"GAS PLANS O. K."—VICE-PRESIDENT

Sweet Feed Milling For Stock Farmers To Feed Out Cattle

The Silvertown Milling Company is completing an addition of equipment to the mill that is of much import to the whole county and is destined to aid our most infant industry, the feeding-out of cattle for the market on home-grown grain and sorghums converted into manufactured products right here in Silvertown.

"We are putting in a complete sweet feed mill and seed cleaner; have added a 50 horse-power gas engine, and erecting more housing at an approximate outlay of several thousand dollars," stated Earl Simpson, the manager, who continued further:

"Even with the supplementary 50 H. P. we find that we have underestimated the amount of power needed to handle our increased business, and it will be necessary to add another fifty horse-power.

"Our new equipment being installed here to meet a demand on the part of grain and cattle men, especially cattle men who desire to feed out beef cattle to a hard finish. There has been a number of these men who have assured me that when our plant was able to turn out sufficient quantity of the sweet feed, they would start cattle on the feed. One man said he would feed out 200 head. We expect that when we get in full operation we will be supplying stock farmers all over the county who are feeding out a few to several hundred heads of fine beef."

The two baby beaves which were shipped to Ft. Worth the first of the month by Cecil Vaughn, through S. T. Wynn, were the first fed-out cattle to go out from Briscoe county, according to a Ft. Worth commission house. These two high grade Herefords were prime for the packers, and had a shrinkage of only five pounds a piece in transportation, so hard was their finish. It is a big stride, which only Americans are capable of taking, to leap from the first of this nature by a youth to dozens of stockmen handling up to several hundred head, purchasing the balanced ration in a home factory manufacturing the product from the basic yields of the county's soils, all in less than a year's time.

Silvertown Lost to Quitaque 12 to 3

Inning with Home Run; Game Lost in Fourth and Sixth Innings.

SILVERTON, TEXAS, May 28.—Silvertown lost to Quitaque here Sunday, 12 to 3, in one of the biggest baseball games of the season, playing before a crowd of over three hundred paid fans. Both teams had been pointing to this game and assembling the best talent available.

It was a bitter pill for the local fans but a sweet morsel to the caprock folks, an all-day sucker that will probably last until that return game has been played when a change of diets may be effected.

"Quitaque has a first class team," said Manager Morgan, "and it takes good team to beat them. While we are not seeking an alibi, our team had to go in crippled. Two of our men could not appear in the lineup on account

(Continued on Page 6)

Court Urges Taxes Be Paid Next Month

The tax collector was instructed at the last meeting of the commissioners court to notify by written notice all persons who have taxes in arrear. If collections have not been made within thirty days after receipt of the notices, the county attorney is instructed to bring suit for collection in the usual manner.

Railroad Mail Line Will Be Displaced

Postoffice Department Will Establish Mail Line From Silvertown to Quitaque July 1st.

A new mail service is forecast in the action of the postoffice department in advertising for bids to carry the mail between Quitaque and Silvertown. The new service is to begin July 1, and according to the posted schedule the mail will leave Quitaque each morning except Sunday and arrive here at 8 o'clock. Outgoing mail will leave at 4:30 in the afternoon and arrive at Quitaque for dispatch to eastern points on the night train.

Bids on this service will be received in Washington up to June 18. Under the new plan no Silvertown mail will be routed by train through Sterley. The Silvertown-to-Quitaque mail line will bring the first class mail in about three hours earlier than under the present system, according to A. E. Frieze, local postmaster, who is also of the opinion that it will require a first class and thoroughly experienced carrier to give satisfactory service under the new arrangement.

D. O. Bomar Returns From Post Graduate Course in Pharmacy

D. Oran Bomar, who has been at a pharmacy school in Dallas, has returned to his duties with Bomar Drug company of this city. Mr. Bomar has spent about four months taking post-graduate work in pharmacy under the best instructors of the state. He is a registered pharmacist, and his return to the drug business here, equipped with latest methods and information of a pharmaceutical nature, means much prestige to his firm in its drug service to the community.

Heavy Hail Does Severe Local Damage

The storm cloud that swept through a narrow strip of the county Saturday night did considerable local damage in the section northeast of Silvertown. A fine garden and orchard trees of cherries and peaches on the Mc Murtry place were stripped, the garden being destroyed and all the fruit beaten to the ground. Other farmers report serious damage done to the wheat crop.

Why Not Community Building for County?

For many years to come Silvertown will ever be woefully in need of this or that industry, this or that public improvement. Such are the growing pains of any community when it begins to heed the call excelsior, as the magic touch of springtime upon the seed that has lain dormant during an unpropitious winter. The feeding tentacles must be thoroughly implanted in the firmer soil for a foundation before the stalk is ready for blossom and fructify into harvest.

During the long years of the past when Silvertown was a village with no

Sacred to Their Memory

MEMORIAL DAY calls us to honor the memory of American heroes who laid down their lives for their country.

We lovingly and gratefully salute this great company of our dead, and breathe the prayer that we may emulate their patriotism, and follow them in their love of country that knew no bounds or reservations.

Today, May 30, the nation over the millions of American citizens have called to their mind that this is Decoration or Memorial Day in honor of those who have died for their country: the blue and the gray of the civil war; the dead of the Spanish-American war; the khaki-clad silent warrior of the World conflict.

"Under the sod and the dew waiting the judgment day;
Under the laurel the blue, under the willow the gray."
Dip the colors in memory of those who have passed on. Remember those who have given their all that we might have peace and a glorious country.

As in years past in Silvertown, its people have assembled at the cemetery today to care for the graves of departed ones, to add a touch of beauty here, to leave a token of love there in the Silent City of the Dead.

Special memorial services are announced for next Sunday evening at the Presbyterian church at 8:15 o'clock. The services will be conducted by the pastor, Rev. P. B. Henderlite. All ex-service men are urged to be present. Dr. O. T. Bundy, post commander, requests that all members of the American legion attend this memorial hour.

Local Fire Department Will Be Reorganized

A reorganization of the local fire department has been requested by Mayor T. M. Nichols, and for that purpose a meeting has been called for Wednesday night, June 5. All who are interested in the volunteer fire department, its greater efficiency, and who would be willing to become a member, are asked to be at the meeting at the city hall at 8 o'clock, the evening of June 5.

Sunday School Day Program at Methodist

The eleven o'clock service hour at the Methodist church Sunday has been reserved for the Sunday School Day program, and no morning preaching services will be held. A feature of the occasion is the special children's program which has been under preparation the last few weeks by a committee of the women church members.

Ben Hur Is Coming to Palace Next Month

The memorable deeds of Ben Hur, that never grow old, the thrilling chariot race, can be seen again here at the Palace theatre June 12 and 13. This picture is an adaptation from Gen Lew Wallace's immortal novel, Ben Hur, and always draws a full house wherever shown from year to year.

J. H. Williamson to Rural Carriers Meet

J. H. Williamson, rural letter carrier, attended the convention of the 18th district Rural Letter Carriers at Brownfield Thursday, May 30. Briscoe, Floyd, Hale and Swisher counties are designated as the South Plains association, and it has a one hundred per cent membership, said Mr. Williamson, who stated also that the entire district expected to be full one hundred per cent by the time the state association meets later in the year at Dallas.

