

### Life Carries Pictures Of Hope Celebration

The LIFE magazine is expected to reach Hope today (Friday) with a two page spread of pictures taken at the Fiesta Day celebration. Copies of the magazine may be procured at Altman's Cafe. It is expected that a writeup will accompany the pictures.

### Local Scouts Attend Camporee

The Boy Scouts attended the Spring Camporee at Lake Van near Dexter with 334 total scouts attending. Those from Troop 65 who were able to go were Billy Stephens, Sammy Trimble, Roy Trimble, Bobby Rex Seeley, Gordon Goddard, Carroll Parham, Jimmy Houston and Scoutmaster Luke Toyebo. The boys took part in games of scouting skills, camping and cooking contests, etc. Members of Troop 65 won a 3rd place ribbon.

### Bat-Flight Program Resumed

The regular bat-flight program presented each summer evening at the entrance to Carlsbad Caverns will be resumed for this year on Sunday evening, May 21, it was announced by Supt. D. S. Libbey, Carlsbad Caverns National Park. The assignment of a member of the uniformed personnel of the park to duty each evening and the presentation of a talk on the bats prior to the flight is designed to provide visitors with information regarding the bats and the park.

Visitors are warned that the flights so far this year have been rather disappointing. The extreme dryness that has prevailed this year is believed responsible for the small number of bats using the caverns as a day-time roosting place. Park officials indicate that unless increased precipitation is experienced shortly the bat flights will not measure up to the spectacular flights of last summer.

### Pink and Blue Shower Given

In honor of Mrs. Bill Jones a pink and blue shower was given by Mrs. L. W. Toyebo, Miss Grace Harris, Mrs. Anderson Young and Mrs. Ralph Lea in the Home Ec room on Tuesday afternoon. The lace covered table where the gifts were placed had a pink and blue swan for a centerpiece. Another table was decorated with an attractive dol sitting under a pink umbrella. There were 32 local guests present and six guests from out of town. There were 15 who were unable to attend but sent gifts. The Home Ec girls prepared the refreshments and the Junior High girls helped with the serving. The refreshments consisted of pink punch, pink and blue cakes, with marshmallow baby carriages as favors.

### Summer Schedule Of Cavern Tours

Superintendent Donald S. Libbey of Carlsbad Caverns National Park announced today the resumption of the regular summer schedule of cavern tours effective Sunday, May 23. On that date the 8 o'clock party will be placed in operation.

During the summer months walk-in trips will leave the surface at 8, 9, 10, and 11 a. m. and at 12:15 p. m. Elevator trips to join these groups in the cavern lunchroom will leave from the elevator building at 9:45, 10:45, 11:45 a. m. and 12:45 and 2:15 p. m.

The 8 o'clock party will remain in operation until the need for this additional tour is ended Superintendent Libbey stated. This usually occurs as travel decreases after Labor Day.

### Ida Wyman Sends Greetings

Ida Wyman, LIFE magazine representative, sent the following telegrams to Mrs. Ethel Altman, Mayor of Hope. "Predict news stand sellout of LIFE magazine next Friday, with two pages on my favorite New Mexico town. Please give my sincere thanks to the fine people of Hope for all their cooperation."

The second telegram was sent to Mrs. Tempie Cox, Mrs. Mabel Fisher, Mrs. Pauline Schwalbe and Ada Belle Trimble. In this one Miss Wyman said, "Where there is LIFE there is Hope and vice versa this Friday. Thanks for your fine help." Ida Wyman, Life Magazine, 9157 Sunset Blvd., West Hollywood, Calif.

### SCHOOL PICNIC

The 1st, 2nd, 3rd, 4th and 5th grades left the Hope school at 9:30 a. m. Friday for a picnic at James Canyon Park. They were accompanied by Mrs. Dick Carson, Mrs. George O. Teel, Mrs. Felix Cahape, Sr., Mrs. Warren Nunnelee and children, Mrs. Floyd Greene, Mrs. John Hardin and children, Miss Clara Marie LaRose, of Corpus Christi, Texas, who was visiting Mrs. Hardin, Mrs. Anderson Young and Mrs. Ralph Lea. Thrills, thrills and lots of spills the children had when they pretended they were mountain climbers and climbed to the highest bluff and then came tumbling down with no serious accidents. Most of the grown folks climbed to the top of the mountain and back down without sending for a wrecker to get any of us down. We enjoyed our lunche in the bright New Mexico sunshine as the breeze whistled through the pine trees. We left there about 2 p. m. and reached Hope at 3:45 p. m., just as tired and dirty as could be. We want to express our thanks to each of the parents who so graciously went with us—Mrs. Young and Mrs. Lea.

