By Ray S. McEntire
Secretary Briscoe Co. Committee

Food Will Win The War And Write The Peace

Secretary Wickard, of the United States Department of Agriculture, is discussing the necessity of food in the present world conflict. "Food Will Win The War — And Write The Peace."

These words are not just idle words. They have been adopted by leaders in National defense as a slogan to encourage farmers to produce more food — more milk, eggs and pork and vegetables. The farmer is ready with his produce. No one can doubt but that agriculture will more than meet the demands made upon it.

The Texas plea for increased production of foods might well be more important than many other sections of the country. In the past few years some sections have been getting out of the production of cotton and into the production of meats, eggs, milk, and vegetables. The call for more production will result in an increase in the shift from the old one-casting system to a better balanced spring system.

In every county of the state, the Defense Boards have been set up to help farmers in doing their share in this great effort. Briscoe County farmers have been asked to do their part in the "Food-For-Freedom" campaign by increasing their production of cattle by 18% and hogs by

representative production goals set the county are as follows:

Wool 18% increase
Cattle 18% increase
Hogs 18% increase
Eggs 70% increase
Milk 340,000 lbs. increase over 1941.

Bill Hardin Gets Premium Bale

HALE COUNTY SINGING CONVENTION

The Hale County Singing Convention will meet in an all day session at the Lakeview school house, 8 miles East of Abernathy and West of Petersburg next Sunday October 19th.

SANDERS WRITES AGAIN FROM HONOLULU

Dear Mother & Dad:
Today I am 24 years old. I would never have thought that I would celebrate my 24th birthday as a buck private in the United States Army, but here I am and things could be much worse.

It is now 5 minutes past 8 o'clock and in 25 minutes I go to my first class and will be in class constantly until 12:30. With the exception of my first class French, I rather enjoy all of them. French may not be so bad after I get further into it. My instructor is a French lady that left Paris about 4 years ago. She still has trouble with her English.

The University campus is quite beautiful, situated in the mouth of Monoa Valley and overlooking the lower part of Honolulu. There is a perfect view of Diamond Head and Honolulu Harbor. It is referred to as the Rainbow School because showers are always coming down the valley from the mountains and nearly every day there is a huge rainbow across the valley.

Naturally the campus is covered with all kinds of shrubby and trees and all the buildings are quite modern and nice. The enrollment is a little over 2,000. Just being on the campus is something of an education, I believe there is every race and mixture of race in the world on this campus.

I am sitting in the Lanai of the Union Building and over across the city the Mariposa is coming into port from San Francisco. It is a huge white passenger liner and in the sun it fairly sparkles. It is surely a beautiful sight, you can't imagine how blue the water is over here.

When I get back to the barracks this afternoon I expect to have a letter from you. Perhaps if I waited to write this letter I would save a stamp but I think I will go ahead and mail it now.

When the boat docked this morning it had the Universities football team on it just back from two victories on the mainland. They beat Portland University and the college of Pacific. I think for a small school it is a pretty good team. They had a big Welcome home party for it took up half an hour of one of my classes. The cheering section had 4 girls for song leaders. One white and one mulatto and two orientals. Boy what a sight. To be on the safe side I never say Chinese, Jap or Korean. I just say Oriental.

Yours,
Pvt. H. S. Sanders, Jr.

SILVERTON BOY PLAYS FOOTBALL ON COAST

O. C. Rampley of Silverton, has been playing football and seeing the sights in the sunny states of California and Arizona.

Rampley, a guard, is a member of the Buffalo football squad. His team is a member of the Border Conference, which has as members Texas Tech, Hardin-Simmons University, Texas College of Mines, Arizona State Colleges of Tempe and Flagstaff, the University of Arizona, the University of New Mexico, and New Mexico A. & M.

The Buffaloes won their first three games, two of which were played in Fresno, California, and Tempe, Arizona.

SHERMAN MILSTEAD

Mr. E. H. Stephens announces the marriage of her son, W. Thomas Sherman to Miss Francis Milstead of Alice, Texas, on September 29, 1941. After a short wedding trip, they are at home in Corpus Christi, Texas.

W. R. Hardin, of south of Silverton, claims the honor of the first bale of cotton for 1941, gathered from the Plains. Bill brought in the first bale Saturday night and it was given by the Silverton Gin Monday evening. The bale netted 385 pounds of lint and 760 pounds of seed, according to Jim Baird Silverton ginner.

The cotton was gathered from the field just off the southwest corner of the town section. Cotton in general in this area is hardly ready and there will be very little activity in the cotton fields for a least another week. Ziegler, of south of town, is reported as beginning to gather his first bale.

There were nearly 100 bales ginned at Quitaque last week where the cotton is considerable earlier. According to the government census report, there were 28 bales ginned in Briscoe County prior to October 1, this year, as compared to 210 bales that date last year; which goes to show how much later the cotton is over the country.

In spite of the late start, it is thought that 1941 will see a great many more bales of cotton than 1940. The Quitaque area already has a good crop "made". The turnout of the cotton on the Plains depends upon the weather. A hard freeze will cut the yield considerably, warm drying weather, with perhaps just a touch of frost soon, will start the gins humming in real style.

Carl Crow, manager of the Silverton gin, says that the local gin is in first class shape and ready to go. The local gin expects to gin considerable more cotton than they did last year.

1925 STUDY CLUB MEETS IN ROGERS HOME

The 1925 Study Club met Wednesday afternoon in the home of Mrs. Paul Rogers. A short business session was conducted by Mrs. O. T. Bundy, — at which time Mrs. Paul Rogers was appointed representative from club to assist in Red Cross membership drive, and Mrs. Douglas was appointed Defense chairman.

The Club appreciates very much the attractively bound copy of the "Constitution of the United States" a gift from the club president Mrs. O. T. Bundy.

Mrs. Whiteside was program leader and Roll Call was answered with the name of a favorite philosopher. Mrs. Cowart discussed Thoreau's experiment. Mrs. Wright reviewed Powy's Philosophy of solitude.

Next meeting will be with Mrs. Wright November 5.

Mr. and Mrs. J. E. Arnold attended the reunion of exstudents at Clarendon College Sunday.

Food for Freedom is being high in the storage spaces of Texas farm families as they move to meet the Nation's need for increased production of basic foods. Mrs. Richard Gill, whose family is cooperating with the Farm Security Administration, U. S. Department of Agriculture, is now with a year's supply of fruit, vegetables, and lard as she prepares surplus eggs for market. Directed by Secretary Wickard, in cooperation with Texas USDA Defense Board, the greater food program, which will win the war and write the peace, as the Secretary has prophesied, is popular with farm families in every part of the state.

SKATING RINK OPENS

Lawson's Roller Rink moved into town this week and will be open tonight (Thursday) for the first night's skating. The Skating Rink has just come from Tulia, where according to Lawson, they enjoyed a nice run.

Prices are the same, according to Mr. Lawson, and the same good management will prevail as last year when the Roller Rink was here.

CLINE REA

Miss Esther Cline, daughter of Mr. and Mrs. J. N. Cline of Tulia, and Private M. L. Rea, son of Mr. and Mrs. C. L. Rea of Plainview, were united in marriage Thursday evening in the home of Dr. and Mrs. E. A. Reed of Plainview. Dr. Reed, pastor of the First Methodist Church officiated at the single ring ceremony.

The bride wore a soldier blue dress with black accessories.

Mrs. Rea is a graduate of Silverton High School and Draughts. Business College, Lubbock.

Private Rea is a graduate of Kress High School and for the past year has been stationed at Camp Bowie, Brownwood.

The couple will be at home in Brownwood.

FLORAL CLUB MET

The October meeting of the Floral Club met in the home of Mrs. B. P. Harrison. The meeting was enjoyed by eight members, and the pleasing visitor, Mrs. George Ferry of Dallas.

The first hour of business-meeting directed by Mrs. A. P. Dickenson was mostly an informal discussion, and report on work and money for taking care of the park trees, and ground. Still hopeful of having city-water as promised, the ladies made tentative plans for planting the grass as soon as it can be cared for.

Mrs. Wright gave a talk on the new discoveries about the care of tulips, for it has been learned that tulips need no fertilization, but should have a soil rich in magnesium and calcium with heavy lime content, in order to develop sturdy large bulbs that do not split. A little feeding of bone-meal at early bud-time helps give a healthy bloom. A comparison of American-grown tulips with Holland's bulbs was given. Mrs. Bob Dickerson and Mrs. Paul Webb were hostess and served lovely refreshments. Mrs. Harrison assisted.

It is likely the next meeting will be an all-day quilting.

WPA HAS BUILT MANY STADIUMS

Although 2 of 5 WPA workers, today are engaged in defense program activities in Texas, another phase of the WPA program will help to take the minds of the Texan public off of international events for the next few Saturday afternoons.

More than 290,000 persons can, and probably will, occupy seats in WPA-built stadiums and grandstands any Saturday afternoon during the current football season, according to figures compiled in the state office of the Federal agency.

Sixty-seven stadiums, including such outstanding school structures as San Antonio's Alamo Stadium and huge steel and concrete athletic plants at Fort Worth and Dallas, have been built by WPA workmen in Texas since the inception of the works program in 1935.

Although, the WPA program has resulted in the construction or expansion of stadiums, grandstands, and bleachers at 146 Texas high schools. Similar work is currently going forward at 32 schools in the state.

Athletic facilities have been constructed or improved in the Amarillo District at Skellytown, Childress, Clarendon, Pampa, McLean, Turkey, Memphis, Amarillo, Canyon, Tulia, Dalhart and Whitdeer.

Miss Margert Collins spent Sunday with Miss Louise Grewe.

