## Congress Members Make Inventory Of Federal Land

WASHINGTON (AP)—Members of Congress from the West, concerned over Uncle Sam's increasing land holdings, are studying a new inventory of federal real estate. The inventory, completed last year by the General Services Administration, shows the federal government owns about 408 million acres of land. An additional 50 million acres is being held in trust for Indians.

Westerners are particularly interested in an estimate that the federal government is using 17,900,000 acres of land for military purposes.

Federal acquisition of lands for military use was the subject of hearings in January and this month before the House Interior Committee.

The hearings were called by Rep. Engle (D-Calif.), committee chairman, at the request of Rep. Young (R-Nev.), to get information on a move to acquire an additional eight million acres of land for military use.

### Simms Proclaims Engineers' Week

SANTA FE (Special)—If New Mexico's skies this week are filled with supersonic airplanes and guided missiles, if robots walk the streets and electronic "brains" come up with solutions to problems rising from atomic fallout or the State's water shortage, there is a reason: Gov. John F. Simms has declared the week to be Engineers' Week in New Mexico.

Beginning Feb. 19 and ending Feb. 25, "Engineers' Week in New Mexico" will coincide with "National Engineers' Week," sponsored by the National Society of Professional Engineers to honor the nation's 400,000 practicing professional engineers—civil, electrical, mechanical, and industrial—and various observances are planned throughout the State to give recognition to the profession and its accomplishments.

In a brief ceremony in the executive suite in the capitol Sunday morning with high officials of the New Mexico Society of Professional Engineers looking on, Simms affixed his signature to a proclamation.

### Cancer, Pneumonia Lead State Killers

SANTA FE (AP)—Cancer and pneumonia were the first two leading causes of death in diseases reported to the State Health Department during 1955.

The department said 641 deaths from cancer were reported and 288 from pneumonia. Diarrhea, enteritis, diphtheria, tuberculosis, measles, syphilis, influenza and whooping cough were other major causes of death during the year.

### TO FIGHT REDS

SINGAPORE (AP)—Prince Abdul Rahman said today on his return from successful Malaya independence talks in London that he would push the jungle war against the Communist guerrillas unless they laid down their arms. The Malaya fighting now is in its eighth year.

### General Motors Pay Increases \$102 Weekly

TROIT (AP)—Wage earners in General Motors' United States plants averaged a record \$102.41 a week for an average 42.5 hour week in 1955, Harlow H. Hatch, president, and Alfred P. Sloan, chairman of the board, announced today.

### PILOT ESCAPES INJURY

LOUIS (AP)—A pilot of an F-86H fighter narrowly escaped death when he bailed out of his plane at 2,000 feet over Clovis Air Base. First Lt. C. E. Kowark parachuted to safety when the plane developed engine trouble and was coming in to land here on a routine cross-country flight. The plane crashed several miles from the base with no injuries.

City to San Francisco. They said the additional eight million acres would widen the strip to 15 miles. Young said there are 14 military installations in Nevada, spread over nearly four million acres, and the Navy wants to acquire nearly three million additional acres in that state for gunnery use.

He and other westerners want proof that the land is required for defense and that military lands already held could not be more efficiently utilized to minimize new acquisitions.

Young, with backing from some other congressmen, is requesting that:

1. Land withdrawals be made on a temporary, renewable basis;
2. Hunters and fishermen be permitted to use the lands if this wouldn't interfere with military usage;
3. Mineral areas be excluded from acquired lands or that mining be permitted if it wouldn't interfere with the military;
4. Ranchers be permitted to graze livestock on military reservations;
5. State water rights be protected.

The water rights problem was aired at a recent committee session and it will be up again Wednesday and Thursday.

Testimony disclosed that Navy officers refused to pay \$6 and sign papers recognizing state water rights in a case involving wells in Nevada. The case has been taken to court.

Justice Department witnesses have been called to testify this week on state water rights bills sponsored by Engle, Young and Rep. Budge (R-Idaho).

### Good Weather Greets Travelers In New Mexico

By THE ASSOCIATED PRESS  
Good weather and good roads greeted New Mexico travelers in nearly all parts of the state today.

Twelve inches of snow covered the ground at Eagle Nest in northern New Mexico, and the mercury dropped to zero there last night.

But roads were all open, the Weather Bureau said, with a few icy spots here and there.

Fair weather was predicted throughout tonight.

Carlsbad was the warmest place yesterday with a high of 69, while Hobbs reached 68. Coldest during the day was Farmington with 39.

### Johns Calls Meeting On GOP Campaign Plans

SANTA FE (AP)—State Republican Chairman M. B. Johns Jr. today issued a call for a special "unofficial" meeting of the Republican state Central Committee in Albuquerque next Saturday.

Johns said plans for the coming election campaign will be discussed. He said the meeting will be an open one and invite anyone interested to attend.

The central committee, composed of about 200 members from over the state will meet in the Hilton Hotel ballroom at 2 p.m.

In filing for a writ of habeas corpus last week, Upton's attorney declared Upton was being held illegally in violation of his constitutional rights. It was charged that Upton was insane at the time of trial and if he should be put in the Upton case. Simms has the ultimate power to grant clemency and save Upton from the chair.

Collins termed Cooper's report on Upton "a very fine one, covering the man's background from beginning to end; it is a very fine report."

The 1955 Legislature substituted the gas chamber for the electric chair as the state's method of carrying out the death sentence. Upton is scheduled to be the last man to go to his death in the chair.

Meanwhile, at the prison, the State Board of Parole also had Upton's case on its agenda. The board arranged to study a comprehensive report on Upton's case. It was given the board by State Parole Director William Cooper.

Board secretary Wayne Collins said he presumed the board would turn over its recommendations to

SMOKE POURS FROM wreckage of four-engine transport plane which crashed into peak near Oakland, Cal., killing all 38 Marines aboard. Destination was Alameda. (International)

### Carlsbad Mining Union May Call Early Strike

CARLSBAD (AP)—A strike may be called at the International Minerals and Chemicals Corp. potash mine by the International Union of Operating Engineers.

A strike vote was taken here Sunday and over 68 per cent of the members of the union voted to strike.

The Operating Engineers, local 855, filed an unfair labor practices claim with the NLRB in El Paso Wednesday alleging that the company refuses to bargain in good faith. The charge is denied by company spokesmen.

A company spokesman said that in discussions across the table, there appeared to be only one issue left unresolved. This item was a request by the union that lunch period pay be retroactive for day surface workers when these workers worked into the succeeding shift.

### Shivers Names New Insurance Commissioner

AUSTIN (AP)—Gov. Shivers appointed Morris Brownlee of Houston as insurance commissioner today to succeed Garland Smith, who resigned.

Brownlee will assume office March 1 to fill a vacancy which expires Feb. 10, 1957. Shivers said the appointment is effective at once.

"I think the state is most fortunate that Brownlee has agreed to serve in this important position. I am sure that the Insurance Commission's program of strengthening the Texas insurance industry will be greatly benefited by the experience and knowledge which Brownlee brings to the commission," Shivers said.

### Scuffle Occurs At Strike-Hit Aviation Plant

FARMINGDALE, N. Y. (AP)—Pickets and nonpickers scuffled at the main gate of the Republic Aviation Corp. major plant here today as the full impact of a strike of 12,000 production workers hit the company's four Long Island plants.

Approximately 700 union pickets at the gate attempted to stop cars carrying employees. They succeeded sometimes.

