

# BRISCOE COUNTY NEWS

Official Paper for Briscoe County

VOLUME 20—NUMBER 6

PUBLISHED WEEKLY AT SILVERTON, BRISCOE COUNTY, TEXAS

THURS., JANUARY 16, 1930

## Silverton

The announcement by the Palace theatre that its silent screen will be replaced by talking equipment will be received, we think, with approval. Decision of the owners to give Silverton the latest and the latest should be heartily applauded and appreciation of the same would be shown.

There are many other things being built in town. of course, picture theatres. but once a city is established itself as an amusement centre the quickening of the trade can at once be noted. People will go a long ways to be entertained well and in this day and time fast transportation they pass up the old home town if it has nothing that line to offer.

Should the important theatres be removed from the large cities the number of visitors from other counties would immediately drop and the small business there would likewise be downward. A theatre is necessary in the business life of Silverton, and the more improved type it is, the better for the channels of trade. This fact is often overlooked, and the proper support is not given to the local theatre man in the efforts to establish a worthwhile attraction.

The Palace theatre manager, Mr. Flournoy, is experienced in the show business, and he has been working to create an amusement centre for Silverton, not with sordid shows but with productions of high quality that the erudite and high-minded people of Briscoe county will enjoy and can recommend to their friends. There are sermons in brooks and stones and in moving pictures.

"The Mighty", shown at the Palace a few weeks back, is in that class; the cover story, an alley-rat who is the most uplifting stories ever told, the complete remaking of a degraded man into an upright citizen through the principles of Christianity taken unobscuredly from a war "boddy" who carried-on to his death through overwhelmed with terror and fear.

The Palace management deserves some encouragement in both a moral and material way. The best results are always obtained by helping one another, and here is an opportunity to put the principle into practice. Enlarge and solidify our trade territory by lending support to Silverton's drawing cards.

Granting that your business is the worst in the world, your competition the crummiest, your customers the most ungrateful, and your yourself the most unappreciated man that ever ran a business, what are you doing in addition to holding your "tummy" while the tears roll down your vest?

Either get in touch with customers or with the coroner. If you choose the coroner, we can't help you. If you wish to appear alive and still in the ring, you must issue some kind of advertising matter. If you can't write it or draw the pictures for it and lay out a year's plan, the newspaper office has some valuable aids.

## R. F. Stevenson Is An Expert Rifleman

Champion rifle-shot can rightfully be bestowed upon R. F. Stevenson. local real estate man, according to Mr. Scott of the U. S. Sales Company. Among the recent shooting feats performed by Mr. Stevenson was the bringing down of two geese Tuesday morning with a .22 calibre rifle. Mr. Scott vouches for the story. As the flock soared away the rifleman began pumping the small bits of lead at them. Two fell but only one could be located on the ground. Killing jackrabbits on the run is an easy performance for Mr. Stevenson, says the witness, who accompanied the former on a hunt Tuesday morning.

Planned construction of new milk plant at cost of \$5,500.

## County Hatchery Is Ready for Operation

C. Murphy of Hereford, experienced Chicken Man, Is in Charge of 24,000-Egg Incubators.

The Briscoe County Hatchery was ready for business Tuesday in its new home on the south side of the square. All the equipment has been moved from the former location on Broadway to the brick building of J. R. Guest, more comfortably housed and more conveniently located for the trade on the square.

The plant however did not go into operation Tuesday as the continued bad weather has cut short the available hatching eggs from customers. As soon as the trays can be filled with first class eggs, incubation will start, according to the manager, J. H. Lee.

The hatchery is equipped with two Buckeye Mammoth incubators, each having a capacity of 12,096 eggs. The hot water circulating system is used, a thermostat controlling the heat and three electric fans distributing it evenly throughout the unit. A high percentage of hatches is promised through the modern equipment installed.

C. Murphy of Hereford, who has had twelve years of continuous experience in the hatchery business, has been secured to superintend the incubators. Mr. Murphy understands most any phase of the chicken industry. In addition to his technical work concerned with the plant's operation, he is also a poultry-show judge and can do any kind of culling, besides being versed in treating the ordinary poultry diseases of this country. It is expected that Mr. Murphy will prove a valuable man to the entire poultry industry of the community on account of his knowledge and skill.

