THE TOWN DOCTOR SAYS

ANYTHING LESS THAN THE BEST IS SOLD AT A DISCOUNT

There is an old and very true saying that "What the eye doesn't see, the heart doesn't fancy," but it is also true that the eye sees many things that blind the heart to that which it otherwise would fancy.

How often have you seen a blemish on the face of an otherwise beautiful woman, so noticeable that whenever you looked at her, you could not keep your eye off the blemish? She might be wonderfully gowned, marvelously groomed and exquisitely coiffed, but try as you might you could see only the mar.

The appearance of anything either repels or invites ownership. Eighty per cent of those things sold today are purchased through, or the purchase is influenced by, the eye. What a thing looks like, therefore, is extremely important in creating a desire in the minds of others for it.

The appearance of a town is just as important as the appearance of a package, the appearance of a show window, clothing, or anything that is purchased in the store or on the market.

Why do they put colored picture wrappers on cans of beans, corn and tomatoes—it doesn't make the contents of the can any better. Why do automobile manufacturers spend so much time, care and money on the exterior appearance of the motor car—it doesn't make the motor run any smoother or last any longer, or make the car ride any easier.

Any package, even though the contents be unharmed, depreciates in value if the cover is spoiled, torn, or the least bit mutilated. Furniture with the least scratch; a suit, though never worn, that has faded; a book with a broken cover; a shirt with a torn tail, are less than the best, and so sold at a discount. A perfect animal with a skin blemish never takes the prize.

Look around you and see all those things that are made to look attractive, in order that you may be attracted thereby—then, think of your town.

The picture of many communities would serve well for a puzzle picture of "What's Wrong Here?" Stand back and take a good look at the picture of your own front yard, your store, your office building, your factory. Does it look GOOD or are you half way ashamed of it? Are you proud of it, or do you apologize for the looks of it when company calls or people start talking about it?

Selling a town—and to keep pace

SILVERTON, TEXAS

NEIGHBOR PRESS FOLKS SAY

Lamb County Leader—If you feel you're not getting anything out of your community, try putting something in.

McLean News—Praise of the home town is commendable and right, but trading at home speaks more eloquently than words.

Turkey Enterprise—Civic leaders endorse the movement to establish city parks, as suggested by the Enterprise, while space is available. The Lions club will have to "get up and hop" if sufficient funds are assembled in time to put in the play-ground equipment when the "city dads" acquire the site for the first unit of city parks.

Floyd County Hesperian—This human brain is a wonderful organ. It starts working the moment we get up in the morning, and doesn't stop until we get to the office. That's why there ain't no more this week.

McLean News—Advertising will bring people into your store, and some of them will undoubtedly buy. But advertising consistently run and followed with personal sales effort, backed by quality goods priced right, will produce twice the results. Advertising is not all of selling, but it is the most important part, as all successful business men have learned.

Clarendon News—Every time a home maker produces a better and more cheerful living room she has contributed largely to the happiness and success of that home. Environment very largely types the mental attitude and moral standards of people. Better rooms make better homes. Better homes make better people.

Quoted in Turkey Enterprise—"It is easy to say grace when full of pie, easy to be honest of a fat income, but get the same razzle dazzle the devil dishes up for Job, then see how long your hallelujahs last."

LOCKNEY, May 21.—Work is now in progress on laying of two thousand additional feet of pipe to the water system and one thousand feet to the sewer system in order to serve adequately the expanded residential districts of the city.

with modern times, it must be sold—is like selling anything else. Therefore, how your town LOOKS is of vital importance. There are few towns that are not very much like the "otherwise beautiful woman"—their beauty is so marred by blemishes that the beholder cannot see the attractiveness for looking at the scars.

Do your part—set an example by eliminating the scars, the blemishes of YOUR corner and others will do likewise. It's POOR BUSINESS to allow the value of your community to be discounted by a poor appearance.

Leg Weakness Amid Baby Chicks Is Common Disease This Spring

No Satisfactory Cure for This Ailment Known; Preventive Measures Recommended and Proper Food for Strength

(BY W. M. GOURLEY)

A large number of cases of leg weakness among baby chicks have been reported this spring, and several cases have come within my observation. This is a very common baby chick trouble, and one that in most cases, be controlled. Main causes are lack of mineral in feed, lack of green feed, lack of protein, and the lack of suitable range.

