## Fiesta Day Saturday, May 10

We want to remind everyone that the big celebration "Fiesta Day" is going to be held in Hope, Saturday, May 10. Big parade in the morning, big dinner at noon at the rodeo grounds, served by the ladies of the Methodist church, rodeo and roping program in the afternoon. Free chuck wagon supper at 6:00 p. m. Big dance in the evening beginning at 8:30. The Mayor says: "Fiesta Day will be bigger and better than ever. All are invited to join in the parade. Come and spend the day."

## Funeral Held for Mrs. Bert McCabe On Thursday

Funeral services for Mrs. Bert McCabe of Artesia were held at 2:30 Thursday from Paulin chapel. Interment was in Upper Hope cemetery.

Funeral services were conducted by Floyd Embrec, pastor of Artesia Church of Christ.

Mrs. McCabe died Wednesday, April 23, at 1 a. m. in Artesia General hospital following a brief illness.

She is survived by her widower, Bert McCabe and seven children. They are Kenneth, Jim, and Billy, and Fern, Lavada, Ada Bell, and Kathleen. Other survivors are her sisters, Mrs. E. A. Watson, Caballo, N. M.; Mrs. J. R. Teague and Mrs. E. E. Lipton, both of Hobbs; and her brothers, Lee Carrett, Hobbs, and Charles Garrett, Comanche, Okla.

Mrs. McCabe was born Sept. 7, 1912 in Knowles, N. M., the daughter of Mr. and Mrs. James Garrett. Sept. 2, 1930, she was married to Mr. McCabe at Lovington.

They moved to Artesia from Hobbs in 1930.

Mrs. McCabe was an active member of the Church of Christ in Artesia. —Artesia Advocate.

## Hope Extension Club Holds Meeting

The Hope Extension club met at the home of Mrs. Roy Bell on April 16 for an all-day meeting. A covered-dish luncheon was served at noon. In the afternoon, Miss Wynona Swepston, county extension leader, gave a demonstration on color in dress. During April and June the club will take up leathercraft. The following members were present: Mesdames Charley Barley, Bob Barley, John Bush, Felix Cauhape, Sr., Cecil Coates, Charley Cole, Bob Cole, Guy Crockett, Russell Lee, Walter Pitt, Ida Prude, John Ward, H. Walton, Ray Bell, Nelson Jones, Sam Hunter, Lewis Weddige, George O. Teel, Loren Reeves, Raymond Davenport, and Lincoln Cox. There were four new members this month: Maxine Coates, Joyce Woolener, Reba James and Ethel Altman. We also had five visitors present: Ruth Crockett, Ida Teel, Elna Teel, Virginia Martin and Kay Hart. Hos-

less Mrs. Roy Bell baked a beautiful cake for Inez Crockett whose birthday was April 15. Her friends brought birthday presents and we also exchanged gifts with our sunshine friends. Mrs. Walter Pitt will have the next meeting at Lee Crockett's home.

## Sunday Noon Fire

A fire started Sunday noon in an old shed on the George place. The prompt arrival of the Hope fire truck kept the flames from spreading to adjoining residences.

## Scout Troop Is Doing Well

The Boy Scout troop of Hope has sold about \$175.00 worth of tires, iron junk, etc. Paint and supplies for Scout headquarters have been purchased. A Girl Scout troop may be formed this fall with either Miss Tyner or Jane Pitt as troop leader.

## The Way Things Look to Me

(By the Editor)

When you go to the polls to vote Tuesday, May 6, be sure you vote for Bill High who is seeking his second term as sheriff of Eddy county. He has a good record. He has kept the jail clean and operated the sheriff's department efficiently. And last, but not in anyway the least, Bill is a good, Christian man. He is a member of the Baptist church of Carlsbad. He believes in putting into practice the Golden Rule in discharging his duties. Therefore we think it is no more than right that he should be re-elected for a second term.

Clem Weindorf, head of the SCS in Hope, handed us an article in which he says: "The time of the year is again approaching when we can expect flash rnuoffs from the Penasco drainage area. Farmers in the Hope area are urged to get the laterals cleaned and in shape so that when the water comes it may be put to 100 per cent beneficial use. This past week the Hope Water Users Association has been cleaning and maintaining the main canal with equipment of the Penasco Soil Conservation District. Farmers who are unable to clean and maintain their ditches with farm equipment and who are cooperators of the district may rent equipment from the district to do their work. Let's all of us have our ditches in shape so that when we do get water (white and brown gold) we can use every last drop to beneficial use and not waste it.