Both Mr. Lee and Mr. Murphy state that they will be glad to serve the poultry owners in any capacity possible, and invite requests for the services which they may be able to render. In recommending Mr. Murphy, the manager said he considered him the best man available in this part of the country to put in charge of the hatchery.

## R. M. King Grocery Moves Down Main St.

R. M. King opened his grocery and market Wednesday on the W. C. Smith lot on Main street just south of the southwest corner of the square. The sheet iron building of Jno. Burson across the street was skidded onto the vacant lot and remodeled for the grocery firm.

Up until last June Mr. King was located on the adjoining lot, but when the old frame structure was razed he moved to the Nunn-Hill building. The proprietor feels that he is getting back home and will be pleased to have his old customers and friends call on him at his new location.

## Teachers Find Out What Pupils Know

Mid-term examinations for the Silverton schools were held Monday and Tuesday. Now that this twice-a-year bugaboo is over and there will be no need for "cramming" until the finals in May, several months of pleasant and profitable school days are in the offing for the many hundred earnest students who are treading the paths of education. It will be well for them to keep in mind, however, that "there is no royal road to geometry."

## Local Director Met With Dairy Board

W. M. Gourley, director in the Panhandle-Plains dairy show of Plainview, attended the Rotary luncheon and board meeting Tuesday noon. Dates for the dairy show were set for April 7, 8, 9, and 10.

You can get richer without getting bigger; and you may become bigger without getting richer.

If it glitters it might be gold. Do your best in appearance.

## On Top In Texas

H. C. CLAUNCH

This 19-year old youth of the Wallace community has "made the grade" in the biggest State in the Union and has a good chance for National honors. Not only has he garnered for himself coveted laurels but he has given Silverton and Briscoe county wide publicity of the kind that is unpurchasable: a lengthy story on the front page of the Wichita Falls Record-News; prominence in the Fort Worth Star-Telegram; more than a column in the Amarillo News-Globe's big Sunday paper, Santa Fe edition; and much space in farm journals soon to be issued. Another pride of Briscoe.

## Grady Sims Found By Sheriff in Okla.

Sheriff N. R. Honea returned home Wednesday morning from Wewoka, Okla., where he had apprehended another one of the wanted men for which he had offered a \$25.00 reward. The man brought back was Grady Sims, and he is lodged in the county jail and will probably go to trial next week.

Sims was held in custody about two years ago on a charge of selling nitrotoxins. Unable to make bond, he was retained as "trusty." One day he took advantage of his semi-liberty and disappeared. A long search was ended with his recapture.

## P. Post Calculator In Postoffice Use

A. E. Frieze, postmaster, is the proud recipient from Uncle Sam of an automatic parcel post calculator. Looking up tables and schedules is no longer necessary. When the parcel is placed on the scales the indicator on the proper zone shows exact amount of postage required, saving much time and trouble and eliminating possible errors.

## Mrs. Snapka Was London Bridge Hostess Thursday

The London Bridge Club met at the lovely home of Mrs. E. G. Snapka last Thursday afternoon at 2:30 o'clock. A delightful afternoon was spent at bridge within the warm and cozy reception rooms, after which a two-course lunch was served, consisting of salad, heated grape juice, pickles, jello, and cake to the members of the club.

Mesdames Roy Allard, Dean Allard, Elmer Allard, Walter Lee Bain, Bruce Burleson, T. C. Bomar, Oran Bomar, Dick Cowart, Max Crawford, James Meeker, Wood Hardcastle, and L. L. McAnaw; and guests: Mesdames John Bain, Jr., Guy Whitacre, J. A. Neill, Jeff Gunter, and Miss Teresa Bomar.

Mrs. Elmer Allard received a lovely vase for member's high score. Mrs. Neill was high guest score, also receiving a vase. Consolation, a dainty silk handkerchief, went to Mrs. Wood Hardcastle. In the cut prize, Mrs. Elmer Allard drew a beautiful flower basket.

Texline—Forging rapidly ahead on sound basis of prosperity.

Dalhart—Plans progressing for establishment of airplane factory.

Snyder—Houses will be numbered soon.

## Talking Pictures Are Planned for Silverton By Palace Management

Silverton will have talking pictures within the next sixty days, possibly by March 1, according to W. W. Flournoy, manager of the Palace Theatre, who has been working for this show improvement with his associates since his arrival here from Spur several months ago.

The vitaphone equipment for carrying on the synchronized talking with the pictures on the screen has been decided upon, states Mr. Flournoy, and entertainments on a parity with those in the larger cities are promised when the expensive and late machines are installed.

