Hope, Eddy County, New Mexico

Friday, Sept. 22, 1950

Chaves, Eddy Co. Sheepmen Organize New Wool Co-Op

The Artesia Wool Producers Co-operative has been formed by southeastern New Mexico sheepmen. Temporary officers were elected on August 10, during a meeting in Artesia. Bryan Runyan of Hope was elected president and Frank McWilliams of Carlsbad, secretary-treasurer.

The group estimated that more than 600,000 pounds of wool could be obtained from those attending the meeting and that more than 1,000,000 pounds a year would be necessary to operate the co-operative on a sound business basis.

Members of the temporary board of directors are: George M. Casabonne, Joe H. Clements, and Mr. Runyan all of Hope; Frank McWilliams, Carlsbad; Ralph Vanderwart, Jr., Roswell; W. A. Gage, Pinon; Clement Hendricks, Flying H; Sam Williams and Leslie Martin, both of Artesia.

Other wool growers attending the meeting included R. J. Parks, Carl Lewis, E. J. Treat, Ross Sears, L. B. Feather, Doyle Hankins, Fred Cole, Artie McAnally, E. H. Bunting, Felix Cauhape, Edmund Runyan.

George S. Teel, Henry Crockett, Al W. Woodburn, Neal Watson, attorney, Max Cartright, Clarence Stevenson, Clyde Parks, G. F. Newman, H. G. Peveler, Floyd Greene, Frank W. Runyan, E. B. Bullock and F. E. Watts, all of Chaves and Eddy Counties.—New Mexico Stockman.

Sheep Growers Enjoy Barbecue

In regard to the sheep growers touring party the New Mexico Stockman has the following to say in regard to the dinner that was served at Walnut Grove.

"Everyone was ready for the food served at the historic Walnut Grove on the Penasco River. There was plenty of barbecued lamb, pinto beans and everything else that goes with it.—that is, part of the meat was lamb and part of it was goat, as the party was informed somewhat later by Bryan Runyan. Lamb or goat, it was mighty good. Everything for the meal was furnished by ranchers of the region, including Raymond Davenport, Bill Watts, Edgar Watts, Buzz Taylor, George Teel, Runyan Brothers, John Cauhape, Jr., Lloyd Treat, Scharbauer Ranch, Flying H. Ranch, Joe Clements and the ladies of Hope, Dunken, and the Penasco River communities. Meat was cooked by Bryan Runyan and Harry Thorne."

The cavalcade went through Hope on their way up and there must have been 300 cars in the party.

Old Timer Visits Hope

G. R. Howard, of Loving, stopped at Hope Tuesday morning to buy some gas. He was on a trip here buying lambs and didn't want to get stalled out here away from no place with an empty gas tank. Therefore while the service station operator was filling the gas tank a News reporter enjoyed a visit with Mr. Howard. He said, "Thirty years ago, Hollis Watson and myself were on the board of county commissioners together and we were the ntrying to get a new bridge at Eagle Draw. I notice where the Hope newspaper is still trying to get a new bridge. Did you know that the road from Hope to Artesia was the first graveled hard surfaced road in the county? I think it was in 1921 that the Hope-Artesia road was blacktopped and the contractor must have done a mighty good job as it has never required patching." Continuing, Mr. Howard said, "I knew a lot of the old timers that lived here at that time such as Hugh Gage, Newt Teel, Mr. Fite (who now lives in Carlsbad), Bryant Williams who then peddled groceries with a horse and buggy." As Mr. Howard drove off, he promised to come back to Hope some of these days and bring Hollis Watson with him for a real visit.

"Ex-Convicts Are Her Business" . . . When her father refused to hire a man with a prison record, young Mary McLean decided to devote her life to helping released prisoners. Don't miss her heartwarming story which appears in The American Weekly, that great magazine distributed with next Sunday's Los Angeles Examiner.

Phone Co-Op Seeks REA Loan

A special dispatch to the El Paso Times from Artesia enlightened us quite a bit about the Penasco Valley Telephone Cooperative which was organized several months ago. The editor of the News was under the impression that an application for a loan had been sent in to Washington some time ago, but evidently we were wrong. But here is what the Times special dispatch has to say about the meeting:

"Board of trustees and interested members of the Penasco Valley Telephone Co-Operative met Wednesday in Artesia to discuss submission of an application for an REA loan.

"Representatives of the Lakewood, Cottonwood, Hope, Mayhill and Cloudcroft area were present. George Teel, Hope, is president.

"At the morning meeting, Richard Dell, chief of the telephone section of the REA application and loan division Washington, told the group of progress and problems the REA has encountered in issuing loans to telephone co-operatives. He pledged his help in securing a loan for the local co-op.

Representatives of the Mountain States Telephone & Telegraph Co. met with the group in the afternoon to discuss problems which would arise between the company and the co-operative. Phone officials included W. F. Hinde, local manager; H. H. Hembry, district manager, El Paso and D. A. McLean, general service line and connecting company supervisor, Denver.

The trustees will make another survey of the territory in order to include all persons in the area who wish telephone service in the next application for a loan from the REA.

Hope Girl Is Among Top 100 in U. S.

Word has been received by Mr. and Mrs. Chester Teague of Hope that their daughter, Dorane, who is enrolled at the E.N.M. U. at Portales, ranks among the top 100 in the United States on her entrance examination as a freshman. Dorane graduated from the Hope high school last spring as valedictorian of her class.

The above news item speaks well for the Hope school. It also proves that if a student wants to learn, they can do it here in Hope just as well as some other place.

George S. Teel Is Found Dead On Thursday

George S. Teel, prominent rancher of near Hope and a civic leader, was found dead on his place about 3 o'clock Thursday afternoon by his son-in-law, Guy Crockett. He was about 60 years old.

Mr. Teel had been at the house at noon for his lunch and apparently was in his customary good health.

It was reported that he had been irrigating and friends said he probably suffered a heart attack.

It was impossible to learn details of Mr. Teel's life immediately, but he had been a rancher in the Hope vicinity many years.

