VOLUME 20—NUMBER 15

PUBLISHED WEEKLY AT SILVERTON, BRISCOE COUNTY, TEXAS

THURSDAY, MARCH 20, 1930

Silverton

It has been brought to our attention that the citizens are not showing the proper appreciation and support of the first class municipal sewer system which we have. It may be recalled that when sentiment was felt out on the city council taking this sanitary step around eighty householders and operators of business houses agreed to make connections.

These promises have not been kept, and the city water and sewer department wishes a little more cooperation. If all those who should be tied to the system made connection the sewer department, which is owned by all of us, would be making money. And what would this mean? Naturally a reduction in taxes. So much money is required to pay interest, indebtedness, and administrative expenses. When the municipal conveniences are used by most of the people, the amount to be raised by taxes will be lowered.

City water and the city sewer should be patronized wherever practicable from a selfish standpoint, at least. Water and sanitation have a cost, regardless of the kind of service, and if these services are secured from the city, they are more satisfactory and apply as one's taxes. The operation cost of the sewer plant is virtually nothing, carried on by the water department force, and its revenue is bound to cut taxes in proportion.

The A-Ce Plumbing Company is announcing a reduction in prices to encourage non-users to tie-up with the sewer. Why not have Jack Coffee and Bob Amason figure with you on installing this convenience? As the matter rests now all tax payers are paying for the support and initial cost of the system, even though non-users and without the improved service.

If eighty or one hundred houses hook onto the sewer, it will at once become a big source of revenue and add each month a nice sum into the general treasury. At present there are not enough users to pay it out and an extra tax is necessary to meet the warrant payments.

This is a community enterprise, a sanitary measure necessary for the health of the community, and should be a highly prized modern convenience. The situation presents something to think about. Why not call the plumber for a consultation?

THIS AND THAT

—By L. S.

Famous definitions by famous people: A courtship is a period of time in which the girl in the case is looking around to see if she can do any better.

Another definition less famous: A chain store is a place where nothing is sold but watch chains and trace chains.

Questions without answers: What has become of the old fashioned school girl who thought the word "neck" was a noun instead of a verb?

Three divisions are suggested for the different classes of our popular songs, as follows: Hot Mamma, Hot Papa, and Hot Baby. What have you?

Our secret ambition is to wear a derby, hat, tote a walking cane, and wear spats. What is your weakness?

Will Hold Health Program Monday

A health benefit program is announced for Monday night at the Methodist church. H. G. Joiner, a physician, will have charge of the program. The meeting will be open to the public, and Mr. Joiner in his cooking demonstrations will have something for those attending to eat.

Att'y General Gives Rule on Office Holding

Fred Lemons Withdraws From Race and E. Tibbets and C. D. Wright Decline Candidacy.

Not all candidates selected at the mass meeting will have their names on the tickets, through voluntary declination, and some of the questions involving legality of holding two offices has no further local reference.

Three questions submitted to the attorney general from the county attorney here for an opinion have been answered in a communication from that department. In short, the department's interpretation of the matters may be summed with yes or no answers to the following requests made:

1. Can a deputy sheriff hold that office and also that of school trustee? In Silverton, yes.
2. Can a justice of the peace hold his office and also accept and hold the office of city mayor. No.
3. Can a person hold the office of city councilman and of a school trustee at the same time? In Silverton, yes.

The questions virtually revolve around the condition whether there is any pay of any sort in both offices concerned. The law would prohibit the same person from functioning in two offices where both carried emoluments, but would not bar him where only one provided compensation.

The News is advised by C. D. Wright, chairman of the school board, and Ernest Tibbets, trustee, that they have declined nominations by submitting such information to the county judge. These retiring members had been renominated.

Fred Lemons, secretary of the board and nominated for alderman also states that he will not allow his name on the city ballot. Mr. Lemons said school matters came first in his mind and heart, that the trustee and secretarial duties called for all the time he could devote to public affairs and that he deemed it best to withdraw and announce his withdrawal so others might be placed on the ballot if they so choose.

In making public their withdrawal from the trustee race, Wright and Tibbets stated they thought the people should know early enough to have other candidates put on the ballot if they wished to take such action.

Anyone wishing to run as a trustee has until March 25 to file for a place with the county judge, and petitioners, at least five in number, have until the 29th to request a name to be printed on the ticket.

So far as the News is informed existing candidates for the approaching elections are For mayor, T. M. Nichols and T. L. Anderson; For alderman, T. L. Miller, J. R. Guest, E. C. Fowler, and Jim Bomar; For trustee, C. C. Garrison, J. R. Guest, A. P. Dickenson, and T. J. Hodges.

There are four trustees to be elected, instead of three as formerly reported.

Cup of Coffee for Trades Day Visitors

Trades Day visitors in Silverton Saturday may get a free cup of refreshing coffee at the "M"-System store, according to Dick Cowart, who has arranged for a representative of the roasters of Folger's coffee to be in the store all day and acquaint the public with the merits of his product.

Fourth Place Won By Dramatic Club

The Silverton high school dramatic club scored a success in the district meet at Plainview last Friday night by winning fourth place with their one-act play against keen competition. Tulla placed first, Floydada second, and Plainview third.

Miles—Near \$75,000 worth of tractors purchased by local farmers since January 1st.

Timely Rain Is Boost for Crops

A timely rain of an inch or more has fallen within this section during the past week. A good rain came Friday night, a heavy shower Sunday, and some sleet and snow Tuesday. Much promise to the winter wheat has been added by this recent moisture. Wheat is in good condition, and little damage has been reported from the high winds. The wheat pasturage has been very good this season.

Low Water Rate May Raise Income

To Encourage Better Lawns and More Trees City of Graham Makes Special Contracts.

Much thought is being given at the present time to the question of a lower water rate for the spring and summer in order to promote lawn improvement in Silverton and the setting out of more trees. The ladies of the Floral club have initiated the move for low rates so that the beautification of homes contest may not fail.

Home appearances in Quitaque last year were markedly improved, it is claimed, and it is also stated that the water rate was reduced so that better results might be obtained.

It is of interest to note the action of the city council in Graham, Young county, in announcing a summer rate to help out in the beautification of lawns and the planting of trees.

Their new rate is as follows: A contract may be entered into whereby the user agrees to pay a minimum of \$5.00 a month for which he will be entitled to use 25,000 gallons, and any water used in excess of 25,000 gallons will be paid for at 18 cents a thousand gallons.

This rate is not applicable to any kind of business or for commercial purposes. Then contract must cover at least four months, beginning with March and ending with October. However, the user may have his choice of months, April to November for instance, but no contract will be extended to cover a greater number of months than originally agreed upon.

The Graham case is given only as a workable example. It may be that water can be made available much cheaper in that city than in Silverton. If so, it is being claimed that a proportionate scale could be put in operation here.

