AGGIE BRIEFS

By Finley R. White

Just a few more days like the last two or three will cause the most of us to "shuck out" of those long handles" and too it will be goodbye to the greenbugs. This hot weather we're having is just too much for red flannels and green bugs.

Some damage is being reported from the ravages of the green bugs, but to date no one has complained of any material damage being done by the red flannels. Guess the boys are figuring on being out of those before it gets hot enough to make the red slip. The flannels can be controlled very easily, but the green bugs are hard to do anything with. The U. S. D. A. recommends that the volunteer small grains be destroyed before harvest and fall plowed. Clean cultivation is about the only way to control the green bugs. Lets all try that this summer and fall so we don't have the greenbugs' next year about time.

Poor Farmers
City folks look at farmers and wonder just what makes them look drawn and worried. The city folks think it is caused by hard work, but that's right where he's dead wrong. The honest work of a farmer doesn't make him look like he does. Honest work makes a man strong, brown and healthy. It makes a farmer look like he's been badly stayed with simple, honest work. He wants to know the answers to the following questions:

1. When will my "plow up" check get here?

2. How much cotton can I plant in 1938?

3. How long will the Federal Bank wait? And—

4. How much money can I borrow to make this year's crop on?

5. Now if I were smart enough to answer these four questions I believe Briscoe County would hire me as a Technical Advisor and not as a nurse for farmers. If I were going to guess at the above questions I'd start in like this:

1. "Plow up" checks for Briscoe County will reach here "some" after May 1st. No. 2. The amount of cotton you can plant in 1938 will depend upon the amount you have in cultivation, the history of your farm and the amount of cotton acres available in the County. The farm bill provides that the county shall receive a percentage of cotton which will be 60 per cent of the acreage planted to cotton in 1937 plus 60 per cent of the acres diverted from other uses under the 1937 Conservation Program. This does not mean each farmer will be allowed to plant as much as he planted in 1937 plus 60 per cent of what he planted. There is another "hook" which will get some farmers the percentage factor may keep individual farmers from planting his 60-60 per cent—but will raise other farmers above 60-60. There are two very definite limitations in the farm bill:

(A) Each cotton farmer is limited to a cotton acreage not more than 40 per cent of his cultivated land—or if he never has had more than 40 per cent of his land to cotton he only be permitted to plant the acreage that he shows to have planted and rented in 1935, 1936 or 1937. (B) Each farmer is limited to that regardless of how much cotton he has had in the past, he will not be allowed to plant more in 1938 than the county percentage factor will allow. Now, that's simple? 3. The Federal Bank will wait just as long as farmers make an honest effort to pay up. And 4. The amount of money you can borrow for the '38 will depend upon how well you have taken care of your past obligations and upon how much security you can put up.

5. The question I want answered after you have read the above "squib" is: Do you think I'll get the job as Technical Advisor—or something?

County Goes On The Air
The names of those who were to take part in the Radio Broadcast are the ones who are listed below: Clynell Hutsell, Lola Foust, W. H. Jackson, Jr., Hutsell, Red Divney, Wade, Earl Cantwell, Lee Deaven and Yours truly. (It is hoped that at least the families of the applicants will listen in on the broadcast.)

A broadcast is to be given KFYO in Lubbock, Friday, beginning at 1:30 and running for 15 minutes or until the broadcast gives us the "gong".

Friday morning—
Maybe, on second thought, allows better keep those long handles on yet awhile.—F.R.

Record Breaking Cold Wave Hits Briscoe Co.

NOTICE TO BIDDERS
"Bids will be received by Briscoe County, Texas at 10:00 o'clock A. M., on April 11, 1938 for the purchase of one Heavy Duty Diesel Motor Grader, and notice is hereby given that warrants will be issued in the maximum sum of \$6500.00, payable serially last maturity not later than April 15, 1950, bearing interest at the rate of 5 percent per annum, interest payable semi-annually. The right is reserved to reject any or all bids. W. Coffee, Jr., County Judge Briscoe County, Texas

METHODIST CHURCH

Do you know that a great meeting is now in progress in your own Methodist Church. The Rev. Harry S. Allen is doing the preaching, and when we say "doing it" we mean just that. Mr. Allen is a Georgian Born preacher, with all the fervency and zeal and conviction so often found in our Southern preachers. Great crowds are attending every service, and we are glad to say that many are "getting religion". It is years since such a spiritual awakening has come to Briscoe County, and we want everyone to share in it. Services are being held every morning and night. A cordial, nay, an urgent invitation is given you to attend. Below I list some of the subjects Mr. Allen hopes to present to us: "The Unpardonable Sin" what it is, and how anyone can tell if he has committed it. "A Bible hell and a Bible heaven". Regeneration. Restoration. The Second Coming of Christ. The liquor devil and what we should do with him. These are just a few of the thoughts the preacher wishes to bring to our attention. Do you like to sing? If you do you must attend these services. We are having some real, old-fashioned singing. Every night for about half an hour we sing. This alone is worth your while. I'll be seeing you in church. Everybody is going, so you had better join the parade.

1925 STUDY CLUB

The 1925 Study Club held its regular meeting with Mrs. Fred Lemons April 6.
The program, "Children of the Bible", which was led by Mrs. W. E. Sherman was as follows: Song, selected, Mrs. Bland Burson, Mrs. D. W. Cowart, and Mrs. W. Coffee Jr.; Samuel, Mrs. A. A. Peacock; Moses, Mrs. R. E. Dauglas; Joseph, Mrs. C. C. Blackwell; Jesus Christ, Mrs. J. E. Minyard.
The next meeting will be with Mrs. A. A. Peacock April 20.

SILVERTON IS BEING CLEANED UP THIS WEEK

Everyone has been busy this week cleaning up their lots and alleys and taking part in the State Clean Up Week. The city truck and city employees has been gathering trash and unsightly junk and hauling it off for citizens who will clean their property and pile it in an available place for the truck.
Friday is the last day that the trucks will haul, if it looks like at that time that most of the lots are cleaned up. If you haven't cleaned your place, gotten rid of rubbish and junk, do it now and the City will save you the expense of hauling it off.

GARDEN CLUB STARTS NEW YEAR IN CEMETERY WORK

The Garden Club, which has as its project, the upkeep of the Silverton Cemetery, has started work for the summer months. The Club members donate their time to the work, and lot owners help with the expense of hiring the caretaker, and so forth. Cards have been mailed out by Mrs. A. R. Northcutt, cemetery assessor, stating the amount assessed against each lot. The appearance of the cemetery will be greatly helped this year by your donation. If more convenient than mailing the money to Mrs. Northcutt, it may be left at the Bank Exchange, with Mrs. Bomar.
Mr. L. A. Tibbets is to be in active charge of the cemetery upkeep again this year.

Glance through the ads in this weeks paper. If your name is there, you can use it for a show ticket.

Abner Wimberly brought his farming equipment up to date this week when he purchased a new F-20 Farmall and 2-row cultivator from Tull Implement Company.

Fruit, Gardens, and Wheat Crops Sure To Be Damaged

A raging, dusting, biting North-er swept through the Panhandle of Texas late Wednesday afternoon, and continued throughout the night and showed no sign of abating at noon Thursday. In fact as this writer looks out the window at 10:00 Thursday morning snow is driving across the countable with a wind behind it that bids fair for a real old time blizzard—and it's the seventh of April.

The temperature dropped Wednesday night to twenty degrees or less. Flowers, clover, alfalfa, and all other plants showing an early growth were frozen down. Fruit is undoubtedly injured badly, and as for the wheat, which is rank for this time of the year, it remains to be seen. That which is far enough along to be going into the air, is bound to be injured to some extent. How much, depends upon the length of the cold spell.

Old timers here say that it is the hardest freeze this late in the season that they have ever seen. Several residents here even report frozen water pipes in their homes.

It's a great country, this Texas Panhandle—winter in the summer, and summer in the winter—and in spite of it all, it's still the greatest country in the world.

(Ed. note—This makes the second time that the wheat has been destroyed this year. First by green bugs, now by freeze, with the grasshoppers yet to come. When we lose it once more this year, a bumper crop is assured.)

SOCIAL SECURITY NEWS

Only a few of the persons in this territory who are eligible to file claims for lump-sum payments under provisions of the Social Security Act have done so, declared Dewey Reed, manager of the Amarillo office of the Social Security Board.

Lump-sum benefits are payable now to workers in covered employments who have reached the age of 65 since January 1, 1937. Lump-sum payment are being made to estates of covered workers who have died since December 31, 1936, and before reaching age 65. The payment in either case is 3½ per cent of the wages received for work performed in covered employment since December 31, 1936, and prior to death or attainment of age 65.

Employers are requested to check their records to ascertain whether or not there are persons in their employ who may be eligible to file for such benefits. Many persons who have reached the age of 65, and particularly relatives of workers who have died, are not aware of their eligibility to file claims, and suggested that employers assist them by advising them of potential benefits to which they may be entitled.

Beginning in 1942, monthly retirement benefits will be paid to qualified workers upon attainment of age 65. The amount of such payments will be based on the wages received by the individual from employment covered by the Social Security Act since December 31, 1936, and prior to attainment of age 65. In order to qualify for a monthly retirement benefit, an individual must have worked in covered employment in each of five calendar years after 1936, and prior to attainment of age 65, and have earned a total of \$2,000 from such employment.

For the benefit of those who have not yet established social security accounts, account numbers may now be obtained upon application to the Amarillo office, located at 6th and Polk, Amarillo. The public is invited to make use of the facilities of the Amarillo office, which has been set up for the convenience of employers and workers in this territory. Those desiring to file claims also were requested to communicate with the office at Amarillo.

Mesdames Joe Ed Burleson, Maurice Foust, A. L. McMurtry, and Roberta McMurtry made a trip to Amarillo Monday of this week.

Mr. and Mrs. Howard Cash and Mesdames Coy Chappell and Woodrow Wilson attended the Style Show in Lubbock Thursday night of last week.

ELECTION

The school and city election held Saturday and Tuesday were very poorly attended by the voters. The school election drew 156 voters and the city election polled less than 50.

The results of the school trustee election follow:

Homer Sanders	111
Fred Lemons	105
W. N. Dunn	50
Joe H. Smith	48

At a meeting of the board of trustees Monday night W. W. Martin was elected chairman; and Fred Lemons as secretary.

The result of the city election is shown as follows:

For Mayor:	
Tom Bomar	46
(no opposition)	

For Councilmen:

R. E. Brookshier	29
Ben. O. King	27
Roy Hahn	26
Looe Miller	26
C. B. Shrewsbury	18

C. B. Shrewsbury was in charge of the school election and C. D. Wright presided over the city election.

SILVERTON ICE PLANT OPENS FOR SUMMER RUN

The Silverton Ice Plant equipment has been completely torn down, and repaired and remodeled throughout, in preparation for the summer's run of business. The first ice will be taken out on Friday of this week and by Saturday will be running to full capacity.

The plant is owned by Bert Northcutt, who for the past season has had it leased out. This year though, Mr. Northcutt announces that he will be in charge of the plant personally and that he feels that he will be better able to serve you by being on the job himself. Delivery service starts Monday.

Mr. and Mrs. Tim Moore and children and Dean Moore were here Sunday night, where they took dinner with Mrs. Moore's father, I. S. Bogey. Dean Moore has recently come from California to take charge of the Farmers Food Store at Quitaque.

