CATTLE BUSINESS ALRIGHT; SAY CATTLEMEN

Amarillo Convention Reports of the Cattle Industry Herald Throughout the Land

Amarillo, March.—“We cowmen are slowly but surely coming into our own” was the substance of a statement by Lee Bivins of Amarillo, president of the Panhandle Livestock Producers Association, in his address to the tenth annual convention of the organization, which held its first formal business session Tuesday.

“To you old catmen I want to say: Don't give up; keep on trying. You can and will come back,” continued Mr. Bivins, veteran cowman, Mayor of Amarillo and reputed to be the heaviest individual purchaser of steers in the entire country during 1925 and 1926.

“You've had your troubles, I've had mine,” he admonished, “but let's forget them and push ahead a little while longer. I was raised in the cattle business and have been in it all my life. Many of my old friends and associates of the ranges come to me for advice I tell them we are surely coming back (but it is gradual and that we will not become rich in a day.

“My advice to the old-timers is to forget their troubles and continue to work as they always have. Go on with your ranch and work and don't buy too many automobiles when prices take an upward slant. Go slow. Stick to the business. It's all right. The world can't do without your cattle as a food commodity and you are bound to succeed in the end.

Get Best You Can Buy
“In buying cattle to restock your ranches, get the best you can buy. The business is all right. Don't quit it for oil or anything else. I've bought a good many cattle lately, but sometimes I think the business isn't what it used to be and I will quit and go into oil, as I have some land on which oil has been found, but as soon as I settle myself at my desk and pile up a lot of blueprints in front of me some fellow will come along and steal I want to sell. Immediately I lose all interest in oil, jump up and grab my hat and say, “where are they?”

“The cattle business is good enough for me and I'm going to stay with it.”

In opening the convention President Bivins delivered the address of welcome to his old comrades of the ranges.

“I welcome you back to the old town,” said he. “There are many here who can make more fluent speeches than I can and I'll not detain you long, but as Mayor of the city, after the manner of Ma Ferguson, I want to tell you that if any of you cowmen get into trouble while here we've got a pardon for you already written out.”

The crowd at the convention was augmented Tuesday by a strong delegation from the Omaha stockyards, which came in special Pullmans, bringing a quartet, which sang during the morning session. The stockyards and packing house interests of St. Joseph, Kansas City, Wichita and Omaha as well as Fort Worth, had strong delegations present.

Jim Swift, a commission man, addressed the convention on behalf of the commission houses and packers of Kansas City and former United States Senator, Norris Brown of Nebraska served as spokesman for the Omaha delegation.

Good Words for Texas
Mr. Swift said the Kansas City market had pioneered this field forty or fifty years ago and Omaha was just awakening to the importance of the cattle industry here. Senator Brown said he had never seen so much South as he had seen since he had been in this State and pronounced Texas a wonderful State with a glorious history.

“I don't want to say anything against Kansas City,” he explained. “She's doing the best she can. We've had a good word for the Kansas City feed pens ever since”

DENVER STILL STORING RAILS TO BUILD TO PLAINS

The Denver is laying 90-pound steel rail to replace that of lighter weight between Childress and Chillicothe. The rail being removed is being assembled at Childress to be used in the proposed construction of the line from Estelline to Plainview.

ENTIRE FILM TROUPE SHIPPED TO ACTUAL STORY LOCATION

One of the most interesting features connected with the screen production of Harold Bell Wright famous Novel, “When a Man's a Man,” is the fact that the picture was photographed on the exact spot where the story was written.

Harold Bell Wright conceived the story of “Honorably Patches” several years ago while camping in the Arizona Mountains. He made his headquarters in Prescott, Arizona, and spent much time and made many friends with the natives of the high city.

Out of this association with the mountain and ranch people evolved the story of the city man who went west in quest of his lost manhood. The Dean of the story and his wife, Stella, are still living on the old Cross Triangle Ranch, and many of the other characters in the book are nearby in Williamson Valley.

In deciding to produce the story of “When a Man's a Man,” Sol wisely planned to take advantage of these conditions and shipped his company of players en masse to Prescott. The Dean and his wife opened the doors at the Cross Triangle and received the picture people with hearty hospitality.

This picture will be shown at the local theatre next Tuesday and Wednesday nights.

POULTRY RAISER ENTHUSIASTICALLY PROMISES HELP

Silverton, Texas, Mch. 3, 1926
Briscoe County News,
Silverton, Texas,

Sirs: In several good county and state papers I see a column or more devoted to the good of the poultry industry, and thinking of your interest in the boosting of Briscoe's possibilities; I now respectfully suggest that you think over the probability of doing much good by adding something to your good sheet by having a “Poultry Dept.” or something of the kind.

And should you not be able to get Uncle Johnnie Heald or some one else that is competent to answer questions and write short articles, I will, for the actual love of the birds, do what I can to make it interesting and profitable to at least a portion of your readers.

