AGGIE BRIEFS

By Finley R. White

For the past two weeks this space has been occupied by reading material which may or may not have dealt with agricultural problems but for the next few weeks there will be agricultural news galore in this space.

The County Committee and the County Extension Service went to college for a couple of weeks—and you talk about getting educated—we got that way—and how. We learned a lot of stuff and the most of the trip was for the purpose of the cotton allotment to the individual farms.

These allotments have been worked out and are in the process of being mailed to the individual producers. The allotments are being mailed to the signers of the 1937 crop sheets. If you receive an allotment and are not farming the place for 1938, please turn it over to the fellow who is farming the place the allotment you receive.

We have tried to set out in the allotment letters just what each farmer is to plant in cotton, wheat and feed and soil conserving crops. The cotton goal can vary 20% from the figures shown on your allotment—DOWN WARD. Example: your figure for cotton is 100 acres you can plant 80 acres and get paid on 100 acres. The 20% taken out of cotton and added to your wheat or maize crop and will not affect your payments.

The acreage figure shown in our letter for "general crops" means you can plant that many acres to wheat, maize, kafir, hays, oats, or barley. The sum total of these crops should not exceed your general crop figure as the 20% of your cotton that you take out.

The soil conserving acreage shown on your letter may be planted to corn, sudan or it may summer fallowed. If planted to corn or sudan it can be banded with home feed.

Plainview Dairy Show
The 11th annual Dairy Show held at Plainview last week was the biggest and best ever held. It was not just what made the show the biggest and best, but it was the first year that Briscoe county had any part in it. Fred Buchanan entered six of his guernseys in the show this year and brought home nine ribbons. Our hats are off to you Fred for bringing the ribbons to Briscoe county, where we know they rightfully belong. The following are the places taken by Fred's guernseys:

First on Junior bull; first on 2 year old cow; first on 3 year old cow; first on 3 generations; second on aged cow; second on produce of dam; second on milking test on two and three year olds. The two year old averaged 3 1/2 lbs. butter fat and the 3 year cow averaged 2.2 lb. butter daily. Third on calf; and fourth yearling.

The whole county should have a sense of appreciation for your showing Mr. Buchanan and all say "congratulations". Mr. Buchanan has clearly demonstrated a practical stand that it pays to keep good cattle and then well. More farmers in this area should learn a practical lesson from Mr. Buchanan's demonstration. By the way Fred is the owner of Briscoe County's first trench silo. It tells you that this trench silo played an important part in helping up his production during times.

Members of the Home Builders met with Mrs. Edd Thomas Tuesday afternoon with eleven members present. Plans were laid to repair the nursery with new plants and overhead ceiling. The class meets once a month for a business and social meeting.

ONE FOURTH OF TEXAS FARMS HAVE NO MILK COWS

Almost one-fourth, or 121,000 of Texas' farm families, have no milk cows, according to E. R. Eudaly, dairyman of the Texas A. and M. College Extension Service. This means, the dairyman pointed out, that Texas needs an additional quarter million dairy cows if farm families are to have sufficient milk for home needs, and also that dairy production for home use can expand considerably in Texas and in the South in general without competing with commercial dairy areas.

Eudaly based his statement on census figures and estimates of the Bureau of Agricultural Economics which show that 24.2 percent of Texas farm families do not have a milk cow and that over the 12 Southern states as a whole, only 71 percent of the farm families keep cows for milk.

There is an average of only 2 milk cows per farm over the cotton belt as a whole as compared to an average of nearly 4 for all farms in the United States and more than 10 per farm in Wisconsin. Texas, with an average of 3.2 cows per farm, leads all the cotton belt states except Oklahoma in this respect.

The dairyman does not believe that AAA programs tend to force cotton farmers into dairying in competition with commercial dairying centers. "There were 5,562,000 dairy cows in the 12 principal cotton producing states in 1932, before the AAA," he said. "On January 1, 1938, there were 5,896,000 an increase of 334,000 milk cows. This is an average increase of 30,000 dairy cows per state, or an average increase of 5,000 for each year since the AAA came into existence.

"Nutritional specialists of the Extension Service tell me that the average farm family of five needs two good milk cows for home use. Thus in Texas alone we could add 242,000 dairy cows without increasing our commercial output to any noticeable extent."