He was active in the newly-formed Highway 83 Association, which was organized here some weeks ago, was a director of the Peoples State Bank of Artesia and was president of the Penasco Valley Telephone Co-Operative, which was founded early this year. Mr. Teel likewise had a number of other activities of a civic nature in which he participated.

Mr. Teel is survived by his widow and three children, Mrs. Guy Crockett and George Olen Teel of the Hope area and Mrs. E. L. Hart of Roswell.

Funeral service are pending with Paulin Funeral Home of Artesia.—The Artesia Advocate.

FOR SALE—125 tons of rain damaged alfalfa hay. Good buy for ranchers desiring good cheap feed for stock. F. D. Hornbaker, Artesia, N. M., Route 1, Box 189, Phone 1119-J.

—adv. pub. 9-8-15-22-29

Mr. and Mrs. Homer L. Gifford from MacFarland, Calif., were here this week visiting old friends. They were located here from 1916 to 1918 farming the Reed and Wake place.

State Fair Is All Set to Go

New Mexico State Fair officials are dusting off the welcome mat and oiling the turnstiles at the fair grounds in expectation that the 1950 attendance will be the largest yet recorded for this great exposition.

Albuquerque is ready to turn out in its best Western bib and tucker to welcome visitors from all over the country to nine glorious days of excitement, education, and entertainment at the State Fair, Sept. 23 through Oct. 1.

"Come early," advises Pat Hill, State Fair publicity director. "Don't miss any of the fun! The grand opening day parade starts its procession down Central Avenue at 10 a. m. Saturday, Sept. 23."

A special feature of this year's parade will be Fred Harman—known to millions of kids as the originator of Red Ryder and his small companion, Little Beaver. There will also be handsome floats, gag floats, bands, marching units, sheriffs' posses and the State Fair queen contingent—32 beauties on horseback.

The fair queen herself will be selected from the 32 county representatives, in special ceremonies at the afternoon premiere opening of the fair, and the titlist will be crowned by Gov. Thomas J. Mabry at 1 o'clock.

Entries for the livestock shows, which closed Sept. 9, indicate the largest showing of blue-ribbon livestock in the history of the fair. Top stock from throughout the entire Southwest is being groomed for the fair rings. Among outstanding entries is Screen Star Greer Garson Fogelson's entry of four of her pure-white, imported beef Shorthorns.

The Junior Stock Show is expected to run the Livestock Show a close second with F.F.A and 4-H entries predicting the largest showing by New Mexico youth.

More than 55 industrial exhibits have already been entered with extensive exhibits and display booths.

Daily racing schedules show top-notch competition this year with thoroughbreds and quarterhorses vying for more than \$100,000 in purses, and pari-mutuel betting will add to the excitement of eight races daily and 9 on Sunday.

The midway will produce neck-cracking and open mouths. The Siebrand Brothers Circus and Carnival, combined, will play for the entire nine days of the fair.

There will be 22 rides, 15 midway shows and a full three-ring circus with such outstanding acts as Raval, the only man in the world to support his weight on his fingertips, the Hodgini Troup on the bouncing trampoline, Captain Harry Clark with his high-school horses, and Patine and Rosa, acrobats, featuring a sensational headslide. You'll want to see Tonko, world's only baby gorilla in captivity, and the many rides—mile-a-minute caterpillar, dipper, roller coaster, dodgem cars, ferris wheel, and merry-go-round.

The nightly rodeo will abound with thrills and chills of steer roping, bronc riding, bulldogging with welcome relief of special acts and the braver-than-anybody rodeo clowns. The rodeo will be over at 10:30 o'clock each evening so that State Fair patrons can see the great dare-devil aerial acts of the Great Albinis and the Parroff Trio, and each night the fair will close with a colorful and awe-inspiring fireworks display.

Mrs. Tom Harrison returned last week Thursday from a trip to California. She went there with Mr. and Mrs. Odeal Walters and son. They visited Mr. and Mrs. Pete Eskue and family and Mr. and Mrs. Tommy James and family. Mrs. Harrison brought back with her a radio and record player combination presented her by Mr. and Mrs. Tommy James.

Fred Morrison of Texas City, Texas, brother of Mr. Lyle Hunter and Mr. and Mrs. Jerry Collins and baby of Galveston, Texas, were here Saturday en route to Seattle, Wash., to visit Mr. Morrison's parents.

W. G. Davis went to Roswell last Saturday afternoon to attend a meeting of Bowman Lumber Company employees.

Hope News

Mrs. Fred Spikes of Lubbock, Texas left Saturday after visiting her sister, Mrs. Sam Hunter.

Bob Wood our Mayor Domo has a new pick-up. Must be plenty of money in the job of Mayor Domo. They have the job a few months and then blossom out with a new car.

The state highway department did some improvement work on our city streets last week for which we are truly thankful.

There must have been a rain up in the mountains. Bob Wood was around Wednesday morning distributing extra irrigating water.

Lyle Hunter of Hope broke into the limelight by having his picture published in an advertisement in the New Mexico Stockman. It sure looks just like him.

John Bush was a visitor in Artesia Monday.

Dick Westaway and Xury White were in Artesia Monday on business in connection with the county assessor's office.

E. F. Harris was in town Tuesday enjoying a game of pitch with some of the "boys."

Mrs. E. F. Harris, Miss Ethel Harris and Mrs. Floyd Cole motored to town Tuesday.

J. W. MacNeil of Carlsbad was up this week visiting Mr. and Mrs. Z. T. Cain and family. They are old friends of many years past.

Junior Newsom, son of Mr. and Mrs. M. C. Newsom of Hope will report for duty in the armed forces of the United States next Monday. Wherever he goes, the Penasco Valley News will be sent to him free of charge. Here's hoping that he comes back safe and sound.

Mr. and Mrs. Jim Wilson from Blackwell, Texas, are visiting at the home of their son, Curtis Wilson and family.

Mr. and Mrs. Ralph Lea spent Saturday in El Paso where Mr. Lea had a tumor removed from his temple. They returned home by way of Carlsbad and spent the night with Mr. and Mrs. B. A. Marlar.