They say it happened during a haring in Washington. The chairman of the meeting, a price stabilization official, was questioning a big producer of hogs. Presently the official said, "I am very much interested in your comment on the price of hams, and in that connection, would you give us your estimate of the number

of hams you could get from, say a medium sized hog."

## FARM RELIEF—

The paper jobber salesman had stayed at the farmer's home all week while he had called on the locker plants in the vicinity. When he was ready to leave he asked: "How much is my bill, Hiram?" "Well," figured the farmer, "you had 21 meals, and you kissed my daughter about 20 times. Do you think 75 cents would be too much?"

## School News

### SIXTH, SEVENTH AND EIGHTH GRADE NEWS—

The school saw four small films, and they were on the same subject. When we finished we had a test on them. Angelica Rivez had her birthday party at school Monday. Her birthday was Sunday. The Boy Scouts have finished painting their room. It looks pretty nice. The Girl Scouts met Thursday night. They had their meeting and then played volley ball. The sixth and seventh grades had a social studies test Monday. The eighth grade had a test in history of New Mexico Monday. Everyone made an A for the first time. The Boy Scouts are going to have a court of honor here at Hope Tuesday night.

### THIRD, FOURTH, AND FIFTH GRADE NEWS—

We were all happy to receive individual letters from Mrs. Lea on Monday and to learn she was to come home from the hospital that afternoon. Since then we have all been to see her several times and hope she will soon be able to be back with us in our room. Annabel Cano returned to school Monday after being out last week with an injured arm. We received our parts for the operetta, "Polly Make-Believe," on Tuesday. Now we have to work hard to learn them well. The first five grades are going to give it in a couple of weeks. The fourth and fifth grade is making pictures in their history about the early settlers in America. We received letters from Port Washington last week and answered them this week. Some of the girls are painting yucca stalks to send to them. We also had the pictures of the children in the fourth grade at Port Washington on our bulletin board last week. Charlotte and Bill Wilson were absent from school last Friday because they went with their parents to visit Mr. and Mrs. Jim Wilson of Blackwell, Texas. Orlene Parker was absent Monday because she went to Artesia with her mother and sick brother.

## Hope News

Elmer Madron and Flora Lee Mack were married in Carlsbad on Saturday, before Judge Sadler. They are making their home at the iCity Service Station residence.

G. C. Sheppard is employed at the rotary rig that is located near Dun-

Mrs. Ralph Lea was brought home from the hospital Monday. It is thought that she will be able to teach next Monday.

Jeri Lynn Carson is getting along nicely on a pair of crutches. He broke his leg when playing at school a few weeks ago.

Charley Barley returned Tuesday from Waterloo, Iowa, where he purchased several head of Holstein-Friesian milk stock.

Bill Madron took a load of cattle to market Monday.

Mr. Joe Irish of the Industrial Arts Department of the Carlsbad schools, was a business visitor in Hope Monday. He had been over to Silver City.

Mr. and Mrs. Hollis Watson were calling on friends in Hope Monday.

Bob Wood was in from the ranch over the week-end.

Barney Leigon of the College Press of Carlsbad was a caller at the News office last Monday.

"MENACE OF THE LONELY HEARTS"—Time and again murderers, thieves and blackmailers have hidden behind the mask of romance. Ninety per cent of the 3,000,000 or more lonely hearts in this country are women, many of them widows who fall easy prey to crooks. Read it in the American Weekly, that great magazine distributed with next Sunday's Los Angeles Examiner.

To simplify drenching a sick cow or horse, as well as preventing the animal breaking the neck of the bottle and swallowing a piece of glass, fit the bottle with a rubber hose extension.

### American Diets Improve During Past 15 Years

Americans as a whole are better fed than they were 15 years ago, nutritionists report. Compared to the period before World War II, people in the U.S. are eating 19 per cent more meat, poultry and fish; 42 per cent more eggs; 11 per cent more fruits and vegetables; and 20 per cent more dairy products except butter. They are eating 24 per cent less potatoes and 17 per cent less grain products.

### The Way Things Look to Me

(By the Editor)

Hubert Beasley, former state police officer, who was released from prison last week, is rumored to have said that he might go back to his home county and campaign against Everett Grantham who is a candidate for governor. Go ahead Mr. Beasley, that would be a good way to secure votes for Grantham. Beasley had better go back and keep still.