Seven men—identified as pickets—were arrested, accused of pushing and shoving employees. Thirty policemen were on guard, greatly outnumbered by the surging, shouting pickets.

About 30 cars loaded with workers were unable to get through the gates.

One picket became pinned between two autos, which were inching along. The man was taken to a hospital. His condition was described as not serious.

### SYRIA GETS ARMS

CAIRO (AP)—Syria apparently is getting a share of the arms Communist Czechoslovakia is selling to Egypt. On the economic front, a deal for the Czechs to set up an oil refinery in Syria is nearing completion.

An editorial in the Cairo newspaper Al Ahram yesterday said Western refusal to sell arms to the Arab states had resulted in Egypt and Syria making an agreement with Czechoslovakia.

### Artesia FFA Chapter Plans Special Projects For 'Week'

The Artesia chapter, Future Farmers of America, will hold special services on commemoration of FFA Week, being held nationally Feb. 18-25. These special services are meant to focus public attention on the work of this organization, John T. Short, vocational agriculture teacher at Artesia High and FFA Advisor, said today.

The Artesia group plans civic club programs, downtown window displays and bulletin board displays at the school.

Saturday Mayor William Yeager proclaimed FFA Week here. Membership in FFA is made up of boys who are 14 years old and (Continued on Page Four)

### Two More Men Die In Weekend Highway Mishaps

By THE ASSOCIATED PRESS  
Two more deaths over the weekend have raised the state's highway death toll for the year to 39 compared to 36 for the same date last year. Bennett Kumble Jr., 17, of Albuquerque, died Saturday as the result of injuries received in an auto accident last Tuesday.

Jose L. Armijo, 62, was killed early Sunday when the car in which he was riding overturned on NM-422 five miles north of Albuquerque.

Bailey, who attended the Silver City meeting, will give a report, as will Raydean Owens, Jaycee vice president.

### Committee Calls New Hearing On Case Campaign Fund Gift

WASHINGTON (AP)—A special Senate committee headed by Sen. George (D-Ga.) suddenly called new public hearings today on a \$250,000 campaign fund offer to Sen. Case (R-SD) during the Senate case bill fight. George said the group had decided to expand the scope of its investigation.

After a morning closed-door meeting, George announced it would reopen public hearings.

George said Donald R. Ross, who resigned last week as U. S. district attorney for Nebraska, may be one of the witnesses. He gave no reason for the decision to call him.

George said the committee also will call back to the witness stand Howard B. Keck, president of the Superior Oil Co., of California, and Elmer Patman, a lawyer for the firm.

In previous hearings, the committee developed that John M. Neff, of Lexington, Neb., a lawyer-lobbyist for Superior Oil, led 25 \$100 bills with friends of Case for the senator's campaign fund.

Testimony was that Neff got the money from Patman who testified it came from Keck's personal funds.

It was brought out also that Ross introduced Neff to Nebraska's two Republican senators, Hruska and Curtis, to discuss the natural gas bill.

Ross is a former mayor of Lexington and a longtime friend of Neff.

Ross said in resigning as U. S. attorney that he had done nothing wrong but was concerned that his activities might bring "unwarranted criticism" of the Justice Department.

George said his committee's main assignment still is to look into the offer to Case, but that its four members now believe this will require a study of "the general pattern in so doing."

Other members are Sens. Hayden (D-Ariz.), Bridges (R-NH) and Thye (R-Minn.).

## French Cloudmaster Attempts Egypt Desert Landing, Burns

CAIRO, Egypt (AP)—A big French Cloudmaster with 64 persons aboard crashed and burned in the desert just outside Cairo today. Airline headquarters in Paris said 52 persons, all French or Vietnamese, perished.

Six crew members and six passengers, including two children, were brought to a hospital here. The plane's commander, Capt. Charles Billet, was seriously hurt.

The plane was on a flight from Saigon to Paris and was trying to land at Cairo. Reports from the scene, where the Egyptian army and American pilots were helping with rescue work, said 43 dead had been counted.

The big DC6 Cloudmaster was arriving en route to Paris from Saigon and Karachi with 55 passengers and a crew of 9. It was operated by the privately owned Transport Aeriens Intercontinentaux.

An airport official said surviving crewmen reported two of the plane's engines stopped. They said the captain tried a forced landing in the desert but the plane burst into flames when it touched down. Crew members escaped through the emergency exit in front of the plane.

No passenger list was immediately available nor were the nationalities of the passengers established. Officials of the airline said the plane copy of the passenger list burned and the only other lists were in Saigon or Karachi.

Sources in Paris said the wreckage was spotted by William Judd, who was flying his own plane. The American pilot, who is employed by Trans-World Airlines, flew his single-engine aircraft nonstop from New York to Paris Jan. 30.

Another American, Arthur Hoffman of the National Petroleum Co., aided in the rescue operations in his single-engine plane.

At about 4 p.m. Saturday, a 1955 Oldsmobile driven by Travis Harlan Zeleny, Route 1, Box 154, Artesia, traveling west on Main Street collided with a car driven by La Rue Bishop, 1301 Chisum Street. Bishop was backing out of a parking place in the 100 block on West Main when the mishap occurred. Damage to the right front fender of Zeleny's car amounted to approximately \$100. An estimated \$50 damage was done to the left rear fender of Bishop's car.

At about 7 p.m. Saturday a 1949 Oldsmobile being driven by Robert A. Burch of 1008 S. 11th Street, Artesia, was struck in the rear by a car driven by Luther A. Rideout. At the time of the accident, Burch was waiting for a green light in order to make a left turn at the corner of First and Main. Damage to Burch's car was estimated at approximately \$150 and to Rideout's car at approximately \$25.

Kyle Taylor of Maljamar reported the theft of 4 hub caps from his 1954 Oldsmobile while parked near Central School where he was attending a dance.

In addition, Police reported that they are holding 4 for drunkenness and disturbance, one for investigation. County officers are holding one for drunkenness.

### Adenauer Party Suffers Defeat In Ruhr Vote

DUESSELDORF, Germany (AP)—Chancellor Konrad Adenauer suffered a sharp political defeat today. His party was ousted from power in the booming Ruhr Valley state of North Rhine-Westphalia.

One of Adenauer's top lieutenants, State Premier Karl Arnold, was voted from his job by coalition of right-wing and leftist political parties in the Ruhr. Arnold, one of the founders of Adenauer's Christian Democratic Union, was replaced as premier by Socialist Fritz Steinhoff.

The change means that Adenauer's strength in the upper house of the West German Federal Parliament will be sharply reduced. It may mean the Chancellor will be unable to carry out some of his plans for West German rearmament.

### Odessa Couple Drowns In Lake

SNYDER (AP)—An Odessa couple drowned yesterday when their boat capsized in Lake J. B. Thomas southwest of here.

They were Mr. and Mrs. Houston Harry Hughs. Hughs was 60, his wife, 54. Mr. and Mrs. A. L. Thompson of Midland were in the boat with the Hughs but were rescued.

### Pro-Western Greek Premier Wins Election

ATHENS (AP)—Supporters of pro-Western Premier Constantine Karamanlis have won Greece's parliamentary election. But returns today showed they have a margin of only eight seats and trailed their Red-tinted opposition in popular votes.

Ex-Premier George Papandrou of the opposition, declared the adverse popular vote and small parliamentary majority won by Karamanlis in the balloting Sunday will force the government to call a new election soon.

Returns gave the Premier's National Radical Union 154 seats in the 300-member House. The rest went to the seven-party opposition coalition, which ranges from Communist to far-Right Nationalists.

