WILDCAT SPUDS IN 22ND

HONORED AT FAMILY REUNION HERE SUNDAY

A. P. DONNELL, who celebrated his 91st birthday here Sunday. He has been a citizen of Briscoe County for a full half a century.

FAMILY REUNION

The celebration of A. P. Donnell's 91st birthday and the 50th year as a citizen of Briscoe County took the form of a Missouri reunion, honoring him as the first one of a numerous clan who moved from their homes in Benton County Missouri to this county. Many of these reunions have been held in the past and the occasion was saddened because of the passing on, of many of the original group.

The group met at the Presbyterian Church at 12:00 Sunday, September 21. After a bountiful lunch Dr. Charles Donnell entertained the crowd with extracts from his history of the five principal families, Donnell, Dickerson, Daniel, Doak and his ala told of the association of these families dating back some two hundred years. Old songs were sung and a social hour was enjoyed by all present.

Out of town guests were: Dr. Charles E. Donnell, Mr. and Mrs. L. A. Donnell, Norval Dickerson and family, William Dickerson and family, Mrs. Eva Marton and family all of Canyon. Reeves Donnell and family of Amarillo; Mr. and Mrs. Clarence Bauer and family, Mr. and Mrs. Valley Gardner, Tulsa; Mr. H. C. Doak, Mrs. Mary Woolery, Mr. and Mrs. D. H. Alexander, of Hereford; Mr. and Mrs. A. C. Donnell and boys of Clarendon; Alan Dickerson and family of Floydada.

Home folks present were: Mr. A. P. Donnell, Mr. and Mrs. R. M. Hill, Buel Hill, Mr. and Mrs. Bob Dickerson, Mrs. Flora Dickerson, Mr. and Mrs. Elbert Dickerson and family, Mrs. Herman Pitts and son, Mr. and Mrs. R. E. Brookshier and Dan, Mr. and Mrs. A. P. Dickerson and Gene, Mr. and Mrs. J. M. Daniel, Mr. and Mrs. R. G. Alexander, and Mrs. Sam Thompson.

NANCY JANE TIPPIS CLAIMED BY DEATH

Nancy Jane Tippis, 10, daughter of Mr. and Mrs. O. R. Tippis, died in a Wichita Falls hospital at 8:30 a. m. Monday. Attending physicians said the child appeared to have a rapidly developing case of infantile paralysis, and she had been in an "iron lung" since 5 a. m. Monday.

Funeral services were held at the Floral Heights Methodist Church at 11 a. m. Tuesday with Rev. E. A. Hunter officiating. Interment was made at the Riverside Cemetery.

Four of the child's uncles acted as pallbearers.

Immediate survivors in addition to the parents are Sue Tippis, sister, and Mrs. A. V. Tippis, grandmother.

She became seriously ill Sunday and was taken to the hospital. Physicians said that symptoms pointed to infantile paralysis.

Mrs. Joe H. Smith is spending two weeks in Plemons, Texas with her son, Joe H. Jr., and daughter, Mrs. Zimell. She plans to return home the latter part of the week.

Next week the Floral Club will meet at 2:30 p. m. at the home of Mrs. Paul Webb.

FORMER SILVERTON BOY WRITES

Dear Aunt Dorne: I suppose you are beginning to think I have dropped off the face of the earth or forgotten you one of the other. Well I haven't. Only got your letter last week, it went all the way to Alaska and back here. I stayed in Alaska a month and went back to San Diego, stayed there two weeks then over here. I was going to Iceland, but they changed my orders when I arrived here. So I am still here. I expect to move again very soon, just where I will go this time I do not know. It depends on how the war runs. I would like to come home on a furlough but I can't even do that now.

I have charge of all the signal property for our battalion now and that is quite a job. The Antiaircraft guns are firing for a record on an island about twenty-five miles off the coast here and I take rations and supplies to them four days a week. I have a fifty foot motor launch for the purpose. A rain squall came up this morning and soaked me good. It got so rough that the launch bobbed around like a cork. I thought it was going to turn over a time or two. It was lots of fun.

You can send me anything you like, it is ok.

Tell Roberta to write. I must close now, so write soon.

Your loving nephew,
E. C., Jr.

E. C. will be remembered as Myrtle Crowfords boy. He is stationed now off the coast of South Carolina.

RURAL ELECTRIFICATION TO BE DISCUSSED HERE SATURDAY

There will be a meeting for all folks interested in obtaining a Rural Electrification set-up, held at the District Court Room in the Courthouse, Saturday afternoon at two o'clock. Mr. Chapman, manager of the Floyd County Rural Electrification set-up, will be here and explain things, and talk possibilities of extending the electrical lines to Briscoe County, and just what steps must be taken to obtain a project.

There are a great many who have signed up for electricity, and it is urgent that everyone attend, whether or not you have signed up. Attendance at the meeting will be a big step toward obtaining the Rural Electrification.

TWO NEW 1942 MODELS GO ON DISPLAY THIS WEEK

The Burson Motor Company is announcing in this week's paper the first showing of the 1942 model Chevrolet, and Tuesday of this week T. T. Crass drove in from Oklahoma City with the first of the new Oldsmobiles.