### Scout Troop 65 Is Re-Chartered

Troop 65 met last Monday night to recharter for another year. Men on the troop committee are George O. Teel, J. W. Trimble, Ralph L. Lea, Scoutmaster Luke Toyebo, Clem Weindorf, assistant scout master. Scouts registering are Roy Trimble, Sammy Trimble, Bobby Rex Seeley, Billy Crockett, Gordon Goddard, Johnny Wood, Jimmy Houston and Elmer Wood. Mr. Toyebo has done a nice job with the troop and deserves the support of the community in this worthwhile project.

### Hope News

Howell Gage was here Tuesday greeting old friends. He was on his way to Cloudercroft and Ruidoso.

Sheriff Dwight Lee and Broier Riley were callers in Hope Wednesday morning.

J. S. Windham, chairman of the county commissioners, and Rude Wilcox, county clerk, were callers at the news office Wednesday morning.

Mr. and Mrs. John Hardin and children and Mrs. Mary Hardin left Tuesday for Capitan where Mrs. Hardin will visit her sister for a while. The Hardin family returned Wednesday after a side trip to Nogal where they visited with friends. Mrs. Hardin taught school at Nogal a few years ago.

Mrs. Hubert LaRose and daughter, Clara Marie, of Corpus Christi, Texas, arrived here last Thursday and visited for a day at the W. E. Rood home. Saturday the visitors accompanied by Mrs. Rood left for a few days visit with friends in Phoenix.

Shorty Joy and Leslie Bates are planning a big barbecue to be held at Mayhill, July 10. Invitations are being mailed out to all the old timers.

Mrs. Bush of Phoenix is here this week visiting at the home of Mr. and Mrs. Chester Teague.

Charlie and Floyd Cole were visitors in Artesia Monday.

### News From Hope

Mr. and Mrs. Henry Johnson of Minneapolis dropped into Hope this morning for "Fiesta Day" and attended the celebration and also visited with Mr. and Mrs. W. E. Rood. Mr. Johnson is a cousin of Mr. Rood and had not visited together for about 40 years. The Minnesota visitors thought the celebration was wonderful.

Mr. and Mrs. J. L. Shepherd, of Alamosa, Colo., and Mr. and Mrs. Chester Schwalbe spent part of last week visiting the Carlsbad Caverns and Juarez, Mexico, and returned home by way of the White Sands and Cloudercroft. This was Mr. and Mrs. Shepherd's first visit to New Mexico. They returned home by the way of Santa Fe and Albuquerque.

The Ruth Drew Circl emet last Thursday at the home of Mrs. Jane Pitt. A covered dish luncheon was served at noon. Those present were Mrs. Cooper, Mrs. George Cassaborne, Mrs. Roy Bell, Miss Ella Lee Crockett, Mrs. Guy Crockett, Mrs. Dick Carson and the hostess, Mrs. Jane Pitt.

"Did She Do the Right Thing?"—Barbara Hanford was faced with a problem when her husband refused to allow her children any religious training. She decided to sacrifice her own happiness and after much anguish gave her children away. Don't miss this poignant story in The American Weekly, that great magazine distributed with next Sunday's Los Angeles examiner.

Carl Trimble and Simmie White, of Long Beach, Calif., arrived in Hope last Sunday morning for a visit with relatives and friends. This was Carl's first trip here in 24 years. Monday morning they felt for the Carlsbad Caverns. Simmie returned to Hope while Carl went on to Roswell, Portales, Clovis and Vaughn to visit relatives. Later in the week Carl returned to Hope and accompanied by Simmie they felt for Tucson where they expected to visit relatives before returning to California. Carl and Simmie are both employed as longshoremen.

### Editorials---

The town board will meet in regular session next week Thursday night. The mayor said the meeting is open to whomsoever wishes to come. I think they are going to try and think up something whereby they can make some more money. I know one thing, they won't be able to pull off another celebration like "Fiesta Day." That is, not for some time anyway.

Yessiree, we saw our picture in the Publishers Auxiliary this week. That was the first time any newspaper thought our picture was worth publishing. I think the Auxiliary owed us that much anyway because we have spent in the neighborhood of \$10,000 (more or less) for their ready print service during the past 50 years, well 40 years anyway. There was only one thing lacking, I should have had a seegar stuck in the side of my mouth like Mr. Ward G. Ferfley.

Tuesday, June 6 is primary election day. We should all take it upon ourselves to do everything we can to get the vote out. Everyone that is registered should vote. That is one privilege that every American citizen has—the right to vote and to vote as he thinks best. No one will dictate to you on how you should vote, they might ask you to vote for a certain person but it is up to each individual person to vote as you please.

The Hope people are waiting anxiously for the arrival of the LIFE magazine which will carry a story and pictures of the Hope Fiesta Day celebration. We were notified that LIFE would be out Friday, that means that probably Hope won't get theirs until Saturday or Monday. I don't know now we are going to stand this suspense.