Pro-government papers carried jubilant headlines declaring that Communist efforts to break Greece's bonds with the United States had been frustrated.

Opposition papers conceded Karamanlis' majority in Parliament but declared he had been rejected by the popular vote.

### TWO BABIES SURVIVE

RUIDOSO (AP)—Two new-born infants, the survivors of triplets born Friday to Mrs. Raymond Vinyon of Tularosa, were reported doing well in a local hospital. Mrs. Vinyon was also reported in satisfactory condition.

# SOCIAL CALENDAR

## MONDAY, FEBRUARY 20

Chapter "J" PEO, meeting in the home of Mrs. John Cochran, 2:30 p. m.

Cottonwood Garden club, meeting in the home of Mrs. B. B. Green with Mrs. Ray Zumwalt as co-hostess, 2 p. m.  
 Mariners club meet in the Presbyterian Parish hall, 7:30 p. m.

## As Business Machines Take Over, Executives Assure Workers Of Job

By SAM DAWSON

NEW YORK — White collar workers worry about being displaced by machines — much as they'd like to ditch the drudgery of their jobs. And industrialists — much as they'd like to get out from under the ever growing avalanche of paper work needed to run a modern business — have some worries, too, in adjusting to the latest phase of the mechanical age.

It takes time, money, training and thought to learn to live with a mechanical brain. They won't all be switching over night.

The giant computing machines, however, will be taking over more and more work in industry and in government. So, the businessmen who are moving toward automation are particularly busy just now reassuring workers about their jobs.

Here's two case histories with words, at least, of encouragement to tomorrow's job:

The Controllorship Foundation Inc. warns management today in a report of "Electronics for Business" to expect to make the jump quickly now without long planning. The foundation is the research arm of the Controllorship Institute of America, whose members are the financial managers of some 4,500 corporations and professionally interested in the type of work the giant computers are designed to take over.

The foundation reports on a case study of the experience of the Port of New York Authority which operates bridges, tunnels, and airports. The foundation reports that in 1949 the Port Authority began looking for an automatic system that would record, account for and audit tolls on its bridges and tunnels — some 35 million separate

transactions a year. Cost and other considerations stymied it.

In 1954 the Port Authority set up an Electronic Research Division. It found 35 employees qualified for the 12-hour examination, which eight passed. From oral interviews three were selected for work in the division.

Postponing for the time being its search for the machine to do the toll computation economically, the Port Authority last year decided to lease a general-purpose electronic computer. It will be installed this fall. At first it will work on airport cost accounting and revenue accounting, other than tolls. The machine is expected to do in two weeks what it took nine to do before. Later the machine may be put to ledger-keeping and financial statements, and possibly to payroll accounting.

The Foundation points to this long, slow and difficult — strenuous experience in warning businessmen to expect planning problems.

Another case history comes from the comptroller of Pacific Mutual Life Insurance Co. of Los Angeles. He says the two million dollar outlay for its large scale computer system will pay for itself in five or six years through savings on clerical costs.

Both case histories, however, have this ending: In time machines will do the jobs.

## New Associate Home Agent Now At NMAM

Mrs. Dorothy Y. Hanny, extension home management specialist at New Mexico A&M College, has been appointed to the new position of associate state home agent with the A&M Extension Service. Mrs. Hanny's appointment is effective March 1. Dr. R. A. Nichols, A&M's dean and director of agriculture and home economics, said today.

In her new position, Mrs. Hanny will work with Miss Elsie Cunningham, state home agent, in supervising the work of women county agents throughout the state.

Mrs. Hanny has had 15 years' experience in extension work as county agent and state specialist. She became home management specialist in 1953, after serving in Grant County as home demonstration agent for four years. She has also taught home economics at Las Cruces Union High School.

A native of New Mexico, Mrs. Hanny is a graduate of New Mexico A&M College and has done graduate work at the University of California. Her father, H. A. Yoast, was a pioneer Sierra County rancher, and her mother, Ivy Grant Yoast, was extension editor at New Mexico A&M College for 27 years.

Mrs. Hanny has a daughter, Joanne, who is a sophomore at New Mexico A&M College.

Mrs. Dorothy Y. Hanny

## Purifier Chases Bacteria, Dust From Nursery

Baby has a new friend named Puritron, an electronic air purifier that rids the nursery of harmful disease-bacteria, and allergy-provoking dust and pollen.

The Puritron also eliminates nursery odors and produces a constant supply of energizing ozone as it changes and filters the air five times each hour.

Amazingly, this electronic miracle is no larger than a small table radio. It is portable, and needs only to be plugged in any electric outlet. The Puritron makes use of ultra violet germicidal lamps to kill harmful bacteria, and a special fibreglass filter to eliminate dust and pollen, common causes of childhood allergies.

Parents find great peace-of-mind when they know they can insure the comfort and health of their precious nursery dweller. And, a nursery free of odor, germs and dust can be the most pleasant room in the house.

Service is no problem, as any mother can easily remove and clean the permanent fibreglass filter. Best of all, the Puritron is inexpensive, and comes in nursery colors as well as gun-metal grey.

## James Bolen Jr. Gets Assignment At Fort Riley

Army Pvt. James E. Bolen Jr., 23, whose parents live at 1903 Oak st. in Artesia, recently was assigned to the 1st Infantry Division at Fort Riley, Kan.

Bolen, a combat engineer in the division, entered the Army in February, 1955, and received basic training at Fort Ord, Calif. He attended Chillicothe (Okla.) Agriculture school.

PRINCE SUCCEEDS ARMJO SANTA FE — Dist. Atty Bert Prince of Santa Fe has been elected president of the New Mexico District Attorneys Assn. He succeeds Dist. Atty. Armijo of Las Vegas.

## Will Rogers Jr. To Narrate On New Morning TV Program

By CHARLES MERCER  
 NEW YORK — At 4 a. m. this Monday a fellow who's used to sleeping four or five hours late rose and went to a television studio to launch a series of five mornings-a-week TV programs that holds the promise of being somewhat different.

His name is Will Rogers Jr., and his program, entitled "Good Morning," will be seen Monday through Friday on CBS-TV at 7 a. m.

Without trying to emulate his famous father, Rogers aims to look both seriously and with dry humor at the passing scene. "Good Morning," explains Rogers, is not just a news program; it's a news features program.

"We're going to play the news straight," Rogers said the other day. "But we're also going behind straight news and give it a feature approach. We'll try to be informative, so much the better. After all, I used to be a newspaper man myself."

Rogers, 44, bought the Beverly Hills, Calif., Citizen after graduating from Stanford and became editor and publisher. He was elected to Congress in 1942 and resigned in 1944 to serve in the Army. In 1953 he sold his newspaper and has been doing some acting since. He maintains, however, that he's "not an actor," but "just a mild-mannered fellow."

Rogers claims he doesn't look much like his father, but he has the same solid frame, the same shape of head and thick thatch of hair. Comparing his father as a great humorist and dry commentator on the American scene with his own new role, Rogers said:

"Father was more authoritative than I could be if I wanted to. Today he'd be called opinionated. He lived in an easier time."

"It's possible that some time on our new program we'll be able to use recordings of some of his radio appearances."

## Hospital Report

Admissions: Feb. 18 — Linda Kay Standard, Star route East; Laurence Wilde, Pinon; Mrs. Robert Gates, 1107 W. Chisum; Mrs. Teofilo Garcia, 1209 Washington; Mrs. John Lanning, Route 1.

