AGGIE BRIEFS

By LOOE MILLER
Secretary Briscoe Co. Committee

The performance reporters are now in the field checking performance for 1939. They report that the farmers are giving excellent cooperation for which we are grateful. We will endeavor to keep up in the office and in turn advise the farmers of the acreage planted to different crops within a week or ten days after the farms are checked.

Notice to Ranchers

The Range Supervisor has called to the attention of the County Committee the fact that a number of the Ranches in the county have prairie dogs on them. We would like to advise all ranchers to eradicate all prairie dogs before the end of the year in order that there will be no complications arising when it comes time to certify for your payment under the 1939 Range Program. Attention D. O. Bomar!!!

Wheat

Any farmer who does not have a wheat acreage allotment established for his farm and who intends to plant wheat in '40 should contact the county office at once because the committee is now in the process of adjusting usual acreage for wheat farms and there is a time limit set when the committee must complete their work with reference to adjusting 1940 wheat acreages for the county. Unless you have made your application for a wheat allotment for 1940, by that time it will be impossible for them to allot your farm a wheat acreage allotment. We would like to suggest that all wheat farmers turn in their 1939 wheat production as soon as convenient. This will enable us to help you keep correct records of production on your farm and also complete our records for the county for 1939.

SECRET OF CONTENTMENT

I visited a hospital in which a young girl had just submitted to the amputation of a limb. She told me that when she first learned she must lose the limb it almost killed her. But she spent a little time in prayer, and knowing now that it was God's will, because in no other way was there any hope that her life could be spared, she accepted the decision of the surgeon quietly. From that moment there was no further struggle. The secret of her wonderful change was her acquiescence in what she believed to be the Will of God. The moment we accept a cross, it is no longer a cross. This will be our brief thought next Sunday morning in the Presbyterian Church.

FAMILY REUNION

Mr. and Mrs. J. E. Daniel and children had their family reunion Sunday. Those present were Emmett Daniel and wife and Tom Daniel and wife of Tulia, Malcolm Daniel and wife and son and daughter of Floydada, and Mr. and Mrs. Clarence Anderson and Mr. and Mrs. J. E. Daniel of Silverton. They drove to the Roadside Park near Quitaque for supper Sunday evening.

John Tarleton, with a student body of over 1,200, is recognized as one of the largest and best equipped co-educational junior colleges of the nation.

ONLY ONE MORE WEEK OF NEWS DOLLAR OFFER

Saturday, July 22, has been definitely set as the last day you can subscribe for the Briscoe County News for a dollar. The offer will not be extended, and all delinquent subscribers will be removed from the list the following week, and the regular rate of \$1.50 a year will be in effect.

In spite of a hard year, the News is still trying to advance, and an eight page magazine section is being issued once each month, as a new feature of the paper. Other regular features are:

AGGIE BRIEFS, official news for farmers from the County Agent's office.

NEWS BITS, interesting news from other nearby papers.

NEWS ANALYSIS, discussion of the world news by Joseph LaBine, an outspoken writer.

WASHINGTON DIGEST, national politics.

CONTINUED STORY, an exciting installment every week. A new one starts this week.

HOUSEHOLD NEWS, hints and recipes for the housewife.

SUNDAY SCHOOL LESSON, discussion by Dr. Harold Lundquist, of Moody Bible Institute.

COMICS, a page of fun for the whole family.

STAR DUST, a column disclosing interesting things about your favorite movie stars.

HOME TOWN NEWS, personal news written by Mazie Garvin.

YOURS TRUE(?!), a truly wonderful, and surprising column written by the editor himself (if he lives).

LOCAL ADS, the most important part of the paper. News from your home town merchants. Bargains each week that will save you money.

Tell your friends who are not taking the paper that they can still subscribe for a dollar. Here are the folks who have subscribed since last week's paper... thank you.

SCHOOL TRANSFERS MUST BE MADE THIS MONTH

According to County Superintendent Coffee, all school transfers must be made during July. School patrons wishing to make a transfer should report at the County Judge's office at once.

Popular Actor

HARLEY SADLER

BRINGING TENT SHOW TO SILVERTON

Harley Sadler, popular showman, who is pictured above, is bringing his ten theatre to Silverton for a one night engagement, Monday July 17th, presenting a new play entitled "He Couldn't Take It". The Sadler show comes to Silverton under the auspices of the Fire Department. This year, all new vaudeville acts will be presented and include Henry, famous world traveler, artist and magician, Virginia Goodman, dynamic blues singer from the Hat Club, Detroit, Eddie LaVerne, accordionist, Jeannie Layne acrobatic dancer, The Musical Battens, in "musical nonsense", Billy Heath, Kenedy Swain and others. Bob Siler is the leader of the 10 piece band. The vaudeville lineup is said to be one of the best Sadler has ever brought through this country, and with many new faces in the cast, this years Sadler presentation promises to equal if not excel any previous Sadler show. The big tent is new and is larger than last season and everything has been done for the convenience of the patrons. No doubt, a large audience will greet this popular tent show organization on its one night engagement in Silverton Monday July 17th.