When election day comes around, don't fail to mark up a vote for Jack Dempsey. He is running for U. S. Representative in Congress. He is capable and will do more for New Mexico than any other person we could send down there. He has represented us before this and he accomplished much good for the entire state of New Mexico while he was there. The Hope precinct is going to give Jack a 100 per cent vote and it would be advisable for other parts of the state to do likewise. When we send Jack Dempsey down to Washington we know we will be represented. He's no figure head and he wears his own collar.

From the viewpoint of the man on the street it begins to look as if John E. Miles is going to be our next governor. Eddy county is going solid for Miles and he will carry every county in the state with the exception of one or two. The way we are predicting that the outcome will be is that Miles will win the nomination by a comfortable margin. Chavez will run second, Frazier third with Pickett bringing up the rear. Now just watch and see if we aren't right. Frazier hurt himself when he spoke over the radio and denounced the other three candidates in no uncertain terms. It is always a good thing that if you can't say something good about somebody don't say anything at all. Frazier lost hundreds of votes by that one talk over the radio.

This being mayor even of a little town like Hope carries some responsibilities. The mayor will have to represent Hope at the highway 83 association meeting in Artesia in June, then on July 10 Mrs. Altman and her husband should attend the barbecue at the Mayhill camp ground in honor of the old timers. This is being sponsored by Shorty Joy and Leslie Bates. They are going to furnish the beef, coffee, pickles etc and if some of the ladies want to bring a pie or cake that will be perfectly all right. And then after that Cloudercroft will without doubt pull off a celebration in honor of the opening of the new highway and of course Mrs. Altman will want to attend that and make a little talk. After all this being mayor isn't going to be all milk and honey.

### New Chemicals Make Plants Insect-Proof Federal Entomologists In Experimental Study

New chemicals that make plants toxic to insects for short periods are being tested by scientists of the U. S. department of agriculture. These chemicals kill insects that suck the juices of treated plants. They are known to the entomologists as "systemic poisons" and should not be used by the public until further tests have been made.

Studies now are in progress to determine if these insecticidal chemicals will break down into harmless compounds within a few days or weeks. If they do, a new

A farmer fills a fertilizer attachment in this photo, typical of the teaming up of fertilizer and chemicals that result in the best farm production.

approach will be available to American agriculture in the control of some of the most difficult insect pests, according to entomologists of the federal bureau of entomology and plant quarantine.

### Beef Herd Decision Problem in Corn Belt

Whether or not to have a beef herd is a long-time decision for the corn belt farmer.

Under average corn belt conditions, a cow can be credited for a 450 pound calf at weaning time. For instance, if you had a 30-cow beef herd on a corn belt farm and a 90 per cent calf crop, you'd have 27 calves worth around \$135 each. Or, at 30 cents per pound, a gross income of about \$3,600. If four replacement heifers were kept back, there'd be 23 calves worth \$3,100 and four cull cows, worth about \$1,000, to sell.

There would be a gross income of \$4,100 to cover the cost of maintaining a herd of 35 mature animals, including 30 cows, four heifers and one bull, or about \$117 per animal per year. If you used the average value of cows and calves over the past 15 years as a yardstick, your gross income would be about half of \$4,100.

### Clothes From Sacks

With feed manufacturers vying with each other to create pleasing bag designs, rural America has the opportunity to turn these sacks into many glamorous garments. Here, Jackie Frehand, member of the Wanchese 4-H club on Roanoke Island, N. C., feeds chickens from one of the flowered feed bags, especially designed for re-use by customers.

Mr. and Mrs. Newt Teel and Chester Schwalbe were transacting business in Artesia Monday.

### God Has a Plan

Lesson for May 28, 1950

**G**OD HANDS DOWN no blue-prints. He never yet has been willing to save any man the trouble of thinking. The Bible is God's guidebook, and in it is revealed God's will. But it is not a guidebook of such a sort that you can take it from the shelf and look up in it the answer to every one of your problems in detail. Nevertheless the Bible is a guide, "the inflexible rule of faith and practice" as some churches express it.

Dr. Foreman

God's will is shown there plainly enough so that we can know whether we are building on the right foundation or not.

### Sins Into The Sea

**N**OW THE PLAN of God is so simple, that is, it can be so simply expressed, that one is almost tempted to say, "Oh, that!" as if it were something we knew already. Well, we do know it. But the thing is, we don't do it.

Part of God's plan for mankind, a very important part, in fact indispensable—something the Bible talks about from the beginning to end—is this. The forgiveness and the destruction of sins. (Micah 7:18-20.) Now everybody can see others' sins.

The Romans used to say that every man carries others' sins in a bag in front of him where he can see them very well, but his own sins he carries in a bag hanging down his back where he cannot see them.