Something should be done about the price of feed, such as chicken feed, hay, etc. Egg prices are going down and feed prices going up. Last week lay pellets sold for \$5.76 per 100 lbs. and this week the price has gone up to \$5.86 per 100. Still eggs are selling for 28c, 35c and 50c per dozen, according to size and quality. How much can the producer make on a deal like that?

Teach me thy way, O Lord; I will walk in thy truth: unite my heart to fear thy name. (Psalm 86:11). Read John 14:1-6.

When one plans a long trip by automobile, he looks at a map of the country through which he intends to pass. That map is made possible because men have traveled that route before. With the course laid down by them, one needs only to follow.

Very few journeys have been mapped out as carefully, as lovingly, as painstakingly, as Christ mapped the journey of life for us. He knew each side road which might tempt us to forego a purposeful life. He knew of the unavoidable rocky paths that are hard to climb; of the shadowed valleys that bring fear to the traveler's heart. But as men follow after Him,

they discover that they are able to travel roads they could never conquer alone. Christ beckons to all to make of their lives journeys of joy and service and love, saying, "I am the way, the truth, and the life: no man cometh unto the Father, but by me."

#### PRAYER

Dear Father, forgive us when we ignore the signposts which Thou dost set along the way for us. When we falter and stumble, renew us with Thy spirit so that we can follow the steps of Thy Son. Teach us Thy way, O Lord; we will walk in Thy truth. For Jesus' sake. Amen.

#### THOUGHT FOR THE DAY

"I walked today where Jesus walked and felt Him close to me."

—Daniel S. Twohig.

## Missouri Dairy Stud Outstanding

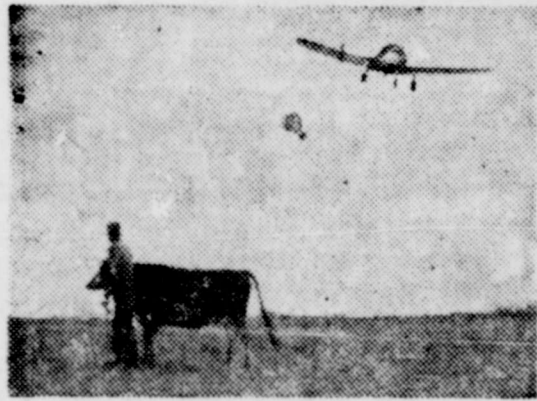

### Planes Used to Speed Delivery of Semen

Artificial insemination of dairy cows has received such wide acceptance in the highly developed Ozark dairy section that the Missouri Farmers Association has established a shipping schedule by three planes which cover approximately 66 counties daily.

The association's stud at Springfield is composed of 55 of the nation's finest dairy bulls.

The semen is collected in early morning and the airplanes take off with it at 5 a.m. the same day. It takes the planes approximately 3½ hours to cover three routes of 350 miles each.

The semen is parachuted to the inseminators by a pilot parachute attached to a half-gallon bucket in-

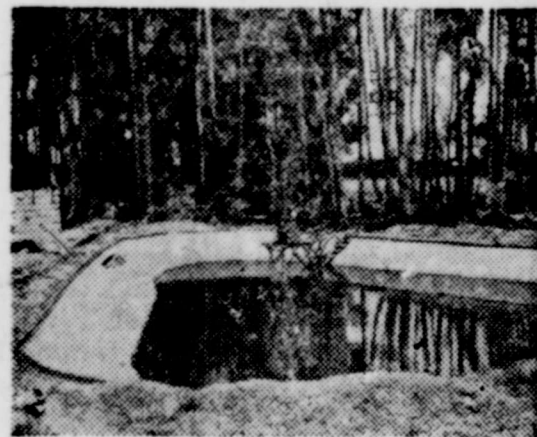

In the picture above a Missouri Farmers Association plane has just parachuted semen to a technician after a quick trip from the association's stud at Springfield.

sulated and protected from shock by foam rubber on the inside.

Association's stud includes Jersey, Guernsey, Holstein, Milking Shorthorn, Brown Swiss and Angus.

Ozark dairymen report they are highly pleased with the quick and more efficient service.

### New Product

A new product designed to control seepage and erosion in ditches and canals is now on the market. The material is a fibreglass-reinforced prefabricated asphalt membrane lining and is easy to install. On the Frank P. Rodrigues ranch in California (above) it was used as a lining for a pond in which irrigation water was stored.

# Vote For Bill High for Sheriff

(Second Term)

He is honest, efficient and courteous and is entitled to a second term. The jail has been kept clean and the prisoners served wholesome food.