BROTHERS MEET AFTER FORTY-FOUR YEARS

J. N. Morton of this city received the surprise of his lifetime Saturday when a fellow from Muskogee, Oklahoma introduced himself as his brother. The stranger was Ed Morton, and the two brothers had not seen each other for forty-four years.

Needless to say, J. N. was having a great time introducing "my kid brother" to everyone he met. Ed is now 68 years old and J. N. is a few years older.

Mr. Morton (Ed) was accompanied by his wife. They were on a business trip too, and were in the market for several hundred feeder cattle. They drove on to Ft. Worth.

DRY WEATHER MUST BREAK SOON IF CROPS SURVIVE

Although 1939 has brought several inches more moisture to Briscoe County, than did 1938, crops now are beginning to suffer from want of rain. Sudan, maize and other feed crops have made a rapid growth, are tender, and the past two weeks of scalding hot weather are sapping them rapidly. Cotton, which received several bad jolts at the start, is of practically every size, some of the latest being barely through the ground. It will take a very lucky season to keep the gins busy this fall.

Attention Subscribers

Look at your subscription label. If your paper is nearly out, subscribe now for \$1.00.

HENRY NORRID WINS JOB IN CAL FARLEY RADIO CONTEST

Henry Norrid, who last week won second place in Amarillo in a radio announcing contest, is a very happy young man, in spite of the fact that he was nosed out of first place at the last minute. He has been given a steady job in the Cal Farley organization, and you may hear him announce again in the near future.

Henry sends us instructions to thank all you folks who voted for him in the contest. He says: "I am sure glad to know that I have so many loyal friends, and I want to thank you. Your votes made it possible for me to get a nice job and I appreciate it. Drop in and see me when you are in Amarillo. My working address is 6th and Alabama Streets."

PANHANDLE STATION TO HAVE INSIDE WASH ROOM

Dave Ziegler, manager of the Panhandle Service Station on Main Street, is taking advantage of the slow business from the barricaded streets and is building a wash and lubrication room south of the station. The building is galvanized sheeting and is being built by Tick Puckett, chief, assisted by Dave.

SENATOR TOM CONNALLY EXPLAINS PENSION PLAN

Senator Tom Connally of Texas has introduced in the Senate and expects to urge before that body the adoption of a proposal to secure two-thirds Federal participation in Old Age assistance payments up to a maximum of \$15.00, the State and Federal governments to continue to share equally above that amount, as at present. If enacted into the Social Security Act, this would have the effect of providing \$10.00 from the Federal government to match the first \$5.00 from the State government for federally eligible old age pensioners in Texas instead of the equal basis of contribution now in operation.

In explanation of his plan, Senator Connally said:

"Under the present law, the Federal Government pays to each State an amount equal to the average paid by the State to old age pensioners who are eligible and are on the roll under the State administration of old age assistance or pensions. The maximum limit is \$15.00 per month on the part of the Federal government, but there is no minimum fixed by the law. The result has been that in some states the Federal contribution has been out of proportion to the same contribution in other states. For instance, in Arkansas, the state contribution amounts to something over \$3.00 per month and, therefore, the Federal government pays to the eligible old age pensioners in Arkansas something over \$3.00 per month. However, in other states, such as Colorado and California and some of the richer states, the Federal government in some instances pays the full \$15.00 maximum limit and in some states pays an amount something less than the maximum limit. This situation has created a state of inequality in the amount of Federal contributions because of inability or unwillingness of some states to make substantial payments or contributions to eligible pensioners on the old age pension rolls. An anomaly is presented of the Federal government paying to eligible pensioners on the old age pension rolls a little over \$3.00 in Arkansas and to a person similarly situated who may reside in Colorado \$15.00 out of the Federal treasury.

"To somewhat rectify this in-

show in detail the highly developed areas around large centers of population. These maps were prepared by the Highway Department co-operating with the U. S. Bureau of Public Roads as a part of a federal aid project known as the State Highway Department's "Road Planning Survey," and includes a survey of all the public roads of the State, including county roads as well as State highways. Highway Department field men traversed every mile of road in the State, recording not only the location of the road, but also the position of roadside structures and other items of public interest that are included in the maps. Streets of incorporated cities and towns were not included in the survey. This is the first time in the history of the State that accurate road maps are available to the public at cost of printing and delivery. Before the Highway Department made its survey there were reliable road maps for only 27 counties, and copies were not readily obtainable by the public.