Chicks under close confinement are most apt to show this trouble. Frequently you hear poultrymen say that they are placing their chicks under the same environment, giving them the same feed, etc., that the chicks last year received. Last year's chicks did not show leg weakness, while this year a large per cent of the brood seems affected.

There is an explanation for this. Last year's brood were no doubt stronger in vitality. They had more reserve power bred in them to withstand unfavorable conditions resulting from improper feeding and management. Climatic conditions will have something to do with the extent to which this trouble travels through a flock. Usually closely bred chicks of rather poor stock develop this trouble very easily. There is something lacking somewhere and it is up to the poultrymen to figure this out, when corrected cases of leg weakness will be greatly reduced. Cases of leg weakness in older chicks result more from intestinal worms and coccidiosis, or bloody diarrhea. This disease occurring when chicks were 4 to 5 weeks of age.

The method of treatment is not very satisfactory. About all you can do is to prevent the disease. Real bad cases of leg weakness seldom recover. I would suggest that you feed lots of ground oyster shell.

In all home mixed feeds, bone meal should be added. It can be bought locally. A good home mixed ration to be fed after chicks are 10 days old is: Yellow corn meal, 4 lbs.; Bran, 2 lbs.; shorts, 2 lbs.; meat scraps, 1 lb.; and bone meal 1-2 lb. This shows that at least 5 per cent of your mash should be bone meal. Commercial feeds usually carry the right amounts of minerals.

It is very important in mixing home-made feeds, that all ingredients are fresh. Stale feed will cause digestive disorders. Skim milk soured or clabbered is excellent for leg weakness. It can be used instead of the drinking water or in connection with it. It may also be used in wetting the mash, when a wet mash is preferred. In case an abundance of skim milk is used, the meat scrap and bone meal may be cut half. As in the above

Wheat Farmers Are Pleased with Outlook

For the second time within a week heavy rains fell over Briscoe county and was general over the entire Panhandle-Plains region last Friday. Precipitation varied from half an inch on the north plains to close to two inches in parts of the south plains.

The rain was lightest in the north portion of the panhandle. Wheat growers, still jubilant over a rainy weekend, expressed the opinion that except for a possible severe hailstorm or other unforeseen damage there is no reason why the wheat crop this year should not be the largest in the section's history.

ration, use 12 pound meat scrap and 1-4 bone meal. Never eliminate the bone meal, even though you have an abundance of milk feed.

Chicks must have green feed. Sprouted oats, barley or wheat are excellent. This can be done by soaking grain 24 hours in a bucket. Flush out with fresh water. Keep moist and sprouting will be very prompt. Native grass is not as satisfactory even though it is tender. Chopped lettuce leaves are fine.

Get chicks out of brooder house on good range. After the dew is off the grass get them into the sunshine. Don't make hot house individuals out of them.

Now you may not have any leg weakness among your chicks, still they are not as strong as they should be no doubt, unless you have observed most of the following points. It is passed on to you by some of the most outstanding poultrymen of the country. It will pay you to observe them, if you want good strong vigorous laying stock and breeders next year.

Clean Milk and the Fly Menace

One important advantage of hauling manure to the field daily on the dairy farm is the fact that direct hauling robs flies of an excellent place to breed and multiply, finds the research department of the National Association of Farm Equipment Manufacturers. Flies are a serious menace to milk sanitation, in fact, a prominent dairyman stated recently that he considered the control of flies sufficient reason in itself for hauling out farm manure daily.

Besides controlling flies and keeping the barnyard cleaner and more slightly, direct hauling of manure prevents losses from leaching, fermentation and other agencies. Experiments at Ohio, conducted over a period of more than 30 years, revealed that manure was worth 65 cents more per ton hauled directly to the field than if it were allowed to remain four or five months in the barnyard. Year-round hauling of manure necessitates a crop rotation which provides an available field for spreading throughout the year.

Money on Tap

In developing a model telephone system the American Telephone and Telegraph Company renders certain services which could not be secured as cheaply or satisfactorily by any of its affiliated companies.

In the matter of finances alone it keeps on hand from 50 to 150 million dollars which can be advanced to subsidiaries for needed extensions, in advance of issuing new securities, thus preventing delayed improvements.

This is one of the services that enables its operating companies to give the United States the best telephone communication in the world.

CARD OF THANKS

We wish to take this method of thanking the people for the many deeds of kindness shown during the illness and death of our father, J. E. Simpson.

May our Lord Bless and comfort each of you.
—The Children and Relatives.

