City Clean Up Week, April 14-19

TURKEY BOYS BUY TEXACO SERVICE STATION

The Texaco Service Station, which has been operated here for some time by Silas Ellis, changed hands the first of the week and the new owners and operators are Guy Young and Horace Ellis, formerly of Turkey. They operated the Texaco Station at Turkey.

Mr. and Mrs. Young and baby have already moved here and the Ellis family is moving just as soon as he can find a vacant house or apartment.

In an advertisement in this week's paper the boys explain that they are anxious to get acquainted and have a money saving opening.

The Station will handle all Texaco products, wholesale and retail. Their tire line is the Dunlop and they have a pretty good deal on them too.

Drop in and let's make these boys feel at home.

Silas Ellis and Perry Smith plan to go to Texas City in a short while where they have employment. And by the way, Si says he is no relation to Horace and Horace says he is no relation to Si. In other words they are no relation.

LARGE ATTENDANCE AT FLORAL CLUB FRIDAY

At the home of Mrs. C. M. Strickland, a number of Floral Club members gathered Friday afternoon, and enjoyed a delightful meeting in the country, with Mrs. Strickland and Mrs. Campbell as hostesses.

In the spirited business meeting it was decided that, since the club has more matters to look after, in sponsoring the park development, two new officers were needed:

Mrs. R. E. Brookshier was elected treasurer, and Mrs. Mae McKinney corresponding secretary. Appreciation for those who have helped with the Park fund was expressed. It was decided to postpone planting grass until the weeds are destroyed; five reports were given of work done, by the Park--Committees. Arrangements for cultivating, and caring for the newly planted trees were made. The ladies voted to have an all day meeting May 2, at the home of Mrs. Clyde Wright, to work on the two club quilts, and there will be a covered dish luncheon.

A most interesting program was given led by Mrs. T. L. Anderson and Mrs. J. E. Daniel. Mrs. Anderson gave a fine paper on our prized garden gift from South Africa, The Gladiolus. Mrs. Daniel very ably discussed Dahlias, for home exhibits.

The hostesses served refreshments daintily reflecting the Easter motif. There were eighteen members present, and one guest, Mrs. J. B. Thompson of Centerville, Tennessee, who is visiting her brother Mr. T. L. Anderson.

HAVRAN WINS ONLY FIRST PLACE FOR SILVERTON

Silverton had several entries at the District Meet in Childress last week and won several places. Norland Havran was the only first place winner, and took high honors for ex-temporaneous speech for boys. His subject was "Our First Peacetime Conscription".

Doris Campbell, of Silverton, placed second in ex-temporaneous speech for girls. Her subject was "Bombing of English Cities."

In this event the contestants are given their talk, and then have only thirty minutes to prepare a speech of from four to eight minutes in length.

Havran will represent Silverton at the Regional Meet in Canyon Saturday, April 12.

Grandy Martin placed third in high jump and Anita Hill third in declamation.

Those visiting in the Bud McMinn home Saturday night and Sunday were: Mr. and Mrs. John Hacker and family of Herford, Mr. and Mrs. Henry McMinn and family of Lubbock, Mrs. Frank Messimer and children of Lockney, Mr. and Mrs. W. L. McMinn of Lockney.

TWO NEW COUNCIL MEMBERS NAMED IN LAST WEEK'S ELECTION

The Briscoe County News has been scooped, or would have been had there been another newspaper here to report city happenings. Two new councilmen were named, H. S. Sanders for the two year term, and M. C. Tull to complete an unexpired term vacated by Keith Pearce.

In the "race" for the regular term, Fred Lemons was high man; H. S. Sanders second; and Whiteside and Brown tied for third. Which of these will serve has not been admitted to this writer. It was reliably reported by Brown that he conceded the election. Whiteside however, reported that he had resigned in favor of the hardware merchant. Perhaps they will both serve due to press of city duties, and in an effort to have the editor's street put in better condition. (NOTE: Whiteside qualified and was sworn in Monday night of this week.)

In the race between Tull and Gilkerson, Tull took the bit in his teeth so as to speak and came out a 2-1 winner, 36 to 18.

SCHOOL BOARD MEMBERS RETAIN THEIR SEATS

R. E. Brookshier and D. O. Bomar were returned to their jobs at the School Election held Saturday. Voting was light, with about a third of the voters turning out. The ballots were counted as follows:

Brookshier	85
Bomar	72
Turner	70
King	19

McJIMSEY WELL OPENS NEW IRRIGATION AREA

An experiment in irrigation wells was successful last week when a fine irrigation well was brought in on the Luther McJimsey place three miles south and two miles east of Silverton. This well is now the closes one to Silverton and only one in that area.

The well was drilled by Lewis Francis and is 218 feet deep. It is just now being tested out and seems to be at least a 1,000-gallon well. Counting the cost of everything, a well of its kind, costs in the neighborhood of \$2,000, it is said.

Members — Mrs. Sadie Hazelwood, Mrs. Evaugh Hackler, and Miss Nell Rayburn of Abernathy; Miss Helen Estes of Dimmitt; Mrs. Ohmer W. Kirk, Mrs. Grace Johnson, and Miss Daltis Rea of Floydada; Mrs. Gladys Whitacre, Mrs. Lucile Wedgington, Miss Trula Maud Jettson, and Katherine Smith of Hale Center; Mrs. Lee Nowlin, Mrs. D. C. Arthur, Mrs. Horace Brooks, and Miss Ruby Blainist of Kress; Miss Willie Merle Haithcock of Lockney; Mrs. Clifford Jenkins and Mrs. Mary Hutchinson of Sudan; Mrs. E. P. Stewart of Tullia; Mrs. Elmo Caudle, Miss Lola Lee Glothin; and the hostesses Mrs. A. L. Redin, Miss Anna Lee Anderson, Miss Opal Cross, and Miss Fern Murphy.

FFA NEWS

The senior chapter conducting team presented a program at the community meeting at the Rock Creek school last Tuesday night. Those taking part in the program were: Garland Francis, Jack Reeves, Kenneth Autry, Travis McMinn, Roland Bell, Carl Davis, Curtis Wimberly, and Bobbie McDaniel.

The annual radio program was presented over station KGNC Thursday afternoon. The theme of the program was the purpose and the working of the FFA organization. Those taking part in the program were Kenneth Autry, Jack Reeves, Billie Jack Lawson, and Garland Francis the announcer.

DISTRICT 3-B FOOTBALL SCHEDULE COMPLETED

Meeting last Thursday night at Turkey, the Football District Committee completed its schedule for 1941 season.

The Schedule is as follows:
Oct. 10 — Estelline at Quitaque Turkey at Flomot
Oct. 17 — Flomot at Silverton Oct. 24 — Silverton at Estelline Quitaque at Turkey
Oct. 31 — Estelline at Flomot Nov. 14 — Turkey at Estelline Quitaque at Silverton
Nov. 21 (Thanksgiving) — Flomot at Quitaque Silverton at Turkey

Mr. and Mrs. Ira Bean and Anna spent last week end in Amarillo with Mr. and Mrs. Carl Bean they accompanied them home for a short visit.

Mr. and Mrs. J. M. Thompson and Mrs. Floyd Busby and her daughter from Iowa Park visited Mr. and Mrs. Ira Bean and family Friday night.

Mrs. Theron Crass entertained the Missionary society of the Methodist Church, Thursday afternoon.

Evangelist

EARL CANTWELL TO CONDUCT REVIVALS OVER WIDE AREA

Earl Cantwell, Briscoe County farmer and Church of Christ Evangelist plans to hold Revival Meetings in at least five different towns this spring and summer. According to his present schedule he will conduct meetings at the following places:

Tullia, June 1st to 15th
Rising Star, July 5th to 13th
Okra, July 19th to 27th
Levelland, August 2nd to 17th
Estelline, August 23rd to 26th
Earl has been preaching since he was fourteen years old and has worked constantly at his work although he has never accepted a permanent appointment at any one church. He has preached regularly monthly, at Rock Creek, Lakeview, Floydada and Tullia for several years.

His following in this community includes people of all denominations, and his "country preacher talks" as he calls them, are always interesting and educational.

TENANT-PURCHASE OPPORTUNITIES

Tenant farmers of Texas will have another chance to become farm owners when the Farm Security Administration begins taking applications on April 15 for long term, low-interest loans with which tenants may buy farms.

"Many farm families have ownership of a family-size farm as their goal, and it is for these people that the FSA's tenant-purchase program is designed," explains C. M. Evans, regional director. Sharecroppers and farm laborers as well as tenants are eligible for these loans, but preference is given to families that have adequate livestock and equipment.

These loans are repayable over a 40-year period at extremely low rates of interest. An unusual feature is the variable payment plan under which farmers pay more in good years and less in poor ones. Farmers to whom these loans are made choose the farmers they wish to buy and are not restricted to fully-improved farms, for the loans may include funds to build or repair the home or make other improvements.

32 Boys Out For Spring Football

SURPLUS COMMODITIES DISTRIBUTED DURING THE YEAR

January 1, thru December 31, 1940

Briscoe County	District 16
Apples, Fresh	11,868 Lbs.
Beans, Dried	1,904 Lbs.
Butter	693 Lbs.
Corn Meal	8,904 Lbs.
Flour (Graham)	17,065 Lbs.
Flour (Wheat)	30,379 Lbs.
Oats, Rolled	819 Lbs.
Onions, Dried	4,830 Lbs.
Raisins	7,863 Lbs.
Rice	4,878 Lbs.
Wheat Cereal	5,762 Lbs.
Prunes, Dried	5,698 Lbs.
Corn Grits	11,659 Lbs.
Lard	5,732 Lbs.
Eggs	2,918 Doz.
Pears, Fresh	5,854 Lbs.
Peaches, Fresh	1,520 Lbs.
Salt Pork	5,891 Lbs.
Tomatoes	2,763 Lbs.
Potatoes	31,194 Lbs.
Cabbage, Fresh	2,570 Lbs.
Oranges	3,795 Lbs.
Smoked Ham	26 Lbs.
Smoked Bacon	2,072 Lbs.
Total Retail Value Foods	\$11,463.11
Infant's Garments	1,216
Boys Garments	1,510

Women's Garments	1,205
Household Furnishings	103
Mattresses	100
Comforts	73
Blankets	67
Sheets	98
TOTAL RETAIL VALUE OF CLOTHING	\$10,448.75
TOTAL RETAIL VALUE OF FOOD & CLOTHING	\$21,911.86

CONNALLY BILL TO STOP DEFENSE STRIKES

Senator Tom Connally of Texas has had prepared and will introduce an amendment to the Selective Service Act, providing authority for the government to take over and operate during the period of the emergency any industrial plant, producing defense materials or convertible into defense manufacturing plant, in which the national defense program may be impeded or delayed by an existing or threatened failure of production at such plant as a result of a strike or labor disturbance or other cause.

"The Selective Service Act," said Senator Connally, "now provides that the President is authorized to take over and operate any industrial plant, the owners or operators of which refuse or decline to make implements of war, or national defense articles, for the government upon reasonable terms. These provisions apply to the failure of employers to cooperate with the government program of national defense."

"The amendment which I have prepared and which I shall introduce adds another paragraph to Section 9 of the Selective Service Act and provides that the President, through the Secretary of War or the Secretary of the Navy may take over and operate, for the period of the emergency, any plant equipped for the manufacture of any articles or materials required for the national defense, or any plant capable of being transformed into a plant for the manufacture of defense articles, and in which plant, the national defense program is impeded or delayed by an existing or threatened failure of production as a result of a strike or other labor disturbance or other cause. It provides that the government may operate the plant purely in the public interest.

"The prime and paramount objective of the government is to secure continuous and maximum production of war munitions and supplies. Anything which interferes with that kind of operation of all available plants, whether on the part of employers or on the part of employees, is against the public interest and the government ought to have the right and power under such circumstances to step into the plant and to take charge and operate the plant as a national defense project purely in the national interest.