EAT EGGS FOR STAMINA

By Ruth J. Cooper
Home Economics Consultant
Breeder-Feeder Association

In a study of American diets, representing a wide range of conditions both rural and urban, the amount spent for eggs was 15 per cent of the total spent for food. In comparison to the amount of nutrition derived, this is too low. We need about one egg per day or approximately 30 dozen eggs per person per year, or about 11 per cent of the food budget.

Eggs are protective foods. Both the yolk and white are rich sources of protein. An average egg of 50 calories contains about 60 per cent of the protein in the white and 40 per cent in the yolk. Raw egg yolk is easily digested but raw egg white often causes digestive disturbances. That is the reason that egg white is cooked just enough to coagulate the albumins, or then it too, is easily digested. Fat, and in general, the minerals in eggs are to be found in the yolk. The most important mineral is iron. While the amount is small, it is constant and in a very usable form. One egg furnishes about one-tenth of the daily iron requirement.

Eggs are a rich source of vitamins, containing all except "C". This wealth alone would place them in the protective foods class without their other qualifications. An egg is an egg whether it is eaten into the diet straight or in combination. Eggs may be used in any of the various methods of cooking and with almost any food. Eggs and milk combinations are nutritious and palatable. They stand out the protective diet and the insurance against nutritional deficiency.

Custard
Eggs or 4 yolks
tablespoons sugar
teaspoon salt
cups milk (scalded)
teaspoon vanilla
Whipped Cream

Soft Custard: Beat eggs slightly, add sugar, salt and gradually add milk. Cover over low heat either a double boiler or very low flame, stirring constantly, until the custard coats the spoon. If cooked beyond this stage, it will curdle. Flavor and chill. Serve with whipped cream.

Baked Custard: Combine as for Soft Custard. Strain and flavor. Pour into custard cups and set in a pan of water to the depth of about one inch. Bake in moderate oven (325 degrees F.) till a knife inserted in the center comes out clean, about 35 minutes. Serve with whipped cream.

Eggs Poached In Cream

1 egg
1 tablespoon cream
Salt and Pepper
Toast

Butter a custard cup and add cream. Break egg into cup, sprinkle with salt and pepper and bake in moderate oven (325 degrees F.) until egg is set. Serve on buttered toast.

Creamed Eggs

3 tablespoons butter
3 tablespoons flour
1½ cups milk
4 hard-cooked eggs
Paprika
½ teaspoon salt

Melt butter, blend in flour, salt and gradually add milk; cook until thick, stirring to prevent lumping. Slice eggs, combine with white sauce and turn into serving dish. Sprinkle top with paprika.

Goldenrod Eggs are a variation of Creamed Eggs.

Dice the egg whites and add to the cream sauce; pour over buttered toast. Press the egg yolks through sieve and sprinkle over all.

Meringues or Kisses

2 egg whites
¼ teaspoon salt
2-3 cup sugar
½ teaspoon vanilla
½ cup pecans, coconut, etc.

Beat eggs to a stiff foam, add salt and gradually, the sugar. Beat until stiff. Add flavoring and fold in the nuts, coconut or whatever fruit is desired. Drop on a cookie sheet and bake in a moderate oven (350 degrees F.) about 12 minutes or until delicately browned.

Local Happenings

Louis Johnson of Rock Creek left Friday for the CCC camp. He reported for duty at Memphis and enlisted for six months. He does not know where he will be stationed as yet.

Mr. and Mrs. R. N. McDaniel, Sr., returned Friday after a visit with relatives in Oklahoma.

Several folks gathered at the Will Newman home Friday night for an ice cream social. Among those who enjoyed the evening together were Miss Lizzie Gregg, Mrs. Emma Frieze, Mr. and Mrs. Jim Shaffer, Mr. and Mrs. Jim Turner, Emmett Puckett, and Mr. and Mrs. Will Newman.

Mr. and Mrs. Cyrus Puckett are moving to Fort Lyons, Colorado this week where he has employment in the Veteran's Hospital.

Mr. and Mrs. Raymond Grimland came in from Oklahoma last week for a short visit with his parents, Mr. and Mrs. W. K. Grimland. Both families then went

to Port Arthur, Texas where they visited with other relatives.

Jim Baird and Van Martin visited in Plainview at the Sanitarium Sunday, with Zearl Hawkins. Mr. Hawkins is not expected to recover from his present illness.