Louis Francis Has Noted Jersey Sire

The \$185 Jersey Bull Is Now Son of a Champion, Sister and Sire of Junior Champions.

Decemvirs Lad, the registered Jersey bull which was imported last summer by Louis Francis, who lives southwest of Silverton in the Lakeview community, has suddenly come into much prominence.

In checking over the winners of the dairy show held at Cleburne last week as reported in the Star-Telegram, it is seen that the grand champion female of the show is Butter Lad's Spotted Daisy, the mother of Mr. Francis' bull, which was shipped to Briscoe county from the district along with 45 other registered and high grade Jersey cows. Also, the junior champion bull of the show there was Spotty's Noble Grandson, and the bull of Mr. Francis is the sire of this winner. Furthermore, Decemvirs Lad's sister, a daughter of the grand champion, was a junior champion at Cleburne. So the bull is related to three great champion individuals, the mother, a son, and a sister.

No doubt the former owner who sold Decemvirs Lad for \$185 would be glad to get him back at a much higher price. Mr. Francis now has a great individual, since he has produced a grand champion individual. This is a sample of the eleven bulls that were shipped into this trade territory last Summer. There are no better bred bulls in Texas. The bulls and heifers have made remarkable growth and development since that time and many no doubt will be shown here this fall if the county fair is held.

Floydada Has Dairy Products Factory

FLOYDADA, May 22.—A creamery is opening here this week with capacity of 4,000 pounds of butter daily. It was organized with local capital to meet the demand of a rapidly expanding dairy industry.

The End of Free Government

"When officials come to feel that ideas are dangerous and use their power to restrict free expression of opinion, whatever the subject, we shall no longer live under a free government."—Arthur Garfield Hays in the "Forum."

Another Car Jerseys May Be Shipped In

Inspection of Herds in Johnson County Will Be Made and Prices Obtained by W. M. Gourley.

It is now being planned to import another carload of high grade and registered dairy cattle this summer for the Briscoe county farmers, if they want another car.

Prices will be obtained by W. M. Gourley, who will stop over at Cleburne for two days inspection of herds in Johnson county and will report to the Briscoe County News just what can be secured. All interested in getting new dairy stock will be asked to get in touch with Mr. Gourley later at College Station.

By all means the county needs more Jersey female stock, and the place to buy them is where there is a surplus. Some of the heifers bought last summer at \$45, plus freight, now have calves and are easily worth double the amount paid. A good investment has resulted.

A lineup will also be secured on registered bulls that may be needed in the community, according to Mr. Gourley. After harvest will be an excellent time to get them. It is claimed that investment of some of the wheat money in this way will result in cash returns at big interest out of the cream can within a few months.

Rosemary Price Is First to Receive G. Tunnell Award

QUITAQUE, TEXAS, May 23.—Rosemary Price, daughter of Dr. and Mrs. E. C. Price of Quitaque, was the first recipient of the award offered by G. Tunnell to the "best all-round student" of the graduating class. The award was made at the Commencement exercises on Friday night of last week.

Completing all four years of her high school work in the local school, Rosemary has made a most excellent record as a student, and in addition has been most active in all student activities. She will go to college in the fall, and instructors in whose classes she has been during her course here, predict a most successful college career.

Perryton — Hatchery established here with 52,000 egg capacity incubator.

Agriculture Teachers Functions Over County in Farm Agent Role

Size of Job and Expense Recognized When Wide Range of Work Done Among the Boys Is Presented.

Project supervision for W. M. Gourley, local agriculture teacher, is no small job. His projects range from eleven miles west in the edge of Swisher county to within one mile of the Caprock on the east; from six miles north to 12 miles south.

Projects are being conducted for boys living in the Silverton school district, and in addition the following districts: Wallis, Haylake and Alexander (Swisher county). All projects have been visited from one to five times already this year.

It is a very expensive proposition to personally supervise projects in a such wide area. Continued supervision will be made this summer, after Mr. Gourley returns from summer school. The purpose of these visits is to determine whether the students are

making use of the plans he has made to carry out his supervised practice work, to offer any help or suggestions on his work, and to check up his record book.

Each boy keeps books on his enterprise to know cost of production and actual net profit. From farm surveys it is found that not one per cent of the farmers keep books on their business. When they take a ton of maize to town they don't know the cost of producing it, if they market a bale of cotton they cannot tell just what profits or loss they have had. Or if he is milking 6 or 8 cows he doesn't know which cows are making an income and which are boarders. All the master farmers of Texas keep records on their farm business it is found.