Both cars are showing several new features, although changes have not been drastic because of the part General Motors in taking in defense work.

More Defense Foods Needed

"More milk, more eggs, more pork" is the food-for-defense appeal being made to American farmers by the U. S. Department of Agriculture. Farmers are responding unitedly, the Department says, and are turning huge quantities of feed from the AAA Ever-Normal Granary into energy-giving foods. Milk production is highest on record; egg production is higher than in any year except 1930; extra numbers of brood sows are being held over for fall farrowing. Nevertheless, the Department declares, even additional increases in these products must be made to supply the growing home demand and the emergency needs of Great Britain.

FARM LOAN MEETS

With more than 25 present, the Silverton National Farm Loan Association held its annual membership meeting September 20, 1941 in the Odd Fellow hall in Silverton.

J. E. Daniel, Secretary-Treasurer, told the crowd of homeowners that 189 farmers in this area are using the association's long-term low-interest rate Federal Land Bank loans to climb to farm and ranch ownership, or to refinance existing obligations at lower rates and more desirable terms.

Vice-president R. C. Hutsell of the Silverton National Farm Loan Association, was chairman of the meeting. Entertainment features included: Round table discussion of features of National Farm Loan Activities.

Members elected John Vaughan of Silverton and L. A. McJimsey of Silverton to three-year terms on the association board of directors. Hold-over directors are: H. S. Crow of Silverton, Q. E. Brown of Silverton, and R. C. Hutsell of Silverton.

In his annual report, the secretary-treasurer of the Silverton National Farm Loan Association, founded in 1919, now has 189 loans for \$665,300.00 on its books, in addition to 117 Land Bank Commissioner loans for \$203,700.

"But the figures are important only for what they represent," Mr. Daniel announced, "and what they stand for is more than 200 farm families, owing their homes, living on their land, here in Briscoe Co. He pointed out that members of the association are "protected

in their ownership because with a Land Bank loan only a small portion of the total loan comes due at any one time—yet the farmer can pay in fat years to take care of lean ones—or reduce the length of time required to pay off his indebtedness."

REVIVAL TO START OCT. 1 AT CHURCH OF CHRIST

Arrangements are being made for the opening of a revival meeting at the local Church of Christ, Wednesday night, October 1st. The preaching will be in charge of Guy N. Woods, of Vernon, Texas. Mr. Woods conducted a meeting here last October, and is an interesting and instructive preacher.

The Song Service will be in charge of Ben M. Taylor. He has never appeared in Silverton before, but comes with high recommendations as to singing and conducting the singing.

The general public is invited to attend this ten-day series of Gospel sermons. The night meetings will open at eight o'clock.

FINLEY'S STORE IS REMODELING INTERIOR

Mrs. H. G. Finley is making rather extensive improvements in her Variety Store here this week. All tables are being re-arranged and made uniform, giving a better display of her growing stock of merchandise. John Bain is doing the carpenter work for the store.

Mrs. Pearl Simpson was attending business in Quitaque Tuesday.

LUCILE WEAST IS COLLEGE FRESHMAN DIRECTOR

Lucile Weast of South Plains, a junior at West Texas State College, has been elected director of the Freshman Fellowship Club.

Miss Weast was in charge of the Freshman Mixer which is held every year at West Texas State as a get-acquainted affair for the new students on the campus.

Miss Weast is also vice-president of Gamma Phi, girls' social club; and vice-president of Alpha Psi Omega, national honorary dramatic fraternity.

SENIOR FAVORITES

Evelyn Coffee is our favorite senior girl. She likes dramatics and music. Her hobby is collecting salt and pepper shakers. She has attended Silverton Schools for ten years and has won our hearts by her friendly smile and happy nature.

Louie Bonds is the favorite boy of the Senior Class. He goes in for athletics in a big way, having played basketball and football two years. He is co-captain of the football team and head of the sports column. His favorite subject is History and his hobby is collecting stamps. His shy manner has won all our friendship.

We are glad to present them as our favorites and we are sure you will agree with us when we say they are a fine choice.

OWLS TIE PLAINVIEW BULLDOGS 12 TO 12

The Owls tied the Plainview Bulldogs, 12-12 Saturday night in the first game of the season.

On the first play of the game the "ball" was snapped back to Bonds, who fumbled the ball behind the Owls own goal line, there was a scramble for the ball and as luck would have it a Plainview man had the ball tucked neatly under his arm for the first score of the game.

Getting off to a bad start made the boys work harder, and late in the second quarter Brannon went across for the first score for the Owls.

Plainview then scored again in the third quarter and late in the same quarter Brannon passed to Bonds for the Owls second touchdown.

Although there were some mistakes made, Coach King was pleased with the spirit shown by the boys and with the improvement they are showing in work-out.

The Owls' next game will be Friday night, September 26, at Crosbyton. Crosbyton lost their first game last week to Denver City 27 to 0.