Mrs. Ben O. King has been confined to her home for several days this week. She is having trouble recovering from an attack of flu several weeks ago.

Zell Bromley and Mr. and Mrs. Dean Allard and Billy Don Stevenson were in Amarillo Wednesday where the Allards will spend several days. Mrs. Bromley returned home to Silverton. The Allards will also visit in Sunday with Mr. and Mrs. Willie Blackcastle.

Misses Alma Ruth Thompson and Mildred Bean spent the week end with home folks.

PROCLAMATION

Calling upon all citizens of Texas to cooperate in the Campaign to wipe out tuberculosis, Governor James V. Allred today issued the following proclamation in connection with the eleventh Early Diagnosis Campaign of the national, state and local tuberculosis associations:

"WHEREAS, the prevalence of tuberculosis goes back to the individual—man, woman or child—as the key person in the prevention and in the eventual elimination of the disease; and

WHEREAS, the entire campaign against tuberculosis would make greater headway if each individual, rich and poor, urbanite and ruralite, young and old, would regard it as his individual responsibility to know how he, his family and his community stand in relation to tuberculosis; and

WHEREAS, the Texas Tuberculosis Association, during the month of April, will sponsor an educational campaign emphasizing the responsibility of the individual to ascertain that he and his family are free from tuberculosis disease; that community facilities are available for the discovery of early cases; and that "open" cases of tuberculosis are properly isolated and treated until they become non-infectious;

NOW, THEREFORE, I, JAMES V. ALLRED, Governor of the State of Texas, do hereby proclaim the month of April, 1938, as FIGHT TUBERCULOSIS MONTH in Texas, and urge every man, woman and child of the State to learn the basic facts about this disease, and its prevention, and to cooperate in the state-wide effort to eradicate it from within our borders."

Farm Income Higher

Recession fears may be partly quieted by the quotation of farm income figures for January of this year, which showed a nine per cent increase over January of last year. In other words, the computed farm cash income of Texas for January, 1938, was \$21,500,000 compared with \$19,750,000 in 1937.

Track Meet Goes To Silverton High Again

"READ THE ADS" TICKETS ARE GIVEN AGAIN

Are you reading the ads? Last week we told you how you could get free show tickets just by finding your name in the ads, and twenty-five names were dropped around here and there in the ads, each one good for a ticket. This week we are doing the same thing again.

But watch out. They are not going to be so bad this week but after this they are going to be harder to find. But the names will be there, somewhere.

Don't forget that while you are looking for your name to really read the ads. Find out what your merchant friends are offering you. You'll really find that reading ads is interesting, as well as profitable. Remember the tickets must be used within a week from the time the paper is out.

FIRST BAPTIST CHURCH

The enlarged organization of the First Baptist Sunday School which was put into effect last Sunday started off fine.

Practically all of the officers and teachers were present and soon found their places with their new classes, and all teachers and pupils seem to be happy in their work. And again we want to say we appreciate the continued beautiful spirit and cooperation manifested by all.

Now which class that has been divided, will be the first to have as many as the class had before it was divided? It will be interesting to see will it not? We know of an adult class that has furnished many teachers that is hoping to be that class. Well, here is hoping! But we are sure some other classes will give them a good race in that friendly contest. May the Lord help us to reach more people, old and young and by His Grace and help and word be a greater blessing to each other, our community and His Kingdom. Officers, teachers, pastor and pupils, we trust, will do what we can that this may be true.

Again Mother and Daddy, we are doing what we can to be a help to your home. If you are not in Sunday School elsewhere, get the family up a little earlier next Sunday morning and come with us. We are sure you will find a cordial welcome and fellowship awaiting you here. We feel sure you will say it was good to be at the house of the Lord in worship with His brethren.

Also remember the Methodist Revival which is starting off so well. We are happy they have been able to secure an Evangelist like Brother Allen. If you have not heard him, come and hear him every opportunity you have. And pray much for him and each other that there may be a revival that shall reach our unsaved for our Lord.

May we ask also an interest in your prayers for the meeting to begin at the First Baptist Church on Easter Sunday. Tell your friends.

W. H. Jackson, Pastor

Mr. and Mrs. W. E. Brown, Alivida Brown and Allen Brown of Lamesa, Texas were visitors at Mr. and Mrs. Bruce Womack's Tuesday and Wednesday. Mrs. Brown is Mrs. Womack's sister.

Misses Johnnie Womack, Eloise and Eva Lee Young, who are student at C. I. A., at Denton, were guests of Mr. and Mrs. Bruce Womack and family Monday.

Mrs. Fred Lemons visited her parents in Plainview last Saturday. Mrs. Lemons' father has been sick for some time.

J. W. Kent, Ray Morris and M. Richey from the J. A. Ranch were in town Tuesday of this week attending to some business.

Mr. and Mrs. Bob Stevenson returned last week from Hot Springs, N. M. where they have been on a vacation.

Mr. and Mrs. Shaffer of Teline are visiting with their son I. F. Shaffer and family.

C. P. Warden, Constable of Turkey, was transacting business here Tuesday.

C. A. Russell from Turkey was in town Tuesday of this week. He stated that the oil well was down about 1600 feet and that quite a bit of interest was shown in it.

Bob Miller from Claude who is in charge of the Tax Survey Program over this county, was working here Tuesday. Miss Doris Kirk assisted him in his work.

Mrs. J. M. Thompson, Mrs. Ira Bean and Mrs. F. M. Autry were in Canyon Monday evening.

Sixth Consecutive Win For Silverton School

Silverton High School again won first place in the County Meet, which was held here Friday and Saturday. In events run off up to date the Silverton score was 228, and Quitaque 141. The soft ball contests have not been held as yet, but the points given for the winner of that sport will not overcome the Silverton lead, even if it is won by Quitaque. From information available, this makes at least the sixth consecutive win for this school.

Lack of space prevents the listing of all events, but Senior Track and Field Events went as follows:

120 yd. High Hurdles, 1st, Powell, Quitaque, 2nd, Simmons, Silverton, 3rd, Grundy, Quitaque.
100 yd. Dash, 1st, Brooks, Silverton; 2nd, Dorsey, Quitaque, 3rd, Gregg, Silverton.
220 Low Hurdles, 1st, Gregg, Silverton; 2nd, Lee Silverton; 3rd, King, Quitaque.

SILVERTON JUNIORS WIN With O. C. Rampley as the main star, Silverton Juniors rolled up 44 points to Quitaque's 16. O. C. Rampley won more points individually than did the entire Quitaque team.

440 yd. Dash, 1st, Powell, Quitaque; 2nd, Perry, Silverton; 3rd, Starkey, Quitaque.
220 yd. Dash, 1st, Dorsey, Quitaque; 2nd, Brooks, Silverton; 3rd, Gregg, Silverton.
880 yd. Dash, 1st, Simmons, Silverton; 2nd, Perry Silverton; 3rd, Cuppell, Quitaque.
Pole Vault, 1st and 2nd, Williamson, Silverton; and Rhoderick, Quitaque, (tie); 3rd, Bogan, Quitaque.
1 Mile Run, 1st, Hall, Quitaque; 2nd, Allen, Silverton.
1 Mile Relay, 1st Silverton. (Perry, Lee, Brooks, Simmons.)
High Jump, 1st, Lee, Silverton; 2nd, Powell, Quitaque; 3rd, Allen, Silverton.
Broad Jump, 1st, Powell, Quitaque; 2nd, Dorsey, Quitaque; 3rd, Lee, Silverton.
Discus, 1st, Starkey, Quitaque; 2nd, Olive, Silverton; 3rd, Rhoderick, Quitaque.
Shot Put, 1st, Starkey, Quitaque; 2nd, Hutchinson, Quitaque; 3rd, Bradley, Silverton.
Javelin Throw, 1st, Simmons, Silverton; 2nd, Gregg, Silverton; 3rd, Starkey, Quitaque.

There seems to be some doubt as to the winner of the Rural School Meet, and no official announcement has been made, as yet as to the winner.

MR. AND MRS. STRICKLAND ENTERTAIN WITH 42 PARTY

Mr. and Mrs. C. M. Strickland entertained a number of their friends on last Thursday with a 42 party at their home 4 miles north of town. Decoration and favors were in keeping with the Easter season. Five tables were in play. After a number of lively games a delicious refreshment plate consisting of Angel Food cake and Ice Cream was served to Mr. and Mrs. John Fisher, Mr. and Mrs. W. E. Sherman, Mr. and Mrs. W. Coffee, Mr. and Mrs. R. E. Douglas, Mr. and Mrs. F. R. White, Mr. and Mrs. Lem Weaver, Mr. and Mrs. Homer Williamson, Mr. and Mrs. Looe Miller, and Mr. and Mrs. Edd Thomas.

CIRCLE NUMBER ONE

Circle No. 1 of the Methodist Missionary Society will meet April 14 at the home of Mrs. Roy Hahn.

HARMONY CLUB MEETING

The Harmony Club will hold their April meeting at the home of Mrs. Bland Burson Wednesday, April 13. Mrs. Theron Crass will be the leader for the afternoon program.

CIVIL SERVICE EXAMINATIONS ANNOUNCED

The United States Civil Service Commission has announced open competitive examinations for the following positions in the Department of Agriculture:

Junior agronomist, junior animal fiber technologist, junior in animal nutrition, junior biologist (wildlife research), junior entomologist, junior enomological inspector, junior plant pathological inspector, junior poultry physiologist, and junior soil surveyor. The entrance salary is \$2,000 a year less a retirement deduction of 3½ percent. Applicant must have completed a 4-year college course with studies in the field in which they apply, except that under certain specified conditions, applications will be accepted from senior students.

Full information may be obtained from the Secretary of the United States Civil Service Board of Examiners, at the post office or customhouse in any city which has a post office of the first or second class, or from the United States Civil Service Commission, Washington, D. C.

Mr. and Mrs. Tipp Kendrick and Mr. and Mrs. Ernest Kendrick visited here last Sunday with their parents, Mr. and Mrs. J. W. Kendrick.

CALVARY BAPTIST CHURCH

B. P. Harrison, Pastor
Regular Sunday Services
Sunday School 10 a. m.
Preaching Service 11 a. m.
B. T. U. 7 p. m.
Evening Service 8 p. m.
Mid-week service every Wednesday evening at 7:30

News Bits

From Neighboring Towns

Robs Court House

The safe from the tax collector's office, was stolen from the Lamb County Court House last Wednesday night. The burglars entered through a window, and rolled the safe out through the back door which was pried open. The safe contained \$2,500, according to the Hale Center American.

Children Locked In Vault

Tommy and Dan Goodson, of the Cone Community near Ralls, narrowly escaped death when they were locked in a small ice vault by a practical joker. The vault could not be opened from the inside, and a physician told the Ralls Banner that the children could have survived only a very few minutes longer.

New Fire Truck

The City of Turkey has purchased a new fire truck which will be delivered this week, according to the Enterprise. It is said to be one of the most efficient in this section of the state.

Two Bridges Promised

Judge McCasland, of Swisher County, received word last week from the State Highway Department, stating that the bridges across the Tule Creek, and an additional bridge six miles east of Tulia will be constructed. The cost of the bridges will be \$18,000 and \$15,000 respectively, says the Tulia Herald. The Highway Department reported also that they are very desirous of completing the hard surfacing of Highway 86, as soon as possible.