Ben Marable left last week for Tennessee to visit his mother who is 86. Chester Teague was a visitor in Artesia Monday.

Orland Parker brought home a load of building material Saturday.

Lawrence Blakeney was employed by Ida Prude last week in making repairs at the Lano Tourist Court.

Mrs. Pearl Charles of Phoenix, Ariz. has been here the past week visiting her brother J. C. Buckner.

Mr. and Mrs. M. C. Newsom went to Roswell last Sunday to attend church services.

A baby girl was born to Mr. and Mrs. John Bush last Sunday night at the Artesia General Hospital. She weighed 7 pounds 9 ounces.

Mrs. A. A. Smith and Pila Ordunez were in Roswell Monday attending to business.

Dick Westaway and Xury White from Carlsbad were calling on friends in Hope last week.

Mrs. Leland Miller from Dunken was visiting friends in Hope last Friday.

Mr. and Mrs. Bill Jones are the parents of a baby boy born last Thursday at the Artesia General Hospital. The young man has been named Robert Calvin and weighed 7 pounds 4 ounces at birth.

Neva Dawson is now operating Van's Cafe next to the Phillips service station.

School News

Two new pupils entered in the 6th grade. They are Tommy Gene and Patricia Ann Perry from Conroe, Tex. Floyd Bryant was absent two days baling hay. We have so many pupils in our room we are thinking of moving to a different room, as this room is too small. Some of the pupils have made free hand drawings which are now on display in our room. Others have made posters on health which also are on display. Jerry Don Standridge has gone on a week's vacation to Oklahoma. A vacation is wonderful but he will be behind his class in all his subjects when he returns. The Home Economics has a Dr. Pepper vending machine. Since Dr. Pepper is mostly prune juice, it is a drink that will not injure the children and the Home Economics can make some needed money from its sale. Mrs. Saltee went with her nephew, Tadd Gordon, and the Brockmans, all of Carlsbad, on a picnic to Cloudcroft and White Sands Sunday. Letha Mae Newbill, reporter.

First and Second Grade News—We

Editorials---

State Highway Engineer Burton K. Dwyer, of Santa Fe, Oren Roberts, mayor of Artesia and Buster Mulcock, Democratic precinct chairman from Artesia were in Hope last Friday looking over Highway 83 and Eagle Draw Bridge. Mr. Dwyer said that it should not be long now before work started on Eagle Draw bridge. It could be possible that the sharp turns on 83 would also be eliminated.

State Police Chief Hubert Beasley and three others, are on trial this week up in Santa Fe in federal court. The four men were indicted by a federal grand jury on charges of conspiring to defraud another person of his constitutional rights. The other three defendants are State Patrolman I. E. Salazar, the former Dona Ana County sheriff, A. L. Apodaco and Roy Sandman former Dona Ana deputy.

The war over in Korea is going more to our liking now. The Allies have perfected a landing at Inchon and have been making a drive on Seoul the former capital of South Korea. The Kimpo Airfield has been captured and placed in service for all types of allied planes. The Kimpo Airfield is the best air base in Korea.

The state highway department has had a camp established a short distance west of Hope while repair work was done on highway 83. There were several bad stretches where the paving was pretty rough and these have all been repaired.

We notice in the Advocate that the editor is mad. It is about a meeting of officials in regard to a road out to Potash Mines. Well we can't blame the editor for being mad, we would be too. We haven't said anything about it but the editor of the News mad too, over a secret meeting and business transacted without the public knowing anything about it. But we are saving this up for some future time and when that time comes we are going to blast some one off the map. It may be a year or two in coming but it will be worth waiting for.

Mark Saturday, October 7, on your calendar. It is the deadline to register in order to vote in the November general election in New Mexico. Newspapers can publish this fact and radio stations can announce that everyone should register but no one can go out and rope and drag in the voters. And that is what it takes to get some people to register and later on to vote at the November election.

Over in our neighboring state of Arizona a woman, Anna Frohmler, has won the Democratic nomination for governor. She will be elected in November without any doubt. Her Republican opponent is a radio announcer. The Democratic nominee will have a job on her hands in cleaning up various departments of state government that has been flooded with grafters and leeches.

have a new pupil, Freddy Perry, in the second grade. That makes 12 of us. The first grade still has its nine. The confusion of the first days has all worn away and we are buckling down to work. Last week every second grader made a star in spelling. The first week all but one made a star. Some of the children who have not had any phonics must work harder than some of those who have. We almost forgot all we knew about reading last summer but this week we are reading in second grade books and some of us can read fast without missing a word. The first grade is in a new book. We finished the big one Wednesday. We have two work books and all of us have made a star on every page we have done. School is lots of fun. We like to play "The Muffin Man" and "I See You." But it isn't funny when we get our names in the black spot for talking, is it?

3rd, 4th and 5th Grade—All of the pupils in our room made 100 in spelling last week which was an improvement over the first week. Melissa and Floyd Jones were pleasantly surprised with a new baby brother last Thursday. Phyllis and Patsy Bush were glad to announce the birth of a new baby sister last Sunday. Johnny Hidalgo has been absent several days with a cold. We want to say "Thank You" to Dorothy Cooper for the interesting children's newspaper from England. We have a new safety poster in our room that shows us how to cross the street.

WEEKLY NEWS ANALYSIS

Truman Gives 8 Points for Peace; Reds Snap Defense Wall in North; New Wage Increases Are Reported

(EDITOR'S NOTE: When opinions are expressed in these columns, they are those of Western Newspaper Union's news analysts and not necessarily of this newspaper.)

TRUMAN:

Statement of Policy

In an obvious attempt to erase some of the confusion that has developed around the American foreign policy since General MacArthur's statement on Formosa, President Truman made a report to the nation in which he stated eight aims of this country.

At the same time he announced plans for doubling American armed strength to nearly 3,000,000 men and asserted our productive capacity would be pushed to any degree necessary to attain a victory for freedom and the rule of law.

In his speech which was broadcast over a world-wide hookup, the President made it plain that a world war would not develop unless the Communists drove new puppets against the United Nations forces in Korea.

By this he meant, of course, Chinese Communists who have been reported as massing troops near the Korean border.

