sufficient money with which to defray the cost of placing the cards and booklets on the market and incidently have the advertising schemes reach the proper parties through the mail.

See how important the National park and game preserve is to the whole people of the Southwest is not hard to understand. It would mean much to the Panhandle country. Thousands of men and women from all parts of the Union would come out here, and when they see this country they will become interested in it. —H. reford Brand.

As the royal family of Portugal were driving in Lisbon they were fired upon by assassins which resulted in the almost instant death of the King and crown Prince. Three of the assassins were killed by guards and three others were captured, one of which committed suicide after being placed in prison. The city of Lisbon is under a reign of terror, not being able to conjecture what the end will be.

MEET WITH MAJ. GORDON AND THE RAILROAD COMMITTEE FEB. 18th, AT 10 O'CLOCK A. M.

Prof. Taylor of the Lakeview school was perambulating on the streets of Silverton Saturday. He reports a very interesting term of school with full attendance.

THE NATIONAL PARK.

According to advices just received by Dr. J. E. Nunn, secretary of the Palo Duro National park association, the park project recently set on foot by leading business men all over the Panhandle, is becoming an important factor in the general advertising scheme proposed by the recent Farmer's Congress.

Those in a position to know declare that this movement will result in giving the Panhandle an immense amount of free advertising during the next few months, and Secretary Nunn as well as other members of the Palo Duro National Park committee, says the magazine and leading Eastern newspapers of wide circulation will contain descriptive articles about this wonderful country by reason of the National park agitation.

It is understood that the National park association will soon issue a large number of illustrated booklets and post cards which will be sent broadcast by the residents of the Panhandle. They have arranged for 20,000 cards of a half dozen different views obtained in the famous canyon, which will be offered to the business men in the several towns interested, with a view to giving the National park movement wide publicity.

The committee in charge of this work are hoping to raise

A WEEKLY NEWSPAPER

Entered as Second Class matter in the mails at Silverton, Texas.

J. R. HARDY,
Editor and Proprietor.

Thursday, January 30, 1908.

The President's message to Congress is pronounced by many members of the legislature as exceedingly Democratic for a Republican president. Mr. Roosevelt may get enough democracy in some of his doses yet to make his detractive followers sneeze,

DON'T FORGET FEB, 18th. BE AT THE COURT HOUSE AT 1 O'CLOCK WITHOUT FAIL. THE RAILROAD BONUS IS TO BE CONSUMMATED.

It now seems that the raising of the bonus for a railroad is a certainty that none are prepared to deny, it becomes necessary that we think some as we go along of other necessary things to put Briscoe county in the front row as a farming county. It is certain that the farming interests have been and are still being greatly retarded by large land holdings by a few individuals. No one man or one family can farm a half dozen sections of land. It would greatly enhance the value of your homes to sell your surplus land in small tracts to real farmers who will move on it and improve it. Speculators never have nor never will develop a country. If you want

Still the railroad bonus climbs, now about \$40,000 and the mercury in the bulb approaching a boiling heat. \$5,000 at one jump this week and it begins to look like the landing is near. Don't forget to be at the meeting at the court house next Saturday the 8th, and give the boys another push. The committee only needs a little encouragement, they are doing valient service.

In the celebrated trial of the millionaire Harry K. Thaw, the jury after 25 hours deliberation returned a verdict of not guilty on the presumption that he was mentally irresponsible for his act when he shot and killed Stanford White. He was judged to be a dangerous lunatic and sentenced immediately to the asylum for the criminally insane at Matteawan, where he will be held until public sentiment grows less virulent against his release.

Had Harry K. Thaw been a pauper instead of a millionaire he would doubtless long since have reaped the penalty of a violated law and been forgotten; but as it was Thaw the millionaire that killed his fellow man, he has been made the hero of a great drama in which he was carried through many acts before the public, was the subject of many startling accusations, but with one great sweep of his jurors he was cleared of them all. He went crazy long enough to outrage the law, but vehemently protests his sanity now. In the interim he held the world spell bound, spent thousands of dollars of the people's money, gained national prominence and yet escaped the penalty of the law.—Behold the power of money!