Feb. 19 — Mrs. Elmer Amundus, 809 Adams; Louis Williams, Lakewood; Henry Bustanani, 402 Cleveland; Elsie Louise Roark, route 1.

Dismissed: Feb. 18 — Mrs. Don Erling, Margaret Jean Bowman, Mrs. Jesse Sharp, Mrs. McKinley Lewis, Laurence Clifton Wilde, Linda Kay Standard, Mary Teresa Orona.

Feb. 19 — Beverly Brewer, Mrs. Howard Biggs, Louis Williams, Mrs. Valentino Molina, Kenneth Wayne Tice.

Births: Feb. 19 — Mr. and Mrs. Elmer Amundus, son, 3:30 a. m. 8 pounds 5 1/2 ounces.

## Personal Mention

Mr. and Mrs. T. J. Connelly of Chicago, arrived Friday to visit Mrs. Connelly's sister, Mrs. Mary Moots, and her niece, Mrs. Moss Spence. After visiting here several days they will go on to California.

Mr. and Mrs. Roy Hall are spending today in El Paso.

Guests Sunday in the home of Mr. and Mrs. Vernone Lane were his sister and husband, Mr. and Mrs. O. G. Guest of Carlsbad.

Jim Shipp a student at the University of New Mexico, Albuquerque, has been initiated into Sigma Chi fraternity. He is the son of Mrs. Anna Shipp.

Guests in the home of Mr. and Mrs. Landis Feather Sunday and today are their son and wife, Mr. and Mrs. Bill Feather of El Paso, and Mrs. Bill Feather's parents, Mr. and Mrs. Bernard Johnson of Lefors, Texas.

## Past Presidents Of P-T-A To Be Honored Tuesday

Park School Parent-Teachers Association will meet at 7:30 p. m. Tuesday in the music room.

All past presidents are to be honored; and they will be introduced by Mrs. E. E. Kinney, president of the council.

Mrs. John A. Mathis Jr., will be the guest speaker.

The Melodettes — Donna Nelson, Melva Ann Morgan, and Jackie Staggs, accompanied by Linda Beene — will sing several selections.

Mrs. Harvey Yates, hospitality chairman, will be in charge of the refreshments.

## Two Artesians On Honor List

STATE COLLEGE (Special)—Eighty-one students in the school of engineering at New Mexico A&M College have been named on the Dean's list, according to an announcement today by Dean Melvin A. Thomas.

Among those named were Bruce Gaskey, junior, and Harold Dunn, freshman, both of Artesia.

The distance from New York to San Francisco via the Straits of Magellan is 13,135 miles compared to 5,282 miles through the Panama canal.

## Miss Siegenthaler, Donald Calvert Wed In Ceremony At Family Home

Miss Linda Ruth Siegenthaler became the bride of Donald Le Roy Calvert Friday night at the home of the bride's parents, Mr. and Mrs. William Siegenthaler of 707 Hermosa drive.

The Rev. Orvan E. Gilstrap, pastor of the First Christian church, performed the double-ring ceremony.

The bridegroom is the son of Mrs. W. M. Simmons.

The couple stood in front of an improvised altar of white tapers were in white wrought iron candelabra entwined with Plumosus fern and formed a cathedral arch under which emerald palms formed the background.

Misses Kay Braswell and Peggy Simmons lighted the candles. Miss Braswell was in a princess style dress of peri-winkle polished satin and Miss Simmons wore an aqua silk also in princess style.

Preceding the ceremony Miss Lu Ann Siegenthaler, sister of the bride, sang "Because" accompanied by Mrs. James Hinton at the piano. She also sang "The Lord's Prayer" during the ceremony.

Mrs. Hinton played wedding music during the ceremony.

The bride wore a dress of ice blue bridal satin fashioned with a long princess line bodice with a fold of the material forming a band and bow at the hip line. The skirt was a soft circular flare. The bracelet length sleeves were shirred at the elbow. Her shoes were of ice blue and silver brocade.

She wore a scalloped Juliette cap of satin with deep aqua sequin trim and a short aqua blue illusion veil. She carried a bridal

bouquet of orchids and frenched carnations in white with braided satin loops and streamers. She wore an old ring belonging to Mrs. Siegenthaler and a blue bracelet.

Mr. and Mrs. Doug Whitefield were the couple's attendants.

Mrs. Whitefield wore a coat style princess dress with wide flaring skirt of navy faille. She wore a bandeau of baby blue forget-me-nots in her hair. Her corsage was of pink ice roses.

Mrs. Siegenthaler wore a sheath dress of Dior blue with blue accessories, and her corsage was red-orange glamelias. Mrs. Simmons, mother of the bridegroom, wore a dress of silk deep blue and red print on black and gray background. Her corsage was of white frenched carnations with white accents.

The three-tiered wedding cake was white with white wedding bells and flowers. A garland of fern and elfe roses was around the base of the cake and around the crystal punch bowl. Miss Loy Sue Siegenthaler, sister of the bride, served the cake and Mrs. Jerry Simmons presided at the punch bowl. Miss Marion Simmons, sister of the bridegroom, was in charge of the guest book.

The couple left on a short honeymoon; and upon their return, they will make their home here. She chose for traveling a suit of navy blue raw silk with wedge-wood blue accessories. The orchids from her bridal bouquet were pinned at her shoulder.

## Delta Kappa Gamma State President Presides At Sunday Meeting Here

Dr. B. June West, state president of Delta Kappa Gamma, presided at a state planning meeting Saturday morning held in the junior high school library.

Representatives from Roswell, Clovis, Portales, Carlsbad, Lovington, and Tularosa participated in the state convention which is to be held in Artesia April 27-29. Edna McGuire Boyd, national president, will be guest speaker.

Visiting chapters were guests at the sixteenth annual birthday luncheon of Xi chapter held in the Artesia room.

The Melodettes — Donna Nelson, Melva Ann Morgan, and Jackie Staggs, accompanied by Linda Beene — sang several selections.

Dr. West addressed the group

on "Delta Kappa Gamma, Its Present and Its Future."

Miss Lorene Tyson conducted the birthday observance. In a whimsical analogy she gave the history of Delta Kappa Gamma and honored the past presidents of Xi chapter, Linna McCaw, Merrill Bradley, Edna Drury, Floral Powell, Hilda Kletke, Alyce Erickson, Alma Sue Felix, and Gertrude McCaw, with a candle lighting ceremony.

The tables were decorated with the societies colors of red and gold. An arrangement of red roses was used as a centerpiece, and miniature birthday cakes were used as place cards.

The hostesses for the luncheon were Gertrude McCaw, Jewell Ford, Mariona Wood, Helen Sperry, and Lorene Tyson.

## Clovis Woman Admits Perjury

By THE ASSOCIATED PRESS  
 A 21-year-old former wife has pleaded guilty in Clovis to charge of perjury in connection with a recent grand jury investigation into the alleged beating of a Lovington man.

The waitress, whose name Louise Jenkins at the time testified before the grand jury two weeks ago, told the court since that time and her name now Lawless.

The indictment accused her falsely testifying before the jury that no whiskey was on the table occupied by Ed Gress at the club Jan. 24.

Gress, an undercover investigator for the Curry County League, was found beaten and conscious at the door of the two days later. He has also been indicted for perjury by the jury.

Gress and the club owner, Skipworth, who was indicted for the sale of alcoholic liquor, Edna Reed, an employee of club who was indicted on one charge of perjury and also for liquor, have all entered plea of innocent.