After Year of Suspense Natural Gas Is Assured City by Major Company

Silvertown will have no more hard winters, not because of change in weather conditions to a tropical climate but that the West Texas Gas company has at last taken final action on their plans of a year's standing to bring a main gas line into the city and supply all domestic and commercial demands.

J. L. Nunn Gives College Gymnasium at \$20,000 Cost

Mr. and Mrs. J. L. Nunn Make Gymnasium Possible for College at Plainview; Nunn Family Has Been Liberal Donors to the Institution.

PLAINVIEW, May 29.—Wayland College is to have a modern gymnasium building ready by Sept. 1, 1929, the gift of Mr. and Mrs. J. L. Nunn of Amarillo, as was announced Wednesday morning at the commencement exercises by Judge H. C. Pipkin of Amarillo, who gave the principal address.

The gymnasium will be of brick construction and will cost approximately \$20,000, exclusive of equipment. Dimensions of the building will be 76 by 84 feet.

Dr. J. E. Nunn, father of J. L. Nunn is a member of the board of trustees and is the donor of the Nunn Library of the college. He is also responsible for many improvements of the college and instigated the drive which cleared Wayland of her debt. He has given freely to the institution and is a liberal donor on the \$250,000 endowment now being raised. Because of Dr. Nunn's interest in Wayland and the high esteem in which he is held by the student body the Senior Class dedicated the college year book, The Traveler, to him. Dr. Nunn was present at the exercises and made a short talk in which he expressed his pleasure that his son was able to make the gift to the college.

Texas Men Make World Air Record

FT. WORTH, May 28.—Breaking all sustained air flight records R. L. Robbins and Jim Kelly, ex-railroad man and cowboy, earned a lump sum of \$12,000 when they were forced to land here Sunday because of a splintered propeller, after remaining in the air 172 hours, 31 minutes, and 10 seconds. Besides an extra fund of fifty dollars an hour longer than the record, amounting to \$2,200, subscriptions are being raised over Texas for the performers. They beat the famous army Question Mark, former record holder, by over 21 hours. Refueling was done while flying from supply planes. Texas now holds the world's record.

Vice-president and Manager Hinchey of the West Texas Gas Company was here Monday, and in a short visit with Mayor Nichols arranged for a meeting with the council next Monday night and informed Mr. Nichols that the gas lines would be laid at no distant date.

A franchise has been renewed by the Turkey council, and that city and Quitaque are next in line for gas connection, according to Mr. Hinchey, who had just returned from his negotiations with the Hall county town.

So far no extension has been asked from the city authorities here on the part of the gas company, said Mr. Nichols. It is the presumption that work will begin on the project along about the first of June, and there is a possibility of the line reaching the city limits by July 1, the day set for expiration of the permit unless provisions have been complied with.

At the general board meeting in Kansas May 13, the plans of the West Texas Gas company of Amarillo for furnishing Briscoe county with natural gas were fully approved, stated Mr. Hinchey. The gigantic subsidiary of the Standard Oil company, the Prairie Oil & Gas company, is the parent and owner of the West Texas Gas company, and its unlimited financial resources and gas holdings in practically every oil field in the United States enable the branch concern to lay pipe lines under forced draft long distances upon short notice and connect them with high pressure gas wells in quantity to maintain commercial volume at all points.

The coming of gas to Silvertown is almost on parity with the coming of the railroad. It will not only provide heat for the homes and business houses but will supply fuel for industrial uses. No industry can go or survive where fuel costs are high. Silvertown may now reasonably expect several small industries, with substantial payrolls, to follow the gas line to the city of a prosperous future.

Entire Citizenship Says Want Sewers

Canvas Committee Reported on Sentiment; Found All Except One Wanted This Sanitary Project.

The sentiment for installation of a municipal sewerage system and disposal plant here is practically unanimous, according to the committee, W. W. McClister, Bruce Bursleson, and Dr. O. T. Bundy, appointed by the Lions club to canvas the town for probable connections.

Over fifty agreed to immediate connection, and all others consulted, with the exception of one, wanted the system built and stated they would tie into the service at a later date.

With this almost unanimous demand for sewer service it is indicated that the city authorities will accept the sentiment as a mandate and take immediate steps to receive bids and make necessary financial arrangement for the public project.

TOURING MEXICOS

Chester Strickland is enjoying a trip with a party of Lockney young people who together with the Methodist pastor are touring points of interest in New Mexico and Old Mexico with Carlsbad as one important stop-over. Upon his return, young Strickland will enter Lubbock "Tech" for the summer.

Preliminary Announcement Made on Briscoe County Fair--Finances

Inquiries Are Raised by Farmers Concerning Fair; County Fair Directors Will Hold Meeting This Summer for Decision.

(BY W. M. GOURLEY)

Many farmers have been inquiring recently about the date of the County Fair this fall. Before any definite plans can be made, the Fair Association must be assured that the business men of Silverton will assume the responsibility of financing this important event. In the past, much of the financial support has come from other towns and cities in this territory. Business people, however, in other places no doubt feel that they should not be called on to finance an enterprise that is held outside of their own town or city.

The method of securing funds to promote the County Fair have been through advertisements alone which proves inadequate and each year the Association has not been able to entirely finance all expense of the Fair. All other towns so far as we can learn have the financial backing of the business men of the town where the Fair is held.

Since the County Fair Association has decided that the logical place to hold such an event is at the County seat, they are going to expect full cooperation from the local people and will look to them for all finances this year. If the Fair cannot be financed it will necessarily be discontinued at Silverton.

It will take \$600 or \$700 to put on a good Fair that will include community booths from over the county, individual farm exhibits, school exhibits, exhibits in the ladies department, poultry, and livestock. We should have as good a fair here as will be held in neighboring towns. You will find that the outlay of expense for carrying them out will run considerable more than this amount. If we are going to have a Fair, let's have a good one. Not a little cheap, one horse affair.

The County Fair Directors will hold a meeting shortly after "harvest" and meet with a committee of the business men of Silverton and determine whether or not we can hold a Fair and the amounts that can be raised to finance it. Deferring this meeting until after harvest the business men will be in a better position to say just what they can do. I feel sure that the big majority of the local business men want a Fair and are willing to back it with their means. The great success of the County Fair last year ought to be an inspiration for putting over a bigger and better one this year.

I take this means of notifying all directors that we are expecting to hold a Fair this year, and it will be advisable to select this summer, exhibits of barley, oats, and wheat, both sheaf and threshed samples. While the score card is not made out, it is expected that four gallon samples of wheat, two of barley and two of oats, will be included. Two small sheaves of barley, oats, and wheat, three inches in diameter will probably be required. It will be advisable to get your bundles selected from your best field of grain and before you begin running the combine. I feel sure that several individual premiums on small grains will be offered this year. In case the Briscoe county Fair does not materialize we will be glad to send your individual exhibits to the Tri-

State Fair at Amarillo. The Fair date here will be in September this year, carnival or no carnival.