WHITE HOTEL,

TULIA TEXAS

One Dollar a day.

It is rare to find a person who does not feel that he is still en route to something beyond. The interest centers in something a little further on, not here.

There is always this "beyond." We are always getting ready for tomorrow, for the time when we are really going to live when everything will be settled and all things set to right, when we shall get out of discord into harmony, out of error into truth, when we shall get freedom from the things which annoy and shall be surrounded by our friends in the midst of comforts and luxuries. All our faculties and energies are focused on some distant picture and when we arrive at the point where we thought attachments dwell, we shall probably find that the rainbow has moved, and is as far in advance as before. So multitudes of people impress us as always on the hunt for the real object of their lives, and as not yet having found it.—Orison Swett Marden in Success Magazine.

you convert the most beautiful country on earth into magnificent homes, cut your land up into small tracts so the farmer can buy and pay for it.

About 33 book concerns and publishers have filed bids with the Text book board which is now in session at Austin. The books are to be selected by ballot and the final vote is to be made a matter of record. The work of this board is of great importance, and it is to be hoped that they will place in the hands of the children the very best text books possible.

Many a child goes astray, not because there is a want of prayer or virtue at home but simply because home lacks sunshine. A child needs smiles as much as flowers need sunshine. Children look little beyond the present moment. If a thing pleases they are apt to seek it, if it displeases they are prone to avoid it. If home is the place where faces are sour, and words harsh, and fault finding is ever in the ascendant, they will spend as many hours as possible elsewhere. Let every father and mother, then, try to be happy. Let them look happy. Let them talk to their children, especially the little ones, in such a way as to make them happy.—Bartlett News.

The railroad meeting last Saturday was well attended. In addition to a special soliciting committee a committee was appointed to prepare letters to non-resident land holders soliciting their assistance on raising the bonus, which they ought to be anxious to do.

Further to than those who have been good to me. I shall ever feel grateful to them for their support; also of the solicitation of them to make this race I feel proud. To those who have opposed me, I wish them well.

My business is so arranged I deem it not advisable to make the race, as there are others untried and competent who are hunting honor and fame.

With kindest regards to all, I am your humble servant
Fred Biffle.

Living in the Future.

No one can do his best work while he is trying to live in the past or the future. He must focus the mind vigorously and persistently upon the present. Habitual dreamers of the past or of the future usually get a very small percentage of their ability into practical life.

That only becomes ours which we live, and if we are habitually living old days over again or living in anticipation, we get little out of the present. Few people live in to-day. They may live in the past, regretting their mistakes, lamenting lost opportunities; or living in future air castles, dwelling on the wonderful things they are going to do, things they are going to enjoy; so they miss the splendid present, with its magnificent possibilities for growth, for enjoyment, for achievement.

Most of us look on today as a mere resting place, a stop-over point where we do not unpack our baggage, but take out the few articles we need for the night and leave everything ready for the journey of the morrow. It is

but it is claimed that it is the most important one for Plainview country. The S ranch consists of an even 125 sections intersected in some places by sections of "nesters", but in the main one solid body. Citizens claim Colonel Slaughter's refusal to sell in small tracts has long retarded settlement and development of the Plainview country, and its sale was received with gratification. The South company has partners now in Waterloo, Iowa, but has established local headquarters in Plainview, and it is said will at once cut the land up into quarter sections and sell to farmers of moderate means whom they will bring here from the North and East. The report, while it cannot be verified here, states that the price was \$1,000,000.—Daily Forth Worth Record.

When a financial panic is precipitated under a democratic administration or on the eve of a presidential election it is due to the grave apprehensions of the people concerning the safety of the government in the hands of the Democrats; put when a panic swoops down on an unsuspecting populace in the midst of plenty and paralyzes every industry in the nation under Republican administration it is due to those greedy capitalists—See?

Advice From Abner.