W. C. ROUNTREE, M. D.

If you have any of the following symptoms, I have the remedy no matter what your trouble has been diagnosed: Nervousness, stomach trouble, loss of weight, loss of sleep, sore mouth, pains in the back and shoulders, peculiar swimming in the head, frothy like phlegm in throat, passing mucous from the bowels, especially after taking purgative, burning feet, brown, rough or yellow skin, burning or itching skin, rash on the hands, face and arms resembling sunburn, habitual constipation, (sometimes alternating with diarrhoea) copper or metallic taste, skin sensitive to sunheat, forgetfulness, despondency and thoughts that you might lose your mind, gums a fiery red and falling away from the teeth, general weakness with loss of energy.

MRS. J. B. MASSEY

How to Get the Most out of your land

YOU CAN HAVE the best land in the world and the best seed—but you won't get the biggest possible crop if your drill falls short in any one of several important essentials. The Case Grain Drill does a prime job of planting because it delivers the seed accurately and deposits it evenly in the extreme bottom of the furrow. Even depth of planting means that every seed gets an equal start, permitting even growth and more uniform ripening.

The Case Fluted Force Feed Drill saves your seed and increases your yield. There are no skips—no bunches—no cracked or wasted seed. The Case Double Run Feed is equally efficient.

Get a Case Drill and rest assured you've got the one that will give you the biggest yield at the smallest cost. Drop in soon.

PATTON MOTOR COMPANY

Gravel Company in East Part of County Busy Shipping Out

PITS LOCATED ON MRS. FERRIS SECTION FOUR MILES FROM CITY. SUPPLY ESTIMATED AT MILLION AND HALF TONS. SIXTEEN CARS SHIPPED.

QUITAQUE, TEXAS, May 21.—Development of the gravel deposit on the Mrs. John N. Ferris section four miles south of Quitaque is announced by the Quitaque Sand & Gravel Company, composed of I. A. Hadley and B. M. Temple. Situated in the bed of the Los Linguos River, the tract controlled by the company has an almost inexhaustible supply of high grade gravel and sand, estimated at one and a half million tons by engineers who have surveyed the deposit.

Shipments of gravel by the new firm started last week, and to date 16 cars have been sent out, with an ever-increasing demand being noted. Among other projects, the local company is furnishing the gravel for the city paving project in Plainview. A retail yard is being established in that city by the company.

Ground included in the deposit being worked by the company is estimated as 700 feet wide and 5,000 feet long, with a depth ranging from the product submitted to engineers one foot to seven feet. Samples have been graded high for all kinds of construction work.

Opening of this deposit by the Quitaque Sand & Gravel Company marks the entry of the second concern of its kind into business, the Panhandle Sand & Gravel Company having been in operation for some time.

The high quality of sand and gravel being taken from local deposits has created an excellent demand from all sections of the state.

Plainview Boosters at Quitaque Friday

QUITAQUE, TEXAS, May 23.—On Friday, May 24, Plainview trade boosters to the number of approximately 200 are expected to arrive here at 9:17 a. m., on the first trade trip ever attempted by that city. The party will remain here 40 minutes before leaving for Childress.

Natives Pack Chevrolet Through Dense Jungles

It became necessary a few weeks ago, for the first time in the history of Chevrolet Motor Company, to dismantle a car after sale in order to deliver it to its purchaser. This interesting incident occurred in Acheen, northern Sumatra, an outpost typical of numerous forsaken corners which Chevrolet has been pioneering for years.

Without doubt it was the strangest caravan ever to move across this section of jungle land. A coolie, lugging a wheel, marched a little in advance. The cylinder block was in the custody of a particularly husky pair, and so on. The heavier parts were carried in shifts to divide the work equally.

Nearly a month was required to complete the jaunt. The day the last of the parts arrived the truck was assembled by the dealer's mechanic. The next day it was doing Trojan duty as Chevrolet trucks have done many times before in pioneering enterprises.

Picnic Plans Are Complete for 30th

QUITAQUE, TEXAS, MAY 23.—Arrangements are complete for Ft. Worth & Denver picnic to be held at Quitaque Falls on May 30th, a telephone message from D. D. Daniels of the Denver, stated the first of the week. Practically the entire shop force, with families and friends, are coming to Quitaque on that date, Mr. Daniels stated, and the famed Denver band will accompany the crowd.

