INDUSTRIAL SCHOOL.

It is with genuine pleasure we note the fact that the movement Texas is distinguished at the to add an industrial training University of the South just school for girls to the list of now. Messrs. George Clifton educational institutions in Texas Edwards of Dallas and Homer is meeting with so much favor Worthington Star of Gonzales among those people who are in have just learned that they are terested in the mental and moral development of our great Each year the trustees of a fund state. The old idea that girls left for that purpose offer two should not be expected to earn scholarships of \$500 and \$300 their own living is rapidly passing away. Parents of to-day realize that their daughters may colleges in this country. Mr. be called to earn their own living at any period of their lives. Parents, brothers and husbands attaining the maximum grade of are mortal and do not always possess the ability to make money sufficient to provide so well for their female relatives that they will not have to rustle for themselves. The girl or woman who is well trained and has a thorough knowledge of any one of the many av ocations now open to her, possesses a strong weapon with which to fight the battles of life. By all means give the industrial school movement your unqualified support. If you have no daughters, your neighbors have. and they may be able to obtain not only a knowledge that will enable them to properly care for their bodies, but it may be the saving of souls as well, for thousands of women go down to to ruin each year from want superinduced by ignorance. Many eke out a miserable existance because they are not properly educated. Many agree that the school movement is all right, but how many girls would get the benefit of it? Lots of them, look at the great number of deat and dumb and blind girls, as well as boys, there are over the state who are graduates of the state institutions honorably supporting themselves; if they, so hampered by nature, can be trained to become self supporting, how much better can those who are endowed with sight, hearing and speech be taught many of the useful arts.

ambition and aching bo watery; the tissues are w being opened for disease. A bottle of Browns'

MEXICAN GOVERNMENT STOPPED THE PLAN.

Washington July 9.—Captain Luis Meneno and Lieutenant Federico Muniategui, both of the Spanish army and former passengers on the Norwegian steamer Bergen, have been ar rested by officers of the Mexican secret service by order of the Minister of Foreign Affairs and are imprisoned in the city of Mex co. They were sent to Mexico airect from Havanna by Captain General Blanco, with instructions to confer with Spanish sympathizers in Mexico and to excite the cowboys there called "guachos" bring about an invasion of Texas, in order to draw as much of the United States army there as pos-

The officers were overzealous in their work and soon attracted the attention of the Mexican officials. When they were arrested they had succeeded in enlisting about 500 Mexicans and Spaniards in their hazardous undertaking, and were proceeding with the formation of an army of invasion. The Mexican Government put a stop to the work at once and the officers will be kept prisoners until they can be returned to Spain-St. Louis Republic.

TEXAS.

An interesting news item to the publishing world is the reorganization and incorporation, on July 1st., of Frank Leslie's Publishing House, founded in 1855 by Frank Leslie, and since 1880 the exclusive property of Mrs. Frank Leslie. The president of the new company is Mrs. Frank Leslie, while Mr. Frederick L. Colver, who has managed the property for the past three years, is secretary and treasurer. Extensive improvements will be made in the printing plant and in all depart ments of Frank Leslie's Popular Monthly this fall.

A New Way of Preserving Meat.

A new ret ol of preserving freshly killed meat has been discovered by a Danish zoo' gist, August Fjelstrup, who i the discoverer of condensing milk without the use of sugar. system has been used in a Danish slaughter house for three mombs. The animal is first shot or stunned by a shot from a revolver in such a way as not to injure the brain proper. When the animal drops down senseless an assistant cuts down over the heart and opens a ventricle, which allows the blood to flow out, the theory of this being that the decomposition c blood is almost entirel sible for the quick py efaction after the blood a let out, a briny solution, which varies in strength according to the time the meat is to be kept, is injected by pans of a powerful syringe trough the other ventricle into the veins of the dody The whole ploches takes only a key. few mithtes and the beef is ready for use and can be cut up at onca .- Scientific American.

The closing exercises of the Silverton school took place last night before a large and appreciative audience. The program as it appears in another column was rendered with the exception that one or two numbers were omitted on account of length. The pupils did very well when is remembered that they took no time from beir regular school work to prepare for the entertainment.

John Askey, and Misses Gertrude Braidfoot and Maud Sweeney elicited great applause with Two Boys. their humorous recitations.

Misses Alice Hullum, Maud Farnham, Dean Lowe an Maud Wagley were applauded their recitations of some lifficult pieces.

'Getting Ready" was well received, especially Miss Maud Sweeney's "Biddy Crogan"

"The Wrong Box" was much applauded.

The darkies and their "Phunnygraph" brought down the house.

"Rival Editors" was The simply immence.

Miss Gertrude Braidfoot recit-

She-It will be a pleasure for touching and beautiful manner. The exercises were closed with a song "Good Night"