JUNIOR CLASS FAVORITES

The Junior Class is proud to present as class favorites, Opal West and H. C. Peugh.

Opal is an all-around girl, being captain of the volley ball team, co-captain of the basketball team and a good tennis player. She is also good in her studies, and a favorite of the whole class.

H. C. is also athletic, having played football two years. He has a wonderful personality and his agreeable disposition has won him a place in the hearts of the Juniors.

These two personalities are a credit to the Junior Class, and we are very proud to have them as our favorite boy and girl.

NEW PHILLIPS 66 STATION OPENS

Phillips 66 has opened another station in Silverton, located in the station formerly occupied by the Farmers Fuel Association on Highway 86. According to Alvin Redin, wholesale dealer for Phillips, a complete stock of Phillips products, Lee tires and Wanda and Amalie products will be carried by the station.

The front will be remodeled and the inside sealed and decorated immediately. Redin's office is being moved to this station from the Phillips Station South of the hotel. Coy Chappell will be the retail manager of the new place.

Several Days Delay Caused By Water "Break-out"

Silverton's wildcat oil test, Montague No. 1, was officially spudded in at ten o'clock Monday night, but a slight cave-in stopped work at 125 feet Tuesday. The crew has been working with cement since that time and finished the filling-in work at four o'clock Thursday morning. Drilling work was to have been resumed tonight (Thursday) at midnight.

The drilling equipment had all arrived on the location Sunday night but the actual start of operations was when Joni Douglas grabbed the clutch lever as the official "spudder-inner" Monday.

The driller in charge Thursday morning said that such breakdowns on the start of a well, were not unusual and that, with a little more depth water break-outs would be more easily prevented. Ordinary drilling speed in this type of soil formations is about 20 feet per hour, although, as he said, "There will be places where we won't make a foot in six hours."

Day and night crews are working now, and the lights from the rig can be seen for many miles. The equipment here is said to be far above the ordinary, owing probably to the depth to be drilled, which is 6,500.

Superintendent Tyler was not on the ground when the editor visited the location this Thursday morning. He has promised an informative statement, and we hope to be able to keep our readers accurately informed on drilling proceedings in each week's paper.

PILOT TRAINING FOR ENLISTED MEN

Army regulations, War Department dated August 1st, 1941, authorizes enlisted men of the regular army, with certain qualifications, to apply for pilot training with the army air corps. Any applicant who can meet all of the qualifications listed below is eligible to apply for this training at any time:

He must be an enlisted man of the regular army in active Federal Service.

He must be unmarried and a citizen of the United States. Between the ages of 18 and 22 inclusive. Applicants who have reached their 23rd birthday are not eligible.

He must be a high school graduate and have at least 1 1/2 mathematics credits.

He must be of excellent character and furnish letters of recommendation to substitute his character.

Each enlisted man applying for aviation student training will be required to sign an agreement (with the consent of his parents, if a minor) by which he will agree to the following:

To reenlist for a period of three years if he has less than one year to serve on his current enlistment.

That upon successful completion of pilot training (about eight months) he will again reenlist so that he will serve three complete years as an enlisted pilot. That he will remain unmarried during the period of training as an aviation student and during the first enlistment as a non-commissioned officer pilot.

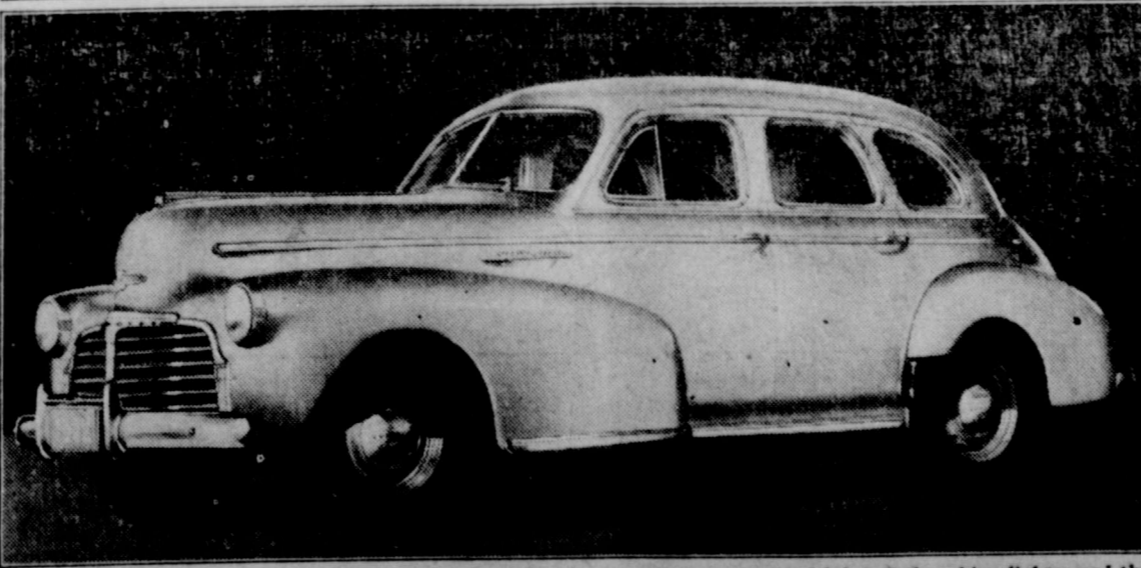

Applications for aviation training must be accompanied by the following listed papers:

Three letters of recommendation signed by persons of recognized standing in the community in which the applicant resides; A certificate from the high school attended certifying to the subjects pursued and the grades attained, and a statement as to whether or not the individual graduated. If a minor he must secure the written consent of his parents or legal guardian to enter this training, under all the conditions set forth.