GRASSHOPPER CONTROL FIGHT UNDER WAY

The fight to combat the worst grasshopper infestation in history is under way with the arrival of 37 carloads of bran and 14,800 gallons of sodium arsenite from federal sources, according to R. R. Reppert, entomologist of the Extension Service of Texas A. and M. College and grasshopper control leader.

Texas has been assigned 7000 tons of bran and 140,000 gallons of sodium arsenite by the Bureau of Entomology and Plant Quarantine, which administers the government's grasshopper control program. This material will be matched off by farmers who will receive allotments of poison mash through county agricultural agents and county grasshopper control committees.

Entomologists have known for over six months that more than 100 Texas counties would suffer a severe hopper infestation, and federal entomologists have helped the Texas Grasshopper Control Committee make advance plans to hold down crop damage.

While the hatch is still incomplete, hoppers have emerged in record numbers in most of the counties where damage is expected. Only in the Panhandle are the hoppers still in the egg stage. The recent cold wave did little to reduce grasshopper numbers.

County agricultural agents, county grasshopper control committees, and farmers are ready to combat the insects. Experience has shown that control is simplified when poison mash is scattered over fields. A similar program last year saved Texas farmers 6 million dollars and returned more than a hundred dollars for each dollar spent.

Control measures will begin around May 1 in the counties where the hatch is most advanced, Reppert said.

CIVIL SERVICE EXAMINATIONS

The United States Civil Service Commission has announced an open competitive examination for the following position:
Farm manager, \$2,900 a year; assistant farm manager (dairying), \$2,300 a year, Bureau of Prisons, Department of Justice.

A number of the Antelope folks attended the Salisbury-Memphis baseball game at Memphis Sunday and also attended the movies.

Woodrow Wilson To Coach at Crosbyton

Woodrow Wilson, Silvertown coach has accepted a coaching position for the next year in the Crosbyton High School, and the Silvertown boys will be under the direction of Aulton Durham.

Wilson came here direct from Texas Tech, where he graduated in 1925, and became assistant coach under Homer Pool. The next year he was hired as coach and has had charge of Silvertown athletics until his resignation last week. The Crosbyton school is larger, and he will receive a better salary. Silvertown will be sorry to lose him.

Mr. Durham has taught one year in the Silvertown system. He graduated from Canyon, and also attended Sul Ross College. He has lived here for the past eight years and is well liked by the Silvertown Athletes—which is the biggest thing in high school coaching.

The new coach is inheriting a football team that will have only two lettermen. He is not discouraged with prospects however, and says that he has a lot of mighty good material, although nearly all inexperienced. Here are the boys that have been coming out for spring football:

Hank Brown, A. J. Rowell, O. C. Rampley, Bruce Burleson, Bob Brooks, Johnny Quillen, Thomas Olive, Mynard Long, W. L. Perry, Grady Martin, Carlton Gardner, Charles Francis, Jack O'Neal, Louis Johnson, John Crow, James Davis, Gene Arnold, Alvie Boyce, Fred Brannon, Alton Walker, Bob Garvin, Huber Tillery, Conrad Henderson, Jack Burleson, John Ed Bain, Billy Gregg, Billy Morris, Guinn Williamson, Edwin Dickerson.

Several good football prospects will be in from the Rural Schools this year, and while Silvertown might not be the district champs, next year, these boys are going to be hard to stop.

CARD OF THANKS

We wish to thank our friends and neighbors for their help, and sympathy in our recent bereavement, and for the beautiful floral offering. We will never forget your kindness. May God bless you.

.70 Inch Rain Court In Session Here This Week

Wednesday morning dawned bright and clear after several days of misty damp weather that ended in a downpour Tuesday night that amounted to .70 inches by the government gauge. The dashing rain which lasted not longer than fifteen or twenty minutes, was accompanied by considerable hail, and a high wind. No property damage has been reported.

From talking to wheat growers, it seems that this dashing rain, followed by bright cloudless weather, is just what the doctor ordered for the wheat. Green bugs have been reported as doing plenty of damage in several parts of the county, and the hard rain will get rid of part of them, and if the next few days are hot and dry, it will finish the job.