Free Farm Show Here Saturday

There will be a free special picture show Saturday afternoon from 2:15 to 2:30 at the Palace Theatre for all farmers and others interested in poultry raising. The title of the picture will be, "Business Management of Laying Hens." The international harvester company, cooperating with the local department of agriculture in the Silverton high school, secured this film without cost to the public, and the theatre management is furnishing the house and the screening without charge.

This is an educational picture and one badly needed for the community. Members of the recent night school are especially urged by W. M. Gourley to be present.

SILVERTON SCOUTS—And Their Work

(Reported by George Snapka) At the Tuesday night meeting the scouts present welcomed their new scoutmaster, Dr. R. F. McCasland and pledged obedience and loyalty. T. L. Miller, scout goods supply agent, was a visitor.

The boys had become somewhat disorganized due to the lack of a master, and there were very few present Tuesday; however, Powell Miller, Willie and George Snapka, Kenneth Davis, Roy King, and Joe Haynes were in attendance.

All the scouts of the Silverton troop are wanted next Tuesday at 7:30 o'clock.

Lions Accepted Sponsorship of Local Scouts

Dr. R. F. McCasland Put Forward By Club As Local Scoutmaster

Acceptance of the sponsorship of the boy scout troop of Silverton was made at the Tuesday meeting of the Lions club, when a committee composed of T. L. Miller, R. F. McCasland, and T. M. Nichols was appointed to handle the situation and select a scoutmaster.

This action was taken after T. L. Miller had stated that the local troop would lose its identity if no active scoutmaster were made available, according to advices received from Scout Executive Roberts of Plainview, A. L. Kelsay, T. M. Nichols, and Dr. R. F. McCasland were named a committee to form the proper organization for staging a Lions play some time in the future.

The program committee performed ably when two talented musicians on stringed instruments favored the club with a number of popular pieces.

O. F. Kolb and Tom Smith were the local musicians who brought the house down and received many encores. Smith performed on the floor with some fancy toe and joint work.

Sky Circus Billed For Trades Day

Special Committee on County's Upper Regions Will Soon Announce Date and Details.

An air circus will be scheduled for Silverton as soon as Bland Burson, L. L. McAnaw, and John Bain, airplane committee, are able to work out the details. It will be sponsored by the Lions club and staged in connection with one of the weekly Trades Days now being held here regularly.

Lee Wilkinson, mail carrier between Silverton and Floydada and owner of one of the late airplanes, will bring his pilot here on some suitable date and put on the circus, and everyone wishing to enjoy an air ride may do so.

Mayor Invited to 250th Anniversary

Mayor Thomas P. Stoney of Charleston, South Carolina, has proclaimed April 10-13, as the joint celebration of the 250th Anniversary of the official settlement of Charleston on its present site and the 260th celebration of the founding of the Province of Carolina under the Lords Proprietors.

In a letter, to the Mayor of this City, the chief executive of Charleston after expressing the wish that his honor and his citizens may find it expedient to visit Charleston during the joint celebration, which falls concurrently with Charleston's famous garden season, sends out a call to all South Carolinians and to Charlestonians in particular, who may be residing in this city to return for a general "home coming" on this occasion.

The program for the coming event includes the following features and will be participated in by distinguished visitors from all over the United States as well as the official representatives of foreign countries:

April 10th, military review, Fort Moultrie; Inspection of Navy Yard; Aquatic Sports off Battery; and Community Dance on Battery.

April 11, memorial exercises at original site of Charleston Town, at Old Town Creek; official Luncheon or Barbecue; Aquatic Sports off Battery.

April 12, military and historic floats parade; pageant at Battery Park; Sparrin exhibitions, Marion Square; and Ball for distinguished guests.

April 13, sightseeing for distinguished guests.

Jim Haynes Made Good Beef Profit

Jim Haynes, who marketed his five baby beeves several days ago in Ft. Worth, realized a gross of \$318.88. He cleared \$108.01 on the project. He had seven hogs in the pen and the feed bill was all charged against the calves. The clear profit on the calves was \$22.01, and the value of the hogs, figured on the market prices, was \$86, clearing for Jim on his venture the neat sum of \$108.01.

Will Produce During Year 1,000 Pullets

Will Donnell, Former Commissioner, Has a Splendid Example of Diversified Farming—Many Cash Crops

Under present distressed farming conditions throughout America, the first thought of those close to the problem is that of diversification. An outstanding example in Briscoe county of a man who has put his farm on a diversified plan and has been successful at it is Will Donnell, who lives a few miles southeast of Silverton.

Mr. Donnell is of the wide-awake type, doesn't claim to have graduated in every farming method, and does not hesitate in the least to learn from his boys when they put forth something worthwhile. Mr. Donnell was a member of the commissioners court in 1922 when the new courthouse was built, and he maintains a wide interest not only in those things for betterment of his home but for the progress of the whole county.

He has a well-improved farm, a good residence and other suitable environment for his family in his rural life. Besides a large barn there are eight different chicken houses on the place, importance of which will be shown later.

Mr. Donnell believes in diversifying his farming industry. He grows cotton, oats, barley, wheat, grain sorghums, an orchard and garden. He keeps dairy cows, sheep, hogs, and hundreds of chickens.

At present there are about 400 laying hens on the farm; 352 of these are white leghorns. When the writer visited his home several days ago he had 369 baby chicks five days old and there had not been a single loss since the hatch. It is in order to state here that supervision of the baby chick production has been turned over completely to his son, Arlon, who has finished three years of vocational agriculture in the Silverton high school. He could have found none more capable than Arlon to do this job, for this youth made the highest score in Texas in 1928 in poultry judging.

It is the intention, said Mr. Donnell and Arlon, to produce this year at least 1,000 pullets. Besides the regular flock, he has 30 highly standardized bred hens from the 300-egg strain from which 23 eggs are gathered daily. These are kept apart from the others in order to keep up the standard.

Mr. Donnell was preparing to clean out the various chicken houses and fit them up for housing his baby chicks. He will soon have them full of chicks, he said.

It is interesting to know the history of his chicken enterprise. A few years ago, Arlon had some ducks and wanted to expand his duck activities, but his father persuaded him to sell them and put the money in chickens. The transfer was made, and the humble beginner has grown today in the busy activities now seen on the Donnell farm, where cash products are realized on daily.

At the time of this interview early this month, the income from sale of eggs was running around \$24 a week, said Mr. Donnell. And he had not yet established a market to get a premium from the eggs from his "high-powered" hens, as he called called them.

Other important items in this diversified plant are the 240 sheep and nine dairy cows, of which three are registered. He has a registered bull also. The home is supplied with plenty of canned fruit and vegetables, home-grown and home-canned.

The success of Mr. Donnell is not limited in value to his own confines but is no doubt valuable to all Briscoe county. What one can do others can do.

Bozzer—Excavation started for second part of First Methodist Church building.

Quarantine Warning By Health Officer

Dr. O. T. Bundy Advises Concerning Duties of People Where Contagious Diseases Exist.