## Regular Advertising Pays Dividends

### 200,000 Farm Tractors Operate on Butane Gas

More than 200,000 farm tractors, either factory designed on converted, now run on liquefied petroleum gas. Many farmers report that by using liquefied petroleum gas, engine maintenance can be reduced up to 50 per cent. Known also as butane, propane, tank and bottled gas, the fuel also has many household applications such as cooking, house heating, water heating refrigeration and incineration.

## Truman Administration Near Collapse

"Under a parliamentary system of government, the Truman administration would at this point of near collapse go out of office on a vote of no confidence," wrote Marquis Childs in one of his recent columns. "That would in all probability have happened months ago as the inability of the administration to carry out even rudimentary policy was demonstrated over and over again.

"Under the American system, with

its fixed term of four years for the chief executive, we shall go for nearly 10 months with virtually no government at all. In this period the fate of the world may be decided, and decided by default."

That is not the view of an anti-administration writer—in past times, Mr. Childs has often been very kind to Mr. Truman and many of his policies, and he is a warm admirer of the late President Roosevelt. It is a view which is very widely held by seasoned observers of the American scene.

Rarely in history has an Administration come apart at the seams so everything has contributed to it—the swiftly as Mr. Truman's. Almost Korean stalemate, the tax scandals, the biting controversy over Mr. Acheson, and the State Department, the corruption in government issues, the Newbold Morris fiasco, the troubles within the cabinet and the dismissal of Attorney General McGrath, the charges of communist influences in high places, and to cap the climax the handling of the steel strike and the implications of political favoritism and corruption involved.

This is more than just a dramatic and startling political development. It poses great problems for the nation. As Mr. Childs pointed out, decisions of the utmost importance should be taken by the government. To quote him again, "The Russians are showing definite signs of wanting to try to settle the major differences

between West and East. Western strength is being rapidly eroded away in the Far East and the Middle East. What about Formosa? The future of Chiang Kai-shek and his Nationalist forces? The vastly expanded arms race in terms of weapons so fantastically destructive that most of us simply do not comprehend their true meaning for mankind?"

Few people now believe that the Truman administration will—or could—come solidly to grips with problems of the magnitude and urgency of these. The President has totally lost control of Congress. The major measures which would effect his so-called fair deal program languish in committee, and aren't even given the consideration of being brought to a vote. Congress, with its collective eye fixed firmly on the coming election, is marking time and, as a general rule, doing only what cannot be postponed.

This indicates the tremendous issues that will confront the next Administration, whether it be Democratic or Republican. It is very possible that Administration will take office in as crucial a period as the nation has ever known—and it is certain that it will have to face domestic and international problems of incredible delicacy and difficulty. The whole world will be intently watching both the nominating conventions and the election which will follow in November.

## Poultry Industry May Set New Record

Output in 1952 May Hit  
Fourfold of Decade Ago

The poultry industry may break all production records during 1952.

Production of broiling chickens, for instance, which makes up over half the chicken population, is expected to jump this year to more than 850 million birds. Last year's production was 784 million. Just a decade ago, fewer than 200 million broilers were raised in a year.

Turkey production is forecast at 11 per cent higher than the record 53 million of last year, about 80 per cent above the pre-war 1941 output.

Egg production is expected to stay about the same as last year when some 60 billion were produced. That was 40 per cent above the production of 1941.

Poultry production gains have far outdistanced the U.S. population increase. That means some huge jumps in per-capita consumption.

More and more flocks like the one above will be seen on the nation's farms this year.

Last year, the average American downed over 400 eggs, against less than 300 yearly in the 1935-39 period. Chicken eating per person was nearly 30 pounds in 1951, against a 1935-39 average of under 19 pounds. Turkey consumption more than doubled in the same period.

### Spreading Manure Aids Wildlife, Specialists Say

Farmers who spread manure on their fields in late winter and early spring are helping wildlife as well as crops, extension specialists report.

Value of manure spreading for plant food is recognized, but few people realize that good farming practice also is a wildlife conservation help. Most manure contains weed and crop seeds that make good winter feed for pheasants, quail and other birds.

February, March, and sometimes April, are lean months in many northern states for the wildlife population. Pheasants and quail are weakened by lack of cover during earlier winter months.

Since much of their winter food supply has been exhausted, many birds will not survive lean pickings and rough weather during the last months of winter.

Agronomists always have emphasized that prompt spreading of manure saves plant food that might otherwise be lost through leaching. From now until full spring, manure should be spread when field conditions permit. Spreading now will put nutrients in fields instead of down barnyard drains, extension specialists say.