"It is our purpose to keep pace with progress in the show industry and stay ahead of the growth of

the community," continued Mr. Flournoy. "A lagging business is a draw-back to any town but one that is alert to grow a little faster than its clientele might seem to warrant encourages expansion, optimism and enlarges the trade territory.

"Equipping for talking pictures entails a heavy investment in capital machinery and the picture reels are more expensive. To take the step we have planned requires a lot of money and will raise the overhead considerably. However, we think it is necessary for the good of the town to give Silverton as high rating in the amusement line as is in our power, and we think the public will concur in this upbuilding viewpoint."

## Bert Northcutt Is Cleared of Charges

Instructed Verdict Upon Advice of Judge Bain That No Case Existed Removes Charge.

Bert Northcutt, charged with theft of plow tools from J. K. Gant, was cleared of the indictment in district court here Tuesday upon instructions to the jury from Judge Kenneth Bain that the state had no case against defendant.

Last August J. K. Gant, farmer northeast of town, reported that several valuable plows had been stolen. After diligent efforts of local officers an indictment was returned by the grand jury when implements located were identified by Mr. Gant. When the case came to trial Gant was put on the witness stand and swore he was not positive the located farm machinery belonged to him. Mr. Northcutt was forthwith adjudged not guilty and cleared of all charges.

Upon motion of District Attorney Jack Folley case was dismissed against Isaac J. Simmons, who was charged with selling beer.

Frank Findley was found guilty of driving a car while intoxicated and given a fine of \$30 and 30 days in jail. He accepted the sentence and will spend the time in jail at Memphis.

Divorce cases settled in last week's proceedings were J. B. Arnold vs. Lola Arnold. Divorce was granted to plaintiff.

G. C. Gullidge was given a divorce by default. The defendant, Mrs. L. V. Gullidge, was permitted to change her name to Mrs. L. V. Canada, her name under a former marriage.

Matrimonial bonds of Jettie Mae Helms and J. C. Helms were dissolved by the court through default. Mrs. Helms was given custody of the child, Christine, age 5, over the annual periods from Jan. 1 to July 1 until Christine reaches the age of seven. Then custody is given the mother for the following years from Sept. 1 to June 1, the usual school year. It was stipulated that Christine should be allowed to visit her father during the Christmas holidays.

The petit jury panel was dismissed Tuesday until Monday, when it is expected some important cases will be ready.

## LOCALS

Mrs. Chas. Dickerson has been sick for a week, and her daughter, Mrs. Hubert Simmons, of Happy has been with her during her illness.

Lin Christopher and U. M. Meeker have just closed a new deal in which Mr. Christopher has bought back the residence in the northwest part of the city.

C. R. E. Weaver, school superintendent, has been ill this week.

Miss Oriene Chinkscales, teacher of Spanish and English in the high school, is on the sick list and unable to attend her classes.

Snyder—Contract awarded for street marking.

## Briscoe County Gets Valuable Publicity

Advertising Given H. C. Claunch's Feat Exceeds a Year's Publicity Appropriation.

Perhaps only a few have given thought to the importance of the accomplishment of H. C. Claunch, who graduated last year from the Silverton high school and who was a member of the local vocational agriculture class. H. C. is a worthy young man, and he merits all the honors that may come his way through his recently announced achievement.

Much can be said of the good that should arise from his work and the attention that has been directed to Briscoe county thru the state press. The Wichita Falls Record-News devoted thirty inches to the story; Fort Worth Star-Telegram, fifteen inches; and the Amarillo News-Globe, twenty four inches. This kind of publicity cannot be bought at any price, but reckoned on a commercial space rate, it would total at least \$150, a sum larger than the entire 1929 appropriation for publicity of the combined local civic organizations. And this includes only the press supplied direct by correspondents at Silverton. There will follow countless articles through the press associations and farm journals, not only in Texas, but scattered over the United States.

What has H. C. done to be written about so profusely? He has done better than any other youth in Texas in farm work, diversified agricultural projects carried on in a manner deemed to give the farmer in general material assistance in improving his conditions and discarding the depressing peonage which has crushed him in the past.