Dr. O. T. Bundy, county health officer, has issued a statement that he intends to carry out the law with respect to contagious diseases. He cites the penalty for failure of citizens to observe these health provisions. His official notice follows:

"Any person having a contagious disease in their home such as Small Pox, Diphtheria, Scarlet Fever, etc., or suspects that he has such a disease in his home shall report same to the local health authority within twelve hours unless previous notice has been given by the physician in charge of the case. Failure to do this lays the head of the family liable to heavy fine. It is absolutely unlawful to remove any thing from a house where such diseases are suspected, milk, butter and other produce are carriers of disease and until fumigation has been carried out they are dangerous. Any one having suspicious cases in their home or knowing of any in other homes will do the public a favor by reporting same to me. I cannot chase rumors but will surely carry out the law if given direct information. Yours for better health."

"O. T. Bundy, M. D., County Health Officer, Briscoe Co."

Prospects for Aggie Boys to Win Are Slim

Prospects of winning the silver trophy for the third consecutive year at the Texas Tech contest in poultry next Monday are extremely slim, according to W. M. Gourley who is coaching three teams in poultry judging, dairy cattle judging, and plant production in preparation for the annual events.

His team is made up of good material but has not had enough practice to make them sure of winning the coveted trophy. The lack of preparation, says Mr. Gourley, is due to the fact that these boys have had heavy duties in their other subjects, have had an unusually heavy athletic schedule, and the further fact that the contest is being held this year three weeks earlier.

Under these conditions it has been about impossible for the teams to get in top shape. The boys will do their best to bring back first honors, but in the past it has been considered an almost impossible accomplishment for any one school to win the trophy three years in succession.

The plant production team will have three more weeks within which to train for the state contest, and there is more probability of the team winning the state trophy than the poultry team winning in the district meet Monday the cup which is now in possession of the Silverton vocational agriculture department.

Faculty Play Was Hit of Season

The faculty play, "Slow Train Thru Mizzoury," presented Tuesday night of last week, was the biggest hit of the season, not only in the historic field but in a financial way. It was played to a full house and the school fund was bolstered opportunely.

Canadian—\$7000,000 bond issue will be voted on March 25 to provide funds for 50 miles of paved roads for county.

A COUNTING ROOSTER

Experiments in psychology are being carried on enthusiastically with many kinds of animal life as subjects. A recent test reported from the University of Chicago is quite interesting.

Kernels of corn were placed in a row on the rooster, with every third kernel tacked down, and a rooster was permitted to help himself. Failure to find a fastened kernel, he would pass on and eat the next. The missing kernels were replaced and next time he made no attempt to devour the stationary kernels. Then the third kernels were loosened, but he still passed them by until his foot struck one and moved it; then he went back and ate them all.

Some who witnessed the experiment believe that it proved the rooster's ability to count; others were skeptical. Possibly he was an unusual bird, we had been influenced by his university environment.

We don't vouch for the truth of the story, but if you doubt it try the experiment on your own rooster.

FRAUD MAKES MARKET

The widespread use of cottonseed oil as a table and cooking delicacy throughout the world is due to the attempt of the Marseilles merchant to deceive his customers, according to Arthur Coleman in Holland's magazine. Under the caption of "Cotton—From Waster to Wealth." Mr. Coleman gives the following incident.

"Cottonseed oil found an eager recipient in the person of one Marseilles oil merchant who saw no particular or immediate harm in mixing a small portion of it with large batch of olive oil, for the South American market. Not bothering to make new labels he stuck his regular "pure olive" labels on the mixture and shipped it. Somewhat apprehensively, he waited for complaints. None came. So he increased the proportion of cottonseed oil in the next shipment, and again waited for objections. Still none came.

According to Catholic authorities, Pius XI is the 261st Pope.

Practice makes perfect, most married men should be able to produce convincing fiction.

Make a man who has "gone over the top" would be a far from acting as judge of a baby show.

Nearby Press Folks Say---

El Paso Star—Then there are fellows who have still different ideas about the size of the world. I read about one fellow who, when his girl asked him how far it was around the world, replied, as he placed his arm around her waist, "About twenty-four inches, my dear."

Canyon News—Men whose occupation it is to keep their fingers on the pulse of national conditions report with a great deal of confidence that the outlook for business is better than they had expected to find at this time. There was a belief at the turn of the year that it might be mid-summer before industrial conditions got back to normal. Now it is the general feeling that it will not be much after Easter before the slack has been taken up. Definite predictions with a time-limit are always doubtful, but the fact that intelligent investors believe the worst is over is of great significance and interest.

Lockney Beacon—When a man trades with his home merchants, and the home merchants buy the things they can buy at home, they cause the town to prosper, and when the town prospers there is danger that other business men will come here to do business, hence there will be more

competition, and that will cause the town to expand and grow larger. property values to increase, make business men alive and have to work harder in order to keep the competition from getting more business than they do.

McLean News—The good people of most any community can keep undesirable things from the community, if they are aggressive in protesting them, but a feeling of letting the other fellow do it never accomplished anything. There must be moral guardians in every community, if the young people are to be protected from various evils, and the moral leaders who take the initiative in any forward movement should have the support of every right thinking citizen.

Pampa Daily News—Scores of readers of The News are asking for more information on the water question. Many of them wish to plant blue grass in their lawns, but blue grass absorbs much water and the cost would be prohibitive under present conditions. There has been no inclination on the part of the city commission to deny that the long contemplated lowering of rates would be made this spring. On the other hand,

assurances have been given that a revision would be made when the study of the situation was completed.

South Plains Farmer—No one knows just how much acreage reduction cotton farmers of the South Plains will adopt this season, if any. No one will know until the crop has been planted.

The fair way, the safe way and the logical way, so we believe, is for farmers, everywhere, to first plan the planting of sufficient feed crops to insure at least another year's home supply; to plant sufficient garden crops to insure a maximum of home food supply; to raise at least enough chickens for home supply and a few over, and to do the same with dairy cattle.

Then thought of cotton acreage can come. There are two views of looking upon reduction plans. The government sees it in comparison to world production of cotton. The individual cotton farmer sees it in comparison to his own farm and ability to make a crop.

It seems reasonable to suppose that the government knows a great deal more about marketing conditions affecting a cotton crop, than does the individual farmer.

THE SMALL TOWN IS LEADING AMERICA

Not long ago the nation was stirred by the drift of population away from farms and rural areas into the great cities. Young men attracted by the high wages paid by industry and what appeared to be the superior social and economic advantages of urban life deserted the soil for the city.

In the past quarter-century rural America has made tremendous progress. Better schools, good roads, the automobile, telephone and radio have created a rural civilization greater than any in history.

Industrialists, attracted by such factors as lack of labor difficulties, low taxes and uncongested, pleasant living and working conditions, were barred from entry into the small town only because of lack of power.

Then rural electrification and natural gas lines on a large scale were inaugurated. And now, according to authorities, smaller towns are on the road to industrial leadership of America and the countryside is staged for the next scene of our industrial progress. The drift of population has turned. At present the only pronounced gain in industrial wage earners is taking place in the country.