A local committee composed of Homer Sanders, Jack Seale and Claud Holley visited Flomot and Gasoline the first of the week, extending an invitation to the people of those communities to join in the holiday festivities.

Love to be Nude Buy An Island

PARIS, May 23.—Exponents of nudity in France have just acquired an island on the Seine, a few miles outside of Paris, where they can besport themselves unmolested, these warm spring days, in the altogether. They have named their haven, "The Citadel of Naturalism."

The credo of the French votaries of nature in all its nakedness is: "Live simply, unclothed, fed by herbs and fruits and refreshed by clean water. Thus only is to be found the source of truth, beauty and joy."

Many Quitaque Seniors to Attend College

QUITAQUE, TEXAS, May 23.—Of the twelve graduates of the local high school, at least six, and possibly more, will attend college in the fall, according to Superintendent G. S. Dowell. Those who have already signified their intention of further pursuing their education are: Clay Hines, E. J. Hines, Coleman Draper, Jack Grundy, Rosemary Price and Roy Burgess.

Turkey Carries \$85,000 School Bond Issue Vote

TURKEY, TEXAS, May 20.—Voters of Turkey on Tuesday approved the issue of school bonds to the amount of \$85,000 by a vote of 100 to 61. Of the new issue, \$50,000 will be used to complete the present high school building, the first unit of which is now in use, and \$35,000 will be used to remodel and equip ward schools.

School Year at Quitaque Closed Last Friday Night

Class of 1929, Quitaque High School, Received Diplomas Friday Night, Concluding of Commencement activities.

QUITAQUE, TEXAS, May 20.—Members of the graduating class of the local high school spent a most active week during their last days as undergraduates.

Commencement Week proper was ushered in with the Baccalaureate services on Sunday night, Rev. Smith of Floydada delivering the sermon of the evening. Taking as his theme the word "Victory", the speaker gave his audience a word for each letter of his theme word, urging upon graduates the necessity of holding closely to the teachings of home, school and church if ultimate victory is to be achieved.

On Monday night, the Junior class acted as host to the seniors, the annual Junior-Senior Banquet proving a most enjoyable event.

Wednesday morning, members of the class were up before daylight, the occasion being the Faculty-Senior Sunrise Breakfast.

That same night, the annual Senior play was presented. Thursday the graduates were guests of the Lions Club at luncheon, and enjoyed an Alumni-Senior outing that night.

On Friday the class enjoyed the all-day Senior outing, followed by graduation exercises that night.

Programs for the two classes as rendered were:

- Grammar School
 - Invocation—Rev. F. R. Pickens.
 - Salutatory—Roy Amick.
 - Class Song.
 - Class History—Louise Bearden.
 - Valedictory—Cecil Tanner.
 - Parting Address—H. A. Wallace.
 - High School
 - Salutatory—Lila Mae Garrett.
 - Class History—Alvis Caddell.
 - Senior Song.
 - Valedictory—Cecil Tanner.
 - Junior Song.
 - Address—Rev. R. E. Bost.
 - Presentation of Classes to School Board by J. L. Speer.
 - Presentation of Diplomas—R. Stapleton.
 - Benediction—Rev. R. E. Bost.
- Thursday's exercises marked the closing of one of the most successful years in the school's history.

FIRST NATIONAL BANK Silvertown, Texas

The Plainview Clinic, Plainview, Texas, thoroughly equipped for the examination and treatment of medical and surgical cases.

Speer's Variety Store Opens in Quitaque

Seventh Store in Chain of Variety Stores Locates in Quitaque Dick Speer in Charge.

QUITAQUE, TEXAS, May 22.—Speer's Variety Store No. 7 made its formal bow to the Quitaque community on Saturday, May 18, when the store celebrated its location in Quitaque with an opening sale to last one week. The Speer chain specializes in goods ranging in price from 5c to \$5.00, and has had a most rapid growth since the first store was opened in Spur. Decision to locate a store in Quitaque was the result of a careful business study of conditions here, Dick Speer, manager of the chain, states. The project has been under advisement for several months, and becoming convinced of the future of the city, store number 7 was located here.

test sponsored by the local chamber of commerce is attracting attention in West Texas is evidenced by the receipt of a letter here from Homer D. Wade, manager of the West Texas Chamber of Commerce. Mr. Wade wrote at the request of Mayor Webb of Albany, Texas, who desires to stage a similar contest in his city.