Mr. and Mrs. Emmet Brookshier and Dan visited in Memphis Sunday.

Spring football practice opened here Monday of this last week 32 boys reporting for training under the old maestro Aulton Durham.

According to Durham, most of the boys are young and inexperienced, but are highly enthused, and are making up in zest, what they lack in experience. Seven lettermen will be back with the squad, all of whom are linemen. Billy Rampley, Louie Bonds, Irvin Francis, Bob Olive, J. W. Brannon, H. C. Peugh, and Len Welch. Five of these were regulars on last year's squad.

Reporting for backfield are Billy McWilliams, Alvie Gardner, Russell Lee, Norland Dudley, Raymond Lee Womack and "Hoss" Bomar. It is quite likely that Peugh and Brannon will be put in the backfield for the coming year.

Other boys out for line positions are Floyd Jackson, Loyd Jackson, Curtis Wimberly, Jack Reeves, Carl Davis, George Long, Edgar Mills, Troy Brooks, Jack Strange, Roland Bell, Troy Hill, Cecil Seaney, and several others.

Plans now are for a regulation game to be played every Friday at four o'clock P. M., with former football players of the school. The first of these will be at 4:00 o'clock Friday afternoon. Everyone is invited to come each Friday and see how the boys are stacking up. The spring training will last four weeks according to Durham.

Silverton, although has not won the District championship in the past two years, has outstanding records in games won and lost. In 1939 they were undefeated, but had to forfeit to Estelline. In 1940 they tied with Flomot for District honors. In the two years they have scored 130 points to their opponents 27. Only two teams, in eighteen games played have been able to score through the line, and not once has a conference team scored through the line. The owls have not been defeated at home since 1938. In other words Durham has turned out GOOD teams here and will no doubt continue to do so in the future.

BAND WINS IN CONTEST

The Silverton High Band went to Amarillo last Thursday to enter the Regional Music Contest and Festival for District I. The band entered Class D group with Groom, Perryton, Ralls and Sam Houston High school of Amarillo. The Contest this year was not held for competition purposes, but the bands were classed into divisions according to their performance. Silverton Band won a Second Division rating in their class. This division rating is given by the judges to those bands that give an unusual performance, but have minor defects in expression of the required contest music. The grade in this division is considered from 87 to 95 and there are five divisions ratings given.

The Band also entered the sight reading contest advanced class of 2-C bands which include McLean, Crosbyton, Perryton, Friona, Dimmitt, Ralls, and several other well known bands. The Band was required to play a piece they had never seen before and were given two tries or the Director could stop them twice during the playing of the piece. The Band again classed in the Second Division with Sam Houston High School of Amarillo and McLean High the only organizations classed ahead of them.

A Certificate will be given the Band for their work in Amarillo and they plan to hang it in the Band Room of the High School.

Mrs. B. P. Harrison and Mrs. Luther Campbell entertained Wayland and Doris with a birthday dinner Sunday at the home of Mr. and Mrs. Luther Campbell. The birthday cake consisted of 14 candles. Those present were Mr. and Mrs. Clarence Strange of Herford, Mr. and Mrs. Elma Seaney and family, Latrice, Billy and Travis Ellis, Rev. and Mrs. Harrison and Wayland and Mrs. J. R. Davis and the Campbells.

Miss Jessie Lee Davis spent the week end in Canyon with her sister who is a student at WTSC.

EASTER

Let's Go To Church Sunday ...

Mr. and Mrs. Emmet Brookshier and Dan visited in Memphis Sunday.

WEEKLY NEWS ANALYSIS By Edward C. Wayne

Axis Powers Protest U. S. 'Custody' Of Ships Seized in American Ports; Jugoslavia Aims at National Unity In Program of Anti-German Activity

(EDITOR'S NOTE—When opinions are expressed in these columns, they are those of the news analyst and not necessarily of this newspaper.) (Released by Western Newspaper Union.)

AXIS SHIPS:

Protective Custody

Protest from the Axis powers was not long in coming following seizure by the United States of some 69 German, Italian and Danish merchant ships docked in American ports.

According to federal officials the ships were seized for "protective custody" on the grounds of sabotage. Finding definite traces of systematic sabotage, the navy's intelligence service started the chain of events that led to the seizures. When the first evidence was uncovered the facts were laid before President Roosevelt and with his approval the coast guard received its orders to place the ships under "custody."

One explanation of the action came from Herbert Gaston, assistant secretary of the treasury, who said the move was "protective" and aimed to "prevent the further wreaking of damage which would constitute a menace to American ships and traffic being carried on in the harbors of the United States."

When the seizures were made there was found plenty of evidence to back up the suspicion of sabotage. Many of the ships' crews had wrecked the machinery of their vessels to the point where getting them out of port was impossible. First reports indicated that the sabotage had been confined to Italian ships.

German and Italian embassies in Washington issued the first notes of protest to the state department but did not immediately disclose their contents. From Rome and Berlin came unofficial reports that the move had a most serious aspect to the foreign powers. The Danish government reported that no protest was being issued.

ROOSEVELT:

Hits Out

President Roosevelt took time off from a fishing trip off Florida to hit out at antagonists of freedom, liberty and the pursuit of the ideals of the present administration by going ashore at Port Everglades, Fla., and broadcasting a punch-packed message to the American people who were clinging to their firesides as

PRESIDENT ROOSEVELT and Stephen Early, his secretary, are pictured as the former broadcast his "Jackson Day" speech to the nation.

winter hit back for a moment at many sections of the nation.

The President warned that the threat of Nazi and Communist doctrines were drawing more tightly around the American nation day by day. He said he was gratified that Americans are heeding the nation's determination that, with all America's resources and power, it should help those who block dictators in their march toward domination of the world.

The occasion was the President's Jackson day address. He made it the occasion of another defiance of the dictatorial powers in Europe. He also took occasion to call attention to the manner in which, he said, the Communists are attempting to undermine American free labor.

He warned the people that hard days are ahead. He said that everyone would have to labor shoulder to shoulder at the national defense wheel. The broadcast was made from the wardrobe of the presidential yacht Potomac. Oddly only a freight shed separated his yacht from the Nazi freighter Arauca which was chased into Port Everglades harbor in December, 1939.

From the Potomac, as he broadcast, the President could see the Nazi swastika flying from the stern of the Arauca, as he pointed out to his nation over the air-waves what sort of a world it would be if democracy did not prevail.

He said in part: "The decision we (the United States) have reached is not a partisan decision. The leader of the Republican party, Mr. Wendell L. Willkie, in order and in action is showing what patriotic Americans mean by rising above partisanship and rallying to the common cause.

JUGOSLAVIA:

Challenge

The sudden and almost bloodless upset in the government of Yugoslavia was a challenge to popular imagination. In the briefest of intervals the people rose against the Vienna-signed Axis pact, overthrew the government, placed Regent Prince Paul and his mates under military arrest, and seized the power.

Yet there was not an immediate turnaround, and though the British and American press welcomed the overturn with joy, it was evident to close observers that it was too early to toss hats in the air and to say that Hitler had been outfaced.

The Nazis immediately, it is true, demanded a clarification of the Yugoslav attitude toward the action of the predecessor government, and the Nazis handed it out in the form of an ultimatum.

Yet there was deep doubt over the whole situation. How sincere, demanded the watchers, were the Yugoslavs in their about-face?

Was the nation, ringed about on three sides by hostile powers, and

Here a Nazi soldier and Rumanian sailor are shown on guard duty on the Black sea. If a general Balkan conflict results from the Yugoslav defiance of Hitler Germany might have to contend with Russia, which, like Rumania, has a border on the Black sea.

with aid from the British and the United States, though promised, entirely problematical, going to stand up to the Nazi threat of armed invasion, not only from the west, with German troops, but from the north, also, with the Fascist legions?

Early in the diplomatic move there was evidence that the people were wholeheartedly in favor of the United States and Britain—that they were not willing to ally themselves with the Nazis. But there were those who were inclined to question the early shouts of Long Live Britain and Long Live Russia which were heard side by side in the streets of Belgrade.

Russia and Britain were not openly allies. What did this mean? Did it mean that the Yugoslav people had secret information that Russia had turned against Germany? Did it mean that the dispatches saying Russia had lined up against Germany, had refused oil to the Nazis since last September meant that something reminiscent of the Treaty of Tilsit had occurred.

Or did it simply mean that along with the shouts for Britain there had been Communists shouting for Russia? Soon after the governmental overturn there was evident the fact that the Croats, Serbs and Slovenes, the integral parts of Yugoslavia, were not as one on the issue.

But later reports indicated that Yugoslav national unity had been reached in opposition to the Axis powers.

R. A. F.:

Rampage

The Royal Air Force, taking advantage of every break in the weather, and with a fine disregard of increasingly heavy attacks by the Luftwaffe, carried out repeated daylight attacks and night bombings over Germany and the occupied territories.

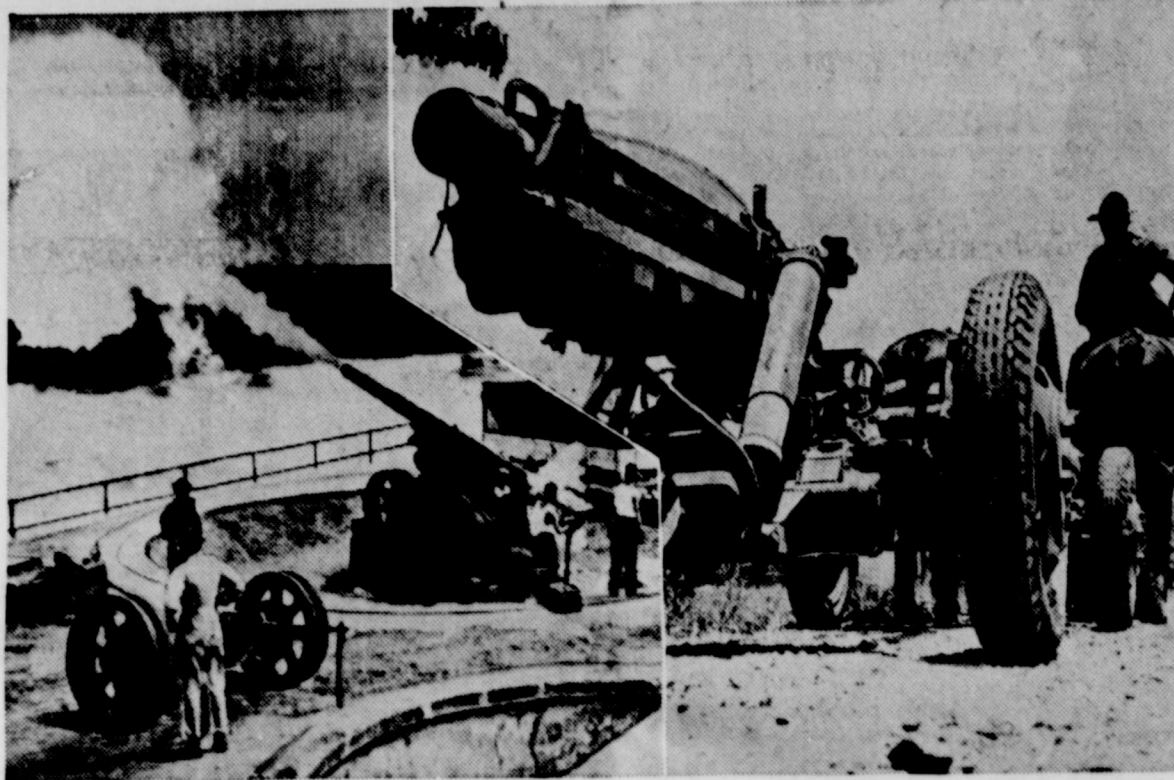

British pilots claimed that they had skimmed 20 feet over roof tops in France and Belgium and while machine-gunning military objectives had witnessed the heartening sight of the populace waving them on from the ground.