It is safe to say that many towns which are almost unknown today will be the great industrial centers of the future. The industrial revolution of the eighteenth century apparently doomed rural progress—now the electric revolution of the twentieth is reversing the process.

GOOD POULTRY EQUIPMENT PAYS FOR ITSELF

Modern poultry house equipment modeled to suit needs of poultry raisers, whether they be in the business on a large or small scale, is found on an increasingly large percentage of farms, finds the research department of the National Association of Farm Equipment Manufacturers.

The desirability of proper equipment is pointed out in a current report by H. H. Steup, of the Poultry Tribune Experimental Farm. "Good Equipment soon pays for itself in actual dollars, by encouraging larger egg production and reducing losses from disease" says Mr. Steup. Going further he points out that there is such an assortment of appliances on the market that it is cheaper to go out and buy specially made equipment than to make it.

Water heaters for cold weather, feed hoppers, and dependable time switches for regulating the electric lights are items which are especially important in increasing egg production.

Commenting on a Senate debate, the magazine Time points out that Abraham Lincoln was once a railroad attorney, having served both the Illinois Central and the Rock Island in that capacity. If he were up for confirmation by the Senate today he would probably be denounced by a certain element because of his corporation connections.

Several scarfs knitted by the Prince of Wales were recently exhibited at a London needlework show.

Most of the war-time second lieutenants have probably lived it down by now.

Efficiency experts might have a try at devising some means of utilizing left-over advice.

Women occupy a wider sphere than formerly, but are doing their best to reduce it.

DO YOU KNOW HOW TO BREATHE?

I once had the misfortune to know a pessimist. There was an excuse for his pessimism. He was a narrow-chested chap threatened with tuberculosis.

He had given himself up for lost.

One night somebody induced him to go to a singing school.

A year later his chest was filled out; there was a sparkle in his eye; his laugh could be heard a city block away.

He had learned how to breath.

Even when you practice deep breathing exercises you probably do not fill your entire lung capacity. You expand your chest; but the really important part of your breathing is done with your diaphragm—a big flat muscle that forms the floor of your chest.

And the abdominal muscles are the boys you need to train if you are to get the most out of your diaphragm.

Fill your lungs until you feel your stomach muscles hard against your belt.

That means that your diaphragm has straightened down and is massaging the top of your stomach and intestines—helping along with the process of elimination.

When you breathe out, do it forcibly, with the stomach muscles like a horse snorting—but without the snort.

Your stomach and intestines will be forced up against the diaphragm again and given another massage.

Breathing in is important, but breathing out is much more important.

Read sometime a book by a man like Thoreau, or John Burroughs, or Stewart Edward White—one of the great open-air writers.

Then, while the impression of its rich, bounding optimism is still strong upon you, pick up a book written by one of the Russian novelists, or by one of our modern long-haired writers who believe that realism necessarily means murder and drunkenness and prostitution.

What a difference! And what makes the difference?

The realist will tell you that it is because he thinks deeply, while the optimistic writer thinks superficially.

As a matter of fact, the difference is not in the brains of the two men, but in their livers.

It is not the depth of their thinking so much as the depths of their lungs.

The corpuscles of the one red and fed with oxygen; the corpuscles of the other are pale and fed with cigarette smoke and gems.

"For what, after all, is Life?" asks an old Sanskrit quotation. And answers:

"Life is the interval between one breath and another—he who only half breathes enjoys half a life."

SNAPPY STUFF

A provision of \$3.50 a week for the support of her pet cat was contained in the will of the late Miss Alice Judge of Bogota, N. Y.

When her house caught fire, Mrs. Carl Coppola of Rockford, Ill., leaped from an upper window and tossed her month old baby into the arms of a passerby. She then jumped and was uninjured.

Joseph Taylor of Chicago, who had attempted suicide, was sentenced to take a two weeks' vacation, for which money was raised in court.

Mlle. Grania Klorisch of Vienna, disappointed by her reception in a new play, has given up the stage and entered a nunnery.

What's New

Blue geese have been developed at a government zoological park.

A San Francisco windmill develops 100 horsepower in a strong breeze.

A new electrically operated machine can turn out 5,000 doughnuts an hour.

Ultra-violet rays have been used successfully in treating distemper in dogs.

An improved solvent has been developed for removing chewing gum from under theatre seats and elsewhere.

SIDELIGHTS

One of the finest feats of heroism ever performed by an American sailor is recalled by the death of Lieutenant Mons Monssen, retired. In 1904, when a gun turret of the battleship Missouri blew up, Monssen saved the entire ship from destruction by leaping through flames and isolating the fire. He was an enlisted man at the time, and received the Medal of Honor for his gallant act.

China claims the youngest college president in the world. He is K. Y. Wang, recently made president of the Kiangai agricultural college at the age of 23, after being graduated from Purdue University.

THE FAMILY DOCTOR

By JOHN JOSEPH GAINES, M.D.

BIRTH CONTROL

A subject that has been engaging the reading, intelligent American public for some time. It is unfortunate that the ignorant shack-dweller who reads nothing, and would not understand if he did, cannot participate in this eminently vital question.

I am a believer in rational birth-control, obtaining my convincing evidence from my environment. I understand that both church and state oppose the movement.

I know of many families that could support two children, and make of them respectable citizens, that utterly founder on six. The day of quails and manna being showered over the Israelites has passed; it is only the man who can pass the cash over the counter that can afford to eat. We need educated, enlightened citizenry in America now more than ever before. The dozen poor children huddled together in rags, with no money to buy clothing and school equipment, preaches a sermon for birth control stronger than words can portray.

These starlings grow up into men and women the same as all animals grow up—with the one distinction that they vote. What they vote for can better be imaged than described. They are compelled to pay for what they consume—or do without; the bonus of crime appeals strongly; they have little dread of prison life; they may live better in prison than at "home." Their battered, hungry natures crave stimulation—they get it if they have to kill for it. If they marry and reproduce, it is in conformity with the inexorable law that like begets like.

Honest, earnest working mothers appeal to the doctors for relief from the calamity that another baby would

bring. The law makes it a crime for the tender-hearted family doctor to tell such women how to prevent conception. The doctor knows that two babies could be raised properly by the average couple, where ten would produce invalidism, drudgery, poverty, squalor, and utter incompetency.

COMPARE VALUES BEFORE YOU BUY AN AUTOMOBILE

Low charges for distribution of the new Ford save you at least \$50 to \$75 in addition to the many savings in making the car

THESE are days when every dollar counts. The period of reckless spending is over. People are going back to the good old-fashioned principles of thrift and economy. Value is again being carefully considered.

Nowhere is this more important than in the selection of an automobile. For the purchase of a car represents a considerable investment. It should not be decided on hurriedly, but only after analyzing every important factor that concerns cost, value and performance. The time to do this is before buying—not afterward when it is too late.

ON THE basis of cost, performance and the actual comparative worth of every part, the new Ford is a value far above the price you pay. It is made of better materials and with greater care and accuracy because of the recognized efficiency and economy of Ford manufacturing methods.