Wheat is already looking better and Briscoe County has a fine chance for a crop.

STUDY CLUB ENTERTAINS

On Thursday afternoon of last week the Jr. Study Club entertained with a lovely seated tea at the Presbyterian Church from 4 to 5 p. m. having as their guest speaker, Mrs. Geraldine Green, who for the past 12 years has been Dean of Women at W. T. S. C. Mrs. Green is an interesting speaker and holds her audience as few can. She reviewed "Prodigal Parents" by Sinclair Lewis.

Mrs. True Burson, who is president of the Junior Club welcomed the guests with well chosen words and thoughts. Members of the 1925 Study Club and other friends of the Club were guests.

Following the Book Review a social hour with tea was enjoyed.

CITY RECLAIMS DUMP GROUND

The City Dump Ground, six miles northeast of Silvertown, has been cleaned off and City Officials are making a special request that all having junk of any-kind to dump to carry it to the ground. It is hinted that in case the "request" does not have the desired effect, as far as dumping in the roadway and other illegal places that means other than "requesting" will be used.

A concrete backstop has been built so that the refuse can be dumped over the bluff.

Grand Jury Returns Eight Felony Bills

The Spring term of District Court convened Monday morning, April 25th. The Grand Jury was empaneled. District Judge, Alton B. Chapman charged them at length and told them as a number of the Jurors had done Grand Jury Service, that they could elect their own foreman after they retired and organized. A. B. Buchanan of Silvertown was elected Foreman and Ray B. Persons of Quitaque was elected Secretary.

The District Clerk delivered them 9 Criminal Cases bound over for their actions, and investigation. These were examining trials held in the Justice Courts. A. B. Ramsey, M. K. Summers, and A. M. Allred were sworn in Grand Jury Bailiffs.

After two days of strenuous work the Grand Jury made a report and asked to be adjourned. They returned eight bills of indictment all being felonies. Two cases of driving a car while drunk; 2 Burglary cases; 4 Foggy cases.

The following composed the Grand Jury for the Spring Term: A. B. Buchanan, Foreman; R. B. Person, Secretary; W. M. King, Henry Edens, C. S. Graves, L. L. Waldrop, F. E. Grundy, J. B. Chandler, Herbert Brown, Roy F. Barber, J. E. Wheelock, Will Smithee.

GARDEN CLUB MEETS

The Silvertown Garden Club met with Mrs. A. L. Northcutt on last Friday with 7 members and one visitor present. Mrs. Northcutt led the program which was a discussion of "Bulbs". Plans were made to serve lunch at the cemetery on Decoration Day, May 30.

The hostess served a delicious refreshment plate to Mesdames Fowler, Hutsell, Newman, Wimberly, Francis, Steele and Bullock, who was the visitor. The Club will meet next with Mrs. R. E. Douglas, May 27. Mrs. S. P. Brown will discuss the canning of English Peas.

Ranch Converted To Farms

The 25,000 acre Lazy S ranch in Martin County is to be plowed and made into 125 separate farms. This is the ninth of the ten Slaughter ranches to go under the plow, according to the Turkey Enterprise.

BRISCOE COUNTY IS UNDER QUARANTINE FOR HOG CHOLERA

Judge W. Coffee received word last week end that movement of hogs into this district is prohibited because of the prevalence of hog cholera. The district includes Briscoe, Parmer, Castro, Swisher, Hale Bailey, Lamb, Floyd, Motley, Lubbock, Cochran, Hockley, Crosby, Dickens, Yoakum, Terry, Lynn, Garza, Gaines, and Dawson counties.

The quarantine is for the purpose of preventing the movement of hogs into the area, excepting those shipped to recognized slaughtering houses, or those which have complied with Texas interstate regulations other than those which have only been vaccinated with serum alone.

Within the area, no hogs are to be sold through public action sales, and other hog movements must be accompanied by a written permit from the Livestock Sanitary Commission.

With hog cholera declared prevalent, it is up to the hog raisers, and truckers to heed the quarantine. Enforcement of the provisions will be carried out by county officers. Anyone wishing to see the order of quarantine, or to learn further details should see Judge Coffee.