New Stadium

Work will be started April 8 on a new High School stadium for Memphis, according to the Democrat. The cost will be \$5,000, with WPA bearing the most of the expense. The bleachers will be made of concrete and the project will be complete by July 1.

Believe It Or Not

The Donkey County Leader lists a believe-it-or-not for farmers, when it tells of finding a Jersey calf sucking a Poland China sow on a farm near Crosbyton last week. The editor fails to state what brand they were drinking.

CIRCLE NUMBER ONE

Circle No. 1 of the Methodist Missionary Society will meet April 14 at the home of Mrs. Roy Hahn.

HARMONY CLUB MEETING

The Harmony Club will hold their April meeting at the home of Mrs. Bland Burson Wednesday, April 13. Mrs. Theron Crass will be the leader for the afternoon program.

CLASSIFIED DEPARTMENT

SEEDS

Yellow surecraoper seed corn, State Certified, bred by the Texas Experiment Station, kernels machine graded, \$1.50 per bu. f.o.b. A. T. CHISHOLM, College Station, Texas.

Filet Crochet for All to Admire

"Such lovely lace!" your friends will exclaim and they'll never guess how little it cost! You'll want to gather up crochet hook and some string and begin at once on this charming chair or buffet set and pillow to match. Quickly and easily done in filet crochet, the peacocks and roses are prettily "set off" by an open mesh. Practical—lasting—equisite, the chairback may be repeated and used as scarf ends. They all make splendid gifts. In pattern 3973 you will find complete instructions and charts for making the set and pillow top shown; illustrations of all stitches used; material requirements.

To obtain this pattern send 15 cents in stamps or coins (coins preferred) to The Sewing Circle, 259 W. 14th St., New York City.

ARE YOU ONLY A 3/4 WIFE?

Men can never understand a three-quarter wife—a wife who is lovable for three weeks of the month—but a hell-on the fourth. No matter how your back aches—no matter how loudly your nerves scream—don't take it out on your husband. For three generations one woman has told another how to get "smiling through" with Lydia E. Pinkham's Vegetable Compound. It helps Nature take up the system, thus lessening the discomforts from the functional disorders which women must endure. Make a note NOW to get a bottle of Pinkham's today WITHOUT FAIL from your druggist—more than a million women have written in letters reporting benefit. Why not try LYDIA E. PINKHAM'S VEGETABLE COMPOUND?

Rarer Yet "As rare as is true love, true friendship is rarer."—LaFontaine.

MOROLINE FOR CUTS

The Will to Do Great souls have wills, feeble ones have only wishes.

DOG'S "BLACK LEAF 40"

Keeps Dogs Away from Evergreens, Shrubs etc. Use 1/4 Teaspoonful per Gallon of Spray.

Vital Power

If sincerity is loss of vital C. N. Bovee.

Cleanse Internally

Why let constipation hold you back? Feel your best, look your best—cleanse internally the easy tea-cup way. GARDNER'S FIELD TEA is not a miracle worker, but a week of this "internal beauty treatment" will astonish you. Begin tonight. SYN, N. Y. (At your drug store)

WATCH YOUR KIDNEYS!

Help Them Cleanse the Blood of Harmful Body Waste Your kidneys are constantly filtering waste matter from the blood stream. But kidneys sometimes lag in their work—do not act as Nature intended—fail to remove impurities that, if retained, may poison the system and upset the whole body machinery. Symptoms may be nagging backache, persistent headache, attacks of dizziness, getting up nights, swelling, puffiness under the eyes—a feeling of nervous anxiety and loss of pep and strength. Other signs of kidney or bladder disorder may be burning, scanty or too frequent urination. There should be no doubt that prompt treatment is wiser than neglect. Use Doan's Pills. Doan's have been winning new friends for more than forty years. They have a nationwide reputation. Are recommended by grateful people the country over. Ask your neighbor!

DOAN'S PILLS

SUNDAY SCHOOL LESSON

By REV. HAROLD L. LUNDQUIST, Dean of the Moody Bible Institute of Chicago. © Western Newspaper Union.

Lesson for April 10 FINDING OURSELVES IN SERVICE

LESSON TEXT—Mark 8:27-38. GOLDEN TEXT—"What shall it profit a man, if he shall gain the whole world, and lose his own soul?"—Mark 8:36. PRIMARY TOPIC—What Peter Found Out. JUNIOR TOPIC—Peter's Right Answer. INTERMEDIATE AND SENIOR TOPIC—Making Life Count Through Service. YOUNG PEOPLE AND ADULT TOPIC—Finding the Richest Life Through Service.

"Finding ourselves" seems like a singular, almost self-contradictory expression, but it refers to a sound principle recognized by psychologists as well as spiritual leaders. As a matter of fact, modern psychology has begun to recognize and use spiritual laws and principles which alone bring about human happiness and efficiency. Too frequently this borrowing from Christianity is only a recognition of principles while denying the power of God, but at least it indicates that those who have contended that the best place to learn psychology is in the Bible with the Holy Spirit as the teacher were right.

A word of warning—let no one who studies this lesson fall into the serious error of thinking that some formal religious service will bring redemption and favor with God. We are saved by grace through faith in the Lord Jesus Christ—"not of works, lest any man should boast." It is then by the new birth that we are "created in Christ Jesus unto good works which God hath before ordained that we should walk in them" (Eph. 2:8-10).

It is the Christian who needs to "find himself in service." Only as he thus yields to Christ does he really find the life worth living. The words of Jesus in verse 35 of our lesson are solemnly and gloriously true. If you save your life for yourself it will wither and die in your hands, but if you give it to Christ He will return it to you glorified.

L. Clear Confession (vv. 27-30). Even those who deny to our Christ the recognition of His deity, and the devotion of life which is His just due, must, if they are at all intelligent, admit that no man ever lived who has made such an impact on human history. Even in the days of his life on earth those who did not accept Him as Christ regarded Him as the resurrected form of one of the nation's greatest leaders. Now unbelieving men speak of Him as the great founder of Christianity, a mighty leader, a wonderful example, or an unequalled teacher. It is not enough that we stand with the mass of humanity who may thus admire Him, but who do not count Him as Saviour and Lord. The question comes to us as it did to the disciples, "Whom say ye that I am?" "Thou art the Christ"—this alone suffices as the foundation for Christian testimony and conduct.

II. Corrected Error (vv. 31-33). Although Jesus was not yet ready to have His Messiahship proclaimed to the public, He was prepared to teach His disciples concerning not only that important truth, but of His rejection and death. "He began to teach them that the Son of man must suffer . . . be rejected . . . killed and . . . rise again." Note the divine "must." While it is true that wicked men showed their hostility toward our God and His Christ by hanging Him on Calvary's cross, yet it was to die for our sins that He came into the world. The cross has rightly come to represent God's love to the world rather than man's hostility to God. Error now asserts itself, and strangely enough it is the very one who had the clearest grasp of the truth regarding the Messiahship of Christ and boldly expressed it who now objects to the revelation of the coming death and resurrection of Christ, and lends his voice to rebuke the Master for speaking of it. Satan hates the cross and the open grave. Jesus won the victory over him there. He did not want to hear of it before it took place and used impulsive Peter for a mouthpiece to object. He doesn't want to hear about it now and uses many a skillful and gifted preacher to speak against it. "The offense of the cross" (Gal. 5:11) has never ceased.

III. Consecrated Life and Service (vv. 34-38). "Let him deny himself" (v. 34). That command we have construed to mean that we should perform little acts of self-denial, foregoing some comfort or pleasure, possibly for a few weeks. It does not mean that at all—but does mean the renouncing of self and self-will, and a complete yielding to God's will. Likewise, to take up one's cross does not mean to bear some of life's little disagreeable experiences; it means again to die to self and to live for Christ. Careful attention should be given to the solemn questions asked and statements made in verses 35-37. These are not the reasonings of a man—they fall from the lips of the Son of God. What, He asks you, will you give in exchange for your soul?

Fun for the Whole Family

THE FEATHERHEADS By Osborne

S'MATTER POP— Or, When He Goes on a Diet

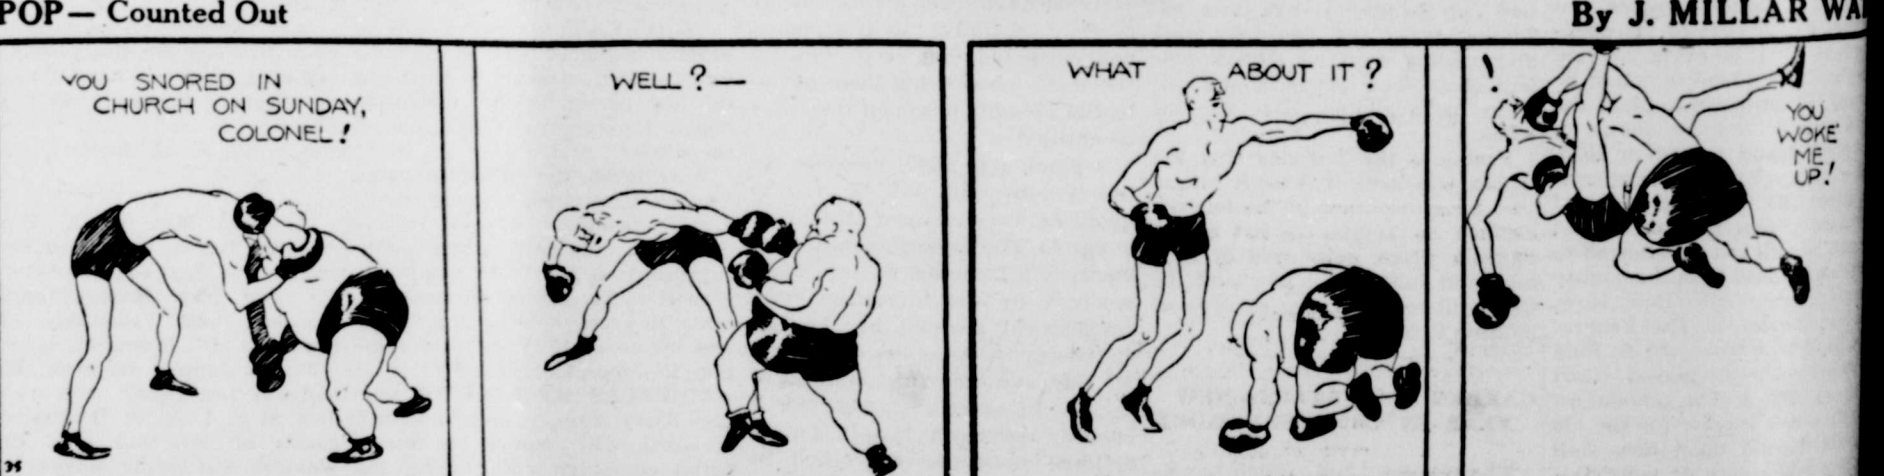

MESCAL IKE By S. L. HUNTLEY

FINNEY OF THE FORCE By Ted O'Loughlin

POP— Counted Out

SMALL BOY AT THE MOVIES By GLUYAS WILLIAMS

SOME DILEMMA

"I'm in a terrible difficulty over my girl."
"What's wrong?"
"I've been saying such nice things that she's getting conceited. If I quit she'll think I don't care for her any longer; and if I go on she'll think she's too good for me."

MUSIC NOTES

"What is your occupation?"
"I used to be an organist."
"And why did you give it up?"
"The monkey died."
Not in Control
Policeman—How did the accident happen?
Motorist—My wife fell asleep in the back seat.