The value of these methods is known and understood by millions of people. It is not generally realized, however, that these same principles of efficiency and economy are applied also to every step in the distribution of the Ford car. The low cost of selling, financing time payments, etc., means a direct saving to you of at least \$50 to \$75 in addition to the money saved by Ford economies in making the car. Here are three reasons why this is so.

(1) The Ford dealer does business on a smaller margin of profit because of the greater number of

cars he sells. His discount or commission is the lowest of any automobile dealer. The difference in your favor, ranging from 25% to nearly 50%, comes right off the price you pay for the car.

(2) The Ford charges for financing are low.

(3) No expensive extra equipment is needed when you buy a Ford. The car leaves the factory ready for use. The f.o.b. price includes a Triplex shatter-proof glass windshield and an extra steel-spoke wheel, in addition to four Houdaille double-acting shock absorbers and fully enclosed four-wheel brakes. Any accessories you may wish for your individual taste are sold considerably below the usual prices. None of these charges for selling, financing or accessories is marked up or increased to cover a high trade-in allowance on a used car.

Get all the facts, therefore, before you buy and figure out just what you are getting for your automobile dollars. Go beyond the f.o.b. price and find out how much more you pay the dealer than the dealer pays at the factory. Analyze the used-car allowance. Compare all charges—item for item—value for value.

WHEN you do this you will have a new appreciation of what the Ford Motor Company and Ford dealers are doing to keep down the cost of Ford cars. You will also know why it is possible to put so much real value into the new Ford and still retain the low price. The money you pay goes for value in the car. It is not wasted in excessive costs in manufacturing or selling.

FORD MOTOR COMPANY

Again Konjola Gives Proof of Amazing Power

Ten Years of Rheumatism Are Ended When New Medicine Is Given a Chance

MRS. G. H. COLEMAN

What cheer and encouragement are to be found in the many victories of Konjola, the new and different medicine of 32 ingredient. Take, as a typical example of Konjola at work, the case of Mrs. G. H. Coleman, R. F. D. No. 3, Ft. Smith, Ark. Imagine her happiness when she was able to say: "When I look back and think how I suffered from rheumatism and kidney trouble for ten years I can hardly believe that I am well and happy as I am today. And all this glorious change is due to Konjola. For ten years I endured awful agonies. At times the pain in my limbs was so severe that I could not get around. Every night I was up many times, and the loss of sleep and rest told on my general health. A friend urged me to try Konjola, and what good advice that proved to be. In four weeks I was without a sign of rheumatism, and my kidneys were as good as ever. No wonder Konjola is the most talked of medicine in America. It should be in every home throughout the land."

Konjola is sold in Silverton at the Silverton Drug Company, and by all the best druggists in all towns throughout this entire section.

MRS. W. L. JEWETT'S SISTER TELLS OF TRIP TO PANAMA ON HOSPITAL SHIP WITH FLEET

Mrs. W. L. Jewett has just received a letter from her youngest sister, Odessa McFall, relating her interesting experience from San Diego to Panama in company with a U. S. battlefleet.

Her letter, written from day to day, covering the latter part of February, follows:

Saturday, February 15: Left San Diego at 10:30 a. m., but dropped anchor a short way out and waited for the battle ships.

Sunday, February 16: Are sailing along on a sea smooth as glass; it is delightful. A beautiful sight too—there are 6 battle ships, 6 destroyers, 3 airplane carriers, 4 submarines, 5 tugs, 1 airplane tender, 1 tanker, the Procyon (flag ship for the base force, and our hospital ship).

At about 11:00 a. m. the Tennessee dropped back and gave us a patient. It is an interesting thing to see them transfer a patient, they lower a motor boat from the battleship with the patient in a wire stretcher, and the crew. They come long side us and the patient is lifted over the side with his bag and hammock and his orders, health record, etc.

Monday, February 17: We are far enough down that it is getting much warmer, the sea is smooth. We hardly know we are underway. Tonight we had "darkenship" for an hour, all the lights are turned out on the ship, a part of the fleet maneuvers.

Coming to PLAINVIEW and AMARILLO Dr. Mellenthin

Special Attention to Internal Medicine DOES NOT OPERATE

Will Be in Plainview on FRIDAY, APRIL 4, At The Hilton Hotel and in Amarillo on SATURDAY, APRIL 5, At The Amarillo Hotel From 10 a. m. to 4 p. m.

ONE DAY ONLY No Charge For Consultation

Many in this community will avail themselves of the opportunity to visit Dr. Mellenthin on this special visit to Plainview and Amarillo. The doctor pays special attention to the Science of Internal Medicine and Dietetics.

Some of the ailments treated are diseases of stomach (especially ulcers), glands (especially goitre), ailments of women, diseases of liver and bowels, as infected gall bladder, gall stones, appendicitis, chronic constipation, colitis, auto-intoxication and rectal ailments, circulation disturbances as high or low blood pressure, heart and blood disorders, skin, nerves, bladder, kidneys, bed-wetting, weak lungs, tonsils, adenoids, metabolic disturbances such as Rheumatism, sciatica, leg ulcers and chronic catarrh.

Medicines are prescribed and prepared for each individual case in his private laboratory, also special attention given to diet as to proper balance and selection of foods.

For this service a nominal charge is made.

Dr. Mellenthin is a regular graduate in medicine and surgery and is licensed by the State of Texas.

Married women must be accompanied by their husbands.

Address: 4221 West Third Street, Los Angeles, California.

Tuesday, February 18: Still sailing along on a smooth sea, the water is getting a beautiful blue and there are millions and millions of stars, it is warm but still there is a nice breeze. We had darken ship for an hour again tonight. Nothing very exciting has happened today.

Wednesday, February 19: It is warm as a Texas day in July today, but it is beautiful. The water is the most beautiful blue and you see the flying fish playing along side the ship. We have seen a few of the large deep sea turtles, a seal and some shark. There is a lot of phosphorus on the water, looks like streams of fire at night. We took on a patient from the New Mexico about 6 p. m. Spinal meningitis. They did not darken ship tonight, so we went up to the movies. Just another delightful day.

Thursday, February 20: Smooth sailing all day, nothing very exciting happened, had darken ship for two hours. It is really just wonderful, so warm, almost too warm, during the day. The nights are hot, but there is the sea breeze. The fleet changed the uniforms to whites today. The first time I have seen white uniforms worn, for they wear blues all the time on the West Coast.

Friday, February 21: It isn't warm now but it's hot, but it is beautiful. We took on a pneumonia patient from the Tennessee this afternoon.

Saturday, February 22: A holiday which means a big feed for the sailors, that is about the biggest kick they get out of holidays, extra eats. The boys on watch on the bridge said they saw the Southern Cross at 2:00 a. m. As we get nearer Panama it will be higher in the sky; it was just over the horizon this morning. We are a little more than half way now. We are due to reach Panama either Thursday night or Friday.