In Hobbs, Bill T. Carter, of the Rock Chapel Baptist Church, has announced that a group of County Baptist pastors has issued a letter strongly opposing a plan taken by the Baptist and Mexican in a recent editorial.

The letter also hinted of financial support of the paper will be withdrawn by some La Crosse churches.

The paper recently has support behind the New Mexico Temperance League in an editorial titled "Temperance Day Hurtful."

Carter, who said the letter was mailed Monday, said the charges that the paper has issued to tactics "designed to do the same thing that our local press has done against the league of temperance."

The paper in its editorialized the league "the reliable organization that now has served state for several years and given adequate demonstration of its worth."

The most important local where diamonds are found is Ben India, South Africa and South America.

## Here's Popular Snack Fare

Popular snack fare at our house is a sweet bread and an all-round favorite is this tested recipe for Date 'n Nut Bread which is enriched with instant nonfat dry milk. It's ideal for refreshments while watching television, as a mid-afternoon pick-up or as a snack before retiring. Serve it with a glass of chilled instant nonfat dry milk for a delicious and healthy combination.

Instant Starlac, the heart of milk, contains all the important milk nutrients—protein, calcium and riboflavin—without the fat. It comes in three handy sizes at the grocer's: 1. The family-size economy package which makes 12 quarts (three gallons) of nonfat milk for only about seven cents a quart; 2. The one-pound package which makes five quarts of nonfat milk; and 3. The pre-measured package which contains three individual envelopes, each making one quart of nonfat milk.

By using instant nonfat dry milk in the powder form in the Date 'n Nut Bread recipe, an extra amount of nutrients is added without any additional bulk. Instant nonfat dry milk also may be liquefied and used in most recipes just as regular milk.

It mixes immediately, even in ice water.

Date 'n Nut Bread (Makes 10 x 5 x 3-inch loaf)  
 3 tablespoons butter  
 3/4 cup brown sugar, firmly packed  
 1 egg, slightly beaten  
 3 cups sifted flour  
 1/2 cup instant Starlac nonfat dry milk powder  
 3/8 teaspoon baking powder  
 1 teaspoon salt  
 1 1/2 cups water  
 1/2 cup chopped pitted dates  
 Cream butter. Gradually add sugar; beat until light and fluffy. Beat in egg. Sift together flour, instant Starlac nonfat dry milk powder, baking powder and salt. Add dry ingredients alternately with water to creamed mixture, beginning and ending with dry ingredients. Blend thoroughly. Fold in nut meats and dates. Pour mixture into (10 x 5 x 3-inch) loaf pan that has been greased, waxed paper-lined and greased again. Bake in a moderate oven (350°F.) about 1 hour and 5 minutes or until firm when lightly pressed with finger.

IT'S THE LAW

Hardly enough, if someone is injured on your property... you'll pay, too. You are responsible if anyone through your negligence is injured, even the handyman is your responsibility. # Wes Plans Suspension Order Test In Court AAU Executive Committee Has No Right

NEW YORK (AP)—Wes Santee, 34, former world champion 400-meter runner, today announced plans for a court suit against the Amateur Athletic Union (AAU) which has barred him from the Olympic games.

AAU took the drastic action after the Executive Committee yesterday after hearing a report of an investigation committee on Santee's expenses. The committee found about \$1,500 of Santee's expenses, which he said, was "outrageous," above the allotted expense.

Santee is backed in the courts by the AAU from carrying out his suspension, said his attorney Charles P. Grimes of New York. "Our contention is the same that we have been making all along — that the Executive Committee of the AAU does not have the authority in the case, that it should be turned back to the Missouri Valley Assn."

On the basis of Santee's report the committee suspended Santee by a 14-1 vote.

AAU President Carl Hansen said there were seven instances in which Santee's expenses were more than permitted.

He enumerated three — the Modesto and Compton meets, in which Santee received about \$700 more than allowed; the Chicago and Cleveland meets in which he was over by \$290; and the Philadelphia and Washington meets in which his expenses were \$150 more than permitted. The AAU allows \$12 a day plus transportation.

The proper authorities — the local Registration Committee of the Missouri Valley Assn.

The Missouri Valley Registration Committee, his home body, suspended him last October, but was overruled by its own board of governors. Then the AAU, at its annual meeting last December, appointed a special committee headed by Pinky Sober, national AAU track and field chairman, to reopen the case.

On the basis of Sober's report the committee suspended Santee by a 14-1 vote.

# Manager Buckey Harris Says Detroit Tigers Determined To Place In National Flag Race

By BUCKEY HARRIS  
Manager, Detroit Tigers  
Written for The Associated Press  
LAKELAND, Fla. (AP)—With any luck at all, the Tigers are going to be in the pennant race this year.

We certainly have the nucleus

of a fine club with player like Al Kaline, Harvey Kuenn, Ray Boone and Bill Tuttle. We're well balanced in all departments and if we get a little more power—maybe from Earl Torgerson and Frank House—we're going to crash the first division, at least.

Virgil Trucks, whom we got from the White Sox, is bound to help our pitching staff. Steve Gromek and Ned Garver are over 30 but they're winners. They dropped some heartbreakers last year, the kind they could win this time with more hitting support.

And we've got a fine young crop of pitchers, too. Billy Hoedt and Frank Lary both did well last season. Then there's Bob Miller, the young bonus kid, who looks as though he's going to make it this year. We're also expecting Paul Foytack and Jim Bunning to make the grade.

House will be my regular catcher but I'm also going to try to convert J. W. Porter into a catcher and use him against left-handed pitchers at times.

The Tigers finished behind New York, Cleveland, Chicago and Boston last season. I expect those clubs to be right up there again this year but not in that order.

Boston certainly helped itself by getting Mickey Vernon and Bob Porterfield from Washington. And the Yankees didn't do themselves any harm by picking up Mickey McDermott from the same club. I don't believe that Chicago or Cleveland will be any tougher.

I don't want to belittle Baltimore.

more, Kansas City or Washington, but let's face it, they are not as good as the rest.

I can't say that I was altogether displeased by the Tigers in 1955. We finished strong to just about knock Cleveland right out of the pennant race. And our young Kaline improved tremendously to win the batting title. Torgerson looked good after we picked him up from the National League and Lary was one of our league's best rookies.

## White Sox Meet In Tampa Today In Limber Play

TAMPA, Fla. (AP)—Manager Marty Marion gets his first look at the 1956 Chicago White Sox today.

All of the regular pitchers and catchers, a sprinkling of veteran infielders and outfielders and 24 rookies are in camp.

They are not slated to do much except limber up in their initial workout.

In Sarasota, rookie teams of the Boston Red Sox and St. Louis Cardinals played a 1-1 tie in 12 innings yesterday. It was the first spring training season game. The Red Sox have been working out for three weeks and the Cards for one week.

## Lou Kretlow Finally Wins Golf Tournament

MIAMI, Fla. (AP)—Lou Kretlow, Kansas City Athletics pitcher, finally graduated from the "also rans" and won the National Baseball Players Golf Tournament.

After long deliberation, he stroked in a 3-foot putt on the 17th to halve the hole and close out defending champion Alvin Dark 2 and 1 yesterday.

## Heroic Driver Plans To Take Free Vacation

TUCUMCARI (AP)—The man who risked his life for his 18 bus passengers Feb. 4 is laying plans for enjoying the rewards given him in gratitude.