ALL DAY MEETING FOR PRESBYTERIAN LADIES

WEEKLY NEWS ANALYSIS By Edward C. Wayne

Protection of Lend-Lease Shipping Is Extended to 'Ships of All Flags' By U. S. Warships as Far as Iceland; Conflicting Reports Mark War News

EDITOR'S NOTE—When opinions are expressed in these columns, they are those of the news analyst and not necessarily of this newspaper.
(Released by Western Newspaper Union.)

SHOOTING WAR: Recapitulation

Repercussions among the non-interventionist opponents of President Roosevelt's general foreign policy were surprisingly calm, following his address in which he told U. S. naval skippers to shoot first and ask questions afterward. Beyond seeing it "as a step toward war," there seemed to be an utter unwillingness on the part of the White House's opponents to sail into the President tooth and toenail.

The request of Captain Halliday of the sunken Steel Seafarer "give us guns and we will shoot, too," brought the discussion of arming of merchantmen into the fore. In this the pattern of the last war was being sharply paralleled.

The declaration by Germany of unrestricted submarine warfare was closely followed in those days by the arming of merchantmen, which, in turn, was followed by the country's active entrance into the war.

However, it was not immediately apparent that any such move was being sponsored on Capitol Hill.

'For All Flags'

Later the trend of U. S. policy became more clear as Secretary of the Navy Frank Knox, in a speech before the national American Legion convention in Milwaukee, indicated that U. S. warships would "provide protection . . . for ships of every flag carrying lend-lease supplies between the American continent and the waters adjacent to Iceland."

While he avoided the use of the word "convoy" this appeared to be the plan for providing the promised protection and to most observers it looked like the logical follow-up to the President's former "shoot on sight" edict against German or Italian raiders.

REYNOLDS NIPPED: A Repercussion

Cancellation of an address scheduled by Sen. R. R. Reynolds of North Carolina before the Advertising club of Newark, N. J., was another repercussion which bid fair to be a typical reaction of the times following the President's "shooting" speech.

The senator had been booked to speak September 24 "many months ago," and the statement made public by the club declared: "and the

RUSSIANS: Hold and Advance

Conflicting reports from the Russo-German front continued to paint, as near as it was possible to determine, a general picture of the Russians holding out in the siege of Leningrad, and making a steady and fruitful advance against the Nazis in the central sector around Smolensk.

Whether this was the natural sagging of a salient due to the removal of Germany's best troops to the Leningrad front, or whether, as the Russian communiques insisted, the Red victories were against the Reich's crack legions in full force, was of course a matter of conjecture.

Two names emerged from the daily dispatches—those of Marshal Semeon Timoshenko, general commander on the central front, and that of Gen. Jacob Kreuzer, leader of the Russian blitz forces who were doing much of the driving ahead.

The Russian daily claims of 7 to 10 miles advanced might be discounted, but the names of places

Stranger sight for a war-torn land is this picture taken in Vichy, France, as Marshal Petain, head of the Vichy government, awards a trophy to one of the winners in the meet that marked the revival of athletics in France. Admiral Darlan and other important government leaders attended the meet.

where fighting was reported showed definitely that there was an actual advance, and of no inconsiderable proportions. Three towns easily locatable on detailed maps of Russia which lie well "behind Smolensk" were reported captured.

Absence of any further German claims on the Kiev and Odessa fronts were accompanied by simple Russian statements that the battles there were "continuing." One Russian commander said "Stalin's order not to yield Kiev is being complied with."

Many military observers believed that the long, wavy line of the Nazi front was fraught with exceeding danger to the German campaign provided the Red army on the central front really has the enemy in an important retreat.

Perhaps the outstanding Russian claim was the recapture of several points on the west bank of the Dnieper. This, if true, did much to bear out the feeling that the second great Nazi blitz against Russia again was bogging down.

Investia stated "the Napoleonic record of 83 days from Warsaw to Moscow still remains unchallenged by Hitler."

IRAN: Sends Nazis Out

Eighty Nazis were reported expelled from Teheran in carrying out the terms of the British-Russian-Iranian armistice, and that eight of them were sent to Siberia. "Very glum," the rest going to India.

The German legation had, by a variety of excuses, postponed the departure of the special trains for nearly 24 hours. The British and Russian diplomats had expected about 225 to be expelled, and were visibly disappointed when only 86 left.