E. D. WHEELLOCK HERE

Mr. R. D. Wheelock of Thalia spent the week end in the home of his parents, Mr. and Mrs. J. E. Wheelock in the Haylake Community and attended the Regional Meet on Saturday at Canyon. He has been re-elected to teach in the Thalia High School for another year.

PRESBYTERIAN CHURCH

A visitor in a wealthy home was surprised to find hanging upon the wall of his host's bedroom a faded, water discolored life-preserver. He asked for an explanation. That isn't an ordinary life-preserver to me, explained the host. "It kept me afloat ten hours after the ship had been sent to the bottom of the ocean by a submarine. I keep it where I can see it the last thing at night and the first thing in the morning. It helps me to keep thankful and appreciative. We will celebrate the communion of the Lord's Supper next Sunday Morning. "Lest we forget". "Faith and Repentance" will be our theme at the vesper hour.

ROY W. HAHN
Editor and Publisher
Cranberry' Allred, Sports Editor

Entered as second-class mail matter at the post office at Silverton, Texas in accordance with an act of Congress on March 3, 1879.

We shall do so much in the years to come.
But what have we done today?
We shall give our gold in a princely sum.
But what did we give today?

THEME SONG for Texas newspapers, "Yes we have no laws, we have no laws today."

WHICH DOES MORE wrong morally, a man who slips five dollars out of your hip pocket bill fold, or one who gives you a check that turns out to be worthless. To my notion, when a man

puts his name on a check, it's his written word of honor that the money is in the bank.—But on second thought, there is no honor among thieves. (If the shoe fits wear it.)

AND AS LONG as our laws are as they are, there will be "hot" checks bouncing around—intentionally by the cheap skates, who make it well nigh impossible for a well intentioned business man to write a good one. Did you know, that if a man gives you a check in payment of an account, that there's no way on God's green earth, (or rather, in the great State of Texas) to make him pay it?

PAUL REID BROUGHT in an old copy of the "STAYER", a newspaper published in Silverton in 1898. The editor was Mrs. R. W. Morgan. It is small but very neatly printed, which was an exception rather than the rule, in those days.

IT IS THE FIRST time I ever saw a newspaper account of the defeat of the Spanish Fleet at Manila.—On the front page of the "Stayer" is an ad of a ranch for sale, and listed among the improvements is an 18 X 18 dugout. (Probably could be moved and cut up into post holes.)

OTHER LITTLE ITEM of interest were: W. B. Hill (R. M.'s dad) announcing for County Judge—announcement of Minor Crawford for Sheriff—announcement of election on the open saloon—and a little ribbing from the editor about Billie Reid which says, "Girls, why don't some of you make a more determined effort to catch Billie Reid? A man who owns and drives the sleekest stock in the country should make a model husband."

R. B. BOYLE, who is running the Heart O' Texas News now, pulled a good one last week when he put out an entire section for

the Mexican population. It was all printed in Spanish. I'll say one thing, that linotype operator must be 'wan smart hombre'.

MART SELF brought in an old clipping of a sale bill that was first published in Kentucky in 1849. It has everything in it from whiskey by the barrel to pretty nigger wenches. I'll run it for you within the next week or so.

SAXEY CROW has personally asked me to advertise the fact that he shaved last week. He says that the first two whisks took great big nicks out of his razor till it wouldn't cut at all. He finally had to pull the third one with tweezers.

HERE'S A BELIEVE-it-or-not from Arkansas that A. M. Allred is telling: He met a fellow there, a woodchopper, who has no hands. And Mr. Allred says that he can cut just about as much wood in a day, as a fellow with both hands.

THIS WEEK THE names in the ads for show tickets is kind of a

put-up job, inasmuch as I purposely picked the names of the boys who are out for spring football. Clip the ad fellows and go to the show—in a body, if you wish. Just in case some of you birds have parents who aren't taking this paper, ask them to drop in and subscribe. They will be sure to want to keep up on those touchdowns this fall.

SPEND AND DESTROY

And now comes the proposal from an automobile manufacturer for the government to spend \$100,000,000 buying up and scrapping 1,000,000 old automobiles, on the theory that the automobile industry employs one out of every seven persons, directly or indirectly.

The idea is no different than paying farmers for not raising crops, plowing under cotton, destroying young pigs, buying surplus farm crops, etc. But it's pretty hard for the older school who were taught to save and produce, to get used to the new idea of spend and destroy.