Any service that I can give either to the individual or the public will be gladly given gratis.

Should you be interested, write me.
Yours for Bigger and Better Briscoe.
Signed: W. A. Palmer
Clarendon Route.

Note: “To be sure The News is interested. Come on Mr. Palmer and help us out in our efforts by sending in articles with your own personal touch to them. In other words The News would much rather have “home produced” articles by folks who have been over the road and are locally known and interested, if mistakes should be made, than articles of foreign origin.”

INSECT DAMAGES TO ORCHARDS

(By W. M. Gourley)

One of the important factors in fruit production in this community is the manner in which trees and fruit are protected from insect ravages. Perhaps there are more losses from insects than from diseases or any other one source. One of the common insects that is doing considerable damage here is the apple tree borer, and the peach tree borer. These insects work on the body of the trees and lower branches. The damage on the trunk is usual

COUNTY FAIR OFFICIALS TO HOLD MEETING SATURDAY

The Executive committee of The Briscoe County Fair Association is to meet Saturday at the courthouse at 2 p. m. Every officer is urged to be present to discuss early plans needed to be worked out now for the success of the Fair this Fall. Anyone interested in offering any suggestions relative to booths, entertainment etc. is urged to attend.

MAYOR FORT TO BUILD MODERN DWELLING

Mayor John G. Fort reports that he will soon start the construction of a sure enough modern residence in Silverton. He has not decided just where to locate the new structure as yet.

A LATE LAW REGARDING ELECTION OF S. TRUSTEES

Article 2820 of the School Laws of Texas was amended by the 39th Legislature to read as follows:

All of the ballots for the election of school trustees in common and in independent school districts having fewer than 500 scholastics as shown by the last preceding census roll approved by the State Department of Education and exclusive of transfers shall be printed with black ink on clear white paper of sufficient thickness to prevent the marks thereon being seen through the paper, and be of uniform style; at the top of the ballot shall be printed “Official Ballot, Common School District Number” or “Official Ballot, Independent School District,” the number or name of the school district in which the election is to be held to be filled in by the judge of the county when he orders the ballots printed. Any person desiring to have his name placed on said official ballot, as a candidate for the office of trustee of a common district or independent school district as herein provided shall, at least ten days before said election file a written request with the county judge of the county in which said district is located.

ly on the sunny side, the south or west. The bark cracks and peels away and in a course of two years or more the entire trunk is girdled by this insect and the tree dies. The action of the insect is as follows: The tree bark cracks sometimes due to hail and more often to sun scald. The fly of the borer lays their eggs in the crevices of the bark during the summer, between the month of April and September or October. The egg develops into the worm a flat headed worm about inch or so in length. This worm attacks the under bark of the tree trunk and grinds it up. Sometimes it works out as sawdust from the tree more often it remains under the bark. In the spring the borer goes into the pupa stage and then to the moth or fly and soon starts laying eggs.

Now as to treatment for the insects: There are two methods: One is to use Para-dichloro-benzene in crystallized form. This should be used in the Fall or early winter. Simply place a ring of these crystals around the base of the tree after the dirt and trash has been scrapped away, then bank up the soil around the tree firmly to a height of eight or ten inches, over this powder about 15 or 20 inches from the foot of the tree. This dirt holds the powder in place which is converted later into a gas which will destroy the borer imbedded in the tree. If you do not care to give this treatment just take a short-pointed knife or cold chisel and dig these borers out from under the bark and then apply the following tree wash to prevent further investigation: 1 gallon of boiling water in which one pound of hard soap is dissolved. This is allowed to cool and then 1/2 pint of crude carbolic acid and two ounces of Paris Green is added and mixed thoroughly. After which enough

TWO R. F. D's. FOR SILVERTON; START MAY 3rd.

Must Have the Boxes Up Not Later than April 20th

There will be two Rural Free Delivery routes started out from the Silverton Post Office on May 3rd providing there are 130 boxes or more boxes along the routes by April 20th. If the mail boxes are not up by April 20 so Post Master Frieze can report them the route will not be started for sometime later. So don't fail to get your boxes up a few days even before April 20th to be sure they were up would be better.

One of the routes will run North from Silverton and the other south. One carrier will cover both routes, going over one in the morning and the other in the afternoon.

Boxes according to Government specifications can be obtained in Silverton at reasonable prices so there will be no excuse for parties not having them up in time to cause the routes to be started on May 3rd. It is not known yet who will get to carry the mail.

Official PROCLAMATION

Whereas; according to election laws established by the City of Silverton, that the Mayor, City Marshall and a portion of the Aldermen shall be elected each year, said election to be held on the first Tuesday in April, the same being the 6th. day of April, 1926.