John Hearon, out of the hospital and gaining back the weight he lost, said he plans a vacation in Florida the first week in April. The Chamber of Commerce at Treasure Island, Fla., has invited him to be their expenses-paid guest, and his company has given him a special vacation to go.

John Hearon, out of the hospital and gaining back the weight he lost, said he plans a vacation in Florida the first week in April. The Chamber of Commerce at Treasure Island, Fla., has invited him to be their expenses-paid guest, and his company has given him a special vacation to go.

## College Basketball In Showdowns Bids For NCAA Tourney Titles

By ED WILKS  
The Associated Press

College basketball has a flock of contenders make bids for tickets to the NCAA tournament.

Two conference champs are free to bid—Marshall in the American and Connecticut in the Ivy League.

Join two "at-large" selections in the NCAA title chase — Texas Tech, named Saturday, and St. Joseph, named today. Both schools have 184 records.

Illinois Valley and Skyline leagues named its eighth and ninth champions today. Earlier were Dayton, which smacked NIT entry Xavier of 20-2 yesterday; and Duquesne, defending champ Duquesne Hall, Louisville, the club to beat Dayton; St. Joseph's, spilled from game winning streak Saturday; and St. Joseph's Pa.; and Marshall.

The Southeastern Conference gets to the showdown bus with Vanderbilt (10-1) in a match with Kentucky (9-1). The Wildcats meet Alabama, current leader at 9-0, Saturday.

State can clinch its fourth Rocky Mountain crown by

## 4-A Basketball Lineup Chosen At Lovington

A drawing was held in Lovington yesterday afternoon to determine the order of play in the District 4-A basketball tournament to be held in Hobbs beginning Thursday, March 1.

Calloway Taulbee, vice president of the district, Verlin Davis, Reese Smith and Walt Bynum attended from Artesia. Taulbee presided at the meeting.

The lineup now stands in this order: Hobbs will play Clovis. Lovington will play Artesia, and Roswell will play Portales Thursday night. Carlsbad will play the winner of the Roswell-Portales game Friday.

Semi-finals will be played Friday night and finals will be played Saturday night.

The group decided that next year one of these seven teams will be chosen for the state tournament on the basis of season play. Each team will play the other twice during the season.

## SMU Has Chance To Capture Southwest Basketball Title

By The Associated Press

SMU galloped into this week's play with a chance to clinch the Southwest Conference basketball title.

The Ponies host Baylor at Dallas Tuesday and Arkansas Saturday. If SMU defeats Baylor it clinches a tie for the crown and a victory Saturday means the championship.

With the season ending next week, SMU has a 9-0 record and second-place Arkansas is 8-2 in conference play. The Mustangs boast the season lead with a 19-2 record.

The Mustangs really had to be versatile last week. TCU tried a deep freeze, the general idea being to keep the Mustangs from shooting. SMU managed to sneak ahead in the second half, then went into a stall of its own for a 26-22 victory.

Saturday the Ponies clashed with Texas A&M and had to pour 'em through the hoop for a 92-80 victory.

Dick O'Neal of TCU netted only 13 points in the 26-22 debacle, but hung onto the scoring leads in both season and conference play with 520 points for the season and 215 in conference play.

Ray Downs, the bright spot in what's otherwise a pretty dim season for Texas, is second in both lists with 460 points for the season and 208 in league games.

Arkansas secured second place in the conference standings by defeating A&M 61-52 and Texas 79-69. The two triumphs edged out Rice, which only played once last week. Rice beat Baylor 68-58 as Joe Durrenburger collected 28 points.

Baylor came back Saturday night to slam TCU 94-68. Jerry Mallett hit for 25 points before being pulled along with the rest of the first team early in the second half.

This week SMU hosts Baylor at Dallas and Texas meets Rice at Austin Tuesday. Wednesday Texas A&M visits TCU at Fort Worth. Friday Texas A&M goes against Rice at College Station. Saturday SMU hosts Arkansas and Texas meets Baylor at Waco.

## Class B League In SW Is Said In Good Shape

EL PASO (AP)—President W. J. Green said yesterday his new 10-team Class B Southwestern Baseball League will be one of the strongest in minor league baseball.

"All of them are financially sound and we are assured they will operate throughout the entire season," Green told a meeting of league officials.

He said all 10 clubs have made the necessary deposits with the league office and are ready to operate for the season.

The officials discussed the 1956 schedule or 144 games expected to be announced Sunday. Play starts April 17 and the closing date was tentatively set for Sept. 6.

## Social Climber Wins Handicap At San Felipe

ARCADIA, Calif. (AP)—Social Climber, rushed by no less than Count Chic, finally made the grade into high society, and Social Outcast is a probable visitor at stylish Santa Anita park this week.

This is no idle chitchat of a society gossip columnist.

The facts are that Social Climber is the name of a colt who registered into the blue blood—the Blueblood Book of Racing, that is—by virtue of a stunning victory in the \$25,000 Santa Anita Handicap at Santa Anita Saturday.

Count Chic is another colt who finished second.

And Social Outcast, so named by his socially prominent owner, Alfred G. Vanderbilt, is a rarin' horse who almost whipped Nashua in Florida Saturday and who may be flown here to race in the \$100,000 added Santa Anita Handicap Saturday.

## Good Breakfast Helps Athletes

ALAMOGORDO (AP)—Dist. Judge Allen Walker has announced here that he will be a candidate for election to the position to which he recently was appointed in the forthcoming May primary. Judge Walker was named in December by Gov. Simms to fill the post of newly created judge for the Third Judicial District.

The double-bass is the largest member of the violin family and the lowest in pitch.

## Kathy Cornelius Cops Open Golf Championship

ST. PETERSBURG, Fla. (AP)—The St. Petersburg Women's Open Golf Championship, a tournament record of 287 and \$900 prize money, all belong to Kathy Cornelius today.

It was the first big tournament victory for Mrs. Cornelius. The 23-year-old Lake Worth pro raked it up in decisive fashion.

The former Florida, Southern College student jumped into the lead Saturday with a 68, six under par for the 6,116-yard Sunset Course. She clinched a four-stroke victory by shooting 72 yesterday. Through the tourney her putting and chipping were outstanding.

Marilyn Smith of Wichita, Kan., won second place and \$630 by finishing with 71 for 291.

Patty Berg of Chicago, the defending champion, shot a respectable par 74 and took third with 293. That score won for Miss Berg in 1955 and was the tournament record until Mrs. Cornelius came along. Miss Berg won \$540.

Louise Suggs, Sea Island, Ga.; Joyce Ziske, Waterford, Wis.; and Beverly Hanson, Apple Valley, Calif., tied for fourth at 295.

## Memphis State Is 'At Large' In Tournament

NEW YORK (AP)—Memphis State, 18-4 for the season and the fourth best scoring outfit in the nation, today was named as an "at large" entry in the NCAA Basketball Tournament.

Lewis P. Andreas of Syracuse, chairman of the NCAA eastern selection committee, announced the choice which sends Memphis State to its second-straight NCAA berth. The Tigers lost to Penn State in the first round last year.

Only Spring Hill, Ala., Dayton, Louisville and St. Bonaventure have beaten Memphis State this season. Dayton and Louisville, among the top-ranked teams in the Associated Press poll this season, are headed for the NIT.

Memphis State is the fourth team to qualify for the NCAA. Holy Cross, also 18-4, was named as an "at large" entry Saturday while Marshall (16-3) and Connecticut (17-7) made it as champions of their respective Mid-American and Yankee Conferences.