However, he made it plain that we would stay in the conflict if such a decision was made. He then attacked Russia for violating its pledges of international co-operation and preaching peace, but practicing aggression.

The eight points expounded in his speech:

1. We believe in the United Nations.
2. We believe Koreans have a right to be free.
3. We don't want the Korean fighting to expand into general war.
4. We particularly hope the Chinese people won't be misled into fighting the U.N. and the American people who still are their friends.
5. We want none of Asia, Formosa included, for ourselves.
6. We believe in freedom for all far eastern nations.
7. We do not believe in aggressive or preventive war.
8. We want peace and "we shall achieve it."

KOREA:

Stab at Taegu

North Korean forces, in the greatest advance in several weeks, broke through the northern U.N. defense wall and sent two columns of tanks and troops within a few miles of Kyangju, 12 miles south of Pohang.

From there the columns could swing west and stab at Taegu from the rear, or continue to push for Pusan some 50 miles to the south. It was the most serious threat to U.N. forces in a number of weeks. Military men were wondering if the Communists had the strength to exploit their penetration.

On all other fronts U.N. forces were holding or counter-attacking. In the northwest U.S. troops continued to root out Reds dug in on a 3,000-foot ridge 12 miles north of Taegu and smashed several Red attempts to cross the Nakdong river.

On the south-central front U.N. forces further compressed the Red bridgehead across the Nakdong near where it joins the Nam river.

In the southwest U. N. forces were back in old positions west of Maman and Mason after breaking up new Red attacks. On this front the Communists reportedly lost 13,000 troops in four days.

In the air navy and air force planes continued to give close support to ground forces on all fronts, striking savagely with heavy explosives, rockets, napalm fire bombs and machine guns.

B-29's and B-26's continued to strike deep into Red territory.

LEWIS:

The Bear Growls

John L. Lewis, president of the United Mine Workers, and known in some quarters as the unhappy bear in labor's ranks, has growled again. This time the victim was AFL President William Green.

Lewis told Green in no uncertain terms that his union would not be bound by a no-strike pledge during the war emergency.

He charged Green of bartering the rights of labor to appease his "innate craving for orthodox respectability" and added: "Restrict your pledges to your own outfit. We can do our own no-striking."

Some believed Lewis used this means of getting back at Green for not including the miners in unity talks between the AFL and the CIO.

Conference

Chairman Millard Tydings (left), senate armed services committee, and house armed services Committee Chairman Carl Vinson, (right), are shown at the White House after conferring with President Truman on a new tank program which will cost an additional \$500,000,000.

LABOR:

What's in the Future?

The Ford motor company tore up an unexpired contract with the United Automobile Workers and granted an immediate 8-cent-hourly cost-of-living wage increase. Previously, the Chrysler corporation had made a "voluntary" wage adjustment of 10 cents an hour. On top of this the White House announced the long dispute between the A.F.L. switchman's union and 10 western railroads had been settled with an agreement that gives the union a 23-cent-hourly wage boost.

With these facts in mind, economists are asking what's in the future for the American people? They came up with the immediate answer that it will force the nation into direct wage and price controls much sooner than would otherwise have occurred.

The Ford company's labor relations is always a pattern for the automobile industry. Other companies will follow this trend, most observers agreed.

Current hourly pay of the average automobile worker is estimated at \$1.75. Rates for skilled craftsmen, such as tool and die makers, run about \$2.50.

Most economists believed the new wage increases would be reflected in the price of automobiles within the near future.

Observers reported the over-all picture indicated a round of wage increases throughout the labor ranks. These increases in the past have been reflected in the cost of living in all fields.

Some economists, however, believe that as soon as the wage structure is equalized to make up for loss of purchasing power since Korea, the economy will go along on a plateau.

JOHNSON:

Refuses to Resign

Defense Secretary Louis Johnson, under fire from many quarters to resign but still backed by President Truman, flatly rejected a demand for his resignation and said he had "no apology" for his record as chief of the nation's military forces.

In his unusual statement Johnson said many of the attacks on both him and Acheson were "primarily political" and were leveled "with an eye to the November election."

He likened himself to the late Defense Secretary Forrestal who broke down after repeated attacks by critics and later jumped to his death.

He said he was sure he still enjoyed the confidence of the President and the public and that "in the long run the solid facts of what the department of defense is accomplishing will stand out above the misinformation that various individuals and various groups, for reasons of their own, see fit to spread."

Among other things, Johnson has been accused of promoting a defensive war and working against the policies of the state department. Criticism of Johnson has been forthcoming from both Democrats and Republicans.

MANPOWER:

Doctors and Fathers

Thousands of men who had looked upon the draft as something remote, a mere possibility in the dim future, suddenly found themselves face to face with the probability of being in the armed forces.

The house armed services committee announced the draft would be extended to draft-age married men with dependents. Officials estimated there are 1,000,000 married non-veterans of draft age—19 through 25—and that up to 400,000 would qualify for induction.

Meanwhile, a senate house group reached a compromise on a bill to draft doctors and dentists through age 50. The bill upon which the conferees agreed is designed to put into uniform 5,600 doctors and 3,000 dentists who were trained at government expense during World War II.

Few doctors or dentists actually are expected to be drafted. Military officials are confident the threat of a draft will swell the ranks of volunteers. An added inducement is the fact that volunteers will get \$100-a-month bonus while draftees will not. Doctors could be drafted with the rank of private; volunteers, would get at least a lieutenant's commission.

Maj. Gen. Lewis B. Hershey, director of national selective service, reported that nearly three out of five candidates for military service are being rejected.

SPY-WEARY HOUSE:

Votes Red Curbs

The house had approved by a roll-call vote of 354 to 20 a bill which subjects American Communists to heavy curbs, and the senate was expected to approve a similar bill.

The measure is unusual on the American scene in that it would force a political party to register its many fronts (organizations). It goes even further and would compel them to label their propaganda and deny them defense jobs, bar them from government employment, and deny them the right to travel abroad.