We are all in favor of other people's forsaking their sins. But how about you? The world does need to confess its sin; but you need to confess your own. No sins walk by themselves; sins exist only in sinners. Sin does not commit itself. Sin is something a sinner does. We shall never get rid of sins by exhorting other people. We get rid of them by repenting in the presence of God.

### If Not Peace, Then What?

**W**E ALSO KNOW something about God's plan for society at large. The Bible does not leave us in the dark. One thing that Micah brings out is the ideal of peace, (Micah 4:1-5.)

So long as we are making war, preparing for and expecting war, doing or saying things that make war inevitable or even likely, we are out of line with the will of God. Conversely, whatever we do to foster peace is in line with the plan of God. War was bad enough in the days of Micah; it is incalculably worse today.

War always was the effect and cause of hate, it always brought suffering and death, war seldom settled anything.

Any war nowadays is a war against the whole human race, for any large-scale war with atomic weapons may well make the entire globe uninhabitable by man. A voice for war is a voice for universal death.

### Christ The King

**S**INLESS MAN is a warless world; such is God's plan. Is this possible? Only on one condition; that Christ shall be king. (Micah 5:2-4.) This has two meanings, one far-off, and one near; one complete and one partial. The far-off, completed meaning (which may be nearer than we think) is that after the history of this planet is over and done with, in the "new heavens and the new earth" the final destiny of God's people is to live under the Lord Christ as leader and king.

The nearer, here - and - now meaning of Christ's kingship is this: Wherever, in the plans of men, the spirit of Christ, his way and his ideal, are being trampled on or ignored, there God's plan is forgotten and there disaster is certain.

But wherever the spirit of Christ is in control, there God's plan is being carried out and there the Kingdom of God is coming nearer.

## BASEBALL FOR BOYS

# Little League Provides Baseball For U.S. Youngsters 8 to 12

Most people when thinking about organized baseball instantly picture the major or minor leagues, the set-up ruled by czar "Happy" Chandler. They miss entirely the strongest baseball idea which has ever spread over the United States, that of the Little League.

baseball scaled down to fit boys between the ages of 8 and 12. This year at least 37 states will compete for national honors in the Little League. In 1949 some 21,600 boys, comprising 1,200 teams, and representing 22 states saw action on the small fry diamond. The Little League tournament, similar to the major league world series, has played to capacity crowds for the past two seasons and made a big hit with newsreel audiences.

The phenomenal growth of baseball for boys is the success story of a man with an idea, Carl Stotz, of Williamsport, Pa. In 1938, while watching a bunch of kids trying to play baseball on a regulation diamond, with inadequate equipment and without the benefit of coaching and organization, he conceived the idea of the Little League.

Eddie Listander, hurler for Pensacola, runner-up in the 1949 Little League world series, shows Mickey McConney, chief of the scouting section of Brooklyn Dodgers, his pitching form.

### Teams Are Sponsored

Although the country has not fully recovered from the depression, Stotz started out to find a sponsor who would help him financially get the idea working. He made 56 calls before he succeeded.

The 57th call produced results. Three other sponsors quickly fell into line and the Little League opened with four teams. The first year, however, was little more than supervised sandlot play. But each year the idea has captured the imagination of more people, until today Stotz gives his full time to the organization as president and commissioner of the league.

All teams and leagues are sponsored locally. It costs approximately \$200 to uniform and equip a team, or \$800 for a four team league. The U.S. Rubber company supports the national Little League headquarters and bears all expenses of the week playoff at Williamsport for the national pennant. The league is specifically for boys between the ages of 8 and 12. Each team consists of 12 uniformed players with not more than six eligible reserve substitutes. No team is allowed to have more than five players in uniform who are 12 years old, and, not less than three players age 10 or less.

The regulations specify that a league consist of from four to six teams. There is no limit on the number of leagues in a city or community. The national organization covers the league from local champions to state and sectional champions, and, finally the Little League world series at Williamsport during the last week of August. The regulation diamond has been scaled down to two-thirds size for the kids. The bases are 60 feet apart and the pitcher stands 40 feet and 4 inches from home plate. The

Safe at home calls the umpire in the first inning of the 1949 Little League world series at Williamsport, Pa. Munci Sacco, captain of the Hammonton team, is shown sliding. Jerry Miller is the Pensacola catcher. Hammonton won the series.

number of innings a pitcher can work are limited to nine a week. Six innings are considered a full game. Bats and balls are the same size as those used in the major leagues, but lighter.

To make the game as much like the major league as possible and practicable, a fence is placed around the Little League diamond on an arc 180 feet from home plate. It permits the kids to slam homer over the fence just like their big brothers.