And where has he promoted such a program? On the plains of West Texas, in the soils of Briscoe county and from the schooling offered in the educational system at Wallace and Silverton. Credit is reflected to the county's resources for farm products, to the Silverton school board with sufficient vision to provide for vocational instruction and other high scholastic curricula, to his painstaking teacher, W. M. Gourley, to the youth's home environments, to his parents, and to himself.

All do well to accord H. C. honor, to rejoice with him in his attainments, to encourage him in his work, for he has done something for all of us as well as for the agricultural fraternity of Texas.

## Interest Growing In Night School

The Farmers night school is getting under headway in spite of the inclement weather. A good session was held Tuesday night in which the time was spent in discussing the poultry disease of roup.

This is an important school that can be of much value to poultry and livestock owners, and everyone interested in learning about the common diseases prevalent in the community's livestock and poultry should make an extra effort to attend the meetings.

Sessions are held twice a week, Tuesdays and Thursdays, beginning at 7:30 and lasting only one hour. There has been some misunderstanding about the place of the school. The agricultural cottage on the campus is being used instead of the high school building. It is well heated and lighted and is as comfortable as the home.

## City Tax Notice

In order to save the tax-payers extra trouble in going from one office to another, the city secretary has arranged to have desk space in the county tax assessor's office from the 20th to the 31st. His official notice follows:

"I wish to notify all tax payers of city taxes that I will be in the county tax assessor's office beginning next Monday through the 31st. I have made this arrangement for the citizen's convenience, as it will be easy for him to settle up his city taxes when he is at the courthouse to get his poll and other tax receipts. Please remember that a penalty is affixed if payments are not made by Feb. 1.

"J. E. MINYARD, City Secretary."

## CROWLEY RESIGNS

Charles F. Crowley, coach of the Columbia football team for the past four years, who has tendered his resignation to the university committee on athletics. Crowley came to Columbia as end coach in 1925 following the retirement of Dr. Paul Whitington. This year Crowley's team failed to win a single major game.

A THOUGHT ON DEMOCRATIC GOVERNMENT

It should be the aim of a free and democratic government to allow individuals the right to advocate doctrines that they believe are beneficial to humanity.

When individuals or organizations urge measures which threaten damage to life, liberty or property the law should step in.

There can be no half-way measures with freedom of speech.

Anarchy and revolution are the result of oppression, not of liberty.

Intellectual freedom should be prized and protected.

The United States was founded to provide its citizens with the very maximum of freedom up to the point where life or property is menaced. Once that fundamental principle is abandoned, democracy will be dead.

Know Texas

Texas has 242 creameries. Practically all of them have been built within the past five years. Most of them in the last two years.

In spite of a short cotton crop and a lower price, Texas' agricultural production for 1929 was valued by the U. S. Department of Agriculture at \$615,351,000, again giving it first place among the States.

Texas improvement projects in 1930, public and private, are estimated at from \$450,000,000 to \$500,000,000.

Since 1913 Texas counties and road districts have voted and issued \$201,000,000 in road improvement bonds.

Political Announcements

The Briscoe County News is authorized to announce the candidacy of the following persons for nomination to the office under which their names appear, subject to the action of the Democratic primaries this summer:

For Tax Assessor: MANLEY WOOD

For County and District Clerk: R. E. DOUGLAS

Unfavorable Drying Conditions

NORTH ROUTE Mrs. Jno. Clayton Correspondent

Severe winter weather prevails here. Quite a lot of snow and sleet has fallen for the past 10 days.

J. L. Watters made a business trip to Kirkland the first of the week.

Chick Northcutt who has been confined to his bed for sometime was able to be up this last week end. He spent Sunday in the Roy McMurry home.

Mr. and Mrs. J. M. Clayton and family spent Sunday in the R. L.

Washable Rayon Crepe Smart Fabric for Fall

Chartreuse with touches of black is the color scheme for this frock of soft washable rayon crepe, a material which is smart in appearance and eminently practical, for it tucks perfectly. Of interest is the one-side scarf, and the godets which give fullness to the skirt. Note also the beads. They are the new wooden kind. Awfully swager! And the belt has a wooden buckle.

Virgil Dillard received a message from his sister of Lockney stating the death of her baby Wednesday.

Miss Alice Gregg spent Sunday night with Eunice Gregg of Lakeview.

Bert Northcutt of House, N. Mex., spent the week end with his brother

Chick Northcutt, Wilson Clayton, a badly bruised Ford kicking him in.

It will cost you less now than later.