President Truman is reported to disapprove of the legislation on the grounds that it might impair traditional American liberties. From a technical viewpoint such legislation if applied to one party could be applied to another and thus restricts the individual's political and civil liberties.

According to the FBI, the legislation will hit about 550,000 Communists and fellow travelers. J. Edgar Hoover, director of the FBI, in a recent report estimated there are about 50,000 Communists and 10 times that many sympathizers in the United States.

DEWEY:

All-Out Attack

Gov. Thomas E. Dewey of New York, who was as dead as a fried mackerel — politically speaking — after his recent announcement that he was retiring, is back in the limelight. Dewey announced he would seek a third term as governor of New York.

His return to the ring would indicate the Republicans have found an issue. In his own words: "We will not survive this crisis (the Korean conflict) unless we have a strong and constructive opposition party to force correction of the errors and incompetence of the national administration and to compel it to take a larger view of our dangers and more effective action to meet them."

Political observers reported there can be no doubt now as to what campaign issues the Republicans will expound this fall. On all fronts it will be a sharp attack on President Truman's conduct of the Korean war.

Mistaken

Ex-New Dealer Leo Pressman, (above) admitted one-time Communist, in testimony before a house committee named three other government employees who were Communists in 1934 and 1935. Now Pressman says he feels he made a "mistake" by joining the Communist party and that he has cut all connections with them.

Grassland Farming Is Most Mechanized

Farmers Find Meadows Cheapest Feed of All

Grassland farming continues to spread throughout the United States and has become an example of the mechanization of farm jobs.

Farmers are switching to more and more grass because they have learned that grass is the cheapest of all feeds and that grass also conserves the soil, increases yields of intertilled crops and is the easiest

The New Holland field forage harvester can chop up to 15 tons of hay per hour in lengths ranging from 1/4 to 4 inches depending on how many knives are used.

of all crops to harvest and handle.

One of the major reasons grass is cutting dairy production costs as much as 25 percent is the sharp reduction in labor costs. With grassland machinery, today's farmers can make hay and grass silage in half the time it once took them.

Since the 1930's, when farmers were urged to cut down on corn and small grain, the grasslands of the nation have increased tremendously.

And with the increase manufacturers have produced farm machinery with which to cut, chop, bale and store this low cost farm feed.

One of the newer machines in modern farming is the field forage harvester. This power take-off unit can chop up to 15 tons of hay per hour. Attachments let the farmer use the same basic unit for chopping corn at up to 20 tons per hour.

Avoid Fall Milk Drop By Good Management

Most of the drop in milk production in late summer and fall can be prevented by good planning and management.

Good permanent pastures, supplemented by temporary pastures of sudan grass or some other hot-weather and drought resistant pasture suited to the land and climate conditions, will mean more milk at less cost. In many cases, failure to avoid the slump in milk production is because dairymen do not recognize that summer and fall pastures are not as nutritious as early, succulent, high-protein pastures.

Even though summer pastures may look good, it is necessary to feed a limited amount of a well-balanced grain ration if the summer and fall milk production slump is to be avoided. Enough feed in mid and late summer will hold production higher and allow cows to go into the fall and winter months producing well and carrying good flesh.

Both-Way Gate

A convenient both-way gate does not require any hinges or any hardware material at all.

It can be made any height or length desired. Have a 2x4 at each end which extends up about two inches higher than the gatepost and far enough below to go into a hole in stone at the foot of the gatepost. Nail a board at top of gatepost with a two-inch hole in it for the 2x4. On the other side have a hole one inch wide and three inches long chiseled in the post at the other side.

Tin roofs need more frequent check-ups than any other kind because they are unusually subject to rust. The under side of such a roof should be painted before it leaves the sheet metal shop and the upper side must be kept surfaced with good quality paint as well. Before painting tin for the first time, the surface needs to be wiped with a rag wet with benzine or turpentine. That removes the palm oil film with which the tin is coated.

THE MEN ON THE NBC staffs in Europe believe that there is no prospect of immediate general war in Europe, according to William F. Brooks, NBC vice president in charge of news and international relations, who recently returned from a tour of the network's various installations there. The opinion was based on the absence of troop movements or stockpiles of war material. Brooks conferred with top government officials and with such leading newsmen as Merrill Mueller in London, Edwin Haaker in Berlin, and Henry Cassidy in Paris—men whose business it is to be two jumps ahead of everything that is making news at the moment.

Jack Paar first won fame as the GI's favorite comedian of the south-west Pacific, then came home, replaced Jack Benny for a summer and had his own starring program. He makes his movie debut in RKO's "Walk Softly, Stranger."

Bill Costello, CBS news correspondent in the far east, headed the group of reporters who designed the United Nations correspondents' patch in Korea. The U. N. patch is white on a blue field, with the words "War Correspondent".

When Gloria Swanson appeared on the "Carnation Family Party", emcee Jay Stewart asked her to call a telephone number given her and convince the person who answered that she was actually talking with the actress. The "Sunset Boulevard" star called the number, all ready to be convincing. "This is Gloria Swanson," she said. The lady replied "Who's she?"

Lanny Ross's new show, "Steamboat Jamboree", on World Broadcasting System's affiliate stations, varies from opera to novelty solos on bones, banjos and spoons. This is something new for Lanny, who sings and acts as emcee.

Channel swimmer Florence Chadwick has Hollywood connections—which is unimportant to her. Back in 1943 she had a bit role in "Bathing Beauty", with Esther Williams. And she went to high school with Gregory Peck.

Billy De Wolfe shed his little mustache for a starring role in Warner's "Lullaby of Broadway", then was ordered to let it grow again; somebody said without it he looked like a Roy Rogers without Trigger. He also lost 10 pounds in two weeks on a reducing diet consisting of nothing but eggs.

Rhonda Fleming has been signed to a Paramount contract calling for four pictures in the next two years which officially raises her to stardom. "A Connecticut Yankee in King Arthur's Court" really starred her, with Bing Crosby; "The Great Lover", with Bob Hope, followed, and "The Eagle and the Hawk", with John Payne, has been one of the past year's big successes.