### Mothers Are Fans

In the interest of safety, steel cleats have been banned from the league and now sport goods manufacturers are making a special rubber sole shoe for the kids. Uniforms are standard, and professional umpires, working free, call all the Little League world series games.

# Star Dust

## STAGE-SCREEN-RADIO

By INEZ GERHARD

**G**LORIA SWANSON'S career has been a series of triumphs, won by plenty of hard work, a remarkable personality and unusual looks. She began her movie career when she was 14, became a star in silent pictures, tackled the talkies and succeeded when others failed, did the same with television. One of

GLORIA SWANSON

her greatest victories was won when she refused to have her nose made over! When her picture career petered out in 1932, she became a successful business woman and has made only three films since then; the latest, Paramount's "Sunset Boulevard," is so good that hardened critics have seen it three times. Once again she has proved she is the fabulous Gloria.

"The Theatre Guild of the Air" vacations beginning June 4, but will return Sept. 10 on NBC for a 39-week period, again sponsored by U.S. Steel. Starting June 11, the same company will sponsor a 13-week series of broadcasts by the NBC symphony orchestra, as it did last year. Famous conductors and distinguished soloists will appear in programs of light classics.

Bill Holden says his two young sons suffer from "Hopalong Cassidy-itis;" like thousands of other youngsters, they never miss their idol's television shows. Bill doesn't know it yet, but something new has been added to those Hopalong suits and guns that children now demand; it's "Hopalong Cassidy" wallpaper. Now will the paper hangers be busy all summer!

MacDonald Carey, in New York to publicize "The Lawless," set a record when he appeared on 80 television and radio shows during the two weeks, and made 30 other appearances before press, public opinion and exhibitor groups.

Five technical advisers were employed for scenes in RKO's "The Secret Fury," starring Claudette Colbert and Robert Ryan. They checked on sequences laid in a psychiatrist's office, a mental hospital, a jail and county offices.

Jan Sterling had to cope with rumors that she was engaged to Paul Douglas as soon as she began wearing those rings he gave her—three gold bands, each set with a pearl topped by a tiny diamond. They fit over each other.

Doris Dalton, playing the new role of "Vivian Jarrett" in "This Is Nora Drake" on CBS, has had an impressive stage career. She has appeared in any number of plays, played opposite John Barrymore in "My Dear Children."

Marlene Dietrich and Richard Todd's longest kiss in the romantic mystery thriller, "Stage Fright," lasts only eight seconds because at present we are not involved in a war. Seems that experts at Warner Bros. figured out that, unless there's a war going on, film fans soon become bored by lengthy osculations, so Marlene and Richard were held down.

Bing Crosby says he'll use his four sons on broadcasts only about once a year. "From what I hear from their mother, that's enough," he explained. "Dixie says it takes about two weeks to cool 'em off after they've done a show."

Lucille Ball and Desi Arnaz may soon be homeless; the star of Columbia's "The Fuller Brush Girl" and radio's "My Favorite Husband" learned that their home is in the center of oil property. And they don't own oil rights!

The Real Issue on Election Day, June 6---

## Will Dave Chavez be Elected Governor or will John Miles Win the Nomination?

There are five candidates but the race is between John Miles and Dave Chavez. One of these two will be your next governor. Miles will draw support from every county in the state. Chavez expects few votes from this county. But he hopes enough people will vote for Pickett, Frazier and Eager to reduce the vote on the east side.

In his mind a vote for any of them on the east side is a vote in favor of Chavez. He knows the real race is between himself and Miles. He expects to win because he thinks you will not recognize the real issue.

**PROTECT YOURSELF.** If you don't want Chavez vote for Miles. That's the only way to thwart the Chavez plan.

### Milk Pelletizing Aids Poultry Feed

#### Milk Products Are Found Important to Egg Output

That milk products are still among the most important ingredients in a laying ration is indicated in results of a series of feeding tests conducted with high-producing flocks in New England poultry areas earlier this year.

The tests, which ran an average of 164 days, were conducted at a state agricultural college, a county vocational agricultural school and commercial poultry farms. Results showed an average additional profit of 26 cents each for hens fed

Joseph Ruzzo, Hope Valley, R. I., is shown at his egg candler-grading machine. Raising from 12,000 to 13,000 birds annually, Ruzzo says he has recorded a 12 per cent increase in egg production from his test flock which was fed pelletized milk products in the 1948-49 laying season.