You can bank on the quality of a cigarette that continues to be the biggest success in smoking history

CAMEL CIGARETTES

WHY CAMELS ARE THE BETTER CIGARETTE

Camels contain the choicest tobaccos grown . . . expertly blended for matchless taste and fragrance.

They have a welcome mellowness and mildness that you will find in no other cigarette. Smoke them as often as you like, Camels never tire your taste.

The quality of Camels is never permitted to vary.

Only a superior cigarette could have won and held world leadership for all these years as Camel has done.

Seniors Set Progressive Dinner For Hungry Juniors Who Ate All Over Silverton

Rah, Rah, Rah, Seniors, Seniors. So chanted the thoroughly pleased juniors after the above dignitaries had honored the underclassmen with that very delightful form of entertainment called a progressive dinner.

The crowd assembled at the home of Mr. and Mrs. Will Smith where Gladys Smith, a senior, was the delightful hostess through the first course—fruit cocktail which was served from the buffet.

The next course was found at the home of Elva Wright another senior. Here were served meatloaf, peas, scalloped potatoes and salad, together with quantities of sandwiches. With music and songs the stopover at the Wright home was happily concluded.

The long procession of cars carrying the thirty-four juniors and seniors next wended their way four miles north to the home of Mr. and Mrs. S. R. Turner, where the daughter, Evelyn, presided during the last course of ice cream and cake. Here the bunch enjoyed more music and hilarity's good time before returning to the school for rehearsal of the senior play.

The senior class helped in providing and preparing most of the food and the hostess duties were shared by Marie Thomas, Faye Brown, Kate Thompson, Mildred Cloyd, Rheua Alexander, and Bertha Thomas. The boys bought fruits and provided ways of transportation. The senior hosts

were Vernon Garrison, Arlon Donnell, Obie Sheets, Elmer Gilkeyson, H. C. Claunch, Jr., and Claget Anderson. The chaperoning sponsors were Mr. and Mrs. A. L. Kelsay.

Study Club in Last Session of Club Year.

The 1925 Study club held its final meeting of the club year Wednesday, May 15, with Mrs. Bland Burson as director on the general topic of Essay Writing. The session was in the form of a review or summary conclusions of the 1928-29 study of English Essays and Essayists.

There was a discussion of which of all the essays for study was the greatest and the reason for the selection of the best. The director's subject was, "Why the Essayists Arrive Late." Members of the club gave original essays.

The subject of the course for 1929-30 club year chosen is "Southern Literature," an extension course of the University of Texas. Mrs. Bland Burson, Mrs. R. E. Douglas, and Mrs. A. P. Dickenson have been named to prepare programs and the club year book.

W. M. S. Study Doctrines of Faith

The W. M. Society met Monday at 2:30 o'clock at the First Baptist church in mission study, Doctrines of Our Faith. The study was taught by Mrs. R. L. Buchanan.

Rev. R. P. Davis will have charge of the Bible study in the meeting next Monday, May 27. Members are urged not to forget the meetings, as a few absences will cause a loss of interest.

Those answering the roll call at the last session were Mesdames Haynes, Foust, Morgan, Buchanan, Bomar, Larphart, Patton, Miller, Stewart, Cryer, Dunnagan, Garrison, Stephens, and Allard.

McAnaw Home Party Center for Guests

Mr. and Mrs. Leo L. McAnaw entertained their guests, Mr. and Mrs. E. C. Kurtz of Oklahoma with a party at their home Tuesday, May 14. Bridge and dancing were the entertaining features.

At a late hour a large birthday cake was brought in by the hostess

lighted with sixteen (?) candles in honor of Mrs. Kurtz birthday. Then refreshments of cake and cream were served to Mr. and Mrs. John Bain, Jr., E. G. Snapka, Mr. and Mrs. John Lewis, Tom Murphy, Neale Crawford, the honor guests and the hosts.

Picnic in Canyon for Mr. and Mrs. Kurtz

Mr. and Mrs. E. C. Kurtz were treated to the Plains' scenic beauty by their hosts, Mr. and Mrs. Leo L. McAnaw Wednesday, May 15, when they and a few friends were given a picnic outing on Tule canyon. The visitors from Oklahoma were astonished at the landscape picturesqueness and thought the canyon afforded the most beautiful scenery they had ever viewed. Rounding out the open air pleasures, the evening lunch was cooked on a campfire. Mr. and Mrs. John Bain, Jr., Mr. and Mrs. E. G. Snapka, Mr. and Mrs. John Lewis and Tom Murphy were other guests of the party.