Sunday, February 23: A very beautiful day spent the most of the day sitting on deck watching the water. This morning there were many turtles and great schools of flying fish. The fish looked like a bunch of sparrows. This afternoon there were two whales that played along real close to the ship. When he or they would spout it looked like a small geyser. We are getting near to Panama. Monday, February 25: The water has been beautiful today just like glass. I sleep on deck last night, so I woke up this morning about 3 o'clock, saw the Southern Cross for the first time. It doesn't

come up until about 1 a. m. If we keep on at this rate of speed, will get to Panama about Thursday noon. Tuesday, February 25:

A sad thing happened today. A flyer from one of the airplane carriers crashed. They were not able to find his body. They say the plane completely wrecked when he tried to change his course to keep from hitting the carrier. If he had hit the ship it would have been a tragedy, for going at his rate of speed he would have torn a hole in the ship. Wednesday, February 26:

A very nice day had a nice little tropical rain storm, was refreshing. Went up on the movie deck and played ball for a while this afternoon. Tonight ship put on a minstrel show, and it was a good show. I had no idea we had so much talent aboard. Thursday, February 27:

Well here we are at Panama. I am going to close this without trying to tell you anything of Balboa because I want to send it off on the first mail and I won't be ashore. But I have had a most marvelous trip. The water has been lovely and I was never in the least, sea sick, and there has been something to see every day. I only wish I could make it

Political Announcements

The Briscoe County News is authorized to announce the candidacy of the following persons for nomination to the office under which their names appear, subject to the action of the Democratic primaries this summer:

- For Judge 110th Judicial District: KENNETH BAIN
For District Attorney 110th Judicial District: A. J. FOLLEY

for Economical Transportation CHEVROLET Chevrolet announces A NEW SERVICE POLICY The Chevrolet Motor Company and its dealers are pleased to announce a new service policy—one of the most liberal ever offered on a low-priced automobile. Put into force as a written agreement given to the purchaser by the Chevrolet dealer when the car is delivered—it offers the following provisions: 1 Every Chevrolet owner receives his car from the dealer in perfect condition—thoroughly lubricated, properly adjusted, and ready to operate efficiently, from the first mile of ownership. 2 Every Chevrolet owner is entitled to free inspection and adjustment of his car at the end of the first 500 miles of usage. 3 Every Chevrolet owner is entitled to free inspection of his car every 1000 miles thereafter, so long as the car is in operation. 4 Every Chevrolet owner is entitled to free replacement of any part which may prove defective in workmanship or material, within the terms of Chevrolet's standard warranty. This includes both parts and labor. 5 Provision number 4 will be carried out by any Chevrolet dealer in the United States. As a result, the Chevrolet owner may travel to any part of the country, with assurance that the guarantee on materials and workmanship will remain in force. This new policy constitutes proof of Chevrolet's high quality—for such liberal provisions could only be made in connection with a car built of fine materials to exacting standards of workmanship. Back of this policy, and assuring its successful operation, is one of the most complete and efficient service organizations in the world. There are more than 10,000 Authorized Chevrolet Dealer Service Stations in the United States alone. Each employs skilled mechanics thoroughly trained at Chevrolet Service Schools. Each has specially designed tools and machinery developed exclusively for Chevrolet service work. And each has on hand, at all times, an adequate stock of genuine Chevrolet replacement parts. Chevrolet's flat-rate charges, including both parts and labor, are the lowest in the industry on many service operations! In considering the purchase of a low-priced automobile, think what this service means—in terms of lasting satisfaction, as well as in increased economy. Chevrolet cars range in price from \$495 up, f. o. b. factory, Flint, Michigan. CHEVROLET MOTOR COMPANY, DETROIT, MICHIGAN Division of General Motors Corporation A SIX IN THE PRICE RANGE OF THE FOUR

Miss Lura Gerdes Carnival Queen in Tullia High School

Miss Lura Gerdes of Tullia, granddaughter of Mr. and Mrs. Z. G. Fogerson, was voted queen by her high school mates recently, and a number of social affairs were planned in her honor. She is the only sophomore ever made queen at the school, and an elaborate coronation ceremonial will be held in May for her. The Hornet high school department of the Tullia Herald has this to say about the election: For the first time in the history of Tullia High School a Sophomore girl, Lura Gerdes, has been elected as the Carnival Queen to reign over lowly Freshmen, Sane Sophomores, hopeful Juniors, and dignified Seniors. Not only is she courageous and popular, but is very beautiful with her gray eyes, and golden curls. By the help of our class including sponsors, we are ready to enthrone our Lovely Sophomore.

Many Silvertown Ladies Attend District Meet

Those attending from Silvertown were Mes. M. C. Potter, Jeff Simpson, Chas. Cline, Lin Christopher, N. R. Honea, Robert Devin, R. M. Hill, Agnes Cozby, S. R. Turner, Ed Thomas, R. E. Douglas, Allday, C. R. Cowart, T. L. Miller, and Rev. and Mrs. Marvin Brotherton, and Mrs. T. M. Nichols.

Fourth Birthday Observed by Lou Ann Williamson

Mrs. J. H. Williamson entertained Wednesday afternoon at her home, celebrating the fourth birthday of her little daughter, Lou Ann. Attractive favors were given each child and tasty refreshments were served to the birthday group. The honoree, Lou Ann, was made glad with a number of gifts from those attending. Present for the afternoon's gay pleasures were Carl Dean Bomar, J. L. Brown, Nancy Neill, Helen Marie Davis, Jan Castleberry, Lola Fern Foust, Edwyn Coffee Martinez Cowart, Ben Simpson, Mary Sue Tipps, Bruce Carlsson, Jr., Glenn Hardy and M. G. Brotherton, and Lou Ann Williamson.

Family Turkey Dinner Served in Bundy Home

A lovely family dinner was served last Sunday in the O. T. Bundy home, with Mrs. Bundy as hostess to a number of guests. A baked turkey was the piece de resistance, and it was as large in proportion as the gracious hospitality of the host and hostess. The turkey weighed 26 pounds dressed, and the guests had no suitable scales of bounding the affableness of their entertainers. Present, beside the immediate family, were Mrs. Bundy's parents, Mr. and Mrs. J. W. Smiley, and their son James; Mr. and Mrs. Ben Smiley and children; Mr. and Mrs. L. W. Kiker and son, of Plainview; and Mr. and Mrs. Buck Russell of Quitaque.

FRANCIS Mrs. Johnie Young Correspondent

A little snow fell in this part Tuesday. A few farmers were kept out of the field on account of the cold weather. Mr. and Mrs. D. G. Joiner were dinner guests in the Alvin Dudley home Saturday. Mr. and Mrs. Jim Burleson left the first of the week for San Angelo. It is understood they were to attend a cattlemen Convention there. Mrs. W. N. Dunn was a business visitor in Silvertown Saturday. Mesdames W. E. Redin and Ione Brown were callers in the U. D. Brown home Sunday afternoon. Messrs P. D. Jasper and W. E. Redin motored to Friona last week to attend a religious discussion. They returned Saturday. Mr. and Mrs. John Tucker and family visited in the Johnie Young home Sunday. Carl Wimberly of Plainview was in this part Monday. Mrs. Alvin Redin gave a birthday dinner Sunday in honor of her father and mother. Mr. and Mrs. C. F. Joiner of Rock Creek and her brother, Paul Joiner of Plainview. The club will meet in the A. M. Allred home on Thursday, March 27. Mr. and Mrs. Raffety were callers in the W. W. Martin home Sunday.