COUNTY ROAD MAPS NOW AVAILABLE

Accurate road maps for every county in the State are now available to the public at cost, according to Julian Montgomery, State Highway Engineer. These maps show all county roads, as well as State highways, in addition to railroads, cities and towns, streams and lakes, major parks and State and National reservations. They also show dwellings, oil and gas wells, churches, schools, and other structures visible from State or county roads.

The maps are constructed on a large scale and are easily read. Their value to State and Federal Agencies has been proved, and they should be useful to the public in general, Montgomery believes. Most of the maps are on a scale of

Paganism Crucified Jesus Christ, not Jewery.

SOME BIRDS have all the luck. I was in Whiteside's Store last Saturday morning and he found two ten dollar bills in the aisle. And the next morning he took off for a fishing trip. Pretty good financing, wouldn't you think?

NO, THAT SQUIB is a little misleading. He did find two tens, and he did go fishing. BUT, he saw Dan Montague in front of the store and the tens were his. I wasn't so unlucky myself. I jumped Dan out about his subscription (while he was feeling prosperous) and he paid off like nobody's business.

SPEAKING OF subscriptions... The dollar offer can now be called a success... there will be at least 52 more issues of the Briscoe County News... Q. E. Brown

renewed and I wouldn't disappoint him for anything. The smart rascal—he slipped me around the corner, handed me a dollar real quick and said, "Here stick this in your pocket quick." He looked all around and added, "I don't want anyone to know that I poop off my money like this." Of course he said it so low that it only carried about a half a block.

I WOULDN'T call it a dumb question, cause it came from a girl that I think is pretty smart. BUT, I was trying to buy the wife a present the other day for our wedding anniversary. I just said I wanted some kind of a wedding anniversary present. And Edythe Wimberly overheard me and very helpfully asked, "Is it for your wife?"... It couldn't be possible that men have 'anniversaries' with other women, could it?

I AM BEING very generous this week in the names in the ads. I have Mr. and Mrs. Hahn, Cranberry, Mazie, and several other Briscoe County News workers... that's quite an idea isn't it Mr. Musser? Let's do it every week.

IF YOU LOST anything in the way of farming tools, take a look in that old sidewalk they tore out south of Dick Cowart's. There is everything in there from tire tools up. I saw Stud Chitty carrying off a set of harness. Said his Dad lost it here in town three years ago, and that they never had a trace of it till they tore out that sidewalk.

D. O. BOMAR TOLD me the school board was going to publish the school audit. He wanted to know if it would go as a news item. The answer was no... but from what I hear there is some really HOT NEWS in the report anyway.

AND CHICK Northcutt, another board member told me that he believed that if monthly financial

reports of the school had been published for the past ten years, that it would have saved the taxpayers \$20,000.

WITHOUT A DOUBT, the most valuable enterprise that Silverton has is the clay products manufacturing plants. Jimmy Webb started the thing off on a shoe string and is gradually building it into something. Right now there are probably thirty families depending on the industry for employment, with a payroll of over \$1,500.00 a month. Rumor has it that another plant will be built here in the near future, putting more men at work, and keeping more families off relief work.

IS IT WORTH anything to the community to have \$1,500 distributed every month? It must be remembered too, that this is all absolutely "outside" money, from other parts of the country, and practically every cent spent in Silverton.

EVERY CITY THAT grows, has for its backbone, an industry of some kind. The job of "becoming a city" just can't be done by being the trade center for a farming community. A trade center just exists... an industrial center grows. We have the basis for a large industry here, because the right type of clay is scarce, and there is a large deposit near here. Is it too visionary to imagine several large plants, and several hundred men at work? Smaller factories for by-products? A glass factory maybe? It is growing now... let's do everything to help that we can.

ANOTHER HOME industry, that I sometimes think we don't appreciate is the ice plant. Bert Northcutt has been operating the plant here for several years—pays taxes on several thousand dollars worth of equipment and is keeping several fellows in a job. Last year he started rural delivery to farm folks... which is rather unusual in a place of this size. We should support our home institutions better if we want to keep Silverton on the map.

AND BY THE way as a little hint to you farm folks... I was just talking to Bert and he was telling me a little inside of the expense on those rural routes. They are not exactly a money mint. And to make it a short story, a part of the routes will have to be discontinued if more ice is not sold. If you feel that this service is worth anything to you, you better raise

the ante a little bit on the ice you order. To tell the truth about it, I don't see how he can haul the stuff out there to you, and sell it the same as if you haul it yourself.

WE WILL NOW stand and W. Lee O'Daniel will lead us in the official state yell, "Give 'em the axe, the axe, the axe."