All Fair Directors will be notified of the Summer meeting and every one is urged to attend. In the event that you do not care to serve as a director for the present year, please notify the President, A. P. Dickenson, at an early date.

The personnel of the Fair Association is as follows:
A. P. Dickenson, president, W. M. Gourley, Secy. The new office of Treasurer will be created at the next meeting and an appointment announced.

Community Directors

Silverton: T. J. Hodges and Dan Montague.

Quitaque: Claud Holley and P. A. Mobley.

Gasoline: Otis Wilson and W. A. Smith.

Antelope: Jim Smylie and W. E. Schott.

Milo: H. T. Gill and Frank Cobb.

Haylake: John Vaughn and Stanton Crow.

Wallis: John Lemons and Paul Claunch.

Francis: J. L. Francis and P. D. Jasper.

Rock Creek: Dade Steele and J. C. Joiner.

Holt: W. A. Holt and Fulton Gregg.

Lakeview: L. W. Francis and Watson Douglas.

A. & M. College Will Have 291 Graduates

COLLEGE STATION, Texas, May 29.—The fifty-third annual commencement exercises at the A & M. College of Texas will begin Saturday, June 1, and continue through Tuesday, June 4, announcement of the program for the occasion by Dr. E. P. Humbert, chairman of the commencement committee, shows.

Rev. Floyd Poe, pastor of the City Temple Presbyterian Church, Dallas, will preach the commencement sermon and Judge W. M. Sleeper, of Waco, graduate from the college with the class of 1879, will deliver the baccalaureate address.

Candidates for degrees from A. & M. this year number 291. A total of 220 will receive reserve commissions as second lieutenants.

Trapping Flies Will Reduce Screw Worms

Fly trapping to reduce screw worms that infest sores of livestock, sometimes causing death and always resulting in various kinds of losses, has been conducted on a systematic scale by about 20 ranchers in Menard county for three years in cooperation with W. R. Nisbet, county agent. A total of 300 traps have been kept baited and periodically emptied by a man employed for the purpose, with results so favorable that the work is continuing this year. Screw worm cases were cut in half last year within the trapped area.

A war tank to be run by radio has been invented.

Little Change in Values of Cattle

FT. WORTH, May 28.—Values in the cattle yards at Fort Worth the past week showed little change except that grass steers closed the week 25 to 35 cents higher and cull and common calves were 25 to 50 cents lower.

In the hog section values are 10 to 15 cents higher than those in effect at the close of the previous week and in the sheep yards values were steady to 25 cents higher with a fair demand for the better kind of slaughter sheep.

The cattle and calf supply did not measure up to the number that came the previous week, but practically as large as the total or the corresponding week in 1928. The hog supply showed a loss and the same was true in sheep.

Slaughter steers were not nearly so plentiful as for the last few weeks. Very few good fed steers arrived and the top was \$14.40 for some 2-year-old cattle that weighed around 1,100 pounds. Some steers that weighed a little under 1,300 pounds sold at \$13.25. Fed steers steady with a better demand at higher prices for grass steers, which have sold in the main from \$10.25 to \$11.

Mulch Paper Use Helps Garden Yields

MIDLAND, May 28.—English peas grown by Noah Kinnemore, Midland gardener, under mulch paper are producing at the rate of \$750 an acre.

The Midland gardener is producing strawberries and dewberries which are paying him at the rate of about \$500 per acre. He will grow sweet potatoes under mulch paper this year, and next year will raise still other vegetables by this method. Kinnemore says this method of growing has increased his yield at least 100 per cent.

Kinnemore believes mulch paper will revolutionize truck growing in this part of West Texas. The paper's main benefit, he says, is that it keeps an even temperature in the soil. Other benefits are conservation of moisture, protection from weeds and protection of tender vegetation from the hot, blistering winds.

Must be Careful In Feeding Chicks

ABILENE, May 28.—That it doesn't pay to save money by cutting down on poultry feed is the belief of W. L. Stem who lives four miles west of here. In trying to save a feed bill on 400 chicks for the broilers market he figures he lost \$18.16, and this isn't a guess for he keeps accurate accounts and weighs his fattening stuff daily.

Panhandle Conditions Best Bankers Declare

PAMPA, May 29.—The Panhandle district is in better condition than any other section of the State, officials and directors of the National Farm Loan Association and officials of the Federal Land Bank of Houston, in joint convention here Saturday, declared.

Houston was selected as the next meeting place and officers were elected as follows: W. C. Collins, Channing, president; H. V. Hull, Plainview, vice-president, and G. G. Foster, secretary.

Happy—Construction of an elevator for Farmers Grain & Elevator Company is progressing rapidly.

LOCALS

Mr. and Mrs. O. B. Poe of Plainview are among the new citizens of Silverton. Mr. Poe has accepted a position with Boyer Barber Shop.

I. B. Roberts and Miss Myrtle Henry, both of Floydada, were united in marriage here Tuesday afternoon at five o'clock by Rev. Marvin Brotherton at the Methodist parsonage.

A number of the ladies of the Womans Missionary Society are attending the district meeting which is in session at Tulia Thursday and Friday.

Mr. and Mrs. O. R. Tipps, accompanied by Mr. and Mrs. P. C. Hamilton of Quitaque, were wedding guests at Floydada Tuesday night at the marriage of Jack Folley, district attorney, to Miss Bass, former home demonstration agent for Floyd county. Mr. Tipps and his sister, Mrs. Hamilton, were class mates of the bride in their college days.

Miss Elva Wright, recent graduate and valedictorian, is visiting in Hereford this week.

Wayland Summer Term Will Open June 3rd

PLAINVIEW, May 29.—The Spring term of Wayland Baptist college closes May 24 and the doors will again swing open for the Summer term on June 3 at which a large enrollment is expected for the summer session. A good number of rural teachers are expected to take work to renew their teachers certificates and then also a number will complete their high school work during the Summer session. Subjects will be taught from about the fifth grade on through the first two years of college work.

Dr. T. A. Moore, county health officer, has returned from the state convention of health officers at Brownville, where he went as a delegate and representative of Briscoe county.

Miss Eugenia Baird of Childress was a guest of her brother, N. M. Baird, here this week.

Mrs. H. L. Brawley of Shamrock Texas, who has been visiting her relatives Mr. and Mrs. Bob Stevenson and family and Mr. and Mrs. Will Smithee and family returned home last Monday.

Mrs. P. E. C. Cowart was an Amarillo visitor Thursday.

\$40,000.00 Water System Now Under Way for Dimmitt

Both Elevated and Ground Reservoirs Will Be Used; Warrants Will Be Issued to Finance the Project.

DIMMITT, TEXAS, May 28.—The City Council in its meeting May 28th let a contract for city water in Dimmitt. The contract went to Jordan-Hall Construction Company of Plainview and calls for a system to cost about \$40,000. One elevated tank will store about \$50,000 gallons of water and a concrete tank on the ground will store about that much more.

The proposition is to be handled on a warrant basis as this is the quickest route. If lots can be secured work will start immediately and the contractors promise water services by September 1st.

Sewerage will not be included in this contract but may be put in before the construction machinery is removed from Dimmitt.