The story was told how speedy little RAF fighter planes, attacking in pairs, swooped down to fire blasts at railways, roads, shipping and German planes on the runways.

So complete, was the British report, of the RAF mastery of the situation, that not one German fighter rose to challenge them and not even anti-aircraft fire was encountered.

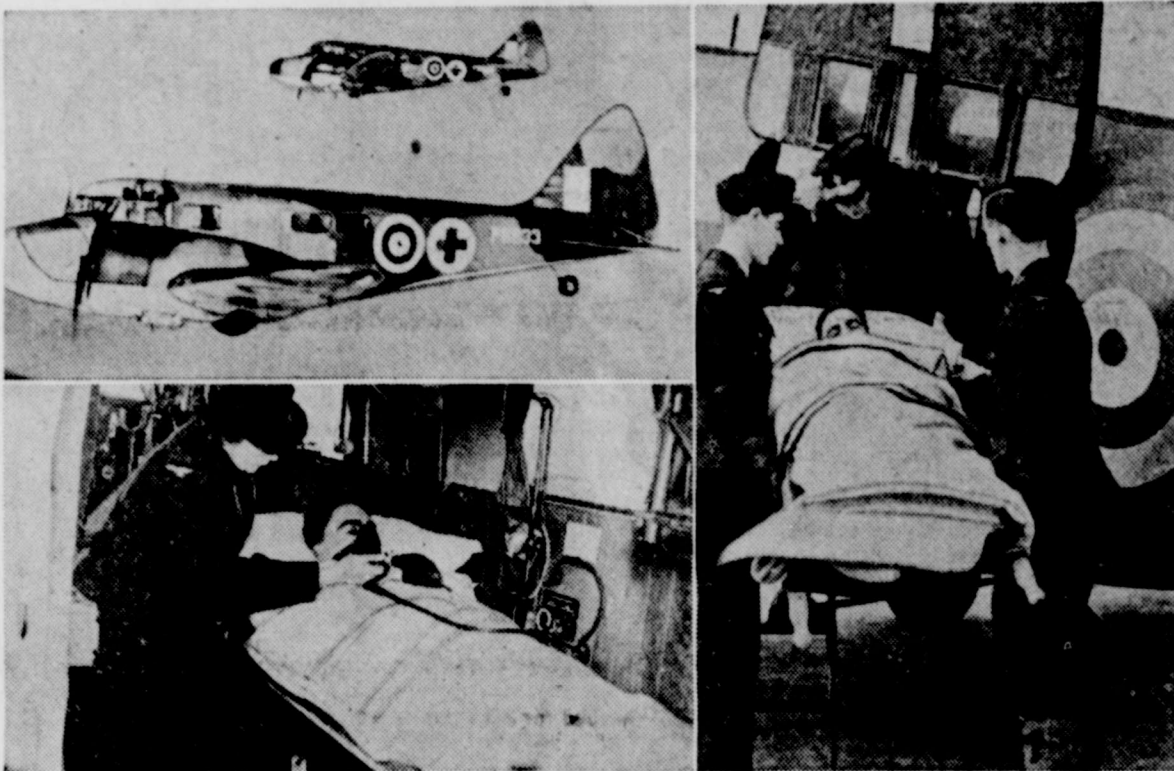

However that might be, German sources did admit that the bombings on Bremen and other key cities had been serious, though minimizing damage of military importance.

America Is Arming, and Arming Fast!

These pictures illustrate the drive towards complete armament being made by the U. S., not only at home, but in our possessions. Left: Guarding one of the strategic entrances to San Juan harbor in Puerto Rico is this 155 mm. coast defense gun. It is being shot for the first time since installation at this spot. Right: A cavalry gun crew hauling a giant cannon to an emplacement during maneuvers at Washington, D. C.

Flying Ambulances of Royal Air Corps

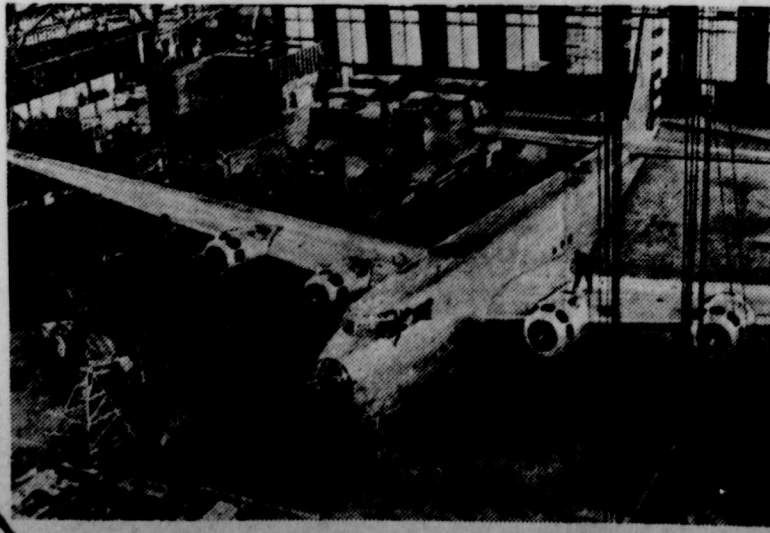

Upper left: Two air ambulances of the British RAF are shown in the air. Lower left: A nurse aboard one of the ambulances is treating a patient, apparently administering oxygen. Right: The patient is removed from the flying ambulance on reaching a spot where accommodation is available.

Big 'Boom' at Knoxville

Here is one of the biggest booms ever! Sixty-two tons of explosives tear down a mountainside at the TVA Cherokee dam site, moving 450,000 tons of rock! The picture, framed by a huge shovel, shows nearly half a million tons of rock cascading down the mountainside, looking for all the world like a huge waterfall.

Sky Giant Nears Completion

The world's largest airplane, the Douglas B-10, pictured in a position in its hangar at Santa Monica, Calif., on the final assembly floor. The 42-ton super-bomber wing measures 215 feet. It is powered with four 2,500-horsepower Wright Duplex-Cyclone engines, which will carry it non-stop more than 7,000 miles.

March for Greece

Greek-Americans, 10,000 strong, marched in New York to celebrate the 120th anniversary of that independence for which they are fighting. Left: Serina Chiros, representing Greece's powerful ally, Britain, and (right) Helen Deys, Greece.

Dobbin's 'Nosebag'

Britain's horses will take a little time to get accustomed to this new type of nosebag, in which there is never any oats. Just a bit of protection against nasal gas.

Washington Digest Government to Encourage Greater Food Production

Prepare for Increased Aid to Democracies; Newspaper Men From Small Town 'Make Good' in Washington.

By BAUKHAGE

National Farm and Home Hour Commentator.

WNU Service, 1343 'H' Street, N. W., Washington, D. C.

WASHINGTON.—Before long the government will take steps to give the American farmer an incentive for raising more animals and increasing the egg and milk output for this arsenal of democracy. It can be safely predicted at this time. Furthermore, with the incentive will undoubtedly go some type of guarantee, as in the case of the manufacturer, that the farmer will be protected at least from possible loss in such undertakings. At most, he might even be guaranteed a profit.

Here is the background of the situation, details of which government officials are not ready as yet to make public:

Food is as much a munition of war as guns. The United States in pledging its aid to democracies is starting to send food supplies to them.

Important Food-Weapons. One of these food-weapons is wheat. We have plenty of that grain. The department of agriculture estimates that at present there are more than 525,000,000 bushels in excess of domestic needs.

Another food weapon, and a vital one for fighting men, is the proteins—meat, milk, milk products, poultry and eggs. Rationing of these products is becoming severe in England. American agriculture does not have surpluses of these things. But farms are the factories where they can be produced, and we do have surpluses of one of the chief raw materials for the process, namely, corn. Present estimates indicate that the corn surplus will reach 700,000,000 bushels by October 1.

How many more cows, pigs and chickens do we need in order to be able to feed ourselves as well as the fighting democracies? That is a hard question to answer. The department of agriculture calls it an "imponderable." It also admits that if everybody in this country right now were getting a square meal we would not have enough of the protein foods to go around.

Hence, the plans-in-the-making to encourage American farms to "manufacture" proteins in the interest of national defense.

Rural Newspaper Men 'Make Good' in Washington

Two small town boys, both trained on weekly newspapers, have made good in the radio world in Washington and neither of them can get the country out of his blood and is proud of it.

One is a lanky, red-haired Hoosier, Robert M. Menough, and the other, scholarly looking D. Harold McGrath, who grew up in the Cripple Creek mining district in Colorado. They are the superintendents, respectively, of the new house and senate radio galleries.

"My favorite newspaper," says Bob, "is the oldest in Indiana and the one I used to work on. It's the Salem Democrat."

McGrath, who has owned two weekly newspapers, says: "I have made seven auto trips from coast to coast in the last seven years and I noticed that the weekly newspaper is on a much more solid basis than it was when I was a publisher 25 years ago. I still think the weekly is the best read news publication in America."

Bob is the veteran of the two in radio because it was the house of representatives which first recognized that radio men needed the same facilities that the members of the long-established press gallery have if they are properly to cover the doings of congress. So in May of 1939 the lower chamber appropriated money for a superintendent and an assistant and amended its rules so that radio newsmen had their own little corner—a pew railed off from the visitors' gallery right next to the newspaper men's seats above the speaker's rostrum.

Senate Follows Suit. The senate, being a more ponderous body, followed suit some months later.

When the question came up to the speaker of the house as to who would be his choice for the superintendent on his side of the Capitol, there wasn't any question about Bob Menough's qualifications. He has been a well-known figure around the Capitol ever since he came to Wash-

ington with Representative C...

Although his family roots go back to the beginning of Salem history, there is an ancient which makes him a little unusual as to who he really is. It is that four generations ago two boys were stolen from two families, the Menaughs and the Leys, by the Indians. One was and one was five. Later, a boy reported that he had heard of the boys, he didn't know where they had died. Still later, the boy returned to the village. But the boy? Six years has passed, a little fellow had an Indian name, he had forgotten his own. Both families claimed him and finally a trial was held and he was awarded to the Menaughs. Bob is a grandson of that boy.

High School Start. Bob started newspaper work at high school, buying an old press, setting the type himself. Later worked on the Salem Democrat, oldest newspaper in Indiana.

He said his greatest thrill came speaking on the first national radio celebrating the opening of the radio gallery on June 22, 1939, in honor shared by your correspondent.

McGrath, head of the senate started work in 1910 at the age of 16 as a reporter, succeeding Thomas on the Victor (Columbia) Record. The Record was a daily and McGrath was to have a reportorial training in Boise, Wallace, Idaho, before he was to go to work.

He paid a hundred dollars and fifty dollars a month for Kellogg (Idaho) Record. McGrath, one job press, one bed newspaper press and a hand type.

"Mrs. McGrath and I learned to peg type and help of one printer got out the until I joined the army in 1918."

After the war he secured a home in Idaho. McGrath came to Washington with Schwellenbach of Washington was with him until he took a gallery job.

Minority Party in U. S. Is Still Important

I walked along the corridor Capitol building, turned down row hall, got into a still case elevator and went up to the floor. Opposite the elevator was the office of a small town boy.

The office was not a new office and the editor was not at the moment—he has to do a remote control most of the nowadays for his newspaper located in North Attleboro, Mass. is Joe Martin, minority leader of the house of representatives, winning his second term as man of the Republican national committee.

The subject of our conversation had to do with what a minority does when a national emergency and partisan politics are to be forgotten. Chairman told me the Republican party has plenty to do.

"The Republican party has big jobs ahead of it today," Scotch-Irish Yankee said. "My job is to keep congress from ahead of the people."

I asked him just what he answered, "and I know they don't want us here in Washington to do anything that will get into war. If it weren't for the continual unspectacular work of part of the minority, especially committees, the country would be in far worse shape than it is."

But a still bigger task Joe Martin told me.

"Our second job," he said, "is to prepare for the situation of chaos of the World war produced the present emergency. Then it will be the responsibility of the Republican party back the democratic party which are being sacrificed for the emergency grants of the executive."