## Stephen Austin, East Texas Play Each One Game

By THE ASSOCIATED PRESS

Stephen F. Austin and East Texas State, the one-two teams in the Lone Star Conference basketball race, each play one game this week in the league's race to the wire.

The Austins meet Sam Houston and East Texas tries Lamar Tech Monday night. S. F. Austin is first with an 8-2 league record while East Texas has an 8-3 mark.

This week East Texas plays Lamar Tech, Sam Houston takes on S. F. Austin, Southwest Texas plays Texas A&I and Sul Ross plays Austin College Monday. Tuesday Sul Ross plays Austin College. Wednesday Lamar Tech takes on Sam Houston. Saturday it's Lamar Tech against Southwest Texas and Sam Houston vs Texas A&I.

The dingy, a native Australian dog, is the only large placental mammal which inhabited Australia previous to European colonization.

## NAVY UNVEILS THE WEATHERMAN'S FLYING FRIEND

## SPORTS ROUNDUP—By THE ASSOCIATED PRESS

MIAMI, Fla. — Nashua (\$280), making his first start in four months and his first appearance under new ownership, captured the \$129,800 Widener Handicap in a four horse photo finish at Hialeah Park.

ARCADIA, Calif.—Social Climber (\$111.20) closed with a rush to take the \$29,750 San Felipe Handicap at Santa Anita.

NEW ORLEANS—Galdar (\$6,600), scored a two-length victory in the \$13,725 Lecomte Handicap at the Fair Grounds.

OLDSMAR, Fla. — Mr. Dubuque (\$41.10) an outsider, took an easy 1 1/2 length verdict in the Clearwater Purse at Sunshine Park.

HOLLYWOOD, Calif. — Billy Evans, 129, Los Angeles, stopped Tommy Bain, 128 1/2 Syracuse, N. Y., 4.

## Sen. Young Predicts Passage Of Rigid Mandatory Supports

WASHINGTON (AP)—Sen. Young (R-ND) predicted today the Senate will approve rigid mandatory price supports on basic crops "by a wide margin of three or four votes."  
"I agree with Sen. Ellender (D-La.) that if this is made part of the new soil bank plan that President Eisenhower will not veto it," he said.  
The election year battle over farm legislation starts in the Senate early this week.  
Young said wheat and corn farmers "are in a bad situation now that the soil bank alone will not remedy." He predicted more Republicans would vote now for the higher rigid price supports than the eight who in 1954 opposed Eisenhower's flexible price support program.  
Sen. Knowland (R-Calif.) said Eisenhower's veto of the Natural Gas

## FBI Probes Bag Of Airman Who Disappeared

CHICAGO (AP)—Police and FBI agents examined today a blue canvas bag the parents of a missing Illinois airman identified as belonging to their son.

## Des. of One Million Rats Is Goal of Nation's Farm Youth

This is the time of year when publicity materials like these above appear as part of local rat and mouse control campaigns conducted by farm youth. Both boys and girls take part in the campaign - part of a full-scale national program to make all communities aware of the damage and disease caused by rats and mice.

There are many reasons why the nation's farm youth groups are conducting campaigns aimed at killing a million rats. Each rat, it is estimated, costs the farmer \$20 per year. Rats destroy about 10 times more livestock, fence signs, film strips, property and food than they eat, and their contamination of grain puts its market value. Moreover, rats carry and spread numerous human and livestock diseases. Mice are only slightly less destructive.  
Rural youth groups everywhere are making plans, selecting committees, talking to local bait dealers, to other businessmen, to town or city officials, and to the general public, urging them to help control rats and mice.  
Now available to all youth organizations is a wide variety of campaign aids, prepared in cooperation with the national rat and mouse control campaign. Posters,

**ETTA KETT**  
"I'VE TRIED EVERY-  
THING BUT  
TEARS."  
"YOU'LL WIN,  
THAT  
ALWAYS  
GETS 'EM."  
"MAYBE I'VE WORKED IT  
SO MANY TIMES HE'S  
PRACTICALLY  
WATERPROOF!"

**BIG SISTER**  
"SCREECH!"  
"JACKIE! ARE  
YOU ALL  
RIGHT?"  
"CERTAINLY I'M ALL  
RIGHT--ALL I DID  
WAS TRIP ON THE  
CURB WHEN I CAN  
OFF THE SIDEWALK."  
"DREW! DON'T EVER  
DO THAT AGAIN,  
BOY!"

**LITTLE ANNIE ROONEY**  
"IT HAS BEEN A GENUINE  
PLEASURE TO MEET YOU,  
MRS. MAC DONALD, AND YOUR  
SHELL JEWELRY DESIGNS  
ARE EXQUISITE--  
HAVE YOU BEEN  
IN BUSINESS HERE  
LONG?"  
"THAT'S NOT VERY  
FLATTERING, MR.  
MCGUNN. I'VE HAD  
THIS LITTLE SHOP FOR  
TWO YEARS, HADN'T  
YOU NOTICED?"  
"UMM, I WASN'T VERY TACTFUL OF  
ME WAS IT? I'M AFRAID MY MIND  
HAS USUALLY BEEN OCCUPIED  
WITH MY OWN BUSINESS AFFAIRS  
TO THE EXCLUSION OF  
EVERYTHING ELSE."  
"YEAH, MR. BIG PAT  
IS A VERY VERY  
BUSY MAN MOST  
ALL THE TIME."  
"OH, YES, IT IS WELL KNOWN THAT  
HE HAS LITTLE TIME TO SPARE,  
BUT TELL ME, YOUNG LADY, WHAT  
IS THIS CHARM OF YOURS  
THAT LURES HIM INTO  
SPENDING AN ENTIRE  
MORNING TAKING YOU  
OUT FISHING?"

**CISCO KID**  
"WAS HE  
FERCE?"  
"I'LL SAY!"  
"WAAAAA!  
I WANT TO  
SEE BAD MANS!"  
"NON NOW! DON'T CRY LITTLE  
FELLER, IT'S BETTER YOU  
DONT SEE HIM!"  
"THAT WERINT HAD SUCH A MEAN,  
USLY FACE, HED HAVE GIVEN YOU  
NIGHTMARES!"

**MICKEY MOUSE**  
"SLAM!"  
"NOW WHAT DID  
MARY ALICE  
MEAN BY  
THAT?"  
"EEEK!"  
"Clara Belle's  
Antique Glass  
and Old  
CHINA SHOP."  
"MY GIRL SAID I WAS LIKE A BULL IN A  
CHINA SHOP... AND I HADDA FIND OUT WHAT  
SHE MEANT!"

**MANDRAKE THE MAGICIAN**  
"THE NEXT DAY--  
MISTER CRAB'S HOUSE--"  
"HUH--MILK FROM YESTERDAY  
STILL THERE--NEWSPAPER  
TOO--WONDER IF ANY-  
THING'S HAPPENED  
TO OLD MAN  
CRAB--"  
"--SO I  
THOUGHT  
I'D BETTER  
TELL YOU."  
"GOOD THINGS YOU  
DID SOMETHING  
SERIOUS MAY  
HAVE HAPPENED."  
"HOUSE IS EMPTY,  
LOOKS LIKE HE  
JUST LOCKED  
UP HIS DOG--  
AND LEFT!"  
"TIGER  
HASN'T  
BEEN FED.  
CRAB  
WOULDN'T  
DO THAT."

# PUZZLES AND PASTIMES

## DIVIDING UP THE FISH

MR. PELICAN claims that the square he faces can be divided into four equal parts by drawing two continuous lines with three fish in each division. Can you do it?