milk products in addition to rations regularly fed on the test farms. Nearly 3,000 birds. New Hamp-

shires, Rhode Rocks, and a Barred Cross were involved. On each farm flocks were divided into test and control pens. The control pen received the ration normally fed on the farm. For instance, the state college fed the New England college conference laying ration, the county school used its own formula ration, and the commercial poultrymen fed various commercial laying mash. In each case test and control pens were of the same age and breeding, and received the same care and management except that the test pen was fed a pelletized dairy products feed in addition to the normal ration. Accurate feed cost and egg production records were kept. For purposes of making profit comparisons, 55 cents a dozen was used as an average egg price. When results were tabulated and averaged, it was found that the test pens fed the milk product, laid an average of 8 per cent more eggs and made an average of 12.3 per cent more profit. Egg production for test birds averaged 64 per cent throughout the tests, compared to 59 per cent for control birds. Average feed cost per dozen eggs was 29 cents for test pens, 28 cents for control pens. Culls and deaths in test pens averaged 15 per cent. Highest average egg production was 74.4 per cent made by a test pen of Barred Rocks at the county school over a six-month test period. There the control pen averaged 69 per cent production. Birds in the test averaged \$3.06 net income per bird (eggs over feed), compared to \$2.71 per bird in the control pen.

### Term 'Hybrid' in Swine Applicable to Offspring

The term "hybrid" has come to mean superior producing ability to the corn grower. It is natural, therefore, that the terms "hybrid hog" and "hybrid boar" should interest corn belt pork producers. It seems quite clear, most agriculturists are agreed, that "hybrid vigor" eventually will increase greatly the efficiency of livestock production. Informed breeders, however, believe that there are not yet available adequate dependable sources of boars for producing hybrid hogs.

Furthermore, the name "hybrid" in the accepted sense of the term should be reserved for the litters produced by the market-hog farmer.

### Vote for the man who gave you Reapportionment

### Virgil O. McCollum Candidate for State Legislature

He Voted against the 2c gas tax  
He voted for all Veterans Measures,

He will work for—

1. Further correction of legislative apportionment.
2. Dividing the state into districts for congressional representation.
3. A constitutional convention.
4. A legislative bureau.

### CALENDAR for JUNE

- June 1-2-3—CLOVIS—Pioneer Days Celebration, Rodeo, Parade, Square Dancing, Fiddlers' Contest, Beard-growing Contest and others.
- June 4—LAS VEGAS—Annual Sports Day, Storrie Lake.
- June 7-11—CARLSBAD—New Mexico Women's Golf Tournament.
- June 11-18—ALBUQUERQUE—Southwestern Golf Tournament.
- June 13—SANDIA INDIAN PUEBLO, annual fiesta. TAOS PUEBLO, Ceremonial Dances. Feast of San Antonio de Padua celebrated at CORDOVA and various other northern rural villages. Celebration Corn Dance, San Antonio Day, TAOS PUEBLO.
- June 15—San Isidro Fiesta, LOS CORDOVAS. Spanish-American Fiesta, TAOS PUEBLO. TAOS—Corpus Christi Procession.
- June 16, 17, 18—SANTA ROSA—New Mexico F.F.A. Rodeo.
- June 18—FARMINGTON—Rodeo and race meet. SANTA FE—Religious procession of La Conquistador from St. Francis Cathedral to Rosario Chapel, commemorating the reconquest of New Mexico from the Indians by De Vargas in 1692.
- June 23-July 1—ALBUQUERQUE—Nat. Collegiate Golf Tournament.
- June 24—TAOS AND ACOMA PUEBLO—San Juan Day, Celebration Corn Dance.
- June 25—Return of De Vargas Memorial procession to St. Francis Cathedral, SANTA FE.

You'll enjoy attending New Mexico's Pageant of Events . . . just as you enjoy the fine flavor of good beer . . . for beer is the beverage of good fellowship and sensible moderation.

# HOUSEHOLD MEMOS... by Lynn Chambers

Use Dry Sugar Pack for Frozen Berries  
(See Recipes Below)

### Stock Your Freezer

SO MANY FOODS like peas, asparagus and strawberries which are coming to their peak of season now yield excellent results when frozen. If you have either home or commercial facilities for keeping them in this way, then it's time to make your plans soon.

Freezing foods is quick and easy. Results are excellent, and your table in mid-winter, showing off these delicacies, takes on the effect of a banquet. The flavor and goodness of fresh foods is preserved during the freezing process. However, it's important to remember that foods come from the freezer just as good as when they are frozen, and no better.

### Speed is Essential

Utmost speed should be used in getting fruits and vegetables into the freezer. The two hour rule which applies to canning should be used here, too. It's easier to observe, however, because there's no processing time to consider.

If you have your own garden, pick vegetables and fruits early in the morning while the dew is still on them.

If you have to arrange to buy them, try to observe the same rule. Fruits and vegetables which have stood around are not as tender as when first picked; neither do they have the food values as freshly picked produce.

Have all equipment in readiness so that you can go ahead with full speed. Vegetables will have to be scalded, then dunked in ice water. Containers should be ready to fill and seal.

Plan to put foods in your own refrigerator promptly and plan to get them into your own or the commercial freezer as quickly as possible.