TIT FOR TAT

Two men were quarreling.
"Yer lanky strip," yelled the minutive one, "if yer tied in a knot yer wouldn't be a chap."
"And you," retorted the other, "if you were to pull socks up you'd be blind!"
Chicago Daily News.

"It's Better!"—say Millions about Pepsodent with IRIDIUM
BOTH Pepsodent Tooth Paste and Powder contain marvelous Iridium
Millions everywhere are singing the praises of Pepsodent containing Iridium to get teeth far brighter!
It is wonderful Iridium that helps Pepsodent gently brush away stubborn, clinging surface-stains that hide the natural brilliance of your teeth... just as a cloud will hide the light of the sun, with these ugly surface-stains your teeth reveal the lovely, natural radiance they naturally should have. And Pepsodent with Iridium SAFELY—because it contains BLEACH, NO GRIT, NO CORROSIVES.

STAR DUST

Movie • Radio
By VIRGINIA VALE

LIVIA SIDNEY has just finished a picture called "Land Me" with George and Me, for Paramount, but not much interested in that is, not so much as in several other things. Her house has just bought in Jersey, near Flemington, for \$100,000. It's very old, and she is the usual trouble with remodeling, which never goes fast. But she's also having adventures with it.

Instance, some 12 coats of lead had been put on the dining room during all the years—and they were removed beautiful fine paneling was discovered.

Moreover, the land is good farming land, one hundred and six acres of it; grows good crops of wheat, oats and alfalfa.

She has formally adopted the four-year-old girl who has been living with her for the last year. She took the child from the orphanage.

Irene Dunne

York Foundling hospital, not the Cradle, in Chicago, which is the fashionable place to get a child.

Arthur is coming back to screen, after a year's absence to her private battle with Columbia. She's been vacationing in the South, but will go to work soon on the screen version of "You Can't Get It With You," the delightful comedy which has been having such a run on the New York stage.

Autrey is another star who has been having difficulties with his studio. In his case it was just a matter of money.

Remember the fuss when John Thomas refused to broadcast if he couldn't finish with "Good Night, Mother"? Well, that same Thomas is now bobbing up on the screen with McGee and Molly program, and the rules of the broadcasting company were broken.

McGee was ending with "Good Night, Molly," and was told he shouldn't do any more. But—"Molly" is the name of a character in the show, explained the sponsors, so naturally logically belong there. In the picture, "Molly" is the wife of Jordan, the man who plays McGee, and is just returning from a long illness.

When the Radio City Music Hall in New York holds a picture for a week you can be pretty certain that the picture's a success, one that you'll want to see. "Molly" made the grade recently.

Dolores Del Rio returned home from Morocco, and got a lot of souvenirs—time, jewelry, places, leaving her in Spain, where she had a lot of old friends and acquired a lot of new clothes.

Dolores Del Rio

quarreling trip," yelled "if yer tied up wouldn't be blimmed."

DDSDS AND ENDS . . . Cary Grant a novel presents the other day—a old-fashioned cough medicine, which he sadly needed, from Katherine Burns . . . Bette Davis entertained Roosevelt at Clara Bow's "11" . . . The blondes led in the 1937 clarity poll conducted by the Motion Picture Herald, a trade paper for actors . . . Rosalind Russell gets Crawford's role in "Shop Worn" because Joan didn't like it . . . Spencer Tracy's popularity is now on a par with Clark Gable and Robert Taylor . . . And Franchot Tone will work together Northwest Passage . . . Allen Jones and his wife picked Mexico City for their vacation . . . "Scaramouche" is screened again . . . So will "The Wolf" for the third time.

Million Powder

Servants in 'After Life'

Picture Parade

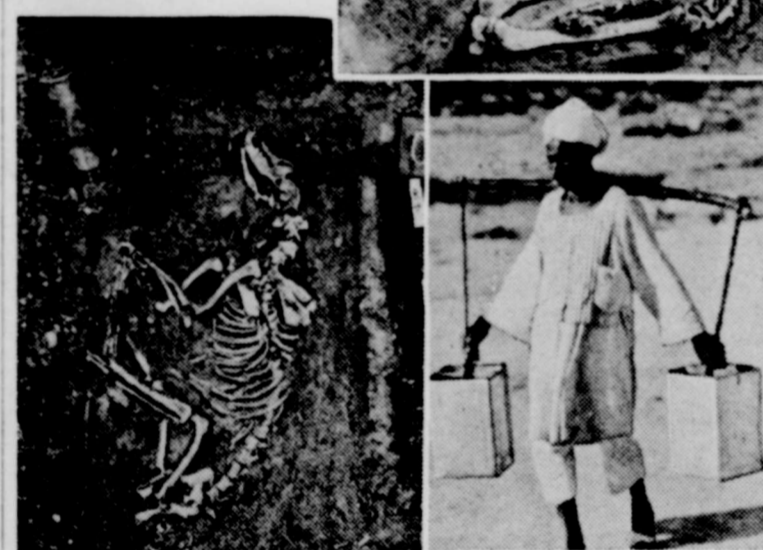

Not since the great King "Tut" was removed from his grave has the little world of excavators been so excited. In Egypt the government's department of antiquities has made investigations at Saqqara, uncovering the tomb of the wealthy, Vizier Hewaka.

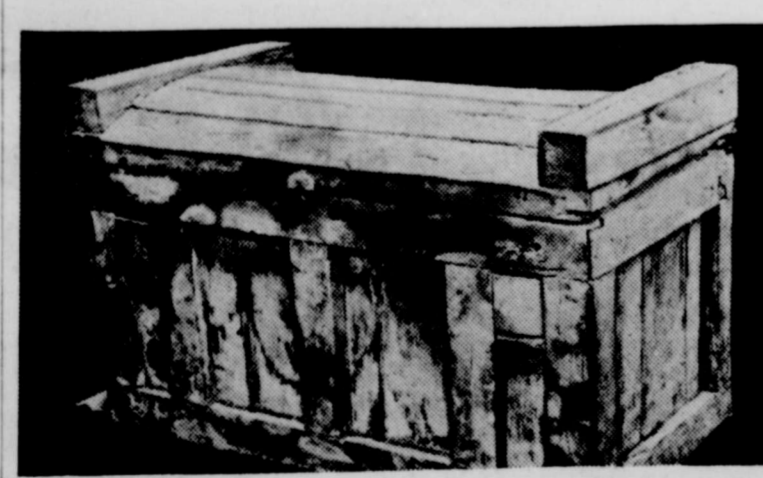

Plaques and carvings, always interesting because they tell a story when un-coded, were photographed carefully by the expedition's cameraman, then stowed away for future examination.

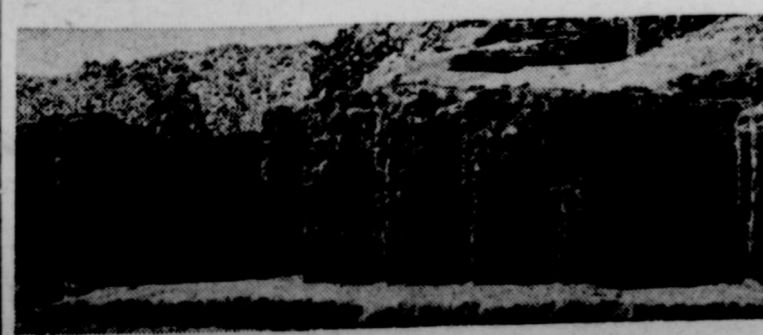

Shocked excavators were much more interested to discover that nine servants, three pet birds and seven dogs were slain when Vizier Hewaka died, and were placed in his tomb to "serve him in after life." Under the direction of Zaki Saad Eff, expedition leader, 18 small rectangular graves were unearthed, 14 of them in perfect condition. Nine of the graves were like that at the right.

Around each man's body had been placed pottery vases, believed to have contained some kind of drink. Two smaller vases and ten cylindrical containers which may have been cups, completed the "after life" equipment. Five of the bodies were found with pottery bearing inscriptions mentioning the name of the fruit or grain each contained. Zaki Saad Eff is commanding a large expedition at the excavations, among them many superstitious natives (above right) who prefer servant tasks to meddling with the tombs of their forefathers.

The birds were buried more carefully than the servants, each being placed in a separate coffin and wrapped in linen. The coffin containing the largest bird (above) was inlaid with a remarkable pattern of ivory and ebony. Since it is impossible to believe that so many people and animals connected with the household could have died simultaneously of natural causes, today's explorers readily confess that the only explanation is a mass slaughter which followed the death of every rich man. The master needed their services and company after death just as he did during life on earth—that, at least, was the popular belief.

The tomb where wealthy Vizier Hewaka was buried

Sugar a Valuable Addition to Diet

Used With Other Foods It Is Quickly Absorbed

By EDITH M. BARBER
LIKE starch, sugar is valuable in the diet because of its fuel value, which gives us a source of energy. Although they are much alike in composition, starch is bland in flavor, while sugar is sweet. Sugars vary, however, in this respect. Honey, corn syrup and molasses, for instance, are not so intensely sweet as are maple, cane and beet sugars. Certain vegetables and fruits, while unripe, provide starch which as they mature changes to sugar.

Early man took most of his sugar from the wild fruits and from the honey which the bees manufactured for him. In tropical countries, where sugar cane was to be found, the stalks furnished a sort of sweet-meat. It is, however, only a comparatively short time in the history of the world since sugar, as we know it, was manufactured, first from the sugar cane and then from the beet. At first it was indeed a luxury, although, perhaps, no one now living can remember a time when sugar was not one of our cheapest foods.

Although we think of it more as a flavoring than as a food, it provides us with a goodly share of the calories which we need for our daily activities. Used properly in combination with other foods, or as a confection to be taken at the end of a meal, it makes a valuable contribution to the adequate diet. Sugar, however, should not be allowed to replace other foods. As it is, however, so quickly and easily absorbed, there are occasions when nothing in our range of foods can equal it.

Maple Pudding.

4 tablespoons cornstarch
1/2 cup cold water
1 tablespoon sugar
1 pint scalded milk
1/4 cup maple syrup
1 egg white
1/2 cup nuts

Mix cornstarch with cold water; add to scalded milk. Stir until smooth; add the sugar, milk and syrup. Cook 15 minutes. Remove from stove and add nuts. Fold in stiffly beaten egg white. Serve with custard sauce or whipped cream.

Confectioner's Frosting.

2 cups confectioner's sugar
3 tablespoons hot milk or cream
1 teaspoon butter, softened
1 teaspoon flavoring

Sift the sugar and add the milk all at one time, then the butter and flavoring and beat until cool. More milk may be added if necessary. One square of chocolate may be melted and added if desired.

Quick Honey Marmalade.

Plunge dried apricots into hot water. Drain and run through food grinder, using fine knife. To each cup of ground apricots add 1 1/2 cups strained honey. Blend well. Store in clean, hot jars at least two weeks.

Fudge.

2 squares chocolate
1/2 cup cold water
2 cups granulated sugar
1/2 cup milk

Cut the chocolate into five or six pieces and put with the cold water into a heavy saucepan. Stir over a low fire until the chocolate is melted. Stir in the sugar and add the milk. Stir over the fire until the sugar is dissolved. Boil over a medium flame until the thermometer reads 228 degrees Fahrenheit or until a soft ball will form when a little of the candy is dropped into cold water. Place pan in cold water and cool to 110 degrees Fahrenheit or until lukewarm. Stir until it begins to thicken and lose its shine. Pour into a wet pan. Cool and cut into squares.