Winners in 4-H Club Competition

Theodore R. Lorenz of Hitchcock, Blaine county, Okla., and Lois Bailey of Eugene, Lane county, Ore., who were declared the outstanding boy and girl members and leaders of the 4-H clubs for the year 1929.

Johnson home. J. N. Pitts was a guest in the Johnson home, also, Sunday evening. Mrs. A. Gregg and son, Billy spent Tuesday in the J. M. Clayton home.

I have you seen the sensational new CHEVROLET SIX

Those who seek the utmost in motoring satisfaction—at sensationally low prices—should see and drive the Greatest Chevrolet in Chevrolet History . . . now on display in our showrooms!

An improved 50-horsepower six-cylinder valve-in-head engine! Four Delco-Lovejoy hydraulic shock absorbers! Fully-enclosed, internal-expanding, weather-proof brakes! Heavier and stronger rear axle! New non-glare windshield! New dash gasoline gauge! And scores of other features!

Come in today and see this car. Drive it. Note how comfortable it is—how easy to handle—how flexible in traffic. And remember that it is now available—

--at greatly reduced prices!

Germany's newest cruiser, the Leipzig, just after its launching at Wilhelmshaven. It will be one of the fastest cruisers afloat and is built to conform to the agreement of the allied powers.

## American Red Cross Nurses Feeding

"You said Robert was coming with some girl?" she asked. "Why, I thought, Anice, dear—"

"Don't think, mother!"

But Mrs. James went on.

"I have an idea it's that little Hale girl who's visiting here. She's just out of a convent, and scarcely nineteen. I've heard she's very pretty."

She was very pretty. As Anice rose to greet her guest she saw in a glance the innocent blue eyes and pouting mouth, the fluff of hair beneath a drooping, flower-laden hat.

Anice herself felt suddenly very old and very disillusioned. She did not know that her own green organdie seemed like the sheath of a lily bud to her white face with its dark wide eyes. In Robert Hunnewell's face Anice read a new enthusiasm, a certain proprietary manner, as he spoke to little Dolly Hale.

The tea progressed. Dolly lisped on and showed the dimple in her smooth cheek and the utter innocence of her blue eyes.

It was in the middle of one of Dolly's dialogues about their convent life that Robert sprang up.

"I say, if you'll excuse me a few minutes, I've got to phone a man about an appointment." He left them.

Dolly crossed her legs and swept her hands above her head.

"Isn't he a scream, my dear? I could howl. With all that old reverence stuff and chivalry toward women."

"I rather like his manner," Anice said coldly.

Dolly opened her eyes.

"How you can stick it! Why, he hasn't any more 'go'! Haven't you a fog, my dear? I'll die if I can't have a smoke. I'm so sick of this 'convent stuff,' but all the men fall for it."

She drew out her lipstick and began to apply a little French rouge to her already bow-shaped lips.

Robert returned in about half an hour and explained that he'd have to leave. He and Dolly slipped away and Anice saw that Dolly had resumed her lisp and her appealing innocence.

Anice was rather surprised that evening when some one came hurriedly up the walk. She saw with dismay that her caller was Robert Hunnewell, but she rose and held out her hand.

"She is pretty, Bob; just as pretty as you said she was!"

"I never said she was pretty!" he said belligerently.

"But—but I thought," she faltered.

"Don't think. I heard what she said when I was supposed to have gone out of the room. I lost my hat in the hall and heard her voice. My dear, I've been a blind fool. Can you ever forgive me? Can you believe that I didn't know, wouldn't know what I'd lost if it hadn't been for this little fluff? Oh, Anice, tell me that I've got a chance with you!"

Her eyes, lifted to his, gave him his answer.

and Miss Trine were day visitors in the War Watters home.

Sunday visitors at the T. C. McCutchen home were Mr. and Mrs. H. S. Crow and son and Mr. and Mrs. Lem Standifer.

T. C. McCutchen, H. S. Crow and Lem Standifer visited Quitaque Sunday afternoon.

Mrs. Jack Brooks visited Mrs. W. H. Newman Monday.

Mrs. M. A. Seay was a pleasant visitor in the J. H. McClendon home Monday.

Mr. King and children at visiting relatives in Flomot.

Visitors in the J. H. McClendon home Sunday were E. C. Fowler and family of Silverton, Alvin McCutchen and A. T. Brooks and Mr. and Mrs. T. C. McCutchen and son.