Study Club Has Creole Stories For Subject

The 1925 Study Club, under direction of Mrs. J. E. Minyard, had for its subject Wednesday afternoon Creole Stories or Louisiana productions. Mrs. Minyard conducted the round table discussion of the adaptability of New Orleans life and atmosphere to fiction. Bits of Louisiana history were given by the members in answering the roll call. Mrs. O. R. Tipps read a paper on, "George W. Cable and his Creole Stories." A review of French literature of Louisiana was given by Mrs.

A. P. Dickenson, and Mrs. O. T. Bundy gave several selections from "Old Creole Days."

Contemporary poetry was selected as the course of study for the next club year. The quoted thought for the meeting was, "A cultivated mind is the guardian genius of democracy." At the meeting of March 5th a committee of Mrs. T. M. Nichols and Mrs. J. E. Minyard was appointed to handle the organization of a junior literary club. The committee reported Wednesday that the junior club had been organized with thirteen members, and the report was accepted. Uphold the law of your country.

Jeane Jackson Honored With Birthday Dinner

Mrs. Clifford Allard entertained in her home Sunday with a surprise birthday dinner for her sister, Miss Jeane Jackson. When the honoree returned home from church she found the table spread with a big dinner, which consisted mostly of a huge cake, all decorated with enough candles, though not too many. Besides the dinner which awaited her, she found several guests all decorated with smiles, not saying how hungry they were. More

guests arrived in time to take part in the dinner. Those present were Misses Stullie Lee Foust, Zollie Mae Bomar, Mikhael and Guy Davis, Robert Hill, and Clayton Bond from South Plains, besides Mr. and Mrs. Clifford Allard and family. A gay day was spent by all, and the guests departed wishing Jeane many more happy birthdays.

Go to Sunday School and Church Sunday

In seeking a new home no one would locate where there are no churches. The profound influence upon the integrity of a citizenship by the church, regardless of denomination or kind, Christian or so-called pagan, is recognized by even the atheist.

Silverton has four churches, and their doors are open to all who would come to their services. We have here the Presbyterian, First Baptist, Church of Christ, and the Methodist churches, with three resident pastors.

Sunday-School classes are held in these four churches each Sunday morning, where discussions are participated in, opening up avenues of thought that will build up the moral stamina of those who attend.

No better place can be found than the church house on Sunday. It is a fine thing to form the habit of going regularly. The main reason why any person, young or old, should go to the church of his or her choice on Sunday, at least to one service, is own personal benefit derived.

Self-interest is one of the chief motives actuated human beings, and if one would have a well-rounded self, equipped to get the best out of life, he should not overlook the church.

(NOTE: This is the fifth of a series of articles sponsored by this publication about Silverton institutions. These observations are contributed by the management and the pastors were not informed of this publication's intention in publishing the same.)

Contractors Consider Five Day Week Plan

Report On Union Demands at Annual Meeting of Texas Branch A. G. C.

A five day working week in the construction industries, asked by union organizations, will be seriously considered by the Texas Branch, Associated General Contractors at their annual convention in Fort Worth March 26 and 27.

Charles F. Law, of Beaumont, chairman of the committee on labor, declared that he will present this five day week program for discussion by the convention, showing the effect of increased labor and decreased volume of work on time of work on volume of building and on the employees themselves.

The five day week is now being considered in Houston among all major construction industries, except carpenters," Mr. Law said, "but there has not been enough time elapsed since its adoption to judge of the results of this change."

There will be presented a report on the current labor situation throughout the state and a comparison of Texas wage scales with those of other sections of the country.

One of the fundamental principles of the Texas contractors have always tried to keep in view is the fair wage given to the laborer, as well as the public who is paying the bills," according to E. A. Baugh, General Manager of the Texas Branch, A. G. C. "The contractors are merely fiscal agents and are desirous of operating on a basis that is profitable to all parties," he said. A large part of the convention will be based on the discussion of safety measures, labor standards, wages and other subjects of interest of laborers.

There will be four business meetings to which all persons interested are welcome. The convention will

ROCK CREEK Miss Jewell McCain Correspondent

Mr. and Mrs. I. O. Penn and Mrs. Red Diviney were called to the bedside of Mrs. Penn's and Mrs. Diviney's uncle, who is ill at Lubbock.

Mrs. C. M. Chappell's sister and husband, Mr. and Mrs. Daniel Bryant and her brother, Mr. Vardell of Oklahoma spent a few days with her.

Paul Reid spent Saturday night with Leon Martin.

Francis Jones spent Sunday with Anita Gardner.

Mr. and Mrs. John Tucker and Mrs. Green spent Sunday in the Johnnie Taylor home.

Mr. Cline spent Saturday night with Sarah Jane Cline.

The following took dinner in the McCain home. Miss Mildred McCain, Lazle Chappell, Earline and Robert Roberson, Jewell McCain, Mrs. and Dee Reid, John Earl and Leon McCain, Edd Spillman and Lee Vaughn.

Edward Truett Penn spent Saturday night with John Estell and Clifton McCain.

Mr. and Mrs. Gip Joiner spent Sunday in the Edwin Dudley home.

Coy Spillman spent Sunday with Leon McCain.

Mr. and Mrs. J. M. Clayton and children spent Sunday in the Merion Bradley home.

Mr. and Mrs. H. L. Rafferty and children spent Sunday afternoon in the W. W. McCain home.

Close with dinner for delegates at the Texas Hotel.

Although there will be a few talks by men outside of the industry the major part of the work will be committee reports and the determining of the general policy of the Association for the coming year. Among the subjects that will be discussed are legislation, accident prevention, credits, public relations, bidding practices, ethics of the profession, and the labor question.

Election of officers will take place early in the meeting. George Watson of Dallas is at present the president of the Association.

100 Per Cent Egg Production Had By Ware Fogerson

Ware Fogerson, son of Mr. and Mrs. W. W. Fogerson, may be what is commonly known as a town-boy but he has the country spirit, the spirit that has made America, and he wants to grow things.

One of the most successful projects in vocational agriculture conducted in the town limits of Silverton is that carried on by Ware. Last November he purchased 18 standard bred Rhode Island Red pullets and put them in his laying pen which he had built along with his poultry house. Within a few days the pullets began to lay, and recently he succeeded in getting 100 per cent egg production from them. Every pullet laid an egg one day, and several days he has come within one of the 100 per cent. In January he bought an excellent

male bird from Hereford to mate with his pullets, and now he is selling hatching eggs at a premium. Not only that but he has three of his pullets broody and with eggs from his own flock. It can be safely said that Ware has one of the best flocks in Briscoe county.