San Jacinto News

The 4-H Club girls are giving an Ice Cream Supper at the Vigo Park school house, Thursday night, July 20th. The names of the winners of the chances on the knife, manicure set, and the picture set will be drawn. All who bought chances are asked to be present.

Mr. Warren Cope and Wiley returned home Friday from a trip to Colorado after Mrs. Chuchill and Mrs. Wolfe, mother and aunt of Mr. Cope.

Lois Clininia and Harold Franklin visited in the Lakeview home one day last week.

Mr. and Mrs. E. C. Franklin made a business trip to Clovis, and Melrose, New Mexico last week.

The 4-H Club met last Friday with Peggy May. The subject of discussion was "Parties." The next meeting will be on "Buffet Luncheon in the home of Siamoline Hyatt."

North Ward News

The North Ward Club met with Mrs. Author Arnold July 12th. Nine members were present, they were Mrs. C. Turner, Mrs. Hugh Stodghill, Mrs. Hardin, Mrs. Floyd Woods, Mrs. Cowsar, Mrs. John Myers, Mrs. George Seaney, Mrs. Doug Arnold. Visitors present were Mrs. J. L. Watters, Mrs. John Burson, Miss Loure Burson, Mrs. E. H. Stodghill of Abilene and Mrs. Hazel Allen. The day was spent in quilting. One quilt was finished and part of another. All reported an enjoyable time and all enjoyed the lunch that was served at the noon hour. A business session was called and the following officers elected: President, Mrs. C. Turner; Secretary, Mrs. Hugh Stodghill; and Reporter, Mrs. George Seaney. The next meeting will be with Mrs. C. Turner July 26.

Mr. J. J. Watters says his herd of cattle is increasing fast. He has a cow with twin calves. Both calves are normal.

Mr. and Mrs. Bob Haverty of Montana visited in his brother's home, R. M. Haverty, last week.

Cecil Seaney was surprised last Saturday evening when he came in from plowing and found five of his boy friends waiting for him. The boys, George Long, Billy Wilson, Montie Pitts, Albert and Acil McCain, had come to spend the night and help Cecil celebrate his birthday the next day. Most of the time Sunday was spent in swimming.

Those visiting in the Gene Long home Sunday afternoon were Mr. and Mrs. Edd Thomas, Mr. and Mrs. Parker Rampley, and O. C.

Alton Walker, Mr. and Mrs. S. R. Turner, Mr. and Mrs. George Seaney, and Mr. and Mrs. Clyde Lightsey.

The entire community is glad to see William Long back at home and doing so well.

Mr. Hugh Stodghill's mother of Abilene and his niece, Miss Jo Nell Cartwright, are visiting in the Hugh Stodghill home.

Mr. and Mrs. Douglas Arnold took Mother Arnold to her home in Clarendon Sunday. She has been visiting relatives here the past ten days.

Word has been received that Miss Marie Pharr who got her back broke some time ago is doing nicely. She is in a cast now, but will soon be able to be moved to her home in Lubbock. She is in the Stanford Hospital now.

Mr. and Mrs. Calhoun Turner, Mable and Clarence Ray, visited Mrs. Bob Turner in the Alexander Community Sunday.

Mr. and Mrs. John Myers and children visited Mrs. Myers' brother in Clarendon Sunday.

Thurman Graham, R. E. Douglas and Shorty Shaffer have had new dirt tanks built in the last week or so.

HOW TO KEEP YOUR BABY WELL

As the thermometer shows signs of climbing higher and higher some of the ways by which babies may be kept well and comfortable during the hot weather and may be safeguarded against "summer complaint" are outlined by the Texas State Department of Health. "The best way to keep your baby well", advises the department, "is to take your well baby to your doctor regularly for advice and supervision, and to follow the doctor's instructions carefully and very faithfully. If your baby develops any digestive trouble, call your family doctor at once. He'll tell you what to do.

"Summer complaint, or cholera infantum as it is sometimes called, and other digestive diseases that are dangerous for babies, are germ diseases. The germs that cause the disease get into the baby's food or in the water given the baby to drink. Babies who are nursed by their mothers and who are given cooled, boiled water to drink are protected from these sources of danger. Care should be taken not to wear a baby in hot weather except under a doctor's orders.

"If mother's milk is not available, the best substitute for it is fresh cow's milk or unsweetened evaporated milk mixed with an equal quantity of water. If sugar or additional water is needed, it should be mixed with the milk according to your doctor's directions. All milk or milk mixtures given to children up to two years of age should be boiled. The feedings should be kept in individual bottles and kept on ice until used. Each feeding should be warmed as needed.

"Always wash the hands thoroughly before preparing the baby's food, and before handling the baby's bottle. All dishes, pots, pans, bottles and nipples should be sterilized by boiling before using.