'Mammy' Haynes Claimed By Death

WEAVER TELLS CLUB OF DAIRYING

Lem Weaver spoke to fourteen Lions at the Wednesday meeting on Dairying as the coming industry for this county. He showed lineage of several animals, and told of more stringent regulations in effect in regard to the registering of Jerseys.

Over seventy dairy cows have been purchased in Briscoe County and it is thought that production is increasing. A statement from a Tulia banker showed that the dairy industry in Swisher is bringing far more revenue now than the wheat crops.

The Lions thoroughly enjoyed Weavers talk, and a lively discussion followed. Next week the Floydada Lions will be on hand with a program.

BRISCOE COUNTY BOYS AND GIRLS GET REGISTERED JERSEY HEIFERS

Through the cooperation of the Extension Service, Vocational Agriculture teachers, and the Farm Security Administration, Briscoe County, 4H and Vocational Agriculture club, boys and girls recently purchased 59 head of registered bred Jersey heifers.

This group of Jersey heifers, bred by J. L. Hodkin of Ft. Worth, Texas are from proven sires of four different blood lines, and dams with production records up to 675 pounds of butterfat. Mr. W. E. Helms, Alvin Redin, and Bert Hawkins serve as members of an Advisory Committee in selecting the club boys and girls for loans and the livestock purchased.

The Senior members of this committee were assisted by W. C. Donnell, William Rucker, and Merle Montague, as Junior members.

Approximately 20 of this group of heifers is going to the Vocational Agriculture boys in the area of Silverton, sponsored by Mr. Victor Harmon, Vocational Agriculture Teacher. The County Agent, Lem Weaver, has to date assisted in purchasing in this group and other outstanding herds, 39 Jersey heifers for 4H club boys and girls throughout the county.

The majority of the calves were financed through the Farm Security Administration, whereby money was borrowed at 5% interest and the boys and girls allowed five years to make complete repayments of the loans. Boys and girls taking advantage of this plan are approved by the Advisory committee and are expected to keep production records of their club heifers and accurate records of feed costs. To carry on a successful dairy enterprise, it is felt quality cows are necessary, as well as good care and accurate records.

The boys and girls securing Farm Security loans are expected to purchase Jersey Heifers with production records of 300 pounds of butterfat or over, and the heifers are to be bred to males of similar records.

This group of heifers purchased were placed in three different groups by Mr. J. L. Hodkins, the breeder, depending on age, production records, and individual animals. The registration numbers were placed in a box and the boys drew numbers and then located the heifers with the corresponding number. The most interesting part of this meeting was the expression of satisfaction on the boys and Dad's faces when their heifer was located in the lots.

Plans are partially complete for the purchase of 4 Jersey bulls to be placed in the county as an FSA community co-operative enterprise.

About 250 farmers, business men and club boys were present at Mr. C. T. Rucker's farm near Quitaque, Texas, when this group of animals was distributed.

It appears dairy products are needed now for a national defense program in the future to assist the income from cotton, wheat, and AAA check of a diversified farm program.

Miss Margert Collins spent Sunday with Miss Louise Grewe.

Long, Useful Life Is Ended Here Tuesday

"Mammy" Haynes life of helpfulness is ended. Mrs. N. W. Haynes, Silverton pioneer mother, passed away quietly at her home here Tuesday morning, October 14 at the age of 82 years. She had been in failing health for some time.

She came to Silverton in 1904 with her family and operated a hotel here for 23 years and it was during this time that she was given the name "Mammy". She wasn't just mother to her own children and grandchildren—she was mother to every kid in town, and dozens of Silverton men and women can recall with pleasure the things she did for them. She was honorary mother of the Boy Scouts here, and last year she and her son John, gave them a wonderful 80-acre camp site northeast of Silverton.

Funeral services were conducted at the Methodist Church, Thursday, October 16, with Frank Beauchamp in charge, assisted by the pastors of the Baptist Churches. Interment was made in the Silverton Cemetery. Boy Scouts of Troop 62 acted as honorary pall bearers.

Obituary

Miss Nannie White Brown was born September 29, 1859 at San Marcos, Texas, and departed this life October 14, 1941 at the age of 82 years and 15 days.

She was united in marriage to Mr. Joseph K. Haynes, February 23, 1881, at Llano, Texas, and to this union were born six children. The children are John T. Haynes, Silverton; Mrs. Myrtle Whittle, Rock Springs, Texas; Mrs. Lue Holderson, Oklahoma City; Mrs. Mary Daniel, Amarillo; Miss Billy Haynes, Amarillo; and Virgil Early Haynes, who preceded his mother in death, July 4, 1902. All living children were present at the last rites.

Also present to show their love were seven grandchildren, Jim, Joe, and Jack Haynes; Mrs. Josephine Anderson, Mrs. Mary Jo Holderson Smith, and James and Billy Holderson. Two other grandchildren were unable to come, Harry Holderson of the Philippine Islands, and Miss Marie Holderness of Fort Worth.

Mrs. Haynes united with the Presbyterian Church while a young girl, and she continued as a member of it all of her life. Her life itself, stands as a testimony that she was a faithful follower of her beliefs.

She leaves to mourn her passing, not only the bereaved family, but hundreds of men and women, and boys and girls who love her, and will continue to revere her memory.

CLARENDON COLLEGE HAS HOMECOMING DAY

Again one of Silverton's talented ladies has brought honor to us. And one of Clarendon's old college boys looked justly proud because that lady was his, when last Sunday at the annual Homecoming Day, Mrs. J. E. Arnold entertained a large assembly of ex-students at her husband's alma mater, Clarendon College.

Mrs. Arnold's musical and literary compositions furnished entertainment for the entire afternoon-program. Her song, "Texas Blue Bonnets," was sung by Mrs. R. Wilkerson and Mrs. Arnold. The musical accompaniment, which had been arranged by a former Dean of the Fine Arts Department of Clarendon College, and who is a nationally recognized musical authority today, was rendered effectively, by a Clarendon musician.

Many in the audience had been past students of Den Scheurer, and his composition which interpreted Mrs. Arnold's lovely song stirred their hearts as they listened to the exquisite renditions of both song and music. Following the songs Mrs. Arnold read two of her original poems, and received a big ovation.

Mrs. Clyde Wright spent Friday and Saturday with her daughter Miss Elva Wright, in Dallas.

WEEKLY NEWS ANALYSIS By Edward C. Wayne

Unrest in Nazi Dominated Nations Results in 'Front-Behind-Front'; Hitler's 'Victory' Speech Is Puzzle As Russia Claims Important Gains

(EDITOR'S NOTE—When opinions are expressed in these columns, they are those of the news analyst and not necessarily of this newspaper.) (Released by Western Newspaper Union.)

Reichsfuehrer Adolf Hitler is shown in the Sportsplatz in Berlin as he made his speech to open the annual drive for winter relief. He used the opportunity to tell the German people that his armies on the eastern front have scored great victories and that Russia is "already broken and will never rise again." He again predicted complete Nazi victory. In the seats of honor at the gathering were a number of wounded, seen at the left front in the above picture.

FRONT: (Behind Front)

The old cliché that "there is nothing new under the sun" was fairly routed by the oddest of all wars when the unrest which had been boiling for months in countries occupied by Nazi Germany had begun to flare into strange and more open warfare.

And it was a queer warfare, with ultimatums flying back and forth, and nations in exile passing decrees on conquered peoples with the threat of "death if we ever get back in our countries again."

It was no laughing matter, either, for the era of mass executions had been reached, with the possibility in some quarters that Germans would be slaughtered wholesale, just as the Nazis were slaughtering victims in other quarters.

In Jugoslavia

Guerrilla bands operating in the Serbian mountain districts, swooping down by night, had been capturing small detachments of Nazi soldiers, spiriting them away as captives, until they had amassed somewhere between 600 and 1,000 men, whom they were reported holding prisoners.

Came an ultimatum from guerrillas to the Nazi occupational officers to this effect: "Continue to shoot Jugoslav hostages, and we shall execute our prisoners."

The German answer (requiring the use of a considerable force which presumably had been taken from the Russian front) was the reported sending of a panzer division of 12,000 men and to head it toward Belgrade, the former capital of former Jugoslavia to deal summarily with these guerrilla bands.

In Norway

King Haakon (in exile in London) signed a decree providing the death penalty for crimes against the Norwegian state.

A counter-attack against this move had come from Josef Terboven, the Reich's commissar in Norway, who said: "Accept Germany's new order and regard Germany's enemies as yours, or face obliteration as a national state, and perhaps starvation."

This ultimatum was backed up, it had been reported, by the fact that more than 2,000 Norwegians were in concentration camps, many of them held as hostages.

The "new order" was the Quisling government, against which an underground and sometimes open revolt had been going on for two months or more.

And against this stood Haakon's decree, held a warning to any "tools" of the Nazis who might exert themselves to help the German authorities that if Norway regains its freedom they will face the death penalty.

In Bulgaria

While not occupied formally or as a result of warfare, Bulgaria was officially considered to be an Axis partner, and reports had emanated from Sofia, in the form of a victory dispatch, that Greek forces which had swooped over the borders into Bulgaria with rifles and machine guns seeking to organize a revolt among the Greek citizens.

zens of the country, had been "annihilated."

In Belgium

A bomb explosion, it had been reported, in Brussels, had killed Jean Oederkerke, secretary of the Rexist (Fascist) forces.

In Czecho Slovakia

The wholesale executions in Bohemia and Moravia (home of the Czechs) followed revelations that there had been operating there schools for saboteurs and for learning improved methods of slowing down factory production.

And these evidences of the widespread revolt were in addition to similar events which had resulted in executions in occupied and unoccupied France and in Holland.

NEUTRALITY: Change Expected

Although it was recognized that President Roosevelt's request for changes in or repeal of the neutrality act would meet with determined opposition in senate and house, a poll of the chambers showed definitely that some modification, notably that of permitting arming of American merchant ships, would receive a congressional O. K.