I hereby declare that said election shall be held as above stated for the election of Mayor, City Marshall and 2 Aldermen.
Signed: J. G. Fort, Mayor

PLAY BY SCHOOL FACULTY MARCH 18

Poor Married Men— This will be the play that is to be put on by the Faculty of the Silverton School on Thursday, March 18th. This is really a comedy play and everyone is assured of enjoying themselves that attend. The proceeds will go to the Home Economic, Agricultural and Athletic departments.
Program will appear in next week's issue of the News.

1926 STATE-WIDE CLEAN-UP CAMPAIGN

The state-wide clean-up campaign which is annually sponsored by the state board of health has been set this year for the week March 28th to April 3rd. The results obtained from a similar campaign last year were unusually good, the records showing that more than 160 towns reported intensive “clean-up” activities, participated in by health officers, chambers of commerce, civic organizations, boy scouts and school children.

lime to make a creamy mixture is added and this mixture in a paint for is applied to the trunk and lower branches, some two or three applications during the Spring and summer between the months of April and September.

Where there is considerable rain to wash off the mixture more frequent applications will be necessary. Now this treatment is not expensive and when carried out will probably save your entire orchard. These insects are here and very likely can be found at this time in most mature orchards. It is a safe plan to apply this wash to trees that show no sign of worms to prevent an infection later. The above mixture when economically used will treat at least 25 to 30 trees. Avoid waste on the ground, the banking of dirt around the base of the trees will reduce the amount space to be painted. This banking of dirt should be made early and packed, otherwise will blow away in the late winter or spring.

HAYLAKE SCHOOL OPENS

A nice school building of tile and brick, 54 x 58 feet is near enough completed for the Haylake community that school opened yesterday by the teachers only using two of the three rooms in the new structure.

K. C. Allen of Minden and Miss Ethel Ena Jones of Mt. Enterprise are the teachers at present with chances for another teacher being added when the building is finished. There are about eighty five pupils in the district, but several have been transferred on account of no school earlier, so there will probably be about sixty attend there this term.

THOMAS - BROWN

We were called to the home of our friend, Mr. Quinten Brown's to say the marriage ceremony for Mr. Lee Thomas and Miss Rebo Brown, March 8th at 8:30 o'clock. Several friends were present and after the ceremony refreshments were served, and music enjoyed. Those there came away wishing for them much happiness on their journey.

Miss Rebo is one of our distinguished young ladies, well equipped in training and coming from a good home. We predict a successful voyage. We had never met Mr. Thomas before, but from general appearance he is easily well fitted for the partnership.
—Rev W. L. Jenkins

MR. SEDGWICK SERIOUSLY ILL

Drs' report that Mr. Sedgwick who has been down with the flu and pneumonia for sometime is seriously ill.

REV. ESKRIDGE MAKES STRONG APPEALS

The meeting at the Baptist church is gaining ground. Rev. Eskridge being a man with earnest ambitions to do his best to promote Christianity makes very strong and able appeals to the church and the world to seek to learn more of the Lord's will. He has carried the minds of those who have heard him to where they are willing to try to get others to attend the services. He is especially friendly to the various churches and urges all Christians to attend the meeting.
The services will continue every night probably even through the next week.

CAMPBELL IN 1890 HAD TRUE VISION OF FUTURE

It costs money to turn out an annual calf crop of 17,000, and that is what the Matador's crop amounted to last year on his two Texas ranches. It is no secret that the company would like to sell out its high-priced lands, and would do it in a minute if war and income taxes would allow it.

The founding and successful administration of this famous ranch is one man's monument, and one of the most modest men that ever lived.
We refer to Henry H. Campbell general manager of the Matadors from 1879 to 1891 and afterward the first county judge of Motley County. As a boy in Ellis County Campbell had the ambition to establish the largest ranch in the world—and he just about did it with the Matadors. In 1879 he organized the Matador Cattle Co. with \$50,000 capital stock owned equally by himself and four associates. They were John Nichols, A. M. Britton and S. W. Lomax, respectively president, cashier and teller of the City National Bank of Fort Worth, and a New Yorker named Cata, who was Britton's brother-in-law.

Campbell started the ranch in Motley County because he found it ideal for his purpose and with enough free range to graze 50,000 head of stock. The first brand was 50 M, and a bit of human weakness that was, for the five men had managed to raise \$50,000 for their venture. Their first cattle “buy” was John Dawson's

SIX RURAL SCHOOLS RECEIVE AID FROM STATE

Frank Van Winkle, state supervisor of rural aid for schools visited Briscoe County with Judge Wright recently and the Frances, Holt, Lakeview, Kent and Gasoline schools were all granted aid by the State. Mr. Van Winkle reported being well satisfied with the progress of the schools.