On account of bad weather the P. T. A. meeting was put off from the ninth to the twenty-third of the month. We have a good program on health. We will be glad to have everyone come who can.

Mr. and Mrs. Homer Welch and Mrs. J. C. Welch visited in the J. B. Dudley home Sunday afternoon.

Mr. and Mrs. Jesse Hill visited Mr. and Mrs. Smith Sunday.

Dorris McClendon was real sick several days last week.

### NOTRE DAME BEST

"Notre Dame is the best football team I've ever seen and I've seen some good ones," said Coach Dick Hanley of Northwestern university in commenting on the defeat of his Wildcats by the Irish team. However, he had much praise for his players.

### AT THE CHURCHES

#### CHURCH OF CHRIST

The Church of Christ meets each Sunday at 10:30 a. m. for Bible study. Rev. Early Arceneaux preaches every Sunday afternoon at 3 p. m., and teaches a Bible class on Tuesday evenings at 7 o'clock. The public is cordially invited to all of these services.

#### METHODIST CHURCH

Rev. M. G. Brotherton, Pastor Sunday-School at 10 a. m. Preaching services at 11 o'clock. League at 6:15 p. m. Evening service at 7 o'clock. All these services in our new church. Everybody invited.

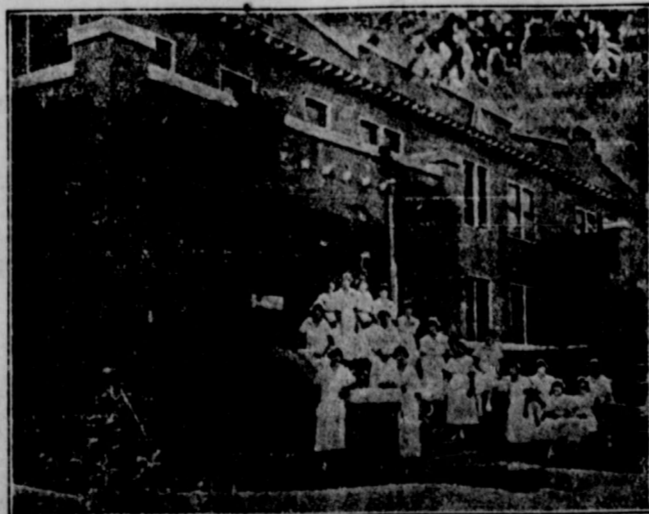

### Bleeding Gums Healed

The sight of sore gums is sickening. Reliable dentists often report the successful use of Leto's Pyorrhoea Remedy on their very worst cases. If you will get a bottle and use as directed druggists will return money if it fails.

Mr. and Mrs. Henry Edens are home after spending a week with relatives at Ft. Worth. Mrs. Edens purchased a set of teeth while there.

W. N. Bullock returned home Thursday from a visit with his brother, Clarence near Muleshoe. He also visited his son, Walter, at Amarillo and daughter, Mrs. Alfred Cothorn at Portales, N. Mex.

C. C. Biggs went to Clarendon Friday afternoon and purchased a new radio.

A. L. and M. L. Durham were in Lakeview Saturday on business.

Mr. and Mrs. Walter Bullock returned to their home at Amarillo Monday. Mrs. W. N. Bullock accompanied them for a few weeks visit.

Albert Heckman went to Clarendon Monday.

Elmer Sanders made a trip to Brice Monday.

Charlie Bullock left Monday for Le Fors where he has employment.

Mr. and Mrs. Sanford Graves were Memphis visitors Monday.

### Chevrolet Reduces Prices—Low Levels

DETROIT, Mich., Jan. 14.—Announcement last week of substantially reduced prices on the new 1930 Chevrolet Six, at the same time that the car embodying many distinct improvements made its public bow, created a sensation in automotive circles here.

Reductions as announced by W. E. Knudsen, president and general manager of the Chevrolet Motor Company, ranges from \$25 to \$50 on seven of the twelve models in the 1930 line, while three new body types introduced for the first time this year are priced to parallel the new low figure on models retained in the current series. The present base price of \$495 brings the six cylinder Chevrolet to within five dollars of the lowest price at which even the four cylinder Chevrolet was ever sold.

This is made possible, with an output of 1,350,000 sixes. Economies of precision manufacturing, plus savings effected by quantity purchase of raw materials, brought about lowered production costs, which consistent with the Chevrolet policy, are now being passed on to the consuming public.