Baptist W. M. S. Adopts Varied Program

A varied program of much interest was adopted by the Woman Missionary Society at its last meeting. A committee of four, Mesdames Foust, Buchanan, Morgan and Miller, was appointed to draw up suggestions and its report was accepted by the society.

To carry on the varied work now outlined there are two town zone chairmen, Mesdames R. P. Davis, south; Mrs. J. R. Foust, north; four out of town zone chairmen, Mrs. R. L. Carter, west; Mrs. Wheelock, east; Mrs. C. C. Garrison, north; and Mrs. Paul Larphart, south.

Mrs. Ralls Miller is industrial chairman, and Mrs. R. L. Carter visitation chairman. The story hour for children will be conducted by Mrs. Dan Cryer.

The program is interesting and it furnishes a part for each one to play. The industrial committee, of which Mrs. Miller is leader, has planned the work so that those who do not attend the regular programs may go to their rooms after roll call and engage in whatever work is laid out.

After roll call the visitation chairman visits each absent members' home. Mothers are requested to bring their children to the meetings as Mrs. Dan Cryer will entertain them.

The W. M. S. meets promptly at 2:30 and adjourns at 4 o'clock. All are requested to attend, bringing the children, work box or program, and help put the new work over successfully.

LOCALS

Prof. C. W. West, principal of the Lakeview school, was in the city Monday on business. Prof. West was recently elected scout master of the Silverton boy scouts.

E. D. Stinson, who has been on a fifteen-day visit with relatives and friends in Dallas and other towns of East Texas, returning home Monday.

Deolis Nix and Grover Amason were visitors in Plainview Sunday.

R. G. Alexander and T. R. Whiteside, who have been performing jury service for federal court in Amarillo, spent the week-end at homes, returning to Amarillo Sunday.

C. L. Cowart is in Whitewright this week where he was called on account of the serious illness of his sister.

Mrs. Maxine Knox, who has been visiting her parents, Mr. and Mrs. A. E. Frieze, for the past month, re-

Seventh Grade Graduating Exercises

The graduating exercises of the seventh grade were held at the auditorium Tuesday night, and at the same time the play of the year for the grammar school was presented to an appreciative audience.

Suggested MENU

It takes an artist to always serve meals in the summer which are appealing to the appetite. Service adds greatly to the effect of coolness which is so desirable. Dainty colored linen and crystal in cool colors form a background for meals in which the dishes served may be as simple as you wish but which must be as dainty and attractive as they can be made. The National Live Stock and Meat Board contributes these menus built around meat dishes which are particularly suitable for summer.

W. G. SEAY—Manager

Evangelistic Work Stressed in Report for Methodist Year

Plainview District of Methodism Gains 493 Additional; Pastor's Salaries in Good Shape; President Hoover Commended.

The full report of the committee on the general state of the Methodist church in the Plainview district is carried below, as made to the district conference in its session at Happy.

We, your committee on the general state of the Church have considered the interest of the district and wish to give the following report:

Evangelistic and Spiritual State.

Of the eighteen charges reported, seven have held revivals with 271 conversions and 493 additions.

Every charge is planning a revival for its people, and urging that the campaign be well organized, using the official members of all departments as personal workers.

We urge that special prayer be offered for a great awakening in every charge and that every organization of the Church remember that its first duty is to lead men to know Christ.

We believe there is nothing that can take the place of the annual revival. In it the life of the Church is quickened, sinners converted, decisions for life service are made, and young men answer the call to the ministry.

Let us set for our goal 1,000 conversions and as many additions to the Church by annual conference.

Since we are an Evangelistic people, let the Evangelistic note ring clear in our ministry until the last man has heard of Christ.

We are glad to note the pastors reports that there is a marked improvement in the financial condition of the district over that of last year.

The pastors salaries are for the most part paid up to the date and the outlook for full reports is very encouraging.

The conference collections are being taken and the pastors are hoping to report in full on all benevolences.

We wish to commend the good work of Rev. C. L. Cartwright of Plainview; Rev. A. D. Moore of Plainview; Rev. J. F. Carmack of Akin for their collections provided for.

We wish to emphasize the importance of securing our benevolences at once.

We commend the pastors for their diligence in offering which is almost 100 per cent.

Mounts on Mission special were good.