Plenty of Cars Promised Dimmitt

DIMMITT, TEXAS, May 28.—C. O. Byrnes of the Castro Grain Company has just returned from a trip to Ft. Worth, where he went in the interest of getting the freight rate on grain from Dimmitt reduced. With respect to this the railroad company only promised to give due consideration, saying that all western rates will soon be changed. Fort Worth and Denver did promise, however, to furnish Castro County plenty of grain cars.

Bond Issue Lost at Lockney; to Try Again

LOCKNEY, May 27.—With defeat of the \$25,000 road bond issue in precinct 2, other plans are afoot to secure the road along the Silvertown-Lubbock railroad right-of-way. It is proposed that either a two-mile wide road district be created at the polls along the route or a county election be held for all needed highway improvements.

Raskob Is Getting Party Out of Debt

WASHINGTON, May 27.—All democrats, whether regular or irregular, may now breathe easier over the news that the party's deficit has been cut from the million and a half to only \$400,000. At the end of the last disastrous campaign many Hoover democrats demanded that Raskob, party chairman, resign at once, while others hoped he would clear up the staggering debts before seeking obscurity. The chairman is a financial wizard, whatever may be said of his political sagacity and platform material.

Tulia—Sound equipment has been installed at the Grand Theatre.

A FIRE MARSHAL ORDINANCE AN ORDINANCE CREATING THE OFFICE OF FIRE MARSHAL, PRESCRIBING THE DUTIES THEREOF, PROVIDING FOR ITS MAINTENANCE AND PRESCRIBING PENALTIES FOR VIOLATIONS.

Be it ordained by the Council of the City of Silvertown.

Sec. 1. The office of Fire Marshal is hereby created. Such office shall be independent of other city departments, the Fire Marshal reporting directly to the Mayor and City Council. Such office shall be filled by appointment by the Mayor, by and with the consent of the City Council at once after this ordinance shall take effect. The said Fire Marshal shall be properly qualified for the duties of his office and shall be removed only for cause. He shall receive an annual salary of twelve (\$12.00) dollars payable in monthly installments, as full compensation for his services.

Sec. 2. The Fire Marshal shall investigate the cause, origin and circumstances of every fire occurring within this city by which property has been destroyed or damaged, and shall especially make investigation as to whether such fire was the result of carelessness or design. Such investigation shall be begun within twenty-four hours, not including Sunday, of the occurrence of such fire. The Fire Marshal shall keep in his office a record of all fires, together with all facts, statistics and circumstances, including the origin of the fires and the amount of the loss, which may be determined by the investigation required by this ordinance.

Sec. 3. The Fire Marshal when in his opinion further investigation is necessary, shall take or cause to be taken the testimony, on oath, of all persons supposed to be cognizant of any facts or to have means of knowledge in relation to the matter under investigation, and shall cause the same to be reduced to writing; and if he shall be of the opinion that there is evidence sufficient to charge any person with the crime of arson, or with the attempt to commit the crime of arson, or of conspiracy to defraud, or criminal conduct in connection with such fire, he shall cause such person to be lawfully arrested and charged with such offense or either of them, and shall furnish to the proper prosecuting attorney all such evidence, together with the names of witnesses and all of the information obtained by him, including a copy of all pertinent and material testimony taken in the case.

Sec. 4. The Fire Marshal shall have the power to summon witnesses before him to testify in relation to any matter which is by the provisions of this ordinance a subject of inquiry and investigation, and may require the production of any book, paper or document deemed pertinent thereto. The said Fire Marshal is hereby authorized and empowered to administer oaths and affirmations to any persons appearing as witnesses before him.

Sec. 5. Any witness who refuses to be sworn, or who refuses to appear or testify, or who disobeys any lawful order of said Fire Marshal, or who fails or refuses to produce any book, paper or document touching any matter under examination, or who is

guilty of any contemptuous conduct during any of the proceedings of the Fire Marshal in the matter of said investigation or inquiry, after being summoned to give testimony in relation to any matter under investigation as aforesaid, shall be deemed guilty of a misdemeanor; and it shall be the duty of the Fire Marshal to cause all such offenders to be prosecuted.

Any person being convicted of any such misdemeanor shall be fined in a sum not exceeding twenty-five dollars (\$25.00). Provided, however, that any person so convicted shall have the right of appeal.

Sec. 6. All investigations held by or under the direction of the Fire Marshal may, in his discretion, be private, and persons other than those required to be present may be excluded from the place where such investigation is held, and witnesses may be kept separate and apart from each other and not allowed to communicate with each other until they have been examined.

Sec. 7. The Fire Marshal shall have the authority at all times of day or night, when necessary, in the performance of the duties imposed upon him by the provisions of this ordinance, to enter upon and examine any building or premises where any fire has occurred, and other buildings and premises adjoining or near the same, which authority shall be exercised only with reason and good discretion.

Sec. 8. The Fire Marshal, upon complaint of any person having an interest in any building or property adjacent, and without any complaint, shall have a right at all reasonable hours, for the purpose of examination, to enter into and upon all buildings, and premises within the city, and it shall be his duty, monthly or more often, to enter upon and make or cause to be entered upon and made, a thorough examination of all mercantile, manufacturing and public buildings, together with the premises belonging thereto. Whenever he shall find any building or other structure which, for want of repair, or by reason of age or dilapidated condition, or for any cause, is especially liable to fire, and which is so situated as to endanger other buildings or property, or so occupied that fire would endanger persons or property therein, and whenever he shall find an improper or dangerous arrangement of stoves, ranges, furnaces or other heating appliances of any kind whatsoever, including chimneys, flues and pipes with which the same may be connected, or a dangerous arrangement of lighting devices or system, or a dangerous or unlawful storage of explosives, compounds, petroleum, gasoline, kerosene, dangerous chemicals, vegetable pro-

ducts, ashes, combustible, inflammable and refuse materials, or other conditions which may be dangerous in character or liable to cause or promote fire or create conditions dangerous to the firemen or occupants, he shall order the same to be removed or remedied, and such order shall be forthwith complied with by the owner or occupant of said building or premises. Provided, however, that if the said owner or occupant deems himself aggrieved by such order, he may, within five (5) days appeal to the Mayor, who shall investigate the cause of the complaint and unless by his authority the order is revoked, such order shall remain in force and be forthwith complied with by said owner or occupant.

Sec. 9. Any owner or occupant of a building or other structure or premises, who shall keep or maintain the same when, for want of repair, or by reason of age or dilapidated condition, or for any cause, it is especially liable to fire, and which is so situated as to endanger buildings or property of others, or is especially liable to fire and which is so occupied that fire would endanger other persons of their property therein, shall be punished by a fine of not less than ten dollars (\$10.00) nor more than fifty dollars (\$50.00).

