## REPORT IS OUT THAT I.C.C. WILL MAKE A

Reorts have arrived in Silverton from Plainview that the opens at 7:30. Subject: Incubahand down some sort of a decision on the South Plains railway permits this week.

The rumor is also current that the Santa Fe and the Denver have get the date. Be there! reached an agreement whereby they will not contest the decision of the I. C. C., once it is given, but there is no such report with regard to the proposed T. P. & G. The belief is strong at Plainview that both the Denver and Santa Fe will be given permits on at least part of the construction that they are asking for.

### Inset Plaited Panel Imparts

Dame Fashion pleases to announce revival of the blouse among smart tems for spring. Good news this! The separate blouse has ever been a faorite theme with the woman who tudies the art of rood dressing from practical as well as a modish standoint. Along with this welcome style roclamation comes the word that it is the crepe de chine tailored blouse which will play the most popular role. Furthermore, the mode explicitly declares that plaiting and fine tucks will play an important part in the styling

f the smart crepe de chine blonse. New in the way of plaited treatnent are panels inset at each side of the front and across the back of the blouse, starting at yoke depth. The picture bespeaks the effectiveness of this unique arrangement, which ac ents the tailored note so consistently.