While location scenes were being photographed with Lex Barker in Africa the picture was called "Tarzan's Peril". But after everyone got home, Producer Sol Lesser changed the title; now it's called "Tarzan's Mate in Peril".

Margaret O'Brien will receive a hair-do minus pigtales, an elaborate teen-age wardrobe which may set new styles, and her first kiss in Columbia's "The Romantic Age". The kiss will be administered by Allen Martin, Jr., a talented young actor who recently appeared on the New York stage with Lunt and Fontanne. It's Margaret's first film after a year's absence.

Carla Balenda, a newcomer whose two pictures for RKO have not yet been released, drew one of the season's biggest breaks when assigned to co-star with Dana Andrews and Claude Rains in "The Gaunt Woman".

A flash flood, following a severe rainstorm, stranded 64 members of RKO's "The Best of the Bad Men" company for eight hours, 40 miles from their base in Kanab, Utah. Robert Ryan, Claire Trevor and the others were caught when rain and hail changed a shallow creek to a roaring stream seven feet deep in a few minutes; it was eight hours before they could ford it.

INSPIRATION
Inner Peace

AN EDITORIAL

FEW HUMAN BEINGS are impervious to the stress and tension of modern life. It is not easy to keep aloof from the fears and anxieties which prey upon mankind in general. There are times when the world's crimes, follies and stupidities seem too much for the wisest and strongest of us.

It is necessary, therefore, for men to have some refuge where, at times, they may run away from the world in order to return strengthened and reinvigorated.

Where is this refuge to be found? It lies in a man's own soul—in that deep, inner consciousness where he may commune with God, finding in prayer sources of new courage and strength.

Christ Himself many times sought isolation and silence to escape the importunities and pressures of the world. In the presence of His Father, His troubles and confusion faded away and He found Himself with a renewed peace and uplift of spirit.

To God only may men go for asylum from the hates, worries, pressures and fears of life. His is the sole consolation that will ease the pain of suffering, salve the wounded mind, restore the peace and happiness of which the world too often robs the individual.

Fortunate are those who comprehend the serenity and quiet endurance that can be found in communing with God. In hours of trial, the power of prayer and meditation is most fully felt. When things go well, men are apt to forget their need for God. They are neither deeply conscious of His presence nor of His personal concern for them. It is only when every other door seems closed that many discover gratefully the open door to the heart of God. None need ever despair of finding what he needs when he kneels.

The above editorial, and other material appearing in this column, was prepared by Religious News Service.

PALATINE GUARD . . . This man is a member of the Palatine Guard, now celebrating its 100th anniversary. The Guard was established by Pope Pius IX in 1850. Membership is restricted to Romans because they defend their bishop, the pope, who is the bishop of Rome. Guards, who serve without pay, come from a variety of occupations, from university professors to manual laborers.

Religion
Question Box

Q: Who were the Brethren of the Free Spirit?

A: A fanatical sect which sprang up along the Rhine early in the 13th century and spread into France, Switzerland, Italy, and the Netherlands. They promulgated pantheistic doctrines and were accused of immoral conduct.

Q: What Jewish festivals are known as the Pilgrimage Festivals?

A: Passover, Shabuoth and Succoth. During the time of the Temple, the Jews came on these festivals from all parts of the country to offer up their sacrifices in the Temple at Jerusalem.

Q: What is a Rescript?

A: The answer of the Pope or of a Sacred Congregation in Rome to a question or a petition.

Q: What is Salvation?

A: A state of freedom from sin and its consequences; escaping God's wrath at the final judgment.

Q: What is the Holy Shroud?

A: The linens in which the body of Christ was wrapped in the tomb.

NATIONAL KIDS' DAY

Kiwanis Boosts Project Assisting U.S. Underprivileged Children

Communities throughout the nation—wherever there is a Kiwanis club—will observe National Kids' Day on Saturday, September 23. Many of the cities will stage concerts, motion picture entertainment, parades, essay contests, father and son banquets, street parties and a host of other activities—all designed to focus attention on the broad problems of underprivileged children.

National Kids' Day is sponsored by more than 3,150 Kiwanis clubs throughout the United States, Canada, Alaska, Hawaii; and the National Kids' Day Foundation.

The Foundation was organized in 1948 by James M. (Jimmie) Fidler, the Hollywood columnist and radio commentator, and has as its three major objectives:

1. To assist underprivileged children to obtain some of the benefits normally enjoyed by more fortunate boys and girls.
2. To focus attention upon the accomplishments of youth.
3. To interest the general public to a greater degree in the problems of juvenile delinquency and to help its victims become useful citizens.

Kiwanis clubs throughout the United States and Canada have been working on the problems of underprivileged children at the local level for many years. Most clubs have what is known as a "committee on boys and girls work."

With the formation of the National Kids' Day foundation, equipped to function only at the national level, the two organizations joined forces in order to prevent duplication of effort. As a result more than 1,200 Kiwanis clubs sponsored an activity on Kids' day in 1949, and more than 239,000 children throughout the United States and Canada took part in those activities. And while accent in the 1949 celebrations was put upon activities rather than fund raising, approximately \$200,000 was contributed to be spent locally for underprivileged children.

A Community Problem

The problem of assistance to underprivileged children is one which varies from community to community. It must, therefore, be treated as such. In some towns and cities, juvenile delinquency has grown to such proportions that it dwarfs all other social problems. Some communities, however, feel the need for more properly-equipped and supervised play areas for children of all ages. Hearing aid or sight saving clinics for boys and girls who otherwise could not obtain this medical attention are needed in many areas of the United States and Canada.

For this reason money is the key to solving some phase of the underprivileged child problem. Much of the activity of Kids' Day, 1950, will be devoted to raising funds to finance clinics and other underprivileged child work.

Unlike so many special days on the calendar, National Kids' Day is not a commercial device. The only one who will profit from it are the underprivileged children. Funds raised through activities in connection with the day will be spent in the community in which they are raised.

News on the national campaign can be obtained from the public relations department of J. Walter Thompson Company, 410 North Michigan Avenue, Chicago, Ill.