Culling Poultry Unprofitable Now

Most people desiring their poultry flocks to be culled wait until the laying season on all hens, both poor and good. During this season of the year all hens do some laying with possible few exceptions, those being real old or barren hens. Another reason why culling is not practical now those doing the culling can not be accurate as they might be at the proper time, namely the late summer or early Fall. Hens just beginning to lay have some characteristics as the not yet laying, consequently you may cull out hens that are already producing.

CHEVROLET CARS AGAIN REDUCED IN PRICE

The Silverton Chevrolet Co. has received notice of a further reduction on Chevrolet cars on account of the government taking off 2% of the taxes which has been on automobile, however, the tax cut is not effective for some time, but the Company offers to allow the reduction now which amounts to an additional \$15. on closed models and \$10. on open models besides the big reduction they had in January.

herd, and along with that went Dawson's V brand. It remained to this day the Matador cattle brand, while the 50 without the M is the horse brand.

In 1881, four years after organization, the Matador Ranch got too big for Campbell to handle without additional funds. Britton went to Scotland and by sheer salesmanship interested a group of linen merchants of Dundee. A deal was made for reorganization on a large scale, by which the five partners were to receive \$125,000 apiece and be taken into the new company. Britton was made president of the Matador Land and Cattle Company, the new name, and Campbell continued as general manager.

Campbell was a man of enormous vision. When he gave up the general management of the Matador properties at the end of 1890 he called his cowboys around him and delivered a farewell address that deserves to remain an imperishable document in the annals of the West. With prophetic eyes, he foresaw the coming of the farmer. “Our lives are full of changes,” he said “First, we are cooing infants in the arms of dotting and devoted mothers; then prattling and mischievous children, whose lives are filled with careless joys and short lived sorrows; next, we are grown-up boys and young men with stronger sinews and budding ambitions for higher achievements; and then come mature manhood with its grave responsibilities, high aspirations and ardent labors.”

And then he made this statement:

Sees Ingres of Farmer
“The homeless sons of the East have heard of your fertile lands and sunny skies; they have heard of the expulsion of the Indian, the thief and the robber; and they are coming by hundreds and thousands to convert your vast pastures and ranges into homes and farms; and the question is, What are you going to do about it? Our advice in the premises is to reap the benefit of a condition of affairs that you own courage and fortitude has brought about, secure a body of this rich land that is attracting the attention of the world and that is so rapidly enhancing in value, and next invade the home of one of those good settlers for whom you have prepared the way”

TWO MORE MAIL OUTLETS FOR SILVERTON

The news that two Rural Free Delivery Routes have been granted to go out from Silverton, one going north and the other south from here, is indeed good news! There is nothing which is more satisfactory to the rural settlements of a community than a mail route, especially a rural route, for there are very few people who like to do without their mail very long at a time. Also the business firms of a town have a way of letting their customers know when they have something special or otherwise without their having to depend upon them coming to town. It will increase the efficiency of The Briscoe County News in its weekly task of distributing worth while information and news more quickly. It will increase that spirit of fellowship between town and country which is so necessary if either one—town or country—grow as they should grow.

Let those who will be along the routes not forget to have boxes up by April 20th so they will be started on May 3rd without a long delay.

PROMISING FUTURE FOR CATTLEMEN

It is interesting to note the confidence being placed in the cattle business again by old time cowmen. The cattlemen's convention held in Amarillo last week took on more pep than it has probably ever done before. Its actions were heralded by the largest Daily Newspapers in the country. Local Amarillo cowmen were quoted by the press far and wide. And some of those fellows with milloins made from "cattle and oil" will just about back up what they say too. Instead of K. C. and Omaha claiming the grounds, there will in a few years be talk between Ft. Worth and Amarillo or Amarillo and some other "Packing Centers" asking which is the best market—Amarillo will be of course! Then the cowmen and hog raisers can sure enough get top prices—The animals can be slaughtered there and sent on to California at much less expense than the way the program now is—to California on foot, then slaughtered. It probably will also be true that the animals can be slaughtered in "cool Amarillo" and the products shipped to East Texas cheaper than the way the arrangement now is.

The News is publishing in this issue an account of the Amarillo convention which is worth reading.

IS THE NEWS INTERESTED?

Should you be interested, write me, "says Mr. Palmer." Actions speak louder than words—in other words if The News has not already acted like it was interested in "Poultry" and the fellows who are taking a lead in its behalf—guess we would have to say "not interested." But! it is the belief of The News that its future policies as well as its past will prove that there is some actual interest on our part. Now, The News is not "sore" or even "puffed up" because its good friend Mr. Palmer asked this question, for in the first place, to the mind of the writer, "feelings are not made to develop good—but bad," "stir up a man's feelings and if there is any bad in him it is very apt to show up."—Now, back to what Mr. Palmer was getting at. Just to be plain about it, The News believes it has struck another one of "Briscoe County's Chicken Cranks", and to say it is proud of it, is putting the estimation lightly. To be sure, the idea of putting out a poultry journal is far from the management, but a column or so containing information that is educational and backed up by the practical experience of citizens of this section, is not putting out a Poultry Journal, but is helping to put out a "real newspaper."