Hobb Conn and Guy Edens transacted business in Clarendon Monday.

Hubert Childers of Oklahoma visited his sister, Mrs. Elmer Sanders and other relatives and friends here this week.

## FALL AND WINTER PRICES OF EGGS SHOULD BE HIGH; HATCHERIES INSURE BETTER FLOCKS AND EGGS

Profits from farm poultry were higher in 1929 than in any recent year. A completion of figures by poultry authorities indicates, and conditions point to a profitable season during the coming year. Egg prices are up, and it looks as if they were going to continue at a good level during the entire season.

There are several reasons for this. One is the fact that hatcheries this year have increased their capacities due to annual increase of business over the past few years. These hatcheries, paying higher prices for hatchable eggs, will take a larger percent-

age of the egg yield than ever before.

Cold storage figures indicate that the beginning of the year will find a shortage of eggs in storage, and this shortage will be made up, to further make inroads upon the egg supply. As a result, fall and winter prices in 1930 should be high. At the same time, grain prices are reasonable, and conditions point to a profitable year from poultry for those farmers who take their flocks seriously and give them the attention which they must have if a profit is to be derived.

Hatcheries themselves furnish the quick and logical method of building up the flock to a profitable egg-production level, particularly since the leading ones of the country have banded together under the slogan, "Hatchery Chicks For Greater Profits," to insure better flocks and square dealings.

Higher egg production per hen, and increased size of farm flocks, offer the solution to profitable farm poultry, regardless of prices.

## Makes \$50 An Acre From His Feed Crop

### Farmer Works Out Profitable Method of Marketing Feed Through Herefords and Hogs.

(By F. W. HOEPFNER, County Agent, Nueces County)

Marketing his bundle dwarf maize the season of 1928-29 at \$52.77 per acre through 106 high grade Hereford calves followed by hogs has convinced D. H. Perry of Nueces county, Texas, that a feed crop is even more valuable some years than cotton.

Mr. Perry, unlike scores of our good cotton farmers, is seeking some sound and practical method of changing the farming program of all cotton. Prompted by the increasing hazard to the cotton crop caused by insects and root rot, as a seeming necessity to diversify, Mr. Perry planted a larger feed acreage than usual and harvested a bumper crop. Since a limited market existed for feed in Nueces county he decided to market the feed through cattle, so 106 high grade Hereford calves carrying their milk fat were purchased and grazed for four weeks in a 17 acre second crop hegari field. The heads of this crop were in the soft dough. Also 106 hogs were placed in the feedlot at the same time. The calves seemed to gain from the start and did not lose a pound of their milk fat, and much credit was given to the milky condition of the hegari heads for their splendid progress.

The hogs saved much grain knocked down by the calves while grazing. A barley patch was allowed the hogs while following the cattle the remainder of the feeding period.

The feeding period lasted 140 days, and the calves were marketed in March. They made a daily average gain of 2 pounds per day per head. While they did not carry a high finish, they were classified by Armour and Company as good butchers and dressed 57 per cent to 59 per cent.

Take your foot out of the grave; put it on the gas.

## Aggie Boy Sells Milo 5 Cents Lb.

Supt. Obenholzer of the El Campo high school has requested the students of vocational agriculture to ship him a collection of kafir and milo heads for use in class work of the El Campo department of agriculture. This request came as result of information gained in the press relative to R. D. Wheelock's project on grain sorghums, particularly milo maize. Some time back the Farm & Ranch carried a lengthy article on this boy's work in which facts presented showed that his crop produced four times that of his father. Both crops were produced identically under the same conditions, excepting the son used a superior seed bed which proved more profitable during the dry weather last summer.

J. C. Turner has also received an order from a Garza county man for 100 pounds of milo from his project to be used for planting. The buyer is paying five cents a pound and has agreed to show some of the milo from the crop at the Garza County Fair next fall and advertise the seed as coming from Briscoe county.

## CAN OF PEAS BRINGS FARM WOMAN FAME AND FORTUNE

### Mrs. Mary Hvass, of Kennan, Wis., Wins \$1,250 National Canning Contest—Gives Pressure Cooking Credit.

America's champion canner is a Jack lunchroom. She is Mrs. Mary Hvass of Kennan, Wis., who won this title and a grand prize of \$1,250 in the National Canning contest, conducted by the Sears-Roebuck Agricultural Foundation, just ended in Chicago, for the best jar of home-cooked food submitted in the nation-wide contest in which 25,000 women participated. Her contribution, which eminent domestic science judges selected as the premier jar, was a can of peas.