Affection of a Pet May Allay Many Juvenile Problems

Wolf packs . . . teenage punks . . . vandals! Black-jacks . . . brass knuckles . . . knives! These are glaring headlines on shocking juvenile delinquency—all too currently familiar for us to be repetitious, says Raymond J. Hanfield, executive secretary of the National Dog Welfare Guild, official non-profit sponsor of National Dog Week, with headquarters in New York City.

In his opinion, if we could climb up into the family trees of these unfortunate youngsters, we would discover why they are out on a precarious limb. Most of them come from broken homes where there are no mothers and fathers, home where there is drunkenness. And mostly from the slums of big cities where the children have so few privileges and are starved for affection.

'Double-Track' Approach

The statement from Mr. Hansfield added that if these so called dead-end kids had some dog pals, some warm, breathing creature for which they felt responsible and respected they would have affection, friendship, happiness and a feeling of security. By day they could play and run and let off the steam of young energy. By night they would be nice-tired and safe as their dog pals curl up at their bedsides.

The Guild's 1950 program has a "double-track" approach—that is, it concerns both children and dogs. As a team they bring out the finer qualities of each such as sympathy, kindness and respect. Put them all together and in any man's language they spell character development, better citizenship and less juvenile delinquency.

National Dog Week, this year, will be observed September 24-30. The official poster (below) was executed by artist Albert Staehle who is the owner of the famous cover dog "Butch."

NATIONAL DOG WEEK
SEPTEMBER 24-30
Building Character Together

The Way it Happened . . .

IN SAN DIEGO . . . Miss Eugenia Walker complained to police that practical jokers spoiled her vacation by (1) listing her house with a rental agent, (2) falsely reporting to police that she had found a diamond ring, (3) sending her ten pounds of horse meat.

IN FORT WORTH . . . Municipal Health Officer Dr. Wilbur V. Bradshaw examined the medical records of the city's 343 policemen, reported that only two of them had flat feet.

IN EVANSTON, ILL. . . Jay Sandercock put a penny in an expired parking meter to save a stranger from a ticket, was arrested for tampering with the meter, learned that the car had already been ticketed.

ON THE ISLE OF WIGHT . . . One of the competitors in a cross-country foot race organized for inmates of the Camp Hill Borstal reformatory failed to turn up when the outing was over.

IN NORTHAMPTON, N. Y. . . A man parked his car outside the police station while he went inside to buy a \$5 ticket to the policemen's ball. On returning, he found a parking tag on the car.

Farmers Report New Disease Among Pigs

A strange disease of little pigs
that makes them shiver, jerk and
sometimes "dance" is worrying
quite a few farmers.

What causes the condition is some-
what of a mystery, the American
Veterinary Medical association
says.

It strikes newly born pigs. Some
of the affected animals merely
shiver and tremble. In other cases,
the pigs may not be able to keep
their feet still, resulting in an in-
voluntary "dance."

The latest report, by Dr. H. C. H.
Kernkamp, a research veterinarian
at the University of Minnesota, in-
dicates that the disease, known as
myoclonia congenita, is still almost
as baffling to scientists as it was
when first described in 1922.

Electric Hired Hand

HOUSEHOLD MEMOS... by Lynn Chambers

Treat the Family to Pineapple Cheese Pie
(See Recipes Below)

Pie Favorites

WHEN YOU WANT to serve a really special dessert, that's when you have pie. It might be a light, airy chiffon type, a berry or fruit favorite, or a custard type. Whatever the type, the crust should be meltingly delicious and the filling tasty and tempting. Pie originated in old England as a main dish of meat, game or fowl baked in a deep, flaky crust. The pies for dessert originated in America, as you can tell from the expression, "As American as apple pie"

ONE OF THE pies which recently came into the spotlight of popularity is a combination of cottage cheese and pineapple. It's elegant enough for a party, but always a treat for the family. Garnish it with a wreath of toasted coconut, snow whipped cream or toasted pecans, and it's a dessert with a flourish.

Pineapple Cheese Pie (Serves 6-8)

- 1 No. 2 can crushed pineapple
 - 1 1/2 envelopes unflavored gelatin
 - 1/2 cup pineapple syrup
 - 2 eggs, separated
 - 1/2 cup sugar
 - 1 teaspoon salt
 - 3/4 cup pineapple syrup
 - 1 cup cottage cheese
 - 1 tablespoon grated lemon rind
 - 3 tablespoons lemon juice
 - 1 teaspoon vanilla
 - 1/2 cup cream, whipped
 - 1 9-inch pastry shell, baked
- Drain pineapple well. Soften gelatin in 1/2 cup pineapple syrup. Place egg yolks, sugar, salt and 3/4 cup pineapple syrup in top of double boiler. Cook over boiling water, stirring occasionally, about 15 minutes. Add softened gelatin and stir until dissolved. Cool until mixture begins to thicken. Blend in cottage cheese, lemon rind and juice, flavoring and drained, crushed pineapple. Beat egg whites until stiff and fold into cheese mixture with whipped cream. Pour into baked and cooled crust. Chill thoroughly, about 2 hours.

FROZEN LEMON pie is made of a smooth lemon custard in a tempting cookie crumb coating, and it tastes delightful after a fish dinner.

*Frozen Lemon Pie (Serves 8)

- 1 cup evaporated milk
 - 3 eggs, separated
 - 1/2 cup sugar
 - 1/4 cup lemon juice
 - 1/2 teaspoon grated lemon rind
 - 4 ounces package vanilla cookies, crushed
- Chill milk in refrigerator tray until ice crystals form around the edges. Meanwhile, beat egg yolks slightly, combine with sugar and lemon juice and cook in top part of double boiler until thickened. Add grated lemon rind and cool. Fold in egg whites which have been beaten stiff but not dry. Whip milk very stiff in a cold bowl

with a cold beater. Fold in lemon mixture lightly. Line a quart freezing tray (or two pint trays) with crushed cookies, reserving a portion of the crumbs for topping. Pour custard into tray and sprinkle top with remaining crumbs. Freeze in refrigerator set at coldest point.