So come on and help in the good work. Now is the time to put something into action, however, hold to the idea of diversification—have home grown grain to feed the chickens, cheese from milk produced on your own farm to feed them, and something else raised at home to eat so that you will not get tired of eating eggs and chickens, or so that you will not have more chickens than you can get grain to fatten them with.

**Build Your Home
this Spring---**

Let us help you build your home economically—not cheaply—but at the greatest possible savings in the cost of good materials which, like everything else that's good, is cheapest in the long run.

This community has good carpenters, contractors, bricklayers plasterers, plumbers, electricians and all others who are needed in home-building.

We can save money for you on every item—lumber, cement and windmills & supplies. Free consultation for builders.

SHERIFF'S SALE

The state of Texas, County of Briscoe,

Notice is hereby given that by virtue of a certain order of sale issued out of the Honorable District Court of Briscoe County, on the 1st day of March, 1926, by T. L. Anderson Clerk of said court for the sum of Twenty Thousand Nine Hundred Eighteen and 30-100 Dollars and costs of suit, under a judgement of foreclosure, in favor of Maggie Shutt, Wilda M. Stephan, Cora McFadden, Edward V. Stephan, Arletta M. Stephan and Elizabeth Stephan and Milton J. Braucher, guardian, in a certain cause in said Court, No. 495 and styled Milton J. Braucher, et al, vs. Champ Blackwell, et al, placed in my hands for service, I, C. C. Garrison as Sheriff of Briscoe County, Texas, did, on the 2nd day of March, 1926, levy on certain Real Estate, situated in Briscoe County, Texas, described as follows, to-wit: Section No. 43, Block B2 Certificate No. 1-794, B. S. & F. containing 640 acres of land, known as the Champ Blackwell section, in the Southwest part of Briscoe County, Texas, about 1 mile south of what is known as the Frances School house and levied upon as the property of Champ Blackwell and that on the first Tuesday in April 1926, the same being the 6th day of said month, at the Court House door, of Briscoe County, in the town of Silverton Texas, between the hours of 10 A. M. and 4 P. M. by virtue of said levy and said Order of Sale I will sell said above described Real Estate at public venue, for cash, to the highest bidder, as the property of said Champ Blackwell.

And in compliance with law, I give this notice by publication, in the English language, once a week for three consecutive weeks immediately preceding said day of sale in the Briscoe County News a newspaper published in Briscoe County.

Witness my hand, this 2nd day of March 1926.
C. C. Garrison, Sheriff Briscoe County, Texas.

Stump Brooks who has been gone the past three weeks came in Sunday.

The carpenters have two rooms of the school building ready and the teachers are here ready to start school the 10th.

J. H. McClendon and T. C. McCutchen went to Quitaque Monday.

How Doctors Treat Colds and the Flu

To break up a cold overnight or to cut short an attack of grippe, influenza, sore throat or tonsillitis, physicians and druggists are now recommending Calotabs, the purified and refined calomel compound tablet that gives you the effects of calomel and salts combined, without the unpleasant effects of either.

One or two Calotabs at bed-time with a swallow of water—that's all. No salts, no nausea nor the slightest interference with your eating, work or pleasure. Next morning your cold has vanished, your system is thoroughly purified and you are feeling fine with a hearty appetite for breakfast. Eat what you please,—no danger.

Get a family package, containing full directions, only 35 cents. At any drug store. (adv)

Mr. and Mrs. W. F. Autry were visitors with relatives at Amarillo the first of the week. They report themselves surprised at the way things are booming up there.

Mrs. Pearl Simpson is to make the third teacher at Haylake school which just started this week.

Baptist T. E. L. Class Report

There were 14 present at the T. E. L. class of the Baptist church Sunday with a collection of \$1. Mrs. Buchanan will visit our adopted shut-in sister this week.—Reporter.

FOR OVER 40 YEARS

HALL'S CATARRH MEDICINE has been used successfully in the treatment of Catarrh.

HALL'S CATARRH MEDICINE consists of an Ointment which quickly relieves by local application, and the Internal Medicine, a Tonic, which acts through the Blood on the Mucous Surfaces, thus reducing the inflammation. Sold by all druggists. P. J. Cheney & Co., Toledo, Ohio.

MAYOR THANKS PEOPLE FOR THEIR CO-OPERATION

To the People of Silverton: Having served as Mayor of Silverton for the past six years and thereby coming in contact with the City's citizens more intimately I have learned to cherish your companionship and cooperation in the business dealings and I hereby desire to express to you my sincere thanks for such. I wish to say now that I cannot consider holding the office another term. Will say that we have not done a great deal, but finances have been very short, and that has been a trouble which I believe should be helped out some by putting a proper valuation on the Real Estate of the City which has in the past had a very low valuation placed on it. Also I hope to see the City at an early date build a City Hall.