This poll had been taken as Secretary of State Hull warned the Axis powers that American-owned ships (presumably wearing the Panamanian or other flag, were armed and had orders to defend themselves.

This statement itself had closely followed the sinking of a former American tanker 450 miles east of Recife, Brazil, with the loss of several American lives.

The tanker had originally been American, had been transferred to the British service, and was operating under the Panamanian flag with a crew largely composed of American citizens.

Between 12 and 20 such ships had already been armed, Mr. Hull said, and he characterized the sinkings of these vessels or of those of this type as a German effort at "frightfulness designed to drive us out of the Atlantic."

The senate poll showed 29 in favor of repeal or change; 20 opposed to any change, and most of the rest undecided, wanting more time to study, or out of the city and unavailable for comment.

HITLER: Puzzle

The first formal address by Hitler in 103 days of warfare with Russia rather left the world puzzled—for he claimed a total victory over the Reds at a time when Moscow was claiming the Leningrad push stopped, and continued advances in the center.

Also, the favorable report of the chancellor on the war situation came at a time when unrest behind the lines was assuming the proportions of a front, and at least one whole division had to be sidetracked to take care of one small sector of conquered territory.

Even more puzzling was his statement that he had ordered production of war materials restricted, because the Russians were no longer able to be a menace and that the war was, in effect "in the bag."

This was followed up by a warning in the Berlin Press to British and American mission members in Moscow to get out of the Russian capital because a head-on attack upon Moscow was planned.

It came at a time when Moscow itself was informing the British and Americans that there no longer was doubt that Russia could hold out through the winter, but that quantities of munitions and the machinery of war would be needed next spring.

It was hard to reconcile facts with speech or speech with facts.

Armistice—in U. S. War Games

Upper Right: (L. to R.) Lieut. Gen. Delos Emmons, Lieut. Gen. Walter Krueger and Lieut. Gen. Ben Lear, commanders of the two field armies and air force in war games in Louisiana, listen to comments on the games by Lieut. Gen. Lesley McNair, chief of staff at GHQ, Washington, D. C. Below: The infantry battalion has borne the brunt of the battle in the first army maneuvers at Camden, S. C., and returns to camp after the "attack."

Extending 'Peaceful Sphere' in Far East

Upper picture shows soldiers of a new Chinese army under President (Jap recognized) Wang Ching-wei that has been co-operating with Japanese troops in pursuit of Chiang Kai-shek's army, boarding barges at Nanking. Below: Japanese soldiers, part of first contingent dispatched to French Indo-China under French-Japanese protocol, wait in southern part of country before moving forward.

Three Generations Arrive From Europe

Three generations of one family are pictured as they arrived in New York, aboard the Portuguese boat, Nyassa. Left to right: Morris Loev, 86, oldest passenger on board; Bertha Loev; Margaret Lautene; Otto Lautene, 14; Peter Lautene; and Lottie Lautene, eight. While en route from Vienna to Lisbon their train was machine-gunned.

Take Court Seats

Justice James F. Byrnes, left, and Justice Robert Jackson, newest members of the Supreme Court of the United States, are shown for the first time in their robes of office as they prepared to take their seats on the bench.

'Lightning' Interceptors in Formation

Piloted by U. S. army fliers, these speedy Lockheed Interceptors are in mass delivery flight to air corps headquarters in the East. Picture first ever taken of the "Lightning" in formation, were taken at Burbank, Calif. The P-38 is the only fighter to take off from Burbank, Calif. The P-38 is the only fighter to take off from Burbank, Calif. The P-38 is the only fighter to take off from Burbank, Calif.

Arrested by Gestapo

Gen. A. Elias, prime minister of Bohemia and Moravia, whose execution was ordered by the Gestapo on charge of "preparing high treason," as Germany clamped down on most of the protectorate.

Washington Digest Farm Implement Industry Will Try 'Allocation' Plan

Manufacturers of Agricultural Machinery Placed Under Experimental System for Obtaining Necessary Raw Materials.

By BAUKHAGE National Farm and Home Hour Commentator.

WNU Service, 1343 H Street, N-W, Washington, D. C.

By the time these words are printed the farmer ordering a tractor or a dairy machine is going to be able to line up at the counter right beside the generals and the admirals making their purchases of tanks and ships.

This is the interpretation that can be put on the remark made by Donald Nelson, head of the priorities division of the OPM, to the effect that he is going to make the agricultural implement industry a guinea pig in an experiment to remove the bottleneck which is preventing non-defense industries from getting the raw materials they need to operate.

Nelson admits that "priority lists" are not worth the paper they are written on in many cases and that a system of "allocation" is to be tried out.

"Priorities"—"allocation"—was always create new words as well as new meanings for old ones. In this case the word "priorities" covers, if not a multitude of sins and headaches, at least a new meaning. When it became evident that there were not enough raw materials to supply defense needs and civilian needs both, the priority system was devised.

The priority division of the Office of Production Management was set up to decide which order for which raw material should be delivered to what manufacturer. The materials most essential to defense production were rated with an A, and graded in that category with numbers according to their importance. For example, A-1 material topped the list. The highest rating for civilian defense materials was B-1, while others were fitted into alphabetical classifications and numbered in line with their significance in the defense program.

This was the priority system. But it did not always work. For instance, the manufacturer of a dairy machine requiring some essential product like aluminum or rubber might have the highest civilian rating, but when he tried to get delivery for that product he found that all he had was the letter "B" and the number "1" on a sheet of paper, and you can't make dairy machines out of paper.

In Civilian Industries Also This was happening in many civilian industries. It was also happening in defense industries. In the latter cases the system was changed so that certain defense manufacturers could get certain raw products (aluminum, copper, synthetic rubber, etc.) regardless of priority rating but by "allocation." In other words, the government ordered a specific amount of steel or copper delivered directly to the manufacturer.

And now the farm implement industry is to get its raw materials by the same method—allocation—if the plan being prepared by the priorities division at this writing is carried out.

However, there is another story behind the story of the guinea pig. It probably began with a terse remark by Gov. M. Clifford Townsend of the Office of Agricultural Defense Relations. He said: "The priority system works as well as writing a check on a bank with no funds in it."

He was referring to the priority lists in general but he was thinking specifically about the farm implement industry and thinking about it in connection with the new goals set for farm production. For what can the poor farmer do when he is asked to produce more with less labor—if he can't buy the machines he is willing to pay for—if the manufacturer can't get the essential materials to build those machines? Donald Nelson admitted that priority lists were not worth the paper they were written on.

Before Mr. Nelson made his admission, Dr. Townsend and a few other officials—a few hundred be-

fore long—in the department of agriculture got busy. The inter-committees made a survey of the mechanical requirements of production as set forth in the goals in the food for freedom campaign. This was in July.

Survey of Requirements

The department surveyed needs in packaging and processing machinery—machines to take of the products after they were raised. And the county agent asked him what he would do to take care of the extra production bearing in mind that he was short of human hands.

A farmer with sons and help in the army or working in the defense industries might make their loss if he substituted a tractor for a four-horse hitch, feeders help, too, and machine handling the products, like hoists—and, since the accent farm program is now on dairy products, dairy machines are important. The latter take a lot of precious aluminum, nickel and rubber.

The poultry business was much concerned, for human hands have to do almost everything hens that the hens won't do themselves.

But how to get the materials up and ready to go. They were at the top of the priority list there were no priorities.

The matter was laid before defense officials. Next Donald Nelson, in of priorities and once approved largely on the farms for (he has been loaned to the department by Sears, Roebuck), in to make good that "check book with no funds in it" began to plan allocations in priorities.

Washington's Preview Of Winter

For a while the other day in Washington drew a gray curtain bright autumn skies and pale preview of winter.

It started with that pale ment which, I daresay, you have experienced oft in the night when an ice cake in the sea in your shorts or something shorter, you awake to find an unfaithful blanket has left you. That happened to me. And I had finally curled up to a warmer climes the alert off. It was still dark. So I clock buzz and tried to sleep. It ought not to I reasoned. It hadn't been that hour for months.

When I reached the street a thick gray sky above, a chill in the air that set my ington's leisurely pedestrian trying—myself included. It like winter. And when I my second boarding-house sure. These cats take the outdoor loaf while the dining rooms are full. In some of the boarders are to catleaps or catallerges ever it is that makes people and wiggle when a persian rubs their leg. Any two particular cats are always in the same spot in their respective boarding-houses. I pass. Usually they are bored. This time they were bored. They were bored like tight accordions—a change ways looks as though it will pull its chin into its collar.

Another sign of the fall was an empty bench in the Masonic Temple. Usually a group of girls waiting for the train them up and takes them to at worst a late bus. It convenient resting place in mer under the shadow of sphinx. This time there was sifter. She may have had on her mind—or else—warmed her soul and prepared cold stone from affecting we say, situation.

There was one more evergreens preened the with a look of satisfaction cannot muster when the compete with maple and

INSTALLMENT EIGHT

STORY SO FAR: Larry Cutter and pretty Jacqueline (Jack) Anstey, public stenographer at the Hotel... by telling her she could realize... job-trotting ambitions by marry-... Stunned by the recent loss of...

her life's savings in the stock market, she accepted his proposal. They were married after signing a contract per-... mitting her to continue her present... mode of living for six months, after... which she could tear up the contract.

He gave her \$10,000 in U. S. bonds as... surety. Several weeks later Jacqueline... learned that her father was in a hos-... pital. She hurried to see him, and found... him thin and haggard.

"My charges, you mean? Well, we'll have a talk about that later. I don't think they will scare you."

"I think you'd better make sure." She tried to smile bravely.