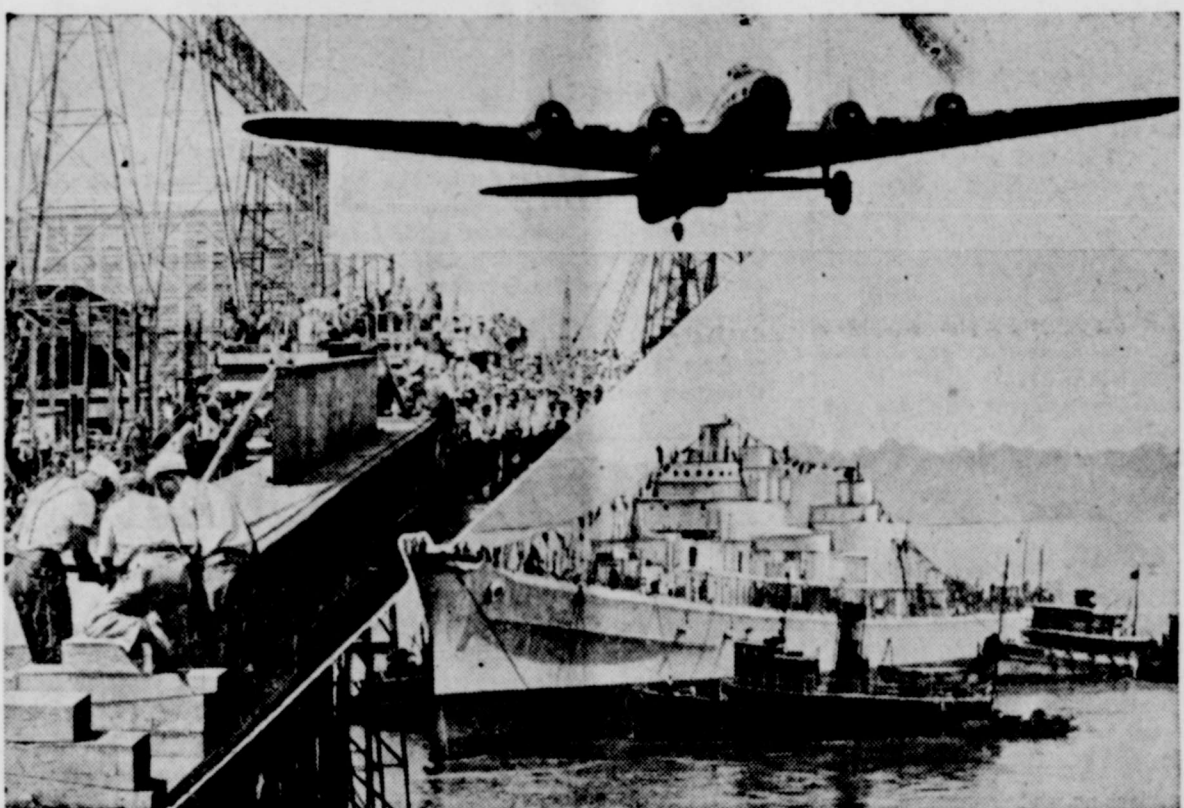

The German legation was reported to be housing about 400 men, women and children rounded up in preparation for the expulsion.

Three New Rear Admirals for U. S. Navy

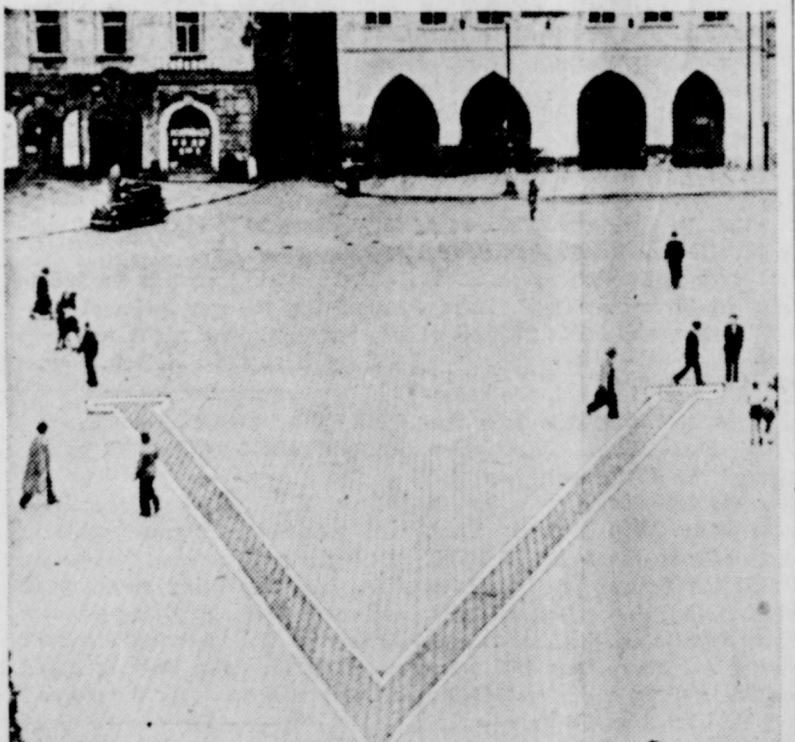

President Roosevelt has approved the recommendations of the line selection board, which selected 12 officers of the grade of captain for promotion to the grade of rear admiral. Among the navy officers to step into the charmed circle are, left to right, J. R. Beardall, J. F. Shafroth and O. M. Hustvedt. The promotion was made necessary by the expansion of the U. S. navy to meet threat of war.