J. G. Fort, Mayor

Mrs. Ida Mott, Mr. Earl Wise and Mr. Less Morrison are on the

R. E. Douglas and family were guests at the Albert Dickerson home south of town Sunday.

The Presiding Elder held conference at the M. E. Church Sunday evening.

Clarence Sheet Sheets will farm the tract of land known as the Biffle land west of here this year.

Mrs. Clarence Sheets visited her daughter who lives west of town Sunday.

Mr. and Mrs. R. E. Douglas made a trip to Plainview Monday

Mr. Potter went to Plainview last Thursday after some plows for his tractor and on the road home got into the ditch to stay all night.

MISSIONARY SOCIETY

The Womens Missionary Society met with Mrs. Nichols Tues. The subject of the lesson was: Japanese Attitude toward the recent immigration bill and was led by Mrs. Jeff Simpson, and was inspirational to all present. After the lesson a short business meeting was held, and the Society voted to serve dinner on day during Dist. Court week, also the ladies are planning to give a play at an early date.

CHEVROLET COMPANY HAS BIG PRODUCTION

Detroit, Mich., March 10—A greater number of automobiles is being built this month by the Chevrolet Motor company than ever before was produced in a single month by any manufacturer of modern three speed gear shift cars.

The schedule, which constitutes a new monthly record for Chevrolet, calls for more than 57,500 passenger cars and trucks. According to W. S. Knudsen, president and general manager of the company, this total is more than 14,000 greater than the production during March of 1925.

To attain this record production plant facilities were increased recently to a daily maximum of 2,525 motors, 10 day and night shifts now averaging 135 motors per hr. The new high schedule for March follows a persistent winter de-

mand for Chevrolet cars which necessitated a record January production of more than 44,000 units—three times the production during January of 1925. In February Chevrolet production rose to 51,000 which was nearly twice the number of units built during the corresponding month of last year.

Mr. and Mrs. J. S. Fisher Entertained on 16 Wedding Anniversary

On Tuesday evening at the home of Mr. and Mrs. Charles Julian, Mr. and Mrs. J. S. Fisher had the surprise of their lives, as they had been invited to spend the evening at the home, and upon arriving learned that they were to partake of a dinner celebrating their 16th wedding anniversary. Mr. and Mrs. Morgan were also guests of the occasion.

Coming to AMARILLO Dr Mellenthin SPECIALIST

in Internal Medicine for the past fifteen years

Does Not Operate

Will be at **AMARILLO HOTEL** Tues. & Wed., March 23 & 24

Office Hours: 10 a.m. to 4 p.m.

TWO DAYS ONLY

No Charges for Consultation

Do you want an INVESTMENT

with possible returns many times in excess of ordinary investments in the

Amarillo Oil Field?

It is not better to invest wisely in a company operating sanely in proven territory, where there is no "promotion" in the stock than to hazard money in a wildcat company organized solely for the purpose of selling stock?

One of the companies organized in Amarillo to operate in the Amarillo field is the

Spring Creek Oil Company

organized by Frank Wolfin, Lindsay Nunn and E. F. Granberry.

This company went into the field and purchased several leases, one of the tracts being 40 acres out of Section 5 Block Y for a cash consideration of \$50,000 and a 1-8 over-riding royalty, and it is on this tract that the first well is now being drilled. In addition to this 40 acres there is another 40 in Section 7 Block Y, about 5-8 mile South of the Phillips producers and approximately a mile South of the Twin Six, this purchased at a cost of \$24,000.00. There is an additional 230 acres in the Northwest corner of Carson County in what is known as the "Four Corners" field close to the Warwick producer just over the line in Potter County, this last acreage being purchased at a cost of \$10,000.00. All of this acreage amounting to \$84,000.00, together with \$41,000.00 in cash for drilling purposes, comprises the capital stock of \$125,000.00. Only a small amount of the stock is placed on the market, the majority of it being carried by the organizers of the company, which are also the officers and directors, namely Frank Wolfin President; E. F. Granberry, Vice-president; and Lindsay Nunn, Secretary-Treasurer.

The first well, which is now being drilled in Section 5 tract is about 1300 feet from the Mellroy-Herring and less than one-half mile from the Mellroy One and Two, all of which are rated as 500 and 1000 barrel producers.

Any well posted oil man in Amarillo will say that the acreage secured by the Spring Creek is beyond the "speculative," in as much as the location of the well now drilling is in the very heart of the pool. The tract in Section 7 is proven to the North, South, West, with wells now drilling on the East. The acreage in the "Four Corners" field is close to production but this acreage is not at present as completely proven as the two forty acre tracts. The acreage alone could be sold today for a profit of many thousand dollars.