Mrs. Hvass is a pioneer who has been winning prizes ever since she and her husband, John Hvass, set out to win a livelihood from their Wisconsin land. Prizes at the county and state fairs for chickens, bread and cakes, and canned goods.

America's Champion Canner—Mrs. Mary Hvass of Kennan, Wis., putting up can of peas in her pressure cooker with which she won grand prize of \$1,250 in the National Canning contest in Chicago for the best jar of preserved food.

She first saw the Wisconsin prairies as three-year-old Mary Jensen. It was her job, as she grew up, to help her father and mother win bread and butter for nine small Jensens and themselves. She was her mother's helper on the farm until all the children were well on their way to growing up. Then she yielded to the glamour of the trading town called Minneapolis. At Minneapolis she became a cook

at a lumberjack lunchroom, where met and married lumberjack Hvass. They moved to Wisconsin first to a small farm, later to a one, where they are living. There Mary Hvass helped her husband fell trees, build barns, fence their house. For nearly three years they struggled together.

When Mrs. Mary Hvass began one jar of peas that she had made was worth \$1,250, it seemed incredible to her. It was just one jar, hundreds that were canned all of a summer's work. And simple business to put them followed directions in a go bulletin.

"I used a pressure cooker government advised, because every other way and I know she explained.

"First, I blanched the peas minutes in scalding water, dipped them in cold water, then in a mason jar with a lid and put the jar in my pressure for 50 minutes at 240 degrees. That's all the work it took them ready for the contest. I want anything more certain sample than my Kook-Kwick pressure cooker for canning peas and a of food."

Judges of the contest who determined the peas canned by Mrs. Hvass perfect in flavor, color and general appearance, were Dr. Margaret J. president of the American Home Economics association; Dr. Louise ley, director of the United States reau of Home Economics; Mrs. phine Bakke, home economics director at Iowa State Agricultural lege; Miss Elaine Massey, director girls' club work in Mississippi, and George Farrell, director of extension in the Middle West for the Department of Agriculture.

There are canned peas and canned peas that win prizes, but those that were canned by Mrs. Mary Hvass go even further. They are going to pay for their own creaming and buttering. The grand prize check of \$1,250 is going to set up Mrs. Hvass in the dairy business.

Her ambition for many years was to own a herd of pure-bred Holstein cattle and to extend her prize winning into wider fields. Now her ambition will be realized with the purchase of the nucleus of such a dairy herd.

## Free Trip to Meet For Co. Contestants

AUSTIN, Jan. 14.—Indications are that the county meets of the Texas Interscholastic League this year will be as good as if not better than the meets of past years, according to the 125 county reports that have already come in to the University of Texas League Bureau. Fifteen counties have reported 100 per cent membership in the League. Contestants from these counties in the State meet in May are entitled to a 100 per cent rebate on railroad fare to and from Austin. Mr. Boedichek said.

## Nunns Aid Baptists At Canyon With Gift

CANYON, Jan. 15.—Announcement has been made here that Dr. J. E. Nunn and son, J. Lindsey Nunn, of Amarillo have financed the installation of a pipe organ for the First Baptist church. The organ was presented the local church by the First Baptist church of Amarillo.

Let's have a sharpen-up, speed-up, and buck-up week.

## McCORMICK-DEERING 15-30 TRACTORS

Have you seen the new McCormick-Deering (15-30) now a 22-36. More power, more speed and still better.

Evidence is seen at every hand that farmers are pulling more profit out of their acres with power and machines that put more accomplishment into every working day, increasing production and reducing costs. Your acres offer equal opportunities for this new-day power farming equipment.

When you turn to power farming, take your tip from the widespread popularity of McCormick-Deering equipment. Your neighbors are making money with McCormick-Deering tractors and machines. Talk to one or more of these owners about the economy, long life, full 4-cylinder power, and easy operation of their McCormick-Deering tractors. If possible, climb on a McCormick-Deering yourself and pilot it over the soil. Your experience will prove an eye-opener.

During the coming weeks think of your crop production in terms of modern power farming. Figure what it will mean to you to save a day here and a week there as the season progresses. Think of the advantages of doing more thorough work while you are doing it in less time than ever before.