"All right. In your case... We'll say two hundred. That's in addition to the hospital's charge for the operating room, the anesthetic and so forth. Scared?"

"I can manage it."

"All right. Suppose you drop in and see me in about a week. And don't worry in the meantime. Oh, yes... There is something else you can do."

"What is that, doctor?"

"Your father is a bit... low. Do what you can about that. It will be a big help to us all."

"I will."

She began by calling on Vince that evening, armed with a bunch of sweet peas. Vince was installed in a small room and seemed to be more cheerful. His one worry now was his landlady and the fear that she might dispose of the paraphernalia for his cherished experiments when the rent was due.

"How much are you paying for your room?" Jacqueline asked.

"Three dollars a week. My rent is paid for the next two days."

"I will see her tomorrow and tell her that nothing is to be disturbed

A policeman asking her about... Larry! About her husband!

"Cutter..." she murmured, staring at the keyboard of her machine as if in an effort to remember. She even achieved a slight puckering of her smooth brows.

"Oh, I know whom you mean, now," Jacqueline marveled at her own composure. "He did give me some work. Several times."

"Happen to remember who he wrote to? Or what the letters were about?"

"No. I take dictation on my machine. I never remember what I write."

The little stenographer's heart was beating fast. It was almost the same thing that Larry had asked. And he had suggested it might be well for her to recall his letters...

"I guess they were just business letters, or you would have remembered," the lieutenant mused. His eyes were on the lobby again.

"I'm sure they were."

Jacqueline was thinking fast. She must try to find out what this call meant. No time now to analyze reasons—whether it was an instinctive desire to protect herself, or Larry. But she must know. Her face was as artlessly frank as Staples' when she asked:

"Is he a... bad man?" She had intended to say "crook." But the word would not come.

"Blest if I know, Miss Anthony. We got nothing on him, if that's what you mean. We're always sort of interested in strangers. That's all."

"Please tell me more about Mr. Cutter," Jacqueline urged Lieutenant Staples. "It sounds very exciting."

"Sounds goofy to me, to tell you the truth. There's a fellow comes to me and asks me to sort of keep an eye on Cutter. I'm not mentioning any names, but this first guy is... well, he's quite a somebody. Otherwise, I'd have shooed him away. He didn't have any charges to prefer and didn't want to have any official check-up made. Just tipping me off in a fatherly way for whatever good it might do me. Wanted me to act in a sort of private capacity... Staples permitted himself a slight smile.

"I was for letting it all go in one ear and out the other, until he happened to mention that this fellow was the son of old John Cutter. Then I thought it wouldn't hurt to play along a little."

"John Cutter?" Jacqueline repeated.

"Yeah. Sort of a mystery that never was quite cleared up. He was one of them inventor nuts."

"Oh."

"Married into a little money when he was young and spent most of his life puttering around with his stunts. Had a place about 20 miles out in the country. Quite a ranch, I guess. Anyways, he seemed to stumble onto something that was going to revolutionize something. Blossomed out at the head of a concern and built a factory. Jobbed stock around among his friends. There's always a flock of suckers..."

"I suppose there are."

"Well, something slipped. No one seems to know whether the whole thing was a phoney or whether old Cutter was a miss-fire when it came to business. He claimed he lost all his money and it's a cinch the suckers were taken for a ride. Cutter eventually was indicted for fraud."

"Was he found guilty?"

"No. Dead. Not long before he was to stand trial. From what I can find out, there was some evidence of foul play. It seems to have made quite a stir. Then it was passed up as suicide. Cutter's wife and son faded out of the picture. Now the boy's back in town and apparently not doing much of anything. Seems prosperous enough. May be nothing to it, you know."

"You say he isn't here."

"Oh, no, I didn't. I said he was here. As a matter of fact, he came back today."

"He did!" Jacqueline could not repress a little start.

"Yea. He registered about one o'clock. I just happened to stumble on that one by dumb luck. That's all detecting is, anyway. It just occurred to me you might have met him in your official capacity... taken some dictation. If he has any letters to write that sound tricky, I'd appreciate your tipping off a pal. So long."

Jacqueline sat at her desk scarcely breathing. Her brain was in a whirl. She had resolutely refrained from questioning Larry; just as resolutely had she smothered the little doubts that had arisen in her mind from time to time.

As she tried to assemble it all in her numb brain, Jacqueline was aware of a persistent thought. It grew until it overshadowed all else. She was Larry's wife. The police were watching him.

Just where did her duty lie? (TO BE CONTINUED)

Feathered Fighters for U. S.

Falconry, one of the oldest of the world's sports, is to be given a try-out as a military weapon of the United States. There is little doubt that peregrine falcons, properly trained, could be used as ideal interceptors for carrier pigeons used by the enemy. To handle these feathered draftees a number of soldiers are being trained as falconers, under Lieut. Thos. MacClure. These photos were made during a falconry demonstration at the Bronx Zoo, New York.

Lieut. MacClure "gentles" (gets it accustomed to being handled) "Thunderbolt," the first falcon to join the U. S. army signal corps. Falcons are found in big cities roosting on ledges.

A keeper at the Bronx zoo is about to hood a golden eagle. The leather hood is to keep it from seeing until the falconer wants it to see. Then it is taken off. Each day the falconer must spend an hour or so with the hooded bird on his wrist. Stout leather thongs called "Jesses" are attached to the bird's legs.

Above: Hood removed, the zoo eagle is shown in flight here. The bird is returning to the keeper's wrist. The light rope attached to the "Jesses" is to keep the bird from going after pigeons and sea gulls. Right: A closeup view of the hooded eagle. The plume in front is just an ornament.

The eagle has made his perch and is about to rest. It would be difficult to train enough eagles, even if there were enough.

My Week

by Eleanor Roosevelt

RADIO BROADCAST FROM HYDE PARK.—We drove down to New York city after lunch one day and I had a visit from Dr. Reinhold Niebuhr and Dr. James Loeb Jr., who came to ask me to speak at a meeting. They allowed me a choice of dates in October or early December. October is already so filled with obligations and December is filling up so rapidly, that I finally agreed that I would try to go, if certain conditions can be met, and if no one can be found who will do a better job than I.

Then I went over to the broadcasting station and went through the usual preliminaries of photographs and rehearsals. I wish my reading time would be the same at least twice, it would save the poor people who run these programs a great deal of trouble. As a result of the broadcast, I had a most entertaining telegram which reads: "Face the fact that Communism and Democracy are not the same and see where that leaves you." It was signed: "An Isolationist."

DEFINITION OF DEMOCRACY I must be very dull, because I thought I had made crystal clear that Communism and Democracy are not the same. I thought that I had given a fair definition of what Democracy really is! However, I am delighted to have an opportunity to say here that it seems to me that Democracy has one great advantage over Communism—it really requires the participation of every citizen in the choice of the people to fill government offices.

Of course, it would be impossible to have a real democracy in a country which has not so far had, for at least two generations, free public school education and laws which protected people in their right to exercise fundamental freedoms of thought, of speech and of assembly.

Mr. and Mrs. "Isolationist," whoever you may be, facing the fact of this difference between Communism and Democracy, leaves me in just the position I was in when I made my radio speech.

ANOTHER NEW YORK TRIP One day we caught the six o'clock plane for New York city and worked on my personal mail during an extremely smooth flight. I went home first, where I had a glimpse of Jimmie and Rommie, who were just starting out in their best bibs and tuckers to dine very gaily in celebration of her birthday.

Miss Thompson and I dined in a little restaurant on Sixtieth street near Fifth avenue, which we both like, and had a very leisurely and pleasant meal by ourselves.

The meeting called the next day by the Co-ordinator of Federal Security Services, Mrs. Anna Rosenberg, was a most inspiring occasion. It brings together not only the different agencies under that bureau, but all the other government agencies working in the area. Here were government representatives on a regional level, working out the problems which affected all their different agencies. Thereby, they accomplished results, which, if they had not met together once a month, probably would have taken weeks of correspondence finally to clear up.

In the afternoon, all the state officials joined the meeting. This meant that purely state responsibilities, and the points at which the state officials touch the federal government officials, could also become clarified because of personal contact.

In addition, Lieutenant-Governor Poletti of New York state, state co-ordinator of civilian defense activities, and Maj. Gen. Irving J. Phillipson, representing the military interests of the area, were present. It seemed to me that this was as good a co-ordinating job as I had seen accomplished anywhere in the government.

SOUTH AMERICAN FILMS One evening the President and I, with our dinner guests, had the pleasure of seeing some new films. One is made from pictures taken during Mr. Julian Bryan's last trip to South America, and his voice gives the running comment. Life is full of little coincidences, and I smiled when I thought that, only that morning I had read a letter which a young friend wrote from Bogota. She told most interestingly of the country and the life there and casually mentioned that they had been spending some very pleasant hours with Mr. Julian Bryan. Here I was looking at the picture made on his last trip, while he was out making pictures for a future film!

The other picture shown was done under the direction of Mr. Joseph Losey. It is a very charming picture of a nursery school in a rural area. Children are shown in all the activities that are possible in country surroundings. We see them at work and at play. The children range in age from two to seven years. It has no great significance, except that it brings the people who see it a realization of the value of the nursery school. This educational experiment is fairly new in our country. In Europe it has long been known.

Things to do

THE seasons' fruit, crocheted in gay shades of gimp, will add that attractive note to your kitchen as shade pulls, tie-backs and other decorations. Grand for bazaars!

Books Are Links God be thanked for books. They are the voices of the distant and the dead, and make us heirs of the spiritual life of past ages.—William E. Channing.