If you are interested in investing from one hundred to one thousand dollars, in a company that is really going after oil, honestly managed, not over-capitalized and with ownership of six-eighths of the oil in already proven territory, you can make such an investment now at par, one hundred dollars per share.

There will positively not be sold more than twenty-five thousand dollars on this basis, and this by the original organizers who put up all the money to purchase the leases and drill the well.

We can truthfully say to any prospective investor that there is positively no promotion in this stock and we pay exactly the same for our share of stock as any other shareholder.

If you desire to invest you may send a cashier's check either to J. L. NUNN, Nunn Bldg., Amarillo, Texas, and stock will be mailed to you, or you may make remittance in care of Amarillo National Bank, requesting that money be paid us when stock is delivered.

FRANK WOLFLIN (President)
GENE GRANBERRY (Vice-President)
J. L. NUNN (Secretary-Treasurer.)
AMARILLO, TEXAS

Here's a chance to save Some MONEY!

Silverton, Texas

METHODIST CHURCH

Sunday School at 10:00. 109 present last Sunday in spite of much sickness. We want 125 next Sunday. Bring someone along. The Clarendon College workers Band will be with us Sunday if weather conditions permit. This is a live bunch of real Christian workers. Plan to be with us. Leagues all doing fine work. Be there and boost for your league. Evening services well attended. We will be looking for you.—W. L. Jenkins, Pastor.

TRUSTEE ELECTION

The State of Texas, County of Briscoe. Notice is hereby given that on the first Saturday in April A. D. 1926, the same being the 3rd day of the month there will be held in the Silverton Independent School District, of Briscoe County, Texas, an election for the purpose of electing three trustees to hold office for two years. A. P. Donnell is hereby appointed as presiding officer of said election and J. M. Heald and Mrs. W. A. Dickerson are appointed clerks of said election; said election will be held in the Courthouse in Silverton, Texas.

R. M. Hill, president Silverton Independent School District. 3t.

Silverton School News

Miss Ione Baldwin is back in school after a few days absence on account of sickness.

Pauline Shaw is the only one from the third grade on the honor roll this month.

Last week the name of Billie Blackwell appeared on the second grade honor roll. This was a mistake. It should have been Defise Blackwell.

The following fourth grade pupils made A in conduct and in two or more subjects last term: Faye Allard, Bill Jenkins, Chester Potter, Mildred Summers, Frances Coffey, Jim Haynes, Juanita Snaw, Ona Dell Guest, Grady Poe Evelyn Kolb, Ruth Lawler, Bailey Hill, Ruby Draper, Finley Diviney Elnell Smithee, Louise Buchanan G. W. Lee, Littleton Graves.

The fourth grade is very much enthused over the adventures of Billy and the Mayor.

The girls finally won in the spelling contest. The boys will entertain them next Friday afternoon.

We are now divided into two groups. The willing workers and the Jim Dandy workers. There are both boys and girls in each group.

Several fourth grade students are working in different contests for the county meet.

Seventy Carde

The following students did not miss a day last term: Harry Bowers, Eural Vaughn, Ronald Anderson, George Snapka, Kempas Thompson, Eugene Dickerson, Arden Miller, Fred Biffle, Daphene Crowe, Sudie Lee Foust, Alan Dickerson, Lee Stevenson and Helen Lawler.

Harry Bowers was absent one half day on account of illness this week.

Fred Biffle moved out to the farm last week. Now he will have a good excuse for tardiness.

Aletha Brown did not miss a word in spelling last term.

Twelve students averaged 95 and above in arithmetic.

Thursday is voluntary poem day

CATTLE BUSINESS ALRIGHT SAY CATTLEMEN

(Continued from front page) they started and if we hadn't spoken a good word for them they'd never been heard of."

The Omaha delegation, he concluded, was glad to be in a state where men are Democrats and women are Governors, and urged co-operation by those engaged in the various branches of the cattle industry, explaining that the sooner must rely mainly on themselves for the advancement of their interests, for while the Government might be relied on to help, no Government could put a white face on a scrub bull.

B. C. Wiggerstaff, secretary of the Kansas City Live Stock Exchange, explained the provisions of the Federal statute known as the packers and stockyards administration act and said that after this law had been passed it was found that all the rules and regulations adopted some years previously by the exchanges for the protection of the shippers had been incorporated therein. Commission men of Kansas City, he pointed out, had been bonded since 1919, payment for cattle was made the day they were sold and blanket insurance on the yards and contents was carried.

Col C. T. Herring, banker and cattleman of Amarillo, in welcoming the visitors said many Amarillo cowmen were now becoming oil men and prophesied that this would soon become a great city on account of its isolation; immense trade territory, natural resources and railroad facilities.