Orange Angel Pie (Serves 6-8)

- Crust:**
- 2 egg whites
 - 3/4 cup sugar
 - 1/4 teaspoon cream of tartar
- Beat egg whites until frothy and add cream of tartar. Gradually add sugar and continue beating until stiff. Spread in nine-inch ungreased pie plate. Bake for an hour in a slow (300°) oven.
- Filling:**
- 4 egg yolks
 - 1/2 cup sugar
 - Few grains salt
 - 2 tablespoons orange juice
 - 1 tablespoon lemon juice
 - 1 teaspoon grated lemon peel
 - 1 teaspoon grated orange peel
 - 1 cup cream, whipped
 - 2 tablespoons confectioners' sugar
- Beat egg yolks, sugar, salt, orange and lemon juice, orange and lemon peel in upper part of double boiler. Place over hot water. Stir and cook until thick. Whip cream with sugar and spread 1/2 of it over cooled crust. Spread with filling, then cover with remaining whipped cream. Chill 12 to 24 hours.

Chocolate Meringue Pie (Makes 1 9-inch pie)

- Filling:**
- 2 squares unsweetened chocolate
 - 3/4 cup sugar
 - 4 tablespoons cornstarch
 - 2 cups milk
 - 3 egg yolks, slightly beaten
 - 1/4 teaspoon salt
 - 1 tablespoon butter
 - 1 teaspoon vanilla
- Meringue:**
- 3 egg whites
 - 1/4 teaspoon salt
 - 6 tablespoons sugar
- For filling, melt chocolate in top of double boiler. Blend sugar and cornstarch together, add to chocolate. Add milk gradually and cook over boiling water until thick, about 10 minutes, stirring constantly. Cover and let cook for 10 minutes longer. Add egg yolks slowly, and cook for two minutes longer. Add salt, butter and vanilla; let cool. Fill cooled pie shell.
- For meringue, beat egg whites with salt until stiff but not dry. Add sugar gradually and continue beating until meringue stands in peaks. Cover chocolate filling in shell, sealing meringue to edges of pastry shell and also leaving the top irregular. Bake in a slow (325°) oven until lightly browned. Cool before serving.

New Theory Holds Solar System Comparatively New

NEW YORK—A New theory of creation was given today. This is that the present solar system—the family of Earth and planets—came into its present position only a few thousand years ago.

This new theory was advanced by Dr. Immanuel Velikovsky, one of the founders of the University of Jerusalem, as a preview of his new book, "Worlds In Collision," which will be published in a few weeks.

The book upsets all cosmological assumptions that the planets have revolved in their present orbits for billions of years. Within historical times, Dr. Velikovsky says, there are thousands of bits of evidence for the

catastrophes that came from planets changing their orbits.

The biggest catastrophes came from Earth and Venus getting into the world wars, when they nearly collided, not once but twice. Dr. Velikovsky claims there is good evidence for these two meetings, that the whole world knew, saw, suffered, and left plenty of records.

Venus, he says, arrived late in the solar system family. She probably entered in the form of a comet.

The first Earth-Venus encounter occurred about 3,500 years ago. That was the period when the Israelites fled from Egypt and the Red Sea parted to

let them through. Dr. Velikovsky explains how gravitational and electromagnetic disturbances from the two planets' getting close together might have accounted for the Red Sea incident and many other events of that period.

Fifty years later a similar approach of Venus and Earth, he says, may account for the sun's standing still, as reported in Joshua. He says there is world-wide evidence the sun did stand still, because the Earth's rotation virtually stopped for a while.

In those days when Venus was a newcomer in the solar system, he estimates that it and the Earth came too close once every 52 years.

HOT FLASHES?

Are you going through the functional "middle-age" period peculiar to women (38-52 years)? Does this make you suffer from hot flashes, feel so nervous, high-strung, tired? Then do try Lydia E. Pinkham's Vegetable Compound to relieve such symptoms! Regular use of Pinkham's Compound helps build up resistance against this annoying middle-age distress!

LYDIA E. PINKHAM'S VEGETABLE COMPOUND

WHEN SLEEP WON'T COME AND YOU FEEL GLUM

Use Chewing-Gum Laxative—REMOVES WASTE...NOT GOOD FOOD

When you can't sleep—feel just awful because you need a laxative—do as MILLIONS do—chew FEEN-A-MINT.

FEEN-A-MINT is wonderfully different! Doctors say many other laxatives start their "flushing" action too soon...right in the stomach. Large doses of such laxatives upset digestion, flush away nourishing food you need for health and energy...you feel weak, worn out.

But gentle FEEN-A-MINT, taken as recommended, works chiefly in the lower bowel where it removes only waste, not good food! You avoid that weak, tired feeling. Use FEEN-A-MINT and feel fine, full of life! 25¢, 50¢, or only 10¢

FEEN-A-MINT
FAMOUS CHEWING-GUM LAXATIVE

Dilemma

Nurse—"Oh, ma'am, what shall I do? The twins have fallen down the well!"

Parent—"Dear me! how annoying! Just go into the library and get the last number of The Modern Mother's Magazine; it contains an article on 'How to Bring Up Children.'"

Humans Susceptible To 80 Animal Diseases

Animal diseases are a constant threat to the health of human beings, two public health physicians declare in the Journal of the American Veterinary Medical Association. In one report, Dr. F. S. Leeder of the Michigan department of health, said human beings are susceptible to at least 80 diseases of animals. Many of these diseases are prevalent in the United States, he reported. The danger that foreign maladies may be imported by high speed air travel is also very real, he said.

Most animal diseases to which man is susceptible are spread primarily by livestock and wild game with which human beings come into contact. Work of veterinarians in helping to stamp out or control such diseases is thus an important factor in bettering human health.

In another journal article, Dr. W. P. Dearing, deputy surgeon general of the U. S. Public Health Service, points to the value of having veterinarians work closely with health departments to protect the public against such dangerous maladies as rabies.

A New Light

A new light—the electric arc—is appearing in farm shops, barns and garages from Maine to California. Farmers by the thousands are now saving themselves time and money by using arc welding to do their quick easy repairing and building of farm equipment.

KNOX HATS

Just received a new shipment of hats for Fall and Winter. Come in and look them over.