Serves TEN DAILY NEEDS MENTHOLATUM Mentholatum brings delightfully soothing relief from: 1. Discomforts of colds. 2. Chapped Skin. 3. Stuffy Nostrils. 4. Neuralgic Headache. 5. Nasal Irritation due to colds. 6. Cracked Lips. 7. Cuts and Scratches. 8. Minor Burns. 9. Dry Nostrils. 10. Sore Throat, due to colds. Jars or tubes, 30c.

Getting and Giving No man lives without jostling and being jostled; in all ways he has to elbow himself through the world, giving and receiving of-fense.—Carlyle.

Relieves MONTHLY FEMALE PAIN Women who suffer pain of irregular periods with cranky nervousness—due to monthly functional disturbances—should find Lydia E. Pinkham's Compound Tablets (with added iron) simply marvelous to relieve such distress. They're made especially for women. Taken regularly—Lydia Pinkham's Tablets help build up resistance against such annoying symptoms. They also help build up red blood and thus aid in promoting more strength. Follow label directions. Lydia Pinkham's Compound Tablets are WORTH TRYING!

BUREAU OF STANDARDS A BUSINESS organization which wants to get the most for the money sets up standards by which to judge what is offered to it, just as in Washington the government maintains a Bureau of Standards. You can have your own Bureau of Standards, too. Just consult the advertising columns of your newspaper. They safeguard your purchasing power every day of every year.

Only nine thousand dollars left!

until you get back. I will see about the rent. Where is the house?"

"Three-eighths Elder street. It isn't so bad." Vince located it in a general way for his daughter and her heart sank again. It must be rather dreadful, she decided. In the heart of a factory district.

Vince listened to the account of her interview with the doctor with a slight show of interest.

"I'll pay you back soon," he insisted doggedly. "You know, Skipper... His face brightened. "I'm right on the edge of a big break now... Or I was. Just as soon as the money starts coming in, you and I will set up in a decent place. It's been lonely for you, I guess. The same as it has for me. You might start looking around for a good location... And you needn't think about expense, either!"

Bless his heart, Jacqueline thought. How familiar it all sounded. What would Vince say if he knew... everything?

CHAPTER VII

The following afternoon, Jacqueline turned a startled face to the door of her office in answer to a sharp tap.

"It's a pinch," said a quiet voice.

"How are you today?"

"Oh... Lieutenant Staples! You startled me..."

"Yeah?"

The slender man, who entered the office and helped himself to a chair, was about as far removed from the general conception of a detective as one could well imagine. His face was peculiarly ingenuous, almost boyish. The entire top of his head was bald, pink and shining. He was not an infrequent visitor in the hotel and the stenographer's office. In the nearly two years of their acquaintance, Jacqueline had learned that Staples was one of the city's best sleuths and his recent promotion to a lieutenant had been due to a bit of especially brilliant work.

"Keep you pretty busy, do they?"

"Not as busy as I would like."

"I suppose not. Things are pretty dull everywhere. Guess a good deal of your business in here is with guests... transients?"

"Most of it is."

"I figured it was." Staples' bald head came about slowly. "Ever do any work for a guest by the name of... Cutter?"

Jacqueline's heart skipped a beat. For a second, everything was misty.

Briscoe County News
Official City and County News

ROY W. HAHN
Editor and Publisher

THE HEADLINE of the week would have been "Lay-down strike in protest to County Government" — I dropped in at the commissioners Court meeting Monday and things were going so wrong that I stayed to look up a word in the dictionary. A lady wasn't getting enough food stamps to suit her and she was really going to town.

SEEMS AS THOUGH the court had checked a bunch of bills and hadn't been overly enthusiastic over some of them. And the lady wasn't overly enthusiastic, either, over the court's attitude. The county judge was as immovable as the traditional Rock of Gibraltar. The commissioners were non-committal, to say the least. With the result that the lady went down stairs and parked in a reclining position on a bench, and stayed here until night. The one-woman lay-down strike was broken about eight o'clock.

AND NEXT YEAR is election year too—"Hut, Sut, Rallston on the Rillera." Also, "There'll Be A Hot Time In Old Town Tonight."

BILL HARDIN GOT the first bale of cotton. He has had his kids out there looking for bolls ever since the cotton came through the ground. They made up some prizes over town and almost every merchant put it in the contract "provided he leaves town". So I heard, but I don't believe all I hear on Bill Hardin.

AND SUNDAY I was down at Quitaque, I mentioned seeing a negro. And the Young Hahn called my hand on it. He said "It isn't nice to say nigger — say porter."

YOU HAVE HEARD of fellows getting shot with rock salt haven't you? But did you ever hear of a man getting shot in the behind with hot sweet potatoes? I did. I mean I got shot. Barb was canning sweet potatoes and got curious and opened the oven door. I walked by just after she shut the door and one of the quart jars blew up. The full force of the blast caught me on the north side, spun me around and caught me on the north side again. And boy are sweet potatoes hot? If a guy could limp sitting down, I'd do it.

FRANK HAVRAN HAS gone in for curves. Not the bathing beauty kind (at least I haven't heard of that) but in his Tailor Shop. Last week he and Bill Thompson were busy building new cases and clothes compartments in the shop. It really looks keen, with everything rounded off in modernistic curves.

FRIDAY IS THE first home football game. Our boys tangle with Flomot. Turkey beat the Flomot gang last week, and anything Turkey can do, we can do. Come out and see it.

SOMEONE BROKE IN the school house and stole some football jerseys, it was reported this week. After having M. K. Summers up with his bloodhound fluid, and considerable more excitement they found the jerseys where they had slipped off be-

hind a big box. This item should be headed "crime wave".

BACK TO BILL Hardin. Just saw him and he confessed that he went down in the Quitaque neighborhood and got that premium bale. "Not that I couldn't have gotten it out of my own field", he says, "But I was afraid that Ziegler would go down there after his." I marked Bill's subscription up for my part of his premium. He sure was glad. Said "Boy I was afraid of that. I couldn't live without it. I use it for everything from a lamp shade to a back scratcher". Testimonial No. 52, 328½.

I'M GOING OVER and Coffee myself and when I get back I'm going to get down to business . . . No go. The only guy I saw was Tom Bomar. He almost scared me with a wild tale of how he chased a couple of drunks out of his restaurant with a meat cleaver.

THINGS TO WATCH FOR -- A new "almost metal-less" airplane, by Langley Aviation, made of molded plastic and molded mahogany plywood to escape metal priorities; it has carried four passengers at 142 miles an hour in tests. —Telephones which flash a neon light instead of ringing a bell — since different colored lights may be used, it may appeal especially to multi-phone offices where variety of jingles contribute to nerve jangles . . . Basil Rathbone, sleuth and villain of the films, in Prokofiev's orchestral fairy tale . . . Hamburgers in canned form are being tested by Hormel, with

"Wimpy's" as the trade name—after the 'burger-mooching' comic strip character . . . A rubber-tube-and-valve device which makes it possible for an autoist to transfer the air from his spare tire to a wheel tire gone soft . . . New versions in motorcycles, to appeal to defense economy-minded folk — one model with turrettype seat and extra-long, springy frame promises 100 miles per gallon of gas.

BITS O' BUSINESS — Restaurant sales are booming, have been setting new volume records every month for 28 months—but food and labor cost increases have squeezed the already-thin profit margin almost to the vanishing point. So don't be surprised if you find more menus listing extra charges for beverages, desserts, soups; possibly even a slight charge for bread and butter.

"IN THE NAVY" TO SHOW AT PALACE FRIDAY AND SATURDAY

Theatre goers who enjoyed Abbott and Costello in "Buck Privates" will be delighted to know that these two entertainers will appear at the Palace this week end in "IN THE NAVY" a late top-flight picture that has been going over in a big way in larger cities. In the picture are Dick Powell and the Andrew Sisters. Those who attend Saturday night will also be able to see "Boardway Limited" as the Midnight Free-vue.

Sunday and Monday then, you can forget your troubles, if you

see the big double feature program of laughs — "Blondie In Society", with Penny Singleton and Arthur Lake, and "Broadway Limited" starring Victor McLaglen and Dennis O'Keefe. In the Blondie and Dagwood picture, Dagwood brings home a Great Dane which absolutely wrecks the neighborhood. Blondie finally curbs the dog menace when she enters him in a dog show—he wins first — and she has to sell him to the highest bidder.

Joe is in Dallas today trying to get the theatre bookings straightened out. If he gets the pictures he's planning on you'll see some mighty good shows here in the future. We won't have a show next Tuesday, Wednesday or Thursday. In the absence of "the boss" this is the ticket taker trying to do a little pinch hitting, news writing, show talking or something. Come out—You never can tell I might short change you. Would that be fun. — L. M.

LET US PUT

NEW-TREADS

ON YOUR SMOOTH TIRES

Just like Resoling a Shoe

You can get up to 80% of the original mileage built into your tire at very low cost with a Firestone New-Tread. Here's how we do it. We take your smooth tire and inspect it thoroughly for breaks, cuts and other hidden defects. If the cord body is sound and safe the old tread is buffed, cemented and a New-Tread made out of the famous Vitamic rubber compound is applied. The New-Tread is cured on as an integral part of the tire. It is just as simple as resoling a shoe.

Cut your tire costs and get safety by putting a Firestone New-Tread on your smooth, worn tires today.

HOME TOWN NEWS

By SYBIL STEVENSON

Nettie Faye Byrd was ill several days last week.

Mr. and Mrs. Roosevelt Sweat who have been in California for sometime visited Silverton friends Sunday.

Mr. and Mrs. Roy Horn of South Plains visited her father Mr. Charles McEwin Friday.

Mr. and Mrs. Ashel Cross and Dorothy spent Friday in Lubbock attending the Fair.

Mr. and Mrs. Roy Roberts and family of Happy were visitors of uncle Mr. and Mrs. H. E. Fowler.