An original poem dedicated to the visitors from the ranges was read by Miss Laura Hamner of Amarillo, who is styled the "Poet Laureate of the Cattle Country, a portion of which follows:

"At sight of you we remember days when this town had but little girls.

Though it shipped more loughorn cattle stuff than any town on earth.

I love to think of those old days and when I see you here The years between are gone for me, the past is mighty near.

This ain't nothin' but an old cow town and your town, take this from me.

Cows have built its every home and paved all these streets you see."

Amarillo is experiencing a big oil boom and just now the construction of two railroads to traverse the oil fields and the building of gas pipe lines and refineries are topics that are much discussed. Leases are selling as high as \$1,500 an acre.

We like variety.

Friday the class went down to Merrill's Hardware where Mr. Merril explained the working principles of farm machinery to them. It was a very interesting and profitable experience. Some of the girls showed by the questions they asked that they were not so familiar with farm implements as they may be. Here's thanking Mr. Merril for his kindness and hoping he may set his "Rock Island" week ery soon.

Fourth Grade

The following students were on the honor roll for the past six weeks, that is, their department was above ninety and made above ninety on the following subjects: R. D. Hodges, geography, english, history, reading and spelling. Robert Turner; reading and spelling.

Clyette Cowsar; english. Nellie Formby; english, reading and spelling.

Alfred Summers; english, reading and spelling.

Max Burson; english, history, reading and spelling.

Warner Grabbe, arithmetic, geography, grammar, reading, his-

tory and spelling. Glenn Pyeatt; english and reading Evelyn Kolb; english, history, reading and spelling.

Richard Poe; spelling.

The students have adopted a self government plan. We find it is a splendid plan for our room. Nearly every student in the room admires the plan extremely. The student having the fewest marks receives an honored ever-sharp pencil at the end of each week. R. D. Hodges received it last week we are wondering if he will keep it next week.

Pauline Webb is our new pupil. She is from Canyon.

Milton Sheid has moved to his new home at the Farmers Gin office. He likes his new home and is making good use of the typewriter there.

COURT HOUSE NEWS

Commissioners Court met Monday in regular session.

County Court will convene Monday.

Mr. Cox, state highway superintendent for this district was in Silverton Tuesday conferring with County officials, stating that the bridge would soon be in between here and Quitaque on the highway. He also stated that the State was anxious to have a highway due east from Quitaque to the county line and that if the district would donate the right-of-way that the State would put up the grade and bridges.

The News expects to have a more complete story on this later.

CAMPBELL IN 1890 HAD TRUE VISION OF FUTURE

(Continued from front page)

capture his daughter for a companion and trot in double harness down the rest of the pathway of life—in other words, settle down and be happy. The best of the domain is being rapidly absorbed, and unless you act promptly in the matter the opportunity will be gone. You are on the ground, and are familiar with the country and can make a living if anyone can. If benefits are to accrue from the settling of the country, you are certainly entitled to reap them, and now is your opportunity, and it won't last long."

Too few of the Matador cowboys followed their manager's advice, but the "sons of the East

The State of Texas, County of Briscoe. To the Sheriff or any Constable of Briscoe County, Texas, greeting:

You are hereby commanded to summon, Tommie Dowd by making publication of this citation once in each week for four consecutive weeks previous to the return day hereof, in some newspaper or published in your county, if there be a newspaper published therein, but if not, then in the nearest county where a newspaper is published, to appear at the next regular term of the District Court of Briscoe County, Texas, to be holden at the court-house thereof in Silverton, on the 1st Monday in April, 1926, the same being on the 5th day of April, A. D. 1926, then and there to answer a petition filed in said court on the 23rd day of February, A. D. 1926, in a suit numbered on the docket of said Court No. 503, wherein Antruy Dowd is Plaintiff and Tommie Dowd, is defendant, said petition alleging in substance cruel treatment and desertion and upon such grounds plaintiff prays judgement for the dissolution of the marriage relations, and divorce from the bonds of matrimony.

Herein fail not, but have you before said Court on the first day of the next term thereof, this writ with your return thereon showing how you have executed the same.

Witness T. L. Anderson Clerk of the District Court Briscoe County, Texas.

Given under my hand and seal of office of said court on this 23rd day of February A. D. 1926.

T. L. Anderson, Clerk Dist. Court, Briscoe County, Texas.

(SEAL) issued this 23rd day of February, A. D. 1926.

T. L. Anderson, Clerk Dist. Court, Briscoe County, Texas.

T. L. ANDERSON WILL BUILD MODERN DRIVE-IN FILLING STATION IS REPORT

It is reported that a contract will be let soon by County Clerk, T. L. Anderson for the erection of a modern drive-in filling station in Quitaque. It will be located on the corner at the West end of main street on the south side of the street and just across from the Persons-Johnson Gin.

Last year Motley County raised more than 18,000 bales of cotton—and one-half of its area is still in the Matador Ranch.