They have been paid on the Superannuate Endowment Fund. Rev. J. E. Howell of Otton is to be com-

mended for having his quota on this fund.

We wish to urge each layman and pastor help make Plainview District one hundred per cent by annual conference.

Sunday-School

We find that there is a lively interest in our Sunday School work. Institutes have been held in the district and one Standard Training School was held which issued 39 credits. We wish to put stress on the training program and that workers Council.

It is urged that at least one training class be conducted in every pastoral charge.

Sunday-School Superintendents and pastors are urged to make an effort to have Sunday-School Day programs and reach the minimum of the ten cents per members. Half of these funds goes to carry on the work of holding standard Training Schools. This is the only fund to be used in the "Check-Up" work.

Epworth League.

There are 20 Senior Leagues, 621 members; 7 Hi Leagues, 127 members; 14 Junior Leagues, 252 members; Estimated 1,000 as total.

Four Unions—Two Institutes held, 106 credits issued; Institutes to be held at Lockney May 20-24, 1929; Mt. Sequoyah quota paid in full

Womens Missionary Work.

There are twenty-six societies with five hundred eighty-one members.

The report from Plainview District to Annual Conference showed a year of growth and development.

We wish to put special emphasis on Spiritual collections this year.

The ninth session of Girl's Camp was a celebration of the 50th Anniversary in Womens Work this jubilee year. One-hundred sixty-eight girls were in attendance with a faculty of eighteen, including women and girls of our conference. The corner stone of the new auditorium was placed with a beautiful program given afterwards. We wish to urge that the B. P. M. Society of Plainview District pledge their allegiance to their own camp, and lead the delegation there during the month of August.

Law Enforcement

Regarding the efforts of President Herbert Hoover to enforce the laws of our land, we urge that all lovers of law cooperate with our chief executive in this very important task. Rev. A. R. Toby, assistant superintendent of the Anti-Saloon League of Texas, spoke to the committee and urged that an educational campaign be given to inform our people concerning the benefits from the enforcement of the eighteenth amendment.

J. P. PATTERSON, Chairman
MRS. LOYD H. JONES, Pres.

Turkey, May 21.—Coincident with reduction elsewhere in heavy tolls that West Texas towns have been paying fire insurance companies, the city has received a clip of eight cents from the old key rate, putting the basis down now to 73 cents.

NEWS BRIEFS FROM TOWNS NEARBY

Floydada, May 22.—County records for the past two years are now under an audit of an Amarillo company, working under contract made by the commissioners court.

Littlefield, May 20.—Transfers in raw land since the first of the year in Lamb county aggregate \$250,000. Most of these sales have been made to farmers of the northern dairy and grain states.

Floydada, May 13.—Floyd county has a 1929 scholastic population of 3,575, a gain during the past year of around six per cent. Most of the increase was made in the city's school count.

Petersburg, May 22.—Commencement exercises for graduates of the high school will be held May 24. Rev. Burney Shell will preach the baccalaureate sermon in the school auditorium next Sunday.

Lockney, May 20.—The last semester of school will come to a formal close here Friday night after a week's exercises of grammar and high school graduates. The new high school year will open in a new \$90,000 building, contract for which has just been let.

Sterley, May 21.—Engineering work for the installation of an ample water system, including overhead reservoir, have been completed. Sterley is also expecting gas connection if the line is extended into Briscoe county.

Floydada, May 21.—Inspectors and rate adjusters of the state fire insurance commission have been giving the Panhandle-Plains towns a thorough looking over this spring, in accordance with announcement made last year that this section would be worked out. This city is in line to go into the first classification and get a key rate below forty cents, following the inspection which has been made here.

Turkey, May 20.—Officers raided a filling station here, located whisky in commercial quantity, and arrested two men who have been remanded to await action of the grand jury.

Gourley Family Leave for Summer Vacation

Mr. and Mrs. W. M. Gourley and daughter, Doris will leave Saturday for Fort Worth, Austin, and Gonzales for a few days visit with relatives. Then they will proceed to A. & M. College where Mr. Gourley will do special work on his Master of Science Degree. He has already more than enough courses to his credit for this degree, but since his work has been in three different State schools, he will have to do in excess of requirements to finish. Mr. Gourley is a graduate of the Sam Houston Teachers College, the Texas A. & M. College, and has completed three years academic work in the University of Texas.

Mr. Gourley expects to return about July 24th. He will send a weekly article to the News during his absence for the Agricultural column.