Mrs. Mac McKinney and daughter left Wednesday of last week to join her husband in Amarillo where they plan to make their new home.

Mrs. C. D. Elkins and children of McAllester, Oklahoma are visiting her parents D. F. Wulfman this week.

Mr. and Mrs. Lewis Gilkeyson attended business in Amarillo Thursday.

Mr. and Mrs. Bob Amason of Amarillo were in Silverton Thursday night.

Miss Lorene Heckman who is attending school in Clarendon spent the week end with her parents Mr. and Mrs. Henry Heckman.

Virgil Chitty who is stationed in Fort Knox, Kentucky spent a few days with his parents Mr. and Mrs. L. N. Chitty.

John Ed Bain of Lubbock was home for the week end.

Mr and Mrs Bill Smith and Mr and Mrs. Mack Neese of Electra were Silverton visitors Sunday.

Mr. and Mrs. Ware Fogerson and Jimmie Stevenson spent Thursday in Clovis, New Mexico and brought back the furniture of Mr. and Mrs. Ware Fogerson.

Popeye Gilkeyson and Alfred Hunt were Tulla visitors Sunday.

Mrs. A. H. Finley of Shamrock is spending a few days with Mrs. Finley.

Rex Douglas, Guinn Williamson, Bernard Havran, and John Henry Crow, all of Lubbock spent the week end at home.

Mr. and Mrs. Lewis Gilkeyson and Mrs. Jimmie Stevenson were Turkey visitors Tuesday.

Mary Cowart, who is attending Texas Tech spent the week end here with her mother Mrs. Dick Cowart.

Lynn Perkins of Camp Bowie, at Brownwood spent the week end with friends and relatives here.

Dr. and Mrs. J. Ed Crawford of Tulla spent Sunday with their daughter Mr. and Mrs. John Bain.

Mr. and Mrs. H. C. Mercer and Mary Dee were Plainview visitors Monday.

Mrs. Pearl Simpson attended business in Quitaque Tuesday.

Mrs. Nash Blasengame was on the sick list Monday.

Mr. Charles Cowart returned home Friday from Amarillo where she has been with her sister Mrs. Gilbert Pinley.

Minyard Long left Saturday for Los Angeles, California where he has employment.

Miss Sadie Summers who is teaching in Amarillo and Mildred Summers who is working in Amarillo spent last week end with their parents, Mr. and Mrs. M. K. Summers.

Mr. Paul Neese of Electra visited friends and relatives here Sunday.

Mr. and Mrs. John Bain were attending business in Amarillo Monday.

Mrs. Charles McEwin is on the sick list this week.

Clarence Graham of Quitaque was transacting business here Tuesday.

Mr. and Mrs. A. T. Brooks and family spent Sunday with their daughter Mr. and Mrs. A. P. McCutchen near Hale Center.

Mrs. Tom Bomar and Mrs. D. O. Bomar were Plainview visitors Tuesday.

Mr. L. E. McKinney spent Tuesday night with his family in Plainview.

Mr. and Mrs. Nash Blasengame, Shorty Davis and Maxine Watters attended the Rodeo in Quitaque Sunday.

Mr. and Mrs. Montie Staniforth spent the week end with relatives in Wichita Falls.

Nona Waddill and Elmer Stinson were Lubbock visitors Monday.

Mr. I. F. Shaffer was attending business in Plainview Friday.

Mrs. H. E. Fowler and Nettie Fay Byrd were Quitaque visitors Tuesday.

Mr. Manuel Thurman of New Harp is visiting his sister and brother Mrs. Wheelock and Mr. P. D. Thurman.

Mr. and Mrs. Luther Campbell and Mr. and Mrs. Euing Vaughan spent Sunday with Mr. and Mrs. Bud McMinn.

Mr. J. R. Foust attended business in Amarillo Tuesday.

Mrs. Pearl Simpson and Durene Strickland attended a district meeting in Spur Friday.

Mr. Charlie Garrison and Mr. Gabe Garrison went to Reserve, New Mexico on business and Mrs. Mont Garrison returned with them for a visit.

Mr. and Mrs. Earl Long were in Amarillo Saturday.

Mr. and Mrs. J. M. Finley of Amarillo visited Mrs. H. G. Finley Monday night.

Hugh Nance and Jim Cline of Camp Bowie at Brownwood spent last week end with home folks.

Mrs. Burton Hughes has taken Mrs. Mac McKinney's place in the Bank Exchange.

Mr. and Mrs. Ray C. Bomar spent Monday with her parents Mr. and Mrs. J. W. McCallon in Lubbock.

Mr. and Mrs. C. M. Strickland spent Sunday with Mr. and Mrs. Ed Thomas.

PALACE PROGRAMS

Friday and Saturday, October 17 & 18

Don't miss seeing again, these stars who made "Buck Private".

These Spooky Games Fun At Your Halloween Party

MYSTERY! Thrills! That's what you want at your Halloween party.

So have your guests enter by a dimly lit hallway—where wicked witches ride broomsticks, where black cats prowl. (You cut these out of black paper, fasten to walls.)

You'll find many lively games in our 32-page booklet. Has games for all kinds of parties—ice-breakers, team games, brain ticklers, a kiff of jolly stunts. Send your order to:

READER-HOME SERVICE 635 Sixth Avenue New York City Enclose 10 cents in coin for your copy of PARTY GAMES FOR ALL OCCASIONS.

Worst Sorrows The worst sorrows in life are not in its losses and misfortunes, but its fears.—A. C. Benson.

Pull the Trigger on Lazy Bowels, with Ease for Stomach, too

When constipation brings on acid indigestion, stomach upset, bloating, dizzy spells, gas, coated tongue, sour taste and bad breath, your stomach is probably "crying the blues" because your bowels don't move. It calls for Laxative-Senna to pull the trigger on those lazy bowels, combined with Syrup Pepsin for perfect ease to your stomach in taking. For years, many Doctors have given pepsin preparations in their prescriptions to make medicine more agreeable to a touchy stomach. So be sure your laxative contains Syrup Pepsin. Insist on Dr. Caldwell's Laxative-Senna combined with Syrup Pepsin. See how wonderfully the Laxative-Senna wakes up lazy nerves and muscles in your intestines to bring welcome relief from constipation. And the good old Syrup Pepsin makes this laxative so comfortable and easy on your stomach. Even finicky children love the taste of this pleasant family laxative. Buy Dr. Caldwell's Laxative-Senna at your druggist today. Try one for ease to your stomach, too.

We Exaggerate There is always less money, less wisdom, and less honesty than people imagine.—Bacon.

YOU BUY INOCULATION ON FAITH

Field tests have shown a big difference in the quality of inoculator brands on the market. You cannot see the legume bacteria you purchase. Immediate demonstration is impossible. What is the reputation and experience behind the inoculation you buy?

NITRAGIN is the ORIGINAL LEGUME INOCULATOR, having served the farmers for over forty years. It won a GOLD MEDAL at the World's Fair, St. Louis, 1904. NITRAGIN is made in the most complete and modern laboratory of its kind in the world. NITRAGIN is the leader in its field by a big margin. NITRAGIN demand in the South has rapidly increased year after year. During the fall of 1940 the Southern shipments of NITRAGIN were for more than a million pounds of VETCH and WINTER PEAS. This large demand is due to many field tests carried on year after year. We prove by these tests that NITRAGIN is a good product. Send for our booklet "Plant Legumes to Prosper," showing pictures of field tests and how NITRAGIN is made. The booklet also gives you valuable information regarding the inoculation of legumes. If your dealer does not have NITRAGIN in stock, have him get it for you. Insist on NITRAGIN inoculation.

WATCH the Specials You can depend on the special sales the merchants of our town announce in the columns of this paper. They mean money saving to our readers. It always pays to patronize the merchants who advertise. They are not afraid of their merchandise or their prices.

Camp Cavalcade

SHADOWY figures in a cavalcade of American history—such are the men behind the names of the great army cantonments scattered all over the United States, where young Americans are learning to be soldiers in order to defend their country when the need arises.

Today thousands of soldiers from the state which sent U. S. Grant into the conflict of 1861-65 are training at a camp near Tullahoma, Tenn., which bears the name of another American military genius, Nathan Bedford Forrest (1821-1877) is remembered by most Americans as the man whose recipe for victory was "Git thar fustest with the mostest men" but more than one Union general remembered him as a "wizard of the saddle" who repeatedly outrode, outwitted or outfought them whether he had the "mostest men" or not. Despite the fact that he was uneducated and had no formal military training, his deeds won from a West Pointer and another great leader this tribute: "the most remarkable man the Civil war produced on either side."

The man who paid that tribute to Forrest was William Tecumseh Sherman (1870-1891) for whom Camp Sherman near Chillicothe, Ohio, is named. It was Ohio which sent "Cump" Sherman to West Point where he learned the art and science of making war. Years later he uttered the phrase by which he is best remembered by most Americans—"War is hell!" He knew that from experience—in Mexico in 1846-47, but more particularly from 1861-65 when he was Grant's right-hand man in dealing the death blows to the Confederacy.

One of Lee's commissioners of surrender at Appomattox was a fellow-Virginian and a militant churchman—William Nelson Pendleton (1809-1883). A graduate of West Point in the class of 1831, he resigned two years later to teach mathematics in colleges in Pennsylvania and Delaware. Then he joined the Protestant Episcopal church, was ordained a priest and was serving as rector of a church in Lexington, Va., at the outbreak of the War Between the States. Putting off his church robes to don the Confederate gray, he rose to the rank of brigadier-general and chief of artillery of the Army of Northern Virginia and at the end of the war returned to his pastoral duties in Lexington. A camp at Virginia Beach, Va., bears his name.