Sec. 10. Any owner or occupant of any building or other structure or premises, who shall keep or maintain the same with an improper arrangement of a stove, range, furnace, or other heating appliance of any kind whatever, including chimneys, flues and pipes with which the same may be connected, so as to be dangerous in the matter of fire, or health, or safety of persons or property of others; or who shall keep or maintain any building, other structure or premises with an improper arrangement of a lighting device or system, or with a storage of explosives, petroleum, gasoline, kerosene, chemicals, vegetable products, ashes, combustibles, inflammable materials, refuse, or with any other condition which shall be dangerous in character to the persons, health or property of others; or which shall be dangerous in the matter of promoting, augmenting or causing fires; or which shall create conditions dangerous to firemen, or occupants of such buildings, structure or pre-

mises other than the maintainer thereof, shall be punished by a fine of not less than ten dollars (\$10.00) nor more than fifty dollars (\$50.00).

Sec. 11. No prosecution shall be brought under Section 9 and 10 of this ordinance until the order provided for in Section 8 be given, and the party notified shall fail or refuse to comply with the same.

Sec. 12. The penalties provided for herein shall be recovered by the city in the same manner as provided by law for the enforcement of fines, forfeitures, and punishments for offenses against the city.

Sec. 13. Every day's maintenance of any of the conditions prohibited in any of the foregoing sections shall be a distinct and separate offense.

Sec. 14. All misdemeanors herein provided for shall be prosecuted, and all fines and forfeitures herein provided for shall be recovered and enforced in the same manner as provided by law for the enforcement of fines, forfeitures, penalties and punishments for offenses generally against the city.

Sec. 15. All ordinances or parts of ordinances in conflict herewith are hereby repealed.

Sec. 16. Whereas, public safety de-

mands the immediate passage of this ordinance, creating the office of Fire Marshal and empowering the said official to discharge the duties herein set out, therefore an emergency exists demanding a suspension of the rules requiring ordinances to be read on three several days, said rules hereby suspended and this ordinance is placed on its first reading and final passage and shall be effective and in full force from and after its passage and approval.

Approved this 24th day of April, 1929.

T. M. NICHOLS, Mayor.

He Made Good On His Boast

A FARMER in Oklahoma said he could drive along the road and pick out the fields fitted with the Case-Grand Detour Wheatland Disk Plow just by noting the better condition of the crop. And what's more, he succeeded in doing it in a good many cases.
This Wheatland is a real plow—don't get it confused with a disk harrow. You can get down 6 inches deep if you like and very often the field is left in prime condition for seeding without another lick of work. Saves time and money—increases the yield.
It fits any condition of soil or power because width (and consequently draft) is easily adjustable by removal of sections and proper angling. Even though disks are in separate sections, all the blades turn as one—an exclusive Case feature—which carries the plow through trash without clogging.
See the Case Wheatland Disk Plow. Let us point out to you its many desirable features. Come in anytime.

ELECTRIFYING AT NATION

While the electric industry was conceived to furnish light, it now furnishes motive power for from 65 to 70 per cent of manufacturing facilities for the country, according to Vice-President Farrar of the Electric Bond and Share Company.

The 3500 power companies in Our Country serve 22,000,000 customers and are reaching on an average of 2,000,000 more each year. Output doubled in the six-year period from 1905 to 1915, and during following six years again doubled.

To meet this expansion, millions of plain, everyday American citizens have invested \$9,500,000,000 in electric securities and are expected to invest another \$900,000,000 this year to build new projects and extend lines to every nook and corner of the land, like the rural mail delivery system.

BUSINESS AND PEACE

A world founded on credit, confidence and prosperity means a world of peace, but a real peace movement must be linked with the interests of the business world.

Any peace movement may express ethical or religious ideals but must rest on a sound concept or embodiment that is an expression of an industrial whole.

A permanent modern peace movement must be a natural product and outgrowth of the industrial era, as industries within each state or nation have to be placed above and made secure against disorder and rebellion.

The growth and development of modern nations is a process of industrial pacification and the same process must produce peace between nations.

Peaceful investments of capital to create conditions that secure payrolls and distribution of industrial products will be the final solution.

Investments of capital, running into billions, and people generally entering into partnership with business will produce a community of interests throughout the world which will be the greatest of all guaranties of international peace.

SENSIBLE SIDEWALKS

Sidewalks on the other side of the house from the street!

This is the solution to the slaughter of children by automobiles, proposed in the new model community of Radburn, N. J.

In Radburn, streets are made for motor cars and sidewalks are made for pedestrians, but far, away from each other.

This seems about as sensible a thing as has been proposed in a long time. Radburn, N. J. is the latest venture of the City Housing Corporation of N. Y. which is constructing the town with the purpose of building an ideal community. After all, there is no reason for our accepting tradition, these days, in the matter of how our streets and sidewalks are built. If a simple thing like moving the sidewalk to the rear of the house in our new developments will save thousands of heartaches, let's by all means do it!

Although relatively a new crop, Texas now ranks third in citrus fruit production in quantity and first in quality.

CHECKING ACCOUNTS FOR EVERY PURPOSE

We carry checking accounts on our books for every purpose. Checking accounts for business, checking accounts for the home and checking accounts covering purely personal matters. It is a convenient and certain way to keep perfect account of your expenditures.

FIRST NATIONAL BANK Silverton, Texas

Know Texas

Roasting-ears are being shipped from the Rio Grande in car lots. From some part of Texas roasting-ears will be shipped from now until fall, making it almost a 12-month roasting-ear season in Texas.

Nearly 3,000,000 acres of Texas land have been terraced in the interest of soil conservation and Farm and Ranch is getting under way a summer terracing campaign for stubble land.

Since January 1 over 32,000 carloads of fruits and vegetables have been shipped from South and Southwest Texas and the entire state is expected to ship 60,000 carloads before December 1. The average out-turn is about \$1,000 a car, representing an income of \$60,000,000 from this one source.

The Texas pecan crop in 1928 was of estimated value of \$2,040,000 for the 450 car loads shipped. The crop is variable according to weather and other conditions, and within the past ten years has ranged as low as 25 cars, valued at \$200,000 (in 1922). The largest production in that period was in 1919 with 500 cars valued at \$1,850,000.

NEWS ODDITIES

DISLOCATES ARM IN BRIDGE GAME

Winside, Neb., May 27.—Ordinarily bridge is a harmless game, but Miss Ella Durham, a teacher living here, believes it is a strenuous sport. She is suffering from a dislocated arm—the result of playing bridge. She was dealt an unusual hand. In expressing her surprise and pleasure, she waved her arms in the air and clapped her hands so vigorously that her right shoulder was dislocated. School was closed the next day.

POWER OF THE PRINTED WORD

Turkey, May 28.—The Turkey Enterprise carries the following incident that occurred here: Talbert Wilson, contractor, while reading a detective magazine noted that a California man was seeking whereabouts of his daughter whom he had not seen for thirty-five years, other details being added. It so happened that the missing woman was a niece of Mr. Wilson's wife, and he was able to supply the information that the lost daughter lived in Phoenix, Ariz.

FRIGHT MAKES CHILD BALDHEADED

Washington, May 27.—Frightened by a puppy, Henry Mates, five years old, lost all his hair within seven hours. This case has puzzled medical experts, who are busy seeking means to restore vitality to the hair roots under the child's scalp.