Of course, Chairman Martin believes the country will be saved by the Republicans then, as what a stabilizing force. McGrath says they must continue to run the majority party policies.

Farm and Homilies . . . By Baukhage

The cotton and steel shortage in Britain is threatening morale. A shortage of corsets—made of cotton and steel—is expected. A woman doctor has come out with the suggestion that a roller towel can be used as "corsets." But a male doctor protests. He says the battle lines are not the only ones that must be securely held if the nation's morale is to be preserved.

Probably before this public the entire administration the defense program has changed. The Office of Management whose office was celebrated with so much as the organization which run the whole defense program now about to become half a dozen departments.

The Lamp in the Valley W. N. U. Service

CHAPTER XXIII When I wakened, the next morning, I was puzzled by the scent of balsam close about me...

THE STORY SO FAR disappears. Lander finds Salaria. She had injured her leg while hunting. Barbara misinterprets the rescue and flings away her engagement ring...

INSTALLMENT XIX said, ashamed of the quaver in my voice. Still again Ericson laughed. Solitude, I felt, had played tricks with his mind...

I wasn't until I studied and recognized the second blanket that covered me against the morning chill that I was able to orient myself...

Then a second sound intruded on the morning quietness. It was a faint and far-off drone that grew stronger as it rose and fell with the vagaries of the breeze...

I shouted and waved, as it throbbed overhead, for I knew it was Slim Downey and his ship. The solitude, of a sudden, seemed...

But through that call of helplessness came a sharper sound, a sharp bark that produced an incredibly abrupt change in the poised figure...

His hands were still above his head as his legs crumpled under him. And for one uncertain second he balanced on the cliff edge...

I was conscious of Sock-Eye standing at my side, leaning almost nonchalantly on his long-barreled rifle. "He's dead," I gasped...

I moved out to the cliff edge, scanning the valley for some sign of life. I even gave a gulp of gratitude at the thought that noonday would see us joining Slim and his waiting plane...

My searching gaze coasted the valley bottom, and then the opposing hill slopes, and then the nearer broken ground through which the Big Squaw twined...

I saw nothing until some obscure sixth sense prompted me to turn and study the rock ridge along which I had edged my way out to the cliff front...

I thought, at first, it was Sock-Eye. But in that, I soon knew, I was mistaken. For there was something so malignant and reptilelike in that crawling advance...

At my instinctive cry of alarm that flattened figure abruptly lost its stealthiness. It dropped over the ridge wall, caught up the rifle and stood foursquare in front of me...

I knew then it was Ericson. And my blood chilled as I fell back step by step as he advanced. He laughed again when he saw me come to the cliff edge...

He looked gaunt and harried and a little mad. But what troubled me most was a snakelike air of fortitude about him, the careless persistent knowledge of some venomous power in reserve...

"You can't get all the breaks, bright eyes," he said as he confronted me with his crooked smile. And the mockery in it, the familiar old tone of slypancy...

"What are you going to do?" I asked, ashamed of the quaver in my voice. Still again Ericson laughed. Solitude, I felt, had played tricks with his mind...

one of them times, I'm thinking." "But you killed him," I repeated, leaning on the shaggy old shoulder beside me...

Sock-Eye's laugh was low and mirthless but altogether untroubled. "That ain't botherin' me none," he said. "Any jury north o' Fifty-Six'd say that snake killed hisself."

My earlier sense of helplessness and helplessness swept back on me. I knew a craving for security where no security was to be found. "Where's Sidney?" I cried out in that tightening clutch of desolation...

"I'm here," called Sidney's voice, close behind me. He was out of breath from his hurried climb up the hillside. But there was steadiness in the arms which he clasped about my swaying body...

"Don't leave me," I said as my arms tightened about him. "We'll always be together, after this," he said. His arms closed about me again and I shut my eyes as I felt his lips on my lips...

"I reckon it's a pot o' coffee you two cheechakos need t' steady you down a bit," he observed. "And while I'm wastlin' that, jus' kind o' remember there's a bush hawk's still waitin' for you over t' Cranberry Lake."

It took Sidney a little time to come back to earth. But he still clung to my hand. "And what'll you do?" he questioned the old-timer. "Head back to Matanuska?"

"Back t' that mess o' misfits?" was Sock-Eye's answer. "Not on your life. I've got me two burros outspanned over in the next valley bottom and I'm a-goin' t' mosey out t' the open hills where I belong."

"But you can't do that, Sock-Eye," Sidney objected. "You're going to be needed before this is cleared up." Sock-Eye reached for his chewing plug...

"She's plumb cleared up a ready," he maintained. "And since you two dunderheads've finally made sure where your pay dirt lies and discovered how you was kind o' made for each other, from the first crack out'n the box, I don't see no call for me lingerin' around this neck o' the woods..."

I felt he was too old and spent for that sort of lone-fire adventuring through the valley bottoms of the North. But there was something still gallant and intrepid about the shaggy figure as he stepped over to the taller man and placed a hand on the shoulder that stood almost as high as his own head...

"You've got a straight-shooter in this gal of ' Klondike Coburn's," he solemnly asserted. "She's a danged sight finer'n you deserve. And if you don't treat her right, down the years that's left t' you, I'll sure amble out'n these hills and fill your carcass so full o' lead they'll be usin' you for a plumb bob."

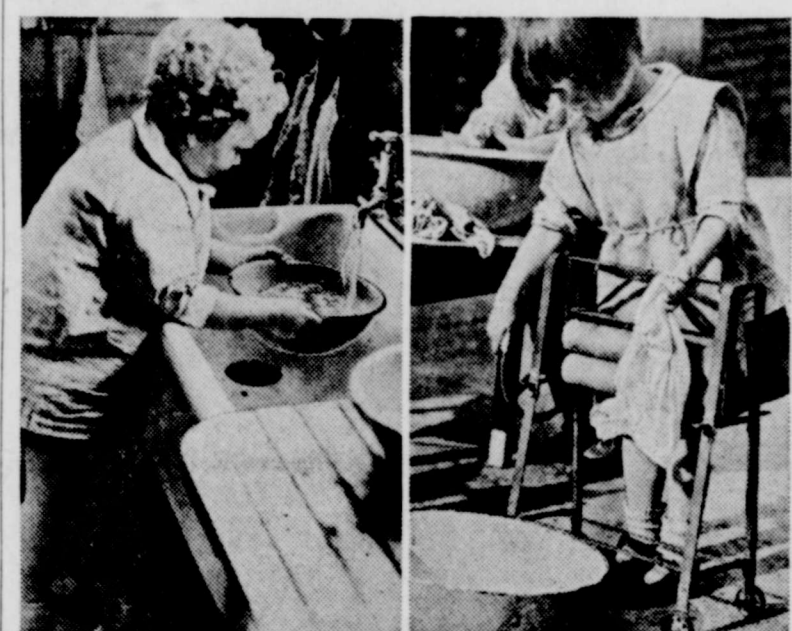

[THE END]

Britain's School of Experience

Today the homes of England are "military objectives," and British babes are born and reared in battle lines. The Gypsy Hill Training college, in southeast London, met the problem of what to do with babies whose mothers and fathers were engaged in war effort. Pictures show how these children learned to help themselves.

These little fellows are dishing out the breakfast porridge—out-meal to you—and are so intent upon the task that the photographer might have been a piece of the miniature furniture.

A very low sink enables this little curly-top to fill his wash-basin without having to stand on anything but his feet. And here is a little laundress using her pint-size mangle to do a job of pressing. Small as it is, it does the work efficiently.

A little dinner party in session. The children look after themselves, food being served by children to the music of a little piano that plays nursery rhymes.

After play the children go to work with soap and water and their little scrubbing brushes. The wash benches are toy size. Mother used to supervise the tooth-brushing and gargling of this little lady. Now she does all that solo, and seems to enjoy it.

HOUSEHOLD QUESTIONS

If your floors are worn and will not hold wax, try touching up the worn places with white shellac and then wax. The floors will be much improved by this treatment.

Save all celery tops, wash and dry them and place in the oven, turning them now and then. Store the leaves in an airtight tin. Use them for flavoring soups, salads, etc.

If using icebags in a sickroom, instead of shaving ice each time you wish to fill a bag, to save time shave enough to fill a quart pitcher and keep it in the refrigerator.

Paint piazza and garden chairs now so that they may be thoroughly dried before you wish to use them.

Grease the inside of the container, near the top, to keep milk from boiling over.

J. Fuller Pep

My wife says: "Fuller, if you don't quit eatin' Kellogg's Pep we're agoin' to hitch an anchor to you to keep you from flyin' over the neighbors' fences."

Which is a darn exaggeration because you have to get all your vitamins to feel as good as I do. And Pep has the two that are least plentiful in ordinary meals—vitamins B, and D.

PEP's a goshawmighty fine cereal, though, that lots of people eat just for its taste. Why not try it?

Kellogg's PEP A cereal rich in vitamins B, and D

To be Seventy young is sometimes far more cheerful and hopeful than to be forty years old.—Oliver Wendell Holmes.

MINOR SKIN IRRITATIONS 5¢ MOROLINE 4¢ 10¢ WHITE PETROLEUM JELLY

With the Brave Join the company of lions rather than assume the lead among foxes.—The Talmud.

Black Leaf 40 KILLS APHIS One ounce of "Black Leaf 40" makes six gallons of effective aphid spray...

Dare to Reach No one reaches a high position without daring.—Syrus.

THE TRUTH SIMPLY TOLD Today's popularity of Doan's Pills, after many years of world-wide use, surely must be accepted as evidence of satisfactory use.

These physicians, too, approve every word of advertising you read, the objective of which is only to recommend Doan's Pills as a good diuretic treatment for disorder of the kidney function and for relief of the pain and worry it causes.

If more people were aware of how the kidneys must constantly remove waste that cannot stay in the blood without injury to health, there would be better understanding of why the whole body suffers when kidneys lag, and diuretic medication would be more often employed.

Burning, scanty or too frequent urination sometimes warn of disturbed kidney function. You may suffer nagging backache, persistent headache, attacks of dizziness, getting up nights, swelling, puffiness under the eyes—feel weak, nervous, all played out.

Use Doan's Pills. It is better to rely on a medicine that has won world-wide acclaim than on something less favorably known. Ask your neighbor!

DOAN'S PILLS

WNU-L 15-41 MORE FOR YOUR MONEY

Read the advertisements. They are more than a selling aid for business. They form an educational system which is making Americans the best-educated buyers in the world.

The advertisements are part of an economic system which is giving Americans more for their money every day.

THE SMOKY YEARS By Alan Le May Dusty King had been murdered—Dusty, who had been like a father to Bill Roper. Then Roper—who had been a respectable man—turned "outlaw" to "get even." How Bill Roper gathered together a tougher, more desperate band of outlaws and rustlers, beat the Thorpe gang at their own game, and drove them out of the country, is told with breathless speed and with fidelity to the history of those epic times in "The Smoky Years." Don't miss it!

"Official City and County News"

ROY W. HAHN
Editor and Publisher

WANTED: a bank in Silvertown by harvest time. (signed) —SILVERTOWN COMMUNITY

BUSINESS, BUSINESS, all I got is business. Worked last night till 2:30—up and at it again this morning at 5:30. I wouldn't trade the Briscoe County News for a branch of the U. S. Mint. But, I could use a little sleep right now.

DOC MINYARD just called and my gas bill isn't paid. It do beat all how us money men have to manage.

LAST WEEK I ran a pretty much of a bouquet for the Floral Club and how they have worked so long to get a park for Silvertown. Another bunch of ladies that I'd like to honor is the Garden Club ladies.

IN THE FIRST place, until it's proven differently, I believe that they are the best cooks in town. They have been feeding the Lions Club for six months and they really feed. They are pretty good managers too. In the time they have fed us, they have cleared a little over a hundred and fifty dollars. They use their money in keeping up our cemetery. There's not a cent of it used selfishly or foolishly.