Butterscotch Sauce.

2 cups granulated sugar
1 cup cream
Put sugar in heavy frying pan and stir with wooden spoon over a low heat until melted. Add cream gradually. Stir until smooth and serve hot over ice cream or cottage pudding.

Spritz Cookies.

1 1/4 cups flour
1/4 teaspoon salt
1 1/2 cups ground brazil nuts
1 cup shortening
1/2 cup sugar
1 egg
1 teaspoon vanilla

Sift flour with salt and mix with nuts. Cream shortening, add sugar gradually and cream together, until light and fluffy. Beat in egg. Add vanilla and then work flour-nut mixture into first mixture. Pack dough in barrel of cookie press and force dough onto greased cookie sheet in various shapes. Bake in a hot oven (400 degrees Fahrenheit) ten minutes. Remove from cookie sheet at once and cool.

Apple Butter.

10 pounds apples
6 quarts cider
4 pounds sugar
2 tablespoons ground allspice
3 tablespoons ground cinnamon
2 tablespoons ground cloves
Wash, slice and weigh apples. Put into a kettle with cider and cook until apples are very tender. Press through a sieve to remove skin and seeds. Add sugar and spices to pulp. Cook until the mixture is as thick as desired, stirring frequently to prevent burning. Pour into clean, hot jars and seal.

Household Hints

By BETTY WELLS

"OH, THIS is the day we wash our clothes, wash our clothes . . ." If that old nursery song is to be a gay roundelay instead of a dirge, a modern lady must give a more than cursory glance at her laundry facilities. We used to think those ladies in the ads who grin from ear to ear on wash-days were being slightly hypocritical until we really took a good look into the modern ways and means of laundering.

A lot has been said and written about kitchen planning but we'll bet that there's many a lady who'd be willing to forego a streamlined kitchen if she could have modern, up-to-the-minute laundry equipment. First she'd like a good, clean, light place to work, so obviously that old cellar cave will not do. A coat of white paint and a good, indirect light may solve that problem, or perhaps a large pantry closet on the first floor may be made over into a small, but efficient, laundry room.

Then, of course, she wants a good washing machine. Her purse will naturally dictate the purchase of this large item, but she may look longingly at a new type of washer that does everything automatically,

This Is the Way We Wash Our Clothes.

soaks, washes, rinses and whirl-dries, by turning a few switches. She should weigh the merits of the washers against each other.

If possible, she wants to own an automatic ironer—one of those amazing machines that she can sit down to and, with practically no effort, do a thoroughly professional job of pressing in no time at all. Barring that delightful acquisition, she should see that her ironing board is stable and that her iron is streamlined to save her cramped fingers and sore wrists.

And then she must look to the little "gadgets" that can solve many of her laundry problems. An automatic sprayer for sprinkling the clothes before ironing is the invention that gives forth a fine mist of water to dampen the clothes to the proper degree for easy pressing. Or, without this, a spray-cork to fit almost any bottle is a great time saver. And there's an adjustable frame for drying knitted garments smoothly and without shrinkage that any self-respecting knit-it-herself person should have. Clothes sticks for getting those hot garments out of soapy water, a canvas bag that hangs on her clothesline and moves along with her as she hangs the clothes, should be on her list.

With Imagination for Coin.

Our Nellie is a lady, but she's blonde and very much alive. Right now she's thrilled to pieces over what she's been doing with her house—using mostly imagination and energy.

Take that back hall, for instance. An insipid looking spot it was, mostly doors with just one decent wall space. Nellie papered it with silver paper (it didn't take so much because of the small amount of wall space, so she could afford metallic paper even at the highest per-roll figure). Then she painted the woodwork—don't gasp—brilliant Chinese red. And did that nondescript little room sit up and take notice! It

Chintz for the Guest Room.

really acquired personality and poise all in the same breath and was literally "furnished" with color, which was important since there really wasn't much space for furniture. Of course, this room required a bit of living up to as far as the adjoining rooms were concerned. But Nellie was prepared for that. Her bedroom in powder blues and yellow flowered chintz got a pair of little footstools covered in bright red.

The guest room in pale greens and grays got the loveliest cretonne, yards and yards of it so flowered that it really seemed fragrant. And the ground color of this cretonne was white with splashy red flowers for its design.

The kitchen repeated red in the checked curtains that hung at the windows and in the linoleum on the floor.

So Nellie's little hall is vindicated for its boldness. And it certainly adds zest in the very place most houses fall down—in the hall that can so easily become a catch-all.

through the shops will show you irresistible new fabrics to make them up in.

Basque Dress for Girls.

No wonder girls love a basque dress like this! The fitted waist with its basque point in front gives them such a grown-up feeling. The full skirt, square neckline and puff sleeves are so becoming. Make this dress up for your daughter in taffeta or silk crepe in time for Easter, and later on in printed percale or dimity.

Large Women's Dress.

The diagram shows you how easy this dress is to make, and it fits to perfection. Notice the raglan shoulder line, the waistline snugged in by darts. The roll collar, with the smart little tab in front, is very soft and becoming. Very comfortable to

Ask Me Another

A General Quiz

1. How many watts in the bulb on top of the Edison Memorial tower?
2. Do animals grow during hibernation?
3. What is the average per capita savings of inhabitants in the United States?
4. Does all ice float?
5. What per cent of persons enrolled in schools attend public institutions?
6. What is the difference between green and black tea?

The Answers

1. The bulb is of 5,200 watts, and is 14 feet high.
2. They do not grow. All body activity is at low ebb.
3. In the year ended June 30, 1937, it was \$191.
4. Ice that sank resulted when Harvard scientists recently froze water under a pressure of 30,000 pounds to the square inch. Ordinary pressure is only 14 1/2 pounds.
5. Approximately 90 per cent of all persons enrolled in school go to public educational institutions and 10 per cent of them go to private schools.
6. The difference is not in the tea plant but in the processing method. The leaves selected for black teas undergo a fermentation which changes their color and flavor. Leaves for green tea are dried without being fermented.

Entered as second-class mail matter at the post office at Silvertown, Texas in accordance with an act of Congress on March 3, 1879.

The man who comes into the world with the notion that he is really going to instruct it in matters of the highest importance, may thank his stars if he escapes with a whole skin. —Schopenhauer

WEDNESDAY NIGHT — and Yours Truly takes his typewriter in hand, while outside the durndest Norther of the year blows on April 6. It's bad business, bad for fruit, bad for wheat, and bad on the disposition. In other words it gives one that old feeling that only comes during a Norther and after too large a dose of Dr. Hinkles pills.

NOW THAT THE city election is over, I'm going to give you the low down on my platform, in case I had been elected as a city

dad. In the first place, I would have tried to have had an ordinance passed compelling everyone to be a subscriber to this paper. When the subscription ran out, \$1.50 would have been added to the person's yearly tax statement. In the second place, I would have tried to have had a financial statement published once a year, at least. (That's money in the printer's pocket you know). That is something that every citizen has a right to know—where his tax money is going, and why.

THAT LAST STATEMENT is meant seriously, and goes not only for city proceedings, but for the doings of the Commissioners Court, the County Treasurer, and every other public office, where they are handling the peoples' money. This tax money that we spend comes hard—we should know exactly what it's spent for. Perhaps if we knew where the money went, we'd pay our taxes more cheerfully.

FLASH! EXTRA!—April 6, 1917. War was declared on the Imperial German government. That is 21 years ago. What will the next year bring? Will it be "22 years ago", or will our entrance into the World War be forgotten in the excitement of getting under way for another.

CHARLEY BIGGGS, the power behind the throne at Rock Creek, tells me that for the fourth straight time Rock Creek has won the Rural School Track Meet. — And lo, here comes Jake Spencer, the little Caesar of Haylake, telling me that Haylake won. Fifty Thousand Frenchmen can't be wrong but anyway, either Jake or Charley is wrong this time. They'll get it decided within a month though, and I'll bet on it.

WENT TO SEE "The Awful

Truth" Tuesday night at the Palace Theater and it was really a keen show. There is just one thing that I couldn't understand. Why was it that the little man on the clock, went into the wrong door at the end of the picture?

I PAID A special visit to the Plains Mill and Elevator yesterday to see the new manager. And what did I find but Watson Douglas out behind the place digging a hole in the ground. No collar. No coat. No tie. Tut, tut, Watson you're in the CITY now.

The **FARMERS FOOD** store has been selling Mothers Day chocolates in competition with other White Swan stores in Texas. With 56 boxes sold Wednesday, they are leading all stores in this district, which comprises some six or seven counties. The nearest to their mark is a drug store in Memphis which has sold 40.

DON'T FORGET TO look thru the ads this week to see whether or not you get a free pass to the show. If you find your name and then don't use the ad to attend the show, we both lose a ticket.

I JUST HEARD ONE about this old campaigner Dave Loughborough. It seems that he was doing a little campaign work for a friend of his over in the San Jacinto community. When the returns came in the candidate only got one vote in the whole precinct. He promptly collared Dave and asked for an explanation. Dave told him how it was: "Old Mart Norris was off in the canyon gathering wood and I didn't get to see him."

Mr. and Mrs. Tom Nichols of Tulsa were visiting here last Sunday.

Mr. and Mrs. Norvat Dickerson of Canyon were here Thursday of last week.

Mr. Charlie Dickerson has been quite sick the past week, he is suffering from an attack of rheumatism.

Mrs. J. M. McDonald of Amarillo left Tuesday of this week after visiting the past week with her father, Mr. J. W. McClendon and other relatives.

Mrs. W. T. Dwyer and Tom Dwyer attended the funerals in Canyon last Friday of a relative.

Miss Corine Deavenport, a student of Draughans Business Col-

lege at Lubbock, spent last week end with her parents.

Mr. and Mrs. C. F. Joiner moved to town last week from the Francis Community. They are living in the Shelby Haynes house. Mr. and Mrs. Joiner are the parents of Mrs. Alvin Redin.

Mr. and Mrs. Bruce Burleson and son, who are living on a ranch near Clayton, New Mexico, were here last week looking after some business interests.

Dickerson Hand Lotion — a special formula for cracked-open hands. After shaving lotion. At Bomar Pharmacy, 25c and 50c.

Mrs. Carl Morton and children visited here last week end with her parents, Mr. and Mrs. W. A. Dickerson and Mr. and Mrs. W. N. Morton. Mrs. Morton is employed in the City and County Library.

Mrs. N. M. Hardin came in last week for an extended visit with her daughter, Mrs. Hugh Stodghill.

D. E. Monk of Gasoline was looking after business here Saturday.

Mr. R. W. Thomas, Beth Joiner, and son Ardell left for San Angelo Monday.

Mrs. R. W. Thomas who has been visiting in Portales, N. M. returned home Saturday.

Mrs. T. E. Marshall from Carlsbad, New Mexico is visiting here with her son Travis Marshall and family.

Mr. and Mrs. Gid Montague and children and Jack Middleton of Portales, N. M. spent the week end here visiting Mr. and Mrs. R. W. Thomas.

Superintendent A. L. Kelsay, and Judge W. Coffee with Superintendent E. W. Scheid of Quitaque left here early Sunday for Austin to look after some school interests.

Miss Lizzie Gregg with relatives from Quitaque attended the funeral in Tatum, New Mexico Monday of a brother-in-law, Mr. T. A. Frye, who died suddenly Sunday from a stroke of paralysis. Mr. Frye formerly lived at Quitaque.