Isn't this the real problem of Beer — and almost its only problem?

THERE ARE people, of course, who steadfastly and sincerely believe beer to be intoxicating, or its use sinful, harmful, or a first step toward use of "hard liquor."

Just as sincerely we hold that the weight of the evidence is overwhelmingly against them...that beer is a mild, wholesome food beverage...and that "there is nothing more promising to combat the evil of too much alcohol than the opportunity of drinking good beer."

No...it is not in beer itself, we believe, that its gravest problem lies, but in those conditions, undesirable to us all, which sometimes surround its sale.

How should that problem be handled... by brewers, by retailers, by consumers, and by the public authorities? On its handling, we believe, depends the ultimate success or failure of the art and science of brewing, with all its manifold contributions to human pleasure and happiness and to the farm and industrial welfare of this country.

In that belief, a short time ago the Brewers Foundation was organized... to align the brewing industry with forces working for the public good in this country.

Our underlying motive... to perpetuate and promote our industry... is of course obvious. But equally obvious, we hope, is the fact that our interests coincide with the public interest.

Important progress has been made. Brewer-members of the Foundation already represent nearly half the production of beer and ale in the United States; and these members are pledged, individually and collectively, to the Brewers Code, one significant clause of which is as follows:

"We pledge our support to the duly constituted authorities for the elimination of anti-social conditions wherever they may surround the sale of beer to the consumer."

Being practical men, we promise no miracles. We cannot immediately or effectively "police" the quarter-million points where beer is sold (nor, to be fair, have we legal authority in many cases to do so). Nor can we, immediately, bring about full compliance with the law among all retailers, nor honest enforcement by all authorities.

But a beginning has been made...and we do promise that you will see results from it.

How far we can go, and how soon, depends very much on ourselves...but partly also on you.

Public opinion, once aroused, can operate to bring about honest enforcement of existing laws. Restriction of your patronage only to legal, respectable retail outlets can and will operate to raise retailing standards. Public preference for the products of Foundation members* will bear witness of your approval both to members and to cooperating retailers, and will encourage them to renewed efforts.

This is, therefore, at once a statement of our objectives and an appeal for your support, without which we must fall short of our high hopes. We urgently invite your full and sympathetic cooperation.

DO WOMEN REALLY DRESS FOR WOMEN??

We say YES! Because other women know what's right - - - nice things that mere man passes by! They thomas olive colors that have faded, woollens that are stiff and shrunken - - - silks that have lost their original lustre. They notice odors - - - and greasy fabrics! And because they know that other women notice these things, more of them are turning to the CITY TAILORS - - - and actually wearing their clothes longer and getting more pleasure out of them, finding that it doesn't cost much to pass that most critical test - - - the greeting of another woman. Italian Hemstitching for a Chair Set

The chair set shown here is made of an even meshed cream linen, marked off in squares of Italian hemstitching. Tiny scrolls in outline stitch with two diamonds in satin stitch are embroidered in all the outside corners. The scroll motif is shown at lower left. The tassels are made by raveling strips of the material and then rolling them.

The chair back piece measures 15 by 10 inches finished, and the chair arm pieces 7½ by 7½ inches. Allow ¼-inch at all edges for the rolled hems. The hemstitched squares measure 2½ inches. Mark them in pencil. The method of hemstitching the rolled edges is shown here at A and B. Remember that a moist thumb always helps in rolling an edge evenly.

Italian hemstitching is really two rows worked together. The rows, draw two threads, four and then draw two more.

Readers who have received their copy of Mrs. Spears' book on Sewing, for the Home Decorator, will be pleased to know that Book No. 2 is now ready. Recovery in Prospect, But Not Immediate

Nearly all his life, when he was ill, Mark Twain was inundated with letters from well-wishers, one offering this, and another offering that marvelous remedy for his malady, whatever it might be, says his daughter, Clara Clemens (in "My Father: Mark Twain").

He tried to acknowledge all such messages and sometimes did so in a whimsical way. Here is one of his replies:

"Dear Sir (or Madam): I try every remedy that is sent to me. I am now on No. 67. Yours is No. 2,653. I am looking forward to its beneficial results."