JUNE BUG EPIDEMIC FORECAST

New York, May 28.—Scientists predict a widespread epidemic of June bugs this summer. These beetles appear periodically. They spend years as grubs or worms in the ground eating grass roots. They emerge as June bugs, lay their eggs, and soon die.

THE TOWN DOCTOR (THE DOCTOR OF TOWNS) SAYS

SOME TOWNS, LIKE TRUCKS, GET STUCK IN THE MUD

There is something about the building of a highway that is, to me, as a magnet to steel. When driving through the country, a "Road Under Construction" sign is a near command to drive around the barrier, and learn if the notice is telling the truth.

There is something majestic and awe-inspiring about the laying of a ribbon of concrete across a plain, through the valleys, over the hills. Perhaps it is not the actual construction as much as the value of what the completed work will be to the communities it will serve, wondering if those it will benefit will take full advantage of the opportunity.

The paving of a country road is an epoch in the life of the area through which it passes, for it marks the passing of the old into the new, and to me, a changing from the old order of things is always interest.

Last fall, while making what has been spoken of as a "clinic journey," I obtained permission to drive a twelve-mile strip of newly-laid concrete through the Palos Hills country in Illinois. It was a beautiful roadway in a beautiful country, and I could but marvel at the thoroughness—the perfect contour of this "sidewalk for motor cars" to hillside, vale and woodland—it was perfect.

Some miles from the convergence of this roadway with the main arterial highway, a large force of workmen with a score of dump trucks were making a fill. Trucks loaded with loose earth came from both directions; systematically they swung to the edge, half circled to the center of the pavement, then backed; a whistle blew, the truck stopped, the dump body tipped as the end gate opened; another whistle, and the truck moved out and on up the road. For an hour I watched them as like giants they came and went, filling the hole that was bad for the highway.

Then something happened. A monstrous truck, very heavily loaded, backed up too far, went off the pavement and down the embankment, settling deep in the wet, loose, spongy loam. It was STUCK—no doubt about it!

A loud whistle blew—trucks outbound stopped, swung around, and returned to the fill; inbound trucks drew up in a line. Chains rattled as each hitched to the other—a workman slid down to the truck in the mire, attached a chain thereto, and a whistle blew thrice. At the first whistle, all trucks moved forward taking up the slack, at the second, gears meshed into low, at the third, every clutch of every truck was engaged, and without jump or jerk, all, as one, moved forward, steadily, surely until the truck was back on solid pavement. There was no fuss, dissension, excitement or bluster—all of the trucks pulled, NONE was standing at the side of the road, idling, watching or shouting advice; all pulled in the SAME direction at the SAME time.

The moral is plain. If your town is "stuck"—if it isn't moving forward, gather 'round, everybody, hook on, get a sure "hitch", then PULL TOGETHER—in the same direction.

Expect Bottling Works at Quitaque Soon

QUITAQUE, TEXAS, May 28.—Opening of the bottling works located in the new G. Tunnell building on Main street and to be operated by Mr. Heffington, formerly of Wichita Falls, is expected within the next week or ten days. Some of the machinery has already been installed, and Mr. Heffington has been out of the city the present week purchasing additional machinery for the plant.

Floydada—Building permits issued in Floydada during April totaled \$50,000.

Donley to Vote on County Junior College

CLARENDON, May 17.—A petition is being signed to ask for a county-wide election to convert Clarendon junior college into a county junior college, as permitted under a school statute passed by the last legislature. A twenty cent tax will be submitted for this purpose to be levied against all valuations in Donley county.

Highways are being made safer through wider pavements, smooth surfaces, easier curves with greater sight distance, wider shoulders and better designed intersections.

World-Famous, Three-Fuel Hart-Parr 18-36

In official tests, conducted by nationally known engineers, who used cheap distillate for fuel, the great Hart-Parr 18-36 registered a drawbar pull of 5,535 pounds at two miles an hour, and 4,075 pounds at three miles an hour. On the belt it easily pulled the amazing load of 43 horsepower. The Hart-Parr is a three-fuel tractor, burning gasoline, kerosene or distillate equally well. It is the one tractor that develops its power from the cheapest, low-grade fuels. Hart-Parrs are made for small, medium or large farms and have three forward speeds to speed up hauling and field work. Drive one yourself and experience the thrill of controlling tremendous power.

AUTHORIZED DEALER IN

Summer School to Be Held at Dimmitt

DIMMITT, TEXAS, May 29.—Due to the fact that some members of the coming senior class would lack a credit or two having enough to graduate the school board authorized the organization of a summer school.

However since a summer school is being organized it will not be limited to the seniors alone. Any student who has failed in one or more subjects and wants to make that work up may do so by going to school this summer. On the other hand those students who have not failed in any subjects but desire to finish high school a year sooner may do that by attending two summer sessions and three regular winter terms of school. Thus allowing that student to do four years work in three years.

Also those students who would like to make their work lighter during their senior year may take some of their senior work this summer. Every student who has failed in one or more subjects should by all means make that work up this summer, as you will be a senior in a short while but will lack a credit or two having enough to graduate and will have to stay in school another year. Now is the time to make up any deficient work.

Parents, here are the three possible solutions to the problem. If your boy or your girl has failed in any high school work, they must either be sent off to a summer school, or they must be retained in school another year before graduation; or they can make up that work by going to summer school here at home.

The summer school students will receive the same instructions here as at any other summer school or during the regular winter school and will be given the same affiliated credit for their work. The summer school will be under the direct supervision of the school board.

Since the summer term will be so short (approximately eight weeks) or until the courses are finished, a student can take but two courses. The

two courses to be given are American History and Plane Geometry.

Remember that you do not need to be in the tenth grade to take these courses. Whatever class you are in, if you need either one or two credits you can take one or both of these this summer, then go back next winter and pick up the course you failed to make.

The school will be conducted on a tuition basis, the regular summer school tuition will be charged each student.

For further information in regard to the summer school see G. M. Roberts. Students will be enrolled and books issued Saturday, June 1st.

The class schedule will be arranged to meet the needs of the individual pupils as nearly as possible.

Lockney Has New and Modern Hotel

LOCKNEY, May 27.—The new Baker hotel held open house here recently. The hotel is modern, though small, and an excellent cuisine is run in connection, both meeting the needs of a heretofore inconvenienced traveling public.

Years of service in MODEL T FORDS

THE Model T was so strongly and sturdily built that it is still rendering reliable, economical service to motorists in every section of the country. Millions of these cars can be put in shape for two, three and five more years of use at very small cost.

So that you may have this work done economically and satisfactorily, the Ford Motor Company is still devoting a considerable section of its plants to the manufacture of Model T parts. It will continue to do so as long as they are needed by Model T owners. The following list gives the approximate labor charges for reconditioning the Model T Ford:—

Table with columns for Engine, Rear System, Front System, and Chassis, listing various repair items and their approximate labor charges.

These prices are approximate and are for labor only, because the need and number of new parts depend on the condition of each car. The charge for these parts is low, however, because of the established Ford policy of manufacturing and selling at a small margin of profit.