DON'T TELL ANYONE but I secretly believe that when it comes to getting things done, our women-folks have got us whipped down pretty bad.

FROM THE LOOKS of our "Aid to England" scrap iron pile, Great Britain is going to get the tar whipped out of her. In one whole week, we have had one load brought in — JOE H. SMITH brought it. What's the matter with us anyway—or are we just fresh out of iron?

JACK JUST CAME in from school, which means that it is time to try to wind this baby up. This column is very punk, even punker than usual, but on the other hand, I'm in a very delicate state of health and frame of mind.

DON'T FORGET to read the ads carefully this week. You will find some money savers in shopping here this week.

Silvertown Lions Club
Wednesday Noon

For Protection . . .

Your motor needs protection against summer operating heat. Change to summer Mobiloil for REAL motor protection and 1-o-n-g oil mileage.

Mobiloil helps keep your motor clean, smooth-running and powerful. It protects pistons and cylinders against the high temperatures that motors generate during Southwestern summers.

Mobiloil is free from gum, tar, and sludge. Drive in and let us refill your crankcase with the correct grade of summer Mobiloil.

Maurice Foust

Silvertown's Hollywood

The way I "heard" it - there is going to be some mighty good shows down Palace way this week end...Pictures which each of you will enjoy seeing...Just a little later I will tell you more about them.

Free pass to Mrs. Dick Garvin
It has been "nigh onto" three weeks since I last wrote this column myself. For one reason and another I have been unable to make connections at the time Roy needed the copy. One of the weeks I was in conference with the flu... But you can rest assured that neither the column nor our friends and patrons have been forgotten for one single moment.

There is one thing I sincerely want each of you to remember when you step up to the Palace box office and buy a ticket to see a show that is not the end of interest in you. We try to show only programs which you will enjoy and if at all possible we will be very glad to make whatever changes necessary to provide further for both your enjoyment and comfort.

Free pass to Mrs. Troy Burson
Every single ticket we sell at the Palace is mighty important to us...The number of those tickets mean our success or failure...And we do want to succeed.

Free pass to W. K. Grimland
Just because you don't see me around as much as you do Odell is no reason to believe that I am not just as interested in Silvertown and its problems as if I lived here and met each of you every day...That is the way I hope you can feel toward the Palace.

Now for some things about those good programs coming up over the week end.

Friday and Saturday finds another of those great double feature programs...The first and most outstanding is "One Million B.C.". If there ever was a picture which captivates the imagination and provokes speculation this picture surely will fill the bill...Here is a picture which draws on the imagination to the very limit...Although suggesting such in the title the picture does not deal in any way with Biblical history or fiction...On the other hand it merely suggests conditions and "animals" which might have roamed the world back in the dawn of history. And animals there is!!!...Every letter in the alphabet is utilized in spelling the names of some of them...Anyway they are all good actors and will provide you with some very thrilling entertainment. By the way there is a good romance woven into this story...Not the "mushy, mushy" kind but with "cave man" tactics.

Free pass to Carl Crow
The second part of this program is a Johnny Mack Brown Western "Pony Post" which is above the ordinary western in many ways and will please all western fans... All in all here is a program "not to miss".

At the Free-vue and Sunday and Monday you will see a very outstanding picture "Adam Had Four Sons"...Costarring in this picture are Warner Baxter and Ingrid Bergman...Into a placid peaceful home comprised of four sons comes a modern "Eve" upset all the tranquil trends of life... Herein is found a story of tragedy

and deep love...This is recommended as a "must" picture on your list.

Now next Tuesday, Wednesday and Thursday we really do have a program...Flight Command" starring Robert Taylor, Walter Pidgeon and Ruth Hussey...In the classification of "air pictures" here is a top production...A picture which will thrill you every moment it is on the screen. In spite of the cost of this film, we are charging only 10 cents and 15 cents for this picture.

Free pass to Joe H. Smith
Several have asked us why we had a few midweek pictures at straight 10 cents for all and now have to charge 15 cents for adults. We can show you a poor grade of picture for only 10 cents for all, but we can't show the type of pictures we are now showing in the middle of the week for 10 cents. So if you had rather have a lower classed picture and everybody see it for 10 cents let us know about it and we will try to make the necessary changes.

By this time most of you have received a copy of our April calendars...Here is a line-up of pictures which will please everyone. You will not find better made nor any theatre showing better...That brings us to the parting thought - if it's worth seeing you will see it at the Palace.

FSA URGES MORE CANNED GOODS

With urban housewives throughout the United States complaining about advancing food prices, and American Agriculture faced with surplus commodities, there is one large part of the population that is going about its business of creating an adequate reserve supply of food for home consumption, according to Jessie Mae Watson, Home Management Supervisor for the Farm Security Administration in Briscoe County.

"Canned goods in the cellar are one surplus that's not harmful", Mrs. Watson said. "FSA borrowers are aiming at only insuring good nutrition for their families the year round, by giving extra emphasis to their gardens. Canning and storing garden produce is a common practice among the thrifty homemakers," she continued, "and more FSA borrower-farmers in this county are now planning bigger gardens than ever before."

Mrs. Watson called attention to the fact that many farmsteads have not been producing enough garden stuff to keep the family healthy during the winter months. "When farm families come to the FSA for financial assistance they are encouraged to produce as much as possible of their living at home," Mrs. Watson said, "and big diversified gardens are to be found on most farms operated by families working with this federal agency."

Good nutrition, it was explained, requires 800 pounds of vegetables for an adult for one year. "The question, 'Will our garden furnish this much for every member of the family?' is an important one to FSA borrowers", Mrs. Watson continued.

1. Before planting, figure how much should be canned and stored, besides vegetables for summer use and how much garden it will take to grow these amounts.
2. Locate garden where it will have the best soil and the most protection from hot winds; plan artificial wind-breaks and means of getting run-off water from the wind-mill or other irrigation, to it.
3. Secure good seed, disease-free, adapted to local conditions, cooperate with other farmers in group buying of seed packets.
4. Plant early to assure maturity ahead of hot weather and start certain vegetables in flats around the house.
5. Plan additional late plantings for fresh fall vegetables and storage; plan fall plowing and if necessary, change location of next year's garden.

HEAVILY TAXED

More than half of all the oil produced in Texas already pays a tax of over 10 cents on a barrel, a survey just completed by Texas Mid-continent Oil and Gas Association statisticians shows. Twenty-two separate taxes are levied against Texas oil producers.

The survey, based on tabulation of records of all 254 counties, shows that more than half the State's oil bears taxes of 10 cents a barrel. All of the oil produced in Texas pays an average of 9.23 cents a barrel, while some counties the taxes amount to 20 cents per barrel.

Texas oil producers now pay separate taxes or 21 additional taxes on State gross production tax, a statement today from the association points out. "In fact, analysis of the various tax levies by oil produced in 33 leading Texas oil counties (which produce over half of the State's total output) shows that the State production tax of 2 1/2% per barrel makes up less than 29 cents of each dollar collected in State local taxes on oil production producing properties. The fact that so much of this oil already pays over 10 cents a barrel is noteworthy in view of statistics sometimes heard that Texas should pay 10 cents a barrel

These 22 taxes do NOT include taxes paid on refining, pipe lines or other branches of the industry except the production tax. Nor do they include gasoline taxes paid by the individual motorist.

The oil tax situation is different from that of any other State," the association statement explains. "There are more than 9,000 separate local taxing subdivisions in Texas, each of which is empowered under the Texas constitution to levy and collect taxes. Many of these are independent taxing agencies such as cities, independent school districts, water districts, road districts, etc. Every field within the jurisdiction of these taxing agencies is subject to property assessments and tax levies deemed necessary by the respective taxing officials."

paid by the Texas oil producer from the money he receives for his petroleum, his sole source of income."

NEARLY ONE OUT OF EVERY THREE MEN REJECTED

Data released by the Texas State Headquarters for selective Service reveal that out of the first 9,568 Texas "draftees," 28.79 per cent, nearly one out of every three were temporarily or permanently rejected for active service because of health defects. These figures show a slightly lower percentage of rejectees than during the draft period of World War I, when 31.2 per cent of the men examined by local draft boards were rejected.

"On the basis of these figures, we find evidence of the tremendous task that lies ahead of us if the degree of physical fitness required for an all-out national defense program is to be attained. The professions of medical science and public health are utilizing every weapon at their command to improve the state of the Nation's health, but they alone cannot win the battle. The support of each individual citizen and his cooperation are invaluable in raising the health levels of the Nation and the State," Dr. W. Cox, State Health Officer stated.

Further examination of the medical reports on the first nine thousand Texas draftees provides statistical information on the most prevalent health defects and indicates where the greatest health hazards lie among the younger male population.

Of the 2,737 young men rejected for military service, or placed in limited service groups, 967, or 10.17 per cent of the total draftees, were placed in Draft classification I-3 as having minor physical defects, perhaps remediable, which would make them unadaptable to the regular military service. In Class I-B the physical impairments most commonly found were defects in the eyes, 163 cases; hernia, 122; syphilis, 132; skeletal-muscular defects, 97; teeth, 90. The 363 additional rejections for various other physical defects brought the total of Class I-B rejections to 967.

Classification IV-F (permanent

rejection because of physical defects) numbered 1,770 persons. Out of this number, 430 were rejected because of skeletal-muscular defects, 235 because of syphilis, 189 because of impaired vision; 162 because of diseases of the nervous system, 126 because of heart trouble; 87 because of hernia; 85 because of teeth; 78, eye, ear nose and throat diseases; and 378 persons rejected for other physical defects.

It is impossible to know without consulting the case histories of each individual rejectee to what his physical fitness can be attributed. It can be established that there are many indications of improper childhood care of harmful and debilitating personal health habits, of malnutrition and lack of attention to positive health measures.

The above figures are not without significance to every thinking citizen. They reveal that in the period since the World War the tremendous advances made in the field of medical science and public health have not had as positive an effect on the health of the public at large as is desirable or necessary if we as a nation are to have optimum health.

One obstacle to translating this knowledge into gains in health for the average citizen has been the difficulty of providing local public health services so that health control measures are available to all our communities, regardless of size, location, or per capita income. The work of public health units is limited primarily toward the emphasis on positive,

"Milestone Car" Presented to Contest Winners

Presentation of Chevrolet's "Milestone Car"—the 1,000,000th 1940 model produced by the industry's leader—made at the New York World's Fair last week to Mr. and Mrs. Ernest Weinert (shown here), of Iron Mountain, Mich., owners of the millionth Chevrolet six-cylinder model, built in 1929. The Weinerts were winners of a nation-wide contest conducted by Chevrolet to locate No. 1,000,000. As guests of Chevrolet, the Michigan couple drove to New York, arriving at the Fair with more

than 110,000 miles on their '29 car, which Weinert had purchased as a used car, at a price of \$25. M. E. Coyle (left), general manager of Chevrolet, presented the new 1940 Special De Luxe model to the Weinerts. Chevrolet's production of a million units this year maintains a seven-year record of a million a year average, with the 1,000,000th 1940 car following No. 999,999 by exactly one month. The well-traveled 1929 model has been returned to Detroit, where it will be placed on display.