### Freezing Raspberries, Strawberries

Both raspberries and strawberries give best results when they are frozen with sugar rather than with syrup since they will make their own juice in the carton.

Choose varieties which have been successfully tested for freezing. In raspberries these are Cuthbert, Latham or Viking. A 24-quart crate or about 36 pounds of raspberries will yield 24-26 quart cartons, each quart serving 6 to 8 people.

Marshall is the best common variety to use for frozen strawberries, a 24-quart crate will yield about 30 quart cartons.

Wash the berries in water which has been cooled with ice to 40°. Do not allow them to remain in the water for more than 30 seconds. A good way to do this is to place the berries in a colander, after sorting, and then place the colander in water sufficient to cover. Shake gently, lift from water, drain and remove caps, using a sharp knife.

Place the fruit on a tray which has been lined with several thicknesses of absorbent toweling and place in refrigerator to drain and cool.

Place drained and cooled berries in a bowl and sprinkle sugar over

Strawberries with Cream  
Cookies

them, using one part sugar to 4 parts of berries. Or, alternate sugar and berries in freezing carton. Seal and freeze carton at once.

### Frozen Peaches

Use tree-ripened varieties, such as Hale Haven or J. H. Hale in the yellow types. One bushel of peaches will give about 24 quart cartons frozen.

Place about 18 peaches in a wire basket and plunge into hot water for one minute, then in cold water and slip off skins. Slice and place in a bowl, sprinkling with one tablespoon of lemon juice as you do so. Add sugar, one part to four of fruit. Turn gently with wooden spoon.

Pack gently into carton and seal. Freeze at once.

Handle peaches gently and make certain all sugar is mixed with fruit before packaging.

Allow 1/2-inch head space for fruits and vegetables packed in pint cartons. Allow about 1/4-inch additional when using quart cartons.

### Frozen Peas

Tender, not fully matured peas are best to use. Wash pods before shelling and discard all small or wrinkled peas.

If pods are full and difficult to shell, scald with boiling water for one minute.

Peas then, should be scalded, after shelling, also: by steam, three minutes; by boiling water, one minute; or by pressure cooker for two minutes. Cool in ice water and drain on absorbent toweling.

Seal at once and place in freezer or refrigerator immediately, not allowing more than one hour to elapse from the time they are packaged to the time freezing starts.

The varieties giving best results are Thos. Laxton and Alderman. One bushel yields 6-8 quart cartons.

### Frozen Green Beans

Iron utensils should not be used for scalding as they will discolor beans during scalding.

For small beans, cut shoestring style, scald with steam for five minutes, or by boiling water for three minutes. For medium whole beans, use steam for six minutes, boiling water for four minutes or give them five minutes in a pressure cooker.

Cool in iced water, drain, pack and freeze.

For quick preparation, after washing, grasp as many beans in hand as possible and snip off the stem end.

## MIRROR Of Your MIND

Mother's Love Must Be Wise

By Lawrence Gould

Do all mothers want their sons to be men?

**Answer:** Most mothers would say they do, but unfortunately a good many do not. A woman who at heart hates men or resents what she regards as the unfair advantage their sex gives them over women will unconsciously be tempted to express these feelings by suppressing all distinctively male qualities in her son. She may smother the aggressive impulses without which he cannot win a man's place in the world, or make him so much afraid to play the male role with a woman that he either will not marry or will submit to a wife's domination.

than the writer. For the writer can express his own ideas and daydreams, while the actor plays a character who is not himself and expresses the emotions of the playwright. Both types usually are neurotic, but the actor is the more inhibited of the two.

Are "marriage prediction tests" trustworthy?

**Answer:** No, thinks Dr. Albert Ellis, consulting psychologist and marriage counselor. Many of them have been worked out on an "arm-chair basis," and tested on people who are not fair samples of the general public. They have shown enough success to justify further experimenting with them, but not yet enough to "have much practical value in predicting the marital adjustment of normal individuals. . . . The present-day widespread use of marriage prediction scales for individual marriage counseling practice cannot be scientifically encouraged."

Are writers "frustrated actors"?

**Answer:** No, says Dr. Edmund Bergler in the magazine, Imago. This curious theory, recently offered in an explanation of Dickens and Poe, is at variance with psychoanalytic findings. The immediate urge of both writers and actors is to "show off," but the actor really does so less directly

## LOOKING AT RELIGION

SO GREAT WAS THE INFLUENCE OF THE PREACHING OF PAUL IN ASIA MINOR, THAT THE PEOPLE BURNED THEIR BOOKS ON MAGIC.

