, Santa Fe and Carlsbad, plus many more. This is no under-the-table deal.

*If you've never invested because you didn't know*  
**WHAT?**

You see sense in investing surplus dollars. You've seen others invest and enjoy good income from their investments, but you've stayed away because you didn't know Wall Street... you didn't know what to select for your investment dollars. That's just one reason why so many people have turned to Mutual Funds. Professional investment managers spread your investment over a great number of carefully chosen securities. They do the continuous watching. You get four checks in varying amounts every year.

Yep, young fellow, that's the story. Everything you need has gone up in cost because of inflation. Milk, baby food, even those three-cornered "slacks" you're wearing.

# Crucens End Artesia Year By 32-6 Win

## Hard-Hitting Crucens Sweep Artesia Backs

GAME IN BRIEF

Las Cruces	9
Artesia	6
First downs	9
Yards gained rushing	275
Yards lost rushing	6
Net yards rushing	269
Passes attempted	13
Passes intercepted	5
Fumbles	2
Recovery opp. fumbles	2
Penalties	9/35

Las Cruces earned sweet revenge over the Artesia Bulldogs in winning a 32-6 win Friday night at Las Cruces in a game that drew the curtain on one of the most tumultuous Artesia football seasons in recent years.

Las Cruces, sensing its power in the game, unleashed the best blocking turned out to be a spectacular offensive game keyed by the rough, driving play of Rudy Estrada, and completely dominated the ball game.

Artesia which lost its first string backfield by the end of the first half, was unable to muster power enough to stop the Las Cruces, let alone mount a retaliating offensive.

Nearly all of Las Cruces' five touchdowns were on plays from 30-40 yards out from the double line.

This was the Las Cruces touch-down string:

—with 4 minutes 20 seconds left, Rudy Estrada, 190-pounder, drove into the striped zone on the 30-yard line after Artesia's return of the opening kick-off on its own 26, was kicked the 40, and returned to the 42. Skipper Duke plunged to the 39, Jerry Apodaca to the 30, Estrada went over, kick-converting for the extra point.

—Eight minutes into the second quarter Las Cruces recovered Artesia fumble on the Cruces' 40, set on downs on the 70, held Artesia to eight yards in three plays, watched the kick roll out the 32, and in two plays and Apodaca went to the 40, where Estrada seized the leather, running 60 yards to the 20 conversion kicks by the 40 yard line failed.

—With 1 minute of the half left, Apodaca intercepted a Johnny Riddle pass on the Las Cruces 13, carried it to the 20. Estrada ran the 22, Duke to the 24, Lawrence Loper to the 32, Estrada to the 44, where Lopez completed a 40-yard pass to Jack Glover for another 40-yard conversion given by a penalty no good.

—With 1 minute of the second half gone, Las Cruces recovered the ball on its 50, sent it to the 45, had a completed pass from Lopez to Glover nullified by a penalty, then sent Apodaca down the right side of the field to score on a 45-yard run. Estrada's kick was good.

—With 9 minutes of the third quarter elapsed, Cruces scored on a drive which began with a pass interception by Apodaca on the 40. On the next play Artesia recovered a fumble (Larry Riddle), but a play later a pass was intercepted by Rufus Single on the 20, returned to the 29. R. L. Lighton went to the 35, Estrada to the 41, Apodaca to the 46, Apodaca to the 42 on a pass, to the 34 on a drive play, to the 32, where he took over to the 24 in two plays and Duke to the 22.

—Lopez completed a pass to Jack Steele in the end zone. The conversion was not good.

—With 4 1/2 minutes left in the game, Johnny Riddle completed a 40-yard pass from the 45, to Bill Lighton in the end zone. The play after Doug Whitefield returned a Cruces punt from the 20 to the 33, with Riddle abandoning his fair two plays later, to carry to the 45 before losing the scoring drive to Brown.

—Tumpy Barker sustained a bloody bruise in the game, Doug

## League of Women Voters

MOST OF US are about agreed we have too many organizations now to give the attention and time they need but there are always good groups which need to be formed and to be active in our community.