Quitaque Woman Possesses Historic Relic That Recalls Confederacy's Honor Giving

A story appearing in the Sunday Dallas News has attracted much interest because of the fact that it concerns the honor conferred by the confederacy, upon Miss Lucy Holcomb, raised near Marshall, in East Texas. Immediately following the civil war, currency was issued by the confederacy, and upon the one hundred dollar notes there appeared the picture of the Texas girl, so honored.

With the story was published a fac simile of one of the notes. Mrs. W. P. Hall, of Quitaque, and known locally as a collector and admirer, as well as connoisseur of relics, upon reading the story, immediately looked among her treasures and found nearly a duplicate of the fac-simile published. Mrs. Hall's bill shows the picture of Miss Holcomb, two other pictures the same, the only difference being in the number and of the official signatures shown at the bottom of the note.

Lions Club Honored Their Ladies with Banquet Hour Tuesday

Postponing the regular weekly Tuesday luncheon from noon to night, the Lions club set a regular banquet in honor of their ladies in the Nunn building, using the cuisine service of the Famous Cup cafe. The evening was an excellent repast of baked turkey with all the tasteful accessories that make a delightful banquet menu.

Miss Bomar Opens Beauty Shoppe

Miss Teresa Bomar opened a modern Marinello beauty shoppe Wednesday in office 104 of the Nunn building, and will hold formal opening Saturday to her many friends. Miss Bomar has the latest equipment in the service of facials and hair treatments, and is prepared to give manicures, hair dyeing and tinting, and all the accepted waves. "I have the new Eugene permanent wave machine", said Miss Bomar, "and I want the ladies to see this beautiful, new Eugene wave before getting their permanent." Her studio is forecasted soon to be the most popular place in Silvertown.

Birthday Party for Barbara Fowler

Mr. and Mrs. Roy Johnson were hosts honoring their little daughter Barbara on her birthday Thursday, May 16, on which occasion a number of her young friends were invited. Assembling at the Famous Cup cafe, the young folks were taken out into the country which has such refreshing atmosphere, all decked in springtime's robe of green and garlanded in nature's blossoms. There marshmallows were toasted and games were played. Those attending the birthday party were Junior and Betty Simpson, Doris Courley, Caradine Bomar, Wilma King, Bob and Rex Douglas, Snookie Blocker, and Marjorie Crawford.

Miss Bomar is the daughter of Mrs. V. R. Bomar. For the past few years, until last January, this young lady has either been studying or in business in Amarillo. Since the first of the year she has been a student, under expert instructors, of the famous Marinello system of beauty culture in Dallas. Silvertown people who have gone to other towns for scalp treatment, hair tinting, facials, manicuring, and the latest hair-dressing will

COSTUMES OF LIGHTWEIGHT WOOLEN TUNE IN ON A VARIED PROGRAM

Time was when woollen weaves flourished only when the thermometer descended the scale. And now? Sentiment in regard to the timeliness of woollen fabrics has completely changed. And why? Well, because the woollens themselves are that transformed, modernized, as it were, they tune in to the scheme of things the whole year round.

True, it takes some stretch of the imagination to believe that the sheer dainty phantomweight wool georgettes and crepes and lacelike novelty weaves for which the world of fashion is showing such enthusiasm this season are descendants from the sturdy prosaic utilitarian woollens of pre-modern days. It is enough to convert even the most skeptical into ardent evolutionists. But thanks to the weaver's magic art, the miracle has been wrought, with the result that the new woollens are playing a leading role in the spring and summer style program.

One of the most unique and interesting fashion shows ever presented was the Golden Fleece pageant which recently played to a record-breaking audience, turning away over five thousand in one week in New York, later repeating its triumphs and record attendance in Chicago. The costumes

shown were all of wool, ranging from bathing suits through sports clothes to afternoon apparel. Many of the woollens were that sheer and supple they draped like softest of silk. Others were as diaphanous as the faintest of chiffons. Still others carried lacelike patternings which characterized them as "wool laces."

A new fabric which made a decidedly favorable impression was white wool pique. The sleeveless frock to the left in the picture is of this charming weave. The white of the wool pique is contrasted with a piping of butter yellow outlining neckline, sleeves, the tabbed skirt yoke as well as the graceful jabot. This frock was posed at the style show under a butter-yellow flannel coat, the same made with a draped cape. White kid shoes and a white soft straw hat complemented this costume, as did also the handbag of white wool pique with butter-yellow trim.

The bright red wool crepe two-piece jacket suit, to the right in this illustration, has an accented-plaited skirt with a scalloped hemline. It is worn with a white-ground striped double-breasted blouse, thus again testifying to the supreme modishness of stripes.

JULIA BOTTOMLEY.
(© 1929, Western Newspaper Union.)

by their appreciative guests. There were four small tables laid, with dainty covers and flowers, places being marked by small cards on which were painted miniature seniors in caps and gowns. The paintings were done by Elva Wright.

Following the first course, Kate Thompson read the class history. Between the next two courses Elva Wright gave the class prophecy, and Gladys Smithee read the will of the Twenty-Niners. Doyle Smith presented each girl with a pink rose and each boy with a white one.

Everyone enjoyed the jolly game of Bunco after the delicious dinner. Those who participated in the evening's pleasures were the members of the senior class: Misses Rheua Alexander, Faye Brown, Mildred Cloyd, Bertha Thomas, Kate Thompson, Gladys Smithee, Alleen Long, Ida Smith, Elva Wright, Marie Thomas, and Evelyn Turner; Messrs H. C. Claunch, Jr., Obie Sheets, Elmer Gilkeyson, Claget Anderson, Vernon Garrison, and Arlon Donnell. The other guests were Supt. C. R. E. Weaver, Prof. Elmer Cleavenger, Doyle Smith and Eural Vaughn.

Epworth Leaguers Enjoy Matador Social

Delegates from the Senior Epworth League, who went to Matador last Saturday to attend the Cap Rock Union League Meet, report an unusually pleasant and profitable time. At the social held in the Matador Methodist church basement Saturday night the Silvertown Orchestra won favorable comment, by its excellent musical numbers. Altogether there were sixty representatives from other towns, the people of Matador hospitably entertained them all. Sunday morning everyone attended Sunday-School and church. Sunday afternoon they visited the famous Matador ranch of about one-half million acres.

In the business meeting Saturday two of Silvertown's young people were elected to offices in the District League. Ghester Strickland was made president of the Cap Rock Union and Gladys Smithee, treasurer; Mrs. Pippin of Flomot was elected secretary.

Delegates from Silvertown were Misses Ballentine, Gladys Smithee, Evelyn Kolb, Marie McClister, and Jaunita Skeen; Messrs Herbert Davis, Kemp Thompson, Chester and J. D. Strickland.