Snaring Ocean 'Greyhounds'

Picture Parade

Streamlined and speedy, the sailfin is easy to catch as a China Clipper or a runaway horse, but thousands of sportsmen visit the Gulf Stream each year to do battle with these fish. Above: Captain Bill De Waal of the cruiser Netop shows Chloe Travis of West Palm Beach, Fla., how a ballyhoo (small member of the swordfish family) is rigged on a catlin feather lure to attract the victim.

Above, He's caught the lure and "sailed" into the air, dancing on his tail and trying to lose the lure. Perhaps he'll jump a dozen times, skip on his tail for 50 feet, then sound to the bottom or run a few hundred yards against the tightest braking that can be put on a reel. He's a flying streak of streamlined indigo and silver . . . and what a battle he wages! The fisherman is ready for a rest when it's all over.

With the catlin lure still in its mouth, the exhausted fish is hauled over the rail while Miss Travis admires her catch. The memory of this fight will live in her mind for many moons, since the fish is seven and one-half feet long and has amazing strength. Miss Travis caught a good specimen which will be mounted by a taxidermist. Most sailfish are rewarded with their freedom for their gameness. Sailfish have little food value except when smoked, so they are valuable except for sport. Fish shorter than seven and one-half feet are not eligible in the West Palm Beach fishing contest and are turned loose if not too badly injured.

Improved Uniform International SUNDAY SCHOOL LESSON

By REV. HAROLD L. LUNDQUIST, Dean of the Moody Bible Institute of Chicago, © Western Newspaper Union.

Lesson for May 1 FOLLOWING VISION WITH SERVICE

LESSON TEXT—Mark 9:14-29. **GOLDEN TEXT**—All things are possible to him that believeth.—Mark 9:23. **PRIMARY TOPIC**—When Only Jesus Could Help. **JUNIOR TOPIC**—At the Foot of the Mountain. **INTERMEDIATE AND SENIOR TOPIC**—Living Up to Our Knowledge of Christ. **YOUNG PEOPLE AND ADULT TOPIC**—Following Vision with Service.

One of the lessons that seems hard to learn and to keep constantly effective in the life of a Christian is that mountain-top experiences of spiritual uplift are not an end in themselves but a preparation for service. All too often we come to regard such times of peculiar blessing, whether in the privacy of our own room, or in the great conference of Christian workers, as something which should glow warmly in our own hearts, making us glad in the Lord, and not as a background and preparation for ministry to others. One might just as well hope to feed the physical body constantly without any work or exercise and keep in good health, as to feed the soul on good things, do nothing for God or fellow-man, and still avoid what someone has called "spiritual dyspepsia."

The writer has just attended a most unusual and blessed Bible conference, the leaders of which rightly apprehended this truth. Evangelism was the matter chiefly in mind, but instead of announcing the theme of the week's meetings as "Evangelism," the program presented it as "Preparation for Evangelism." That is sound spiritual sense. We came not to discuss evangelism itself so much as to prepare ourselves to go out and evangelize. God help us to do it!

I. A Faithless Generation (vv. 14-19).

"Jesus found in the valley disputing scribes, a distracted father, a demon-possessed boy, and defeated disciples." The unbeliever who called forth the rebuke of Jesus "is revealed in different phases. There were the scribes, willful and persistent in unbelief; there was the father, unwilling in unbelief; there was the boy, irresponsible in unbelief; and there were the disciples, unconscious in unbelief. The whole atmosphere was an unbelieving atmosphere" (Morgan).

As we look at that depressing picture of long ago, let us consider ourselves lest we also be tempted to "limit God" by our faithlessness. The most casual reader of Scripture cannot but see that God seeks out and honors faith, and as we begin to study God's Word with care we realize that the fundamental of all fundamentals is really to believe God. Some Christian men and women are living out a tremendous testimony for God by fully believing Him and His Word, but many of those who profess to follow Him actually make Him appear ridiculous before the world because their unbelief makes Him out to be a "small" God instead of the infinite, eternal, omnipotent God.