If you would avail yourself of the opportunity of a lifetime, wire me, but unless you are fully prepared to pay the tariff for such service, don't bother me as I am so nervous I can't stand still long enough to have my dresses fitted. (From Venus Express)

IF YOU LIVE IN the Panhandle YOU'RE IN THE OIL BUSINESS

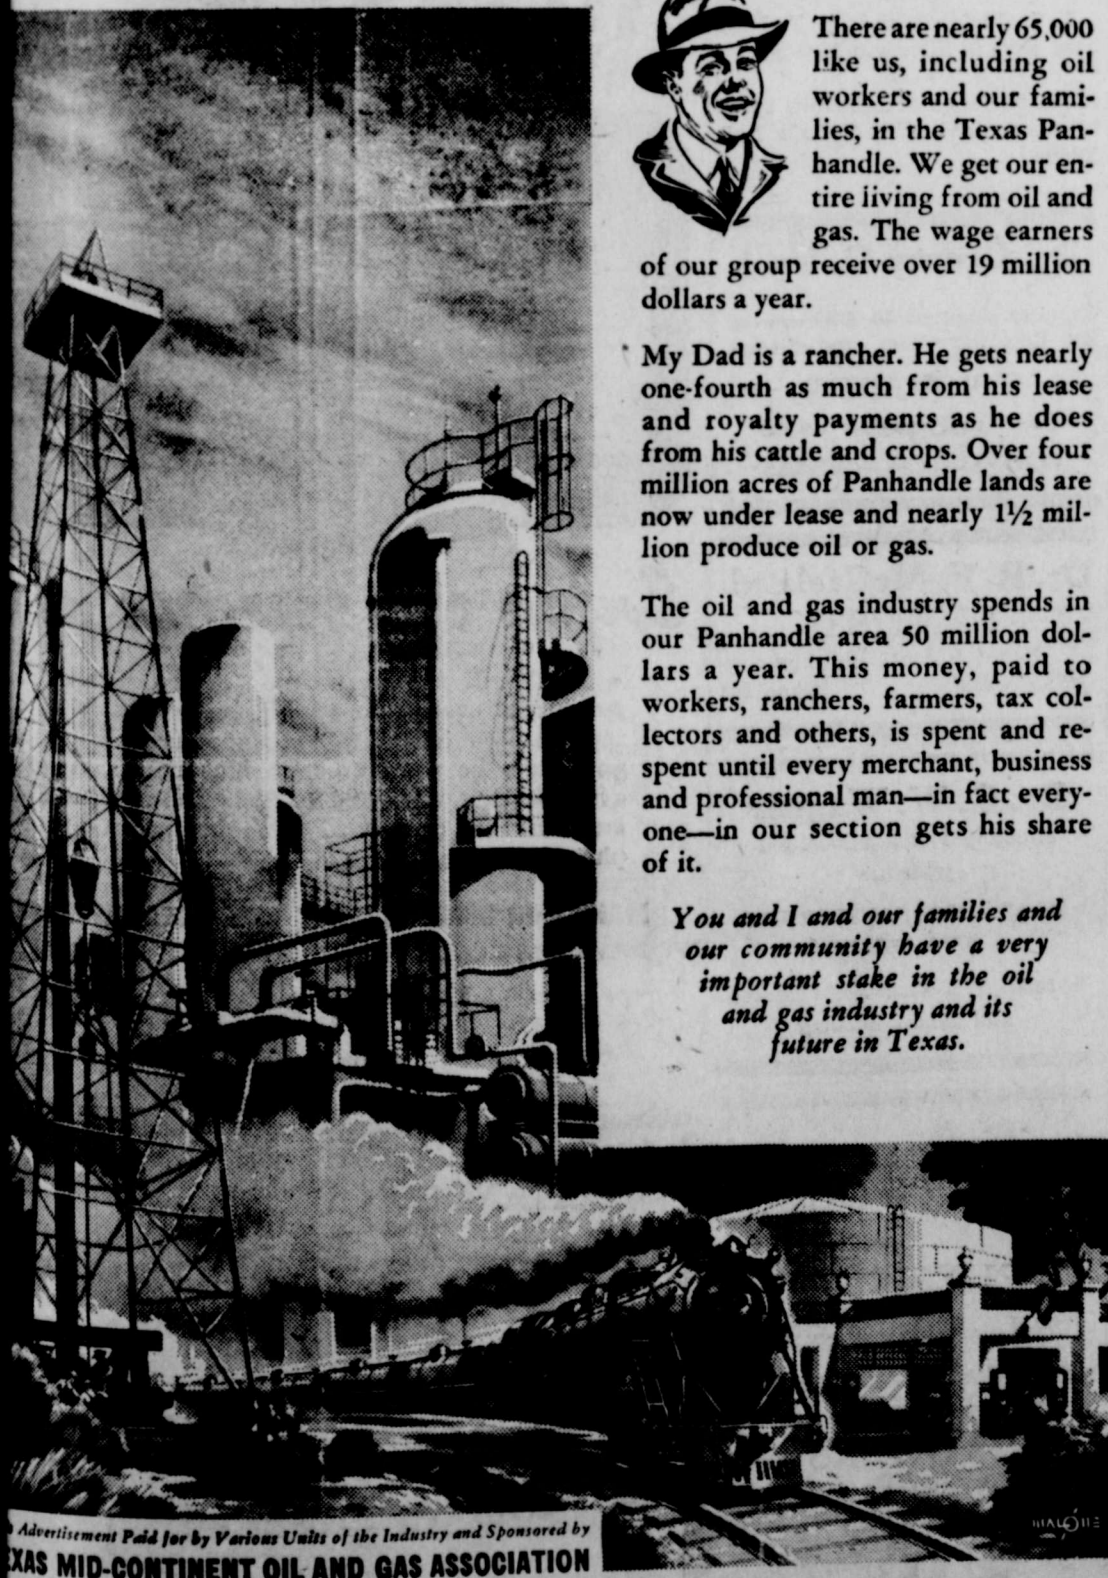

There are nearly 65,000 like us, including oil workers and our families, in the Texas Panhandle. We get our entire living from oil and gas. The wage earners

of our group receive over 19 million dollars a year.

My Dad is a rancher. He gets nearly one-fourth as much from his lease and royalty payments as he does from his cattle and crops. Over four million acres of Panhandle lands are now under lease and nearly 1 1/2 million produce oil or gas.

The oil and gas industry spends in our Panhandle area 50 million dollars a year. This money, paid to workers, ranchers, farmers, tax collectors and others, is spent and repaid until every merchant, business and professional man—in fact everyone—in our section gets his share of it.

You and I and our families and our community have a very important stake in the oil and gas industry and its future in Texas.

THE RECORD . . . Facts That Concern You No. 26 of a Series

ARE YOU SEEING ONLY PART OF THE PICTURE?

The great majority of beer retail establishments are clean wholesome places.

Yet it is the once-in-a-while exception—the anti-social, law-violating tavern that everybody notices.

Such undesirable retailers give beer a bad name it doesn't deserve. Furthermore, by arousing public indignation, retailing abuses endanger your right to enjoy good beer, the beverage of moderation. They also endanger the benefits that beer has brought to Texas—31,165 persons employed since re-legal-

ization, an annual payroll of \$22,076,182 and \$2,273,968.64 taxes paid last year.

While it is the brewers' responsibility to brew good beer and the retailers' responsibility to sell it under wholesome conditions, nevertheless the brewing industry wants anti-social retailing eliminated entirely.

You can help us by (1) patronizing only the legal and reputable places where beer is sold and (2) by reporting any law violations you may observe to the duly constituted law enforcement authorities.

BEER...a beverage of moderation

ECONOMIC HIGHLIGHTS

Weeks ago opponents of the lend-lease bill admitted that their cause was lost. From the beginning, it was a certainty that the bill would go through. And so, when an irritable, debate-weary Senate finally voted on the bill on the evening of March 8, it came almost as an anti-climax. There was no filibuster. There was no excitement. Congress simply gave its formal approval to a fateful, far-reaching policy which had been established and decided in all basic essentials long ago.

The bill passed with comparatively little change. It gives the President powers which can be compared only to those conferred on Wilson during the World War. He is, in short, empowered to sell, transfer title to, lease, lend or otherwise dispose of any and all war materials to any powers whose defense he considers vital to the defense of the United States. The Senate added three more or less important amendments all of them approved by the White House. One ends the authority of the President to enter into contracts, on June 30, 1943, and stipulates that all contracts must be fulfilled by July 1, 1946. Another limits orders for war materials to amounts which will later be authorized by Congress, and adds a stipulation that not more than \$1,300,000,000 worth of war supplies now possessed by our Army and Navy can be transferred. The third requires the President to report to Congress on the progress of the program each 90 days.

Two much-publicized proposed amendments were beaten. One would have forbidden the Presi-

dent to allow the U. S. Navy to convoy supply ships abroad. As White House spokesmen pointed out, this meant little or nothing, inasmuch as the Constitution gives the President as Commander-in-Chief of all the military forces, almost unlimited authority over naval actions and policy, and it would take a Constitutional amendment to change that. The other amendment would have forbidden sending an A.E.F. to foreign lands without explicit Congressional approval. Administration leaders said this would weaken our foreign policy, particularly in the Far East, by measuring our possible enemies that we would be unable to back up our talk with action. Congress concurred.

The vote did not divide strictly party lines. The Democrats held the forces well in line—49 voted for the bill, and but 13 against. The Republicans split. Seventeen said no. Ten voted yes—including the party's Senate leader, McNary of Oregon.

It has been widely reported that Mr. Roosevelt was just waiting for Congress to finish its wangling before taking drastic steps of iron out arms production difficulties. It is one thing to pass a law providing all-aid to England—it is a very different thing to produce and ship the arms the belligerents so desperately need. The defense high command has already been shaken up, but there is still considerable division of responsibility. No one man has been given supreme command, as was Bernard Baruch in the 1917 War Industries Board. The feeling persists that the President will be forced to do this before long. And reports are also going around that some of the

men high in defense councils have not proven to be such production wizards as their build-ups indicated.

In the meantime, it is next to impossible to find out exactly how or badly the defense drive is going. Some say it is in fearfully bad shape; others say that it is progressing as well as can be expected. What may prove to have been an important declaration was lately made by ex-Ambassador Bullitt in a speech before the Overseas Press Club. Mr. Bullitt said that "we could double our planned output of airplanes and tanks and merchant ships and guns in 1942 if we would buckle to the task now." He indicated that a declaration of "full emergency" may be necessary to awaken and prod the country, and Mr. Bullitt has often reflected the Presidential direction of thinking in the past.

It is true however, that the physical efforts of the arms drive can be seen in great quantity now. Manufacturing towns are mushrooming. Shipyards are springing up. Close to 150,000 drafted men are under arms and training. Airplane production is undoubtedly rising. In other words, progress is being made—but many an expert thinks it is far slower than the nation has a right to expect.

Antelope Flat News

By Nadyne Waldrop
J. W. Rowell came home Tuesday from the CCC Camp in New Mexico.

S. A. James was in Memphis Tuesday.

W. N. Bullock, Emma Bullock,

Mrs. Oscar Bullock, and children, Mrs. Bill Edens, and La Nell Miller attended the play day program at Brice Tuesday.

Your SINCLAIR Agent ANNOUNCES A New Service for the Silverton area

Beginning this week, Dwain Foster, your friendly SINCLAIR DEALER in Tulia and Silverton is starting a new service for the farmers of this area. We have purchased two new large streamlined tank trucks which will run on regular schedule past your farm two times each week in order that you may tell us what you need in gasolines, farm fuels, motor oils and greases, and it will be delivered to you on the spot. We also have another new tank truck and pickup which will serve the city of Tulia and the territory close in.

These new streamlined tank trucks are in reality a service station on wheels, for we can service your tractor or other motors as completely as any service station. We can fill your tanks or barrels right from our truck, which has a metered pump to show just how many gallons you are getting. Always, we will carry a complete stock of farm fuel, motor oils and greases for your convenience on the farm. Just let our trucks know your wants, and we'll supply you with high quality SINCLAIR fuels and motor oils.

Above is shown the four new trucks and equipment that your SINCLAIR Dealer will use to serve the rich, fertile farm area around Tulia and Silverton. Your SINCLAIR Dealer in Tulia and Silverton is ready to serve your every need in petroleum products. The men in the picture are, (left to right) Ellis Stewart, Bookkeeper; Dwain Foster, Agent; Howard Stoltenburg, Truck Driver; Ben Schafer, Truck Driver; and Bennett Haley, Truck Driver.

One of our new streamlined trucks will run past your farm twice daily in the area immediately around town. Ben Schafer will service the Nazareth territory, which will include the east part of Castro County and the west part of Swisher County. This truck will run past your farm twice each week. Bennett Haley will service Briscoe County and Silverton, and the east part of Swisher County and will make this regular route twice each week.