Little Sally Ann Kent has been here for the past two weeks with Mrs. Jess Brandon and her daughter, Mrs. Richard Hill. Sally Ann is the attractive little daughter of Rev. and Mrs. Kent who are now living at Crosbyton, but formerly lived here. Mrs. Kent came after her daughter last Friday.

Raymond Bean returned home last week after spending some time in Port Arthur, Texas, where he completed a course in radio work. He will remain here for some time.

Mrs. Ware Fogerson was sick several days the fore part of this week.

legge McDonald of Heckman.

Mr. and Mrs. Roland Salmon and children, Miss Susie Salmon and Pete Salmon of Brice and James Martin of Brice visited in the Dan Dean home Sunday.

Mr. and Mrs. Oscar Bullock entertained with a dance Saturday night.

Mr. and Mrs. C. C. Brown and daughter Betty Jean, and son Eddie; Mr. and Mrs. C. S. Graves and daughter Alma, and sons Earl Dean and Carl Jr.; Mr. and Mrs. Dan Dean and sons Zack Luther, and Dan Nelse, Mrs. C. W. Graves and daughters Eugenia, Nadine, and Wanda; Mr. and Mrs. J. C. Bullock and son Clinton and daughter Mary Jo; Chas Bullock and Jimmy Rufus Bullock attended the Briscoe County Meet.

The Hall County Track Meet which was postponed from last Saturday week was held at Turkey Saturday. Antelope students attending Lakeview school placing in track event were Ernest Dean Evans, 1 mile run, second; Arlon Merrill, discus throw, third.

Elmer Sanders and sons, Leon and Aubrey, Oscar Bullock, Misses Emma and Gussie Marie Bullock, and Nadyne Waldrop, Arlon Merrill, Ernest Dean Evans and Clyde Hobbs attended the Hall County Track Meet at Turkey Saturday.

Milton Sanders of Brice spent the week end with his parents, Mr. and Mrs. Elmer Sanders.

At the Briscoe County Meet held in Silverton Friday and Saturday Antelope's 4th and 5th grade spelling team composed of Clinton Bullock and Dan Nelse Dean pla-

ced fourth. Clinton handed in a perfect paper, receiving 100%, Dan Nelse received 84 %.

Rev. Applewhite filled his appointments here Saturday night and Sunday.

Miss Jessie Lee McDonald of Heckman attended Church here Saturday night and Sunday.

W. N. Bullock spent Sunday and Monday with Mr. and Mrs. John Rhea of Paloduro.

Mr. and Mrs. W. F. Durham and daughters spent Sunday with Mr. and Mrs. J. C. Durham.

Raymond Waldrop who has been working at Lone Star spent Sunday with his parents here.

Mr. and Mrs. Roy Heckman and little daughters of Silverton spent Sunday in the C. S. Graves home.

Julius Garner who spent the winter in California returned home Sunday.

Mr. and Mrs. Elmer Wanderson and sons spent Sunday with Mr. and Mrs. Virgil Sanders of Brice.

Students of West Texas State College enjoyed their Spring holidays from Thursday to Tuesday. Those spending the time with relatives here were: Ben Ezzell, J. W. Foust, Dorothy Dickenson, Wilma Dickerson, Gaynelle Douglas, Vera Davis, June West, Alma Ruth Thompson, Mildred Bean, and Lavelle Montague.

Mr. and Mrs. S. A. James and children returned Monday from several days visit with relatives at Seymour.

Dennis Clampitt, Wayne McCloud and Chas Bullock attended a dance in the Joe Ritter home on the J. A. Ranch near Clarendon Wednesday night.

Miss Hazel Marie Merrill entertained with a slumber party were Edith Waldrop, Gussie Marie Bullock, Nadyne Waldrop, Marion Evans, Alma Graves, Margie Northcutt, Jessie Lee and Charo-

'REFORM' BILL PASSED

Measure Giving President Vast Powers Squeezes Through Senate . . . May Die in House

Senator Pat Harrison of Mississippi, chairman of the senate finance committee, is here seen telling members of the press what his committee had done and proposed to do to the revenue measure so that it would be less objectionable to business and to the country in general. It already had made radical changes in the bill as it was passed by the house.

Edward W. Pickard SUMMARIZES THE WORLD'S WEEK

Wide Powers for President

PRESIDENT ROOSEVELT'S reorganization bill squeezed through the senate by the close vote of 49 to 42, after a fierce fight. A motion to recommit, which would have virtually killed the measure, was defeated by a vote of 48 to 43.

Opponents of this bill are convinced that it paves the way for a dictatorship in the United States. The measure was sent on to the house, which already has passed bills covering some of its features. There is no certainty, however, that the senate measure will ever be brought to a vote in the house. Chairman O'Connor of the rules committee said it should be allowed to slumber peacefully in some pigeonhole.

The bill authorizes the President, by executive order, to transfer, reorganize, consolidate, segregate the whole or any part of or abolish any of the 135 bureaus, agencies, and divisions of government.

Excepted from this section, however, are the federal reserve board, the corps of engineers of the United States army and the independent, quasi-judicial and regulatory establishments, such as the board of appeals, the communications commission, the federal trade commission, the interstate commerce commission, and the national labor relations board.

It abolishes the civil service commission as now constituted, and the general accounting office. It creates a new "department of welfare," and it authorizes six more \$10,000 a year assistants to the President.

Ten Men to Probe TVA

FIVE senators and five representatives will do the investigating of the Tennessee Valley authority, for the resolution for a joint committee inquiry was adopted by the senate without a dissenting vote, and appeared certain of passage by the house.

Sen. Bridges

Sen. H. Styles Bridges, the New Hampshire Republican, in a radio debate declared the administration was trying to obscure the charges of scandal within the TVA by forcing the inquiry to cover the private utility angle. "The administration's strategy has been to cover up TVA dirt by a phoney counter-attack," he said.

He was answered vigorously by Sen. Lister B. Hill of Alabama. Legality of President Roosevelt's action in ousting Chairman Morgan from the TVA board is still a matter that the courts probably will be called on to settle. Mr. Roosevelt "removed" Morgan after receiving from Acting Attorney General Jackson an opinion that he possessed the required authority. He reported the action to congress and said he had named Harcourt Morgan chairman.

Reasons for the removal of A. E. Morgan as given by the President were that he had made grave and libelous charges against his colleagues and refused to substantiate them at the White House hearings,

and that he had obstructed the work of the authority. Utilities Must Register IN A 6 to 1 decision, the United States Supreme court upheld the registration provisions of the Wheeler-Rayburn public utility act of 1935, but did not pass on the constitutionality of other parts of the law, including the death sentence for holding companies.

The court sustained an order of the New York Federal District court requiring the Electric Bond and Share company and 14 associated utility holding companies to register with the Securities and Exchange commission or else be denied the use of the mails and other facilities of interstate commerce.

Chief Justice Hughes delivered the court's opinion. Justice McReynolds, who wrote no opinion, was the only dissenter. Justice Cardozo, who is ill, and Justice Reed took no part in the consideration of the case.

Colonel House Dies

DEATH after a long illness ended the notable career of Col. Edward M. House, whose name, during the World War era, was familiar to millions.

He passed away in New York at the age of seventy-nine years. Shunning publicity and personal glory, House devoted himself untrillingly to what he deemed the best interests of his country and for years his influence, especially in international matters, was great.

An early supporter of Woodrow Wilson's political fortunes, he became Wilson's trusted adviser after his election to the presidency and continued to help direct his course immediately before and during the war, making frequent trips to Europe. He was Wilson's personal representative in the Versailles peace conference. Later he and Wilson disagreed and their close association came to an end.

Franco in Catalonia

GENERAL FRANCO'S insurgent army blasted its way through the loyalist lines and entered the province of Catalonia, moving far toward Barcelona, the third capital of the government forces. In this rapid advance about 100 towns were captured in a single day and many villages were demolished by bombardment by a fleet of 200 war planes said to have been contributed by Italy and Germany.

Italy warned France that any French intervention in Spain "might compromise peace on the European continent." The organ of the Italian foreign office, Informazione Diplomatica, published the statement, declaring Italy was "following with greatest attention the campaign of French leftists for intervention in Spain."

Silver Buying Halted

SECRETARY OF THE TREASURY MORGENTHAU announced that the United States had discontinued the purchase of Mexican silver until further notice. This probably was a direct result of Mexico's expropriation of foreign oil properties, which Secretary of State Hull considers a hard blow to his "good neighbor" policies. Price of silver was cut 1 cent an ounce.

The United States Treasury has been buying 5,000,000 ounces of newly mined Mexican silver each month, paying around \$2,500,000 for it at the artificially maintained New York price, which gave Mexico sizable profits.

SEEN and HEARD around the NATIONAL CAPITAL By Carter Field

Washington.—In considering the new naval appropriations it must be remembered that this billion-dollar program, as it is called, is in addition to the regular 1939 program, which had already been provided. Besides, it is in addition to new building now going on but authorized previously.

For instance, two battleships, totaling 70,000 tons, are now under construction. Two more of 35,000 tons each, are in the so-called regular 1939 program. But three more with 105,000 tons additional tonnage, are in the so-called billion-dollar program. This makes the total additional tonnage to be eventually added to the present United States navy 245,000 tons!

Incidentally even this may be boosted. The navy had been figuring on still bigger ships, and may get an amendment in before the keels are laid, which would make the tonnage of each of the three battleships provided in the new billion-dollar program as much as 43,000 tons. Which, if it happens, as it probably will, would make the boost, in battleships alone, 269,000 tons.

No new aircraft carriers were provided for in the regular 1939 program. But there are two now building, with a total tonnage of 34,000. In the billion-dollar program two more, with 30,000 total tonnage, are added, making four new carriers and a total of 64,000 tons to be added to the navy.

Eight cruisers are now under construction, totaling 80,000 tons. The regular 1939 program added two, totaling 10,000 tons, but the billion-dollar program adds nine more, with 68,754 tons additional. Thirty-six destroyers are under way, with a total of 56,200 tons. The regular 1939 program added eight more, with a total of 12,000 additional tons. Along comes the billion-dollar program with 23 more, adding 38,000 tons.

Needs New Destroyers

So no less than 67 destroyers are to be added to the navy!

This is not so surprising when one considers the history of destroyers in the American navy. At the time of the World War this was one type of vessel which could be rushed to completion with some hope that they would be finished before the war ended. Moreover, the destroyer was considered one of the most effective agencies with which to fight submarines, at the time the chief danger to the Allies.

So America rushed out destroyers. The end of the war found the navy with more destroyers than it knew what to do with. Most of them were tied up, their parts greased, and kept in storage, so to speak. As a result there was not much destroyer building, especially as the armament limitation conference came along in 1922.

But naturally these have all grown obsolete together. So the navy really needs a new fleet of destroyers.

Now under construction also is one destroyer tender, of 9,450 tons. The billion-dollar program adds five more, with a total of 45,000 tons. It also adds four seaplane tenders, with a total of 33,200 tons to the one authorized previously, at 8,800 tons.

In the regular 1939 program the navy got an oiler of 8,000 tons, a mine sweeper of 600 tons, and a fleet tug of 1,150 tons. To these will be added three repair ships, totaling 28,500 tons, in the billion-dollar program.