"Throw out any milk left in the bottle after feeding. Don't leave the bottle in the baby's crib or carriage. It will attract dirt and flies. Rinse out the bottle; put the nipple aside, and see that both are sterilized by boiling before using again.

"Be very careful to protect the baby and the baby's food against flies. Flies are potent disease carriers. Keep a supply of clean mosquito netting on hand to throw

over the baby's crib or carriage while the baby sleeps.

"Some of the diarrheal diseases that grown-up have are catching. Keep the baby away from people—both children and grown-ups—who are suffering from such diseases.

"If your baby develops diarrheal trouble, don't let it run on. Call your family physician at once.

LIBRARY NOTES

A group of books on Administration of Consolidated and Village Schools, Rural School Administration, Business Law, French Authors and Stories and others were

given this week by Mr. and Mrs. George Terry.

A new book "Phantom Crown" is expected soon. This story centers around Maximilian, Archduke of Austria and Emperor of Mexico and is one of the outstanding recent books. A review of this book will be printed soon.

Mrs. Joe Burke of McLean, who has been spending the past two weeks here with relatives, returned to her home Monday night.

Mr. and Mrs. Howard Cash and children drove to Tullia Sunday afternoon to visit with her parents, Mr. and Mrs. O. Huxford.

Mr. and Mrs. Jack Coffee of Amarillo spent the week end here with his brother, W. Coffee, Jr., and family.

Mrs. Noel Landers and children left Monday for Abernathy where they will visit her brother before leaving Tuesday for Long Beach, California to join her husband.

D. P. Brooks of Dallas came in this week and is now running an ice route for Bert Northcutt. He expects to be here for some time.

Mr. and Mrs. Coy Chappell and daughter have moved to the house recently vacated by Mr. and Mrs. Keltz Garrison.

Foy Chitty returned Saturday from Durango, Colorado where he has been working for the past few months.

Marriage license were issued to Joe McWatters and Miss Ruby McDaniel on July 17; and Ed V. Davis and Miss Hazel Walton on July 10.

W. N. Dunn, Raymond Bomar, C. L. Strickland and T. L. Anderson transacted business in Amarillo last Friday.

Mr. and Mrs. Bill Thompson and children who have been in Dimmitt for several weeks, returned to their home here Sunday, Bill, who was in an accident some time ago, is improving nicely.

Mrs. Deavenport of Hagerman, New Mexico is visiting in the home of her daughter, Mrs. Will Newman, Kelton, who has been visiting his grandmother, returned with her.

Mr. and Mrs. E. F. Folly and Johnny McGan of Turkey spent

Sunday here with Mr. and Mrs. Bob Stevenson.

Mrs. Bobby Edwards plans to leave Monday for Plainview where she will enroll in a Business College.

Mr. and Mrs. Gilbert Richardson and children and Mr. and Mrs. Jack Martin spent Sunday in Altus, Oklahoma with relatives.

Ellis Pietzsch, who has lived in Corpus Christi for the past few years, came in Saturday to make his future home in the Vigo Park Community.

Rev. and Mrs. B. P. Harrison and son attended the funeral of her aunt, Mrs. W. J. Tucker, at Lubbock Tuesday afternoon.

Mr. and Mrs. Tim Moore and children visited friends in Estelina Wednesday, the children, Wanda Lee and Monte Bob, attended a Church Social in Quitaque that night.

Mr. and Mrs. Woodrow Wilson of Llano came Friday for a visit with her mother, Mrs. George Lee. They left Sunday morning for California where they will visit relatives at San Diego and other points. They also plan to see the World's Fair at San Francisco before returning home.

Dorothy Roy McMurtry returned Sunday from Knox City where she has been visiting with the Peacock family. Betty Jo returned with her to spend a few days.

Mr. and Mrs. Berl Wilson and children of Lawton, Oklahoma came through Sunday morning and visited with Mrs. Dean Allard. They were going to Plainview to visit Mrs. Wilson's father, Dr. Moore.

Mr. and Mrs. Charles Cowart went to Amarillo Wednesday night to see Mrs. Cowart's sister, Mrs. Gilbert Pinney who was quite ill. Mrs. Cowart stayed with her sister who is much improved at this time.

W. M. S. Meeting
The W. M. S. of the First Methodist Church met Monday afternoon in the home of Mrs. Jeff Simpson, with sixteen members present. The program was on International friendship, dealing principally with conditions in South America. Those taking part in the program were: Mrs. R. E. Douglas, Mrs. R. M. Hill, and Mrs. W. Coffee, Jr.