One of our new streamlined trucks will run past your farm twice each week... watch for our new green tank trucks with the SINCLAIR Sign... They will be ready to take care of your every need in gasolines, motor oils, and greases. Remember too, they will be dependable SINCLAIR products.

INDUSTRIAL SABOTAGE AND THE AMERICAN SYSTEM

WE AMERICANS, the people of the cities, towns and farms, have a vital interest in the labor turmoil throughout the nation.

As taxpayers, we are interested in the terrific increase in cost of the preparedness program these strikes involve and which we must pay.

As consumers, we are interested in the increased costs of the things we must buy.

But our greatest interest is in the effect it may have on our system of government, on our way of life, on our future as a nation.

A part, a small part, of the turmoil is occasioned by an honest effort on the part of labor leaders to better conditions of the working classes, to increase their standard of living. With that small part the vast majority of American people will have no objection, will offer no protest.

Another part, and a large part, is occasioned by gangsters, not working men, who have seized control of labor organizations and who are seeking personal profit from the agitation they create. All too many of the labor organizations are today controlled by such gangsters, who are collecting vast sums from the working classes and reporting to no one but themselves.

Another part, also a large part, and one in which we Americans are especially concerned, is occasioned by fifth columnists who would, through created labor difficulties, change our form of government, our way of life.

Representative Dies, after long and careful investigation, tells us the Communist party is attempting, through the creation of industrial strife, to socialize American industry and remodel it on the Russian plan.

Former Ambassador Bullitt tells us that because of these industrial conflicts, we are headed for the fate that befell France.

It is the part of the industrial turmoil engendered by these alien isms that is our greatest concern. We object to the sabotaging of that system, that way of life which has made us the most prosperous people, with the highest standard of living of any nation on earth.

America cannot countenance such alien methods. Our political leaders of all parties should realize the vast majority of all us—laboring men, farmers, manufacturers, merchants, all—are strenuously opposed to a continuance of the activities of the adherents of any European ism in their efforts to destroy us; that we demand legislation to stop the calling of unjustified strikes, the underlying purpose of which is to undermine the American system of government.

The fifth columnist and the gangster will go to all lengths to gain their ends. There is no place in American labor organizations for either of these.

OH FOR THE FOOD OF THE 1941 SOLDIER

IT IS A LONG JUMP from "canned willie," salt pork, boiled spuds, boiled beans, hardtack and cheap coffee to roast duck, turkey, ribs of beef and Yorkshire pudding, asparagus tips, au gratin potatoes, ladyfingers, lemon meringue pie, cream puffs, and all the other delicacies which can be found on a Waldorf-Astoria menu.

That represents the difference between soldiering in 1898 and soldiering in 1941. I was soldiering in 1898 and as I see the difference, am sorry I am past the draft age in 1941.

Well do I remember how, as a cavalry troop officer, I confiscated a box of cake, cookies and other sweets which a fond mother sent to her son, because the doctors told me no soldier could eat such food and survive the rigors of a soldier's life and work.

As I see the luxurious barracks constructed for our soldiers of today, I recall how I was threatened with a court-martial because I had taken the dividend my troop received from the regimental canteen to buy lumber for floors in our troop tents so the men might get out of the mud and stay out of the hospitals. That is another difference between soldiering in 1898 and soldiering in 1941.

In 1898 the "top kick" assigned the dumbest men of the troop—the men who could not do "fours right" and "fours left" to the kitchen as cooks. Now they give company cooks a special schooling, teach them all about calories and vitamins, before they permit them to cook, and for cooking they pay them extra money. What a jump from 1898 to 1941.

Even as late as 1918, rations were not tops, but they had improved as compared to 1898. I stopped one day for a meal with a Texas outfit in France just before the close of the first World war, and it consisted of a beef stew—the best beef stew I ever ate, and better than anything one could get in England at the time. I thought it was the best soldier food ever heard of, but it did not compare with the things our soldier boys are being served today.

Who would not want to be a soldier?

As I see the luxurious barracks constructed for our soldiers of today, I recall how I was threatened with a court-martial because I had taken the dividend my troop received from the regimental canteen to buy lumber for floors in our troop tents so the men might get out of the mud and stay out of the hospitals. That is another difference between soldiering in 1898 and soldiering in 1941.

In 1898 the "top kick" assigned the dumbest men of the troop—the men who could not do "fours right" and "fours left" to the kitchen as cooks. Now they give company cooks a special schooling, teach them all about calories and vitamins, before they permit them to cook, and for cooking they pay them extra money. What a jump from 1898 to 1941.

Even as late as 1918, rations were not tops, but they had improved as compared to 1898. I stopped one day for a meal with a Texas outfit in France just before the close of the first World war, and it consisted of a beef stew—the best beef stew I ever ate, and better than anything one could get in England at the time. I thought it was the best soldier food ever heard of, but it did not compare with the things our soldier boys are being served today.

Who would not want to be a soldier?

INDIGESTION

may affect the health of the individual.

One trapped in the stomach or bowels may suffer from indigestion. At the same time, smart men and women depend on the health of their bowels. No laxative but one of the most famous known for its ability to relieve indigestion. It is called "FAST PENETRO" and it is available in all drug stores.

Contagious Exams

Nothing is so contagious as a bad example. And we never do good or great evil which we have not first seen in others. We are all influenced by the actions of others. We are all influenced by the actions of others. We are all influenced by the actions of others.

OH FOR THE FOOD OF THE 1941 SOLDIER

IT IS A LONG JUMP from "canned willie," salt pork, boiled spuds, boiled beans, hardtack and cheap coffee to roast duck, turkey, ribs of beef and Yorkshire pudding, asparagus tips, au gratin potatoes, ladyfingers, lemon meringue pie, cream puffs, and all the other delicacies which can be found on a Waldorf-Astoria menu.

That represents the difference between soldiering in 1898 and soldiering in 1941. I was soldiering in 1898 and as I see the difference, am sorry I am past the draft age in 1941.

Well do I remember how, as a cavalry troop officer, I confiscated a box of cake, cookies and other sweets which a fond mother sent to her son, because the doctors told me no soldier could eat such food and survive the rigors of a soldier's life and work.

As I see the luxurious barracks constructed for our soldiers of today, I recall how I was threatened with a court-martial because I had taken the dividend my troop received from the regimental canteen to buy lumber for floors in our troop tents so the men might get out of the mud and stay out of the hospitals. That is another difference between soldiering in 1898 and soldiering in 1941.

In 1898 the "top kick" assigned the dumbest men of the troop—the men who could not do "fours right" and "fours left" to the kitchen as cooks. Now they give company cooks a special schooling, teach them all about calories and vitamins, before they permit them to cook, and for cooking they pay them extra money. What a jump from 1898 to 1941.

Even as late as 1918, rations were not tops, but they had improved as compared to 1898. I stopped one day for a meal with a Texas outfit in France just before the close of the first World war, and it consisted of a beef stew—the best beef stew I ever ate, and better than anything one could get in England at the time. I thought it was the best soldier food ever heard of, but it did not compare with the things our soldier boys are being served today.

Who would not want to be a soldier?

Help to Relieve Distressing FEMALE PERIODIC COMPLAINTS

Try Lydia E. Pinkham's Compound to help relieve your pain, headaches, backaches, nervousness, irritability, and all the other distressing symptoms of the female menstrual system. Pinkham's Compound is a marvelous medicine for women. It is famous for over 40 years. Hundreds of thousands of women report remarkable relief. WORTH TRYING!

WATCH the Special

You can depend on the special sales the merchant in our town announce in the columns of this paper. The mean money saving to our readers. It always pays to patronize the merchant who advertises. They are not afraid of their own chandise or their price.

Household News by Lynn Chambers

GOOD TIDINGS FOR THE EASTER BREAKFAST (See Recipes Below)

EGGSTRORDINARY!

With the passing of winter and the arrival of spring comes the joyful Easter season...

Make your Easter breakfast the No. 1 breakfast of the year—the time when the whole family...

Let color-splashed eggs be the centerpiece. You can use those that the children have...

While they're still "oh-ing" and "ah-ing," serve "eggs in nests"—just to keep the theme in mind...

"Eggs in Nests." (See picture at top of column) 1 egg 1/4 teaspoon salt Butter

Separate egg, placing white in small, deep bowl and retaining yolk in one of the half shells...

Remove the bread crusts from a loaf of uncut bread. Cut lengthwise slices from the loaf. Trim the slices so that they are about 1 1/4 inches wide...

Combine eggs and milk. Pour over sifted dry ingredients. Beat with a rotary beater until smooth.

Combine eggs and milk. Pour over sifted dry ingredients. Beat with a rotary beater until smooth.

Combine eggs and milk. Pour over sifted dry ingredients. Beat with a rotary beater until smooth.

Combine eggs and milk. Pour over sifted dry ingredients. Beat with a rotary beater until smooth.

Combine eggs and milk. Pour over sifted dry ingredients. Beat with a rotary beater until smooth.

AND ENDS—Warner Bros. "Miniature Melodramas" popular short stories...

- THIS WEEK'S MENU EASTER BREAKFAST Chilled Pineapple Juice Eggs in Nests Ham Slices Pop-Overs Jam Beverages Jelly

heat turned off. Yield: 10 large Pop-Overs.

And now a word about the cleverly decorated Easter eggs that appear in the basket above.

You'll agree that even the most aristocratic rabbit should be proud to claim these original eggs.

Decorating them is both easy and inexpensive. You'll need large white eggs, a package of dyes from the Five and Ten, a spoon-shaped wire hook with an end to use as a handle...

Buy gold and silver stars, dots in various colors, small red hearts, linen reinforcements that are really meant for loose-leaf notebooks...

After the well-known hard-boiling process you use your imagination about covering the eggs with stars and dots. Then try arranging hearts in four-leaf clover patterns...

What to do with the Easter supply of hard-cooked eggs? I'm coming to that...

Coarsely chopped or sliced hard-cooked eggs in superbly seasoned cream or white sauce become CREAMED EGGS.

With eggs and cheese such boon companions, and cheese a prime favorite, too, ESCALLOPED EGGS and CHEESE is another use for Easter eggs—after Easter.

Escalloped Eggs and Cheese. 1 1/2 tablespoons butter 1 1/2 tablespoons flour 1 cup milk 1/4 teaspoon salt 1/4 teaspoon pepper 1/4 teaspoon paprika 1 teaspoon Worcestershire sauce 1 cup soft bread crumbs 3 tablespoons melted butter 1/2 cup grated cooked eggs

Prepare a sauce of butter, flour, milk and seasonings. Arrange in greased casserole in layers using three-quarters of the crumbs, the sliced eggs, cheese and sauce. Top with remaining one-fourth cup of crumbs, mixed with the melted butter.

Bake in a moderate oven, (350 degrees F.) until sauce is bubbly and top nicely browned, about 40 minutes. Serve plain or with tomato sauce. Serves 4 or 5.

EGG STRONG! Eggs join with other foods to fill your needs and produce your health. They are among our best sources of the muscle building proteins...

When "peeling" hard-cooked eggs, crackle the shells, then start the peeling at the rounded end of the egg.

Hold the egg under running cold water or dipping in a bowl of cold water helps to ease the shell off, leaving a smooth, unbroken surface of white.

SUNDAY SCHOOL LESSON

By HAROLD L. LUNDQUIST, D. D., Dean of The Moody Bible Institute of Chicago.

S. S. Lesson for April 13

Lesson subjects and Scripture texts selected and copyrighted by International Council of Religious Education; used by permission.

CHRIST SHOWS HIMSELF ALIVE

LESSON TEXT—Luke 24:13-17, 25-35. GOLDEN TEXT—I am he that liveth, and was dead; and, behold, I am alive for evermore.—Revelation 1:18.