Chinese Get a Hunch

A Chinese commerce raider, aimed at accomplishing against Japanese commerce what the famous Confederate privateer Alabama did to United States shipping during the war between the states, is under serious consideration. Officially this will be denied, of course, but several factors in the Alabama situation are being studied by those interested.

The Alabama, it will be recalled, was fitted out in England, and had a very long and effective adventure in destruction before she was finally sunk by the U. S. S. Kearsarge off Cherbourg.

The present idea is said to have originated due to publicity for the grievance of American fishermen and the salmon industry generally in the Pacific Northwest and Alaska. In fact, the germ of the idea is said to have been sprouted when an indignant union leader wanted to know why the United States couldn't have an "accident" similar to the sinking of the Panay by Japanese, and then be very, very "sorry" in a note to Japan.

"If," he added grimly, "Japan ever heard about it."

A shrewd Chinese official is said to have read this, and then remembered the Alabama episode.

"If the British could fit out a privateer for the Confederates back in the sixties," he is said to have re-

soned, "why could not the United States fit out a warship—just a little gunboat or an obsolete destroyer maybe—for the Chinese?"

Vigorously denying that anything of the kind would be tolerated, an official pointed out the rigidity of the neutrality laws, and the President's proclamation so recently restated by Secretary of State Cordell Hull, and then slyly added:

That's Different

"Of course, if the Chinese should succeed in doing anything of the sort from any other country's ports, it would be none of our business. Virtually we have recognized a state of belligerency, and even if Japan should argue that the commerce raider was in truth a pirate, it seems to me we have been both-ered, in the very recent past, with so called pirate submarines in the Mediterranean."

"I don't think such a thing would annoy the Russians any," another official commented slyly. "It just might be that they would lend a little help."

This last, so far as is known here, is not in the picture at all, though use of adventuresome young Americans is said to be distinctly a part of it. For the scheme, the Chinese would need men experienced in handling small naval guns, though they need not be anything like as expert in their line as the American aviators already aiding the Chinese.

The idea of a submarine, it is said, has been considered but reluctantly abandoned. Unless the Russians would actually supply an experienced crew, it is considered impossible, it is understood, to obtain men capable of operating such a craft, even assuming the Chinese could get possession of an undersea boat.

But even a little gunboat, it is contended, could cause Japanese commerce a lot of grief before it was finally run down.

Reorganization

President Roosevelt has succeeded better than any but the most optimistic of his advisers had dreamed, a couple of months back, in his drive for reorganization of the government. It is due to one of those strange political factors, and is directly connected with the President's technical defeat on the Supreme court enlargement battle.

Unfortunately for those who disagree with the President on his reorganization proposals—and privately the measure has very few friends even among the most loyal administration Democrats on Capitol hill—the men who took the leadership in the fight to hamstring it were the same men who led the fight against packing the Supreme court.

At first blush this might appear an advantage. They were the victors in that more spectacular battle. Victory should be like a snowball, growing as it rolls. As with Napoleon up until heaven knows when.

But this is politics, not war, and while there are some similarities, there are some sharp differences. Any fight on Capitol Hill can be won only with the aid of a very large number of Democrats, men who are elected by the Democratic organizations back in their states. It so happens that the Democrats have almost unprecedented majorities in both house and senate.

Now a Democratic senator, figuring both on his renomination and re-election fight, has to walk carefully.

Watch Their Step

A great many of the senators who made the victory of the anti-court packing leaders possible were not so spectacular as Sen. Burton K. Wheeler in that fight. Now they are unwilling to side with Wheeler again, lest to them be attributed all the hostility to the administration that is connected with Senator Wheeler's motives.

In short, if there had been no court fight, the President would have less strength in his present fight to win more power for the chief executive in the conduct of the government.

Beyond the shadow of a doubt, had there been no court fight, Senator Wheeler's amendment, which would have required the approval of congress to any change in the government the President might make, would have carried instead of losing by a vote so close that the change of three senators would have reversed it.

Had there been no court fight, the amendment of Sen. David I. Walsh of Massachusetts, to exempt the President's dictatorial powers would have prevailed instead of being defeated. But Walsh, too, had some prominence in the anti-court packing fight. The Bay State senator is not afraid of being branded. He knows his state pretty well, and has never been accused of political stupidity. But others, lacking his grip on their states, also lack his courage, however they may agree with him on this issue down in their hearts.

"A Free Ride to Doom"

By FLOYD GIBBONS Famous Headline Hunter

HELLO EVERYBODY:

I've seen a lot of articles lately, in newspapers and magazines, warning automobilists not to pick up strangers along the road. Well, sir, today I'm going to warn strangers not to get too chummy with these doggone automobilists.

And I'm not more than half kidding about that, either, boys and girls. It's a poor rule that won't work both ways, and you can get in just as much of a jam picking up with some bird in a car as the bird in a car can giving a lift to the guy with the wiggling thumb at the side of the road.

If you don't believe that, listen to the story of Ernest A. Keller, of Richmond Hill, N. Y. Ernie took a ride one time, back in the summer of 1934, with a bird he'd never seen before—and that ride came darned close to being the last one Ernie ever took.

Picked Up by a Strange Motorist.

Ernie had been up in Calgary riding wild horses in the rodeo on his way home. He had hiked through Glacier National park and he had arranged to meet a friend at a small town in Montana and didn't want to keep him waiting.

Valer was the name of the town and Ernie was within 15 miles of when a man came along driving a brand-new car. The man pulled beside Ernie and asked him if he wanted a ride. It didn't take Ernie long to figure out on Ernie's part to decide that this was an easier mode of transport than the "Shanks mare" system he had been following. He climbed the seat by the driver and they were off.

But Ernie had no more got into that buzz buggy than he began to have his doubts. There was something queer about the driver. He

Over the Side of the Mountain They Went.

seemed cordial enough when he had offered Ernie the ride, but his good will seemed to have ended. When Ernie passed a casual mark, the fellow ignored it. He kept his eye on the road and the seemed to be moving faster and faster with every foot they went.

They had gone quite a distance before Ernie discovered what the trouble was. His companion was well under the influence of liquor.

Fast Driving on a Dangerous Road.

That didn't look so good to Ernie. The fellow was driving fast than was safe, even with a sober man at the wheel. By this time he was hitting fifty on a road where a sane driver would not have gone more than thirty—a long, steep downgrade that ran along a sloping mountain ridge. The ground fell away on one side into a deep mountain gully and on the other side it rose straight up—a wall out of a rock by the graders who had leveled the roadbed.

The small car bounced about perilously on the rough, uneven road but that didn't seem to bother the man at the wheel. Instead of slowing down he fed the machine more gas. The needle of the speedometer climbed to sixty—then to seventy.

Ernie began to get nervous about that time. The car was rattling along now at a speed that almost upset it every time it came to a bump. It bounced about the surface of the road in a thoroughly alarming manner. Ernie kept his eye glued on the driver, watching his every move and ready to grasp the wheel in the event that he should lose control of the car. It seemed nothing short of a miracle to Ernie that it had gone off the road or smashed into something long before.

Plunged Right Off the Mountain Side.

They had gone skidding around a curve on two wheels and had just come to a long, straight stretch. The road ahead looked smooth and in good condition, and for the first time during the ride Ernie felt comparatively safe. He drew in a deep breath and heaved a sigh of relief—let his eyes wander over the landscape for a second. And then it happened.

Says Ernie: "I had no sooner taken my eyes from the man than saw the car leave the hard road and go off onto a soft shoulder. At that speed we were making, that shoulder was fatal. The sudden change surface swerved the wheels of the car and over the side of the mountain we went, the car turning over in the air as it left the ground. The car seemed to spin about in a dizzy circle for a few seconds and then crashed to the slope at the bottom of a sheer drop of 40 feet.

"We hit the slope with a crash—so hard that the motor of the car was knocked right off the chassis and buried itself in the ground where we struck. But the rest of the car, with both of us in it, continued to roll down the slope at a terrific speed. It rolled over six or eight times and finally crashed into a rock with such force that I went sailing 50 feet through the air. After that I lost consciousness."

A 40-foot drop, six turns in a tumbling car and a 50-foot fall through the air! The driver was dead when they found him, and Ernie well—he got a bump on the head, three busted teeth—and that's all. And he's still wondering if he's really as tough as those figures would seem to indicate.

Franklin Feted in Paris

When Benjamin Franklin was in Paris in Revolutionary days seeking help for America, he received such ovations as the old Spartan had never dreamed of. Parties were given in his honor, at which the most beautiful women were chosen to embrace him in turn. No man of quality was complete without a ring or snuff-box with his medalion. "These," he wrote to his daughter, "have made your father's face as well known as that of the moon, so that he durst not do anything that would oblige him to run away, as his phiz would discover him wherever he should venture to show it."

One One's Own Resources

To be thrown on one's own resources is to be cast in the very lap of fortune; for our faculties undergo a development, and display an energy, of which they were previously unsusceptible.—Franklin.

Governor Had No Opposition

Edward Tiffin, Ohio's first governor, was the only chief executive of the state who was chosen without opposition. Just as George Washington was our only president elected without opposition.

The "Big Stick"

"Speak softly and carry a big stick, you will go far," is a well-known African proverb. Theodore Roosevelt popularized it. It became sort of slogan to describe his foreign policy and his advocacy of military and naval preparedness. He used it in an address on September 2, 1901, at the Minnesota state fair, when he said: "There is a homely old adage which runs: 'Speak softly and carry a big stick; you will go far.' If the American nation will speak softly and build and keep at a pitch of the highest training a thoroughly efficient navy, the Monroe doctrine will go far."

Origin of Mayonnaise

To Minorca, in the Balearic Islands, goes the prize for having invented the scene of the invention of mayonnaise. It first saw the light at Mahon, and was concocted by the de Crillon's chef at the siege of Minorca.

President John Tyler

President John Tyler, Revolutionary patriot, judge, governor of Virginia, was the son of another John Tyler, marshal of the colonial admiralty court of Virginia.

WHO'S NEWS THIS WEEK

By LEMUEL F. PARTON

NEW YORK.—Leslie Hore-Belisha, British secretary of war, made himself somewhat of a national hero several months ago when he shook up the army command, upped the youngsters and sent the oldsters back to their club chairs. The report of his ultimatum demanding change of foreign policy is a stand-out in the current news.

There was something like consternation among British conservatives early in 1937, when Prime Minister Chamberlain named the incidentally Jewish Mr. Hore-Belisha for the war post. There was no hint of anti-Semitism in their attitude, but just then certain optimists among them were trying to tool Britain into the German orbit, and there were alarmed predictions that Hitler would be enraged and seek quick vengeance.

That didn't come off, and the new war secretary started a whirlwind army clean-up and all-round reconditioning campaign, to the satisfaction of all hands. Seventy-nine-year-old Sir Ian Hamilton, who had been in command at the Dardanelles, said, "Thank God we are under a proper soldier and will not be shot sitting down."

He has spent a lot of time badgering his elders, and still has many of them to work on, as he is only forty-three. When, a brash young Oxonian, he ran for parliament, his opponent tagged him as "the nonentity of the college bench." He nailed this on his mast-head, spoofed the opposition cleverly, and romped in.

He was dispatch carrier in the war, then a major, a reporter on a London newspaper, with convenient underground pipelines to the front page and the headlines.

He became financial secretary of the treasury in 1932 and later minister of transportation. He is a demon for detail and has swarmed all over England, inspecting equipment, barracks and army kitchens.