But This 'V' Is for Sieg

Attempting to steal the thunder of "Col. V. Britton," who is the sparkplug of the British "V for Victory" crusade, the Germans release this photo to a skeptical world. It shows a great "v" inscribed in a public square in Prague, Czechoslovakia. The V stands for Victoria, an ancient German word for victory, long superseded by the familiar "sieg" of modern Germany.

President's Farmer Tenant Has Trouble All His Own

Newsman Quoted Mose Smith, Who Works 140-Acre Hyde Park Farm, and He Doesn't Like It at All.

By **BAUKHAGE**
National Farm and Home Hour Commentator.

WNU Service, 1343 H Street, N.W., Washington, D. C.

I suppose the landlord-loving tenant is as much a piece of news as the dog-biting man. So when a famous landlord made the following remark about a certain farmer, I decided the matter ought to be looked into:

"I don't know whether I like being called a landlord," said the landlord. "I say this, though, that if I have to be a landlord, and if he has to be a tenant, I would rather have Moses (Smith) as a tenant than any man I know . . . he has not cut down the trees; he has not burned up the house; and the fields are in better condition than the day he came. And, incidentally, from my point of view, all the time that Moses has been here, he has never given me a headache."

That is what President Roosevelt said about Moses Smith. So I dropped in and had a talk with Mr. Smith when I was up at Hyde Park recently.

This is what Mr. Smith said to me:

"The President is the best landlord in the United States. I've rented from him for 22 years and he has yet to find fault. Whenever he gets a chance he comes over here to say 'hello' and 'good-by,' but he doesn't find fault. And I've made mistakes, too. Nobody is perfect."

And Smith sounded sincere. There is nothing self-conscious about his relationship with the President—to Smith, Franklin Roosevelt seems simply the son of a landlord who has grown up to inherit the func-

tion of his mother and who, purely incidentally, has become President.

When I got out of the car in the driveway beside the neat little white farmhouse with its pillared porch, Smith walked out to meet me. He is a typical up-state New York farmer. He was dressed in two-piece overalls—he told me he had just "dressed three fowls" and I knew that morning he had been spreading fertilizer. Bright brown eyes looked out under the wide brim of his straw hat—the kind "Ding's" farmers wear. He took it off and I saw that his hair was not gray as I judged his years would indicate, but weathered a bit, like good lumber that has been exposed to sun and wind and rain.

House Expands Backward.

We did not walk over the 140 acres which make up the place. They are typical of that part of the country, some pretty hilly, some flat—soil that is spread not too deeply over the hard rock, of the sort that makes the Palisades. Flat field stone has provided the stone walls and material for the buildings.

Smith asked me in out of the sun which was filtering through the great trees in the yard. We went in the back door which was handiest. "It's a long way," he said, "from the parlor to the kitchen." It was. The house had expanded backward evidently instead of spreading out. Convenient in winter though, not so long a path to have to shovel to the barn.

We sat down in the parlor and the conversation started on the landlord-tenant subject. Smith had reached the point where he was telling his side of the story:

"Now the President drove over here a little while back, Smith went on, "with the Princess Juliana. He

told her about this house being a hundred years old and I told about the well-water. It had bad. So he said to go ahead and dig a new well."

Smith showed me the new well. It is 140 feet deep, drilled to the rock. Smith was proud of it. Up Dutchess County way they pride in old things that are "It will last a hundred years," Smith said with obvious satisfaction.

Two Things Worry Him.

Smith does general farming, raises wheat, oats, corn, potatoes and vegetables and keeps 14 head of milk cows. He has a good home market by and he raises enough vegetables for himself.

There were two things which worried Smith when I talked with him. One which every farmer frets about these days—getting a price for a tenant's crop. "I don't know whether I like being called a landlord," said the landlord. "I say this, though, that if I have to be a landlord, and if he has to be a tenant, I would rather have Moses (Smith) as a tenant than any man I know . . . he has not cut down the trees; he has not burned up the house; and the fields are in better condition than the day he came. And, incidentally, from my point of view, all the time that Moses has been here, he has never given me a headache."

HIGHLIGHTS . . . in the week's news

London: It was purse "blackout" for Britshers. The postman brought them their income tax bills. They called for up to one-half of all their earnings in the year ended April 5.

New Orleans: Hurricanes of September revealed a new menace to defense. Five hundred and fifty war planes had to be moved to points of safety when a hurricane was reported in the vicinity.

Vichy: Marshal Petain made the use of his prerogative to save the lives of condemned men when he commuted two such sentences. The men had been charged with fomenting a strike in 1938.