## TOPSY-TURVY BIRTHDAY TEST

EVERYONE agreed they were having a wonderful time at the birthday party and they were all delighted when the artist announced that she would draw a picture of the guest of honor while the party was going on. When the picture was finished, however, there were a great many gasps and raised eyebrows, for included in the drawing, obvious for everyone to see, were

## Crypto-Quote

ACCORDING to one old saying, March is a month that comes in like a lion and goes out like a lamb. Another old saying makes the following comment, presented here in the form of a substitution cryptogram:

SOZGV. NRJ RZLL, YKTN-ILZ. NRJ JQQL, ACQF-JRQTL. NRJ SQRRQ, \*GQKZ-OHL OTF JRLZLHRV NT RNSLJ QM FOTHLZ.

## Greetings of the Season in Dots

WHAT can you draw for the line from dot to dot consecutive squircle to see? Clue: It heralds a change of season. Beginning at dot 1, draw a line from dot to dot 19. Color the picture appropriate-ly afterward.

# SATELLITE KITE

SPACE is where earth's first man-made satellite will revolve, of course. And space is required if you wish to utilize the following idea. But the space required here is of a slightly more down-to-earth nature—the space offered by a large open field. The idea is to make your own tail-less kite which may be hooked up in a manner that will permit it to revolve, satellite-like, with changes of wind. Construction details are as follows: Start with two sticks 25 inches long, 1/4 inch thick, and free from knots. One of these (A-C), called the spine, should be stiff, and the other (D-B), called the bow, should be flexible for bowing and also must balance perfectly at (E) the exact center. Lash or tie the two sticks (at point E) so that the distance from the top of the spine stick (A) to where the sticks cross (E) is five inches.

The outline string and paste securely in place and allow to dry. A single string is cut the length of distance B to E to C to form the bridle string (I-J). One end is brought through the paper and attached where the two sticks cross and the other end is fastened at point C. The flying string (L) is fastened to the bridle at point K. Next tie a bow string (H) in back of the kite at B and D, and the bow stick is bent so that the distance H to E is 4 1/2 inches. The kite will fly by itself fastened to a stake or sturp with a fisherman's swivel (small inset).

## Figure It Out

WHEN Freck's Famous Circus recently exhibited in Podunk the cages containing the animals were arranged as follows during the performance: 1. Tiger. 2. Panther. 3. Mystery Cage. 4. Wolf. 5. Lion.

## FILL IN THE 6 RIVERS

FIRST and last letters of six well-known American rivers are given in the diagram, right. How quickly can you fill in the intermediate letters? Shortest name of the group is at the bottom — it has six letters. There is at least one set of answers possible in which one letter may be taken from each name to spell out an appropriate word reading from top to bottom. After you've found the rivers, see if you can find such a word.

## THREE-IN-ONE FOLDING POSER

Hunter Harry, a lion and a tiger are present above. Fold drawing to find them.

# QUIZ CROSSWORD With Wisdom From the Bible

By Eugene Sheffer. HORIZONTAL: 1-Jonathan was his beloved friend (1 Sam. 18:1). 6-How many brothers did Joseph have? (Gen. 42:3). 9-One of the cities of Judah (Josh. 15:42). 14-Dwell. 15-Before. 16-Ruth's mother-in-law (Ruth 1:22). 17-Valley. 18-Droop. 19-Cudgels. 20-Greek letter. 21-Caricature touch. 22-Wrath. 23-Bishopric. 24-Fabric. 25-What is the fourth book of the Old Testament? 30-Danube tributary. 31-Largest continent. 32-No man can serve two what? (Mat. 6:24). 35-Metric land measure. 39-What high priest's sons served Belial? (1 Sam. 2:12). 40-Plant seed. 41-The name by which Peter called Dorcas when he raised her from the dead (Acts 9:40). 46-Run. 50-Middy. 51-Denial. 52-Pounds. 53-Eating a restricted menu. 54-Silkworm. 55-Legal science. 61-Large deer. 62-Expire. 63-Talisman-make violin. 65-Stray from truth. 67-Islands (poetic). 68-Biblical valley (Judg. 16:4). 70-Female ruff. 71-Upright. VERTICAL: 1-Braved. 2-Lessen. 3-Necessary to life. 4-Cyprinoid fish. 5-Ahbor. 6-Bed canopies. 7-Epoch. 8-What is a title of the sixty-first Psalm? 9-Peculiar to particular locality. 10-Sailor. 11-Dwelling place. 12-Live coal. 13-Sours aloft. 22-Biblical city (1 Chr. 6:70). 24-Stratagem. 27-River-island. 29-Flying mammal. 32-Joined. 33-Wing. 34-Kinsman. 36-What king of Judah had peace for 35 years of his reign? (2 Chr. 15:19). 37-Decay. 38-Female sheep. 42-Interest (abbr.). 43-Resembling pedal digit. 44-Hour (L.). 45-Replies. 46-Commanded. 47-Bucket. 48-What is the 26th book of the Old Testament? 49-Sleep flax. 52-What did Paul shake off into the fire? (Acts 2:5). 53-Defensive equipment. 54-Headress. 55-Lazed. 57-Female relative. 58-Exploits. 64-Spread for drying. 66-The turmeric. 68-Sign of hit play.

## Hotfoot Dilemma

IT IS not uncommon for persons faced with hazardous tasks to develop cold feet. But Professor Nonesuch, shown at bottom right, is different. He's developing hot feet. The reason, of course, is quite obvious. The Professor is lost in the desert and he's trying to make his way back to camp. The professor travels on foot until he meets up with his faithful camel who is waiting for him at the center of the drawing. Of course, those desert sands are awfully warm, and the professor would rather not backtrack or cross his own path at any point.

## Helping Yourself

BRIEF REPORTS on select new books of interest to home craftsmen, hobbyists and collectors. Selected by Clark Kincaid. Trout Files, by Charles M. Wetzel (Stackpole, 152 pages; \$5). This enthusiast, both an angler and a naturalist, goes beyond the subject of artificial lures for trout. He catalogues all the likely natural flies, too, and supplies emergence tables, or schedules for their appearance over fishing streams. He also details how flies can be transferred from one stream to another for the benefit of fish and fishermen. Prospecting for Atomic Minerals, by Alvin W. Knoerr and George P. Lutjen (McGraw-Hill, 211 pages; \$3.95). A beginners' book of illustrated advice on where to look in U. S. and Canada; how to recognize and identify deposits; how to stake and exploit claims, etc. The format is handy-sized. The Stamp Collectors' Encyclopedia, compiled by R. J. Sutton (Philosophical Library, 350 pages; \$6). General handbook of terminology in international philately for the advanced collector's reference shelf.

## This Is a Brain Twister

HOW quickly can you fill in the figures 1 through 24 where lines cross in the diagram above so that figures around each ellipse will total 150? Notice there are four ellipses—marked A, B, C and D. Thirteen numbers have already been inserted. Remember, a number is to be placed at each of the intersections presently unmarked. The total, again, is 150.

## Word Blocks

TO complete the key words at right. Copy each letter in the empty blank or blanks beneath it. Then, using the letters in the lower blanks, guess at missing letters and try to form short words, likewise placing the same letter in all blanks of respective vertical rows.

Word blocks grid with letters C, M, L, A, T, N, L, S, E, A, U, E.

## It's Your Move

WHITE'S target here is the Black king on square 28. In the final set-up White sweeps the board. White, moving upward, moves first and wins in five moves.