He is of medium stature, round-headed, with roached, graying hair, unmarried and given to night forays, checking this or that detail of the military establishment.

AT LEAST six times in the past 150 years, the Rothschilds have been counted out, and they have always come back—like John Barclay and Old King Cotton. Now the arrest of Baron Louis von Rothschild is reported from Vienna. The era which they ruled their dynasty was disquieting like this one. The Romanoffs, the Hapsburgs, Maternich and all and all the other kings, emperors and statesmen came to their end.

Louis is the head of the catastrophic fall of the small bank of Vienna in 1931, which had wrecked the world's money market.

Weeks later, they were money into American hands, and it was reported, a stray million here and there, by a fast overseas francs, an old family

his brother, Alphonse, in regal splendor when the Creditanstalt failed. They had great estates, magnificent art galleries, shooting range Franz Lehar chorus, deer parks and a brace of castles. Much of these slipped away, as Louis, what less than the usual French and acumen in financials, turned to a study of the arts.

12 years since Napoleon, sterility, made mince-meat of the Roman empire and even the shrewdly dismembered Austria, James and Solomon Rothschild, sons of Mayer Anshuler of the line, not only their holdings, but extended dominions to the remotest corner of Europe.

These vast ramifications of their fortune, one of the largest in the history of the world, were land, steel, coal, manufacturing and munitions, and, in later decades, in oil and hydroelectric power.

Libraries have been written about them, one notable record being Zola's "L'Argent." Their continental money matrix has been a stabilizer at times. It is possible that the Vienna jail door clangs the end of a dynasty and an epoch—but not quite certain. History will tell.

WILLIAM MACLEOD RAINE'S To Ride the River With

COPYRIGHT WILLIAM MACLEOD RAINE-WNU SERVICE

SYNOPSIS

Chiswick of L.C. ranch, obsessed with danger to her outspoken and father, Lee, from a band of rustlers headed by Sperm Howard...

"I don't know what you're talking about," she pushed his argument aside impatiently with a wave of the hand. "All is, you're a liar as well as an assassin. I warn you to get out of this country. I'm going to have you hunted down like the wolf you are."

rock not far from here," she explained. "Old Pat Sorley is staying there now. He is close-mouthed, and he will do as I ask. And he's a pretty good doctor too. You can hope up there for a week and not be seen by anybody except Pat. After today our riders will be out of the rimrock. I'll take you there. We'd better hurry, so that I can get back before I'm missed."

see what's ailing you," he said crustily. Gray eased himself gingerly out of the saddle. "Got a pill in one leg." He hobbled into the cabin. "Go ahead and fix him up," Ruth said. "I'll tie the horses back among the rocks."

CHAPTER III—Continued

The horse went up in the air. Gray caught the bridle, perhaps to quiet the animal, perhaps because he could not get out of the way.

Turning to Ruth, Sorley said, "I don't know where he got this wound or anything about him, he's glory, but what I say, is that if he's the bird shot at the old man at Tail Holt I'll see him in Jericho before I'll let him stay here. He can put that in his pipe and smoke it, be-dad."

CHAPTER IV

During the days that followed her friendship back from her times he was choleric, at times times he was distant. Ruth was sorry, she was aware of his desire for a reconciliation. She had seen that her attention to his and her apparent humility was a reproach to him. Since she had a sense of humor, she chuckled at the situation.

Ruth never knew how it happened. The revolver in her hand went off. Instantly she knew the man had been hit. He dropped the rein and staggered back. Blue Chip plunged down the arroyo.

Turning to Ruth, Sorley said, "I don't know where he got this wound or anything about him, he's glory, but what I say, is that if he's the bird shot at the old man at Tail Holt I'll see him in Jericho before I'll let him stay here. He can put that in his pipe and smoke it, be-dad."

CHAPTER IV

Ruth was riding circle above the creek. She had come out with her brothers and the other vaqueros found up the yearlings for the order.

Ruth pulled up abruptly. In front of her a pebble had rolled down a steep bank to the path. From the side Ruth's eyes traveled up the slope down which it had come. Sometimes start down hills force of gravity; more often they need an impetus to set them in motion.

Pat Sorley was a little old man with a wrinkled face like a map of Ireland. At sight of Ruth he twisted it to a grin. They were the best of friends. His hands were in his pockets and there was a clay pipe in his mouth.

WHAT to EAT and WHY

C. Houston Goudiss Noted Food Authority

Relates the Miracle of VITAMINS and Explains Why YOU MUST EAT THEM or DIE

By C. HOUSTON GOUDISS 6 East 39th St., New York. WE LIVE in the most inspiring age the world has ever known. Chemists grow plants without soil. Doctors snatch men from death with insulin. Surgeons perform incredibly delicate brain operations. And thanks to the amazing discoveries of nutritional scientists, children enter the world with far better chances for long and happy lives, while men and women of seventy are more active and useful than their grand-

Building, Maintaining Family Health

IN THE C. Houston Goudiss articles that have appeared weekly in this newspaper previous to this one, the nationally known food authority has described FOOD, as it provides the key to mental and physical power; PROTEINS, the foods you cannot live without; CARBOHYDRATES and FATS, foods that provide motive power for the body machinery; and MINERAL SALTS, that you must have in order to build strong bones, healthy nerves and rich, red blood.

green leaves and yellow fruits and vegetables such as carrots, sweet potatoes, apricots and bananas.

APPETITE AND VITAMIN B

Vitamin B promotes appetite, aids digestion, prevents a serious nerve disorder. It is essential to the maintenance of a good digestion, which is vitally important if the body is to obtain full benefit from the food consumed. This vitamin is closely related to the energy metabolism, and the requirement increases with the rate of growth and with increased energy expenditure, so that growing children and working men and women should receive very generous amounts.

VITAMIN C FOR TEETH, GUMS

Vitamin C plays an important part in regulating body processes, and prevents the dread disease of scurvy. A lack of this essential vitamin results in profound changes in the structure of the teeth and gums, may be responsible for hemorrhages occurring anywhere in the body, and for the degeneration of muscle fibers generally.

VITAMIN D AND RICKETS

Vitamin D is sometimes called the sunshine vitamin because it can be manufactured in the body through the action of direct sunlight on the skin. This is the vitamin that is necessary for the proper utilization of calcium and phosphorus in building bones and teeth. When it is lacking in the diet of infants, there develops that horrible disease known as rickets, in which the bones become soft and twisted, resulting in pitiful deformities—knock knees, bow legs, pigeon breast.

ANTI-STERILITY VITAMIN E

Vitamin E comes in for less discussion than the others, because its significance to nutrition has not

RESISTANCE AND VITAMIN A

To date, six vitamins have been identified. Vitamin A promotes growth and builds resistance to disease. It is necessary for the health of the mucous membranes of the body and helps to guard against infections of the respiratory and alimentary tracts. It influences the health of the hair and skin, is necessary to prevent a serious eye disorder known as night blindness, and is essential for the formation of healthy teeth.

Have You a Question? Ask C. Houston Goudiss

C HOUSTON GOUDISS has placed at the disposal of readers of this newspaper all the facilities of his famous Experimental Kitchen-Laboratory in New York City. He will gladly answer questions concerning foods, diet, nutrition, and their relation to health. You are also invited to consult him in matters of personal hygiene. It's not necessary to write a letter unless you desire, for postcard inquiries will receive the same careful attention. Address C. Houston Goudiss, 6 East 39th Street, New York City.

TIPS to Gardeners

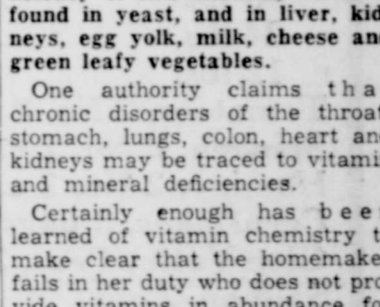

Picking for Taste AVOID the common mistake of letting vegetables grow too long before picking. Younger vegetables are more tender, more nourishing, and more palatable. Root crops—radish, carrot, beet—are at their best when hardly half grown.

What is the Cause of "Spider-Web Check"?

If not properly "fed" with a good oil polish, furniture in time develops what is known as "spider-web check!" This appears on the finish, like wrinkles on the human face—fine lines, spreading here and there in a spider-web pattern. This crazing, this light cracking, is known in furniture language as "checking" and "spider-web checking" better describes the condition. This is the danger-signal, on finish! It's the indication of "starving" wood! A warning to the housewife, that if the finish is not cared for immediately and properly, the furniture will develop cracks, ridges and splits. "Spider-web check" is generally the result of either one of these two causes: Polish-neglect—or the use of a poor, cheap polish—without the essential fine, light-oil base. When the furniture is periodically "massaged" with a reputable oil polish (the best is non-greasy), the pores of the wood are "fed" and the piece is preserved. Then "spider-web check" will not appear! The use of a quality oil polish is the best preventive formula for this ugly, detrimental check!

MORE WOMEN USE O-CEDAR POLISH THAN ANY OTHER KIND!

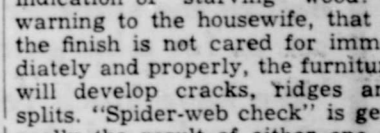

...because O-Cedar not only cleans as it polishes, but preserves your furniture—feels the finish, prevents drying-out, cracking. Insist upon O-Cedar Polish, for furniture, woodwork and floors (with the famous O-Cedar Mop).

Pick peas just before pods fill out completely. Pick corn just at the "milk" stage, that is, when the kernel, gouged with the finger nail, yields a milky juice. Use summer squash when small, soon after the blossom has dropped off.

Other vegetables, of course, should be allowed to mature more completely before using. Tomatoes should be ripened well on the vine as should winter squash. Cantaloupe are at their best when they need not be pulled from the stem, but roll off the vine at a touch.

There are, of course, exceptions to these rules. For instance, some may wish to use green tomatoes for special dishes or for canning; or they may wish to allow beans to grow to the dry stage

O-Cedar

Rockingham House, Gen. Washington's Headquarters, Has Been Restored

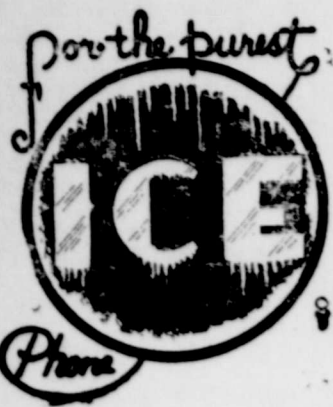

Rockingham, the rambling 10-room Colonial house, where General George Washington received word of the treaty of Paris that concluded Revolutionary war hostilities, has been restored to its original appearance after scores of years in disrepair. Ten thousand dollars in state and federal funds went into the project, notes a Rocky Hill (N. J.) correspondent in the Philadelphia Inquirer.

Under the sponsorship of the WPA and the Historical Sites Commission of New Jersey, this eighteenth-century landmark, located a half-mile from Rocky Hill community and four miles from Princeton, has come into its own. The building has been completely renovated while the two-acre plot on which it stands has been landscaped to enhance the natural beauty of the spot. Sheltering many historic relics and documents, Rockingham is steeped in the history of significant days of the Revolution. It was here that General in Chief George Washington wrote his farewell address to the Continental army and it

First Use of "El Dorado" The word "El Dorado," meaning "the gilded one," was first applied to a South American tribal king or priest, said to cover himself with gold dust at an annual religious festival.