Hereford Guests in C. D. Wright Home

On Sunday Mr. A. W. Gregg and daughters, Miss June Ina Gregg and Mrs. J. E. Beyer, with Mr. Harry R. Seed motored from Hereford to spend the day in the C. D. Wright home. Mr. Gregg is Mrs. Wright's father and he and his daughters have many friends and acquaintances here. It will be of interest to those to know of the engagement of Miss June which has been recently announced in Hereford. Her fiance, Mr. Harry Rodney Seed is recently from Los Angeles, California. Mrs. Beyer, formerly Lura

Seniors Honored By Kelsays

One of the most delightful events of commencement week was overlooked in last week's report of social occurrence. The six o'clock dinner tendered the seniors by Prof and Mrs. L. L. Kelsay will long be remembered

Dorcas Girls Elect Officers

The Dorcas intermediate girls met Sunday and held a business session before the lesson. The following officers were elected: Lallie Haynes, president; Arlene Miller, secretary-treasurer; Faye Allard and Orlene Gunter, social committee; Jaunita Long, Louise Buchanan, and Alvarine Mosely, membership committee; Grace Hughes, press reporter.

Faye Allard, Louise Buchana, Orlene Gunter, Lallie Haynes, Arlene Miller, Grace Hughes, Mabel Cryer, Jaunita Long, Alvarine Mosely, Willie Mae Dillard, Jaunita Shaw and Pauline Shaw were present.

Newly Weds Given Cordial Greeting By Local Friends

All efforts at secrecy following their wedding at Plainview on Wednesday, May 22, proved unavailing, and Mr. and Mrs. Bill Hardcastle were given a most cordial greeting by Quitaque and Silvertown friends on Wednesday night, following their return to Quitaque. Mr. Hardcastle and his wife, the former Miss Edith Carter, a popular teacher in the Silvertown schools, were called upon by a number of local friends in their room at the Hotel Quitaque, the party finally adjourning to Silvertown.

At the county seat the newly married couple were given a most cordial reception, the groom responding to the kind wishes of his friends with an eloquent address. After several musical numbers by the bride and groom, the party returned to Quitaque.

Mr. and Mrs. Hardcastle are popular members of the younger set of both Silvertown and Quitaque, and are being showered with congratulations from their many friends.

Suggested MENU

The wise housewife takes advantage of the occasional cool day to cook a large piece of meat with which to prepare left-overs without the expenditure of much time or effort. The home economics department of the National Live Stock and Meat Board offers some timely suggestions on how these left-overs make summer meals easy.

Meat salads are always acceptable as the piece de resistance of the summer meal. With them may be served one or two warm vegetable dishes, such as creamed potatoes, asparagus, peas, green corn.

Creamed meat dishes may be made ready and assembled just before serving time.

A mousse of ham or veal, made in large or small molds, is nice for the company luncheon or informal dinner because it may be prepared early and forgotten about until time to serve. A well-seasoned sauce such as a horse-radish sauce adds zest.

A simple, but a very attractive way of serving left-over meat is to slice it and arrange on a pretty garnished platter.

Tomatoes or green peppers may be filled with left-over meat and baked.

Stuffed Peppers

- 1-2 cup minced ham
- 1-2 cup diced celery
- 1 chopped onion
- 1 chopped pimento
- 1-2 cup bread crumbs
- 1-2 cup tomato sauce
- 1 teaspoon salt
- Green peppers

Scop out peppers. Drop in salted boiling water an boil for fifteen minutes. Cook diced celery in butter until tender. Mix with other ingredients and fill the pepper cups. Sprinkle with buttered bread crumbs and place in a shallow pan containing a half inch of water. Bake in a hot oven for ten minutes.

Gregg, now of Wichita, Kansas will visit in Texas until after the wedding June 5. Miss Elva Wright accompanied the visitors back to Hereford Friday night to attend a number of sentimental social affairs that are scheduled for the week. Mr. and Mrs. Wright will go over later and remain for the wedding.

Talking Picture Complimented Few Of Silvertown People

Mr. and Mrs. Hibert Sines, Mrs. C. L. Dickerson and Wilma Dickerson enjoyed a treat, when at Childress last Monday afternoon all producers of this district were invited to attend a "Talkie" demonstration. The film shown was the Rainbow Man a much-talked of picture soon to be released. It is hoped that Silvertown will be able to have the splendid picture with the speaking features within the near future.

Silverton's Quota on Endowment Is \$1,750

Dr. J. W. Hunt, president of McMurry college at Abilene, and Rev. M. M. Beavers, presiding elder of the Plainview district, spoke here Tuesday morning at the Methodist church in the interest of the McMurry endowment fund. The Methodist of West Texas and the Panhandle have as their goal the raising of \$500,000 for the college within the next two years. Silverton's quota for the period has been set at \$1,750.

Silverton Lost--

(Continued From Page 1)

of unavoidable circumstances. With Cleavenger and Biggs out, our machine had two important cogs missing and was unable to function as smoothly as under normal conditions. We expect to give them a trimming on their home-town lot if we have a return match.

Silverton secured ten hits and suffered only four strikeouts; while Quitaque garnered fifteen hits and had six men to whiff.

Sunday-School at 10 a. m.

Preaching every Sunday, 11 a. m. and 8:15 p. m.

Everyone is cordially invited to all the services of the church.

Amarillo Attorney Is Released \$20,000 Bond

AMARILLO, May 28.—Judge R. H. Hamilton, prominent attorney of this city, is released on a \$20,000 bond after the death of Tom Walton, former State University student. Hamilton claimed he shot the youth to protect his home.

Walton was shot four times in the office of Hamilton, and he died without making a statement. He was secretly married to Theresa Hamilton Feb. 12 in Austin, while the two were in school. When killed he was an employe of a local hotel, and had gone to Hamilton's office, it is claimed to tell the father-in-law of the marriage and to show him his marriage certificate.

Floating floors in buildings help to reduce noise.

Former Owner of Quitaque Site Dead

L. A. Jago, 55, a member of a pioneer Quitaque family which formerly owned the land upon which the present city of Quitaque is located, died at Claremore, Oklahoma on Friday May 17 after a short illness.

The deceased was brought to Quitaque on Monday morning by J. F. and Frank Jago, funeral services being held from the J. F. Jago home on Monday afternoon, Rev. E. L. Yeats presiding. Interment was made in the Quitaque cemetery.

Active pallbearers, all residents of the community for 35 years or more, included J. B. Russell, O. W. Stroup, J. H. Hughes, N. R. Honea, P. O. Woods and C. H. Gregg.

utiful floral offerings which were held testified to the esteem in which the deceased was held by the community which he helped to found.

Surviving Mr. Jago, who was married, are three brothers, B. Jago and J. F. Jago, both of Quitaque, and W. B. Jago, of Salt Lake City, Utah. A fourth brother, J. Jago, died in October. J. F. Jago and Frank Jago, a nephew, were the deceased at the time of his death 36 years ago, shortly after Briscoe County was organized. At that time cattle were the only industry. Very little farming having been attempted. Building materials were hauled from Estelline, which was trading center.

CAMEL CIGARETTES

WHY CAMELS ARE THE BETTER CIGARETTE

Camels contain such tobaccos and such blending as have never been offered in any other cigarette.

They are made of the choicest Turkish and American tobaccos grown.

Camels are always smooth and mild. Camel quality is jealously maintained . . . by the world's largest organization of expert tobacco men . . . it never varies.

Smoke Camels as liberally as you choose . . . they will never tire your taste.

Nor do they ever leave an unpleasant after-taste.