Washington: Charlie Chaplin was subpoenaed to testify concerning his motion picture "The Great Dictator" in which Hitler was impersonated.

BRIEFS . . . by Baukhage

A large part of the WPA program is being reslanted toward defense needs under the direction of Mrs. Florence Kerr, assistant WPA administrator. The new slogan for the effort will be "the good neighbor policy at home." Instead of emphasizing what the government can do to help the individual, as was the need during the economic emergency, the emphasis is now on what the individual can do for the government.

For the first time since it began on September 11 noon of war news appeared on the front page of Hitler's newspaper, the Volkischer Beobachter, what this stigmatized none

JOHN HUTCHINSON WAS experiencing what is spoken of as a marital rift the first of the week. Seems as if Althea has (I mean had) a big pet rooster. The rooster didn't like John and I think, John didn't like him. But anyway Tuesday morning the old bird jumped John to give him the customary flapping and John retaliated with the customary booting—only this time he kicked an ounce too hard, and Herr Hahn (Hitler talk for Mr. Rooster) is no more. John ate dinner down town and was carrying five cedar pencils that he said he was taking home as a peace offering. He even had the pencils sharpened—said there was nothing too good for the little wife.

AND WHILE ON the subject of roosters, 'tis just a short step to the subject of ducks. I know a bird here who went duck hunting a year or so ago and shot a guy's tame ducks. And not only shot them but ate them. He shot them by mistake, but ate them thru carelessness. Anyone who missed tame ducks some two or three

years ago, may have this bird's name, address, and financial rating for mailing a self addressed envelope to The Fowl Editor.

AND AT THIS point I'd like to ask if any little boy or girl can tell me at what time a pullet becomes a hen? Answer may be found by looking under that big box of overshoes in the back of Whiteside's store. It's written on a tiny slip of paper and carefully folded. Please replace after you have the desired information.

ANY OTHER information concerning fowls, fowl information it might be said, may be had by enclosing your question with two one dollar bills and addressing The Fowl Editor, Silverton, Texas. This also entitles you to one year's free subscription.

He is making plans now, with the scene of action laid around barbecued chicken and whatnot. Make mine Budweiser. The scene of action is my idea and may or may not conform with Webb's theory of Southern Hospitality.

L. T. AND Lenore (and Mike) are talking of leaving. They have sold the store. I'm sorry to hear it, and hope that they will be back in a hurry.

THINK OF A WIND 110 miles an hour. Well they've had them down on the Coast this week and with nary a bit of dust either. Give me a mild breeze about forty miles an hour, gently inter-leaved with sand. It is greatly to be desired by all home lovers.

EVERYTHING BRINGS ITS worries. Now that Watson Douglas is about to become an oil baron, having two acres under lease, he is worrying. He has just found out that it is very possible by off-

set drilling, to tap a pool considerable distance away from the rig site. Now he is worrying for fear they will set a rig up beside his acre and suck all the oil out from under it.

WHY DON'T SOMEONE invent some way so's a guy could stay awake and enjoy his sleep?

MADAM YOGI is in town. I hear she can tell you anything you want to know. There's one thing I don't know, but I don't know enough about it, to know what it is that I don't know. Dear Madam Yogi is there really one born every minute?

IF "V" IS for Allied Victory, and also mean a Finn, what the heck are the Finns doing on Hitler's side?

HOME MAKING NEWS
The 1941-42 home making girls are now ready for a year of work. Although we have had a hard time

getting settled and learning our new teacher we are willing to study hard and become first class home makers.

The second year girls have been studying the arrangements of a good kitchen. They have also helped to clean the cottage.

Saturday September 20, some of the second year girls helped to cook and serve the football boys supper. The meal was very successful although the boys seemed to think we were treating them as babies because "coach" said to serve them milk.

The girls met and elected of-

ficers for their club which call J. H. T. or Junior Home Makers of Texas. The club officers elected were:

President, Doris Campbell; Secretary, Avanel Wilson; Secretary-Treasurer, Juanita Byrd; Reporter, Carlyn Wimberly; Pring Chairman, Anna Bean; Song leader, Jo Webb; Parliamentarian, Lelia Hill; Refreshment Chairman, Avanel Brown; Reporter, Lelia B. Brooks.

All these girls are in the second year section and they hope to do very good work in their club. The girls will meet once a month.

THE RECORD... Facts That Concern You No. 31 of a Series

SOME PEOPLE NEVER LEARN... but most of them do!

There are always a few "smart alecks" who want to stand up and rock the boat. But most people try to keep out of trouble.

The same sort of thing happens in the retailing of beer. The great majority of beer retail establishments are clean, law-abiding and wholesome. But occasionally you may find a "smart aleck" retailer who violates the law or permits anti-social conditions.

We of the brewing industry want these anti-social retailers wiped out! Because they imperil your right to drink good beer...and our right to make it.

We want to protect the benefits that beer has brought to Texas—employment for 31,165 persons since relegalization, an annual payroll of \$22,076,182 and taxes of \$2,273,968.64 paid to the state last year.