Cut out that talk of bursting the trust. Diversify and the trusts will bust themselves. If you are a hog, for goodness' sake kill yourself eating; if you have a chronic case of the blues, go off and soak your head in a barrel of questions as to why you are blue. If you've got a grudge agin the whole human family, because it aint in tune, you'd better twist your own tune peg a little because you're the string that aint stretched just right. If you are a natural born knocker, don't hide your hammer on a dismal day, because that's when it has the most effect.—Exchange.

ROCK ISLAND ADVERTISE.

We are in receipt of copies of advertisements now being run by the Rock Island railroad in various newspapers and farm journals all through the north and east. This road is pushing the Southwest country, that is Oklahoma, Texas and New Mexico, and passenger traffic manager Sebastian says that they will place advertising before the eyes of 4,000,000 people during the next sixty days. He says that during the month of December alone he received 3533 inquiries about the Southwest country. When the railroads become interested in settling a county you can look for results. They have plenty of capital to do their advertising and will no doubt, with the assistance of the realty firms turn many a settler toward the Panhandle during the next year.—Slatford Star.

Will Nelson, who mysteriously disappeared from his ranch near Lubbock some two weeks ago was found in Yoakum county near the New Mexico line. Nelson, it is stated, was fleeing to Arizona, possessed with the hallucination that he had "shot up the town" of Lubbock, killed several people, and he had taken to the lone prairie for fear of mob violence. On several occasions, the story goes, he lay in the tall grass hiding while parties of supposed pursuers passed within a few yards of him, while in fact it seems that these were parties of searchers sent out from Lubbock thinking some accident had befallen him when he failed to return home. Nelson is said to be a man of considerable means and prominence in the Lubbock country and has a large ranch near town.—Slatford Chief.

TO THE CITIZENS OF BRISCOE COUNTY.

After consulting some of my friends and voters and after due consideration, I have decided to make the race for Sheriff and Tax Collector, subject to the primary in July. So far as I know no one has announced for this office, and I respectfully solicit the support of all. It seems not out of place to say here that I have had some experience in the work of the office and feel competent to properly conduct the affairs, both as to office duties and outside work. I hope to have the pleasure of meeting each of you before the primaries, but if circumstances prevent my doing so, I trust you will not attribute such failure to indifference. If however, I am elected I will do my utmost to faithfully discharge all the duties devolving upon me in that office in such manner as may deserve the commendation and gain the approval of all law abiding citizens. Respectfully,

the Hon. District Court, at the
next regular term thereof, to be
held in the county of Briscoe
at the Court House thereof,
in Silvertown, on 17th day of
February 1908, file number being
62, then and there to answer the
petition of P. E. C. Cowart, filed
in said court, on the 10th day of
January A. D. 1908, against the
said W. H. Ives, et al, and alleging
in substance as follows,
to-wit:

That on or about the — day of
January 1908, the plaintiff was
lawfully seized and possessed of
the following described land and
premises, situated in Briscoe
County, Texas, holding and
claiming the same in fee-simple,
to-wit: All the south half of
survey No. 130, Block "G. M." Certificate
No. 101, D. & S. E. Ry. Co., containing
160 acres of land; that on the day and
year last aforesaid defendants unlawfully
entered upon said premises and
ejected plaintiff therefrom and
unlawfully with-hold from him
the possession thereof to his
damages, Two thousand six hundred
dollars. That the claim of the
said W. H. Ives constitutes a cloud
upon Plaintiff's title; plaintiff
prays the judgment of the court
that defendants be cited to answer
his petition and that plaintiff
have judgment for the title and
possession of said above described
land and premises, that the cloud
be removed from the title of plaintiff,
and that a writ of restitution issue,
for damages and cost of suit, and
for such other and further relief,
special and general, in law and
equity that he may be entitled to,
etc.

HEREIN FAIL NOT, but have you
then and there before said Court
this Writ, with your return thereon,
showing how you have executed
the same.

**WHY SUFFER FROM RHEU-
MATISM?**

Do you know that rheumatic
pains can be relieved? If you
doubt this just try one applica-
tion of Chamberlain's Pain
Balm. It may not give you re-
lief from pain but will make rest
and sleep possible, and that cer-
tainly means a great deal to one
afflicted with rheumatism. For
sale by all druggists.