The League of Women Voters in our opinion is such an organization.

There are some nine cities in New Mexico with such organizations.

These include Albuquerque, Los Alamos, Las Vegas, Las Cruces, Santa Fe, Socorro, Farmington, Silver City, and Tucumcari.

The membership in the state has grown to 464 with it hoped other groups will be formed.

The League of Women Voters is a non-partisan organization. They do not endorse candidates or participate in politics.

One of their big objects is to alert the citizens to the fact that politics is his job. They seek to show the citizen how he can be effective in that job, and they help the citizen to work for better government.

In one city in the state prior to the last campaign they secured the facts and data about the candidates in the races and made it possible for the newspaper in that community to publish these facts.

They make studies of various forms of government and programs for better government and when possible issue pamphlets and information on these movements.

They secure information about governmental projects and seek to distribute this information to the citizen, the taxpayers and the voters.

They urge citizens to become familiar with their forms of government and to keep informed on the activities of these governmental bodies.

Some 39 states in the union now have organizations of the Women's League of Voters and the national membership has grown from 93,000 to 104,000 in the past two years.

We believe there is a place for such a group in Artesia and we believe that such an organization could aid and assist here in encouraging the citizens to take more interest in their government.

Full information regarding the organization as well as assistance in forming a unit of the League of Women Voters, we feel sure, could be secured from any of the groups in New Mexico.

## It Should Be Done

THE MAJORITY of the states of the Union have state laws, which require that all governing bodies handling public funds must make an accounting of those funds.

Some of the states have laws which require publication of proposed budgets of the city, schools, and the county for a period of 30 days prior to their adoption.

That law makes it possible for the public to know by reading their paper what kind of a budget their governing bodies propose to adopt. If they have any objections they can make that protest at the meeting when the budget is to be adopted.

In addition to this the law makes the governing body give an accounting of their expenditures by publishing an abbreviated account of their meetings and their expenditures each month.

New Mexico does not have any such law. It does have a law which provides for governing bodies to submit to the press by the tenth of the month following the meeting a summary of the minutes of the meeting. That law, however, is not followed, observed, or enforced by any of the governing bodies in this county and for the most part over the state.

The minute the newspapers start clamoring for those handling public funds to make an accounting of that and publish it when they are accused of seeking legal business. It is charged their only interest is publishing the minutes and the expenditures to make money.

That, of course, isn't true because a good many newspapers do this free today or publish all such information they can secure in order to help the public be posted at no cost.

But publishing the accounting of funds is a protection to those handling the funds. It not only prevents any rumors from circulating but places them in a position to say to the taxpayers—we advised you what we proposed to do with your money and how we did it.

If the money spent for publishing this information wasn't a good investment there would not be as many states requiring this to be done. And one of the ways to keep the public informed is to provide such a law to give this accounting to the public.

It would be well for New Mexico to follow the example of other states.

## Needs Legislation

EVERY TWO YEARS when the time approaches for the state legislature to convene we are always hoping they will find time and a willingness to amend the present state law requiring operators of vehicles to purchase public liability insurance.

The state law in theory requires that now but there are no teeth in the law, so we are told, and as a result the law does not provide the protection it should.

We realize and appreciate the fact that insurance costs money. But we also realize that accidents cost money and often times someone in an old and worn out car can be responsible for a serious wreck and yet the driver and occupants of the other car have no protection unless they have purchased it.

Perhaps sooner or later our law will be amended to require that if we operate a motor vehicle on public highways we have insurance for the protection of those we may cause injury or damage.

If we are able to buy and operate the motor vehicle then we believe we also should be able to protect those we may be responsible for injuring.

## Christian Science Lecture Slated For Next Sunday

The power of God to heal will be the topic of a public lecture on Christian Science by Ralph Castle of San Francisco, announced for next Sunday afternoon by Christian Science Society of Artesia.

Mr. Castle, a member of the Christian Science Board of Lecturers, will speak in Senior high school auditorium, 1066 W. Richardson street, at 2:30 p. m., according to the members of the local church group. They have invited the general public to attend without charge. Mr. Castle's subject will be "Proving the Truth of Christian Science in Human Affairs."