Certainty and assurance—these are at the heart of our observance of Easter. We declare with Paul, "Now is Christ risen from the dead" (I Cor. 15:20), and that He is "declared to be the Son of God with power . . . by the resurrection from the dead" (Rom. 1:4).

Someone may say, "That's well enough for you who have faith in God, but I'm bewildered, uncertain, fearful, in a disordered world. What shall I do?"

We join them as they walk wearily along the road from Jerusalem to Emmaus. Suddenly there is Another with the little group.

I. Holden Eyes and Slow Hearts (vv. 13-17, 25, 26).

The two sad men who had left Jerusalem to go to Emmaus were disciples of our Lord who had just been through the crushing experience of seeing Him crucified.

Eyes closed by unbelief; faith hindered by doubt and fear; a dependent heart slow to believe God—how very effectively these shut out the blessing of God and of His Word, even to the believer.

II. Burning Hearts and Opened Eyes (vv. 26-32).

Although they did not realize it (how slow we are to appreciate our blessings!) until after He was gone (v. 32), their hearts began to burn within them as soon as He began to expound the Scriptures to them.

What a Bible exposition that was, as Christ Himself opened all that the Scriptures taught concerning Him!

With the heart "strangely warmed," as John Wesley described his Aldersgate experience, comes the opened eye.

III. Quicken Feet and Glad Testimony (vv. 33-35).

The seven miles (sixty furlongs, v. 13) which had passed so slowly were now quickly retraced.

Note in verse 34 that before they could speak, the others gave them the good news of the resurrection.

It is proper and delightful that believers share spiritual blessings (Rom. 1:11, 12). This is why we come together in the Lord, Christian sister, how long is it since you had a new and stirring experience of the presence of Christ?

Brother in the Lord, Christian sister, how long is it since you had a new and stirring experience of the presence of Christ? Not necessarily spectacular or exciting, but a real spiritual experience. Let's ask Him again!

PATTERNS SEWING CIRCLE

A DRESS that's complete in itself and smart for general wear. A jacket that transforms it into a street ensemble.

pattern. Yet that's just what you get when you send for this one—No. 8886. That high-cut front panel has a magically diminishing effect upon your waistline and hips.

The jacket, made with pleats drawn in by a tie-belt at the waistline, opens in the front to show the crisp frill and buttons that trim the frock, with a charmingly soft, somewhat formal effect.

Pattern No. 8886 is designed for sizes 36, 38, 40, 42, 44, 46, 48, 50, 52. Size 38 requires 7 1/2 yards of 39-inch material and 1 1/4 yards of trimming to trim the dress. Send order to:

SEWING CIRCLE PATTERN DEPT. Room 1324 Chicago 211 W. Wacker Dr. Enclose 15 cents in coins for Pattern No. Size Name Address

ASK ME ANOTHER

The Questions 1. What is a characteristic feature of Gothic architecture? 2. Let us eat and drink; for tomorrow we die! is a quotation from what? 3. What is the most widely used name of saints? 4. What took place during the "Hundred Days" in French history? 5. Elizabeth Blackwell was famous as what? 6. What of the following makes up the greatest percent of the air we breathe: hydrogen, oxygen, or nitrogen?

By Practice Little six-year-old Bertie was telling his big brother about the nurse who visited his school. "Is she a good looking?" John asked. "Of course she is," replied Bertie. "She looks down our throats every week."

Making Sure A traveler at a small hotel ordered two boiled eggs for breakfast. The waiter who served him brought three. "Here," said the traveler, "why have you brought me three eggs? I only ordered two." "Yes, sir," said the waiter, smiling, "but one of them might fail you."

Exception in Reverse At a popular port all the crew applied for shore leave except one man. "What's the matter?" asked an officer. "Are you the only sailor who hasn't got a wife in this port?" "No," replied the man, "I'm the only one who has."

TIPS to Gardeners

TRIM FLOWER GARDEN

THERE is much value in keeping the flower garden trimmed. Wise gardeners pick bouquets of favorite annuals like Marigold, Zinnia, Petunia, Sweet Peas and Snapdragon with systematic regularity, for the picking promotes continued blooming.

Periodic trimming is not best for such small, low-growing edging flowers as Alyssum. A complete cutting, however, will benefit this type of plant. This treatment may be applied to Ageratum, Linaria, Lobelia, and Nemesis as well as Alyssum.

Pinks, Cynoglossum, and Dwarf Bedding Rust Resistant Snapdragon are grown both for cutting and for garden beauty, but they too will profit by a thoroughgoing "haircut" such as that prescribed for the smaller, edging favorites.

It is advisable to pick the flowers of certain popular perennials when they are in their prime, to prevent their running to seed, and to promote the production of a second crop of blossoms in a single season. Delphinium, Sweet William, Coreopsis, Perennial Dianthus, and Pyrethrum should be handled in this manner.

ASK ME ANOTHER A Quiz With Answers Offering Information on Various Subjects

7. How thick is the bark of some of the giant Sequoia trees? 8. America's record high jump for a horse with rider is held by what horse?

The Answers

- 1. The pointed arch. 2. The Bible—Isa. 22:13. 3. Valentine has been the most widely used name of saints, one recently compiled list containing 52 of them. 4. Napoleon's second reign (after his return from Elba, from March 20 to June 28, 1815). 5. The first woman doctor of medicine. 6. Nitrogen (78.06 per cent). 7. Many trees have bark that is two feet thick, and a root system that spreads over an area of three acres. 8. Great Heart, which cleared the bars at eight feet and thirteen-sixteenths of an inch at the South Shore Country club in Chicago in 1927, holds the record.

Francis Locals

The Helping Hand Club met with Mrs. W. H. Fitzgerald Thursday, members present were Messdames: Earl Bell, Edwin Crass, Earl Cantwell, F. A. Fisch, B. T. Harris, F. A. Fitzgerald, Bud McMinn, W. C. Roberson, Joe Rogers, Loyd West, Carl Wimberly, Mrs. Louis Francis was a visitor. The next meeting will be with Mrs. Jack Jowell April 17.

Mr. and Mrs. Hood Myers spent Sunday with Mr. and Mrs. F. A. Fisch.

Mrs. B. T. Harris spent Thursday with Mrs. Joe Rogers.

Visitors in the W. A. Rowell home Sunday were, Mr. and Mrs. Clarence Strange and family of Hereford, Mr. and Mrs. E. L. Strange and George, Mr. and Mrs. Virgil Baldwin and Jackie, Mrs. H. C. Mercer, Mr. and Mrs. Frank Mercer and Gail and J. W. Rowell.

Mrs. M. B. Hodges, Mrs. Edna Hodges, Mr. and Mrs. Clarence Barclay, Pup Barclay, Mr. and Mrs. J. H. Bradley and family, Mr. and Mrs. Grover Harris and family were dinner guests of Mr. and Mrs. E. T. Harris Sunday.

Mr. and Mrs. Edwin Crass spent Sunday with Mr. and Mrs. Bob McDaniel.

Opal and Rubye Weast and Fay Gene Davis spent Thursday night with Brownie Simmons.

Mrs. C. A. Simmons and Mrs. Edwin Crass were Lubbock shoppers Tuesday.

Mrs. S. A. Shearer and Elbert, Mr. and Mrs. Olen Shearer and children were bedtime guests in the W. C. Roberson home Friday.

Mr. and Mrs. E. L. Strange visited Mr. and Mrs. F. A. Fitzgerald Sunday.

Mrs. W. C. Roberson, Mrs. U. D. Brown, Mrs. Edwin Crass, Mrs. Joe Rogers spent Friday with Mrs. C. A. Simmons.

Mr. and Mrs. E. L. Strange visited Mr. and Mrs. F. A. Fitzgerald Sunday.

San Jacinto News

The nineteen pupils and two teachers Mr. and Mrs. E. C. Franklin and four others, Mr. and Mrs. Warren Cope and Mr. and Mrs. Jack Preston spent last Tuesday in Amarillo. Points of interest visited were the Santa Fe Building, Bordens, Santa Fe depot, the zoo, Globe News, TWA air port, and Coco Cola Bottling works. The party returned via Panhandle Plains Historical Museum at Canyon.

Miss Siamaline Hyatt visited Miss Lois Rogers at Tulla Saturday and Sunday.

There was a forty-two party at the school house Friday night. Nine tables of forty-two were in progress during the evening. Love-ly refreshments were served.

Rev. Killian visited the school Monday morning. The subject of his talk was "Patriotism."

Mrs. Nipper is visiting in the home of her daughter, Mrs. Franklin.

There will be a singing at the Vigo Park Baptist Church Thursday night. Everyone is invited for an enjoyable evening. Refreshments will be served.

On Sunday morning there will be an Easter service at the Baptist Church.

The primary pupils will entertain their mothers and all preschool children with an Easter program and egg hunt Friday afternoon.

Mr. Jake Honea attended a bar-B-Q dinner and a meeting of the anti-theft association of the Panhandle in Amarillo Tuesday.

Mrs. Florence Forgeron and Mrs. Ware Fogerson and children went to Matador Saturday night for a brief visit.

Ruth Hussey

I bow on my knees before no man,
Nor take orders at a tyrants command.
I live in a land of democracy,
And not in the throes of autocracy!
I am an American!
I worship God as my choice may be,
And truthful news is free to me.
All radio programs it is my right to hear,
And trial by jury I hold most dear!
I am an American!
I train for games and not for war
My home, the the bombs shall never mar.
I live not in terror nor in fear
for my life.
Not in a land torn by dissension and strife!
I am an American!
I live in a land respected by all,
Where beauty with truth should never fall.
Love is, our watchword, and peace is the cry,
Where the Stars and Stripes forever fly high!
I am an American!
(Written by Robert Moore, a patient at the State Sanatorium, whose home is in Brownwood; quoted in John C. Biedeger's La Coste Ledger).

Momentum was given to the proposed return of horse racing at meeting in Austin of representatives of a dozen organizations, including Dirt Farmers Congress, labor, old age pensions and First Voters League. A resolution was adopted that any taxes from racing be set aside for pensions. It is estimated racing would provide \$2,500,000--and, while almost every industry and business included in the omnibus tax bill is pleading to be released, racing is willing to be taxed.

From students' examination papers:

The object of "he" is "she"
A plagiarist is a writer of plays.
What kind of noun is "trousers"?
An uncommon noun because it is singular on top and plural at the bottom.
A child: A stomach entirely surrounded by curiosity.
Committee: A body that keeps minutes--and waits hours.
Love: A season pass on the shuttle train between heaven and hell.
Slang Language that takes off its coat, spits on its hand goes to work.
A deacon is a mass of inflammable material placed in a prominent position to warn people. (Encountered in Frank Svoboda's Bonham Favorite)

Numerous newspapers are urging repeal of the chain store tax. "Most chain stores today are home owned", says the San Antonio Evening News. The tax is called "a discriminatory penalty" by the Dallas News and the Fort Worth Star-Telegram asserts the levy is "punitive, not against the chains but against the consumer, the producer and business in general." Says the Austin American, "The consumer is the real 'goat' of the law." Out in West Texas, the Post Dispatch calls the tax "a fine efficiency" and continues, "A spokesman for the Southwestern Cattlemen's Association recently reported that a program in which producers and chain stores worked together had materially increased beef and lamb consumption and given the cattle industry three of the best years in its history. The chain stores have participated in similar programs on behalf of cotton, fruits, pottery, cactus plants and other commodities whose sale had to be increased if producers were to avoid possible ruinous losses." The San Antonio Express sums up, "Civic sentiment generally demands repeal of the unwarranted Texas chain-store tax."

Ladies, to this advice give heed--
In controlling men:
If at first you don't succeed,
Why, cry, cry again.

Dinner: There isn't a bit of turtle in this turtle soup!
Waitress: Well, we have cabinet pudding but you wouldn't expect to find Harold Ickes in it, would you?

Lady: Have you tried to cure this parrot of swearing?
Pet Shop Owner: H---, yes, lady, but the d--- fool bird keeps getting worse.