Virginia gave to the Confederacy its "Fighting Rector" of the Protestant Episcopal church—William Nelson Pendleton, Louisiana gave to the same cause its Protestant Episcopal bishop—Leonidas Polk (1806-1864). Born in Raleigh, N. C., Polk, who was a cousin of President James K. Polk, was graduated from West Point in 1827 and served as a second lieutenant of artillery for five months before resigning from the army to study theology. Eleven years later he became the missionary bishop of the Southwest and in 1841 he was consecrated bishop of Louisiana, a position he held for 20 years. At the outbreak of the War Between the States he was commissioned a major-general in the Confederate army. Promoted to lieutenant-general in 1862, he commanded the Department of Alabama, Mississippi and Eastern Louisiana from January to May, 1864. The next month he was killed by a cannon ball at the Battle of Pine Mountain, Ga. Because of his prominence in the religious, educational and military life of Louisiana, it was singularly appropriate that one of the largest camps, near Leesville, in that state should bear his name.

A Pioneer in Physiology
In 1822 William Beaumont, an army surgeon, began what was to be the most important contribution to the physiology of digestion in centuries. For eight years he made a study of Alexis St. Martin, a French Canadian, who had the misfortune to have a permanent opening in his stomach due to a gunshot wound. In 1833 Beaumont published his "Experiments and Observations on the Gastric Juice and the Physiology of Digestion," which was the foundation of modern dietetics.

Greater Service
The good man can achieve himself, develop in order that he may render service to humanity. Field.

At Last
Your Cough
Relieves promptly because it goes to the seat of the trouble, loosens and expels the phlegm, and aids nature in its own work. It is a mucous membrane, and it is your duty to keep it healthy. It is the only cough or you are sure to get back.

Miserable
backache?

NEW DESIGNS FOR YOUR COOKIE JAR
(See Recipes Below.)

COOKIE SURPRISES

All crisp, crunchy, and some slightly nutty, all of today's recipes are so fashioned as to send you on a real cookie-baking spree. Fill that lovely cookie jar of yours until the sides are fairly bulging with goodies so you can have cookies a-plenty to put in the children's lunch boxes, to serve as afternoon snacks, and as a pick-up for mealtime.

If you're doing some baking for a bazaar, there's nothing quite like plates of yummy cookies to put over the sales. Remember, you can sell a lot more, if you give out some samples. These can be set on plates with white paper doilies, for sampling, and those to be sold put in boxes already fixed. Cookies can be sold by the dozen if they're fancy and somewhat elaborate, by the pound if they're small drop cookies or squares.

Here's an interesting variation of the filled cookie, both dainty and delectable:

Corn Flake Filled Cookies.
(Makes 36 medium-sized cookies)
1 cup shortening
1 cup brown sugar
3/4 cups flour
2 teaspoons baking powder
1/2 teaspoon salt
1/2 cup water
1/2 teaspoon vanilla
2 cups cornflakes

Blend shortening and sugar thoroughly. Sift flour, baking powder and salt together and add alternately with water and flavoring to first mixture. Stir in coarsely rolled corn flakes. Chill. Roll dough to 1/4 inch thickness. Cut with cookie cutter. Spread one round with filling, put on a second round and press edges together with a fork. Bake on a greased baking sheet in a hot (425 degrees) oven about 12 minutes.

Filling.
1 1/2 cups chopped dates
1/2 cup sugar
2 tablespoons water
2 tablespoons orange juice
1 tablespoon orange rind

Combine all ingredients together and cook until soft paste is formed. Cool before filling cookies.

These little butter balls make good nibbling and smart additions to your tea table. Made with butter, their flavor will be something you'll long cherish and remember.

"Butter Balls."
(Makes 7 dozen small cookies)
1/2 cup butter
1 cup brown sugar
1 egg
2 cups sifted flour
1/2 teaspoon salt
1/2 teaspoon vanilla
1/2 cup granulated sugar
1/2 cup finely chopped nuts

Cream brown sugar and shortening. Add beaten eggs and vanilla. Add flour and baking powder. Roll into balls the size of marbles. Mix the granulated sugar and nuts and roll the balls in the mixture. Place on a greased baking sheet and bake in a hot (400 degrees) oven 10 minutes. These cookies will flatten slightly.

LYNN SAYS:

An assortment of cookies, freshly baked and packed in tins with waxed paper between layers makes a delightful present for youngsters away at school and for friends you seldom see. When your own cookie jar has been filled to bulging, pack a few boxes from what you have and spread cheer to others, too.

Careful packing in tins with waxed paper will keep even small dainty cookies fresh for a long time. Some flavors like chocolate improve after they stand for some time. Chewy, nutty cookies are the more chewy and delicious after several days. Spicy cookies become moist and well flavored after standing.

THIS WEEK'S MENU

- *Meat-Macaroni Casserole
- Jellied Cole Slaw Salad
- Watermelon Pickles
- Hot Rolls
- Spiced Peas
- Baked Apple
- *Butter Balls
- Beverage
- *Recipe Given

Your cookie jar problem can be solved very neatly with toothsome oatmeal cookies with flecks of chocolate in them:

Oatmeal Cookies.
(Makes 4 dozen)
1/2 cup butter or shortening
1 cup brown sugar
Grated rind of 1 orange
1 egg, unbeaten
1 teaspoon vanilla
1/2 teaspoon salt
1/2 cup sifted flour
1 1/2 cups fine rolled oats
7 ounces chocolate pieces

Cream butter and sugar. Add orange rind, egg, vanilla and beat well. Add salt and flour which has been mixed with the oats. Add chocolate pieces and work into batter. Drop by spoonfuls on greased cookie sheet. Bake 15 to 20 minutes in a moderate (375 degrees) oven.

Recommendations are in for the old favorites of which you never tire. If you want to make a pretty and at the same time, a very successful platter, you might try alternate rows of both these Ginger Cookies and

Brownies:

Soft Ginger Cookies.
(Makes 5 dozen)
1 cup shortening
1 cup sugar
1 egg
1/2 cup molasses
1/2 cup evaporated milk
3 cups flour
2 teaspoons soda
1 teaspoon salt
1 teaspoon each, ginger, cinnamon

Cream sugar and shortening, add egg and molasses. Beat well, add milk and blend well. Mix dry ingredients and add to batter. Last add soda, dissolved in 2 tablespoons warm water. Drop by spoonfuls on greased baking sheet. Bake 15 minutes in a hot (375 degrees) oven.

Brownies:

(Makes 2 dozen)
1/2 cup butter or shortening
1 cup sugar
2 eggs, well beaten
2 squares unsweetened chocolate, melted
1/2 cup flour
1/2 teaspoon baking powder
1/2 cup chopped nuts
1 teaspoon vanilla

Beat eggs and sugar together. Add to this melted butter and chocolate and blend. Add flour, baking powder, nuts, and beat well. Pour into a greased pan and bake 30 minutes in a 350-degree oven. Cool and cut in squares.

For a delicious variation of the brownie recipe, you'll like the addition of 1/4 cups of bran cereal in place of the chopped nuts. They'll give you a slightly different flavored cookie, but guaranteed to please you, just as well.

Improved Uniform SUNDAY SCHOOL LESSON

By HAROLD L. LUNDQUIST, D. D., Dean of The Moody Bible Institute of Chicago.
(Released by Western Newspaper Union.)

Lesson for October 19

Lesson subjects and Scripture texts selected and copyrighted by International Council of Religious Education; used by permission.

THE HOLY SPIRIT OUR HELPER

LESSON TEXT—John 3:5-8; Acts 1:8; Romans 8:26-28; Galatians 5:22-25.
GOLDEN TEXT—As many as are led by the Spirit of God, they are the sons of God.—Romans 8:14.

Nothing could be more practical or blessed for and in the life and service of the believer than an understanding of the person and work of the Holy Spirit; yet it is a subject concerning which most Christians are woefully ignorant.

Before taking up the work of the Spirit as it appears in our lesson, we should understand that the Holy Spirit is a person, not an influence which may exert itself upon a service, or a power which a man may obtain and use. He—the Spirit—is one of the Trinity, with the attributes of a person, doing the work of a person and always referred to as a person in Scripture. (When "it" is used of the Holy Spirit in the A.V. it will be found to be corrected to "him" in the R.V.)

I. Born of the Spirit (John 3:5-8).

The new birth is indispensable to entrance into the kingdom of God. We either enter that way or we do not enter at all. Let's be clear about that. "Ye must be born again," is not the edict of a church or the plea of a preacher; it is the plain statement of our Lord Himself (v. 5).

The Holy Spirit is indispensable to regeneration. We must be born of the Spirit. How it takes place we can no more explain than the coming or going of the wind, but just as the power of the wind is known to us by clear evidence, so the regenerating power of the Spirit, mysterious though it be in operation, is known to us by the evidences of redeeming grace in a man's life.

II. Empowered by the Spirit (Acts 1:8).

Spiritual birth calls for service for Christ. For that we must have the power of the Holy Spirit. A man may do many ordinary things in the strength of his own body and mind (although even these ought always to be under the Spirit's control), but when he comes to witnessing for Christ, teaching or preaching God's Word, he must have Holy Spirit power or he is utterly ineffective.

III. Directed by the Spirit (Rom. 8:26-28).

The guidance of the Holy Spirit, especially in the matter of prayer, is stressed in these verses, but they are a part of a longer passage dealing with the indwelling, enabling, and guiding power of the Holy Spirit (read vv. 9-14). Every detail of life in the home, at business, or in social relations should be in conscious submission to His leading.