HOW TO GET ALONG WITH CHIGGERS

Summer time brings along that grand old family institution, the picnic, and R. R. Reppert, entomologist for the Texas A. and M. College Extension Service, takes out time enough from his control of grasshopper and other crop insects to give a word of advice about the little pest that has taken the pleasure out of many a picnic—the "chigger" or "red bug."

Chiggers, says Reppert, are the first or larval stage of a large red, velvet mite which is entirely harmless when mature, but gets in lots of licks as it grows up.

In the first place, it's well to dust the body with flowers of sulphur before starting out into chigger-infested areas.

Back home again, apply kerosene lightly to the skin in places where chiggers usually gather—and that, as everybody knows, means the ankles, wrists, and under the knees, for a starter. Follow with a hot bath and scrub well

with a coarse wash cloth or brush. If you have time and can stand it, lather freely with a medicated soap and allow it to dry on the body for about 15 minutes before it is washed off.

The idea that chiggers actually burrow into the skin is incorrect, says Reppert. Also incorrect is the idea that they don't begin to hurt until they die.

Actually, they merely attach themselves to the skin and suck blood. The persistent itching that follows is due to a poisonous material the organism injects in the wound.

If you neglect precautions before exposure and treatment after until the chiggers begin their work, ammonia water, strong salt water, soda water, or cooling ointments will alleviate the pain somewhat.

TOM BROOKS TO TARLETON

Tom Brooks of Silverton has received notice that he has been accepted by John Tarleton College, Stephenville, Texas, as a student for the coming year, 1939-40. This announcement was made by Charlie S. Wilkins, Registrar, after receiving a transcript of the high school credits of Brooks.

Lesson for July 16

REHOBOAM: A MAN WHO MADE A FOOLISH CHOICE

LESSON TEXT--I Kings 12:1-5, 12-17, 20. GOLDEN TEXT--A man's pride shall bring him low.--Proverbs 29:23.

'He did evil because he prepared not his heart to seek the Lord'--this is the divine epitome of the life of Rehoboam as given in II Chronicles 12:14.

Life is full of choices, and the decisions we make determine our destiny both in this life and in the life to come. Since the great issues of our life may hinge on the simplest of choices, it is obvious that we need guidance at every point and in every moment of life.

Men and women, let us not follow the foolishness of Rehoboam. Let us seek first God's kingdom and His righteousness, and then we are assured that everything else shall be added unto us (Matt. 6:33).

The picture before us is astonishingly up-to-date. People were crying for relief from tax burdens. One group of leaders counseled moderation; another group, said in effect, tax them all you can and keep on spending. The king, who in a monarchy had the final decree in his power, replied to the plea of the people with the 900 B. C. equivalent of our modern slang expression, "Oh, yeah?" and the ten tribes promptly revolted.

I. A Reasonable Request (vv. 1-5).

Governments exist for the people, not the people for the government. Political leaders seem to forget this axiom and begin to rule as though they need not listen to the reasonable pleas of the people. Tax burdens rise, regimentation of the life of the nation takes place, and sooner or later the people rise to overthrow the government.

Rehoboam made at least one wise decision--to wait three days before speaking and to seek counsel. He needed this, for having been brought up in the palace of Solomon, without proper training for his place as king, he was quite unable to make immediate answer to their request. Incidentally, we note that much of the folly of Rehoboam is chargeable to the neglect of his father to rear him properly.

II. An Unreasonable Refusal (vv. 12-15).

The picture of the two groups of advisers is a most graphic one and should afford the teacher an excellent opportunity to show young people especially, how important it is to heed the counsel of their elders.

III. The Inevitable Revolt (vv. 16, 17, 20).

The people, long submissive and apparently servile, ultimately come to the point where they think, and when they do, dictatorial rulers tumble from their self-made thrones. Would that the people of the earth realized the power which they have and that they would use it for the glory of God.

Rehoboam, who had awaited the arrival of this crucial hour in anticipation of taking his place as the king of the ten tribes, was ready, and was at once chosen as the leader of those who withdrew from the rule of the house of David.

Rehoboam's sin brought this about, but it was also in the counsels of God (v. 15). As Alexander Maclaren expresses it, "... the historian draws back the curtain. On earth stand the insolent king and mutinous people, each driving at their ends, and neither free of sin and selfishness. A stormy sea of people, without thought of God, rages below, and above sits the Lord, working His great purpose by men's sin. That divine control does not in the least affect the freedom or the responsibility of the actors. Rehoboam's disregard of the people's terms was 'a thing brought about of the Lord,' but it was Rehoboam's sin none the less."