II. The All-Powerful Saviour (vv. 23-27).

The keynote of our first division might well have been the sad words "they could not" in verse 18. But now the Son of God has come and the new keynote is the inspiring words of verse 23, "all things are possible to him that believeth." There is no problem too difficult for our Lord; there is no sorrow too deep for His comfort; there is no challenging opportunity too great for His enabling power. A distressing fact that emerges as one becomes acquainted with Christian work and workers is that the work of God is being hindered by men and women who deny their testimony by their destructive works. One wonders if much of it might not be stopped "dead in its tracks" if the ones against whom the attacks are directed were first to see that their own life is blameless before God and then trust Him to meet the issue. He is able. Read Isaiah 54:17, and if you are a true "servant of the Lord" claim your "heritage."

III. Prayer the Connecting Link (vv. 28, 29).

The disciples in chagrin at their inability to deal with the difficulty of the demon-possessed boy, having witnessed the power of Christ in delivering him, begin now to realize that evidently even though unconscious of it, they had come to the powerless position of unbelief.

What a solemn warning there is for us in the experience of these followers of the Lord. Like the termites that destroy the very life and strength of wood—and yet leave it apparently whole, only to crumble in dust when it is put under the pressure of daily use—there are spiritually destructive influences which all but unconsciously destroy the virile strength of the Christian. Prayerlessness is the most effective weapon of Satan at this point. Without prayer there is no power. Real problems are not successfully met nor are opportunities grasped "but by prayer."

Gay and Perky Apron.

It's exactly right to call this pretty apron a "fashion," because it fits as well as a dress and has an animated charm of its own. It positively will not slip off the shoulders when you have both hands in the dishpan—or any other time—and it completely protects your dresses from spatters and spots. Make it of linen, gingham or percale and trim it with bright braid.

Dress With Bolero.

This charming dress has details that belong in the very forefront of fashion—you see them in the most expensive models. The shirr-

ing at the waistline, the flare of the skirt, the wide shoulders, with puff sleeves, the whole effect of swing and gaiety, make it smartest of the smart! In silk print, flat crepe, taffeta or (for summer wear) linen or sheer silk, this dress will be lovely. Be sure to wear a flower at the neckline, too.

The Patterns.

1479 is designed for sizes 34, 36, 38, 40, 42, 44, 46 and 48. Size 36 requires 1 1/2 yards of 35-inch material, with 5 yards of bias banding or braid to trim.

1478 is designed for sizes 14, 16, 18, 20, 40 and 42. Size 16 requires 4 1/2 yards of 39-inch material for the dress and 1 1/4 yards of 39-inch material for the jacket.

"I CAN ROLL 'EM NOW TO BEAT ALL— AND EVERY CIGARETTE SMOKES EXTRA MILD," SAYS AL HAZARD

AL HAZARD IS painting some good advice to motorists, while he gives some good tips to "makin' s" smokers. Al speaking: "Gettin' a quick, neat 'makin' s' smoke is no trick at all with Prince Albert. That crimp out sets right—doesn't bunch up or spill out. And that's why P. A. draws good, and smokes slow and cool. Plenty mild, too, for such rich-tastin' smokes. I say, if you smoke for pleasure, smoke Prince Albert." (Good advice for pipe-smokers too!)

AL KNOCKS OFF painting long enough to add these words (Buddy Brennan is listening): "That Prince Albert is a real job in tobacco. The crimp out puts real pleasure in 'makin' s' smokes for everybody! And P. A. is down-right thrifty. I got around 70 mild, tasty 'makin' s' smokes from every tin."

We are grateful to our Lord for His many blessings both temporal and spiritual, for the good rain and the salvation of the lost. How unworthy we are for either and yet grateful for both. We also appreciate the good interest and attendance in the services. Our singer, Bro. Lee Frazier, is bringing us many beautiful and heart searching messages in song. If you have not had the privilege of hearing him yet, don't let him leave without hearing him.

There will be special services this Thursday morning for our elderly people, but everyone is urged to attend and don't miss it.
Friday night at 8 o'clock there will be a special service for the young people of our community. Space will be reserved for them. We are looking for a crowd of young people that night.
The revival services will close Sunday night. Let everyone continue to work and pray for these services until our Lord shall come with mightily power to bless and save the lost.
Let everyone be in Sunday School next Sunday at 10 a. m. If you are not in Sunday School elsewhere we invite you to come with us.