IN THE DISTRICT COURT IN AND FOR EDDY COUNTY, STATE OF NEW MEXICO.

IN THE MATTER OF THE PETITION OF ERNEST C. THOMPSON, AND GRACE K. THOMPSON, TO ADOPT ROBERT WAYNE BAKER, A MINOR. Case No. 12736

SUMMONS AND NOTICE OF HEARING

THE STATE OF NEW MEXICO TO DORRIS ROSALIE BAKER: GREETINGS:

You are hereby notified that Ernest C. Thompson and Grace K. Thompson, his wife, have filed in the District Court of Eddy County, New Mexico, a petition to adopt as their own child, Robert Wayne Baker, a minor, and to dispense with your consent as the legal parent of said child, said cause being No. 12736 on the civil docket of said Court.

You are further notified that unless you enter your appearance in said proceeding on or before the 17th day of June, 1952, the petitioners will apply to the Court for the relief demanded in the Petition.

ARCHER & DILLARD are attorneys for the petitioners and their office and post office address is Booker Building, Artesia, New Mexico.

WITNESS my hand and seal in the District Court of Eddy County, New Mexico, on this 21st day of April, 1952.

(SEAL) Marguerite E. Waller, Clerk of the District Court, Carlsbad, New Mexico.

Roy Sandman, one of the officers who was convicted of torturing a negro over at Las Cruces about a year ago has served his term in the federal pen. Upon his release he told a news reporter that the autopsy of the body of Crickett Coogler showed that she had been killed with a blunt instrument. And Mr. Sandman added, "The way to solve the case would be to find the person who wielded the blunt instrument." Now wasn't that a bright idea? Mr. Sandman should be given a job with the FBI!

## Fertilized Soils Drink Hard Rains

### Unfertilized Soils Break Down Under Hard Rains

Does your farm land "drink" in pelting rains? Or do those rains break down the surface soil, seal the top like a lid, puddle and then run off?

The answer depends on soil care, say Missouri University agronomists.

The accompanying photos show what happened after a beating rain fell on two freshly plowed fields adjoining each other at the Sanborn Experiment Field at Columbia, Mo.

Both fields had been in corn since 1888. The top field was fertilized; the lower one not. For the test, all crops were removed and then the soil was plowed.

Soil in the top field took the rain in stride. The water drained quickly down in. There was practically no runoff; no soil damage, or loss of water or topsoil. The plowed clods are intact and the surface looks loose and porous.

## TO THE VOTERS OF EDDY COUNTY:

I am taking this means of expressing my appreciation for the confidence you have shown Mrs. Westaway and me in the elections beginning in 1924, when you first elected me your County Assessor. Since that time, you have seen fit to vote either for Mrs. Westaway or me in each succeeding election for the important office of County Assessor.

In humble acknowledgment of your confidence, we have tried to maintain the highest standards in the Assessor's Office and to give you economical, efficient service. Your votes of confidence make us feel that we have done this. Particularly are we proud that in elections in the past, when contests have developed for this office, we have consistently carried the precincts in North Eddy County by substantial majorities.

Though Mrs. Westaway is unopposed this year, we feel it only proper that you be made aware of our gratitude.

Sincerely yours,

**RICHARD H. WESTAWAY**

Paid Political Adv.

## RE-ELECT JOE LUSK

*Second Term County Commissioner*

DEMOCRAT

EXPERIENCED — CAPABLE — HONEST

TO THE VOTERS OF EDDY COUNTY:

Your vote is solicited for Joe Lusk, Democrat, candidate for Democratic nomination for County Commissioner from District Number One. He is completing his first term, during which term the other commissioners named him Chairman.

Joe Lusk has lived in Eddy County over 60 years and is familiar with all of the problems connected with the growth and development of the county.

The Board of County Commissioners supervises all budget matters, road construction and repair, and generally supervises all of the activities of your county. Joe Lusk, as Chairman, has consistently sought economy in county operation which would be consistent with the efficient operation of county government.

Because of his long acquaintance with and intimate knowledge of Eddy County and Eddy County government, we, his friends, urge every Democrat to vote for Joe Lusk on May 6.

Paid for by friends of Joe Lusk

### Corn Crib

#### RAILROAD STOCK CARS

To solve a building problem, one farmer came up with this idea of using two railroad stock cars in the construction of a double corn crib and overhead granary. The cars were set on a concrete base for use as corn cribs and the space under the roof served as a granary.