### KEEPING HEALTHY

## Coronary Disease Hits Men Often

By Dr. James W. Barton

**ALTHOUGH HEART DISEASE** is the greatest killer of modern times, it is only in recent years that one form of heart disease—coronary sclerosis or occlusion—has made itself generally known. In coronary heart disease, a blood vessel supplying the heart itself with blood gets hardened or clogged up (blood clot) or broken so that a portion of the heart cannot get its blood supply until repairs, healing or new vessels are established. High blood pressure is the usual cause.

While infection is a common cause of this damage to the heart, and heavy eating and overweight also add to the danger, there are cases in which the cause is unknown.

In several previous articles, I have pointed out that research workers state that emotional disturbances are a big factor in causing coronary sclerosis.

In "The British Heart Journal," Drs. J. A. Ryle and W. T. Russell report their findings in Reports of

the Register-General (covering a 25-year period) as regards deaths from coronary disease in England and Wales. They found that the death rate among persons aged 35 years and up in 1945 was greater than in 1921. "There is evidence that in the age period 40 to 55 the male death rate was increasing more rapidly than that for females."

The records show that the male death rate in middle life is five times as great as that of females. The death rate from coronary disease among men 45 to 55 in the highest social class is nearly 10 times as great as that of their wives. Men in this class are mainly those in professions and business administration.

The symptoms occurring in those individuals before a heart attack are angina (pain in chest) which is brought on more rapidly by walking immediately after a meal, on a cold day, in a state of anxiety or fatigue.

## NO MORE HARSH LAXATIVES SAY HAPPY COUPLE

"When I heard of ALL-BRAN I begged my wife to try it. She did. It brought her amazing relief from the misery of constipation. We can't thank you enough!"  
Otto L. Kleppe, 1808 10th Ave., S., Minneapolis, Minn. Just one of hundreds of unsolicited letters from ALL-BRAN users. If you suffer from constipation due to lack of dietary bulk, do this: eat an ounce of tasty Kellogg's ALL-BRAN daily, drink plenty of water! If not completely satisfied after 10 days, return empty carton to Kellogg's, Battle Creek, Mich. Get DOUBLE YOUR MONEY BACK!

**DO YOU  
VOTE FOR  
THE MAN  
THE  
PLATFORM  
OR  
BOTH  
?**

JOHN E. MILES

**The Man . . .**

We could fill this entire paper telling you about John E. Miles—his record as a public servant—his wide personal friendships—his proven ability. We will gladly send you printed literature which will give you a complete picture of "The Man" best qualified to be your next Governor. "Ask the man who knows him."

**The Platform . . .**

1. Continued advancement of education, and protection of the present sources of revenue for the schools. Broadening opportunities for higher education of New Mexico high school graduates.
2. Further the program of putting New Mexico's highway construction program on a pay-as-you-go basis, and reduction of the gasoline tax at the earliest possible time. Increased emphasis on construction of secondary and farm-to-market roads, and improvement of transcontinental highways to bring them up to requirements of present day traffic demands.

3. Sound business practices in all government departments. Savings through efficiency and no increase in taxation. Protection of the rights of the aged, the blind, the dependent children.
4. Give full support to the State Public Health Department in carrying out its program for greater protection of the health of New Mexico residents.
5. Emphasis on development of New Mexico's resources, with increased efforts for general economic development along all lines.
6. Cooperate with the Federal government in making possible more effective use of our water resources.
7. Develop a program of possible construction projects throughout the State as an effective backstop against unemployment when and if the need arises.
8. Cooperation with Labor in working out programs for the best interests of labor and industry.
9. Cooperation with New Mexico business and industry to bring about a period of economic expansion that will assure prosperity and increase employment opportunities.
10. Continue the program of national advertising to promote a greater flow of tourist traffic and increased use and enjoyment of our great assets of scenery, climate and opportunities for outdoor vacations.
11. Establishment of a non-partisan Government Survey Commission for New Mexico to study the possibility of combining, streamlining and abolishing governmental agencies in order to save money and to accomplish greater efficiency.
12. Veterans preference in employment where qualified, with special consideration to former prisoners of war and disabled veterans.

### Fertilizer Is Bargain

How much you get for a dollar you spend today as compared with what you could have got back in 1926, depends on what you buy with that dollar.

U.S. bureau of labor statistics show that building materials that could have been bought for \$1 back in 1926, cost \$1.89 today. Food that would have cost \$1 back in those days, now costs you \$1.51. A dollar's worth of textile at 1926 price levels, today costs \$1.37. Fuel and lighting materials cost \$1.30.

### Remote-Control Switch Convenient for Farmers

Farmers now can turn their farm yard light off and on from a half-dozen places with a new, remote-control multiple switch.

A farm electrification specialist explains that the heart of this new control is a magnetic relay which will turn the light on or off from as many points as desired by means of simple push-button switches. It is said the unit is very economical to operate and easy to install.