## Miss Pearson to Visit Lake Arthur

For many years a newspaperman, Mr. Castle held various editorial positions and also served as Pacific Coast advertising manager of The Christian Science Monitor before resigning to enter the public practice of Christian Science in 1924. During World War II he served as a Christian Science wartime minister at military bases in California.

## Growers Asked to Notify County on Hay Drought Loan

State agriculture mobilization committee has discussed the feed situation and possible inclusion of New Mexico under the drought emergency hay program. The committee has advised the Eddy county agriculture mobilization committee that it does not have sufficient information to justify any action to include the entire state in such an area and that it would be up to the individual county committees to make the necessary recommendation if such a program is to be inaugurated in New Mexico, according to Norman Stiver, administrative officer, PMA Eddy committee.

Through the hay supply operation the department of agriculture makes hay available to eligible farmers and ranchers in disaster areas at a price established by the department that will enable the farmers to avoid liquidation of their dairy and basic beef cattle herds and their basic sheep flocks. Maintaining these herds is necessary as a foundation for the continued production of meat and dairy supplies for the consumer.

Plans for continued operation of the emergency hay program under the increased maximum of 8 million dollars were announced Oct. 14, 1925. If an area is included the following types of feed would be made available at the closest railroad point to the county.

Type	Price per Ton	Railroad Siding
Legume Hay	\$36	
Mixed hay 60% legume hay	\$32	
Grass Hay	\$28	

Ranchers would place orders with their local PMA county committee and deposit \$5 per ton. Orders would be accumulated and shipments made by rail to the local county.

The program is carried out in accordance with the President's

### COFFEE TALK—

## Was Las Cruces Better Than Artesia, Or Had We Just Lost Heart?

WHAT HAPPENED AT THE Las Cruces game? Were they better than Artesia, was Artesia "off," or was it a combination?

Those are things hard to answer in a news story, but much easier to mull over a cup of coffee.

Robert Green, sports editor up at the Record in Roswell, puts those questions about the Artesia season from Clovis on to the finish. The club, he observes, had after a brilliant early-season performance, become strictly mediocre.

While Artesia fans won't stand for that, perhaps, they will agree that Las Cruces hit our Bulldogs harder than they had been hit by any other team this season.

Las Cruces played a superb blocking game, and when Rudy Estrada got that ball, no one could stop him—or not until he'd done plenty of damage. Cruces players hit the Artesia Bulldogs mighty hard—knocked out an already crippled backfield by the end of the first half. Las Cruces, as far as we could tell from the press box, played clean but might rough football.

Las Cruces, after a light season, was in mighty good shape. Artesia was crippled after a mighty tough

things in his own hands is solving nothing.

ARTESIA POLICE, INCIDENTALLY, have been cooperating with Roswell and Carlsbad authorities in attempting to trace purchasers of strychnine at local drug stores. Both Roswell and Carlsbad, the latter especially, have had "epidemics" of dog poisoning for several months. Police are attempting to find the poisoners by checking purchasers through the drug stores. Here's good luck to them.

THERE'S NOTHING TO PIN down to print in a news story as yet, but there is being organized in town a corporation which would build small homes here with a down payment of around \$250, total cost being between \$4,500 and \$4,700. The houses will not be cracker boxes, according to the talk, but will be units an owner will be proud to claim.

HOW IS BUSINESS IN ARTESIA? Over the coffee cups the general impression is that it is slower now than a year ago, and reliable reports on many businesses do indicate that. On the other hand, a number of firms report increased volume, and one established firm in town reports a 25 per cent increase over last year's volume. Overall impact of falling cattle and cotton prices, however, indicates a reduction. tabine

### Eastern Star Plans Special Program Tonight

A regular meeting of the Order of Eastern Star will be held Tuesday night at 7:30 p. m. at the Masonic Temple.