In addition to his excellent work in poultry, Ware is starting in the hog business. He bought a fine Poland-China gilt from T. J. Crags in the Rock Creek community. This gilt is bred to one of the finest males in the county. Ware's friends are predicting that he will have as much success with his hogs as he is now having with his chickens.

RUNS FROM WIFE AND ROBBER

Humboldt, Sask. — Stanley Kropka admitted to a coroner's jury that when he saw an armed man climb through a window of his house he broke and fled leaving his wife and baby at the mercy of the intruder. Later his wife was discovered slain.

Above twenty three tracts of land are all situated in Briscoe County, Texas. All the above described lands being fully described in that certain deed executed by J. W. Owens and wife, Florence A. Owens, dated January 2nd, 1929, of record in volume 58 pages 225 et sequa of Hall county, Texas, and in volume 24 pages 442 et sequa of Briscoe county, Texas, conveying said land to Slaughter Company, a corporation, as grantee.

That on January 1st, 1930 plaintiff and his cotenant Slaughter Co., a corporation were lawfully seized and possessed of said lands and upon said date defendants unlawfully entered upon and dispossessed him of said lands and with hold from him the possession thereof; and further alleging that defendants claim to own certain oil and mineral leases upon said lands which constitute a cloud upon plaintiffs title thereto, but that such leases have expired & are void, and have no foundation in fact, that defendants have made no development, nor paid rentals nor drilled any wells and praying for cancellation of said leases removal of cloud and for title and possession and alleging that plaintiff is the common source of title.

You are commanded to so summon such defendants, and to serve this citation by making publication thereof once in each week for four consecutive weeks in a newspaper published in your county.

Herein fail not, but have you before said court on the first day of the next term thereof, this writ, with your return thereon, showing how you have executed the same.

Given under my hand and seal of the District court of Briscoe county, Texas, at office in Silverton, Texas, this March 17 1930.

(SEAL) R. E. DOUGLAS, Clerk District Court, Briscoe County, Texas.

LOCALS

Ernest Puckett and Jim Whiteley of Earlimart, Cal., have moved back to Silverton, their former home.

Mrs. Eland Burson and Mrs. T. R. Whiteside were visitors in Lubbock Friday. They were accompanied home by Laverne Terrell. Mrs. Whiteside's niece who returned to Lubbock Sunday with the Misses Schott. Little Miss Laverne is a talented musician, having won second place in two entries, ensemble and solo, in the recent South Plains music festival held in Lubbock with pupils from the whole belt taking part.

Mr. and Mrs. W. Coffee, jr. were in Amarillo Sunday.

Mr. and Mrs. Earl Cowart of Amarillo were the guests of their relatives here Sunday. They were accompanied home by Mrs. P. E. C. Cowart who spent several days in her son's home.

Chester Strickland, principal of the grade school was a visitor in Quitaque Saturday.

Lee Wilkinson of Floydada, star radio carrier, was a guest of the Lions club Tuesday, where he proposed to stage an air circus for Trades Day.

W. J. Miller, editor of the Quitaque Post and stockholder in the Central Plains Publishing Company, was in Silverton Tuesday meeting the business men. He was also a guest at the Lions club luncheon.

Mr. and Mrs. S. Coffee are the guests this week of their daughter, Mrs. Walter Lee Bain.

Miss Rhea Alexander is confined to her home sick this week, unable to resume her studies in college at Canyon.

Mrs. T. M. Nichols left last Friday to attend the 20th convention of the Woman's Missionary Council at Amarillo.

Mrs. C. R. Gollihar and children and Mrs. Ben O. King, teachers in the high school, were in Quitaque Saturday visiting friends.

Mrs. Chas. Dickerson, Mrs. Bob Dickerson, and Mrs. Roy McMurtry went to Tulla last week to visit Mrs. Bruce Gerdes and Mrs. C. L. Smith.

Mr. and Mrs. M. G. Brotherton spent Monday and Tuesday in Amarillo attending the Council convention.

Keith Donnell of Canyon spent Sunday with her grandparents, Mr. and Mrs. A. P. Donnell.

Misses Kathleen and Gladys Smith-ee, home for the weekend from college in Canyon, motored to Quitaque Saturday.

Miss Margarette Dickenson, teacher of English in Canyon, spent the week end with her parents, Mr. and Mrs. A. P. Dickenson.

C. B. Shrewsbury, T. L. Anderson, A. J. Askey, Mr. and Mrs. J. H. McClendon, and Mrs. Clay Fowler attended the funeral of Mrs. Harrison Askey in Kress Wednesday. Mrs. Askey was sister-in-law of Mrs. McClendon and A. J. Askey.

Syres Puckett from the McMurtry ranch turned his car over returning from Colorado Tuesday of last week. Heavy snow was the cause of the accident. His mother was badly crippled. They had been to attend the funeral of Mrs. John McClendon.

Relatives of Hoysie McMurtry are grieved to learn that he is sick in Lubbock with scarlet fever.

Miss Martha King of the high school faculty spent the weekend with her parents in Wichita Falls.

Fifth Sunday Singing At Haylake March 30

The next regular Fifth Sunday singing convention will be held at Haylake Sunday, March 30, according to an announcement made by officials of the organization. W. T. Diviney is president and Mrs. W. W. Martin is secretary.

"Folks, it has been sometime since we have had a Fifth Sunday singing," states Mr. Diviney, "so let's all come out and help support it by bringing a few sandwiches."

Borger—Plans announced for erection of new \$15,000 Baptist Church edifice here.

If it's right, it can be done.

NORTH ROUTE

Mrs. Jea. Clayton
Correspondent

This section of the county received a fine rain last weekend which every one is mighty proud of.

Mr. and Mrs. J. N. Pitts spent Sunday in the Mark Morris home. Mrs. Morris continues no better of her illness.

Mr. and Mrs. Arthur Gregg spent the day Tuesday in the Fulton Gregg home of the Lakeview neighborhood.

J. C. Roper of this neighborhood spent the weekend with his parents. Mr. and Mrs. T. E. Roper of Childress last week.

Mr. and Mrs. H. L. Watkins and children, Miss Nita Jean and Valton, of Eldorado spent the week end with her parents, Mr. and Mrs. J. L. Watters here last week.

Mrs. J. L. Watters is on the sick list.

Mr. Tiner and family have moved here from Wilbarger county. Mr. Tiner bought the Pharr place 3 miles north of Silverton a few months ago and is now located here.

Mr. and Mrs. J. M. Clayton and family spent Sunday in the J. M. Bradley home of the Rock Creek community.

Lewis Johnson spent Monday night with Thomas Pharr of Silverton.

J. L. Watters returned home last Wednesday after several days traveling in the eastern towns.

Several of the junior boys of this neighborhood went to Quitaque and played basket ball last Friday night and was caught in the rain, returning to their homes Saturday.