This state, too, has an important stake in Beer's purchases from over 100 industries supplying the brewing industry with materials, equipment and services.

You can help us in our public-spirited program by (1) patronizing only reputable and legal beer establishments and (2) by reporting any irregularities you may see to the proper authorities.

BEER...a beverage of moderation

Mrs. J. T. Neese and Eunice Vardell spent Sunday and Monday in Electra visiting Mr. and Mrs. Mac Neese and Paul Neese.

Mr. and Mrs. Mart Self and family spent Sunday in the J. J. Vardell home.

Made Most of Opportunity To Illustrate His Point

MISCELLANEOUS cutout designs are here to tempt hammer and saw into use. At top, left, is a very practical item—"Leave a Note" bungalow. Inch wood makes this, and it is to be placed beside the front door. Pad and pencil inside the hinged door invites friends to leave word if they call when you are away. Practical, too, are the doorknockers—the red-headed woodpecker and the horse. And kitchen or dining room will welcome this clever cottage flower holder and the matching shade pulls.

The prisoner charged with assault had been severely examined by the prosecuting attorney, but still maintained he just pushed his victim "a little." "Now," said the prosecutor, the benefit of the jury, will please step down here and, me as a subject, illustrate what you mean by "a little." The prisoner descended and spectators were astonished to see him slap the lawyer in the face and hurl him prostrate at a table.

Turning to the jury, he explained mildly, "Gentlemen, about tenth that hard."

vis Hill reported on the "campor-all" at Lubbock. Which is as follows:

We got there at 5:00 with 10 boys and 3 men. From 5:00 to 6:00 we were pitching tents and improving the camp ground. We cooked supper at 6:00 and after that went to the football game between the Lubbock Westerners and North Side of Fort Worth. Lubbock won 22 to 0.

The next morning we went to the new bomber plant and looked it over. Then a boy from each troop took a ride in a motor boat on Buffalo Lake. That afternoon we entered in field events. Patrol 1 (Flying Eagle) won class A rating, and Patrol 2 (Lion) won Class B rating, the Lion patrol would have won Class A if they had signaled.

That night (Saturday night) we saw TECH and A.C.C. play football. Tech beat them out 32 to 0. Then we came home after the game.

The meeting ended with a few

games and the Scoutmaster's Benediction.

LIONS HEAR ABOUT PARLIAMENTARY LAW

More than usual were in attendance at the Wednesday noon meeting of the Silverton Lions, and heard Mrs. R. E. Douglas bring an interesting discussion of Parliamentary Law. Mrs. Douglas appeared on the program at the request of Doc Minyard, who was program man for the day.

Mrs. Douglas is Parliamentarian for the 1925 Study Club, a local federated club, that is very strict upon parliamentary procedure. She found many flaws in the operation of the business men's meeting, and in a few minutes had brought a paper that will prove of value to the Lions.

Next Wednesday's program will be in charge of C. E. Anderson and is "Fire Prevention". He will attempt to bring some facts and figures on fire rates and so forth, that may well mean dollars and cents to every property owner. T. T. Crass, Fire Chief, is an invited guest for next week's program.

WOOD DRUG CHANGES HANDS

The Wood Drug Store changed hands Monday when L. T. Wood sold the store to D. F. Wulfman. Mr. Wood has owned and managed the store for the past three years. Wulfman is well known here, having been employed as pharmacist there for the past year and a half.

The Woods family have made many friends here during their residence in Silverton. They have announced no definite plans as to the future but will probably move to Iowa. They carry the

best wishes of the community.

Mr. Wulfman has had a wide experience in many drug stores and says that he expects to make several changes around the store that will make for a more modern place of business. He expects to get really lined out in a week or so with new stocks and arrangements.

MONTROSE BOY WINS IN ART CONTEST

Among the winners in the Colorado children's art contest sponsored by the American Association of University Women, Colorado college, Denver university and the Colorado Springs Fine Arts center was William O'Dell, Montrose County High school student. He is the first Montrose student ever to place among award winners in the state contest.

William's entry was one forwarded from the Montrose contest, sponsored by the local chapter of the A.A.U.W. It was a drawing in pastels of a railroad scene and received a top rating for high school exhibits in the Montrose contest.

A first year art student, young O'Dell has been praised highly by his instructor, Mrs. C. R. Goldsmith. At the time he entered the local contest, he had been an art student only a few weeks. He was named as alternate for scholarship to the Fine Arts center. — Montrose Daily Press.

O'Dell is Mrs. E. L. Gardner's nephew.

SCHOOL BUSES TRAVEL FAR

Transportation is no small problem for Old Man Texas' children of public school age, says Lynn B. Shaw, General Manager of the Texas Motor Transportation Association.

For five days each week—rain, sunshine or snow—5,513 school busses make the far reaches of the State to carry rural youth to public educational centers. Last school year the busses traveled an average of 257,171 miles each day and surprisingly enough, there were 54 students to the bus. It is estimated that 290,219 children were transported last year, which is ample proof that youth in the remote sections of the State have been extended educational opportunities.