A special program honoring all those who have affiliated with the Artesia chapter this year will be presented. Mrs. Earl Darst, associate matron, and all 1952 substitute officers will take part.

The regular officers will take charge during the initiation of Mr. and Mrs. W. F. Hinde.

Mrs. T. C. Williams, worthy matron, extends an invitation to all those Eastern Stars who have affiliated this year, regular members, and other Eastern Stars from visiting chapters, to attend this meeting.

All members have been asked to bring canned foods so that the chapter may present one or more Thanksgiving baskets to a local family.

Light refreshments will be served in the banquet room following the meeting. Mrs. H. R. Paton is in charge of this committee.

### Decisions Are—

(Continued from Page One) by a county, the judge declared, adding "this is an open question in New Mexico."

Notice of Appeal—

D. D. Archer, attorney for signers of the first petition, gave notice then of filing a Supreme Court appeal from this decision.

Scheduled first today in the case

of "Emery Carper et al, appellees, vs. Eddy County Board of County Commissioners, appellants." Representing Mr. Carper, Glenn Colard, and G. Rex Holmes, signers of the second petition, will be Artesia attorneys Neil Watson, Don aid Bush, and W. M. Siegenthaler.

In the second case, that of Hugh Kiddy et al, appellants vs. Eddy County Board of Commissioners, appellees, the appellants will be represented by Artesia attorneys D. D. Archer, Paul R. Dillard, and Milford Estill.

Dist. Atty. Reese will represent the county in both hearings.

The first petition has been filed with the county early last March after members of the International Union of Mine, Mill and Smelter workers of Carlsbad proposed a \$1 million, 100-bed county hospital.

Artesia forces joined with the union to present the first petition which contained the controversial "purchase" clause.

Omits Purchase— The second petition repeated wording of the first but omitted the purchase clause.

The third petition, originated in the offices of the Carlsbad Current-Argus, included the \$200,000 hospital for Lovington.

The fourth petition, filed by the Mine-Mill union, asked for the \$1 million, 100-bed Carlsbad hospital only.

Judge Anderson in March issued a writ of mandamus calling for county commissioners to call a county hospital bond election by April 2 or appear in court to show why they had not done so.

Notices of intent to file Supreme Court appeals was given in the April 2 hearing by the two parties after the county commis-

sion failed to call the bond election.

### C of C Girds—

(Continued from Page One) home Christmas decoration contest be sponsored by the chamber was made by Mrs. T. C. Williams. Shortage of funds will not permit chamber-awarded prizes, but the organization might act as a coordinating agency for the decorating contest, Carper pointed out.

W. M. Siegenthaler urged a revival of community goodwill meetings to nearby centers, such as Atoka.

"We have neighbors to the north and to the south of us," Siegenthaler declared, "who are mighty

interested in Artesia trade territory."

### Robert E. Wood Back in Austria After Maneuvers

PFC. Robert E. Wood, son of Mr. and Mrs. Eugene E. Wood, Route 1, Artesia, has returned to his home station in Austria after 10 days in the field during "Exercise Frosty," a recent Army maneuver.

Conducted in the Salzkammergut mountains of Austria, the exercise was designed to train U. S.

Army units in the actual terrain they are guarding.

American soldiers took the roles of both aggressor and defending forces.

Rain, sleet and snow fell intermittently throughout the 10-day period, adding to the realism of the maneuver.

Observers at the operation included Fred Korth, assistant Secretary of the Army for manpower and reserve forces, and Lt. Gen. Charles L. Bolto, commanding general of the U. S. Seventh Army.

A radio operator and jeep driver in Battery A of the 510th Field Artillery Battalion, Wood entered the Army in May 1951 and arrived in Austria the following October.

### Police Arrest 16 Braceros for Shoplifting

Ten persons were arrested for gambling, 16 for shoplifting, and 10 for drunkenness, over the weekend in Artesia, police reported on Monday morning.

The 16 arrested for shoplifting, all braceros, were later faced with reduced charges of vagrancy. Most of the shoplifters were observed taking store merchandise by store personnel, who called police to make arrest after the merchandise was removed from the store.