It is in the realm of the spiritual, however, that we find ourselves peculiarly infirm (v. 26), and this shows itself especially in prayer—"we know not how to pray as we ought." Then the Spirit in the Christian makes intercession. How blessed! "The practical meaning of these profound words seems to be that the divine Spirit, by His immediate influence in the saint's soul, which becomes as it were the organ of his own address to the Father, secures the rightness of the essence of the saint's prayer. To our understandings such intercessions with groanings which cannot be uttered, take the form of desires of ours, inspired and secured by Him. In any special case of prayer, the saint may or may not use words; but anyway the root-desires that underlie the prayer, being the Holy Spirit's promptings, are unutterable to the full. In the heart the Father sees below the surface of our ignorance the sacred longings which are the expression of the Spirit's influence" (H. C. G. Moule).

IV. Walking in the Spirit (Gal. 5:22-26).

Being born again of the Spirit, living daily by the Spirit, it is right that (as v. 25 puts it) "if we live by the Spirit, let us also walk by the Spirit." The works of the flesh, horrible in their wickedness and lust, are listed in the verses preceding (vv. 19-21), and then by striking contrast we have the fruit of the Spirit in the life of the Christian. Note the distinction: Work is something we produce; fruit is something that grows.

Walking in the Spirit the Christian finds in his life the inward graces of love, joy, and peace. These then express themselves outwardly in long suffering, kindness, goodness, faithfulness, meekness, and self-control. The Spirit-filled man is not only a good man; he lives a good life.

PATTERNS SEWING CIRCLE

Pattern No. 8999 is in sizes 12 to 20. Size 14 dress, open neckline, 4 1/2 yards 39-inch material. For a collar (separately sketched) allow 1/2 yard contrast fabric. For this attractive pattern, send your order to:

AMERICAN HOTEL ASSOCIATION

STUDY CLUB ACTIVITIES IN NUTRITION CAMPAIGN
By Mrs. W. Coffee, Jr.

November last the club women of Texas voted to actively aid The National Defense Program. The American Home being the base of our culture, and the hope of our future, we have everything to do with defense.

The challenge to the American housekeeper is to administer good food to their families. Thereby building stronger bodies and healthier minds.

Let our motto be "Nutrition for peace or defense".

In cooperation with the program set up by the Texas Federation Women's Clubs, the 1925 Study Club sponsored many programs on health and nutrition during the year. Mrs. O. T. Bundy, Club president appointed Mrs. W. Coffee, Jr. Nutrition Chairman to confer with other organizations in the county, in regard to conducting a campaign.

The co-operation of the County Agent, The Farm Security Supervisor, The Briscoe County News, The Land Use Planning Committee and the Home Economics teachers were secured, and a most successful educational campaign was conducted.

The club sponsored a "Health Program" having as speaker the FSA Supervisor, Mrs. Jessie Mae Watson, who is an expert in the field of Nutrition.

Another feature of the campaign was an interesting exhibit in a down town building. At this exhibit educational posters were shown, classification of foods, showing the right and wrong combinations, and as Briscoe County merchants are enthusiastic about the Food Stamp Plan, someone was on hand to explain the leaflet "Eating The Surplus Through The Food Stamp Plan" also the "Food Standard" leaflet explaining the important ways of using it as a guide to daily eating.

The County Agent Lem Weaver

was in charge of the meetings in the common School Districts, with the home economics teachers lecturing on nutrition.

In August the 1925 Study Club and the March of Time Club, the FSA Supervisor and County Agent sponsored a food school. Mrs. J. W. Walker, president of the TFWC was present and gave an inspiring talk which was greatly enjoyed. Mrs. Walker was accompanied to Silverton by Mrs. Pete Smith of Plainview.

At the Food School demonstrations of properly cooked foods was given by Mrs. Watson, the FSA Supervisor. Mr. Harmon the Agriculture teacher in Silverton and the FFA boys had a very attractive exhibit. Most every product of Briscoe County was displayed in their V for Victory booth.

Through the wholehearted cooperation of the teachers and merchants, perhaps one of the greatest achievements of the campaign was the distribution of the "Food Standard" leaflets.

Mr. King, the Senior sponsor. A very good time was reported by all.

HEARD IN THE HALLS
By Jo Webb & Assistants

The typical picture of S.H.S. students: books in their hands, nothing in their heads, and romance in their hearts. But after all, why not; because isn't it love that makes the world go around??? If it is the world will keep on turning forever and ever.

So here it is.

Esdell Hutsell, that lady's man, has begun to murmur sweet nothings to Lou Williamson.

Louie Bonds has almost every girl in school just nuts over him. (Personally, I'll take what about you Miss Garner?) He could form a fan club and have a good attendance.

Jonnie Allard and Wayland Harrison can always find something to giggle about in any class they have together.

Bobbie Dean Nance and Bobby Olive have that far-away look in their eyes. I guess they are dreaming of each other.

A certain couple's idea of romance is to stop at the roadside park. Is it the monument or the trees? (Big Trees)

A group of Juniors and Seniors think that Tullia is a better place than Silverton, could it be the skating rink or the people.

Raymond Lee thinks three a. m. is early.

Question of the week: Does Clyde Mercer really sleep with wave clamps.

That cold shoulder of Jo Webb is kept on ice for Carl Dean Bomar and another boy in town. What could it be Jo.

Is it the fact that the oil well is nearly as popular a place as the Roadside Park . . . (Might ask

Louie Bonds). There were a lot of love-sick people after the Senior party Friday night.

The love bug has bit Pat Bomar. (Be careful, Patsy).

Second Question of the week: Where did Vurlyn Hodges and Alene Francis see Willie Amel and Raymond Lee Sunday.

TEXAS FOOD GOALS WILL BE MET

The largest percentage increase among the food production goals announced for Texas by the State USDA Defense Board under the 1942 "Food-For-Freedom" campaign, is 18 per cent in cattle and calves for marketing and farm slaughter. Other goals include a 17 percent increase in hogs; 10 percent in eggs; 6 percent in sheep and lambs, and 3 percent in milk.

The suggested increase in beef is sought for processing rather than enlargement of herds, and would represent 269,093,000 lbs. more than was placed on the market in 1941.

George W. Barnes, animal husbandman of the A. and M. College Extension Service, says there should be no difficulty in reaching the goal if current or better prices for livestock prevail. Ranchmen would cull their cows closer and sell off irregular breeders, and barren and over-age animals. There are very few herds of any size in Texas, he added, which do not have a selection of these types of animals, and on account of excellent pasturage and surplus feed older cows really could be put into conditions to go to market at 900 to 1150 pounds live weight and sold at a profit.

Since the increase requested is a matter of pounds rather than units, the good pastures, trench silos and other home-grown feed reserves have made another contribution to the program. Calves are heavier this fall than for several years and the percentage of herd calf crops is larger. Furthermore, cattlemen will give closer attention to management and breeding.

"There will be no trouble whatever in reaching the goal in eggs, provided prices remain at the present level," says George P. McCarthy, Extension Service poultryman. Producers are being encouraged to buy protein concentrate to mix with home-produced grains in order to obtain a better balanced feeding program. A high percentage of farmers have not been using protein other than skim milk, but with prevailing prices for eggs producers are justified in making the additional expenditure to place this supplement in the ration, he believes.

With pullets coming into production, McCarthy estimates that the 42 production of eggs in Texas will exceed that of 1941 by more than 12 percent. Some of the major poultry-growing counties will increase their output of eggs beyond the 10 percent goal, but no county, he added, would fall below it.

HOMEMAKING NEWS

The two sections of First Year Homemaking girls have been studying of a good citizen and the various rules of social etiquette. As a result of this study, the girls decided to plan a party to be carried out in each section. The class members elected a hostess and her family from each class, an invitation committee, refreshment committee, and game committee.

The invitations were written on autumn leaves cut from construction paper and were presented to each member.

Hostess Maggie Mae Jones and her mother, Doris Holt, greeted the guests at the door and introduced them to their visiting relatives, Margaret Spenser and Nola Gay Witcher. After all guests had arrived, the hostess asked the chairman of the game committee, Erma B. Folley and her assistants, Gerene Bingham and Nina Zell Cantwell, to take charge of the games. Games of "Book Walk," "Talk Fast," and "Adjective Letter" were played.

The refreshment committee served punch and cookies to the members of the class. The girls went to the laboratory and helped wash dishes before going to the next class.

The first and second year girls organized their club, the Junior Homemakers of Silverton. Each class has organized so that more girls may have an opportunity to be officers during the year.

Officers of section one of the first year girls are: President, Othel Welch; Vice-president, Anna Jo Brooks; secretary and treasurer, Doris McClendon; reporter, Ruby Jo Neatherlin; parliamentarian, Wilford Mae Brooks; song leader, Naomi Chitty; historian, Jewel Davis; program chairman, Marilyn Johnigan; refreshment chairman, Norma Jean Vaughan.

Officers for the second section of first year girls are: president, Doris Holt; vice-president, Erma B. Folley; secretary and treasurer, Roma Lee Clemmer; reporter, Nina Zell Cantwell, parliamentarian, Oneta Henderson; song leader June Wimberly; historian, Gerene Bingham; program chairman, Maggie Mae Davis; refreshment chairman, Twilla Fay Sanders.

The officers for the second year girls are serving as officers of the entire club and are working on the year book for future meetings of the Junior Homemakers of Silverton.

SENIOR PARTY

The Seniors had a class party last Friday night October 10, at the home of Pat Bomar. Although there had been quite a bit of rain earlier in the week, the party went over in a big way.

Indoor games were played and lovely refreshments were served to the following: Carl (Dude Boy) Bomar, Raymond Lee Womack, La Verne Young, Evelyn Coffee, Billy Rampley, Louie Bonds, Lola Howard, Charline Garrison, Wyona Lee, Harley Chappell, Bobby Olive, Bobbie Dean Nance, Mildred Boswell, J. W. Brannon, Freda Wimberly, Joe Montague, Joe Bean, Velma Lois Young, and