SENATOR CONNALLY - - -
(continued from front page)

equality, the amendment which I have offered provides that the Federal government shall contribute two-thirds of the payment to be made to eligible old age pensioners on the state rolls to an amount not exceeding \$15.00 (in other words, the Federal government would pay \$2.00 for each dollar provided by the State, of \$10.00 in Federal contribution to \$5.00 state contribution, to a maximum of \$15.00 under such proportion). It further provides that from \$15.00 up the state and the Federal government shall match payments equally as under existing law.

Senator Connally continued: "The purpose and the effect of the

amendment, if adopted, will be to aid the states which have not adequate revenues to provide payments under existing law, and the states where there are relatively large numbers of old age pensioners in proportion to the remainder of the population. It is well known that in certain states of the Union that condition exists.

"My amendment will be urged when the bill is considered by the Senate. I feel its adoption and enactment into law will afford a very substantial contribution toward meeting the obligations with respect to old age pensions," Senator Connally concluded.

LESS RED TAPE

Administrative affairs of the

ward simplicity.

B. F. Vance, assistant state administrator, announced distribution of an application blank for 1939 cotton price adjustment payments which is hailed here as the simplest form ever used for this purpose.

It will cause a substantial reduction of errors and corrections in applications, Vance said.

"Undoubtedly the form will save time and money," he predicted, "as most any sixth-grader could fill it out without much trouble. Fewer errors will mean fewer suspensions of applications for payment and smoother distribution of cotton price adjustment checks."

Sometimes referred to as a "parity" payment, this reward for planting within cotton acreage allotments, which is 1.6 cents a pound on the normal yield of the allotment, is expected to add approximately \$22,500,000 to buying power of Texas cotton producers.

It is in addition to the conservation payment of 2 cents a pound on cotton, and is scheduled to be-

gin flowing around September 1, or soon after compliance with cotton acreage allotments has been checked.

HERE ARE INSTRUCTIONS FOR THOSE WHO MUST GO TO FIRES AND GET THERE FIRST

At Pecos, where firemen have been troubled with public reaction to fire alarms, the following information has been issued by the fire department in a pamphlet entitled "What to Do in Case of Fires".

It reads: "As soon as the alarm starts sounding, jump into your car and get it started."

"While you are backing out of your yard have your wife look for smoke so you will know which way to go."

"If you have two cars have some other member of your family bring the other one with all possible speed. Thus, you can park one on each side of the street at the scene of the fire. This will enable your

neighbor, who should be right behind you, to park in the middle.

"Whatever you do, don't fail to get to the fire before the fire truck does. (This is imperative)."

"In case you are late and cannot get right up to the fire dash madly back and forth on the street in the vicinity."

"In case you are the first one there and find yourself hemmed in by the cars of other idiots it is wise to suddenly decide you have to leave there."

This can be easily done by going ahead, and madly backing up a few times until you finally run over the hose. This important move should always be accompanied by continuous blowing of your horn.

"Don't pay any attention to the firemen. If they get in your way run over them. They are just there through curiosity, while your presence is important."

"At a recent fire, there were 46 automobiles assembled at the scene.

A section of hose was ruined by one or more halfwits driving over it. That's the good old spirit.

"And before you leave, don't fail to make some snooty comparisons of the fire department with one you saw in L. A., or some other city you may have once visited."

Perhaps the greatest number of entries ever seen in a beauty contest in this State will be witnessed in Fort Worth when Casa Manana officials will select the Texas Sweetheart No. 1, who will be given a featured part in the elaborate musical spectacle which will run through the summer. All cities and towns have been given a blanket invitation to select, through their Chamber of Commerce, a beauty to represent them and it is

likely that 100 will be in contest on the stage of Casa Manana on Monday Night.

Truck Into Court

A large cattle truck, loaded with 13 head of cattle, rolled out of the parking lot at Bob's at Matador last week and turned in the creek. Getting out of the load was according to the Matador

Gas Gas All

Mrs. Jas. Tiller says: "I wish I could see the gas that even seemed to press on my ribs brought me quick relief. As I wish, sleep, the better."

Thank You!

Although this has been a small harvest, we want to thank you for the wheat you have brought us.

If you still have a little wheat to cut, bring it in — we appreciate every load ikemcclendon.

Next year of course, is the year we will raise the bumper crop — we'll be waiting for it!

... glamorous!
... dramatic!
... romantic!

"EAST and WEST" is all of these. Talbot Mundy's tale of exotic India is told with an eye for the dramatic. It is the story of Western standards and conventions pitted against the guile and cunning of the East. How an American girl and a British army officer find true happiness in the face of attempted murder and sly intrigue forms an exciting story such as only Talbot Mundy can write. Don't miss a single installment of this new story now running serially.
